

**FARMER INJURED
IN TROLLEY SMASH**

W. A. Armour, of Pottersburg,
Hurt Internally On Richmond
Street Today.

STREET CAR HIT WAGON

Stevley's Delivery Rig Was Also
Smashed at the Same Time—
Three Horses Were Badly Cut.

W. R. Armour, an elderly farmer living a mile from Pottersburg, was very seriously injured this afternoon when his wagon was struck on Richmond street near King by Wellington car No. 68, in charge of Motorman D. A. McLean.

The accident happened just in front of Ex-Mayor Stevley's store. The latter's delivery wagon was standing in front of Mr. Armour's when the heavy car struck it, and the car struck the horse, which is a heavy one, such as is commonly used on a farm.

The car picked the wagon up and hurled it against Stevley's wagon with great force.

Thrown From Seat.

Mr. Armour was thrown from his seat and struck on his side on the curb. His team and the horse attached to Stevley's wagon were badly cut.

They were held by passersby so that they could not run away, and Mr. Armour, who was in an unconscious condition, was carried into Stevley's store.

Internal Injuries.

Dr. Cline was called, and found that Mr. Armour sustained internal injuries and was very badly shaken up. His side is terribly bruised and his ribs are very sore. It is not thought that any are broken.

Mr. Armour later recovered consciousness and was taken home. The Stevley wagon was badly wrecked, and the heavy farm wagon was also put out of service.

**SUITCASE AND UMBRELLA
FOR GROCERS' PITCHER****Presentation Made to Mr. Wm.
Hamilton, Who Is Leaving
the City.**

At the conclusion of the baseball game in the Businessmen's League, between the grocers and shoe clerks, at Springfield yesterday afternoon, Mr. William Hamilton, pitcher for the grocers, was presented with a suitcase and umbrella by the Retail Merchants' Association. Mr. Hamilton is employed at Mullin's grocery store. He is leaving shortly for Detroit. He has been a most valuable member of the association and the baseball league. He has not lost a game this year, incidentally winning his game yesterday. The address was read by Mr. E. J. Ryan, an ex-president of the association, and the presentation made by Mr. Thomas Shaw, of the association.

**NEW FIRM WILL BEGIN
WORK HERE NEXT WEEK****Will Manufacture Veneers, Boxes,
Baskets, Etc.—Located On
Rectory Street.**

Publicity Agent Carruthers announced this afternoon that J. L. Leitch will next week start the manufacture of veneer wood, boxes and baskets in this city.

The firm will be temporarily located at the old chemical works on Rectory street, arrangements having been made with the Grand Trunk.

Twenty-five men will be employed to start, and the chemical works will be used until another site is secured.

Mr. Leitch has a timber limit, but states that if he can secure timber in this district he will locate a mill for the manufacture of veneer wood here in connection with his factory. He has already moved to the city with his family, and has brought several expert workmen.

**AUTO PARTIES ARE
POURING INTO CITY****Visitors From Canada and the U. S.
Motor Here.**

Auto tourists are pouring into the city.

Last night the Tecumseh took care of nearly forty tourists.

There were autos from Toronto, Hamilton, Erie Pa.; Bag Axe, Mich.; Elgin, Ill.; Milwaukee, Wis.; Detroit, Mich., and other places.

"There are more auto parties than any year I can remember," said Geo. H. O'Neill. "We have many parties every night."

**GREATER WEIGHTS
THROUGH THE MAILS****Manufacturers' Association Desire To
Have System Extended.**

Toronto, July 14.—The transportation department of the Canadian Manufacturers' Association have taken up the matter of more advanced parcel post facilities with the postal department at Ottawa. The object is to obtain an extension of the present system so that greater weight can be transmitted through the mail.

There has been much opposition to this on the part of smaller merchants and merchants in small towns, who fear ruination of their business by means of the mail order system. The matter, for the present, has been entrusted to Dr. Coulter, deputy postmaster-general, and will be taken up with Hon. Mr. Lemieux, chief of the department, in a short time.

STRATHCONA GIVES \$10,000.

London, July 14.—Lord Strathcona gave \$10,000 towards a chair of agriculture in Aberdeen University.

**MANY PUPILS FAIL
IN CHEMISTRY TEST**

A Blue Story for Matriculants
Comes to London From
Toronto.

A report from Toronto states that from present indications fully 50 per cent of those who wrote on the recent matriculation and teachers' examinations will fail in chemistry. The chemistry paper, it is said, proved a stumbling block to everybody, and no one made very high marks on it, while fully half failed to obtain the 40 per cent required to pass. The physics paper was also a hard one, and the examiners say that about one-third of the candidates were plucked. Many failed in Latin authors. Between these three subjects, it is estimated, the percentage of failures this year will be one of the largest ever.

**A FRESH YOUNG MAN
WAS SENT TO JAIL.**

George Abel Misconducted Him-
self at Playgrounds and
Is Punished.

George Abel, of 555 William street, a young man 23 years old, received a sharp lesson from Magistrate Love at the police court this morning, when he was sent to jail for three weeks for disorderly conduct in the children's playgrounds.

Superintendent McGuire stated that one day last week Abel came over to the grounds so drunk that he had to be supported by a colored man. He was ordered out and said he only wanted a drink. He got the drink and then grossly misconducted himself in the presence of a number of women and children and threatened to attack Mr. McGuire. Abel admitted his guilt.

"You ought to be thoroughly ashamed of yourself," the court told Abel. "What would you think of any man who behaved before your mother or brothers and sisters as you did. I will fine you \$10 and \$2 costs or 21 days."

Abel did not have the money and took the days.

**DEFENSE OBJECTS
TO THE ACCOUNT****Assault Case Was Once Again
Laid Over.**

At this morning's session of the police court the case of John Duncan, who was found guilty last week of assaulting Hyman Hochmann, a Simcoe street blacksmith, was still further enlarged, as there is a dispute now over the amount of damages that shall be paid. Hochmann claims \$35 for lost time, \$2 for hospital expenses, and \$15 for doctors' bills. Mr. Judd, who represents Mr. Duncan, contended that the doctor's bill was most excessive, as Dr. Reason only saw Hochmann four times. He objected also to the \$35 for lost time. Magistrate Love decided to leave the matter to Crown Attorney McKillop to act as arbitrator.

**GOVT. SUSPENDS
UNCIVIL OFFICIAL****Immigration Inspector Dufour
Dropped From Pay Roll
for a Month.**

[Special to The Advertiser.]

Ottawa, July 14.—Inspector Dufour of the immigration department, against whom a charge of incivility was recently laid by W. J. Taylor, of Woodstock, in connection with the inspector's questioning of passengers on the Windsor train, has been suspended for a month and at the end of that period will be placed at work where he will not come in such close touch with the travelling public.

WATER NOT FINE.

The temperature is very high again in the Western Provinces, but there are indications that the heat will not be prolonged, and that showers will occur.

Heavy rain fell yesterday in New Brunswick, but the weather is now fine and warm from Ontario to the Maritime Provinces.

WEDNESDAY'S WEATHER.

Intense heat prevailed throughout the Western Provinces yesterday, the temperatures being 80 to 90 degrees in some localities. Showers occurred in Quebec and New Brunswick, but elsewhere in Canada the weather was fine.

Minimum and maximum temperatures: London, 82-79; Victoria, 82-68; Vancouver, 82-72; Kamloops, 84-68; Edmonton, 84-68; Battleford, 84-68; Prince Albert, 84-68; Medicine Hat, 82-68; Qu'Appelle, 84-68; Winnipeg, 80-52; Port Arthur, 78-52; Fanny Sound, 78-52; Ottawa, 76-54; Montreal, 83-59; Quebec, 78-56; St. John, 78-52; Halifax, 78-52.

TODAY'S PROBS.

The East-Western winds; fine and warm.

Lake Superior—Fine and warm.

Manitoba, Saskatchewan and Alberta—few local thunderstorms, but generally fine, and very high temperature.

**McLACHLAN SAID
SENTENCE WAS JUST**

Uxbridge Wife Murderer Left
Signed Confession With
His Ministers.

Toronto, July 14.—The Toronto Globe this morning has the following: After the execution, Rev. W. B. Tighe called the reporters about him and made his statement. He censured those of the papers which had published sensational reports about McLachlan, and said that, at McLachlan's request, he would hand to the representative of The Globe the only statement the condemned man had made, as The Globe was the only paper that treated him fairly. He then placed in The Globe's hands the following:

"Archibald McLachlan has taken Dr. Abraham and myself into his confidence, and admits the justice of the sentence. He has been truly and sincerely penitent, and assured of divine forgiveness, dies at peace with God and men. He leaves a message for young men: 'Be company you keep, and above all things keep away from all forms of strong drink, which has been my undoing.' At his own request I make this statement for the Toronto Globe exclusively."

"(Signed) W. B. TIGHE."

**HOW TO CARE FOR
BABIES IN HOT WEATHER****Hygienic Nine Have Sent to
Ottawa for Leaflets On the
Subjects.**

The president of the "Hygienic Nine" for the prevention of tuberculosis, told The Advertiser yesterday that she had sent to Ottawa for copies of the leaflet, "How to take care of babies during hot weather," which was gotten out by the mayor of that city for circulation, and had received several copies in reply. These or similar leaflets will be distributed in the city of London by the "Hygienic Nine." It is to be regretted that babies are dying of cholera infantum, and if a pure milk supply or house-to-house visitation can assist in any way, this service is at the disposal of mothers and physicians. There is a strange ignorance on the part of many until death steps in, and then it is too late. The fund to supply pure milk is not yet exhausted, and the distributing station, the home of the president, is still at the disposal of any who apply to 516 Waterloo street.

**AUTO MAN FINED
FOR SPEEDING AUTO****Magistrate Love Heard Case in
Local Police Court.**

At the police court this morning, a local automobile dealer was fined \$2 because his chauffeur drove north on Richmond street at a speed of about 25 miles an hour. The excuse was offered that a message had come from St. John's about an accident to an auto, and the chauffeur was in a hurry to get out there.

"That does not justify you," said the court.

William Kelly, an Indian-lister, who said he got the message from St. Stanley, was sent down for three weeks.

John White, another lister, was remanded for a week to sober up as he has been drinking heavily.

Thomas Rogers, a drunk who said he hadn't been up for two years, was allowed to go and told to "stick" on the wagon for two years more.

George Hosgood, a drunk, was remanded for a week to sober up.

The case of a drunk charged by John Delaney with non-payment of wages, was withdrawn, as the wages have been paid.

STEAMERS ARRIVED.

New York, July 13.—Arrived: Europa, from Genoa; Majestic, Southampton; Campania, Rotterdam.

