CHURCHMEN TALK SOCIALISM

England's Wonderful Economic Movement Discussed by Pan-Anglican Congress

POWERLESS TO PREVENT IT

Bishop of Birmingham Blames the Church for so Long Failing to Assist the Oppressed

London, June 22.—Highly significant of present-day sociological thought was today's principal session of the Pan-Anglican Congress here, when the largest gathering yet assembled to hear the message of the Church to Socialism. One hundred and fifty archbishops and bishops and a multitude of minor clergy and an assemblage of laymen and laywomen outnumbering any hitherto gathered crowded Albert Hall. The Bishop of Birmingham, who was scheduled to preside, was absent owing to illness. He sent a paper, which was read by his substitute, the keynote of which was the injustice of the existing division of the profits on industry. After contrasting the grinding poverty of the workers with the extravagant luxury of the idle rich, he demanded a tremendous act of penitence for having failed so long and so greatly to champion the cause of the oppressed and weak, penitence to be followed by reparation in the well-merited judgment of God took all weapons of social influence out of our hands.

There followed a series of eloquent addresses, the first of which was from Mr. McBee, of New York. All the speakers except one displayed a Socialistic tendency, basing their vast audience that all over the north of England they were face to face with a rising tide of Socialism, which they were powerless to stem, even if they wished to do so. Countless workers in the forges, furnaces and mills of the North had adopted the Socialistic idea and held to it like a religion and like a life. He demanded that the Church give a free field to Socialism. He appealed to it to try to understand it and not to hasten to discount it.

More significant than the speeches themselves was the keen interest shown in the Socialistic pleas and the earnest enthusiasm with which such points as those above referred to were greeted from all parts of the hall.

OBITUARY

PATRICK CASEY.

Mr. Patrick Casey, a highly respected resident of Chelmsford, died at his home Tuesday afternoon, 29th ult., in his 64th year. Deceased was a native of the Miranichi, and is survived by a wife and three children, William, Mary and John. He was in Seattle. He also leaves five brothers, John, William, James and Michael of Barnaby River, and Jerry, of Chelmsford, and four sisters, Mrs. James Harrigan, Chelmsford, Mrs. Daniel Sullivan, Mrs. John Sullivan, and Mrs. James Regan, Barnaby River. N. B. TEACHERS' INSTITUTE.

Over 500 Teachers Enrol at Annual Meeting in Fredericton Last Week.

C. P. R. ROASTED

Teachers' Pensions Endorsed by Surveyor-General and by the Teachers.

The N. B. Teachers' Institute was in session in Fredericton from June 25th to 27th.

Over 500 teachers enrolled, it being the most largely attended provincial institute ever held. The greater part of Thursday morning's session was taken up with an excellent address by Dr. J. R. Inch, R. Ernest Estabrooks of Woodstock, one of the leading members of the N. B. Teachers' Union, moved a resolution expressing the dissatisfaction and disapproval which the teachers assembled felt towards the C. P. R. for the accommodation which they had provided for the lady teachers who attended the institute. Mr. Estabrooks, Professor Bridges of St. John, who seconded the motion, and several others "roasted" the C. P. R. for its treatment of the teachers. Dr. Creed tried to bring the C. P. R. into the resolution, but Principal McIntosh, of Blackville, and several others defended the latter road and it was not carried in the resolution. The motion carried unanimously, and before the session's close bore fruit, as the C. P. R. management arranged for better accommodation for the teachers on their return.

At the public meeting Thursday evening addresses were delivered by Mayor Chesnut, Hon. W. C. H. Grimmer, Hon. H. F. MacLeod and Prof. Locke.

M. Grimmer strongly advocated manual training and domestic science in schools. He also expressed himself as in favor of longer summer holidays for teachers and the introduction of a liberal system of old-age pensions for teachers.

Hon. Mr. MacLeod spoke in favor of increased salaries for teachers. Friday afternoon, Rev. J. R. Inch, President of Woodstock, spoke on Moral Training in Our Public Schools, advocating a non-sectarian system of religious instruction.

TEACHERS' UNION.

On the evening of the 26th an executive meeting of the N. B. Teachers' Association was held, Pres. W. M. MacLean presiding. H. H. Stuart resigned the office of Secretary treasurer which he had held for five years, and was succeeded by R. Ernest Estabrooks of Woodstock. It was decided that the executive with power to add to their numbers, should be a committee to revise the constitution during next term.

At Saturday morning's session of the Teachers' Institute, Mr. W. J. S. Myles, principal of the St. John High School, moved a resolution in favor of granting pensions to teachers. He spoke eloquently in support of the resolution and discussed the different schemes for providing pensions and annuities in vogue in other countries. He said that in Germany and France the state provided the pension, and that was the plan he favored for New Brunswick. If this plan was put in operation now the cost at the end of ten years would not exceed \$12,000 annually. Thirty years service on the part of the teacher might reasonably be demanded by the state and public. An old age limit might be established allowing lady teachers to retire at fifty-five and male teachers at sixty. He told of a delegation of which he was a member, waiting up on the old government prior to the election. They presented the scheme fully to the executive and three weeks later received a communication from the Attorney General promising that asked for legislation would be introduced at the next session. After the change of government, the matter was laid before Premier Hazen, and he expressed himself as being in hearty sympathy with it. A pension had been given that the matter would be dealt with at the next session of the legislature.

The resolution recommended that male teachers of sixty years of age and female teachers of 55, after thirty years service, be allowed to retire on a pension. Also that a pension be allowed teachers of twenty years service who have become incapacitated from illness. It was strongly recommended that the government at the next session pass an act providing a pension for teachers. My Myles in reply to a question by Miss Ella Thorne, a veteran teacher, said that to avoid discussion, the amount of the pension was not stated in the resolution. It had been suggested, however, that lady teachers should have \$250 and male teachers \$400 per year.

The resolution passed unanimously. The following were elected on the Executive for the coming two years: Dr. H. S. Bridges, St. John. A. B. Maggs, Moncton. Principal Foster, Fredericton. H. H. Hagerman, Fredericton. C. D. Richards, Woodstock. Miss Davis, Moncton. John B. Delong, Miltown. H. G. Perry, Hampton. Miss Thorne, Fredericton. Miss Phoebe Robertson, Hamilton. Inspector Steeves read a well considered paper on "A Course of Instruction for Rural Schools."

WARNED IN NICK OF TIME.

Aged And Blind Indian Receives Mysterious Warning That Saved His Life

JUST AVOIDED BOLT

Lightning Tore Hole In Floor Beneath where He Had Been Sitting

A wonderful occurrence, which our readers may interpret as they please, is reported from Eel Ground. Lemuel Renous, an aged and partially blind Indian of that reserve returned to his home from Newcastle shortly after eight o'clock Monday night. While eating his supper, he was suddenly seized with a mysterious and unaccountable fear that impelled him to leave the house and seek shelter elsewhere. The thunder storm had not yet commenced. Just as he left the house, lightning struck it shivering the chimney. This confirmed him in his decision not to return that night. Early Tuesday morning he reentered his house, and found the chimney and stovepipe demolished, the stove thrown over on its side, and a good sized hole through the floor right under where he had sat immediately before rising to leave the house the night before.

THE WHITE MAN'S BURDEN.

Brown Men of Sumatra Struggle Object to Civilization

THE HAGUE Thursday.—A rebellion broke out at Padang on the west coast of Sumatra, which has reached alarming proportions. According to telegrams from Batavia, Java, almost the whole native population is reported to have risen under the leadership of fanatical priests.

There are thirty European settlements, which are spread over a wide area, and only 2400 Dutch soldiers available to defend them. Three battles have been fought resulting in considerable loss on both sides.

Preparations are being made to embark all the Dutch women and children from the west coast of Sumatra to places of safety. The dissatisfaction arose over the tax regulations.

THE SHAH ROUTS PARLIAMENT

Persian Ruler Hands Over His Capital to the Russian Soldiers.

LONDON, Saturday.—The Times Tehran correspondent says that the Shah's proclamation declares Persia to have been under martial law from June 22nd, and that it gives General Liakhoff commander of the Cossacks, a free hand to deal severely with the people. The assembling of the people and the carrying of arms is prohibited on pain of death. Several members of the assembly are in chains in the royal camp. The others are scattered and their whereabouts are unknown. The number of prisoners in the camp is increasing hourly. Those detained are being subjected to the worst of ordeals. Messages from the provinces are being censored, thus severing the provinces from communication with the capital. It is difficult to pass judgment as yet, the Times correspondent adds, but undoubtedly the popular feeling that what is regarded here as the inactivity of Great Britain and the activity of Russia probably will restore the Shah's autocracy. The correspondent also says that it is reported from Tabriz that the governor of that city has taken refuge in the Russian consulate there.

