## CHINESE IMPERIALISTS TO TREAT WITH REBELS

### Appointment of New Premier Will be Followed by Cessa- tion of Hostilities—Panic at Pekin Largely Dispelled— Several Places Go Over to the Revolt Itself.

PEKIN, Nov. 1.—The appointment of Yuan Shi Kai to-day as premier of China will be followed by a cessation of hostilities on the part of the imperialists and the opening of negotiations with Gen. Li Yuan Heng, the leader of the revolutionists at Hankow.

An imperial edict providing for important administrative changes also accepts the resignations of the ministers, but until Yuan Shi Kai returns to Peking Prince Ching will continue to perform the duties of premier and the present cabinet will remain in office.

All the ministers attended a secret session of the national assembly, which, it is understood, practically agreed to the demands of the disaffected Lanchow troops. A member of the war board was appointed to confer with the troops and express the assembly's views.

The assembly also discussed the recent loan for which arrangements had been made with a Belgian and French syndicate. The ministers explained that the loan was needed for the purpose of carrying on field operations. The assembly thought there was a good prospect of the termination of hostilities, in which case the loan would not be necessary. It was finally decided to refer the matter by telegraph to Yuan Shi Kai. A member brought up the question of the Shanghai, Taotai's failure to pay the instalment of the boxer indemnity, and a minister explained that two months' grace, with 4 per cent. interest had been allowed.

### Pekin Quieter.

The panic among the people of Peking which ensued after the issuance of the first imperial edict, has been largely dispelled, and the assembly is beginning to sum up the results of the 17 days' rebellion. The Daily News considers that the appointment of Yuan Shi Kai will change the entire political complexion, restore peace, inspire the people with confidence, command the respect of foreign countries and place the empire on a sound basis.

Reports received here state that Yunnan, Anking and several other small places in Anwei and Kuehien provinces have gone over to the revolutionists. Soldiers in North China are avowedly awaiting the action of Yuan Shi Kai.

The government troops and the Shansi rebels are encamped not far apart. Apparently they do not intend to fight, for the present at least.

### Situation Changing.

SHANGHAI, Nov. 1.—The edict appointing Yuan Shi Kai premier, and his active participation in negotiations with the rebels, have considerably cleared the situation. It is evident that the revolutionists throughout the south are awaiting Yuan's word.

While the government's action has been delayed so long as to possibly seriously affect the negotiations, there is reason to believe that the tone of the edict will appeal to the sentiment of Chinese, and a few days may serve to settle the whole question. A great obstacle, however, is skepticism regarding the sincerity of the administration at Peking.

Yuan Shi Kai has sent a wireless message to Shanghai, instructing the telegraph department to send operators and material for repairs to Hankow, indicating that he expects to have control.

Rear Admiral Murdock, commander-in-chief of the American Asiatic squadron, is distributing the smaller vessels to points where Americans are nervous. He expects to establish wireless communication with Hankow to-morrow.

### Hankow May Be Captured.

PEKIN, Nov. 2.—The war office has received a report that the imperialist forces have recaptured Hankow and massacred the population.

### HAMILTON'S POWER CONTRACT.

Hon. Adam Beck was greatly pleased yesterday at the action of the Hamilton city council in taking a co-operative contract with the hydro-electric commission for the supply of power. The minister remarked that the citizens had got at last what they have been asking for for years.

### Will Rebuild Church.

MONTREAL, Nov. 1.—Father Berard announced to-day that a new erection would immediately be built to replace the St. Irene Church, which was destroyed by fire yesterday.

### A Short-Lived Republic

WASHINGTON, Nov. 1.—The independent republic which was set up at Canton, China, a few days ago, has had a short life. Mr. Williams, the American in charge at Peking, informed the state department to-day that the victory and other imperial officers had absolutely refused to recognize the newly proclaimed republic, and as the troops in Canton decided to remain loyal to the throne, the new republic perished.

## MacKay Fair Foe So Says Premier

### Sir James Always Found Relations With Former Opposition Leader Satisfactory—No Comment on Mr. Rowell.

Sir James Whitney would make no statement yesterday regarding the change in leadership of the Ontario Liberals.

"As regards the selection of Mr. Rowell, I have nothing to say—at present," remarked the premier, "but I do want to say a word about Hon. A. G. MacKay, and it will be a good word. Mr. MacKay's capability is well known. I always found him ready to meet me on reasonable terms in order to expedite the business of the legislative assembly, and, as far as my memory goes, I have no reason to complain of his treatment of me at any time. I always endeavored to reciprocate his treatment of me, and I think I must have succeeded."

"With regard to the circumstances that brought about his resignation, I have nothing to say, but I repeat that my intercourse with Mr. MacKay as leader of the opposition was very satisfactory, and I wish him every prosperity in the future."

### AID TO PROVINCES

### On Opening of New Territory, Will Be Announced by Hon. W. T. White.

OTTAWA, Nov. 1.—(Special.)—Hon. W. T. White will make his debut as minister to-morrow night at Lansdowne, in Leeds County, where George Taylor has withdrawn in his favor. His speech is being looked forward to with considerable interest, not only as it is the first appearance of the new minister, but because it is expected he may make some important announcements. Amongst other things it is understood he will advocate assistance of the provinces by the Dominion Government in opening up new and undeveloped countries, such as New Ontario, by grants for good roads, etc.

Whether there will be any opposition to Mr. White or not will be settled at a Liberal convention to be held Saturday night at Delta, when the local candidate will be nominated. It is not considered likely there will be any opposition.

Friday night Mr. White will address a meeting at Gananoque, and Saturday night the Gananoque Board of Trade has arranged to give the new minister a big complimentary banquet. Nominations will take place at Delta on Monday, where Mr. White will give another address.

### WOULD YOU LIKE TO HAVE A COUNTRY HOUSE?

W. F. Maclean, M.P., has written a special article for the coming Sunday World on this interesting topic of a country house. In his opinion it is the best way of living and of bringing up a family. But there are certain essentials, and without these it is another proposition. There must be many people in Toronto and other places passing this subject through their minds. To all these the article will be especially interesting. Look out for it in the editorial section of next Sunday's World.

### REV. C. J. LONEY FOR BUFFALO.

BRANTFORD, Nov. 1.—Rev. C. J. Loney, Stouffville, has accepted a call to Immanuel Baptist Church here, the pastorate of which has been vacant for several months owing to differences which arose among the congregation. Rev. G. H. North, the former pastor, left the church, resigning his charge, and with a number of members a new Baptist church is being launched in Eakle Place.

### CRUSHED BETWEEN CARS.

Coroner Mason's jury, sitting at the morgue last night, returned a verdict of accidental death in the case of Philip Phyrig, who was crushed between the cars of a C.P.R. train while crossing the tracks to his work at the Gurney Foundry Company, on Oct. 27, and died in the Western Hospital that day.

## ITALY RESENTS CRUELTY CHARGE

### Premier Makes Official Denial —Acts of Treachery Blamed on Bedouins, Who Stirred Up Arabs to Rebel.

ROME, Nov. 1.—The reports which have been spread in foreign countries that the Italian troops at Tripoli have practiced extreme cruelty in the war against the Turks and Arabs, killing women and children, the aged and infirm and non-combatants, have caused intense indignation throughout Italy. These reports have already been officially denied, but Premier Giolitti took occasion again to-night to emphasize the denial and to make a statement in behalf of the government and the whole nation.

"If any reproach is admissible," he said, "it can only be on a count of excess of humanitarianism. We have, perhaps, thru exaggerated scruples, spared the lives and property of the enemy, and, in so doing have exposed ourselves to grave risks. This, however, we have been pleased to do, to prove that we are civilized and humane. Perhaps what is the bounty of the strong may be judged as weakness."

"Our soldiers, trained in the school of loyalty and accustomed to the uprightness of the Abyssinians, who are open enemies or steadfast friends, did not expect that the Arabs, after they had sworn fealty and received grain and flour and other concessions, would treacherously break their oaths and traitorously turn their arms upon the wounded. Among these heroic dead many of them were barbarously killed by the enemy after they had fallen gravely wounded."

### Bedouins to Blame.

"He who asserts that the Italian soldier would offend woman or child shows ignorance of our country and race. The acts of treachery were due partly to the efforts of Bedouins, about 15,000 of whom migrate at this season of the year from the interior to the coast for the date crop. They formed a kind of conspiracy with the Turks and succeeded in persuading the Arabs, who had already declared themselves our friends, to rebel. But, indeed, the Arabs were ready to take up arms against those they considered weak, at any moment. This is shown by the fact that many of the habitations, when set on fire, exploded like gunpowder magazines, so great were the quantities of arms and ammunition hidden in them."

"After the betrayal, when the Arabs, hidden by the trees, walls and houses in the oasis, shot in the back the troops courageously fighting the Turks, our soldiers defended themselves. They attacked the oasis and routed the traitors, killing those caught in the act of firing and taking the others prisoners. For safety, we transported the prisoners to Tremiti and Ostia Islands, where, on their own admission, outside of the curtain of their liberty, they are better treated than in their own country."

### Barbarities by Turks.

"The oasis within our own lines, after the population had been removed out of harm's way, was rendered useless as a cover for the enemy. The trees and walls, and in fact, everything which might afford a shelter for the Arabs to repeat their treachery, were destroyed."

