A WOMAN IN THE CASE !

A woman was at the bottom of it. She said to her husband, "Why don't you go to MEYNELL'S and see what kind of CLOTHES he has, anyway, instead of paying such high prices to have them made?"

The man came, doubting at every step. Said he didn't think we could fit him, but just wanted to look around for curiosity. We persuaded him to try on a coat, and, of course, easily convinced him that his ideas of ready-to-wear clothes were all wrong.

There are not only different sizes, but different cuts—for the Stout Man, the Slender Man, the Tall Man, the Short Man, so that it is now the exception rather than the rule not to be fitted in our ready-to-wear clothes.

THE KING'S DAUGHTERS

Annual Meeting of This Society Held on Tuesday Afternoon

AN EXCELLENT REPORT

The annual meeting of the Brooke Circle of the King's Daughters was held at the home of Mrs. W. E. McKeough, on Tuesday afternoon, May 1st. The following were the officers elected for the ensuing year:—

Mrs. W. E. McKeough, President, re-elected.

Mrs. J. C. Bitchard, Vice-President, re-elected.

Mrs. Edwin Bell, Treasurer, re-elected.

Mrs. C. Kellar, Recording Secretary.

Mrs. D. S. Paterson, Corresponding Secretary.

PRESIDENT'S ADDRESS.

It is usual for the president of the Brooke Circle to have a report at the annual meeting, but as the Secretary's and Treasurer's reports are so full and comprehensive, they leave little for me to say.

During my term of office as President of the King's Daughters' Society, courage has come to me in carrying on the work of the society through the generous assistance of an excellent and energetic band of officers and members. I feel that the work of the society could not have succeeded had it not been for your loyal support, for when I called on any King's Daughter to do her part, I was satisfied that if it were possible it would be faithfully attended to. I have enjoyed the work of the society very much, and I feel assured that our efforts have been the cause of making some lives happier and better and more comfortable than had been the case before. Our motto is, "What ever thy hand findeth to do, do it with thy might."

Now, I would like to urge the members to attend the Thursday afternoon services at the Home of the Friendless, to which the inmates look forward always with such pleasure, as I feel that whenever I go I receive a blessing, and I am sure you would be likewise blessed. You will be glad to know that the society has had a prosperous year. The secretary's and the treasurer's report will give you the details of our work.

I wish to thank sincerely the vice-president, the secretary, the treasurer, the corresponding secretary, and all the members of our Circle for their kindness to me and the encouragement given me during my term of office.

Yours, in His name,
M. A. McKEOUGH, President.

SALVATION ARMY

Commissioner Coombs will be in the Opera House on Sunday, May 6th, 3 p. m.—Lecture: The yesterday, To-day and To-morrow of the Salvation Army.

7 p. m.—The Shadow of the Cross, illustrated by colored stereoscopic views.

M. Hyuston, Esq., P. M., will preside.

THE HOLY CITY

More interest is being taken every day in the engagement of "The Holy City," which plays the Grand next Thursday evening. Already Manager Brisco has received orders for tickets from nearly all the nearby towns. Extra and special electric cars have been arranged for to carry the crowd from Wallaceburg and intermediate points.

To-night "The Holy City" Company is playing at Hamilton, and the interest that has been displayed there is wonderful, all seats being sold three days in advance of the appearance of the company.

IMPOSSIBLE.

You say that you conceal nothing from your wife?

Absolutely nothing.

And why do you not?

It is very evident that you do not know my wife.

THE COUNCIL HAVE TO FACE THE QUESTION OF A DEFICIT

Statements Made by The Planet in Reference to Overdraft of Previous Councils Seems to be Verified by the facts.

ALDERMEN PREMATURE IN CRITICIZING THE PRESS

The civic deficit, overdraft or debt, as it may be chosen to term it, over which some of the aldermen made such ado a short time ago, is still pretty much of a mystery. At a Council meeting some days ago a number of the aldermen complained of certain statements in the press with regard to a deficit, claiming that such were unfounded.

Since that time there have been numerous conjectures as to where the information contained in The Planet came from. The City Treasurer was amazed and perplexed to know how The Planet got any inkling as to the drafting out of the financial statement, as such was to have been kept on the quiet until such time as a full investigation was made into the state of the city funds. Finance Minister Scullard himself does not know where this paper got its information. He kept the report of the treasurer to himself and did not show it to anyone. Then came the announcement in this paper that there was a deficit left over from last year. The following night, at a Council meeting, Ald. Austin got a peep into the treasurer's report while Ald. Scullard was occupying the chair, and announced that the press report was all wrong, as the treasurer's statement showed the assets to exceed liabilities by \$6,283. This statement was received with much satisfaction by the members of last year's Council.

THE RAILWAY COMPANY WILL STRENGTHEN THIRD ST. BRIDGE

The Whole Question is Now Settled to the Entire Satisfaction of Both the Company and the City Council

THE QUESTION OF A NEW BRIDGE IS LAID OVER

The Third street bridge matter, which has been the bone of contention between the city and the Electric Railway Company for some time, has at last been settled to the satisfaction of both parties concerned. A special meeting of the Council was held yesterday afternoon, at which representatives of the railway company were present, and the whole matter was gone into thoroughly, and it was not a difficult matter to arrive at an amicable settlement. The upshot of the discussion was that the company will now proceed to strengthen the old bridge according to the plans which they have submitted to the aldermen, and which have been approved of by the Council. The matter of a new bridge has been laid over for the present.

The meeting of the Council last evening was to finally pass the resolution which would settle the whole question. Every member of the Council was present with the exception of Ald. Thompson.