UNINJURED BY JUMP

MONTREAL, Friday.—An Englishman named Roe jumped from a train near Mattawa yesterday while the train was going forty miles an hour. He was being brought back East for the purpose of being deported but preferred to remain. He was uninjured when captured.

Mr. Bernard McCullam of Newcastle and Miss Emma Burke of Nelson were married at St. Patrick's church by Rev. Father Powers, on Tuesday 29th ult. They were attended by James Murphy Newcastle and Miss Ethel Gorman of Nelson.

THE DAY OF THE CELEBRATION

Town in Gala Attire to Welcome Its Visitors and Give Them Good Time

THE PROGRAM.

Monster Parade, Good Speeches. Interesting Afternoon of Sports Brilliant Evening Assured

Dominion Day, 1908, will be a day long remembered in the annals of Newcastle and the Miranichi. The celebration bids fair to be a very successful one.

The town is in gala attire. The public square, the stores and public buildings, and the houses and streets in general are in excellent order. Everybody trying to have his premises neater than his neighbors.

The route of procession will be as follows:—

Starting from Farrell Field at 10:30 the course will be down Prince William Street to Pleasant, from Harkin's Academy the school children heading the march; along Pleasant to Falconer, the school children falling out at Public Square and remaining there; up Falconer to New Highway, down New Highway to Thomas, down Thomas to Pleasant, along Pleasant to Jane, along Jane to McCullam, along McCullam to Henry and Castle Streets, along Henry and Castle to Public Square, where the school children will sing, and addresses be given by the Lieutenant Governor, Hon. D. Morrison, Hon. J. Morrissey and others.

In the parade will be the two Newcastle bands, the Citizens' and St. Michael's bands from Chatham, and probably one from Campbellton.

The Newcastle turnout will be magnificent. Ritchie's mill men, under Capt. Wm. Condon, will have a fishing smack in the parade. There will be an Indian wigwam from Eel Ground a logging camp from Bridge-town and beautiful and original floats from most of Newcastle's business firms.

The Newcastle and Chatham fire brigades will be out in full strength. A. & R. Loggie, W. S. Loggie Co., and many other Chatham firms, will be represented. The Chatham Pulp Mill will be down for the day.

AFTERNOON.

At 2 o'clock sharp the following sports will commence in the Farrell field:—

Tugs-of-War, open to teams of the county.
Quoit Match, Chatham vs Newcastle.
Molasses Eating Contest.
Pole Vault.
Greasy Pole Contest.
Putting the Shot.
Baseball, Chatham vs. Newcastle.
Long distance running race, open to all.

Fat Women's Race.
Potato Race for boys only.
Run and broad jump.
Hop, step and jump.
Hurdle and Bay Races, open to girls, boys, ladies and gentlemen.
100 yards dash.
220 yards dash.
440 yards dash.

Prizes will be awarded for all the different contests, and for the most original float and handsomest display in the parade, also for the best decorated day's or girl's bicycle.

EVENING.

The sports may be continued in the evening.

Procession of steamboats and yachts on the harbor starting at 7:30; terminating at 8:15 off public wharf with a display of fireworks from the different boats.

Display of fireworks in the public square at 8:30.
The day's programme will terminate with a Social Banquet in the Opera House. McClellan's orchestra in attendance.

COMMONS AT WORK

OTTAWA, Friday.—The Commons had a day of pure law making and splendid progress was made in land bills of the Interior Department. Both sides were working to make the law enlarge homesteading and preemption rights of the west thoroughly workable. The Bill is a very large one and will be taken up again Monday.

Take little cups heads or vases or pictures taken with a No. 2 Brownie camera; mix plaster paris with cold water to form a paste; next take small oval platter, wet the platter with cold water and pour out, then put the picture face down on wet platter in the centre, then put the plaster paris in very smooth; have two little brass rings with a loop of tape through each lay the ends into paste and cover, leaving a little loop of tape and the rings free to hang the plaque on the wall. It will harden in a very short time and slips out of platter easy. It should be very smooth. If done right you have a very pretty picture.

I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by All Dealers.

COFFEE CAKE.—Put two or three tablespoonfuls of strong black coffee into a pint of thick cream, add three tablespoonfuls of sugar and whip stiff. Put split lady fingers cut in bits in the bottom of a glass dish, and add the cream or have small cups with the lady fingers and pile the cream on top.

ORANGE CREAM.—Make a boiled custard with thin cream instead of milk adding a small pinch of salt and use five eggs, when partly thick put in the strained juice of three oranges in the strained juice of three oranges, and the grated rind of one serve as before, either in one dish with whipped cream or in cups. This is especially good with lady fingers under it.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablets—coaxes blood pressure away from pain centers, in effect charming, pleasantly delightful, gently, though safely, it surely equalizes the blood circulation.

ANNUAL CLOSING AT CONVENT.

Excellent Musical, Literary and Elocutionary Program Presented by Pupils

THE PRIZE WINNERS

Appreciative Addresses by Mayor Miller and Several Clergymen.

The closing exercises of St. Mary's convent took place Wednesday evening at 7.30. The convent hall where the exercises were carried out were prettily decorated with potted plants, ferns and cut flowers. The maple leaf had also a place among the decorations. The hall was completely filled with parents and friends of the pupils and a deep interest was manifested in the proceedings. The young graduates wore their class colors, violet and white, and their class flower the violet. The class essay, "The Essentials of Life," read by Miss Stella Gillen, daughter of Mr. John Gillen, Moncton, was well rendered, and the pronunciation was perfect. Miss Gillen is a very pleasing reader and she charmed her auditors. Miss Katie Donovan, in her rendition of "The Famine," from Hiawatha, upheld that young lady's previous record as an elocutionist. After the program was carried out, Rev. P. W. Dixon, in a few words, called on Mayor Miller to address the audience. Although this invitation came unexpectedly the mayor made a very pleasant speech along the lines of education, and paid a high compliment to the teaching staff of St. Mary's convent. Rev. Fathers O'Leary and Murdoch also addressed the audience. Each speaker was warmly applauded. Mr. M. Bannou occupied a seat with the clergy. The following is the program:

A FAITHFUL OFFICER'S REWARD

What John Robinson, Jr., has Received in Return for Doing His Duty.

WARNING TO OTHERS

The Hazen Government is no Improvement on Predecessors.

(From the Chatham World.)

The officers of Chief Game Commissioner Knight, who did nothing for \$900 a year, and Chief Game Warden Robinson, who worked energetically and intelligently for \$1200 a year, have been abolished, and the province is to be divided into four districts, each of them to have a warden at, we hear, \$800 a year. This will cost more for salaries, and will probably be a better system than the old one, as the whole province is too large a district for one man to look after. Only an official of Mr. Robinson's tireless energy and devotion to duty would have made the old system efficient.

And now Mr. Robinson is rewarded for having done his duty so well by being legislated out of office at the demand of men who have been prosecuted and punished by him for violating the laws. This is precisely how it stands. Two of the county members were gained by these surreptitious, and the other two, while appreciating Mr. Robinson's good work in office, didn't have backbone enough to stand by their convictions and refuse their assent to his being slaughtered. The Surveyor General has written a highly appreciative letter to Mr. Robinson, and it is an open secret that he would have refused to part with so faithful and successful an official if the two Northumberland members to whom we refer had stood by their convictions and refused to sanction his removal.

Mr. Robinson's experience as an official is not likely to encourage others to do their duty. He was dismissed by the Liberals in 1898, from the office of Fishery Warden, because he was prosecuting Liberals as well as Conservatives for violating the law, and now he has a similar experience. Other officials will take warning by his experience, go slow, and refuse not to prosecute offenders with a political pull.

The Government will lose prestige in the province by this sacrifice of an official of exceptional efficiency, and the county members will not gain by it.

WOULD-YOU-LIKE-TO-READ-THE-STORY OF THE FURNACE?

- Just how correct principles say it should be constructed?
- Just why no other plan of construction will do?
- Just wherein lies its ability to be easy on fuel, quick in action, simple in operation?

The story is briefly told in a little booklet called "Furnace Facts." It's not an advertisement. No furnace name is mentioned, and you can read the whole story in 5 minutes.

To the party contemplating purchasing a furnace it points out the snags and pitfalls, and shows exactly what to demand of an architect, contractor or dealer, in furnace construction and installation.

NORTHUMBERLAND TEACHER'S LONG SERVICE.

Rev. Sister M. Beatrice is receiving

congratulations from the completion

of her forty-one years as a faithful

and energetic teacher in the public

schools. Forty-one years Sister

Beatrice has labored in the midst

of little ones moulding their charac-

ters into ideals of true womanhood

and her energetic efforts and fine

example will ever be imprinted upon

the minds of all who have been her

pupils.

