Fredericton Man Takes Exception To Article on Guides in Advocate.

AUTHOR DECLARES ARTICLE WAS MALICIOUS

He Says "New Brunswick Guides Association Did What Was Fair."

WRITES TO ST. JOHN PAPER

Public Somewhat Enlightened On New Brunswick Guides Association.

(For the benefit of readers of the Advocate who do not see the St. John Telegraph publish the following letter. It is not intended for us to reply to the letter in this issue, but we shall do so in our next.)

To the Editor of the Telegraph

Sir: Knowing that your valuable paper circulates largely in the North Shore counties, I would feel very grateful if you would allow me sufficient space to deal with some unfortunate and malicious statements in regard to the New Brunswick Guides Association which appeared in a recent issue of the Newcastle Advocate. The article in which I refer was no doubt prompted by feelings of jealousy, but what object the editor of the Advocate hoped to attain by publishing such rot about an organization of which it is plain that he knows absolutely nothing is more than I can comprehend. In order to put the matter more clearly before your many readers, who take an interest in matters pertaining to big game hunting, I will with your permission, quote the objectionable portion of the Advocate's article.

The New Brunswick Guides Association is seeking legislation to prevent anyone from guiding in the province who is not a member of the association. This is merely another exhibition of the rank gall which has characterized the actions of the so-called New Brunswick Guide Association ever since its formation. Such a measure would deprive all the guides of Northumberland, Gloucester, Restigouche and Victoria counties of the right to earn a living. The New Brunswick Guides Association consists solely of and exists solely for York county men.

The New Brunswick Guides Association was formed in the interests of one section and by the residents of one section, viz.—Fredericton, and a man prominent in the sporting life of New Brunswick to a reporter of the Advocate. He went on, "The bulk of the organizers was to make Fredericton the distributing centre, regulations being made that it was the hub of the big game country of New Brunswick. When the association was formed it was done in a very quiet way, in a simple invitation to join being sent to the guides of Restigouche, Gloucester or Northumberland, which, with Victoria, are the big game counties of the province."

While the self-styled New Brunswick Guides Association are inducing the legislature to prevent non-resident guides who pay the \$30 from guiding in New Brunswick they might go a little further and ask the legislature to enact a law to compel guides to remain within the county in which they reside. All members of the Guides Association without, I believe, a single exception, are residents of York county. In the hunting season they spread themselves over Northumberland, Gloucester, Victoria and Restigouche, taking with them all their provisions and help from York county.

Now in the first place I wish to state that the New Brunswick Guides Association has no notion of asking for legislation "to prevent anyone from guiding in the province who is not a member of the association." No guide belonging to the association ever put forward such an absurd proposition at a meeting or at anytime, and I defy the Advocate to prove that the contrary is the case. If the Advocate cannot make good its assertion, then in justice to the association it should publish a retraction.

The statement of the Advocate that the New Brunswick Guides Association consists "entirely of and sole for York county men" is also the product of somebody's imagination. At the present time the membership includes competent and reliable guides from the counties of York, Victoria, Northumberland and Queens. I have the membership roll in my possession and can therefore prove the truth of my statement. The Advocate's editor on the other hand, has no means of knowing who the members of the association are or where they reside. To remove the very erroneous impression

LOGGIE M. P. MOVES IN RAILWAY MATTER

Points Out The Advisability of Making Newcastle A Divisional Centre.

URGES TOWN TO ACT.

Board of Trade Will Meet And Discuss Matter Friday Night.

Mr. W. S. Loggie, M. P., has already pointed out to the department of railways the advisability of making Newcastle a divisional point on the Intercolonial. Mr. Loggie advises immediate action on the part of the Newcastle Board of Trade. As a consequence President Hennessey has called a meeting of the Board for Friday evening. It is altogether likely that a delegation will be appointed to present to the railway the matter before Mr. Hennessey and his colleagues. It is generally recognized that resolutions of this sort are scarcely worth the paper they are written on and that if anything is to be accomplished a trip to the capital will have to be made. A large attendance is looked for.

Railway men seem to be in hearty accord with the suggestion although the new divisional centre would relieve some of a good deal of detention pay. A few days ago there were at one time between Campbellton and Newcastle six specials and four regulars. In order to move the latter the despatcher was compelled to side track the former for hours thus piling up a large detention account. It is argued that if Newcastle were made a divisional point thousands of dollars of detention money would be saved every year and the I. C. R. deficit materially decreased. The fact that the Maritime express makes the short run is evidence that other trains require it.

Not long ago an I. C. R. official made this remark to a Campbellton despatcher "I think we'd have to get one or two American despatchers up this way to show you fellows how to do things."

"You wouldn't get an American despatcher to sit here for five minutes," was the retort.

This despatcher knew what he was talking about. It is an imposition to ask men to move trains regularly over the enormous distance which the Campbellton despatchers are compelled to cover. A change is bound to come sooner or later and it behooves Newcastle to be up and doing.

That he seems to have formed on the subject, I might say that leaving restigouche from both Northumberland and Victoria have been identified with the association ever since its inception.

I do not know the identity of the "man prominent in the sporting life of New Brunswick," who furnished the inspiration for the Advocate's article, but if he has been correctly reported, it is quite evident that he knows even less concerning the object of the Guides Association than does the editor. It never was the intention of the founders of the Association to make Fredericton the distributing centre or hub for sportsmen as alleged. The association was formed by the guides for their own protection and benefit, and no favoritism is shown to any particular city or town in the province. As a matter of fact the members of the association who hunt on the "T. B. G." and these are in a majority at the present time—do not bring their parties to Fredericton at all. Neither is this done by members who do not guide on the Northwest Miramichi and Restigouche waters. It is true that a great many sportsmen visit Fredericton in the run of a season, and not a few of them purchase their supplies here. They are invariably well treated and never complain of not receiving value for their money. There is no true of Newcastle so far as I know, and if there is any person inclined to give vent to a feeling of jealousy because a few more sportsmen may possibly visit one place than the other, such a person does not live in Fredericton.

It may be true, as the Advocate says that the New Brunswick Guides Association was formed in a quiet way, but I cannot see as it is any the worse for that. The late Fred B. Coleman, of the Barker House, Fredericton, who always took an interest in sporting matters, was the leader

COUNTRY IN GRIP OF A TERRIFIC STORM.

