PROBLEM OF HEAT SYSTEM

Trustee Clements Opposes "Hole-in-Corner" Committee Methods and wants Public Discussion.

Two Efficient McKeough School Teachers Recognized—How Did Teachers Spend May 23?

The meeting of the Public School Board last evening was short but full of business. There were no unnecessary delays although it seemed for a time that the discussion would be lengthy over the Central School heating question.

This was the most important question to come up at last night's meeting but it was decided to give the committee more time to go more fully into the matter. Mr. Robertson, the chairman of the committee, moved that the matter be left with the committee for another month. This was seconded by Dr. Bray and carried.

Dr. McKeough—This is one of the most important matters to come before the Board this year and I admire the caution and care the committee is taking in the matter.

Dr. Bray—We are working hard on the question but we have to go slowly.

Mr. Clements brought up the same matter later on in the evening. He said—

"I understand that there are people here who could enlighten the board on this heating matter. Now I would like them to be heard. If we are going to put in a new heating system in the Central School it is necessary to put it in as soon as possible. Mr. Robertson—We wished an extension of time as we are going into the matter thoroughly we are giving it as little publicity as possible.

Mr. Clements—I don't like this hole-in-the-corner business and would like all sides heard and discussed at the Board.

Dr. McKeough—If we can get any information whatever on the subject we should do so.

Mr. Paxton—The tenders are not public but the committee know them.

Mr. Cornish—Were all of the members of that committee present when the tenders were opened? I understand that Mr. McCorvie was never notified of the meeting.

Mr. Robertson—We met last Saturday night and I knew Mr. Morley and Mr. McCorvie would be too busy to attend.

Dr. McKeough—Who are the gentlemen on the committee?

Mr. Robertson—Messrs. Robertson, Dr. Bray, Paxton, Morley and McCorvie.

Mr. Clements—What I want is an intelligent discussion on the subject when it comes up. This we cannot have if these matters are kept in the dark.

Mr. Heyward—Would we have time to install the system if we decided at the next meeting?

Mr. Robertson—We would not have time to install the system if we decided now.

Mr. Watt, who was in the audience, claimed that either system could be installed in two months' time.

Mr. Paxton—The committee has not been idle.

Mr. McCorvie—We can call a special meeting at any time.

Dr. McKeough—Personally I have every confidence in the committee.

Every member was present at the meeting. Chairman McCorvie, Trustees Bray, Robertson, Paxton, Benson, McKeough, Clements, Cornish, Heyward and Morley.

J. W. Plewes, Principal of the Central school, acknowledged with thanks his increase of salary.

Miss Hattie Hall's application for a position on the teaching staff was filed.

Dr. Bray reported progress in reference to the summer school. The committee may have to ask a grant of not more than \$50 from the School Board.

Dr. McKeough—We have had several holidays, to which I have no objection. I understand the 23rd of May was made a holiday because of the teachers' convention in Windsor. I would like to ask how many Maple City teachers attended that convention.

Dr. Bray—I don't know how many teachers attended, but the committee had the question of manual training brought before that convention.

Mr. Cornish—A number of teachers went down on the boat, but I don't know whether they attended the convention or not.

Dr. McKeough then moved that Miss Helen Young, teacher in McKeough school, receive an increase of \$40 a year in her salary. Making it \$440. Miss Young, he said, had been teaching for five years successfully, faithfully and conscientiously.

Mr. Heyward seconded the motion and it carried unanimously.

Miss Ella Longwell, another valued member of the McKeough School staff, who had efficiently taught there for 15 years, was also given an increase to \$415 a year, on motion of Dr. McKeough and Mr. Heyward.

Dr. McKeough, in making this motion, said he was just asking for justice.

Mr. Paxton—If the managers of McKeough school have not had justice

THE TARIFF PROPOSITIONS

The budget speech of Mr. Fielding was submitted at Ottawa yesterday.

The Government proposes to refer the question of the tariff to a Royal Commission. Meanwhile several subjects are dealt with. The application of the Standard Oil Company for the reduction of the duty on crude oil is favorably received. Crude oil under 40 free. Refined oil reduced from 5 to 2 1/2c per gallon. Crude oil producers to receive bounty of 1 1/2 cents a gallon.

Woolen duties revised by reduction of (British preference).

British woolsens, except blankets, and counterpanes, to bear a duty of 30 per cent. instead of 23 per cent.

British-made cordage to pay 20 per cent. instead of 16 per cent.

Duties on window glass and pails and tubs slightly increased.

Plate glass for mirrors, from United States, duty reduced.

Following articles added to the free list—Goats, whale oil, plain photographic paper, flat glass for dry plates; ferment, cultures for use in butter-making, printing presses not made in Canada, machinery for making linen, flax goods, and brass, and for drilling wells, artificial teeth.

Stallions and mares worth less than \$50 prohibited.

Goods that are undervalued to be charged the difference between the fair market price in the country of origin and the price at which they are entered for duty.

HAS FALLEN?

Rumored Taking of Port Arthur by Japanese With Stupendous Losses.

(Via Proctor's wire.)

New York, 2 p. m., to-day.—Several houses here have received news stating that Port Arthur has fallen.

A later despatch from New York says it is reported that the Japanese casualties in taking Port Arthur were a loss of in the neighborhood of 11,000 men.

DYNAMO BURNT

The Reliance dynamo at the electric light station was burned out Sunday night and City Engineer Jones has no dynamo to put in its place. This means that one circuit will be out every night until the Reliance dynamo is repaired. Each night a different circuit will be out so as to give the whole city the benefit of what light there is.

FIREMEN DID WELL

The Veteran Firemen met last evening and wound up their affairs in connection with the recent Re-union celebration. The Firemen managed and financed their own blowout. Some sixty dollars was subscribed and after all expenses had been paid there was still a dollar in the treasury. This is a tribute to the skill displayed by the officers of the Veteran Firemen's Association in financing their celebration. This is the only committee that managed their affairs and ended without a deficit, and the only committee that carried out their program without a hitch.

Votes of thanks were tendered Wm. Potter and Geo. Wanless for the efficient way in which they had discharged the duties of their offices.

THE BIG GAME

Every preparation is being made for the big Chatham-Wallaceburg lacrosse game next Friday in Wallaceburg. A special train will leave Chatham at 2.45, and it will return to the city before six o'clock.

It is expected that the Tecumseh's new point player, Francis, and the hustling home man, Freddie Dowling, will be here. They are at present touring with the Varsity lacrosse team. If they are not here for Friday they will be for the return game.

