Town and County News

A Melodeon factory is being started in Orangeville, by Messrs. Baird, Bell & Saunders.

A new stage coach has been put on the route from Guelph to Arthur. F. N. Coulson, proprietor.

HAMS AND BACON.—Mr. J. E. McElderey has a fine lot of the above for sale. See advertisement on fourth page.

HORTICULTURAL SHOW.—The Fall show of the Guelph Horticultural Society will be held on Wednesday, September 9th.

BASE BALL MATCH.—The Mountain Rangers, of Guelph, play the Grand River Club, of Galt, on Friday afternoon, in Guelph, on the cricket ground.

Y. M. C. A.—The members of this Association are requested to attend the regular weekly meeting to-night. A large attendance is requested as business of importance in connection with the annual meeting, soon to be held, is to be transacted. Eight o'clock, sharp.

INTERESTING TO TRAVELERS.—We have received from the publishers, the September number of the International Railway Guide, containing the latest revised time tables of the Railways in Canada and the United States. No traveller should be without one. Price 20 cents. C. R. Chisholm & Bros., Railway General News Agents, Montreal, are the publishers.

THE FESTIVAL LAST NIGHT.—The peach festival, held under the auspices of the Primitive Methodist congregation of this town, in the Drill Shed, last night, was a very enjoyable affair, a large number of the citizens being present. An abundant stock of grapes, peaches, ice cream and other good things of the season had been laid in for the occasion, to which full justice was done. Lawrence's Cornet Band played several selections during the evening, contributing much to the success of the entertainment. We trust the promoters of the Festival may have had some margin left after deducting their expenses.

A MOUNT FOREST MAN SHOT.—A man named Bell, formerly of Mount Forest, but latterly of Aux Sable, Michigan, was shot by a man named Woods while on his way home on the evening of the 21st ult. As the unfortunate man was walking homewards, he met Woods, and they stopped and talked a while about fighting dogs, and as they were talking, Woods followed him and fired, the ball entering above the left eye, passed through the brain and came out on the right side, killing him instantly. Woods gave himself up to the authorities the following morning.

WASHBURN'S LAST SENSATION.—This Company make their first appearance to-night in the Drill Shed. Speaking of their entertainment in Toronto the Globe says:—"Each part of the performance is an attraction in itself. The performance on the horizontal bar was very clever, as was also that on the trapeze bar. The terpsichorean exercises by Cotton and Birdie were interesting, and the St. Felix Infant Ballet Troupe were pleasing and amusing. The comedy of the entertainment were carried out with equal spirit and effect, to the great delight of the audience, who frequently and with reason applauded the artists. The show concluded with the amusing farce of the Baby Elephant. The show is well worth a visit."

LECTURE ON OPTICS.—We would request our readers that Prof. E. S. Frank, the distinguished Optician, will give a free lecture this evening in the Town Hall, on the eye, its organization, diseases, and modes of cure. At the close of the lecture there will be a brilliant optical entertainment, during which will be exhibited a collection of beautiful stereoscopic pictures, which will be shown by the aid of two beautiful calcium lights. Prof. Frank, as will be seen by the advertisement, comes highly recommended by the best medical talent, and his advice and services in supplying spectacles to those afflicted with weak or defective vision, must be valuable. We trust he will have a good audience to-night.

MAGISTRATES COURT AT HESPELER.—This was a case between Dr. McIntyre (Plaintiff) and Mr. William Jardine (Defendant), both of the village of Hesperler. It appears that a dog in the possession of Dr. McIntyre had recently bitten Master John Jardine, brother of the defendant, whereupon Mr. Wm. Jardine told the Dr. that if he saw the dog running at large again he would certainly shoot it. A day or two afterwards, an opportunity presenting itself, Mr. Jardine was as good as his word, and terminated the existence of his canine enemy by sending a ball through him. The dog being a valuable one, the Dr. prosecuted the defendant, at the same time claiming \$40 damages. Charles Kereh, Esq., the presiding J. P., awarded the plaintiff \$10 damages, which defendant had to pay, as well as the costs, \$8.20, making a total of \$18.20.—Reformer.

