HEBRIDEANS IN CLASH ON LEAVING Cable Tells of a Fight as Men Start Trip to St. John.

FACTIONS BATTLE A Misunderstanding Hurled Men Into Fierce Encounter. A spectacular battle on the rugged shores of one of the Hebrides Islands marked the farewell hours of a band of Crofters who are coming to Canada to locate and who will arrive in St. John probably on next Monday.

Real Man's Fight It was a real man's fight, no knives or guns, but the weight of a man's fist that told the tale. When the men had called a truce to their hostilities they boarded the steamer and although some are undoubtedly carrying decorations in the form of bloody cuts, etc., there is no doubt good fellowship again prevailing and on their arrival in the Land of the Maple Leaf they will put shoulder to shoulder and start a different kind of a fight, that of making good in the land of their adoption.

PASTOR HOLDS  
FIRST SERVICE

Rev. W. McN. Matthews,  
First Presbyterian Church,  
West End, is Welcomed

Rev. W. McN. Matthews, new minister of the First Presbyterian church in West St. John, conducted his first services in the church yesterday. There were large congregations to greet him. His sermons were well received. In the morning Mr. Matthews had for the theme of his address, "The Secret of Power" as conveyed in the text found in Zechariah 4:6, "Not by might nor by power, but by My Spirit, saith the Lord of Hosts." The preacher pointed out the greater difficulties facing the prophets in old times as compared with the difficulties of today. In the times of the prophets the people of Israel were languishing on the shores of the River of Babylon and fighting for their own home. Through their trials and when after liberation they returned and reconstructed Jerusalem it was the power of God which sustained them. The same principle as that enunciated by the prophets is found in apostolic days when the Spirit of Christ led His disciples to overcome mountains of difficulties such as the power of the Roman Empire and the bigotry of the Jews.

He had given the careful thought which he had received to come to minister to the congregation and said that in accepting it he had realized that it would not be an easy task to follow in the footsteps of the former minister, Rev. Dr. A. Morrison, a man of such excellent qualities. He could not undertake the task alone, Mr. Matthews declared, and he asked for the cooperation of the congregation and of the various organizations in the church in mutual dependence on the "unseen power"; "Not by might nor by power, but by My Spirit." During the morning service the choir sang the anthem, "My life is like a stormy sea."

George Gray Returns From  
Japan, China and the  
Philippines.

After an extended tour of the East during which he visited Japan, China, and the Philippine Islands, George Gray has returned home. His trip combined pleasure and business. While in Japan he visited Yokohama and while there had the unique experience of feeling the sensations brought on by a real earthquake. He said the former beautiful city is still a mass of ruins and that no permanent buildings will be erected for two years, during which time experimental work will be carried on to determine which style of structure will withstand earth quakes.

He said the odors of the dead bodies is still much in evidence. While in Manila he also felt a slight earth quake.

CANDIDATE'S CAR IS  
STOLEN AND BURNED

Montreal, March 30—While Dr. Ernest Poulin was telling electors of St. Jean de La Croix ward on Saturday night why they should elect him to the City Council next week, a thief stole his automobile and after driving to Notre Dame De Grace, about seven miles distant, was forced to abandon the car when it suddenly burst into flames. Passing citizens put in a fire alarm, but when the firemen arrived the car had been almost completely destroyed.

BLOOD AND ONIONS

THOMAS KANE AND HIS THREE CHILDREN.

(By Steve Hannagan.)  
New York—Thomas Kane, 89, a night watchman, and the father of three husky children, is the world's greatest blood merchant. Physicians have tapped his veins for 30 pints of rich, healthy blood, to save the lives of others in 29 transfusions during the past ten years. Eating 18 to 20 raw onions each day, together with other vegetables, keeps the Kane blood reservoir filled. He eats very little meat. Only one of the 59 people to whom Kane has given his blood has died. All the others regained their strength and health, aided by the corpuscles from his sturdy red blood filtration plant. "I got started in the blood business in 1914," he says. "A doctor advertised for a blood donor and among 20 others I answered the ad and had a sample of my blood taken. "A few hours later a telegram informed me that I had been chosen as the one with the best blood. Ever since then I have been in constant demand. Now I give all of my available blood to private cases." The least blood Kane ever had taken from his veins was one-half pint; the greatest amount a full pint. He has been paid variously from \$25 to \$150 for each quantity of life's blood he has taken from his veins. "Twenty minutes is the shortest time Kane ever has spent on an operating table during a transfusion—but once it required 1 hour and 40 minutes. "I lose about two pounds each time they take a pint of my blood. But I regain my strength in a few days. Within ten days I have given blood three times, suffering no ill effects," Kane says. Kane stands 5 feet 7 1/2 inches and weighs 175 pounds. He never is ill. He has been married ten years—and there are three little Kanes, James, 7; Agnes, 6; and Lillian, 4. The children never have been ill. Kane's arms bear scars of the blood transfusions for each time he gives blood it is necessary to make an incision in his arm. Once it was taken from a foot—because both arms had been cut only a few days before. "I don't mind a bit," concluded Kane, "and it helps suffering humanity as well as helping me to raise my family and see that the children get an education."

QUICK HANDLING  
AT WEST ST. JOHN

More Than 3,000 Pieces of  
Hand Baggage From  
Two Steamships.

Some idea of the amount of work occasioned by the arrival of so many passengers at Sand Point can be gleaned from the fact that on Saturday and Sunday more than 3,000 pieces of hand baggage were handled by the C. P. R. baggage men off the steamers Montcalm and Metagama. On the former there were 1,963 pieces and on the latter 1,449. In addition to removing this from the steamer it was all sorted out and checked to proper destinations in a few hours. The efficiency of the staff is largely credited with this quick handling and as a result practically no delay is occasioned the passengers.

PERSONALS

Miss Gladys Batsch left this morning by the steamer Empress to visit friends and relatives in the Annapolis Valley. E. J. Cronin left on the noon train today on a business trip to Halifax. Miss Vera King of Chipman is the guest of her uncle and aunt, Hon. Dr. J. H. King and Mrs. King, Ottawa. Mrs. M. B. Edwards of St. John is in Montreal to visit her daughter, Miss Christian Edwards, who is a student at McGill. Mrs. Edwards is the guest of friends. Dr. E. W. Rowley, who has been spending some weeks in California, has returned home. Mr. and Mrs. A. B. Kitchin, who have been wintering at Palm Beach, Fla., will leave for their home in Fredericton in April, coming by motor car. J. B. Hawthorne, Fredericton, chief inspector of the Prohibition Act, was in the city Saturday. Dr. G. G. Melvin, Fredericton, chief medical officer for the province, spent Saturday here. A Crookshank, general superintendent of the St. Valley Railway, was a visitor in the city Saturday.

LECONFIELD IS TO  
GO INTO DRY DOCK

Herwyn Will be Completed  
This Week—To Be Re-  
placed by Conqueror.

The tug Ocean Eagle, big ocean-going craft of the St. John Dry Dock and Shipbuilding Co., arrived in the city yesterday from Halifax via Yarmouth and this morning was pulled up on the marine slipway, where she will be painted. The work will take two or three days. It is expected that extensive repairs and a survey which are being carried out on the steamer Herwyn, now in the big basin, will be completed about Thursday and soon after she is floated out of the dock, the C. G. M. liner, Canadian Conqueror will be placed on the blocks in the docks for repairs. It is the company's intention later in the spring to place their big suction dredge, the Leonfield, in the dock for her annual overhaul and repairs.

HARVESTERS TO  
DEMAND WORK

Failing That They Will Ap-  
ply to Premier For Gov-  
ernment Aid

Ottawa, March 30—A demand that work be provided them at a living wage, or failing that, that they be maintained by the Government together with a request that the existing immigration laws be changed, will be made tomorrow or Tuesday to Premier King by the 30 odd hiving British harvesters who are now at Manotick, 15 miles from this city, and who are expected to reach Ottawa tomorrow afternoon. The hivers will endeavor to interview Premier King, Hon. James Murdock, Minister of Labor; Hon. W. R. Motherwell, Minister of Agriculture, and Hon. J. A. Robb, Minister of Immigration, according to James Law, their leader, when interviewed at Manotick today. They will hold a public meeting here, according to present plans. They based their demand for work, or a satisfactory substitute, on the claim that conditions in Canada were misrepresented to them by Canadian agents in England, Mr. Law said. The change in the immigration laws the hivers will request is that the flow of emigration from England be regulated, so that no more would come from the Old Country than Canada could absorb.

SISTERS BECOME NURSES  
Among recent graduates of Mount Sinai Hospital, New York City, were Misses Charles Higgins, daughter of Mr. and Mrs. C. W. Higgins, 41 Victoria street. Her sister, Christian E., has also completed her training at the General Hospital, this city.

NEARLY A RECORD  
The activities of the local prohibitionists resulted in the revenues of the province being swelled by the sum of \$4,660 this month. In only one month has there been a larger sum collected in fines from violators of the prohibitory law, December, 1923, when \$5,000 was taken in.

SISTER LIVES HERE  
Charles L. Lawson, whose death, in Sunbury County, under sad circumstances, is reported on page 9, is survived by his mother and his step-father, William Dillon of Shirley settlement, with whom he resided; three sisters, Miss Edith Lawson of St. John, Miss Jessie Lawson of Devon and Mrs. L. McLeod of Bantolow. Several half brothers also survive. Alex. Burnett of Ormoco, coroner, decided an inquest was unnecessary.

ON VISIT FROM MONCTON  
The officers and degree staff of Tidal Wave Temple, Egyptian Sisters, arrived in the city at noon today, accompanied by a large number of members of the temple to pay a visit to Moulton Temple of this city. Tonight the members of Moulton will entertain the visitors from Moncton and the members of Temple and their gentlemen friends at a dance in Castle Hall. The initiatory degree is to be exemplified by the visitors in the early part of the evening.

IS FINED \$10  
That he had lost his way and was trying to get back to his ship was the defence offered by William McLaughlin in the police court this morning when he was called on to answer a charge of vagrancy. Detective Biddiscombe testified that he found the defendant in a vacant lot off St. James street. Three young ladies appeared and, after looking at the defendant, said that they saw a man peering into a room in a house off McLeburn street last Saturday night. He was fined \$10.

MORE LIQUOR FINES  
When a charge was read against Francis Homan in the police court this morning, having liquor in his possession other than his private dwelling house, he failed to appear, and was committed to jail. He had put up a deposit of \$200. He was fined a similar amount last week for selling liquor to a seaman. He will be summoned to court. In the Police Court, Detective Garnett visited his residence in Long Wharf last Saturday. George Hesketh was fined \$200 in the police court this morning on a charge of having liquor in a beer shop in the Royal Hotel. Edward Elliott was fined a similar amount for having liquor in his beer shop in Prince Edward street. Wm. M. Ryan appeared on behalf of the prosecution in both cases.

LOSS OF LIFE IN  
AMALFI IS LESS

Salerno, Italy, March 30—Late returns show the actual loss of life from the landslide in the Amalfi district to be less than was at first calculated. The railway has been cleared as far as Amalfi, making systematic assistance easier, and four ships have arrived there with clothing, mattresses, milk, bread and preserved meat. Carriers and soldiers are still working indefatigably and encouraging the population to excavate their buried houses and seek those whose fate is uncertain.

WONDERS AT LACK  
OF CONFIDENCE

Montreal, March 30—"Is it because Canada is too big or because the people are too little that whispers of fear and lack of confidence characterize so many men of affairs today?" asked Hon. Frank Oliver, addressing members of the Montreal Reform Club here Saturday. As a member of the Railway Commission, Mr. Oliver said, he could not talk politics. He expressed anxiety at the lack of confidence in themselves and lack of faith in the country by many of those who come before the railway commission in all parts of the Dominion. Mr. Oliver charged that the men of today seemed to be so obsessed with the idea of difficulties on every hand that they looked upon the future with pessimism. In the old days of the Northwest Company the merchants were men of faith and courage. "You cannot," he concluded, "carry the business of a country like Canada as if it were a parish, when it should be done in the empire way. The country's affairs must be handled by big men in a big way."

Canadian Ports Are to  
Benefit By New Order

U. S. Act Will Divert Big  
Flour Trade to the  
Dominion

Montreal, March 30—Preferential railway freight rates on goods carried to and from the United States on United States vessels, provided for in section 28 of the United States Merchant Marine Act and to be enforced May 20 next by an order of the Interstate Commerce Commission, will react to the benefit of Montreal and other Canadian ports by diverting here a large proportion of the flour traffic that now finds its outlet through American ports.

THROTTLING CANADA'S TRADE  
(Toronto Globe.)  
The discrimination in Atlantic Ocean rates against Canadian flour is compared with American flour is to be investigated by representatives of the Imperial Shipping Commission who are coming to this country for that purpose. This Commission should also investigate other instances of discrimination against Canada which, in the aggregate, are more injurious.

Discrimination by British marine insurance interests is an old but serious grievance. Both Halifax and St. John were included with the St. Lawrence ports when marine insurance rates higher than those for ports in the United States were first put into effect, now many years ago. This discrimination in favor of American ports applies to all British North America ports on the Atlantic coast. A notable instance occurred a couple of months ago when one of the round-the-world vessels of the Robert Dollar Steamship Company was offered at Shanghai an attractive cargo of tea for Halifax, but was unable to accept it because British underwriters refused the steamer permission to land at Halifax without an additional premium. Halifax is one of the safest and most approachable harbors in the world, and vessels to and from New York pass its doors, but these underwriters discriminate against it in favor of American ports. Canadian delegates to the Imperial Conference last October brought up this injustice to Canadian ports on the Atlantic, but received no satisfaction. The North Atlantic Shipping Conference long before the war absorbed in freight rates part of the preference given by Canada to British goods, and in effect moved that preference to promote exports from the Continent of Europe to the disadvantage of British exporters. The Imperial Shipping Commission, if it has any real authority, should be supported energetically by the Dominion Government with a view to removing these unfair restrictions on the development of Canadian trade.

## DECLARES EAST MUST DO JUSTICE TO CANADIAN WEST

Lieut.-Governor of Alberta Says Representation in House Inadequate

(Canadian Press Despatch.)  
Winnipeg, Man., March 30.—The present representation of the west has at Ottawa is totally inadequate, and until we have a real voice in the settlement of our own affairs Canada as a whole will not go ahead efficiently," declared Dr. R. C. Brett, Lieutenant-Governor of Alberta here Saturday. The most important problem, he said, was the absolute necessity of the west urging adequate representation at Ottawa. Although no one could desire separation for one moment—such a thing would be the ruin of the country—nevertheless the east had to sit right up and realize that the west had to be given a proper voice in the management of its affairs. Too long had the west been looked upon by the east as a little child, with itself as governess.

