MAROONED JAPANESE

Are Still Held Prisoners by Striking Fraser River Fishermen

ON ISLAND IN GULF OF GEORGIA

Where They are Regularly Fed and Their Number Added To.

POLICE UNABLE TO ASSIST

Until the Location of Island is Learned—International Complications May Arise.

Vancouver, July 13, via Skagway, July 18.—There are now 47 Japanese prisoners guarded by white striking salmon fishermen and marooned on a small island somewhere in the Gulf of Georgia. The provincial police are endeavoring to ascertain the location of the island but so far have been unable to do so. The authorities do not admit that the Japanese have been spirited away as it is undesirable for international reasons that such should be the case. But it is generally accepted that the Orientals are the prisoners of the striking union fishermen and that their offense is fishing when the union has declared a strike. It is said that the marooned Japs are being fed regularly but will be kept prisoners as long as possible. Others will be put on the island as soon as captured, provided the present plan of the striking union is maintained.

Outside draught beer at Standard theatre bar, 25 cents.

RECEIVED BY WIRE.
KLONDIKERS LOSE DUST

It Disappears in Seattle in Manner Not Stated.

Seattle, July 13, via Skagway, July 18.—Several Klondikers claim to have lost considerable gold dust here. One of the heaviest losers is A. Wanger, of 13 Eldorado, who says he has lost 125 ounces since coming to Seattle. August Bay, of 2 Eldorado, says he has lost 50 ounces.

BUTTE HOTEL BURNED

Also Four Large Stores—Hotel Valued at \$90,000.

Butte, Mont., July 13, via Skagway, July 18.—At 2:40 o'clock this morning fire broke out in the Butte hotel and before it could be controlled had destroyed the hotel and four large stores. It is not yet known if all the guests escaped. The hotel loss is \$90,000.

ENGLISH TEAM WINS TROPHY

Outshoot All Competitors at Bisby Rifle Contest.

London, July 13, via Skagway, July 18.—The English team won the Echo trophy at Bisby rifle shooting contest.

Strike Is Off.

New York, July 13, via Skagway, July 18.—The metal workers' strike is off, the men having returned to work without having gained any concessions and that their offense is fishing when the union has declared a strike. It is said that the marooned Japs are being fed regularly but will be kept prisoners as long as possible. Others will be put on the island as soon as captured, provided the present plan of the striking union is maintained.

'Charley's Aunt.'

The Standard theater will be crowded tonight as the play this week, "Charley's Aunt," is one of the most amusing ever presented in Dawson, and as "Billy" Mullen is the aunt, plenty of fun is assured.
The old time favorites, O'Brien, Jennings and O'Brien, are now at the Standard in up-to-date specialties.
Best mixed drinks in town—Sideboard.

NOME IS A DEAD ONE

Winter There Was Cause of Much Suffering—Many Claims in New Fields Are Blanks—Destructive Fire—Provisions Gambled For.

Nome is a dead one. That is the news brought in by Victor Smith who left the Beach city June 4th last on the first boat out from there this season, the steamer Nome. He arrived in Dawson yesterday on the Canadian, making the trip via Skagway in 43 days. Mr. Smith went to Nome in the spring of 1900 and spent one year in the camp, a year which he says has been worse than wasted for, like the majority of people there at present, he finds himself worse off financially than when he first arrived in that country. He says:
"I left Nome June 4th and to take the steamer was compelled to walk out on the shore ice two miles to get to the vessel. In the Bluestone country there are some good claims. Gold Run has turned out very rich in places, but the majority of claims even there are blanks. Numerous gun plays have occurred there due to parties jumping claims. The custom is for two men to out the man in possession who in turn gets a superior force, his friends rallying to his support and at the point of a gun gets possession again. Soon they are in turn put off forcibly by superior numbers and so it continues until the men involved in the strife reach alarming numbers. As yet no battle has occurred but it was feared that a fight would ensue and numerous people be killed. This fear has prompted the authorities at Teller City to petition the federal government to send soldiers to the scene from Nome."
"About 3500 people spent the winter in Nome last winter and they had a tough time of it I can assure you. The town was dead and buried beneath the snow. The winter was a fright. While the thermometer only went down to 35 below still there were many people frozen to death, far in excess of the lives lost in this country from the same cause. The winds were fearful and the snow fall phenomenal. Last winter it was no unusual thing to tunnel from 25 to 100 feet to get in or out of a cabin. The average snowfall was seven feet, but in places it was 150 feet deep. A creek like Hunker for instance would be filled with snow to the

near a pile of shavings is said to be the cause of the conflagration.

