## ROCHE & DAVIDSON

TEMPORARY ADDRESS—Cor. Germain and Princess.

Next week we open our new store at No. 23  
Charlotte St. Grand opening concerts by fourteen-  
piece string orchestra on Monday and Tuesday eve-  
nings, June 2nd and 3rd.

REV. W. W. CRAIG.

Cordially Welcomed to His New  
Charge in Montreal.

Monday's Montreal Star prints a  
portrait of Rev. W. W. Craig, with the  
following:

"The new rector of St. Luke's church,  
Rev. W. W. Craig, M. A., officiated at  
both services yesterday for the first  
time. The pretty church was crowded to  
the doors, morning and evening. At  
the morning service, after having  
touchingly referred to the death of his  
predecessor, Rev. Mr. Cunningham  
and Rev. Mr. Mallison, both of whom  
had been fellow students with him, Mr.  
Craig proceeded to expatiate upon the  
martyrdom of the Apostle Stephen, as  
related in the Acts of the Apostles, de-  
ducting lessons of faith and patience  
from the mystery of human suffering.  
If any of God's people ever had a mes-  
sage to bring them nearer the heav-  
enly throne, the people of St. Luke's  
church certainly had in the deaths of  
their two beloved rectors. He implor-  
ed them to receive this lesson humbly  
and in faith, to work together for the  
good of the church and to realize that  
everything was sent by God for their  
everlasting good."  
"In the evening the rector adminis-  
tered the communion to a large number  
of the congregation."  
"In the evening, speaking of his fu-

ture work in the parish, he expressed  
the desire that it should be true to the  
great leading principles which have al-  
ways characterized the strong church  
life of St. Luke's, and above all imbued  
with that spiritual tone and vigour,  
which is so naturally suggested by the  
memorable associations gathering  
around Whitsunday.

The formal induction services take  
place this evening, when His Lordship  
Bishop Carmichael will officiate and  
the Rev. G. Osborne Troop will preach.  
"Rev. Mr. Craig is an earnest and elo-  
quent preacher, and his reading of the  
service is particularly expressive."

### ZEBELINE CLOTHS for tailor-

made suits are most correct. In a  
large variety at Dykeman's.

ADVERTISE IN THE STAR.

The busy housewife has no time to con-  
sider the advertisements in the morning pa-  
per. If she has, she cannot arrange her  
housework in a moment, so that she can go  
down town to take advantage of the bar-  
gains offered. When she reads of bargains in  
the evening paper, however, she makes pre-  
parations to start early next morning; and  
a large percentage of those early morning  
shoppers who struggle for the first place at  
the bargain counters are the readers of the  
evening paper, and not, as might be sup-  
posed, the readers of the morning paper—  
M. Lee Starke, N. Y., an expert on public-  
ity.

## Holiday Suits.

The 24th of May is a good time to start a new outfit suitable to be worn  
without a Top Coat. Our stock of these suits for Men, Youths and Boys  
was never so large and well assorted as now, and our prices are acknowl-  
edged to be the lowest in the city. We make alterations when necessary, in  
every case we make every garment a satisfactory fit.

MEN'S SUITS, large assortment, from \$2.00 to \$14.00.  
YOUTH'S SUITS, long pants, from \$4.00 to \$8.50.  
BOYS' 3-PIECE SUITS, at \$2.50, \$3.00, \$3.50, \$4.00, \$4.50, \$5.00 and up.  
BOYS' 2-PIECE SUITS, special values, from 75c to \$5.50.  
VESTED SUITS, age 3 to 8, from \$2.00 to \$3.75.  
KID'S SUITS, age 2 to 4, very dressy for little fellows. The prices are  
\$1.65, \$1.75, \$2.00, \$2.50 and \$3.00.

### FRANCE AND RUSSIA.

President Loubet Chose a Bad Time  
For His Visit.

LONDON, May 21.—In a despatch  
from St. Petersburg, the correspondent  
of the Daily Mail says that President  
Loubet could hardly have chosen a  
more unfavorable moment for his visit.  
"Apart from labor and student re-  
volt," says the correspondent, "there is  
the trouble which arose during the re-  
cent riots in Moscow between a French-  
man and the police, which led to en-  
ergetic interference by the French am-  
bassador, with the result that the pos-  
itions of Grand Duke George, the gov-  
ernor of Moscow, and M. Treffe, the  
chief of police, are said to be menaced."  
"Shortly after this trouble the Grand  
Duke Vladimir declined to attend the  
parade in honor of President Loubet,  
saying he was not to be ordered about  
by a hole and corner lawyer." He ac-  
cordingly transferred the chief com-  
mand to General Rehbinder. The Czar  
then interfered and appointed Grand  
Duke Nicholas to the chief command."

### DR. GAMMAGE

Indulges in Plain Talk to United  
States Physicians.

CHICAGO, May 21.—Medical men  
from nearly every state in the union  
are attending the twentieth annual  
business meeting here of the medical  
physicians and surgeons. In his annual  
address President A. E. Gammage, of  
Chicago, said:  
"Medicine at present is not a science,  
but you should strive to make it one,  
and this will only be accomplished by  
elevating the standard of education  
and training in all branches of the pro-  
fession. I urge the adoption of a new  
code of ethics by the profession which  
will not carry with it injustice and hy-  
pocrisy. It is time the doctors of the  
great schools of medicine united to  
fight the common enemy, disease, in-  
stead of fighting among themselves. I  
regret that the profession of physician  
has degenerated into commercialism."

### HENRY MURRAY ALIVE.

Though His Supposed Body Was  
Brought From Nevada and  
Buried in Truro.

(Special to the Star.)  
HALIFAX, N. S., May 21.—Recently  
the supposed remains of Henry Murray  
arrived here from Nevada. They were  
supposed to be remains of Henry Mur-  
ray, brother of Prof. Murray of Dal-  
housie. The interment took place at  
Truro in the family lot. It was learned  
today that Professor Murray's brother  
is alive. The remains will be  
taken from the Murray lot. They were  
brought here from Nevada for burial  
at the expense of Professor Murray.

### MARINE DISASTERS.

PORT TOWNSEND, Wn., May 21.—  
A letter received here from Port Stan-  
ley, Falkland Islands, under date of  
April 4, says that during the past few  
months storms of unusual violence  
have prevailed, that shipping has suf-  
fered severely, and that the islands are  
strewn with wreckage.  
The letter states that one vessel lost  
nine men. Another lost her captain  
and two men while a third lost the  
captain and apprentice during a gale.  
The letter omitted the names of the  
vessels or those lost.

### EIGHTY-TWO BODIES.

KNOXVILLE, Tenn., May 21.—Up to  
midnight last night eighty-two bodies  
had been taken from the Frater-  
nity mine at Coal Creek, the scene of the  
disaster in which 225 miners lost their  
lives. The cause of the disaster de-  
veloped today when it became known  
that gas had collected in an abandoned  
mine, into which an opening had been  
accidentally made last week by a boy  
working in a lateral. An attempt was  
made to stop up the opening, but it is  
believed that a leak remained.

### TO CRUSH THE POLES.

BERLIN, May 21.—A bill providing  
for strengthening the German element in  
the Polish provinces of the empire was  
introduced in the diet today. It in-  
creases the amount of the funds at the  
disposal of the government for estab-  
lishment of settlements in Prussia and  
Posen from \$50,000,000 to \$87,000,000 and  
assigns an additional \$25,000,000 for the  
purchase of more estates in those  
provinces suitable for peasant settle-  
ments.

### SETTLED OUT OF COURT.

(Special to the Star.)  
ST. ANDREWS, May 21.—The cause  
of Mrs. Kierstead versus the insurance  
companies, was settled out of court  
last evening. Rumor says plaintiff gets  
amount of policy under single liability  
and costs. When court, pursuant to ad-  
judgment, was opened at ten o'clock  
this morning, the jury list was called.  
The judge dismissed them and formally  
adjudged the court.