ONE MORE IN THE FIELD.—We insert this week a circular from Mr. John Hogg, to which we have given every prominence. Mr. Hogg explains matters in fully himself that it is unnecessary for us to enlarge on the splendid promise he holds out, and which he will no doubt fulfil. We welcome Mr. Hogg back to the ranks of our merchants, well assured that he is still as full of all the energy and enterprise which distinguished his career in Guelph for so many years, and which won for him such extraordinary success. He is once more in the field—or soon will be—and with a splendid new store, new goods of every kind, new prices, and new everything, he will soon make his name again a household word. He has had a long rest, but this has only whetted his energy and roused his spirit, and these, coupled with his old reputation, will ere long make his store one of the most popular places of business in town.

POLICE COURT.

(Before the Police Magistrate.) Sept. 3.

A CASE OF HORSE STEALING. James Johnson, a young man hired at the Bullfrog Tavern, and John Thorne, a barber in town, were arraigned on a charge of stealing a horse, cart and harness from Geo. Clayton, a butcher living near the Bullfrog, on the night of the 31st ult.

Mr. Peterson, County Attorney, appeared for the crown. Geo. Clayton deposed to having missed his horse and cart after the night of the 31st ult., and had been in search of them until last night, when he found the horse in the swamp in the rear of Mr. Hooper's, part of the harness being still on the horse. The cart was found near Allan's Bridge. He (Clayton) kept his horse in the stable belonging to the Bull Frog, by permission of the proprietor. While searching for the horse he had asked when near the Erasmus Bridge, Johnson and also upon Thorne, who it seems, is in the habit of frequenting the Tavern.

Thomas Conkey and Charles Taylor were brought forward as witnesses, and testified to having been at the Bullfrog in company with Thorne and others on Monday or Tuesday evening. Johnson deposed to once having been in the management of the establishment. After remaining there for some time drinking, they started towards Guelph, riding in a butcher's cart, drawn by a bay horse, of which Johnson was driver. Conkey, Taylor and others got out of the cart when near the Erasmus Bridge, leaving only Johnson and Thorne in the cart, who turned round and drove back again towards the tavern. Johnson seemed to have the management of the horse.

U. C. Kelly testified as to the arrest of the parties. Johnson was committed to stand his trial, but Thorne was discharged.

Highway Robbery on Wednesday Night. On Wednesday night, James Brennan, who used to be employed about the Albion Hotel, informed Chief Constable Kelly that he had been robbed of \$10. It seems that about nine o'clock at night he was returning from Guelph to the place where he was living, near Byrd's Hotel, on the Elora Road. About the outskirts of the town he was overtaken by a wagon, in which were three men. They asked him where he was going and offered to give him a ride, on which he jumped into the wagon. When they came to the cross road leading up by Mr. John Pipe's farm, the driver, instead of going straight on, turned into this road, and when a little way up, the men seized hold of Brennan, rifled his pockets of \$10, and then turned him out of the wagon. He returned to town and gave Mr. Kelly the above information. He does not know who the men are, but the police are investigating the case, and we hope they will be successful in finding them. As far as we know, no violence was done to Brennan.

Palmerston. INCORPORATION.—Application will be made to the Legislature of Ontario at its next Session, for an Act to incorporate Palmerston as a town. The Palmerston Enterprise says:—"The natives are going to apply for the Act." We thought it will be the inhabitants. Would the Enterprise correspondent be kind enough to state how many of the inhabitants are natives? McElderey's Saw Mill, a new saw-mill built by Mr. John McDermott, to replace the one destroyed by fire a few months ago, is now in operation. The machinery is from the foundry of Messrs. Inglis & Hunter, Guelph.

