Report of Military Enquiry Likely to Be Made to Ottawa First and Then Sent Here

Fact That No Records Were Kept By Paymasters is at Present Cause of the Trouble.

Lieutenant Colonel W. W. Burroughs, commander of the 19th Regiment while it was doing guard duty at the Welland Canal, said today that he had as yet received no announcement from the Court of Enquiry which investigated the finances of his unit. He said he understood that the Court would prepare a report and submit it to the Militia Department at Ottawa before the findings were made public here.

ing three hundred words each. When the time taken to straighten out the paper, putting it in and taking it out is considered, it makes the speed nearly average 100 words a minute all through the period.

A good day's work for a fast typist is sixty pages, experts say, so that Hanrahan's feat is a marvel. His record on a short run is 126 words a minute, and he carries the gold medal as the champion typist of Canada.

It is only a matter of conjecture as to what the Court will recommend in the case, as the whole thing seems to be governed by the fact that apparently no records of expenditures were kept by paymasters who acted for the regiment.

The Referendum Recount Decision Is Not Final

The Hon. W. E. Ranev has handed out the following statement: "There appears to be a misapprehension with regard to the attitude of the government towards the application of the delegation which waited upon the government some time ago to request a recount of the referendum vote."

"It was intimated to the delegation at that time that the government would be disposed to give sympathetic consideration to the application, and the delegation was requested to make an application in writing indicating the ridings where they desired a recount to be held. When some time later the letter from the solicitor for the Citizens' Liberty League was received indicating a desire for a recount in Manitoulin and North-west Toronto, the letter was referred to the Deputy Attorney-General for an opinion as to the powers of the Lieutenant-Governor in Council. His opinion, after reciting the provisions of the statute, was that the time having elapsed within which the application might be made, there was no authority in the Government either to extend the time or to provide another tribunal for holding the recount."

Attitude Not Final

"The Government has not taken any final attitude in the matter. All the Attorney-General did was to transmit the Liberty League's letter to the Lieutenant-Governor in Council. If the Liberty League presses the point and makes a further application to the Government the matter will be further considered."

Accident on Trestle Holds Up Traffic

Accidents often happen at the most inopportune time and at most unfortunate places. This was the case yesterday, when an N.S. and T. freight, south bound, left the tracks on a trestle between Thorold and Fonthill. The car jumped the rails in the early forenoon, and owing to the cold and to the fact that the occurrence was on a trestle, it took a good deal of time to get the trouble removed. Passengers from Thorold were taken to the place and transferred to a car on the south side of the trestle, which conveyed them to Fonthill and Port Colborne, and vice versa.

Explosion in Baggage Room N.S.&T.R. Station, Thorold, Causes Considerable Damage

TO BATTLE WITH FLU.

Dr. J. W. S. McCullough, provincial Health Officer, is holding a meeting in his office at the Parliament Buildings, Toronto, this afternoon, to organize the fight against the spread of influenza.

Open Door Prevented a Wall Going Out, but Explosion Lifted the Floor and Other Things.

Several thousand dollars' damage was done last night to the baggage room of the N. S. and T. R. station at Thorold.

The result was from an explosion, caused either by escaping gas connecting with flames in the furnace, or expansion of the pipes from the water boiler. An investigation will likely prove which is the case.

The explosion raised the floor and smashed up things generally, and no doubt would have blown out a wall but for the fact that a door was left somewhat open, allowing a vent.

Fortunately, no one was in the place at the time, and consequently there were no casualties.

The explosion caused considerable noise.

10,000 ARE NOW BEING TRAINED IN THE TECHNICAL EDUCATION IN ONTARIO

TORONTO, Jan. 24.—The total enrollment in evening classes for the study of industrial technical and commercial subjects in Ontario this winter reaches thirty thousand, according to reports which have been received by Hon. R. H. Grant, Minister of Education. This is an increase of about seventy-five per cent over last year, and does not include the attendance of partially disabled men receiving vocational training at day classes under the direction of the Soldiers' Aid Commission. These soldiers' classes have, however, indirectly affected the attendance at evening schools, because many men who have completed day courses continue their instruction at the evening classes.

Although there was an increase in attendance from year to year in these classes during the war, the demobilization of the soldiers has greatly increased the enrollment. Several months ago the Department appointed organizers to make surveys and co-operate with advisory committees and school staffs in schools that already had evening classes with a view to extending the work and increasing the attendance. The efforts of these organizers has had a marked effect. New schools were established during the fall in twelve additional industrial centres.

Among the new courses of instruction that organizers have been successful in establishing during the year are courses for stationary engineers who desire to prepare themselves for graded certificates, classes for marine engineers, and for men in the mining, pulp and paper and other industries.

LAWYER USED MONEY AND NOW THE HOLDER OF MORT- GAGE WANTS RE-PAYMENT

When a client authorizes his solicitor to receive money due under a mortgage, is it considered payment on the mortgage when the solicitor receives an unmarked cheque and uses the proceeds for his own purposes?

This is the question upon which the First Divisional Court has reserved judgment in the action by Mrs. Ellen Delory of Hamilton, against Joseph Guyett of Toronto.

Mrs. Delory brought action for a declaration that the mortgage had been paid and to compel the execution of a discharge which had been refused her. At the trial Justice Lennox gave her judgment as asked.

On an appeal of Guyett, T. R. Ferguson, for Guyett, argued that the money had been authorized to be accepted, an unmarked cheque, and that in doing so, he had substituted the credit of the bank for gold, which he had no authority to do. The court suggested that the result would have been the same if the money had been paid in bills, only it would have been appropriated quicker by the lawyer.

BEAVER BOARD BOARDING HOUSE WAS DESTROYED BY FIRE THIS MORNING

The boarding house at the Beaver Board company's plant at Thorold, was completely destroyed by fire this morning.

The cause of the fire is yet unknown, the Journal was informed this afternoon at the office of the company.

The building, which was a very large one, and of frame, accommodated about thirty men.

The fire occurred at six o'clock this morning and caught many of the men in their beds.

They were compelled to make a hurried exit, carrying their clothes and other belongings with them, as the flames spread very rapidly.

The Thorold firemen worked hard but had to concentrate their efforts on saving the factory buildings.

The loss is not yet estimated, it was stated, but it will run into thousands of dollars.

RETURN OF "FLU" IS PROBABLE

Provincial Board Health Takes Precaution So As to Be Prepared if There is Recurrence of Epidemic.

an emergency: Rapid extension of hospital facilities up to one per cent. of the population.

Registration of all available nurses.

The getting in touch with trained nurses who are now married, who would be willing to give their services.

The emergency training of volunteer nurses.

The registration of volunteer home helpers.

The use of masks by those in care of persons suffering from influenza. However, a mask is not recommended for general public use.

The Provincial Board of Health is reported to be taking every possible precaution to be in a position to cope with another epidemic of Spanish influenza. The St. Catharines Board of Health should also be looking ahead, as it no doubt is looking, so as to be ready should any serious outbreak occur.

Its appeal for volunteer and training.

MANY BRUTAL CRIMES COMMITTED IN ENGLAND; EX-TORONTO WOMAN KILLED

LONDON, Jan. 25.—It is learned that a former resident of Toronto, who was the victim of one of several brutal crimes which have been occurring so frequently here, and have caused considerable disquiet. The victim, Mrs. Francis Buxton, who lived alone as the proprietress of the Cross Keys Public House in Chelsea, was last week discovered murdered in the cellar of her home. An attempt also had been made to burn the body in a pile of sawdust.