"Many Dawson people who spent the last two winters there want to come back. The only man I know of from here who has done well is Mike Sullivan, formerly with Tom Chisholm. He is supposed to be very rich and owns fine mining properties. He is building a fine home at the mouth of Alder creek.

"The merchants are all discouraged there owing to the disappointing news having reached them that but four or five thousand people will take passage to that country this season and nearly all of these will sail for Teller City. The season on the Bluestone country is even shorter than that of the Nome district, the ice leaving there one month later. The people of that district were all broke last winter and gambling in a cheap way was carried on in many instances by people with an outfit putting up a ham or some canned goods for a stack of chips. No one seemed to have any ready money. David Tewkesbury, who was formerly with the Nugget, lost his position as commissioner of the Gougarok district, he having been removed by Judge Noyes and his friend Judge Cochran was appointed to the place."

GRAVES AND HAWKINS

Left Skagway for This Place Yesterday.

Skagway, July 18.—President Graves and General Manager Hawkins of the White Pass & Yukon Route, left for Dawson yesterday.

The U. S. congressional river and harbor committee, seven members in all, arrived here this morning. The members of the Skagway Chamber of Commerce will entertain them in splendid style. The party went to Whitehorse today and will return this evening.

SETTLED OUT OF COURT

Baatz and Morford Came to Terms Last Night.

The damages suit brought before Justice Dugas yesterday by Henry Baatz against S. O. Morford was compromised and settled out of court last night at a late hour. The exact terms upon which the settlement was effected is not known, but it is presumed Morford paid something like \$1000 in damages and in return was granted certain privileges. He is given permission to cross the creek claim with his ditch, but it must be completely and perfectly flumed throughout and kept in good condition. Defendant is also required to remove his tailings when requested to.

The settling of the suit relieves the court of rendering judgment upon a most knotty question, one which a number of the barristers were in hopes would reach a final adjudication. Reference is made to the amount of damages which would have been assessed against the defendant for injury caused by his ditch in case the plaintiff secured judgment. It is the first case of its kind to be presented in this court and had the point come to a decision a precedent would doubtless have been established. Baatz claimed \$15,000 damages, but there was small chance of the court allowing him that much.

RECEIVED BY WIRE.
SANTES DUMONT

A Renowned French Inventor Solves Problem of Aerial Navigation

IN PRESENCE OF PARIS DE L'AERO CLUB

And is Awarded Grand Prize of 100,000 Francs.

FULL CONTROL OF BALLOON.

Came Down Six Times on Designated Spots at Will—All Paris Rejoices at His Success.

Paris, July 13, via Skagway, July 18.—Santes Dumont in his trial trip with his new air ship this morning for the Grand Prix of the de L'Aero Club, covered the stipulated course from the Mendon Park around the Eiffel tower and back in 35 minutes. This was five minutes over the time allowed by the club, nevertheless Santes Dumont will be awarded the prize offered, 100,000 francs, as he proved the value of his invention and practically solved the problem of aerial navigation.

All Paris is in a furor over the success of the great inventor and nothing else is being talked of in the city. He seemingly had the balloon under his perfect control from start to finish. The average speed was 40 kilometers per hour and the average weight from 100 to 200 metres. The aeronaut came down six times on designated spots without damage to his machine.

ANOTHER MAD DOG

Killed on the Side Hill After Having Bitten Others.

Another mad dog is reported. A man named Perkins living on the side hill near Fifth avenue has a kennel of dogs one of which went mad last Monday night biting all other dogs within reach. He was killed by his owner.

It might not be amiss to call the attention of the authorities to the fact that hundreds of dogs are now allowed to roam muzzleless around the town, not only to the injury of defenseless dogs, which are muzzled by owners in conformity to the law, but to the imminent danger of the people as well.

