War Against The World

Declared by China When She Fired on the International Fleet.

Two Forts Blown Up After a Bombardment of Seven Hours and 400 Chinese Killed—Internationals Lose 21 Killed and 57 Wounded—Allied Forces Land and Seize the Taku Fortifications—Official Statement Made in the House of Commons.

London, Tuesday, June 19—3.30 a.m.—China declared war against the world when the Taku forts opened fire upon the international fleet. The best semi-official account is the dispatch received from Chefoo, via Berlin, as follows:

Later a semi-official dispatch from Chefoo announced that the Taku forts had been captured after a combined at- tack by the foreign warships. Three men on the German warship Itis were killed and seven were wounded.

The dispatch added that the foreign settlements at Tien Tsin were being fired into by the Chinese. When the dispatch left nothing had been heard from the German detachment sent to Pekin, or from the German legation there.

The unofficial narratives, coming by way of Shanghai vary widely, and bear internal evidence of supplementing the main facts with guesswork. One dis- patch says that the Yorktown partici- pated in the bombardment. Another asserts that American marines formed part of the storming force of 2,000.

THE CASUALTIES. A press dispatch from Chefoo, dated yesterday afternoon, says the forts on both sides of the Taku are now occu- pied. The Chinese opened fire unex- pectedly. The casualties to the mixed forces were as follows: Killed—British 1, German 3, Russian 15, and French 1. Wounded—British 4, German 7, Russian 45, and French 1. The Chinese torpedo boats were seized.

BEGINNING OF HOSTILITIES. The Shanghai correspondent of the Daily Mail, telegraphing yesterday, says: "The forts began firing in obedience to orders from Pekin, con- sidering the ultimatum."

SEALED TENDERS addressed to the under- signed, and endorsed "Tender for Lock and Dam, St. Andrew's Rapids, Red River, Man." will be received at this office until Monday, the 19th day of July, 1900, for the construction of a concrete lock and dam at St. Andrew's Rapids, Red River, Province of Manitoba.

Plans and specifications can be seen at this Department; at the offices of Mr. Zeph. Malhot, resident engineer of the Department at Winni- peg, Mr. H. A. Gray, resident engineer, Con- federate Life Building, Toronto; Mr. G. L. Lier- jard, Clerk of Works, Postoffice, Montreal, and Mr. Ph. Beland, Clerk of Works, Post- office, Quebec.

Persons tendering are notified that tenders will be received until noon on the 19th day of July, 1900, and will be opened on the 20th day of July, 1900, at the office of the under- signed, and signed with their actual signatures.

The contractor will be required to conform to regulations by the Government of Canada, in Council, respecting the accommodation, medical treatment and sanitary protection of the working men employed on the work.

Each tender must be accompanied by an accepted bank cheque made payable to the order of the Minister of Public Works, equal to ten per cent. of the amount of the tender (10 p.c.), which will be forfeited if the party decline to enter into a contract when called upon to do so, or if the tender is not accepted the cheque will be returned.

The department does not bind itself to accept the lowest or any tender.

JOS. R. ROY,
Department of Public Works of Canada,
Ottawa, June 13, 1900.

Newspapers inserting this advertisement without authority from the department, will not be paid for it. 86 ytz

NOTICE TO Milk and Bread Vendors

NOTICE IS HEREBY GIVEN THAT ON and after the first day of July next vendors of milk and bread in the city of London will be required to have all tickets issued by them (good for milk or bread), bound in packages or connected in same manner as are the tickets used by the London Street Railway Company. The said vendors are hereby forbidden to re- issue tickets that have been once detached. Any person or persons discovered violating this regulation will be prosecuted.

T. V. HUTCHINSON,
Medical Health Officer.

SEALED TENDERS (in duplicate) for the supply of Coal and Wood required to heat the Military Buildings at London, Ont., for the 12 months beginning on 1st July, 1900, will be received up to Saturday, 30th June instant. Each tender is to be marked "Tender for Fuel," and addressed to the Honorable the Minister of Militia and Defence, Ottawa.

Printed forms of tender containing full par- ticulars may be obtained from the undersigned at Ottawa, and at the office of the District Officer Commanding, who will furnish any ne- cessary information if applied to therefor.

Each tender must be accompanied by an ac- cepted cheque on a chartered Canadian bank, payable to the order of the Honorable the Minister of Militia and Defence, for five per cent. of the amount of the tender, which will be for- feited if the party making the tender decline to sign a contract when called upon to do so. If the tender is not accepted the cheque will be re- turned.

The department does not bind itself to ac- cept the lowest or any tender.

Retiring

The Boers Faling Back on Middleburg.

And Devastating the Country They Go Through.

Roberts May Wind Up the War by Cutting Delagoa Bay Communications—Basutos Raiding Farms—Wounded Return Home.

London, Tuesday, June 19—3 a.m.—The Boer commandos are retiring on Middleburg, followed by the British cavalry and artillery, occasional shells reaching the rear guard. The Boers are destroying the bridges and burning the veldt behind them, carrying off provisions and cattle and leaving the country barren.

Advices from Machadodorp say that the Boers have an abundance of arms and ammunition, and that they are preparing heavy wagon trains for a retreat to the Lydenburg district, where the chiefs, notwithstanding rumors to the contrary are determined to make a stand.

The Boers continue to work the Barberton mines, says a dispatch from Lorenzo Marquez, and there are eight car loads of bar gold, valued at £5,000,000 with President Kruger.

Mr. Steyn, in his proclamation declaring the Free State still free and independent, says the fact that the army is yet in the field, renders Lord Roberts' announcement contrary to law.

BADEN-POWELL.
In a dispatch to the war office from Pretoria, dated yesterday, Lord Roberts says that Baden-Powell has just arrived there.

A dispatch from Johannesburg, via Moscow, tells of the meeting between Dr. Koucharenko, of the Russian Red Cross and Lord Roberts, who publicly thanked the Russian medical man for his self-sacrificing labors in behalf of British troops stricken with typhus.

TO WIND UP THE WAR.
New York, June 18.—A dispatch from London says: The opinion prevails at Cape Town that Delagoa Bay communications will be cut off speedily and the war be brought to a close. There have been many untrustworthy rumors about secret expeditions toward Komatiport, but there has been no definite information that any movement of this kind is in progress through Swaziland.