Will Get More.  
Ottawa, March 30.—A distribution bill to be brought down this session by the Government will give Western Canada 12 more members and reduce Nova Scotia's total membership by two, under the terms of the British North America Act, which fixes Canada's parliamentary representation on

the basis of one-sixty-fifth of Quebec's population. British Columbia is increased from 18 to 14 members; Manitoba from 18 to 17; Alberta from 12 to 16 and Saskatchewan from 16 to 21. The number of members of parliament will be increased, if the bill goes through from 235 to 245. The bill was before parliament last session but failed to pass a special committee of the House.

## ASKS INTEREST IN QUEEN MARY'S GUILD

To interest Canadians in Queen Mary's Needlework Guild, was the purpose which brought to Canada Mrs. G. A. Heather, of London, formerly of Kitchener, Ont. She was also accompanying her husband, Major G. A. Heather, who brought a party of 180 Irish lads to this country, to settle on the farms of Ontario. Major and Mrs. Heather arrived yesterday on the Metagama.

## MONUMENT WILL HONOR CANADIANS

Montreal, March 30.—Sir Arthur Currie has received the notification of the completion of the monument erected in the Town of Denain, in the Department Du Nord, France, to the memory of the soldiers of Denain, who died during the Great War and of the Canadians, buried in the cemetery there. The monument is surmounted by a large figure of Peace and bears in the front below the figure the statue of a French poilu. The back shows the entry into Denain of General Currie and the troops of the Canadian Corps. Round the base are inscribed all the names of the soldiers from the Town of Denain who were killed and the names of the Canadians buried in the cemetery there.

## GROGER HELD UP ON WAY TO HOME

M. A. Bowes is Beaten at Midnight, But Neighbor Comes to Rescue.

Michael A. Bowes, who resides at Harding and Germain streets, and who conducts a grocery store at Duke and Carmarthen streets, was the victim of a holdup on Saturday night about ten minutes before midnight. Although severely shocked and was saved from being robbed by the appearance of Thomas I. Baxter, 28 Harding street, who rushed to his assistance. The holdup men left their victim lying on the sidewalk.

Mr. Bowes, after concluding a day of business, counted his cash, placed everything in order in his store, and started for his home, carrying a basket of groceries. The shortest route from the store was along Duke street down Sydney, through Queen square and then through Harding street to Germain street where he resides.

## Mr. Bowes Struggles

Mr. Bowes struggled and the basket of groceries was thrown to one side. He was finally hauled down on his back. He called for assistance. Mr. Baxter did not refuse and hearing the noise knew there was something wrong and rushed from his home and found Mr. Bowes arising from the sidewalk. Mr. Baxter accompanied Mr. Bowes to his home, fifty yards away. Mr. Bowes informed Mr. Baxter and also the members of the detective department that he could not give a very clear description of his assailants, but he was satisfied that they were men weighing 180 or 140 pounds. They wore

caps on their heads, but he could not say if they wore overcoats.

## Attack is Sudden.

The attack was sudden and Mr. Bowes was having such a hard time with the assailants that he could not remember their looks, he said.

## Other Bold Holdups.

Bold holdups on streets while not a frequent occurrence, have taken place on several occasions within the past several months in the city. A woman had her hand satchel taken from her on Crown street by a young man after he knocked the woman to the ground. Another woman was held up on City road and her pocket book stolen from her. Later, John H. Hamilton was held up by two men on Spring street and assaulted and the men who attacked him ran away only when neighbors were attracted to the scene by Mr. Hamilton's cries for help. One of the suspects for this holdup was arrested and tried and is now out on bail after the petit jury disagreed. All of these cases have taken place within six months.

## BUNIONS Can Be Relieved By Dr. Scholl's Bunion Reducer

This appliance has a peculiar concave shape, purposely so formed to fit snugly over joint and eliminate friction and pressure from footwear and at the same time also prevents the enlarged joint from forcing itself superior to old-fashioned leather and felt protectors. It is made from antiseptic rubber, and being worn right on bunion inside hosiery it excludes air, forms and retains a moisture pocket which keeps the joint soft and pliable, removes that hard skin or callous that so often accompanies and increases the irritability of the enlargement; also reduces inflammation.

## PROFESSOR MAKES NORTHERN LIGHTS AND ENDS MYSTERY

## Sun's Rays On Crystalline Nitrogen Cause Other Phenomena In Sky.

For millions of years the aurora borealis has been a flashing mystery across the Arctic and Antarctic skies. Today it is claimed that this mystery is cleared up. For decades Norwegian natural scientists have devoted their time to the study of this phenomenon. The one who stepped upon the shoulders of the others, as it were, until the youngest and last of them, Prof. Lars Vegard of the University of Christiania, claims to have discovered the secret, not merely of the northern lights, but the structure of the upper atmospheric layers, says a special correspondent from Christiania to the "Christian Science Monitor."

## ISLAND IS MARKED BY POISON GASES

Gypsum and Sulphur Are Gathered In Face of Danger.  
One of the strangest islands in the world is situated about forty miles off the North Island of New Zealand. This is a precipitous rock nearly 1,000 feet in height and about three miles in circumference. White Island, as it is called, has immense deposits of gypsum and sulphur, otherwise no one would ever want to go near it. In fact, a trip to the island is something like a visit to the infernal regions, writes S. Leonard Bastin in "St. Nicholas."

### ONE FEARFUL SOUL

Some curious pleas are advanced from time to time by those Americans—a small minority, doubtless—who think or fear that some foreign Power is likely to attack the United States. That country, by reason of its geographical position, its population and its wealth, should be as safe as a church, but there is a section of American opinion which betrays continual uneasiness and which cries out for more and more expenditure for "defensive" purposes. An example of this, and a characteristic one, appears in a letter to an American magazine, the writer's name being withheld "because he is now in public office." He says in the course of his letter:

"While I cannot think England would ever be so foolish as to make war on us with Japan as an ally, I do think, and I know, that we are in the most helpless position as regards national defence that we could possibly get in. We are defenceless. I am a veteran of our recent war (went through the Argonne) and I know something about what went on over there. We never did get prepared. Our artillery was French, and our aircraft was French or it was rotten. The battle of the Argonne was fought some time after we declared war, too.  
"But I don't know what to do about it. Too many swelled heads and too many lightwads, and too many just plain fools. I guess we will have to pay a fifty billion dollar indemnity for the 'Great American Ass' will learn that the United States can be knocked for a goal the same as Germany, for example."  
It is really sad to think of the people of the United States being "thoroughly butchered" and having, on top of that, to pay a fifty billion dollar indemnity, but the melancholy induced by such a thought is mitigated somewhat by the conviction that a calamity of that sort is exceedingly improbable. The peril exists chiefly in the mind of the office-holder who writes the letter and in the minds of a comparatively small number of people like him who are so mentally constituted that they constantly exaggerate the danger of foreign attack. As a matter of fact the United States maintains to-day a fleet far larger than would seem necessary for defensive purposes and while that country is not suspected of aggressive designs, particularly since the disarmament conference, the extent of its annual spending for army and navy purposes, is hard to account for except by the theory that Congress is to some extent affected by the vague uneasiness which the American nation at large has felt ever since the great war showed how long was required to prepare for military operations on an enormous scale.  
If the fearful soul who wrote the letter quoted would carefully survey the various nations of the world to-day he might well ask himself if his own country is not safe what country is. But his state of mind, like that of the minority he represents, is scarcely to be cured by a glance at the facts. He is probably wondering whether he will be among those "butchered" by the enemy or among the woeful survivors who will have to pay that fifty billion dollar indemnity after his country, to employ his own classic expression, has been "knocked for a goal."

### GETTING BRITISH CAPITAL

"Do you know that in England taxation is so heavy that today every man works eighty days each year for the government, and consequently every pound of British gold also works eighty days for the government?"  
The speaker is Mr. J. G. Beatty, a Toronto broker who recently returned to his five months' sojourn in England and who is generously credited with back tens of millions of dollars—some of them \$50,000,000—for investment in Canadian industries, chiefly, it appears, the mining industries of Northern Ontario. He spent much time in conference with English financiers, and he says the expectations in England, on the part of the shrewdest men, "is that there is going to be a great boom in Canadian securities particularly in Northern Ontario mining securities. The people who are acquainted with developments throughout the world, not only in mining but in general business, see that Canada is a great asset."  
Aside from his success in enlisting capital for Ontario mining properties, Mr. Beatty tells Toronto that is abundant English capital ready for all sorts of sound investments in Canada generally. Loan money is very plentiful in London, he says: "If Canadian factories need capital for re-financing—and many naturally do after the long strenuous years—here it is! If new Canadian enterprises need capital, here it is, and plenty more of it where this came from." "Capital," he says, "cannot be sentimental, but I venture to say that capitalists are. I am certain here is not a Briton with money to invest, who would not rather invest under the British flag, if guarantees of safety and prospects of income are equal."  
High taxation and distrust of the government in Britain combine to make this a most favorable time to secure English capital for Canadian in-

vestment, according to Mr. Beatty. "English capital is not rapacious," he says; "all it asks for is a job, a steady job yielding a fair wage return," and these conditions Canada can meet. As to the amount of money awaiting investments that look good, he cites the case in which Lord Rothermere wanted to increase the capital of the Daily Mail by \$2,000,000 to purchase some additional publications. The advertising in two days produced subscriptions to the tune of \$108,000,000. And this, says Mr. Beatty, is by no means an exceptional case. He expresses confidence that British investments in Canada will be very large in future, and that those who have sound propositions and who present them properly to the right men will be able to secure all the money they want.

That Canada is regarded with increasing favor as an investment field in Great Britain is cheerful news. It comes at a time when Canadians are backing home enterprises with more confidence than ever. The war years, when Canada had to finance itself, showed what the country could do. Our public debt is heavy but a very great proportion is owed to our own people and the heavy interest on the war debt is largely paid to Canadians. They will find it profitable to back their own enterprises to a still greater extent, a course that is good for them and for the land they live in as well.

### GREAT CANADIANS.

"Who are the greatest living Canadians?" The Maple Leaf, Toronto, asked its subscribers to answer this question. The votes came mainly from members of Canadian Clubs, and the first 1,980 ballots gave Dr. F. G. Banting, discoverer of insulin, twice as many votes as any of the other selections. Bliss Carman was second. The reasons given by those who selected Dr. Banting are thus summarized by the Maple Leaf:

1. Doing more for humanity than any other Canadian.
  2. Doing more to make Canada a world name than any other Canadian.
  3. Showing a modest, unselfish spirit which is an inspiration to all Canadians.
- In announcing the result figures are given for the first ten only, but twenty are printed in this order:
1. Dr. F. G. Banting ..... 147
  2. Bliss Carman ..... 69
  3. Sir Arthur Currie ..... 59
  4. E. W. Beatty, K. C. .... 54
  5. Sir Robert Borden ..... 45
  6. Rt. Hon. W. L. Mackenzie King 44
  7. Rt. Hon. W. S. Fielding ..... 43
  8. Rev. C. W. Gordon, D. D. .... 39
  9. Sir Gilbert Parker ..... 37
  10. Dr. J. J. R. McLeod ..... 32
  11. Sir Adam Beck
  12. Chas. G. D. Roberts
  13. Rev. Canon F. G. Scott
  14. Rt. Hon. P. C. Larkin
  15. Rt. Hon. Arthur Meighen
  16. Rt. Hon. Sir George Foster
  17. Rt. Hon. N. W. Rowell, K. C.
  18. Prof. Stephen Leacock
  19. Edward Johnson
  20. Madame Albani

The list contains three who were born in New Brunswick, the two poets, Carman and Roberts, and Sir George Foster. It is a straw vote of small scope, yet it is interesting in a fashion as illustrating the point of view among the limited number of Canadians who responded. His story may be disposed to shuffle this list somewhat extensively—or any list.

About forty-five per cent of the civic electors are barred from voting this year for non-payment of taxes—a woful exhibit, though not quite so bad as that of 1922. The Mayor and Commissioners now to be elected will be the choice of a little less than fifty-five per cent of the citizens making up the total list of electors. On top of that we have the further trouble that of the fifty-five per cent eligible, a great many will not go to the polls. Those who have paid a part of their taxes are not eligible. For those who simply cannot pay there is naturally real sympathy, but there are many who could have paid within the time limit but whose interest in civic matters, whose public spirit, was not great enough to cause them to do so. They are among those who do not deserve good government, and in the same class are those who remain away from the polls although well able to go. The duty of voting is not one to be lightly ignored.

Lloyd George on the Labor Government: "It is just like the luck of Britain that the first experiment in a Socialist Administration has come under conditions where it can do the least harm, nay, even conditions under which it may do a great deal of good. The experience is already having a most salutary effect upon the most impetuous souls of the Socialist Party. I am all for leaving them for some time between the handles of the plough. They will soon have aching backs and weary hearts, but very much wiser heads. Mr. Ramsay MacDonald, the principal aviator in the air squadron of Socialism, has

spent most of his lifetime in displaying his skill among the great white clouds of Socialist idealism. He is quite a changed man since he joined the infantry, and has to trudge along mother earth carrying his knapsack."

The C. P. R., unlike the C. N. R., is not dependent on Parliament in the matter of new construction. The C. P. R. began work on 85.4 miles of new railway in 1921, on only 18.5 miles in 1922, but on 184.7 in 1923—a total of 288 miles in the three years. New mileage of 178 is authorized for this year. Meantime, the C. N. R.'s feeder line programme was blocked by the Senate last year and now comes up again. In 1921, 1922 and 1923 the C. N. R. spent about \$2,000,000 on new mileage as compared with some \$12,000,000 spent by the privately owned railway. The new lines contemplated by the C. N. R. would cost about \$28,000,000.

Nether as a lion nor a lamb does March go out, but more lamb-like than lion-like. Almost at the end of March last year—the twenty-ninth—the thermometer in St. John registered nine degrees below zero.

Poincare, in presenting his new ministry to the Chamber today, reaffirms all his former policies. The reception he received is described as noticeably cool.

### Press Comment

#### HALDANE AND A LEGEND.

(Toronto Globe.)  
"The man who did most to put the British Army in a state of preparedness for war was Lord Haldane, and it was one of the cruel paradoxes of war-time politics that he was hounded out of office soon after the war began. He was transfixed by a single phrase, 'Germany is my spiritual home,' which he never uttered, but was too proud to repudiate when it was hurled at him by the Northcliffe press. The origin of the blunder is now disclosed by Lord Haldane in an interview given to Wickham Steed, editor of the Review of Reviews:—  
"The story that I once declared Germany to be my 'spiritual home' is a legend. Some time before the war, when I was talking at the Humphry Ward about Lotze (the German philosopher) to Professor Oncken of Heidelberg, I said, 'To Lotze I owe much of my spiritual education.' Writing afterward, Oncken made out that I had said that Germany was my spiritual home—a somewhat different matter. But these things will happen."  
Haldane chivalrously resigned the Lord Chancellorship in 1915 to spare his leader, Mr. Asquith, embarrassment. He suffered injustice and calumny with imperturbable dignity, and he has his reward in the complete revival of public confidence. If his demission from office was a paradox, so is his return to the Lord Chancellorship nine years later as a Labor leader.