THURSDAY, JULY 18, 1901.

"REPRESENTATIVE CITIZENS."

In view of the fact that next month will probably witness the visit to Dawson of certain eminent Dominion officials it is but fitting that steps be taken to receive and entertain them in keeping with their prominent stations in life and it is with pleasure that the Nugget notes that steps leading toward such reception and entertainment are being taken, and that they will be successfully carried to completion there is no doubt for the people of Dawson never do anything by halves.

However, it is to be hoped that the desire to appear as the "representative citizen" will not be too apparent and that there will not be a repetition of the ridiculous display of unweaving desire to appear in the role of "representative citizen" that there was last year in the presentation of the Klondike souvenir to the first lady of the land on the occasion of her honoring Dawson with her presence. This desire to figure as "representative citizens" on such occasions always brings out the narrow and shallow rather than the representative characteristics. The coming of the distinguished gentlemen is to the people at large and the country in general instead of to any one or half dozen individuals, and it is for the whole people to receive and welcome them and it will be done in that whole-souled manner which has ever been characteristic of the people of the Yukon.

The spirit which is to be so strenuously avoided in Dawson has lately cropped out in Ottawa and is thus referred to by the Colonist of Victoria: "They are having trouble at Ottawa as to who are 'representative citizens,' and the cause bell is the approaching visit of the heir apparent. The development of Ottawa intellect is in the direction of fuss-and-feathers. The average citizen of the federal capital can get up a grievance over a ridiculous quibble quicker than you can say Jack Robinson, and while the grievance lasts it is more momentous than the Boer war. Some young men have undertaken to be 'representative citizens' in connection with the royal visit, and this makes some others feel badly. It is dreadful to contemplate what may happen."

If any "representative citizen" fever develops in Dawson it is hoped the committee appointed to arrange for the visit of the ministerial party will promptly check it.

The state board of pardons of Minnesota, acting under a law passed for this special purpose at the last session of the legislature, has issued paroles to the notorious Younger brothers. There is no accounting for tastes; only, if the people of Minnesota want to set free that kind of men, there ought to be some way of preventing them from leaving the state. Let them live with those who love them. It is not hard to fathom the cause of the defects in American governments when we consider the actual fact that it one-half the effort made in the last ten years to get the Youngers out of the penitentiary had been devoted to putting other manufacturers in, Minnesota's criminal record today would be unmatched in the Union.—P. I.

The gigantic water right recently granted at Ottawa to a syndicate, an account of which is published elsewhere in this paper, seems to have been granted with the view of protecting in every way possible the individual claim owner in his rights and

so far as now seen the exercise of the right granted the syndicate can not result in other than benefit to the country as it will enable much low grade ground to be worked at a profit that would otherwise remain undeveloped. If fully operated it will be the most gigantic hydraulic proposition in the history of modern mining.

Nelson, B. C., is considerably broken up over the severe defeat its lacrosse team sustained at the hands of the representatives from Medicine Hat. The same may be said of the big Eastern Canadian teams last fall when they came in contact with the world-beating aggregation from New Westminster. Defeat in athletics is no disgrace; if the right material is there it simply calls for more determined effort. Nelson is a wide-awake, progressive town and the best sign of its future success in lacrosse is that it comes out frankly and admits a defeat without whining.—P. I.

The interview published in this paper with a late arrival from Nome is such as to even make the prisoners brought up from Protymile a day or two ago feel that they were fortunate in being arrested there instead of being permitted to go on down the river and to the desolate city on the beach.

It is proposed to erect a memorial in London to Her Majesty Queen Victoria, the money, which it is expected will amount to \$100,000, being contributed by the members of the New York Chamber of Commerce, who recently visited the metropolis.

Coming Coronation.
London, July 6.—Official preparations for the coronation parade ceremony are being made. It is expected the route will be through the same thoroughfares as at Queen Victoria's coronation in 1838. Offers running up to several hundreds of pounds are already being made for seats along the route.

It is evident that King Edward's coronation will eclipse in magnificence that of any previous sovereign.

