MONSTER DELEGATION FROM MOOSE JAW

Want Government to Promise the University to That City—Premier Replies That Matter is in Hands of Board of Governors.

Moose Jaw was responsible for sending the largest deputation that has ever waited on the Saskatchewan government. The members comprising the delegation came chiefly from Moose Jaw, though there were members from Yellow Grass, Housay, Drinkwater, Morlaek and Maple Creek as well. The expense of the delegation was paid by Moose Jaw whose council voted \$500 towards that end. The delegation came down from Moose Jaw on a special train on Monday evening, and through the members of the government in the civic police court room. Before the meeting was called to order Mayor Smith extended a civic welcome to the delegates.

In starting the ball rolling, Mayor Bogue of Moose Jaw, took the lead. He stated that the delegation was composed of the city council of Moose Jaw as well as leading citizens from there and outside points. They were present, not to embarrass the government but rather to help them in the question of location of a university site for the Saskatchewan University. They believed in the distribution of public institutions in the different parts of the province. If the government ever had any doubt as to where the university should be located, he hoped that after members of the delegation has expressed their views their doubts would be dispelled.

Mayor Bogue then read the petition. It was signed by residences from the following places: Herbert 12, Maple Creek 34, Swift Current 38, Caron 44, Drinkwater 41, Wilcox 27, Milestone 35, Yellow Grass 45, McTaggart 37, Weyburn 43, Estevan 37, Belle Plain 32, Indian Head 49, Sisseton 43, Grenfell 31, Wollsey 36, Summerby 33, Broadview 102, Whitewood 38, Wapella 18, and Moose Jaw 1,492, of a total of 2,217.

W. B. Willoughby, of Moose Jaw, then spoke. He stated that had not the government requested Moose Jaw people to drop their arrangements with regard to the Saskatchewan College in view of the coming university, that institution would have been more than a thing on paper. He didn't think that the city of Regina would begrudge the due distribution of public favors. The feeling in the country was against centralization. The university should be located where the student body is to be found. The university wasn't usually found in the capital city and proved this by reference to North and South Dakota, Montana, Idaho, Wisconsin, Michigan and Washington states. The control of the university should be removed from political influence and consequently it was not wise to have the university in the capital city. The bulk of the population of the province is in the south and he argued that the university should be in the south on the line of the great transcontinental railway. The Alberta university was on another great transcontinental railway. Mr. Willoughby made a very able address.

Rev. E. J. Cogan was the next speaker. He referred to the statement made some time ago by Mr. Calder that only those institutions incidental to the capital city would be located in the capital city. While he was pleased with the statement that the question would be recommended by the government yet he could not help but feel that the matter finally rested with the government. He thought indecision as to location of the public institutions could not fall but be harmful. He hoped that the struggle over the university site would not be prolonged. If it were it would to some extent cripple the university of the future owing to the local prejudices which would arise. Moose Jaw had now twelve students attending universities in the east and there was certainly a work for the institution to do. There was an earnest desire that the question should be decided at once, and of course they would be better satisfied if it were settled in accordance with their petition.

W. R. Abbott of Maple Creek favored the spreading of public institutions over the province and of course Maple Creek favored Moose Jaw because it was nearer to them.

W. Lennox, of Yellow Grass; W. H. Duff of Drinkwater, and E. B. Bestor of Moose Jaw also favored the idea of decentralization with reference to public institutions.

J. T. How, of Rouleau, thought if the government favored decentralization they should decide on Moose Jaw. It was accessible to the Soo line.

Wm. Grayson of Moose Jaw said they were not there to hold up the government but to place the claims of Moose Jaw and the merits of their site. He appealed to the government to take the question into consideration outside the realm of party politics. He personally had never expected the capital to be located at Moose Jaw, but thought it was properly located at Regina. However, Moose Jaw people had set

(Continued on page 5.)

CHINESE RAID A FATAL ACCIDENT

Twenty-three Chinamen Accused of Frequenting a Gambling House—Mack Sing on Trial.

The police with a search warrant made a search on Oster street on Sunday evening in what is supposed to be a store run by Mack Sing. They were suspicious that it was a gambling place and hence their action. About twenty-three Chinamen who were in a room above the store were taken to the city cells and locked up for the night. Mack Sing was charged with keeping a common gambling house, and the others with being frequenters of gambling houses. The charge against Mack Sing was commenced on Monday afternoon, C. E. D. Wood being retained for the accused. The case was adjourned on Monday afternoon in order to give the city solicitor an opportunity to be present and take part in the case.

The case came on again yesterday morning and continued until 2.30 with a recess for lunch. The prosecution called Chief Harwood, Sergt. Sample, Constables Gladow and Hogarth and Phil Francombe.

The evidence showed that on Sunday evening in the room over the store there were several Chinamen around tables on which could be seen gambling paraphernalia and some money. Of the latter the chief recovered \$3.85 and Sergt. Sample about 35 or 40 cents. Wines and other liquors were also found on the premises.

After the evidence for the prosecution had all been put in arguments were heard and the magistrates, McCausland and Redgrave, decided that there was enough evidence against the accused to have the case go on. The case was brought up again this morning.

While on duty yesterday morning between half past seven and eight Switchman Herbert Clarke met with an accident which ended in his death shortly before noon yesterday. His foot got caught in some manner between the rails, and the cars moving forward crushed his left leg. The cars were stopped immediately and the injured man taken in charge by the railway boys. The ambulance was secured and a doctor sent for. The injured man was moved as soon as possible to the Regina hospital. Amputation was decided upon, but the patient had lost so much blood that it was impossible to save his life, and as above stated he passed away about noon.

The deceased was an Englishman about 28 years of age and unmarried. He has been staying at the home of George Sturdy, Halifax street.

His mother lives in England and he has a brother at Vancouver. The funeral will be held on Sunday next from the residence of George Sturdy, to the Regina cemetery.

RAINPROOF COATS

Some remarkably good values in Rainproof and Showerproof Coats for Men. This is the time you need a coat of this kind. The Showerproof Coats are nice for rain or shine.

Brown and Grey Waterproofs
 Fine Hard Twill Worsteds, in Dark Fawn or Grey, colors that don't soil easily \$8.00

LEGISLATURE HAS SHORT SITTINGS

Little Work Done so Far—Returns Brought Down Regarding Supplementary Revenue Act—The Government and the Grain Question.

The address in reply to the speech from the throne was closed by Premier Scott, who followed Mr. Haultain. He spoke for a short time on Monday, and moved the adjournment, resuming his remarks on Tuesday.

TUESDAY, APRIL 7.
The seed grain bill was read a first time today.

The report of the Department of Public Works was laid on the table. Mr. Donaldson of Prince Albert gave notice of several questions relating to public work done by J. O'Leary in his district.

The premier in his speech took up about two hours' time most of which was devoted to a defence of his government. At the outset he tried to show that the government was a constructive one and cited as samples of constructive legislation the Supplementary Revenue Act, the Courts Act and the University Act. He also referred to the Prince Albert district election and stated that the government had established a precedent in the making of it possible for Mr. Donaldson to take his seat.

In referring to the subject of the university, Mr. Scott said that the duty of selecting a president for the university was left to the board of governors. The selection of a site would also be made by the president and board of governors, who would first make a tour of inspection of the different probable places in the province. Of course the site proposed by the board would have to be endorsed by the lieutenant governor in council.

On the question of C.P.R. exemptions which was referred to by Mr. Haultain, the premier stated that the attorney general of Alberta and the attorney general of this province were preparing a test case to take into the courts.

The subject, relating to the shipment of grain is dismissed with a statement to the effect that there wasn't railway equipment enough to handle the trade of the country and so there could be no remedy to the situation by means of legislation.

The premier spent a long time on the obnoxious Supplementary Revenue Act trying to justify it and to show how it would work out to good advantage. He stated that they had reason to believe it would be satisfactory for the municipal commission during their visit to different places in the province. The government side of the house was unanimous in believing the Act was a very proper one.