Cape Race—Signalled: La Lorraine, Havre; Lusitania, Liverpool; Pannonia, Trieste.

Lash For Horse-Beaters

It looks as though things were going to come Magistrate Love's way in bunches. This morning he received a letter from a woman residing in the city, enclosing a clipping regarding the recent case in Hamilton, where a horse beater was sentenced to a year in prison.

The woman mentioned that there were wife-beaters and horse-beaters, but pointed out that women have tongues and can make their troubles known, while horses have to suffer in silence.

"It almost makes me ill," she wrote, "when I see the manner in which many poor horses are ill-used. If, like the dear good man you are, you will give some of the young men and girls who drive horses to death a severe lesson, I will, with my own hands, bring a big bouquet and place it on your desk, and will pray that you may have a golden crown."

The court always gives horse-beaters the limit when they come before him, and has no intention of doing otherwise. The next culprit will certainly get all that's coming to him.

**OFFICERS WERE INSTALLED BY
LOCAL ODDFELLOWS LODGE**

D. D. G. M. Samuel Keys, of Strathroy, Was Assisted by Other
Notables of the Order—Col. Bingham, a London
Old Boy, Was Present.

There was a very large gathering of Oddfellows at the regular meeting of Dominion Lodge held in Oddfellows' Hall last night, when the officers of the various city lodges were installed by D. D. G. M. Samuel Keys, of Strathroy, assisted by Past Grand O. Munger, Mount Bridges; G. A. Stevenson, G. T. Turner, W. G. R. Bartram, W. A. McRoberts and C. O. Stapleton, of London. During the evening Col. Bingham, an old London boy, spoke in a reminiscent manner regarding Oddfellowship. The officers of the various lodges installed are as follows.

Eureka Lodge, No. 30.
I. P. G. W. E. Potts; N. G. A. R. Brock; V. G. Garrett Stack; R. S. R. Pearce; F. S. John Kirkpatrick; treasurer, L. W. Crawford; warden, George Garrit; conductor, S. W. Priestley; R. S. N. G. J. P. Wallace; L. S. N. G. W. A. McRoberts; R. S. V. G. Garfield Brooks; L. S. V. G. Henry Powell; R. S. S. W. C. Garrit; L. S. S. Bro. Rollison; chaplain, Charles Ruse; inside guard, Bro. De Gerald; outside guard, Wm. Richmond.

Forest City Lodge, No. 36.

**NO BUILDING INSPECTOR
ONE MUST BE APPOINTED****City Council Finds That A. O. Graydon Was "the Whole Works"
Around the City Hall—Replacing Him Appears To
Be a Very Difficult Job.**

The council will meet on Friday afternoon to consider filling the position of city engineer temporarily, and appointing a building inspector.

When Mr. Graydon resigned, the position of building inspector was left vacant, and there is no power now to appoint a new one until the building bylaws of the city.

It will be necessary to appoint such an inspector.

It is now suggested that Mr. Graydon be named for that position. At the meeting of the council, where all was confused, motions appointing him assistant engineer, consulting engineer, associate engineer, and what not, were all defeated. It will be necessary to have a two-thirds vote of the council to go back on any of these votes.

A Building Inspector.

Not a word was said regarding a building inspector, and it is now suggested, and it will likely carry, that Mr. Graydon be named building inspector, and he will thus be in a position to give advice and assistance to the whole department. At the same time his knowledge of the city will be tabulated for future use.

This idea will probably prevail among the aldermen. They appear anxious to do something for an old servant, who has spent the best part of his life in the city's service.

It is also suggested that Mr. Wright be authorized to sign pay sheets, and be in charge of the department. Mr. Beattie will include all this in his notice of meeting in order that no technicalities whatever will nullify the work of the council. It is presumed that he is somewhat tired of setting little points of order, and desires to obviate all difficulty on that score.

**FRESH AIR FUND IS GROWING
TOTAL NOW STANDS AT \$77.25**

Contributions to the Fresh-Air Fund now totals \$77.25. Considerably more is still needed to make the project feasible. Fifty poor children of the city will be taken to Port Stanley on the 30th of July for the time of their lives. A ten days' camp, under the leadership of Capt. Gregory, will be held at Port Stanley, and every child dear to the heart of the boy. The camp will be run under military principles. Mr. Ernest Ruse, at the Grand Trunk ticket office, corner of Richmond and Dundas streets, will receive subscriptions. Following the full list of contributions received to date:

**MAYOR IS JAILED
FOR THREE YEARS**

Conspired to Induce Aldermen to Confirm Appointment of Fire Chief.

Salem, Miss., July 14.—Found guilty of conspiring to secure the confirmation of the board of aldermen of his appointment of James A. Hamilton as chief of the Lawrence fire department, and of conspiring later to secure Hamilton's removal from that position, William P. White, mayor of Lawrence, was sentenced today to serve three years in the house of correction and to pay a fine of \$1,000.

Samuel Kress was sentenced to two and a half years' imprisonment; Mathew Burns to two years, and Geo. D. Smart to a year and a half. Ernest Dube, also convicted, was not sentenced, his case being placed on file because he had given evidence for the prosecution. Thomas Kegan also indicted in the same case, was found not guilty.

Mayor White made an impassioned address to the court, declaring that he had been innocent of any wrong intention.

**ATWOOD BOY MISSING
OFF FOR OLD LAND**

Twelve-Year-Old Walter McBain
Runs Away From His
Home.

Toronto, July 14.—Determined to see the sights of Scotland whether his father would take him or not, a 12-year-old Atwood lad is somewhere between his home and Montreal, and his parents have called upon the provincial police for assistance in finding him.

The runaway is Walter McBain. Last summer his father went to the old land, and Wallace wanted to go, too. He was not taken, and it is thought that since then he has been nursing a determination to take a trip alone. Several days ago he left his home, and going to the bank drew out \$50 savings he had on deposit. He left town and has not been seen since. At the time he left home he was wearing a black shirt and grey tweed trousers.

**COLORED MAN ANGRY
PUT ON INDIAN LIST**

Henry Fountain Says He Helps
to Buy Clothes for the
Police.

Henry Fountain, a colored man from Ealing, charged with breaking the licence of a hotel, was taken to the police station by a constable. He had no idea that he was on the Indian list until Sergeant Lucas walked up to him of the Queen's Park Hotel, enjoying a glass of beer, and told him.

"I got out at once," said Fountain, "and if it is so that I am on the list, why I won't be in any more."

Inspector Galpin was called, and said that he had placed Fountain on the list on June 10, and sent him a registered letter notifying him of the fact.

"I never got any letter," said Fountain.

Blamed His Wife.

Sergeant Lucas, who took the box stated that when he was on the list, Fountain blamed his wife for putting him on.

"He said that she would never get another loaf of bread from him," said Sergeant Lucas, "and he also said it was too bad, and that he was a taxpayer and part of his taxes went to put the clothes on the policeman's backs."

"I think your share of taxes would buy about one button," the court told Fountain. "However, I am going to take you to the police station, but the letter. However, you know now that you are on the list and can govern yourself accordingly. I fine you \$10 and costs or 21 days' jail."

William Whitehall and Roy Comber each paid \$2 for allowing their dogs out without muzzles.

**CANADIAN NAMED
TO COMMAND NIOBE**

London, July 14.—Commander Macdonald, a son of Senator Macdonald, of Victoria, B. C., has been appointed captain of the Canadian first-class cruiser Niobe.

He is regarded by the admiralty as a seaman of rare merit and has won special distinction as instructor of many branches of the service.

The Niobe will sail for Canada about the middle of next month.

**REFUSES TO TAKE
OUT A LICENSE**

Harry Merritt Still Objects to Feeding
Fish.

Harry Merritt will have to take out a victualer's license.

Since Inspector McCallum learned that the sergeant-at-arms of the city hall was about to feed the sturgeon, he raised strenuous objections.

Not that he did not want the fish to be fed, but to titillate the stomach of the surgeon with such expensive foods was a somewhat elaborate undertaking, and he warned Mr. Merritt to take out a license.

Mr. Merritt so far has refused to do so. In the meantime the sturgeon is enjoying little food.

Duffy's Pure Malt Whiskey

THE WORLD'S GREATEST MEDICINE

The True Elixir of Life

Aids Digestion, Stimulates the Circulation, Invigorates the Brain, Builds Nerve Tissue, Tones Up the Heart, Insures Refreshing Sleep and Prolongs Life. It is a Most Wonderful Remedy in the Prevention and Cure of Dysentery, Cramps, Cholera, Congestion, Diarrhoea, Chills, Fevers, Heat Prostrations and All Other Summer Complaints.

Duffy's Pure Malt Whiskey is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, producing a liquid food, tonic and stimulant, requiring no digestion, in the form of a medicinal whiskey.

1860—Just a half century ago—the formula of Duffy's Pure Malt Whiskey was discovered. It was also discovered that it was a great curative agent in the treatment of all summer ills and in throat, lung and stomach troubles.

The merit and honesty of an article that has been before the public for such a length of time cannot be questioned. Scientists have tested it, chemists have analyzed it and always found it pure and full of medicinal virtue; doctors have prescribed it, ministers of the Gospel, temperance advocates and men and women in all walks of life have used it, and all stimulate the circulation of the blood and acts as an aid to digestion, thus keeping the entire system in a normal, healthy condition and stopping the inroads of disease and old age.

During these fifty years some chemists and other dealers, who were interested in products which they claimed to be "as good as" Duffy's Pure Malt Whiskey, have done everything in their power to discredit Duffy's Pure Malt Whiskey and the great work it has done for humanity, but without success. The fame of Duffy's Pure Malt Whiskey has spread the world over, and stands today one of the most celebrated and most successful medicines known.

CAUTION—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey, be sure you get the genuine. It is sold in SEALED BOTTLES ONLY—never in bulk. Look for the trademark, "The Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price, \$1.25 a large bottle. Write Medical Department, The Duffy Malt Whiskey Company, Rochester, N.Y., for doctors' advice and an illustrated medical booklet containing testimonials and common sense rules for health; both sent free.

FOR SALE BY SCANDRETT BROS., E. B. SMITH, HOCKIN BROS., TECUMSEH HOUSE, CITY HOTEL AND JOHN GARVEY.

VANCOUVER VANCOUVER VANCOUVER VANCOUVER

VANCOUVER

BRITISH COLUMBIA

The City of Vancouver, Canada's most westerly commercial and industrial metropolis, is situated on a promontory of the mainland of British Columbia, overlooking the waters of Burrard Inlet and the Gulf of Georgia, with their perennially fascinating wealth of scenic beauty.

