MONUMENT TO TECUMSEH SHALL ADORN OUR PARK

Members of the Macaulay Club Take the Initiative in Movement to Perpetuate the Memory of the Indian Chieftain.

A monument to Tecumseh, to be erected on the local military reservation, was the laudable objective point at which the Macaulay Club decided to aim at their annual meeting Saturday night.

It was the unanimous wish of the members of the club that a bronze statue of the great Indian warrior should perpetuate the memory of a brave leader, and the Maple City Literary organization decided to undertake the task of creating an agitation in this respect that shall be heard throughout the Dominion.

With this end in view, the essays of

the coming winter will be on Tecumseh and incidents in connection with the association of this leader with the history of Kent County.

The following officers of the Macaulay club were elected for the ensuing year:

President—J. S. Lane.
Vice Pres.—Captain Mowbray.
Secretary—S. B. Arnold.
Treasurer—J. G. Kerr.
Executive Committee—Thomas Scullard C. E. Beeson, J. M. Pike, Edwin Bell and J. E. Jewett.
The securing of a hall for holding the meetings in was left with the executive committee.
W. E. Park was nominated for membership.

ROYALTY WILL GO SHOOTING IN THE PRAIRIE PROVINCE

Premier Sojourning at Winnipeg Till Hunt is Over—Duchess Attended Divine Service at Banff.

Poplar Point, Man., Oct. 6.—The royal train conveying His Royal Highness the Duke of Cornwall and York, and suite arrived here about 11 o'clock this morning and was received by Senator Kiroff and Lord Minto, Governor-General of Canada. The shooting party consists of His Highness the Duke, Prince Alexander of Teck, Lord Crichton, Commander Godfrey Fossett, Sir Chas. Cust and Major Maude.

After luncheon on the train Senator Kiroff and his guests drove out to the lake a distance of about 12 miles. On arrival at the landing a fleet of canoes were waiting to convey the guests to the shooting lodge which is a five-mile paddle across the marsh slough. The canoe conveying the Duke was guided by John Atkinson, premier guide of Lake Manitoba shooting grounds, with Lord Minto in the bow, the other boats forming a fleet of

honor. The party reached the lodge about 5 o'clock. The weather is perfect, and as game birds, particularly ducks, are plentiful, there are prospects of a splendid outing. All the shooting will be done from canoes and the sportsmen will be on hand in good time in the morning to catch the early flight of the birds.

The party will remain at the shooting box until Tuesday and will entrain at Poplar Point at 3 o'clock on Tuesday, reaching Winnipeg about 4 p. m.

Sir Wilfrid Laurier left the party at Winnipeg and will remain there until Tuesday as the guest of Lieut.-Governor McMillan and Senator Watson.

DEATH CAME BY RUNAWAY

Highly Respected Blenheim Citizen Thrown From Wagon and Killed.

His Employer, who was With him, had a Narrow Escape—Details of the Fatality.

Special to The Planet.

Blenheim, Oct. 7.—Saturday afternoon about two o'clock, as Geo. Lawrence and Henry Collins were approaching town on the gravel road with the former's team and heavy wagon, the horses became frightened at a train shunting on the L. E. & D. R. R. and ran away. The occupants were violently thrown into the ditch near the tracks.

Both men were rendered unconscious for some time. Mr. Collins was thrown heavily against a telephone pole with sufficient force to break his leg near the thigh, and hurt him very seriously internally.

Dr. Langford was called and set the broken limb, but the unfortunate man succumbed to his injuries at six o'clock.

The deceased, who was a highly respected citizen, had been working for Mr. Lawrence for some weeks past. He was 52 years old, and has been a British army pensioner for about 14 years. He is supposed to have been a member of the S. O. E. at Kingston. The funeral will be held this afternoon at 2 o'clock, from the home of Chas. Lawrence to Evergreen Cemetery.

Mr. Lawrence escaped with a few bruises besides a severe shaking up.

KING'S HEALTH

His Majesty Reported to Have Recovered From his Indisposition.

London, October 5.—No intimation of any change in the King's condition has been received at Marlborough House, though special advices from Aberdeen say that despatches received from Balmoral at 2.50 o'clock this afternoon, announce that His Majesty has almost completely recovered, and has arranged to attend services in the Grathie church to-morrow. The Court Circular issued to-night, does not mention the King's movements as the weather at Balmoral is understood to be very bad.

