LABOR MEN MAKE RECOMMENDATIONS

Four Principal Points in Compensation Matter

PLAN FOR ONTARIO

Commissioner Does Not Agree With All They Ask - Differences Over Question of Contributions to Be Made By The Workmen

(Canadian Press)

Toronto, Jan. 17.—A state managed compensation fund administered by a provincial insurance commission, compulsory insurance of the workmen, which results in no contribution from the workmen except that which they indirectly pay as a result of not being paid full wages while incapacitated, and a minimum scale of compensation above that based upon the earning capacity of the workmen; these four recommendations form the framework of the workmen's compensation scheme which the labor interests of Ontario are anxious to have put in operation in the provinces.

They were laid before the commissioner, Sir William Meredith, last evening and gave rise to discussion in which the commissioner revealed points upon which he was not in full accord with the labor representatives.

The labor brief devoted considerable space to the question of contributions. The manufacturers have placed themselves on record as favoring payments from workmen and the labor representatives quoted the compensation system throughout the world in contending that the principle of contribution from workmen was not generally recognized.

The workmen are now prepared to admit that a "serious and willful misconduct" on the part of a workman, which results in death or a injury should shut out compensation. The English act does not allow compensation cases of "serious and willful misconduct," unless death or permanent disablement results from the accident. The workmen of Ontario believe the dependents should not be deprived of compensation if the workman is killed or disabled. If a penalty is provided in cases of temporary injuries arising out of incidents due to the intentional acts, penalties should also be imposed on the employer who does the same thing. The remaining points were a declaration that workers would not be willing to surrender their rights under common law or statutory right, unless compensation was on a general basis, and an expression of opposition to any act which allowed the railways to stay outside the act.

MARITIME HOCKEY MATTERS

Halifax, N. S., Jan. 17.—Amherst, N. S., will get her first taste of pro-hockey on Wednesday night when the Halifax Gladiators and Moncton will meet there in a "hibition game. Norman has asked for a release from the Gladiators, and Manager Murphy acceded. His services now seem to be hung up for the highest bidder.

Paul Vallee, who played in Quebec City last year and who has been in Ontario for the last month trying for a place on the Victoria team has returned only. Vallee is a youngster and with experience may develop into a good player.

Chatham, N. B., Jan. 17.—M. Allison, college will play Chatham tonight in the first hockey fixture of the season.

PERCHED ON PROPELLOR, CAPTAIN AND MATE THUS STICK TO THE SHIP

British Steamers Collide in Mouth of Mersey And One is Sunk

(Canadian Press)

Liverpool, Jan. 17.—The captain and mate of the British steamer Ancheraden perched on her propeller, twenty feet above the water, refused to leave their vessel yesterday, after she had sunk in the mouth of the Mersey as a result of a collision with the British steamer La Blanca.

The Ancheraden, which was just leaving port, collided with the La Blanca, which was steaming into Liverpool from La Plata after a voyage which had lasted from December 3. The accident occurred during a thick fog, and the Ancheraden sank almost immediately. Although the La Blanca was not seriously damaged, she stood by and rescued the sailors of the Ancheraden and brought them into port.

The Ancheraden had gone how first, leaving her propeller above the water, and the captain and mate took refuge there after refusing the La Blanca offer to rescue them.

After remaining for several hours on the propeller, the captain and mate consented to leave their perilous position and were taken off in a tug.

Versailles, Jan. 17.—Premier Raymond Poincare obtained 429 votes on the first ballot and Jules Pams 227. A second ballot must therefore be taken, the number necessary for election being 439.

Versailles, France, Jan. 17.—Senators and deputies of France arrived in small groups through the forenoon today to take part in the national assembly in the ancient residence of the kings of France for the election of a new president to succeed Raymond Poincare, who has resigned after his second term of office.

Nominally 877 representatives of the people are to be present. These include 397 deputies and 300 senators, but the number was reduced owing to vacancies caused by deaths and resignations.

Large crowds of people who had come from the capital to witness the arrival of the politicians and statesmen gathered in the square in front of the grand hall which was occupied. Nine tenths of the spectators in the galleries were women.