Although the city was founded as late as 1886, it now boasts a population of 150,000 souls, and is admittedly one of the most important commercial centres on the Pacific Coast. Its commercial standing is founded on the fact that it is the terminal of three trans-continental railways, and the home port of several fleets of trans-Pacific steamship companies. Besides the railway lines already entering the city, two others are rushing construction to Vancouver, while several lines to connect the various parts of the interior of the province with Vancouver are being surveyed.

Vancouver enjoys an ideal location, being particularly well adapted for business purposes and at the same time possessing the best possible conditions for a place of residence. The business section of the city, together with the older residential portion, is situated on a peninsula with gentle elevation, sloping both northward and southward to the salt water channels which all but surround it.

Money invested in real estate has made fortunes for hundreds, and will continue to do so for those who can grasp the opportunities we are offering for a limited period to purchase lots in our subdivisions.

E. R. YOUNG, London

will give you full information at 276 Dundas street, or phone 3235.

BONILLA SOON TO RULE IN HONDURAS

Davila Knows He Must Fall and Isn't Making Much Preparation for Fight.

Tegucigalpa, Honduras, July 13.—A revolution against the Government of President Davila is practically ready for launching in Honduras. Bonilla, the enemy of Davila, and deposed from power here three years ago, is ready to strike a blow for himself. It is the general impression that he will not delay his campaign long.

President Davila knows of the plot against him, and it may be said with certainty that he will not offer great resistance, now that his supporter, Zelaya, is bereft of power, and Cabreria, president of Guatemala, is lined up against him.

Former President Bonilla, now at his plantation near Belize, British Honduras, has been delaying his blow for the resumption of power for three months, hoping for a speedy settlement of the war in Nicaragua, but now that it seems there will be no specific end to the Nicaraguan unrest, Bonilla has lost patience, and has ordered immediate preparations for a campaign.

BIG FRENCH FAIR ON "FOREST" SITE

"Paris in London" Will Soon Replace Strange Spot in the Strand.

London, July 13.—The so-called primeval forest in the Strand is at last doomed, and "Paris in London" ere long will find a site in this vacant plot in the heart of the metropolis. The forest grew on the big island site along the Strand, for which, ever since the construction of the new thoroughfares known as the Kingsway and Aldwych began the London county council has been unable to find tenants owing to the prohibitive price it put upon the ground rents.

Left to itself the island site was overgrown by all manner of shrubs, hybrid plants and flowers, to which even botanists could not put a name—a mystery and a wonder to every one—a wonder because of the wealth of color that was produced, a mystery because no one could understand how they sprang up from the ground upon which for centuries had stood a bit of the oldest part of London.

French Industries. Now it has been definitely settled that "Paris in London," a scheme which some years ago was proposed by a grandmotherly county council because it feared for the morals of the younger portion of the community, is to be proceeded with, for the latest crop of advertising suggestions announces that the site has been definitely acquired by the French Palace Development Syndicate, Limited, which is to erect on it a palace of French industries, and building operations are to be commenced in the autumn.

But the title Palace of French Industries does not by any means adequately convey the extent of the scheme, which is so comprehensive that it includes a restaurant, a theatre and a club. In fact, it will be a miniature of Paris set down in the midst of London.

The area to be covered is a pretty large one, being no less than three and a quarter acres, a space which might well inspire any architect, and M. Ernest Gerard, to whom the commission has been given, may be relied upon to make the most of his opportunity. The style chosen is the French Renaissance, and the elevation fronting Aldwych will be the most important architectural feature of the building.

The scheme was originally suggested by the entente cordiale between the two countries, and has been commemorated by a sculptured bas-relief in the tympanum over the central entrance, which will represent the late King Edward welcoming President Loubet, and groups around the central figures will be portraits of other famous people, including King George and the Duke of Connaught.

Permanent Exhibition. The Aldwych entrance will lead to a grand hall, with its walls and ceiling to be adorned with paintings by eminent French artists. In this hall also there will be a permanent exhibition of French art and industries—permanent, but ever-changing.

The restaurant and cafe is to be conducted on the most approved Parisian model. A patisserie is to be established in the courtyard and garden which surround the hall, with a band close by. The Bijou theatre will have seating accommodation for about eight hundred people, and here French plays will be given for at least a part of the year, and at other times variety entertainment.

There will be room in the buildings for more than 100 shops, and many famous French firms are expected to take advantage of the opportunity offered them to make their London headquarters here. Above the shops will be reared four or five stories to a height of 80 feet, this being the limit allowed by the building regulations, and they will provide accommodation for some 800 sales of offices, many of which have already been spoken for by tenants, who are taking time by the forelock.

HAWK KILLS A RATTLER

Furious Battle of Bird and Reptile Over a Chicken.

Altoona, Pa., July 13.—With a chicken for a prize, a battle royal was waged by a hawk and a rattlesnake along the banks of the Juniata at Coveale. It was witnessed by Walter C. Wynekoop, of Altoona, and he says he never saw a fight so fierce.

Wynekoop was fishing, and, while waiting for a "bite," his attention was directed to a commotion in a clump of bushes near by. He walked quietly near the spot to investigate. He found the snake in possession of a spring chicken, but the meal was disturbed by the hawk, which evidently also had designs on the dainty meat.

Circling round the reptile and the chicken, the hawk would fly close enough to snag the snake's body with its beak. Once it flew too close, and as quick as a flash the snake struck it, knocking it to the ground.

With its beak and claws the bird fought, while the snake wrapped its coils around it. It seemed an hour, but it was only five minutes, when, in a last desperate effort, the hawk snatched its talons into the snake's throat, and the battle ended.

Freeing itself, the bird seized the prize and flew away to enjoy it. The snake measured 5 feet 1 inch.

UNABLE TO LOOSEN LONG-TIED TONGUE

Somerville, N. J., July 13.—Silas Hoffman, the hermit of Bedminster who, while apparently in perfect health kept his bed and refused to speak for 31 years, is dead. He passed away last night, maintaining the silence which he had steadfastly preserved for more than a quarter of a century. Just before he died he made an effort to speak to his devoted sister, Mrs. Margaret Lane, who had cared for him in his lonely habitation throughout his eccentric career, but he was unable, although physically able to leave his bed, and no physician could declare him insane, as his condition was apparently normal. At different times during his life he had been thrust into his bed by physicians without making him wince or utter a sound.

ROYAL PARENTS SEE PRINCE CONFIRMED

Impressive Ceremony Took Place in Private Chapel at Windsor.

London, July 13.—Prince Edward of Wales was confirmed recently in the private chapel at Windsor by the Archbishop of Canterbury, assisted by Dr. P. Elliot, dean of Windsor, Canon J. N. Dalton and the Rev. H. D. Wright.

The Archbishop of Canterbury placed his hands on the young prince's head, and invoked the Holy Spirit, the chief feature of the confirmation service, at which those who have been baptized in infancy renew their vows in person, the godparents thereby relieved from responsibility.

To the right of the aisle stood King George, Queen Mary, Princess Mary, and Prince Albert; on the left Queen Alexandra and the dowager empress, while behind them were the Duke and Duchess of Connaught, and Prince Arthur. Mr. Asquith, the premier, was seated on the extreme right.

Crowds had turned out and lined the route at all points between Marlborough House, Buckingham Palace, and the Great Western station, and the Daily Graphic, in the expectation of seeing the royal party, and particularly the Queen Mother, who has not been out in public since the funeral of the late King, all except those in the neighborhood of Buckingham Palace were disappointed in the latter expectation.

The King and Queen were respectfully greeted on their way to the station. King George wore ordinary morning dress while his two sons wore in naval cadets' uniform. The royal party were received at Paddington by Viscount Churchill, chairman of the directors; Mr. Inglis, the general manager of the line; Mr. C. K. Mills, the secretary, and a number of other railway officials, as well as by the Earl of Granard, master of the horse, and other household officials, who had arrived in advance of their majesties. The party included Prince William, Christian Prince Louise (Duchess of Argyll), Princess Henry of Battenberg, with her sons, Prince Maurice and Prince Albert; Prince Arthur of Connaught, Prince Francis of Teck, Lord Annaly and Earl Howe.

The prince occupied a seat immediately in front of the communion table, while King George and Queen Mary, Prince Albert of Wales and Princess Mary of Wales, sat a little in the rear to the right. On the left were Queen Alexandra and the Duke of Argyll, while other members of the royal family, including those already mentioned, and the Duke and Duchess of Connaught and Princess Patricia, the Princess Royal, and the Duke of Fife, occupied chairs on either side of the prince, from which the ordinary pews had been removed. Some 70 or 80 guests, including the prime minister, the lord chancellor and the home secretary, were seated on the pews on either side of the chapel.

'FRISCO TONGS TO FIGHT OVER GIRL

Poon Shee Commits Suicide, Fearing Son-in-Law's Highbinders Would Kill Her.

San Francisco, July 13.—The death of Poon Shee, a pretty Chinese woman, who took opium to end her life, will probably result in a high-lit fight between the Yee family and the Yee Sing tong, as the Yees, to whom the dead woman belonged, hold the other tong responsible for her death.

Her daughter, Oye Gen, which means "Pearl of Love," was 20 years ago a young merchant of Orville, named Wong Fu. This girl had been gently reared, her father, Yee Gum, being a merchant, who has now retired. Her husband had been abused, and, through jealousy, and five weeks ago she returned to her mother.

Her husband followed, and served notice on Poon Shee that she must give up her daughter to him. She refused. Then Wong who is a Sues Sing man, hired highbinders, who beat her nearly to death. They searched her house, but failed to find Wong's wife. Poon Shee, fearing that the highbinders would kill her over her refusal of opium. The wife is hidden and the Yee tong threaten death to her husband.

MADE TO APOLOGIZE MAY LOSE POSITION

Immigration Officer Who Insulted St. Louis Woman Is H. Gilboit.

Ottawa, July 14.—After being kept quiet for some time, the name of the Dominion immigration official who insulted Canadians on a train at Windsor, Ont., and was forced to apologize by W. B. Taylor, editor of the Sentinel-Review, Woodstock, has been made public. He is H. Gilboit.

The woman whom he was insulting when Mr. Taylor protested was Mrs. Percy Tressider, of St. Louis, Mo., who was on her way to Ottawa to spend her holidays with her father-in-law, G. C. R. Tressider, clerk in the department of public works. She was sitting opposite Mr. Taylor when the Government officer, boarded the train at Windsor, and coming up the aisle of the coach turned his attention to Mrs. Tressider. He asked her, in a voice so loud and imperative, according to her account of the matter to get up and to leave the train, that the attention of all the other passengers, what her name was, where she lived, where she was going, whom she was to visit, what she was going to visit them, whether she was married or not, and whether she was not alone, how much money she had with her, and how old she was.