Half Mourning.
Ottawa, Ont., July 10.—The governor general's secretary has issued the following: "During the forthcoming visit of their royal highnesses the Duke and Duchess of Cornwall and York, to Canada, half mourning should be worn by ladies, according to Queen Alexandra's orders; that is, mauve, lilac, grey or black and white."

GRANT OF BIG WATER RIGHT

To Syndicate Which Will Supply Many Creeks

Water Will be Taken From Klondike River to Thousands of Claims—Individual Owners Protected

The feasibility of conducting a large volume of water from well up the Klondike river through a series of flumes and ditches to the different gold bearing creeks in this district has long been admitted and there are many who have been free in their predictions that sooner or later capital would be come interested in "this the greatest scheme to be put into execution since the discovery of gold in the Klondike." A company which is said to be backed by ample capital has asked for and received from the privy council at Ottawa certain privileges and concessions in exchange for them bringing within the reach of practically every claim in the country sufficient water to work them to the fullest possible extent. In the rights granted the company by the government it is required to expend not less than \$50,000 before December 31, 1902. The petition of the promoters setting forth their intentions and purposes is given herewith:

Ottawa, Ont., May 31, 1901.

To the Honorable the Minister of the Interior:

Sir—The applicants are prepared to undertake the establishment of hydraulic works which will supply water to the auriferous deposits now without water in certain parts of the Klondike district provided the following rights are granted to them subject to the general condition that nothing contained in this grant shall interfere with the right to water to which any free miner is entitled on Bonanza, Bear and Hunker creeks and their tributaries for the working of his claim under the regulations now in force governing placer mining and the diversion of water in the Yukon territory:

1. The sole right to divert and take water from the Klondike river at any point or points between its mouth and the Yukon river and Flat creek for the purpose of generating power with which to pump water to work the auriferous deposits in the district (hereinafter termed "the district") comprising the beds, banks, valleys, slopes and hills of the Klondike river, of Bonanza, Bear and Hunker creeks and of their tributaries.

Provided, that licensed holders of mining locations situated on the Klondike river shall be entitled as against the grantees to the use free from toll of a flow of water sufficient for working their claims but not exceeding in all three thousand five hundred (3500) miners' inches, equal to five thousand two hundred and fifty (5250) cubic feet per minute.

Provided, further, that in the event of the grantees interfering with the flow of the Klondike river by the erection of dams or other obstructions or by diversion of its water to such an extent as to prevent the passage of sawlogs or other timber down the stream, then the grantees shall for holders of timber berths under license from the Dominion government provide slides and facilities free of charge for the transmission of such logs and timber over such dams and obstructions and over the portion of the river affected by such diversion of water.

2. The prior right subject to the provisions contained in clause 1 to divert and take water from the Klondike river for distribution and use in the district, especially upon the hills and benches.

3. The right on any creek or tributary within the district to divert, take, impound and store for mining purposes any water not used by any free miner for the working of his claim on such creek or tributary under the regulation as now in force for placer mining or respecting the diversion of water for mining purposes in the Yukon territory.

4. The right at any point or points in the bed, banks, valley, slopes and hills of the Klondike river between its mouth and Flat creek to construct and maintain dams, cribs, intakes, flumes and any other works necessary for the generation of power and the right of entry upon and way through any lands and any mining ground for the purpose of such construction and maintenance.

Provided, that the grantees shall place in a separate dump for the use of the owners of any mining ground entered upon by them in the exercise of this right all gravel which they may be obliged to move in such mining ground in consequence of the exercise of such right.

5. The right to purchase any crown lands required by the grantees for the purposes of their works at a price not exceeding ten dollars per acre, saving and reserving all the timber, mines and minerals upon or under such lands.

6. The right at any point or points in the district to build, maintain and

Provided, that the grantees shall place in a separate dump for the use of the owners of any mining ground entered upon by them in the exercise of this right, all gravel which they may be obliged to move in such mining ground in consequence of the exercise of such right.

9. The right, subject to the regulations hereinafter contained, to use, distribute and dispose of the water delivered by the grantees within the district.