HARVEST.—The harvest in this vicinity is nearly finished, and has been saved in good condition. Fall wheat was badly winter killed, but notwithstanding was a fair crop. Spring wheat is more than an average crop. Oats are light. Potatoes are a good crop. Root crops are not much cultivated, and owing to the drought are poor. The potato bug has entirely destroyed many fields of potatoes. Should the weather keep fine very little grain will remain out after this week.

WHAT IS THOUGHT OF HIM ABROAD.—As an evidence of the estimation in which the services of a detective are held abroad, we may state that Mr. J. W. Gibbs, of Oshawa, had a gold watch stolen from him, on Tuesday, and at once telegraphed to Mr. P. H. Gibbs, Guelph, to get Mr. Kelly to go to Oshawa and work up the case. The Chief Constable was unable to go.

FOG IN A MAN'S STOMACH.—Mr. John Nevels, of Mount Forest, recently vomited a frog over two inches in length. He was in Durham, called at McKay's hotel, and partook of three ordinary drinks of brandy, of which, he says, he scarcely felt the effects, and on the following morning started for his home, but had not proceeded half-a-mile when he became very sick and vomited, relieving himself of said frog. Mr. Nevels has been unwell for some time past, and on account of peculiar sensations being frequently felt in the region of the stomach, suspected the presence of a lizard; which supposition was strengthened by the fact that he had been in the habit of drinking stagnant water, if no other happened to be convenient.

HIGHWAY ROBBERY NEAR HAMILTON.—On Tuesday night an audacious highway robbery was committed on John street mountain road leading to Hamilton. A woman named Mrs. Clark was on her way home between seven and eight o'clock when she was waylaid by three ruffians, who stopped her wagon, and presenting a bowie knife to her throat, demanded her money. Mrs. Clark being near no house, and having no person near on whom to call for assistance, was obliged to let them take her money. She, however, struggled hard when they first attempted to stop her, and got into the wagon and kept them manfully until they drew the knife on her. Owing to the darkness of the place, no lamps being near, she could not identify the parties positively. Three persons were arrested and lodged in the cells, but on examination of the case to-day they were allowed to go.

Indignation Meeting in Boston.

Suppression of Bonapartist Journals. The Eruption of Etna. Coal Mine Explosion.

London, Sept. 2.—The Government Telegraph Authorities have signed to lease the wires to the Direct Cable Company, for transmission of business to the cable terminus, with the privilege of operating it by the Company's employees.

The Marquis of Ripon has resigned his position of Grand Master of the Order of Freemasons, and will be succeeded *ad interim* by the Prince of Wales.

London, Sept. 3.—The Morning Post says that Senor Racion, Spanish Minister at Berlin, delivered his credentials to the Emperor, William yesterday.

The newly accredited Ministers of Spain at London, Brussels, and the Hague, will also present their credentials in a few days.

Paris, Sept. 2.—English pilgrims arrived at Pontigny to-day; the party numbers 813 and includes Archbishop Manning, Earl of Gainsborough, and other members of the nobility.

The trial of Col. Villetie and other alleged accomplices in Bazaine's escape will begin on the 14th inst.

The sale of 10 Bonapartist journals published in the Provinces has been prohibited by orders from the Minister of the Interior.

Syracuse, Sicily, Sept. 2.—The eruption of Etna shows no signs of abatement. The inhabitants are fleeing from the villages at the foot of the mountain, but it is thought no harm will be done. The direction taken by the lava stream is remote from the cultivated parts of the mountain.

Brussels, Sept. 2.—An explosion occurred in a coal mine at Doux to-day. It is feared a lot of the miners who were at work at the time can be saved.

Cleveland, Ohio, Sept. 2.—The boiler in Shippen's stove mill at Meadville, Pa., exploded to-day. One man was killed and several others injured.

