Canadian Institute for Historical Microreproductions / Institut canadien de microreproductions historiques

**© 1982**

The copy filmed here has been reproduced thanks to the generosity of:

Library,  
National Museums of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque  
Musées Nationaux du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

# ALPHABET.

## (a) SYLLABICS.

▽ ā	△ ē	▷ ō	◁ ä *
∨ pā	∧ pē	> pō	< pā
U tā	∩ tē	∪ tō	∩ tā
∩ chā	∪ chē	∩ chō	∪ chā
∩ kā	∪ kē	∩ kō	∪ kā
∩ nā	∪ nē	∩ nō	∪ nā
∩ mā	∪ mē	∩ mō	∪ mā
∩ sā	∪ sē	∩ sō	∪ sā
∩ yā	∪ yē	∩ yō	∪ yā

\* a, as in far.

(b) APPENDAGES.

---

- ɔ = n, as in ρɔ, it is cold.  
c = m, " ∧ɔ<sup>c</sup>, sun.  
^ = s, " α∨ɔ<sup>^</sup>, boy.  
' = p, " ɔɔ', duck.  
\ = k, " σαb∩\, he leaves me.  
' = t, " Γ∧', tooth.  
- = ch, " α<sup>^</sup>∧-, very.  
• = w, when placed immediately to the right of a syllable, as in σ◁•, my wife.  
• = i, when placed higher to the right, as in σ<sup>^</sup>ɔ(ɔ<sup>•</sup>), my coat.  
: = wī, combining the value of each point as given above, as in 96:, kā-kwī.

" = the rough breathing, or aspirate, as in  $\wedge''\text{d}$ , ashes.

x = a combination of " and  $\backslash$ , that is, of the aspirate and k, as in  $\text{r}\wedge^x$ , at the river.

z = r, as in  $\text{bz}^{\cdot}$ , Christ.

z = l, "  $\nabla\text{p}z$ , angel.

o = oo, "  $\text{q}\vee\text{o}$ , man.

When “.” and “o” are placed to the right of a syllable, as in  $\wedge\text{p}^{\cdot}\text{q}\cdot\text{o}$ , the value of “.” is absorbed by the syllable, while that of “o” is affixed. Written in Roman characters the word  $\wedge\text{p}^{\cdot}\text{q}\cdot\text{o}$  will illustrate:—pe-kis-kwāoo; “w” is within the syllable, and “oo” is affixed to it. The value of “;” which appendage must be placed after the syllable it affects, is always absorbed except in the case of  $\nabla\cdot$ ,  $\triangle\cdot$ ,  $\triangleright\cdot$ ,  $\triangleleft\cdot$ , in which, though

“.” is affixed in position, its value is prefixed. The above combinations are pronounced, wā, wē, wō, wä. The absorbed and the prefixed values of “.” are met with in the word  $\Delta \cdot \wedge \rho \wedge q \cdot o = w\bar{e}-p\bar{e}-kis-kw\bar{a}oo$ , he wishes to speak.

It will be noticed that there are quantities between  $\nabla$  and  $\triangleleft$ ,  $\vee$  and  $\lessdot$ , &c., less full than those given in the Alphabet. When quantities similar to the alphabetical ones are very necessary in the pronunciation of a word, the period “.” is placed directly over the long or broad syllable,  $\sigma b \dot{\rho} \cdot \dot{c} \dot{l} \dot{\rho} = ni-k\check{a}-kw\bar{e}-t\check{a}-m\check{a}n = I$  shall be in need  $\nabla d \dot{c} \sigma b \triangleleft \dot{\rho} \dot{\rho} = I$  shall be there; here the last syllables are “ä” and “yän,” both broad.  $b \triangleleft \dot{\rho} \dot{\rho} =$  where you are. The last “ $\dot{\rho}$ ” is not broad,  $k\check{a}-\check{a}-y\check{a}-yun$ .