10. The right subject to no payment except the royalty prescribed upon output, to enter upon, make entry for and work all mining locations now hereafter abandoned on Bonanza, Bear and Hunker creeks and their tributaries.

11. The prior right, if mineral bearing lodes or deposits of any kind whatever be discovered through the operations of the grantees upon crown lands, or upon lands or locations owned or leased by the grantees within the district, to enter upon and purchase locations embracing the discoveries in the manner prescribed by the regulations governing mining in the Yukon territory.

12. The right to take from crown lands to be designated by the department subject to the payment of crown

timber dues, all timber and materials needed for the construction, maintenance and operation of the grantees' works.

13. The exclusive right, subject to the regulations hereinafter contained to construct, lay, maintain, supply with water and operate bed-rock flumes, and any other flumes for supplying water in the district; provided, that every free miner shall have the right of constructing flumes for the purpose of conveying to his claim the lawful amount of water to which he is entitled under the regulations now in force for placer mining in the Yukon territory, and any water that he shall purchase from the grantees; and he shall also have the right of constructing flumes for the purpose of draining his claim.

This grant is subject to the following conditions:

1. The grantees shall before the 1st of December, 1902, have expended upon the objects of their enterprise at least the sum of two hundred and fifty thousand dollars (\$250,000). Details of such expenditure shall be presented to the governor in council. If the grantees fail to comply with this condition the exclusive and prior rights granted to them shall cease and be determined.

2. The grantees shall deliver within the district during the summer season of 1905, not later than July 1st, 1905, a flow of one thousand (1000) miners' inches equal to fifteen hundred (1500) cubic feet per minute. Such flow shall be continuously maintained and be available during at least sixty (60) days of such season, and each season thereafter during the period for which this franchise is granted as set forth in condition 7 hereof, and in default thereof the exclusive and prior rights of the grantees shall cease and be determined. In case of unavoidable accident to the works of the grantees they shall be entitled without forfeiture to a reasonable time for effecting repairs.

3. The grantees shall supply water to the owners of claims within the district subject to the regulations hereinafter contained. Should the above supply prove insufficient to meet the applications of free miners, then the grantees may at their option at any time increase such supply and may be required upon two years' notice, terminating with the 31st of August in any year, to deliver within the district an additional quantity not exceeding five hundred (500) miners' inches of water equal to seven hundred and fifty (750) cubic feet per minute; provided, that the grantees shall not be required to commence the works for such additional quantity unless and until they

shall have earned a net profit of at least ten per cent (10 per cent) per annum for the three previous consecutive years upon the capital stock of the company which they shall organize for carrying this grant into effect. If the grantees fail to comply with such requirement the exclusive and prior rights granted to them shall cease and be determined.

Provided, however, that if the grantees shall be delayed or their operations be interfered with by floods, war, civil commotions, strikes, accidents to machinery or works, or by the act of God, or other causes over which the grantees have no control and so prevented from complying with the conditions of this clause, they shall be entitled to extensions of time equal to the periods of delay.

4. The grantees shall not be required to pay to the crown or to the district or local authorities any rentals, occupation rents, assessments or other dues in respect of any lands except timber lands, or in respect of any flumes, drains, properties or profits other than import, customs duties, school taxes and a royalty on the gold mined in the mines owned by them or any tax or assessment which may be substituted for such royalty.

Provided, that no other or higher royalty, or any tax or assessment which may be substituted for such royalty, shall be imposed on any gold or silver mined from placer mines by the grantees, than that prescribed by the present regulations nor shall it at any particular time be greater than the lowest royalty imposed on the output of gold and silver from the placer mines of other miners in the Yukon district.

Provided, also, that no other or higher royalty or any tax or assessment which may be substituted for such royalty shall be imposed on any gold and silver mined from placer mines by the grantees than that prescribed by the present regulations, nor shall it at any particular time be greater than the lowest royalty imposed on the output of gold and silver from the placer mines of other miners in the Yukon district.

5. The properties of the grantees shall be exempt from representation.

6. Proper powers shall be granted by ordinance to the territorial court to enable the grantees to exercise the rights conferred upon them and to protect the interests of private owners by compensation for any actual damage sustained by them in consequence of the exercise of such rights.