The Tecumseh line-up will be selected to-morrow evening by the team committee and Manager Babcock. The exact line-up is not yet known, but the management have a few surprises in store for the local supporters of the game.

Wallaceburg has been strengthened by several new players, who are already on the spot. It is said that Tommy Lawlor will again wear a Wallaceburg uniform.

Brown Jackson, of Seaford, will be the referee if he will accept; if not, one will be appointed by President Frank, of Brantford.

It should be remembered that this is not a junior but a senior game, and has nothing whatever to do with the junior games played by the Bugle Band team. This will be one of the big games of the year. Wallaceburg was successful over Chatham last year, but they will find the Tecumseh's a far different proposition this year.

COUNTY COUNCIL NOW IN SESSION

The Summer Sittings of the Kent Parliament Opened Yesterday.

Differences Between City and County Will be Settled by Arbitration.

TUESDAY AFTERNOON.

Warden Sifton, Chairman of the Committee appointed at the June sessions of 1903, to arrange a basis of settlement (fixing the proportion to be borne by each corporation where accounts are paid jointly), reported that the Committee had met with a committee from the city council. After several meetings, it was thought that an agreement would be reached but the Mayor and Aldermen had refused to sign the agreement after it had been prepared. The Committee now recommended that the questions in dispute should be referred to arbitration. This report was laid over.

Warden Sifton explained what had been done at each of the meetings of the joint committee. After the agreement had been drawn up in accordance with a resolution, Mayor McKeough had refused to sign the agreement. The Mayor said that he was trying to play a little sharp game and he wouldn't have anything to do with it. Ald. Scullard and Ald. Marshall had "O.K.'ed" the agreement, but afterwards refused to acknowledge it.

A last meeting was held at which all were present. Figures had been prepared but the Mayor said that he had no time for figures and the Warden could either sign it or shut up. He refused to do either. The point in dispute was as to the registry office. As far as he was personally concerned he wouldn't give way but if the Mayor was willing to come forward and sign the petition, the wardens would offer no objection. He advised that the report be dealt with at once.

The Warden for the committee appointed to adjust the dispute between the city and county as to the payment of repairs to Harrison Hall, reported that they had met a committee from the city council. They refused to pay more than 1-4 of the cost of the new heating plant, claiming that it came under the head of maintenance. The county claimed that the city owned 1-3 of the hall and they should pay 1-3 of the cost.

The city tendered \$687 and after consulting the County Solicitor, it was accepted. When Harrison Hall was built the total cost of buildings and site was \$44,203.77. The committee still contended that all improvements should be paid on this basis. They advised that in future the matter should be referred to arbitration. The report was adopted.

J. N. McCoy, chairman of the special committee appointed to investigate the arrears of taxes reported that they had met and had passed the following resolution—Moved by Mr. Chinnick, seconded by Mr. Sifton, that the taxes on the south half of lot 9, con. 3, and the north half of lot 10, con. 3, in the township of Tilbury East, be struck off upon the receipt of a statement from S. B. Arnold that he has made the necessary search for the arrears of taxes and found nothing against the said properties. The report was adopted.

On motion of Mr. Ross, seconded by Mr. Grant, the auditors' report was referred to Finance Committee.

Treasurer J. C. Fleming presented his estimates of expenditures for the current year as follows—Total expenses to be met \$54,439.73, due from Government grants \$19,439.73. Net amount to be provided for \$35,000.

James Gosnell, inspector for the House of Refuge, reported as follows—There are 37 inmates in the house of Refuge. The number that are in from each of the municipalities is as follows—Camden 2, Chatham 7, Dover 3, Harwich 4, Howard 4, Orford 3, Raleigh 0, Romney 0, Tilbury East 1, Zone 2, Bothwell 5, Bleasdale 3, Ridgetown 3, County 9.

The amount expended chargeable to keep of inmates, \$4,487.20. The cost per week for board of inmates is \$1.41. Total cost of board, clothes, etc., was \$293.43, of which \$536.04 was paid by the county.

The report was adopted and H. J. French complimented the inspector upon it.

The county will arbitrate their differences with the city and will leave it to a board of arbitrators to decide what share of the administration of justice accounts the county shall pay. The report recommending leaving the matter to be settled by arbitration was adopted this morning, and a by-law appointing an arbitrator will be passed this week.

Mr. Grant gave notice that he would introduce a by-law to appoint an arbitrator to settle the differences between the city and county re administration of justice and other matters pertaining to the interests of the county.

Mr. French gave notice that he would move for a grant to the town of Dresden to assist in repairing the bridge there.

Mr. Robinson gave notice of a motion for the appointment of a committee to investigate the liability of the county for Jeannette's Creek bridge.

Mr. Ross gave notice of a motion

WEDNESDAY, JUNE 8.

LEADERS SINCE CONFEDERATION.

Thirteen years ago to-day Sir John Macdonald died, says the Toronto News of Monday, and serious as were his political faults, and doubtful as were many of his political methods, the sense of a mighty loss united the whole people in a common mourning. Around his memory gathers something of the halo of romance which gives the Stuarts immortal place in the hearts of Scotsmen through all the generations. Even while he lived he inspired a vagrant affection in many of his political opponents, and as the years pass and old passions subside, and ancient feuds are forgotten, his memory seems to grow into the imagination and fibre of the Canadian people.

He more than any other man was the dominating influence in the consolidation of the Dominion. He more than any other man inspired and developed the spirit of British nationalism which informs and animates the Canadian Confederation. All over this wide land, in the West where his later hope was set, in the East where he builded in his prime, in Quebec which he understood, in Ontario which loved him well, his name is cherished and the best possession of a great party, while his ancient foes look up to the bronze figure in park and square, and care only to remember that the finished work of the statesman becomes the common inheritance of the whole people.

No more striking picture of Sir John Macdonald, no keener analysis of his character and methods, no more prescient revelation of the secret of his power has ever been made than is contained in a contribution from Mr. W. F. Maclean, M. P., which appeared in The Canadian Magazine a few years ago. It bears the suggestive title of "The Canadian Themistocles." Here is a luminous extract:

"Sir John had a wonderful influence over many men. They would go through fire and water to serve him, did serve him, and got some of them, little or no reward. But they served him because they loved him, and because with all his great powers, they saw in him their own frailties. He abounded in the right kind of charity. And speaking of the love his friends and followers had for him, Mr. Pope dwells on the 'old guard' and the old loyalty to the chief. So it was, but there were dark days also, when even those who afterwards enrolled themselves in the guard passed by on the other side. If ever there was a man in low water, it was Sir John as I saw him one day in the winter of 1875, coming out of the House into the bitter air, dressed in an old Red River sash and coat, and the old historic mink-skin cap, tottering down the hill to the eastern gateway alone, others passing him with a wide sweep. The lesson of Sir John's life is that he pulled himself out of those days and trials into higher and more solid footing. But Sir John's real 'old guard' were not the men who stood with him at Ottawa, but the greater old guard who stood and fought for him in every township, year after year, and to whom a call by name or a nod of the head was all the recompense they got and yet the recompense they most prized. Sir John has been praised for his statesmanship, and for this I, too, give him all praise. But his statesmanship was limited to two things—carrying on the Government when no one else could do it, and do it so well and so continuously, and forging the country together. He originated no great principle. He appropriated, however, freely from others when an opportunity offered, or when he thought another's idea would lead to or keep him in office."