Roberts' own plan of campaign seems to involve complete separation of the Free State and Transvaal forces by occupation of the railway between Johannesburg and Laing's Nek, which will probably be completed this week. No advance has been made from Volksrust toward Ermelo. Gen. Ruddle's

Dr. Fowler's

Extract of Wild Strawberry is a reliable remedy that can always be depended on to cure cholera, cholera infantum, colic, cramps, diarrhoea, dysentery, and all looseness of the bowels. It is a pure

Extract

containing all the virtues of Wild Strawberry, one of the safest and surest cures for all summer complaints, combined with other harmless yet prompt curative agents, well known to medical science. The leaves

of Wild

Strawberry were known by the Indians to be an excellent remedy for diarrhoea, dysentery, and looseness of the bowels, but medical science has placed before the public in Dr. Fowler's Extract of Wild

Strawberry

a complete and effectual cure for all those distressing and often dangerous complaints so common in this changeable climate. It has stood the test for fifty years, and hundreds of lives have been saved by its prompt use. No other remedy always

Cures

summer complaints so promptly, quiets the pain so effectually and allays irritation so successfully as this unrivalled prescription of Dr. Fowler. If you are going to travel this

Summer

be sure and take a bottle with you. It overcomes safely and quickly the distressing summer complaint so often caused by change of food and water, and is also a specific against sea-sickness, and all bowel

Complaints.

As many of the imitations of Dr. Fowler's Extract of Wild Strawberry are highly dangerous we would advise you to positively refuse them when offered and insist on the genuine.

Monsoon

Awaited With Anxiety in Suffering India—Cabinet Crisis in Italy.

London, June 19.—The following dispatch has been received from the viceroy of India, Lord Curzon of Kedleston: "The week's famine reports show a state of general expectancy, pending the advance of the monsoon, which has not yet appeared. Heavy rain has fallen in Burmah, Bengal and the Deltaic and central districts of Behar. On the west coast the monsoon current is weak, and has not progressed north of Goa, nor penetrated to the most affected regions, and the hot weather conditions still exist. There is no improvement possible in the affected districts, nor any decrease of numbers on the relief works until there shall be a heavier general rainfall. The relief total now reaches 5,200,000."

ITALY HAS A CRISIS.

Rome, June 19.—In the Chamber of Deputies the premier, Gen. Pelloux, announced that the cabinet has resigned owing to the deadlock arising from the opposition's uncompromising attitude on the question of the rules of procedure. The house adjourned, pending the formation of a new ministry.

Signor Saraceno, president of the senate, was summoned to the Quirinal after the resignation of the cabinet. Some of the papers attribute the resignation to a disagreement in the cabinet over the negotiations of Signor Callo, president of the Chamber of Deputies, with the opposition, having conciliation in view. Marquis Visconti Venosta, minister of foreign affairs; Count Bonas, minister of justice; and Signor Carmine, minister of finance, declined to sanction the proposed negotiations and resigned.

SEARCHLIGHTS MUST GO.

London, June 19.—Flashlight and searchlight advertisements in London had their doom pronounced in bylaws by the London county council, which prohibits the exhibition of any flash light or searchlight so as to be visible from any street. The expression "flashlight" means any light used for the purpose of illuminating any word, letter, sign, device or representation in the nature of an advertisement. The penalty for each offence is a fine not exceeding £5.

Another bylaw relating to window cleaning and painting prohibits any person from ordering another to stand on the roof of a building at a height more than six feet from the ground without a support.

LONGEST UNDERGROUND RAILWAY.

Beginning in July, London will have in operation the longest electric underground railway in the world. It runs from Shepherd's Bush, the extreme western suburb, to the Strand, 6 1/2 miles. The fare will be 4 cents, and the trip will be made in sixteen minutes. By the present mode of transit it takes 30 minutes. The tracks run 80 feet below the surface, the passengers being raised and lowered in lifts capable of carrying 100 people. It has taken five years to construct the line. All the rolling stock and engines were manufactured in America.

CABLE NOTES.

The Emperor of Korea has apologized to Japan for the torture of two Japanese refugees in his dominions. The British steamer Rotterdam was sunk in collision near Eddystone Light. Two lives lost.

Spaniards were banqueting in Lima, Peru, and speeches were along the line of consolidating the friendship of the Spanish-speaking peoples on two continents.

American scouts in the Philippines last week killed 60 Filipinos, captured 200 and gathered in 23,000 rounds of ammunition.

GENERAL ASSEMBLY

The Presbyterian Parliament Discusses Responsibility for a Church Debt.

Halifax, June 18.—The General Assembly was promptly on time Saturday. Mr. W. Morrison, M. P., presented the report on legislation.

Rev. Dr. Morton, Trinidad, said the church had an incorporated board in Trinidad, which was found to work well.

Rev. Principal MacVicar asked whether money which might be bequeathed in the future to bodies already incorporated would be vested in the new board of trustees or in the old corporations. Mr. Clark replied that such money would not be vested in the new board. The report was adopted.

The committee on the protection of church property, of which Hon. Mr. Justice Macdennan is convener, reported on a case in which the responsibility of a presbytery for the mortgage debt on church property is involved. In the case referred to \$700 was loaned by Mrs. Webber, a widow, on church property owned by a congregation in the Presbytery of Hamilton.

In the course of time the congregation was transferred to the Presbytery of Paris, and some time afterwards was dissolved on account of failure. The sum that can be realized on the property does not amount to one-third of the mortgage, and the church was asked whether it could not make up the difference. The sympathy of the assembly was strongly expressed for the widow, but the legal position taken by the committee had to be sustained. Rev. Principal Grant, however, gave form to the prevailing opinion by moving that the case be recommended to the liberality of the presbyteries of Hamilton and Paris, ex-gratia.

Dr. Campbell (clerk) explained the law of the church on the question, showing that presbyteries merely granted the request of congregations, and had no legal status in the matter.

The assembly approved of the appointment of Rev. Mr. McCurdy as eastern agent for the church in room of the late Dr. P. M. Morrison.

The assembly Sabbath services were held in St. Matthew's Church, and were conducted by Rev. A. B. Winchester, British Columbia, in the forenoon, and Rev. John Neil, Toronto, in the evening. Communion was dispensed in the afternoon, the moderator presiding, assisted by Revs. Dr. Caven and J. P. Forbes.

WELCOME RAINS IN MANITOBA.

Winnipeg, June 18.—Very cheering news was received from the country today. Generous rains are reported from Pipestone, Souris, Deloraine and Waskada sections; also at points along the Manitoba and Northwestern.

The Welcome

At the door from a happy, healthy wife, is something which the husband looks forward to all through the day's labor. He may be tired, but his step lightens and his face brightens as he quickens his pace to receive the smiling welcome of his wife. What a difference in the home-coming of the man whose wife is nervous and gloomy, having neither heart nor strength to be glad. Many such a husband has worked a transformation in his home-life by learning of the cures performed by Dr. Pierce's Favorite Prescription.

It cures diseases of the delicate organs, builds up the nerves, induces refreshing sleep, and transforms the sickly woman into the happy helpmeet.

There is no alcohol in "Favorite Prescription" and it is absolutely free from opium, cocaine, and all other narcotics.

"My wife was sick for over eight years," writes Albert H. Fuller, Esq., of Altamont, Grundy Co., Tenn. "She had uterine disease and was treated by two physicians, but got no relief. At last I read in your Memorial Book about Dr. Pierce's medicine, and we decided to try his 'Favorite Prescription.' I sent to the drug store and got one bottle, and the first dose gave ease and sleep. She had not slept any for three nights. Being sure that it would cure her I sent for five more bottles, and when she had taken the sixth bottle she was sound and well. We now have a fine boy at our house."