Everybody present was distinguished and strained attention to the degree of conversation which suddenly a thunderous voice from the body of the hall shouted: "We protest against the president of the republic by parliament instead of by the people."

The assembly was agitated and by a shout from an imperialist deputy "Down with the empire!"

The Republicans replied by cheering: "Long live the republic!"

FRENCH PREMIER INSULTED BY CLEMENCEAU; DUEL LIKELY THE OUTCOME

Exciting Incidents Attend On Selection of New President

Poincare Sends Ministers to Ex-Premier With Challenge to Fight-Uproar in Electoral Assembly With Shouts of Down With the Empire

(Canadian Press)

Versailles, France, Jan. 17.—Premier Raymond Poincare was insulted by ex-premier George Clemenceau at the opening of the national congress for the election of a new president. M. Poincare at once appointed Aristide Briand the minister of justice and L. L. Klotz, minister of finance, to act in his stead and to arrange a duel.

The incident arose out of a letter sent by the former premier to M. Poincare last evening, the contents of which were considered offensive by Poincare. This morning the premier sent his two secondaries to ask for an explanation and unless this should prove satisfactory under the customs of France the incident may result in a duel.

LOOKS LIKE POINCAIRE

Versailles, Jan. 17.—Considerable commotion was caused by a stranger seeking entrance into the palace. When he was stopped by a gendarme and asked his business, he pulled out a revolver and shouted: "The election should not take place." He was at once disarmed and arrested. Other suspects also were taken into custody.

The government took unusual military precautions along the railway lines from Paris to Versailles, which guarded the whole distance by military police posted at intervals of 100 yards. A force of 2,000 policemen drawn from all the cities of France was brought here this morning, as well as detachments of troops of all arms with the garrison of Versailles was confined to its quarters.

The national assembly was opened promptly at two o'clock this afternoon, by Antonin Dubost, president of the senate, who presided over the opening of the assembly. The grand hall was occupied. Nine tenths of the spectators in the galleries were women.

Everybody present was distinguished and strained attention to the degree of conversation which suddenly a thunderous voice from the body of the hall shouted: "We protest against the president of the republic by parliament instead of by the people."

NEW WATER MAIN TO BE PLEASANT FOR DIRECT SERVICE

Believe Also it Would Open up New Section For Residential Purposes - The Proposal is Outlined

Plans for the construction of a new twelve inch main to give a direct supply of water to Mount Pleasant and to improve the service in the North End are being considered by the city commissioners. The plan also includes arrangements for laying out a new block of building lots.

Mr. Wigmore's suggestion is that the new main be laid from the Marsh Bridge, running up Pine street, through the public gardens and connecting with the existing water main at the end of Mount Pleasant. At present Mount Pleasant is supplied by what is known as a "back-feed" that is the water comes through main which branches off at City Road and runs up the avenue, thus having considerably less pressure than if the service were direct.

Under the new arrangement the water coming direct from the main at Marsh Bridge would be supplied in unlimited quantity and would have sufficient pressure to give as good a service as could be had on the heights of Mount Pleasant.

The new supply of water, coming along Mount Pleasant, would be continued along Rockland Road supplying that district and also do away with the drain on Main street that does away with the drain on Main street.

When planning the new main through the gardens it was suggested that the pipe should be diverted around the roadway to the rear of the gardens and then to the latter part of the road forming an extension of Mount Pleasant avenue.

The matter was discussed at length this morning and the city engineer was instructed to have a survey made showing how much land would be suitable for building and how many lots could be secured.

However, the audience enjoyed the address of Mr. Flewelling, which was a good practical exposition of the subject of cow-leasing and record-keeping, also the care of the dairy herd and of milk.

PULP AND PAPER ON TODAY'S LIST

RECIPROcity MATTERS

Interview With F. B. Harrison, of New York, Prominent Democratic Member of The Washington Ways and Means Committee

(Special to the Times and Montreal Star) Washington, D. C., Jan. 17.—When the house committee on ways and means today takes up consideration of pulp, paper and books schedule, a chapter will be reopened in the story of Canadian reciprocity. The act "to promote reciprocal trade relations with the Dominion of Canada and for other purposes," still stands on the statute books of the United States but of its provisions only one section has been applied. This admits wood pulp and news print paper (valued at not more than four cents a pound), free into the United States from Canada but only in cases where no export duty has been imposed.