Secretary Uddie, of the New York Yacht club, said that such a race might create bad feelings, especially if the Shamrock would win. Commodore Kane said the idea was preposterous. Speaking of his future plans, Sir Thomas said he was undecided as yet about his coming engagements, but that he would go direct to the Waldorf-Astoria about Monday and that Tuesday evening, he would attend a dinner at the New York Yacht club. He will probably visit Chicago about a week hence. The date is not yet fixed.

Dr. F. Reid Mackay, of the Erin, said there was every reason to believe that Shamrock will be laid up in New York this winter and that in the spring of next summer she will be raced against Columbia. Constitution or any other ninety footer. "For," said he, "we believe that she is actually a faster boat than Columbia and can beat her if she is raced against under different conditions."

The following letter, which explains itself, was sent to-day:
New York Yacht Club, Oct. 5, 1901.
Dear Sir: We have to inform you that the Columbia has won three out of five races from the Shamrock II, in the match of 1901 with the Royal Ulster Yacht club. The America's cup therefore remains with the New York Yacht club.

S. NICHOLSON KANE,
NEWBURY D. LAWTON,
CHESTER GRISWOLD,
Regatta Committee.
To Commodore L. E. Ledyard,
New York Yacht Club.
Chairman of committee on challenge.

Chicago, Oct. 5.—One of the principal features of the reception and banquet in honor of Sir Thomas Lipton, being arranged by the Chicago Athletic club, will be the presentation of a handsome souvenir that will be designed with the view of making a testimonial of his visit that will be of a permanent and constant value to Sir Thomas.

ON THE HORNS OF DILEMMA

N. H. Stevens May be Urged to save the Liberal Party in West Kent.

Rumors that Vigorous Opposition is Developing Against Mr. Pardo —Mr. Fraser's Exceptional Strength.

After all it isn't only the Liberals of East Kent who are revelling in the coils of conflicting opinions concerning the nomination of their candidate.

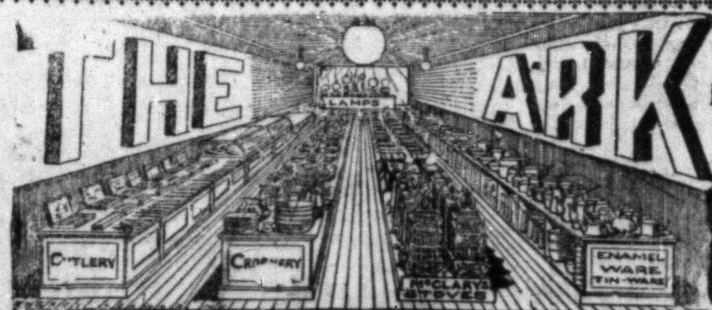

It is rumored that there is considerable difference of opinion in the West Kent Liberal camp, as to who shall be the standard bearer at the coming provincial elections.

There are a few of the old and faithful who, it is said, still cling to T. L. Pardo. Then there are a number of Liberals who are firmly convinced that the present member is not a strong man. They recognize an exceptionally popular and successful candidate in John S. Fraser, the Conservative nominee, and they feel that unless a very strong man is put in the field, the chances of a Liberal being elected are worse than slim.

The Liberals are realizing Mr. Fraser's wonderful strength and already they are casting about looking for a good strong candidate to oppose him.

Mr. N. H. Stevens has been prominently mentioned as the man needed, and it is rumored that if Mr. Stevens is offered the nomination he will accept it.

Of course, meantime, T. L. Pardo is left in blissful ignorance and he has no idea of the little commotion that the nomination of such a strong man as John S. Fraser has raised in his constituency. Whether Mr. Pardo will have something to say about this matter or not, waits to be seen, but his friends say he isn't the man to submit to a political turn-down, at the hands of some disappointed office seekers.

ONLY KIND FOR WHICH NEW YORKERS ARE WILLING TO PAY.

A Poultryman Declares That the Dwellers in the Metropolis Will Not Give Up the Price Necessary to Secure Newly Laid Eggs.

"New York doesn't want fresh eggs," said a poultryman who knows a lot of city friends. They profess to doubt what he said, which moved him to remark:

"If you don't believe that is true, you try and furnish fresh eggs to the New Yorkers who are just yearning for them as I have done and see if the yearners are willing to pay you a price that will enable you to buy your daily bread, to say nothing of the butter. You all like fresh eggs, of course, and perhaps you will pay a half way decent price for them for a short time during the winter, but what about the rest of the year?"