### ANOTHER BURNING MOUNTAIN.

NEW YORK, May 21.—Captain Mag-  
ras, of the French sloop Incellina, in  
from St. Bartholomew reports, says a  
Herald despatch from St. Kitts, that  
when passing Montserrat a small vol-  
canic island, lying northwest of Guade-  
loupe, he heard an explosion and saw  
flames burst from the side of one of  
the mountains.

### A N E MISSIONS.

LOUISVILLE, Tenn., May 21.—The  
African Methodist Episcopal general  
conference has decided to begin mission  
work in Cuba, the Philippines and Af-  
rica. A Sunday-school department was  
decided on which will create a new  
general office.

### PRESIDENT ROOSEVELT

Establishes a Precedent in Pres-  
idential Courtesy and  
Sociability.

NEW YORK, May 21.—A special to  
the Herald from Washington says:  
"President Roosevelt has created a  
flurry in the diplomatic corps by call-  
ing at the British embassy and re-  
maining for three-quarters of an hour  
with Lord Pauncefoot and members of  
the family. When the president called  
at the German embassy and paid  
his respects to Prince Henry and sub-  
sequently lunched with the latter on  
board the Hohenzollern, he broke a  
custom which forbade the chief execu-  
tive of the nation to set foot in a for-  
eign embassy or on board a foreign  
man-of-war because of the extra  
territorial character of those  
places. By visiting the British em-  
bassy he has inaugurated the practice  
of calling upon ambassadors. He will,  
it is expected, dine on Friday night at  
the French embassy.

In calling upon Lord Pauncefoot,  
who is seriously ill, diplomats say that  
the president has done a graceful thing  
and appreciate it as a compliment to  
the entire corps. At the same time, it  
is pointed out, the president would be oc-  
casioned should the president fall now  
to call upon the other ambassadors.  
The rulers of Europe make it a prac-  
tice to pay visits of courtesy to em-  
bassadors on the ground that those  
diplomats represent the persons of  
their sovereigns. The president has  
met the several ambassadors here, and  
it is expected that now he has broken  
the ice, he will call upon all of them.

### PAPER FROM WOOD PULP.

Few people have any idea of the  
amount of wood which is consumed  
every year in the production of pulp  
for paper. In the United States alone  
6,300,000 cords of wood are converted  
into paper. New York daily papers  
take over 125,000 tons annually. It  
may readily be imagined that the United  
States itself cannot supply this im-  
mense quantity, and as a matter of  
fact, about 7,000 cords of wood are  
imported daily for this purpose. Can-  
ada, with her vast ranges of forests,  
offers a great field for the pulp man-  
ufacturer, and where this timber is  
situated near tide waters it is, of  
course, most valuable.

S. Charles Phillips of London, Eng-  
land, proprietor of the British Paper  
Trade Journal, says: "Canadian pulp  
is much preferred to the Scandinavian  
variety. Only a few years will elapse  
till she will supply the greater part of  
the ground wood pulp supplied in  
Great Britain, and, in addition to that,  
a large percentage to European coun-  
tries."

BERGALINES SUMMER COR-  
SETS shown at Dykeman's are  
receiving great praise from the  
ladies who have seen them and  
worn them.

### PING-PONG IN HAREMS.

Ping-pong has become a great favor-  
ite in Turkish harems, where it is played  
with great zest by the ladies, who are  
delighted with a new amusement.  
The Khedive of Egypt's mother, the  
Khedivah, has set up a ping-pong table  
in her magnificent new palace on the  
Bosphorus, and the ladies attached  
to her play every day, says the Lon-  
don Telegraph. One great advantage  
they have is that there are swarms of  
little black slaves who pick up the  
balls and save them all trouble. The  
Khedivah had never seen snow in her  
life and remained this winter in Con-  
stantinople to see it. The winter has  
been very mild, and she was growing  
very disappointed till one day a heavy  
load came. She at once ordered out her  
carriage and drove through her park to  
have a good look. When she got home  
she sent out for large trays of snow,  
with which she and her ladies made  
snowballs and pelted the little black  
slaves.

### THEATRICAL NEWS.

Many summer opera companies are  
being organized in the States; Wm.  
Wolff has been engaged for the com-  
pany at Providence, R. I., which is un-  
der the management of W. G. Stewart,  
who was here with the Baker Co. Harry  
Davis, Grant's tenor, Villa Knox and  
Mayne Taylor, who were here several  
years ago, go to Milwaukee.  
St. John favorites are securing good  
positions for next season; Alice Riker  
has joined Shipman Bros' stock com-  
pany; Ethel Knight, Mollison, is to be  
leading lady with Richard Mansfield;  
May Nannery will be with A. Fatal  
Wedding; Thos. A. Wise has been en-  
gaged by Wm. Harris for five years to  
star in Are you a Mason? and other  
plays; Tyrone Power has returned to  
London from Australia, and will be  
with Minnie Maddon Fiske.  
Jesse Bonstelle and her husband, A.  
H. Stewart, have been made members  
of the Actors' Association in London.

### WANTS NO WOMEN IN CHOIRS.

Bishop Burgess Says It's Immodest  
for Them to Wear Surplices.

NEW YORK, May 17.—Bishop Bur-  
gess of the Episcopal Diocese of Long  
Island, has sent out a notice that the  
presence of women in the surpliced  
choirs of the diocese is distasteful to  
him and he has ordered that the wo-  
men singers in the nine missions at-  
tached to the Cathedral of the Incar-  
nation, over which he has direct juris-  
diction, be retired as soon as possible.  
"Women should not wear cassocks  
and surplices, which have belonged to  
men from the earliest time in the  
church," said the bishop. "I feel that  
woman should be modest at all times.  
I do not think it proper for her to don  
such raiment."  
"I don't object to the women singing  
in the churches, but if a uniform is  
used it should be of a womanly char-  
acter, and not a cassock and surplice."

### MARCHING TO BATTLE.

Five Thousand Colombian Troops to  
Attack the Rebels at Once.

PANAMA, Colombia, May 21.—The  
government forces began to leave Pan-  
ama at five o'clock yesterday morning.  
In all about 2,000 men, under the com-  
mand of Generals Amaya and Salazar,  
will proceed against the insurgents.  
Before he left the city General Salazar  
said:  
"I intend to attack the rebels im-  
mediately. I expect to receive within  
the next eight days reinforcements of  
3,000 more men under the command of  
General Fanjul Gutierrez, who will  
co-operate with the troops leaving  
Panama today. The rebel general, Her-  
rera, and his forces will be attacked by  
over 5,000 of the best soldiers in the re-  
public, as well as by a fleet. His re-  
sistance can be but futile. The gov-  
ernment was victorious in the interior  
of the republic and it can send, if nec-  
essary, 10,000 more men to end the re-  
volution on the isthmus."  
Fifteen thousand government soldiers  
remain in Panama to protect the city.

### ST. PIERRE.

Another Rain of Fire From Mont  
Pelee Yesterday.

PARIS, May 21.—Governor L. Huer-  
re of the island of Martinique, in a  
cable despatch from Fort De France,  
dated Tuesday, May 20, confirms the  
Associated Press despatches of yester-  
day saying that at 5.15 o'clock yester-  
day the same phenomena appeared as  
on the morning of May 18th—a rain of  
stones, flashes of light and sounds of  
explosions in the direction of Mont  
Pelee. The population of Fort De  
France was panic stricken. Later de-  
spatches, under yesterday's date, say  
that fire was falling at Le Carbet, a  
southern suburb of St. Pierre, and that the  
inhabitants and troops had evacuated  
the place. No further fatalities had  
occurred.

