British Are Breaking Down German Armies on West Front

Crack is Coming and Old Significance is Attached to Objectives No Longer.

With the British Army in France, Sept. 27. — The British today put their teeth into the Hindenburg line in the Cambrai sector in a more determined manner than heretofore. The cleaning up tactics of recent days had been but preliminary to the blow launched at 5.20 o'clock this morning.

The British no longer attach the old significance to "objectives."

They are now engaged in breaking down the German armies on the western front.

Whether the final crack comes on the line of the Meuse or the Rhine Whether the final crack comes on the line of the Meuse or the Knine is not very material. The capture of places now is mainly interesting as showing landmarks of the British progress. The enemy's casualty lists count far more than recovered territory.

The battle which opened today already has broken down a long chain of formidable resistance.

London, Sept. 27.—The London Gazette announces the award of nine new Victoria Crosses to seven Canadians, one Australian, and one New Zealander. Four of the recipients are dead. The names and achievements of the Canadian recipients follow:

He was wounded whilst doing this, but refused to leave his command. Later, on the same day, his company was held up by heavy machine gun fire. Subsequently this gallant officer detected a field gun firing on his men over open sights. He immediately organized and led a 'rushing' party towards the gun. After progressing about 600 yards he was again seriously wounded. Nevertheless he continued and advanced about 200 yards more before he fell unconscious from exhaustion and loss of blood. Jo: Hartley Dewart is a bad and blind churchman if he doesn't see that prohibition and nickel swept the province and the federation twice to victory at a most critical time. You can't overcome the fifty-fifty defence when the two sides fixed it up. And Proudfoot carried it on. Later when the battalion was held up by very heavy machine gun fire he displayed much tactical skill and directed his fire with destructive results. Shortly afterwards he was rendered unconscious for a few minutes by an enemy shell, but, on recovering consciousness immediately continued to direct a harassing fire on the enemy. Zengel's work thruout the attack was excellent. His utter disregard of personal safety and confidence in himself inspired all ranks. He greatly assisted in bringing the attack to a successful end.

LITTLE need to enlarge on the features of such makes, when already they have gained "a place in the sun" with men who wear none but the best. LITTLE NEED to say that for Quality, Style and Value they stand supreme; when a glance and a feel of their texture is sufficient evidence of the fact.

Take for instance John B. Stetson's Velour at \$13.50 - "Rather a big sum," you say! But is it, when you consider the luxurious texture of the hat, its rich appearance and quality—quality that makes it a hat of the "first water" for several seasons?

The Canadians were hard pressed by the Germans in front, who were occupying a wood and holding it with strong machine gun defenses. They appealed to the French regiment on their right for assistance, and the French troops immediately advanced, completely turning the position and enabling the Canadians to advance in their turn.

R THE MASTER'S WORK---GIVE

77HEN Canada calls its young manhood to service it makes no distinction of creed.

When the young fellows get into camp and "chum up" to one ananother they don't ask their pals what faith they profess.

They train, eat, drink, sleep, play, share hardships, and, if need be, die together. They are one big brotherhood, united in the Great Common Cause.

When they get to France they are knit even closer. Their common peril causes many of them to do their first serious thinking about Life and the Life after Death.

is all very well for us at home to draw distinctions about faiths or communions, but when men are preparing for battle-and death, or when they are in billets, having come through an Ordeal by Battle what kind of men should we be if, for the sake of a few dollars, we were to deny to them that form of spiritual comfort to which they are accustomed?

During the terrific fighting along the Yser, a Rabbi stumbled upon a dying soldier—a Catholic. By signs the soldier made known his need for the Last Sacrament. But no Priest was near and the man was fast nearing the Valley of the Shadow.

The Rabbi-all honor to him-took two small twigs, fastened them together in the form of a cross and held it to the dying man's lips.

Jew and gentile-Catholic and Protestant-Buddhist and Mohammedan-all races, all faiths, all creeds fight as allies shoulder to shoulder. All respect each other's faiths and reverence their sacrificial moments.

lnasmuch as Catholics have always generously supported the Y.M.C.A. -a representative Protestant organization-in its work for our soldiers, we feel that it is reasonable that Protestant citizens, as well as Catholics, should give generously in support of the work carried on by the Catholic Army Huts in the service of soldiers.