7. The rights conferred upon the grantees shall extend for the period of thirty years, at the expiration of which period all exclusive and prior rights

granted to them shall cease and be determined, but the works and structures built by the grantees together with the lands, rights and easements which they shall have purchased and acquired shall remain the grantees' private property.

8. The grantees shall have the right to assign the rights conferred upon them to any company or companies or to any persons associated together for the purpose of carrying into effect the objects of the grant or any part of them.

REGULATIONS.

A.—The grantees shall allow all free miners within the district to tail their sluices, hydraulics ground sluices and drains free of charge into the flumes and drains of the grantees, yet not in such a way as to damage or obstruct the free working of the flumes and drains of the grantees by rocks, stones, boulders or otherwise.

B.—The grantees shall compensate the owners of any mining claim or lands for any damage which any such owner may sustain by reason of any of the grantees' works breaking or being imperfect.

C.—Any question of compensation arising under this grant shall be determined judicially by the gold commissioner subject to appeal to the territorial court of the district and the said court may upon special circumstances being shown make an order for the taking of further evidence.

D.—The grantees shall yield to the owners of claims in consequence of the construction of such works.

E.—Subject to the provisions hereinafter contained, the owners of claims within the district shall be entitled to purchase one-half of the water delivered in the district by the grantees.

Any owner of a claim so desiring to purchase a supply of water from the grantees shall between the first day of January and the fifteenth day of March in each year deliver to the grantees' agent at Dawson, named for the purpose, a notice stating the amount of water required by the said owner for the purpose of working his claim during the approaching season.

The grantees shall allot the amount of water to be distributed during the approaching season among such owners and the certificate of such allotment shall be filed by the grantees in the office of the gold commissioner on or before the fifteenth day of April in each year.

The grantees shall in supplying water to claim owners apply for the same be bound to observe a fair proportion between such owners. In determining what is such fair proportion regard shall be had among other considera-

tions to the size of the several claims and dumps to be washed and to the most economical use of the water within the district.

The gold commissioner shall have jurisdiction to hear and determine judicially all matters in difference in regard to the grantees' allotment of such water as set forth in the said certificates.

The grantees shall not be bound to construct supply pipes or flumes or other works leading to the claims of applicants.

F.—The charge which the grantees shall be entitled to make for the use of such water on each claim shall not exceed one dollar per miners' inch per hour.

We are, yours obediently, Malcolm H. Orr Ewing, Malvern, England; A. N. C. Treadgold, London, England; Walter Barwick, Toronto.

The order in council granting the foregoing application, together with the ordinance is was necessary to enact to carry into effect the provisions of the order in council was passed June 12. The order is as follows:

Whereas application has been made by Malcolm H. Orr Ewing, of Malvern, England; A. N. C. Treadgold, of London, Ontario, and Walter Barwick, of Toronto, Ontario, under date the 31st May, 1901, with regard to the establishment of hydraulic works to supply water for the efficient working of auriferous deposits, now unworked for the want of a sufficient supply in the Klondike district in the Yukon territory, and for other purposes mentioned in such application, hereto annexed; and

Whereas, the details of different schemes submitted have been considered and discussed; and

Whereas, the mining now carried on in the Klondike district is, because of the inadequate supply of water, necessarily confined to the washing of the richest gravel only, comparatively small in area thus leaving large tracts of gold bearing gravels unworked; and from the information obtained from the gold commissioner of the Yukon territory and others it is believed that the richest of the Klondike district can only be properly utilized by such a water supply as that which the before-mentioned applicants are prepared to establish;

Therefore, the governor general in council is pleased to order and doth hereby order that the said application by the said Malcolm H. Orr Ewing, A. N. C. Treadgold and Walter Barwick, bearing date the 31st May, 1901, a copy of which is hereto annexed, and which is hereby made a part of this order in council, shall be and the same is hereby accepted; and that the said

YUKON TENNIS TOURNAMENT

Interest Waxing Warm as the Games Proceed

Various Individual Players Striving to Make High Scores - Interesting Game Schedule.