The despatches received here also re-  
fer to the departure of Governor  
L'Huerre, accompanied by Senator  
Knight (president of the legislature of  
Martinique), yesterday morning on the  
French cruiser Suquet to reconnoitre in  
the direction of the volcano. The of-  
ficials of the ministry of the colonies  
were much disturbed by this morning's  
reports.

### SOUTH AFRICA.

PRETORIA, May 20.—While it is  
hard to sift out the truth from the  
mass of contradictory reports that are  
floating in here from Vereeniging,  
Transvaal, where the Boer delegates  
are in conference, the best information  
obtainable leads to the belief that  
there are a number of obstacles in the  
way of a peaceful settlement. In sum-  
ming up the situation at Vereeniging  
it is safe to say that a majority of the  
Transvaalers, including the Transvaal  
government, is in favor of peace,  
while the representatives of the Or-  
ange Free State, with a few influential  
exceptions, declare they will not re-  
nounce independence. Strangely enough  
General De Wet, who was most irre-  
concilable at the last conference, is  
now quite a strong advocate of peace.  
Lord Kitchener certainly will not ex-  
ceed the concessions already offered  
the delegates, so there remains only  
the question of the reduction of the  
demands of the Orange Free State re-  
presentatives, or the possibility of a  
split between the Boer factions. This  
latter, while it would delay an im-  
mediate settlement of the matter before  
the conference, would certainly hasten  
the final solution of the situation in  
the field.

### AN \$18,000,000 ESTATE.

SAN FRANCISCO, May 21.—The chil-  
dren of James G. Fair are at last in  
possession of his estate. The final  
transfer has been made to their repre-  
sentatives by the executors under the  
decree of distribution, which was signed  
by Judge Trott. The property  
handed over was valued at about \$17,-  
000,000. The whole estate was worth  
about \$18,000,000. The larger part of it  
was given to the children when the su-  
preme court decided that the executors  
could not hold the realty under the  
trust clause in Fair's will. By the final  
decree the property remaining in the  
hands of the executors was given to  
General L. Fair, Mrs. Theresa A. Oel-  
richs and Mrs. Virginia Vanderbilt.

### THE WEATHER.

TORONTO, May 21.—Moderate north-  
west and west winds; fair today and on  
Thursday, stationary or a little higher  
temperature. Continued fine weather is  
generally indicated with no prospect of  
a change at present.

### EFFECTS OF THE STRIKE.

HAZLETON, Pa., May 21.—Begin-  
ning today the Hazleton Iron works,  
where most of the foundry and ma-  
chine work for the collieries hereabouts  
is done, will be operated eight hours a  
day, on account of the miners' strike.  
All recently hired hands have been laid  
off. Over a hundred foreign strikers  
left Hazleton today for Europe.

### NEW YORK FREEZING.

BALISTON, N. Y., May 21.—The  
mercury registered twenty-nine degrees  
this morning and there was frost for  
the seventeenth morning this month.  
This breaks all May records for this  
locality.

### THE DEATH ROLL.

## MISS ROOSEVELT IN ATHLETICS.

WASHINGTON, May 20.—Miss Alice Roosevelt is a daily pupil in equestrianism. She may be seen at Chevy Chase taking the hurdles almost any morning. She has not as yet attempted any cross-country riding, but confines herself to dashes at the bars under the eye of a riding master in order to perfect herself for the fall meets.

It is said that she devotes a part of each day to the gymnasium and is practising fencing and other athletic exercises. Some say that Miss Roosevelt is one of the clique of young girls who sometimes don the gloves and have a merry bout.

## ST. JOHN STAR.

ST. JOHN, N. B., MAY 21, 1902.

## THE GLOBE AND LOYALTY.

The Globe on Monday evening had a brief but sneering editorial on the Loyalists. The purpose of the article was to show that they were not so very loyal, since many of them, and more of their descendants, got back to the States as soon as they could. There was also a veiled sneer at the descendants of the Loyalists, because no monument has thus far been erected; and it was added that, though Loyalists founded the city, men who came later from the "old country" built it up.

Such an article, appearing on the very day observed as a holiday in the city schools in commemoration of the landing of the Loyalists, could only be written to express the Globe's contempt for the observance. This, of course, excited no surprise, in the minds of the general public.

The surprise came last evening when one who signs himself a "Descendant of a Loyalist" contributed a letter nearly a column long to the Globe, to defend the Loyalists and their children from the aspersions cast upon them.

"The Globe is my paper," writes this descendant of a Loyalist, in his opening sentence. Why, then, should he enter a note of protest? He knows that the Globe is the only paper in these provinces that has ever openly advocated annexation. He cannot have forgotten that the Telegraph once felt called upon to threaten the editor of the Globe with the punishment meted out to the traitor who "dampens the powder of the garrison" of a beleaguered city. A descendant of a Loyalist who can call such a paper "my paper," without disturbing the revered shades of his ancestors, has no cause for voluminous protest against so mild an expression of sneering contempt as the editorial in Monday's Globe.

## ONE CHANCE MORE.

The mayor has received word that Hon. Mr. Blair will arrange for a delegation from St. John to meet the government when the members come together again the last of this month. It now devolves upon the city council, the board of trade and the business community generally to strengthen the hands of the delegation by formulating a definite plan for work to be done this summer, and by such an unanimous and energetic expression of opinion that the government will feel that it must do something. Mr. Tarte arrived in Quebec last Saturday, accompanied by his acting chief engineer, to look over the harbor works, and he informed the citizens that it was his intention to spend a million dollars on new works at that port. Under such circumstances St. John may very properly assert her rights, and there should be neither uncertainty nor delay.

## KEEP TO THE FRONT.

The Tory newspapers criticize the government for appointing Hon. H. R. Emerson's son on the coronation contingent, but they will probably have no word of condemnation for the appointment of Capt. Morrison, editor of the Tory Ottawa Citizen, to the same service. Hon. Dr. Borden seems to be keeping the militia department pretty clear of politics.—Fredericton Herald.

No Tory paper has asked that a "Tory" be appointed from New Brunswick. Is Lieut. Emerson the only liberal among provincial officers? Will the Herald tell us what are Lieut. Emerson's peculiar claims to the position, and why this province, which has supplied so many good men for South Africa, should only send one officer—who was not in South Africa—to attend the coronation? Why should Mr. Blair's province not receive fair play?

## PLAY BALL.

In an editorial yesterday morning the Telegraph rather expressed its regret that professional baseball players were being imported into the city. It also suggested that it would be more creditable if the game were played by amateurs. It is unnecessary save for the enlightenment of the editor who wrote the paragraph to state that there is no organization called the St. John baseball team, to which these men are coming. But that aside, would it not be well and in the interest of amateur sport which one of the editors appears to have at heart, to organize a baseball team among the present and recent editors of the Telegraph. There is no doubt that an interesting game could be arranged between it and the hospital commissioners' nine. With a loaf of sour bread on each base and a firkin of tainted butter on the home-plate there would be a good chance for the Telegraph editors to win out.

For the information of the Telegraph it may be stated that the site of the proposed abattoir is not at all near to the entrance to Rockwood Park.

## STILL SOME HOPE.

Since the evening reprint has taken to explaining its own jokes, perhaps it will elucidate the strange contrast between its recent editorials alleging St. John to be unfortunate and its little less recent editorials such as one headed "St. John is all right" and beginning: "Communities like individuals, are sometimes subject to fits of depression, for which no sound reason can be given."—Telegraph.