Boston, Sept. 2.—A colored indignation meeting was held here to-night. The speakers believed that there had been shown altogether too much leaning to the rebels, and that the old slaveholding power was still struggling for supremacy. They called upon the President to take prompt measures for the suppression of the present state of affairs, and if he had not power to do that, to convene an extra session of Congress. Resolutions expressive of these sentiments were adopted.

New York, Sept. 2.—The Long Branch steamer River Belle was burned to the water's edge to-night.

Our Athletic Cousins. Under the above heading the London Echo has the following:—"The base ball contest at Lord's the other day between the Boston and Philadelphia Clubs afforded clear proof that if the American youth are not so generally addicted to athletic sports as their kinsmen upon this side of the water, the cause is not to be sought in any physical degeneration. The athletic qualities displayed were quite up to the English standard, and indeed, in the matter of 'fielding,' seem to have excited the envy of our best cricketers. We hear nothing but the most enthusiastic praise of the dexterity displayed in catching the ball, and of the accuracy of the eye and strength of arm shown in throwing it up. We scarcely think that 'base ball' will ever take its place in this country as a rival to cricket—among men at least. Among boys it—or something very like it—is already under the name of 'rounders,' played to a considerable extent. But the world in general will care little about the rival merits of cricket and base ball than that the American youth are not so generally addicted to athletic sports as their kinsmen upon this side of the water, the cause is not to be sought in any physical degeneration. We scarcely think that 'base ball' will ever take its place in this country as a rival to cricket—among men at least. Among boys it—or something very like it—is already under the name of 'rounders,' played to a considerable extent. But the world in general will care little about the rival merits of cricket and base ball than that the American youth are not so generally addicted to athletic sports as their kinsmen upon this side of the water, the cause is not to be sought in any physical degeneration. The athletic qualities displayed were quite up to the English standard, and indeed, in the matter of 'fielding,' seem to have excited the envy of our best cricketers. We hear nothing but the most enthusiastic praise of the dexterity displayed in catching the ball, and of the accuracy of the eye and strength of arm shown in throwing it up. We hear nothing but the most enthusiastic

group of dark, scorched mountains... hence the eruption had evidently flow- ed. The sides of a long ridge in front were marked with distinct fissures, many miles in length, showing how enormous must have been the mass thrown out. The regularly curved mountain of Breithi-Skiold (Broad Shield), streaked with snow, closed the northern vista of the valley. The first we reached is called the *Hrafnaga*, or Raven's (left); it is about 100 feet deep, and astonishingly jagged and distorted. A natural bridge, formed by the falling together of the edges leads across it, after which a further climb of a quarter of a mile brought us to the level of an upper *brunn*, wilder and more desolate than that of Thing- valla.

Mr. Taylor thus described the great Geyser, or Spouting Springs: The cone of the Great Geyser is not more than 20 feet high, and appears to have been gradually formed by the deposit of the silicious particles which the water holds in solution. The top is like a shallow wash-bowl, 30 feet in diameter, full to the brim, and slowly overflowing on the eastern side. In the centre of this bowl there is a well, indicated by the intense blue-green of the water, and apparently eight or ten feet in diameter. It has been sounded, and bottom—or, at least, a change in direction—reached at the depth of 55 feet. At the edge, where the water is shallow, one can dip his fingers in quickly without being scalded. Small particles placed in the overflow are completely incrustated with transparent silica in a day or two. Sometimes it spouts up to an altitude of 120 feet. Prof. Steen- strap informed me that the water has important healing properties. The steam has an odor of sulphurated hydrogen, but the taste thereof is so soon lost that where the stream becomes cold, we used it for drinking and making coffee. I shall never forget that calm sublime day at the Geysers. After reading many descriptions, I was never less prepared for the reality of the scene. Instead of a clear, narrow volcanic valley, here was a landscape bounded on the west by mountains, but on the north, east and south, only to be spanned by a radius of fifty miles. Near us, a quiet, grass- roofed farmstead; towards the sea, meadows and gleams of rivers; in front, the broad green plain, its inclosing hills and Hecla rising lonely above them northward, a chain and neighboring byres, a smooth grassy ridge beyond the snow-streaked pyramid of the Blaffaj (Blue Mountain), and far in the distance the luminous, icy peaks of the Arne and Kotluga Jokulls. From our tent the noise of the boiling waters could not be heard; the steam ascended quickly, soon dissipated in the light wind, and the ex- pression of the scene before me, as I watched it for hours, lying on the soft turf of the hill-side, was one of perfect peace and repose.