While there are differences of opinion between Catholics and Protestants there can be no difference of opinion in regard to supporting most enthusiastically any cause that will make easier the life of our soldiers, or minister to their spiritual needs.

Remember this, therefore, and give generously when you are asked to contribute

Catholic Army Huts Campaign

The Catholic Army Huts are an integral part of the successful prosecution of the war. As the army is one in unity, one in loyalty and one in work, so let all at home be one in giving.

In France every effort is made to provide them with healthy amusements, decent recreation, and to keep them in touch with their homes. But, above all, it is aimed to give spiritual strength to the men going out to face death for us.

In France and Flanders all denominations labor to-gether in harmony, and though their forms may be different, each is doing the Master's work.

GREAT WAR VETERANS' ASSOCIATION OF CANADA.

We, who have shared in the mud, blood and misery of trench warfare, know the need of such aid to courage and endurance as the Knights of Columbus Huts afford to the soldiers over there. We have no hesitation in urging Canadiana to support the work. Our comrades are on the eve of the afth winter Canadians have passed in Flanders. They need all the sustaining comfort we can give them to maintain vic-

tory-making morale during the coming months. The folk who give the last cent of their last dollar for the welfare of the boys over there have given less than the man who gives his life. The G.W.V.A. in Ontario will sup-port and encourage the money-raising campaign of the Knights

It is the worst affair for many years, and it is the poorer class who will attended public meeting in St. John's Hall, corner of Woodbins avenue and Kingston road, last evening. "However, I wish to point out that I am not fuel controller, but fuel commissioner, much against my wish, but by the request of the board of control. The press is telling you of the lack of fuel in the city. This is not a municipal matter, or a Dominion Government matter, or a Dominion Government matter, but it is international. The United States-says Canada, and we have no option. We shall get 99,000 tons less this year than the two preceding years, and, in mpopinon, it is not an awful hardship to use soft coal, of which there is a fair supply. GOVERNMENT ROAD TO LEASIDE URGED

"Today is the day to build a road between the east end and Leaside, when every effort on our part should be made to help 'the man behind the man behind the man behind the gun,' "said J. A. Macdonald, chairman of school section 27, Todmorden, "and money in this case should not be considered where the health and convenience of our war workers are concerned. There are hundreds of munition workers living in Todmorden who work ten to thirteen hours a day in the Leaside munition plant, and after that they have to climb the hills between the town and their homes in Todmorden. This is not helping to win the war and the government at Ottawa should be up and doing and at least build a skeleton road between the two districts as a temporary measure. I would suggest running the road over to Leaside from the head of Pape avenue, which is a direct route. It would necessitate cutting down the hill on the Todmorden side, and a right-of-way could be secured. Land will never be cheaper than at the present time, and the work is simple enough and could be quickly accomplished. A low-level bridge would span the River Bond and the gravel from the C.N.R. cutting, nearly 100 feet wide, on the opposite side near the munition works, could be used to make a nice road into the town."

The third and closing day of the North York Agricultural Society's show in Newmarket yesterday was the best ever held in point of numbers and exhibits in the county. Heavy horses, especially, made a grand showing, and the light horses were of good quality.

A feature that attracted a great deal of interest among the farmers was the "breeders' class" for imported stallion and five of his get which was won by John A. Boag & Sons, of Queensville.

The first prize in the heavy draft team was won by E. Wray, Schomberg, and in the agricultural class by Fred Hill, Aurora. The Percheron horses are growing in favor rapidly in North York, and there was a good show of this breed, with T. Shropshire, Newmarket, the winner. There was a great display of Clydes, with Walter Scott and James Stiles capturing a number of the prizes.

A feature of the day was the directors' luncheon, at which Rev. Capt. McCormack, who went with the 12th York Rangers Battfallon overseas, was the guest of honor. Capt. McCormack was accorded an ovation. He referred briefly to Canada's part in the war, and his local references to the 127th, made up largely as it was of North York men, were listened to with interest.