Interest in the tournament of the Yukon Lawn Tennis Club waxed stronger at the games proceed. The various players who have entered the lists are striving hard to carry off the trophies offered for the winners.

On Monday night a game of men's doubles was played between Messrs. Nicol and Long vs. Elderton and Clazy, and was won by Nicol and Long in the first two sets. Score 6-1, 6-4.

In the men's single, F. R. G. Berry met and defeated Herb. Robertson by a score of 6-4, 6-0.

The game of G. H. Clazy vs. C. C. McCaul which was postponed from Friday evening was finished. This was one of the best and most warmly contested game thus far played, Clazy winning by a score of 6-4, 4-6, 6-3.

On Tuesday evening in men's singles, H. G. Herbert (owe 40) played C. R. Elderton (owe 15). Herbert won the game in the first two sets by a score of 6-1, 6-3. A game of men's doubles was hotly contested between Messrs. Nicol and Long (owe 5-6 15) vs. Hughes and Berry (owe 30 1-6). The first set was won by Nicol and Long, the score being 6-3. The second set a score of 6 all was reached when the game was postponed temporarily. Last evening the only match played was a game in men's doubles between Messrs. Herbert and Pattullo (owe 15 1-6). This was the best game yet played each point being hotly contested. It was the opinion that Herbert and Pattullo would have a walk away from the start but their opponents gave them a surprise by winning the game by a score of 6-1, 4-6, 7-5. Finney excelled his usual strong game while Herbert from whom a good game was expected, lost the game for himself and partner by playing the worst game he has yet played.

The following notice has been issued by the committee:

The committee has decided to suspend the by-law relating to special evenings for gentlemen during the progress of the tournament. Competitors in the tournament are notified that the different rounds in the various events must be completed on the dates mentioned in the respective lists of the drawings, which are posted in the club pavilion, otherwise their names will be scratched.

The handicaps for the doubles, ladies' singles and ladies doubles have been arranged and games will begin today.

DEVINNE SISTERS

Held Over in Languish House for Trial in Higher Court.

The preliminary trial of Fay Devinne, Ray Devinne and Harry Freeman charged with stealing \$750 in dust, a gold watch and other sundries, amounting altogether to \$250 in value, from Frankie White on the morning of July 4th, was heard yesterday afternoon before Magistrate Seath in the police court. Frankie White the prosecuting witness, gave the account of the transaction substantially as printed in the Nugget of yesterday. There were six who were to make up the party to go to Nome and were to leave on the morning of the 4th. On the third they had started drinking in the morning and had kept it up the greater part of the day and night and were all more or less under the influence of the liquor. In the evening while sitting in a room in the Melbourne Fay Devinne had asked Frankie to let her keep her money, watch, etc., until morning telling her that she was too drunk to keep them and some one would steal them from her. After some parley Fay had obtained possession of the goods by taking them from her, Frankie, giving an unwilling consent and trusting her to return them in the morning.

The party had broken up shortly after and when Frankie awoke the next morning she found her companions gone and also her property. She had immediately notified the police and the warrant had been telegraphed to Portymule where the party had been arrested. Various articles had been found distributed among them which Frankie identified as her's when they were shown to her. The evidence failed to implicate Freeman who was not in the room at the time the articles were taken from Frankie and the case against him was dismissed. But the other two were upon the evidence produced, held over to the superior court for trial.

STEAMBOAT NEWS.

Inquiry at the office of the Northern Navigation Company today failed to elicit any new information concerning the movements of the lower river fleet. It is considered next to impossible that by this time the boats have failed to get through the delta of the Yukon and are not now within a few days' journey of this city. Under ordinary conditions a steamer heavily laden will take about 15 days in reaching this port from St. Michael and in past years ocean vessels have always been able to reach that point by July 1 or 2 at the latest. The only possible solution to this extraordinary delay is that a west wind has been blowing continuously since the breakup of Bering sea, thus driving the ice floes over against the Alaska shore. Should word be received from Eagle this evening of the arrival of a boat it would scarcely reach Dawson before Saturday, the 20th. That would be the latest date for the first St. Michael arrival since Dawson was founded, and one of the latest in the history of Yukon navigation. It will be impossible for the down river boats to make over two round trips this season, whereas three is generally expected of them.