Under the Payne tariff, which is in force except where modified by the act mentioned, the duties on wood pulp are mechanically ground, 1 1/2 cents a pound; chemical bleached, 1 1/2 cents a pound; unbleached, 1 1/2 cents a pound; chemical bleached, 1 1/2 cents a pound.

In view of Canada's rejection of reciprocity, and the reconsideration of the pulp and paper schedule the attitude of the democratic representatives toward Canadian reciprocity is therefore of considerable interest. Of the democratic members of the ways and means committee one of the most influential is F. B. Harrison of New York. In the absence of Mr. Underwood, Mr. Harrison presides over the committee deliberations.

"Speaking for myself," Mr. Harrison said to me last night, "I will never vote for the repeal of the Canadian reciprocity bill. I am one of those who believe that Canada will some day accept it, I believe in keeping the act on the statute books as a paper to be ready to use when the time comes."

"Are you in favor of the extension of the free pulp and paper section to other commodities?"

"My opinion is," he replied, "that paper should be admitted free from all over the world on condition that we give no corresponding advantage by accepting our tender. I believe I am also expressing the opinion of the leaders here who are in the house when I say that I do not think that the free pulp section will be repealed during the life of the present congress."

"And what do you think of the effect of the revision of the tariff will be on us?"

"I feel confident that rough lumber will be placed on the free list. I say so because it is the policy of our party and a number of the Republican representatives will no doubt support it."

Democrat's Tariff Policy

"The aim of the Democrats in revising the tariff will be to cut the rates so far as is possible, not to leave us with a tax on lumber as it stands. We do not anticipate any difficulty in raising sufficient revenue," Mr. Harrison said when questioned on this point, "no do I think it will be necessary to impose any direct taxation. In certain instances you will find that, by reducing the rate of duty, you will increase the amount of the revenue collected."

Trouble Over Use OF THE BRIDGE AT PROVINCE CAPITAL

Fredricton, N. B., Jan. 17.—The provincial authorities seem determined to keep the Fredericton highway bridge closed for traffic during the winter except when it was being repaired, and that he would be justified in forcibly removing the obstructions. This morning when he started for St. Mary's he found the entrance to the bridge blocked by the iron bars, which he says were placed there for his benefit. He forcibly removed the obstruction and drove his car across the bridge. Dr. McNally is a son-in-law of J. K. Pinder, M.P.P., for York, and a prominent Conservative.

He declares that he will continue to use the bridge regardless of what action the department might take.

The total area is 60,000 feet, and the price paid \$300,000, represents an average of \$492 a foot, probably the highest ever paid in Montreal for so large an area of residential land.

ALBERTA BIDS FOR IMMIGRANTS

Edmonton, Alb., Jan. 17.—Premier Sifton on his return to Edmonton yesterday from the old country announced that so impressed is he with the possible emigration from the British Isles for Canada this year that the government of Alberta will probably formulate some scheme to specially induce immigrants to settle here.

This proposal entails departing to England, Scotland and Ireland some kind of a project to bring to the attention of intending immigrants the claims of the province.

Chatham, N. B., Jan. 17.—An agricultural meeting held in Napan last evening was well attended. Seth Jones was called to the platform and could not give his address. This occasioned remonstrance, and one speaker expressed himself in strong terms on a policy of announcing a circuit and speakers and then have the government call away one the speakers.

However, the audience enjoyed the address of Mr. Flewelling, which was a good practical exposition of the subject of cow-leasing and record-keeping, also the care of the dairy herd and of milk.

YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy, Made From Garden Sage, Restores Color to Gray Hair

A feeling of sadness accompanies the discovery of the first gray hairs which unfortunately are looked upon as heralds of advancing age. Gray hair, however, handsome it may be, makes a person look old. We all know the advantages of being young. Aside from the good impression a youthful appearance makes on others, simply knowing that you are "looking fit" gives one courage to undertake and accomplish things. So why suffer the handicap of looking old on account of gray hairs when a simple remedy will give your hair youthful color and beauty in a few days' time?

