## THE CONFLICT WITH DEATH.

LORD TENNYSON'S CONDITION IS  
UNCERTAIN.

No Callers Are Admitted to the Poet's  
House at Aldw... & No Define  
Reports Have Been Given Out—Sir Andrew Clarke and Dr. Dobie Are  
Constant Attendees.

LONDON, Oct. 5.—A despatch from Halsbury at midnight says: The house at Aldw... is still locked up after it was last opened. No callers are admitted. Except for the light streaming from the sick room windows, the house is in darkness. All seems hushed to silence. It is understood that Sir Andrew Clarke and Dr. Dobie are constant attendants. That Lord Tennyson's condition is unchanged.

## FREE TRADE WILL REIN.

That is the Opinion of Hon. Leonard Courtney, M.P.

LONDON, Oct. 5.—The Right Hon. Leonard Courtney, member of the House of Commons for the Bodmin division of Cornwall, a member of the Opposition, addressed a meeting at Liskeard, Cornwall, to-day. He said the free trade bill would be introduced as soon as possible, and that would make food dearer than was according to the natural supply or that would impede in even a slight degree free import. The bill will introduce only symptoms of reaction in favor of protection, but however strong these manifestations might be believed that the House of Commons would accept the measure of free trade. He was quite anxious regarding the hopelessness and improvidence of expecting Parliament to do anything fundamentally changing the position of farmers as competing producers with America and the colonies.

## THE MILITARY RIDING RACE.

The Austrian Officers Carry off All the Honors.

VIENNA, Oct. 5.—At 8.30 o'clock this evening the Austrian officers who had been racing at the German riding school, held the thirteenth place. Prince Leopold is sixteenth. Thirty Austria have reached Berlin, while only 10 Germans have reached the frontier. The advanced German riders died on the way. None of the Austrian horses died. Count Koenigsmarck, who started from Berlin with the third batch of riders, has a good record, beating the records of Count Starhemberg and Lieut. Milos, who has been reached Igau.

The Emperor William has taken the utmost interest in the race, which has kept thoroughly well informed as to the progress made by the riders. The first of the German officers to derive any material benefit from the race is Major Leopold, who is one of the stars arrived at Flensburg. The advanced German rider died on the way. One of the Austrian horses died on the way.

DUBLIN, Oct. 5.—A convention of Irish landlords has been held in the city of Dublin, and a resolution was adopted demanding that the Government's eviction commission be fairly constituted and that its enquiry be thorough.

It was denied that the landlords were issuing ejectments for the purpose of embarrassing the Government.

The French in Dauphine.

PANAMA, Oct. 5.—A despatch has been received by the Government from Col. Dodd, commanding the French expedition against the Dahomey rebels. The rebels have crossed the river Oussouye on Sunday, and camped in the face of the enemy. The Dahomeyans forces were concentrating in a strongly fortified position and the French were making preparations to attack them.

Ninety-seven members were present. The meeting was addressed by several speakers, and the chairman, who was present, called for a vote of confidence in favor of protection, but however strong these manifestations might be believed that the House of Commons would accept the measure of free trade. He was quite anxious regarding the hopelessness and improvidence of expecting Parliament to do anything fundamentally changing the position of farmers as competing producers with America and the colonies.

THE DALTONS WIPE OUT.

A GANG OF DESPERADOS KILLED IN A KANSAS TOWN.

The Citizens Caught Them Trying to Rob Two Banks and Caught Them to Death—But Before Being Given Their Desserts They Kill Several Bank Officials.

CORPUS CHRISTI, Oct. 5.—The Dalton gang have been exterminated, wiped off the face of the earth. Caught like rats in a trap they were to-day shot down, but not until four citizens of this place yielded up their lives in the fierce extermination of the bandits. The firing was fierce, at the feasting place. Spear and truncheon, Wincheste... spoke to them in succession, and Joseph Evans and "Texas Jack" fell dead, both

had become known to the officers of the law, and when the bandits attempted to escape they were attacked and the bandits were driven into the battle which ensued.