Mrs. Buxton was 83 years of age, and was the wife of Frank Charles Buxton, the proprietor of a public house at Bowhill. They had not lived together for twelve years. The husband states that the dead woman was Francis Poole, who in 1898 married him in Toronto, where she was a member of the choir of Dr. Wild's church. They left for England almost immediately after. His wife eventually accompanied herself with the Suffragist movement, and they found it expedient to separate. He went to the jail and at the conclusion of peace, received a friendly letter from his wife expressing pleasure at his safe return.

No arrest has yet been made. Jew-

Breaks Record In Number of Cases of Flu

DETROIT, Jan. 25.—With one hundred workers in the field—physicians, nurses and inspectors—the Department of Health knew no Sunday in its fight against influenza.

Dr. Henry F. Vaughan, Health Commissioner, said tonight he expected the outbreak to reach its peak in the number of cases about Wednesday. He asserted that the situation was well in hand, presenting no cause for alarm.

The grand total of influenza cases reported up to tonight, the seventh day of the outbreak, was 3,119; with 170 cases of pneumonia.

The Saturday report was for twenty-four hours from eight o'clock in the morning. Dr. Vaughan estimated that a report for a like period from Sunday morning would indicate an equal or greater number of cases.

Coroner Morgan Parker had seven different calls at the receiving hospital Saturday night and Sunday for persons who had died either from the flu or pneumonia.

Wayne county morgue is filled to capacity with bodies and Coroner Parker says if bodies continue coming in as they have in the last two days extra arrangements for their care will have to be made.

The record-breaking number of flu cases reported Saturday and those believed to have developed Sunday caused Dr. Vaughan no great concern. He emphasized the fact that most of them were mild, and he reiterated his statement regarding the satisfactory facilities for dealing with the epidemic.

Question Comes Up in Court of Appeal in An Interesting Case—Guyett Did Not Receive the Money and Didn't Know it Was Paid.

When a client authorizes his solicitor to receive money due under a mortgage, is it considered payment on the mortgage when the solicitor receives an unmarked cheque and uses the proceeds for his own purposes?

This is the question upon which the First Divisional Court has reserved judgment in the action by Mrs. Ellen Delory of Hamilton, against Joseph Guyett of Toronto.

Mrs. Delory brought action for a declaration that the mortgage had been paid and to compel the execution of a discharge which had been refused her. At the trial Justice Lennox gave her judgment as asked.

On an appeal of Guyett, T. R. Ferguson, for Guyett, argued that the money had been authorized to be accepted, an unmarked cheque, and that in doing so, he had substituted the credit of the bank for gold, which he had no authority to do. The court suggested that the result would have been the same if the money had been paid in bills, only it would have been appropriated quicker by the lawyer.

Real Murder, Black Murder

Death of Inspector Redmond—Evidence at Inquest Shows That Victim Was Shot Down From Behind—Another Constable Killed.

BELFAST, Jan. 25.—The inquest on the body of assistant Inspector Redmond, of the Dublin police, who was murdered on Harbour street on Wednesday night, shows that his assassins must have lurked in an entry and shot him down as he passed. The medical evidence revealed that one bullet had passed through his neck and another showed that he had been shot from behind at close range. Death was instantaneous, the spine being severed.

Coroner Wylie said the act was "murder, black murder, of a man who could have had no enemy, as he had just come to Dublin." The jury found that Redmond was murdered, and expressed abhorrence of the crime.

Constable Finnegan, wounded at Thurles, has died, making a total of military and police eighteen, and two civilians, all victims of the Sinn Fein.

Husbands Are Barred From 'Nightie' Show

PARIS, Jan. 25.—For the first time in the history of the Rue de la Paix, mannequins are "demonstrating" nightgowns. The graceful girls who pose in robes, dresses, tailormades, coats and capes, have been showing a lingerie and pajamas for some time as yet, but this is the first time they have appeared in robes de nuit.

The only men permitted to view the mannequins in night gowns, are Simon pure buyers representing foreign concerns who are known to the establishments as purchasers and not sightseers.

Even husbands are not permitted to accompany their wives when they inspect the latest creations in silk, ribbon and lace for the bonnet.

Premier Lloyd George to Mould Tone to Be Adopted By Allies—Paris Press Pokes Fun.

LONDON, Jan. 25.—It is stated in well informed quarters that there can be no question of a preliminary tone being taken by the Allies in discussions with Holland over the Kaiser's extradition, and it is consequently expected that there will be a protracted interchange of diplomatic notes.

As to the result, opinions are as far apart as the poles. One is that Lloyd George is determined that no legal quibble shall stand in the way of justice being done. Another is that advantage will be taken of another opportunity to draw the curtain upon a "solemn farce."

Press comments of the extradition question are mainly along political lines. The Sunday Observer takes an independent view, saying:

"The negotiations for the extradition of the ex-Kaiser from his Dutch retreat would not seem to be prospering. The Dutch negative is quite firm and rests upon unimpeachable arguments. Abroad a vehement and outraged public opinion of Great Britain is supposed to be inspiring the demand at home. The British public is watching it, if at all, with mild amusement."

Noted Jewish scholars from all parts of the world are soon to meet in Basle, Switzerland, to prepare the foundation of a Hebrew university in Jerusalem. The corner-stone of the university has been laid on the top of the Mount of Olives.

To Draw Reply To Dutch Note

DETROIT'S EPIDEMIC SHOWS NO ABATEMENT, BUT IS WELL IN HAND—MORGUE IS FULL OF BODIES

DETROIT, Jan. 25.—With one hundred workers in the field—physicians, nurses and inspectors—the Department of Health knew no Sunday in its fight against influenza.

Dr. Henry F. Vaughan, Health Commissioner, said tonight he expected the outbreak to reach its peak in the number of cases about Wednesday. He asserted that the situation was well in hand, presenting no cause for alarm.

The grand total of influenza cases reported up to tonight, the seventh day of the outbreak, was 3,119; with 170 cases of pneumonia.

The Saturday report was for twenty-four hours from eight o'clock in the morning. Dr. Vaughan estimated that a report for a like period from Sunday morning would indicate an equal or greater number of cases.

Coroner Morgan Parker had seven different calls at the receiving hospital Saturday night and Sunday for persons who had died either from the flu or pneumonia.

Wayne county morgue is filled to capacity with bodies and Coroner Parker says if bodies continue coming in as they have in the last two days extra arrangements for their care will have to be made.

The record-breaking number of flu cases reported Saturday and those believed to have developed Sunday caused Dr. Vaughan no great concern. He emphasized the fact that most of them were mild, and he reiterated his statement regarding the satisfactory facilities for dealing with the epidemic.

THE NAUGHTY WIFE IS ATTRACTION AT THE GRAND TONIGHT

The big attraction at the Grand Opera House tonight is "The Naughty Wife," a side-splitting comedy straight from New York, in the class of "Twin Beds" and "Fair and Warmer."

"The Naughty Wife" is said to be a comedy which cures the blues and there is a laugh every minute.