(Anne Howard in Boston Transcript.)  
The trees are bare, the wind is chill. When April beckons from the hill—No tender harmonies of Spring, But flashing from the bluebirds' wing A silent signal to the sun—The merry pageant is begun!

The last light blanket of the snow Was lifted but an hour ago. Yet under dead leaves buried deep The young arbutus wakes from sleep. Her fragrant beauty, pink and white, A trailing garland of delight!

What though the summer sun shall bring A garden filled with—everything? (Ah, even in the roses' breath) There linger memories of death! My April day a treasure holds More rare than rose or margold—Upstaring buds beneath the frost In life renewed, but never lost!

Then who would weep when April wakes? The very earth of joy partakes, And lavishly, in solitude, Unfolds her wonders through the wood, Revealing in each tiny flower The essence of a living power!

## TOOK POISON ON VESSEL; DIES HERE

Consultation Held by Ships' Doctors, 700 Miles Apart at Sea.

Although J. Yorall, of Belfast, Ireland, a cabin passenger on board the C. P. liner Metagama, drank enough poison on Thursday to kill 14 men, he was still alive when the ship arrived here on Saturday from Glasgow via Belfast. He was removed to the General Public Hospital on the ship docking yesterday morning, and died in that institution at 9 o'clock last night.

A consultation by wireless between the surgeon of the Metagama, Dr. W. P. Peake, and the surgeon of the Empress of Britain, 700 miles distant was instrumental in keeping the man alive for three days. Mrs. Yorall, who accompanied her husband to this country could not be communicated with last night, so that nothing is known as to the disposition of the remains. It is probable that interment will take place here.

The report given out by the ship's officers on its arrival here was: "A case of serious illness having arisen on the C. P. liner Metagama, the surgeon of the ship decided to hold a consultation with Dr. Gardner, the surgeon on the homeward bound C. P. liner Empress of Britain. Consequently a wireless message was sent describing the nature of the disease, and the treatment adopted asking for further suggestions. In an hour's time a reply was received from Dr. Gardner giving his views as to treatment. The patient, a cabin passenger, was removed to hospital in St. John with hopes of recovery. The distance between the two ships at the time of sending the message was 700 miles."

The poisoning could not be explained by the ship's officers when interviewed yesterday. The victim had seemed to be enjoying the passage and while attending a concert he was one of the liveliest of the party. It was at the suggestion of his people that he and his wife made the trip to this country. But for the expert attention given him by the ship's surgeon and the advice received from the surgeon of the Empress of Britain, his death would have been much earlier.

The poison was carried in a small vial, and was sufficient in quantity to kill 14 men. It was also one in which doctors have little experience and for which there is no known antidote.

## DEATHS

**Joseph Norman Wetmore.**  
The infant son of Mr. and Mrs. Harry C. Wetmore died on Saturday evening at the home of his parents, 108 Winter street, after a short illness. The little fellow, who was aged 15 months, leaves besides his parents, a small brother to mourn. Much sympathy is felt for Mr. and Mrs. Wetmore in their bereavement.

**Mrs. Henry Seely.**  
The death of Jennie E., wife of Captain Henry Seely, occurred at her residence, 222 King street, West St. John, on Saturday after a lingering illness. There will be widespread sorrow at her passing. Mrs. Seely was a devoted member of the Ludlow street Baptist church and for 16 years was the treasurer of the relief society of the church. During the years in which her husband went to sea she made several voyages with him and was with him on board during some stirring times at sea, having once been shipwrecked. Captain Seely is now employed at the C. P. R. elevator in West St. John. Besides her husband, Mrs. Seely is survived by two sisters, Mrs. J. M. Wiley, of Fredericton, and Mrs. Janet Cox, of The Narrows, Queens county. Sincere sympathy has been extended to the bereaved. The funeral will take place on Tuesday from her late residence at 2 o'clock.

**Mrs. Nellie Carr.**  
The death of Mrs. Nellie Carr occurred on Saturday at her residence, 283 Main street, after an illness of about two years. Mrs. Carr was formerly of St. Martins but had resided in St. John for several years. She was a daughter of the late James and Anna Rolston. Mr. Carr died several years previously and the surviving relatives are a brother, James Rolston, and a sister, Mrs. Leonard Kirk, both of New Jersey. The funeral will take place today at 2:30 p. m. from the residence of Mrs. James Daye, 283 Main street.

**Sir Charles Villiers Stanford.**  
London, March 30—Sir Charles Villiers Stanford, the noted Irish composer, died yesterday at his home here.

## METAGAMA MAN IS PREACHER

Duncan McIntosh, chief steward of the Metagama, was the preacher in the Ludlow street Baptist church last night. He gave an address, using the life of the Apostle John as his theme and making an appeal to members to consecrate their lives to Christian service.

The choir gave selections. R. J. Rupert sang a solo.

At the morning service, Rev. W. A. Robbins administered the rite of baptism to three candidates. On the previous Sunday two other candidates were baptized and there are other candidates to receive baptism on the next two Sundays. At the afternoon session of the Sunday school, Superintendent R. H. Parsons presented baptismal certificates to members of the church who had united with the church.

## LAST DAY FOR GRATUITIES

Today is the last day on which applications for war service gratuities will be received at the department of national defence. An order in council passed recently limited the time in which claims for gratuities or for adjustment of war service gratuities could be made and the period in which claims can be submitted. This applies to former members of the C. E. F. and also to ex-imperial army veterans.

#### They're Here in Fine Variety

Men will be delighted when they look over the fine Suits and Topcoats we have to show them here. Every season makes new friends for our men's shop—and old friends still keep their enthusiasm. The reason for this isn't hard to understand—it's because we're always on the sharp lookout for styles, fabrics and values that will please men who take these things into consideration.

"Society Brand" and "Burberry" models are sold in St. John by M. R. A. Ltd. exclusively.

### Suits and Topcoats

The discriminating man is apt to ask when buying a suit or topcoat, "How will these clothes look six months from now?" If he selects his spring outfit here, from among our stock of high grade garments, he can be assured that the shapeliness is there to stay. Correct cut, superior fabrics, selected linings and perfection of detail are apparent at a glance. Prices are very reasonable—quality considered.

**PARKER Duofold** is not only far the richest—far the handsomest pen you can own—it's the most economical you can own! Its select Iridium Point costs us over \$2,000 a pound, three times more than ordinary. But it's smooth as a polished jewel—it needs "no breaking in"—no style of writing can distort it—it's guaranteed for 25 years' wear and mechanical perfection.

This Over-size Classic is a \$10 value—it could never be sold for \$7, as it, were only a few produced. And now we include a strong Gold Girdle that reinforces the cap—the crowning touch to its beauty. This was \$1 extra before. But increased volume has scaled down the cost per pen—thus Parker gives this super-value in a pen so smooth and balanced that your hand can't get away from its lure!

Look and look carefully for this stamp on the barrel of the pen you are offered—"Geo. S. Parker—Duofold—Lucky Curve." No matter how closely a pen may resemble this, unless it's a genuine Parker it can't have a Duofold point. Look carefully.

## MANY PUPILS NEED EYE TREATMENT

Statistics Show Vision of One of Every Four Defective.

One of every four school children throughout the country has a manifest defect of vision or suffers from symptoms of eye strain, according to a report made public by the Eyesight Conservation Council of America. This average was computed after examinations of the eyes of 4,227,702 children last year.

In addition to readily apparent defects, the report estimates that 60 per cent. of all school children have eye defects of sufficient degree to warrant correction, even though, in many instances, such defects are not readily noticeable. The report is published in an effort to promote periodic examinations in all public and private schools. Contributing to backwardness in many school children, in the judgment of John J. Tigert, United States Commissioner of Education, and a member of the board of councillors on the Conservation Council. Experience has demonstrated that tests for vision may be carried out advantageously by teachers, Commissioner Tigert asserts.

Since the number of school children in the country is estimated at approximately 24,000,000, the number of eyes tested represents only 17 per cent. of the entire group. Sixteen states provide by law that official records of the results of these tests must be kept but, even at that, the council found records for comparative statistics almost wholly lacking.

Data of a general character were to be had in eighteen states, the investigators reported—among these being New York, New Jersey, Pennsylvania and Connecticut. Other states in this group were California, Illinois, Iowa, Louisiana, Maine, Maryland, Massachusetts, Missouri, Nebraska, New Hampshire, Ohio, Rhode Island, South Carolina and Texas.

Reports tend to optimism.

Failure to use uniform methods in making these examinations was held to cause further difficulty in assembling reliable statistics. Thus, a city in New Jersey reported 85 per cent. of the 42,596 children as having defective vision—a report considered too optimistic and entirely misleading.

In a Missouri city 7 per cent. of the 97,205 pupils were reported to have defective vision and in a New Hampshire city of 5,432 pupils the percentage was set at 67.

Since the general average everywhere far exceeded these records, the Eye Conservation Council considers these as "poorly conducted tests," as little value Co-operation of teachers and school boards is to be sought in gaining more serious consideration for the problem of overcoming eye defects.

**BOYS ON HIKE.**  
Clarence Barbour, captain of the Junior Scout boys of Centenary, "The Cubs," took his boys on a "treasure hunt" hike on Saturday. They hiked out of the city some distance and returning found their treasure at the church hall, where Rev. and Mrs. Robert G. Fulton gave a delicious treat of ice cream and cake.

**ARRIVES HOME.**  
Rev. J. J. Ryan, pastor of the Church of the Assumption, West St. John, arrived home yesterday after several months in Boston undergoing treatment. He said he was feeling well.

## RETURNS AFTER RED CROSS TOUR

Miss Ethel Hazen Jarvis, Provincial Secretary, Makes Visits in Province

Miss Ethel Hazen Jarvis, provincial secretary of the Red Cross Society returned to the city on Saturday after attending the annual meeting of the Canadian branch of the Society in Toronto, and later visiting friends in St. Catharines, Niagara Falls and other Upper Canadian cities.

On the return trip Miss Jarvis stopped at Hartland, N. B., where she assisted at the re-organization of the Hartland Red Cross to undertake the peace time work of the society. The re-organization was effected at a very enthusiastic meeting held at the residence of Mrs. S. Miller. The decision to re-organize was unanimous.

## GERMAIN ST. CHURCH RECITAL IS HELD

The recital in Germain street Baptist church last evening after the regular service was varied and well arranged by T. C. Cochrane, the organist of the church, who was assisted by Mrs. Harold Macneil, violinist; Dr. Percy L. Bonnell, baritone; Mrs. Lewis Lingley, soprano; G. B. Taylor, cellist, and W. J. Bambrury, tenor.

Mrs. A. E. Wheeler, of Boston, played a special organ solo. Mr. Cochrane opened the programme with two organ selections, one a Caprice by Sturgis and the second "Fantasia Pastorale" by Lesvure Wery, a piece descriptive of a storm, which the new organ made possible of great expression. The organ, violin and cello made a trio of beautiful harmony in Gounod's "Ave Maria." Dr. Bonnell was in fine voice and sang, by request, a popular favorite of some years ago, "Calvary," by Rodney.

The musical arrangement of "By the Waters of Babylon," sung by Mrs. Lingley, was made unusually pleasing by her clear enunciation. W. J. Bambrury sang the hymn "The King of Love My Shepherd Is" to the usual setting and Mrs. Wheeler closed the programme by an organ selection, also played by the National Anthem for all to sing. The church was filled to capacity and the full programme was greatly enjoyed.

## LENTEN SERMONS.

The fourth of a series of Lenten sermons was delivered last night by Rev. William Hogan, C. S. S. R., rector of St. Peter's, before a congregation which filled the church. As in the first three sermons he dealt with confession. The sermon was followed by benediction of the Most Blessed Sacrament.

## REPORT DENIED.

It was reported during the week-end that rummage sales were to be forbidden by the Board of Health because of the prevalence of infectious diseases. Dr. William Warwick said there was no truth at all in the rumor and at the present time the city has a comparatively good bill of health as regards notifiable diseases.

## BEAN SUPPER AND THEN A REHEARSAL

The smaller room of the East End Boys' Club was converted into a dining room Saturday evening. Miss Heffer, the director, was giving a bean supper to twenty boys, who after supper had a rehearsal for the play they will put on as part of the entertainment on Thursday evening at the formal closing of the club for the season.

Some of the boys were really young men, who have grown up with the club; others were quite young. The tables were prettily decorated, the boys were on their best behavior and the supper all that could be desired. By invitation, A. M. Belding and Peter Murray sat respectively at head and foot of the larger table. Mr. Murray moved a vote of thanks to Miss Heffer, and it was presented by Mr. Belding. Miss Heffer in reply told of the pleasure it gave her to have these little suppers for different groups of boys, from time to time, and she was given three rousing cheers. Instructor Noel went with the other members of the club to the Y. M. C. A. for the evening, while the twenty settled down to their rehearsal. There will be floor work and cadet drill as well as the play and other features on the closing evening, and the boys hope to see all the members of the Playgrounds Association as well as many Rotarians and other citizens on that occasion.

## SPECIAL PREACHERS.

Special preachers were heard in the Church of the Good Shepherd in Fairville yesterday. In the morning Rev. C. P. Heaven, curate of St. Luke's church occupied the pulpit. The evening service was conducted by Ven. Archdeacon A. H. Crowfoot.

## Full Figure Yet Slender Lines

Sized up to 44, but slenderizing in line and deft trim, here is hearty opportunity in tailored suits that only a master can turn out.

First of course must come the style and figure effect, but then the make-up counts, too. Everything in keeping with the hang—select Tricotine and Poret Twill, Navy or Black. Just what is called for. Expecting the Pongette lining on the \$29.75 model, the inside finish is various Satins. Prices keep well below \$45.

Open side seams, twin or singly, back vents, long coats—they adapt to every type with ease and symmetry. Shoulder to hem strappings, pocket to hem strappings, many and interesting are the little tuckings and trims that make all the difference in the mirror.

Now is certainly a special occasion in these sizes—now, therefore, is when to look.

**Social Notes  
Of Interest**

Miss Marjorie Sancton was the occasion on Friday evening for a shower of handkerchiefs, presented in the form of an old-fashion nosegay, deftly arranged. Miss Winifred I. Blair was the hostess for the charming event, entertaining at her mother's residence, Duke street.