A Snowfall of Several Feet Stopped all Traffic on Thursday Last

TRAINS HELD HERE

And From Newcastle Supt. Price Gave Road Clearing Directions

Such a storm! Snowflakes as big as a silver dollar struck the terrestrial sphere in these parts late Wednesday night and for twenty-four hours were tossed about in wild confusion to the tune of a howling, screaming nor-easter. When it was all over there were nearly four feet of snow piled in drifts on side walks and roadways rendering traffic well nigh impossible.

The storm came from the south and down Nova Scotia way and in the southern part of New Brunswick it was much worse than it was here. The storm went as far as Bathurst and no farther. Up north it was much lighter than it was here.

The south bound Maritime Express due here at 8:00 o'clock arrived here at 10:50 Thursday morning right in the teeth of the storm. Four feet of snow covered the track ahead of her so she was held here until 1:20 the following day when she proceeded to Moncton as a special.

The south bound accommodation due here at 11:25 arrived at 1:30. She left here at her regular hour on the following day, the train on that day being cancelled between Campbellton and Newcastle.

All the north bound trains were hours late on Thursday and Friday. In fact they are just beginning now to run on anything like schedule time.

General Supt. J. E. Price of the Intercolonial was in Campbellton during the storm and on Friday morning came to Newcastle and directed track clearing operations from here. In some parts of New Brunswick and Nova Scotia trains were stalled a whole day or more and some hardship endured. It is said that twelve feet of snow fell in Nova Scotia. Mr. Price remained here until Saturday noon when he left for Moncton in his private car.

It was one of the worst storms the Intercolonial ever had to contend with, he said to a reporter for the Advocate. Trackmaster DeBoo and his men did excellent work between here and Moncton. Mr. DeBoo's own invention the "thunder" plow proved a marvel and went through the Rogersville cuttings in less than twenty minutes. Such good work did the battery accomplish that it was sent down to Nova Scotia to clear the track there. The first plow speed left here at 8:55 Thursday but was stalled at Rogersville.

It might accurately be stated that traffic of all kind in most parts of New Brunswick and Nova Scotia was entirely suspended on Thursday.

The roads throughout the Miramichi district were almost impassable but on Friday plows were put on and they are now in fairly decent shape. Traffic between here and Chatham was suspended for twenty-four hours. Indeed it was impossible to cross to Nelson. The day previous to the storm Mr. Charles Sargeant had plowed a road to Chatham. Teams began to come in from the county Friday afternoon but it was a tremendous task to travel any distance. Not since the blizzard of 1888 has New York been so completely snow bound as it was Wednesday night. The city laid under a foot of snow which in many places was heaped to a height of several feet. Surface travel was abandoned. Terrible suffering was reported among the poor.

A ROTTEN BRIDGE.

Structure At Redbank Is In A Very Dangerous Condition. It Is Said.

The Redbank bridge is in a very dangerous condition. A temporary was put in last spring and it is now embedded in the ice and rises and falls with the tide. Over half the time it is not near the span at all. This bridge needs about five new spans for the present ones are rotten. The repairs could be made now because all traffic goes the way of the ice. No one will venture across the bridge but it would be well to have it fenced off for a stranger might happen along and not knowing of its condition attempt to pass over it.

MUNICIPAL COUNCIL.

THURSDAY CONTINUED.

J. L. Stewart, by permission, reported as follows:

Your committee appointed at the special session, Nov. 5 last, to prepare and publish a resolution on the death of the late Sec. Treasurer of the County, attended duty by preparing and publishing the following:

Whereas Samuel Thomson, K. C., Clerk of the Peace, Clerk of the County Court, Clerk of the Circuits, Judge of Probate, and Sec. Treasurer of the Municipality of Northumberland has been suddenly called hence, in the performance of his public duties, having literally died in harness; therefore

Resolved: That this Council hereby records its deep sorrow at the loss of so lovable a man and so efficient a Sec. Treasurer—a man who was a true heart and soul with kind feelings for all his fellow men, a citizen who was public-spirited, helpful, charitable and generous because it was with him a sweet habit of the blood to be so, an official who performed his public duties with promptness and exactitude, but was ever careful that the right of the individual should not be infringed upon in so doing.—One who in all the relations of private and official life, was always frank, manly, open-hearted, courteous and considerate towards all with whom he came in contact.

Report adopted, on motion of Coun. Watt, and ordered in full on the minutes.

Coun. Sullivan presented a list of parish officers for Hardwicke. Passed.

Coun. Swin presented list of parish officers for Blissfield. Passed.

Coun. McNaughton moved that the returns of Hugh McDonald, Patrick McGrath and James Moran collectors of rates, Glenelg, pass. Carried.

Coun. Flett moved that \$6 be paid to Thos. Lynch, parish clerk of Nelson. Carried.

Coun. Lewis moved that \$6 be paid John Mills, parish clerk of Hardwicke. Carried.

Coun. Hayes moved that \$6 be paid to Walter McLaggan, parish clerk of Blackville. Carried.

Coun. McNaughton presented list of parish officers for Glenelg. Passed.

Coun. Lewis moved that the return of Thos. Gulliver, boom-master, Bay du Vin, pass. Carried. Also that the return of Patrick Carroll, collector of rates Hardwicke, pass. Carried.

Coun. Parks moved that \$6 be paid to John Keyes, parish clerk, Southesk, and \$1.50 to Wm. Somers,

district clerk. Carried.

Coun. Perry presented return of Jacques Poirier, collector of rates, Rogersville, and list of parish officers for Rogersville, passed.

Coun. Lewis asked how many pellers had taken out licenses last year.

Sec. Treas.—I will look it up.

Coun. Sullivan—How many auctioneers have paid license fees?

Sec. Treas.—None to me.

Coun. Flett asked if any rent had been collected from the occupants of the old jail. He had seen no report of any payment. The building was enough for two families, and it would be well to repair it and lease it. If not, tear it down and let the land for a house lot or garden.

Coun. Davis said a committee inspired into this last year and reported that the Jail Committee had put a family in to take care of the building.