"FAVORITE PRESCRIPTION" MAKES WEAK WOMEN STRONG AND SICK WOMEN WELL.

THE MARTYR'S SON

President Joseph Smith, Son of the Murdered Founder of the Saints' Church, in London.

Head of a Sect Which Repudiates the Utah Church and Their Polygamous Practices—Spread of the Faith Which He Advocates—Will Preach in London Tonight and Thursday.

Last week an interesting visitor was in the city, in the person of Joseph Smith, president of the Reorganized Church of Jesus Christ of Latter-Day Saints, and son of Joseph Smith, the prophet and founder of the Church of Latter-Day Saints, or, as it is more commonly known, the Mormon Church of Utah. The Reorganized Church, of which President Smith is the head, is entirely separated from and disclaims any connection with the Mormon Church of Utah. The chief difference between them is the repudiation of the doctrine of polygamy, their basis of faith in this repudiation being found in the following words from the Book of Mormon, p. 116: "Hearken to the words of the Lord, for there shall not any man among you have save it be one wife; and concubines he shall have none."

An Advertiser representative sought President Smith at the home of Elder R. C. Evans, 474 Adelaide street, and found a man strong, sturdy and upright, nearing the Psalmist's allotted three score and ten years, and yet evidently possessing the capability for many years' aggressive work for the faith in which he labors.

President Smith was first careful to disabuse the reporter's mind of any idea of connection between the body of which he is the head and the Mormon church of Utah. They have no connection in common, he said, then have, for instance, the Roman Catholic and the Methodist Churches. The Reorganized Church teaches the original faith as promulgated by Joseph Smith the first. When he was murdered by an irresponsible mob in the forties, Brigham Young assumed the presidency of the church, and led the people to Utah. He also introduced a number of strange doctrines, the most important being that of polygamy, a number of the prominent men in the church did not view with favor these innovations, and they seceded from the original body, and in 1862 the first conference of the Reorganized church was held. At the time of his father's murder, the present president was only 12 years old, but as he grew older he took an active part in the new church, and for many years has been its head. His brother Alexander Smith, and E. L. Kelly rank next to him, filling the office of counselors. The headquarters of the church are at Lamoni, Decatur county, Iowa. The leading church organs are published from the large publishing house there.

There are over 400 churches of the faith, scattered over the United States, England, Scotland, the Hawaiian and the Society Islands, and Australia. The membership in the United States is about 50,000, of whom about 2,500 were received last year. The membership in Canada is over 8,000, of whom nearly half last year, an increase of nearly ten per cent. Last year seven new churches were erected in Canada, three were enlarged and five are now in course of erection. The work in Canada is being pushed forward with vigor.

President Smith's visit to Canada will last into July, and he will spend his first Fourth of July off United States soil. He last week attended a conference at Tibbury of the Chatham district, and left on Friday for St. Thomas, where the conference of London district was in session. He will return today to London, and tonight and Thursday night will preach in the church of the Latter-Day Saints on Maitland street. Many Londoners will doubtless take the opportunity of hearing him.

PARALYSIS CURABLE.
Stricken Ones To Be Seen Everywhere—This Form of Living Death Cured, by Dodd's Kidney Pills.

The most startling example of human helplessness is the paralytic. The victim excites your commiseration, but resents your pity. He of the palsied hand stiffly pressing the benumbed side is to be seen everywhere we go.

The most convincing proof that this pitiable condition is the outcome of kidney disease is the fact that Dodd's Kidney Pills cure it.

Not generally recognized as a kidney disease, it succumbs to kidney treatment.

Did you ever know of a cure? Just think a moment. It must have been the work of Dodd's Kidney Pills, for no other medicine ever yet cured.

Henry McKendry, a Detroit stove polisher, was killed by the Michigan Central train about a mile east of Essex roundhouse Sunday evening. McKendry was walking on the track. He stepped off the track, but just as the engine approached him, for some reason or other he stepped back again, and was thrown to one side.

A Detroit dispatch says: Up to last night Henry B. Ledyard had heard not a word concerning the fate of Baron and Baroness von Ketteler in Pekin, and he and the members of the family are anxiously awaiting news which they hope will tell of the safety of the German minister and his wife. It is doubly trying time for the family, inasmuch as the body of Lieut. Ledyard, who was killed in the Island of Negroes, is expected to arrive in Detroit Thursday morning.

TO THOSE OF SEDENTARY OCCUPATION.—Men who follow sedentary occupations, which deprive them of fresh air and exercise, are more prone to disorders of the liver and kidneys than those who lead active, outdoor lives. The former will find in Parmenter's Vegetable Pills a restorative without question the most efficacious on the market. They are easily procurable, easily taken, act expeditiously, and they are surprisingly cheap considering their excellence.

IN THE WORLD OF SPORTS

BASEBALL.
HAMILTON 7, LONDON 5.
The London ball tossers were up against the real thing at Tecumseh Park yesterday, in the shape of the reorganized Hams, and at the end of the game the score stood 7 to 5, with London hugging the smaller end of the tally. The visitors got all the luck that was going, but also put up a fast and clean game. The team would hardly be recognized as the same aggregation that dropped off here and played a burlesque exhibition some weeks ago, so greatly have they been strengthened. "George" Bradford, who was in the box for the Hams, was in good form. The base-hits chalked up against him, however, would have been many more but for the snappiest kind of fielding. The home team had no trouble in landing on him, and the outfield were kept busy. Kostal did the slick work for the locals, and only nine hits were secured off his delivery, and not a single pass did he issue. The hits, however, came in bunches, and piled up the runs. A wild pitch also sent in a man in a pinch in the first inning. The Hams played in great luck, making several misplays, but in no instance did they cost runs. The locals opened up at a terrific gait in the first inning, and it looked as if Bradford was going to get his bumps in great shape. Radcliffe was hit by a pitched ball, Mohler sacrificed, Hemphill and Hart singled, and Jones sent out a hot drive to left for three bases. Three runners crossed the plate, but the side was retired with Jones left on third. For the next five innings no London player crossed the plate.

Hemphill was laid out for several minutes in the ninth inning by colliding with Reed. Both fielders were after a fly ball.

PORT HURON 9, CHATHAM 6.
Port Huron, June 18.—Port Huron outplayed Chatham, both with the stick and in the field, today, and won from the Canadians. The desertion of Healy and O'Connor from the Port Hurons did not materially weaken the team, as the places of the two men were immediately filled. They will both be blacklisted in all the leagues of the country. The score: R. H. E. Port Huron...2 1 4 0 2 0 0 0—9 15 3 Chatham...0 0 3 0 0 0 0 0—6 12 5 Batteries—Long and Lohbeck; Thompson and Klock. Umpire, McKeever.