The esteemed Telegraph will kindly observe that a city may in itself be "all right," and at the same time unfortunate in its choice of representatives—as when an alleged "strong man" proves to be sadly lacking in strength when the interests of his constituency are involved. Even a city newspaper may go wrong; but if the Telegraph will continue its careful study of the utterances of this ambitious young journal and profit thereby, there is no good reason why in a few years it should not set itself right.

American concerns appear to have an eye on the graduates of McGill. Not long since a number of graduates in civil engineering were offered more places than they could fill in American cities, and now an American insurance company offers to pay the expenses and give instruction for from thirty to sixty days in its business to students who have worked their way through the whole or part of their university course, and will guarantee positions worth \$75 a month to the best of them.

The Fredericton Gleaner says that the Old Burial Ground in that city will be cleaned up and the falling monuments straightened up. In the Old Burial Ground in St. John at 7.30 o'clock on Sunday evening six youths were balancing themselves on the top of as many tombstones, while other youths looked on and admired.

## NEW PASTOR WELCOMED.

Rev. Christopher Burnett, the new minister of Leinster street Baptist church, was formally inducted into his new pastorate last night, and was heartily welcomed to St. John by representatives from the various evangelical denominations in the city. Rev. Dr. Manning presided at the service, in which Rev. H. H. Roach, Rev. R. C. M. Campbell, Rev. C. T. Phillips and Rev. Dr. Fotheringham participated. The musical programme consisted of congregational singing, anthem by the choir and a solo by Miss Drake.

Clerk A. A. Wilson briefly related the circumstances leading to the unanimous call of Rev. Mr. Burnett. A cordial address of welcome was then delivered by Rev. H. F. Waring, Rev. C. T. Phillips, Rev. G. M. Campbell, Rev. Dr. Fotheringham and Rev. R. R. Morison.

In a brief but clear and strong address, Rev. Mr. Burnett returned thanks for the kind welcome he had received. He also was a strong believer in the growth of denominational unity, of which the present meeting was a remarkable demonstration. Speaking of the ministry he had entered upon in Leinster street, he said that for it to be a success both he and his congregation must believe that they had a mission to fulfil, and be determined to fulfil it. He considered that a church which had lived for 45 years need not apologise for its existence. Leinster street church had a work to do and it should be done if the congregation would give him their prayers, their moral support and their attendance—especially on wet Sundays. He asked them to want him as much latitude as they could, both regarding his preaching and his management of the church. He would possibly make many mistakes for which he would crave indulgence in advance, but he would promise them that he would always be true to the old gospel and keep the cross of Christ and all it stood for paramount in his preaching and his life.

## MEETINGS.

A well attended meeting of the local assembly of the Brotherhood of St. Andrew was held in St. Mary's Church school house last night. Rev. W. O. Raymond gave a very interesting and instructive address on the Council of Nice and Early Church History.

Scott E. Morrell, county master of the Royal Orange Association, will visit Eldon L. O. L. No. 2 on Tuesday evening next when the first degree will be worked.

This evening the members of the St. John Typographical Union in good standing will vote for the officers of the International Union. The voting will be at Labor Hall, in the Oddfellows' building, from 6 to 9 o'clock.

Dr. J. E. March has resigned the directorship of the music festival choral, which is deeply regretted by the members. Living on Partridge Island he finds it hard to attend all the practices of the chorus, hence the resignation. A. Chip, Ritchie is mentioned as his successor.

The managing committee of the St. John branch of the New Brunswick British and Foreign Bible Society met in the Y. M. C. A. parlors last evening to choose officers of the society for the ensuing year. The following were elected: George E. Fairweather, president; Wm. Peters, Dr. W. S. Morrison, C. E. Macmillan and J. E. Woodburn, vice-presidents; Joshua Forbes, secretary; Joshua Clawson, treasurer and Mr. McKelvie, agent. The old chairman of committees were re-appointed with the exception of the repository committee, over which Ald. T. H. Bullock was elected for the next year.

GOLIAD, Tex., May 20.—Three of the injured in Sunday's tornado died today, making the total number of deaths 56. Forty-five negroes have been buried. The cemetery where the white people are buried was wrecked and the new made graves are among the overturned tombstones. There has been a generous response to the appeals made by Governor Bayers. The city continues under martial law.

## THE PRESBYTERY.

An adjourned meeting of the Presbytery of St. John was held last evening at St. Andrew's Church. There were present: Rev. Dr. Morrison, moderator; Rev. A. H. Foster, clerk; Rev. Dr. Fraser, Dr. Fotheringham, Rev. Mr. Burgess, Rev. W. W. Rainnie, Rev. Mr. Ross, Rev. G. D. Ireland, Elders S. R. Jack and Peter Chisholm; also the delegates from Calvin Church, J. H. Murphy, T. S. Hill, Wm. Robertson and James Buchanan.

The first business was the consideration of the resignation of Rev. W. W. Rainnie of Calvin Church. T. S. Hill read a report on behalf of Calvin church, thanking the Presbytery and Rev. Mr. Ross for showing them a way out of their difficulties as a church, and expressing the very highest appreciation of Rev. Mr. Rainnie as their pastor for nine years, and also expressing deep regret that it would be necessary for him to sever his pastoral relations. Rev. Messrs. Fraser, Fotheringham and Macneil spoke briefly, testifying to their personal regret and the loss of the Presbytery which would be caused by Rev. Mr. Rainnie's retirement. The resignation of Rev. Mr. Rainnie was then accepted.

Rev. Mr. Ross was appointed to proclaim the pulpit vacant on June 1st.

The next matter considered was the call from Blackville, Northumberland Co., to Rev. D. Fraser of St. George. On motion it was decided that the congregations of St. George, Penfield, and Bocabec be cited to appear at the next meeting of the Presbytery, to be held in July.

Superintendent Ross of the Home Mission board recommended the payment of the balance of a bill for the supply of Norton, Hampton, Selina and Salisbury.—Passed.

Several notices read by the clerk were approved. Rev. L. G. Macneil said it would not be possible for him to attend the meeting of the general assembly, and asked that the member next in order be approved as a delegate.—Sanctioned.

## SPLENDID CANVAS CANOES.

W. H. Thorne & Co. have recently made an important addition to their stock of goods suitable for sportsmen's use. It was the importation from the State of Maine of a large assortment of canvas canoes, which cannot fail to make a favorable impression. They are displayed in one of the upper floors of the Messrs. Thorne's spacious establishment on Market square, and are so shown that each and every canoe can be thoroughly examined. The canoes run from 16 to 18 feet in length. They are substantially built, the frames being remarkably strong. Canvas will not tear as easily as wood in the experiences through which a canoe is bound to pass. The canoes are of different models, some being designed for the use of guides, while others are of extreme width, which permits of the carriage of a larger quantity of supplies. The finish of the canoes is very stylish, and no one who wishes to purchase anything in this line should do so before examining the Messrs. Thorne's stock.

## DORCHESTER.

DORCHESTER, N. B., May 20.—Robert Buck, a wealthy and well known farmer of Upper Dorchester, died this morning at three o'clock. No man in the parish commanded higher respect or was better known. The funeral services will be held on Wednesday at one o'clock. Rev. B. H. Thomas officiating. His wife and eight children were at his bedside when the end came. Two of the daughters reside in St. John city, Mrs. Smith, wife of the well known St. John druggist, and Mrs. Hurd of Elliot row.

The probate court is still in session here winding up the affairs of the late Thos. Kellor estate. A number of the body of Mrs. Fillmore, who was killed near Bloomfield, Kings Co., will arrive here on the noon express tomorrow. The burial takes place at Westcook.

## RECENT DEATHS.

The death occurred Monday at Victoria Hospital, Fredericton, after a short illness of Edith Rebecca, wife of George Maber, of St. Mary's. She was 34 years of age and leaves three sons and one daughter, besides her husband.