"Have you ever stopped to think that the man who is able to supply you with fresh eggs during the winter has had to spend a great deal of time in studying up that particular subject? Are you aware that he has been obliged to breed a lot of hens during the spring and early summer and that he has had to feed and care for them for six months without getting one cent in return? Have you stopped to think that he must carry a stock of fowls lying when you want eggs, and he must house his fowls in warm and expensively built coops? And, above all else, understand when I say a fresh egg I mean an egg that is no more than a day old when it is served to you."

"How many times have you eaten an egg here that was not more than a day old? Why, there are people in the country who make a specialty of sending into New York what they consider fresh eggs, which are anywhere from three days to three weeks old."

"I think you ought to understand that the eggs sold in New York as 'strictly fresh' are any old eggs. The farmer's wife saves them until she has a goodly number to sell at the local grocery or to make a fair showing when the egg collector comes around, for there are men who make a business of gathering eggs. They have routes laid out through certain territory, and they traverse them once every two weeks. Thus, as you can see, the eggs are at least two weeks old on the average before they get into the hands of the collector."

"The collector keeps them in a cellar until he gets enough together to justify him in making a shipment to the city, which may be anywhere from one to three weeks, depending on the time of year. Then when the commission man receives them here he keeps them a few days until they are sold, so that your fresh eggs come dangerously near to being a month old. That's why I can understand that the egg dealer—and he happens to be one of the biggest men in his line in the town—and he considered every egg fresh that didn't hatch while in transit to the city."

"Now, let me tell you why I believe New York doesn't want fresh eggs at a fresh egg price, if it wants them at all. I shipped eggs into the city that were not more than three hours old when they were placed in the hands of the consumer here. I suppose you never before heard of eggs so fresh as those getting into New York? It's a fact, nevertheless. When the eggs left my place, many of them had only a few minutes before being taken from the nests and were still warm. The trip on the cars occupied a little more than an hour, and within another hour or so the express company had delivered them at their destination."

"Those were fresh eggs, gentlemen—not 'strictly fresh' nor 'guaranteed fresh,' but plain fresh eggs."

"I found any number of people who needed those fresh eggs to round out their lives. They were the one thing missing—until they received the bill for them, and then there was a time."

"Mind you, they were charged no more than 50 cents a dozen in the coldest of winter weather for the only fresh eggs in New York, and how they did go on! Many of them who had been most enthusiastic over the eggs before the bills were sent out refused to pay the bills on the ground that the eggs were just the worst, stale old eggs that ever had been, whereas none of the eggs was more than 24 hours old, and many of them, as I have said, were not more than three hours old."

"When I cornered them on the freshness of the eggs, these yearners made all sorts of silly complaints. The trouble with them was that they wanted the eggs, but didn't want to pay for them. So they went back to fresh eggs from the cold storage plants—back to eggs that were six months old—and were happy, I hope."

"I had one customer who bought the eggs by advice of a physician. This man had two children who were convalescent after an attack of scarlet fever. The man was in fairly comfortable circumstances, and the physician told him the eggs were doing his children more good than anything else he could get. We were selling him the eggs at 40 cents a dozen, and when the price was raised to 45 cents a dozen this man was up in arms and refused to take any more. I suppose the children came around all right though, I never heard anything more about them."

"Complaints were also made that the eggs were too fresh. Would you believe it? I can show you letters received on that particular subject. The majority of them ran like this:

"Dear Sir—Will you please send us eggs in the future that are not so fresh? We do not like that milky curdle in them. Please keep them a few days before shipping and oblige yours, etc."

"I remember one note in particular that ran this way:

"Dear Sir—Your eggs are too fresh. Send nothing under a week old. If we cannot get what we want, will have to look elsewhere."

"Now, wasn't that encouraging for a man trying to satisfy the yearnings of New Yorkers for fresh eggs? I could give you many instances showing that New York was willing to buy all the fresh eggs you could send to town if you were willing to sell them at 15 cents a dozen. I have sold them as cheaply as 25 cents a dozen and had hard work to do that, so you cannot blame me for saying New York does not want fresh eggs if it has to pay a few cents more than is charged for stale eggs."