SAGINAW 8, GRAND RAPIDS 3.
Saginaw, June 18.—Saginaw made errors enough to give the game to Grand Rapids, but the latter could do nothing with Robb's pitching, securing only five scattered hits. Schontzkie made a three-bagger, and with two catches in deep left by Martin, made after hard running, were the features of the game. Norcum refused to play for Saginaw today. The score: R. H. E. Grand Rapids...1 0 0 0 0 0 2 0—3 5 5 Saginaw...1 0 0 3 2 1 1 0—8 10 8 Batteries—Burns and Holmes; Robb and Kleinow.

BRANTFORD EASY FOR GUELPH.
Guelph, Ont., June 16.—Brantford was defeated here today in a Canadian Baseball League game. The features were O'Connor's and Leader's timely hitting, bringing in six runs in one inning. The score: R. H. E. Brantford...0 0 0 0 0 0 0 0—0 3 9 Guelph...0 0 0 0 0 0 0 0—0 3 9 Batteries—Gregory and Chandler; Clarke and Bates. Umpire, Dyson.

A DISPUTED GAME.
Waterloo, Ont., June 16.—Guelph Dauntless team and Waterloo played their first game here today in the Amateur League. Guelph disputed a runner's advancement of a base on a balk in the tenth inning, and left the field with the score 11 all at the end of the ninth. Umpire Killer awarded the game to the home team, 9 to 0.

FALL MEETING AT TORONTO.
Toronto, June 16.—The dates for the Toronto fall races were fixed today. The meeting will be, as usual, of seven days' duration, beginning Saturday, Sept. 1, and ending Saturday, Sept. 15. It is proposed to increase the number of stakes closing in advance. The meeting will be held, as heretofore, under the auspices of the Toronto Hunt.

LACROSSE.
Montreal, June 17.—The Shamrocks were defeated by Montreal in the senior championship series on Saturday afternoon by the close score of 5 to 4.

Cornwall, Ont., June 16.—Today's Cornwall-Capital lacrosse match was hard-fought. The final score was, Cornwall 3, Capitals 2.

Toronto, June 16.—The Tecumsehs opened the senior C. L. A. championship season at the island today by defeating the crack Orangeville team by 4 to 1. The game was hard and fast, but neither played up to the reputation for scientific lacrosse.

Brantford, Ont., June 16.—A lacrosse match played here today between Brantford and Brantford teams resulted in favor of Brantford, 9 goals to 4.

Bright, resulted in favor of Galt by 5 goals to 3.

WHEELS.
Toronto, Ont., July 18.—The C. W. A. and the Canadian Cycling Association are likely to come to serious blows over the control of the Dominion Day meet at Ottawa. At a meeting of the S. W. A. executive Saturday night it was decided, on motion of W. N. Irwin, seconded by Louis Rubenstein, that the secretary of the association be instructed to communicate with the officials of the C. W. A., as follows: "In view of the fact that the new association have broken faith with the C. W. A. by assuming to control the Dominion Day meet, awarded to the Capital Bicycle Club of Ottawa, at the annual meeting of the association, in violation of their agreement, that they be requested to relinquish such control, and allow the meet to be run solely as a C. W. A. meet, the C. W. A. assuming jurisdiction; therefore, this executive will decline to give over the control of cycle racing in Canada to the C. C. A. Should the answer of the said C. C. A. be in the negative, then the chairman of the Dominion racing board of this association be and is hereby instructed to penalize all riders that take part in the meet, and to withhold all the trophies now in his custody or control, unless completely satisfied by the C. W. A. meetings, and see that the bylaws of the association respecting racing are enforced."

AQUATIC.
Heligoland, June 18.—The annual yacht race from Dover to Heligoland, for the German Emperor's cup, which was started from the former place Saturday, with ten yachts competing, was won by the Fiona, a cutter of 80 tons, owned by Mr. H. M. Rait.

The following is a list of events of the first provincial championship meeting of the Ontario Athletic Association, to be held on the Toronto lacrosse club grounds, at Toronto, on July 14 next: 100 yards, run; 220 yards, run; 120 yards, hurdle; 440 yards, run; 880 yards, run; mile, run; running high jump, running broad jump, putting 16-lb. shot, throwing 16-lb. hammer, one mile walk, pole vault; 440 yards, run. Open to boys attending public schools, high schools, collegiate institutes and preparatory schools, public or private. Another event, not yet decided on, will be added.

ONTARIO MEDICAL COUNCIL.
Toronto, June 17.—The Ontario Medical Council concluded its meeting Saturday evening. Dr. Roddick, of Montreal, who is prime mover in the matter of Dominion registration, presented the bill which it was proposed to ask the support of all the provinces. Dr. Roddick said five of the eight provinces had already favored it. The motion was left to a committee to deal with.

The council passed the curriculum, which contains the five-year clause and only few changes as regards the examinations in anatomy. The report of the education committee was passed and three volunteers in South Africa were granted their examinations. A bylaw was passed regarding last year's board of examiners, the only change being the addition of the name of Dr. R. N. Horton, Brockville, who succeeds Dr. Havitt.

Guelph relieved the new curriculum will go into effect July 1, 1907. The examinations will be held on the first Tuesday in November, 1900, and in Toronto and Kingston on the third Tuesday in May, 1901.

The Weak, The Diseased, Made Strong and Healthy Through Dr. Radway's Sarsaparillian Resolvent.

Every drop of the Sarsaparillian Resolvent communicates through the blood, sweat, urine and other fluids and juices of the system the vigor of life; for it repairs the wastes of the body with new and sound material. Scrofula, consumption, syphilis, unclean and badly-treated venereal in its many forms (send 10 cents for illustrated book, "Radway on Venereal"), glandular diseases, ulcers in the throat, mouth, tumors, nodes in the glands and other parts of the system, sore eyes, strumous discharges from the ears, and the worst forms of skin diseases, eruptions, fever sores, scald head, ring worm, salt rheum, erysipelas, acne, black spots in the face, tumors, cancerous growths, female complaints, and all weak, nervous and painful discharges, night sweats, nocturnal losses and all wastes of the life principle are within the curative range of this Wonderful Modern Chemistry and a few days' use will prove to any person using it for either of these forms of disease its potent power to cure them. If the patient daily becoming reduced by wastes and decompositions that are continually progressing succeeds in arresting these wastes, and repairs the same with new material made from healthy blood, and this the Sarsaparillian Resolvent does secure, a cure is certain, for when once this remedy commences its work of purification and succeeds in diminishing the loss of wastes its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving and flesh and weight increasing.

SCROFULA FROM BIRTH.
Dr. Radway.—Dear Sir: It is with pleasure I take my pen in hand to inform you of the great cure effected by your medicine called Sarsaparillian Resolvent. I have a girl 8 years old last September who has suffered from scrofula ever since she was 2 years old. In fact, the doctor told us she was born with it. We had our best local doctors with her, and it seemed like all hope was gone, for they told us if the disease settled on her lungs she could not be cured. This frightful disease, seated or seized upon her lungs severely, made me think that our little girl could not live very long, our physician's medicines doing no good.