Sec. Treas.—They are not servants of the county and may claim the property after 20 years.

Coun. Flett—If the county will spend \$300 or \$400 on the house it can be rented to two families at \$100 a year each.

Sec. Treas.—It would be a waste of money to repair it.

Coun. Connors moved that a committee consisting of Couns. Flett, Doyle and Parker be appointed to examine the building and report. Carried.

Coun. Watt reported the following from the County Accounts Committee—Dr. McDonald, \$8; J. L. Stewart, \$16.66; Wm. Irving, \$6; D. & J. Ritchie, \$24.45; E. F. Maltby, \$3.85; F. J. Neely, \$17.45; B. N. Call, \$26.49; H. Brooker, \$9.60; Sec. Treas.'s balance sheet, showing \$7407.68 on hand; Board of Health accounts, \$230.63. Passed.

Coun. Sullivan said the items of the Board of Health account should be passed separately.

Coun. Watt said they had been already paid by authority of the Board of Health and the chairman of the Finance Committee. He read the items of the account for the information of the Council.

Coun. Sullivan objected to the payment of \$1.50 to W. S. Preston for taking a Sunday drive with the Board of Health agent; also to the payment of \$5 a day and board

to Chairman Maltby, who sits on his own accounts and orders them paid. Only one house had been fumigated in Hardwicke. It was on account of the negligence of the Board of Health of Chatham that the expense was incurred in Hardwicke and Nelson.

Coun. Watt said Coun. Sullivan was perfectly correct in what he said about the negligence of the Chatham board. Savoy, who was the doctor had reported to be diphtheria, was allowed to leave Chatham and go to Hardwicke. W. G. Tait was sent down to quarantine Savoy and guard the house. He was ordered back and Preston was left in his place. The diphtheria cases were due to the Chatham board's negligence; also the case at Oyster River, where a lumber camp was quarantined. The chairman's charge of \$5 a day was little enough and the board

had to persuade him hard to continue at that figure. He saved money for the county.

Coun. Watt read the Board of Health report.

Coun. Flett asked if the Riot Act was read to the occupants of the Napan houses that were quarantined. Were they ordered to stay in? One of them was selling beef in Nelson after his house was quarantined, and he had heard, was selling milk to the Creamery. Was that what they call quarantine? Guards should have been placed on the houses and nobody allowed to leave them.

Coun. Flett said a Napan butcher, who had been ordered into quarantine, was selling beef in Nelson, and he had heard, was selling milk to the Creamery. He understood that this was a week after he had been quarantined. A boy sick in the house a week of diphtheria and a second case had occurred before he had reported to the Board of Health. How was it that the doctor in attendance had not reported the facts? Was he not open to a fine for having failed to do so?

Coun. Watt said the doctor was liable. The board knew nothing of the case till Coun. Flett's complaint was received. It was before, and not while his house was quarantined that the man referred to was selling meat in Nelson.

Report adopted.

Coun. Harrigan moved that the return of Thomas Gill, boom-master, Burnaby River, pass. Carried.

Coun. Hayes presented list of parish and county officers for Blackville. Passed.

Coun. Davidson, from Bylaw Committee, reported bylaws against stables, cattle or sheep running at large between Johnston's and Way's bridges, Northesk, between May 1st and Oct. 30th, and against sheep running at large in Rogersville between May 1st and Nov. 1st under penalty. Passed.

Coun. Morris, from the committee on almshouse accounts, reported as follows:

Your committee on almshouse accounts beg leave to report that they find the accounts correct and satisfactory, the books well kept and audited. The assessments for the several parishes for 1905 which are asked for by the Almshouse Comr's are as follows:

Chatham	\$900	Hardwicke	\$175
Newcastle	\$400	Almwick	\$175
Nelson	\$150	Derby	\$125
Northesk	\$100	Blackville	\$125
Southesk	\$ 75	Blissfield	\$100
Glenelg	\$100	Lunenburg	\$ 50
		Rogersville	\$150

Your committee recommend that the several amounts be assessed.

M. MORRIS, Chairman.

Coun. Sullivan vigorously protested against the charging of four persons to Hardwicke who had after living there for a time gone to Chatham and other parishes to live. They should have been charged to Chatham or to the county at large. It was wrong to make Hardwicke responsible for them. The Hardwicke comr had been imposed upon.

The report was adopted and the assessments ordered as recommended.

Adjourned till 10 a. m. Friday.

FRIDAY MORNING.

Warden called council to order at 10 o'clock.

In answer to a question asked at a previous session the Sec. Treas. read a list of five pedlars who had taken out licenses with the late Sec. Treas.

Coun. Morrison said that there was no doubt that there were two hundred pedlars in the county and thought that some officer in each parish should be appointed to look after these pedlars and see that they have licenses, and that these officers should be paid half of the fine imposed for the trouble.

Coun. Sullivan asked the Sec. Treas. if there was no record of a license issued to a Mr. Balmie of Kent county. This party had

sampled at his house and he knew that he had a license issued, by the late Mr. Thomson and that did not appear on the minutes.

The Sec. Treas. said that he with Coun. Hayes' assistance had gone over the books and the five names read were the only ones they could find.

Coun. Connors explained in reference to paying special officers half of fine imposed that the Consolidated Statutes provided that any one giving information in this matter was entitled to half the fine.

Coun. Morrison suggested that the Col. of Rates for each parish be asked to perform this duty.

Coun. Harrigan did not think the Collector of Rates the proper man as his duties often called him away from home. In his parish there were dozens of pedlars trading. Were these not supposed to show their licenses to any person who asked to see them?

CANADA, THE NATION.