"In no report has Gen. Caneva made any allusion to women and children killed. There is instead proof of unheeded cruelty to our wounded. Many were barbarously knifed, being killed while lying wounded and unable to defend themselves. Besides the ocular testimony, this is proved by the fact that while the normal proportion between the wounded and dead in battle is one to two, the Turks having about 2000 killed and 4000 wounded, our dead numbered 374 and wounded only 138."

"In open attacks, in ambushes and also in time of treason the courage and humanitarian sentiments of the Italian army and navy are above praise. Always admitted, they render this war an example of generous and chivalrous civilization."

### Aviator Dropped Bombs.

TRIPOLI, Nov. 1.—The last 24 hours have passed quietly. An Italian military aviator, while making a reconnaissance last night, succeeded in dropping four bombs in the midst of the Turkish encampment.

### Marching on Tripoli.

CONSTANTINOPLE, Nov. 1.—The chamber to-day loudly cheered the reading of a telegram from Suleiman El Baruni, the deputy from Tripoli, commanding the Arab volunteers. The telegram, dated Oct. 28, said: "I reached the coast, accompanied by the volunteers, on Oct. 26, and delivered."

## WILBUR MATTHEWS DEAD DUN'S GENERAL MANAGER

### Had Been With Firm For 43 Years And Was Known Thruout Canada.

Wilbur C. Matthews, 3 Chestnut Park, general manager for the R. G. Dun Company in Canada, died at the Toronto General Hospital last night. On Thursday last he was operated on for appendicitis, but pneumonia developed on Tuesday, and he never rallied from its effects.

Deceased, who was in the 66th year of his age, leaves a widow and three daughters, Louie and Olive, at home. Mrs. Tappan of Mansfield, Ohio, and a son, Frank E. Matthews, district manager for Dun's at Winnipeg.

Mr. Matthews was born at Maple, Ont., and had been 43 years with the firm. He first began work in Toronto and was afterwards manager at Memphis, Tenn. He was again transferred to Toronto, where he has lived for the past 37 years. He was a member of the Metropolitan Methodist Church, and was a Liberal, altho never taking a prominent part in politics. He was a member of the National, Lambton Golf and other clubs. His work was such that it took him all over Canada. He was well known and highly popular in the business world, having gained an intimate knowledge of mercantile conditions. He had many friends all over Canada.

### REVENUE BALANCES EXPENDITURE.

Hon. A. J. Matheson, provincial treasurer, expects the receipts and expenditures of the province to about break even, when all the figures are totaled up. The fiscal year ended Oct. 31.

## Wealthy Motorist to Jail Scranton Judge Adamant

### Long List of Motor Fatalities Show Need of Protecting the Public, Was Ruling of the Bench—Petition of Influential Citizens Failed to Sway.

SCRANTON, Pa., Nov. 1.—Judge Harold McClure of Snyder County, sitting here, to-day sentenced Herman Bohrens, manager of the Scranton Iron Works, to six months in jail and imposed a fine of \$100 and costs of prosecution, for running down in a motor car and killing Hayden L. Evans, a young collegian, in this city on Sept. 5 last. Young Evans was struck when he stepped from a street car at a corner.

In imposing sentence, Judge McClure ignored a petition signed by 600 prominent men of the city. In the course of his remarks the judge said: "One

### Dawn of New Era

Long-heralded, but unmarked by any demonstration, a new era in the history of the City of Toronto was ushered in last night by the official turning on of the hydro-electric street lights, and the turning off forever of the Toronto Electric Light Co.'s lights. Most of the shouting about the hydro-electric system was done long ago, but last night was also a time for real thanksgiving. Not until last night was the street lighting system an accomplished fact, working alone.

The snow that fell last night—the first of the season to whiten the ground—may be taken as an omen of good luck for the real commencement of the service.

## Rival Aviators Meet in Arizona

### Rogers and Fowler, on Transcontinental Flight, Exchange Amenities— Fowler Held Up for Repairs.

TUCSON, Ariz., Nov. 1.—Swooping down at 1 o'clock, Aviator C. V. Rogers, now on his last stage of his coast to coast flight, was greeted here by his rival, Robt. G. Fowler, who is attempting to make the transcontinental flight from west to east, and who has been held here since Monday for repairs to his machine.

The rivals exchanged their best wishes for each other's success, and Fowler hurried away to push the repairs on his machine. Rogers took on a supply of gasoline and overhauled his machine, leaving at 2:35 for Phoenix, 110 miles away.

Rogers started to-day's flight at Wilcox, Ariz., 87 miles east of here, at 11:05, making the distance in 1 hour and 55 minutes.

## LIBERALS ARE BUSY BUILDING A PLATFORM

### Definite Announcement Not Ready For Day or Two—Policy For New Ontario.

It will be Friday at least before the Liberal platform is announced. The work of shaping up the various planks on which the party will appeal to the electorate proceeded satisfactorily yesterday under the direction of the committee of fifteen and a few members of the parliamentary party. The work was carried on in the rooms of the Reform Association on Toronto-street, and by evening was practically finished. Most of the outside members left the city last night for their homes.

The task of fully completing the platform and submitting it to Mr. Rowell was left to a small committee, which will go over the whole policy with him for his approval. The leader will then sign the manifesto and announce it to the public.

### Party Not Divided.

It is a toss up whether moral and social reform measures and New Ontario proposals will get the first and important place on the platform. The various elements within the party are making it difficult to formulate a temperance issue that will harmonize with the views of all, and yet be strong enough on which to base an appeal for support.

The New Ontario delegates have wasted no chance to lay their ideas before the platform committee, and have asked that north country reforms be given prominent recognition in the manifesto.

Mr. Rowell was a decidedly busy man yesterday. What with receiving the innumerable congratulations of friends and trying to dispose of some of his professional duties, as well as keeping in touch with the platform committee, his time was more than well occupied. His acceptance of leadership has awakened a plenitude of enthusiasm in the party, especially in Toronto, and it would undoubtedly appear that a new lease of life had been given to Ontario Liberalism.

### ANOTHER HOTEL.

Since The World set forth the need of better and greater hotel accommodation for Toronto there has been considerable well-based talk of new hotels. That we will see two, or maybe three or four, large and modern hostels added to the city's list within a few months is now certain.

Enoch Thompson, Limited, told The World yesterday that they were conducting negotiations for the purchase of a \$25,000 site for a hotel. The purchasers are local men of money, who have enquired into the opportunities for dividends in serving a public want. Thompson's refusal to say where the property being bought is situated, but The World takes a guess that it is not far from the corner of Queen and Yonge-streets.

## INVESTIGATING NEARLY SCORE OF DEATHS

### Two Husbands and Three Step- Children Among Relatives With Whose Decease Mrs. Vermilya's Name is Con- nected — Photographer Made Love to the Widow.

CHICAGO, Nov. 1.—Chicago police to-day pursued their investigation into the deaths of nearly a score of relatives and acquaintances of Mrs. Louise Vermilya, to make certain whether the similar demises constituted only a remarkable series of coincidences as Mrs. Vermilya asserts.

Nine deaths are included in the list with which Mrs. Vermilya's name has been connected, including two husbands, three stepchildren and three roomers at boarding houses she kept. No positive evidence of crime has been uncovered. The following new facts became known to-day:

That while Mrs. Vermilya has said one of the death rosters, Richard T. Smith, a conductor, was only a boarder at her home, a former roomer asserts the two claimed previously to have been married and that they lived together as man and wife.

That while the woman told the police she had assisted an undertaker at Crystal Lake, a former home, in embalming bodies, the undertaker there denies he ever had any such experience. She gave this as a reason why she could discuss the deaths with composure.

### Made Love to the Widow.

That R. N. Brunton, a photographer, of Peoria, and a brother-in-law of the conductor, Smith, had made love to the widow, following Smith's death, to investigate suspicions he then had about the reason for his relative's demise; that the widow had told him part of her marital history, which he desires to give to the coroner.

That Smith died during convulsions and after drinking some substance, but that the doctors save the cause of death, from descriptions of symptoms given by the widow, as acute gastritis.

That Bissonette was really engaged to be married to Miss Lydia Rivard of Kankakee. This was shown by the filing to-day of the policeman's will, in which Miss Rivard was named as his fiancée. Mrs. Vermilya was a witness to the will and the police will endeavor to ascertain whether the widow had shown jealousy of the policeman.

A new coincidence developed to-day following the sudden illness of Mrs. Vermilya herself, when a sister living in the house adjoining Mrs. Mary Buchholz, suddenly became ill. Mrs. Vermilya told enquirers to-day she had never studied medicine nor sought to become a nurse, as had been reported, but that she had some little knowledge of medicine that she had acquired to enable her to aid neighbors and relatives. She insisted she was innocent.