It was at this latter stage that Mr. Taylor protested, and the official abused him in terms for which he has since apologized.

Mrs. Tressider on coming to Ottawa communicated with her husband, who took the matter up. A representative of the United States Government had an interview with her, and Mrs. Tressider says, and it is possible that the American Government will request the dismissal of the officer.

The world's most successful medicine for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering, and saved more lives than any other medicine in use. It is valuable for children and adults. Sold by all dealers.

65 Ladies' Wash Suits at Half-Price

\$7.50 to \$15.50 Suits Tomorrow \$3.75 to \$7.75

Sixty-five women may have their Summer Wash Suits tomorrow for just half the price they are selling for today. While these Suits are correct in style, all this season's, and in steady demand every day, yet it has come to the time in the season to hurry them along, and the only successful method to clear stocks quickly is the price method, yet the goods must be worth one hundred cents on the dollar or they are not selling at half, as half price with us means half the value of the article on sale, and the value of these Suits is the price we are selling them at today. Tomorrow your choice for half price, no more and no less. We mention a few which will give you some idea of the styles:

11 Suits at \$3.75, Regular \$7.50

These are made of colored repp, in blue, rose and white, semi-fitted coat, three-button style, shawl collar, and cuffs braided to match coat; skirt pleated. Our regular \$7.50 Suits, sale price, each\$3.75

4 Suits at \$4.75, Regular \$9.50

In linen color, semi-fitted coat, three-button style, inlaid Paisley shawl collar; full pleated skirt. Our regular \$9.50 Suits, sale price\$4.75

6 Suits at \$6.25, Regular \$12.50

Semi-fitted coats, 36 inches long, in rose, blue, white and mustard, centre back set with group of inverted pleats and finished with piping and buttons, white braided collar and cuffs, gored skirt with front panel pleated to match coat. Our regular \$12.50 Suits, sale price\$6.75

2 Suits at \$7.75, Regular \$15.50

Elaborately braided Suits in white only; coats 34 inches long, semi-fitted, pleated skirt with braided panel to match coat. Our regular \$15.50 Suits, sale price\$7.75

We cannot describe all the different styles, but the above is a fair assortment, and takes in most of the new and special style features; others vary in detail of trimming, color combination, etc., and in the 65 Suits you will have the greatest assortment of styles and the best Wash Suit opportunities of the season. Early tomorrow for your pick; all half price.

LADIES' READY-TO-WEAR SECTION—SECOND FLOOR.

Queries Answered.

A citizen writes that he has of recent years been assessed on income for the interest received by him on a debenture of a local loan company, which interest had not previously been assessed, because, as he alleges, the taxes thereon had been paid by the loan company. He claims that he should not be taxed, but that the loan company should, and the points out that 75 per cent of their income, as a reason why they should, and why the interest on his debenture should be exempt under the Revised Statutes of Ontario.

The assessment act of 1904 superseded the Revised Statutes, Chap. 229, and section 7 (18) of it, to which he refers, did not exempt the interest derived from debentures or debentures from assessment.

Under the present law every corporation whose dividends are liable to taxation against shareholders must make a return to the assessment commissioners of the names of resident shareholders, and of the dividends paid to them, under a penalty, came into force by the act of 1904, previous to which dividends and interest on debentures were liable to taxation, but were in many cases not assessed because the assessors had not the perfect means of ascertaining information as to who were liable. The assessment commissioner for this city is only carrying out the law of the Ontario Legislature in assessing the holder of a debenture for income the amount of the interest received by such holder.

assessed 75 per cent on their income, but on business assessment, which is 75 per cent of the assessed value of the land and premises occupied by them. Every person not liable to the business assessment is liable in respect to income. Income includes interest on a debenture. Income from personal earnings is exempt to \$1,000 in cities. The interest on a debenture is not personal earnings.

The provisions for obtaining information by the assessors from the person to be assessed, and from the companies, under a penalty, came into force by the act of 1904, previous to which dividends and interest on debentures were liable to taxation, but were in many cases not assessed because the assessors had not the perfect means of ascertaining information as to who were liable. The assessment commissioner for this city is only carrying out the law of the Ontario Legislature in assessing the holder of a debenture for income the amount of the interest received by such holder.

DEVOTION TO EMPIRE.

London, July 13.—At a Liberal-Unionist club dinner to Liberal-Unionist members of Parliament, Mr. Donald McMaster, M. P., laid stress on the profound and absolute loyalty and devotion to the service of the empire of Canada.

LONDON, THURSDAY, JULY 14.

THE FRESH-AIR FUND.

Before leaving on their holidays, spare a trifle for the Fresh Air Fund. It will help to give a holiday to poor children who have never known a real one.

The Fresh-Air Fund is a feature in nearly all the cities of Canada. In Montreal and Toronto, thousands of boys and girls owe their only taste of the country and its pure air to the bounty of others. Happily there are no slums in London, but there are children in the charitable institutions, and children whose parents are in poverty, to whom an outing in the country or at the lakeside would be another world.

The modest sum of \$400 would give this treat to at least half a hundred boys. They would be well cared for, and under a regimen good for their health and habits. Surely the response of the citizens to such an appeal will be ready and generous. They will enjoy their vacation more for having helped others to one.

WARNINGS FROM THE WEST.

Sir Wilfrid Laurier could ask for nothing better than his meetings at Fort William and Winnipeg. If there is to be a fly in the ointment at all, it will be the tariff question. The Grain Growers' Guide says that the organized farmers intend to take it up with him. The Guide circulated the members of Parliament for the prairie provinces, and all who responded, Liberal and Conservative, declared for tariff reduction. Mr. Lake, of Battleford, Conservative, says that the duty on many articles could be lowered and still leave a considerable margin of protection to Canadian manufacturers. Mr. John Herron, McLeod, Alta, Conservative, pleads for a lower duty on agricultural implements in particular. Mr. Roche, of Marquette, Conservative, says he is a moderate protectionist, but thinks there is "a number of articles bearing too high a rate of duty which might be reduced with benefit to the agriculturist of Western Canada, such as agricultural machinery." Mr. Roche, however, favors a higher duty on agricultural products. Dr. Shaffner, of Souris, Man., Conservative, also wants the duty on implements reduced from 17 1/2 to 10 per cent.

If Sir Wilfrid has his difficulties, Mr. Borden has more. Eastern Conservatism is dominated by Toronto and Montreal, where the party councils in turn are dominated by the advocates of high protection, no matter what the Toronto News may say.

AN AIRMAN'S DEATH.

The science of aviation is claiming its martyrs. Already they make a formidable list. One of the latest, Hon. S. C. Rolis, was the foremost of the British airmen. His recent flight across the English Channel and back without descending, ranked with the most sensational achievements of the French aeroplanists, who have led the world in the conquest of the air. Rolis was a sportsman of a high type. A man of wealth and social position, he took up the new sport with no motive of gain, but as a patriotic Englishman, anxious to do his country a service. In view of the manner of his death—the buckling-up of his machine only 40 feet above the ground—a speech which he made three weeks ago, at the annual dinner of the London chamber of commerce, has a pathetic interest. Referring to his cross-channel flight, he said:

"They had been good enough to refer to a small flight that he had made. It was certainly a very pleasant trip—no dust or police traps or things like that. But from a scientific point of view there was nothing of importance in it at all. It was purely a question of mechanics. With a certain horse-power and a certain plane surface set at the right angle the thing must go. There was no danger unless the engine happened to stop, and not so very much then. (Laughter and cheers.) The only danger he went through was when he was hoisted afterwards by a few enthusiastic members of the public. In any case, the credit, if any, was due to the Wright brothers, who designed the machine which he used. He hoped that the flight would do something towards strengthening the entente cordiale. Although he had been to France a good many times with motors, this was the first time he had succeeded in taking ten gallons of petrol in and out of France without paying duty. (Laughter and cheers.)"

He was too confident of his machine. Evidently the aeroplane is still a long way from mechanical perfection, but no doubt the margin of risk will be reduced, although daring spirits will

continue to defy death by unnecessary feats for the sake of a thrill or a sensation.

THE BRITISH POLITICAL SITUATION.

The Radicals, the Laborites, and the Nationalists, are becoming impatient over the prolongation of the conference on the question of the second chamber. They fear that the Unionists have everything to gain by the side-tracking of the constitutional issue. The House of Lords is the best card of the Liberals, but they are unable to play it while the conference is sitting. The Unionists do not want it played; their game is to focus attention on tariff reform. The House of Lords' question is just now in cold storage, figuratively speaking, and there is danger that before it is taken out, Liberal enthusiasm will have cooled all. Without enthusiasm, the democratic cause is lost. "For the moment," says the Nation, the Liberal weekly, "a kind of Junta is sitting on the British constitution, with the two Houses of Parliament peeping fruitlessly into the keyhole, and told by the Prime Minister to 'wait and see' what time will bring forth." The Nation adds:

"Yes, but Parliament already gives its executive force into the hands of a secret, but strictly regulated body, the Cabinet, which was never so powerful as it is today. Here is a new organ of government, which the party leaders construct for themselves, admitting no unofficial person, and yet taking the whole power and balance of government as its subject. Let its authors, therefore, be wise, and as they wish well for the nation and for their own political creed, neither sit too long nor attempt too much, unless they wish to see the foundations of the party broken up, and a new political earth arise in a wild and storm-beaten atmosphere of confusion and distrust."

Sir Wilfrid Laurier spoke in French yesterday. Treason!

The suffragettes threaten to become more aggressive than ever. Is it possible?

A Canadian officer has been appointed to command the Canadian cruiser Niobe. Is this another "danger to the Empire?"

Premier Laurier presented his side of the boundary question at Winnipeg Tuesday. But the Roblin Government took care that he shouldn't do before polling day.

Archibald McLachlan confessed to his crime before his death. The gallows was not cheated, but it is more satisfactory to know that there was no judicial crime.

Count de Lesseps, the French airman, flew over Toronto yesterday, and was wrapped in a tricolor by enthusiastic admirers. This looks like a deliberate affront to the Toronto Telegram.

A party of Doukhobors have burned their clothing and money, preparatory to a march. Western papers will no doubt point to the incident as proof that in the west even the Doukhobors have money to burn.

The city authorities are debating whether the public alarm bell shall be rung for a fire. When this question was before the council 15 or 16 years ago, a veteran alderman argued powerfully for the ringing of the bell. "Sure," said he, "if there's no alarm, a man might be burned alive in his bed and never know there was a fire!"

