### MISTAKE SOON REMEDIED

NEW YORK, Monday.—William H. Klugemann, who is employed as a clerk in the office of the general storekeeper in the Brooklyn Navy Yard, is telling his fellow-workers there a sad story involving his being mistaken for his twin brother and being forcibly put to bed in a hospital although an entirely well man. Klugemann went to Albany to visit his twin brother, who was in the Albany Hospital suffering from appendicitis. As he walked through one of the wards of the hospital a nurse who was carrying a tray filled with dishes at sight of Klugemann dropped the tray and exclaimed: "There is my patient walking around in a delirium."

## PRINTING SOON BY USE OF WIRELESS

*Messages Written on a Typewriter in  
One Room Copied By Receiver  
in Another.*

### A WONDERFUL INVENTION

LONDON, Tuesday.—Hans Knudson the Danish electrical engineer, today gave a practical demonstration of his ability to work a typewriter by wireless telegraph. Knudson claims that the linotype composing machine can be operated in a similar fashion, and, although today's demonstration was made with apparatus in a more or less experimental stage of construction the results were such as to open a wonderful vista of almost magical attainment. Many people present at the demonstration, which was held at the Cecil Hotel, wrote on the wireless type writer in one room, and what they wrote was immediately printed by a receptive typewriter in a neighboring apartment in a precisely similar way. Knudson claims that it will be possible to operate a linotype machine in the same way, news messages being sent off on a wireless keyboard at the central office of the news agency. The telegraphing of sketches and photos by wireless can also be accomplished by means of a special form of the same machine.

## TERRIBLE DISASTER ON ALASKAN COAST, MANY LIVES LOST

*Cannery Ship Star of Bengal Went Ashore and One Hundred  
And Ten People Perished Twenty Seven Saved.*

### TUGS COULD NOT CONTROL THE SHIP

(Special News Service)  
WRANGEL, Alaska, Wednesday.—One hundred and ten out of a total of one hundred and thirty-seven persons on board the Cannery ship Star, of Bengal, were drowned last Sunday afternoon, when the vessel was torn from protecting tugs and dashed upon the shore at Helm Point at the south-east end of Coronation Island. News of the disaster was brought here by the tug Mattie Gage, Captain Farrer, which carries the survivors numbering twenty-seven in all. The survivors before leaving Coronation Island buried the bodies of fifteen on the beach. The cable ship Burnside, which left for the scene of the wreck on Monday, as soon as the news was received has returned with the news that the Star of Bengal was a total loss, only the ends of her masts showing above the water. The ship was being towed to sea from Bengal Cannery, by the tugs Mattie Gage and Kayak. The tugs could not handle the ship, and the Star of Bengal drifted into the narrow bay on both sides. The towline was cut and the tugs steamed out into the open water, but could not see anything in the driving rain, except one blue light burning on the ship. The storm increased, and the tugs steamed away to Shepley Bay, 36 miles away. Survivors Muir and Clason said the ship sank about nine o'clock, after breaking in three pieces. The surf was full of salmon, cases and kerosene drums. Muir says he and Clason got a boat off and went ashore through the wreckage. They helped several others ashore and pulled Captain Wagner out of the wreckage, but he could not speak. Breches buoy was tied to tree but the ship was swaying so that the line was alternately loose and tight, making it impossible to use it. One man had matches and a fire was built with kerosene from the wreckage. The fire kept the survivors from freezing.

## THOMAS MARR TOOK SUITS OF CLOTHES AND LEFT TOWN

*Chief Crawford Soon On Trail And Lands Thief At  
Dalhousie As He Was About to Sail in  
Schooner for St. John.*

### PRISONER CONFESSED HIS GUILT

Thomas Marr recently a stoker on the Empress of Ireland, was arrested at Dalhousie yesterday by Chief Crawford, assisted by Officer Fleming, on the charge of stealing clothing to the value of \$75 from Gray's boarding house in town. Some time on Tuesday complaint was made by one of the boarders at the place mentioned, that their clothing was missing, and the case was placed in the hands of the chief. Suspicion at once pointed to Marr, he having left the boarding house a short time previous. He was traced to Dalhousie Junction, where it is said he disposed of some of the clothing but there the trail was lost. After considerable investigation the chief located his man just as he was about to take a schooner to St. John. Marr immediately surrendered, confessing his guilt. He pleaded intoxication in extenuation of his offense.