Most people know that common garden sage acts as a color restorer and scalp tonic as well. Our grandmother used a "Sage Tea" for keeping their hair dark, soft and luxuriant. In Wyeth's Sage and Sulphur Hair Remedy, we have a final preparation of Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp and weak hair. This is split at the ends or constantly coming out. A few applications of this valuable remedy will bring back the color in a short time; it will remove every trace of dandruff and greatly improve the growth and appearance of the hair. Get a fifty cent bottle from your druggist today, and notice the difference in your hair after a few days' treatment. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Agents: Watson's 3 Retail Stores, King Street, Main street, and Haymarket Square.

Hundreds of St. John people have read about the great rural comedy, "Polly of the Circus," the play which enjoyed such a great run in the larger cities last season. The wonderful success of the play has made its name famous in the theatrical circles, and its presentation at the Opera House this evening is worthy of more than passing notice. "Polly of the Circus" will be repeated tomorrow afternoon and evening.

SCOTCH CHARACTERS IN FRECKLES

Great care has been taken by Manager A. G. Delamater in selecting the artists to create the different roles in the dramatization of Gene Stratton-Porter's novel "Freckles." The most difficult role to fill was that of Freckles, as it not only required an exceedingly young, handsome actor, but one who was possessed of a splendid singing voice as well. At least a hundred different applicants were interviewed before one was selected.

Little Beauty Chats By BLANCOE REASON

Have You a Pretty Back? One thing that every self-respecting back should have is a dimple in the center of each shoulder blade. If your back is dimpled, it might be a good idea to treat it to a fifteen minute massage with cod liver oil every night, as this fattening treatment will bring dimples if anything will.

All angles instead of curves, then it is evident that you must eschew decollete dresses, as for the next few months, frocks out so as to expose a goolly portion of the back will be all the rage. The back that fascinates the eye is slender but not thin. It is overlaid with a veiling of firm, white flesh. It slopes gently into the waistline by almost imperceptible degrees. Have you such a back, lady fair?

PANAMA CANAL OPEN TO TRAFFIC JANUARY 1, 1915

Washington, Jan. 16.—Colonel George W. Goodhue, chairman of the Isthmian Canal Committee, told the house of the progress of the Panama Canal, over which he expects to send a ship or two experimentally next autumn. He and half a dozen bureau chiefs of the war department spent the day at the capitol explaining the official estimates of \$8,700,000, that the government wants provided for in the coming sundry civil appropriation bill to cover fortifications, batteries, camps and the like during the next fiscal year. Ultimately the fortification expense is estimated at \$15,000,000. The date set for opening the canal to commerce is July 1, 1915. RAMORE HEAD ARRIVES

The S. S. Ramore Head arrived in port last night from Port Talbot, Wales. It took the steamer twenty-three days to make the trip, rough weather being encountered all the way. The steamer was light, and at times the weather was so bad that the propeller was out of the water. The Ramore Head will load here for Dublin. According to a despatch the steamer Richard was pulled off the rocks at Chatham Head last night and is now at Halifax. The British schooner Hardwick stranded on Fuller's Rocks near Popham Beach, Me., yesterday. The crew was saved.

A Few Words Concerning Our \$18 and \$20 Suits

IT IS TO THE ECONOMICAL MAN THAT WE COMMEND OUR \$18 AND \$20 SUITS—satisfied that at that price they offer the utmost in style, quality and tailoring.

I. C. R. LOCAL MATTERS

A change is being contemplated in the matter of the arrangement and keeping of stores in the C. R. and C. R. being introduced for the first time in the service in this city. The new methods are widely different from those formerly employed and in order to deal with the introduction of the new system some of the officials from Montreal are today in the city, and may remain for a while until it is established in order to see how it works out. W. F. Taylor, general store-keeper of Montreal was here today in connection with the matter, as was J. Stewart, inspector, and it is expected that the latter will remain for some time to aid the local staff in the work.