One morning I received a copy of your medical publication, called "False and True," which you sent me. After seeing the accounts of so many cures effected by your treatments, and at once resorted to them, and by the time she had taken a bottle she was much well. The ulcers that were making their appearance on her body are entirely gone, her lungs almost healed, or, at least, she has quit coughing. She began on the second bottle, and I believe that by the time she uses all of it she will be well. She had a very bad cough. I am yours, very truly, F. H. BARKER, Flat Top, Mercer County, W. Va.

LIFE A BURDEN.
Dr. Radway.—Dear Sir: For a long time past I have been suffering in the most distressing manner from a long train of symptoms which have clouded the life of all the medical men here, and which, I feared, if not arrested in their progress, would terminate in the total destruction of my strength. Loss of appetite and desire of stimulating and artificial means of sustenance at irregular times, want of sleep and consequent depression on arising in the morning rendered life quite unbearable to me, until a friend induced me to try your medicine. So I got a bottle of Radway's Sarsaparillian and a box of Radway's Pills, took them according to directions. I soon found relief. I got three boxes and three bottles of medicine, and I am better in health than ever before. I remain your humble servant, ARTHUR D. WRIGHT, Unionville, Mich.

The Most Economical the Best.
One bottle contains more of the active principle of medicine than any other preparation. Taken in teaspoonful doses, while others require five or six times as much. Sold by druggists. Price \$1.

The Horror of Modern Warfare.

Kipling, in one of his suggestive poems, has this striking statement: "Farewell Romance! the soldier spake; By sleight of sword we may not win, But strife, 'mid uncleanly smoke, Of archery and culverin. Honor is lost, and none may tell Who paid good blows. Romance, farewell!"

In the old days there seemed to be something romantic and heroic when two strong clever men closed in fierce death grapple, but now there is a horror and a mystery about the smoke of battle, and still more about the smokeless battle. Julian Ralph's article in the *Bloomsbury Friend* of March 21 illustrates this very forcibly. He says: "One of the most interesting and formidable of the new conditions of war which we are experiencing is that we never—or next to never—see our foe. Can the student of war (or even the casual reader) comprehend what it means to go on for week after week and month after month fighting an invisible foe?" "Personally I saw a few score Boers running away at Belmont, a smaller number escaping from the punishment we were meting out to them at Graspan, and several hundred showing themselves—with uncommon impudence and courage—before the beginning of the battle of Modder River. But I have no doubt there are men in my army who have never seen a Boer in battle. I know of officers who have only seen one or two in one battle, or five or six in another." Under such circumstances if we did not pick up some wounded or take some prisoners as actual ocular proof of the existence of a flesh and blood enemy we might almost expect the more imaginative of our soldiers to believe that they had been fighting a vapour or an essence."

This, then, is the new condition. Men have to face an invisible foe and it takes a stout heart to do it. Men see their comrades fall by their side, but they cannot see the men who do the damage. The enemy entrenched behind rocks using smokeless powder is invisible.

There are still romantic as well as heroic sides to actual warfare, but on the whole it seems a horrible business. The fact that these new conditions have only recently been fully revealed should make us have more sympathy with soldiers and more consideration for officers. It is easy for men who are thousands of miles from the scene of action to suggest and criticize, but it is the men at the front facing the invisible foe who know all the bitter meaning of this sad business. When it comes to be generally realized surely there will be less vulgar jingoism, and we shall all feel that at its very best war can only be a hateful necessity.

"Mutual Preference."

There is something in a name, and Sir Charles Tupper showed he was acquainted with that fact when he spoke of his policy as that of "mutual preference." It sounds so fair and beautiful, who can find the heart to object to something or anything that goes by the beautiful name of "mutual preference?"

In England some years ago, the protectionists felt the same impulse and inspiration. Protection was discredited and "reciprocity" was not exactly a popular word, so the happy phrase, "fair trade," was coined. Who can object to that? "Fair trade" is certainly a very desirable thing if men can only agree upon what it is, but upon careful examination it turned out that the new "fair trade" was very much like the old "protection," and the people would have none of it. There are still many Englishmen who advocate a return to protection under the name of fair trade, but the leaders of the Conservative party know better than bind themselves to anything of the kind. We fancy it will be the same in Canada when this "mutual preference" business is carefully examined. Fair as it sounds, it will be found to be either nothing at all or a return to the old tariff. "Mutual preference" is meant to suggest that the present preference to Britain is something thrown away or lost.

We have already shown that although there is no direct return there must be a return, and that in so far as the present policy stimulates trade between Canada and Britain, it cannot be lost to either party. Again, the pleasant phrase suggests that the Government has neglected to take something that it might have got. As a matter of fact the Government has not had a chance to get a preference for Canada in the British market, and Sir Charles Tupper knows that he cannot get it.

The Imperial Government is now fully occupied with the war, Australian federation and other matters of great importance, and is not prepared at present to remodel the trade policy of the Empire. There are leading politicians who would be glad to see a policy of preference within the Empire, but there is no one in the first rank who is prepared to show that it can be done under present conditions, and many wise patriots think that it is not likely in our time to be either possible or expedient.

What the Government has done is to go as far as possible in meeting present conditions. The action taken has quickened in a healthy way the imperial sentiment, while it has also helped trade, and we are convinced that fair-minded citizens will support this action, and not be led away by deceptive promises of "mutual preference."

A Good Idea.

The French correspondent of *La Patrie* rejoicing in the success of the Paris Exhibition, says: "Do you wish to know in what consists the abstinence of our neighbors on the other side of the channel predicted by certain Francophile journals? Here then, is a small specimen. On the morning of Saturday last nearly two thousand workmen and workwomen from a Manchester soap factory arrived in Paris. After travelling through part of the city they admired the facades and buildings of the exhibition and on the evening of the same day went back to their soap factory. This quick excursion which could only yield as profit a pretty bad headache to the excursionists cost the soap manufacturer \$30,000. And was it not money well spent?"

This not only shows that the English are not absent from the exhibition, but also that some English manufacturers take an interest in their work people. Although this trip was too short and sweet to be altogether satisfactory, yet it would open up a new world of ideas to many young men. As we count distances here the run was not a very long one, but to take it for the sake of one day in Paris simply to be able to say that they had seen the wonderful city and the great exhibition required some strength of nerve and will. If the two peoples which live so near together come to know each other better there will be less danger of war being stirred up by agitators or unprincipled politicians.

The Policemen of the World.