### Deaths Under Investigation.

The deaths being looked into, follow: Fred Brinamp, first husband of Mrs. Vermilya, died on a farm near Barrington, Ill., after brief illness; Chas. Vermilya, second husband, died after six days' illness of gastritis, at Maplewood, Ill.; Florence Brinamp, 4-year-old daughter, died at Barrington; Cora Brinamp, 8-year-old daughter, died at Barrington; Harry G. Vermilya, stepson, 26 years old; Lillian Brinamp, stepdaughter, 26 years old; Frank Brinamp, son, died of pneumonia, in Chicago; Richard T. Smith, reported to be the third husband; Arthur Bissonette, policeman, roomer to whom she was engaged, died of gastritis last Thursday.

It was the suddenness of Bissonette's death, coupled with the widow's statement that he was addicted to drink, whereas members of the police force knew him as an abstainer, that decided the authorities on an investigation.

### Louis Mann as a Young Man.

The engagement of Louis Mann, the character actor, at the Princess next week will be notable not only because he comes in a new play, but also because he will be seen for the first time in a character requiring neither dial nor any pronounced change in his personal appearance.

### FURS FOR FALL WEAR.

You cannot afford to wear a cheap-looking fur. It brings you beyond the class of gaudy imitations if the fur is of the genuine. No matter how small it is, there is the quality to mark "the real thing." We particularly wish to point out that Canada is the home of the mink, the Alaska sable, the fox or fisher, and naturally these goods are cheaper and better than you might find elsewhere. So why bother with imitation furs? The Dineen Company are dealing direct with the trappers in our Northwest, and are showing some special designs made from Canadian furs in ties, mufflers, ruffs, etc. Call or write for catalogue and price list.

HAMILTON HAPPENINGS

LIBERALS WON'T FIGHT LOCAL HOUSE SEATS

Controller Cooper Will Tackle Allan Studholme—Arranging For Visit of Duke.

HAMILTON, Nov. 1.—(Special.)—The Liberal executive decided to-night that no party conventions would be held for the purpose of nominating candidates to contest the two local seats in the provincial parliament.

The dates of the Conservative conventions for East and West Hamilton have not been announced yet, but the convention will probably be held next week. Controller Cooper has decided to accept the Tory nomination for East Hamilton, and there is no doubt that he will be the choice of the party in that riding.

It has at last been discovered that, according to the statutes, the recently annexed portions of the city in the east will remain in the South-Western constituency, unless the Ontario Government can take some special action in the matter before the elections come on.

Entertaining the Duke. A reception committee of the city council held a public meeting in the Board of Trade rooms today to receive suggestions as to the form of entertainment to be provided for the Duke and Duchess of Cornwall.

Traveling Man Arrested. Richard Glasford, who is said to be a commercial traveler from Toronto, was taken into custody to-night on a complaint laid by Chas. King, a Chinese laundryman, charging the Queen City man with obtaining laundry under false pretenses.

Increase in Building Permits. Building permits in Hamilton for the month of October totaled \$285,000, which is an increase of \$18,770 over the corresponding month last year.

Got the Wrong Man. David Shapiro, the King Street east tel. boy who was arrested here Sunday night, charged with violating the immigration laws of the country, and who was taken to Bridgman's Monday to be deported, returned to his home to-day after having satisfied the immigration authorities at the border.

CREW OF THE CORONET MATHMATICAL FACULTY FASTED FOR 26 DAYS EXISTS IN THE BRAIN

Leader of Religious Mariners Up Left Inferior Angle of Forehead Where Development Occurs—Ingenious Theories.

PORTLAND, Me., Nov. 1.—Rev. Frank W. Sandford, leader of the Holy Ghost and U.S. Society of Shiloh, was held at a preliminary hearing to-day for trial before the December term of the U.S. court on a charge of causing the death of Chas. Huxley, on board the yacht Coronet, by failing to provide proper and sufficient food when the yacht put to sea.

That a distinct mathematical faculty exists in the brain, was one of the conclusions of Monsieur Hadamard, professor of the faculty of sciences, Paris, who gave an interesting address on "The Psychology of Mathematics," at the physics building of the University yesterday afternoon.

## For Buick Oil Company Stockholders

Standard contracts with Buick for 1,000,000 barrels more oil

### READ this Telegram

The Buick Oil Company's product is sold to the STANDARD OIL COMPANY at 45 cents to 50 cents per barrel, which is from 15 cents to 20 cents above ruling prices because of the superior quality of the Buick Oil, and also because the STANDARD COMPANY can depend upon regular daily deliveries into its pipe lines of about 4,000 barrels.

### EXPERTS VINDICATE ENGINEER FELLOWES

Report is Said to Verify His Statements That Water Waste is in Houses.

In a few days the report of the board of water experts, who have been examining conditions in Toronto, will be submitted to the city, and it is said that the result of the investigation will have the effect of clearing C. L. Fellowes, the waterworks engineer, from the charges which have been made against him. It is averred that the waste of water which has been reported in the city has not been through the mains, as has been charged, but in the residences, as Mr. Fellowes declared. The examiners have found, it is stated, that little residential districts where the water is not used between midnight and 5:30 a.m., there is a large flow of water. When the separate services were cut off, there was no flow of water, showing conclusively that the waste was in the residences, and that the mains were tight.

### O.I.C. DEAL STILL ON

Negotiations Proceeding for Scarborough Property—Woodbine—Unsettled.

Secretary of Secretary W. P. Fraser of the Ontario Jockey Club, as to the correctness of the report that they had sold their big property on the Kings-ton-road, just this side of the Half-Way House, elicited the information that the announcement was a little premature, that the deal was still on and would not be closed for a few days yet. J. W. McNab of Belleville is the prospective purchaser of the 247 acres, which would be cut up into building lots. The price of \$200,000 mentioned is a little high, it is believed. The Jockey Club have not disposed of the Woodbine, nor are they likely to do so until the winter season of passage of a big tract of land north of Long Branch was done to protect themselves from the much higher realty figures that will prevail when they find it necessary to move from the Woodbine. If any one else were to come along with a good offer for the Long Branch property, they would not be likely to receive, so it is believed.

### C.P.R. EXPRESS IN COLLISION

Calgary, Nov. 1.—When it ran into an open switch at Wexsex, five miles north of Crossfield, this morning, at about 2:30 o'clock, the express that left here at midnight for Edmonton, collided with a southbound freight, and Fireman Tom Currie of Calgary, of the passenger train, was killed, while Engineer Houston of the same train was severely scalded, and J. Carson, baggage man, and a brakeman named Parsons, were injured. All the members of the crew were Calgary men. None of the passengers were injured.

### OCEAN TRIP IN VAIN TOO LATE TO TENDER

English Engineer Arrived to Bid on Tubes—Tenders Opened To-day.

After coming all the way from England to prepare a tender on the proposed subway system, Capt. Yates of the firm of Perry & Co., London, arrived just in time to find that he was too late. He appeared before the board of control yesterday and asked for an extension of time. To-day is the day decided upon to open the tenders, but he wanted them held over. He will appear before the board this morning, but it is hardly possible that any delay will be granted. In all seven tenders have been submitted. More may arrive by mail before opening time. Capt. Yates said that his firm had built 25 miles of subways in London, Eng., and they would like an opportunity to tender on Toronto's subway. Unfortunately they had not heard of the matter very long ago. He asked for 14 days in which to prepare a tender.

### CHINESE RAID A FIZZLE

Red Tape Saves Celestials, Who Indulged in Fan-Tan.

Magistrate Danson refused to countenance the alleged action of the police in promising immunity to stool pigeons who entered and secured evidence against the Chinamen charged with running a gambling house at 190 York-st. and in the seizure by other than the chief or deputy chief under a search warrant. Holding that the raid had been illegally made, the magistrate refused to admit the evidence of the police, and the case went on with the evidence of stool pigeons. This was not sufficient to go on with his worship, and the case was dismissed. The magistrate closed by instructing the police to try to get their evidence otherwise than by promising to let some of the gamblers off.

### Gadski and the Symphony Orchestra

Gadski, in magnificent voice, was the superb attraction which filled Massey Hall last night at the third concert of the Toronto Symphony Orchestra. When it is said that the orchestra was in its best form and that the house was entirely filled with an enthusiastic musical appreciation audience, it is scarcely necessary to add that the Wagner night was a complete success. It must be a matter of great satisfaction to the patrons of the orchestra as well as to Frank Weisman, the conductor, to find that such studies have been made and the ground held year by year, and that once more a notable step forward has been taken. The "music of the future," used to be regarded as the noise of the present, but the musical public have long since passed that stage of inappreciation. Madam Gadski is admittedly one of the very greatest of living Wagnerian interpreters and her singing of Elsa's Dream and the glorious aria from Tannhauser bewitched her auditors. After two recitals she repeated Elizabeth's aria and two more recalls followed. The great singer was also rewarded with a huge bouquet of costly orchids, a most effective decoration for Madam Gadski as she sang. She was gowned in white satin with gold fringe and a cabbage green shawl draped falling low behind and partly covering a semi-skirt of darker material, a dignified and graceful costume. She wore a diamond tiara studded with pearls, a pendant and two medals. But her queenly song in the Immolation scene from "Die Gotterdammerung" reached the acme of musical and dramatic expression. This, under the tremendous strain, Wagner's music exacts, is a lofty achievement. The Hindu practice of Suttee is generally condemned, but in ancient European tradition it stands for the noblest self-abandonment of which human devotion is capable. The ecstasy of loving surrender in which Brunhilde makes her wifely sacrifice is not merely spiritually symbolic, and the intensity of exalted passion, which Wagner reveals in his music was amply interpreted by the singer. The orchestra was marvellously good. Mr. Weisman advanced in breadth of treatment as well as in executive adequacy. The orchestra has done few things more finely than the "Flying Dutchman" overture. There was fine control and sufficient power. The Lohengrin Prelude is so delicately ethereal the impression it leaves than one always expects the performance to be more pianissimo than the most delicate strings seem capable of, but the thrill and uplift of the Graft motive was finely conveyed. The Gotterdammerung music was grandly given also, but the triumph of the orchestral program was the Tannhauser overture. If one could bring his life work to a triumphant close the rest might well be silence. E.S.S.