HEALTH FOR GIRLS.

Dr. Williams' Pink Pills Make Strong, Healthy, Rosy-Cheeked Lassies.

"I was attacked with appendicitis," says Miss Fabiola Grammont, daughter of Mr. Charles Grammont, a prosperous farmer of Champlain, Que., "and while the doctor who attended me cured me of this trouble, it left behind after effects from which it seemed almost impossible to recover. I grew weak and very pale; my appetite was poor; I suffered at times from severe headaches; and the least exertion left me completely worn out. I tried several remedies, but instead of getting better I was gradually growing worse. Any work about the house left me weak and dispirited, and I felt almost like giving up. At this time a friend who had used 'Dr. Williams' Pink Pills with much benefit, strongly urged me to give them a trial. I got a box, and as I did not feel any better when I had used them, I would have given them up but for the fact that my friend urged that one box was not a fair trial. I then decided to continue the use of the pills, and by the time I had taken three boxes I found my condition was improving. I used eight boxes in all, and by the time I had taken them all my old time health had returned. My appetite had improved, I had gained in weight and the glow of health had returned to my face. I cannot too strongly recommend Dr. Williams' Pink Pills to all pale and weak girls."

Good blood is an absolute necessity, and the only way to have a constant supply of rich, red, health-giving blood is to take Dr. Williams' Pink Pills. Every dose helps to make new blood, and to drive from the system such troubles as anaemia, languidness, neuralgia, dyspepsia, rheumatism, etc. You can get these pills from any medicine dealer, or by mail at 50 cents a box, or six boxes for \$2.50 by writing the Dr. Williams Medicine Co., Brockville, Ont.

WALLACEBURG

June 8.—The many friends of Mrs. Dow (nee Miss Josie McKee), of Detroit, daughter of Mr. and Mrs. D. McKee, of this place, will be sorry to hear that she is seriously ill at her home at the former place. Mr. and Mrs. McKee, Miss Gwen and Mr. Ed. are now in Detroit.

Horseback Riding.

There is nothing that so develops the beauty of women as horseback riding. It not only develops beauty of form and complexion, but maintains it. Aside from the beauty, equestrianism develops a beauty of character which makes friends and an ability to hold them. It is universally admitted that American women are the most beautiful. And the most beautiful American women are the equestrians. Who has not seen or heard of the sweet Kentucky belle, with her Venus-like figure, bright, laughing eyes, a beautiful complexion that would put the damask rose to shame, a pose, a grace, artistic lines that are beyond the poet to describe or the artist to reproduce? This beauty of face, form and character is the inherited and acquired result of equestrianism.—New York Medical Journal.

Couches and Nerves.

Couches have saved more minds and nervous systems than all the doctors and medicines put together. It is the best refuge that the overworked housekeeper has, did she but know it, and the only fault I have to find with woman is that, as a rule, they do not use their couches half enough. When distracted by the infinite cares of the household and worried over this bill and that, she can throw herself down, stretched at ease, allow her troubles to straighten themselves out of their own accord. By these means hysteria is avoided, beauty is preserved, and the women's chances for eternal salvation are helped tremendously.—Philadelphia North American.

If Dodd's Dyspepsia Tablets Won't Cure the Spring Fever Victim He Has Something Worse Than a Bad Stomach.

With the warm days comes that disinclination to eat and that dreary far away feeling that is commonly known as spring fever.

And the victim of spring fever is a general nuisance. He's dissatisfied with himself, dissatisfied with everyone else and he leaves an air of dissatisfaction wherever he goes.

Do you know what's the matter with him? His stomach is out of order!

That stomach has been overworked and needs a rest.

How do you prove this? Give the spring fever victim a treatment of Dodd's Dyspepsia Tablets. They will cure him. If they don't he is troubled with something worse than a bad stomach. For no bad stomach is so bad that Dodd's Dyspepsia Tablets will not cure it.

GOIN' TO THE CIRCUS

"Hello, Hank, how be ye?" said a visitor to a friend at the market this morning. "Pretty perky, eh? Well, say, are ye goin' to the circus next Saturday? Me and Mandy and the kids is all goin', and if we don't have a swell time it won't be our fault. You see, we all go for different reasons. Now I go to see the girls ride bearback and do stunts at the side shows. Mandy, she goes so she can keep an eye on me, and the kids—well they've been simply dreamin' of pink lemonade, peanuts, monkeys and clowns for the last two weeks. Seems ter me as if I couldn't wait till the day comes, and I got so clean daffy over thinkin' of them lovely gals and sideshows, that so help me, I feed the horses swill and the pigs oats. The hull bunch of us is comin' in to the city at daylight on Saturday, with a big box of lunch, and we are goin' to put in a real sassy day. The last circus we was at, one of the kids took my lighted cigar from me when I weren't lookin', and give it to one of the elephants, who was holdin' out his trunk. Then there was doins for a few minutes and we thought a cyclone had struck the tent. I'll bet that elephant's layin' for me yet. Well, so long, Hank, and don't forget to meet me at the circus day with your outfit. I'll bet you will have a dang sight more fun than we had at the King street Coney Island sideshows last week, when the Texas Maidens broke so many hearts."

CHILDREN AT PLAY.

It is a Good Plan to Leave Them to Their Own Resources.

Children are often made irritable and troublesome to their too attentive and anxious mothers. A child should be let alone to play and amuse itself in its own fashion without constant directions from its mother.

Any one who has watched a child at play, either boy or girl, will soon discover that a large number of its games are purely a matter of imagination and that its play toys are not those which its elders would choose for it, but are of the simplest description, which only the imagination of a child could make attractive.

A fussy mother by insisting on her small son "walking properly" will often spoil the most delightful game of "pretend," in which the child will reproduce as far as possible all the kickings and prancing of a restive horse.