STEAM COMING FROM A CHINESE LAUNDRY CAUSES PASSER BY TO SEND IN ALARM

The firemen had a hurry call last night to 51 Geneva street where it was suspected that a Chinese laundry was on fire.

A passer-by had noticed a lot of steam issuing from the place and believing it to be smoke sent in an alarm.

The fire fighters made a quick run to the scene only to find out there was no fire. Naturally they felt sore, but perhaps not as sore as they would have been had they been compelled to fight a fire all night in the freezing temperature.

MINISTER'S STATEMENT

Hamilton, Jan. 24.—Hon. F. C. Biggs stated in a speech here that there would not be any power available for five years for the operation of Hydro-Electric.

The significance of the above statement cannot be overlooked. If it is five years before there will be power available for the operation of Hydro Radials, then, so far as St. Catharines is concerned, it means that we will have to stand still, so far as railway development is concerned, unless some arrangement is made with the N. St. and T. R. for the improvements and extensions that are required.

It will be recalled, that, last year in a statement published by the then Mayor, he said that it would be three years before the Chippawa Canal scheme was completed and power enough released to operate the proposed radial line from Port Credit to this city.

Through prejudiced articles that were published to convey the idea that the Mayor of that date was opposed to Hydro-Radials, and, too, because, apparently, the municipal election was approaching, the whole proposal was dropped by the City Council and there is today no prospect of the improvements being carried out, that could be effected by giving this spring.

It is well known that the industrial development that is taking place in and around Windsor is remarkable. Several industries that employ hundreds of hands are coming into being. St. Catharines, on the other hand, with just as many natural advantages, is practically standing still.

But as a municipality there is nothing moving that is large and constructive in policy. The one big proposal that would have meant a great deal to the corporation, namely, the railway development that was partly matured last year, was negated through the view taken by the Railway and Industrial Committee of 1919 that the Hydro would be coming along and constructing from Port Credit to this city.

Now we have the announcement made by Hon. Mr. Biggs, which evidently not only bears out the contention of ex-Mayor Elson, but suggests that instead of three years it will be five years before the power will be released to operate radials.

LIKE ELECTRIC BUTTON ON TOES

Tells why a corn is so painful and says cutting makes them grow.

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezeone. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet.

It is now owned by the Canadian people, that he contended that St. Catharines should carry on negotiations with the N.S. and T. for a belt line on the north, for a short line to Merriton, and for a new terminal station.

Three daughters, aged ten, twelve and fourteen years, were seized at the same time as his wife, and are believed also to have been sent to Turkish harems, and the father has little hope of finding them. A son escaped with his father.

Berlin, Jan. 26.—President Ebert and Gustave Knoke, the Minister of Defense, have lost their suit against one editor of the Satyr, a humorous weekly, which had cartooned the members of the cabinet in the shape of different animals, labelling the collection "Our Menagerie."

The elevator bar is the latest device for outwitting prohibition agents in the United States. One was raided in New York on Saturday night, and seven gallons of imitation whiskey were seized. The liquor was kept for a "high-class clientele."

DR. J. G. SUTHERLAND After three years overseas has resumed practice in diseases of the eye, ear, nose and throat and prescribing of glasses. Office hours 9 to 11 a.m., 1:30 to 4 p.m. and 7 to 8 p.m. Tuesdays 7 to 8 p.m. Sundays

AFTERBIRTH RETAINED

The Cause and Cure of a Not Uncommon Trouble.

Cows of All Ages Are Sometimes Affected—Remedies Suggested Where Veterinary Cannot Be Had—Grape Pruning For the Garden.

RETENTION of the afterbirth, foetal membranes or placenta, commonly called "the cleanings," is not uncommon in cows. Its cause is not understood. While it is probably more frequently met with in cows in low condition and unsanitary surroundings, no care, food, attention or surroundings act as preventives.

When the membranes have been retained for 24 hours or over in warm weather or for forty-eight hours in cold weather they should be carefully removed by hand. Where a veterinarian can readily be procured it is probably wise for the ordinary stock owner to employ him, but a stockman who understands the anatomy of the parts, and is not afraid of a dirty and sometimes tedious job can operate himself.

The average neglected grapevine is generally such a tangled mass that it is very difficult to decide how to prune it. The owner should determine what sort of a trellis he means to fasten his vine on.

One thing never to be overlooked is that fruit is produced on last year's wood. Most neglected vines have too much old wood. Try to get one or two upright canes of two-year-old wood or older with four arms or younger canes equally distributed on the two wires.

With the growing scarcity of feeder cattle and the advance in value of farm lands, the baby-beef industry is of increasing importance and is receiving the attention of farmers in all live stock sections of the country.

With the growing scarcity of feeder cattle and the advance in value of farm lands, the baby-beef industry is of increasing importance and is receiving the attention of farmers in all live stock sections of the country.

Climate, Has Not Changed

Idea That Winters Are Milder is Fallacious—Indubitable Proof to Contrary Lies in Records.

Weather and climatic conditions have not changed from the time of the landing of the Pilgrims to the present day, is the conclusion of Prof. Robt. Ds C. Ward, of Harvard, who writes on The Snowfall of the United States, in the Scientific Monthly.

"There is a widespread, popular belief in many parts of the country, especially in the earlier settled sections of the Northeast," says Prof. Ward, "that less snow falls now than was the case years ago.

"The tendency inevitably is to exaggerate past events; to remember a few exceptional seasons which, for one reason or another, made a deep impression on us, and very much to overlook some special event. Individual severe winters which, as they occur, some years apart, seem, when looked back upon from a distance of several years later, to have been close together.

"The only reliable evidence is that which rests upon instrumental records. Accurate instruments, properly exposed and carefully read, do not lie; do not forget; are not prejudiced. When such instrumental records scattered though they are, and difficult as it is to draw general conclusions from them, are carefully examined, from the time when they were first kept in this country, which in a few cases goes back a century or more, there is found no evidence of any progressive change in the amount of snowfall.

"In his Climatology of the United States, which was a standard publication in its day (1857), Laurin Hodget believed that the Northern limit of the New England coast 860 years ago quite precisely the same in climate as now—wild vines growing in a very few of the most favored spots and high in these."

"Dr. Hugh Williamson is quoted as saying, in 1770, that the winters of the last half century had been milder than formerly, and Professor Samuel Williams of Harvard College, whose lectures were among the foundation stones of American meteorology, asserts that the winter is less severe, cold weather does not come on as soon. These views sound singularly like those which are heard expressed nowadays."

A. R. DE CONZA Real Estate, Houses, Farms and Lots for Sale. Houses and Farms for Rent. 95 Geneva St. Phone 1177.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

To see the healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for a week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins, thus cleansing, sweetening, purifying the entire alimentary canal before putting more food into the stomach.

"The incidence inevitably is to exaggerate past events; to remember a few exceptional seasons which, for one reason or another, made a deep impression on us, and very much to overlook some special event. Individual severe winters which, as they occur, some years apart, seem, when looked back upon from a distance of several years later, to have been close together.

Canadian womanhood, to take full advantage of its prerogatives, to take its proper place in the management of Canadian affairs, must keep informed on the questions of the hour—must have the knowledge of events that will be the foundation of definite opinions on public questions.

The extension of the franchise to women was the fulfillment of a policy consistently advocated by The Globe in season and out of season.