The world seems to be in a very restless condition. So that "the white man's burden" is increasing in weight, and our American friends having taken it up in the Philippines, find it difficult either to carry it or lay it down. The same is true of Britain in many parts of the world. The fact is, the world is smaller now, and things that happen in what were once a distant place, are now of interest and importance to all. Liberty is a great blessing, and a high achievement, but as we are often reminded, "order is heaven's first law." Seeing that the world is so closely bound together, it is important that there should be order, and safety for life and limb in all countries. The civilized nations, and Britain most prominent among them, cleared the sea of pirates, and they must see that anarchy is banished from the earth.

This is a big business, as the present condition of affairs in China, Ashanti, and elsewhere shows. But an important thing is that the policemen should agree among themselves. Hence we are glad to see that Russia showed special courtesy on the last occasion of the Queen's Birthday, and that France has shown her friendliness to Britain by prohibiting the importation of powder, etc., into certain of her African territories, where aid might be given to the Ashanti rebellion. We are glad to note these things, not only on account of British interests, but also because it shows signs that the great nations desire to work together. These three nations, Britain, France and Russia, with all their imperfections, have done a great deal of good police work in the world; Germany and the United States now show a disposition to take a fair share of the work. A great deal of ridicule has been showered upon the European concert, and no sensible man would contend that it has worked well on all occasions. But the doing of great things has to be learned by nations as well as individuals, and we are beginning to hope that the great nations of the world will learn to settle their difficulties by friendly discussion, and to act together for the maintenance of peace and order.

War has become such a terrible thing now that all who have anything at stake are anxious to avoid it. It is only ignorant, vulgar people who lightly shout for war, and the leading responsible statesmen of the world, knowing that the fire once started may spread rapidly and widely, are justified in pouring cold water upon the "Boxers" or any other superstitious fanatics who are bent on working mischief.

TRADE OUTLOOK

As Outlined in Bradstreet's Weekly Summary.

The trade situation at Montreal is hardly as encouraging as last week. Collections from Manitoba and British Columbia are reported as not being good; renewals are being asked for. Reports from the interior indicate that storekeepers have bought rather freely and find their sales not quite as heavy as anticipated. Prices also show an easier condition. Reports from the west say that the hay crop in Manitoba will be a poor one—not more than half a crop.

Trade at Toronto has been moderately active in some lines, but the backward condition of the crops in some localities is making buyers cautious. A fair business is being done at Hamilton in seasonable goods, which is expected to expand as the weather gets warmer. A liberal movement for the fall is indicated. Payments are reported as satisfactory.

There has been more activity in some lines of business at London the past week. The crops in a good many districts are showing improvement. The outlook for fall business is regarded as very promising. The retailers have had a good business lately, and are meeting their obligations in a satisfactory manner, and there are fewer failures than for some time. There is a good demand for money.

The prospects for trade at the coast are a little more satisfactory now that the elections are over. The wholesale trade is showing improvement. At Winnipeg the reports on the crops are dominating the trade situation, but there is some improvement to be noted in general trade since the first of the month. Payments are fair for this season. Money is fair.

DIOCESE OF HURON

Proceedings of the Executive and Mission Committees.

A regular meeting of the executive committee of the synod of the Diocese of Huron was held yesterday afternoon in Bishop Cronyn Hall. The Bishop took the chair at 2:30, and among others present were Revs. Dean Innes, Archdeacon Davis, W. Craig, Rural Dean Hodgins, G. B. Sage, W. A. Graham, W. Lowe, C. Miles, Rural Dean Robinson, H. A. Thomas, Rural Dean Deacon, Rural Dean McCosh, Rural Dean Wright, Rural Dean Ridley, C. R. Gunne, Rural Dean Hicks, J. C. Farthing, T. G. Wright, W. Young, Canon Richardson, Canon Smith, Canon Hill, Canon Young, Canon Hinks, Rural Dean Mackenzie, Messrs. C. Jenkins, Chancellor Cronyn, Principal Dymond, J. H. Higginbotham, Prof. Harrison, James Woods, G. D. Sutherland, R. M. McElheran, J. Peers, R. Bayly, R. Shaw-Wood, T. H. Luscombe, J. Golden, E. G. Henderson, Matthew Wilson.

The meeting was opened with prayer by Rural Dean McCosh. The minutes of previous meeting were confirmed.

The finance committee reported on the accounts and checks, and passed and recommended the payment of others. Report adopted. The missions committee then reported. The report of the Rev. Canon Smith, bishop's commissioner to the county of Grey, recommended: (a) That Dundalk parish consist of Dundalk, Maxwell and Union Church, Melancthon; (b) that Flesherston be dropped, and Flesherston Station form the center of travelling mission as soon as practicable, with services at Proton Station, Proton Center (old St. Clementis), Eugenia Falls and Kimbilly; (c) that Kimberly be detached from Heathcote parish and added to Flesherston Station; (d) that no change be made with Markdale parish, but that the incumbent be requested to give a week-night service to Flesherston Station pending the formation of a travelling mission; (e) that no change be made in the Chatsworth parish, except that Holland Center be added to the group with services by the lay reader serving Williamsford. Report adopted.

The report of Rev. W. Craig, bishop's commissioner to Point Edward parish, recommended that the mission be served as heretofore, and that the sum of \$250 a year be placed in the bishop's hands to supply the necessary assistance. Adopted. The report of Rev. Rural Dean Hodgins, bishop's commissioner to Atwood and adjacent places, recommended that services at Henfryn be discontinued, and that Atwood be attached to Elma and Milverton. In amendment it was moved by Rev. D. Williams and Rural Dean Deacon that Milverton and Elma form a separate parish, and that Shipley be attached to Atwood and Henfryn. The amendment carried, but on the consideration of the report as a whole the matter was laid over for further inquiry.

Rev. Canon Hill, bishop's commissioner to All Saints', London, recommended that that parish be an independent parish, on condition that it should receive no assistance from the mission fund. After considerable discussion the report was adopted. The question of the redistribution of the surplus rectory fund will be considered by a proper committee.

The land and investment committee reported on the investments made, and the balance on hand. Report adopted. The income and investment committee reported that the work of the financial agent, Rev. F. E. Roy, had been vigorously prosecuted. The total amount subscribed to date was \$24,261 55, of which the sum of \$18,309 was in cash. The amount raised during the past year was \$4,669 79, while the expenses amounted to only \$31 30. The thanks of the committee were due to Mr. Roy, and it was recommended that he be reappointed. Report adopted. The vestry of Grace Church, Sullivan, proposed to erect a new church and asked concurring procedure. The secretary to reply. The incumbent and wardens of Brookholm asked that the building fund be paid over in order to help in the erection of a new church. Agreed to pay over as required. The rector and wardens of Old St. Paul's Woodstock, asked permission to sell the church farm and to apply the proceeds towards a new organ, and a new expected balance to repairing the church and the purchase of an organ. Granted, subject to approval of solicitor.

After several matters of minor importance the committee adjourned. The synod met at 10:30 a.m. today for divine service and Holy Communion in the cathedral.