Mrs. G. Clayton Teed assisted Miss Blair in entertaining. Spring flowers made a fitting setting for the merry party of young people, who offered best wishes to Miss Sancton, who will shortly be the principal in an important event. Those enjoying the pleasant evening, which closed with delicious refreshments, served by the hostess, were Miss Gertrude Ewing, Miss Constance Ewing, Miss Saundon, Mrs. Hugh Gregory, Miss Christine Fenton, Miss Jean Fenton, Miss Helen Morrison, Miss Hortense Maher, Mrs. Murety Sinclair, Miss Olive Golding, Miss Leslie Skinner, Miss Helen Skinner, Miss Edith Paterson, Miss Marion Brown, Miss Audrey Campbell and Miss Marion Belyea. A bridge was played and the prize winners were Miss Gertrude Ewing and Miss Marion Brown. Miss Edith Paterson was a hostess at a shower for Miss Sancton last week.

Miss Jean White entertained at her father's residence, Orange street, at a week-end tea to honor the occasion of a visit of Mr. and Mrs. Arthur Duncan, of Vancouver, B. C., who are in the city. Mrs. Duncan was formerly Miss Phyllis Elliot, of this city and is being warmly welcomed. Spring flowers were prettily arranged on the tea table where Mrs. Frank S. White presided over the tea cups. Those present were Mr. and Mrs. Duncan, Mr. and Mrs. W. Elliot, the parents of Mrs. Duncan, Mrs. F. S. White, Mr. and Mrs. E. W. Bowman, Miss Gladys Edgecombe, Mr. Stuart White, Mr. J. Pope Barnes and Mr. G. Percy Leonard.

Dr. W. H. Griffith Thomas, D. D., M. A., is the guest during his stay here, of Rev. A. L. Fleming, rector of Stone church and Mrs. Fleming, Hazen street.

The fine weather made badminton not so popular as it had been all winter although a fair representation was at the Armory Saturday afternoon, and dropped in at tea time for the social hour. Mrs. Percy D. McAvilly, Mrs. David Ledingham presided over the tea cups. The usual time will be spent this week on the courts, Wednesday afternoon, Thursday evening and Saturday afternoon.

Miss Catherine Bates, who accompanied her father, Mr. Edward Bates, to Montreal, is with him a guest at the Windsor Hotel.

Mr. and Mrs. Fred G. Goodspeed, of Manawagonish road, were guests of honor at a dinner Saturday evening in their honor. Mr. and Mrs. H. A. Pierce were host and hostess for the party, which was a farewell to Mr. Goodspeed, who leaves for Winnipeg on Thursday of this week.

Rev. and Mrs. Robert G. Fulton were pleased to welcome on Saturday their son, Mr. Fraser Fulton, who spent the week-end at the parsonage, returning today to Mount Allison University, where he is studying in the engineering department.

Among those assisting at the post nuptial reception of Mrs. H. C. Teifer, Jr., Montreal, last week, were Miss Muriel and Miss Hilbert Scott, of St. Stephen, and Miss Marjorie Robertson, of this city.

Mrs. Ian MacLaren, of Montreal, who has had her mother, Mrs. A. J. Gregory, with her for some time, returned with the latter to Fredericton last week, where she will spend some weeks.

Mr. and Mrs. Murdoch Morrison, 109 South Bentinck street, of Sydney, N. S., left Wednesday to spend a month with their daughter, Mrs. R. H. Murdoch, Everett, Mass. On their way they will visit Mrs. Ernest Cunningham at St. John, for a week. It is 10 years since their last visit to the United States. Mr. and Mrs. Morrison are wonderful travelers, when it is considered that Mr. Morrison is in his 80th year, and Mrs. Morrison only some few years younger.

Capt. Peter Lawson, commandant of the S. S. Cabotia, entertained Mr. and Mrs. Donald Mackenzie, 28 Thorne avenue, and little daughter, Constance, to a dainty lunch given in their honor on board the S. S. Cabotia on Friday. Capt. Lawson was the guest of Mr. and Mrs. Donald Mackenzie on Saturday. He sailed at 6 o'clock in the afternoon for Glasgow. This ends his trips to this port for this season; he will next sail from Glasgow to Montreal.

**WOULD ADD OLD CLOTHES TO OLD FRIENDS, OLD BOOKS AND OLD WINE**

French Designer, Speaks in New York, Shows to the Women.

By MARIAN HALE.

New York—That famous trio of old friends, old books and old wine should be expanded into a quartette so as to accommodate old clothes, according to Madame Madeleine Vionnet, exclusive French designer, who has just arrived here to study the American woman.

French, "I shall wear this gown, made in 1918. It is still my favorite frock."

From its dissonant paper wrappings she carefully unfolded a gown of dull red crepe with bluish-purple beads—a "When I go to the opera," she said in English with slightly favored I might not like so much and would have no pleasant associations for me."

But not so Madame Vionnet.

**Harmony in Dress.**  
"It's my color and it is beautiful," she maintained. "Why should I abandon it for something newer? I might not like so much and would have no pleasant associations for me?"

The gown she wore was of the same shade of red, with the same subtle purple tone worked in bands on the sleeves and skirt. A string of cloudy amber beads reached nearly to her waistline.

"This dress is three years old," she admitted when I admired it, "and my coat is the same age. If I made new ones they would only be duplicates of these. So why bother?"

"Women come to me in Paris and order a gown for a certain occasion when they wish particularly to shine. I always ask them why they select such a time to try out a new gown. How do they know how they will feel in it? How are they sure they will be comfortable everywhere?"

A Suggestion.  
"Try out your gowns at unimportant occasions, I advise, so they will be familiar to you when you really need them—so you can forget them entirely and thus wear them with distinction. Make them so much a part of your personality, or rather co-ordinate them so with your real self that your costumes are a part of you, regulated no more by style than are your eyes or your smile. Beauty and art are superior to style, now and always."

We have this charming Frenchwoman to thank for many things. She was practically the creator of the simple straight frock with the graceful, flowing lines. She was the first to make dresses without light linings. She helped out the corset. She has advocated always the conservative and the beautiful dress.

"Ten seasons' wear is not too much to expect from a good gown," she assured me. "And four gowns a year, carefully selected, should keep any woman well dressed."

**SAYS TEMPERANCE HOPES RUN HIGH**

The hopes for temperance legislation in Scotland are growing steadily more bright, in the opinion of Miss M. Ferguson, who was for ten years the national secretary for young people's work for the Women's Christian Temperance Union in Scotland and who is now in Canada on a visit to friends and in the interests of W. C. T. U. work. Miss Ferguson arrived on the Metagama yesterday and will spend a short time in St. John before continuing her journey in Canada.

Miss Ferguson is at present a member of the executive of the W. C. T. U. of Scotland and a member of the Scotch churches committee on temperance. While in St. John she is a guest at the Lansdowne House. She spoke at Centenary church last night and will address a meeting in the Y. W. C. A. recreation centre tonight.

**EXIT THE SUNDAY SUIT.**

(Washington Cor. Bangor Commercial.)  
In looking over the situation in the world today one is rather forcibly struck by the passing of an old American institution—the Sunday suit of clothes. Another epoch in our progress, or perhaps retrogression, is marked by this phenomenon. It is one of those vague events, the precise date of which can not be set down, like the passing of bead portieres, Gibson girls, puffed-up hair and suburban houses in the Swiss chalet style. The observer, looking about him today, merely notes that these things are gone, but can not say where nor recall just when the momentous if vague exit took place.

But the fact remains that the Sunday suit is gone and its absence is a profound change in the habits of American life. To the vast preponderance of the people, the old-fashioned Sunday also is gone.

Undoubtedly there are families in some parts of the country in which the corduroy pants are still being handed down from generation to generation and Sunday suits still are to be found, but they are the exceptions. The Sunday suit no longer is a national institution; it is no more than a survival.

To be sure clothes do not make the man, although one can think of a few instances in which they almost did. Beau Brummel built up great influence with the social set of Great Britain because of the variety and gorgeousness of his raiment. But his glory did not endure. The last 20 years of his life were spent in poverty, part of them in a debtors' prison.

**BIG BASKETBALL  
SERIES IN STATES**

**High School Championship  
Tournament Starts To-  
morrow in Chicago.**

Chicago, March 31.—(United Press)—A tournament for champions only, to decide the high school basketball championship of the United States, will open here tomorrow when the whistle blows in the first cage scrap of the seventh interscholastic basketball tournament. The meet is under the auspices of the University of Chicago.

Winning team from more than thirty States are here for the high school basketball classic. Play will continue until Saturday, April 5, when Alton A. Stag, athletic director of the University of Chicago, will present the national winners with a gold-plated basketball, the first trophy.

To avoid disappointment of teams that have traveled thousands of miles only to be eliminated in the first round of the tournament, a consolation tournament is to be held for the first time this year. It will allow each of the teams entered at least two chances to show their stuff.

Interest in many communities has been so great that citizens have raised the money by popular subscription or public benefits to pay railroad fare of the team-members to the meet. New Mexico, Tennessee and New York teams were sent to the tournament in 1923. In several instances newspapers conducted campaigns to raise the money to send their city's team.

Limited to Champions.

The meet this year is limited for the first time to State champions and teams with exceptional records. Hundreds of letters have come to Chicago University athletic officials asking for invitations to the tourney.

In 1923 the tournament was won by Cedar Rapids High School, Cedar Rapids, Ia., which defeated Crosby High School, Waterbury, Conn., in the finals. In 1922 Lexington High School, Lexington, Ky., captured first honors. Forty teams competed in 1924, representing thirty-one States and including twenty-five State champions. The first four place winners were Kansas, Kan.; Rockford, Ill.; Charleston, S. C., and Muskegon, Mich.

State and interschool tournaments have been run out during the past two months and the teams arriving here today are coached to the last notch for the big event. Postured by the University of Chicago, the meet has given teams from every section of the country an opportunity to see the skill and ability of teams from other points.

Four Prizes Offered.

Four prizes will be offered, both in the main tourney and in the consolation event. In addition, members of the four highest teams will be given individual medals. The prizes all conform with the "intrinsic value" ruling in effect in the majority of State associations.

Champion teams from Alabama, Arizona, Arkansas, Colorado, Georgia, Idaho, Illinois, Indiana, Iowa, Kentucky, Maine, Massachusetts, Michigan, Minnesota, Missouri, Montana, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Washington and Wyoming were arriving on every train today. Many of the teams were accompanied by enthusiastic supporters and several schools brought along the school band.

It is estimated that the big tourney will attract at least 500 playing athletes.

Some schools, rated as strong by spectators who have studied the national basketball situation, are Windsor, Col.; Simpson High School, Birmingham, Ala.; Holyoke High School, Holyoke, Mass.; Manchester, N. H.; Woodrow Wilson High, Portsmouth, Va.; Uniontown, Pa.; Wilmington, Del.; Rawlins, Wyo.; Valley City, N. D.; Flint, Mich.; Chattanooga, Tenn.; Central High School, Houston, Texas; Charlestown, S. C., and Atlanta, Ga.

London, March 31.—Partly reconstructed nearly 10 years ago, the famous stone bridge, *Buckingham Palace*, is again to be widened. The bridge, called *Clifton Bridge*, after its original builder, Sir Hugh Clifton, Lord Mayor of London, in 1522.

It consists of 14 principal arches and was 16 feet wide. One or two of the arches were destroyed during the Civil War, but the damage was made good in 1652. The bridge has been described as the "finest piece of its kind." It must have been trodden many times by Shakespeare.

**Suits For Easter**

(By Hedda Hoyt, Fashion Editor of United Press.)

New York, March 31.—(United Press.)—Suaie shops from shop to shop. To seek a suit to suit her—A suit to suit her silhouette. And a suit to suit her suit.

Concerning the types of suits which are favored for Easter and spring wear columns could be written. There are as many varieties of silhouettes and fabrics as there are Heinze pickles. Boyish suits with either double-breasted or single-breasted jackets, are the most popular types for the woman whose figure is slender.

These come in plain colors, such as dark blues, browns, fawns, black and henna, and in pin-stripes, plaids and checks. Plain dark blues are perhaps the trifle smarter than other shades and mixtures, as they lend themselves better to the accessories which belong to this year's tailleur.

In every case the suit must be soft of line and texture if it is to be smart. While its lines are mannish, its texture and lines should be soft enough to take away the too masculine effect. The suit rather than the tomboy, and it is the accessories which make or mar its smartness.

A dark blue double-breasted suit, worn with a white tucked shirt-waist, an Eaton collar and a red or black bow-tie, is youthful enough for the young woman with a more fastidious neck-trimming, a small fur-piece and a little white gardenia boutonniere becomes a smart tailleur for the young matron.

For Plump Figures. Plump figures will find that pin-striped materials are more slenderizing than plain ones. Single-breasted jackets are likewise more suitable for rounded figures. Those with the one-button tuxedo closing and cut-away effect are particularly becoming to the more mature figure.

Besides the regular staple colors one sees suits of artichoke green, old rose, orange henna, brick red, etc. These are sometimes pieced with black

**Suits For Easter**

or metal braid and have a more dressy effect than those of mannish colorings. There are many black satin suits which, though cut on mannish lines, assume a semi-dressy appearance. Buttons are being used in abundance on the more dressy type of suits. Buttons of silver, crystal, jet, cut-steeled, carved ivory and colored bone are all being stressed.

Soil skirts are slender in effect and are short enough to make walking comfortable. Plain pumps or buckle-trimmed shoes are more desirable for the tailored mode than strapped and cut-out affairs. Shoes that come well up on the instep, with elastic side gores, are also popular with the tailleur.

Accessories for the Suit. The suit demands some sort of a neck-piece. Sometimes it is the cape-back of the jacket which gives the desired finished effect to the suit; again it is a scarf of vivid colors, a self-toned scarf lined in color, or a small animal fur-piece. Scarfs are just a bit smarter this season than fur pieces. Large scarfs, such as fox, are seldom seen, as anything that tends to detract from the trimness of the suit is taboo.

Both short two-button gloves and gauntlets are sponsored for suit wear. White collar and cuff sets are often used on the dark suits, matched by white buttonieres and white gloves of the eye dull and yellow, heartburn, water brass, etc.

**GIRL BANDIT HYSTERIA**

**Women Police Called Upon to Check Activities of Flapper Yegg as All New York Trembles**

By HORTENSE SAUNDERS.

New York—All of Gotham is suffering with a bobbed-hair bandit demeritis. Just let a young woman with shorn locks and her husband, brother or sweetheart stop to look in a store window and the merchant within prepares to greet the Bobbed-Hair Bandit.

Now Mrs. Albert E. Guimares, wife of the young fellow who was brought to public attention through the Dol King murder case, is in the shadow of the law because of this hysteria.

She went into an uptown tailor shop to ask the cost of having her costly fur coat reined. A dapper young fellow got out of a big car and entered the shop.