J. B. T. Caron, of the I. C. R. board of management was also in the city today with George Ackman, claims agent, S. L. Shannon, who came yesterday, is still here, while J. F. Hallisey and W. F. Paver have returned home.

GERMANY SENDS THE NOTE ALONG

Consents to Presentation of Document to Turkey MORE CRUELITIES ALLEGED

Twenty-five Thousand Albanians Said to Have Been Slain by Servians and Commission of Inquiry is Demanded

London, Jan. 17—Germany's consent to the presentation of the ambassadors' note to the Ottoman government, the absence of which has delayed the action of the powers, has now been given. Instructions have reached the German Ambassador in Constantinople to participate with his diplomatic colleagues in handing the note to Turkey.

Vienna, Jan. 17—Twenty-five thousand Albanians have been "more or less wantonly" killed in the Turkish province of Kosovo, by the Servians regular and irregular since their invasion of European Turkey, according to the Reichspost.

The newspaper, which avers that its informants are absolutely reliable persons in Albania, demands the despatch of a European commission to verify the accuracy of the reported horrible atrocities.

Constantinople, Jan. 17—Representatives of an international group have had several interviews with a view to arranging a loan to relieve the pressing wants of the Turkish treasury. Slow progress has been made and it is feared that nothing can be done until peace has been concluded.

Albania, Jan. 17—A royal decree appoints Crown Prince Constantine commander-in-chief of the Greek armies in Macedonia and Epirus.

JANUARY THAW IN PRICES. The clearance sale at Waterbury & Raingie, King street store opened with a rush this morning. Evidently people are convinced that when this firm announces a sale, a bargain feast can be looked for.

The mildness of the weather, no doubt, tempted many to visit the sale this morning, as the store was crowded from the time of opening and the staff of salespeople were kept bustling up to the hour for dinner. The firm wisely decided on closing up for an hour from 1 to 2, enabling the entire staff to be present throughout the entire day. Extra salesmen have been provided for Saturday's business.

Dorothy Doid samples which were offered at the remarkably low price of \$2.98 a pair, were picked up rapidly. Undoubted bargains are being offered in every department.

EARL GREY'S PLAIN WORDS
Earl Grey has administered a well merited rebuke to Mr. Austen Chamberlain and other Unionist leaders who in their eagerness to create prejudice against Liberals in England have hoped to gain something by making grossly unfair attacks upon the Liberal party in Canada.

There never would have been any such talk as that of Mr. Austen Chamberlain, reflecting upon the loyalty of Canadian Liberals, but for the flag-waving tactics of Tories in Canada. The Liberals of this country will entertain a still more kindly regard for Earl Grey because he is more just to them than some of his fellow countrymen.

IT IS A LIVE ISSUE
The Toronto World offers some advice to Sir James Whitney. The World is a Conservative paper which does not agree with the Ontario premier in his views in regard to tax reform. It declares that he is evidently suffering from the advice of the Conservative machine politician, and says that he ought to get out and see for himself what is going on in the province, adding that if he did so he would discover that there is a genuine demand for tax reform. Sir James, however, persists in asserting that the whole agitation has been started by a few single taxers, and that it amounts to very little.

CONSERVATION
Mr. James Lawler, secretary of the Canadian Forestry Association, attacked the recent annual convention of the American Forestry Association. He agrees with Mr. Gifford Pinchot whose views were recently stated in this paper, that there is to be a great battle in the United States which will involve the whole question of conservation. The trusts would like to secure control of the rich timber, mineral and water power lands which are controlled by the federal government. They think they would have a better chance to gain their ends if these lands were handed over to the different states. It would be easier to get control of a state legislature than of congress, so there is to be a fight for the state ownership of the lands, and behind it will be the influence of the trusts. Thanks to the friends of conservation, however, the country has been fair-

Mr. Chas. Beauvais.
Doctors say that about one person in every four suffers more or less from piles, and who can imagine a more annoying, torturing, disagreeable ailment?
After trying a few treatments without success, and as the ailment grew worse, the medical doctor he consulted, an operation, he says, is necessary. You think of the suffering, expense and risk to life itself, and hesitate before taking such a step.