What The Globe has been in the past is the guarantee of what it will be in the future. The aim of its publishers and its Editor is to take advantage of the tremendous facilities at its disposal—to make it even more worthy of a place in every Canadian home.

CURING LYMPHANGITIS

The "Monday Morning Disease" Affecting Horses.

Symptoms Described, and a Course of Treatment Suggested for Alleviating and Curing the Trouble—Working Over Asparagus and Rhubarb Beds.

LYMPHANGITIS, commonly called weed, a shot of grease or Monday morning disease, is a common ailment in horses.

It consists in inflammation of the lymphatic glands, usually those of the hind limb or limbs, but it is not uncommon for the fore limbs to be the seat.

Symptoms.—The first symptoms usually appear (shivering) followed by well marked increase of temperature; but as those symptoms usually occur at night they are not often noticed.

Treatment.—If colicky pains be well marked, give a colic drench, as one oz. each of laudanum, sweet spirits of nitre and tincture of belladonna in a pint of water.

ALMA LADIES' COLLEGE Canada's National Residential School for Girls combines all the advantages of health, culture, and practical and aesthetic training.

The Red, White and Green Package is Familiar to All FOR over twelve years the original Red, White and Green corn flake package has been a familiar combination of colors to all Canadians.

Working Over Asparagus and Rhubarb Beds.

The handling of asparagus and rhubarb beds in the spring of the year is largely dependent on the situation of them and the time that the owner has at his disposal both in the fall and spring.

Where properly handled the asparagus beds in the fall of the year should have had all tops removed and burned and the soil trenched over the top of the row so that a furrow would be left to remove the water.

In the spring of the year the asparagus bed, if ploughed in the fall, should be ploughed back and then given a thorough disking so that the soil would warm up quickly, especially around the crown of the plants.

Rhubarb beds in the spring of the year are generally given a cultivation and much of the rougher manure carried from the roots of the plants and the crown. This permits the warming up of the soil and consequent early growth.

Clover Seed and Hay Crop. A crop of seed and of hay can be made from the second crop of clover just as well as only one crop, according to the experience of a Pennsylvania farmer.

A sharp advance in Crucible marked a somewhat quiet day in Wall Street.

FARM LOANS for SOLDIERS

Agricultural Training For Soldier Settlers

A SOLDIER is entitled to the benefits of the Soldier Settlement Act if he can satisfy the Agricultural Qualification Committee in his district that—

- (a) He has performed the required military service; (b) He is sincere in his intention to make farming his permanent occupation; (c) He is physically capable and is fitted in general to make a success of the farming business.

If he is otherwise qualified, but has not had sufficient practical agricultural experience, the Committee may recommend that he be given agricultural training. A generous scale of allowances for soldiers in training has been adopted.

Training Centres For Soldier Settlers The applicant who is recommended for instruction in agriculture may first be sent to a Training Centre, specially operated for the purpose, where he will learn, by practical experience, how to handle and feed horses, and other live stock; milking; the operation of farm machinery, ploughing, etc.; general farm building work; farm blacksmithing; the different kinds of soil and rotation of crops; the selection and judging of live stock and the marketing of farm products.

With A Selected Farmer After the course at the Training Centre, the length of which depends on the progress of the individual but

"What Shall I Do Then With Jesus, Who Is Called Christ?"

Pilate's Question Is Yours To-day

THE Church is not impersonal. It is a company of individuals, each of whom has expressed determination to acknowledge Jesus as Lord and God, to accept His teachings and follow His example.

tians as a proof of the inefficiency of the Church, or of the Gospel it proclaims. If, therefore, all lukewarmness should disappear the critics of Christianity would be confounded.

The Active Christians

Those who persist in the Way find their lives radiant with hope. They have an object in living. They are not plunged into hopeless misery by bereavement. They develop character. They learn contentment. Being themselves men of hope and good-will, they are centres of hope and good-will in the world.

Where Do You Stand?

You are a Christian. Are you ardent or careless? Are you whole-hearted or half-hearted? Do you realize that the Church in Canada faces unprecedented responsibilities? You believe that the Gospel of Christ is a perfect solvent of selfishness and class-hostility. Will you do your part to give it free course?

National Peace Thank-Offering

Simultaneous Every-Person Canvass by Each Communion
February 9 to 14

A Great Possibility

"Righteousness exalteth a nation, but sin is the reproach of any people." If all the Church Members of Canada would begin today to follow earnestly the principles enunciated by their Divine Master; if they would acknowledge their stewardship in full measure, the name of Canada would ring around the world. Therefore, the Question is to you:

"What shall I do then with Jesus, who is called Christ?"

A United Appeal

FIVE Christian Communions—Anglican, Baptist, Congregational, Methodist and Presbyterian—have in Canada ten thousand congregations, over one million communicants, and represent more than half of the population of the Dominion. Under the stimulus of five great Forward Movements, it is in the power of these people to root out the evils of materialism in Canada, and to conserve the spiritual values revealed by the chastisement of War. Are you ready for active service?

The Decision Is Yours

LET Christianity have a fair trial in your own life. Make Jesus Christ master in your home. Test the reality of prayer. It will give your life direction, purpose and power.

You can help to cure the ills of Canada and the world. Be prepared to serve. Begin NOW.

The United National Campaign

Representing the Simultaneous but Independent Forward Movements of the Anglican, Baptist, Congregational, Methodist and Presbyterian Communions in Canada.

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved By "Fruit-a-tives"

LITTLE BRAS D'OR, C. B. "I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try "Fruit-a-tives". In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous." ROBERT NEWTON. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Proprietor of London Catholic Herald Committed For Trial.

Proprietor of the London Catholic Herald Committed For Trial.

LONDON, Jan. 25.—Charles Diamond, proprietor of the London Catholic Herald, who was arrested on January 8th, charged with publication of an article in which he was alleged to have said that "killing is no murder," has been committed to trial in the Central Criminal Court. Diamond, according to the indictment, did unlawfully solicit, encourage, persuade and endeavor to persuade and propose to divers persons in Ireland, to whom the article had been communicated, to murder divers persons carrying on the Government of Ireland.

WORKMAN INJURED

Robert Davidson a blacksmith, employed in the forge department of the Welland Vale Works met with quite a serious accident Friday afternoon. He was engaged in driving a wedge which flew striking him on the forehead, inflicting a nasty wound which required three stitches.

Hospital for Sick Children TORONTO

Upkeep of Big Charity Requires Fifty Cents a Minute.

Dear Mr. Editor:

The 44th annual report of the Hospital for Sick Children, Toronto, shows a notable advance in every department of its service to the suffering and crippled youngsters of this province. The ward accommodations have been added to its capacity, and the summer annex, the Lakeside Home, was opened for the first time since the outbreak of war.

The daily average of cot patients has increased during the year from 132 to 223, including children from practically every county in Ontario. Even had the cost of supplies and labor remained stationary, the substantial increase in the number of patients would alone account for the addition to the charity's debt, which at the close of the fiscal year was \$109,000. This debt has become an embarrassing burden. Further increase must threaten impairment of an enviable efficiency.

The Hospital is in the forefront of all institutions upon this continent devoted to the care of sick children. It cost \$335,399 to maintain last year. This great sum not only puts at the service of the children of Ontario all the resources of medical science, but, in addition, provides for a training school for 120 nurses and for unsurpassed clinical facilities for the University students who are preparing to engage in their profession throughout the province.