Calixte P. Leblanc, aged 75 years, died at his home in Fox Creek this morning. Deceased was father of Thos. C. and Angus Leblanc, of the I. C. R.

Henry Martin, artist, died in Toronto last night.

## When in Bed

Put some Vapo-Cresolene in the vaporizer, light the lamp and place it near the head of the bed. Then all the time the baby sleeps it will breathe-in the healing, soothing vapor. The hard, tight cough loosens; the fever gradually goes down, the breathing becomes natural, and pneumonia is avoided. Every part of the throat and bronchial tubes are touched by the medicine. For the hard colds and coughs of children nothing equals Vapo-Cresolene.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene box, including the Vaporizer and lamp, which should last a life-time, and a bottle of Cresolene, complete, \$1.50; extra supplies of Cresolene 50 cents and postage. Illustrated booklet containing the directions for its use free upon request. Vapo-Cresolene Co., 125 Fulton St., New York, U.S.A.

Our places of business will be open until 10 p. m. on FRIDAY, May 23rd, but will be CLOSED ON SATURDAY, VICTORIA DAY.

## SENT IN ANSWER TO PRAYER.

Queer Looking Things on Deacon Brown's Wall—Says He Asked For Them.

VINCENNES, Ind., May 20.—Images of a woman of the face of an Indian squaw, of two doves, of beasts and reptiles and verses of Scripture have shown themselves on the kalsomined walls and ceiling of the cabin of Israel Brown, a negro of this city. Brown is intensely religious and a deacon in the African Methodist church. He says that God should manifest Himself to the world that all might believe in Christianity. He says that every night for thirty years he had prayed earnestly for the manifestations. Brown's wife has been dead twenty years and several of the older people say the image of the woman is a likeness of her.

## DUTY ON BROOK TROUT.

WASHINGTON, May 20.—Brook, or speckled trout, brought into Maine from the provinces of Canada, are dutiable at the rate of one-fourth of a cent a pound, not at three-fourths of a cent a pound, as collectors of customs have been holding. But it is incumbent on the importers to show the habitat of the trout. The decision has just been rendered by the general board of customs' appraisers on a case brought up from the collector at Boston, on importations from Yarmouth, Nova Scotia. The collector's decision was sustained and the protest overruled, but that was because the protestants did not show the habitat of the speckled trout.

## POLYMORPHIAN CLUB SMOKER.

The Polymorphian Club's committee will meet this evening at R. J. Wilkins' store, King street, to perfect arrangements for the grand smoker to be held in Victoria Rink on Thursday night to arouse interest in the celebration of King Edward's coronation next month, an occasion on which the club intends to surpass all its previous displays. The programme for tomorrow night at the Victoria is a huge one, and a grand good time is assured. Every member of the club should make it a point to attend and hear what lines of work are being put out.

## FISHERY CONFERENCE.

OTTAWA, May 20.—The fisheries conference was held today in the office of the minister of marine. The Dominion representatives were: Hons. Sutherland, Fielding, Fitzpatrick and Templeman. Hon. Mr. Tweedie arrived this morning to represent New Brunswick. The discussion centred at first on the question of jurisdiction, but no decision was arrived at. Another meeting will be held tomorrow.

LONDON, May 20.—A woman balloonist named Edith Brooke was today dashed to death at Sheffield through the failure of the parachute apparatus to work properly.

## CALMLY AWAITED ERUPTION.

PARIS, May 19.—Martinique mails, forwarded just prior to the disaster, arrived here yesterday. The newspapers print a number of private letters from St. Pierre, giving many details of events immediately preceding the catastrophe.

The most interesting of these is a letter dated May 3, from a young woman who was among the victims. After describing the aspect of St. Pierre before dawn, the town being lit up with flames from the volcano, everything covered with ashes, and the people greatly excited, yet not panic stricken, she said:

"My calmness astonished me. I am awaiting the event tranquilly. My only suffering from the dust, which penetrates everywhere, even through closed windows and doors."

"We are all calm. Mamma is not a bit anxious. Edith alone is frightened."

"If death awaits us, there will be a numerous company to leave the world. Will it be by fire or asphyxiation? It will be what God wills. You will have to wait for our thoughts."

"Tell brother Robert that we are still alive. This will, perhaps, be no longer true when this letter reaches you."

The Edith mentioned was a visitor who was among the rescued.

Another letter, written during the afternoon of May 3, says:

"The population of the neighborhood of the mountain is flocking to the city. Business is suspended, the inhabitants are panic stricken and the firemen are sprinkling the streets and roofs, to settle the ashes which are filling the air."

These and other letters seem to indicate that evidence of the impending disaster were numerous five days before it occurred.

It is difficult to understand how it was that a general exodus of the population of St. Pierre did not take place before May 8.

WANTED.—A case of Headache that KUMFORT Powders will not cure in from ten to twenty minutes.

DR. HALE SCORES THEOLOGIANS.

CHICAGO, May 20.—Dr. Everett Hale has scored the theologians for not having a knowledge of "religion" in a sermon at the University of Chicago. He defined a theologian as one who has a theory about God and his relation to his fellowmen which he can state in scientific terms, and said that the tendency for men to know theories but not the religious life, shows itself more and more in literary and refined circles.

In presenting the "Religion of the Lord's prayer," he said:

"The four gospels are the despair and terror of the scientific theologians."

He said the Lord's prayer was the only ritual the Saviour had left and declared it to be a complete statement of the fundamentals of religion.

"Wherever repeats the Lord's prayer or thinks it," he said, "comes into heavenly relation with God and man."

There is full weight in every package of Red Rose tea.

MONTREAL, May 20.—An affidavit produced today in the St. James election fraud made by J. H. Lefleur, representative of Mr. Bergeron, states that he was offered money to keep his eyes shut to what was going on, and that gross frauds were committed at that gross frauds were committed at the polls, including the substitution of the ballot and the stuffing of ballot boxes. Lefleur also says he received money from agents of Brunet, the liberal candidate.

## TO THE ARCTIC.

A Two Months Journey in  
Canada's Great Lone Land.Over Three Thousand Miles From  
Winnipeg to Fort McPherson.

(Winnipeg Free Press, May 14.)  
Miss Annie McDonald, who has been residing last summer with her uncle and aunt, K. N. L. McDonald and his sister, in this city, left on Friday last on her way back to take up her work as a missionary teacher, having quite recovered her health which had become somewhat impaired.

Miss McDonald is a daughter of Ven. Archdeacon McDonald, of the Mackenzie River diocese, who is stationed at Fort Macpherson, on the Peel River, a tributary of the Mackenzie, about one degree within the Arctic Circle.

The lady has a trip of 3,000 miles ahead of her. The first 1,000 miles, to Edmonton, is a comparatively easy part of the journey, as the distance will be accomplished by railway train. Thence to Athabasca Landing, the distance being about 80 miles, the transportation is by wagons. From there down the Athabasca river, which is the most difficult part of the whole route, the journey is continued by using open boats. The river is a very difficult one, full of rapids and falls. On arriving at Fort McPherson, at the junction of the Clearwater with the Athabasca, about 200 miles from Athabasca Landing, the passengers are conveyed by steamer Grahame down to the head of the Smith Rapids, where there is a portage of 16 miles to reach Fort Smith. Before arriving at this portage, they have to pass Fort Chippewyan and Athabasca Lake and the mouth of the Peace river. In the old days five big rapids and portages which are evaded by the 16-mile wagon road, used to be one of the most difficult parts of the trip. From Fort Smith the steamer Wrigley comes into play, descending the Slave river to Great Slave Lake, crossing the latter to the Mackenzie river proper, and proceeding thence down to the farthest north post of the H. B. Co., Fort Macpherson. This portion of the trip is comparatively easy. From Winnipeg to this last-named post, the distance is about 3,000 miles.

