## HISTORICAL SKETCH.

The Berlin "County Grammar School" was opened on the second of April, 1855. Under the Education Act of 1871 it was converted into the Berlin High School, which name it bore for thirty-three years. In 1855 the School was housed in the old printing office in King Street East, used in recent years as the East End Mission Hall and lately removed. When the Central School was opened in 1857, the Grammar School was accommodated in a large room, known as the Grammar School Room, in the north-east corner of the second story. In 1871, when these quarters were required for the increased attendance of public school pupils, the former New Jerusalem Church on the south west corner of Benton and Church streets was acquired for the High School. In the same year Mr. J. W. Connor, B. A., became its Head Master. In the minds of not a few "Old Boys" and of their teacher many pleasant memories cluster about this old building. It remained the home of the School until January, 1876, when the older part of the present greatly expanded School building was opened on King Street West.

A notable feature of the School's history has been the mutual fidelity of the School to its Masters and of the Masters to the School and to one another. Prior to 1871, particularly in 1855—1857, there were not a few changes in the staff. Since 1871, Mr. Connor was connected with the School as Head Master from 1871 to 1901, and as assistant from 1901 to 1903. His retirement from the principalship was made the occasion of a reunion of the ex-pupils, at which they presented him with a testimonial of \$1000. Mr. D. Forsyth, B. A., who succeeded Mr. Connor as principal in 1901, had been an Assistant Master since 1876. The late lamented Adolf Mueller, in whose memory a tablet was placed in the School by his ex-pupils and friends at the reunion of 1901, was Modern Language Master from 1876 until his death in 1898. Mr. F. W. Shepperd was on the staff

for sixteen years, from 1888 until his acceptance in 1904 of one of the Inspectorships of Public Schools for the County of Waterloo.

Under the present Principal the expansion of the School in its staff, buildings, equipment and attendance, has placed it in the front rank of institutions of its kind in Ontario. Mr. Forsyth, early in his career as Science Master of the School, became a pioneer in the High Schools of the Province in the matter of introducing practical laboratory work for each pupil in science. In 1903 the Board and Principal, with the generous support of the citizens, established in the School's courses of instruction the novel features of Manual Training in Iron and Wood and Household Science. In the remodelling and extension needed to accommodate these and other departments of instruction, the size of the school-building, to be formally re-opened on December 21st, has been trebled.

By an Order-in-Council dated November 30th, 1904, the School was created a collegiate institute with the name of the "Berlin Collegiate and Technical Institute".

THE LATE D. S. BOWLBY, M. D.,  
Chairman of Board, 1874-1901.

THE LATE HUGO KRANZ, M.P.  
Sec.-Treasurer, 1871-1876 and 1881-1882.

## SPECIAL;

The attendance rolls of the school for the years 1855 to 1868 not having been preserved, the list of pupils in these years is not complete. Beginning with 1868, the list of pupils is complete, but further information concerning them is, in many cases, wanting altogether or defective. As a record of the ex-pupils, it is in fact, only a beginning. With a view to perfecting and tabulating the information on this point, a card catalogue of the ex-pupils has been started at the School, and the ex-pupils are urgently requested to send to the Principal, Mr. Forsyth, any information which would serve to correct or add to the information in the following pages concerning themselves or other ex-pupils.