RECENT DEATHS

J. M. Steeves, aged seventy-five years, a native of Salem, Albert county, died yesterday at his home in Moncton. He is survived by his wife, two daughters and two brothers.

Mrs. Robert A. Gregory died yesterday at the advanced age of ninety years at her residence 83 Main street. She is survived by four sons, James S. and Thomas W. of St. John, M. H., of Cass Lake, Minn., and Charles S., of Orilla, Wash.; also two daughters, Mrs. J. E. Lemieux of this city and Miss Sarah, at home. Mrs. Gregory was the daughter of the late Noble Kinkaid and came to this city from Ireland; while a young girl. In 1833 her father with his wife and two daughters sailed from St. John in a ninety-ton schooner for Australia, attracted by the discovery of gold there.

The death of Mrs. Agnes Love, widow of William Love occurred on Wednesday at the home of Mrs. E. Johnston, Gibson's daughter. She was eighty years of age. One son, William Love of Glassville, survives, also three daughters, Mrs. W. Dawson of McLellan's Brook, N. S., Mrs. E. Johnston of Gibson and Mrs. W. P. Hageman of Elmerville.

On Wednesday at the residence of Mrs. John Cain, in Fredericton, her granddaughter, Miss Mary Dobson, of Fort Fairfield, was united in marriage to Robert McCordick.

Frank G. Good, of Ward Settlement, and Miss Dora M. Currie, of Cross Creek, were married at St. Peter's Manse, Stanley, by Rev. F. W. Murray on Wednesday.

Looking to New Brunswick

Sussex Record—F. W. Crawford, who is pushing his eastern real estate business, has among his correspondence, ample evidence of the interest that is being taken in the Maritime Province real estate. A resident of Alabama wants to buy a market garden near St. John. Another plot of the same character is desired by a resident of Victoria, B. C., who wants to leave British Columbia for New Brunswick. He is convinced that he can do better in the province. A Massachusetts man wants a good farm in this section and a fourth applicant, now living in California, desires to leave his location there and become a resident of this province. These are only a few of the calls Mr. Crawford has for New Brunswick farms.

Progress in Sussex

At the last meeting of the Sussex town council, on motion of Ald. McKenna, seconded by Ald. Sharp, the mayor, and aldermen Pearson and Turner were appointed a committee to confer with the Hon. J. A. Murray in regard to the location of the proposed new agricultural college in the town of Sussex.

Ald. McKenna moved that in view of the importance of procuring natural gas for Sussex a committee be appointed to confer with the Maritime Oil Fields, Limited, of Moncton, with a view of having that company commence active boring operations at or near Sussex, whereby the town may be supplied with natural gas for domestic lighting and manufacturing purposes. This was seconded by Alderman Chapman, and Aldermen Pearson, McKenna and McLeod were appointed the committee.

CHANCE MISSED. A well-known doctor and a certain miser are great friends, but they dearly love a joke at each other's expense. The latter once delivered a series of lectures, and one of them—on Palestine—was not interesting enough to please the audience, which gradually withdrew before its

conclusion. Not long afterwards the miser's house was entered by a burglar. He gave a graphic account of the affair to his friend the doctor, and ended by saying: "I had him on the fat of his back. I held him so that he could not move an inch."

"Good!" exclaimed the other. "But, my dear sir, what a splendid opportunity that was to have delivered to him your lecture on Palestine!"

"You may talk nonsense if you know it is nonsense, and the others know, and know that you know."

FORMER HEIR TO GRAND DUCHY A BANKRUPT

A Few Years Ago Count Took Chorus Girl as Bride

London, Jan. 17.—A royal marriage romance is behind proceedings opened in the Bankruptcy Court against Count Herman Oskheim. This obscure title covers the identity of the former heir to the Grand Duchy of Saxe-Weimar, who in 1909 renounced his rights to the revenues and territory thereof in order to marry Wanda Lettner, one of the Maxim girls in the "Merry Widow" production in Daly's in London. He got an allowance of \$10,000 from his royal friends, and managed to get along. His wife used him for divorce in France in 1911, and got a dissolution decree. Other lawsuits in England and Germany drove the count into the hands of a London usurer, who has filed a petition against him.