Collier's Weekly, one of the few American publications which condescend to give Canada a place on the map seems to be charmed with our future possibilities. We like the way it sizes us up:—

The United States must realize that her greatest future trade is likely to be with Canada. Furthermore, Canada is sure to develop into her closest competitor for foreign trade. The Dominion to day is one of the four greatest exporters of wheat, and her water power, as yet but little utilized, will some day make her one of the greatest manufacturing countries of the globe. Already the United States is looking to her for timber, and her railroads are destined—from the most conservative estimates—to double their mileage in the next ten years. Even to day, Canada, exceeds the railway mileage of Italy and Spain combined. Her trackage is equal to about three fifths of all the systems of Russia or Germany, and it is more than three fourths of all Austria-Hungary's. It almost equals the total mileage of the British Isles; and Argentina excepted, Canada has more railroads than all free countries of South America combined. The whole continent of Africa has less than half as many land rails; and the systems of any minor power of Europe could be added to that of Australasia before the Canadian road is would be matched. In short, Canada has more railroads than Belgium, Netherlands, Switzerland, Portugal, Norway, Sweden, Serbia, and Greece, all combined, and yet these nations have a total of more than six times Canada's population. There is both a political and a commercial significance in all this, which the world is just beginning to see. There is no other dependency in the world of Canada's power and proportions. Her climate matches that of Russia, while her domain is vastly greater. The railroad development is the barometer test of a country's civilization, natural wealth, and enterprise. It is not the outgrowth of mere population. Canada has outgrown her colonial days, and is in fact a nation taking a foreplace in the industry and commerce of the world.

Our friend Mr. Marconi, of wireless fame is said to be engaged again. This time his fiancée is the Honorable Beatrice O'Brien fifth daughter of the late Lord Inchiquin. For goodness sake, Beatrice hold him to it.

HOW IT WAS WORKED.

Mr. Whitney and his friends have swept the Ross administration in Ontario out of existence. In a word Mr. Ross and his colleagues have been planted amongst the tall green timbers. "It was time for a change," argues an independent. And perhaps his opinion was the one that was chiefly instrumental in placing the Conservatives in power. We are confident that the independent electorate of Ontario voted for Whitney. I did so simply because if believed Ross had been in power long enough. This vote, combined with the liquor vote—a vote which Whitney controlled—was sufficient to defeat any government and we were not at all surprised to see the Conservatives carry Ontario, even by a majority of forty-two.

TOO MANY ACCIDENTS.

Accidents have been altogether too frequent of late on the Intercolonial railway. While none have been attended by death the majority have been of such a nature as to warrant a most searching investigation into their causes. In one or two cases it is an open switch, in another it is a broken rail and so on. Carelessness or neglect must be at the bottom of it all. It is criminal for men to be so indifferent towards duties which affect life and limb. The Intercolonial authorities should take some pains to prevent a recurrence of these mishaps. If they do not they will, sooner or later be burdened with another Palmer's Pond affair.

"No I cannot understand why the editor of the Chatham World should abuse me," writes Thomas W. Lawson to the Advocate. Mr. Lawson is not aware that "Frenzied Finance," was once a hobby of the editor of the World. A former Chatham editor has departed for Boston to extend his sympathy to Mr. Lawson.

A FIGHT TO A FINISH

The Chatham World went out of its way last week in an endeavor to hold the town of Newcastle up to ridicule. Fortunately the efforts of the World were misdirected and proved a dismal failure. No one with ordinary intelligence would concur in the opinion of the Public Accounts Committee of the County Council that the lighting of the public wharf should not be paid for and that a crossing leading from the street to the County Secretary's office should be supplied by the town free gratis. The County may endeavor to ignore its obligations, however small, but it cannot embarrass any town on account of its crookedness. We do not purpose going into an argument and endeavor to show why the County should pay the bills submitted by the town of Newcastle for we are confident that every right thinking person in the County recognizes the equity of the claim. Suffice it to say, it is not the amount of the suits which bothers us but the principle involved. We intend to fight it out to a finish and the Chatham World or any other medium cannot scare us a little bit.

How do you like February?

Lord Mount Stephen has distributed \$2,300,000 among his relatives, saying that he preferred to see them enjoying life now instead of waiting miserably for him to die. It's a wonder other minded men hadn't thought of that before.

The St. John Star, a bright little evening paper by the way, finds that Canadian smokers took 13,160,000 pounds of tobacco from Canadian manufacturers during the past year. And still we marvel at the generosity of Sir William McDonald.

A MAN OF MANY PARTS.

Some of the most young men in the stores, who think it beneath their dignity to shovel snow, received a good lesson on Friday when his Honor the Governor took a shovel and vigorously helped to load a sled with snow at his office door.—Chatham World.

Now just listen! This is the same governor which a few Ottawa men skulls called over-dressed. But perhaps His Honor is merely working up his muscle preparatory to returning to the Capital.

THE REAL FIGHT.

It is hard to tell these days whether the real war is on the Shakhn's S. Petersburg or out at the A. can.—Montreal Star.

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

THE NEWSPAPER MAN.

He seldom is handsome or pretty,
And has none of the charms of a dandy;
Is oft more abstracted than chatty,
And sometimes unbearably rude.
He courts us, then, all gifts us and grieves us,
As much as he posses is ours;
He kisses us, loves us and leaves us,
This peddling newspaper man.

Our mothers won't have him come calling,
He's no earthly good as a "society";
His morals (they say) are appalling,
His finances usually match.

He's rollicking, reck less, swearing,
Lives but for the hour, the day;
He's dangerous, dubious, daring,
Not fit for a husband they say.

But some how we girls are forgiving,
Perhaps he but needs us the more
Because he goes wrong in the living;
And knows the old world to the core.

So we pass up the duties of the schemer,
Who live in society's van,
And cherish the thinker and dreamer
Enshrined in the newspaper man.

Princess Victoria Undergoes a
Very Successful Operation
Other News.

St. Petersburg, Jan. 31.—A telegram from Schastin (Jan. 29), states that the Russian losses from Jan. 25 to Jan. 28 were 10,000. But five per cent of the total number engaged the Japanese. Over three hundred were made prisoners.

WEAKEN'S RUSSIA.

Tokyo, Jan. 31, 11 A. M.—It is believed that the loss of Mukden weakens the Russian position and probably will compel a new change in the Russian front in that vicinity. The loss will be strongly defended by the Japanese, who are now occupying the Russian works. As the ground is not yet actually impossible to capture, it is now worse.

SITUATION AT WARSAW.

Warsaw, Jan. 31.—Several persons were killed and many injured in encounters with troops and police yesterday. Telephone communication was interrupted and confusion in the city was such that it has been impossible thus far to ascertain the number of victims.