LAURIER'S TRAVELLING

[Woodstock Sentinel-Review.] It is said that Premier Laurier's constant companions when he travels are his Bible, a dictionary, and Gibbon's "Decline and Fall of the Roman Empire." He couldn't very well get a much larger or much better library in the same small space.

THIS IS TERRIBLE.

[Toronto Star.] They talk of running a milk special from London to Toronto. Yes, on the railway.

A SUBDUED MENU.

[Punch.] Crushed Oats. Mashed Potatoes. Whipped Cream.

A BORN PESSIMIST.

[Punch.] "What is the baby crying for, my child?" "I dunno, 'e's always crying. I never came across anyone who looks upon the dark side of things as 'e does."

FOR COOLER HOUSES.

[Springfield Republican.] The next great forward step in material civilization is likely to be the cooling of houses in summer. The thing is so entirely feasible that it is surprising that rich people who build fine houses have not made refrigeration as much a matter of course as heating. Many must have read with envy of President Taft's artificially cooled offices in Washington which helped him through the tough tag end of the season. Some of the new frigate ships plying to the tropics are being constructed with the refrigerator service extended to the cabins and state-rooms as well as to the hold. Here and there a private house may be equipped, but such a case is the rare exception. But the improvement is in the air, and it will be surprising if a nation which attaches so much importance to physical comfort does not take it up with avidity and very likely overdo it, as with steam heat in winter. There ought not to be too much difference between the temperature inside and outside, a very few degrees would bring relief and cause no danger of injury from going in or out. A correspondent of the New York Times suggests what he calls an "anti-stove," which at small cost can be put into any room. It consists simply of a tank holding three gallons or so of ice and salt and a half-pint of ammonia, with a drip pan to catch the water. Once a day, it is said, is often enough to replenish the tank.

BE GOOD TO THE HORSE.

[The Milwaukee Evening Sentinel.] Do you realize that many of those patient, faithful animals have to stay in the sun from morning to night, and work, work, work when it is anywhere from 100 to 120 degrees on the pavement of the street?

Cincinnati has taken such an active interest in keeping work horses cool during these hot days that it is well worth while to note what the humane society of that city is doing. Free water troughs are supplied, and there the tired horses may drink, while the city provides sprinkling hose so that the driver may spray the animal's legs with a cooling stream of water. This has the same effect that letting a cool stream run over the wrist on you when you are overheated. Then, when the horse has cooled off a bit, the stream is turned upon his back and neck—his tenderest spots—and you ought to see how the poor dumb fellow is refreshed and ready to pull his pound again!

HIS LIMITATIONS.

[Chicago Tribune.] Reply from an Ohio man who was asked by a trade journal to serve as local correspondent: "Guess I can spell all right, but I'm afraid the grammatical part of it wouldn't do."

RESPONSIBILITY.

"I understand," said Miss Miami Brown, "that you have a position of great trust and responsibility."

SOOTHING.

[Punch.] "But those extremely violent women inmates—how do you manage to keep them so quiet?"

"That's an idea of the new superintendent."

WANTED: LATEST AILMENT.

"Well, here I am," announced the fashionable physician in his breezy way. "And now, what do you think is the matter with you?"

"Doctor, I hardly know," murmured the fashionable patient. "What is new?"

DIAGNOSIS.

[The Sketch.] Timkins—Empty-headed sort of chap, that man Brown.

Jones—Yes, and a very plain looking bouncer.

Timkins (after a pause)—Did she chuck you, too?

THE TYRANNY OF THE CHILD.

[Chicago Tribune.] It is a well-known fact that, in any community, where the conditions of family life require the co-operation of all, if things are to run smoothly, the parents, the mother especially, are in a state of slavery from which there is no let-up or appeal. Abraham Lincoln abolished what was considered a bit of servitude, but he did not, and could not, touch the real sore of the republic—that of the tyranny of the child in the modern home. We look with wonder upon that cult ancestor worship which plays so important a part in the national life of China and Japan, but it does not occur to us that our progeny worship is no better. Both are subservient of all that is best in private as in public characters, and mark a degeneracy that nature herself cries out against. Any deference to father and mother is lost sight of long before our girls and boys are grown up. The father is only worth what he can make for them to spend; the mother only what she is able to do in keeping the house in order and in caring for the family wardrobe, and in all this, with few exceptions, she has no assistance—only commands as to how her work should be done.

TAKING NO RISKS.

[The Bystander.] "What's a 'yer' hurry sandy? It's no 10 o'clock yet."

"Well, ye see, ah've changed my lodgin's, an' ah'm no vera weel acquainted wi' 't' new staircase."

STRANGE EFFECT OF BIRD SEED.

[Kansas Notes in Kansas City Star.] A Gannett man, in his wife's absence, ate a lot of canary seed, mistaking it for breakfast food, and ever since he has been sleeping with his head under his arm.

THE REFORM HE NEEDED.

[Manchester Guardian.] Earnest But Prosy Street-Corner Orator—"I want land reform; I want housing reform; I want educational reform; I want—"

Bored Voice—"Chloroform."

WOULD PRESERVE GARRICK'S VILLA

Managers Have Not Given Up Hope That Money May Be Raised for Its Purchase.

London, July 13.—The sale of Garrick's villa, the fine old house at Hampton, in which the great Shakespearean actor lived from 1745 till his death in 1779, has struck something like dismay not only in stage circles, but among the many who would, they could, preserve those historical buildings in and around London which are so fast disappearing under the unrelenting hammer of the modern house builder.

The house was a stone mansion in the Italian style, when it came into Garrick's possession. He called in a famous architect, Robert Adam, to design a new front and to enlarge the house, and there gave his celebrated entertainment to the literary and artistic lions of the day.

The house itself is separated from the river by a public highway, but a tunnel under this road gave the actor and his friends access to the riverside lawn, on which was erected, also from Adam's plans, a little octagonal Grecian temple, with a domed roof and an ionic portico as a shrine for Roubillac's statue of Shakespeare, now in the British Museum. For this statue Garrick himself sat as model. The original statue was in marble, but a duplicate in less costly material still occupies the same place of honor in this charming summer house. After the actor's death the villa was occupied by Mrs. Garrick till her death in 1822, and it then passed into other hands. In recent years it has been occupied by Sir Clifton Robinson.

At the villa Garrick was visited by celebrities of such different types as Dr. Johnson, Sir Joshua Reynolds, Sheridan, Goldsmith, Burke and Hannah Moore. It was Johnson himself, who, asked how he liked the place, said:

"Ah, David, it is the leaving of such places that makes a deathbed so terrible."

Though the news of the sale came as a blow to many sections of the interested public, the Society of West End Theatre Managers has not given up all hope that sufficient money may yet be gathered to preserve the villa and the beautiful grounds from the hands of the builder as a memorial to the great actor.

KENT ENTRANCE EXAMS

SHOW MANY FAILURES

Fifty-Two Per Cent Passed the Test—Miss Williamson, of Ridgetown, Heads the List.

Chatham, July 14.—As in many other parts of the province the Kent County entrance exams show a larger number of failures than usual, for which the arithmetic paper is blamed. A Ridgetown young lady, Miss Mary Williamson, carries off highest honors, heading the list for the county with 571. Dorothy Wells, of Dresden public school, was second, 543; Irene Graham, of Wheatley public school, third, 523; Hilda Bawden, Ridgetown public school, fourth, 508; Mary Wells, of Dresden public school, fifth, 503. The total marks obtainable were 650, and the minimum required to pass 290. Of those who were successful, Kent County 52 per cent were successful. Dr. Walker's medal for highest marks at entrance goes to Mary E. Williamson, Mr. L. J. Hummel's medal for best progress in year in entrance class was captured by Christine Robertson, Ridgetown.

Neill Anderson 390, Lionel Allen 407, Albert Blake 457, Harry Bawden 455, Neil Brown 414, Henry Butler 414, Cecil Buckenrough 429, Edith Butler 456, Hilda Bawden 423, Mary Wells, of Dresden public school, fifth, 503. The total marks obtainable were 650, and the minimum required to pass 290. Of those who were successful, Kent County 52 per cent were successful. Dr. Walker's medal for highest marks at entrance goes to Mary E. Williamson, Mr. L. J. Hummel's medal for best progress in year in entrance class was captured by Christine Robertson, Ridgetown.

KING'S FUNERAL COST.
London, July 13.—The elaborate funeral given King Edward cost the nation \$202,500, as is shown in the supplementary financial estimate issued today.

Springwood Park Subdivision

WE desire to announce that we have acquired the well-known TAYLOR ESTATE, which is situated on the southern limits of the city, fronting High Street and Wellington Road, and have re-named the property "Springwood Park." The Park has been divided into lots of different sizes, and it is our intention to dispose of this property in undivided interests in the following unique manner:

At the outset, investors in Real Estate must be satisfied that they are buying in a first class locality and at a reasonable price. We ask you to compare "Springwood Park" with any other site in London in these respects.

Location is of vital importance to the particular Home Builder. "Springwood Park" lies in what is destined to be the finest Residential Section of London. Some of London's costliest homes stand close by, and more are building.

The Park is situated on a hill overlooking the city from the south. The land is high and well drained, which means that here health and comfort are assured amid picturesque surroundings.

All the streets in "Springwood Park" will be sixty-six feet in width, and will be so laid out as not to destroy any, if possible, of the magnificent ornamental trees which make the Park such a beautiful spot.

The Park has been subdivided by F. W. Farncombe, Esq., O. L. S., into 285 lots, producing a most attractive proposition.

As it would be inadvisable to make a subdivision which would interfere with the splendid houses now existing on the property and surrounding gardens and lawns, it has been decided to treat them as single lots, available for allotment amongst the interested parties at the time of the partition of the property.

The intention is to sell 285 undivided interests in this subdivisions at a fixed cash price of \$200 each. The partition of these lots amongst the undivided owners will take place not later than the 15th of October, 1910, and each undivided owner will have an opportunity of acquiring for his one interest either the magnificent house with beautiful grounds valued at \$15,000; the cosy, 7-roomed house worth \$2,500; one of the valuable large corner lots, or lots facing on High street and Wellington road, and in any event a lot of 30-foot frontage, the least valuable of which is well worth \$200.

The lots will be of irregular size, giving owners ample ground for erecting houses with sufficient land for garden and lawn purposes. That it will be maintained as a high-class home site is assured by the restrictions which will be embodied in the Deeds of Sale. These prohibit the erection of undesirable buildings, such as factories, shops, etc.