The most important work they would have to deal with this session would be relating to municipal laws. The commission had consultations with Mr. Lightfoot a man who is known all over Canada as an expert on municipal laws.

Referring to the statements made by Mr. Garay with regard to the registration of land, he stated that the selections of railway grant lands had been made and the only outstanding lands entitled to exemption are the lands in the hands of the C.P.R. and a small tract of land, not in one piece but scattered throughout the province which is in the hands of the Saskatchewan and Western Land Co. for sale. There were also subsidy reserve lands in connection with the Prince Albert railway.

The liquor law would be dealt with and he appreciated the attitude of the leader of the opposition on this subject. He also outlined the method of securing plans for the new parliament buildings and he hoped that they would be erected and ready for use before many years.

The statement of Mr. Haultain that there had been no demand for free readers was ridiculed. He was much surprised at the attitude of the opposition; for the proposal was a good statement of the implied contract between the government and the people. Respecting the implied contract of graft in the letting of the contract made by Mr. Haultain, the premier said he was much surprised. He could take but one meaning from it. Mr. Haultain had either gone too far or not far enough. He would ask the leader of the opposition to bring down his charges and have them investigated.

On the election law he said that in Mr. Haultain's fourteen years of successful administration he had requested many good laws to the province, but after the recent Prince Albert election, they would all agree that it had outlived its usefulness. It was now proposed to make a new law. He denied that the member for Regina was the representative of a minority, nor was the member for Regina. As for the redistribution bill the desire was to give a square deal. For that reason it was not proper that this matter should be left until the last session of the term, hence the decision to introduce it now. He said the act of 1905 had followed the very closely Mr. Haultain's act of charges had received 77 cents. True, Souris had a population Grain Growers' Association had appeared three or four times the population of pointed a deputation to wait on the some of the northern constituencies government, so to carry the motion

but only five seats had been added. Mr. Haultain asked if Redberry, Rosthern and Humboldt were not new.

The premier in confusion replied that possibly some changes had been made, he was not sure.

The premier then proceeded to say that only five new seats had been created. Moreover in the north population had grown much more rapidly than in the south.

Speaking of the conference of the provincial premiers held at Ottawa, the premier said that the increases secured for Saskatchewan and Alberta were very great. At first their demands had been laughed at, representatives of the other provinces maintaining that the two had been dealt more fairly with than the others. Premiers Roblin and McBride had maintained this.

The premier condemned the suggestion of changes in the school law. That they had not been introduced was an evidence that the government had kept faith with the people. During the last campaign the opposition had aroused suspicion respecting the government's intentions, notwithstanding the fact that they had "my friend, the Archbishop of St. Boniface." But nothing in the subsequent action of the government could be interpreted as a confirmation of that suspicion. The premier concluded with a review of the legislation of the government during the last thirty months, giving credit to his colleagues for the work accomplished.

The address was agreed to without division. Before the House adjourned Mr. Sheppard asked the government to take up the matter of the C. P. R. withdrawing their contract for the construction of their line north west from Moose Jaw. In reply the premier stated that the government had no control but would make representations.

WEDNESDAY, APRIL 8.
Outside the discussion on the motion made by Dr. Ellis, very little was done in the House today. A bill was put through all stages and passed, which deals with hotels. Last session an act was passed requiring hotels in cities to have 20 rooms and in towns 15 rooms. Previously, respectively, and the new act provides for a reduction to the former requirements of accommodation.

Mr. Wellington gave notice that he would ask for a return giving correspondence relating to a poor house site at Moose Jaw. In the legislature on Wednesday a motion calling for an enquiry into the subject of interior elevators was defeated on a party division by 14-9. The motion reads: "That the government be requested to make provision for an enquiry into the question of the government ownership of interior elevators for the information of the House at its next session."

In speaking to his motion Dr. Ellis said that two years ago some phases of the conditions of the grain trade had been discussed, and a resolution had been adopted asking for changes with a view to removing certain disabilities, so that the farmer might get full price for his produce. The abuses could be cited under three heads: Grading Grain; Inadequate transportation; and Corporation Owned Elevators. The first had been remedied by regulation, the second would be improved by better railway facilities. The third was not likely to be remedied by legislation; the discrepancy between actual prices and what values was becoming greater. The Saskatchewan Grain Growers' Association had recommended government ownership of internal and interior elevators. The proposal should recommend itself to all. He thought that the ultimate solution of the transportation difficulty would require the issue into government ownership of railways. There was good precedent for such action, as an enquiry had been instituted into the telephone question, and the government had adopted the principle of government ownership. The situation could be solved by requirement of elevators at various points in the province. The farmers lost in three years an amount sufficient to cover the costs of the proposal.

Mr. Langley replied, saying that as a member of the Saskatchewan Grain Growers' Association executive, and a delegate of that body to Ottawa, he spoke with authority. He asked the mover not to press his motion. The Grain Growers' Association had come to the conclusion that the Dominion government should take over the internal and transfer elevators. The mover had developed some good points. The difference between the street and track prices was as great as ever. The speaker himself had taken a sample of grain to an elevator man and had been offered 42 cents. He was not satisfied he had shipped and after deducting 17 cents. The very closely Mr. Haultain's act of charges had received 77 cents. True, Souris had a population Grain Growers' Association had appeared three or four times the population of pointed a deputation to wait on the some of the northern constituencies government, so to carry the motion

Mr. Langley replied, saying that as a member of the Saskatchewan Grain Growers' Association executive, and a delegate of that body to Ottawa, he spoke with authority. He asked the mover not to press his motion. The Grain Growers' Association had come to the conclusion that the Dominion government should take over the internal and transfer elevators. The mover had developed some good points. The difference between the street and track prices was as great as ever. The speaker himself had taken a sample of grain to an elevator man and had been offered 42 cents. He was not satisfied he had shipped and after deducting 17 cents. The very closely Mr. Haultain's act of charges had received 77 cents. True, Souris had a population Grain Growers' Association had appeared three or four times the population of pointed a deputation to wait on the some of the northern constituencies government, so to carry the motion

before the deputation arrived would be discourteous. Mr. Ellis said that as a member of the Saskatchewan Grain Growers' association, he could not see his way clear to withdraw his motion.

Mr. Langley then moved the following amendment, which was seconded by Mr. Sutherland:

"That all words after 'that' to the end of 'question' be struck out, and the following words be substituted: 'In view of the fact that the conference of Grain Growers' Associations of Manitoba, Alberta and Saskatchewan has expressed the desire to confer with the premiers of these provinces respecting the question of the ownership and operation of the interior elevators; and in view of the further fact that the Grain Growers' association of Saskatchewan has not had an opportunity to confer with the government of Saskatchewan respecting this important matter.

"Therefore, be it resolved, that in the opinion of this House it would be inadvisable to express any opinion on this matter until the conference had been held."

Mr. Sutherland said that in seconding the amendment he did not desire to throw obstacles in the way, but respected the arguments of the mover. Mr. Ellis could not understand how the motion could be considered as discourteous. On the contrary, it was an assurance of the support of the House to the proposal of the Grain Growers' Association. It only asked that an enquiry be made.

Hon. Mr. Motherwell said that the motion might well have been left over. To express an opinion now would be an act of discourtesy to the Grain Growers' association. The supporters of the resolution had not meant to be discourteous, but they did not know all the facts.

Mr. Haultain asked Mr. Langley what action the Grain Growers' association would recommend. Mr. Langley replied that it probably would recommend government owned elevators. Mr. Haultain failed to see any act of discourtesy in the motion, for it only asked the government to do what the grain growers desired. The assembly was the most representative body in the province, and it was proper that they should deal with all such questions, no matter what other bodies might do. Rather than being discourteous, the motion was sympathetic.

Hon. Mr. Turgeon said that with other members of the government he had understood that a full enquiry was demanded. If it were meant simply that the opinion of some such person as the member for Redberry were to be consulted, there was no need for an enquiry.

