MORE CONCESSIONS IN O.T.A. APPEALS ARE NOW DEMANDED

Liberal and Conservative Groups Would Have New Evidence Admitted.

GOVERNMENT OPPOSED

Will the Ontario government weaken and make still further concessions with regard to the administration of the O.T.A.? Already the attorney-general has agreed to the granting of appeals on the evidence to defendants charged with violating the measure, but yesterday in the legislature both Liberal and Conservative members united in a demand that the government go a step further and authorize also the taking of new evidence as well as rehearing the evidence taken at the trial from which the appeal is made. The proposal which was sponsored by the Liberal member from South Ontario, W. E. N. Sinclair, came up during the debate on the adoption of the special report of the committee which considered the administration of the O.T.A. and was opposed by the prime minister and attorney-general. It was expected that the house would divide on the question, but there were so many speakers that an adjournment was made.

The Labor member from South Brant, M. M. MacBride, opened the verbal combat and it was participated in by the prime minister, one Liberal and four Conservatives.

Administration of O.T.A.
There was no particular quarrel on the public part, said Mr. MacBride, but there was decided disapproval with the way it was being administered especially

London, Ont., March 3.—(Can. Press)—"The Canadian Manufacturers' Association is said to be on the defensive, and perhaps rightly so," said President J. S. Morrison of the United Farmers of Ontario at a meeting near Peterboro.

SOVIET WORKING FOR A COALITION

Has Crushed Rebellion, But Is Negotiating With All Socialist Parties.

London, March 3.—Private information received from Helmsingford today confirms the reports that the revolt at Petrograd had been suppressed by troops from the front. These reports added that the Petrograd garrison remained neutral but that further developments were expected. Rumors were circulating that the Kronstadt sailors were about to rise against the Bolsheviks. It was said the entire movement was under the protection of the social revolutionary society, which is demanding the convocation of a constituent assembly and the granting of true political freedom.

GERMANY IS INFORMED WHAT ALLIES WILL DO, GET FOUR DAYS GRACE

Lloyd George Presents Ulti- matum in Speech Which Shows That German Govern- ment Is Challenging the Very Foundations of the Treaty — Occupation of Cities, Payment of Debts Due to Germany to Al- lied Nations and Seizure of Customs Threatened.

London, March 3.—An ultimatum was delivered to the German delegation today by Premier Lloyd George, and they were given till Monday either to accept the conditions laid down at Paris, submit proposals which will in other ways equally satisfactory discharge Germany's obligations under the Versailles treaty, subject to concessions made in the Paris proposals or take the consequences, that the German government is deliberately in default.

What those consequences will be the premier detailed as follows:
"First: Occupation by the allied troops of Duisburg, Dusseldorf and Ruhrort.

"Second: Legislation by the respective parliaments requiring their nationals to pay a certain proportion of all moneys due Germany on German goods to their several governments, such proportion to be retained on account of reparations. This is in respect of goods purchased either in this country or any allied country from Germany.

"Third: Amount of duties collected by German custom houses on the external frontiers of the occupied territories to be paid to the reparations commission; these duties to continue to be levied in accordance with the German tariff; a line of custom houses to be established temporarily on the Rhine and at boundary bridgeheads occupied by allied troops, the tariff to be levied on this line, both on the entry and export of goods, to be determined by the allied high commissions. PLANNED ASSASSINATION OF CLEVELAND CITIZENS?

Cleveland, March 3.—Plots which involved the planned assassination of Cleveland citizens connected with the League of American League, the destruction by dynamite of downtown buildings and an intensive campaign of anarchistic propaganda throughout the city, are believed now to have been nipped by the arrest here last Tuesday night of eight men, said to be members of an anarchistic group. The eight men are now in the county jail, facing charges under the espionage law which government officials believe will lead to their deportation.

PRESIDENT VEToes U. S. TARIFF BILL; MEASURE IS KILLED

Efforts by the House to Over- ride the Veto Are Failure.