**Confirmatory Evidence.**  
Two days ago we gave a flat denial to the falsehoods circulated by the Guelph Herald and London Free Press in reference to the talk about the Governor-General visiting the Model Farm. We find in the London Advertiser, of Tuesday, the following, which in every particular agrees with our statement. It says: "Our local Tory contemporary yesterday stated that the Model Farm was in such a state of confusion under the 'management' of Mr. Mowat's Government, that to avoid exposure the Governor-General had to be requested not to pay it a visit in the course of his tour. In reply to our telegram of enquiry, the Rector of the Institution stated that no such request was ever made; that a visit from Lord Dufferin was not only desired but expected; and that it was through no desire or interference on the part of the Model Farm authorities that he failed to put in an appearance."  
"Will it be believed that our contemporary's deliberate misstatement is neither withdrawn nor apologized for?"

**THE DAWSON ROAD.**—The Rev. Dr. Davidson, of Guelph, sent a letter to the Globe the other day, which he had received from the Rev. Alex. McDonald, Baptist Minister in Winni- peg, in which he gives his experiences over the Dawson Road. He says the road was in good condition, the officials courteous and attentive, and altogether he and his family were quite satisfied with their treatment. He furthermore states that he saved money by going that way. They made the journey in 11 days and 4 hours.

The Dominion Government has directed certain surveys to be made at Sault Ste. Marie. Col. Forrest has been selected chief of the expedi- tion, which will probably start next week.

The contract for grading a branch of the Canadian Pacific Railway from Pembina to Fort Garry, has been awarded to Joseph Whitehead, of Clinton. This gentleman represented North Huron in the Commons during the first Parliamentary term after Confederation. He is a railway con- tractor of great experience and suc- cess. The work will be commenced immediately.

**THE FERRIS LIBEL SUIT.**—The Herald of yesterday makes a great noise about the libel which Burrows sought to fasten on one of the proprietors of the News Record, and which, when it came up for hearing before a Bench of Magistrates in Elora on Monday, was, by a majority of five to four, dismissed. Burrows gives his version of the case, and knowing of

old so well his ability in drawing the long bow, and his power of misrepres- entation, we would caution the public to place no confidence in his statements—at least till the true history of the case is given.

**THE GEORGETOWN ACCIDENT.**—Miss Tweedie, of Stewartown, whose clothes were ignited by a spark from a passing locomotive on the Grand Trunk near Georgetown on Tuesday, died from the effects of the severe burning she received on Wednesday.

The New York Herald says: A week ago the Plymouth congregation offered up prayers for Mr. Triton. On Thursday night it wanted "to knock hell out of Mr. Moulton." The old Adam is still strong in these charming specimens of liberal Christianity.

**FOR SALE—**  
**TYRATHLEN LOTS.**  
The Venerable Archdeacon Palmer has placed in his hands for sale the Lots in his new survey, immediately in rear of his residence and lying on the north side of Grange street. The situation cannot be surpassed in the town—convenient to Market, Post Office, Church and schools, commanding a magnificent view of the town and surrounding country. The lots are of different sizes, and well suited for private dwellings, with a first-class soil for gardening.  
Those lots on Tyrathlen Terrace are well adapted for general residences, (and will only be sold to those who will bargain to put up good buildings.)  
Plans of the Lots can be seen at my office and particulars learned.  
Terms very liberal. Purchases made on the ground.  
This Fall, interest on balance of purchase money will not commence until 1st April, next.  
If desired, the lots will be pointed out on the ground.  
Also, 17 other lots lying to the north of Palmer street, in Macdonald's survey, and on Queen and Arthur streets.  
An early call is solicited.