Visions of the Bobbed-Hair Bandit immediately came to Charlie Bernstein, the tailor. He telephoned for the police. The young man, hearing, dashed from the store. Mrs. Guimares remained.

The patrol came and took her to the

station house and thousands of women gathered to look at her.

She complacently puffed at a cigarette and told the police she didn't know the young fellow who escaped and that she had not been with him. And the police called in the score of victims of the Bobbed-Hair Bandit to look at their catch.

Most of them said she wasn't the girl. And some of them said maybe she was and maybe she wasn't, that they had been so excited when they were held up that they couldn't tell.

And in the meantime the police are proceeding on the theory that it takes a woman to catch a woman at crooked work. Hundreds of patrolmen and detectives have tried for weeks to catch the young lady who robbed a dozen

more streetkeepers in Brooklyn and then jumped to Manhattan to spread the girl bandit hysteria in that borough. Policemen have been recruited to catch her.

**Neighbors Raise Kick About  
Girl Who Warbles Constantly**

Dorchester, Mass., March 28.—A Dorchester landlord is having a petition signed by tenants and neighbors, protesting against the vocal efforts of a young girl who is taking up music.

He visited Herbert L. Ellis, rent adjuster for the city of Boston, and made his preliminary complaint. According to his story, the girl sings night and day. Her trills and vocal rhapsodies sound out through open

windows at midnight, as well as at daybreak. Protests are pouring in upon him from throughout the neighborhood. And the landlord finds he can take no action against this particular tenant because her parents have a long term lease. "Help me break the lease or put a stop to her singings," was his appeal to the rent board.

In the meantime, the neighborhood petition is in circulation, to be presented to Mr. Ellis later in the week.

**Dr. Anna Louise Brown,  
Native of Northumberland  
Co., is Dead**

Toronto, March 30.—Doctor Anna Louise Brown, director of the division of education and research of the National Board of the Young Women's Christian Association, New York City, died here yesterday. While on a visit to her sister, Mrs. W. Loggie, 214 Arlington avenue, during the Christmas holidays, Dr. Brown became ill, due

to nervous collapse and gradually declined until the end came this morning. She was born in Northumberland county, N. B., where she was educated and lived during her early life. She studied medicine in Queen's University, Kingston, and Northwestern University, Chicago, from which she was graduated in 1922. For over 20 years she had been actively associated in Y. M. C. A. work in the United States, first in Boston and later in New York, where she held important positions in the national board staff of the Young Women's Christian Association.

She is survived by two brothers, John C. of Vancouver, Ernest N. K. of Montreal, a sister, Mrs. W. A. Loggie.

The funeral will take place in Montreal on Monday afternoon at Mount Royal cemetery.

**COMMUNITY LOYALTY.**

Have you ever stopped to consider, asks the Chatham Commercial, the fact that loyalty to community interests is the highest form of patriotism? Show us the man who is loyal and true to every interest of his own community and we will show you in that same individual a man in whom his country can repose absolute confidence in any emergency that calls for his allegiance.

On the other hand the man who is careless and unconcerned for the interests of his community is most apt to display the same spirit of indifference toward his government or his country should any serious danger threaten our embayces.

Try to imagine our own province of New Brunswick composed of communities welded and cemented into a symmetrical and successful whole, to excel the others, but each from its own locally developing a broader and deeper loyalty—a loyalty that reaches out and embraces all.

This would be brought about if we could be brought to see that we owe allegiance to our own people, but that the prosperity and success of others is in no wise way a detriment to us, but rather a help, that if each community would develop itself to the utmost—materially, mentally and morally—none would need to grieve to detract from another's interest.

Let us develop community loyalty to the full—the highest possible form of patriotism.

Snakes, crocodiles, lizards! You never saw such a venomous looking collection. Leon L. Walters, expert in reptiles, at the Field Museum in Chicago, makes them life-like through a process all his own. First he makes a plaster cast of his subject. Then he paints the interior of the cast with many coats of celluloid, colored to the animals' tint. He breaks off the cast, leaving the celluloid shell. Every line, every curve is preserved in a brilliant life-like luster.

**HISTORIC ABBEY**

On October 23, the eight hundred anniversary of the consecration of Tewkesbury Abbey Church was celebrated with no little ecclesiastical and worldly pomp and circumstance. In 1123 the Bishops of Worcester and Landaff, Hereford and Dublin took part in the consecration of this church.

It was necessary, writes A. J. H. M. Bruce, recorder of Tewkesbury in the London Times, it would be easy to conjure up to today the scene of the twelfth century, for the Abbey Church that was then consecrated is in essence the same church today. True, some of the old Norman work had been replaced or added to by the piety of successive generations of the early English, decorated and perpendicular styles, but the great Norman church which was built with great magnificence by Robert FitzHamon, the nephew of William the Conqueror, consecrated in 1123, stands in all essentials before our eyes today as it stood then, preserved as intact as our great cathedrals, and itself larger than at least a dozen of them.

Tewkesbury Abbey rose in an age of great church builders. Probably the architect of the Norman ministers of Gloucester and Pershore, then building, also designed Tewkesbury. FitzHamon's nave and aisles at Durham were rising at the same time as Christchurch in Hampshire was being finished, Peterborough and Norwich had been begun. But although FitzHamon was not destined to behold its completion—he himself was the first to be buried within it, and there he lies today—his work was finished by Robert, the natural son of Henry I, who had married FitzHamon's daughter, and on account of that lady's objection to wedding a man who bore only the name of Robert, had been made by Robert, the natural son of Henry I, who had married FitzHamon's daughter. The magnificent tower of Tewkesbury, built of stone from Caen in Normandy, is one of the finest examples of Norman architecture.

Throughout its long history the Abbey Church of Tewkesbury has attracted many illustrious friends. The Earls of Gloucester the de Clares, the Despencers, the Beauchamps and the Warwicks, most of whom had a "palace" at Tewkesbury, and many of whom lie within noble tombs in the church are counted among them. Indeed, it has been said that, with the exception of Westminster, there is no minister in England containing more beautiful tombs than Tewkesbury, though the unmarked dust of many who made history of their times the feet of those who take part in the commemoration may pass unwittingly, but the traced and tabernacled monuments and chantries, some of them untraced, cannot fail of notice. The sepulchre of St. Hugh Despenser, with its four tiers of fleeted canopies, is a triumph of delicate art; the two-storied canopy raised by Isabel Despenser to the memory of her first husband, the Beauchamp who was Earl of Warwick; the richly tabernacled canopies and ogee arches of the chantry of Worcester, is only less magnificent than that at Warwick to her second husband, the Beauchamp who was Earl of Warwick; the richly tabernacled canopy and ogee arches of the chantry of St. Edward, Lord Despenser, the stonemason who was Earl of Worcester, is only less magnificent than that at Warwick to her second husband, the Beauchamp who was Earl of Warwick; the richly tabernacled canopy and ogee arches of the chantry of St. Edward, Lord Despenser, the stonemason who was Earl of Worcester, is only less magnificent than that at Warwick to her second husband, the Beauchamp who was Earl of Warwick.

Whichever of these monuments is seen, it is difficult to believe that the work of FitzHamon's chantry and the tracery of Abbot Cheltenham's are so good as to be remarkable. The kneeling figure of Edward, Lord Despenser, on the roof of the chantry, is said to be unique in monumental art. Nor must be forgotten the resting places of the Duke of Clarence of St. Malmebury, who was lord of Tewkesbury, or Edward, Prince of Wales, who became one of the many illustrious victims of the decisive Battle of Tewkesbury.

POINCARÉ GETS COOL RECEPTION

French Premier Not His Old Fighting Self in Making Statement.

By WEBB MILLER. (British United Press Staff Correspondent.)

Paris, March 31.—Premier Poincaré received a cool reception from the Chamber of Deputies today when he read his ministerial declaration and presented the new cabinet. Frequent interruptions and laughter came from the left benches.

Poincaré was not his old, fighting self. His hands trembled and he appeared noticeably overstrained. Angry at his interruptions the Premier stopped reading.

"Name of a dog," shouted Deputy Lacotte, radical leader. "Can not we laugh?"

Poincaré retorted that he would read his sentences each time there was an interruption. There were plenty of these and he read one phrase seven times.

The white haired, bearded little statesman shook with rage as radical deputies ridiculed his announcement of the new ministers, because four of them were Poincaré's opponents and politicians he had made a political compromise.

When the reading was over the Premier demanded that the chamber postpone the interpellations which were on the lips of opposition leaders, until tomorrow.

DR. CURREN, L.A., PRAISES THE HEALTH ACT

St. John County Member Heard on Budget Debate in Legislature.

Fredericton, N. B., March 30.—After putting himself on record in his speech in the budget debate as a strong supporter of the Health Act and pointing out beneficial effects that he maintained resulted from its operation in the way of a reduced death rate and improved health in the province, Dr. L. M. Curren, M. L. A., St. John, a portion of whose speech in the Legislature Friday, appeared in The Evening Times on Saturday afternoon, went on to say that the laboratory at St. John was doing good work for the citizenship of the province.

He believed the time would come when there would be a laboratory at every place in the province where a hospital existed, as there could be no standardization of hospital laboratory service. Much had been heard of the insulin treatment for diabetes, but in administering that treatment laboratory service was most essential.

Thanks to the department of Health, Dr. Hipwell, an associate of Dr. Brantling, had visited St. John and given a demonstration in the use of insulin treatment. It had been made clear that the treatment could not be carried on without the use of the laboratory. The revenue derived from the laboratory work among the girls, especially the working girls have to turn in wages to their homes, and have little for any other purpose.

S. S. METAGAMA BOASTS TWO POETS

To many that follow the sea the gift of a poetic soul seems to have been given. In this respect the C. P. liner Metagama which arrived in port on Saturday seems to be especially favored. The poetic ability of the chief steward, Dunach McIntosh, is well known to the people of this city, where he has been a frequent visitor.

Dr. Peake was a colonel during the late war and served on the western front and at Saloniki. Mal de mer is a common complaint among those making the passage across the Atlantic, and it was in appreciation of the attention received from Dr. Peake and his staff during the voyage that the lady passengers presented to him a short address in which they expressed their gratitude for his kindness.

In the Exmouth street church last evening Rev. H. E. He highly commended the gracious manner in which the members of the New Brunswick Legislature had listened to representations from both sides and the indications it gave of a deep desire to hear all the evidence and judge the case upon its merits.

DEFENDS VIRGIN BIRTH OF CHRIST

Dr. W. H. Thomas Griffith Says Doubt is Due to Prejudice.

"I know no reason for questioning the Virgin Birth except prejudice against the Divine, the supernatural or any interposition of God." So stated Rev. W. H. Thomas Griffith, D.D., M.A., noted Bible student, before a large congregation at St. John's (Stone) church last evening. The sermon was a wonderful defence of the truth of the doctrine of the Virgin Birth, enforced by logical arguments, questions from Church History and modern preachers and emphasized by the speaker's own sincerity of faith and the Bible tells of His unique beginning, giving an adequate explanation. The first way to become convinced of this truth is to receive it into heart and mind as Saviour and Friend. This is the finest argument in favor of the doctrine.

The basis of doctrine which had been agreed upon, he said, more truly expressed the mind of the church than the creedal statements to which any of the churches formerly subscribed. A new dawn had dawned in which emphasis was placed upon essentials and in which each body of Christian believers had learned to respect the belief of another. Of this event the bill under discussion was a true expression. Mr. Thomas expressed his conviction that the present union was but the beginning of greater unions yet to be.

**PLEA TO SUPPORT MARITIME SCHOOL FOR THE BLIND**

Mayor Fisher, Miss Ellis, Secretary Downe and Others Speak at Imperial

The plea for support of the Maritime School for the Blind in Halifax which was presented at the mass meeting in the Imperial Theatre last night was doubly appealing from the fact that three of the graduates of the school took part in the programme. Professor Hollis Lindsay, the blind musician, a member of the teaching staff of the school and gold medalist of Chicago University, gave a wonderful demonstration of his mastery of the piano; William Davis, blind musician of St. John, gave a pleasing vocal solo that was heartily received and Miss Evelyn Ellis, blind teacher of literature of the staff of the school, pleaded for assistance in carrying on its work. J. F. Downe, the secretary of the campaign, gave facts and figures concerning the need and the work being done. The chairman was Rev. Canon R. A. Armstrong, who recalled the story related in chapter 9 of St. John's gospel which tells of Christ restoring the sight to the blind. Canon Armstrong said those who had sight could not but extend sympathy to those who had it not and he pointed out that sympathy was only of use when it followed action. Mrs. A. W. Estey, president of the Women's Council, and Mayor Fisher were on the platform.

Miss Ellis spoke of the great affliction which blindness was and of the desolation found in being both blind and idle, as the untrained blind must be. Then she described the work of the School for the Blind in bringing education and useful occupations to those without sight. There were at present 156 pupils in the school, she said. There was no law of compensation which brought other gifts when sight was taken, the only compensation was found in the sympathy which resulted in support of such work as the School for the Blind.

Miss Ellis described special cases trained at the school. A woman named in New Brunswick was blinded by an exploding fuse and crawled two miles in below zero weather to reach help. That man had been saved from the suicide he contemplated and after training at the School for the Blind was now one of the most successful business men in Halifax. A woman who had lived in blindness in an isolated village until she was 30 years of age had earned the money herself to read and write and to do machine and hand sewing. Another former student was professor of history at Bristol University.

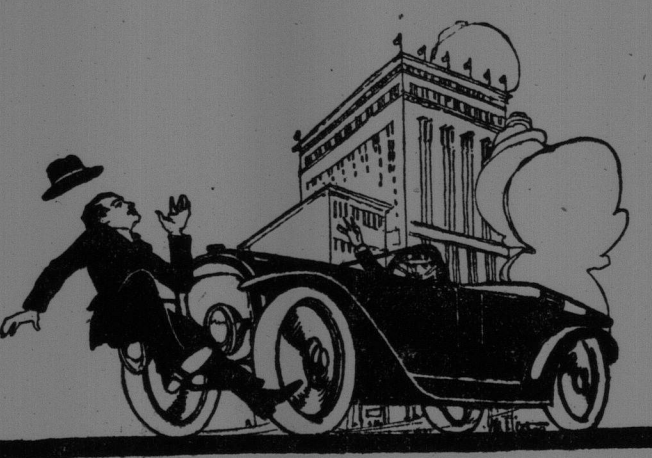

These were outstanding pupils and it was true, Miss Ellis said, that many pupils could not so distinguish themselves but required after care. She asked people to be philanthropic by buying brooms made by the blind and she closed her address by saying she realized there were many appeals at this time but that she believed the standard of measurement was "How much of God's work are you doing?" and there should surely be room for work for the blind among all the other good works.