Money may be sent by Bank Draft, Money Order, Express Order or Certified Check, and should be made payable to the order of The London and Western Trusts Company, 382 Richmond street, London, who will act as Trustees in the interests of the subscribers. The Trust Deed of Agreement may be seen at our office.

Application forms may be had at the office of the undersigned.

HUB WANTS THE C. T. R. FOR COAST TERMINAL

Boston Commercial Interests
Send a Deputation to
Company.

[Associated Press.]
Boston, Mass., July 13.—An attempt is being made by Boston commercial interests to induce the Grand Trunk Railroad to make this city one of its ocean outlets. The chamber of commerce has sent to Montreal James E. J. Storow, former president of the chamber, and D. O. Ives, the chamber's transportation expert. Messrs. Storow and Ives will see the principal officials of the Grand Trunk in an effort to induce them to make Boston the coast terminal, rather than Providence, which under plans already laid down had been selected as a terminal point of the road.

Another development of the past 24 hours was a statement made by Governor Draper yesterday at a meeting of the chamber of commerce, following a trip of inspection around the harbor docks. Whether the governor's remarks referred to the Grand Trunk Railroad is not definitely known. The governor said: "I have every reason to believe I shall be able to announce within a very short time the completion of an arrangement with a great business interest in this state for taking over for use the Commonwealth Pier, with a large amount of land located immediately in the rear of it, at a very large annual rental. Verbal agreements have been entered into which show this transaction can be carried through, and the Commonwealth Pier and the land back of it will be leased to one of the great railroad interests at a rental which will give to the state some \$70,000 annually for a period of 30 years."

FOOD FACTS

What an M. D. Learned.

A prominent physician down in Georgia, went through a food experience which he makes public. "It was my own experience that first led me to advocate Grape-Nuts food and I also know from having prescribed it to convalescents and other weak patients that the food is a wonderful restorer and restorer of nerve and brain tissue, as well as muscle. It improves the digestion, and sick patients always gain just as I did in strength and weight, very rapidly. "I was in such a low state that I had to give up my work entirely and go to the mountains of this state, but two months there did not improve me; in fact, I was not quite as well as when I left home. My food did not sustain me, and it became plain that I must change. Then I began to use Grape-Nuts, and in two weeks I could walk a mile without the least fatigue, and in five weeks returned to my home and practice, taking up hard work again. Since that time I have felt as well and strong as I ever did in my life. "As a physician who seeks to help all sufferers, I consider it a duty to make these facts public. "Trial 10 days on Grape-Nuts when the regular food does not seem to sustain the body will work miracles. "There's a Reason." "Read the little book, 'The Road to Wellville,' in plain. "Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest. "Canadian trade supplied by Canadian Postum Cereal Company, Limited, Windsor, Ont.

QUAKE IN BAVARIA

Severe Enough To Crack Buildings in City of Munich.
Munich, Bavaria, July 13.—A sharp earthquake was felt here at 9:45 o'clock. The walls of several buildings were cracked. The wavelike movement continued for three seconds, thoroughly terrorizing the people who fled from their homes and remained in the streets long after the disturbance had ceased. The shock was felt also in the surrounding villages, including Garmisch. A report from Oberammergau says that the shock was noticeable there, but that little damage was done.

NOT HITTING AT U. S.

Russ-Jap Manchurian Pact Not Due to Knox's Proposal.
Tokyo, July 13.—Marquis Kabura, the premier and minister of finance, denied today that the recently-made convention between Japan and Russia was influenced by Secretary Knox's proposition for the neutralization of the Manchurian railways. He said: "There is not the slightest foundation for the assertions, published in Europe, that the Russo-Japanese convention was the outcome of the neutralization proposition. It had absolutely no connection therewith, nor was it directly or indirectly intended as an answer to the United States."

"The convention was framed, practically long prior to any proposal affecting Japan's interest in the railroads of Manchuria. It was made solely with the purpose of affording a reassurance of the friendly relations between Japan and Russia and of insuring peace in the Far East; though at the same time with the practical object of improving traffic connections and working arrangements between the railroads. "It is Japan's determined policy to adhere closely to all agreements and treaties with China and other nations."

THE MONTREAL STRIKE.
Montreal, July 13.—The striking bricklayers and masons claim only 287 men out of the 1,600 who went on strike are now drawing strike pay. Over 900 are at work again, their employers having signed the union agreement, while over 100 have been sent away to work outside the city. One hundred and thirty contractors have signed the agreement demanded by the men.

NEWMARKET RACES.
Newmarket, Eng., July 13.—The July handicap of 300 sovereigns for three-year-olds and upwards, distance six furlongs, of the Bunbury mile, was won by H. P. Whitney's Persius III. McIntyre was second and Senecio third. Eight horses ran.

TENTS FOR SUFFERERS.
Ottawa, July 13.—Tents and blankets are being sent to Campbellford for the assistance of the fire sufferers there.

FIVE PLUNGE TO DEATH WHEN BALLOON BURSTS

Sunshine Causes Wreck of Big Dirigible With Fatal Results.

Leichlingen, Rhineland Prussia, July 13.—Oscar Erbsloech, the German aeronaut, who won the international balloon race at St. Louis in 1907, and four companions, were killed today when the dirigible balloon burst at a height of several hundred feet and dropped to the earth a crumpled mass. The dead are Oscar Erbsloech, inventor and balloonist; Herr Loelle, a manufacturer of barometer; Engineer Hoeppe and Motorman Spiecke. The craft was of the non-rigid type, 176 feet in length and 33 feet in diameter. The motors were of 125-horsepower and drove the airship at a speed of 28 1/2 miles an hour.

The war department recently purchased one of Erbsloech's balloons. The cause of the accident is a matter of conjecture, but it is believed that the bursting of the bag was due to the expansion of gas by the warm sunshine. The wreckage fell so heavily that the gondola was broken to bits and the motors were buried in the ground. The victims were frightfully torn.

AFTER THE BEST MAN

Roosevelt Makes Statement in regard to State Politics.
Oyster Bay, July 13.—Theodore Roosevelt today gave his first indication of his position in respect to the nomination of a Republican candidate for Governor of New York this fall. Col. Roosevelt in an interview said: "My position in regard to the governorship this fall is this: I want to find the best man for the office; the man who is most acceptable to the rank and file of the Republican party and the independent voters. I intend to do everything in my power to see that such a man is elected."

OPEN TO WOMEN.

London, July 14.—The women of Austria, who have hitherto been barred from the state commercial and technical schools, now rejoice over a decree of the minister of public works, which throws these institutions open to them. "Women who desired to train themselves for a commercial or a technical career were previously compelled either to go abroad or to take their course at expensive private institutions at home. Now they will greatly enjoy a greatly enlarged choice of occupations, such as bookbinding, watchmaking, engraving, leather work, photography and ornamental woodworking, as well as some branches of the chemical and electrical trades. "While the women are jubilant their male relatives are less enthusiastic. They point out that even under the old conditions 430 out of every 1,000 wage-earners in Austria were women, and with these new opportunities for women they fear the men will be put in the minority."

Chamberlain's Stomach and Liver Tablets stimulate the liver and bowels to expel poisonous matter, cleanse the system, cure constipation and sick headaches. Sold by all druggists.

JAP STATE MEN WORK WHEN OTHERS PLAY

Put Through World Legislation While Western Diplomats Idle.

[By Associated Press.]
Washington, D. C., July 13.—It is a remarkable fact in connection with the negotiations of the Japanese-Russian pact, executed on July 4, that many such actions of Japanese have been taken in the summer when diplomats of virtually all other countries were away from their posts on vacations.

As far back as Aug. 12, 1905, the Anglo-Japanese alliance was effected, just preceding the Portsmouth treaty. The Korean emperor was forced by Japan to abdicate in July, 1907. The Franco-Japanese entente was arranged in June, 1907, and the Japanese-Russian convention the following month. Korean conventions were arranged in the summer of 1907 and 1909, and the annexation of Korea will probably be consummated before this summer ends. In August, 1909, Japan went ahead with the Antung-Mukden Railroad, with barely a week on the when the diplomats of other countries were at their summer resorts. Pictorial 240 miles from Peking, on the Gulf of Pechili.

FOUL PLAY.

Chester, Pa., July 13.—The body of Col. Silas Comfort, vice-president of the Pennsylvania Military College, and prominent in city affairs, was found lying in Lyperville Creek, near here. Foul play is suspected. The body, when discovered, was submerged head down in the shallow water of the creek to the waist line. Col. Comfort's hat was found on the bank, leading to the belief that it had been knocked off in a struggle. There is a bruise on the head, and the watch band was broken, as though an assailant had grabbed for the dead man's watch. Col. Comfort was about 50 years of age. He was born in New York state, but had resided in Chester for many years.

ROUNDS OUT MERGER.

Montreal, July 13.—The transfer of the property of the Dominion Wire Company to the Steel Company of Canada was made today, thus rounding out the Hamilton steel merger. This is the last company included in the plans to come in. The plant at Lachine alone is estimated at \$1,000,000, and it employs 350. There was some trouble about the terms, and finally it is stated straight purchase was resorted to.

BOY BANDIT CAUGHT.

Pittsburg, Pa., July 13.—Edward McDonough, aged 17, the third of the boy bandits who held up a street car early Sunday morning, was arrested. Police Lieutenant Scriver Stewart, was captured early today in the kitchen of his home in Shaterville by a policeman in plain clothes who had been watching the house for 20 hours. McDonough said he had hidden all day in the weeds near his home while the rain drenched him to the skin. While his companions under arrest asserted McDonough fired the shot that wounded Lieutenant Stewart, McDonough claims that he was on the fender of the car covering the motorman with an old rusty revolver which would not work. He ran when he heard the shot. He will be held to await the result of the lieutenant's injuries.

U. S. REPUBLICANS ARE FORCING CRISIS

Who Is to Lead, President Taft Or Ex-President Roosevelt?

Beverly, Mass., July 12.—A real crisis in the affairs of the Republican party is rapidly approaching. Whether leadership is to be divided with Col. Roosevelt or President Taft is to assume and insist upon undisputed leadership is a problem that has begun to press itself upon the President and which he must sooner or later decide.

Senator V. Murray Crane, of Massachusetts, sent for by the President to come here and discuss the general political situation with him, put some bad facts before Mr. Taft today and departing left the titular head of the party in thoughtful mood. Secretary Nagel and Attorney-General Wickersham also conferred with the President.

Senator Crane Impatient.
Senator Crane is one of those who do not believe in divided leadership, and as he is a man upon whom the President has depended in many close political and legislative contests and upon whose judgment he relies, his views in the present emergency carry great weight.