Your really asensible relatives never see any reason why they should not accept invitations unwillingly given.—*Atcham Globe.*

HEAD-ACHE

Is only one form of the suffering resulting from a diseased condition of the sensitive womanly organism. The only way to cure the headache is to cure the diseases which cause it.

The use of Dr. Pierce's Favorite Prescription has been the means of curing thousands of women of headache, back-ache, female weakness and other forms of disease peculiar to women. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures bearing-down pains.

HOTTEST PLACE ON EARTH

It is Bahrain, on the Southwestern Coast of Persia.

The hottest region on the earth's surface is on the southwestern coast of Persia, on the border of the Persian gulf. For 40 consecutive days in the months of July and August the mercury has been known to stand above 100 degrees in the shade night and day and to run up as high as 120 degrees in the middle of the afternoon. At Bahrain, in the center of the most torrid belt, as though it were nature's intention to make the place as unbearable as possible, water from wells is something unknown. Great shafts have been sunk to a depth of 100, 200, 300 and even 500 feet, but always with the same result—no water. This serious drawback notwithstanding, a comparatively numerous population contrives to live there, thanks to copious springs which burst forth from the bottom of the gulf more than a mile from the shore.

The water from these springs is obtained in a most curious and novel manner. "Machadores" (divers), whose sole occupation is that of furnishing the people of Bahrain with the life giving fluid, repair to that portion of the gulf where the springs are situated and bring away with them hundreds of bags full of the water each day. The water of the gulf where the springs burst forth is nearly 200 feet deep, but these machadores manage to fill their goatskin sacks by diving to the bottom and holding the mouths of the bags over the fountain jets—this, too, without allowing the salt water of the gulf to mix with it.

The source of these submarine fountains is thought to be in the hills of Osmond 400 and 500 miles away. Being situated at the bottom of the gulf, it is a mystery how they were ever discovered, but the fact remains that they have been known since the dawn of history.

BACHELORS.

Reasons Succinctly Stated as to Why They Are More Unhappy Than Are Married Men.

Are you aware that the married man endures far less physical trouble than does the bachelor? There is no question of this, and the explanation can be put in a few words. "It is not good for men to be alone," may be read in more senses than one. Loneliness is at the root of the bachelor's ailments. There is many a clerk, many a business man, or journalist, who will say that one of the most trying features of his unmarried life is to have to eat alone. And a premature dyspepsia is the only thing that ever takes him to his medical man. There are some few happily disposed individuals who can dine alone and not eat too fast, nor too much, nor too little. With the majority it is different.

The average man puts his novel or his paper before him, and thinks that he will lengthen out the meal with due deliberation by reading a little with and more between, the courses. He will just employ his mind enough to help, and too little to interfere with digestion. In fact, he will provide that gentle meal of companionship which with happier people conversation gives to a meal. This is our solitary's excellent idea.

In reality he becomes engrossed in what he is reading, and thinks that his chop could be demolished in a few mouthfuls, or else he finds he is hungry and paying no attention to the book, which he flings aside, and rushes through his food as fast as possible, to plunge into the armchair and literature afterwards. In either case the lonely man must digest at a disadvantage.

For due and easy nutrition food should be slowly taken and digested should not be intensely exercised during the process. Everyone knows that violent bodily exercise is bad just after a meal, and mental exertion is equally so. Wise people do not even argue during or just after dinner, and observant men after dinner speeches will convince any one that most speakers neither endure themselves nor excite in their hearers any severe intellectual effort.

In fact, the experience of countless generations, from the Red Indian of the woods to the white-shirted diners of the modern party, has perpetuated the lesson that a man should not eat alone, nor think much at this time, but should talk and be talked to while he feeds. Most people do not think much when they talk, and talking is a natural accompaniment of eating and drinking.

How does it fare with the many solitary women of to-day? No better we know, than with the men, but differently. Alone or not a man may generally be trusted to take food enough. (We suppose, of course, that he can get it.) With a woman, it is different. She is more emotional, more imaginative, and less inclined to realize the gross necessities of existence. Therefore, the woman doomed to dine alone as often as not does not dine at all.

Earning a Holiday.

As is well known, Daniel Webster was fitted for college by Rev. Mr. Wood at Boscawen, New Hampshire. He was a good student, and a favorite with his instructor, but his love of sport, particularly fishing, sometimes drew him away from his studies and brought upon him a reprimand. On one occasion Daniel had been fishing without leave, and as punishment one hundred lines of Virgil were given him to translate.