## CALAIS FIREMEN WERE SHUT OUT

*New Brunswick Firemen Insisted that  
American Team Be Debarred  
From Competing.*

### WHAT THEY SAY ABOUT IT

(Bangor Cor. Aerial)  
CALAIS, N. B., Sept. 24.—The Calais firemen who went to Chatham, N. B., Monday, Sept. 14th, for the purpose of competing in the firemen's tournament held there on the following day were handed out a big and juicy bon on that had been maturing on the tree for their special benefit ever since it became known of their intention to compete. The boys made the long and arduous trip across the province of New Brunswick at considerable expense on the guarantee of the secretary of the Chatham fire department that they would be allowed to compete without protest but when they reached the exhibition grounds where the tournament was held they found that the truck was under the control of two executive officers of the New Brunswick Firemen's Association and that the said officers were determined that no American team could even get a look in on the sports. The officials mentioned not only ignored the Chatham firemen entirely but placed the latter in a most embarrassing position as a result of their decision not to allow Calais to compete in any of the events scheduled for the day, although the entries from this department were solicited and accepted by the committee in charge of the tournament. The claim of the officials was that the Calais team was not composed of regular firemen, but was organized solely for the purpose of contesting the events which had been arranged for the meet at Chatham, and they refused to ever recognize the certificate of membership issued by Chief C. V. Gillis, of the Calais fire department, while accepting without question those submitted by deputies and chiefs from towns in New Brunswick and Nova Scotia.

Chief Harry Rutter, of the Fredericton fire department, was persistent in his effort to assist the Calais men, and he was ably seconded by Chief Ackman of the Moncton fire department, secretary of the spite association. In justice to the members of the Chatham fire department it must be stated that the boys from the chief down, were extremely sorry that the Calais men were not allowed to compete and did everything possible to give the men from Maine a good time.

Team after team, composed of men who were not regular firemen were allowed to compete without question, towns having a department composed only of ten or a dozen men, sending to the tournament anywhere from eighteen to thirty five men who were allowed to compete in the sports and no protest raised.

Amherst kicked the hardest against Calais, next to the chiefs mentioned before, the fact of the team from this city having defeated them by nearly two seconds in the recent tournament held at St. Stephen, having ranked deeply in the breasts of the Nova Scotians. Fear of the money passing across the border seems to have been responsible alone for the turn down of the Calais team, and judging by the time made by the winning teams, there was good reason for the feeling aroused by the presence in the city of the Americans.

Regret was expressed by many of the citizens of Chatham and other towns over the discourteous treatment accorded the boys from this city, even Chief Ackman of Moncton, who was only too willing to accept the opinion of Chief Rutter of the Fredericton department during the early part of the day, making the statement that it was too bad the association took the stand it did with reference to the eligibility of the Calais fire department.

## AGENT DID NOT FORGE ORDERS

*Trade Publishing Co. Says That All  
Orders Were Legitimate and  
Properly Signed.*

### PRICE OF WORK GONE UP

The Editor Graphic.  
In the issue of the Moncton Transcript of the 11th inst. there was a communication from Campbellton under the heading "Campbellton Business Men Stung," which reads as it had first appeared in the Graphic. The article reflects on the business methods of the Trade Publishing Co. and had as to the facts of the case, or else the article was written with malicious intent.

The agent who took subscriptions for Manufacturers' Business Record when we first started to get out the work was instructed to make a store to store canvass. The names of merchants who did not then take the work were written in by the agent so that they might be again called upon orders for the work were signed before publication, but in every case by the subscribers themselves.