### COST OF NEW HOSPITAL TO REACH \$3,000,000

Another \$900,000 Needed For Completion—Will Take About 12 Months More.

Final estimates as to the cost of the Toronto General Hospital, which is now being constructed at University-ave., place the cost in the neighborhood of \$3,000,000. It will probably be finished within twelve months. Before long the hospital board will call on the generosity of the citizens for \$900,000, and with this sum the whole structure will be completed and furnished. The original estimates called for much less than \$3,000,000, but numerous changes for the better have been made. Instead of a 400 bed hospital, it will have 600 beds. In many other ways it will be much better than was at first planned. When it is finished, it will be a building of which all Toronto will be proud. J. W. Flavell said last night that before the place is finished, the board will ask the public for \$900,000. They will need about that sum to complete it, he said, and they expect to set it before the city council soon. Considerable generosity has been shown by the citizens with regard to the hospital, but there are some who have not been heard from. Their opportunity will come soon.

### LONGSHOREMEN STRIKE

Portland, Me., Nov. 1.—In pursuance of last night's vote of the Portland Longshoremen's Benevolent Society, about 300 longshoremen quit work to-day. Steamship officials declared that they would not comply with the demand for an increase of wages of \$3 an hour, and for an hour for work after midnight. The sailing of the steamer Weichman from Liverpool, due shortly to the Central Hotel, St. Thomas, has been cancelled owing to the strike. Some of the steamship officials said that the trouble might result in a complete discontinuance of the transatlantic service to Portland this winter.

### BURNED TO DEATH

Fort William, Nov. 1.—John, the 4-year-old son of J. H. Garner, principal of the Orden-st. school, was burned to death in the basement of his home here about noon to-day. His infant sister was also badly burned, but may recover. Little John is thought to have started the fire in some papers during his mother's absence next door. When the mother returned she could not rescue the children because of smoke and flames.

### Instant Relief for Sore Feet

Sore Feet, Tender Feet and Swollen Feet Cured Every Time. TIZ Makes Sore Feet Well No Matter What Ails Them.

Policemen all over the world use TIZ. Policemen stand on their feet all day and know what sore, tender, sweaty, swollen feet really mean. They use TIZ because TIZ cures their feet right up. It keeps feet in perfect condition. Read what this policeman has to say: "I was surprised and delighted with TIZ for tender feet. I hardly know how to thank you enough for it. It's superior to powders or plasters. I can keep my feet in perfect condition. Believe in my earnest gratitude for TIZ. I am a policeman and keep on my feet all day."—Emory Harrell, Austin, Texas. You never tried anything like TIZ before for your feet. It is different from anything ever before sold. TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous excretions which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and gives the feet—your feet. It draws your face in pain, and you'll forget about your feet. TIZ is made only by Walter Lathrop Dodge & Co., Windsor, Ont., and is for sale at all druggists at 25 cents per box.

### GAELIC LEAGUE OFFICERS

Conducting their proceedings for an hour in good native Irish, the Gaelic League met at Foresters' Hall last night. A number of Irish dances were indulged in, conducted by C. H. Devine. The first of a series of papers on Irish history of the period before the coming of St. Patrick was read by Prof. J. S. Kenny. Music and Irish songs were furnished by Misses Breen and Carron. Officers were elected as follows: President, A. T. Delany; secretary, C. H. Devine. Meetings are to be held on the first and third Wednesdays of each month.

### Need Another Y.M.C.A. Campaign

BRANTFORD, Nov. 1.—Tenders received for the new \$100,000 Y. M. C. A. building here are so high that the building committee in charge of the work has been forced to have the specifications altered. A delay will result in the completion of the building, as alterations will be made to the interior finish of the structure.

### Headaches Over the Eyes Mean Frontal Catarrh

APT TO GET INTO EARS, CAUSING DEAFNESS, OR TO REACH THE LUNGS AND END IN CONSUMPTION.

You Can Cure Catarrh in Any Stage by Breathing the Healing Balsamic Fumes of Catarrhose, and Here is Proof.

Mr. Eric Berault, a young gentleman who has lived for years in St. Petersburg, Que., inherited catarrh from his mother. The disease spread through his system till he was a physical wreck. "As a child," said Mr. Berault, "I was prone to an ulceration of the mucous lining of the throat and nasal passages. I grew pale and emaciated, lost all desire for food, and got into such a dreadful condition that my friends said that catarrh was fairly eating me up. Every organ of my body seemed affected, and the doctor said it was the first stage of consumption. He advised Catarrhose and I inhaled it ten minutes at a time every few hours, and was rewarded in a few days by a wonderful improvement. "Catarrhose pleased me and the doctor so well that I used it continually, and took Ferruzze Tablets after each meal to build up my strength. In about three weeks I was quite recovered, and the doctor says no remedy but Catarrhose could work such a miracle. "Everyone in town knows I was just about dead with catarrh, and my cure is an evidence of what Catarrhose can do. It is a pleasure to recommend Catarrhose. "Two months' treatment, large size, price \$1, and guaranteed. Small size, 50c, all reliable dealers or the Catarrhose Co., Buffalo, N.Y., and Kingston, Ont. Beware of dangerous substitutes and imitations for 'Catarrhose'.

### NEW STATION AT ROSDALE

It is rumored that a new suburban station will be built by the Toronto Northern somewhere along the hill adjacent to the present Rosedale station. The two Canadian Northern lines, both pass the Rosedale depot, and connections could easily be made.

### ROBBED GAS COMPANY

Charged with theft of gas from the Consumers' Gas Company by piping around the meter at his house at 714 Woodbine-ave., Theo. Chamberlain, dairyman, was committed for trial from police court yesterday morning, when a demonstration of how he had connected a rubber tube for the purpose of leading his gas supply around the meter was shown to the magistrate. The theft was discovered by the fact that while the gas bills were phenomenally low, the lights were burning as high as ever.

### Not a Criminal Case

Judge Winchester discharged the case in the county criminal court against Cecil W. Sockett, who was charged with obtaining money by false pretences from the Evans Tailoring Co., for whom he was traveling agent. His honor considered the case was one for the civil courts.

### Leeds Liberals

BROCKVILLE, Nov. 1.—(Special.)—The Liberals of Leeds have arranged to hold a convention at Delta on Saturday, to arrange as to whether Hon. W. T. White of Toronto, will be allowed to sit for the constituency without opposition, as well as to select a candidate for the riding to contest the provincial election.

ST. PAUL'S POOL TOURNAY Record Number of Entries, With Games All Closely Contested. The first round of the St. Paul's C. L. and A. pool tournament opened this week with the greatest number of entries of any tournament run by this association in years. The games were all closely contested, and much praise is due the committee for their good judgment in the handling of the different contestants.

Judging from the class shown in the first round, St. Paul's should make a great showing in the Inter-Catholic Pool League during the coming winter. The following are the results for the first round, with three games yet to be played: F. Hird, 25; Hummel, 15; W. Wright, 25; J. Smith, 15; D. Hallman, 25; J. Reddall, 15; J. Macdonald, 25; B. O'Brien, 15; J. Cooke, 25; Joe Well, 15; C. McCabe, 25; W. Gallagher, 15; C. O'Brien, 25; J. Mitchell, 15; R. Hester, 25; T. Evans, 15; W. Mack, 25; W. Wickert, 15; P. Rennie, 25; G. Arthur, 15; E. Murphy, 25; P. Garigan, 15; F. Reddall, 25; P. Boland, 15.

SPLIT HEATS AT DUFFERIN PADDY WINS PAGE IN FIVE

Shaun Rhue Lands the Trot—Named Race to Be Finished This Morning.

The third day's racing of the Toronto Driving Club proved a bumper. There were three events on the card, and they were all hotly contested.

Paddy McKinley took the deciding heat in the 2 1/2 mile race after a terrific battle all the way. Dimity went to the front and stayed there till the half-mile pole was reached, when Paddy took command and never let go.

Nettie Ethson, who had had racing luck. She got all the pockets, and never could get clear sailing, or the result might have been different, as the heat was won in only 2:54.

In the race for named trotters, Shaun Rhue won out after four heats, being the first to Axle Audubon. Dalmas was the contender all the time, and showed a great flight of speed thru the stretch.