Great inducements will be offered for this season at Wm. Noble's shop, opposite the market.  
He has now opened out his fall goods which he will sell at the lowest prices, all new goods, no old stock in his shop, the kindest attention will be paid to customers, that favour him with a call. My motto is "quick sales and light profits." I am also prepared to make all ordered work in the neatest style and of the best material, no matter. All sorts of Hille boys' work will be kept on hand. Repairing done on the shortest notice.  
2 Shoemakers wanted that can make a first-class work. Highest wages will be paid, and steady employment.

## A PUBLIC POPULAR LECTURE

WILL BE DELIVERED BY  
**PROFESSOR EDWARD S. FRANKS,**  
Consulting Optician, Oculist and Aiding of the

### Royal Eye and Ear Infirmary of Manchester, Lancashire, England,

Inventor and Patentee of the Important Improvements in Spectacles.  
Will Lecture on the Anatomy and Physiology of the Human Eye; and on the USE AND ABUSE OF SPECTACLES.

The Lecture will be illustrated by large colored Diagrams, Models, Natural and Artificial Eyes, etc.

Dr. Franks lectures to disseminate useful knowledge, to introduce himself, and his uniform focal Spectacle Lenses to the inhabitants of this Town, knowing how wide a field there is in Ontario for the professional services of a well skilled optician, in this much abused and neglected branch of science (the correct adaptation of spectacles to defective vision). The dealers in spectacles, generally being merely merchants, entirely unacquainted with the formation, and functions of the Human Eye, its diseases, the peculiar construction of different Lenses, or their individual relation to the needs of optically impaired vision, the laws of Optics, or Light, or its action on the Nerves of Sight, therefore are unable to advise in the selection of Spectacles, and are equally ignorant of the principles governing their scientific adjustment, points most required by the patient.

TO EDWARD S. FRANKS, M. D.:

Sir.—We, the undersigned Physicians, having seen high Testimonials of your abilities as a Lecturer, and capacity as an Optician, will esteem a favor your delivering a public lecture on the Anatomy and Physiology of the human eye, and on the use and abuse of Spectacles. It will benefit the community by instructing them of the dangers of using improperly adapted Spectacles, and the benefit of wearing proper ones, at the same time disseminating information on the functions and formation of the delicate little organ—the Eye.

GUELPH, Aug. 20th, 1874.

**To the Inhabitants of Guelph and County of Wellington, and others.**

I take this method of letting you know that on Monday, 14th September, prox., I will open my New Store, Upper Wyndham St., Guelph, when I will submit for the inspection of the general public the contents of over 1,800 cases and bales of Fancy and Staple Dry Goods, bought by myself personally in the best producing markets of Great Britain and United States. The variety of styles and fabrics in each department that will be open for inspection at my New Store on and after 14th September, will be such as cannot fail to meet with the good taste and full approbation of an appreciating public. From my long experience in the mercantile business (over thirty-seven years), twenty years of which have been spent in the town of Guelph. I feel satisfied you have fresh in your memories the way that I commenced in this town against high prices, and fought for your interests daily, with a vigour that crowned my efforts with success. I am persuaded that again my presence is required by the great mass of the people of the County of Wellington in order to regulate the trade of the Town of Guelph, in Fancy and Staple Dry Goods, and it is with pleasure that I now announce to my old friends and patrons, that it will afford me unbounded pleasure to renew with them the happy moments that we have had together for the mutual benefit of each other; and I can pledge my faith that I will devote my best energies and abilities to guard the rights and interests of all those that may favour me with their patronage. At all times the public may depend upon having the best of attention in my New Store, that nothing but sound, good and honest goods will be kept for sale by me; that in opening out a business for the public, that all and every article will be *entirely new*; that in every instance goods will be offered at such reduced prices as will at once satisfy every one; that my new establishment is going to be conducted on the same principles as that of my old, viz., the best goods at the lowest possible prices, quick sales, small profits, and ready pay. A special discount will be offered to *Ministers of the Gospel*.