WILSON GIVES REASONS

Washington, March 4.—Efforts to override President Wilson's veto of the Fordney emergency tariff bill failed in the house early this morning, and the measure, originally designed to aid the farmers, thereby met its death.

The veto was called up and voted on without discussion. There was little expectation among Republicans that they could round up the two-thirds majority necessary to overturn the veto and for this reason some leaders had urged Chairman Fordney of the ways and means committee to let it be on the table without action.

Not Time For Barriers.
The bill was voted late today by President Wilson in a message in which he declared that "there is no time for erection here of high trade barriers," and that the measure "would not furnish in any substantial degree the relief sought by the producers of most of the staple commodities which it covers."

The situation in which many of the farmers of the country find themselves cannot be remedied by a measure. (Continued on Page 9, Column 6).

Winnipeg, March 3.—Premier T. C. Norris announced in the legislature this afternoon that the government had no intention of bringing down this session any measure providing for another referendum on the temperance question. No amendment of the executive was contemplated, he added. The announcement was made in reply to a question by J. T. Hulg, leader of the Conservative group.

SAYS DUNNVILLE DIVINE GAVE "MARBLE HEART"

Rev. Thomas Green, Testifying at the Hastings Inquiry, Causes Amusement by Relating Clash With Local Mem- ber of Parliament—Court Agrees to Stop Using Word "Ring"—Day's Evidence Shows O.T.A. Disrespect by Part of Community.

Cayuga, Ont., March 3.—(By Canadian Press)—The most pleasing feature of the afternoon session at the Hastings investigation here by Commissioner John Patterson was the suggestion made by Rev. Thomas Green, Methodist minister, that the word "ring" be dropped in connection with the activities of certain realtors of Dunnville and that they be designated as a certain group. Commissioner Patterson said he heartily concurred with the suggestion, and John Councill, Hastings counsel, promptly proposed that the attorney-general be asked to authorize the change being made in the statement of complaint.

Had a Difficult Role.
The reverend gentleman had a difficult role, on account of being looked upon by many of the town people as the star witness for the crown, being a believer in the Raney policy of liquor law enforcement, and at the same time minister to the suspended magistrate, whose administration of the law was one of the principal objects of the commission.

Mr. Green was the first witness to admit he had commended complaints of the temperance department, the attorney-general's department. While showing much consideration for the suspended magistrate, the witness

was not spared by John Councill during his cross-examination.

Accused of Hedging.
Mr. Councill accused him of hedging and beating about the bush, and the commissioner went to his defence on one occasion.

It developed in the course of Mr. Green's testimony that instead of being one ring or clique, as was stated in the statement of complaint drawn in connection with Frank Labor control and domination of the town, the January battle of the ballots resulted in a draw. In view of this he was not able to support one of the charges in the statement of complaint drawn in connection with Frank Labor control and domination of the town.

It was most dramatic incident of the afternoon's proceedings when the minister told of his giving the marble to the star witness for the crown, being the local member of parliament, who went to show him how to watch his step and fit into the local scenery.

O. T. A. Difficulties.
Only four witnesses were heard at the judicial inquiry into law and order conditions at Dunnville today, and the examination of one of them was discontinued when the adjournment hour was reached. Strong evidence was given in support of the charge that there was disrespect for the O. T. A. by a section of the community. (Continued on Page 2, Column 4).

SECOND DEADLOCK AT G.T.R. HEARING

Seek Adjournment — Vice- President Scott Relates "Doomed" Talk.

Montreal, March 3.—(Can. Press)—Another deadlock was reached today at the hearings of the Grand Trunk arbitration commission which is sitting to enquire into the physical value of evidence as to values they were by the Dominion government. It occurred late this afternoon when counsel for the Grand Trunk submitted the physical value of the railroad had been put in, and that owing to the upsetting of their plans by the ruling out of evidence as to values they were not immediately ready to proceed.