In the named race for trotters and pacers there were five heats raced, and it is still unfinished. Sam Hal has two, Crandell two and Stroud Boy one. It will be finished to-day at 10:40 o'clock, rain or shine. Summary:

Named trot, half-mile heats: 1. Paddy McKinley (McGriff), 2 1/2 to 1, 1 to 1; 2. Dimity (Noble), 2 1/2 to 1, 1 to 1; 3. Nettie Ethson (McGriff), 2 1/2 to 1, 1 to 1; 4. Dainty (Noble), 2 1/2 to 1, 1 to 1; 5. Sydney Mack (Smith), 2 1/2 to 1, 1 to 1; 6. Time—2:54, 2:54, 2:54, 2:52, 2:55 1/2.

Named race for trotters and pacers (unfinished): 1. Sam Hal (Rattenbury), 4 1/2 to 1, 2 to 1; 2. Hal Crandell (Meade), 7 to 1, 1 to 1; 3. Stroud Boy (Irving), 1 3/4 to 1, 3/4 to 1; 4. Prince's Eleazar (Fleming), 2 1/2 to 1, 1 to 1; 5. Major Direct (Sheppard), 5 to 1, 3 to 1; 6. Little Jim (Williamson), 5 to 1, 3 to 1; 7. Angus Mack (Williamson), 3 to 1, 1 to 1; 8. Time—1:19 1/2, 1:19 1/2, 1:19 1/2, 1:19 1/2.

Can't Finish Intake

Because they are engaged on intake repairs the contractors for the extension of the intake pipe have informed the waterworks department that they cannot do that job this year. It will be done in the spring, they say. The intake repairs will probably be done by December, but the winter will prevent anything else being done.

MORE WATER METERS? ALDERMEN IN DOUBT

But They All Seem to Agree on Charging More For Hydrants.

If the city council passes a decision of the civic sub-committee on water rates, made yesterday, the city will, in connection with the payment for hydrants, take \$71,925 more out of one pocket and put it into another than it would otherwise have done.

As it now stands, the full cost of the water, etc., used by the fire department is not accounted for, but is charged unequally to other consumers and not to the general tax.

Ald. Chisholm's motion to submit the following question: "Are you in favor of constructing water mains as a local improvement?" to the ratepayers to vote on in January, was passed and sent on to the council.

It was decided not to charge a frontage tax, as was proposed, on Friday at 2 o'clock the committee will meet to discuss the five-cent per 1000 gallons meter rate.

Hydrant Charge Too Small. Controller Spence's scheme to rearrange the collection of waterworks revenue is as follows, showing how it should have worked had it been in force last year:

In 1916, 12,777,215.632 gallons of water were pumped, of which 3,941,861,000 gallons were registered by meters. The expenses for the year were \$736,551. The revenue was \$743,925, making a surplus of \$7,374. The revenue included the \$15 paid by the city for the year for water for 454 hydrants. The statement had been made at a convention of experts that cities should pay \$47 and some cents per year for hydrants. Had \$30 been charged for hydrants the surplus would have been \$50,903; if \$40 had been levied it would have been \$128,038.

The revenue for 1917 would have been, had the proposed frontage tax been in force, \$745,934. It would have been collected as follows:

4,700,000 feet of mains, at 3 cents ..... \$141,000  
Tax at 40 cents per room ..... 335,979  
Meters at 50 per 1000 ..... 152,955  
Income from the corporation ..... 176,727

Total ..... \$745,661  
That would have given a surplus of \$3083, which could have been increased to \$54,408 by charging \$40 per year for the hydrants.

Manufacturers Favored. Ald. McCarthy declared that the city was pumping water to the manufacturers for less than it cost to produce it. The waste thru the mains had been underestimated, he said. There was a tremendous waste.

Ald. Maguire did not like the policy of discriminating as to the amount to be paid per 1000 gallons. He thought brewers, manufacturers, laundries, etc., should all pay the same rate.

Ald. McCarthy thought that if meters were installed all over the city the cost of supplying water would be cut down immensely.

"If meters were put on the city would either use vastly less water or pay vastly more for it," said Controller Spence. He thought it would cost about \$1,000,000 to meter the city. If meters were put on the citizens would not waste water and it would save a great deal in rendering unnecessary enlargements of the plant.

Ald. McCarthy said that he had been informed on good authority that within ten years the cost of installing meters would be saved twice over.

Partial Metering. Controller Spence suggested that partial metering would do the work. His idea was to put on meters only where it was found that the water was being wasted. He thought \$500,000 would put in enough meters to eliminate the waste.

In presenting his motion to charge \$30 apiece for the hydrants instead of the suggested \$40, Ald. McCarthy said he thought that, if assumed, by charging \$40, that the fire department used one-fifth of the water pumped was too much.

Controller Spence did not think that one-fifth of the cost of water supply was too much to charge for fire protection.

Vaniman's Venture. ATLANTIC CITY, Nov. 1.—Test flights of the big airship Akron, which will attempt a journey across the Atlantic Ocean to Europe some time this month, will not be held until Friday or probably Saturday, according to Melvin Vaniman, the head of the venture expedition. If the wind is favorable a flight up and down the beach from the inlet to Longport, a distance of 10 miles, may be attempted Friday.

The start on the transatlantic trip is expected to be made about Nov. 17. London, Detroit, Chicago, Canadian Pacific Way.

The shortest mileage and quickest time between Toronto and Chicago is made by the through trains of the Canadian Pacific leaving Toronto 8 a.m., 4:30 p.m., 7:30 p.m., arriving Chicago, 9:45 p.m., 1:15 a.m. and 3:30 a.m., respectively. Sleeping cars, standard coaches and dining cars. Trains run via Galt, Woodstock, London, Chatham, Windsor, Detroit. Connections at Detroit and Chicago for all United States points. Sleeping car reservations and all information at City Ticket Office, 15 East King-st., or Union Station (north ticket window).

Low Water Delays Navigation. MONTREAL, Nov. 1.—As a result of the state of low water in the lift five steamers and eight barges, all of them carrying capacity cargoes of grain, are held up unable to proceed to Montreal.

A session state of congestion exists and a local transportation official prophesies that there will be half a million bushels of grain unable to get to Montreal if matters do not improve before the end of the present week.

Southam Leave London. LONDON, Oct. 31.—Manager Smith of the Southern Printing and Lithographing Co. announced today that the firm had accepted the offer of the Town of Stranoc of a \$30,000 bonus and that Southams would leave London.

Simply Delightful COFFEE

—A Coffee you can enjoy every meal, every day  
—A Coffee, so wholesome, fragrant and delicious that when you drink the first cup, you will say "I never knew how delightful Coffee could be"

We also give you, free, a \$1.30 French Drip Coffee Pot so you can make this Coffee properly.

To get to the heart of the Coffee question, you must do as we did—get to the heart of the Coffee berry.

The Coffee berry is protected by Nature from the insect world, by a tough inner shell or coat. It is this shell, roasted and ground up with ordinary Coffee, that causes indigestion, headaches and other ill-effects so common with Coffee drinkers.

Yet there is no other beverage in the world so thoroughly wholesome, healthful and delicious AS GOOD COFFEE, PROPERLY MADE.

Dalton's French Drip Coffee

is this good, wholesome, delicious Coffee. By our special process of grinding, the bitter tannin-bearing shell is removed. We take out all the injurious part. We leave the meat—the heart—the flavor—the aromatic essences that mean so much to Coffee-lovers. We give you a Coffee of the highest grade—healthful, delicious, free of chicory.

The Percolator, or French Drip Process, is the only way to make really good Coffee. After considerable search, we have found and secured the sole rights for a practical, economical, reliable French Drip Coffee Pot.

So, here is what we do in order to give you a chance to test Dalton's French Drip Coffee and make it as good Coffee should be made.

We have put up Dalton's French Drip Coffee in two blends—MILD and STRONG. We know that one of these two delicious Coffees is just what you have been looking for.

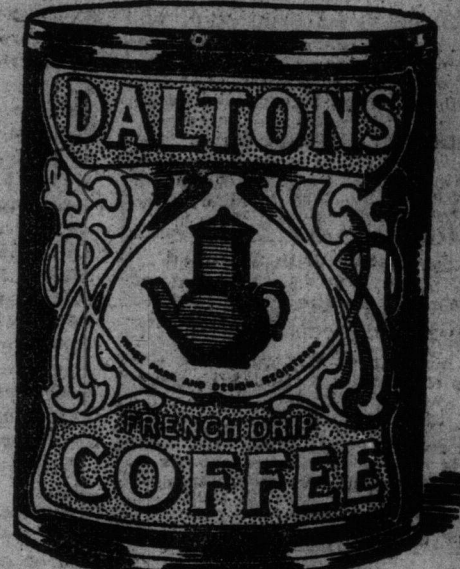

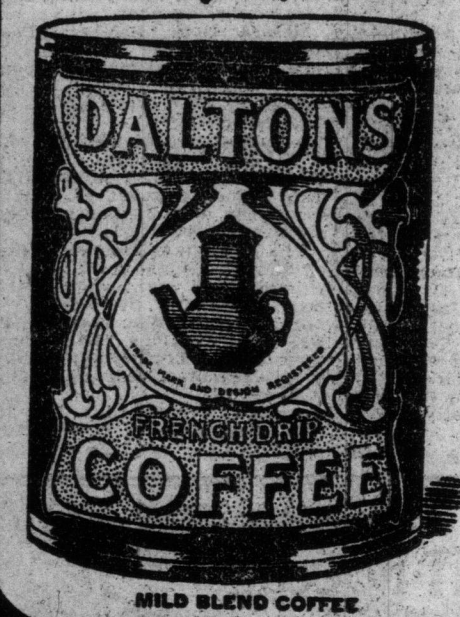

But neither you, nor we, know which you will prefer. We want you to try them both. So we will give you a Dalton's French Drip Coffee Pot (worth \$1.50) with your first order of one pound each of Dalton's MILD Blend and STRONG Blend Coffee at 40c. a pound. This is not a premium, and the Coffee pots are not for sale. They are worth at least \$1.30 but we present them free in order that you may see just how good our Coffees are and test them under proper conditions—they are never sold in bulk.