Four of the desperados were killed outright and one was badly wounded that he has since died. The other escaped, but is being hotly pursued.

Among the exhibited horses and cattle are Graham Bros. of Claremont, J. L. Davidson and George Davidson of Pickering, and John Laurie, William Milliken, John Morris, and George Torrance, George Gurney of Markham.

## UNCLESAM'S NATIONAL GAME

LEAGUE MAGNATES HAVE A SOMEWHAT STORMY SESSION.

Only Two Clubs of the Twelve Have Collected Any Coin—Next Season Will Be Shorter—The Irish Cricketers Close Their American Tour—More Canadian Horses Well.

NEW YORK, Oct. 5.—The League baseball magnates showed their hand pretty thoroughly last night when they asked for an extension of the time for meeting the notes for \$10,000. In other words, nobody was willing to put up the money and it was the sentiment of the members that it be raised from the receipts next year if possible.

If the holders of the notes refuse to extend the time beyond Nov. 1 the League will be placed in a peculiar position.

The magnates will either have to go down in their pockets or shut up shop.

One thing of importance was decided at the night session, which was adjourned at 12 o'clock. The Boston and Cleveland will play off on Oct. 12, and the game will probably Oct. 13 or 14. The game will be played in the two cities exclusively. The Boston people fought against this, but upon a vote it was unanimously decided that the series should be played, and the decision of details was referred to the league directors.

Contracts next season will run from April 1 to Sept. 30. The regular playing schedule will be as follows: From these dates, the series to be a continuous one of 122 games, or 22 less than this year.

The annual meeting will be held Nov. 16 in New York.

According to a well-posted man but two clubs will finish the season ahead financially—Cleveland and Pittsburgh. Every other club has lost money, and the clubs have been at a loss what to do. The New York club owes its players three months' salaries.

CANADA'S TROTTERS.

A Speedy Mare Unearthed in St. Kitts—For the Grand Circuit Next Year.

St. Catharine's has turned out a good number of horses in the last decade. Howard II, Forrest Mambrino, Geraldine, General Stanton and nearly all the star Canadian trotters have hailed from the Garden City.

The other day a new filly was unearthed. She is a big handsome rangy mare, 4 years old, owned by P. M. Crowley and at her first trial in the sulky won a quarter in 35 seconds.

It breeding counts for something. Sadie S., as the mare is named, ought to best anything in Canada. She is by General Stanton and her dam, Zeph, is a full sister to Forrest Mambrino, a sire having more of his get in the list than any horse in Canada. Everyone has heard of General Stanton, but not so much is known about Zeph. She is a beauty and shares with all the characteristics of the Blue Grass trotter. She was bred by Dr. L. Herr of Lexington, Kentucky, and was bought by Mr. C. C. Jones along with several others. She was purchased by Kentucky admirers, and is again in the Blue Grass State. She left behind her, however, Sadie S., her only foal. Sadie S. has not been worked until very recently. If all goes well her owner will start her in the Grand Circuit next year, and before the close will make some of the American tracks hustling to win.

U.C.C. Defeat the Victorias.

The players exerted themselves to the best of their abilities in the Victoria U.C.C. Rugby match on prize day at Deer Park yesterday.

The college boys won by 5 points to 0. The game started with a strong wind behind the college, which fall materially after the first 30 minutes. The students secured a try, 4 points and a rouser in the first 15 minutes, but the visitors were beaten by either fifteen. Their team play, due to the amount of daily practice, told greatly in favor of the college. The game was very even throughout. Counsel for college and Watson and Langtry for the维克利夫学院 played well.

## AGAIN DISCUSSED THE BRIDGE.

The Board of Works Report sent on to Council Yesterday.

PHILADELPHIA, Oct. 5.—Owing to the weather the third and deciding game between the Irish team and All Philadelphia was declared a draw by mutual consent at the conclusion of to-day's play.