Senator Crane never talks for publication and he was no more communicative today than usual. He left at 7 o'clock this evening. As he was departing the Senator admitted that politics had been discussed. Secretary Norton later echoed the same sentiment. Concurrently, rumors are afloat that it was very big politics that the little group discussed in the library out at Burgess Point, and that the end was not yet.

The wheel horses of the party—the men who are depended on after all to achieve results—who collect the campaign funds, put the legislation through Congress, carry the election—are becoming restless. The fall campaign is approaching, the government in a score of states, the fate of a dozen or more senators, the control of the national house are all at stake and politicians great and small are getting cross-eyed watching Oyster Bay and Beverly at the same time. Who is to look to for leadership is the problem.

Roosevelt Uncertain Feature.
And while Col. Roosevelt is doing a fine bit of political circus riding, with one foot on the insurgent horse from Indiana and the other from reaction, the horse from Massachusetts, Taft is sitting silent at Beverly doing nothing.

There should be some distinct, definite, dominant leadership with burden of advice that Senator Crane gave to the president today. And he added that the need was becoming urgent. With affairs running wild, as at present, a badly split party will enter the campaign in the fall doomed to certain defeat.

That much as to the general situation which reflects the views of Senator Crane and all the regular element of the party, which is chafing under the advertising that is being resorted by the visits to Oyster Bay of the insurgent chiefs. Coming down to particulars, there are two here today rumors that some of the President's friends are not pleased with the candidacy of

Loeb, jun., for governor of New York. They do not object to Loeb, whom practically everybody admires.

Sentiment Against Loeb.
But they do point out that the wide advertisement of the fact that Loeb came here at the invitation of the President, coupled with the statement that Taft asked or suggested to Loeb that he run for governor of New York, might convey the idea that Taft is seeking to placate Roosevelt. And this is just what the wheel-horse does not want. They want Taft to assume the undisputed leadership because a President can reward and punish, while a former president, an "independent, private citizen," so to speak, cannot.

The sentiment against Loeb has developed through the unrest of the stalwart leaders who fear that the present uncertainty will wreck the party, and who can see no hope through a divided leadership or even through the leadership of the Sage of Oyster Bay.

There were other things discussed at Burgess Point today. But this was the main topic. Just as the progressives are pulling at Roosevelt, so the stalwarts or regulars have begun to tug at the President, and the situation is rapidly becoming acute.

What decision the President will come to is a matter for the near future.

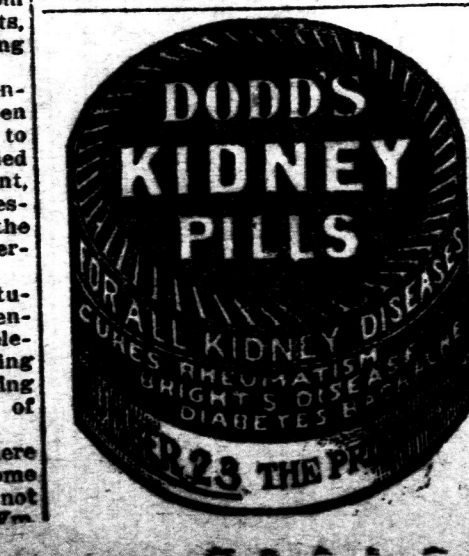

A WHITE SLAVE CASE.
Port Huron, July 13.—Held captive for five months in a Chicago resort, Edna Mollen, a pretty young woman of 25 years, passed through Port Huron last night on her way home to Montreal, from where she was taken by a strange woman for alleged immoral purposes. The girl was in charge of Inspector Plumby, of Chicago. The woman who spirited her away was placed under arrest, and is now awaiting sentence.

SPANISH TROOPS READY.

Madrid, July 13.—Spanish troops are being concentrated in the Province of Valencia in preparation for the move on Catalonia.

THE HARTIE CASE.

Pittsburg, Pa., July 13.—Mrs. Mary Scott Hartie, wife of Augustus Hartie, the millionaire paper manufacturer of Pittsburg, entered in common pleas court today an amended libel in the divorce proceedings, which have been going on for several years. Mrs. Hartie was on the stand herself this afternoon and declared that her husband had not lived with her since July, 1905, and that since then he has not contributed to her support. Judge Frazer accepted several papers from

her attorney and said that he would announce his decision later. Almost simultaneously with the court proceedings a Pittsburg evening newspaper appeared with a story to the effect that a final divorce had been granted and that a cash settlement had been decided upon, but this was unconfirmed.

ACT ON BARGE LIVE ON WATER

Travelling Theatre, Using Rivers for Transportation, Feature of French Life.

London, July 13.—The theatre of canvas and sticks which travels about from village to village is a common enough institution in every country, but there is something of a more quaint flavor about the theatre on a barge, which, with its players, travels along the waterways of France and Germany. Along the banks of the rivers and canals teams of horses draw the barges on which the theatre is constructed and the players live.

The theatre has a stage about eighteen feet wide, and there is room for an audience of five hundred people. A second barge is fitted with twelve cabins, in which the eighteen players who form the company sleep. It has also a writing-room, dining-room and a kitchen. A third barge carries all the stage properties, including the scenery, a carriage, six horses and a donkey. When they arrive at a particular "stand" the members of the company start to dress and make up, and parade the town to announce their advent. As they have an extensive repertoire they often make a stay of several days at one place, to the delight of the natives, to whom they bring a breath of the outside world.

While moving from place to place the theatre of the players is very quiet. They dress and live like fisher folk, wearing quaint semi-maritime clothes and living the simple life. They are constantly adding new plays to their repertoire. The women make all the dresses and the men are very handy in painting the scenery. They are a very happy crowd and are said to make a very comfortable living out of their "International Marine Theatre."

BE A CHARMING WOMAN

You never saw a beautiful woman who didn't have beautiful hair. The charms of a beautiful woman lie in her hair. Many women do not realize the attractions they possess because they do not give proper attention to the care of the hair.

The women of the "400" are famed for their beauty, not because their facial features are superior to those of other women, but because they know how to keep young by supplying vigor, lustre, and strength to the hair. Up to a few years ago Parisian Sage could hardly be obtained in America. But now this delightful hair restorer can be had in every town in America. Cairncross & Lawrence sell it in London for 50 cents a bottle, and they guarantee it to grow beautiful, luxuriant hair; to turn dull, lifeless hair to lustrous hair; to stop falling hair; to stop itching of the scalp. Understand, Cairncross & Lawrence will give you your money back if it fails.

Medicine Treatment Draws Out Pain
Sufferers with the Rheumatism, Gout, Gravel, etc., should use this medicine. It is sold by all druggists.

TWO LONDON RINKS
IN O. B. A. FINALS

Charley Abbott and Bert Heaman
Clean Up at Niagara
Tourney.

ED. SHEA WAS DEFEATED

Third London Four Put Out of Conso-
lation Event by Balm Beach
Yesterday.

Niagara-on-the-Lake, July 14.—Bert Heaman and Charley Abbott, of London, are left in the finals for the trophy at the Ontario Bowling Association here today.

The Forest City men cleaned up on everything, and this afternoon will meet to decide the winner of the coveted cup. Ed Shea, the third London skip, who ran into much hard luck, is out of everything now. R. F. Argles, of Balm Beach, having defeated him in the Consolations yesterday.

The win of the London boys in the main event is exceedingly popular, and interest in the finals this afternoon is very great.

The scores:

London.	Peterboro.

A DAY IN THE SPORTING WORLD

CRAWFORD'S HIT
WINS FOR CHAMPS

Wahoo Sam Scores Two Runs
in Pounding Three Base
Smash.

OVERCOMES THE LEAD

Mullin Drives in a Home Run, Putting
Tigers on Right Side of Score for
First Time During Game.

DETROIT, July 14.—One great smash from the bat of Sam Crawford sent two Tigers across the plate in the ninth inning of yesterday's game with the Nationals, and broke the losing streak of the champions. For but one run was needed to tie the score at this time, and the drive was long enough to allow Cobb to score the second run that won the game all the way from first, making the score 7 to 6 in favor of the Tigers. The score:

D.T. A.B.R.H.O.A. WASH. A.B.R.H.O.A.

D. Jones	3	1	1	0	0	0	0	0	0
B. Smith	3	1	1	1	0	0	0	0	0

Hit by pitcher—Johnston 1 (Cobb).

Wild pitch—Gray.

Umpires, O'Loughlin and Egan. Attendance, 5,919.

BARRY'S HOME RUN

WINS FOR ATHLETICS

Philadelphia Shortstop Hits for Four
Bases With One On in
Fourteenth.

Philadelphia, July 13.—Barry ended a pitcher's record of 10 consecutive wins in the fourteenth inning today by making a home run with two men out, the score 10 to 9. The ball rolled over the fence and went into the left field bleachers. Philadelphia made six hits for extra bases, but could score only two runs, one in the fourth and one in the eighth. The game was a close one, with Philadelphia leading 10 to 9 in the fourteenth inning. The score:

TILLSONBURG HEALTHY

Provincial Board of Health Approves the Sewage Plans.

Toronto, July 13.—The provincial board of health today decided to send Inspector Bell on a tour of summer resorts to see that health laws are complied with. Mr. W. H. Moore, of Peterborough, complained that Stoney Lake was being polluted by some big hotels. Sewage plants of Alma, Oshawa, Tillsonburg and Trenton were approved, as were the plans for Coldwater's water supply. The board expressed its high appreciation of the work of Dr. Hogg, the former secretary, who is now in the Dominion Government employ.

BLACK HAND IS SLAIN BY GIRL

He Had Shot and Killed Her Father Because Refused Money.

New Orleans, La., July 14.—Joseph Manzella, an Italian proprietor of a saloon and grocery at St. Philip and Decatur streets, fell a victim to the so-called "black hand society" today. His death was avenged a few seconds later when his 17-year-old daughter shot and killed the assassin as he was attempting to escape.

Manzella had recently received many letters demanding money. Shortly before noon an Italian called at the store and demanded money as a representative of the society. When ordered to leave, he shot Manzella in the breast. As Manzella fell he drew his revolver and fired.

Young Josephine Manzella rushed into the store and gave chase, firing as she ran.

When the police arrived the girl was bending weeping over the body of her father. The slayer lay in the gutter near the entrance with three bullet wounds near his heart.

The assassin was identified as Guido.

ROOSEVELT NEUTRAL

Emphatically Declares That He is Neither Rebel or Regular.

Oyster Bay, N. Y., July 14.—Theodore Roosevelt said with emphasis today that he has taken no stand as yet in favor of either the insurgents or the regulars in the Republican party; and he desires to correct any impression that he is showing favoritism. Of the situation within the party in New York State he said that he saw only harmony ahead.