Special Introductory Offer

We feel so sure that you will find either Dalton's Mild Blend or Strong Blend French Drip Coffee just the Coffee which you have been looking for, that we have authorized your Grocer to give you one of these handsome pots (worth \$1.30) absolutely Free with your first purchase of a large tin EACH of Mild and Strong Blend at 50c. You buy two tins of our Coffee—one of each blend to give it a fair trial and we give you the means of testing it FREE, satisfied that you will use nothing but Dalton's French Drip Coffee thereafter.

DALTON BROS., TORONTO.

Sold in 25c. and 50c. tins. If by any chance your grocer is unable to fill your order, write us mentioning his name and we will see that you are supplied promptly.

If your Grocer will not supply you, enclose \$1 and we will send carriage collect

SLUMP IN BUILDING

Value of October Permits Shows Decrease of \$1,716,000.

There has been a falling off of the building permits issued last month in comparison with those issued in October, 1916. In October, 1916, there were \$2,914,850 worth of building permits taken out while in October this year they amounted to only \$1,798,844, a difference of \$1,116,006.

In October, 1916, permits for the construction of 882 buildings were taken out, while last month only 694 were taken out.

Notwithstanding the falling off for the last month, this year so far is ahead by \$2,572,026 of last year up to the end of October. The figures of the year of 1916 up to Oct. 31 were \$17,734,453, while this year so far they are \$20,306,487.

The number of buildings for which permits were issued from January 1 to October 31 in 1916 were 5194, while in the same period this year they were 6553. The number of new buildings erected in that period were, in 1916, 730, and in 1917, 876.

Another "Largest" Liner.

The huge White Star liners Olympic and Titanic, which will succeed the Lusitania and Mauretania, before the year is out, as the largest ships in service, will hold the distinction for only a short period, and then will be superseded by the Europa of the Hamburg-American line.

CHARGE FALSE PRETENCES.

CHATHAM, Ont., Nov. 1.—A warrant has been issued for the arrest of E. F. Parker, wagonmaster for the Michigan Sugar Co., who is charged with Isaac Coffel and John Thackeray, farmers, with securing quantities of beets by false pretences.

The complainants out of 900 pounds in one load and 885 pounds another by underweighing them. In 1916, farmers claim they were not allowed to enter the weighing room, but were told by Parker that according to custom they must remain on the wagons unloaded, before and after they had been weighed.

Some Take Longer.

"There goes our oldest inhabitant," said the native, "and he never did a stroke of work in his life. He doesn't look to be 96, does he?"

"Well, some people are so lazy it takes them a long time to grow old," remarked the stranger.—Philadelphia Record.

One Cent Compounded A. D. 1.

If in Anno Domini I, a man had then desired to be hailed in a later century as the universal benefactor of the world, he could have achieved his desire by investing the equivalent of a modern American cent at five per centum compound interest per annum, the interest to accumulate by year for the benefit of future generations.

SNAKES SEIZE A HOME.

Theodore Herman, a prosperous wheat rancher living two miles north of Beloit, has been driven from his home by a colony of blacksnakes that have taken possession. The family is living with Mrs. Herman's parents, Mr. and Mrs. Thomas E. Graves, until some method of ridding the house of pests is found.

The invasion of the snakes occurred Monday. Mrs. Herman placed her baby in a cot-car while she attended to the household work. She heard the baby crying and prattling. Thinking that some of the neighbors had called and were amusing it, the mother stepped into the room to see two big blacksnakes drinking milk from a bowl in the baby's lap.

Four more snakes were hanging over the baby and started for the open. She reached in a box to get her bonnet, but clasped her fingers around another snake. When Mrs. Herman returned home at night, his wife told him of the household work. She heard the baby crying and prattling. Thinking that some of the neighbors had called and were amusing it, the mother stepped into the room to see two big blacksnakes drinking milk from a bowl in the baby's lap.

Greenland is Green.

When you were a boy you used to sing "On Greenland's Icy Mountain"—well, the country is simply a vast nest of green mountains covered with snow, and ice and glaciers. These are known as live and dead glaciers; the dead glaciers are a mass of snow and ice which has accumulated between gorges for a million years or more and have become so condensed that you could not penetrate the mass except by a steel drill.

The live glaciers are those that break off and fall into the waters and become floating masses of ice, often inflicting damage to ships. Where the sun can strike a spot the trees, which are of a dense growth but small, wear the most beautiful green.—Engineering Magazine.

Inspiration from a Fly. It was Mendelssohn who first put false notes in the orchestra, and that composer's incidental music to "A Midsummer Night's Dream" is surely the happiest accompaniment to Shakespeare's play.

PUBLIC AMUSEMENTS

Viola Allen at the Alexandra. Mr. Louis N. Parker, who has written many daintily attractive things for the stage, now turns to a love romance in which there are many clashing of steel, wars and rumors of wars, the ringing blow of the mallet, the clang of the battle-horses' hoofs, and the brave deeds of fair women. For subject, Mr. Parker has gone to the fertile field of Coventry, well remembered for its favorite legend of the Lady Godiva, who, to save her townpeople, rode naked thru the streets. Mr. Parker has taken this legend and drawn from it a story dealing with Countess Dorothea of Coventry, or, as the Saxons called her, Goda—or Goda's gift. This countess, to be played by Miss Viola Allen, is the central figure in "The Lady of Coventry," a woman with an infinite capacity for loving and the good fortune to see her affections worthily bestowed.

On Monday Miss Allen and company will present the new play at the Royal Alexandra, continuing the remainder of the week. Liebler & Co. have provided for Miss Allen with an excellent company, and an elaborate and artistic production.

Altho Louis Mann does not utilize a dialect in his new play, "Elevating a Husband," the character of Charles Sample, which he plays, has such a distinct individuality that it stands out as a most realistic creation. Sample is a young man brought up on the east side of New York City. Despite his illiteracy he is a shrewd business man, and wins financial success.

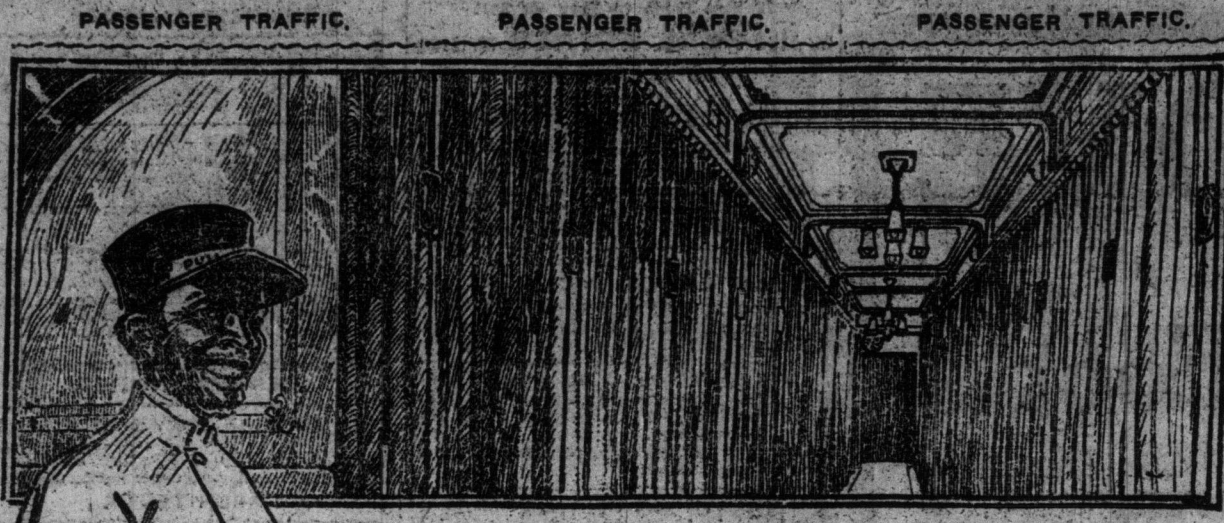

Thurston, upon whose young shoulders Keller so graciously threw the mantle of magic in his retirement from public life, will make his annual visit to the Grand next week with a program of new and startling mysteries that will re-echo the praise that followed him last season. This season Thurston will offer among his many new mysteries four remarkable creations, "The Spirit Paintings," "The Phantom Piano," "The Indian Rope Trick," and last season's sensation, "The Great Abbott-Detroit '20' Auto Mystery." His performance will prove a rare evening of enjoyment, substantiating the prediction of Keller, who claimed that Thurston would be the greatest magician the world has ever seen.