Daniel resolved to surprise his instructor; he did not go to bed, but sat up all night poring over his Virgil. The next day, when the hour of recitation came, he recited his hundred lines with fluency and correctness.

"Very well," said Dr. Wood, preparing to close the book.

"But, doctor, I have a few more lines that I can recite."

"Go on, then," said the teacher, supposing that the lad might have read twenty-five or thirty lines more. But the boy kept on until he had completed a second hundred.

"But," said Dan, "I have studied further."

"Very remarkable," said the minister in surprise; "well let us have them."

Dan rolled off another hundred lines, which he appeared to know quite as well as the previous two hundred.

"You are a smart boy!" said the doctor, approvingly, and not without a feeling of wonder for it is rather tedious to listen critically to the translation of three hundred lines.

"But," said Dan, "I am not through yet."

"Pray how much have you ready?" asked Doctor Wood, in amazement.

"I can recite five hundred more if you like," said Dan, his eyes twinkling with enjoyment at the doctor's surprise.

"I think that will do for to-day," said Doctor Wood. "I don't think I shall have time to hear them now. You may have the rest of the day for pigeon shooting."

And Daniel, rejoicing at the permission, went off to the enjoyment of his sport.

Flowers of Speech.

Picturesqueness of phrase is habitually to the Irish. The following "flowers of speech" are from Mr. Macdonagh's "Irish Life and Character."

An Irishman was asked in America how he was getting on. "Middlin'," he said "middlin', but fox. I rather be a gaslamp in Dublin nor President of the United States."

An Irish navy was complaining of his foreman. "He'd not stir a finger himself to lift a red herring off the gridiron, but he'd ask you to shift the Rock of Gibraltar."

Too Well Disguised.

"After all," suggested the cheerful one, "it may be a blessing in disguise."

"If so," returned the disgruntled one, "I may say that I never saw a more perfect disguise."

The rates to the Pan-American exposition have taken a sudden drop, and W. E. Rispin now announces via Grand Trunk and Wabash Rys. return tickets to Buffalo, on Tuesdays, Thursdays and Saturdays, at \$2.85 each, good to return six days from date. This liberal arrangement by the railways should induce a heavy travel to the exposition for the balance of the month.

While Conductor Pierce's train was coming into Wallaceburg last Saturday night about eight o'clock some unknown person threw a stone through one of the coach windows, smashing both sash and window. It was evidently the work of some unthinking lad who was standing at the side of the track when the train passed. Fortunately no one was sitting in the seat directly opposite the window which was struck, and no damage was done except to the window. Detective Skiving, of the Lake Erie Railway, is looking up the case, and the miscreant will be severely punished if caught.

More Glasses Are Worn.....

Now-a-days than ever before. No doubt of it. People used to think that the wearing of glasses should be put off as long as possible—it was an old age necessity only.

We know more now. We apply every known agency for the relief and cure of eye sickness—and there are methods in common use to-day which weren't heard of even ten years ago.

Now we commence to right eye-sight just as soon as it commences to go wrong. Now school children by the hundred wear glasses. And it's wise and proper.

RIDGETOWN THE ARENA

Here Various Contestants for Liberal Nomination will Fight it Out.

The Lists are Well Filled and the Contest Promises to Prove Real Exciting.

The Liberal political horizon of East Kent has been overcast for some time, in fact since the death of the late Robert Ferguson, M. P. P.

At one time the storm centre hovered around Blenheim when the contest for the Liberal nomination seemed to lie between R. L. Gosnell, Warden Von Gunten, James Rutherford, of Blenheim, and Dr. Simson, of Windsor.

The storm centre then moved to Ridgeway, where H. D. Smith and Malcolm Campbell were the candidates prospective.

Later violent atmospheric depression in the vicinity of Thamesville desisted, and then J. Howatt made his debut as a candidate.

The troublous conditions again shifted to Dresden, involving S. P. Sturgis, Dr. Wiley and R. P. Wright. Even Wallaceburg and Highgate were enrolled within the storm limits and the friends of David Gordon and Jonas Gosnell were busily engaged setting forth the respective claims of each.