The riot had become so hard that the ball rose at the batman in a dangerous manner.

The first match was won by the Irishmen by 17 runs and the second lost by them by 11 runs. The third was drawn. To-day the Irish scored 188 in their first inning and had lost 6 wickets for 87 in their second when play was finished. The Philadelphia side 182 in their first

innings did not lose their second.

There is no doubt the Irish team was greatly underestimated. The visitors came favorably with Lord Hawke's eleventh century, and Marconi's 100, and were winning more, and with possibly one exception, better bowlers. They are an equally good fielding team and a stronger batting team, although the former team has an advantage of greater ability than any of the Irishmen who had a tall big end, whereas many of our present visitors is able to make runs.

The visitors came favorably with Lord Hawke's eleventh century, and Marconi's 100, and were winning more, and with possibly one exception, better bowlers. They are an equally good fielding team and a stronger batting team, although the former team has an advantage of greater ability than any of the Irishmen who had a tall big end, whereas many of our present visitors is able to make runs.

The third match was won by the Irishmen by 17 runs and the second lost by them by 11 runs. The third was drawn. To-day the Irish scored 188 in their first inning and had lost 6 wickets for 87 in their second when play was finished. The Philadelphia side 182 in their first

innings did not lose their second.

There is no doubt the Irish team was greatly underestimated. ## AMONG WHOLESALE HOUSES.

DEMAND FOR WINTER GOODS STIMULATED BY THE WEATHER.

The Feeling In Sugar Scarce So Strong  
Probable Shortage in Woolen Shirts  
And Drawers-The Tomato Pack-  
Wood and Bag Fulp—Trade and Finan-  
cial Gossip—Business Failures.

The cool weather of the past few days has given quite a stimulus to the wholesale drygoods trade, and travelers' and letter orders have been quite numerous. Increases in the volume of business shown a slight falling off owing to the destruction of sugar. Hardware kept fairly active, and a steady demand is apparent in price. The movement in boots and hose is limited owing to the weather, and there is less demand for leather in consequence. The feature of the drug trade is the activity and firmness of disinfectants.

Payments are reported by some lines of trade to be improving, and although scarcely up to anticipations in the drygoods trade on the 4th inst., they were as good as usual at this season.

## HIDES AND SKINS.

There is a fair demand for local hides and skins. Skins advanced Oct. 1, being now quoted at 70c. and 75c.

## PAINTS.

There has been no particular change. Business continues fair, particularly in glass. Linseed oil is still in good request and turpentine dull. Lead is not much wanted.

## LEATHER.

The volume of trade has fallen off somewhat in late seasons due to manufacturers' strike. A few weeks ago, however, business in fancy leathers continues to improve and, compared with a year ago, is much better.

## CLOTHES AND SHOES.

The prevailing fine dry weather has made trade rather dull. What the boot and shoe trade want is rough, broken weather. With it retailers would be compelled to bring their stocks forward. Local factories are turning out a little slower in the cuttings department, which is usual at this time of the year. Money is coming in fairly well.

## HARDWARE.

Business continues good. All importers for Canada are now about complete. Fall supplies are still in demand in hardware and hardware and metal prices remain firm. Demand for galvanized iron exceeds supply and roofing tin is in fair request. The iron and lead departments are meeting with various difficulties in the estimation. Local wholesale houses do not anticipate any immediate change in prices as a result. Payments show some improvement.

## DRUGS.

Trade has developed a decided improvement during the week, not only through travelers, who are doing fairly well on the road, but also through letter orders from customers who were in town early in the season. Many stores have closed their counters most of them waiting till the weather forces them to buy heavy goods, and have not purchased up to the present anything more than a few spring articles. Orders are now coming in for winter goods. Orders are now coming in for those goods in consequence of the cold weather. Blankets, knitted shirts and drawers; heavy overcoats, heavy tweeds, woolen underclothes of various kinds are in active demand. The supply is likely to be short in consequence of two of the largest knitting mills—Stratford and Paris—having been burned down.