Thus she spoils innocent and healthy enjoyment, and by hindering his imitation of the manners and customs of a horse in his play she discourages the child from making use of the faculty of observation, a faculty which once repressed will with difficulty be roused when needed for the practical work of life.

Toys of a child's own choosing and very often of its own making are the best for it, and they need not be numerous. It is a good plan to leave the tots to their own resources in play.

FLATIRONS.

If Cared For Properly, They Will Improve With Age.

Flatirons in the average household are too often sadly neglected. They are very apt to be left on the back of the stove, where they can never become thoroughly cold, and where in time they lose their power to regain heat. Like all iron and steel instruments, they possess that peculiar quality called temper. Irons that are heated to a high temperature and then, as soon as the work is through with them, put in a cool place, to become thoroughly cold, will last many years. Irons grow more valuable with time if good care in some other respects is taken of them. For instance, they should be kept in a dry place, where they are not subject to rust or moisture.

Flatirons that have lost their temper and become rusted or roughened should be disposed of and not left to take up valuable space on kitchen shelves. New irons cost little, and it is poor economy to use old ones that are past their usefulness.

THE HOME DOCTOR.

Turpentine relieves cuts and wounds of all kinds.

A supper of boiled onions will do more toward breaking up a cold than will some medicines.

Beat the white of an egg with a piece of alum until it looks gelatinous and is stiff. Spread it on lint and lay on a sprain, changing as it becomes dry.

Do not use flour and molasses on a burn. The removal of flour or paste of any kind from a burn is torture, and the result is always doubtful, as it generally takes the skin off with it. Any good salve is better.

A good recipe for a lotion for weak, tired or inflamed eyes: Fifteen drops of spirits of camphor, one tablespoonful of powdered boric acid, two-thirds of a cup of boiling water. Strain through muslin, cool and apply twice a day.

The Stocking Problem.

Keeping down the stocking basket is the problem which confronts the woman who has to do the darning for a family. If there are small boys with a fondness for playing marbles and climbing fences she will find her labors much lessened if she gives up darning altogether and takes to mending instead. The tops of half worn stockings similar to those in use should be put away for this purpose. From these pieces matching in grain may be placed under incorrigible holes, the edges trimmed away and the going neatly made by what is known as "cashmere" darning. When properly done it is almost impossible to detect the repaired place.

Raw Eggs For Children.

The more thoroughly an egg has been cooked the more severe is the labor demanded of the stomach. If we would get from this article of food its utmost value it should be eaten either raw or underdone. Hard boiled eggs are suggestive of plenies and dyspepsia. Raw egg is a splendid stimulant when one is exhausted from any cause whatever. It is by no means unpalatable when eaten with salt, pepper and a dash of vinegar. For weakly children raw eggs beaten with milk make a first class food. The mixture may be sweetened with sugar, and it is best to give it in small quantities at short intervals.

Appearances at Home.

Don't say that it doesn't matter how you look around the house, for it does matter a great deal. It matters for the general credit of the establishment; it matters in its example to the children; it matters to the husband and father. It is one of the important duties of every woman to keep herself and her house in a condition as presentable as possible, considering her circumstances.

Iron Holders.

I make my ironing holders by cutting a piece from the top of an old kid boot and putting it between the folds of cloth I use for a holder, then binding around the edge, says an old housekeeper. It prevents burning the hand, and it can be used much thinner. A thick holder cramps the hand.

Dyspepsia AND Liver Disease CURED BY DR. PIERCE'S GOLDEN MEDICAL DISCOVERY.

"I was weak, nervous and dizzy, with a fainting sensation when walking," writes Jesse Childers, Esq., of Samuel Sullivan Co., Tenn. "Could not walk any distance, always felt bad after eating; felt as though something was sticking in my throat, always uneasiness in stomach. Doctored with three physicians but they did not relieve me. I grew worse and used everything I could think of; was nearly ready to give up and then some one told me that Dr. Pierce's medicine was good, so I began taking his 'Golden Medical Discovery.' I have taken seven bottles of that now and am as stout as ever, and enjoying health as much as ever before. I much as any one. My case was liver disease and nervous dyspepsia of which your medicine has cured me. In September 1896 my weight was about 95 pounds, now it is 105. Please accept my sincere thanks."

Catching Pigeons in Queenstown.

The ragged children of Queenstown catch pigeons in a curious way. Seated in a row on the edge of the pavement, they each have a string stretching into the road, at the end of which is a noose surrounding some tempting breadcrumbs. Homeless pigeons pounce on the meal and are as quickly jerked to the pavement by the cheering youths.—London Graphic.

A Caution.

Reginald—I love you, Madeline. For you I would give up family, position, wealth. Madeline—Hold, Reginald! Giving up family is all right; I fall would be spared a mother-in-law. Give up your position if you can get a better one, but please hold on to your wealth. We may need it.

The Wrong Market.

Mrs. Newlywed—Have you any nice slumps this morning? Butcher—Slumps? What are they? Mrs. Newlywed—Indeed, I don't know, but my husband is always talking about a slump in the market, and I thought I should like to try some.

Why He Didn't Pay.

"I have bet a silk hat with that man five times in the last year, and he has never paid me one of them." "That so? I didn't know he was in the habit of breaking his word." "Oh, he isn't; he won the bets."

He writes: "I have tried Doan's Kidney Pills and can honestly say that I never used anything better. I was so bad with my kidneys I could hardly raise myself up without help but Doan's Kidney Pills cured me."

"My wife was always complaining of a lame back, and they completely cured her." "Our son was also troubled with his kidneys and as your pills had done us so much good we got him to try them and they cured him as well. They are far ahead of doctor's medicine, and I advise a trial of Doan's Kidney Pills for all sufferers from kidney trouble."

ENDURANCE.

How much the heart may bear, and yet not break?
How much the flesh may suffer, and not die?
I question much if any pain or ache
Of soul or body brings our end more nigh;
Death chooses his own time; till that is given,
All evils may be borne.

We shrink and shudder at the surgeon's knife,
Each nerve recoiling from the cruel steel
Whose edge seems searching for the quivering life.
Yet to our sense the bitter pangs reveal,
That still, although the trembling flesh be torn,
This also can be borne.

We see a sorrow rising in our way,
And try to flee from the approaching ill;
We seek some small escape; we weep and pray;
But when the blow falls, then our hearts are still.

Not that the pain is of its sharpness shorn,
But that it can be borne.

We wind our life about another life;
We hold it closer, dearer than our own;
Anon it faints and falls in deathly strife,
Leaving us stunned, and stricken, and alone;
But ah! we do not die with those we mourn,
This also can be borne.