At Shea's Theatre next week the headline attraction is the ever-appealing Walter C. Kelly, who has not been seen in several seasons by Shea-goers, this being his first appearance here since his European success. Mr. Kelly has added a number of Irish stories to his repertoire and those who have heard him elsewhere this season say that he is better and funnier than ever.

The special feature for the week will be Taylor Granville's "Hold On," a romance of the southwest. This is a notable scenic and mechanical production. Included in next week's bill are Nonette, Sam J. Curtis & Co., Salvo, Cocoris and Dixon, the Robert du Mont Co., and the Kinetograph.

"The Ducklings" at the Star. The road to happiness leads toward the Star Theatre, where the Ducklings Burlesques play next week. The concluding burlesque is entitled "The High Life Girls at Beauport Beach." Charles Boyle and Maudie Hughes are the real top rounders and they are surrounded by a capable company of vocal artists. Marge Bennett will introduce for the first time in this country a new dance, "The Eagle Rock," and it is said to be genuinely clever and well executed. There may be other good shows that come over this circuit, but none that are better from a box office standpoint, and results are what count.

Imperial Russian Ballet. Local music lovers and theatregoers are congratulating themselves on the good fortune that is theirs in the approaching brief visit of the All-Star Imperial Russian Ballet. This most brilliant aggregation of Russia's dancing artistry was brought to America largely thru the influence of the directors of the Metropolitan Opera House, New York. It is sent across the country by special arrangement with the Metropolitan Opera. Viktorio, the greatest star, who is the ballet's artistic director, and so on.

LOCAL OPTION FIGHTS

Temperance Workers Expect to Add Much Dry Territory. The temperance forces of the province are again marshaling their strength for another attack upon liquor traffic in Ontario, and present indications point to a large number of local option contests, voting to take place on next New Year's Day. More than 50 per cent of the 822 municipalities in Ontario are already dry.

EXIT BUFFALO BILL. RICHMOND, Va., Nov. 1.—Col. William F. Cody, "Buffalo Bill," tonight, retired from public life to winter quarters and his Indians will return to their homes in what is left of the Redman's land, while "Buffalo Bill" intends to spend his remaining years in Wyoming. Big Horn, where he helped to create American history. So far as public exhibitions are concerned, he has shot the ashes from the last cigar and chased the last Indian.

HEWIGILL OUT ON BAIL. Stephen Hewigill, charged with manslaughter in killing a Chinese boy with his motor car, was yesterday admitted to bail by the attorney-general. The bond is \$10,000 and Harry Magee is the bondsman. Ball had been refused by Magistrate Denison and by Mr. Justice Clute. Mr. Hewigill was released from the jail, where he spent Tuesday night.

Lynchers Indicted for Murder. LAKE CITY, Fla., Nov. 1.—Charged with participating in the lynching of six negroes here on May 21 last, Samuel Ward and John Atkinson of Tallahassee were indicted today for murder. A reward of \$5000 has been offered by the state for the apprehension of the persons who took part in the lynching.

SIX VESSELS WRECKED

On Labrador Coast, including Dr. Grenfell's Yacht. BOSTON, Nov. 1.—The severe October storm which swept northern waters badly damaged the fishing fleet, according to a letter from Dr. Wilfred T. Grenfell, the missionary physician, written at Red Bay, Labrador. Dr. Grenfell writes that six vessels were totally wrecked, including his own costly auxiliary yacht Andrew McCooch, which was given to the Labrador mission by Princeton University. The other vessels lost were schooners, four of which foundered at Lewis Bay. The crews of all the vessels escaped.

Porcupine Issues Start New Month Trend is Buoyant

Market in Optimistic Mood And Sharp Advances Are Made

Porcupine Issues Turn Strong Under Short Covering Movement—Sharp Advance in Beaver.

World Office, Wednesday Evening, Nov. 1. An all-round advance in buoyancy developed in the mining exchanges today, the new month getting off to a good start, with advances shown almost throughout the whole Porcupine market.

The public demand for the gold mining securities showed up better than its usual wont, the outside speculative movement being of a broader nature than customary. It was also apparent that offerings were held a little firmer, and this resulted in the market being swept pretty well bare of stock except at advances.

The slightly easier trend which was observable in certain issues during the session yesterday had entirely disappeared at the opening this morning, and a definite firmness was observable. This was also maintained practically throughout the whole day, no material disposition to liquidate on holdings being in evidence.

In the big issues the only feature was supplied by Beas, which developed more buoyancy than in a long time. The shares sold as high as \$8 for a broken lot of ten shares, while better lots were traded in at slightly below that figure, or at an advance of some 35 points for the session. Hollinger was firmer also, but here the movement was less pronounced.

The market throughout was in an optimistic mood, and sentiment was still being improved. Some of the short covering operations, but it was also readily apparent that there was an increased public demand, and this was expected to result in a continuation of the movement from the day's level.

New "Curb" Secretary. Franklin Leonard, Jr., has been elected secretary of the New York Curb Market Association to succeed the late E. S. Mendonça. Leonard has been the legal attorney for the curb market for a long time.

INTERIM REPORT ON ST. ANTHONY GOLD MINE

Engineer Houston on Results of Last Summer's Developments—New Discovery Made.

The following interim report of operations at the St. Anthony Mine in the Sturgeon Lake district appears in this week's number of The Canadian Mining Journal. It is from the pen of J. C. Houston, the mining engineer in charge, and in view of recent happenings in the Sturgeon Lake district, where the St. Anthony mine is located, will prove of interest to all who follow the mining industry throughout the province.

For the full 100 feet, which we drove in the first 100 feet, it was found that the width of the drive and in places more than that, and of \$12 to \$15 in value.

Breaking Out a Stoppe. We are at present breaking out a stoppe to the south of No. 3 shaft, and have to take 10 to 12 feet in places to get all the ore. Samplings thru the mill show this to be from \$12 to \$14 ore. Further north, beyond the north end of the open cut, on the 100-ft. level, we have cut into a lens of ore in the west side of the shaft which had been overlooked by the former operators. We are driving back south on this, and find that it is paralleling the small vein on which the old operators drove shafts. It is about 6 to 8 feet wide, of \$14 ore.

Smart Overcoats

Supposing you could get warmth from a poorly made overcoat, would you wear it? A gentleman wants FIT and COMFORT. Broderick's overcoats are made from a range of materials that cannot be surpassed outside of London and New York, and the cut and workmanship leave nothing to be desired in fashion or finish.

MARKET action during the past few days denotes clearly that in most of the mining securities bottom has been reached, and higher prices may confidently be expected in the near future.

We strongly recommend the purchase of

MCKINLEY-DARRAGH — BEAVER DOME EXTENSION — HOLLINGER PORCUPINE GOLD (VIPOND)

THE PRICES ARE EXTREMELY LOW, AND PROPERTY VALUES ARE BEING ADDED TO WITH EACH DAY'S DEVELOPMENT.

We will be pleased to execute orders for the purchase of any of the active, listed mining stocks, either for cash or on margin of 10 to 15 per cent, and will accept certificates, when properly endorsed, as collateral margin against purchases.

LET US TELL YOU MORE ABOUT THESE AND OTHER HIGH-CLASS MINING INVESTMENTS. A REQUEST WILL BRING COMPLETE INFORMATION.

# New York Market Definitely Strong--Steel Up 4 Points

## Strenuous Upward Movement Carries Prices Up Sharply

### Upward Swing in Wall Street Surpasses Anything in Long Time--Irregularity in Toronto Exchange.

NEW YORK, Nov. 1.—It has been many weeks since Wall-street has witnessed an upward movement in stocks which parallels that of to-day. Beginning with the stroke of the gong, which signalled the opening of the market, stocks were carried forward steadily to the end of the day. The buying was aggressive throughout. U. S. Steel rose nearly four points to 53 3/4, passing above the figure at which it closed last Thursday, before the filing of the government suit broke the price to 50. Lehigh Valley and American Smelting each gained 4 points, C.P.R. 3 3/4, Reading 3 and Union Pacific 2 7/8. Elsewhere among the active stocks gains ranging between 1 and 3 points were general, and some of the inactive issues advanced by larger amounts. There was not a weak spot in the list.

**Cause of Upward Movement.**  
The upward movement was ascribed generally to heavy buying for the long account, owing to the unexpectedly good quarterly report of U. S. Steel and the government's attitude toward the American Tobacco reorganization plan. A secondary cause of the advance was the scramble of the short interest in cover contracts. The demand from this source was unusually extensive, but in itself was not sufficient to account for the course of prices. Whether or not Wall-street with its quickly changing moods, is in the same temper to-morrow, it is undeniable that to-day's sentiment was much more cheerful. The U. S. Steel advance indicated, to the minds of many traders, that the industrial situation was not as bad as it had been represented. The prospect of a peaceful solution of the American Tobacco Company's difficulties was seized upon as showing that the position of corporations under the Sherman law was less precarious than had been imagined. The combined effect of these two influences was to change speculative sentiment considerably.