The income which must be forthcoming to finance this absolutely essential work figures out at seven hundred dollars a day; and, as there is no endowment fund, all but a fraction of that amount has to be derived from individual benevolence. Therefore the Trustees are making a Christmas appeal to every lover of children to foot the bills for some period of time, no matter how short it may be. A minute of mercy costs fifty cents.

For churches, societies, lodges, etc., who have more ample funds wherewith to assist the youngsters to a fair start in life, the naming of cots is suggested. A number of memorial cots have been thus dedicated in honor of the overseas service of fellow-members. This privilege is extended in recognition of gifts of \$2,000 to the Main Hospital or \$500 to the Lakeside Home, which can be paid in annual instalments if so desired.

Literature illustrative of all branches of the past year's work, together with any other information desired, will be gladly furnished on application to the Secretary, the Hospital for Sick Children, College Street, Toronto. Contributions should also be addressed to the secretary.

IRVING E. ROBERTSON, Chairman of Appeal Committee.

A good rally took place on the Toronto Exchange, near the close.

TYRONE POWER COMES

Keen interest will doubtless be manifested by theatregoers by the announcement made by the Canada Theatre, Limited, the All-Canada syndicate which has established a chain of theatres all coast to coast throughout the Dominion, that they will present at Catharines, at the Grand Opera House, March 18th, the distinguished actor, Tyrone Power, and a selected company in the revival of the famous drama by Charles Barnet, "The Servant in the House." Many people will doubtless be the sensation created when this was first produced in America in 1911 and the remarkable performance of Mr. Power in the intensely dramatic role of Robert, the Dragoon, will enact the same role in the coming revival.

Associated with Mr. Power will be another member of the original cast in the person of Mr. Cal Horbert, while the other artists, all well-known players of established reputation.

A syndicate proposes to connect with the railroads for freight business by a service of motor trucks between Detroit and Toronto via Port Huron, Sarnia and London.

DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION

A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

RHEUMATIC AILMENTS

SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man

BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any "building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream.

INFLAMMATORY RHEUMATISM PERMANENTLY CURED

New Brunswick Lady Gives Full Particulars of Her Recovery.

There are many types of Rheumatism, but none worse than inflammatory.

It was this kind that almost killed Mrs. Edw. Warman, of Kent Jet, N.B. Every known remedy she tried, different doctors gave their advice, but the disease increased.

Weak and despairing, she was a "wilted" end when the remarkable "Ferrozone" was cured of rheumatism by "Ferrozone." Consequent Mrs. Warman used the same remedy. Here is her statement:

"For five years I have been rheumatic. I tried various forms of relief without success. The disease increased in my joints and muscles, caused excruciating pain and kept me from sleeping. My hands and arms stiffened, my shoulders were lame and prevented me from working. Week by week I was getting weaker and despaired of finding a cure. It was a happy day when I heard of Ferrozone. Every day I took Ferrozone I felt better; it eased my painful joints, gave me energy and a feeling of new life. Ferrozone cured my rheumatism, cured it so that no ache has ever returned. Even during weather no longer effected me."

Ferrozone has power to destroy uric acid, neutralize and enrich the blood, and therefore does cure the worst cases. Mrs. Warman's statement proves this.

By removing the cause of the disease and building up a reserve of energy, Ferrozone is certain to cure sufferer, isn't it about time to stop experimenting? Ferrozone is a CURE today, 50c. per box, or six for \$2.50, sold by all dealers or direct from The Cataphozone Co., Kingston, Ont.

NEW YORK HERALD AND SUN ARE TO AMALGAMATE

New York, Jan. 25.—Frank A. Munsey, owner of the New York Sun and The Evening Sun, who recently bought the New York Herald and Evening Telegram from the estate of the late James Gordon Bennett, has made the announcement that the Sun and the Herald would be amalgamated February 1st under the name of The Sun and New York Herald. The plan of the Sun is to be used for the publication of the Sun and New York Herald, Mr. Munsey explained, because the ground lease upon which the Herald building now stands expires in a few months and will have to be abandoned.

THEATRES CLOSED

Memphis, Tenn., Jan. 24.—All theatres were today ordered closed here by the health department as a preventive measure against the spread of the influenza. The William Jennings Bryan mass meeting that has been held here tomorrow was also ordered cancelled. Only 150 cases of influenza have been reported.

Chief Justice Mathers of Manitoba has decided that the Manitoba Workmen's Compensation Act is ultra vires of the Legislature.

Religion Is Patriotism

It is the Root of Personal Righteousness, the Mainstay of Social Order, the Bulwark of International Peace

The Makers of Canada

The earliest settlers in Canada were roused by the Call of the Church to develop a noble and useful citizenship. Young and old were invited to turn their eyes from material things, and to regard the splendor of unseen realities. Knowing that Religion is the only true safeguard of stability in the State, they built Churches, Schools and Colleges, to train men for the Christian Ministry, and to spread abroad in the land the benefits of education. This they did in their poverty, and thus directed the course of history in Canada to this day.

The Testing of Canada

Because of such sacrifices, there arose in Canada a public spirit hostile towards all injustice, dishonesty and cruelty. The War tested the moral fibre of the Canadians of a later day. Would they choose material ease and wealth, or would they risk all in defence of freedom and the rights of the weak?

Over 400,000 men voluntarily offered their lives, and endured hardness as good soldiers for the defence of equity and fair dealing in all human relationships, and for the vindication of public right. Nor were the people at home less steadfast. Besides bearing the national cost of the War, they gave voluntarily for the help of the soldiers more than \$90,000,000. Canada nobly stood the great trial.

The Menace of To-day

That conflict is ended. Now comes another test. Not only in Canada, but all over the world, sectional and class struggles for material rewards and for mastery threaten the present basis of Society. The vision of spiritual values gained in the War is in peril of being forgotten. The supremacy of sacrifice, the nobility of service, the reality and glory of the Unseen and Eternal, the promises of Christ; these were the things by which we lived during the War. Now there is great danger that they may fade from view, giving place to selfishness and the love of ease.

The great non-Christian peoples of the world comprise two-thirds of the human race. They are mastering our modern scientific knowledge, and if they remain Pagan may yet turn it to our destruction. Paganism stands for the supremacy of Might, the very ideal

we fought and conquered in more than four years of war.

Victory only through Christ

How can we retain the heavenly vision? How can the world be guarded against another attempt to establish the Pagan ideal? Only through the Church of Jesus Christ. There is no other agency or society that has any possibility or hope of bringing about a full

The World's Need is Spiritual

I speak as one standing upon the watch-tower, and know what the need of the land is. It is not material, it is spiritual. Get the spiritual, and the material will follow. The wounds of the world are bleeding, and material things will never heal them. And that is why I hail any movement which brings the great spirit of brotherhood. The one need of England and France today is the healing and the brotherhood of the Cross of Christ.

—Rt. Hon. David Lloyd-George, Before the Brotherhood Convention, London, September, 1919.

realization of the brotherhood of all mankind, and the reign of the Prince of Peace.

What the Church Has Done

All the progress of humanity in Civilization for the last 2000 years has been inspired, directly or indirectly, by the Gospel of Jesus Christ. It has ended slavery, protected life, ennobled women, educated the children and safeguarded their lives, sanctified the home, established schools, missions and charities.