These are only a few of the many whom rumor has it, are anxious to be candidates in East Kent. When last heard from the clouds were all focussed over Ridgeway, where a Liberal convention has been called for Monday, October 21st. Everybody is looking for the storm to break on that day, and from all over the riding eager eyes are being cast towards Ridgeway and great are the expectations of some. There are many in the constituency of East Kent who are enjoying the situation immensely and are anxious to see the fun when the storm breaks.

DEATH'S CALL

AGED Lady Passes Away—Interred in Maple Leaf Cemetery.

Elizabeth Jones, relict of the late Rev. W. H. Jones, who built the B. M. E. Church in this city, of which church he was pastor for a number of years, died in Cocomo, Ind., Friday night, and the remains were brought here for interment. Deceased was over 80 years old and was well known in this city.

The body arrived in the city yesterday at noon and was taken to the B. M. E. Church, where services were conducted by Rev. Mr. Richards. The funeral then took place to the Maple Leaf Cemetery, where she was buried beside her husband.

The funeral was very largely attended. The United Daughters, of which society deceased was a member, attended in a body.

Mrs. Jones' son, Rev. Masterston, of Cocomo, Ind., with whom deceased had lived for a number of years, attended the funeral. Mr. Masterston is well known in the city and as a boy worked for William and John McKeeough in the hardware business.

HOG CHOLERA

Prescription for Remedy Which Has
Been Used with Exceptional
Success.

Two prominent Raleigh farmers were called at The Planet office this morning. They brought with them a clipping from The Planet of some six years ago, which has been carefully preserved by a large Dover hog-raiser. This clipping furnished a recipe for the successful cure of hog cholera and has been put to practical and satisfactory use by the farmers of Kent county.

In view of its success and the continued recurrence of the malady The Planet was asked to re-publish the remedy, which this journal is well pleased to do.

The text of the clipping is as follows:—
Dr. J. T. Dodge, of Hamilton, Ill., gives the following prescription for use in cases of hog cholera:
Arsenic, one-half pound; cape aloes, one-half pound; blue vitrol, one-fourth pound; black antimony, one ounce. Grind and mix well the remedy before using.

The following are the directions for use:—

1. Sick hogs in all cases to be separated from the well ones and placed in dry pens with only five large hogs or eight small ones in each pen.
2. Feed nothing but dry feed, but no water only the slops containing the remedy until cured.
3. When hogs refuse to eat turn them on their backs, and with a long-handled spoon put the dry medicine down their throats.

4. Dose for large hogs, one teaspoonful three times a day for three days; then miss one day and repeat the amount until cured. Shoats or pigs one-half the amount.

5. As a preventative one teaspoonful once a week will keep your hogs in healthy condition to take on fat. I can place one well hog in a pen with one hundred sick ones and with this remedy keep him well.

6. Let no other stock but hogs have access to this remedy as it is to them a deadly poison.
Dr. Dodge adds that for many years he sold this recipe for \$5, and treated thousands of hogs at the rate of \$1 per head, paying the owner ten cents a pound for all that died after treatment began.

VISITOR TO
CANADA MILLS

Mr. Wyatt, of British Guiana,
Much Pleased with the fine
Local Plant.

Gives an interesting interview concerning the Country from which he
Hails.

Chas. Guy A. Wyatt, Georgetown, British Guiana, called at the Canada Flour Mills Co.'s office this morning. Mr. Wyatt represents the firm of Sandback, Parker & Co., of Georgetown, and his visit here was for the purpose of seeing the mills of the Canada Flour Mills Co., because it is the product of these mills that Mr. Wyatt's firm buys in considerable quantities.

The business man from the South was much taken with the completeness of the plant of the Canada Flour Mills Co. He watched with interest the coopers making barrels and said that the whole establishment was the most perfect he had ever seen.

Speaking of Guiana, he said: "The population of Georgetown is about 50,000. The colony of Guiana itself is larger than the British Isles, but it has a population of only 300,000, and of this population only about 5,000 are white people."

"The chief, and you might say the only industry, is the growing of sugar cane and its manufacture into sugar, rum and molasses. There is a tremendous amount of labor required for this business."

"The main market for the sugar is New York, and the country that takes the sugar practically supplies everything in the way of imports that the country requires. The Americans take nearly all the sugar, and as a result export tremendous quantities of goods."