Behold we live through all things—famine, thirst,
Bereavement, pain; all grief and misery.
All we and sorrow; life inflicts its worst
On soul and body—but we cannot die.
Though we be sick and tired, and faint and worn,
Lo, all that can be borne!

—Elizabeth Akers Allen.

Sudden Summer.

The impatient wild flowers have come rushing and crowding to greet their friends after a protracted separation, says The Toronto Globe. Spring was so long unkind that they grew impatient under her restraints, and now, with the first relaxation, they have hurried forth to display the profusion of their charms. The impressed order and decorum of the debutants has been cast aside in their spontaneous haste for recognition. We look for the hepatica to raise its woolly flower stems from among the surviving bunches of last season's leaves and display its delicate tints of pink, purple, or blue long before the single leaf of the bloodroot unfold from the white flowers it clasps and guards with tender care. We expect the trillium to remain modestly folded awaiting her turn, and the dog-tooth violet to be content with the faintest suggestion of its delicately mottled leaves. The spring beauty, too, though among the earliest, is generally content to await its due order, and the trailing arbutus, reclining cosily among the leaves and litter of the past year, may open its hidden buds at any time, according to the whims and fancies of the season. But now the favorites have all come forth at once.

Sending Out Wind Breakers.

The forestry branch of the Department of the Interior is sending out seedling trees this spring to over one thousand farmers in Manitoba and the Territories, to be planted as wind-breakers for the sheltering of crops in the open prairies. This is about twice the number that were distributed last season. The varieties chosen are quick-growing and hardy, so that three years' growth gives foliage seven or eight feet in height. A new farm is being started at Indian Head especially for the cultivation of these trees, and a prize of \$1,000 has been offered by J. M. Haslam, a well-to-do farmer of Manitoba, for the best results in tree-growing in Assiniboia.

The Forestry Department has taken special measures to safeguard the timber in Western Canada. Fire notices are now being scattered by the Hudson's Bay Company up almost to the Arctic Circle, and the railway companies have given their hearty co-operation in this work of preserving the forest wealth from destruction. Special officers are detailed to see that where new lines are in course of construction the workmen take all due care to put out their camp fire as they move from one location to another.

Times Had Changed.

Toronto, in the olden days, had but two police stations; those in Court street and in Yonge street, near Elm. The projected increase in the personnel of the force calls to mind a case wherein Capt. Prince, the chief of thirty years ago, figured. He was walking up Yonge street one night when he heard a tremendous row going on in the highway. Capt. Prince, who was as game as a bull terrier, sprinted up the street and found that the trouble was occasioned by a woman, who was arguing strenuously with a policeman. "Take that woman in!" said the breathless chief.

"No, sir, I won't," answered the constable.

The captain was breathless with rage. Finally he gasped: "Why?" "Because she's my wife, sir. You see, I've been on the force only three months, and she is holier because I don't go to bed at the same time as I did on the farm in Esquesing."

And that policeman got no reprimand.—Toronto News.

A Canadian D.D.'s Bill.

A well-known Toronto D.D. (Rev. Dr. Potts), who is attending the World's Sunday School Convention in Jerusalem, writes the very deliberate statement: "We saw, on the trees, oranges, lemons, dates, and Irish potatoes being dug." No doubt there are strange things in the shadowy and mysterious East, but if western minds are really to be convinced that "Irish Potatoes" can grow on trees, the trees, as well as the potatoes, will need to be brought home.

Peace at Last.

Mr. Hoon—Scraping and his wife have parted.
Mrs. Hoon—Good gracious! What is the trouble?

Mr. Hoon—There isn't any trouble now. They have parted.—Smart Set.

"What are you hunting?"
"Trouble, I guess, judging from the number of 'No Trespass' signs I have passed."

"The city can now appreciate the need of a new dynamo at the electric light station," remarked Ald. John Edmondson this morning. "The three dynamos in use have more than they can do and as a result they burn out every little while. The Reliance dynamo came to grief Sunday night and as a result there is no light on one of the three circuits and there will not be until the dynamo is fixed. For some time I have been advocating the purchase of another dynamo and the city engineer has recommended that this be done. Twice I have introduced motions at the council asking that a new dynamo be purchased but my colleagues, with the exception of Ald. Soultard and Ald. Martin, have on each occasion voted the motion down. I have done everything I possibly could to have an efficient electric light service but each time the council has blocked my efforts."

ABOUT SIGNS

"I would like to know who gave the circus people permission to paste their bills over the market building," said a King street merchant this morning. "The market building makes an excellent sign board and if the permission is general no doubt there are many merchants who would take advantage of it. I don't think that preference should be given to circus people who just come here for one day."

GOOD SUGGESTION

"It seems a very funny thing that every time it rains in Chatham there is always a big complaint about muddy crossings," said a Maple City resident this morning as he walked into the Merrill House with his shoes covered with mud. "I can't see why the Board of Works can't have enough men in readiness to have this work properly done when it is needed. A delay of half a day after a heavy rain causes great inconvenience to pedestrians."

OBITUARY

Followed by a large concourse of sorrowing friends, there was reverently laid to rest in Doan's Ridge Cemetery, Crowland, on Saturday afternoon, June 4th, the remains of John Marshall, in the 73rd year of his age.

Born near Armagh Village, Armagh County, Ireland, on January 14th, 1832, he, with his parents, emigrated to Canada in the Spring of 1838 and settled in the township of Willoughby, near the Niagara River, where he continued to reside on the old parental homestead until 1862.

On June 11th of that year he was married to Elizabeth Buchner, daughter of the late John Bender Buchner, of Crowland, and in 1864 he moved to the Township of Malahide, Elgin County, where he continued to reside until the spring of 1875, when he moved to the Township of Alboro, in the same County, where he resided until his return to the County of Welland near the home of his boyhood days, in December of 1892. Since that time, with the partner of his joys and sorrows, he has resided with his sons, Arthur and Warren, the owners and proprietors of "The Inglenook Farm," until the time of his death, this being the first break in the family ties in nearly 42 years.

A man, warm-hearted, plain spoken, ever ready and willing to do a friendly act, loving good and abhorring evil. After the funeral services had been performed at the home by the Rev. Mr. McGuig, of Welland, the casket was borne to the grave by the six sons of the deceased—Ald. W. S. Leonard J., John C. and Edward C., of Chatham, and Warren W. and Arthur W., of Crowland. Besides the sons, the deceased is survived by the widow and one daughter, Mrs. James Ives, (nee Rosella), of Chippewa, and Mrs. John Bogeonshaw, a sister residing at West Lorne, Ont. The late William Marshall, formerly Reeve of the township of Willoughby, was a brother. In faith, Mr. Marshall was a staunch Presbyterian, and in politics a strong Conservative. —Welland Telegraph.