I enumerate some of the departments that I will stake my whole reputation on, and I do most confidently ask intending purchasers to call and examine my stock, when I am sure the highest satisfaction must be expressed. Black and coloured dress silks at fully 20 per cent. under ordinary prices. Do not fail to call and examine the quality and prices.

**FANCY DRESS GOODS.**

This department is full to overflowing, and in it will be seen the **newest novelties, designs and fabrics** produced. The prices will surprise the purchasers, as cheap prices, rich styles, and good goods are combined in this department. Every lady who wants to appear in the fashion of the day will be fully suited.

**MANTLES, JACKETS, AND POLONNAISES.**

Special attention of the ladies is requested to this department. Everything that the ingenuity and skill of mankind could bring to bear, with good taste is here represented. The novelties on exhibition in this branch of my business will surely be appreciated. An early call, specially in this line, will abundantly repay her intending purchaser.

**SHAWLS.**

This department will present an inviting appearance, and well worthy of a visit from ladies who favour the comfort that is imparted by a good shawl to its wearer. *Claws* are almost entirely worn for this season, and occupy the first rank in the wardrobe of Her Royal Highness the Princess of Wales, and our noble and most Gracious Queen affectionately admires not only the brilliancy, richness and designs of this elegant part of a lady's costume, but loves the country and the people who produce them.

French Merinos, Thibet Cloths, Paramatta Cloths, Serges, Black Lustres, Tweed Dress Material for Costumes, and the various makes of Fall and Winter Plain Dress Goods

Are in large abundance, and present to the purchaser so fresh and new an appearance, and at the same time so reasonable in price that confidence will at once be placed in the goods, with the highest satisfaction to the purchaser. *All new and fresh goods.*

**FAMILY MOURNING GOODS.**

I have specially attended to the selection of the various kinds of goods required in this department, and I can confidently say to those requiring to purchase mournings, that at my New Store everything in that line will be found, and at a great reduction from the ordinary prices charged. I have the best *Black Crapes* to be found in the *Dominion*.

**HOUSE FURNISHINGS.**

I have a most complete stock of everything that can reasonably be asked for in order to make a home comfortable, and I will guarantee that parties desirous of furnishing a home will find that I will offer an inducement of fully 15 per cent. to them, and in addition they will get nothing but new, fresh, good and desirable goods. *"No time for the moths to get about them."* A CALL IS REQUESTED TO THIS DEPARTMENT.

**STAPLE DEPARTMENT.**

Here will be presented to the view of the visitor to my store the largest stock of heavy Staple Dry Goods to be found in Ontario. During the panic in the United States I bought, direct from the producers, immense quantities of 36 in. Grey Cottons (the best goods to be found in Canada), Bed Tickings, various qualities, Blue and Brown Denims, Cotton Grain Bags, Cotton Batting and Waddings, Quaker Flannels, &c., and at *panic prices*. Indeed the Farmer, Mechanic, the Lawyer, Doctor, Labourer, or any other individual can at my New Store procure anything in Staple or Fancy Dry Goods that is made, and all new, fresh, seasonable and good. *"No old shop-keepers' to palm off."* Quite a saving can be effected by buying at my New Store. *Quick sales and small profits* is the motto of John Hogg.

**CLOTHS AND TWEEDS.**

This is a most notable department in my store. I have bought the finest lot of Canadian Tweeds, and from the best producer in the Dominion. I bought at the *bottom prices*, and I will give my patrons the benefit. Call and see. I will satisfy you that you are saving money through me.