Steamer Clifford Sifton arrived this morning with a small list of passengers and but 20 tons of freight. Purser Niles reports that there was not a pound of freight left at Whitehorse at the time they left. The Sifton returns up river this evening.

The Victorian pulled into port yesterday afternoon with 46 passengers and 151 tons of freight. She leaves tonight at 8 o'clock.

The Selkirk left last night at 8 o'clock with 24 passengers.

The Whitehorse is due tomorrow evening having left the up-river terminal this forenoon.

The recent strike on the head of Big Salmon is considered of sufficient importance for the B. Y. N. Co. to send a steamer in to the nearest point to the mines. The Victorian which leaves this evening will connect with the Bailey at the mouth of the Hootalinqua, which will land passengers and freight within 17 miles of the mines. About 45 miles up the Hootalinqua, approximately half way between the mouth and Lake Teslin, the Big Salmon makes a very large sweep to the north and is separated from the Hootalinqua by a comparatively short portage, which has proven the shortest and quickest route to the mines. As far as it is known, no one has ever ascended the Big Salmon via its mouth, but the scene of this new strike, as well as all others on the creek, is supposed to be about 200 miles from its confluence with the Yukon.

Should be Compulsory.

While many of the people of Dawson are only too eager to embrace the present opportunity for having their houses numbered at a nominal cost, there are others who are hanging back in the hope that they may profit by their neighbors' enterprise. Now that the streets and avenues are all opened and defined, it is almost imperative as a matter of general accommodation that the houses be numbered—not one here and there but every house in Dawson that is located on a defined and open street or avenue.

The members of the Yukon council individually favor the improvement and should they order that the numbering of houses be general it would be acceptable to all progressive citizens.

Will Ship Egan in Bond.

The two lads, Mark Stein and Martin Egan who left Dawson a week ago last Tuesday in a canoe en route to Nome and who were brought back on the steamer Lorelei yesterday morning, were before the authorities yesterday afternoon. The boys were given a good lecture and some good advice regarding their future conduct and Master Stein was given in charge to his parents.

The fate of Master Egan has not been fully decided upon but the probabilities are that he will be sent down the river by the first boat and given in charge of the authorities at St. Michael who will forward him to his home at 'Prisco, from which place he ran away several weeks ago.

Another Concession Case.

Another concession case was heard before Gold Commissioner Senkler yesterday, the action being entitled Kraemer et al. vs. Milne. Practically the same points and arguments were brought up in this that were set forth in the Matzon case, heard several days ago. The gold commissioner made the same ruling, holding that the action could not be properly brought without the consent of the attorney general. The case will be appealed.

Next to the Anderson concessions, the Milne grant is considered to be richest on Hunker. It joins the Anderson tract on the latter's left hand side boundary and extends back a distance of one mile, taking in Dago and Savoy hills and the lower end of Henry gulch. The latter was the scene of some phenomenally rich strikes made a few months ago.

COMING AND GOING.

Mr. and Mrs. Casper Ellinger took their departure for the outside on the Selkirk yesterday evening.

Red Wittington, in charge of the Methodist missions in Western Canada, was a passenger on the Selkirk for Whitehorse.

In consequence of the Baatz-Morford case having been settled out of court, there was nothing doing today in Justice/Dugan's department.

O. Hestwood, wife and five children arrived last night on the Victorian. Mr. Hestwood is heavily interested on Lower Bonanza.

Wm. McIntyre, one of the proprietors of one very well-beloved evening contemporary, returned on the Victorian from six weeks' vacation spent in Seattle and Tacoma.

The north end of Front street near the Standard Oil works is being cut down to grade. The gravel removed is being used to macadamize First avenue between Second and Third streets.

The case of Henry vs. Lamb heard yesterday before Justice Craig has been reserved for argument and judgment. Attorney for the defense is granted permission to introduce testimony taken at the hearing of the case before the police magistrate.

If you like fine candies, cool drinks or delicious ice cream try Mrs. West's new store on Second avenue.