**WILL ARRIVE IN JULY.**  
Miss McDonald will arrive at her destination about the middle of July. If connection could be made at once with the different boats along the route, the trip would be much shorter, but there are so many delays, waiting for the goods to be loaded, that about a month longer time is taken than would be otherwise required. For example, about a couple of weeks will be spent at Fort Smith in getting the goods over.

K. N. L. McDonald is well acquainted with the route here described, having himself been a resident of these far northern regions for a number of years. He returned in 1882, coming by Hudson's Bay River boats up stream, leaving the Athabasca river and ascending the Clearwater river to Fortage La Loche, crossing the portage of 12 miles and coming to Ile a la Croix. Generally, the rivers and little lakes were used until the Saskatchewan was struck at Cumberland, and thence the journey to Lake Winnipeg and Selkirk was by steamer. He had come the year before to Fort Simpson and passed the winter there; then he left in June and arrived in Winnipeg on the 28th of August. He found, of course, that many changes had taken place during his absence.

When asked about the resources of the north land, K. N. L. McDonald mentioned that the government had been for some time boring on the Athabasca for petroleum. He says there is no doubt that petroleum and bitumen, tar or asphalt exist along the banks of the Athabasca. In the old days, the H. B. Co.'s men were ascending to Fort La Loche for supplies of goods were accustomed to leave empty kegs along the banks of the Athabasca, stuck in the ground, and on their return would take them up filled with tar which had run into them from the bank. This tar was used for pitching the boats and was very good for the purpose.

On the right bank of the Mackenzie, below Fort Simpson, close to Fort Norman, this bituminous matter is found, where fires are burning continually, summer and winter, and where the liquid tar, in places, runs into the river. Along the banks of the Athabasca are places also where sulphur is found in large quantities.

**ARCHDEACON McDONALD.**  
Ven. Archdeacon McDonald has been in that far northern district since 1862, with occasional trips out. Most of his children, of whom there are seven living, were born there. Three years ago he returned to his mission after an absence in England, where he put the press his translation of the whole Bible, from Genesis to Revelation, besides the prayer-book and hymn-book, into the language of the Loucheux Indians. These are the most northerly of the Indian tribes. Their name signifies "squatters," and was probably given by the first white man from some member of the tribe who was cross-eyed. Their language is spoken by tribes on both sides of the Mackenzie, and the basin of the Yukon. K. N. L. McDonald, brother of the archdeacon, who also spoke the language fluently while residing there, says it is one of the most difficult.

Miss McDonald teaches school in the English language, for a month or two in summer, when all the Indians come in from their hunts, there is a fair attendance of children; but in the winter, when they are wandering about looking for provisions and furs, there are very few left at the fort. Since the advent of the miners into Yukon, a great deal of prospecting has been done on the Peel River, the Porcupine on the west side, and other rivers, and naturally, as they are essentially nomadic in their habits, travel to the places where they can secure the highest prices for their fish and meat.

North of Athabasca Lake, the possibilities of the country being opened out for agricultural purposes, are Mr. McDonald says, very small. It is true that vegetables and barley are grown

on the Mackenzie at Fort Providence, and on the Liard at the mouth of Fort Simpson; but this furnishes no assurance of any extensive operations, as the country is chiefly mountain and swamp, and there are very few spots of prairie land of any size to be found. It has been reported that wheat was grown successfully at Fort Providence, on the Mackenzie; but that was on a very small scale, and in a protected part.

At present the chief industry of that whole northern country consists in the procuring of furs. Since free traders have gone into the country in large numbers, the Indians have been encouraged to kill fur-bearing animals at all seasons of the year, thus interfering with their increase. The Hudson's Bay company would not accept fur which was not prime; and under the company's rule, the Indians were warned not to destroy fur-bearing animals during the breeding season.

The development of fisheries and lumber interests has not yet been undertaken. The timber is of tamarac, spruce and jack pine, which are found in quantities and of qualities to meet local demands for fuel, etc., but difficulty of navigation would be an obstacle in the way of export.

No valuable mineral deposits have as yet been discovered.

## FORTY YEARS AGO.

Description of a Steamer Voyage From  
New York to Liverpool.

(Portland Me., Press.)  
Never looking better, Hon. William W. Thomas, United States minister to Sweden and Norway, arrived at his home in this city Saturday noon and is the guest of his brother, Elias Thomas, at the latter's residence on Danforth street. He is enjoying a short leave of absence and after arriving in New York the first of the week went to Washington. Then he at once started for Portland. "The advance that has been made in ocean transportation during the last forty years is wonderful," said Mr. Thomas.

"It was on the Cunard steamer Asia that I sailed out of New York harbor on April 23, 1862. She was built of wood, was between two and three thousand tons burden, a side wheeler, and had the sails of a full rigged bark. We went under sail the most of the way across the Atlantic, often with top sails, top gallant sails and royals all set. Indeed when a favorable breeze blew over the quarter, studding sails were run out to leeward to help us along. The monotony of the voyage was often broken by the cheery whistle of the boatswain summoning his crew to trim the sheets. We carried a cow aboard and she gave milk sufficient for all of the limited number of passengers. She was kept in a roomy stall on the inside of the port paddle box and a large brass plate fastened to the door bore the legend in large letters, 'Cow House.' In pleasant weather the upper half of the door was swung open and the cow would put out her head and chew her cud in the fresh air while the children would pat her neck as they trooped by. It took us twelve days to cross the Atlantic, a very good passage, too. It frequently took fourteen days or more. What a difference between this ship—a crack ship too in those days—and the magnificent Deutschland that with 36,000 horse power propelling her enormous bulk of 20,600 tons, in five days swoops across the Atlantic like a colossal black German eagle."

## POINTER FOR GIRLS.

How to Secure Physical Culture in a  
Judicious Way.

(Cynthia Westover Allen in Success.)  
"America still has several million girls who find a large part of their physical culture in helping mamma, and are not blushing because of the fact. For such girls the vista of possibilities is long and alluring. "For arms, fingers and wrists, washing and wiping dishes will be found admirable. One is as good as the other. Perhaps the water aids in giving suppleness to the joints of the fingers. That is an advantage washing dishes has over wiping them. However, there is a fine elbow movement in the wiping."

"Bed-making, as it is still taught in the homely physical culture academies of Yankee farmhouses, cannot be too highly recommended. With the folding of every counterpane, blanket, and sheet, the arms are stretched as far apart as they will go, each hand holding one end. Then, standing perfectly erect, the chest is thrown out. Quickly the hands are brought together again, and presto! the sheet is folded double! Shoulders, body and limbs are all developed by the mattress-tucking. The eye and the sense of symmetry learn much from the regular arrangement of counterpane and pillows. Of course this exercise ought not to be carried too far."

"Sweeping gives much the same motion without the jerkiness of golfing sticks. For the girl who is perfect of arms and shoulders, so much desired by every ambitious girl, nothing could be better. I do not advise excess in this recreation. But there will be nothing harmful if you only sweep each room in the house once a week. "Floor-scrubbing, like lawn tennis, is rather violent, and not to be tried unless you are sure about your heart. At first, it will be almost as severe on the knees as rowing in a shell; but, as you get used to the occupation, it will give a subtle satisfaction of its own."

"Running up stairs when mamma wants something is first-class exercise, and running down stairs is almost as good. Interesting diversions will be found in egg-beating and ice cream freezing. Dusting ought to have a chapter by itself. First, you are down on all fours; then you are on tiptoe, seeing how far the duster will reach. This stooping, with its ankle development, is superb! But that isn't all! You twist yourself into all sorts of positions to get at the corners of the carved furniture. First you are on one knee, and then on the other. Every muscle, every tendon is brought into service before you are through. Even this magnificent exercise can be overdone, but you will make no mistake if you only dust every room after you have swept it, although most housekeepers dust oftener."