Rev. Sister Beatrice succeeded Rev.

Sister Thomas, now superioress of the

Order of the Sisters of Charity, as

principal of St. Joseph's school, and

on Tuesday the children of the

institution presented her with a

beautiful bouquet of roses, a token

of appreciation, and a companion

by a purse of gold, as a token of

her appreciation.

Rev. Sister Beatrice now succeeds

the late Rev. Sr. Urban as Mother

Superioress of the Mater Misericordiae

Home and her new duties necessitated

her severing her connection with the

school staff.

Sister Beatrice was known in the

world as Miss Burchill, and comes

from Northumberland Co.—St. John

INVESTIGATIONS RE CENTRAL RAILWAY

FREDERICTON, Thursday.—The

Central railway commissioners this

afternoon examined Deputy Receiver

Babbitt as to the subsidies paid. Evid-

ence showed altogether \$224,000 was

paid. Of this amount \$147,000, with

the exception of \$20,000 paid to Thomp-

son & Sons, was paid to Dr. D. C.

Bertram, New York, manager of the

company that had the contract of con-

struction. Of the other \$77,000, \$32,-

500 was paid in 1903 to the New

Brunswick railway company, which

had taken over the Central Railway.

The money realized on bonds sold to

the Eastern Trust Company, and pro-

ceeds with the exception of \$12,000 was

handed to Geo. W. Allen, Secretary of

the company. The \$12,000 paid the

People's Bank was for advances made

in 1902. The balance of \$44,500 realized

mostly from bonds sold to the Royal

Trust company and the proceeds went

to meet the advances previously made

by the different banks.

Tomorrow the investigation will take

up money paid under bonds guaranteed

by the province.

To Keep Butter Sweet.

In the summer time when butter

is plentiful melt down all you do not

need and pour into fruit jars. When

cold put a thin layer of salt on top.

When winter comes take your butter

out of jars, work in the desired quan-

ORANGE JUICE AND HEALTH

For Stomach and Skin.

Few of us realize what an important

part the skin plays in keeping us well

or making us ill.

The millions of tiny glands, or

pores, are intended to rid the system

of waste matter, which the blood

brings to the skin. It is a well-known

medical fact that the healthy skin

carries off more Urea or waste matter

than the kidneys. Just think how

much poison remains in the system

when there is any skin trouble.

The skin and stomach are intima-

tely associated. Find a person with a

dry, harsh skin and you will find one

who suffers with indigestion or con-

stipation, and both, usually.

Both may be relieved by a judicious

use of orange juice. Both can be

cured by taking the juice of an

orange every morning before break-

fast, and taking "Fruit-a-tives" at

night. "Fruit-a-tives" are fruit juices

in tablet form. The fresh juices of

oranges, apples, figs and prunes are

separated from the pulp, and then

combined in such a way that the me-

dicinal action is intensified.

Orange juice alone will not cure

Skin, Stomach or Bowel troubles. But

when taken in connection with "Fruit-

a-tives," a positive cure results.

"Fruit-a-tives" may be obtained at

all dealers or will be sent on receipt

of price—50c a box—6 for \$2.50.

"Fruit-a-tives" Limited, Ottawa.

For years it has been the custom

with circuses to make one act a

feature, advertise it as a drawing card,

and then surround it with cheap and

inferior acts. This is not the plan of

the Great Cole Brothers Show, which

will be at Newcastle on Thursday,

July 9.

They feature no particular acts, for

with this show every act is a feature

and any one of these acts would be a

strongly advertised feature with other

shows. What with another show

would be a head liner is but an ordi-

nary act with the Great Cole Brothers'

Shows. When the show was organ-

ized for the present season the Cole

Brothers gave their agent carte

blanche orders in securing the cream

of the circus talent, and that they

were satisfied to make evident by the

assemblage of the world's star artists

with this show. European and Amer-

ican talent contributed the leaders of

acrobats, riders, gymnasts, acro-

bats, contortionists, jugglers, tumblers,

droll and funny clowns, trained ani-

mals and in fact, all that goes to

make up a circus of such exten-

sive and stupendous magnitude as

the great Cole Brothers' show. While

many shows boast of strong European

attractions, and try to convince the

audience that they are the best, this

is the proper form the Cole Brothers

differ with them. America has always

been famous for its star performers

and best acts and leading performers

of American origin.

BATHURST HAPPENINGS

BATHURST, Thursday.—Mrs. R. G.

Duncan and little daughter Marjorie

are visiting friends in Richibucto.

Arthur Miller left on Wednesday

morning for the west. He intends go-

ing as far as Calgary, where he will

attend the Dominion exhibition and it

pleased with that section of the coun-

try will locate there. If not he will

continue west into the Okanagan Val-

ley and possibly to the coast.

A. J. H. Stewart and L. A. Palmer

drove up from Caraquet yesterday.

Principal F. A. Olson left this morn-

ing for Fredericton to attend the in-

stitute there.

The Grammar school closed yester-

day and the teachers and children are

once more at liberty for a couple or

more days.

NEWCASTLE, JULY 1st, 1908.

A VERY SERIOUS MISTAKE.

In our report of Town Council meeting in last week's Union Advocate, we quoted Mayor Miller as saying that "He had warned Miss Irving before she started that Miss Lawrie had already done the work, and that therefore she was proceeding on her own responsibility." To have been exactly correct, we should have said that he had warned her through the town clerk. His Worship, it appears, warned her, sure enough, but indirectly through Mr. Lindon. We considered that, as long as Miss Irving actually received the Mayor's notice, our report was sufficiently complete; but in future we shall endeavor to take verbal statements that may be controversial.

THE GOVERNMENT'S LIQUOR POLICY.

Hon. J. K. Flemming, Provincial Secretary, informs us that the petition in favor of having the Government submit to the electorate before next session of Assembly the question of provincial prohibition of the traffic in alcoholic beverages, which was forwarded to him month before last by the Kent-Northumberland District Division Sons of Temperance, was received and by him submitted to the Executive Council. The latter, who had previously determined not to introduce at their first session any amendments to the Liquor Laws, decided to carefully consider the representations of the Temperance people, "when the Government are dealing with this question."

The Government, it appears, "is anxious to promote such changes in our laws as will increase sobriety and lessen the evil of intemperance." They are endeavoring to get a better observance of our license law where it is now in force.

As the Opposition offer nothing in the way of prohibitory legislation, both parties evidently think that the Prohibitionist sentiment of New Brunswick can be safely ignored, and perhaps they are right.

WILL THEY MAKE IT PAY?

Some months ago the Standard Oil Company was fined \$29,240,000 in an Ohio court by Judge Landis. Ohio is a Republican State; the supreme court judges are, wholly, or for most part, Republican appointees; and Theodore Roosevelt, the Republican leader and mighty talker against Trusts, is president of the United States and commander-in-chief of its army and navy. But the fine imposed by Judge Landis has not been collected. New York school children may faint from hunger, and men and women starve in every large city of the Union, but the Standard Oil Company's Savings have as yet been left inviolate.

The state of Texas has however, set out to actually collect the judgments aggregating \$6,016,250 imposed upon the Standard Oil people in its territories. Upon evidence that these companies are partly, if not entirely owned by the Standard, the state, last week, seized property and garnished funds of the Waters-Pierce Oil Company, the Security Oil Company, and the Navarro Refining Company. It appears that the Waters-Pierce Company is owned by the Standard, and that the other three are members of the Trust. The State has also issued writs against the Santa Fe, the Southern Pacific, and the Missouri, Kansas and Texas railroads for sums amounting to nearly \$300,000, they owe the Standard Oil Company. To seize property and hold it are two different things. The Standard will undoubtedly appeal to the federal courts, and we shall see what reliance

is to be placed in Roosevelt's fine phrases in behalf of law and order, now that the biggest and strongest corporation of modern times is on trial.

THE ANGLICAN CHURCH AND SOCIALISM.

The Pan-Anglican congress met at London from the 10th to the 24th ultimo. About 8,000 delegates, representing all countries where the English language is spoken and to which English speaking missionaries have penetrated, were present. It was no mere holiday gathering come together for purposes of pleasure or mutual admiration; but on the program were the weightiest and most timely questions now agitating the minds of men. Among the subjects for discussion were:

The Sanctity of Marriage.
The Drink Traffic.
Gambling.
Luxury.
Companies and Dividends.
The Unemployed.
Monopolies and Trusts.
The Duty of the Clergy to Social Reform.
Christian Science.
Dramatic Literature.
Journalism.
Ministry and Laymen.
Reality and Inspiration.
Christianity and Socialism.