The Coming Era

Victory places upon the shoulders of the Allied Nations the responsibility for directing new conditions to right ends. Canada must do her share. The Church must prepare to meet the needs of the new day. Old standards of life with old habits of thinking and of giving will be wholly inadequate. We must do in our day what our fathers did in theirs. The hope of the world is bound up with the strengthening and extension of the Church of Jesus Christ.

The Forward Movements

FIVE Christian Communions, Anglican, Baptist, Congregational, Methodist, and Presbyterian, are convinced that the time has come to rouse all Christians to a clearer understanding of their calling and stewardship in Christ, their King. They believe that the Church should be equipped adequately with men and money to enable it to meet the needs and opportunities of the New Day.

These five separate Communions are of one mind as to their be-

lief in God, the Father Almighty, Maker of Heaven and Earth, and in Jesus Christ, His Son, Our Lord. They now

declare to their respective constituencies, and also unitedly, to the Canadian people, that the only effective method of making good citizens is by urging men to a more faithful practice of Christianity, by inculcating personal faith in Jesus Christ. They insist that there is no other dependable way of correcting evil tendencies in individual and national life. They call the people to repentance. To all Christians their message is, "Awake, Arise. Fight the Good Fight, For Canada and For the World."

EACH of the Communions named is in the midst of a Forward Movement. Each is seeking by prayer and by earnest effort to accept all its responsibilities. Each is striving to extend its activities in Canada and in Foreign Lands.

Your Church needs your help, but, far more, you need the help of your Church to learn the difficult art of living wisely and well.

Consult your Clergyman. He serves you and your children. Ask him how and when you can serve in this day of national emergency. Give yourself to the task. Say: "Here am I, send me."

MRS. MAY COULD NOT WORK

Made Well and Strong by Lydia E. Pinkham's Vegetable Compound.

Columbia, Pa.—"I was very weak and run down and had dragging-down pains and pains in my back. I could not get around to do my work and had to sit down and rest of tending therapy. I saw Lydia E. Pinkham's Vegetable Compound advertised in the papers and read the testimonials, so I thought I would try it. Now I am healthier than I ever was in my life, and can recommend it to any woman who suffers as I did."—Mrs. Elizabeth May, R.F.D. No. 1, Columbia, Pa.

The reason Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills is because it contains the tonic, strengthening properties of good old-fashioned roots and herbs, which act on the female organism. Women from all parts of the country continually testify to its strengthening, curative influence, and the letters which we are constantly publishing from women in every section of this country prove beyond question the merit of this famous root and herb medicine.

APPLES FOR ONTARIO

Some Varieties Recommended for Home Orchards.

Early Bearers and Annual Producers Desirable — Also Varieties Not Easily Liable to Disease—Hardiness Also a Good Quality—Keep Potato Rot From Spreading.

(Contributed by Ontario Department of Agriculture, Toronto.)

The home orchard should provide high-class dessert and cooking apples throughout the entire apple season, or from the middle of July until the following spring. It is quite easy to select varieties for any part of old Ontario which will do this satisfactorily. The varieties selected should come into bearing early, should produce annually, and should be as free as possible from diseases of all kinds, so that they may be handled with a minimum of expense and care. Throughout this article the varieties mentioned are listed in the order of their season of use, so that intending planters may be guided in making a selection to cover the season.

In order to simplify the selection of varieties for any given district a classification of the most desirable varieties is given herewith based on their relative hardiness, which is their ability to withstand cold winters successfully.

Hardest:—Transparent, Duchess, Dudley, McIntosh, Hibernial, Grabs, These are hardy as far north as Parry Sound, and can be grown successfully even further north.

Second Hardest:—A. T. Rich, Alexander, St. Lawrence, Wealthy, Colvert, Snow, Scarlet Pippin, Wolf River, Golden Russet.

Third Hardest:—Blenheim, Tolman, Spy.

Fourth Hardest:—Gravenstein, Wagner, Stark, Greening, Ben Davis.

Fifth Hardest:—These varieties are more or less tender and thrive best south of a line drawn from Hamilton to Brantford and Goderich—Cayuga, Ribston, Hubbardston, Grimes, Ontario.

Sixth Hardest:—These varieties are tender and thrive best in the Lake Erie counties, although they are not entirely satisfactory even there—Jonathan Winesap, Spitzenberg, Newtown.

King and Baldwin are omitted from the above classification for the reason that their inclusion would probably be misleading. It is true that these varieties were formerly listed in about the fourth grade for hardiness, but intending planters would do well to make careful note of the fact that they have winter killed badly of recent years, even in the most southerly counties of Ontario.

The varieties which come into bearing earliest (about five or six years) are Duchess, Wealthy, McIntosh, Wagner and Ontario. Most of the other varieties listed should begin bearing at about seven or eight years, but Blenheim and Spy are notorious exceptions to this, and frequently do not produce fruit until they reach fifteen to eighteen years of age.

The varieties which are least subject to apple scab are Duchess, Ribston, Blenheim, Hibernial, Baldwin and Russet.—Prof. J. W. Crow, O. A. College, Guelph.

Keep Potato Rot From Spreading.—When harvesting potatoes, more especially in damp seasons, it is essential to pick them over and discard any specimens that are diseased, particularly those that show any indications of rot. If this is not done, the disease is liable to spread through the whole mass during storage. If wilt or dry rot (Fusarium) or black leg and wet rot (B. solanaprus) or late blight (Phytophthora infestans) has been noticed in the growing crop, it may be taken for granted that a percentage of the tubers will be infected. These diseases may be found in all stages of development in the tubers produced by an affected plant. These are the diseases most liable to spread to a greater or less extent through a pile or bag of stored tubers if any of them are affected at the time they are stored away. Consequently, the greatest care should be taken when harvesting a crop that has shown diseases when growing in the field.

These diseases show themselves on the tubers, either as a dry moldy rot or a wet slimy rot, or as brown or blackish discolorations. On some tubers the diseased condition may be fairly well advanced and consequently easily noticed. On other tubers the disease may be of recent development and not easily seen.

Where practicable it is desirable to pick out all tubers in which the disease is readily seen and then to wash the remainder either in a tub of water or by turning a hose on to them. This washing not only removes any soil that may be sticking on, but it integrates the discolorations produced by the disease, and so makes it a comparatively easy matter to pick out those tubers which are only lightly affected. After washing, the undesirable specimens should be removed and the remainder thrown out in a thin layer to dry before being stored away.—Prof. D. H. Jones, Ontario Agricultural College, Guelph.

Fertile Soils for Alfalfa.—Alfalfa will not thrive on poor land, or that which is deficient in lime. Even soils that are moderately fertile and produce good average grain crops will not produce profitable crops of alfalfa unless first limed and then planted in sweet clover, which should be turned under while it is green and juicy in the fall or late summer.

Install farm motors for pumping water, pulping turnips, cutting straw, etc.

In the National Hockey League games on Saturday, St. Patrick's beat Ottawa 6 to 3, while Quebec lost to Canadiens 8 to 4.

BUILDING AN ICEHOUSE

Good Type for Use on the Average Farm.

Every Milk Producer Should Have One—The Work and Cost of Erection Light Compared With the Benefits.

(Contributed by Ontario Department of Agriculture, Toronto.)