You can always depend upon the quality of Red Rose tea.

## SPORTING MATTERS.

THE FOUL BALL STRIKE RULE.

Quoting from the committee's official code of rules describing the "compromise" measure adopted in reference to the rules applicable to the calling of strikes on intentional foul ball hits, the rule in question is as follows:

Rule 44 was amended as follows:

Rule 44.—Strikes.

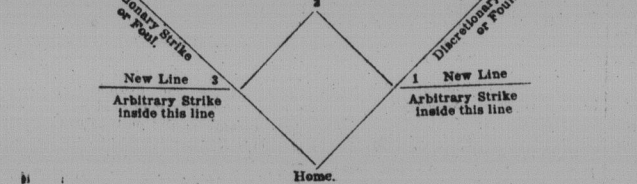

A strike is:

Section 1. A ball struck at by the batsman without its touching the bat; or  
Section 2. A fair ball legally delivered by the pitcher, but not struck at by the batsman.

Sec. 3. A foul hit ball not caught on the fly, unless two strikes have already been called, which falls or settles on foul ground inside or on the line of the territory described by lines drawn from first and third base at right angles with an imaginary line drawn from home to second base and extending on each side to the limit of the playing field.

(Section 4 is entirely new and is a substitute for the "bunt hit" section 4, as it appears in Spalding's 1901 Guide.)

The above rules render it imperative on the umpire to call every ball a strike which hits the ground foul back of the centre line of the appended diagram. But if the ball hits foul ground on the forward of the centre line, it is left at the discretion of the umpire to regard the foul hit as intentional or accidental. Here is a correct diagram of the new lines:

Britt Home.  
Dan Britt, the Alerts former first baseman, who has been playing in the Fall River team in the New England League, came home yesterday, and may or may not remain. Britt has been doing good work, but his local business required his attention for a few days. He has not decided just what he will do.

The Right Rev. T. Casey will leave early in June for a confirmation tour in Westmorland county.

The report that the smallpox patient at Houlton is a Mr. Pendleton of St. John is not correct. The patient is not a St. John man.

The C. M. B. A. anniversary celebration will take place in the York assembly rooms tonight, commencing at 8 o'clock.

A number of counterfeit five cent pieces are in circulation in the city. The Neptune Rowing Club's boat house will be opened for the season on Saturday. Two new boats, a barge and a double scull, have been ordered.

W. B. Wallace yesterday received instructions from Attorney-General Fugle to make an investigation as to the extent of the estate of the late Isaac Oulton.

The council of the N. B. Loyalist Society met last evening in the rooms of the N. B. Historical Society and discussed matters pertaining to the coronation observances in this city. A committee consisting of Rev. W. O. Raymond, Dr. W. P. Dole and D. R. Jack was appointed to wait on Mayor White to ascertain what the city's programme would be towards the keeping of the day here.

A very successful entertainment was given last evening in the Carmarthen street Methodist church, under the auspices of the Ladies' Aid Society. The attendance was large. Joseph Johnston was in the chair, and the programme was as follows: Piano solo by Miss Edith Cochran; solos by Mr. Beal, Mrs. Huestis, Mrs. Tuffs, R. Morton Smith, Mr. Job, Miss Trueman, Mr. McGowan and Robt. Ritchie; readings by Mr. Price, Miss Grace Law and J. N. Rodgers; a violin solo by Miss Nellie Thompson, a whistling solo by Mrs. C. F. Robinson, and a piano duet by the Misses Cathers.

T. Lynch and M. Welch each have about a million and a half of lumber hung up on the Upper South West Miramichi.

Fires spread north to Tryon, P. E. I., yesterday afternoon, destroying the dwelling and barns of James Dawson. All the lumber drives on the Restigouche are safe in the boom, excepting Hazelton's, which is reported to be stuck on the upper waters of the main Restigouche.

Salmon were quite plentiful at Campbellton last week and of a large size. Fly fishing has also commenced and breaks all previous records on the river as to date.

About 15 new buildings will go up in Campbellton this summer besides extensive improvements on buildings. Laborers and mechanics are scarce and wages high.

Transport Corinthian will sail from Halifax on Friday. The horses will be put on board Thursday and the troops of the 5th Regiment will embark Friday morning at 8 o'clock.

Mackerel have struck in off the Halifax coast. Yesterday morning the schooner Globe arrived with 21,000 large fish, which were purse seined outside. The fishermen along shore have been getting small quantities in their nets. The fish are retailing in Halifax for 25 cents.

At the inquest at Bloomfield yesterday the train hands were exonerated from blame in connection with the death of Mrs. Flenore and little Cecil Brown, but the railway department was urged to instruct engineers to drive slower when passing a dangerous crossing.

At Moncton on Monday evening a committee from the I. C. R. presented J. T. Hawke of the Transcript with an address, a gold-headed cane and a 30 day clock, and for Mrs. Hawke a set of silver spoons. The presentation was made in recognition of Mr. Hawke's interest in behalf of the working men's schedule.

The Moncton board of trade has elected Joshua Peters president, F. W. Sumner vice-president and D. I. Welch secretary treasurer.

GENERAL.

There are thirteen cases of smallpox in Hallowell, Me.

A terrific wind and rain storm which swept over Cincinnati yesterday killed six people, injured many others and damaged much property.

A fire early this morning destroyed the premises occupied by the Worcester Spy, in Worcester, Mass.

MARINE MATTERS.

DR. HAWTHORNE IS BOILING.  
Disgusted With American Adulation for Monarchs and the Like.

RICHMOND, Va., May 20.—Rev. Dr. J. B. Hawthorne, pastor of Grove Avenue Baptist church, said that it was his opinion that the action of President Roosevelt in appointing Dr. J. L. M. Curry special ambassador to Spain would be one of the issues in the next presidential campaign. "I am a democrat," announced the doctor, "for I am utterly disgusted with this show of adulation for monarchs. It is exasperating, and I think Thomas Jefferson and Patrick Henry would turn in their graves if they knew of the situation. I came near boiling over when the German prince was here, and it seems now an open question whether this country will return to a monarchy. I believe the sending of a special embassy to be illegal and unwarrantable. This is not my unsupported opinion," declared the doctor, "but it is the thought of a large majority with whom I have talked."

**WOOL, AND SILK AND WOOL GRENADINES** are much in demand now. They are shown in a large variety of styles at Dyke-man's.

**SMALLPOX IN HALIFAX.**

(Recorder, Monday.)  
This morning three smallpox patients were removed from the Veith street house, which was placed in quarantine a week ago. Two other residents of the same house, it is said, are showing symptoms of the disease. There are now six patients in the hospital, two of whom will be discharged this week. One of the smallpox patients at Dartmouth, Chas. Brown, is out again, fully recovered. The other patients—the Glendennings—are all doing well. The two Glendennings men and N. Marvin, who were quarantined in a house on Cole Harbor road, were released yesterday.

**IMPORTANT INDUSTRY.**

(Fredericton Herald.)  
Donald Fraser & Sons now have in their employ at the Aberdeen mill no less than 175 men, and expect to increase the number to 225 and possibly 250 by midsummer. The number employed last season was 150. The mill is kept running to its fullest capacity day and night, and the enterprising proprietors expect to manufacture this season 15,000,000 feet of lumber or about double the quantity turned out by them last year. Already this season the firm have loaded several schooners with lumber for the American market and are now loading four large scows with spruce deals for shipment to the old country. They expect to commence manufacturing box shooks in the course of a few weeks.