Celeste—Did you have any adventures on your trip to the country? Sylvia—Oh, yes; we went out in an automobile and came home in a milk wagon.

THE MARKETS

The rain and poor roads spoiled the market this morning. There was the usual Wednesday amount of vegetables offered from the regular booths, but the dairy offering was small in deed and very fast. There is no change noted in the prices.

Following is the price list:
IN THE SHEDS.
Eggs, per dozen, 13c to 14c.
Butter, per pound, 18c to 20c.
Chickens, each, 25c to 40c.

VEGETABLES.
Potatoes, per peck, 20c to 25c.
Squash, 2c to 25c.
Onions, 25c per peck.
Savory, 5c bunch.
Celery, three bunches for 10c.
Potatoes, per peck, 25c.
Tomato plants, per box, 20c.
Cabbage plants, per box, 20c.
Lettuce, per pound, 25c.
Asparagus, per bunch, 12c.

TORONTO COUNTRY PRODUCE.
Toronto, June 7.—Eggs—There is a very firm feeling, and higher prices are expected soon. There is keen competition among buyers at country points, and all the supplies available are being readily taken. There is no change in quotations.
Laid, case lots, 15c.
Split, 13c.

Potatoes—The market is easy at the recent decline. The offerings continue heavy, and there is only a moderate demand. Prices are unchanged. Car lots on the track here are quoted at 75c to 80c per bag, and potatoes out of store at 90c to 95c per bag.
Butter—The demand for dairy rolls is not heavy enough to make much impression on the large stocks. The market is easy, and further declines are only prevented by the fact that prices are now at a very low level. Creamery is steady. There is no change in quotations.
Creamery, prints, 17c to 18c.
Creamery, solids, 15c to 16c.
Dairy, pound rolls, 11c to 12c.
Dairy, large rolls, 11c to 12c.
Dairy, common to medium, 9c to 10c.
Cheese—The recent upward movement seems to have exhausted itself quickly, and the market is now easy. Prices are no lower, but a decline is in order. The demand is fair, and the offerings are increasing.
Large, old, per pound, 10c.
Large, new, per pound, 9c.
Twins, new, per pound, 9 1-2c.

TORONTO WOOL.
Toronto, June 7.—The only change in prices is in supers, which are 1c per pound higher. Business is quiet, the recent heavy rains having delayed deliveries.
Washed, per pound, 17c.
Unwashed, per pound, 10c.
Pulled, super, 18c to 20 1-2c.
Pulled, extra, 20c to 22c.

TORONTO DRESSED HOGS.
Toronto, June 7.—Dressed Hogs—There were no offerings and the market was nominally steady. There is no change in prices. Lights are quoted at \$7.50 per cwt., and heavies at \$7.

Bicycle lost, "Dominion" wheel, left in front of the Standard Bank. A reward will be paid for its return to The Planet office or police court.

A Dominion bicycle was taken from in front of the Standard Bank and a reward is offered for its return.

Dr. A. W. Thornton has received word of the death of his friend Dr. Marshall, Sr., of Belleville. Dr. Marshall was one of the most prominent dentists in Ontario and for a number of years occupied an important position on the Provincial Board. Death was caused from a severe attack of pneumonia.

Miss Lily Brady gave a very pleasant out-door party last Monday evening in honor of Miss Stanley, who is leaving the city and will reside in Clinton. Every one of the numerous guests enjoyed the evening and bade farewell to Miss Stanley. Miss Stanley was a very popular young Chatham lady and her many friends are sorry to see her leave the Maple City.

Robertson & McKie were compelled to remove their horses and other building materials from Queen street, but that is no good reason why the street should be used as a storage yard for the city water wagons, buses and other wagons. Last night the street looked like the private yard of a cartage company. The police might get busy and see that this street is kept clear.

E. C. Gammage's grocery rig horse ran away this morning. Starting at Pine street, it was finally stopped by "Bill" Fairbanks, proprietor of the Tecumseh House. No damage resulted from the runaway.

Duncan Morrison, an old Chathamite, writes to a friend to-day as follows: "I was in Godorich over Sunday and was fortunate enough to see the handsome souvenir edition issued by The Planet. Please send one to my address in Windsor." No publication ever issued from this city has had the wide circulation this souvenir edition is having. Every day orders are being received from the States, Eastern Canada and the Northwest, and in a short time the entire issue will be in the hands of former Chathamites or their friends.

Captain Webb, who was the first to introduce to the public performing seals, is exhibiting the latest results of his patient study and training of these curious beasts in a marvelous act with Ringling Brothers' World's Greatest Shows this season. The performance requires two big stages, and the seals enter into the spirit of the acts with obvious zest. They juggle, play musical instruments, balance balls and drum major's sticks and feathers, jump through fiery hoops, perform foot ballet, and to each other, drill, waltz, spar, fence and even run through the drill incidents of a broad farce. The performance presented by Captain Webb is original and is the most sensational example of animal training brought forward for public entertainment in the present generation. Will exhibit at Chatham on Saturday, June 11.

IF YOU HAVE A BAD COLD.

If you are sneezing and suffering from a "stuffed-up" head and running eyes the best plan is to get fragrant, healing Catarrhzone, the quickest and surest cure for cold in the head, coughs and catarrh ever discovered. This great healing agent is carried by the air you breathe all through the passages of the nose, throat and lungs. It soothes the irritated membranes, kills catarrhal germs, instantly stops the cough and sneezing. It's the antiseptic vapor of Catarrhzone that does the curing. A trial proves that a cold can be killed in a few minutes by Catarrhzone. Money back if it fails. Complete outfit \$1.00; small size 25c.

SATCHEL OF THE SATELLITE

Don't forget the big show.

The corn is not coming up to expectations.

Good bye to the Canadian Coal Oil Industry.

I reckon this rain comes under the head of continuous performance.

Most people are calling this damp weather with the "p" left out.

There was no old boys' re-union to-day. I wonder why it rained?

It will soon be strawberry time, but without the sun there will be no berries.

And still The Planet Art Souvenirs travel. One was last heard from at Paisley, Scotland.

And still the corn planting farmer regrets to report that it rained to-day.

The great question that is agitating our minds is "shall we be able to go to the Eau this summer."

The Toronto Globe devotes a column of its valuable space to telling its readers who Cobden was. We gather from the article that the gentleman is dead, in which respect he resembles the free trade theory he originated.—Ottawa Citizen.