RUSSIA'S DEAD

London, Jan. 31.—A despatch to the Japanese legation in Tokyo today says the Russians have lost twelve hundred dead in the field since Jan. 25.

The Princess Victoria daughter of King Edward successfully underwent an operation for appendicitis at Buckingham Palace this morning. The operation was performed by Sir Frederick Treves, surgeon extraordinary to the King.

in the movement that culminated in the formation of the association. It was he who first pointed out to the leading guides of the Toronto and Montreal the advantage of forming a national organization such as exists among the guides of the Adirondack. He gave a great deal of thought to the matter and in the winter of 1901 a number of guides, acting upon his advice, formed the New Brunswick Guides' Association, the first and only organization of its kind in the province. The charter members included such celebrated woodsmen as Henry Braithwaite, the Prince of Wales, Adam Moore, Geo. Armstrong, Harry Allen and others, all of whom are still active members of the association. These gentlemen, since the formation of the Association, have a their expenses, attended sportsmen shows at Chicago, Boston and New York, and have done much to advertise the game resources of the province, and the guides, including several in the county of Northumberland, have reaped a share of the benefit of their efforts.

I might add here that the membership fee of the Association is \$2 and the annual dues amount to the same figure. Out of the amount the members are furnished with printed form for the fee of charge and the balance is expended in advertising in the sportsmen's magazines of the United States. Honorary members are admitted on the same terms as ordinary members and quite a number joined last year. One of the rules of the association is that the members must have camp and exclusive hunting territory of their own or be associated with a guide who have, in order that they will be in a position to provide information to the very best of accuracy. This rule is strictly observed with the result that the membership is an excellent class of sportsmen and are all to command the highest pay for their services.

Then the informant of the Advocate gravely states that the Guides' Association is seeking legislation to prevent non-resident guides from guiding in this province, hence to state what is not true, but displays lamentable ignorance of the game laws of the province. As a matter of fact non-resident guides are now prohibited by law from pursuing their vocation in New Brunswick, so it would

MR. LAWSON SCORES THE CHATHAM WORLD.

Tells The Advocate That World
Editor May Go to
Blazes.

WORLD DENOUNCED HIM.

On Monday the Advocate sent the following telegram to Thomas W. Lawson of "Financial Empire": "James Chatham World abuses you. What's the reward?"

Yesterday the Advocate received the following reply: "Editor, Newcastle, N. B., Advocate, The editor of the Chatham World may go to blazes. His reasons are obvious. As all readers of the Advocate are aware Mr. Lawson is the Boston man who is just now waging a relentless warfare against the cause of the native finance. The World declares he is not sincere and calls him a charlatan and a faker."

He is to ask the Legislature to do what it is well known has already done. The members of the present Ontario Legislature, however, they would be in the interest of game protection if the Legislature would go a step further and make it unlawful for non-resident sportsmen to go prowling about our forests during the hunting season without being accompanied by a resident guide. I do not mean to say that a resident sportsman who prefers to follow his own guiding would not guide illegally, but in the excitement of the season might be tempted to do something that he would not do if there were a resident of the province along to keep an eye on him. I have it on the authority of Mr. John Robinson, chief game warden for Northumberland that the proposed change would meet the view of the guides of his section of the province.

It is true that some members of the Guide's Association reside in York county and do their guiding in the county of Northumberland. This is easily accounted for by the fact that the able and most experienced guides of the province—the pioneers in the business, I might say, are members of the association. These include Henry Braithwaite of Fredericton, and Arthur Pringle of Stouffville, who established their camps in Northumberland county many years ago and were, I believe the first white men to take non-resident sportsmen into this county. Many other guides who have since come to the front took their first lessons in the art of moose calling from them. After all the men I have mentioned have done to advertise Northumberland as a game preserve, it is rather late in the day to raise a non-resident cry against them, and I do not believe the resident guides of the county would countenance such a movement.

Messrs. Braithwaite and Pringle are known by reputation to nearly every big game hunter on the continent and the fact that they do their guiding in Northumberland is in itself a great drawing card for the other guides of the county. If the Advocate's informant is as wise as he thinks he is, he should know that there are guides living in Northumberland county at the present time who do their guiding in the county of York. But more than that they hire all the traps and buy their provisions in their own county, but nobody in York has been thin skinned enough to raise a howl against them. I can give the names of the guides if necessary and I can prove to the great majority of sportsmen that these men as well as other Northumberland guides have been directed to men by citizens of Fredericton.

I wish to say in conclusion that the members of the New Brunswick Guide's Association have no quarrel with the guides of the North Shore counties, and would be pleased to have more of them affiliate with the association. Any guide who has the proper equipment and knows the ways of the moose and caribou is eligible for membership, and will find it to his advantage to join the association. The guides in the association handled over four hundred sportsmen last season and there was not a single complaint lodged against them. Surely this is a record to be proud of and a refutation of charges made by the Advocate.

Thanking you for your Mr. Editor, I am,

Yours very truly,
R. P. ALLEN,

Prominent Church Workers Are
Aroused To Action In The
Matter.

MEETING THURSDAY

Endeavor Will Be Made To Form
A Citizen's Reform
League.

For some time past prominent workers of a number of town churches have labored under the impression that the moral tone of this community might be substantially improved. They have held meetings and given the matter every consideration with the result that they decided last week to call a public meeting of citizens for the purpose of organizing a "Citizen's Temperance and Moral Reform League." The meeting will be held in the Temperance Hall on Thursday evening at eight o'clock and will be addressed by clergymen and others. Speaking to a reporter for the Advocate a prominent churchman said yesterday, "I am confident that the formation of this league will accomplish a lot of good. What is wanted is men who will take an active interest in the matter and earnestly endeavor to elevate the moral standing of the community. We want something more than a lot of talk."

HE WRITES HOME.

Former Miramichi Man Writes
a Line From Omaha,
Neb.

I received some of the Union Advocate from my sister in Canada. I take great interest in reading them. I saw some letters from former residents of Miramichi so I thought I would write you a few lines myself.

My father and my uncle were among the early settlers of Miramichi coming there from Scotland in 1817. Shortly after coming there my uncle settled in Douglastown. My father worked in the lumber woods for a number of years finally settling on a farm at Barnaby river.