The discussion on Socialism took place on the 22nd, and, according to the Associated Press dispatches, drew the largest audience of any session of the Congress, being attended by one hundred and fifty Archbishops and bishops, a multitude of minor clergy, and a vast assemblage of laymen and laywomen. Of greater significance than that the discussion on Socialism excited more interest than any other question at the Congress, is the cable message that of all the many speakers only one displayed an anti-Socialistic tendency. The many who supported Socialism based their arguments upon the character and teachings of Christianity and the brotherhood of humanity. The advocacy of the abolition of the wage-earning system, all labor to be employed and recompensed by the State, showed that some at least of the speakers fully understood whither the espousal of the Socialist theory would carry them and were prepared to accept full responsibility therefor.

Principal Simpson's statement that the church was now powerless to stem the tide of Socialism in England even if it wished to do so, shows that the political faith which, within the last few years, has taken such hold in every county of Northern, Central and Western Europe, is firmly entrenched in Great Britain, where it may soon become dominant.

The Socialist party, which controls fifty per cent. of the votes (but not of the votes) of Belgium; forty-five per cent. of the votes of Finland; thirty per cent. of Germany and Austria; twenty of Italy; fifteen of France; and was supported by thirty-six per cent. of the indirectly elected deputies of the second parliament of the Russian Empire, made until the elections of 1906 very little noticeable progress in Britain, but in 1908 the British Labor party, which is led and directed by Socialists, increased its representation in the House of Commons from 3 to 30. The winning of two bye-elections brought the number up to 32; and the recent decision of the Trade Union group, by a vote of 16 to 8, to ally themselves with the Labor Party brings up the voting strength of the latter in the British Parliament to at least 48. The sympathetic utterances of such an influential religious body as the Pan-Anglican Congress, will, by removing the doubts of many who have held aloof from the Socialist movement because they imagined it was anti-Christian and irreligious, still further strengthen the new party.

SERIOUS WRECK ON THE LEIGH VALLEY RAILROAD

Engineer Was Killed and Several of the Passengers Injured

HAZELTON, Pa., Saturday.—A Pennsylvania passenger train which left Pottsville at 5.30 a. m., for Nesquehanna, Pa., was wrecked at Lofty on the mountains near here at 6.30 a. m., today and the engineer is reported to have been killed and several of the passengers hurt. The engineer is under the wreck engine. The accident occurred on the tracks of the Lehigh Valley R. R., which road is used for some distance between Delano and Hazelton.

Tribute of Respect for Ex-President Cleveland Who Died on 24th Ultimo

HALIFAX, Thursday.—The United States department at Washington, has directed that flags on all consulate buildings throughout the world shall be half-masted for a period of thirty days as a mark of national respect to ex-President Cleveland, whose death occurred on Wednesday.

U. S. Consul Wilbur of Halifax, was notified by telegraph today of this order and was instructed to inform the consulates in New Brunswick, Prince Edward Island, Newfoundland and St. Pierre.

CANADA AND U. S. FRIENDS

DULUTH, Minn., Thursday.—James Bryce, ambassador of Great Britain in the United States, in a speech at the Commercial Club banquet given in his honor said, "Canada and the United States are destined by the Almighty to be friends. You have many settlers in the United States from Canada, and in Canada we have many from the United States. It is my privilege to try to prevent any misunderstanding or friction between Canada and the United States. No British ambassador could have more respect and confidence than I in that great and brilliant man, Mr. Roosevelt, who is honored and esteemed in Great Britain; as he is honored and esteemed here. During the last four months four treaties have been signed that are destined to overcome difficulties that may hereafter arise between the United States and Canada. These are proofs of the cordial relations that exist between these countries."

LEPROSY IS [REPORTED CURED]

NEW ORLEANS, Thursday.—A remarkable medical report touching the cure of leprosy will be presented to the Louisiana assembly probably this week by the leper home of the State of Louisiana. In this report appear the words:

"Discharged cured—One. Practically well and kept for observation—Five."

Briefly explained, the meaning of these figures is that out of sixty-one lepers at the Louisiana institution in the last two years six have been practically cured. The figures are from the biennial report of the leper home. The lepers have the same sanitary surroundings that the average person enjoys and an equal opportunity to receive first-class medical treatment. Instead of being isolated, the institution faces the public highway along the Mississippi River levee in Iberville Parish. A small Catholic church completes the plant. For thirteen years four to six sisters of charity, practically alone, have cared for all the wants of the lepers. None of these sisters ever has become infected with the disease. The ages of the patients range from seven to eighty.

BATHURST

BATHURST Friday.—A large two-seated motor car consigned to Mr. T. D. Adams arrived yesterday afternoon and attracted considerable attention. The car which is a beauty, runs along very quietly. Last evening Mr. Adams with the car in charge of his chauffeur gave a number of gentlemen friends a spin.

Joseph J. Roy has leased a piece of land on Water street from the O'Brien estate and intends building thereon immediately.

C. R. Messereau returned this morning from Miscon.

Mrs. W. G. Fenwick and Mrs. G. W. Ellis left this morning for Sussex.

Rev. S. J. Doucet, Grand Anse, is in town today.

The streets and sidewalks about the town are undergoing much needed repairs.

J. P. Leger went to St. John yesterday.

A pie social is to be held at Dunlop school house tonight.

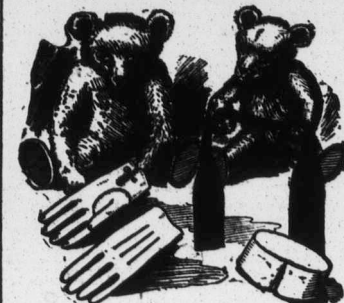

Rev. A. D. McCully will resume service in the Methodist church on Sunday evening.

MAKING FIRE WORKS TALK

PARIS, Thursday.—Fireworks which not only please the eye, but are also capable of reproducing a patriotic speech were the subject of a special communication read today before the French Academy of Sciences. By the arrangement of different explosives, they are now able to produce both vowels and consonants. A railroad carriage of their design will be able to cry "Stop!" and a special rocket for July 14 will shout "Vive la République."

Wedding Bells.

McGINNIS-STEWART.

At St. Patrick's R. C. Church, Nelson, on Monday, 29th ult., Miss Carrie Stewart, daughter of Joseph Stewart, of Nelson, was married to John McGinnis of Summerside, P. E. I. Rev. Father Power officiated. Miss Annie Holland was bridesmaid and Principal W. J. Kelly ably supported the groom.

OTOOLE-SAVOIE.

The marriage of Walter O'Toole of Nelson and Miss May Savoie of Reserve, took place in St. Patrick's church, Nelson, on the 23rd ult. Miss Laura McKay was bridesmaid, and John Savoie, brother of the bride was groomsmen. Rev. Father Power tied the nuptial knot. Mr. and Mrs. O'Toole will reside in Nelson.

RUSSELL-MENZIES.

A very pretty wedding took place Wednesday afternoon at 3 o'clock at the residence of Archie Menzies, Whitbyville, when his daughter, Miss Clara Mabel was married to William Everett Russell, only son of John Russell, Newcastle. The ceremony was performed by Rev. S. J. Mitchell, pastor of St. Stephen's Presbyterian church, Redbank, in the presence of the immediate friends of the contracting parties. The bride who was unattended, was gown in white organdie. The presents received were in silver and cut glass. The happy couple left on the maritime Thursday morning for their future home in Amherst, followed by the best wishes of their many friends. The groom is employed with Rhodes & Currie, Amherst.

SUFFRAGETTES TO SURROUND HOUSE

LONDON, Friday.—Convinced that their recent tactics have failed to persuade Premier Asquith to accede to the Legislative machine in their favor, the suffragettes project another novel demonstration next Tuesday with a view of exerting further pressure. While a deputation will seek an interview with the Prime Minister it is the intention to surround the House of Commons with a cordon of suffragettes which the leaders predict will number at least 100,000. It will be a peaceful gathering however, and no attempt will be made to force an entry into the House.

ONTARIO RELIGIOUS

LONDON, Friday.—At the Intercolonial Missionary Conference discussing a pessimistic paper on the state of religion in New Zealand, Villiers, of Ontario, said that in his town of 20,000 people, only 145, according to the religious census did not belong to a religious denomination. Rev. P. J. Day, Sup't. of the Immigration Dept. strongly resented the Dominion being made a repository for all rascality of the mother country and hinted at the possibility of Canada adopting stronger restrictive measures.

85 ARE MISSING

LONDON, June 25.—Despatches received here from Corunna indicate that nearly one hundred people may have been drowned by the sinking of the steamer Larache. The vessel was wrecked near Muros and sank within eight minutes. There was a terrible panic and the rough seas smashed the boats as they were being launched.

CORRUNA, Spain, June 25.—Latest reports show that eighty-five persons are missing as result of the sinking of the steamship Larache. The rescued number sixty-one. The captain went down with his ship.