When Vitality Is Lacking

The Complicated Machinery of the Body Is Deranged and All Sorts of Pains, Aches and Weaknesses Are Experienced—Get New Vitality by Using Dr. Chase's Nerve Food.

The human body may be compared to a great and complicated machine, all parts of which must function, and the failure of one part to perform its duties denotes the weakness of the whole mechanism. Vitality is the key to all health. Just as soon as vitality runs low there are pains and aches, weaknesses and irregularities in all parts. The amount of vitality in the body is dependent on the richness of the blood and the supply of nerve force. When these essentials of health are lacking they can best be supplied by Dr. Chase's Nerve Food.

Mrs. E. McLaughlin, 95 Parliament street, Toronto, states: "My daughter was pale, weak, fangful and very nervous, her appetite was poor and changeable, she could scarcely drag herself about the house, and her nerves were completely unstrung; she could not sleep for more than half an hour at a time without starting up and crying out in excitement. "As she was growing weaker and weaker I became alarmed, and got a box of Dr. Chase's Nerve Food. She used this treatment for some weeks, and from the first we noticed a decided improvement. Her appetite became better, she gained in weight, the color returned to her face, and she gradually became strong and well. I cannot say too much in favor of this wonderful treatment, since it has proven such a blessing to my daughter."

Dr. Chase's Nerve Food is a blood builder and nerve vitalizer of most unusual merit, which overcomes disease by strengthening and invigorating the whole system. As a spring restorative it is unsurpassed by any remedy known to man; 50 cents a box, at all dealers, or Edmanston, Bates & Co., Toronto.

The elegant sleeping, dining and first-class cars make travel a luxury.

THE LAND OF BIG GAME.

The Intercolonial Railway is the direct route to the great game regions of Eastern Quebec, New Brunswick and Nova Scotia. In this area are the finest hunting grounds for moose, deer, caribou and other big game, as well as unlimited opportunities for shooting wild geese, duck, brant and other fowl common to this part of the continent. For information as to game in New Brunswick, send for a copy of "Red and Gun."

Tickets for sale at all offices of the Grand Trunk System, at Union Station, Toronto, and at the office of the General Traveling Agent, Wm. Robinson, General Traveling Agent, 80 1/2 Yonge street, Toronto.

H. A. Price, District Passenger Agent, 145 St. James street, Montreal.

LITTLE VIXEN

Yes, Dawn was smiling indeed—a smile that was both happy and tender as that strong arm clasped her waist, and that warm breath flooded over her brow while their gliding feet kept time to the enchanting melody.

She forgot Lettie for the moment, forgot every thing but Prince Charming, whose handsome dark face glowed with admiration for his fair partner.

For a moment those two long years faded away and Dawn was back at Cedarhurst, the happy little May Queen, dancing with the heir, her innocent heart full of girlish triumph. Her old song, with which she had taunted spiteful Lettie rang in her brain:

"You must wake and call me early,
 Call me early, mother, dear;
 Tomorrow'll be the merriest time
 Of all the glad New Year."

"Tomorrow'll be, of all the year
 The maddest, merriest day;
 For I'm to be Queen of the May,
 Mother, mother,
 I'm to be Queen of the May."

A gasp of remembrance. The walls

music had come to a stop; so had her dream, and she really rushed over her as he led her to a seat, saying, eagerly:

"You will promise me all the waiters for this evening, Miss Douglas?"

"Yes."

"Tracy, I want you!"

Both turned with a start. Lettie had torn herself fiercely from her mother's restraining hand and followed them. She looked at Dawn with resentful eyes.

"Tracy, I want you!" she exclaimed, suddenly, and he turned in surprise, but instantly recovering himself, presented Lettie to Miss Douglas in a slightly confused and unsteady voice.

If he had not been so confused and ashamed himself at his fiancée's rudeness he could not have helped seeing the pallor and agitation of his beautiful partner. Strong as she was, brave as she was, she believed she should fall fainting at his feet, if he had said to her in these deep, sweet tones:

"Miss Douglas, this is my wife!"

But he did not speak those bitter words which she anticipated with trembling horror. He only said, in confused, wavering tones:

"Miss Douglas, permit me to present to you my friend, Miss Douglas." Lettie stared, and forgot to return Dawn's elaborate bow.

"Your name is the same as my own," she observed, and Dawn smiled.

"The only similarity between us," she said, sweetly, but with underlying sarcasm.

"What do you mean?" Lettie asked, bluntly and half angrily.

"Can you not see? You are brunette. I am blonde; so our names are all that is alike between us," Dawn said, still sweetly, but with a delicate, subtly veiled sarcasm in her tone that pierced Lettie's arrogance like a needle-point. She frowned at Dawn and said sharply:

"I am glad I don't resemble you any further than in name. I shouldn't like to be a blonde, for I never did admire those pale, washed-out looking creatures—miserable ogling fish, every one of them, and you well know it, Miss Douglas."

CHAPTER XXX.

Tracy Tempest crimsoned with shame and annoyance at Lettie's outburst; but Dawn did not seem to be offended. The sweet, cold smile still wreathed her crimson lips, as, looking straight into Lettie's face she said:

"Do you really think so, Miss Douglas? Now, I always thought the pair of coquetry belonged to the brunettes. You remember the poet's words:

The sparkling black eye
 May in triumph let fly
 Its darts without caring who feels 'em;
 But the soft eye of blue,
 Though it scatters wounds, too,
 Is much better pleased when it heals 'em."

Lettie glowered angrily. She had no skill at repartee, and knew not how to

reply to her fair antagonist; but Tracy Tempest, in pity for her embarrassment, came to the rescue.

"For my part, I do not think that the palm of coquetry belongs to any distinct type, Miss Douglas," he said.

"The poets have differed over that as much as anything else. I think it was Longfellow, who wrote of brown eyes:

She has two eyes so soft and brown:
 Take care!
 She gives a side glance, and then looks down!

Beware, beware!
 Trust her not, trust her not.
 She is fooling thee!

Col. Duval, with Mrs. Elmore on his arm, had drawn near to overhear the turn of conversation. They came up now, and the handsome soldier said, gaily:

"That question has puzzled more people than the poets, Tempest. On my part, however, I don't believe that the color of the eyes has anything to do with it, the simple fact is that coquetry comes naturally to the dear creatures. They are all born coquettes!"

Under cover of the laugh that greeted this sally, Lettie twitched her betrothed's arm, again, and said, impatiently:

"Mother wants you."

He bowed gracefully to the little group, drew her hand through his arm, and crossed the room with her to Mrs. Douglas.

"Tracy, who is that lovely creature?"

the lady exclaimed.

"My own name. What a coincidence! Can she be related to the family? I should be delighted to claim kinship with one so beautiful."

"Nonsense," Lettie said darkly, but unheeding her displeasure, Mrs. Douglas continued:

"You must present me, Tracy."

"With pleasure," he replied. "Shall I do so now?"