"An effort has been made to introduce Canadian flour, but it is difficult to work up a trade. The New York flour has had the market so long that it has a hold hard to break. The American traders, too, do all in their power to stop the sale of the Canadian flour. During this trip, I have purchased a consignment of flour from the Canada Flour Mills Co. with whom we have been doing business for some time."

"The climate is tropical with two wet and two dry seasons each year, and the atmosphere is humid. The temperature shows very little change, varying only from 80 to 90 degrees Fahrenheit the year round."

Mr. Wyatt says that what the country needs is capital and population. There is plenty of room for both.

Theatrical

The Mendelssohn Male Quartette, No. 1, of the Lyceum Course, appears at the Grand to-morrow, night with J. Lincoln Newhall, first tenor, Maldwyn Evans, second tenor, Howard Stewart, baritone, baritone, Urban Leo Alkira, bass; Augustus E. Grimm, reader; Prof. E. A. Hendrickson, magician and shadowgraphist.

The list of talent, brilliant as this, contains no attractions of more splendid merit, or possessing more elements of genuine strength, than the Mendelssohn Male Quartette, assisted by Prof. E. A. Hendrickson, magician and shadowgraphist. Each man of the Mendelssohn Quartette, is an artist, capable of giving a series of interpretations of song recitals. They are unhesitatingly commended to all discriminating lovers of music, and to everyone desiring a high-class musical concert.

Prof. Hendrickson is an eminent magician and entertainer, who for a number of years has been before the amusement loving public. His performance is a refined exhibition of magic, interspersed with humorous situations which make every moment of the entertainment intensely interesting.

Ferguson and Mack and their big company of fun makers come to the Grand Opera House, the last two nights of the Penitentiary Fair, Wednesday and Thursday, Oct. 9 and 10.

The show is now in its twelfth edition and the proof of its popularity is that in twelve years Ferguson and Mack have not been compelled to change their play to gain business. A great many changes have been made in this year's edition, such as musical numbers of the latest compositions, novelty specialties, and funny situations, all new.

Ferguson and Mack's famous specialty, the Dimple Sisters, Dollie and Dotie, acrobatic song and dance girls, up-to-date, is one of the most ludicrous of wholesome comedy acts. Sent a new selling at Central Drug Store.

Barney Ferguson, the inimitable funny little Irish comedian, is said to be the originator of the bit wit, humor and acrobatic features now used on the dramatic stage and he more than sustains his world wide reputation in that most laughable of all comedies "McCarthy's Mishap" which was written and produced by him.

ABOUT
New Fall Overcoats

The overcoats for fall and winter have an unmistakable air of swiftness. No past season has given us models more full of distinction than these long, boxy, comfortable and easy fitting overcoats.

We are showing eighteen distinct styles of overcoats, all of them fresh from the factory. The shapes range from a semi-loose Chesterfield that conservative dressers will like, to the big long raglan bodied garments, plain, that are the acme of the present mode for young men. Materials are thoroughly representative of the best imported fabrics.

For the season's opening we submit an outline price-list, just to help customers realize how many sorts of snug top garments are waiting here for their selection. All these coats are made in a large range of sizes, and most of the linings are made of black wool, Italian or heavy wool check with glassade sleeve linings.

Gray and
Black
Cheviots

Young men's fashionable fly front overcoat of cheviot. This style is cut very long and full with loose back. Silk velvet collar, raised seams, a swell coat in every detail. \$10.00

We have two shapes in one natty material—a very dark, smooth finished oxford. The first is a medium length coat with raised seams and double stitched edges, the second a much looser cut with silk velvet collar. Both extra well made and lined. \$10.00

Very fashionable coat of dark gray cheviot, cut long and full to the knee. This style has two button vent in sleeves, none in the back, fine checked wool lining with satin poke and satin bound facings. Sells at. \$13.00

The swiftest garment on our list. Heavy rough faced oxford cheviot cut in full raglan length and with vertical pockets. Sleeves plain at shoulders. Full cuffs, silk velvet collar, velvet pockets, finest trimmings all through. \$13.00

Another long coat with rather less fullness than the above is made from an extra grade dark gray cheviot, similar trimmings, silk facings and velvet collar of fine quality. \$15.00

Beaver
Cloths

Fly front coat of smooth surfaced blue or black beaver cloth with single stitched edges, plain seams and plain pockets, vent in back, medium fullness and length. This coat comes in all sizes from 33 to 44 inches. A positive marvel at the price, which is. \$5.00