REVOLUTION IN MEXICAN REPUBLIC

Discontent Against President Diaz's Autocratic Rule Causes Bloodshed

CITY OF MEXICO Saturday.—Wild stories concerning a formidable and serious revolutionary outbreak in the northern part of Mexico were disclosed yesterday by telephonic reports received from Governor Cardenas, of the State of California.

According to the telegraphic advices which were received by Vice-President Corral, one of the boldest bandit raids were successfully carried out when the town of Viesca was assaulted and looted Thursday. The bandits, numbering fifty, all well armed and mounted, swooped down upon the town without warning. A feeble resistance was made by the police of the place, and three of them were killed and three more wounded, then the marauders practically had things their own way. They at first proceeded to the jail, releasing all of the inmates, some of whom joined the robbers. The bandits next headed for the Bank of Nueva Leon, overpowered the employees and robbed the bank of all the money they could get. They then turned their attention to the express office, robbing it. By this time the whole of the town's populace was terrified. The bandits cut the telephone wires and tore up the railroad tracks. However, before communication was interrupted, word was sent to the state capital of the assault. When the bandits got word that the troops were on the way to the scene they fled, passing by way of Matamoros de Laguna. At this place they encountered the first detachment of troops sent to capture them. A lively fight ensued in which one trooper was killed and several wounded. The soldiers succeeded in capturing one of the bandits, but the remainder made their escape, and are now in the wilds of the state of Durango.

LONDON SPORTS

LONDON, Sunday.—At the London Athletic Club sports Kerr won the hundred yards handicap from the one yard mark in ten seconds, beating Walker, champion at Natal, by 18 inches after a bad start. Buddo was unplaced in his heats. German, Swedish and South African champions also competed. In the standing broad jump, Stafford of London just managed to get a first from George R. Barber of the Central Y. M. C. A., Toronto. Stafford's jump was 9 feet 10 1/2 inches. Barber's jump was 1-4 inch shorter, 9 feet 10 1/4 inches.

SAW HIS WIFE BURNED TO DEATH

WAKEFIELD, Mass., Sunday.—Her skirts catching fire from burning grass Mrs. Thos. Staples was burned to death Sunday at her husband's summer home at North Reading. Mr. Staples was badly burned in efforts to save his wife.

BRYAN SURE OF NOMINATION.

DENVER, Colo., Sunday.—Without difficulty Bryan delegates had Theodore Bell of California selected temporary chairman of the Democratic convention and look for equally successful control of coming assembly. There is little doubt regarding Bryan's nomination but uncertainty exists concerning candidate for Vice-President. If the leader insists upon the man selected by himself the nominating proceedings will be brief but otherwise many names will be suggested. Concerning platform Democratic convention may be repetition of Republican contest over function plank Bryan strongly favors declaration of principle closely following the Lincoln platform.

ANOTHER TRAIN WRECK ON SATURDAY.

C. P. R. Train Rolls Down Bank, and Injures Many Passengers.

TOTTENHAM, Ont. Sunday.—The Winnipeg train which left Toronto at 5.30 p. m. Saturday carrying two hundred passengers was derailed two miles from Tottenham at eleven thirty. Five coaches were thrown down an embankment of twenty feet, turning completely over. Two elderly women were seriously if not fatally injured. About ten others were hurt, consisting of broken arms, legs, etc. and in all about twenty five were hurt. The rolling stock and roadbed appeared to be in good order. The auxiliary car from Toronto with hospital cars, in which were nurses and medical men, came for the wounded. The passengers were taken to Tottenham early this morning where they were given every comfort and were conveyed back to the scene of the wreck and passengers transferred to a special which took them on their journey.

CLOSING CANAL HURTS MERCHANTS

MONTREAL, Friday.—The shutting down of the Cornwall canal will hit a few local grain merchants pretty hard as they have two tramp steamers at present on their way up to Montreal to secure cargoes of grain and they will now have to bring the grain to Montreal by rail in order to carry out their contracts.

To Clean Soiled Photographs
To clean a photograph that has been soiled by smoke or dust, hold under a faucet of running cold water and wash gently with brush or hand. After this a thorough rinsing in cold water will make picture look like new.

Prune Pie
Line a plate with pastry as for a custard pie, half filled with stewed and stoned prunes, cut up fine. Pour over them a custard of 2 eggs, little sugar, bit of nutmeg and milk enough to fill the plate. Bake until the custard is thoroughly set.

West Point Cocktail
Fill a glass with shaved ice. Add a scant teaspoon of lime juice, 2 or 3 dashes of orange or dandelion bitters, and sugar or rock candy syrup to sweeten. Shake well, strain into a cocktail glass, put a twist of lemon on top and serve.

When Baking Potatoes
Before potatoes are put in oven to bake, by greasing them the result will be more than pay for the extra trouble. The potatoes, when done, will be found to have the skins thin and tender instead, as is usually the case, being thick and hard, and of a greatly improved quality.

Lemon Pie
Line a medium-sized mince pie plate as if for a custard, fill with one lemon, 1 cup of sugar, 3 eggs (white of 1 egg for frosting) scant 1-2 cup cold water, bit of salt, use only the juice of lemon, thoroughly mix the ingredients together. After it is cooked frost with the white of one egg beaten stiff with a little sugar added. Brown in oven.

Graham Bread
One pint of milk, 2 tablespoonfuls brown sugar, 1 teaspoon salt, 1-2 ounce yeast, 1 pint graham flour and 1 pint white flour. Scald and cool the milk, add the sugar and crumbled yeast; when it floats and is frothy make a batter with the flour and meal, beat add 2H2O TC TT et al shrill down the salt and more meal gradually unceasingly. Let it rise till spongy, add till it is as thick as can be worked with a stiff knife. Put 1-2 ounces in each pan, smoothing the tops, cover and raise again. It should be set in a quick oven and the heat reduced in 10 minutes. It is sometimes made stiff enough to knead but should not be made as stiff as ordinary wheat bread. Bake as usual with heat increasing for 10 minutes. Nice baked as muffins.

Work Aprons
Three-quarters of a yard of a very small and neat pattern of table oil-cloth. Cut in one place with bib, some what like a butterfly apron. Bind all around with tape or chambray, any color. This gown saves washing.

VEGETABLE SALAD SANDWICH
Two or three heads of lettuce, 4 red radishes, 1-2 cupful of nut meats. Put the lettuce leaves through a coarse meat chopper and chop the radishes and nuts very fine. Let 1 cupful of vinegar come to a boiling point, in a double boiler; mix 1 cupful of sour cream, 1-2 cupful butter, a dessert-spoonful each of salt, sugar and mustard, 1-2 teaspoonful of curry powder, yolks of four eggs and add to the vinegar, set on back of stove but do not allow to boil for half an hour. Mix all this together and spread between thin, buttered slices of bread that have been shaped and the crusts taken off.

GUARD THE FIRES

Forest fires are caused, in only too many instances, by campers and tourists who leave their fires unguarded or are in other ways careless about their fires. Many of these holiday makers in the woods would be the last people in the world to wilfully destroy timber in this way, but yet a lack of care on the part of some has often had a most lamentable result.

Occasionally what seem cases of apparently wanton carelessness are met with. A flagrant instance of this neglect was shown some time ago by a party of seventeen campers from Hamilton, Ont., in the Timagami Ont. forest reserve, who broke camp one morning leaving quite a large fire burning. The campers, in their special car, however, were stopped at North Bay, and not allowed to proceed on their journey until they had paid the expenses of extinguishing the fire as well as those of their own detention. Such cases are, fortunately, rare.

Attention to a few points may save much loss from this cause. No match, cigar-end or other burning object should ever be thrown down in the forest until totally extinguished. The camp fires should not be larger than is necessary and should not be left, even for a short time, until one is perfectly sure that they are "dead out." Fires should not be built in dangerous places, such as among leaves, near rotten wood or any place where they are likely to spread. Avoid building a fire against a large or hollow log, for in such a place it is hard to know when the fire has been thoroughly extinguished. In windy weather a hole should be dug down to the mineral soil and the fire confined in this.

The Lake St. John district in Quebec, was the scene of a serious fire only a few days ago. The fire was caused, it is supposed by fishermen who neglected to extinguish their camp fires.

Amatite ROOFING

THIS advertisement will bring to your attention the best and cheapest ready-roofing on the market. Here is how we prove it the best.

In the first place Amatite is made in one standard thickness, whereas other ready roofing ranges from a thin, flimsy half-ply to a three-ply thickness.

The three-ply thickness (which by the way is only one sheet of felt) is the only kind that can be compared with Amatite.

But right here is the point. Amatite is better made, has better waterproofing material, and weighs more per square foot than the three-ply grade of other makes, and costs much less.