## DRUGSTORES.

Trade is scarcely as brisk as last week, but this is nothing unusual at this season. Payments continue fair. Sugars are moving in fair quantities. Dried sugars are expected to be made about Oct. 15. First of the new Louisiana sugars were placed on the New Orleans market this week. Cane sugars of Rio are scarce and have advanced about 4¢ a pound within the last week in the market of production. Stocks of Rio held in Brazil are smaller than a year ago, and are slightly lower. Syrups are in better demand; dairies are scarce and medium and bright grades show good value. Valencia raisins are a little easier on the spot they sell at 60¢ per pound and are in fair supply according to quality. There are some new currants on the market at 60¢ a pound for barrels and at 60¢ a pound for half barrels. Valencia raisins on the market are still some old currants there are none. The first direct steamer Aviona with new Mediterranean fruit was due in Montreal last night. The tea and coffee seasons demand; more supply is reported for Ceylon and Assam. Canned vegetables are not as active as is usual at this time. Two causes are advanced by the trade for this. The first is the small demand for the market, and the second the fact that some retailers who overstocked last year have still some of last season's goods in stock.

## THEATRE DISPUTES.

The Board of Trade Legal Advisors State the investigation was irregular.

The World some weeks ago announced that Mr. J. F. McLaughlin had, through his solicitors, served President Baird and Secretary Wills of the Board of Trade with a complaint regarding the manner in which the chairman was advancing the just finding of a committee appointed by the president to investigate a certain sale of flour made by Mr. J. L. Spina, the accuracy of which was challenged by Mr.

Tuesday Mr. McLaughlin received a letter from Secretary Wills in which it was stated that the legal advice of the Board of Trade under the bylaws of the association had been sought by the board he had no authority to order the investigation, which took place or to name a committee to conduct the same. At least the experts had been asked, for their assignment to C. B. Armstrong is announced. The firm has been in business for several years.

## THE VALUE OF FRUITS.

Mr. Bissell Bros., hardware dealers, Exeter, have assigned to C. B. Armstrong. The stock of John O'Malley, boot and shoe dealer, Ottawa, has been sold at 50¢ a dollar. I. T. Rochon, grocer, Ottawa, has assigned.

Bissell Bros., hardware dealers, Exeter, have assigned to C. B. Armstrong. The stock of John O'Malley, boot and shoe dealer, Ottawa, has been sold at 50¢ a dollar.

## THE OUTLOOK FOR BARLEY.

"The outlook for Canadian barley is poor indeed," said a well-known exporter to The World yesterday. "You see, this year Russia will be a large shipper of feed barley into Europe, and as we will have to compete with her you can easily surmise the position the barley exporters of this country will be in."

## THE WORLD'S EXPECTED HAPPENING.

The failure of Bissell Bros., general merchants of Exeter, has been attributed to the action of their creditors. At least the experts had been asked, for their assignment to C. B. Armstrong is announced. The firm has been in business for several years.

## THE STREET MARKET.

TRADE AND FINANCIAL GOSSE.

Farmers' deliveries of grain are now pretty free, but still they are not heavy enough to suit some.

It is estimated that the destruction by fire of the Stratford and Paris mills will leave about 50,000 dozen white shirts and drawers out of this market.

Business on the local wholesale grocery market last month was heavier than usual for September. Some merchants claim that it was 25 per cent. heavier than for the same period last year.

Another lot of 2000 packages of teas held here on consignment have been shipped to Chicago. They were not of desirable quality, and consequently the market had not been affected thereby.

There is a slightly improved tone on the London money market, and better things are now hoped for. Railway shares are rather dull owing to unfavourable statements, but American securities are fairly steady.

The possibilities of Russia being even a greater factor in the world's supply than she is in that of wheat are good.
