In a snug little cot, not a thousand miles off, Lived a lonely, contented old "bach," Who cooked his own grub and dined by himse And had no one to sew on a patch.

With his cat, and his dog, and his little pe mouse, Our hero, 'twas said, wanted nothing: But needles were sharp, and would frequent So he oft went with holes in his clothing.

There no doubt were misses and maids quit

Who would fly to relieve his distresses,
But he oft had declared he could never abide
The appearance of hoopskirts and dresses.

For some thought the "Wheeler & Wilson" th

While most liked the "New Family Singer;"
nother one swore the "Osborne" was best,
The last one, I think, was a shaker. So first to the "Wheeler & Wilson" he went,
Where he found them making a shirt,
At the end of each seam they used needle and
thread,

By the feed that could make it sew back. But our Bachelor friend was dissatisfied still, For the "Florense" so complicate seemed, le feared the minutize might "get out of fix," And could never be wholly redeemed.

Then they told him another advantage they had Over other machines in the West.

That four different stitches with it they could And from four he might sure get the best.

Our hero replied, "What's the use of the four I If one of the stitches is best, Why that is the right one to use all the time, And what will you do with the rest?" The "Howe" and the "Wilson" both vainly h

And the "Osborne" broke down on a fell. The "Finkle & Lyon" or "Victor" he tried, The "Ætna," "Blees," "Leavitt" and "Weed, Till worried and vexed with his fruitless research He scarce hoped in the end to succeed.

After trying in vain many other Machines,
Without any hope of success,
He called where the "Singer New Family" w

And they quickly relieved his distress. For here half a dozen machines were engaged
In stitching of different sorts,
Which they did so complete, and with so little He acknowledged the truth of reports.

In lightness of running, in stillness and speed, In construction so simple, yet strong, Sure none but the "New Family Singer" would vie,
Though he'd searched through the infin

Then the stitch was so neat, so elastic, so strong That he vainly endeavored to break it, And so many advantages in it combined That he quickly decided to take it. J. D. LAWLOR,