These facts make Amatite the most desirable roofing made.

But in addition to its superiority in material and manufacture, Amatite has one distinction which makes it stand out above all others. It has a real mineral surface.

It is hardly necessary to state the advantages of such a mineral surface, the freedom from painting or coating, the perfect protection against all kinds of weather, the great durability.

This mineral surface is embedded in a layer of Pitch, the greatest known waterproofing material. Beneath this in turn are two layers of the best grade of wool felt—cemented together by more Pitch, making the whole a roofing that is absolutely waterproof.

No other ready roofing can compare with this mineral surfaced, waterproof, weather-proof, durable roof. That's why we say—Don't buy your roofing until you have seen Amatite.

SYNOPSIS OF CANADIAN HOME-VEST.
Homestead Regulations.

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.
Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub Agency for the district in which the land is situated. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:
(1). At least six months' residence upon and cultivation of the land in each year for three years.
(2). A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.
(3). If the father (or mother if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4). The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.
(5). A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.
Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

At Woodstock on the 23 ult., the new agricultural commission, Hon. D. V. Landry, Geo. E. Fisher and W. W. Hubbard, held their first meeting to consider the needs and possibilities for agricultural and industrial development throughout the province. There was a large attendance of farmers from the neighborhood. Dr. Landry in opening made an excellent address, after which different ones expressed their views on different phases of agricultural question, general farming, sheep raising, apple growing and potato raising were some of the matters generally discussed. Mr. H. P. Timmerman was present on behalf of the I. C. R.

Heat prostrates the nerves. In the summer one needs a tonic to offset the customary hot weather Nerve and Strength depression. You will feel better within 48 hours after beginning to take such a remedy as Dr. Shoop's Restorative. Its prompt action in restoring the weakened nerves is surprising. Of course, you won't get truly strong in a few days, but each day you can actually feel the improvement. That tired, lifeless, spiritless feeling will quickly depart when using the Restorative. Dr. Shoop's Restorative will sharpen a failing appetite; it aids digestion; it will strengthen the weakened Kidneys and Heart by simply rebuilding the worn-out nerves that these organs depend upon. Test it a few days and be convinced. Sold by All Dealers.

OTTAWA, Thursday.—Predictions are that parliament will prorogue a time to allow the members to get away for the Quebec tercentenary. It is understood that Mr. Borden and Hon. Sir Wilfrid Laurier have reached an agreement in the election bill and concessions will be made. By next week Sir Wilfrid Laurier will ask the House to sit Saturday night till the close of the session. On Tuesday next parliament will adjourn over Dominion Day.

Pain will depart in exactly 20 minutes if one of Dr. Shoop's Pink Pain Tablets is taken. Pain anywhere. Remember! Pain always means congestion, blood pressure—nothing else. Headache is blood pressure; toothache is blood pressure on the sensitive nerve. Dr. Shoop's Headache Tablets—also called Pink Pain Tablets—quickly and safely coax this blood pressure away from pain centers. Painful periods with women get instant relief. 20 Tablets 25c. Sold by All Dealers.

OTTAWA, Thursday.—The timber of the Dohs Indian reserve berths was sold at auction yesterday and realized \$871,500. At the lowest estimate it is expected that including crown dues and royalties, the revenue from the timber will total \$1,011,500.

'Get my "Book No. 4 For Women." It will give weak women many valuable suggestions of relief—and with strictly confidential medicine—entirely free. Simply write Dr. Shoop, Racine, Wis. LONDON, Thursday.—There was a rumor last night that the resignation of Lord Tweedmouth, President of the Council and Lord Leominster, Lord High Chancellor, was imminent and that Mr. Haldane, secretary for War, and Winston Spencer Churchill, president of the Board of Trade, would be appointed Lord Chancellor and Secretary for War respectively.

NO SUPERIOR SCHOOL FOR NELSON
The Board of Education met recently. It agreed to form new school districts in Madawaska and Gloucester counties.

A petition from Nelson, Northumberland Co., asking that the school there be made a superior one was deferred, as that county now has the full number of such schools.

Many people do not make their own bread because they cannot knead it properly, not knowing that a superior quality of bread can be made without this labor. Mix your sponge in the usual way and when it rises stir in with a wire fork enough flour to roll. Then instead of putting the sponge on the knead board use the chopping bowl. First flour the bowl and dip your chopping knife into flour chop the bread sponge by drawing the knife through it, but do not pound it adding more flour as needed. When it has been cut so that pieces are about half inch square put together smoothly enough for each loaf and put into pans to rise for baking.

Remove Disagreeable Odors. Any disagreeable odor in a sick room may be obviated by putting a few drops of oil of lavender in a cup of hot water and placing it in the room. Any flies which may be in the room will leave it as soon as the odor is noticeable.

TRAINS 3 AND 4
The latest publication produced by the Advertising Department of the Grand Trunk Railway system is a booklet descriptive of their line between Chicago and New York through Ontario, via Niagara Falls, also Chicago and Portland, via Toronto and Montreal, under the title "Trains 3 and 4." It pictures to the reader by concise description and well printed half tones the route of these two popular trains.

It is universally that the lines of this great system provide a great diversity of scenery and reach many points of interest, and the route traversed by these two trains is no exception. These features are handsomely dwelt upon, and are well illustrated in "Trains 3 and 4."

The publication is a handsome one of 32 pages, printed in two colors, and is adorned by a strikingly beautiful cover printed by the trichromatic process, the sketch showing a head-on view of the premier train of the Grand Trunk system, "The International Limited," approaching as if through an archway with massive pillars on either side, surmounted by the Dominion Coat of Arms, with the Canadian and United States flags draped on either side, emblematic of the international character of the line, making in all a most pleasing effect.

It can be had for the asking. Address, J. Quinlan, D. P. A. G. T. Ry., Montreal, Que.

The C. P. R. are negotiating the purchase of several coal mines at Minot and the deal may be put through in the future. A few days ago Superintendent Dowling and Col. PILES

Mr. Alfred Brown, of Merriton, Ont., says:—"For six years I have not known what it was to be free from pain. No one ever suffered more from itching bleeding piles than I did and I tried everything to get cured but failed. Summer Complaints Kill Little Ones.

At the first signs of illness during the hot weather months give the little ones Baby's Own Tablets, or in a few hours the child may be beyond cure. These Tablets will prevent summer complaints if given occasionally to well children, and will promptly cure these troubles if they come unexpectedly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine so effective and the mother has the guarantee of a government analyst that the Tablets are absolutely safe. Mrs. E. LeBeun, Carleton Place, Ont., says:—"Baby's Own Tablets are the best medicine I know of for regulating the stomach and bowels. I think no mother should be without this medicine." Why the County Newspapers Are
Deserving of Local
Patronage.

ITS POSSIBILITIES.

It is a Part of the Town Family—
Advertising Is
Vital.

(From an Exchange.)
Every town of any pretensions whatever has at least one country newspaper, published at home and dealing principally with home affairs. Is that paper worthy of patronage? Should you place advertisements in it? Will it benefit you to secure its favor through advertisements in its pages? These are questions, says an exchange, which many a country merchant has asked himself when approached by the solicitor.
When spread out beside the great city daily which comes on the train from the metropolis it may look small. The pages may be smaller and there are not so many of them; the wording or the reading matter may not be equal to that of the city paper. The people of a country community may read both the metropolitan and the local paper. They like to know what is going on in the great world. But the other paper holds for them a nearer interest. In it are chronicled the little homely details of their neighbors and themselves. It may not be so wise, so skilled in argumentation. But it is a chronicle of things at home and it holds a closer relation to the people of the village and countryside than the big city paper can ever obtain. This being the case, it behooves the country merchant to recognize the possibilities of the country paper. Your opinion of the city paper may not be the same as that of your best customer, but you do not find fault with one or the other; but the country paper is right with you, and when one espouses its cause it becomes more of a personal matter. It is a part of the town family. Now, what is the attitude of this paper toward your business? How does it stand on the matter of the parcels post, the catalogue house trade and similar matters of importance to you? Have you ever talked it over with the man at the head?

We believe that advertising is vital and that the merchant should use the means and instruments within his reach for his own benefit. The advertisement in your home paper serves a double purpose—it gives you the support of the paper in a business way and it brings your business to the attention of the people who may be customers of yours. The country paper is worthy of patronage. We have a vital interest in the prosperity of the merchant, and we believe that we are justifying in urging him to advertise in his home publication. Most merchants do, you may say, and that is true in a way but look through the country papers, as we do, week after week, and you will realize how few merchants, comparatively speaking, advertise with any vim or earnestness. They pay for two things, and only take one of them. The publisher is willing that you should have both—why not take them both?