EVERY Ontario farmer who produces milk—and most of the farmers do—should store a quantity of ice each winter in order to make it easier for them to cool the milk down after the evening milking, and to keep it sweet for such short periods—week-ends for example—as he may be required to keep it before delivering it at the cheese factory or other point of its disposal. In order to preserve the ice satisfactorily some form of ice-house or shelter is necessary. The purpose of this article is to describe in a few words a type of ice-house which will give good satisfaction.

The ice-house does not necessarily have to be expensive, but certain conditions in regard to it must obtain if the ice is to keep well. These I shall emphasize first and they are: protection of ice from sun's rays, this is the well known training of the bottom of the house, either natural or artificial, free circulation of air through the top, air-tight foundation, plenty of good quality dry sawdust on all sides of the mass of ice, and close packing of the ice. If these conditions can be secured in a rough building under a shed, or a lean-to on the shady side of a building, all well and good unless one has other good reasons for building a more expensive structure elsewhere. The matter of convenience is often a deciding factor in this case, and the type of ice-house I am about to describe is a good illustration of this fact. Only once have I seen it in use, but there is no reason why it could not be used quite generally.

This particular type consists of a lean-to structure of wood at one end of the barn which has the stable underneath. The size would vary with the amount of ice required, but probably a building 15 feet square and 12 feet high would be large enough for most farmers' needs. In this structure and at the side adjacent to the barn, or rather the basement wall, is built a concrete enclosure about 6 feet square and 6 or 6 1/2 feet high. A door in the basement wall admits one to it. In the opposite to the doorway there is a row of 3 or 4-inch iron bars near the bottom for letting in the cold air from the ice which is packed closely to the concrete storage on all three sides and over the top as well. Between the top of the storage and the barn there is a narrow passage-way or flue for allowing the foul or used air to get out, hence good circulation in the storage is provided for. An electric heater case the farmer has his milk room containing cream separator, etc., adjoining this storage and whenever he wishes to cool milk or cream or store it he puts it in this storage. Other articles, such as butter and meat, are also stored at times but of course only for a few days at a time. Hence most handling of ice is saved as well as considerable time. The building is made of wood the studding being boarded on both sides. It would be advisable to all the space between the two boardings with planer shavings or good quality sawdust. The roof is covered with shingles. The gables are left somewhat open for ventilation. Plenty of sawdust is packed around the ice next to the walls and also a good depth over the top, none however is used between the cakes of ice. If a few cakes of ice are required for household use they may be easily taken out of the storage in the top of ice-house or at one side if more convenient.

It will be seen, therefore, that this type of ice-house does double duty in a degree, namely, providing milk ice-cold storage room, cooled by the ice mass directly, in addition to housing ice for various incidental uses in the summer-time. In a case of this kind there would not be much need for taking out ice except for supplying the household refrigerator as the storage-room would take care of the ordinary cooling and preserving of products.

Reviewing this arrangement to be valuable, and in many cases practicable on Ontario farms, I have much pleasure in recommending it to farmers in general.—R. R. Graham, O. A. College, Guelph.

Still a Place for the Good Horse.—Horses have not been meeting a keen demand in Canada since the war broke out and have increased about 650,000 since 1914. However a real good heavy draft horse is hard to get, and if Old Country markets are any criterion of the trend of affairs an awakening in the Canadian Draft Horse market should soon follow. Draft geldings are selling in England for from \$300 to \$500 and even up to \$1,000 each. A returned officer told me recently of seeing a number of Canadian geldings (artillery and transport horses) sold in Old London for £100 (\$500) each. About one-fifth of Great Britain's ordinary supply of work horses went to the war and a number of useful brood mares were also taken. France, Belgium, Russia and Germany, four of the great horse-producing countries, have lost a heavy percentage of their horse stock during the war. Already a shipment of Percherons has gone from Western Canada to France, and it would seem that during the period of reconstruction our horse market will be tight and not West. It will pay to breed any horse on the Canadian farm the heavy draft of good quality should turn in most money to his owner.

Canada Foundries and Forgings had a big advance on the Montreal Exchange.

A FRIGHTFUL DEATH

Suffocated by Asthma

Every sufferer from Asthma knows the terror, the abject fear that overcomes them when struggling for breath. The old-fashioned remedies may relieve but never cure. Best results come from Catarrhoxone, which cures Asthma after hope is abandoned. It's because Catarrhoxone kills the asthma germ that it cures. Choking spells and labored breathing are relieved, suffocating sensations and loss of breath are cured. Every trace of asthma is driven from the system, and even old chronics experience immediate relief and lasting cure. Equally good for Bronchitis, throat trouble and Catarrh. The large One Dollar outfit includes the inhaler and lasts two months, sold by all dealers or from the Catarrhoxone Co., Kingston, Canada.

Soldier Wrote Will

On Photo of Muriel

What is probably the shortest will on record has just been proved in England. It is that of Lieutenant Frank Robinson Kirkley of Sunderland who died on active service in Italy. The will is made on the back of a vignette photograph, autographed "Muriel," and measuring 2 1/2 inches by 3 3/4 inches. On the back is written in indelible pencil:

"I leave all to her.
Frank R. Kirkley,
12th July, 1917."

This will, being that of a soldier on active service, has been held to be valid, but affidavits were required from members of Lieut. Kirkley's family to identify the lady referred to and eventually probate was granted to the original of the photograph. Miss Annie Muriel Kirkley, Smith, of Dartington Camp, Salisbury Plain, who returns the value of the property at 320 pounds Sterling.

The number of eight hospitals transferred to the control of the Canadian Army Service Corps to that of the Department of Soldiers' Civil Re-establishment have been changed and only five military hospitals now remain in Canada.

KIDNEYS AND

Bladder Bowler

Take Salts to Flush Kidneys and Neutralize Irritating Acids. Kidney and Bladder weakness result from uric acids, says a notable authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very painful again. There is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, it is really one of the most simple ailments to overcome. Get about the amount of 100 pills from your pharmacist and take a salt tablet every three or four hours, until you feel the acid in the urine no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Had Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders, caused by uric acid irritation. Had Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant effervescent lithia-water drink, which quickly relieves bladder trouble.

Tenders for Alterations

To the Grimsby Cold Storage Warehouse

Sealed tenders addressed to the undersigned and marked "Grimsby" will be received at the Department of Agriculture, Ottawa, Ont., up to noon on Wednesday, the 28th instant, for the carpentry work in the cold storage warehouse as per plans and specifications which will be on view on and after the 20th instant at the office of the Manager of the cold storage warehouse at Grimsby.

The lowest or any tender not necessarily accepted.

A certified cheque for 5 per cent. of this amount of the tender must accompany each tender.

WANTED — DRAFTSMAN familiar with laying out elevating and conveying machinery. Apply American Cyanamid Co., Niagara Falls, Ont.

Coming Events Cast Their Shadows Before

Not since the pre-Confederation days has the political life of Canada been surcharged with so much uncertainty. Great events in Canadian politics are about to take place. The reorganizing and rehabilitating of great political parties is in progress. New leaders are appearing. The order is changing. All things are becoming new.

THE next two years will be a momentous period in the political life of the country. Reconstruction is a greater task than Confederation.

How will you take your place in the affairs of the nation? What opinions will you form? How will you cast your ballot intelligently if you do not. Keep in touch and inform yourself on the great questions of the day by reading a daily newspaper national in viewpoint and international in scope?