**Cost of Pupils.**  
Mr. Downe said worthy appeals must multiply and not decrease as more and more there was a practical application of the principles of Christ. For each pupil in the school, he said, the Provincial Government paid \$200 and the municipality \$200 and the endowment of the school added another \$80 but that was \$50 short of the actual cost and as the result of lack of support in war years and of loss during the Halifax disaster the school now had a debt of \$23,000. The school was giving a literary, musical and vocational education and he quoted Rev. Francis Lockyer as saying that one New Brunswick boy who was proving an apt pupil at the school would undoubtedly have lost his reason had it not been for the training and interest the school supplied. The other New Brunswick boys trained at the school had so far succeeded that today one was a Presbyterian minister and the other a Baptist minister. In the broom factory in connection with the school there were 15 to 20 employed. He asked the audience to consider what it would mean if the school and the broom factory were closed because of lack of funds. A child blinded by accident might seek the aid of the school in vain and the 15 or 20 men would be turned adrift with no hope. Even at the present time between 30 and 40 blind seeking admission could not be received at the school. In telling of some specially cheering incidents in the campaign for funds, Mr. Downe related how the miners at Springhill had pledged one per cent of their wages for one week and later had sent the sum of \$1,200 as their contribution to the school. Mayor Fisher spoke briefly in support of the appeal and the remainder of the meeting was taken up with a showing of motion pictures of the work at the School for the Blind. Mr. Downe reminded the audience that nine St. John children are at present in the school.

**REV. W. H. SPENCER GIVES HIS FAREWELL**

It was with regret the congregation of St. Matthew's church listened last evening to the farewell address of Rev. W. H. Spencer, who has resigned. He will leave Wednesday for Charlottetown. Mr. Spencer preached from the text John 17: 20-21, making a plea for spiritual unity. After the sermon Mr. Spencer bade farewell to the congregation. He recalled how he had come to St. Matthew's as supply minister in Nov. 27, 1920, and had been inducted as minister on April 21, 1921. He spoke about the vacancy in the Douglas avenue Christian church caused by the death of Rev. William Phillips, and recalled many occasions when that congregation had united with St. Matthew's during the absence of one pastor. Now that both were without a minister he urged that spiritual unity still prevail.

**GIRL GUIDE FLAG GIVEN TO CHURCH**

Presentation is Made in Knox Edifice Before a Large Congregation

The ceremonies of the presentation and dedication of the Girl Guide flag for the Knox church company of Guides which took place yesterday afternoon in the church were attended by a large congregation and throughout were marked by reverence and dignity. The flag is a very handsome Union Jack with the gilt trefoil emblem of the Canadian Girl Guides and the lettering C. G. G. topping the pole. Its cord is of black and orange, the colors of the company. The flag was the gift of Mrs. Murray MacLaren, the president of the Girl Guide Association for this district and in the absence of Mrs. MacLaren was presented by Mrs. W. L. Caldwell.

The color party which received the flag was composed of first Patrol Leader Isabelle Kinsman and second-patrol leader Gertrude Humphrey, and Guide Marjorie Adamson. After the flag had been presented Miss Edythe Mitchell, lieutenant of the company received it and held it during the service of dedication which was conducted by Rev. R. Moorhead Legate, minister of the church.

In his address Mr. Legate told of the high principles and ideals of the Girl Guides and impressed upon the Guides present their privileges and responsibilities. His address was an inspiration to everyone present.

**Why Ford Predominates**

**Many Reasons From Many Users**

If you were to ask the next fifty Ford owners you meet why they prefer Fords, you would get a wide variety of answers.

Some would say, "Because they seem never to wear out;" others would answer, "Because they cost so little." Many would reply "Because I can get service anywhere;" and just as many, "Because it is the only car I can afford to own."

All would tell you, "Because they master a bad road in any weather," a woman driver would respond, "Because I can drive it so easily." From the fleet-owners you would hear, "Because I can buy two or three or four Ford Trucks for the price of one big truck."

Wherever you might inquire you would hear expressed these basic reasons why Ford predominates—why, year after year, Ford sales equal the total sales of all other cars combined.

Rev. J. J. McDermott Lays Lure to Attractiveness of Picture Houses

Directing his remarks particularly to parents, Rev. J. J. McDermott delivered a sermon at St. John the Baptist church yesterday morning on the "lure" as the corrupter of the child's honor.

he said, but felt that it was nearly time that parents should know just what their children were doing. He did not blame the children so much. He said that he was sorry for them, but put the blame for this sad condition on the shoulders of the parents.

The shroud of silence of the confessional sealed his lips as to the names of the children, but he said to dotting parents, "your child is just the same as any other, they are all children and subject to temptation."

No child was perfect, he said, no matter how perfect a parent may think it to be. For this he blamed the parents for the sins of their children, because of their putting temptations in their way.

METAGAMA HAS FINE VOYAGE

C. P. Liner Arrives With 1,295 Passengers and a General Cargo

The Canadian Pacific liner Metagama, Captain W. Henderson, arrived in port about 7:30 o'clock Saturday evening and docked at Nos. 2 and 3 berths, Sand Point. The ship is from Glasgow via Belfast and besides 45 bags of Irish mail and 3,000 tons of general cargo there was 116 cabin and 1,179 other passengers.

The Metagama had a fine voyage from Belfast with the exception of last Thursday when she encountered heavy weather for 18 hours and drove head on through a heavy westerly, accompanied by high seas. The steamer left Belfast March 22.

The 1,295 passengers did not disembark until yesterday morning at 9 o'clock. The first train carrying cabin passengers left Sand Point for Montreal at 12:30 o'clock, a second train at 3 o'clock, the third at 4 o'clock and the fourth an hour later.

A party of 60 arrived from Glasgow in charge of Commandant John Clark of the Salvation Army, including women and children who come to Canada to join husbands and fathers, while there was also in the party 12 domestics en route to Ontario.

There was another party consisting of 184 Slovaks being brought out to work on farms in the west. Their destination is Winnipeg.

A C. P. R. party, consisting of 31 young women for domestic service, arrived in charge of Miss C. Mackay from Glasgow and are en route to Montreal.

An Ontario Government party of 122 young men from Scotland and Ireland arrived in charge of Major G. A. Heather. They are all said to be expert farmers.

There were only 12 persons who will settle in New Brunswick, also a party of six Italians en route to Minto to work in the coal mines.

MODEL SHIP ATTRACTS.

Interest was taken yesterday in the C. P. R. baggage room at Sand Point, when the model of a five-masted full rigged ship was landed from the steamer Metagama. The model was brought from Norway by E. Erick, and is being taken to Kenora, Ont. Mr. Erick has been visiting Norway and says the model was presented to him. The ship is perfect in detail from keel to truck and stem to stern. All sails are set, and there is not one part of the rigging that is not in its proper place. The model measures about seven feet long, is 825 pounds, and is also fitted with a battery, so the ship's port and starboard lights, as well as those in the cabin can be illuminated.

PASTOR ABSENT.

In the absence of Rev. Hugh Miller, minister of St. David's Presbyterian church, who is attending a meeting of the home mission committee of the Presbyterian church in Canada which is convening in Toronto, religious services in St. David's church yesterday were conducted by Rev. Dr. W. C. Kierstead, of Fredericton.

Health Restored by The Fruit Treatment

Fourteen years ago, Mr. James S. Delagaty, of Gilbert Plains, Man., was a nervous wreck. His system was shattered by Nervous Prostration, and he was reduced in weight from 170 to 115 pounds.

He wrote on May 15th, 1917, "Every medicine I tried proved useless until a friend induced me to take 'Fruit-atives'. I began to mend at once. After using this fruit medicine for three months, I was back to normal. I have never had such good health as I have enjoyed the past six years. We are never without a box of 'Fruit-atives' in the house."

Writing again on September 27th, 1923, Mr. Delagaty says regarding my letter to you in 1917—I still recommend 'Fruit-atives'.

"Fruit-atives" is a complete fruit treatment—being made of the juices of fresh ripe fruits and tonics.

OPEN TEMPERANCE SESSION IS HELD

Queen Square Methodist Church Sunday School Members Hear Talk on Subject

Queen Square Methodist church Sunday School held an open temperance session yesterday afternoon. Rev. H. A. Goodwin, of Portland Methodist church, conducted an illustrated talk on the subject of temperance.

The primary class sang under the direction of Miss Esther Welford. Miss Eloise Moore and Miss Marie Patterson, with Miss Mary Gunn as accompanist. Rev. Mr. Goodwin used colored charts, which were thrown on the screen and depicted the life of a young man led astray by the use of light wines and beer.

The money that the Government treasury was later shown as being spent in the courts, jails and other unpleasant directions to restore him or keep him from doing more harm that his corrupted life had led him into so far. Deep appreciation was expressed by the chairman, on behalf of the audience for the splendid programme arranged by Miss Pratt, and so ably carried out by Rev. Mr. Goodwin and the other participants.

Good-bye to Jammed Car Rides

"THANK GOODNESS! I'm through with that," exclaimed Tom, as he wheeled past the crowd struggling to get on the street car.

"It's much pleasanter sitting on my comfortable saddle than hanging to a strap in a jammed, stuffy car."

Tom is right. It certainly is a pleasure to ride a sweet-running C.C.M. Bicycle to work these fine mornings.

There is health in every breath. And the gentle exercise of cycling is just enough to stir up the circulation and put pep into the system. You feel fit to tackle the day's work.

You can ride home at noon, too, to a hot lunch if you desire. And, after the day's work is done, what a comfort to spin home on your smooth-running C.C.M. while others are trudging along the hard pavements or waiting on the corner for a crowded street car.

It will not take long to pay for a C.C.M. Bicycle. You can do it with the car-fare you'll save, or with the shoe leather you'll save instead of walking on hard pavements. Your time is worth money, too, and a bicycle will save you lots of time.

See the handsome new C.C.M. models, all asparkle with their bright nickeling and lustrous enameling.

Every C.C.M. is equipped with the famous C.C.M. Triplex Hanger—the power plant that gives C.C.M. Bicycles so much speed—and pep—and go.

They're equipped with the C.C.M. Hercules Coaster Brake, too—the one without the clumsy side arm—yet ounces lighter and with fewer parts than any other.

There's the new Gibson Pedal, too, with its silvery, rust-proof aluminum frame. Weather-proof Maple Rims. Flint-hard Bearings of extreme accuracy. A bicycle of supreme quality in all its 1,761 parts.

Drop into the C.C.M. dealer's and see the new models. From the Standard model—the Special—the Sport model and other designs—it will be easy to pick out one that suits you to perfection, and at from \$15 to \$20 less than the "peak" prices. A Big Dollar's Value for every dollar you invest in a C.C.M.

Lubricants Worth Every Mile of the Long Haul From Peru

Under Spanish domination, the precious metals of Peru were transported to the coast in small quantities by tedious methods, and from thence to Spain by slow-sailing, lumbering galleons. Today petroleum, the liquid gold of Peru, flows in a steady stream to the seaboard and is speedily by fast-traveling steam transports to the waiting crank cases of Canadian motor cars.

FOOTBALL GAMES  
DRAW THOUSANDS

Details of Big English Association Cup Matches in London.

(Canadian Press Cable) London, March 31.—Newcastle United and Aston Villa qualified to enter the final of the English Association Cup series when they won their matches in the semi-finals Saturday.

The Aston Villa and Burnley game at Sheffield attracted a crowd of sixty thousand. Burnley won the toss and played in the first half with a slight breeze behind them.

This situation does not apply much to the "leads." American is still quite faithful to its native-born heroes and heroines of the silver screen.

Foreign directors are largely responsible for this situation, a review of the companies now working reveals.

Megaphone wielders who received their dramatic training abroad, after their births there, are stepping into the forefront in photoplay direction.

Ernst Lubitsch, Dimitri Buchowetzki and other European film-makers, induced to Hollywood by the lure of a fatter pay-check, may possibly be excused for surrounding themselves with as much of the home-country "atmosphere" as possible.

In one studio there is a new director from abroad who speaks no English. He conveys his directions by dramatic gestures, and through interpreters—that is, the directions necessary for the few Americans in his company.

At least a half dozen of these European filmsters are holding positions as feature production directors in Hollywood today.

Work For Smaller Pay As usual, the European talent works for less than the American. So U. S. "extras" who formerly received \$12.00 to \$15 a day now have difficulty in getting work at \$10.

Perhaps it is just a flurry, this replacing of American picture folk by the foreigners. With the usual optimism of the stage, the Hollywood registers predict that it is. They do not believe the foreign-directed films will prove very popular, and anticipate a return to American-handled entertainment within the near future.

They are upholding this belief by the recent failure of Lubitsch's "The Marriage Circle" to last longer than two weeks after its New York premiere.

Although it has, for the most part, American players known to all picture fans, they are given German names in the film, and the direction and atmosphere has a foreign touch which, while bridging the picture as a "big step forward in modernizing picture-play," failed to get it over Gotham.

The yard and the pound are the only two independent standards for weights and measures.

HUGGINS LETS OUT SEVEN RECRUITS

Keeps String on Six—Giants and Yankees Start North.

New York, March 31.—Manager Huggins of the New York American League club, announced the release of seven recruits yesterday.

Two of the three metropolitan teams broke camp yesterday and started north. The Giants left Saratoga for Orlando, where they will begin an exhibition tour today with the Chicago American League club.

The Yankees will be at Mobile to begin a five-game series with Rochester in that city. The club will remain at Clearwater for several days.

Try Out Jones. Johnny Jones, \$25,000 Pacific Coast League, joined Brooklyn yesterday and will be worked at shortstop in the regular infield until Manager Robinson gains his ability.

Pitcher Jess Winters has been sold by the Philadelphia Nationals to the Portland team of the Pacific Coast League.

A five-game series with the Milwaukee Brewers this week winds up the St. Louis Nationals' spring training at Braden, Fla. Manager Riskey is still angling with Boston, Brooklyn and Philadelphia for a catcher with Milton Stock, holdout third baseman, as bait.

RIFLE CLUB. The St. John Rifle Club held its weekly spoon match on the Armory range Saturday night. When W. H. Childerhouse, with a score of 26, won the spoon for Byron.

There will start a double aggregate of four shots each, one for Class A shots and the other including Class B and two shots. This evening a team from the local club will meet the Sussex Rifle Club at Sussex. Following are the results of Saturday night's match:

Table with 2 columns: Name and Score. Includes O. J. Dick, A. S. Emery, J. F. Downey, R. S. Langstroth, A. Langstroth, H. N. Hamilton, W. H. Childerhouse, M. E. Clark, John M. Thompson, J. MUCH INTEREST IN ARMORY BOUTS

McIntyre and Williams to Appear in Feature Event—Good Preliminaries.