J. T. Brown said that the members of the government had drawn on their imagination in the matter of courtesy. It had been said that the grain growers were practically in the resolution, if so, why should they consider it discourteous? It was not meant that the government should appoint a commission, but merely for an enquiry.

The government still persisted in calling for the withdrawal of the original motion. Mr. Wylie requested that Mr. Langley withdraw his amendment, as it simply anticipated what the grain growers would request.

On a division, the amendment was carried by 14-9, the yeas and nays being demanded.

THURSDAY, APRIL 9.
The House sat for about an hour today during which time his Honor, the Administrator, visited the House and gave his assent to the Liquor Ordinance Amendment Act.

Mr. Bole presented a petition from E. A. McCallum, and four others asking for incorporation as the Saskatchewan Trust and Guarantee Co. Mr. Calder gave notice of a bill secondary education.

The government agreed to bring down returns asked for by Dr. Elliot and Mr. Donaldson. The bill to amend the Marriage Ordinance was read a first time. The bill respecting woodmen's liens for services was passed to the committee stage.

The bill proposing to provide a remedy for men working at the lumbering business to secure themselves when their wages are not forthcoming. The House adjourned at 4 o'clock.

"Sunshine" Furnace

Where Shaking is Respectable
A Draft of furnace done, with no other assistance, is possible to overcome the dirt nuisance in shaking bins. Only requires dust rise of itself above the fire. Great bulk descends into ash-pit, and unless legitimate outlet is therein provided, dust will escape through ash-door slots and into operator's face.

In "Sunshine" Furnace the legitimate dust outlet is provided. It's a great big dust-pipe running straight from ash-pit to dome, thence to chimney. When big pipe damper is opened, all dust in ash-pit ascends to dome; then, when direct drafts are opened, all dust passes up chimney.

Always the clean and quick dust route in "Sunshine" Furnace—via grate, to pan, to dust-pipe, to dome, to chimney, to open air.

Write to us for "Sunshine" testimonials received from your own townspeople.

BANISH PIMPLES AND ERUPTIONS

Everybody Needs a Tonic in Spring to Purify and Build Up the Blood.

If you want new health and strength in spring you must build up your blood with a tonic medicine. Indoor life during the long winter months is responsible for the depressed condition and feeling of constant tiredness which effects so many people every spring. This condition means that the blood is impure and watery. That is what causes pimples and unsightly eruptions in some, others have the twinges of rheumatism and the sharp stabbing pains of neuralgia. Poor appetite, frequent headaches, and a desire to avoid exertion is also due to bad blood. Any or all of these troubles can be banished by the fair use of such a tonic medicine as Dr. Williams' Pink Pills. Every dose of this medicine helps to make new, rich, red blood, which drives out impurities, stimulates every organ, strengthens every nerve and brings a feeling of new health and new energy to weak, tired, out-ailing men and women. Here is proof that Dr. Williams' Pink Pills is the greatest of all spring medicines. Mr. Henry Baker, Chipman, N.B., says: 'Last spring I was so weak and miserable that I could hardly drag myself about. My appetite was poor, I did not sleep well, and dreaded work. My blood was in a terrible condition, which caused pimples and small boils to break out all over me. These would itch and pain and caused me much trouble. I tried several medicines but without the least benefit, when one day a friend asked me why I did not try Dr. Williams' Pink Pills. He spoke so highly of this medicine that I decided to take his advice and give the pills a trial. I got a half dozen boxes and the result was that by the time they were finished I felt an altogether different man. They purified my blood, built up my whole system, and I have not had a sick day since. For this reason I highly recommend Dr. Williams' Pink Pills as a blood purifier and purifier.' Sold by all medicine dealers or by mail at 25 cents a box of six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

SMITH THE MAN

The Conservative Convention at Estevan Endorses Smith—Other Candidates.

At the magnificent Conservative convention held at Estevan on April 10th, Mr. C. C. Smith, was again nominated as Conservative standard bearer to oppose Mr. Turfiff in the constituency of Assiniboia. Very few were in favor of the party endorsing the candidature of R. L. Richardson, and so again Mr. Smith was tendered the unanimous nomination of the party.

EXPENSIVE PROTECTION

Game Guardians Cost the Province Over \$4000—Only 18 Convictions Out of all Prosecutions.

The following information asked for by the opposition regarding game guardians, etc., was brought down in the assembly on Monday. Chief game guardian: T. M. Welling appointed March 18, 1907, salary included in that of chief inspector of woods. District guardians: Neil Gilmore, Moose Jaw, appointed April 20, 1907, salary \$900 a year and travelling expenses, which amounted to \$253.35; W. L. Lawlor, Lawlor P.O., appointed May 17, 1907, salary \$900 a year and travelling expenses, which amounted to \$44.18; F. I. Hauser, Humboldt, appointed July 15, 1907, salary \$900 a year and travelling expenses, which amounted to \$513.40.

Neil Gilmore has charge of the southwestern portion of the province. W. L. Lawlor of the eastern, and F. I. Hauser of the Northern. The following are the number of prosecutions and convictions through the efforts of each game guardian: Neil Gilmore, 7 prosecutions, and 7 convictions; W. L. Lawlor, 5 prosecutions, 4 convictions; F. I. Hauser, 7 prosecutions, 7 convictions.

home in France two years ago, to wander round the world with two companions. One by one his companions dropped off. One was killed in an accident, another committed suicide, and when Moose arrived in Canada a few weeks ago, he was the only one left. He intends walking to Vancouver via Duluth and Winnipeg.

Ottawa, April 6.—It was the intention of the Ottawa Canadian Club to have had Sir Charles Tupper, as president of Honor, at the annual banquet of the club. Gerald Brown, secretary of the club, however, has received a letter from Sir Charles in which he says it will not be possible for him to come east owing to the poor state of Lady Tupper's health.

Winnipeg, April 10.—Emma Goldman is not coming back to Winnipeg again if the civic authorities can help it. Although her recent visit here, which ended in her rather sensational disappearance under an assumed name, passed off with but one ward incident. The authorities fear that her propaganda may be upsetting to the foreign element in the city and have consequently requested the minister of the interior, the Hon. Frank Oliver, to take steps making it impossible for the woman to return to Canada from the United States.

Boston, April 12.—A storm of fire riding with a gale that blew from 45 to 60 miles an hour, swept over the city of Chicago today, destroying the larger part of the business and residential sections. Thousands of persons were driven from the churches and their homes, and so swift was the work of destruction that many had to flee for their lives. Two women who delayed to try and save some of the effects of their home were buried to death. Half a hundred men and women are injured, and many of them are not expected to live. Fifteen hundred families are homeless, and the principal public and private buildings of the city are in ruins, and the property loss will probably reach a total of five million.

Washington, April 13.—Two treaties were signed at the state department Saturday by Secretary Rufus and Ambassador Bryce which marked the termination of long standing disputes between the United States and Great Britain. The first of these conventions establishes definitely and finally the boundary between Canada and the United States. The second provides for the preservation and development of the fisheries of the great lakes.

Other treaties, some of greater, some of less importance, are to be signed before all the differences between Canada and the United States shall be adjusted, but the negotiations are in such shape as to warrant the expectation that they will be arranged in a comparatively short time. The boundary treaty will settle for all time the exact point along the 3,000 miles where the United States sovereignty begins and ends. The treaty is drawn with much care, and it is not believed that further differences will be possible. When it has received ratification, boundary stones will be placed near each other, and modern maps will be prepared, upon which the line is to be located with the greatest exactitude. More than \$7,000,000 of American capital and several millions of Canadian capital is invested in the fishing industries of the great lakes.

Under this treaty the two governments will appoint a joint commission which shall draft uniform laws and regulations for the protection of the fisheries. The treaty makes no reference to the perennial Newfoundland fisheries question.

Edmonton, April 13.—The contract for fencing the new Buffalo Park of 122,000 acres on the Battle River, was let last Saturday to the Ideal Fencing Company of Winnipeg for the wire, and John Breckenbridge of Calgary, for construction. The contract is well under the estimated cost of a thousand dollars per mile for the seventy miles. The contractor will have to build a mile a day to finish in the time contracted for.