AGREEMENT COVERING ALUMINUM INDUSTRY

Washington, Jan. 17.—The existence of an international agreement covering the aluminum industry was revealed before a house committee on ways and means. President Arthur V. Davis, of the Aluminum Company of America, admitted that his company, the only aluminum manufacturer in the United States, owned the Canadian Aluminum Company, which in turn had perfect agreements with all of the six or seven foreign aluminum companies. This agreement, he said, covers all the world except the United States, which he admitted to Representative Rainey, of Illinois, was exempt because there is no law here prohibiting it.

Mr. Davis protested against any threatened reduction of the tariff on aluminum.

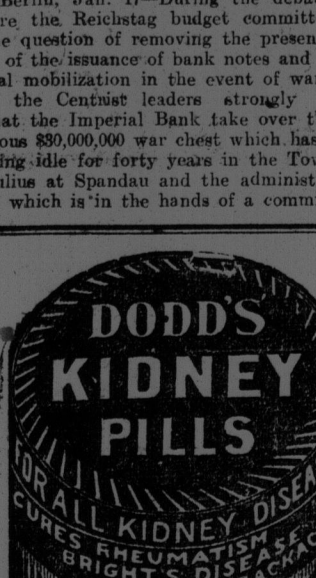

NURSE WEDS PATIENT'S SON

Pittsfield, Jan. 17.—Miss Mary Kennedy, daughter of Mr. and Mrs. Michael Kennedy of Lee, started last month for California to be a trained nurse. She had ambitions of a professional career. A woman passenger was taken ill and Miss Kennedy volunteered her services.

The sick woman was the mother of Francis Prairie, a wealthy ranchman of Merced City, Cal. Miss Kennedy gave attendance to Mrs. Prairie for several nights and Mr. Prairie also watched his mother. When California was reached Mrs. Prairie was recovering and Mr. Prairie had proposed marriage to Miss Kennedy. They were married in Merced City and are returning eastward on their wedding journey.

GERMANY'S WAR CHEST

Berlin, Jan. 17.—During the debate before the Reichstag budget committee on the question of removing the present limit of the issuance of bank notes and financial mobilization in the event of war, one of the centrist leaders strongly urged that the Imperial Bank take over the \$500,000,000 war chest, which has been lying idle for forty years in the Tower of John at Spandau and the administration of which is in the hands of a commission.

THE CITY LIFE BOAT.

Wm. Murdoch, city engineer, is now investigating the merits of various makes of gasoline engines and other varieties of motors for use in the city life boat. The common council decided, several weeks ago to have the life-boat overhauled and an engine installed, and to place it at the disposal of the harbor master. As the boat may be in constant use, but when it is wanted it is likely to be needed in a hurry, the engineer is going into the matter very carefully with the intention of securing the most reliable type.

MR. LODGE AND THE I. C. R.

Montreal, N. B., Jan. 17.—At a meeting of the Montreal Board of Trade last evening, President Matthew Lodge, discussing affairs of the I. C. R., is reported to have said "If you were closely connected with the government, you would learn that the I. C. R. will likely be sold or leased shortly." He said that the actual transaction had been under consideration for some time, and he understood that a contract had already been made out.

Referring to interviews credited to him by Montreal papers regarding transfer of the I. C. R., he said he was not going to deny or affirm them. That was his own personal view. A committee from the Maritime Board of Trade would go to Ottawa on February 18 on an entirely different matter.

HOPE TO SEE WORK IN LANCASTER STREET SOON UNDERTAKEN

Want Opening up of That Part Between Charlotte and Winslow Streets

A street improvement which it is figured would cost but little but which would prove of great value to many persons, as being urged by the residents of the upper section of Carlton. This is the opening of a block of Lancaster street between Charlotte and Winslow. This block of the street has never been completed although the street is built up to it in both directions. The rough rock which composes the street at this section makes it impossible for use either for residential purposes or as a thoroughfare but if it were properly levelled and graded the block would form a thoroughfare which would add greatly to the convenience of residents in that portion of the city. Some of the rock has been quarried out and it is believed that contractors would be willing to remove the balance free or even pay for the privilege. If this could not be done it is said that the work could easily be performed by the city prisoners. A petition asking that the work be attended to was presented last year and was received very favorably. The large number of citizens who signed the petition are hoping that the cost of the work has been included in the estimates for 1913 or that, if not, provision can be made in some other way so that there should be no more delay.