**READY-MADE CLOTHING.**

In this department I deem it but fair to the community to say that it is high time that a check be put upon the ridiculous high prices that they have lately been paying for ready made Clothing, and poor stuff at that. I have had made specially for my own trade and to my own order, the most attractive and stylish lot of Men's and Boys' Overcoats, Men's and Boys' Pea Jackets, Men's and Boys' Suits of all the various classes of desirable and durable goods made for the Fall and Winter Trade. I will give an excellent suit of Coat, Vest and Pants, equal in cut and make to any that can be cut and made by the best cutter in Guelph for \$12 and up. Call and see, 25 per cent. saved to the purchaser by calling at my new store. *All new goods and fresh goods. No old stuff.*

Carpets, Blankets, Sheetings, Quilts, Counterpanes, Towels, Damasks, Repps.

This Department requires more real knowledge and taste to be bestowed upon it probably than any other Department in the Drapery business. I can confidently solicit from the public a call in order merely to be enabled to endorse my statements regarding the excellence of the goods here to be seen. My Carpets are unquestionably the finest selection in Ontario. The patterns, colours, and designs, are exquisite. Indeed, my Kidderminster Carpets are equally as rich in design and colour as the best Brussels or Tapestry to be found, and in order to be fully able to have my taste suited, I spent considerable time in going from one manufacturer to another, but I persevered and accomplished my object in securing the finest selection of Carpets to be desired. My prices will be extremely cheap. The goods all new, fresh and good, and such as any housekeeper would be proud to have. The other goods—Blankets, Sheetings, Quilts, Counterpanes, Towels, Damasks, Repps, Lace Curtains, Blinds, Window Hollands, &c., &c., are the best that the Home Markets offer, and as you know are all new, fresh, and the latest productions. Quite a saving will be effected by buying at my New Store. To enumerate anything like my Whole Stock would occupy too much space, also too much of your valuable time. Suffice it to say that in every denomination of Fancy and Staple Dry Goods my New Store will be supplied to the fullest extent. No pains or trouble will be spared to meet the wishes of my patrons, and the visitor to my Establishment will be well repaid in the advantages that will be placed within their reach, by not only having an opportunity of procuring the newest goods, the latest styles, but the best goods offered in Ontario, and at the lowest possible profit. An Early Call is solicited.

Yours truly,

**JOHN HOGG.**

**The American Base-Ball Players in England.**

The following is from the London Daily News of the 11th inst:—  
 "The American base-ball teams who have been playing in various parts of the country since their arrival gave an exhibition of their skill and address in their national game at the Crystal Palace yesterday. The contest, which was between the Boston and Philadelphia (Athletic) teams, took place on the cricket ground, was witnessed by a very numerous assemblage of spectators, and by many of the members of the Crystal Palace Cricket Club, who appeared to take great interest in the game. The game of base-ball has already been sufficiently described in our columns to give our readers a good idea of its plan. In fact, it is the old game of 'rounders' considerably elaborated. The bases are at the angles of a square instead of being in a circle, and the ball when fielded is returned to a man who stands at each base, the runner being put out if the ball is held by the base man before he arrives there. In addition, there is a man who stands behind the striker, and who acts pretty much as a wicket-keeper in cricket, except that he appears to be considerably more in danger of the striker's club than of the ball, which is not a very formidable looking article. The game is played with nine on each side, of whom four of the side that is in can be playing at once, while of course the whole nine of the other side are engaged in fielding. The match yesterday was well played by both sides, but the advantage remained with the Bostonians, who both made and saved runs in excellent fashion. Their striking was exceedingly good and the fielding was worthy of all praise. It is seldom, even in the best cricket fields of England, that better catches or quicker returns are made, while the backing up of the Americans is simply admirable. There were remarkably few cases of overthrows or chances missed on either side. The game was continued until 5 o'clock, when a thunderstorm and a driving shower of rain drove players and spectators into shelter.