**Trade Improving.**  
The favorable showing of the U. S. Steel report was supplemented by the weekly trade reviews which reported better conditions. Bookings for the last week were said to have been considerably larger. An important development in the attitude of the railroads, which indicated that they have nearly reached the limit of the postponement of equipment buying, was semi-official statements to the effect that new orders of the U. S. Steel Corporation last month were larger than was expected a fortnight ago, probably ranging around 37,000 tons daily.

The September report of the New York Central and the St. Paul to improve sentiment. The increase in net revenues of \$1,863,000 was unexpected. The Pennsylvania system, on the other hand, reported a decrease in net revenues of more than \$700,000. The strength of Minneapolis, St. Paul and S. M. was explained by the showing of an increase of \$300,000 in operating income last month.

**Call money touched 3 per cent.** to-day for the first time since January 19. The advance in rates was due to the requirements for November interest, and dividend disbursements, and the general retirement of many banks from the market.

**World Market.**  
Wednesday Evening, Nov. 1.—The Toronto stock market turned rather irregularly to-day, a reaction in some of the issues which have been booming of late being in evidence. Against this was set a line of further advance in some issues, so that on the whole the undertone was so mixed as to be practically without any definite trend.

The movement in some of the fractional issues was evidently put these securities into a somewhat top-heavy class. This was especially true of Rio, which slumped severely to-day, when liquidating orders put in an appearance. The price broke to 115 again after touching 117 early in the day. At the close traders were bidding only an eighth above the low for the day.

Concurrent with the selling in Rio came the announcement from Montreal that a rival company had secured a franchise in the City of Sao Paulo, and that henceforth the company would have opposition. This did not bear the imprint of authenticity, however, and was not credited in local offices.

**Irregularity Shown.**  
In contradistinction to the backward move in Rio, the action of Sao Paulo, the stier security, showed up strongly. The shares continued their advance, getting up another two points to 182, and closing strong only a quarter under the top price.

There was marked irregularity elsewhere in the list. The strong points

**Commercial Reports**

**Wheat Market Takes Rebound On Buying by Big Interest**

**Small Advances in Chicago Exchange After a Nervous Erratic Session—Corn and Oats Follow Wheat.**

CHICAGO, Nov. 1.—Wheat rebounded to-day after being for a time demoralized owing to huge sales by a house that has been identified with the leading bull clique. Reports of export flour sales at Toledo helped to cause the rally. Closing figures were as follows: 1-8c and 1-4c net lower, but firm. Corn unchanged to a shade up, oats either not altered or 1-8c higher, and hog products at 22 1/2c to 27 1/2c advance.

The recovery in wheat attracted wide attention in view of the fact that at the lowest point of the session the market had broken nearly 5c from last night and almost 8c compared with ten days ago. Between the opening and the close December fluctuated from 4 1/2c to 5c, with last sales at 4 1/2c, a decline of 1-4c net.

**Corn Decidedly Active.**  
 Corn followed the same general course as wheat, and was decidedly active, the not in such a semi-hysterical way as the more expensive cereal. Cold weather, the best possible for the conditioning and marketing of new corn, furnished reason enough for a decline, but the lower prices led to lively reinstating on the part of longa. In consequence, the market recovered the loss and a trifle was bid. December closed a shade up at 43c to 63 1/2c.

**European Markets.**  
 The Liverpool market closed to-day 1/2d to 1d lower than yesterday on wheat, and 1/2d lower on corn. Berlin closed 1/2d lower on wheat.

**World's Visible Supplies.**  
 Broadest figures show that during the past week the world's visible supply of wheat increased 6,025,000 bushels; corn decreased 630,000 bushels, and oats increased 630,000 bushels.

**Liverpool Wheat Market.**  
 LIVERPOOL, Nov. 1.—The opening depression was lessened by the weakness in America yesterday, and profit-taking by small holders resulted in a decline of 1/2d to 3/4d, with an additional decline of 1/4d following the immediate opening. Rain is reported in Australia and offers from there were on a more liberal scale at a decline and Russia continues to offer rather freely. Argentine offers are steady and private predictions are for lighter world's shipments this week other than America. During the morning there was some covering by sellers and prices showed an advance of 1/4d from the low with shorts nervous. At the close the market was bid to 1/2d below last night.

**ST. LAWRENCE MARKET.**  
 Receipts of farm produce were 1000 bushels of grain and 10 loads of hay. Barley—Fifteen hundred bushels sold at 80c per bushel. Hay—Ten loads sold at \$18 to \$23 per ton.

**Market Notes.**  
 Joshua Ingham bought 250 selected ewe and lamb hams, alive, at \$7.50 per cwt. M. P. Mallon reports receipts of live and dressed poultry, as being very heavy, and prices lower. The quality of chickens and hens is also very poor. Prices ranged as follows: Turkeys, dressed, 15c to 20c; geese, 8c to 10c; ducks, 10c to 12c; hens, 8c. Alive, turkeys, 10c to 12c; geese, 8c to 10c; ducks, 8c to 10c; chickens, 8c to 10c; hens, 8c.

**PROSPECTS OF SNOW THROUGH THE WEST**

**But Wheat Market Ignores Crop Conditions—Another Violent Flurry in Prices.**

J. P. Bickell & Co., from Logan & Fryer at Chicago.

Wheat—Following the unusual break in wheat prices yesterday there was a very nervous feeling in the trade this morning. First prices were from 4 1/2c to 4 3/4c under last prices yesterday, but followed by a fairly strong rally. A little later the support gave out. Some of the recognized brokers for the bull leaders became active sellers. This started something of a stampede in the trade and selling became general. There was not so much break in foreign markets as the trade expected this morning. Cable told of liberal offerings of Russian wheat and some help from rains in Australia. On the other hand Argentine offers of new wheat firmer and indications of smaller world's shipments for the week. Minneapolis and Kansas reported prospect of snowstorm and the latter point claimed some probability of a shut-out in wheat receipts. It is well at a time like this to note that prices have had very material declines from high point, that much of the long wheat has been sold out under excitement, and that when the present big investment in the northwest is over, the situation may look inviting to buyers.

**WINNIPEG Grain Market.**  
 WINNIPEG, Nov. 1.—The market opened to-day dull; cash demand very poor, also shorts were obliged to cover, and long holders raised the price for November one cent per bushel. The December month fluctuated 1 1/2c for the morning, but closed with a gain of 1/2c. The world's visible supply being very much under last year. The range regarding the winter crop was good all over the world, and it is evidently still de-siring export.

 The legal opinion of Messrs. Blake, Lash, Anglin and Cassels, Toronto will be furnished.

**We emphasize the following salient points of this issue:**

- (1) Value of assets as of July 1st, 1911, \$5,000,000—Consisting of Real Estate, Buildings, Plant and Goodwill, \$3,837,911.94, and Net current quick assets in excess of current liabilities, \$1,162,088.06, included in current assets is the sum of \$734,909 invested in Municipal and other bonds.
- (2) Average annual net earnings for past four years (1907-1910) \$291,719 or practically 3 1/2 times the interest on the present bonds.
- (3) An annual Sinking Fund beginning July 1st, 1916, sufficient to retire the present issue prior to maturity at a maximum price of 105 and accrued interest.

The Company has outstanding \$1,500,000 7% Cumulative Preferred Stock and \$2,000,000 Common Stock, both of which are listed upon the Toronto and Montreal exchanges.

The present capacity of the plant which may be said to comprise everything required for the building of the most modern and up-to-date locomotives, provides for a yearly output of seventy-five engines, but as each year many satisfactory orders have been declined owing to the inability of the Company to make the deliveries required, it has been decided to proceed immediately with such enlargement of the works as will increase their future output to at least double their present capacity. Therefore, it may safely be assumed that a corresponding increase in the earnings of the Company will be assured.

At the present time, the Company has a sufficient number of orders on its books to keep it fully employed for about a year, and if negotiations for additional contracts now pending are successful, the Company will have abundance of work until the early months of 1913.

The excellent management of the Company has been further strengthened by the acquisition of Mr. A. W. Wheatley as its General Manager. Mr. Wheatley is one of the foremost locomotive manufacturers in America, having, previous to joining this Company, been the General Manager of the American Locomotive Company's plant at Dunkirk, N. Y., the second largest locomotive works on this continent.

**BONDS A NON-SPECULATIVE INVESTMENT**

If there is no element of speculation in the purchase of a Bond. This does not mean that the value of the Bond is not subject to fluctuations, but that the element of risk and the chance of loss are practically eliminated.  
 Many in fact most of the Bond issues we have offered our customers in the past have appreciated in value. The demand for a certain bond, paying a good rate of interest and of arguable financial security, forces its price up in the same manner as an increasing demand forces up the price of any commodity.  
 We would like to send literature to anyone interested in this safe and profitable form of investment.

# When We Use the Word "Bargain" We Refer to Such Items as These:

There are very few of us haven't shivered at least on principle at the thought of the cold and the colder to come. Here are winter clothes that will frighten all the shivers away; they are warm, reliable materials, and even the shiver that comes with the thought of "paying" isn't encouraged; these are bargains.

Women's Winter Coats, loose or semi-fitting, variety of colors, some Raglan sleeves, patch pockets. Regular price \$15. Friday ..... **4.95**

Skirts, tweed mixtures, in brown, green, tan and grey tones, new styles. Regular \$5.00, Friday ..... **3.59**
