TWO PROSPECTS INSTEAD OF ONE

THURSDAY, MAY 19. 1910

The C. N. R. Co. went to the Railway Department at Ottawa a few days ago to get plans approved for a rail-way into the Peace River district-only to find that the G. T. P. had got there ahead of them with plans got there are are an ead of them with plans and profiles and had these approved in December last. Decision on the Normal strength in the provide the lease would expire, in fact to bring it up to standard, or the provide the lease would expire, in fact to bring it up to standard, or the provide the lease would expire, in fact to bring it up to standard, or the provide the lease would back its de-or the provide the provide the lease would back its de-or the provide the prov C. N. R. application was, therefore, deferred until the companies have a chance to get together and arrange a division of the territory between them. So far as prospects go, therefore, the people in Peace River, the people who want to get there, and those who want to see others get there have now two prospects where they formerly had one. And because there are two the chances are mater-ially better of one or other being turned into a reality. The course of the C. N. R. in respect of a Peace Biver line is comewhat puzzling. A year ago last January the Provincial Government was empowered to guarantee the bonds of the company for a line fifty miles long, stretching to-

The first time you hear it you will be surprised at its goodness. Everybody is-particularly the first time you hear the Edison Phonograph play an Amberol Record. People who have heard Phonographs talked about, or who have heard them at a distance on the street, or who have heard some other make of sound-reproducing machine, do not realize the remarkable goodness of the Edison Phonograph.

This is partly due to the wonderful sapphire point which does not scratch or make any sound, and partly due to the wonderful Amberol Records which are so smooth and clear that they can reproduce the finest violin melody with all its natural sweetness.

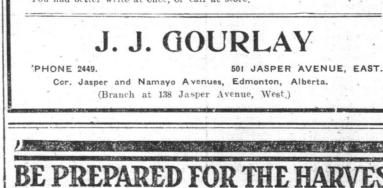

This is the same instrument which plays and sings those musical comedy songs which everybody whistles.

TheEdisonPhonograph does everything and does it well. Is there any reason why you should not have one? Edison Amberol Records (play twice as long) 65c Edison Standard Records - 40c. Edison Grand Opera Records - 85c and \$1.2 There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Amberol Records. Get complete catalogs from your deale

18. National Phonograph Co., 100 Lakeside Ave., Orange, N. J., U. S. A. THE EDISON BUSINESS PHONOGRAPH saves the time of high-sala and increases their letter-writing capacity.

The very latest style Edison Phonograph, the NEW GEM with 12 Genuine Edison Records, 9 Standard and 3 Amberol for \$25.05.