Those who are finding fault with the civic electric light plant should refer to the Banner files of 1896, when the plant was established. Ex-Ald. W. H. Harper was then chairman of the Light committee and the Banner kept rubbing it into the one man committee, as they dubbed it, because he advised against the purchase of a cheap plant. Eight years later the cheap plant is worn out and Ald. Harper's good judgment is vindicated.

14 POLAR BEARS

Before contemplating challenging the management of the Great Forepaugh and Sells Brothers United Shows to a game of freeze-out here, on Saturday, July 9, it may be well to remember that they have just added to their double zoological collection a whole Arctic menagerie, in the ferocious and fearsome shape of fourteen living full-grown Polar Bears. Heretofore a single specimen—big or little—of this solitary and untamable species has been carded as among the rarest of features. The cost and trouble involved in collecting fourteen of these only North Pole discoverers—a greater number than even any Arctic explorer ever saw together at one time—would make an ice Trust magnate gasp and even shiver. They are a feature, and the biggest kind of one. No doubt about that.

...WILLIAM GORDON...

SENATOR HOAR'S JOKE.

Washington Post.
Senator Hoar met a friend on the street in Washington one day who stopped to inform him that a very dear friend was seriously ill with appendicitis. Senator Hoar was very

solicitous and determined to write a note of sympathy at once. He had hardly finished the note before word came to him that his friend was ill with acute indigestion instead of appendicitis. Senator Hoar tore up the first note and sent the following in its place: Dear A.—I am very sorry to hear that you are ill, but am glad that the trouble is with the table of contents rather than with the appendix."

OUR BOYS' SUITS \$3, \$3.75, \$4 to \$6.
People wonder how in the world we can sell such splendid Suits for such prices. Well, we sort of wonder at it ourselves, but still people keep on wondering, and we keep on selling and everybody is happy.
THE BOY because he has a bang-up new suit.
THE PARENT because he gets so much for his money, and we are happy to be favored with the patronage. So it goes.
Boys are you trying for the Suit to be given away at your school by

CROSSING THE BAR.

Sunset and evening star,
And one clear call for me!
And may there be no moaning of the bar,
When I put out to sea.
But such a tide as moving seems asleep,
Too full for sound and foam,
When that which drew from out the
boundless deep
Turns again home.

Twilight and evening bell,
And after that the dark;
And may there be no sadness of farewell,
When I embark;
For tho' from out our bourne of Time
And Place
The flood may bear me far,
I hope to see my Pilot face to face
When I have cross'd the bar.
—Alfred, Lord Tennyson.

For tho' from out our bourne of Time
And Place
The flood may bear me far,
I hope to see my Pilot face to face
When I have cross'd the bar.

MANY USES FOR BORAX.

Enters Into Household Operations at
Every Sort.

Borax, or, to give it its chemical
name, history of soda, may be used
in the household as a substitute for
ordinary soda under nearly every
condition in which the latter is re-
quired with considerable advantage.
It is softer, sweeter, and cleaner.
In cooking greenstuff, such as cab-
bage, if the cook uses, instead of the
ordinary soda in the pot, half a
teaspoonful of borax, the result will
be as perfect colored a vegetable as
one can wish to bring to table. At
the same time, while bringing out
the coloration borax in no way in-
jures flavors, but rather increases
them. It is the secret of the ad-
mirable green color and perfect flav-
or of peas as served up by French
cooks. Apart from its uses in the
kitchen, borax is an efficient, cheap,
and easily obtainable antiseptic. In
small and a tasteless proportion it
will keep milk and butter from turn-
ing sour and rancid. Mixed with
sugar and rubbed into a ham when
the latter is being cured it imparts
a fine flavor and renders it safe
against the ravages of the "bacon
fly." Muslin, calico and flimsy cot-
ton goods dipped into a strong solu-
tion of borax become practically fire-
proof. Put into starch it prevents
the iron from staining and forms the
"china" glaze so much sought after
by landresses. Ladies who value a
fine complexion may be interested to
hear that borax is as powerful a
skin tonic as arsenic without the
latter's poisonous qualities. A table-
spoonful of ordinary powdered borax
used every day will, in most cases,
produce a clear and fine colored skin
in the course of a few weeks. A
much advertised skin tonic some
years ago, which received many
testimonials from persons in high
places, was nothing but a medium
solution of borax in distilled water
with a little attar of rose, glycerine,
and rectified spirits of wine.

St. Petersburg Women.
A woman's club in St. Petersburg
which has a membership of 1,000 was
organized for the purpose of befriending
women in the city who are lonely
and in need of help. The president of
the club is a woman physician, Dr.
Schnehanow, who is at the head of a
children's hospital founded by the
Prince of Oldenburg.

NOTHING LIKE EXPERIENCE.

"One truth learned by actual expe-
rience does more good than ten expe-
riences one hears about." Tell a man
that Chamberlain's Colic, Cholera and
Diarrhoea Remedy will cure cholera
morbus, and he will most likely for-
get it before the end of the day. Let
him have a severe attack of that dis-
ease, feel that he is about to die, use
this remedy, and learn from his own
experience how quickly it gives re-
lief, and he will remember it all his
life. For sale by all druggists.

Kinaseen.

Be kind no matter if you are on the
honest run to catch your interests in
life. While you run let your feeting
presence prove a blessing to those
whom you must pass in the race to
reach the goal. Leave behind you a
trail of golden remembrances of words
and smiles of good cheer that have cost
you nothing at all in self sacrifice or
money or physical strength or mental
effort.

A GOOD COMPLEXION.

Is a joy to every woman's heart
and man is vain enough not to de-
spise it. Beautiful complexion means
pure blood, or in other words a
healthy body. Tens of thousands of
women take Ferrerozone because it's a
splendid blood builder, keeps the sys-
tem in perfect order and helps the
complexion wonderfully. "I consider
Ferrerozone the best remedy to give
you a clear, ruddy complexion I know
of," writes Miss Ada E. Brandon, of
Pembroke. "My skin used to be sal-
low, but after taking a few boxes
of Ferrerozone a rosy tint was notice-
able on my cheeks. I can recommend
Ferrerozone as a tonic also." For
good health and beauty use only Fer-
rozone. Price 50c. at druggists.

I wish, she sighed, that I could see
myself as others see me.
Gracious, replied her fond friend,
why aren't you satisfied to let well
enough alone.

A HELPLESS CHILD.