Moose Jaw, April 11.—Heretofore Moose Jaw has been the outpost of customs, but is now gazed the chief port and warehousing point. Maple Creek, heretofore, under the survey of Lethbridge, is transferred to the survey of Moose Jaw.

Berlin, April 13.—Representatives of some of the most prominent German chambers of commerce are making diligent efforts to obtain government support for the proposition that a definite date be set for the observance of Easter. Several of these bodies have decided to petition the Bundesrath to enter into negotiations for this purpose with the ecclesiastical authorities of Germany, and, if possible, obtain the cooperation of other nations. The fact that the date of Easter varies year to year, through a period of thirty-five days is said to bring an element of uncertainty into the conduct of business, disarrange the vacation terms in the offices and schools, and otherwise constitute a disturbing influence in industrial and social life, especially in Germany, where the festival is universally observed.

Heretofore the government held that such a change of an ecclesiastical custom, which has endured for centuries, would be impracticable. The promoters of the movement, however, recommend that that first Sunday after April 4, be fixed as the date of Easter observance, and say they expect a more favorable reply this time.

Lethbridge, Alta., April 13.—Prairie fires are raging in all directions and considerable damage has been done in a few places. The prairie is very dry. The police are very active after those starting the fires. Six arrests were made in Macleod yesterday. Several Japs employed on a railway gang, set fire to gophers they had soaked in kerosene and caused a fire. Louden's ranch near Bowell, was burnt with a loss of stables and five horses.

Paris, April 13.—Religion and politics seem to be the favorite subjects at this year's salon, which President Fallieres inaugurated this afternoon, though not before several offensive canvases had been removed. These, in spite of the fact that they had been sent by prominent associates of the society of fine arts, the government ordered out. Among them was the humorist Jean Vebers, a large caricature of the German Kaiser, enveloped in a long cloak, grinning toward France, as followed by his military staff, he skirts the course of the recent automobile race. Though there is no political meaning in this picture, it was feared it would give needless offence to German visitors.

A picture representing the interior of Rennes court room during the Dreyfus trial, was also quietly discarded after being hung.

Religious subjects were confined mostly to new testament pictures, illustrating episodes of the life of Christ, but in an emotional or intellectual rather than a material sense. The American exhibitors numbered about forty.

Fort William, April 13.—A deputation consisting of all the ministers of the city and some business men waited on the police commissioners on Saturday with a petition signed by themselves urging total suppression of houses of prostitution. They addressed the commission at great length, but were finally informed by the authorities that they were handing the evil in the best possible way. The commissioners declined to close the houses.

Montreal, April 13.—Eight hundred passengers who arrived on the Dominion liner Canada at Portland reached here yesterday. Six hundred of them, all English farmers have gone west.

Port Arthur, April 13.—The C.P.R. is now accepting freight from Moose Jaw and points east for lake shipment. It is expected that the first C.P.R. boat will arrive from Owen Sound on April 25. Six million bushels of wheat are in the Canadian Northern elevator awaiting transportation east by boats.

Lowe (W. 24-16-20W3) Regina, since December 30th, 1907: Dark Brown Mare, white face, about eight years old, weight about 1400 pounds; Bay Mare, six years old, weight about 1300 pounds; Grey Gelding, seven years old, weight about 800 pounds; Brown Mare, three years old, weight about 1050 pounds; also one Colt rising three years old, and two Colts rising two years old. All branded J.T. on the right thigh with the exception of one colt. Any information leading to the recovery or return of the above mentioned horses will receive above mentioned reward.

M. H. LOWE, Regina, T. O.

ed to a little conversation with enlighten him on various things. But Madame de la Roche, who was seated next to him, was however, so anxious for a few minutes, that he was obliged to leave her. He was, however, so anxious for a few minutes, that he was obliged to leave her. He was, however, so anxious for a few minutes, that he was obliged to leave her.

CHAPTER III
FOR the first moment St. Quentin could scarcely believe his ears. Then, stepping nearer, until he was within half a dozen yards of the window, which was some two feet from the ground, he heard words repeated, even more faintly than before.

St. Quentin debated within himself a few seconds what to do. Then he stepped back, with the intention of taking a running leap up to the window, in the hope that he might be able to raise himself high enough and hold on long enough to see into the room.

St. Quentin was in a fever. He paced up and down the room, unable to stand still, looked round at the pictures on the paneled walls, at the heavily-carved sideboard glittering with silver and all-argent plate, at the beautiful tapestries on the tapestries that hung over the chairs, at the clock, at the beautiful tapestries silk curtains that he had admired that evening as he had entered the house.

St. Quentin, forgive me for having made you wait so long. But you know what my circumstances are, you see. My friend Marbeau has just died, and I have no money. I am in a very bad way. I have no money. I am in a very bad way. I have no money. I am in a very bad way.

THE WEST

Published every Wednesday by The West Company, Limited, at their office, 220 Broad Street, Regina, Sask.

Subscription to United States, \$1.50 per annum if paid in advance; otherwise \$2.00 per annum.

WEDNESDAY, APRIL 15, 1908

Significant Silence

When The West drew public attention to the way in which the purchasing end of the seed grain department of the government was dealing with the farmers in the matter of dirty and expensive seed, the Leader immediately, with brazen effrontery, announced that everything was all right, and that we were misrepresenting the situation.

The bluff of the local government organ did not dispose of the question which we raised in the interests of the farmers and the silence which has characterized them since, Mr. Motherwell has been compelled to admit the extent of our contentions, has but one meaning. We were right in our assertions and we believe that much good has resulted from the position we took in bringing this seed grain question to the attention of the government and the public.

Misrepresentation

The government organ in this city is driven to desperation over the defection of old time Liberals from the party and now by misrepresentation, its old policy, it attempts to attack the American-Canadians by false alarms. The Leader, in an editorial on Saturday last, said that a colleague of Mr. Borden's in the House at Ottawa, stated that he had "a preference for Hindu rather than American immigrants."

Conservatives offer no insults to Americans who come here to make their homes. That is one of the things Sir Wilfrid Laurier claims the sole right to do, and he surely did it in the autonomy bill debate. Perhaps the Leader would like us to

again quote the Liberal premier on that occasion.

Editorial Notes

The seed grain department has taken back from the farmers cars of grain which were supplied. Perhaps the provincial Minister of Agriculture will deny this.

The local government does not seem to have any legislation ready for the House and every sitting so far has been short, except when the premier spoke. We understand that when the House adjourns for the Easter recess it will stand adjourned until Monday, April 27th.

It cost the government of this province a good deal to secure 18 convictions under the present game protection system. Could not economy along this line be practiced?

"It is safe to say that the government has supplied a higher average of seed grain to the farmers in the west than has ever been sown in any former year in the experience of the west." That is what Mr. Motherwell said when this paper called the attention of the government and public generally to the seed that was being supplied. Their "unreasonably high standard" did not seem to be lived up to in some of their purchases. However, we congratulate ourselves that they have made some exchanges and taken back some of the dirty stuff.

Moose Jaw wants the university alright, but we should imagine that the demonstration they made on Monday evening would not strengthen their cause.

Attorney General Turgeon was not very prominent when the deputation from Moose Jaw waited on the government. Perhaps he was licking some of that tardy legislation into shape.

Press Comments

(Toronto Independent.)

Theodore Burrows, a member of the Dominion parliament, has been in the lumber business for a number of years.

Theodore Burrows has timber limits in his own name, and in the name of others covering 1,336 square miles of western Canadian territory.

Theodore Burrows acquired practically all these timber rights during the regime of his brother-in-law, Hon. Clifford Sifton, who controlled the Department of the Interior.

Theodore Burrows and (his possible associates) have come into millions of money by the acquisition of 1,336 square miles of timber area.

Was it the work of a statesman to hand over a kingdom of territory to a brother-in-law, or the job of a very common politician?

(Ferne Free Press.)