An adjournment was therefore asked on the grounds that the government was to prepare financial evidence.

Will Go On Today.
Counsel suggested that in the meantime the case be divided into branches and that evidence of the physical property branch of the case be proceeded with their evidence on this aspect of the case. This counsel for the government promptly refused. Finally, Chairman Sir Walter Cassels adjourned the hearing until tomorrow morning.

The most interesting evidence during the day was that of Vice-President Scott of the Grand Trunk, who stated that officers of the road had concluded it was doomed, failing money from the government or otherwise, and that he had written a letter stating that without such assistance the road could not carry on after March 10, 1919.

41ST YEAR—ISSUE NO. 14,723
TWO CENTS

GOVERNMENT SUPPORTERS REST ON THEIR OARS AND ALLOW OPPOSITION TO SAY THEIR SAY—FIELDING SAYS CANADA CANNOT GO WRONG UNDER LEADER OF ANY OF THE THREE PARTIES.

BY TOM KING.
Ottawa, March 3.—At an early hour this morning the house of commons was headed for a vote upon the King amendment to the address, practically demanding a general election. The result is a foregone conclusion, as the amendment is slated for defeat by a majority of twenty. The sub-amendment offered by Mr. Campbell of Nelson will be overwhelmingly defeated. Much of the debating today covered a widely scattered field. For example, at midnight Hon. W. S. Fielding was ably discussing the League of Nations, followed by Mr. Doherty of Saskatchewan in a speech confined to the problems of western Canada. For the last day of the long debate, the proceedings of the day were tame. There were some good speeches, but in the nature of things nothing new was said, and all the party leaders had long ago spoken.

J. A. Maharg, Farmer member for Maple Creek, and president of the Saskatchewan Co-operative Elevator Co., replied with considerable force and spirit to Mr. Guthrie's charge against the western farmers. He said it was true that the United Grain Growers, Limited, and other co-operative companies owned and operated by the farmers purchased their implements in the United States. This was because they could purchase there and no where else.

BOYCOTTING GRAIN GROWERS.

The Canadian manufacturers absolutely refused to sell to co-operative companies controlled by the farmers. The western grain growers were not boycotting the Canadian manufacturers, but the Canadian manufacturers were boycotting the western grain growers. He said the co-operative companies did not fear an inquiry into the grain business by a royal commission. If abuses existed in the handling of western grain, it was because of a defective law or corrupt administration. In either event, he argued, the government was responsible.

A fighting speech from the Liberal standpoint was delivered by Dr. J. P. Malloy of Manitoba, while S. W. Jacobs, the Hebrew Liberal member for Montreal, went after the government in a more focal vein. R. H. Bennett, Farmer member for North Ontario, delivered quite a scolding which elicited towards its close ironical cheers from the government benches and H. O. Wright, Farmer member for Saskatchewan, talked to the group to which he belonged in the house had no objection to an investigation into the grain business, provided it was conducted along business lines without any injection of party politics.

Lillian Cannon, the fibronand from Dorchester, urged the premier to reconstruct his cabinet. It was too bad, he said, that the government did not dare to bring on a single by-election. He wound up with a scolding announcement that Premier Melchne need count upon no support from the province of Quebec. He then denounced Mr. Guthrie as a traitor to the French population. He was scarcely less severe upon Postmaster-General Blondin, whom he characterized as an "outcast."

Ottawa, March 3.—By Canadian Press)—An impending division stimulated flagrant interest in the debate on the address which was continued in the house of commons today. Government supporters continued to rest on their oars, leaving the debate to be carried on by members of the Liberal opposition and the Progressive party. The debate was resumed at the opening of the house by E. P. Pardee, member for East Lambton, who declared in a fighting speech that the government lacked the courage to go to the country. Although a war administration pure and simple, it proposed to try and carry on with a high hand, ignoring promises made to the electorate in 1917. The tariff, he said, was merely a "red herring" which the government was trying to draw across the trail.