MONTREAL, May 20.—The record time for the shipping of grain cargo from Chicago to Montreal has been broken by the dispatch of 175,000 bushels of grain between those cities in one day, seven days being the usual time consumed. The cargo was shipped from Chicago to Depot Harbor by a propeller, and from that port to Montreal over the Canada Atlantic railway.

**LOCAL NEWS.**

**AN OPTICAL DELUSION.**

Those persons who have accidentally happened to see the volumes of smoke which are almost continuously thrown out from the big chimney at the street railway power house will be pleased to learn that after all, appearances are deceitful and really very little smoke comes from that place. It might be supposed, judging from a chance notice, that there was much smoke—but there isn't. By an ingenious arrangement of dampers and draughts the fire is so controlled that almost all the smoke is consumed, and the little bit which does escape, which forms a heavy cloud at almost every hour of the day, and which is a constant annoyance to the residents in the districts to which it blows, is only that portion which escapes burning and is only seen when coal is being put on the fire. This explanation should be satisfactory to the people who find the clothes on their clothes-lines covered with soot, and are only able to open their windows when the wind is not in their direction. They are subjects of optical delusion and should consult an oculist.

**AS TO PROJECTING WINDOWS.**

There appears to be some slight skirmishing on Main street between the civic authorities and the carpenters employed on O'Neill's house, and there is a large possibility of more being heard of the affair. Some two weeks ago staging was erected in front of the house by Charles W. Segge, the builder, for the purpose of making alterations in the front of the building. A wide platform was built from the second floor, extending over the sidewalk, and on this platform a wall was put up, completely shutting in the front of the house and the workmen. Inside this enclosure, hidden from public view the carpenters were at work, and the alterations being made are two bow windows, which project a couple of feet over the sidewalk. These windows are the cause of the trouble, inasmuch as they are not permissible, by the order of the board of works. Some time ago, when similar affairs were being done in the St. John building, they decided that since the windows had been erected they might remain, but no more were to be put up. Consequently when the police discovered that projecting windows were being put on Mr. O'Neill's house they reported the carpenter doing the work, but as yet no responsible person has appeared before the magistrate. Mr. O'Neill claims that he has as much right to have bow windows as any person, and will strongly object to having them removed.

**THE EXHIBITION.**

J. E. Wood, manager and secretary of the Halifax exhibition, is expected here this evening to make arrangements for bringing judges for live stock to the St. John exhibition. The Dominion Live Stock commission has offered to send a number of the best judges of stock in Canada, provided a circuit can be arranged by which these gentlemen will be engaged for at least one week. The travelling expenses only are to be paid by the exhibition companies. Mr. Wood's mission is to arrange this circuit. He will also interest himself in the proposed races and show of horses at Moosepath, with the idea of securing some of the best horses in the country by the united action of the two exhibition committees.

**K. OF P. HALL.**

Somewhat extensive improvements have been made in Castle hall of the Knights of Pythias building. Although the work has not yet been completed that which has been done gives a good idea of the appearance of the hall when finished. The wainscoting and ceiling have been oiled and varnished, and the rough plaster walls have been painted in a delicate tint of robin's egg blue. Around the top is a border, of which bunches of purple grapes form the most prominent feature of the pattern. The ante-rooms also have come in for a share of improvement. The work is being done by Geo. R. Craigie. Tonight at the meeting of New Brunswick lodge five or six candidates will receive the third rite.

**CORONATION DAY.**

Mayor White will call a meeting of the citizens some time about the first of the week to discuss ways and means of properly celebrating Coronation Day. The idea at present appears to be to have a large parade in which the military and other organizations will take part. It is expected that one feature of the day will be the laying of the corner stone of the South African memorial in the new north end park. Suitable ceremonies will be held at that place.

**ATLANTIC TIME.**

His worship received today the following communication from Supt. James Osborne of the C. P. R.: "To His Worship the Mayor: "At midnight, Saturday, June 14th, the Canadian Pacific clocks will be advanced one hour, after which our trains in and out of St. John will be operated on Atlantic standard time."

**EXCHEQUER COURT.**

The case of McGoldrick v. The King was resumed this morning in the exchequer court before His Lordship Judge Burridge. As there was some talk of settlement, his lordship gave the parties interested an hour in which to come to an agreement. They did not do so, and Ald. McGoldrick again took the stand. Other witnesses also were heard.

**POLICE COURT.**

Three in One—An Unhappy Visitor—Charged With Theft.

Annie Fitzgerald, Annie Myers and Annie Sullivan were individually and collectively intoxicated in a yard off Carmarthen street last night. Officer Henry, hearing some unaccountable sounds, went in to investigate and found all of this woman lying flat on the ground solemnly singing "she had fallen by the wayside." He gathered her into the fold and without consulting the prisoner entered her name as Myers. This morning she asked the magistrate to note an objection. Her name is Sullivan now, no matter what it may have been in times past. Mrs. Sullivan was sent in for two months.

Hugh Murray came over from Annapolis on Monday to visit his cousin. He failed to find the cousin and sought solace in drink. It left him on Pond street, where he was picked up by Officer Marshall. Two dollars or five days.

Malcolm Dempster was arrested for not giving a satisfactory account of himself between two and three o'clock this morning. Lone and weary through the streets he wandered, for he had no place to lay his head. The woman where he once had boarded gave another man his bed, and Malcolm had to get out. He could not satisfy the magistrate this morning and was remanded to jail.

**LAST NIGHT'S CONCERT.**

Miss Baillie's Entertainment in York Theatre a Success.

The concert by Miss Mary Baillie and her pupils at York Theatre last evening attracted quite a large audience, and aside from delays in stage setting, which could not well be avoided, proved intensely interesting. The pupils in elocution showed careful and excellent training, reflecting much credit on Miss Baillie's skill as a teacher. The Dance of Ye Olden Time, by eight young ladies, was a very graceful performance, and the statutory poems and tableaux were artistic and beautiful. The solos by Mrs. H. A. Doherty, the piano solos by Miss McGaffigan, and the reading by Miss Baillie herself added greatly to the entertainment. Mrs. Doherty is always heard with pleasure, and Miss McGaffigan's playing, especially the imitation of a storm, was worthy of the highest praise. Among the pupils the reading of Miss Annie McGrath, who possesses a voice of great power, combined with sweetness and dramatic force, was exceptionally good. Miss Orca Sharp's pantomime did not afford as much scope for good work as the young lady is capable of, but was clever and amusing. Little Marion Campbell was a special favorite with the audience, and Ruby Elderkin displayed a delightful vivacity in all her work. Much careful study and intelligent training was revealed in the whole entertainment, while the costumes and stage effects were pretty and effective. Following is the programme:—

Pantomime—"Old Folks at Home".....Foster Marion Campbell.  
Reading—"Scarecrow".....Donnell Saba.

**MOUNTED SWORD COMBAT RULES.**

The following are the rules that will govern the mounted sword combat to be contested at the Victoria rink, Saturday evening, May 24th. The swordsmen are required to be mounted in cavalry style, clad in steel armor and armed with regulation swords; they shall take their positions in oblique opposite corners. When the bugle sounds the "attack" the swordsmen must charge their horses to the centre and meet right hand to right hand and continue to attack each other until either is unhorsed or gains a point. A point shall be a clean cut on any part of the armor except the arms. If a swordsmen is unhorsed he may continue on foot until the bugle sounds the "halt." It is foul to strike an opponent while on the ground in a disabled condition, and it is the referee's duty to order the halt to be immediately sounded when two minutes have elapsed without remount and continue the combat and a failure to do so will forfeit the contest, which will consist of the best of 21 charges and must be fought to a finish. The armor and swords to be used arrived yesterday, and from the appearance of the weapons sword fighting must be strenuous work. The swords are different to the swords used by the British army, in that they are longer and heavier and made of the best Solingen steel.