The Johnnie McIntyre-Irish Kid Williams' twelve-round bout slated for the Armory tonight has developed a great deal of interest in sporting circles about the city and has been the subject of much favorable comment over the week-end.

Apparently, Johnny McIntyre has lost none of his popularity with the local fans and by his good work since his last appearance here has greatly increased his prestige. Both boys arrived in the city on Saturday and with a good rest over the week-end should be at their best when the record sounds tonight.

Johnnie McIntyre's record since leaving St. John is a good one. He has beaten the following: Sailor Byron, the New England lightweight champion; Pat Mills, Irish lightweight champion, now of New York; Spike Hennessey, Walter Riley, Johnny Pobuk (twice), Jimmy Kelly (K. O. 4 rds.), Tommy Bergin (K. O. 9 rds.), Billy Brewster (K. O. 2 rds.), Jimmy Murphy, Eddie Ketchell, Tommy Corbey, Freddy Warren, Young Corbett, Billy Fitzsimmons (K. O. 7 rds.).

In Williams will meet a clever boxer and will be forced to show everything he has to keep up with the speed and jig-saw action of the little Irishman.

The preliminary bouts also promise real action, the Honeyman-Smith bout especially, as many of the fans think

CONFIDENT BOUT WILL BE THRILLER

Sydney Boxing Fans Awaiting the Arrival of Gordon Paris.

Prescott Anthony is in receipt of a letter from the manager of Gordon Paris to the effect that he will arrive in Sydney early in April, and that the bout which is to be staged here under the auspices of the Policemen's Club on the evening of the 7th should prove one of the best that has been put on in recent years, says the Sydney Post.

On that date the colored man from St. John will stack up against Jack McKenna, the crack North Sydney boxer, and as both boys are clever exponents of the fist art, there should be something doing all the while they are facing each other. Frankie Burns, who will manage Paris during his visit here, says that his man weighs 135 pounds, and as the local boy tips the beam at the same poundage there will be nothing for either to give away on that score.

The choice of third man in the ring will be made after Paris gets here, but it is not believed there will be any difficulty in choosing a referee who will be satisfactory to both fighters. All that is necessary is that the arbiter shall know the rules of the game as both boxers are clean fighters and require little checking when in action. Local fans are in for a first class affair when these men clash here.

WILLS TO BENEFIT IF FIRPO RETIRES

Will be Logical Contender for Champion J. Dempsey's Crown.

(By Henry L. Farrell) New York, March 31.—(United Press)—Harry Wills will be the one to benefit most if Luis Angel Firpo should carry out his threat to retire from the ring.

The right of Wills to challenge for the heavyweight championship was firmly established before the advent of the Argentine contender, but it was overlooked as long as Firpo held the dominating position among the challengers.

With Firpo out of the running, there can be no question but what Dempsey will have to fight Wills or retire. He can't evade the issue without having the truth told. Wills there is every reason to believe that he would rather fight Wills than any of the contenders.

However, there have come up recently good reasons to believe that Jack Kearns, the champion's manager, is afraid of Wills. Perhaps his realization that Wills is the most dangerous challenger causes him to prefer risks less hazardous for his million dollar investment. Kearns has steadfastly maintained that he didn't want to fight Wills because it would be a bad show and that it wouldn't help the business. He says he managed Wills once and he knows what kind of a rotten fighter he is, and he says that Dempsey would beat him with one hand.

Such talk of course, foolish. Dempsey probably would beat Wills if he met, but he wouldn't have a cinch doing it. True, he might take Wills in one punch, but one punch knockouts are lucky, and Dempsey would have to be lucky to win that quickly.

In the event that the men on the inside are telling the truth, Wills will maintain that Dempsey will not be permitted to fight Wills this year, the champion would have to fight Tommy Gibbons if he wants to knock out Dempsey. Perhaps he doesn't want to fight this year. His actions seem to indicate that, and from the most reliable source it was learned that he is going to be none too eager to get a fight for Dempsey. He will consider nothing until fall, and then he will fight in mind for a push-over. Firpo will be nothing but a set-up for Dempsey if they met again. Dempsey never would miss Firpo's right hand, but one punch on the first punch in their other fight was Dempsey's miss with his left hand and Firpo's rather lucky counter with a stiff right that knocked Dempsey groggy and made possible that sensational first round.

Tom Gibbons certainly has been pushed around in his career, but the prominent boxers, Dempsey took a deliberate run-out of the match that Rickard had arranged for an early June date with Gibbons.

When the story was printed recently Dempsey was not in shape, that his manager had said it would not be safe for him to fight before fall, Kearns said it was "sheer bunk."

Kearns told Rickard that he could not accept the Gibbons bout because Dempsey was not in shape, and when the story was printed Kearns said that Dempsey was in perfect condition and could fight "tomorrow."

If Dempsey is in shape, if the operation did not leave him in the condition that an operation usually leaves any normal human being, then Dempsey pulled a deliberate run-out of a fighter that the experts say was carried at Shelby and would be murdered if they met again, then the experts must be wrong again and Dempsey must be afraid of Gibbons.

The regard that Dempsey shows for Gibbons by refusing to take the match does not support the charges that Dempsey double-crossed their judgment by allowing Gibbons to stay fifteen rounds. Dempsey, of course, is not afraid of Gibbons, but Dempsey probably knows that he would look none too good in winning again from a light heavyweight, and he has too much pride in the man-killing rep that he got against Firpo to run the chance of being made look like an ordinary fighter against Gibbons.

The refusal of Dempsey to accept the Gibbons fight shows that he is either trying to cover up his real physical condition or that he is not willing to take the chance of having Gibbons make him miss again for twelve rounds or fifteen rounds.

Dempsey had an easy "out" in Shelby, because, when he failed to knock out the man he outweighed by 20 pounds, his expert friends said he carried his opponent so Firpo could be coaxed into a fight with him.

It is quite possible that Dempsey may feel that he has no excuse for carrying Gibbons if they were to meet this summer, and that he would have no manufactured "out" if Gibbons should make him look so badly again.

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

EVEN MONEY IS BET THAT O'NEIL'S PLAY NOT TO BE PRODUCED AS PLANNED

Storm Clouds Gather Over "All God's Chillun Got Wings."

(By Maurice Henle.)  
New York, March 31.—Gentlemen who gamble now offer even money Eugene O'Neill's "All God's Chillun Got Wings" never will be produced as planned. The original purpose still unchanged so far as we know, was to save a full-blooded negro play opposite white woman.

Those who gamble he won't produce that way think they know the pulse of the public better than he. They realize the New York theatregoers are extremely kind toward a play of merit, and that they would be exceptionally lenient toward O'Neill, who brought them "The Hairy Ape" and "Anna Christie."

But they are gambling on psychology. They know he would put the negro in just as uncomfortable and awkward a position as the white. And they shrewdly feel more opposition against the show will come from the negro than from the white. In other words, they think O'Neill has gone too far.

Negro Cast Scores.  
That the public here welcomes a cast of able negro performers is proved in "Runnin' Wild," featuring Miller and Lyles. We saw the "spring edition" of this all-negro revue just the other night. The show has been "running idly" for many weeks—it opened on 1, 29 last.

An overwhelming part of the audience is white, and racial prejudice, ever existed, is parked in the aisles before entering the theatre. There is something fascinating about "Runnin' Wild." The chorus, in the first place, knows how to sing, and how to dance. And the two mixed, produces a rhythm that gets side you and stays long after the act curtain. Go to see "Runnin' Wild" if it visits your city—and if it is the original cast. You won't be sorry.

The storm-cloud of opposition which gathered over "All God's Chillun Got Wings" transcends racial prejudice. Mr. O'Neill would have the negro character, a well-bred man of fine sensibility, fall in love and actually marry the white girl, whom he loved since childhood, and who in later life became the mistress of a prizefighter.

Thus far the opposition has centered the fact that O'Neill expects to have all-blooded negro instead of a black and white man play the part, and used white man play the white girl but the play calls for a white girl to kiss his hand. To object to this is to classify oneself as a bigot of the worst kind, and is hardly worth mentioning.

But O'Neill hits deeper. He wants the negro to MARRY the white girl. His idea is vicious and diabolical, and is over this point that the protests against the play will centre once it is known that O'Neill intends to go through with it.

You hear it said: "Yes, but that is life." Certainly it is life, a horrible, distorted vision of life. You see it in "But It Happens." Certainly it appears very rarely, thank the good Lord. The negro race is a pure race. The Anglo-Saxon race is a pure race. But for the sake of both races, don't mix them and don't encourage their mixing.

WINTER RACING KILLS 18 HORSES

Unprecedented Number of Fatalities in England—One Valued at \$10,000.

London, March 31.—There has been unprecedented number of fatalities recently in horse racing over hurdles in steeplechasing, due very largely to the slippery ground after overnight frosts.

During a recent period of 18 days, 18 horses were killed while participating in races at various meetings, one being the step-charger "Southampton," worth \$10,000. There were two cases in which horses slipped and broke their necks, one had a broken back and the others were so badly injured they had to be shot. Curiously the jockeys in each case were not injured at all.

THE NEW LLOYD COMEDY.

With "Girl Shy" ready for release next month, Harold Lloyd has turned his attention to a new comedy. It is as yet without a title, but it is to be a domestic comedy. Harold wants it to be in the nature of a tribute to the success of his happily married life with Mildred Davis Lloyd.

AT THE INCE STUDIOS.

The Hollywood Laboratory Corporation, with its entire equipment, has been purchased by Thomas H. Ince, and will be reassembled and operated in conjunction with the big laboratory on the Ince lot in Culver City. The Hollywood Laboratory was completed one year ago, its assembly including the most modern machinery and paraphernalia used in motion picture making.

One of the feature units of equipment in the Hollywood laboratory is the patented title printer. This machinery, in itself costing a little more than \$50,000, was especially constructed in Waltham, Mass., and installed in Hollywood one year ago. It is the only machinery of its kind, and includes several printing patents and equipment for the use of the secret processes in the making of transparency titles and art backgrounds.

Tower of Babel Had Nothing on This

Actors in "Thundering Dawn" From Every Land—Linguist Solves Problem.

The tribulations of the tower of Babel were no myth. If any doubt this, Harry Garson, director of "Thundering Dawn," the big Japanese feature produced by him for Universal, can give first hand testimony. Only the presence of a former British army intelligence officer, who knows all the languages from Gansong to Mandatlay, and those of Europe and the rest of the Orient into the bargain, saved the day for Garson.

The picture, laid in the melting pot of the Pacific and taken partly in Java and partly in the studio in California, has a cast that includes every known nationality. Many of the actors speak little English.

William J. Cowen, Garson's assistant filled the breach. He knows Chinese, Japanese, Turkish, German and French and has a working acquaintance with most other languages. As a British intelligence officer he negotiates treaties with Turks and Malays, and his knowledge was hailed with joy by the director.

Goldwyn and Metro Planning to Combine

Consolidation is Answer to Rumor of Mr. Loew's Buying Out Rival.

New York, March 29.—Negotiations are in progress between the Goldwyn Pictures Corporation and the Metro Pictures Corporation for the merger of some of their distributing organizations. At the Goldwyn offices, however, denial was made of a report in film trade circles that Marcus Loew, president of Metro, was buying up Goldwyn stock, stock and barrel, taking over the entire producing as well as distributing organization.

The rumor represented that Loew was buying out Frank J. Gosdold, head of Goldwyn, who has about \$750,000 worth of stock, and William Braden, copper magnate, who is said to have about \$450,000 worth. It was denied by the Goldwyn company that these two principal stockholders were selling out with a view to quitting the picture business.

Instead, it was stated that the heads of the two companies are discussing the combination of various distributing points, with a view to material economy by eliminating duplicate exchanges. Nothing final has been settled yet, it was said. In any event, it was indicated, the respective sales organizations will be maintained intact, instead of being merged, as reported earlier.

Goldwyn has thirty-one exchanges throughout the country, Metro has twenty-five. If the proposed consolidation should go through, bringing the Cosmopolitan into the fold through its present connection with Goldwyn as its distributing channel, this three-party organization would be one of the most powerful systems for distributing pictures throughout the country.

The question has been raised as to whether William Randolph Hearst, owner of the Cosmopolitan, might not drop away from this new affiliation. Goldwyn executives do not expect this, however, as his picture would still be released by Metro, as separate productions apart from Metro. Meanwhile Goldwyn is going ahead with its producing and distributing programme as heretofore.

TAKE A TEN YEAR OLD OUT OF PLAY

Alice Brady Didn't Like "Zander," Hence The Child—Police Object.

Springfield, Mass., March 31.—Alice Brady's artistic temperament has caused the deuce of a pickle for the manager of "Zander the Great," in which Miss Brady is starring here.

According to Bureau of Public Safety officials in Springfield, the noted star decided that she could not act properly with John Ballas, known as Lord Robert, the midget and smallest Elk in the world, playing the role of "Zander."

So Ballas was allowed to work as an understudy and give the impression generally that he was the "Zander" of the show. This was good advertising. But little Miss Vera Quinn, a 10-year-old, really took the part in the play.

A local Inspector of the Public Safety Bureau dropped in to see the show. The appearance of Miss Quinn made him suspicious with the result that he went back stage and found out how things were. As children under 15 years old are not allowed to appear in professional stage performances in Massachusetts, he ordered that the girl be taken from the part.

So Ballas himself went on and missed a big Elk parade, of which he was to have been the feature. The State officials understand that Miss Quinn has been getting by with the act all over the State.

Produce Film To Warn Away Crowds From Hollywood

The Hollywood Chamber of Commerce has become a producer of motion pictures, in truth, but of a dramatic sketch which will soon go out over one of the country's leading vaudeville circuits.

It is an act which will tell the story of the unsuccessful efforts of a youth and girl to "break into" the motion picture game in Hollywood—a story that is founded on fact in hundreds of cases every day.

Edward Everett Hale's classic, "The Man Without a Country," is to be filmed by William Fox. This tragic story of Philip Nolan, an officer of the United States military forces, who, because of his implication in an Aaron Burr conspiracy, was sentenced to travel the world as "a man without a country," was filmed several years ago, with Arnold Daly in the title role.

BEGINNING OF 'END OF WORLD'

Because "The End of the World" is about to commence, Jack Pickford and Marilyn Miller Pickford invited the entire "Sally" company, in which Marilyn was formerly star, to the Pickford studio in Hollywood for an afternoon of frolic.

After 32 minutes of play the Villa scored again with an extraordinary shot. From touching New Manchester, Dawson was standing watching the ball under the impression it would go behind. It hit the far post and glanced into the goal. Five minutes later York goal was on 25 yards out.

Forty-five thousand people saw Newcastle United eliminate Manchester City.

Browell kicked off. Manchester attacked and long passing was the order by both sides. Lowe tested Mitchell with the first shot at goal of the match. The foot of the superior team was marked by fast, even play.