That Canada could not go wrong under any of the respective leaders of the three parties in the house, was the statement made by Hon. W. S. Fielding, who began to speak at a late hour. Mr. Fielding declared that the prime minister, the leader of the opposition and the leader of the Progressives, were all young men, full of energy and ability. Continuing he declared, he himself in the House of Commons and went to show the high place Canada must occupy in world affairs and in the British empire.

Mr. Fielding drew attention to his motion last session for a modification of article ten of the peace treaty. Hon. C. J. Doherty had called on the house to vote it down because it interfered with Great Britain's authority in the matter. Then Mr. Doherty had gone overseas and deliberately proposed to strike out the debated clause altogether. Any amendment (Continued on Page 3, Column 4).

Wallis Walter LeFeaux who has spent some time in Russia studying the subject of Bolshevism, gave a lecture to a crowded audience in the National Theatre, Dundas street, last night. His address was in the nature of an eulogy of the Bolshevistic movement, wherein he stated that the Soviet were trying to do the right thing. He said that Bolshevism was not a new thing, but that conditions were not anything like as bad as pictured. The Soviet was really representative of the people.

Artist Hamilton Improving At Christie Street Hospital

Quite a jubilee was in the air at the Christie Street Hospital today when for the first time in three months the half-crazed patient of the hospital, William Hamilton, was able to get out of his room. As co-editor of The Hamiltonian and as an artist who has painted the humorous side of life at the hospital, Mr. Hamilton has been popular with hospital visitors. One of his drawings has shown him sitting on the roof with long white hair flowing down his back and beard showing the Prince of Wales. What fresh air the sun cure and the nursing can do are proved in the progress the soldier-hero has made.

GERMANS INFORMED OF ALLIES' PURPOSE

Mr. Lloyd George's speech, which was translated into both German and French, occupied two hours in delivery. The prime minister started by saying Dr. Simons' statement was "a definite challenge of the fundamental conditions of the treaty of Versailles." The allies had continued to come to that conclusion only from the character of the counter-proposals, but from the speeches Dr. Simons had made in Germany. "One of the main, serious statements made by him," said Mr. Lloyd George, "was contained in his speech at Stuttgart, when he repudiated German responsibility for the war. For the allies, German responsibility for the war is fundamental."

PENDING DIVISION, CONTINUE ATTACKS

Parliament could be dissolved, Mr. Fielding asserted. The present course was contrary to the principles of the British constitution. The prime minister declared that the government was supporting its old policies under a false name, or had a new policy, in which case the government was responsible for the 1917 elections was to hold office for the duration of the war. When the new prime minister was first appointed he should have gone to the country immediately. One reason advanced by the government as to why it should remain in office was its record during the war. The imperial conference of the present government was only responsible since July, 1920. Dealing with the proposed appointment of a Canadian ambassador to Washington, Mr. Fielding said such an appointment would be little better than a clerk in the office of the British ambassador. In cases of necessity it would be better to send a member of the ministry to Washington than to appoint a Canadian. London this summer was sharply criticized. Mr. Fielding declared the Canadian parliament did not have one single member of the cabinet. It would be quite right for the prime minister to go, but he would be in a very awkward position. The other party ministers attending would be representing people who had expressed their views in an election since the war.

Jacobs (George Etienne Cartier) criticized the government expenditure on ships, which, he said, had been intended for war service, and remarked that the department of trade and commerce had ceased to function. IMPRESSIVE SERVICES AT PRIEST'S FUNERAL. Not for a long time has Toronto seen such an outpouring of regret and respect as was witnessed at the funeral mass of Requiem sung at the funeral mass of Requiem sung at the St. Helen's Church yesterday for the repose of the soul of Rev. Father Walsh, pastor of the parish. The church, which was heavily draped in purple and black, was filled to overflowing, many having to stand through the ceremony. His Grace Archbishop McNeil was celebrant, assisted by Rev. Father Murray, C.S.B., and Rev. Father McGrath of St. Anthony's as deacon and sub-deacon. The music of the mass was sung by a special choir of ecclesiastics.