TEACHERS' INSTITUTE

FREDERICTON, Thursday.—At this afternoon's session of the Teachers' Institute, Chancellor Jones gave an able address the subject being the relation of the University to the public school system. The point considered was the claim put forth that university graduates should be allowed grammar school licenses without further examinations.

A. B. Maggs, of Moncton, opposed such a step.

DOUBLE ELECTROCUTION

HAMILTON, Thursday.—There was a double electrocution yesterday at B. Greening Wire Company's plant on Queen Street North. The victims were Geo. Bambrick and Arthur Scottney. They were employed as carpenters, and were engaged in building a frame shed adjoining the works.

Over their heads ran high tension power wires which supplied the factory. The wires were supported in the usual way and held by guy wires running to the ground.

In loosening the wires they sagged considerably, so much so that they came in contact with the power wire. The men did not die immediately but were dead before the patrol wagon arrived.

ATTEMPTED SUICIDE

NIAGARA FALLS, Thursday.—Or-ficer Greenwood, yesterday prevented a young man named Monthelt from throwing himself over Horse Shoe Falls.

Diving himself of his coat and vest Monthelt was about to plunge over the precipice when the officer who had been observing his actions prevented him. Monthelt said he had been out of work for a long time and was depressed and could stand the strain no longer. Work was found for him.

A PIECE OF STRING.

It Plays a Prominent Part in the Life of Japan.

Writing from Japan, an American says:—"You must come here to appreciate some of the quaint customs and usages which contact with other peoples has not yet driven out. To read about them gives you only a poor idea. For instance, did you ever know what an important thing a piece of string is here? The children, workmen, idlers, servants, all carry pieces of string for use in case of emergency. With us the emergency would arise only when a parcel had to be done up, but the Jap uses his piece of string as a first aid to the injured, to repair a rent in his clothing, to fix a broken down jirikisha, to mend tools, to take measurement, and, in fact, the string is his universal tool chest. The queerest use to which it is put, according to my way of thinking, is when a police officer arrests a man, ties a bit of string about the arrested man's wrist and then leads him by the loose end of the string hempen fetter to the lockup. You ask, 'Why doesn't the Jap crook break the string and find a gateway?' He could, but he would not. That's where his respect for the law comes in, and the bit of string holds the man as securely as though he were manacled by our own humane chilled steel, nickel plated and snap locked method."

DIRTY WATCHES.

The Reason is Often to Be Found in the Watch Pocket.

"Why do watches get dirty?" said the jeweler. "You'll find the answer in your watch pocket. Turn it out."

The patron turned out his watch pocket, sheepishly bringing forth a pinch of mud colored dust, some lint and a small ball of black stuff.

"There's the reason," said the jeweler. "Watches get dirty because the pockets they are carried in are never clean. A watch pocket, my dear sir, should be cleaned out regularly once a week. Observe that rule and your watch's works will not get clogged up again."

"Another and a seasonable rule is never to lay your watch down on stone or marble. The cold deranges the delicate works."

"Never lay your watch down, in fact, anywhere. Hang it up on a hook vertically in the same position it occupies when in your pocket. Watches are made to lie, or rather, stand, in that position only."

"Wind your watch in the morning, never at night."

Cigarettes as Wedding Fee.

As one of Manila's leading young men was donning his evening suit preparatory to keeping a social engagement, he ran his hand into his pocket and was surprised to find an envelope there. On opening it he discovered 25 pesos in bills. "Now, where in thunder did I take on all this money?" he said. "It isn't mine, for I never carry my bills around in an envelope." Then he sat down to think where he had won the suit and how he had come by the 25 pesos. "The last place I wore it," he mused finally, "was when I was best man at a wedding a month ago. But I gave Dr. Rossiter his money. I remember distinctly giving him something, and it must have been his fee. If I didn't give him the money, what in the world did I give him?" He called up Dr. Rossiter by phone. "Do you mind telling me," he asked, "what I gave you for a fee at Blank's wedding?" The answer came back very distinctly and cuttingly: "Young man, you gave me a box of vile smelling cigarettes."—Philippine Gossip.

Arbitrator and Arbitrary.

If an arbitrator is chosen to end a dispute, says the London Chronicle, there is no reason to dread that his decision would be arbitrary, though the two words are very near relatives. An arbitrator, the Latin word which used to be more common as English than it is now, meant by its very meaning "one who went to" something to examine it, and so at first a spectator or witness. Then in Roman law it assumed the technical sense of an umpire. But a "judicium," the legal decision in a case with regard to a definite sum of money, for instance, was distinguished from an arbitrium, a legal decision as to an uncertain sum which had to be determined; hence arbitrary acquired the sense of uncertain, capricious.

It Was Plain Enough.

A college professor who recently returned with his wife from their honeymoon greatly amused a company of people in his home town, according to the Lewiston Journal, by assuring them, on being questioned concerning their trip, that nobody where they spent their honeymoon suspected that they were bride and groom.

"What kind of a place was it you were in?" the president of college asked. "An institution for the blind."

Economical Woman.

Of small economies the following will be difficult to beat for smallness: A laboring man who hands over his weekly wages to his wife is allowed by her an ounce of tobacco a week. She buys it herself in two separate half ounces in order, she declares, to get the advantage of the two turns of the scale.—London Chronicle.

A Brutal Definition.

Booker—"What is a philanthropist?" "A man who gives what he doesn't need in a way nobody wants."

There is nothing so powerful as truth—and often nothing so strange.—Webster.

HISTORY OF TAPESTRY.

The Art Was Known to the Ancient Greeks and Egyptians.

Flemish artists are believed to have been the first to make tapestry for use as a covering for walls. The art itself is certainly very ancient, many of the hangings used in Egypt and Greece being considered true tapestry. Its subsequent history is obscure, but it evidently maintained a lingering existence in the east until the Saracens revived it and brought it to Europe. Tapestry was used by the Saracens only as drapery or curtains for the courts of their houses. Embroidery appears to have served for this purpose in northern Europe until after the twelfth century, and much of the work of this period was really embroidery, such as the incorrectly named Bayeux tapestry. It was in the fourteenth century that tapestry began to be largely made in Flanders, where the weaving industry became very important. At that time twenty-seven streets were occupied by the weavers of Ghent. In 1332 there were 50,000 weavers in Louvain and more still at Ypres. Very few samples of fourteenth century tapestry remain, but those that have come down to the present day closely resemble contemporary wall painting. During the latter part of the fifteenth century the golden age of tapestry existed, especially in Bruges and Arras. The Flemish tapestries of that time are models of textile art. The color is rich, the decorative effect strong, the drawing and composition graceful, and the whole arrangement shows consummate skill in endeavoring to meet the exigencies of the loom and at the same time the aesthetic requirements of wall decoration.—Argonaut.

COOLNESS IN DANGER.

Experiences of an English Military Official in India.

When Lieutenant Henderson was captured by the natives of the Gold Coast hinterland they got into a wordy discussion as to how they would kill him. The victim listened awhile till he was weary of it. "Oh, well," he said, "I can't be bothered with your argument! I'm very sleepy. Let me know when you have made up your minds." And off to sleep he went. The unexpected performance saved his life. His calm indifference persuaded Samory's men that they had to do with some one of immense importance. Unwilling to take on themselves the responsibility for his death, they sent him unharmed to Samory's court, in the Jimini country.

Once again Lieutenant Henderson saved himself by a like exhibition of courage. He found Samory on a throne, surrounded by 4,000 warriors, yet when motioned to do homage on his hands and knees he did nothing of the sort. He simply sat on the throne beside Samory, shaking that monarch warmly by the hand. Thanks to this, and to nothing else, he was accepted as the representative of a great sovereign instead of a captive doomed to death. He talked to Samory of the queen and Samory talked to him. Thus a mission which might have ended, as so many African missions have ended, in a terrible silence and a suspicion of unspeakable horrors, did, in fact, end in a valuable basis of future relations between Great Britain and a Mohammedan power.—London Scraps.

The Shape of the Sky.

What is the apparent form of the vault of the sky? There is probably no one to whose eyes it seems a true hemisphere, with the zenith appearing as distant as the horizon. At sea or in a flat country the seeming greater distance of the horizon is best shown. Professor J. M. Pernter in discussing this subject reaches the conclusion that the form of the vault in vertical section is that of the segment of a circle the arc of which subtends at the center an angle of the order of forty degrees. If the reader will draw such a segment he may be surprised by the amount of flattening which is thus ascribed to the sky. From this optical illusion many curious effects arise, such as the seeming increased magnitude of the sun and moon when near the horizon and the apparently oval forms of halos and coronas seen at low altitudes.

A Financial Episode.

A Milwaukee business man stepped up to the teller's window in one of the city banks during a financial flurry, presented a check and asked for the money it represented.