My uncle was living in Douglastown at the time of the big fire. He often told me of his experiences. He carried a trunk to a potato field for safety but it was burned there. He had some silver dollars in the trunk and he picked them up the next day.

My father saw the illumination up in the lumber woods. My father was afraid that he would find his brother and family burned to death. They escaped alive. My uncle carried two of his children out of the burning house.

There was a lead man in one of the houses and the people left him. All the houses around out the one in which he was were burnt.

I left Miramichi twenty two years ago and went out to Stillwater, Minn. and worked in the lumber woods. Then I came to Chicago and lived there for 15 years. Five years ago I came to Nebraska. I like this place better than any place I have lived in yet. The climate is pleasant and healthful. South Omaha is a great packing house centre. It was affected somewhat by the strike. The union had to call off the strike and work for whatever money the packers would give them. Some of them did not get back at all.

I was pleased to see in the Advocate that our old friend Mr. O'Brien of Nelson is sheriff here now and that Mr. Snowball is Governor. I was sorry to see that the Hon. Peter Mitchell is dead. I think the people should have erected a memorial for him before this. Well I think I will bring this rambling letter to a close with kind wishes to you Mr. Editor and all the good people of the Miramichi.

I am yours truly

REASON NO 5 WHY YOU SHOULD USE Red Rose Tea

Because it is perfectly clean. Wouldn't you like to know that the tea you drink has not been touched by human hand since it was plucked on the plantation?

This is what you get in Red Rose Tea. The old method of rolling and packing tea by hand has been entirely done away with on the tea estates where Red Rose Tea is produced. There, as well as in the blending and packing rooms, machinery—scrupulously clean machinery—is used exclusively.

Red Rose Tea is never touched by hand after being plucked.

This fact alone will help you enjoy drinking it. The Blue Label is recommended.

Coun Flett read the report of the committee to investigate old jail property as follows:—Your committee appointed to investigate the condition of the old jail property beg to report that they have attended to that duty and find the buildings in a very dilapidated condition and would suggest that it be leased for 49 years, at auction, at an upset price of \$65.00 per year. Report was adopted.

Coun Morrison stated that the Sec. Treas. had deposited in the registry office bonds to the amount of \$13.00.

The reporters account, \$40.00 and constables, fees, \$13.50 passed.

The Bye-Law committee submitted a bye-law in reference to ferry rates between Loggieville and Lower Newcastle, changing the rate from 10 cents to 15 cents. Adopted.

Coun Morrison said that the present Sec-Treas. had found a small mean book in which the late Sec-Treas. had kept a record of pocket licenses issued and found therein that Babin, previously referred to, had paid, and he would move that \$25.00 be charged to the Thomson estate to cover this amount. Carried.

Coun Allain from the committee appointed to consider the amount of remuneration to be given the special audit committee begged leave to recommend that they be paid \$30. Carried.

Coun Lewis moved that \$10 be added to this amount to reimburse the auditor for the expense of calling a special session. Carried.

Coun McClellan from committee to deal with petty question recommended that the councilors for their parish appoint a special constable for their respective parishes to act as inspectors for this duty and that the said constable be notified of this particular duty by the Sec-Treas. Such appointment not to interfere with the rights of constables or other persons. Passed.

INDIGESTION AND HEADACHE

MR. DUNCAN McPHERSON, Content, Alta. writes:—"I was for many years troubled with indigestion and headache, and derived no relief from the many remedies I used. A friend advised the use of Dr. Chase's Kidney Liver Pills, and after taking four boxes, the result is that I am once more in the full enjoyment of the blessings of good health."

The account of Arin Hovey, Parish Clerk, Ludlow, passed.

The following constables were appointed to act as police inspectors:—J. W. Clowater, Ludlow; James Duthie, Nelson; John Forsyth, North Esk; Duncan McFavish, Southesk; Prudent O. Savoy, Albert; David Bryanton, Dalry; Chipman Bartlett, Blissfield; J. Poirier, Rogersville; Made Im Watling, Glengyle; Chas Underhill, Blackville; Henry Brabecker, Chatham.

Coun Davidson moved that the business of the July session be transacted by a committee of five: Couns Davidson, Swin, Connors, Poirier and Flett were appointed such committee.

This report was adopted.

On motion of Coun Swin John Mozies was reappointed Scott Act Inspector for the year 1905 at a salary of \$300. Carried.

Coun Anderson moved that \$400 be assessed on the county for Scott Act purposes. Carried.

Coun Campbell moved that the Councilors be paid their mileage and salary. Carried.

On motion of Coun Doyle the following Jail Committee were appointed: Sheriff O'Brien, John Morrison, Coun Flett.

Coun Flett moved that a committee of three be appointed to lease old jail property. Carried. The following were appointed: Watt, Doyle, Flett.

The following Public Wharf Committee were appointed: Coun Doyle, Jas. Falciner, T. W. Crocker.

Coun Anderson moved that the finance committee be authorized to borrow a sum sufficient to carry on the business of the county. Carried. Watt, Davidson and Park were appointed Finance committee.

Coun Davidson moved that bye-law No. 3, sec 2 be amended by adding the following words:—except on Saturday afternoons. Carried.

The Warden was asked to leave the chair and Coun Campbell was appointed chairman.

Coun Connors then in a few well chosen words moved a vote of thanks to Warden Seefield for the very efficient manner in which he had filled the Warden's chair.

Warden Seefield made a suitable reply.

Votes of thanks were also passed to the Sec-Treas. Auditor and reporters after which the council adjourned.

A TREATMENT FOR COUGHS AND COLDS

IS a necessity in every home if consumption and pneumonia are to be ward off. Judged by results, there is no preparation which can rival Dr. Chase's Syrup of Linseed and Turpentine as a claimant for your confidence.

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

is entirely different from ordinary cough mixtures and has a far reaching effect on the whole system which not only brings relief but positive cure for colds and severe throat, bronchial and lung troubles.

Sold by all dealers at 25 cents a bottle. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book, author are on every bottle.

UNCLE TERRY.