It is high time that this province returned to the status of an un-

gained territory. The provincial legislature has about as much authority, under the Confederation Act as interpreted by the judiciary of B. C. as has the National Council of Women in controlling the destinies of Patagonia. Our legislation against Orientals is "ultra vires," our divorce courts have been held to have no status by virtue of provincial law. We cannot protect the infant population from death through impure milk, because the Dominion has its paternal eye on every dairy from Dawson to Bradore Bay, and its nose on our business, and now it appears that we cannot protect our fresh water fish because the federal government once upon a time constituted itself fishwarden of the country. The principle seems to be that the General Manager, being in charge of the works, shall perform the duties of superintendent, foreman, shift-boss, artisans and laborers and God help the underling who attempts to do anything.

(Toronto News.)

Rev. John Pringle's campaign in the Yukon has not been without effect. The resignation is just announced of one of the officials against whom his attacks were particularly leveled. It will be admitted that it is not easy to maintain normal conditions in a mining camp. Whether or not Mr. Pringle makes due allowance for exceptional conditions in the Yukon it is impossible to say at this distance. Certainly he has shown courage and determination and he is right to make no compromise with a corrupt official. It is manifest that Mr. Pringle's enemies are determined to reduce the fair measure of his public influence and to impair his standing in the church to which he belongs. If they succeed the church will fall in loyalty to one of the most aggressive and public-spirited of its leaders.

(Victoria Colonist)

As variety is the spice of life, it is diverting just now to turn from a survey of conditions in the United States, where students of sociological developments tell us there is a steady tendency in the direction of a monarchical form of government, to Portugal, where the republicans are making strenuous protests that the monarchy is obsolete.

(Manor Advocate.)

The man who has stood by the province through thick and thin, and has at every stage of his political career fought his best for the interests of the people he represented, always having a clearly defined plan of action, which he closely adhered to, is the Hon. F. W. G. Haultain. There is no doubt that his services to the province in the past will be realized, and although at present he is on the opposition benches, his supporters look forward with full confidence to the time when he will be premier of Saskatchewan, a position for which he is eminently fitted.

(Indian Head Prairie Witness)

Chief Justice Wetmore in the absence of Lieut.-Governor Forget opened the legislative assembly. So far as can be learned the speech was well read and was delivered with all the dignity befitting the occasion. Does this not again remind every common sense citizen that there is really nothing but governmental frills and nonsense standing in the way of having the chief justice of any province act in the capacity of lieutenant governor? We have nine lieutenant governors in Canada with nine expensive gubernatorial establishments to keep up and such is the power and influence of custom that it is only when an occasion like this occurs that we feel the whole of our lieutenant government machinery is a lot of aristocratic humbug. But of course until we see deeper than the glare and glare of things we must have the tinsel and the cymbal.

(Bystander in Toronto Sun.)

In Campbell-Bannerman, England parts with a head of the government worthy and popular but not strong. In Asquith it gains one strong, but, there is reason to fear, not so trustworthy. Even if he were resolved to take a straightforward course, he would find it hard to keep his resolution as the leader of a party made up of Liberals, Radicals, Laborites, Socialists and Home Rulers. What the country really wanted was a moderate Liberal government, with an effective reform in the house of Lords. The failure to get this is due to the wavering and vacillation of Balfour, the Conservative leader, about the weakest man that has ever led a party in England, combined with the selfishness of the Protectionists. Seeing the state of the House of Commons and the exhibition of potroonery in the division on the unemployed bill, the political prospect in England is not bright.

General News

Los Angeles, April 10.—Day Elmer a cigar dealer last night broke his 43 days' fast by partaking of a clam broth and milk in small quantities and is today gradually accustoming himself to solid foods. Elmer said that the death of a man in St. Paul in an effort to prolong a fast induced him to end his own experiment. El-

mere reduced his weight 38 pounds. He exercised daily, and on the 39th day climbed to the summit of Mount Wilson and returned.

Vienna, April 10.—What are held to be important revelations in regard to diseases of the heart were made last week at a meeting of the international Congress of Internal Medicine. Prof. Max Herz of the University of Vienna announced that sources of disease were not due to weakness of the heart itself, but was to be found in the fact that the heart could not fulfill its functions properly owing to lack of sufficient room. That this was frequently the result of holding the body in an incorrect position, was shown. He declared that in the case of writers, bookkeepers, lawyers and dentists whose chests became so contracted that the ribs exerted an injurious pressure on the heart.

Toronto, April 10.—James W. Ross a Scotchman, aged 85, living on Shuter street, is sending to the mayors of the various cities throughout the United States, South America and Europe letters asking them to use their influence in obtaining offers of marriage from wealthy women. He encloses an advertisement, saying: "Ladies, I shall esteem it a favor to receive a leap year proposal from you from bona fide wealthy ladies only, applications to be addressed to suitor, care of his worship the mayor of _____ and marked leap year proposals." The letter to the mayor also says: "Should your worship care to investigate my character, I can refer to the Rt. Hon. James Bryce, British Ambassador at Washington, also to professional gentlemen in this city guaranteed by the mayor." A despatch from Birmingham, tonight, says that the applications have been given wide publicity in the evening papers, and results are expected.

Port Arthur, April 10.—If both the Doukhobors and the jail officials persist in the measures which have been adopted since the nineteen were placed in jail here to await transportation to Toronto, the result will be that the Doukhobors will starve to death. They refuse to eat anything on the prison bill of fare, demanding fruits not prepared by cooking. They refuse to clothe themselves, and will not even clean out their own cells, but sit around chanting their usual dirges. It is expected that a special car will be used to take them to Toronto.

Washington, D.C., April 10.—The president's message to congress urging drastic legislation to curb the "reds" seems to have aroused all the anarchists in the country. While every effort is being made to keep the fact quiet, it is known that the house within the last few days has been flooded with letters of protest, many of them threatening. Two facts show that extra precautions have been taken. Heretofore, all packages have been opened by Secretary Loeb, today all packages were sent down stairs for investigation before opening. In addition the secret service force in the White House has been increased. At the home of postmaster general Meyer, a police patrol has been established within the last few days. It is said that the action of the postmaster general in refusing the mail to anarchist publications has caused threats to be directed at him.

Minard's Liniment cures Dandruff.

I consider MINARD'S LINIMENT the BEST liniment in use. I got my foot badly jammed lately I bathed it well with MINARD'S LINIMENT, and it was as well as ever next day.

Yours, very truly, T. G. McMULLEN.

LEGISLATURE

(Continued from page 3)

ed was one for the incorporation of the Fathers of La Salette, and one from Ernest Laycock of Regina praying to be admitted a member of the Law Society of Saskatchewan.

The Free Text-Book Act was read a first time.

The return asked for by Mr. Haultain in the first days of the session was brought down. The information has reference to the Supplementary Revenue Act.

The questions and replies are as follows:

1.—The total acreage in the province assessed in the year 1907 under the provisions of the act.—In 15 large and 280 small Local Improvement Districts 27,155,424 acres were assessed. In 24 small districts from which complete returns have not yet been received, and in 21 districts in which it is known that no assessment was made, it is estimated that about 3,250,000 acres are assessable.

2.—The total amount collected under the provisions of the said act up to the 31st January, 1908.—No information is available as to the amounts collected under the act. The amount transmitted to department and placed to credit of fund down to Jan. 31, was \$104,206.88.

3.—The amount to the credit of the Supplementary Revenue Fund on the 15th of January and the 31st of January 1908. Amounts to credit: On January 15, \$84,439.46; on January 31, \$104,206.88.

4.—The amount of monies assessed and remaining unpaid under the provisions of the Supplementary Revenue Act on the 31st day of January, 1908.—No definite information is to hand as to the actual assessment, or as to collections made by treasurers of districts on January 31st, 1908, but on Feb. 24, on an assessment (partly estimated as stated above) of 30,401,849 acres collections aggregating \$114,264.56 had been transmitted to the provincial treasurer leaving an estimated amount unpaid or paid and not transmitted, of \$189,771.69.