"I want you to make it clear," he said to interviewers, "that I am seeing both sides and that my main interest is in the state, but on national issues I want to see both regulars and insurgents, party men and independents. I want to see Democrats as well as Republicans."

"But you don't want to see Democrats win?" he was asked.

"Not if the Republicans do the right thing," replied the colonel.

Timothy L. Woodruff, chairman of the New York Republican state committee, and a staunch organization man, was in the house as Colonel Roosevelt explained his attitude. So was Representative Charles N. Fowler, of New Jersey, who is a first-to-last insurgent. During the day Colonel Roosevelt had talked with them both and apparently with equal affability.

CONTRACTORS' CAMP RAZED BY FLAMES

Kingston, July 14.—News of a disastrous fire in a construction camp on the National Transcontinental has reached here. F. Courtney, one of O'Brien's contractors, situated at mile 147, about 100 miles west of Cochrane, was burned out last Sunday by a forest fire.

The camp was destroyed, amounting to \$25,000 damage, partly covered by insurance. The men sought refuge in water up to their necks to keep from being burned to death. One man, Daniel Egan, suffered severe burns on the arms and face, and had to be taken to the hospital at Mississauga River, 100 miles away.

The powderhouse, containing five tons of dynamite and five hundred cases of powder, was saved through the foresight of Courtney, in having it banked with two layers of clay.

McLACHLAN WARNS ON DEATH MARCH

On Way to Gallows Says Whiskey Caused His Downfall.

WAS THERE CONFESSION

Clergymen Who Attended To His Spiritual Wants Refuse To Say.

Whitby, July 13.—Archie McLachlan was executed this morning at 7:06 in the jail yard on a closely-boarded scaffold. When the Uxbridge clerk met his fate Ontario County saw its first hanging, though not its first murder.

The gallows were 12 feet high; the drop was 7 feet 4 inches. Instead of a lever, a mallet and bolt operated the trap, and the blows striking the bolt made by Hangman Phillips mangled an otherwise speedy and effective execution.

McLachlan's neck was broken, and his heart ceased to beat in eight minutes.

"A most merciful death," said Dr. Frank Warren, the jail surgeon.

Was Not Afraid.

McLachlan slept from 12:30 until 5 a.m., ate a light breakfast, saw his spiritual advisers, and at 7 o'clock entered the jail yard. He walked with firm tread to the scaffold and up the steps. His face was pale, but on it was neither defiance nor terror. He was serious, not afraid. He had never minded himself for the ordeal.

According to Rev. Mr. Tighe, Baptist minister, who had left him at midnight and was with him at 6 o'clock this morning, McLachlan recognized his position, and decided to face it like a man.

"He was a man ready to die," said Mr. Tighe afterwards. "He was a converted man."

About fifteen persons, including officers and reporters, saw McLachlan explain his crimes. Rev. Dr. Abraham and Rev. Mr. Tighe were with him on the scaffold.

During the last service he was to have on earth, the most about his neck and the black cap over his face. McLachlan said in a clear, unflinching voice, "Lord Jesus, to Thee I commit my spirit."

Mr. Tighe had been reading from Luke a few minutes before Rev. Dr. Abraham repeated the Lord's Prayer and the trap was sprung. The body was cut down, placed in a coffin, and viewed by a jury, to be interred later in Union cemetery, north of town.

Officially Affected.

Officials and ministers were deeply affected. Among them was Rev. Mr. Tighe, who protested against an article in a Toronto paper, in which it was said that McLachlan did not feel his position.

"He did feel his position," said the minister. "That and similar articles were a cruel barbarism. McLachlan gave me a message, in which he asks the mercy of God for his sins, and what strong drink has done for him and to keep away from it."

A Model Prisoner.

McLachlan was a model prisoner, giving no trouble, and while some of the model of respect for guards and others, despite his triple crime. From his barred window this morning he saw some men on the court house in course of repair. He complained to the sheriff, and the uninvited spectators retired. The town itself, however, shunned the jail precincts, and on the streets at the hour of death only a few small boys were to be seen. McLachlan bore up wonderfully from the time of his arrest until yesterday, when he asked the sheriff to come into his corridor.

"It is a sad, sad story, though it will be over soon," he said to the minister. "I have given a message to Rev. Dr. Abraham. It's for young men, and I send it to emphasize what whiskey has done for me."

Left a Message.

The press saw Rev. Dr. Abraham last evening regarding McLachlan's message. He had been with the young man an hour or two before.

"McLachlan has given his soul to me," were Dr. Abraham's first words, "and as a minister of the gospel, I feel that what he has told me is confidential. He wanted me to take his statement in writing, but I declined. I have nothing to say to his guilt or innocence. When I saw him first nine months ago, I told him that I wanted to know the causes of my trouble, and he told me that he was a drunkard, and as such sacred. I feel morally bound to keep back what is given to me in confidence."

"He did not give me a message, however, one to be a warning to other men. Whether guilty or innocent, he was led into trouble by flirtation and drink. Young men, married men, and everybody should bear it in mind."

"The message he gave me is this: 'I am going to the gallows without any fear. My position today arises from my love for women and liquor. This is the message that I would send to young men, yes, all men, single and married, to warn them to avoid the causes of my trouble. I would urge all men to abstain from whiskey, to refrain from flirtation, and to lead strictly moral and upright lives.'"

Had Strong Physique.

Short and stout, he had a marvellous development of muscle, hard as iron, as a coroner's inquest disclosed. His mentality, except the moral side of it, was like his physical make-up. Even in not making a formal and open confession he has further evidenced a strange composition. That he has made a confession appears from the statement made since the execution by Rev. W. B. Tighe, one of the clergymen who has attended him. Mr. Tighe said McLachlan would like to state for him that people should remember in thinking of his crime that it was drink that had done it."

The hangman is an insignificant-looking, undersized person with a leering smile. He wore glasses, and has a sandy complexion. He speaks with the broad accent of an Englishman.

McLachlan, on Ellis' advice, was given a dose of morphia in place of the usual dose of brandy before the gallows. He was in a dazed condition, having an extended record in the old country.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil cleanse the system. It is safe and sure. Sold by all dealers.

Pretty Montreal Girl Rescued After Five Months' Captivity in Chicago Resort.

Port Huron, Mich., July 13.—Held captive for five months in a Chicago resort, Edna Minton, a pretty and possessing young woman of 22 years, passed through Port Huron this afternoon on her way home to Montreal, from where she was taken by a strange woman for alleged immoral purposes.

The girl was in charge of Inspector Plumby, of Chicago, and being unable to speak or understand English, her plight is all the more pathetic. According to Inspector Plumby, Edna was kept a prisoner in one room of the house, her clothes being taken from her by her woman escort. However, she refused to compromise herself, and until she told her story to a man of her own nationality one night were steps taken for her release.

When the authorities were notified, the woman who spirited her away was placed under arrest, and paid a fine of \$2,000 in the state court of Illinois. She is now awaiting sentence by the United States court in that district. The girl appears none the worse from her experience.

When the girl went through here she could not speak nor understand English, and the woman who was with her posed as her mother," said one of the local inspectors this afternoon. "We cannot halt every woman who passes through here, and that's how the Chicago woman happened to get through the line."

PENNSY TRAINMEN VOTED TO STRIKE

15,500 Employees Are Ready to Quit the Job.

Philadelphia, July 13.—Representatives of the conductors, trainmen and yardmen on the Pennsylvania railroad lines, east of Pittsburgh, Erie, and Buffalo, notified General Manager W. H. Myers this afternoon that a large majority of the members had voted "yes" on the ballot which empowered the men's general committee to call a strike unless they reached an agreement with the company on the matter of wages and working conditions.

Mr. Myers informed the delegation that the Pennsylvania Railroad is willing to meet the conditions which prevail on other roads providing the company is put to no additional expense.

At the request of the union leaders, another conference will be held with Mr. Myers tomorrow morning. In the meantime the 123 delegates representing the 15,500 men are considering the result of the conference.

The complete count of the ballots showed 1,863 conductors had voted in the affirmative and 448 against the strike proposition. The vote of the trainmen was 10,913 in favor and 965 against; those not voting were included in the negative votes.

BILL TO WIRELESS ALL BRITISH SHIPS

London, July 13.—Sir Edward Sassoon's bill, making compulsory the equipment of all passenger vessels with wireless, passed the first reading in the House of Commons today. It provides that all ships, both British and foreign, which embark passengers at British ports, must be provided with an installation capable of receiving and transmitting a distance of 100 miles. A penalty of \$5,000 in the event of a failure to obey the law is provided.

Mr. Andrew Leitch, of Butler College, Indianapolis, Ind., was a caller at Idlewild Cottage, Orchard Beach today.

LOOKS LIKE HOBO TO DODGE HOLD-UP

Rich Hungarian Thinks That Americans Are All Brigands.

New York, July 14.—Wearing the garb of a tramp to give the impression that he is a poor man, Lajos Berber, one of the wealthiest land owners of western Hungary, has arrived on the last lap of a trip around the world. Although over 65 years old, Mr. Berber has never been absent from his frontier home before, and he entertains the idea that America is filled with brigands which he can dodge only by unceasing vigilance and the avoidance of external signs of prosperity.

When he registered at a local hotel with his two companions, both husky six-footers, he gave orders that he was not to be approached by any stranger.

One of the two huskies is a nephew of the aged traveller, Michael Berber, professor of chemistry in a school at Budapest. His other companion is an Italian who acts as interpreter. This man said last night, explaining the elder Mr. Berber's eccentric garb and customs:

"Life on the frontier of Hungary is very primitive. It lies next to the outposts of Turkey and the folks have strange ideas about the other parts of the world. Mr. Berber has feared all along that if he dressed in style he would be robbed. We have repeatedly begged him to buy new clothes and then visit the barber, but he clings to his old clothes and says: 'asserting that no one will rob a man who does not look prosperous.'"

"He has heard strange tales of robbery in America."

MONTREALERS HAVE BEEN HARD HIT

Recent Slump in Wall Street Stocks Cost Them a Million.

Montreal, July 14.—A local broker estimated that during the recent slump in New York securities Montrealers lost in the neighborhood of \$1,000,000. There has been much hardship following in the wake of this violent market decline in the city, and even some of the wealthiest of Montreal capitalists have suffered heavy losses.

MAJOR TALBOT DEAD.

Chenue, Wyoming, July 13.—Major John Talbot, U. S. A., retired, a famous civil war veteran, Indian fighter and pioneer, died at his home here today, aged 73.