(Continued from page 6)

He suspected that he was what he was—a shrewd, smooth, plausible villain. Had he obeyed the first impulse he would have picked up the hat and left Frye to wash his hands with his own soap, and had his case before some other law, but he hesitated. Frye, he knew, had the matter in his hands and might make the claim that his story was false and fight it with all the legal weapons Uncle Terry so much dreaded. In the end he decided to put the matter in Frye's hands and hope for the best.

"I shall want you to send me a detailed story of the wreck, sworn to by yourself and your wife. I will also the articles found on this ship, and I will lay your affidavits before the attorneys for this estate and report progress to you later on."

When Uncle Terry turned his face toward home his pocket was lighter by \$200.

"I suppose I'd get skinned," he muttered to himself after he was well on his way home, "and I reckon I have a lawyer knows a farmer at sight, and when he catches one he takes his lay! He's taken mine for sure, and I begin to think I'm a consarned old fool, that don't know how to go in when it rains! How I'm going to get the warrants to give up them trucks 'bout now! I've lost my senses in one too many for me!"

CHAPTER XV.

THE effect of Albert Page's vigorous efforts to attain success was not lost upon his friend Frank.

After their Christmas visit to Sandgate Albert had applied himself diligently to the care of Mr. Nason's legal needs. This brought him into contact with other business men, and the fact that John Nason employed him easily secured for him other clients. In two months he not only had Mr. Nason's affairs to look after, but all his remaining time was taken up by others. He had spent several evenings at the Nasons' home and found the family a much more agreeable one than Frank had led him to expect. Both that young man's sisters were bright and agreeable young ladies, and though a little affected, they treated him with charming courtesy and extended to him a cordial invitation to have his sister make them a visit.

Since the day he had shaken his fist at the closed door of Mr. Frye's law office Albert had met that hawk nosed lawyer twice and received only a chilling bow. The memory of that contemptible contract he had tacitly allowed Frye to consider as made brought a blush to his face every time he thought of it, but he kept his own counsel. Once or twice he had been on the point of telling Frank the whole story, but had refrained.

In his intimate relations with John Nason he saw enough to satisfy himself that Frye's insinuation against that busy man's character was entirely false. Mr. Nason seldom spent an evening away from his home, and when he did it was to attend the theater with his family.

After their visit to Sandgate Frank and himself naturally drifted into more intimate relations, and a day seldom passed that Frank did not step into his office for a chat.

"Don't mind me, Bert," that uneasy man would say when he saw that Page was busy, "and if you don't want me to talk any time, tell me to shut up. I shan't feel off any. The fact is I don't know what to do with myself. If it were only summer I'd go off on the Gypsy even if I had to go alone."

One evening at the club he made Albert a rather surprising proposition. Albert, who seldom entered into any card games and occasionally played pool or billiards, was in the reading room as usual, enjoying a cigar and the evening paper when Frank drew up a chair and sat down. They were alone, and as Page said his paper aside Frank said:

"Do you know, I am getting absolutely tired and sick of doing nothing. Ever since I left college I've been an idler, and I can't say I'm enjoying it. I arise in the morning and wonder how I can manage to get through the day. I read the papers, go down to the store, up to the club, down to your office, back to the club, and lunch and maybe play pool for an hour or two with some poor devil as homesome as I am or go to the market, and in the evening only do I begin to enjoy myself a little. I am beginning to realize that a life of idleness is a beastly bore, and I am sick of it. I want you to let me come into your office and study law. Will you?"

Albert looked at him a moment, while an amused smile crept over his face.

"Do you know what that means?" he responded at last. "Do you know that to read law means two years perhaps of close application and perseverance? In my case I had the spur of necessity to urge me on, and even with that stimulus it was a long, hard grind. With you, who have no such spur, it would be a life of hell."

Albert looked at him a moment, while an amused smile crept over his face.

The members of Division are requested to meet on Thursday evening at 7 o'clock.

About twenty commercial travellers were storm stayed here on Thursday. They enjoyed themselves at the Miramichi, playing crib, etc.

A man from up river visited a Newcastle drug store on Saturday and asked for a cake of soap. "Scented or unscented?" asked the clerk. "I'll take it with me young man," was the response.

Anslow Bros. were never so rushed with orders in their job department as they are at the present time. Additional hands were taken on this week and others will be taken on in the course of a week or two.

A public temperance meeting was held in Chatham last Wednesday evening and judging by reports it was a dismal failure. Temperance advocates were accused of drinking and some lively personalities were indulged in. Beyond this there was nothing doing.

At the regular meeting of Division No. 5, A. O. H. Nelson, the following officers were installed for ensuing year. Dr. Joseph Hayes, president; Martin English, vice president; Patrick Gorman, financial secretary; Robert McCombs, recording secretary; Michael J. Walsh, treasurer; William Fitzpatrick, Sergeant-at-Arms. The yearly report shows this Division to be in a very flourishing condition.

A petition is being circulated and is being largely signed asking the government to prohibit the sale of moose meat, as it is feared a complete extermination of this noble animal may be the result of the laxity of the law, says the New Glasgow Chronicle. Our suggestion would have been a close season for a period of say about three years or at least add to the prohibition of the meat also the sale of the heads.

The St. John New Freeman very wisely argues that on one session day the public schools should close at 12 instead of 1 o'clock. As the Freeman observes—"It is impossible for mothers or housekeepers to know in advance when there is to be a one session day in the schools. That being so, what is to prevent the school trustees having the schools dismissed at the regular dinner hour on the one session days?"

A quiet wedding took place in the St. John's Manse, Chatham, on Wednesday evening the 25th inst. the contracting parties being Mr. Alfred James Bell of Derby, the popular representative of the Lounsbury Co. on the upper Miramichi, and Miss Villa daughter of Mr. William Allison of Whiteville. The ceremony was performed by the Rev. J. M. McLean. The young couple left the following morning for a ten days trip to Portland, Boston and other points in the New England States.

W. C. Paver, secretary of the I. C. R. employees relief and insurance association, submits the following report: There were two deaths during the month ended Jan. 25th, Jas. G. Cormier, Moncton, and Wm. Lachey, Campbellton; insurance in each case, \$2.50. Fees and levies for the month ending Jan. 31st are, Class A, \$1.40, Class B, 90 cents, Class C, 65 cents. In addition to the deaths above reported, two members, temporary employees, in accident fund died during the month, their deaths resulting from injuries received, viz., Amos Lirette, Moncton, and David Christie, Truro.