5.—The sum (if any) paid to the credit of the Supplementary Revenue Fund out of the general revenue fund under provisions of section 14 of the said Act.—\$85,000, of which amount \$30,250.66 has been since repaid out of collections transmitted since January 15.

6.—The several amounts showing the percentage of the whole amount (in each case) set apart under headings (a), (b), (c), and (d) in section 15 of the said act.—Under provisions of section 15 of the said act the lieutenant-governor-in-council have provided another manner of distribution in lieu of that laid down in the act in terms following: (a) For the establishment and maintenance of an agricultural college, no grant for the year 1907; (b) For the establishment and maintenance of a university of Saskatchewan, the sum of \$2,988.78, being 2 per cent. of the amount available for distribution under the act, that proportion of the maximum percentage provided for by the act being approximately the proportion of the assessment collected; (c) For the support of secondary institutions \$182,000, being the amount required to pay grants to the Regina, Mooseomin, Prince Albert and Moose Jaw schools, under section 18 of the Supplementary Revenue Act, being a sum less than the percentage authorized by section 15 of the said act; (d) For the support of such rural schools as were not kept open for sixty days during the year 1907, a sum not exceeding \$2,500 to be distributed in accordance with such regulations in that behalf as may be made by the lieutenant-governor-in-council. (e) For the support of primary educational institutions, the sum of \$142,088.68, being the balance of the amount available for distribution for the payments hereinbefore set forth.

7.—The aggregate amount payable to high school districts under clauses (a) and (b) of sub-section 1 of section 18 of the said Act.—\$1,706.00, the sum of \$150 being at present in dispute.

8.—The actions (if any) taken under sub-sections 2 and 3 of section 18 of the said act.—No action was taken.

9.—The several amounts payable and paid respectively under clauses (a), (b), and (c) of sub-section 1 of section 19 of the said act.—Payable under clause (a), being 5 per cent. of \$142,088.68, \$7,104.43. Payable under clause (b) \$111,840.00, at the rate of \$120 to 932 schools. Payable under clause (c) \$111,840.00, at the rate of \$120 to 932 schools. Payable under clause (d) \$111,840.00, at the rate of \$120 to 932 schools. Payment is to be made.

10.—The amount (if any) available for distribution under sub-section 2 of section 19 of the said act, and the number of rural schools entitled to share in the distribution.—Amount available \$23,144.68. Number of schools, 982.

11.—The amount (if any) actually paid under the provisions of section 19 of the said act.—Vouchers passed by auditor for \$134,598.06.

12.—The amount set apart under provisions of sections 15 and 17 of the said act, and kept in trust by the provincial treasurer in the university trust account under the provisions of section 98 of the University Act.—Amount set apart, \$2,988.78. Money not yet paid over.

13.—The amount set apart and kept in the trust account known as the Agricultural College fund, under the provisions of section 16 of the act.—No money set apart.

THERE IS ENVY

AMONG men who see their fellows clothed as we clothed men. The jealousy isn't confined to looks—we shame others as to prices. How are you going to know beyond this bold statement, fact as it is? Come in here the first day you're this way.

MONDAY, APRIL 13th.

There was very little done in the House today. Mr. Wellington presented a petition from Moose Jaw city praying for the confirmation of certain bylaws, and Mr. Sutherland presented another, asking for an act to amend the Saskatchewan Elks' Club Act.

The return asked for by Mr. Haultain regarding buildings taken over from the Dominion by the province and relating to printing and advertising, was ordered.

The premier explained that the government were waiting to consider the resolutions passed by the Local Improvements Districts convention before proceeding with the bill affecting amendments to the Local Improvement Act.

Mr. Calder explained that he was waiting for samples of the free readers before going on with the Free School Books Bill.

The Marriage Ordinance Amendments Bill was read a second time and, with the consent of the House, was considered in committee. It provides for a minister publishing banns to give a certificate to that effect. Banns will only have to be published once on two Sundays.

That languid lifeless feeling that comes with spring and early summer can be quickly changed to a feeling of buoyancy and energy by the judicious use of Dr. Shoop's Restorative. The Restorative is a genuine tonic to tired, rundown nerves, and but a few doses is needed to satisfy the user that Dr. Shoop's Restorative is actually actually reaching that tired spot. The indoor life of winter nearly always leads to sluggish bowels, and to sluggish circulation in general. The customary lack of exercise and outdoor air ties up the liver, stagnates the kidneys, and oft-times the heart's action. Use Dr. Shoop's Restorative a few weeks and all will be changed. A few days' test will tell you that you are using the right remedy. You will easily and surely note the change from day to day. Sold by Regina Pharmacy Stores.

L. I. D. CONVENTION FAVORS MUNICIPALITIES

A Large Number of Resolutions Passed--Lack of Unanimity at Times--New Officers Elected.

TUESDAY AFTERNOON After lunch the credential committee made their report. It was found that some districts sent more than one delegate...

The secretary announced that there were over 120 districts represented. President's Address In delivering his address before the council got down to serious business...

The question of how and by whom money voted to the local improvement districts should be spent would come up for their consideration...

Reference was also made to the agricultural college from which institution, no doubt the farmers would receive much benefit.

The report of the municipal commission was then taken up. Classes 6 and 8 were first discussed as to whether there should be nine townships in a district with six councillors or whether there should be districts with one councillor to each township.

There was a feeling among some of the delegates that the present act should be amended and given another trial.

There was a discussion as to the election of a reve; a resolution was introduced favoring the councillors choosing their revee from among themselves at the first meeting. However it was decided that the voters of the district should be the ones to choose the revee.

There was a long discussion on the question of the qualification of councillors. It was moved that any person eligible to be nominated for revee or councillor must be able to read, write and speak English. A motion to make only the speaking of English a compulsory qualification was also put forth, but both were voted down, and the qualifications as outlined in the report sustained.

The meeting also favored the reducing of the property qualification from 140 acres as suggested by the municipal commission to 80 acres.

"Residence," was described to mean a ratepayer resident within the municipality and would not be covered by a person living outside the municipality.

There was a feeling put forward by some that \$2 a meeting for councillors was sufficient remuneration. A \$4 a day however, was sustained, as was also the payment of this amount up to fifteen meetings.

Messrs. McDonald of Fleming, and A. Salmon, of Riga, moved that the councillors should not receive any remuneration except honor for their services. However, as there were only themselves voted for it their motion was lost.

On the question of spending money voted for road improvements two resolutions were introduced. One motion was: That we as a convention desire to put on record that we believe that all money voted by the legislature for the improvement of roads within Local Improvement districts or rural municipalities should be expended under the direction of the council of each district or municipality.

The amendment to this motion was: That the councils work in harmony with the government in spending money on roads in local improvement districts.

The amendment was carried. The convention adjourned shortly before six o'clock.

Evening Session The meeting first took up the question of whether they were in favor of adopting this system of municipal government, as outlined by the report of the commission. This was brought up by the following resolution, moved by W. Houston, Invermay and Dennis Duffy, Lily Plains.

"That in the opinion of this convention, the province of Saskatchewan as a whole is not yet prepared for rural municipalities as recommended by the municipal commission."

An amendment by J. L. Rooke and W. Logan, was introduced as follows: "That if from the evidence produced by the municipal commission, and from this convention the government is of the opinion that municipal government is to the advantage of the province, we unanimously accept it."

The amendment was carried. The subject of taxation under Sec. 20 was discussed under the following resolution, submitted by W. Brownlee and J. Cope. That it is unwise to increase the taxation of the province at the present time."

Dr. Price's Cream Baking Powder for nearly half a century has been giving the people pure food -- long before a pure food law was thought out for either state or nation.

Smith and Mr. Lawson as follows, was passed: "That it be made compulsory for all Local Improvement Districts to appoint weed inspectors. That no weed inspector shall have more than three townships to inspect except in sparsely settled districts, and that if the government sees fit to appoint inspectors their duty shall be to oversee inspectors appointed by the councils."