A weak and puny child is badly
handicapped in the battle of life.
It is isolated from the healthy enjoy-
ments of its little fellow-beings. It
cannot partake either of their play
or their sturdy work and progress
in the world; its whole life is embil-
tered by incapacity and weakness.
Any woman who expects to become
a mother ought to know what Dr.
Pierce's Favorite Prescription will do
both for her own health and safety
during her time of trial and also to
insure her in bequeathing a fair mea-
sure of health and strength to the
prospective little one.

Water on the hair is apt to make it

a bad odor. If you are threatened with
dizziness of the scalp and if you are
obliged to wet your hair in order to
make it stay in place a little vaseline
rubbed in the roots will prove benefi-
cial.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the
sense of smell and completely de-
range the whole system when enter-
ing it through the mucous surfaces.
Such articles should never be used

ble physicians, as the damage they

COLD SETTLES IN THE BACK.

It hits people in a tender spot and
makes it mighty hard to brace up.
Nervine will take that kink out of
your spinal column in short order;
it soothes, that's why relief comes so
soon. Nervine penetrates, that's
why it cures. Five times stronger than

sciatica and neuralgia. Nervine is

The Retort Disdainful.

Ellen Terry, the famous English ac-
tress, in the kindness of her heart once
took a girl out of the poorhouse to train
as a servant. But she was altogether
hopeless and was continually breaking
plates, dishes and everything she laid
hands on, until Miss Terry thought that
in time she might break her, so she dis-
missed her. But, not wishing the girl
to come to any harm, when she was go-
ing away she asked her what she was
going to do for a living. "Oh," she
said disdainfully, "if the wust come to
the wust, I can go on the stage."

WHAT WOMEN SHOULD KNOW.

That the cause of a great deal of
suffering, usually supposed to be on
account of female disorders, is over-
come by ANTI-PILL, the discovery of
Dr. J. S. Leonard.

A great amount of women's ailments
are caused by the food that is taken
being turned (through improper diges-
tion) into poison instead of nutrition.
This poison carried by the blood
throughout the system, makes weak
women—women who are hardly ever
well—nerves in dreadful condition—
limbs ache, back aches, head aches—
biliousness, constipation. ANTI-PILL, the
Great System Treatment, will correct
these troubles—it starts its work by
making a well stomach—it insures
strength to weak women—it is harm-
less at any stage or condition of a
woman's life, and there is no time
ANTI-PILL cannot be used with safety.
Any woman who cares to may use a
bottle of ANTI-PILL free from any
expense. If satisfactory results do not
follow its use, mail up wrapper with
name of druggist from whom pur-
chased and get your money back by
return mail. Wilson-Fyle Co., Niagara

HEALTH BOARD

Businesslike Session of the Members
Yesterday—Officers' Reports.

A meeting of the city Board of Health was held yesterday afternoon in Harrison Hall with chairman Dr. Charteris, Chas. Hadley, W. S. Richards, Dr. R. V. Bray, Health Officer Dr. W. R. Hall, W. R. Baxter and Inspector Anson Mounter present.

The meeting was a short and businesslike one for even the Health Board.

A report was read from Health Officer Dr. Hall regarding the establishment of an isolation hospital for contagious diseases and, as a result, the Chairman and the Health Officer were appointed a committee to go in to matter thoroughly, with power. The report was as follows:

To the Chairman and members of the Chatham local Board of Health:

The Inspector's report covers contagious diseases for the past month, except the difficulty of finding place for isolation of cases. The General Hospital contagious department was occupied by scarlet fever cases, and St. Joseph's Hospital contagious department has been abolished, so we had no place to send diphtheria cases. recommend that the matter of procuring proper hospital accommodation for contagious cases be again considered. The authorities of St. Joseph's Hospital are ready to enter into an arrangement with the city to build and maintain a contagious disease department if suitable arrangements or terms are offered. The General Hospital, too, are ready to enter into an arrangement.

I would suggest that the city pay as a bonus to each of the hospitals an annual amount sufficient to cover interest on money expended, which would not otherwise yield a revenue, the amount to be determined by mutual agreement, and that the hospital maintain and equip suitable building, etc., and extend to cases paid for by the city a specially low weekly rate. An arrangement could be made which I believe would be to the advantage of all concerned and much cheaper to the city than building, equipping and maintaining a building of their own.

Inspector Mounter's report referred to the work of the scavengers, also to the G. T. R. hog-pen nuisance. He said there had been hogs in the pens since last Tuesday.

The Inspector was instructed to endeavor to get a petition from residents in the vicinity against the pens. Then the Board will act.

W. R. Baxter, the new member of the Board in place of O. B. Hall, resigned, was given a hearty welcome.

Fred. Spencer was heard regarding a petition signed by seven ratepayers on the street. It was recommended by the Board that it be recommended by the Board of Health as a sanitary measure. All of the Board agreed that it was a necessity as a health measure, and it was decided to recommend a glazed tile sewer for Scenic street from St. Patrick to Park street.

Dr. Bray asked if anything had been done regarding Ursuline avenue sewer. City Clerk Merritt replied that nothing had been done owing to the fact that the joint reports of the Health Officer and the Board of Works were not in. Dr. Hall said he was ready at any time.

The Chairman, Dr. Charteris, Dr. W. R. Hall and W. S. Richards were appointed as a delegation to the provincial convention at Sarnia, July 15th and 16th.

The accounts of W. W. Turner for \$12.38, certified by Health Inspector, was passed.

Meeting adjourned.

CHILDREN'S WASH
SUITS

This is a branch of our business that has been rapidly growing with us each year.

This season we are making a more elaborate display than ever of natty, jaunty little suits, in pretty patterns of the best washing materials such as ducks, galateas and linens.

They afford style and comfort for the boy and are economical for the mother.

A very large range of Children's Sailor and Fancy Suits, in white and fancy colored wash fabrics, beautifully made, 3 to 10 year sizes, 50c, 75c, \$1.00, \$1.50 and \$2.00.

Odd Wash Knickers, 3 to 10 year sizes, 25c.

Wash Tams, in white and fancy colors, loose crowns, 19c and 35c.

THORNTON & DOUGLAS,

LACROSSE

NO GAME TO-DAY.

The Bugle Band lacrosse team was to have gone to St. Thomas to play the second of the season's junior C. L. A. series. Word was received, however, by the local management that the grounds were too wet and the game has been indefinitely postponed. The boys have been doing some good practising lately and are getting in splendid shape.

You should bake at home; you get purer and better food.

But look well to your baking powder! It is a most important ingredient in your baking, and one very apt to be adulterated. Be sure it is made of pure cream of tartar.

The best way to be absolutely certain is to buy Cleveland's, well known to be a pure, cream of tartar baking powder, and the strongest and most wholesome made.