The entry of the "Y" team into the C.R.L. caused trouble for some of the other team managers who were counting on some of Goulding's stars for their fourteens. Shatz, last year with Excelsiors, it is rumored, is with the Central outfit, while he was about to return to his former love when the "Y" team showed signs of decay.
With the opening of the C.R.L. only one week away the respective clubs have been putting in some strenuous practices and all should be in the pink of condition when the curtain runs up on what promises to be the best season in the league's history.
There are several new faces in the city League this season who need a slight introduction. J. Marshall is looking after Excelsiors; W. Skitch, playing-manager of Queen's Unique; J. J. O'Nelli is with St. Vincents; George Goulding hopes to "walk" right thru to the championship with Central "T"; E. Higgins is handling both Beaches teams. J. Jacobs is behind the new Hebrew Literary Club; Sol Simon, who managed last year's 125-lb. champion Arlingtons, is back at it again, while the ever-green fim Garlick is master of ceremonies for Capitals.

SOLDIERS FINISH BOWLING TOURNEY

Event From Brant House Entry.

There are a lot of sorry soldier bowlers in Toronto today, all lamenting the fact These who predicted the death of the local senior O.R.F.U. series must now blush with shame. Toronto is to be treated to the real thing in the great fall game, and more teams will take to the gridiron this fail than during any other year of the war.

New teams are announcing themselves daily. A five-team group is the order at present. Beaches are will that they were in the fight to the finish. Payk dale A.C., who were members of the intermediate series during last season, have again got the fever. Ermie Broderick, the old St. Michael's half back, has rounded out a squad for Parkdale, and they will take a filer at the senior game.

The National Hockey Association is billed to hold its annual meeting in Montreal today. It will be remembered that the N.H.A. decided to suspend operations last season, and the result was that the N.H.A. practically finds itself in the same position as that of a year ago. The N.H.L. was a success in every sense of the word, and most fans can see no reason why the N.H.A. should be revived Geo. Kennedy. Montreal, owner of the Canadiens, wants no change. To our way of thinking Kennedy's statements that he is without ice is solely for the purpose of having pro hockey operate under the same conditions as last year. It is a sure think that Kennedy will not go back to the old order of things.

Semi-ready Tailored

No matter where you buy or when you buy a Semiready Suit or Overcoat the price is the same. In the East or West, North or South, the same price is on the label in the pocket. Look for that label.

A \$25 Suit here costs \$25 in Montreal, Toronto, Winnipeg, Vancouver or Halifax.

That is one of the nine reasons why men like and trust the Semi-ready tailored garment.

That label price is based on the wear, value and

THE BUSINESS WOMAN Today, more than ever before, is woman's opportunity. Many new occupations are now opened to her which, before the war, she was deemed unfitted to fill. And, truth to tell, she has risen to the opportunity, and now shares many business responsibilities in former times confined to men. But, as women are subject to more free

SEPARATE AIR SERVICE FINDS LITTLE ENTHUSIASM

dien Officers in London Do Not Favor Government Proposal.

Canadian Associated Press Cable. n, Sept. 27 .- The proposal anced from Ottawa to establish a rate Canadian naval air service, t is found, is not received with much husiasm among the Canadian military element here. It is pointed out that the imperial services here have only been recently amalgamated, which was considered necessary for efficient working, but which was only effected ious trouble. The assertion is made that Canada is ready to perpetrate the same error in having separate services as the imperial authorities originally fell into. The opinion here leads to Canada training her air service entirely and that when the units are sent to the actual theatre of the war, they should come under the general command as is the case with the Canadian troops.

TAKE STRUMITZA

Allied Offensive Against Bulgarians.

London, Sept. 27.—The British forces on the Macedonian front have captured the Bulgarian city of Strumitza. The official statement reads:

"British troops, preceded by yeo-manry, entered Strumitza yesterday stormed the heights of the Belasch nitza mountains, north of Lake Doiran. The British have taken more than 30 guns and much ammunition. Serbian troops were reported this afternoon to have captured Kochana \$34.00 about fourteen miles from the Bulgarian border, opposite Kustendil. This is taken to show the rapid development of the allied envelopment movement by which it is hoped the Serbs, by a quick thrust to the northeast, will cut off the Bulgarians,

who are being hard pressed by the British on the Bulgarian front. The Serbian official statement announces that Serbian cavalry have reached a point 55 miles as a crow flies north of the line from which the offensive was started.