The following resolution was carried: "That the Dominion government make it compulsory on all railways in Saskatchewan to either fence the track or pay compensation in full for all damage done to stock by trains, or to crops by fire started by engines at any time during the year; and that the law regarding herding of stock within a half mile of the track be repealed."

Moved by W. Van Dusen and seconded by M. Montgomery and carried: "That the fence ordinance be repealed and the Herd Law be in operation all the year round, or if stock are allowed to run between Nov. 1st and May 1st and do damage the owner of the stock shall be made liable for damage done."

Moved by John Teece and seconded by J. B. Dinnin and carried: "Resolved that in the opinion of this convention it is desirable to add to the Municipal Commission's report a clause giving legal status to the municipal association as it is in Manitoba, or a councillor appointed by the council be a delegate to the annual convention and to the constitution of the L. I. D. Association be the constitution of the Municipal Association."

A motion proposed by D. W. Paul and seconded by A. J. Bradley to raise the fee of the association from 50 cents to \$1.00 per township was carried. The secretary in the past had only been getting \$75 a year and this should be increased to at least \$150. For that reason more funds were necessary.

A motion recommending the appointment of two auditors in each village was lost. An invitation was extended from Saskatchewan to hold the next convention there. Mayor Smith also invited the convention to Regina again.

Votes of thanks were passed to the city and the press, after which the new president took the chair. Under his presidency the following was the only resolution passed: "That we the delegates of this meeting of the Local Improvement Districts Association hereby place on record that it is our wish that our relations with the premier and the government of Saskatchewan shall be and remain cordial; that when we find it necessary to criticize the said government or any member thereof our criticism shall be fair and our manner courteous; and that the president of this association together with the mover and seconder be a committee to present this resolution to the premier."

At the meeting of the new executive held in the evening, Mr. Fitz-Gerald was re-elected secretary as the increased salary above referred to.

Rouleau Tories. A meeting of the Conservatives of Rouleau was held on Thursday evening and elected the following officers: Hon. Pres.—R. L. Borden, M.P.; Hon. Vice Pres.—Hon. F. W. G. Haultain, M.L.A.; President.—J. T. How; Vice Pres.—J. H. Craig; Sec. Treas.—E. Johnston; Committee.—T. H. Wilson, Geo. Clark, Thos. Haire, N. A. Craig, Jas. Baird, A. E. Pridley and W. D. Wright.

There was a good attendance at the meeting and the Tories of that town are confident of giving a good account of themselves.

ATTACKS KING

London Times Thinks King Should be in London at Present Crisis.

London, April 10.—Quite a stir has been caused in the highest political and social circles by the half veiled attack on the King in the Times, which follows similar comments made last Saturday. Not since Queen Victoria's mid-life has such an outspoken attitude towards the sovereign been adopted by responsible papers. One immediate result of this feeling is the King's decision to curtail his holiday leave. The King will leave Biarritz next Wednesday in order to hold a privy council meeting in London on Thursday.

The Times says in substance: It may be a picturesque tribute to the King and prime minister as so much at home in France as to be able to transact their most important constitutional business there, but the precedent is not one to be followed. Nothing of this kind should happen again. The only plea that the king is unwell, which, happily, he is not, would excuse a repitition. As matters stand a week has been unnecessarily lost at a critical period of the session. Moreover, further personal conversations between the Prime Minister and the Sovereign during this most critical period are impossible.

The Times adds that the whole ministerial programme of the session has been upset.

MAKE IT YOURSELF

Tells Our Readers How to Mix Best Rheumatism Cure.

A well known authority on rheumatism gives the readers of the New York daily paper the following valuable, yet simple and harmless, prescription, which anyone can easily prepare at home: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Mix by shaking well in a bottle, and take a teaspoonful after each meal and at bedtime. He states that the ingredients can be obtained from any good prescription pharmacy at small cost, and being of vegetable extraction, are harmless to take.

This pleasant mixture, if taken regularly for a few days, is said to overcome almost any case of rheumatism. The pain and swelling, if any, diminishes with each dose, and permanent results are obtained, without injuring the stomach. While there are many so-called Rheumatism remedies, patent medicines, etc., some of which do give relief, few really give permanent results, and the above will, no doubt, be greatly appreciated by many sufferers here at this time.

Inquiry at the drug stores of this neighborhood elicits the information that these drugs are harmless and can be bought separately, or the druggists here will mix the prescription for our readers, if asked to.

FLAX AND WHEAT

Flax the Best Paying Crop for New Settlers--It Prepares the Soil for Wheat--The Yield and Prices.

The question has been asked, how does the yield of flaxseed compare with the yield of wheat per acre and how do the prices obtained for the two crops compare. A report recently issued by the Saskatchewan Department of Agriculture shows that the average yield per acre of flaxseed and wheat respectively for the last three years was as follows: Yield of flaxseed per acre: 1905-15.73 bushels, 23.09 bushels, 1906-9.35 bushels, 31.40 bushels, 1907-10.91 bushels, 14.04 bushels.

Thus the average yearly yield of flaxseed per acre for the three years was about twelve bushels per acre, while the average yearly yield of wheat was about nineteen and a half bushels. It is probable that the reduced yield of flaxseed per acre in 1906 and 1907 as compared with 1905 was due to the fact that many Saskatchewan farmers grew flax three years in succession on the same soil. To get the best results from flaxseed it must not be sown year after year in the same soil. Nearly every farmer in the Northwest has land enough to sow part in flax and part in other crops, changing about to get the proper rotation. The best results are always obtained when flaxseed is sown after the first breaking of the prairie soil.

As regards prices at the present time No. 1 wheat and flaxseed are selling at nearly the same prices, but this is very unusual, being due chiefly to the following facts. 1. There was an exceptionally heavy crop of flaxseed in the Argentine Republic and other parts of South America last year. 2. The financial depression caused a falling off in the production of these classes of goods

in the making of which flaxseed and linseed oil are used as raw materials. These causes were very exceptional and may not occur again for years. Last year as high as \$1.38 per bushel was paid for flaxseed and the average price was about \$1.27 per bushel. On the other hand the price of wheat is exceptionally high. Then in considering the yield of wheat last year as compared with that of flax it should be noted that much of the wheat did not grade very high and would not command the full price.

However the important point to remember regarding flaxseed is that it can be sown much later than wheat that very often a farmer can utilize land that would otherwise go without any crop at all. After the wheat has been sown the flaxseed may be put in. Then, except in early spring, the flax is less liable to injury from frosts than the wheat and the farmer who has part of his land in flaxseed may feel that he is insured against total loss if frost should destroy his wheat.

The new settlers are the ones for whom flaxseed is the most profitable not only because it can be sown later than any other crop, but also because, when sown on first breaking it prepares the land for a wheat crop the following year. Thus the farmer gets the advantage of a good paying crop the first year from land which would otherwise yield him no return at all, and he has a bigger crop of wheat on the same soil the following year, because the flaxseed crop rots the soil and disintegrates it.

REGULATIONS AMENDED

Those Who Did Not Sow Last Year May Get Seed From the Government.

Ottawa, April 10.—An order in council is gazetted today amending the western seed and grain regulations as to permit the distribution of seed grain to farmers in Alberta and Saskatchewan, who sowed no crop in 1907. The extension is justified on the ground that the number of applicants being received for advances of seed grain is not so large as has been anticipated, so that the appropriation made by parliament is likely to be in excess of the requirements.

The order in council says in part: "The minister recommends inasmuch as numerous applications have been received from farmers in the provinces of Alberta and Saskatchewan, who although they have sown no crop in 1907, are urgently in need of seed grain during the season, and as the machinery for purchases, distribution and taking of security for advances of seed grain now in operation is well filled, and sufficient to deal with such applications, and as seed grain needed as above stated is not available in the provinces mentioned, and therefore cannot well be secured by the individual action of those who require it, that a clause of regulations approved by order-in-council of the 6th of February, 1908, be amended so as to permit advances to be made to settlers who had sown no crop in the season of 1907, under the same terms, and conditions, as set forth in the regulations.

Winnipeg Races.