PYTHIANS DO THE THING IN GOOD STYLE

Reunion of Three Ledges and Lady Friends Proves Great Success

Seldom has there been a larger gathering in the Keith's Assembly hall, and it would be hard to imagine one more enjoyable or one more thoroughly enjoyed, than the reunion of the Knights of Pythias of the city last evening. The three local lodges, New Brunswick, Union and St. John, united in holding the entertainment to which their ladies were also invited and the preparations for the gathering were such as to ensure its success from the start. The rooms were attractively decorated. The reception room was furnished as a luxurious drawing room. Here, as the members and their guests entered they were greeted by Chancellor Commander Joseph Patchell of N. B. Lodge, Chancellor Commander Edwin Waters of St. John Lodge, North End, and Grand Master James H. Golding, M. Ross and others. Reception music was furnished by Jones' orchestra which furnished music during the evening and, later on, for dancing.

The ball room was seated as an auditorium and here the first part of the evening's programme was given. Supreme Master at Arms, Dr. F. A. Goddard presided and outlined the purpose of the order and told of the progress which it has made. Hon. Robert Maxwell also addressed the meeting, relating the old legend from which the order takes its name and showing how the spirit of Pythias was perpetuated by the principles of the order. Some novel features were introduced in the programme. These included a boys' trio by Messrs. Nobles, sons of Rev. B. H. Nobles, and Master Irving, son of Rev. B. H. Nobles, and Master Irving, son of Rev. B. H. Nobles, and Master Irving, son of Rev. B. H. Nobles. A quartet, including Misses Stammers, Brown, Blanche and McLean also made a very favorable impression. Another feature of special interest was a lantern trip to Winnipeg, presented by E. F. A. Kinman, through the courtesy of the C. P. R. This is the first of its kind to be taken by the local knights who will be members of the maritime province contingent which will journey to Winnipeg next year for the biennial meeting of the supreme lodge and the views shown gave an excellent idea of the country through which they will pass and of some of the side trips they can take.

Yeal solos were given by C. A. Munro, James Garnett and Signor Manetta and a series of moving pictures were shown. At the conclusion of the programme supper was served in the three rooms simultaneously and the floor was then cleared for dancing which was enjoyed by the young people until one o'clock.

GOOD WORDS FOR FORMER SAINT JOHN CITIZEN

Wm. Andrews Held in High Esteem on Staten Island

A former St. John man, William Andrews, now a resident of Staten Island, has attained in the community which he has chosen as his home a place which has led to a eulogistic article in "The Staten Islander," published in St. George, New Brighton, Staten Island. A picture of Mr. Andrews also appears in the same issue. Mr. Andrews, who has many friends in St. John, is a brother of Mrs. J. F. Tritts of this city. The article is as follows: "Just how long William Andrews has been recognized as the first citizen of Tompkinsville is a matter of dispute but there are many who declare that he is the only man given that recognition since Governor Tompkins. "In any event it is probably safe to say that Tompkinsville has had no more loyal and patriotic citizens, and he has played a very important part in building it up. Mr. Andrews has been, for many years, one of the island's leading builders and carpenters and he has erected many of the buildings at Tompkinsville, besides homes in other sections. And he is still active in the business. "He has always taken a lively interest in civic movements for the benefit of the island and was one of the most enthusiastic workers in the old volunteer fire department. "If a man is only as old as he feels Mr. Andrews is not yet past his prime, for there are few more lively who are past fifty. He is active in business and still finds time to be active in sports. He has long been a devotee of the bowling game, was one of the leading tournament bowlers in the runways each week yet, and can still make some of the young fellows huddle to beat him when he sets his 'hook' loose."