WILL BUILD IN BRANTFORD.

Brantford, Sept. 27.—It was definitely announced today that Messrs. Kerrand Goodwin will build their new munition factory in West Brantford. A 6-acre site, owned by Maurice Quinlan on Burford street, offarding adequate railway facilities has been secured. and building operations will be commenced at once. The location in West Brantford was decided upon as against one in the northeastern part of the city on account of the distri-

Union of Railwaymen, on account of differences with it over the railway strike, stated today that he made his decision because it was imperative to a believer in constitutional gov-ernment in trade unionism. The people responsible for the re-cent wicked and dangerous strike, he said, must be fought, otherwise ket the country would soon be in a state like Russia. His resignation meant a challenge to such methods.

Niagara Camp, Sept. 27.—The first drafted man in camp to be sentenced to death by the general court-martial is John Edward Plant of the 2nd Battalion. 2nd C.O.R., whose sentence was promulgated this afternoon at a garrison parade. His sentence, however, had been commuted to 15 years imprisonment in the penitentiary at Kingston, and this was read at the promulgation by Captain Roy Parke, adjutant of the 2nd Battalion, 2nd C.O.R. Plant is 4 Sinn Feiner and refused to perform military service in any capacity.

Johnston Marks of the 2nd Battalion, 2nd C.O.R. who is a conscientious objector and refused to put on uniform, was sentenced to the penitentiary for 10 years.

Col. J. I. McLaren, camp commandant, was in charge of the parade for the promulgation of the sentences. of corn. Government and export buying tho, checked the decline.

Higher quotations on hogs gave some strength to provisions, but the weakness of corn finally became an offset.

"The attack by French troops in the Champagne developed yesterday with success. From the Suippe to the Argonne, the first German positions, a formidable network of trenches and wire entanglements of a depth of more than five kilometres, which the enemy had not ceased to strengthen since 1915, were brilliantly carried by the French troops on a front of about 35 kilometres (more than 21 miles). At certain points the French passed beyond this line.

FOUR-POINT GAIN BY MAPLE LEAF

Steamships and Brazilian Are Active Features in Broader Market.

Highly encouraging war news was reflected on the Toronto Exchange yesterday, in common with other markets. Trading broadened out to more than 2000 shares, exclusive of mining stocks, with activity centring in Steamships common and Brazilian. The former, after opening at 47%c, advanced to 47%c, closing at the top, a net advance, however, of only 4, Dealings in this issue approached 600 shares. Definite strength was displayed by Brazilian, in which the turnover fell little short of that of Steamships. The stock opened ½ up, at 44, and moved up to 45%, closing only % below the best, for a net gain of 1%. The most striking advance, however, was made by Maple Leaf Milling. All the transactions in this issue were on a much smaller scale. Maple Leaf scored a clear gain of four points, closing at 128½, the highest of the day, and a full point above the previous high record. Another firm spot was Dominion Canners, which advanced to 37½, after opening at 35. The steels showed little change, Dominion Iron selling ¼ lower, at 62½, and Steel of Canada ¼ higher, at 12½.

The war loans were extremely quiet, and showed no decided trend.

The day's transactions: Shares, exclusive of mining stocks, 2053; war loans, \$3800.

- CANADA'S WHEAT CROP.

Ottawa, Sept. 27.—With threshing under way, it is said that two to three weeks wil lelapse before complete returns are recived of the wheat crop. Then you would weigh carefully the advantages and disadvantages of an Individual Executor compared with a Corporate Executor. The advantages of the Corporate Executor are many. For instance, a Corporation never dies, has ample financial responsibility, and experts to take charge of every phase of the work, conducting the affairs of the estate as a regular business to the heirs, thus being accessible for interviews and reports at all times. A Corporate Executor's charges are no more, and often less than those of an Individual Executor. Our Booklet, "Making Your Will," mailed on request.
