ARMS MAKING TOO COSTLY

Prussia and Bavaria Will Turn It Over to Private Firms.

Berlin, Nov. 11.—The Prussian and Bavarian war offices are discussing the project of turning over the entire manufacture of arms and explosives to private firms, owing to the fact that the production of these by the Government is entailing too great an expense. According to reports from those usually well-informed, the Krupp Company ally well-informed, the Krupp Company is about to open an immense branch arsenal at Ingotstadt in Upper Bavaria.

WON'T TALK TARIFF.

Chicago, Nov. 10. - Paper and pulp manufacturers, in convention here today, will ignore any question regarding legislation or tariff revision, according to President Arthur C. Hastings, of New York, the head of the American Paper and Pulp Association, which comprises about one-half of the

paper and pulp makers of the country. "The tariff revision is settled," said President Hastings. "We naturally do not consider the tariff successfully or

properly revised." The speaker took the position that the agitation by the American Publishers' Association and others defeated its own aim, and that paper would never again be as cheap as under the Dingley tariff. Canada has wakened up to the possibilities of the situation, he said, and the prices of raw material have advanced.

FROHMAN DECREE GRANTED. Reno. Nav., Nov. 10. - Margaret Illington Frohman, wife of Daniel Frohman, New York theatrical manager, obtained an absolute decree of divorce from District Judge Pike to-day. We are certainly selling Cottons and Sheetings in quantities, and little wonder, when values are considered. We don't want our customers to pay higher prices, but if a break in the market don't come soon, the way our stocks are going we will be beat out. But at present we have got the Cottons-Sheetings, too-and lots of them at old prices, and will protect our trade as long as possible, and, we hope, until the break comes. But don't wait; it is all in your favor to buy now, as there is no indication at present of lower prices, and raw cotton shows an advance of 45% today over what it was when our present stocks were contracted for. Is Buying Stores Throughout the Country Under Name of the Lauer Drug Company.

New York, N. Y., Nov. 11. - The West the country by the tobacco trust or some of its subsidiaries seems to have a sufficient foundation in truth

At the second session of the annual convention of the American Druggists' Syndicate, held today in Long Island City, the subject of to what extent the syndicate, which is a co-operative organization, with 11,000 retail druggists behind it, will be affected by the Lauer Drug Company, a concern which within the past six weeks has made a silent debut, which is generally admitted to be through the United Cigar Stores Company.

The matter was not expected to have been brought up at the meeting, and 3,-000 delegates were startled when it was popped at them. It was stated that the Lauer Drug Company is acquiring retail drug stores everywhere within the boundaries of the United States, and that this plan will be furthered until enough stores have been procured to justify activity on the part of the United Chemists' Company, a \$20,000 concern, which has frequently loomed up as a bogey to the retail trade in this Griggs—Great Autobiographies. "It so happened," said Duffus to representative, "that I had a box of Zani-Buk in my pocket, which I used for a hip, and when I had recovered from the first shock of the accident, produced the balm and had it applied freely to the scalded parts. At the time I applied it I was suffering acute agony, but within a wonderfully short time Zam-Buk gave me ease. I was able to continue my journey, and upon reaching home I obtained more Zam-Buk and continued the treatment. It acted wonderfully well, and in a few days had the wound nicely healing. I don't know anything so fine as a healer of burns, scalds, cuts and similar injuries which workers are so liable to; and in my opinion a box of Zam-Buk should be kept

Time and again workers in all branches of trade have proved its vast superiority over the advertiser ointments and salves of the day. WOMAN'S VOTE CHAMPION SWAYED CONVENTION

Labor Federation by Storm.

Toronto, Nov. 10.-There is every Federation of Labor closes its twentyninth convention it will have formally entered upon a fight with the United States Steel Corporation.

For a long time past the policy of the steel trust in its mills and on its transportation lines have been to employ non-union men. The federation realizes that if this policy is allowed to go unchallenged the time will come when every workman in the trust's employ will have to choose between losing his job or surrendering his union card.

Accordingly President P. J. Mc-Arcie, of the Amalgamated Association and Tin Workers of America, today handed in a resolution to the convention, asking "that it recognize the United States Steel Corporation as the most formidable and aggressive enemy that the movement has to contend with; that we believe the thorough organization of all the thorough organization of all branches of its business is the most important and necessary work could engage the attention, time and efforts of the American Federation of Labor and its affiliated national and international organizations, and that we recommend a meeting be held during the present convention of executive officers of all organizations concerned, together with the president and secretary of the American Feder-Toronto, Nov. 10 .- The retirement of ation of Labor, to consider the outline ing the strikes of the affiliated organizations now pending more effective to the end that they may be brought to a successful conclusion."

THE STEINHEIL CASE

Case Against Alleged Murderess Appears To Be Collapsing.