Single breasted coats in a fine grade of blue beaver excellently trimmed. Sizes in this line range from 33 to 44. \$8.00

A double breasted coat in one material. This is a thick, handsome dark blue beaver, cut fairly long and wide with plain sleeves, vent in back and silk velvet collar. A very close price. \$7.00

Extra fine blue beaver. A fly front coat of medium fullness and length. Made with 2-button vent in sleeve, back vent, raised seams and double stitched edges, regular pockets, silk velvet collar. \$10.00

In a similar shape we have a fine and silky black beaver, a cloth good enough for a much higher priced coat. \$10.00

Another medium shape. The finest black beaver with very high grade trimmings and collars of extra quality silk velvet. \$12.00

Ourl
Cloths

Fly front coat of rather shaggy black curl. This will be a popular winter coat, especially with men who have to be in the open. It is a medium cut—not too loose to be very warm—and is made with vent in the back, regular style pockets, plain sleeves, plain seams, single stitched edges, silk velvet collar and trimmings built for service. \$6.00

Short, close black curl in lambs-wool effect. Average length and fullness. Sleeve vents and silk velvet collar, seams stitched at each side, first-class trimmings. A single breasted fly front coat and an extra plump offering at. \$10.00

Coat of close, very dark gray curl, silk faced to the bottom and with silk velvet collar. Cut with but moderate fullness, has 2-button vent in sleeve and vent in back. Elegant trimmings all through. Single breasted. \$12.00

Fine Underwear

Here's about the nicest thing we have in a soft, springy all wool line of underwear.

Fine natural wool with the always comfortable French neck, ribbed skirt and wrist, cashmere facings. The drawers are trouser finished with fine sauteen trimmings.

Sizes 36, 38 and 40 at \$1.00 per garment.
Sizes 42 and 44 at \$1.10 per garment.

WANTS RELEASE

Convict from this City is Making Application for Leave of Absence.

The Chief of Police has received a communication from A. P. Sherwood, Commissioner of Police asking for information concerning Frank Harrison, alias Stevens, who was sent down by Judge Bell on March 9th, 1899, for 25 years, on the charge of forging Dominion bank notes.

It will be remembered that Harrison raised one dollar bills to \$19 by passing an X cut from a tobacco stamp over the one. He passed a number of these bills on the merchants of the county and was caught attempting to pass one on Neil McCorvie, Mull.

Harrison is now in poor health and is applying for ticket of leave. The petition states that his brother Caleb Stevens is willing to provide a home for him, and the Commissioner of Police is asked to grant him a ticket of leave.

"SAINT" CZOLGOSZ

Will Harangues at an Anarchist Meeting in London.

London, Oct. 7.—A fairly numerous meeting of Anarchists was held yesterday in a hall in Tottenham Court Road, London, to hear a lecture on the assassination of President McKinley by H. Kelly, of New York. The audience, largely composed of foreigners, applauded all reference to "Saint" Czolgosz and his "meritorious" act. The speakers included Enrico Malatesta, the Italian Anarchist, who described the assassination as "a deed of heroism." Kelly's lecture was a wild harangue in denunciation of Mr. McKinley's political career. He declared that they did not try to justify assassination, but rather to explain it as the outcome of "the oppression of workmen by capital." "If the killing of McKinley opens the eyes of the capitalists and induces them to treat the working people better," cried the agitator, "then great good will have been done."

CABINET VACANCY

Senator Templeman, it is Said, Will Likely be Called Upon to Fill it.

Ottawa, Oct. 6.—The Free Press (Lib.) says—The man who stands the best chance of receiving Sir Wilfrid Laurier's invitation to join the government, in the vacancy caused by Sir Louis Davies' retirement, is Senator Templeman, of Victoria, B. C. The Free Press has pretty positive assurance to fill the vacancy in the cabinet is recognized as the oldest and most prominent Liberal on the Pacific coast. If he should not feel like removing to Ottawa the offer may be made to Asley Morrison, the popular young member for New Westminster. He has not had Mr. Templeman's long political experience and has not made the same sacrifice for his party, but he is same liked by all who know him. It is said that Senator Templeman's election would be very popular among the working men of the coast. Perhaps we shall hear how matters are to go when the Prime Minister gets back from British Columbia.