A short time ago a Derby lady—strictly speaking a Byranton lady—took a trip to Boston. On her return she filled the custom of most provincial women and concealed some detestable articles about her person. The articles which this lady brought with her happened to be two bottles of wine. The inspector searched her trunk and (grasping very roughly) failed to bring anything to light. If he had searched where the lady suggested he would have found something. United States Customs Inspectors are easily fooled.

ROYAL HOUSEHOLD FLOUR

EQUALLY GOOD FOR BREAD & PASTRY

At the session of the Farmers Parliament in Fredericton last week Mr. F. H. Russell was appointed to represent Northumberland on the nominating committee.

The firemen were called out about 10 o'clock Monday evening for a slight fire in one of Mrs. Watt's houses near the station. The blaze was extinguished before much damage was done.

The County Court adjourned on Thursday last to yesterday. The case of Parker vs. Bouty is still occupying the attention of the court. Later—Mr. Parker was awarded a verdict.

Mr. A. E. G. McKenzie, the late principal of the Harkins Academy wishes to thank the pupils of that institution for the gift presented by them on the eve of his departure.

Monday evening was missionary night with St. James' Guild. Very interesting papers were read by Mrs. Hubbard, Mrs. James Stables, Mrs. Henry Ingram and Miss Fleming. The membership is steadily increasing.

The Advocate regrets to announce the death of Miss Charlotte McMurdo of Newcastle. She was one of the oldest residents of Newcastle and much beloved by all who knew her. Her death came unexpectedly for she had scarcely been ill a day.

Thos. Malcolm, of Campbellton, the railroad contractor, who is at the Royal, says that in ten days the bridge over the Upsalquitch river will be completed. On the Restigouche and Western, which railway he is building, work will be resumed in the spring. Twenty miles of rails have been laid.—Sun.

Events says: A young man who had been working in the woods at Norville, was brought to the Hotel Dieu Hospital last week, suffering from peritonitis, resulting from an attack of appendicitis. He died on Tuesday. He was a native of Albert Co., Klover by name. His father was sent for and was present at the time of his death.

Mr. John L. Schofield of Arizona writes as follows:—Gentlemen you will find enclosed \$1.00 for renewal of my subscription to Advocate which expired in September. I think it is now nearly 21 years since I left North. but I feel an interest in everything that transpires there and every issue of the paper is as welcome as a letter from home.

Prof. Morris and troupe are playing at the Temperance Hall. To night is their last night. They put on a good clean, attractive show, with lots of fun and are deserving of good houses. Mrs. Morris, the strong woman, surprises the audience. She takes a No. 4 horse shoe and twists it into a figure 8. She also breaks a bar of heavy iron across her nose. Be sure and see this. Admission 25c. and 35c.

A special coming east yesterday morning in charge of Conductor Rogers with driver Thomas on the engine was wrecked 200 yards east of Indian Brook Bridge midway between Salmon Lake and Amqui, says the Campbellton Events. The whole train was derailed and the cars were badly smashed but the freight in the cars was not damaged to any great extent. The wreck is supposed to have been caused by a broken rail.

The many friends of Mrs. Bridget Keating learned with regret of her death which took place at her home here on Tuesday morning last after an illness of one week. Deceased was an aged and respected lady and will be greatly missed by both young and old in this community. Two daughters and four sons all residing in Newcastle are left to mourn the loss of a faithful and loving mother. The funeral from her late residence on Friday afternoon was largely attended; interment being in St. Mary's Cemetery.

John L. Schofield, formerly of Pinos Altos in this county, and who is one of the best known mining men in the southwest, is now superintendent of the properties of the "Coronado Copper Mining Co." near Metcalf, Arizona. Under his able management this valuable property, consisting of 29 claims, is being rapidly developed. Large bodies of ore are being blocked out and everything indicates that it will soon take no mean rank amongst the large copper producers of that country Silver City New Mexico, Enterprise. The Schofield above mentioned is a brother of Warden D. G. Schofield of Blackville and represented that parish in the Council for a number of years. He left here in Feb 1884 and for the last ten years has been prominent in mining circles in South Dakota, New Mexico, Arizona and Old Mexico.

During February make up your mind the only RUBBERS you will wear, will be the "MALTESE CROSS" BRAND. Nothing equals them for Fit, STYLE or WEAR.

Social Personal

L. B. McMurdo wishes to announce that his men and boys suits for spring and summer wear, have just come in and are open for inspection.

POLITICAL CHANGES

St. John Freeman Has Something to Say Which Sounds Significant.

A Chatham correspondent of the St. John New Freeman, whom the Advocate has every reason to believe knows whereof he speaks writes as follows:—

"The New Freeman is to be congratulated upon its advance information respecting the provincial government's lumber policy. Such a policy has been understood in strictly inner circles for some little time past, but it was not intended that the information should be given to the public much, if any at all, in advance of the opening of the Legislative Assembly. It is whispered here that if Premier Tweedie should be appointed to a Dominion office, Hon. John P. Burchill will be made surveyor-general. The bulk of the crown lands being in the northern part of the province, it would not be surprising if the lumbermen insist that a North Shore man shall hold the office of surveyor general. It is even estimated that in case Premier Tweedie does not accept a Dominion government appointment he may again take the office of surveyor general and ask the legislature to vote him an additional allowance as premier. In that case, the man most likely to be offered the position of provincial secretary would be Mr. George Robertson, representing the city of St. John."

MARRIED.

THE STRENGTH MAKERS

After sickness or when run down from hard work there is need of a reliable strength maker. The three agents highly beneficial are Beef, Iron and Wine.

Beef is the great common nourishment of mankind. Beef Extract is readily assimilated and carries strength to all parts.

Iron is the important element of blood and bone. It is always lacking in quantity and quality in all cases of weakness and exhaustion. It is the fundamental strengthener.

Wine in medicinal doses is a tonic to the weary organs, reviving strength and encouraging to new efforts.

Our splendid combination of Beef, Iron and Wine is needed by those who need a TRUE STRENGTHENER. **Price 50 and 75 cents.**