Paris, Nov. 10 .- The testimony today in the trial of Mme. Steinheil, charged with the murder of her husband and her step-mother, was distinctly favorable to the defendant. Marietta Wolf, the cook in the Steinheil household, and her son, Alexandre, whose appearance was awaited with profound interest, threw no new light on the mystery, but by a further mass of contradictions strengthened the impression in the accused's favor. Mme Steinheil's nurse also retracted her vious deposition, in which she expressed the opinion that the defendant's illness was simulated, and Maurice Borderel, a wealthy merchant, whom the state assumes she desired to marry, testified to his absolute beef in her innocence.

The state's circumstantial case against Mme. Steinheil seems to be apidly breaking down, and it is already rumored that the trial may be abandoned and a new investigation rdered. Anti-Dreyfus papers like the Libre Parole and the Patrieu, have again begun to revamp their previous nsinuations that the crime involved a political plot for the destruction of vidence regarding the death of ex-President Felix Faure, which the anti-Dreyfusards have never ceased to claim was due to foul play, because as they alleged, M. Faure opposed the revision of the Dreyfus case.

A lady from Minnesota writes:
"As a result of using Danderine, my hair is close to five feet in length."

Beautiful Hair at Small Cost HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

The O. R. F. U. executive handed down its decision in the London-Petrolea matter yesterday at Toronto, and has order- Son Dies From Pneumonia and His ed last Saturday's game, which was protested by the oil towners, to be played over at Strathroy on Saturday afternoon.
The meeting of all players on the London team, together with every person interested in Rugby in London, has been called for this evening at Tcumsen Park at 7:30, and it is understood that a special train will be run to Strathroy on Saturday.

May Drop Out of Union.

It was rumored this morning that the London men would refuse to play again, and that the team would drop out of the O. R. F. U. for all time. The men argue that they have been given the bad end of every decision this year, and that they have treated Petrolea far better than they deserved. they have treated Petrolea far better than they deserved.

Murphy and Hermann Lose Henchman in Fight With Head.

New York, Nov. 10.—President Ebbetts, of the Brooklyn club, now says he is not opposed to the re-election of President John A. Heydler. As President Brush. of the New York club, also favors Heydler, the opposition has dwindled to Herrmann, of Cincinnati, and Murphy, of Chicago. When the magnates of the National League meet here next month to decide this widely-discussed question, it will not be surprising if Murphy and

terested in racing were apparently well satisfied today with the decision of the court of appeals, which makes oral wagers and the displaying of odds legal. It was generally agreed that the verdict would clear the atmosphere next season, in that various county officials and the In that various county officials and the police also admitted that bettors would have no greater privileges than those enhave no greater privileges than those en-loyed this year under difficulties. ANALYSIS OF STRONG'S **BAKING POWDER**

By J. T. SNELL, Professor of Chemistry, Macdonald College, W. T. STRONG, 184 Dundas street.

London, Ont.: Dear Sir,-I have recently had occasion to test a sample of your baking powder for alum and acid your product entirely free from these substances. I have not determined the efficiency of your powder, but note that Bulletin 174 of the Laboratory of the Inland Revenue Department, not only classes yours among the pure cream of tartar powders, but gives such results on the amount of gas produced per pound of powder as would place your brand among the most efficient powders of its class.

There was a fair attendance at the market this morning. The supply was good and the demand brisk.

Potatoes were the feature and hundreds of bags were offered, the prices remaining about the same. They sold in wagon loads at 60c a bag, and 65c for ten-bag lots.

Oats went up a notch and sold readily at \$1.25 to \$1.35 per cwt. There were but a dozen loads offered. No other grain was marketed.

Drassed being advance of 5 points, in response to a gain in the French market, which closed one-half to three-quarters franc net-higher. There was support here credited to local buil interests, and houses with European connections became sellers in the late trading, and in spite of the continued firmness of the French markets prices eased off. The close was barely steady, net unchanged to 10 points lower. Sales were reported of 49,750 bags, including November and December at 36 45: January, \$6.50; March, \$6.60 to \$6.65; May, \$6.70; July, \$6.50 to \$6.65; May

Committee.

The action of No. 3 committee in recommending that the council secure prices of land in the vicinity of the East End Hall at the corner of Dundas and Rectory streets, for an East End market, is meeting with much favor among residents and businessmen of

It is felt that it is a hardship on East Enders to compelathem to attend the city market, as it is frequently impossible to have goods delivered so far oway. The farmers are evidently in such

a position that they can sell goods in any convenient locality, and unless they are given an exorbitant price they will not go to East London. There is a move on foot to have the large vacont lot on Dundas street on the west side of the East End Hall secured for the purpose, as it would be ideally located. It would be practically in the cen-