Rev. J. P. Tracy, D.D., preached the sermon, in the course of which he said the dead priest was an example of gentlemanly courtesy, a kindly charity and priestly dignity. "The people," said the preacher, "will miss a loving pastor and the little children the friend of all. The threshold of his door is worn by your feet going to seek consolation such as you will never get again. As you love him today, so you will sustain his departed spirit by the loveliness of your prayers."

At the conclusion of the sermon the archbishop officiated at the "Libera," the monsignori, priests and acolytes surrounding the altar. The lighted tapers held in the scores of hands and the chant from the choir being most impressive. The procession then moved down the aisle while the choir sang the "Gloria." The "O Paradiso" was sung by the choir. Members of the Holy Name Society, Knights of Columbus, representatives of the separate schools, and the religious communities assisted. The pall bearers were Rev. Fathers Cline, O'Malley, O'Donnell, McCabe, Tracy and Tracy. The casket was represented by Right Rev. Mr. Aylward.

MOTHERS' PENSIONS PROMPTLY PAID. Board of Commissioners Explains Reason for Apparent Delays. The mothers' allowance commission passed for payment 1,655 applications. To do so has necessitated the consideration of about 2,400 applications. A large number were ineligible under the provisions of the act. Many others were not granted an allowance because it was evident from the report that the home could be maintained without an allowance from the government. In quite a number of cases there was a large sum of money in the hands of other relatives or children were earning sufficient to provide for the home.

Already there has been paid to applicants \$1,000,000. The allowance paid in February amounted to \$50,000. At the present rate of increase there will be on the payroll of the government during March at least 1,700 beneficiaries. Allowances paid in March will be approximately \$85,000, and by the first of May, probably 2,400 beneficiaries will be on the payroll, and the amount of allowances will be approximately \$80,000.

On the basis of 2,000 beneficiaries under the act, at the present rate, the cost will be approximately \$1,000,000 per annum. The commission submits to the public the necessity, therefore, of safeguarding the interest of this great and beneficent act by the most thorough and complete method of investigation in order that only those to whom the act was intended to apply, should share in its benefits. In several states of the United States of America, the mothers' allowance act has become operative, not thru lack of sympathy with the widow and the fatherless, but because the administration did not commend itself to the continuance of public confidence.

Gay Flower Wreathed "Mitsi" Hats

Most fascinating are the lovely little "Mitsi" hats on display in the Millinery Department. The colorful straws, rich ribbons and massed flower wreaths all combine to make a vastly becoming hat.

Fashion—ever seeking for the becoming—has decreed that flowers are to be the trimming in high favor this season and when you see these smart hats you will agree with fashion's mandate.

A stunning grey hat is massed with exquisite flowers and small fruits in a riot of lovely colors, the narrow flat rim being covered with corded grey ribbon that forms a large flat bow in the back.

It may be your fancy would be caught with a henna colored straw, the flowers and fruits being in shades of henna, rust, brown with just a suggestion of tangerine that shades off to a pale yellow.

Irrespressibly gay and interesting are the ones developed in jade straw, wreathed with multi-colored flowers, not only of the garden variety, but also field and wild ones. Indeed, the hats are as captivating as the versatile artists for whom they are named.

They seem to have caught something of the vivacity and charm that one associates with thoughts of Mitsi.

BLAMES AGITATORS FOR INDIAN UNREST

Professor Morrison Sees Solution of Problem in Reforms Introduced.

Hearty support of the Montague reforms introduced in 1917, by which the local councils the responsibility of self-government in India would rest more and more on the shoulders of Indians until they were in a position to take over the government under a strong British superintending control was given by Professor J. L. Morrison, professor of history at Queen's University, in his address, "Will Britain Retain India," before the Empire Club yesterday.