In one instance however, the agent inadvertently put down the name of a man for a book in his (the agent's) own handwriting, but this was explained to the satisfaction of the party by the delivering agent, as he thought, when the order was presented for payment.

The signature on the contract sheet of a merchant who claims that the handwriting is not his has been compared with the genuine on a cheque and is pronounced by those competent to judge to have been written by one and the same person.

The soliciting agent is out of the country just now, which prevents his affidavit from being annexed hereto. He was a salaried man, and it is not reasonable to suppose that he would resort to forgery as the article alleges, in a transaction of so little interest to himself.

The Record cost considerably more to publish than the price at which it is being delivered in New Brunswick, and in delivering it, we are only carrying out our part of the contract.

It is being sold to new subscribers at 35¢.

We have received from business men, based on facts, libelous charges.

There is more Catarrh in this section of the country than in any other disease out of doors, and all the last few years was supposed to be incurable. For many years we have known of its cures by local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucus surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. SIR WILFRID WOULD FINISH HIS WORK.

Not many years now remain to me. The snows of winter have taken place of spring; but, however, I may show the ravages of time, my heart still remains young, and I feel that I have as much strength as ever for the service of my country. In spite of my sixty years, of which so much has been spent in the service of the Dominion, I am sure that some time remains to me yet to oppose those have I a tooth for the unholy alliance sinister combinations, and especially between the Castors and the Conservatives. . . . Our greatest work for the advancement of Canada is the construction of the Grand Trunk Pacific, which means so much for our countries future, and with which I hope my name will be chiefly associated. The more we know about this line the more we see its advantages to Canada. In fact, its advantages are already being felt, as even now it is taking its part in the transportation of the western wheat crop. Within two years we shall see this line running from Moncton to Winnipeg, opening up traffic to new empires of the north, where generations yet to come will be able to settle and make their livelihood. I tell you in all sincerity that I want to carry the coming general election in order to finish this great work, and when it is completed I shall be content to say with the prophet of old: "Lord, now let Thy servant depart in peace."—The Premier at Sorel.

**NATURE AND A WOMAN'S WORK**  
LYDIA E. PINKHAM  
Nature and a woman's work combined have produced the greatest remedy for woman's ills that the world has ever known.  
In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering. The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years in the study of drugs.  
From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs.  
Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.  
Mrs. J. M. Tweedale, 12 Napanee Street, Toronto, Canada, writes to Mrs. Pinkham:  
"I was a great sufferer from female troubles, had those dreadful bearing down pains, and during my monthly periods I suffered so I had to go to bed. I doctored for a long time but the doctor's treatment failed to help me. My husband saw Lydia E. Pinkham's Vegetable Compound advertised and got a bottle for me. I commenced its use and soon felt better. I kept on taking it until I was well and an entirely different woman. I also found that Lydia E. Pinkham's Vegetable Compound made childbirth much easier for me. I would recommend your Vegetable Compound to every woman who is afflicted with female troubles."  
What Lydia E. Pinkham's Vegetable Compound did for Mrs. Tweedale, it will do for other suffering women.

LYDIA E. PINKHAM

Nature and a woman's work combined have produced the greatest remedy for woman's ills that the world has ever known.  
In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering. The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years in the study of drugs.  
From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs.  
Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.  
Mrs. J. M. Tweedale, 12 Napanee Street, Toronto, Canada, writes to Mrs. Pinkham:  
"I was a great sufferer from female troubles, had those dreadful bearing down pains, and during my monthly periods I suffered so I had to go to bed. I doctored for a long time but the doctor's treatment failed to help me. My husband saw Lydia E. Pinkham's Vegetable Compound advertised and got a bottle for me. I commenced its use and soon felt better. I kept on taking it until I was well and an entirely different woman. I also found that Lydia E. Pinkham's Vegetable Compound made childbirth much easier for me. I would recommend your Vegetable Compound to every woman who is afflicted with female troubles."  
What Lydia E. Pinkham's Vegetable Compound did for Mrs. Tweedale, it will do for other suffering women.