This is the task and responsibility of The Globe—to give all the news, progressive views, and space for opposing opinions. Such was the threefold purpose of George Brown. His ideal was a Great Family Newspaper with a place in every home. That is The Globe's ideal to-day.

It is not a party organ, but a medium for the development of public opinion and an advocate of reform. It is the servant of the people from whose needs it draws its inspiration.

To be informed of the progress of events, you should avail yourself of The Globe's great news gathering organization. For an analysis of these developments, and clear, sober thought upon them, read its editorial discussions from day to day. They are written by close students of economics, politics, industry, commerce, social reform and religion.

And further, what The Globe has been in the past is a sure guarantee of what it will be in the future. The personality and ambitions of its founder ever dominate the activities of its publishers.

Therefore, nothing will be left undone to make The Globe the newspaper that George Brown would have it be and to earn a place for it in every Canadian home.

Try New Reliable Cleaning and Pressing Company at 101 James St. Just opened. First class service. J31

The Journal is informed that two or three store properties on Ontario street have been sold for thirty thousand dollars.

Mr. J. M. Elson went to Port Robinson yesterday to speak in the interests of the Anglican Forward Movement.

A new cleaning and pressing business is being opened at 101 James street. A man with twenty-five years' experience is taking charge of the work.

Eleven Toronto Methodists have subscribed \$435,000, or more than one-half of the Toronto Methodist objective of \$850,000 in the Forward Movement campaign.

The weather remains cold and the snow plentiful was well toward 11 o'clock today before the warmth of the sun took away the gripping frost to any extent. Old timers say it is one of the severest seasons they have known for many years.

"Toronto Directory for Nurses" is the name of a new corporation announced in last week's Ontario Gazette. It is to establish a registry for graduate nurses and nurses' aids. Its directors are Chester John Decker, superintendent Toronto General Hospital; Charles Tomlin, superintendent Western Hospital; Elizabeth Grace Flaws, superintendent of nurses, Wellesley Hospital; F. B. Hayes and Burton Holland, secretary of the Hospital for Sick Children.

The County Council will meet tomorrow at two o'clock. The first business will be the selection of a warden.

The water commission is to meet tomorrow night to organize.

Should a thaw come on there will be a lot of flooding in the city.

Some of the country roads are blocked with snow and the farmers are compelled to make detours through the fields at places.

THE WEATHER

TORONTO, Jan. 26.—Pressure is high from the Great Lakes eastward and over the northwestern portion of the continent, while a moderate disturbance is approaching Lake Superior from the westwards. The weather is moderating in Western and Northern Ontario, but continues cold in other parts of the Dominion. Snow has fallen throughout the Western Provinces.

FORECASTS: Southerly winds and milder; light snow tonight and early Tuesday, followed by northwest winds and colder by Tuesday night.

BIG WOOL PROFITS MADE BY BRITAIN

London, Jan. 26.—Great interest centres in the post-war profits of spinners in the wool textile trade. W. Mackinder, who first made allegations before the Central Profit-earning Committee, is making the subject the main plank of his platform in the municipal campaign at Brantford. Mr. Mackinder, in a speech, said the Government had made more than three hundred million dollars' profit in wool deals last year.

Wm. J. Proctor, one of the most prominent business men in Western Ontario, three times Mayor of Sarnia, is dead.

Put Stomach in Fine Condition

SAYS INDIGESTION RESULTS FROM AN EXCESS OF HYDROCHLORIC ACID.

Undigested food delayed in the stomach decays, or rather ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in the can forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heart burn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad's Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescing and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mias, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad's Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people, for stomach trouble with excellent results.

OUR NATIONAL ECONOMIC PROBLEM

The following interesting extract from an article by Mr. E. W. Beatty, president of the C. P. R., appeared recently in the Montreal Gazette.

"So much for the manner in which the transportation machinery of the country is carrying out its obligations to the Canadian producer. Other aspects of the transportation problem are less satisfactory. There are many people who look upon Canadian railways as custodians of large fortunes which cannot be exhausted. That bookkeeping should be as simple and inexorable in its tale of losses and vanished profits to a railway as it may be to a corner grocery, is to these people unthinkable. It apparently does not occur to them that no public is it more important than to the Canadian public that the good reputation of its railway securities in the world of thrift and investment should be carefully guarded. To those, however, who understand these things clearly and who view the matter from the standpoint of broad public interest, it is at once apparent that the Canadian public pays a very low rate for the quality of service rendered, and that a time is rapidly approaching when, if Canadian railway securities are not to be made less desirable to investors than almost any other kind of industrial security, railway rates will either have to go up, or railway operating costs go down."

Such persons recognize that it is not because the situation of the railways is an easy one that certain companies have been able to show net earnings—very low net earnings compared to the actual cash invested in the industry—but because in the past the shareholders of such companies have been, as they are to-day, courageous persons willing to supply the means for constructive enterprises in which no one but themselves had faith, and because, too, their officers have been called resourceful and loyal business men, assisted by staffs filled with the spirit of pride and devotion to their work.

The net earnings during the war years, of those companies which showed net earnings, would have been much lower had the Canadian railroads been making expenditures for maintenance which circumstances would have justified, but which conditions prevented during that period. These arrears have now to be made up. During 1919 the Canadian Pacific laid 78,000 tons of steel rail. In place of, say, 2,000,000 ties, worth 4c in 1914, the Canadian Pacific laid 4,242,000 ties at 5c per tie. The sensational advance in the rate of railway wages is well known. Further advance may be necessary within the very near future, as indicated by discussions in the United States. The price of coal for locomotives was \$3.09 in 1913. Now it is \$4.77. The cost of hauling an average train (freight or passenger) one mile has risen from \$1.04 in 1913, to \$2.494 in 1918. It is higher to-day. The operating expenses of one mile of line in 1917 were \$4.152; in 1918, \$7.056, and to-day they are even greater. On the other hand, railway rates, taking all classes of revenue together, have advanced scarcely 25 per cent. I venture to say no other industry in the Dominion can show such moderation."

Pyorrhoea is one of the most dreaded diseases of the teeth, and unless it is given careful treatment in the early stages it causes very serious disorders of the entire body.

We may safely assume that nine out of ten people who have defective teeth have Pyorrhoea in various degrees of development.

Do not wait until this disease infects the gums, loosens the teeth and spreads its poison throughout the system.

We are successfully treating many stubborn cases and are accomplishing really wonderful results.

We urge you to accept our offer of free consultation and thus assure yourself that if this serious ailment is present that you will give it prompt treatment.

The Royal Bank of Canada

Give Your Boy a Chance, You Will Not Miss the Small Monthly Amounts

On the first day of every month draw a cheque for \$10 for the credit of your son's Savings Account. Do this regularly for (say) ten years.

Your boy will then have \$1389.42. He can own a farm when other boys are still working for wages.

Capital and Reserve.....\$ 34,000,000
Total Resources.....\$530,000,000

EXCHANGE AND LETTERS OF CREDIT

This Bank offers peculiar advantages in handling Foreign Exchange and issuing Letters of Credit. With Branches in every part of Canada, as well as in several important cities elsewhere, and with correspondents of high standing in all parts of the world, it is able to place many advantages at your disposal.