WE DECIDED TO CUT EUROPEAN CONNECTIONS Washington, March 3.—The American Federation of Labor executive council decided today that the federation should sever relations with the international federation of trade unions, but official announcement was withheld.

Representatives of unions in the Panama Canal zone, affiliated with the federation, will report to the council tomorrow on organizing unskilled workers imported into the zone from Jamaica, Virgin Islands and Porto Rico during the construction of the canal, who are now said to be competing with skilled workers from the United States at half the pay received by the organized employes.

LESS UNCOMPROMISING ON CATTLE EMBARGO London, March 3.—Agricultural societies in this country appear to be growing less uncompromising in their opposition to the withdrawal of the cattle embargo against the Dominion.

The Royal Agricultural Society have expressed their decision not to send a representative to the conference to consider the withdrawal of the embargo and further the central chamber of agriculture is also convening a conference on cattle importation.

They are careful to point out that no danger is apprehended from the importation of Canadian cattle.

U.S. COAL INDUSTRY IS FACING CRISIS

Consumption of Anthracite Dropped and Bituminous Sells Below Cost.

New York, March 3.—(Special)—The entire coal industry of the country is facing a crisis, with no apparent solution in sight before April 1, when various contracts come up for renewal.

In the anthracite field local consumption has dropped to a minimum because of the unusually mild winter and the high prices still asked for hard coal.

The bituminous field is practically disorganized, and in many cases soft coal is selling for less than it costs to produce.

The effect of the measure on imports of Canadian wheat received special attention in the president's message.

It is obvious that for the commodities, except sugar and wool, mentioned in the measure, which make up the greater part of our agricultural exports, the imports can have little or no effect on the prices of the domestic products.

Mr. Wilson, "This is strikingly true of such commodities as wheat and corn. The imports of wheat have come mainly from Canada and Argentina and have not competed with the domestic crop.

The domestic demand has been for specific classes and quantities of foreign wheat to meet particular milling and planting needs.

The relatively small quantity of corn imported into this country has a specialized use and does not come into competition with the domestic commodity.

VICE-CHAIRMAN SOCIAL COMMISSION

W. H. Alderson Offers to Resign if Other Members Do Likewise—James Simpson on the Defensive—Claims Many Reforms Brought About Improving Administration of City Welfare Work—Thomas McMillan Has No Apologies to Make.

The special council committee which was appointed to report on the advisability of abolishing the social service commission held another session yesterday, which was largely an attempt to bring up to date the report of the committee.

Mr. Simpson in reply said Mr. Alderson had voted in sympathy with other members when attending meetings of the commission, and he could not understand why he should be asked to attack the body with which he was connected.

As the work of the commission, Mr. Alderson had no criticism to offer the committee beyond a statement that the commission did not seem to be taking much part in finding use for the loan fund which the board of trade had organized.

Mr. Alderson was the first speaker for the commission. He said that when the charity work of the commission was in an unsettled condition, the commission had weeded out several organizations that were preying upon the public.

CALLS HALT TO SOCIETY'S ORGY

"Damaged Goods" Will Be Privately Shown to the Ontario Cabinet.

OPPORTUNE SHOWING Great Social Danger Drama Released at a Critical Moment.

While society, without regard to class distinction, indulges in an orgy that differs only in its twelfth century setting from the days of Nero, and while all restraint seems to have been cast aside in the mad pursuit of the sensual, certain individuals are coming to the rescue.

Such an influence was the bill introduced in the Ontario legislature this week by Dr. Forbes Godfrey, M.P.P., in which he demanded that social conditions today should be corrected by demanding of every man and every woman a certificate of moral purity before they should enter a marriage relation for life.

Mr. McMillan condemned the idea of a detention home. He said, "I do not think the directors know about that."