"No; for I see she is engaged with others, so I will wait," she replied.

"Tracy, I was vexed at your waiting with her. You never asked me," pouted Lettie.

"Because I cannot catch your step," he replied, flushing with annoyance, while Mrs. Douglas said gently:

"You know you are an awkward waltzer, Aurora, in spite of the pains Monsieur Duclos took with you in Paris. But you ought not to find fault with Tracy for enjoying himself some time in the company of other ladies."

"He has no right to—he is engaged to me," sullenly, and fanning herself with angry energy, for her face began to grow crimson.

"Perhaps you will come now and dance the Lancers with me," he said, and a little mollified by his kind, patient tone she took her place in the set by his side.

He danced with her, but it was the beautiful white figure opposite, by Col. Duval's side, which his eyes followed unceasingly.

Lettie was silent and sullen, but Dawn chatted unceasingly to her gaily.

lant partner, and the upward glance at the sparkling blue eyes, the arch smile of the rosy lips awoke thrills of delight in Tracy's breast. There was something oddly familiar, too, about her, but as yet he did not try to recall her as belonging in some sort to his past. He was quite sure that no one so winning and beautiful had ever crossed his path before.

When he touched her hand in the dance a shock of delight ran through him and that was intensified by the swift, upward glance of the blue, laughing eyes that were weaving their Circean spell around his heart. Lettie's sullen eyes marked all with jealous rage.

PRESENTATION.

Rev. Harold Sutton, incumbent of Dorchester Station, was recently made the recipient of an address and a well-filled purse by the organization of St. Peter's Church. The presentation took place at the residence of Mrs. Frank Chittick, where a goodly number of the members of the church assembled on the evening of the 13th inst. The address was read by Mr. W. H. Shaw, while Miss Mabel Talloch presented the purse. After Mr. Sutton had expressed his appreciation of the kindly spirit shown towards him by his congregation, and his hope that the divine blessing might ever continue to rest upon the church's work in Dorchester, the company sat down to a bountiful lunch. Subsequently games were engaged in and the evening spent most pleasantly by all.

Water Commissioners Say Springbank Pavilion Must Not Be Closed Except When It Is Used for Parties—Over Twelve Feet of Water in the Reservoir.

The board of water commissioners met at the city hall yesterday afternoon and discussed the complaints made about the upper story of the Springbank pavilion being closed to the public. Lessee Walter Bradford has an agreement with Dayton & McCormick, whereby they have the exclusive use of the second floor for dancing. The upper story of the pavilion must be open to the public, except when being used for private parties. If the lessee fails to comply with the wishes of the board, legal measures will be taken. Joseph Sproule applied for a water main on Wellington street north, and Ald. Barned for a service on Forward avenue, West London, for a lot just outside the city limits. Engineer Moore will report on both applications.

The board was notified by the deputy commissioner of the Ontario fishery department that the fish traps in the new Springbank dam were satisfactory.

The C. P. R. having applied for remission of rates on a house at 184 Ann street, the board declined to allow any remission.

A main will be laid on Partridge street, between William and Maitland streets, to cost \$400.

Engineer Findlay's report for the fortnight showed that the amount of water pumped had been 37,446,240 gallons, with the engines working from fifteen to eighteen hours per day. There was never less than twelve feet of water in the reservoir during the two weeks.

PROPOSED NEW BELT LINE

Changes in the Route Are Suggested.

Matter Goes Back to Committee—Union Label Question Revived—A Block of Tar-Macadam To Be Laid.

Last night the aldermen enjoyed the unusual experience of leaving the city hall at 9:15 o'clock. This happy result was largely due to the absence of the oratorical efforts in which one or two members love to indulge. The committee reports contained little that was of more than passing importance, and few recommendations were objected to. The proposed South street belt line matter was not considered, but will be brought up after having been investigated by committee.

City Solicitor Meredith communicated his opinion that the proposed grant of \$100 for the entertainment of the delegates to the Metal Polishers' convention was illegal, if that amount was not provided for in the estimates. Filed for reference.

The proposed change in the street car service and the establishment of a new belt line along South street was referred back to committee with power. The line suggested by the company was not totally favored by the aldermen. The company proposes to extend the line east on South street to Adelaide street, south to Nightingale avenue, east to Rectory street, north to Grey street, west on Grey street to the Hamilton road and thence to the city. Another suggestion is to extend the line along South street to Adelaide street, north to Layard street, east to Maitland street, north to Hill street, east to Rectory street, north to Grey street, and west on Grey to the Hamilton road. A third suggestion takes in the Hamilton road as far as Egerton street and return.

The matter of the contract for the firemen's clothing was reopened by the recommendation of No. 3 committee to give the contract to Mr. M. W. Slater, the price to be \$23.50 per suit.

Ald. Jolly desired to eliminate altogether the union label clause from the specifications. His amendment embodied this desire, and proposed also that new tenders be called for, after Mr. Boyd's refusal to carry out his contract had been obtained.

This was lost, and Ald. Stevenson's further amendment that this refusal be first obtained and that the contract be then awarded to Mr. Slater, carried.

The following cement walks will be advertised: Both sides of Prospect avenue; Hamilton road, between Maitland and Redan streets; north side of Maple street, between Talbot and Ridout streets; north side of Horton street, between Wellington and Clarence; west side of Ontario street, between Queen's avenue and Lorne avenue.

No. 3 committee reaffirmed its former recommendation re sale of spaces on the Market Square for the sale of fruit. These spaces are on the west side of the produce shed. Objection was made that it would leave no place for marketing grocers' wagons. An amendment to the effect that no spaces be sold was lost, as also was the original motion, thus leaving the committee with no power to sell spaces.

The recommendation in No. 2 committee's report, re award of contracts for painting city bridges, was referred back with power, in order that two

coats instead of three be tendered for. Ald. Plant asked the mayor's ruling in regard to No. 1 committee's recommendation that the usual grant of \$23 be made to the School Teachers' Association. This request was doubtless suggested by the city solicitor's opinion grant to the Metal Polishers' Union, as this grant is provided for by statute.

Mayor Rumball ruled that the grant could be made, and the matter was referred back with power.

The hospital building committee recommended that Architect McBride be paid \$476.07, in full for his services supervising the construction of Victoria Hospital. Referred back with power, together with Mr. McBride's account of \$658.

In reply to a query by Ald. Plant, it was stated that the opinion of the city solicitor was that no rates could be charged for the sewer on Horton street between Richmond and Talbot streets, as it was private property originally.

A new electric light will be placed at the corner of Nelson and Rectory streets. In connection with this recommendation Mayor Rumball suggested that No. 3 committee should curtail their expenses in order to lessen an overdraft that the other committees would probably have.

A tar-macadam pavement will be laid on Queen's avenue, between Maitland and Adelaide streets.

No. 1 committee again reported progress in the consideration of the school board's estimates.

A bylaw to borrow \$50,000 to cover current expenditure was passed.