The list of races as issued by the Winnipeg Exhibition this year is without doubt one of the best that has ever been sent out by any organization in Canada for harness horses, and compares most favorably with those of the Great West Circuit, or we might say the Grand Circuit.

The amount of money offered by the association is close on to \$21,000. Entries for the following stakes close on April 15th: 3:00 pace or trot for horses owned in Minnesota, North Dakota, Manitoba, Saskatchewan or Alberta, \$500, 2.10 pace or 2:05 trot stake \$1,500, 3:20 pace or 2:15 trot, hotel keepers' stake \$3,000, 2:25 trot, stake \$1,000, 2:13 pace or 2:08 trot, Merchants' and Manufacturers' stake \$3,000, 2:35 trot stake \$1,000.

We bespeak for the largest western Canadian Exhibition—one that is held in the middle of July at a season that is most favorable to them—the best class of horse that has ever been seen in the North-West.

Weak Women

To weak and ailing women, there is at least one way to help. But with that, two treatments must be combined. One is local, the other is constitutional. Both are equally important, both essential. Dr. Shoop's Restorative, the Constitutional, is the best.

Dr. Shoop's Restorative, the Constitutional, is the best. It is a powerful medicine, and it is a powerful medicine. It is a powerful medicine, and it is a powerful medicine. It is a powerful medicine, and it is a powerful medicine.

Local and General

Judge Johnstone is in Battleford this week holding court.

F. C. Whitelock of Davidson, visited the capital yesterday.

The Craik Sentinel has discontinued publication for a time.

P. McAra, Jr., with his son Warren, were in Winnipeg last week.

Mr. Dunbar, editor of the Estevan Mercury, was in the city on Monday.

W. Drever, of the Alexandra hotel, has returned after a holiday trip to the Pacific coast.

Arthur Smith returned yesterday from Toronto where he has been studying law.

Hon. T. Mayne Daly addressed the Canadian Club at Moose Jaw on Saturday evening.

The Liberals of the city tendered a welcome home to Premier Scott in the new city hall last evening.

Mr. and Mrs. G. W. Brown are back from California where they have been spending part of the winter.

Hardly half the Local Improvement Districts had representatives at the convention held in the city last week.

The anemone, the first flower to appear in the spring in this western country will soon make its appearance.

A. H. Woodman arrived from Prince Albert on Saturday evening to attend a meeting of High Court of Foresters.

Ashton D. Carrothers, formerly of the law office staff of Embury, Watkins and Scott is back to the city from attending Osgood Hall, Toronto, Ont.

The remains of All. Hawkinson who died in the hospital last Friday were shipped to Danver, Man., on Saturday for interment.

Wm. Lennox, of Yellow Grass, who was in the city on Monday evening states that seeding started in that district on Tuesday, April 7th.

J. A. McLellan of Qu'Appelle, was among the students, from Saskatchewan, who passed a highly successful examination at the Manitoba agricultural college.

E. Brown, architect, and Jailer Black of Regina, were down to Mooms recently and selected the site for the new jail at that place. Work will commence on the building soon.

The Regina Excelsior band are giving their last dance of the season in the new city hall on Wednesday evening, April 29th. Tickets may be had from any of the bandmen at 75 cents each.

J. F. Betts of Prince Albert, arrived from the north on Saturday evening. Mr. Betts was at one time speaker of the old North-West legislative assembly, and was a visitor to the House on Monday.

Thos. Hunter of Regina is again in the Carlyle district purchasing two more cars of horses. Buying for cash Mr. Hunter is the means of leaving considerable money amongst the farmers.—Carlyle Herald.

H. D. Haney, J. I. Case representative, left this week for Regina where he will make his headquarters in future, having been transferred to the territory between Prince Albert and Regina.—Wapella Post.

The contractors commenced letting the water out of the reservoir last Saturday. Owing to non-usage, the sluice gates could not be opened in the ordinary way and dynamite had to be used to force an opening.

Harry Clark, druggist of Radisson is in the city for a few days, having come down as a delegate to the High Court of Foresters. Harry, who lived for years in Regina, and is well known here, sees many great improvements in the city.

The formal opening of the New Albert School, located in the north-western part of the city, took place last Monday evening. Addresses were delivered by S. B. Jamieson, chairman of the school board, as well as other members of the board. A program consisting of music, singing, drills, and a debate was also provided.

The many friends of Mrs. Homer Marsh will regret to hear of her death which occurred at Kamloops, on the 7th inst., where she and Mr. Marsh had gone in the hopes that she might regain her health. Mrs. Marsh was well known in Regina as Miss Ethel Kelley, having resided here for a number of years with her brother W. C. Kelley, now of Winnipeg.

An interesting series of ads will shortly appear in this paper on behalf of the "Sunshine" furnace manufactured by the McClary Mfg. Co., London, Canada. Newspaper advertising is a part of the McClary publicity campaign and works hand in hand with an extensive follow-up system. The series of ads were prepared by A. A. Briggs, advertising manager of the McClary Company, and placed by McConnell-Fergusson Advertising Agency, London.

The Canadian Club of Regina was to have held a luncheon last Friday evening which was to have been addressed by Hon. T. Mayne Daly of

Winnipeg. Mr. Daly did not arrive owing to railway delays, and would have addressed the club on Saturday noon but he did not receive information that he could get train connections to Moose Jaw in time to meet his engagements in that city Saturday evening. The club held their luncheon at Saturday noon and short addresses were given by members of the club.

A warning has been issued by Angus MacKay, superintendent of Indian Head experimental farm, advising farmers to be cautious in using either bluestone or formaldehyde for the treatment of smut. He states that experiments on the farm show that a solution can easily be made that will kill the most vigorous smut. Formaldehyde is the safer of the two remedies. For seed grading No. 1 and 2 Northern, 1 3/4 of Formaldehyde in 30 gals. of water will be quite safe, for Nos. 3, 4, 5, and 6 Northern, 1 1/2 in 40 gals. and for seed cleaned from No. 1 feed, 1 lb in 45 gals.

The C.N.R. are having new freight sheds built at Humboldt to replace those burned a couple of months ago.

It will be pleasing news to Herald readers, as it is to the Herald in making the announcement, that Geo. Westman, for the past year of Regina, Sask., is to return in two or three weeks to Stratford and to the Herald, to assume an important position on the staff. Mr. Westman needs no introduction here. A Mornington boy, after teaching a few years in Ellice and Mornington he became the Herald's canvassing representative, in which capacity he made a widespread acquaintance all over the country and district. Next he conducted a highly successful real estate business in this city, disposing of that to engage in business in Regina, where in addition to the auctioneer business he conducted a job printing establishment. Having a good opportunity to dispose of that he did so and is to return to the Herald. It is expected that he will be back in Stratford by April 15, or very soon thereafter.—Stratford Herald.

FORESTERS' HIGH COURT

C. O. F. Institute the High Court of Saskatchewan—P. McAra, Jr., the Chief Officer.

The starting of a new High Court of the Independent Order of Foresters was completed yesterday when the High Court of Saskatchewan was established. There were about sixty-five delegates present from the various courts of the province.

Rev. A. McGillivray of Toronto, P.H.C.R. for Central Ontario, assisted by Dr. J. M. Shaw and K. Tinch acted as instituting officers.

The first officers of the High Court were named by Rev. A. McGillivray and are as follows:
H.C.R.—P. McAra, Jr., Regina.
P.H.C.R.—G. Coventry, Grand Coulee.
H.V.C.R.—J. F. Johnson, Saskatoon.

H. Orator—J. A. Ross, Qu'Appelle.
H. Councillor—J. F. L. Embury, Regina.
H. Physician—Dr. J. M. Shaw, Regina.

H. Secretary—A. H. Woodman, of Prince Albert.
H. Treasurer—W. Parker, Prince Albert.

P. McAra Jr., was also selected as delegate to the supreme court to be held in Toronto in June.
In the evening a supper was given to the members of the High Court at the Alexandra hotel.

Minard's Liniment relieves neuralgia.