Mr. McMillan attacked the work of the Children's Aid Society and declared he could name no organization whose directors knew so little of the work of their organization.

WILL EMPLOY MORE COUNTY ENGINEERS

Minister of Public Works Makes Promise at Good Roads Convention.

That more county engineers would be appointed this year was the statement made by Hon. F. C. Biggs, minister of public works, in his address before the Ontario good roads convention yesterday, in which he also invited direct impersonal communication with him if airials were not being conducted satisfactorily.

Mr. Biggs showed that by judicial buying in the matter of trucks with regard to weight, the roads would cost less to maintain. Good roads, he said, would save about 15 per cent on the cost of maintenance of roads.

TORONTO CONTRACTOR LEAVES BIG ESTATE

Benefit by Will of W. J. McGuire.

George Francis McGuire has been granted probate of the will of his father, William James McGuire, plumber contractor, who died at 3 Maple avenue, Jan. 28, leaving \$1,600 in household goods, \$879 secured by mortgage, \$280 cash and 1,001 shares of W. J. McGuire Limited, valued at \$95,000.

By the will, executed April 16 last, Mr. McGuire left his household goods and personal effects and legacies of \$50,000 each to his daughters, Isabella M. Nolan and Mary Amelia McGuire, the legatees to be paid within ten years of his death and to bear interest at 6 per cent; to his granddaughters, Gertrude and Muriel McGuire, legatees of \$5,000 to be paid when they are 25, but should either die before that time, the legacy reverts to the estate.

To his son, William H. McGuire, deceased, bequeathed \$100 a month, or such smaller sum as the executor, in his discretion, may deem advisable. The trustee may at any time cease to make the monthly payments, if he thinks best, and the beneficiary is to have no power to anticipate or assign his interest in the payments. The residue is devised to his son, George F. McGuire. The will provides that any executor taking steps to set aside the will shall forfeit his interest in the estate.

New Outlet for Men Looking for Employment Has Opened Up.

A slow but steady improvement still makes itself manifest in the unemployment situation, the registrations at the government's employment office yesterday being 966 as compared with 972 Wednesday and 1,068 a week ago.

Not only are men getting their jobs back again, but calls for men for city jobs are increasing and a steady demand keeps up for men for farm work.

Supt. Miller stated to The World that the first call of the season for men for a lumber camp came in yesterday, when 15 men were sent out to a northern lumber camp. This means that a new outlet for men looking for work has opened up and the ranks of the unemployed are expected to steadily decrease.

Only 36 men were men seeking meal tickets were reported at the Krausman hotel yesterday when the repeats again numbered around 1,000. Men coming in from out of town to the number of 20 were rejected. Some more relief cards were turned in from men who have secured employment, and can now support themselves.

The figures for married men seeking relief for their families yesterday were 32 new cases and 23 repeats.

DR. NOBLE HONORED BY SCHOOL BOARD

Cabinet of Silverware Is Presented to Former Chairman, Following Custom.

PAY FOR TRUSTEES? Legislature Will Be Asked to Authorize a Graded Recompense.

Dr. John Noble was the headliner at the board of education last night. The ex-chairman was a guest of honor at the opening of the proceedings and was the recipient of a customary tribute of a cabinet of silverware.

Dr. Noble spoke in a humorous vein "I served for 18 years and see what I get. Jacob only served for 14 years and see what he got. Fairly a fellow who works for nothing gets nothing but abuse." He believed that very soon some new methods of school teaching would be accepted. He wished the members every success.

Chairman McClelland expressed similar good wishes to Dr. Noble, who then withdrew.

A protest against the withdrawal of the patriotic war book, "Fleet and Flag," was adopted on motion of Trustee Wemp.

In a lively discussion on repairs expenditures, Trustee Bell declared that last year \$150,000 of the repairs appropriation was diverted to the maintenance account, which caused a deficit of \$100,000 in the repairs account.