Following a free kick the ball came to Harris in a scramble. He shot cleverly with his left foot, beating Mitchell. This happened a minute before the interval. The game was resumed and Newcastle made a hot attack which ended in a scramble on Manchester goal line. Following a free kick Newcastle pushed in on the Manchester goal. Harris headed past Mitchell for a nest goal after seven minutes' play and this ended the scoring.

On a portion of the Kentish coast the sea has been receding for a great many years, and it has left behind a large tract of pebbles many miles wide. When I first visited this spot about twenty years ago we found a nest of the wheatear underneath an old pan which no doubt had been washed up by the sea.

Two years ago I was bird watching there with my wife, and she expressed a desire to see a wheatear's nest. I just scanned the stones with my field glasses, spotted a rusty pan about 100 yards ahead, and on going to it we were greeted by three hungry young wheatears.

Many thousands of years ago an ancestor of ours left an old pot lying on the ground outside his camp. A pair of robins chose this as their home. At the present time the descendants of this intelligent pair of robins are to be found all over the country, but each year nests of this bird are discovered in old tins and kettles which have been left lying about.

In one of the suburbs of London, a pair of blue tits built their nest in a lamp-post. I often watched them going in just under the glass. Where the nest was it was impossible to say, but probably they went right to the bottom and built their home level with the ground.

When the young birds were reared they escaped from their curious home—there were eight of them in all. Six years later, nearly a dozen lampposts in the locality were occupied by blue tits, showing that the young which had first been reared in this remarkable place, also their young, had found it to be an ideal home.

A large flower pot had been left standing by the side of our garden path and two great tits promptly took possession and there reared a family. For years afterward if large flower pots were placed in suitable positions they were utilized by the family.

FOREIGNERS CROWD OUT AMERICANS

European Actors and Actresses Flock to Hollywood as Extras.

(By H. E. Swisher.)  
Hollywood, March 31.—(United Press).—Hollywood has been hit by a foreign invasion, growing rapidly.

Taking advantage of a periodical popularity for the exotic and bizarre, actors and actresses with foreign accents and European birth, together with directors who speak in broken tongues, are flocking to the world's film center in increasing numbers and securing employment.

American-born men and women are finding their places before the cameras filled by foreign types. You can see a Polish, French, Italian, German or Russian accent in the passport to studios and a "career."

Dramatic folk who talk plain "United States" are just naturally "out of" and let Dorrell through. The latter centered and after Capewell had missed the kick on the goal, Taylor blundered and Kirtley netted.

After resumption, Walker with a wonderful hook shot sent the ball curling and rising bar high and Dawson only managed to save by a frantic jump.

After 32 minutes of play the Villa scored again with an extraordinary shot. From touching New Manchester, Dawson was standing watching the ball under the impression it would go behind. It hit the far post and glanced into the goal. Five minutes later York goal was on 25 yards out.

BIRDS PICK ODD PLACES FOR NESTS

Young Look For Similar Nooks To Build Their Own Homes.

When a bird has once found a situation for its nest that it looks upon as ideal it will cling to it for years, and the young which are reared in these situations will, in turn, be inclined to find similar situations for their own nests when they build for themselves, writes Oliver G. Pike in "The London Daily Mail."

On a portion of the Kentish coast the sea has been receding for a great many years, and it has left behind a large tract of pebbles many miles wide. When I first visited this spot about twenty years ago we found a nest of the wheatear underneath an old pan which no doubt had been washed up by the sea.

A large flower pot had been left standing by the side of our garden path and two great tits promptly took possession and there reared a family. For years afterward if large flower pots were placed in suitable positions they were utilized by the family.

# VOTERS' LIST IS REDUCED 45 P. C.

Better Than Was Case in 1922—Prince Ward Leads in Cut.

A little less than 85 per cent. of those whose names were on the city voters' list will be eligible to cast a ballot in the civic election next month, 45 per cent. having been struck off by the chamberlain in his revision of the list. The number on the list in 1922, and of these 8,053 had the red ink mark passed through the names, showing that they, for one reason or another, were not entitled to exercise their franchise.

It was pointed out by the chamberlain that this did not mean that more than 8,000 persons had not paid their taxes, for included in the number were all who had moved from the city since the last list was made up, those who had died, and also those who had their taxes partially paid. Of the latter class he estimated there was between 600 and 700.

Better Than in 1922.

In 1922 the names removed numbered about 9,000, and this year shows an improvement in that respect.

Following are the deductions by wards:

Queens	632
Kings	465
Dukes	591
Wellington	754
Prince	1,026
Victoria	1,054
Gays	554
Brooks	453

# ST. JOHN BETTER PLACE TO LIVE

G. E. Barbour Speaks of the West Indies After a Tour There.

George E. Barbour and Mrs. Barbour of this city were among some fifty Canadians who made the southern tour from New York and back to that port in the Empress of Britain.

"We enjoyed it," said Mr. Barbour to the "Times" this morning, "but I should not care to live in the south. Our own city is much more attractive to me as a place of residence."

The voyage lasted twenty-nine days, rather more than the usual because everybody was eager to see the sights at each port of call. The Empress went first to Nassau, then to Havana, Kingston, Jamaica, Colon to see the Panama Canal, then south to Cartagena in Colombia, Curacao, Willemstad in the Dutch West Indies, La Guaira, the port of Caracas in Venezuela, Trinidad, Barbados, Martinique, St. Thomas, San Juan, Porto Rico; Bermuda, and New York again.

Mr. Barbour said the visit to the places where the Spanish predominated was very interesting because of the marked contrast in every way between them and these under English or American control. The whole atmosphere, he said, was very different.

The party saw the Panama Canal, at the Pacific end of the Panama Canal, and were greatly impressed with the remarkable cleanliness and fine appearance of the canal zone, due to the policy of the United States Government in guarding the health of the people. An immense daily traffic goes through the canal, and the terminals are splendidly equipped to give it free movement.

While in Barbados Mr. Barbour talked with a planter, who explained that there was but one to three feet of soil on the coral or volcanic foundation, and that sugar cane flourished best on the higher ground, although with proper cultivation and fertilization even the shallow soil yielded a harvest.

In Bermuda the hotels were filled with Americans. There are four large hotels and all appear to be having a prosperous season. The question whether to permit automobiles on the island is still a live one, but there is much opposition. The roads are narrow and the natives are much traffic with animals. About 25 miles would be the longest run, and as nobody in Bermuda is in a hurry there is no real object in inviting accidents.

Lossing Population. Mr. Barbour said that in all the West Indies he heard complaints of loss of population by migration to the United States. That magnet draws from them as it has been doing from Canada. This led Mr. Barbour to remark, however, in regard to conditions in the States, that thoughtful business men are beginning to wonder what the next few years may develop in their country—whether continued prosperity or the reverse. In New England especially, where competition from other parts of the country is affecting the textile and boot and shoe towns, there is a feeling of uncertainty.

One impression Mr. Barbour brought back was that of the lavish way in which American tourists spend money. It was apparent at every place where the steamer paused. "Who would buy here?" was the constant question, and he was satisfied many loaded themselves up with stuff for which they had no real use. This remark led to a talk on tourist traffic to the Maritime Provinces, and our failure to organize and go after these free-spending visitors who would find here so much to give them pleasure. Mr. Barbour feels that our people are not profiting by what should be a most profitable source of revenue. As to hotel rates he found everywhere on that trip that very high rates prevailed and were paid without protest. As an illustration, Mr. Barbour spoke of a light lunch of which he and Mrs. Barbour partook in one hotel, the real food value being perhaps fifty cents. The bill was six dollars. They were paying for the scenery, the music and the service. "We enjoyed the tour," said Mr. Barbour, "and I am glad to get back to business with the vigor one gains from such a trip."

**REACHES LAS PALMAS.** J. Willard Smith received word this morning that the schooner Ononette, Capt. Holder, had arrived at Las Palmas on March 30, having made the run from St. John in 24 days.

**BANK CLEARINGS.** The monthly bank clearings, as announced by the St. John Clearing House Association this morning, totaled \$10,488,378, as compared with \$11,264,980 for the same month last year.

**ORDINATIONS.** It was announced in the Cathedral yesterday that the ordination of six young men to the priesthood there on April 5, next Saturday, would take place at the 8 o'clock mass. The names were given in The Times some days ago.

**WILL MEET IN FREDERICTON.** A meeting of the New Brunswick Electric Power Commission will be held tomorrow in Fredericton to consider some applications for service which have been received. It was stated this morning at the office of the commission.

**PROMOTION FOR MR. LINGLEY.** Allan W. Lingley has been appointed assistant postmaster. He has been acting assistant since Oct. 1921. He has been almost thirty years in the service. This is another case of merit promotion and the news has been well received in postal circles.

**HARBOR FIGURES.** The harbor revenues for the month of March this year show a gain of \$5,000 over the same month for last year, the figures being \$26,000 for 1923 and \$31,000 for this year. The receipts for the year are about even with the first three months of 1923.

**C. B. FOSTER IN CITY.** C. B. Foster, passenger traffic manager of the C. P. R. for eastern lines, is in the city. He held a conference with local officials of the company this morning. Mr. Foster was formerly located here and is always sure of a hearty welcome.

**FIVE ON DRUNKENNESS CHARGE.** Five men were taken into custody over the week-end on a charge of drunkenness. Two put up deposits of \$8 and \$10, respectively, for the morning forfeited the money. Three others were fined \$8 and in default of payment two months in jail.

**ESTATE IN PROBATE.** Before Judge McInerney in the Probate Court this morning, the will of David Lively Evans was proved, and Thomas Green was sworn in as executor. The estate consists of personal property of about \$800, and insurance of \$8,000, including \$100,000 of the Provincial Insurance Co. of England, and policies of £400 and £200 each with the Independent Order of Foresters. W. A. Ross was proctor.

**PLAYED IN MONCTON.** The Knights of Columbus basketball team from Charlottetown played the Moncton K. of C. team in the railway city on Saturday evening and won after a closely fought game, 26 to 20. C. Jennings, a member of the teaching staff of St. Dunstan's University, Charlottetown, who played with the island team, came to St. John early Sunday morning and will remain here until tomorrow, visiting his parents, Mr. and Mrs. R. L. Jennings.

**FINED AND WARNED.** William Connell was fined \$20 by Magistrate Henderson in the police court this morning on a charge of assaulting Israel Goldberg. The latter testified that he was walking along when he was attacked by the young man who struck him in the face and blackened one of his eyes as well as cutting him. The magistrate warned Connell that if he ever interfered with Mr. Goldberg again he would be punished to the full extent of the law. In event of failure to pay the fine he will have to spend two months in jail. Goldberg represented his father.

**Y. M. C. I. REPORTS.** A final report on the St. Patrick's Day performance given by the Y. M. C. I. for the orphans was submitted to the "Y" at yesterday afternoon's meeting by J. G. McDermott, chairman of the literary and dramatic committee. It showed net receipts of \$965.17 for the orphans. The committee was congratulated on the good result. It was reported that the arrangements for the N. B. boxing championships were coming along well, that a large number were in training and that the meet promised to be one of the best. H. J. Sheehan told of the bowling situation relative to the championships. A vote of the executive is being taken on a matter affecting the entries of teams that do not possess four alleys on which to defend the Balke-Collerander pin in case of a win.

# ENDS OF LIVE WIRE LAY IN THE STREET

Two Cases of Interference by Hydro Lines are Reported.

The two ends of a live wire carrying 2,000 volts lay bare in St. Patrick street this morning, making a situation of much danger. In Douglas avenue about the same time another happening of the same kind occurred. In both cases, the N. B. Power Co. was informed, hydro wires had interfered with the Power Co. lines.

The St. Patrick street case occurred at No. 19. About 7 o'clock the news was sent into the Power Co.'s office and men were dispatched to make things right. They report that the hydro wire had come into contact with the other and had burned it through. As the live ends lay on the ground there was serious danger for passers-by, as to touch the wire meant death. In Douglas avenue the happening was at No. 321. Here, it was reported, the hydro wire had come in contact with that of the Power Co. and itself was burned through. The danger there was that the 2,000 voltage would be carried into the house whose service wire had caused the trouble.

# MORE WOMEN THAN MEN ARE EMPLOYED

Unusual Condition in Employment Service Activities for March.

The activities in the St. John branch of the employment service of Canada for March have been comparatively less than usual, particularly in the men's section, it was announced this morning. The advent of the spring cleaning season, however, has caused a considerable rush of business in the women's section, which has resulted in the demand greatly exceeding the supply. As a matter of fact, it was said this morning that the number of women registered and available for employment was practically nil.

During March more women than men were placed in positions, a rather unusual occurrence in this branch of the service, there being 150 women and 128 men placed. The men's register now contains about 325 names. Generally speaking, the casual work during the month has been light, with the exception of one spring cleaning activity. In a few days, however, it is expected that several men will be sent out for steam driving work, and a few crews of men for railway maintenance employment will be got together.

# SOME 2,000 MORE TO LAND AT SAND POINT

Montrose and Marlock are on Way to St. John with Passengers.

It is not definitely known as yet how many passengers the Marlock will bring to Canada from Scotland on Monday, but the figures from the Montrose are at hand and it is estimated that there will be close to 2,000 passengers landed at West St. John over the coming week-end. The Montrose is now en route here from Liverpool with 150 cabin and 937 third class, the former comprising 161 adults, 16 children and three infants, and the latter comprising 840 adults, 98 children and 15 infants. There are two special parties on the liner, one coming for the Salvation Army and a second booked to go to the prairie provinces to settle on farms.

# BUILDING BETTER

The building reports show an increase for the month of March as compared with the same month of 1923 and also an increase for the first quarter of this year. Last year for the month there were issued three permits of a value of \$20,800 and this year nine permits of a value of \$24,900. For the three months this year there have been permits to the value of \$71,450 issued and last year for the same time, the value was \$25,200.

# As Hiram Sees It

"Hiram" said The Times reporter to Mr. Hiram Hornbeam, "why do the heathen say?" "I been tryin' to figger it out," said Hiram, "I guess I ain't fer wrong. Them heathen has got radio. They been listenin' to our church union fight up to Preldicton an' over in Halifax, an' Toronto an' them other places—an' it set 'em all a-rarin'. Not been civilized, they natchelly wouldn't be satisfied with callin' one another liars an' thieves an' things like that—like good Christians—so they jist grabbed their war clubs an' went to it. I hear the slaughter was turble heavy—hull settlements wiped out an' temples tore down—an' the country turned into a waste howlin' wilderness. It'll make the work of the missionaries a lot easier—not so many to convert—but it does seem a pity—don't it. I mind heerin' an' old feller say one time that the wouldn't never be any brotherhood of man till they was one two men left—an' one of them was buyin' the other. I guess he was a prophet—hey—what?"