"I cannot give you the cash," said the teller, "but I can pay you in clearing house certificates."

"I would much prefer the currency," answered the man.

"The certificates are just as good," said the teller.

"Well," returned the merchant, "if that is the case I suppose I can go home to my baby and give it some milk tickets and say, 'Here, little one, these are just as good as milk!'"

Trimming.

The other day at a golf club in Scotland a minister of the kirk was reproved by an elder in his church for using high flown words respecting a bad stroke he had made, and the minister replied: "Weel, Dauid, I was nae sae much swearing as merely embellishing my feelings."

Shaky Logic.

"You certainly told me to embrace my privileges."

"Well, but I didn't tell you to embrace my daughter."

"No. But to embrace your daughter is a privilege."—London Express.

CARAQUET AND GULF SHORE RAILWAY.

The Carquet and Gulf Shore R.R. adopted their summer time table Monday. During the season the train will leave Bathurst at two fifteen p.m. daily instead of eight fifteen a.m. as formerly.

NEW TIME TABLE.

The new I. C. R. Time Table went into effect this week. The Maritime going south now leaves Newcastle at 7.30, the accommodation at 10.45, and the Ocean Limited at 12.25. Going north the accommodation leaves here at 14.15, the Limited at 16.05 and the Maritime at 24.45. The Derby train arrives at 10.30 and leaves at 16.35.

ORGANIZING THE SOCIALISTS.

Mr. E. T. Kingsley, of Vancouver, chief organizer of the Socialist party in Canada, and editor of the Western Clarion, the official organ of Socialism in Canada, will visit Moncton in a short time and will deliver an address on the Aims and Objects of Socialism the world over and its relation to the cause of organized labor. Mr. Kingsley will also lecture at Glace Bay, Sydney, Charlottetown and Halifax and no doubt in St. John. St. John Globe. Mr. Kingsley will also speak in Fredericton under the auspices of Fredericton Local, No. 1 of N. B. Socialist party of Canada.

The conciliation meeting in St. George Friday night between the granite cutters and manufacturers did not change the strike situation. The cutters insist on an eight hour day, and will settle on no other basis. The manufacturers refuse to grant it. It is said that twenty-five cutters have secured work on the bridges on the T. F. Railway. An application for a charter will be made to the Granite Cutters' International Union. If this is granted the rate of wages will be considerably higher than is now demanded.

Secretary Paver of the Intercolonial Railway Employers' Relief and Insurance Association, in his monthly statements reports four deaths. These are Joseph Barton, foreman in the I. C. R. shops, who died at Coburg, Ont., and George M. Jarvis, Truro, I. C. R. district superintendent, who died suddenly in St. John. Each had one thousand dollars insurance. The others are Fred Jacobs, Truro, and Robert Jackson, Sydney, with \$250 each. The fees and levies for the month are: Class A, \$2; class B, \$1.25; class C, \$0.

The Women's Guild of St. Peter's Church, Derby, held a sale of work and tea in the Temperance Hall Wednesday afternoon and evening. It was an unqualified success. Over a hundred and thirty sat down to tea, the waiters being kept busy from half past five till eight o'clock. The supper was an excellent one and the ladies have earned an enviable reputation as caterers. The amount realized will be about ninety dollars. The members of the guild wish to thank the members of the Churches not only for their material assistance but for their presence.

WOULD CONCENTRATE MISSION WORK.

At the 10th District Baptist meeting at Moncton on the 23rd, a resolution introduced by Rev. P. J. Stackhouse provided the opportunity for a spirited discussion, that was enjoyed by all, and finally passed with only three dissenting votes. The resolution was: "Whereas the present system of a separate Home Mission Board for New Brunswick is unnecessary in that it multiplies extra machinery, involves extra expense, divides denominational work, and is contrary to the spirit of our convention plan, therefore be it resolved that it is the consensus of opinion of this Tenth District meeting that the time has come to take the Home Mission Convention and to thus consolidate the Home Mission work of the three provinces under one Board."

When the great Cole Brothers' Show comes to Newcastle on Thursday July 9 it will bring with it Prof. Chas. M. Timney's famous band of forty musicians. This band needs no introduction to music lovers for it has been heard in concert in every city of prominence in this country and Europe. Prof. Timney is not only a musical director of marked ability, but a composer of distinction, and his musical compositions have been produced by many to be far in the lead of Sousa's efforts. In selecting the members for his musical organization Prof. Timney picked men who were undeniable experts on the instrument assigned to each one, and there is not one member of this band who is not a soloist on the instrument which he plays. His experience of years in catering to the music-loving people of the world has taught Prof. Timney the selection of music most desired and the program he furnishes is strictly up-to-date and while many classic overtures and operatic selections included, popular airs are not forgotten. So great has been the desire to hear this band in concert that the management has arranged for a concert of an hour's duration which will be given in the huge menagerie tent prior to the commencing of each performance. Every one is aware of the fact that there is nothing so disgusting as miserable musical selections poorly rendered at a circus performance, but this need not be looked for at the great Cole Brothers' Show. The truth is the efficiency of this band of soloists adds to the enjoyment of the patrons.

Dr. MacMillan has returned and his office is now open for business as usual.

"HOOPER" OFF THE TRACK.

The tender of the hooper engine ran off the track at Millerton Thursday, and damaged it so badly that an engine had to be sent from here to take its place.

H. H. Stuart, secretary-treasurer of the N. B. Teachers Association for the last five years, attended an executive meeting of that Union in Fredericton on the 28th ultimo.

Though remaining on the Executive he resigned the secretary-treasurership, being succeeded by Ex-President R. Ernest Estabrooks of Woodstock.

Now comes the season when people who cannot swim take the most appalling liberties with boats they don't know how to manage. It is they who fill the holiday weeks with the haunting sense of tragedy.

Men will always enjoy that measure of liberty they are suited for. Let the Dominion Parliament prove itself suited for liberty of debate; it is not rendering business impossible under it.

The King, says a London despatch, cares far more about what the people think than about what the aristocracy think, and feels the pulse of the public as the physician feels that of a patient.

Secretary Cortelyou received \$5,000 the other day from a man in Jersey City, and it was turned over to the "conscience fund." In the letter the man, who did not give his name, said that this made \$40,000 which he had returned to the government. He added that a few years ago he robbed the country of that amount.

This obstruction of business to preserve grossly dishonest voters' lists in Manitoba is a spectacle for all honest Canadians.

In London the fashionable hat is now eighteen inches high and seven feet in diameter. Of course London they ride on the top of the bus.

EDITOR'S MAIL.

Newcastle, N. B., June 30, '08. TO THE EDITOR OF THE UNION ADVOCATE:

Dear Sir:—Permit me to occupy sufficient space in your paper to refute the charge against me, as appeared in the last issue of the North Shore Leader signed Ida Irving, stating that I had said I notified Miss Irving that I would not be responsible for the payment of her account for republishing bye-laws.

I beg to say that I never made any such statement; what I did say was that I had instructed the Town Clerk to notify Miss Irving along those lines, which he said he did, and he also verified it by stating it to the members of the Town Council at our last meeting, and I have no reason whatever to doubt his statement.

In conclusion I can only say that if the Editor or Proprietor of the North Shore Leader would display sufficient interest in our town affairs to send a representative to our Council meetings they could get the facts as they occur, and not, as they have done in the past, publish articles which are misleading to the public, and which are gathered principally from street gossip.

Yours very truly,

S. W. MILLER, Mayor.

Milner Sees

Tariff Reform

LONDON, Sunday.—Speaking of the Constitutional Club, Lord Milner emphasized the inevitability of tariff reform, if only for our own sakes. He declared he was alarmed at the prospect of a series of commercial treaties between British Dominions and foreign countries, cutting the ground underneath our feet.

A man of Taft's build can't help cutting a wide swath.

R. shops, who died at Coburg, Ont., and George M. Jarvis, Truro, N. S. district superintendent who died suddenly in St. John. Each had one thousand dollars insurance. The others are Fred Jacobs, Truro, and Robert Jackson, Sydney, with \$250 each. The fees and levies for the month are: Class A, \$2; Class B, \$1.25; Class C, 80 cents.

OTTAWA, Friday.—The attention

of the public accounts committee was engaged today with the construction of a pier at Pointe-aux-Trembles, in which the Marine departments estimates had been exceeded. The contract was for \$33,775 and had been awarded to Dussault & Pageau. The work was to be completed within one year. The time was extended however and eventually the contract was taken off Dussault & Pageau's hands. It was estimated that \$23,000 worth of work had been done at the time, and \$20,000 had been paid. The new contract to finish the job was with O. Petaquin, and was for \$22,000, which brought the cost up to \$45,000 where as the original bid was \$3000 less.