The following motion was submitted, moved by Ald. Bensen, and seconded by Ald. Austin:

1. That this Council approve of the plans and specifications hereto attached of John S. Fielding, Bridge Engineer, for strengthening Third street bridge in the city of Chatham, which have been submitted by the Chatham, Wallaceburg & Lake Erie Railway Company, subject to the changes recommended by the City Engineer in his report thereon and attached hereto.

2. That an agreement be entered into with the said company to widen the roadway of the approaches of said bridge on both sides of the river from the curb to the west side to the edge of the retaining wall on the east side and to erect on the east side thereof a four and a half foot board sidewalk on iron or steel brackets attached to said retaining walls, the cost of said work to be borne by the city and company in equal proportions, and the said work to be done if the Council at any time after one year from this date should decide that it is in the public interest so to do.—Carried unanimously.

After the passing of the motion, Senator Lilly, who was in the audience, addressed the Council. He stated that he was very grateful to the Council for the courtesies the company had received at the hands of the aldermen, and assured them that the company would strive to conscientiously follow out the terms of their agreement, and if the company had neglected to do anything stipulated in their agreement, all they—the city—had to do was to mention it and it would be done. He said that the company had, perhaps, been treated as well as they deserved.

The Council has been very careful to see that they carried out every clause in their agreement. All the company asked of the city was fair treatment.

The company is now anxious to secure the \$35,000 loan, and the question of security will come up for consideration. The Senator asked the city to accept as security the bonds of the company, to the amount of \$40,000.

The majority of the aldermen were of the opinion that they should receive the advice of the City Solicitor before they made any such agreement. The security provided the city for a loan of so much money, is too serious a question to be settled on so short a notice.

Mr. Lilly was perfectly satisfied with this arrangement and, in fact, although he wanted the matter settled as soon as possible, urged the Council to give the question as much deliberation as they thought necessary. He wanted every one of the aldermen to understand the situation thoroughly before they took any action.

The City Solicitor will be consulted and the matter will be acted upon at the meeting to be held next Monday evening.

INTERVIEW BOARD OF TRADE

The Thames River Angling Association, branch of the Ontario Fish and Game Protective Association, with headquarters at Toronto, held their regular monthly meeting in the Foresters' Hall with a good attendance last night.

Twelve new members were added to the association.

A committee of four was appointed to interview the board of trade relative to having them report to the department as to the evil that is being done down the river by the fish that should, the association thinks, belong to the people of Western Ontario, being sent to other points.—London Free Press.

THE CAUSE OF SWEET CHARITY

Many Subscriptions Have Been Received towards Vendassal Fund

A SPLENDID RESPONSE

The following is the list of the contributors toward the Vendassal fund up to date. The splendid sum of \$146.91 has been subscribed, which, it is thought, will be ample to provide for the transportation of the bereaved family to their native land. Much credit is due Fireman Robert Coyle, who was the leading spirit in the canvass made for the fund. Mr. Con. Shea also lent a helping hand. These gentlemen are deserving of the highest praise for their unselfish and noble efforts in the cause of charity. CHATHAM NEXT

Rev. A. H. MacGillivray has returned from Brantford, where he has been attending the meeting of the Synod of Hamilton and London. The Synod was in session from Monday until Wednesday.

This Synod meets every year before the meeting of the General Assembly. Mr. MacGillivray was successful in having Chatham named as the meeting place next year. This will mean that there will be about 150 visiting ministers and as many Elders here during the days on which the meeting will be held.

INTERNATIONAL BIBLE LESSON FOR TO-MORROW.

The Parable of the Tares—Matt. 13, 24-30 and 36-43. Read Matt. 25, 31-46.

Golden Text—"Whatsoever a man soweth that shall he also reap."

This is another parable to teach Jew and Gentile that the kingdom of Jesus and His disciples preached was not the temporal one, expected by the nation, and which is yet to come, when this present dispensation closes—see verse 43—and for which we daily pray, "Thy kingdom come, Thy will be done on earth as it is in heaven."

Compare this lesson with our last. There we had one sower, one seed—the Word of God—and four varieties of soil—in humanity—and only one of the four soils fruitful. Today we have two sowers and two seeds, one field, two growths and two destinies. Our Lord tells us the one sower is Himself.

Verses 37-43—His field is the human race, the world. His good seed those born of God, children of the King, a royal seed.

Verses 38-40—The other sower an enemy, the personified devil, sowing his seed of "the Christless counterfeit," amongst those who have the Holy Spirit and are genuine. The servants and reapers are God's ministering spirits and His harvesters, the great harvesting described in Matt. 25, 31-46—then this mixed dispensation ends, and the eternal separation begins.

Verses 41-43—Let the teacher contrast San Francisco and heaven, in the last two verses. The fire, the weeping, the death and despair, with the brightness and glory.

Unfortunately, some of God's seed before maturity act and look so like tares, and tares resemble so closely in their appearance the genuine wheat, that none can be trusted to single out the ungodly for destruction but the Judge of All.

Note, we are going to the judgment seat of Christ either as wheat or tares. God has given us a perfect freedom of choice, nay, has even "commanded men everywhere to repent and believe," and "will not the death of a sinner." God's mercy in Christ Jesus awaits every tare who will receive the seed, the word, into an honest and good heart and hold it fast. See Luke 8, 15.

Remember, we are not part wheat and part tares, part genuine and part hypocrite, part true and part false. We cannot serve two masters; we are either children of God or of the evil one.

"THE HOLY CITY."

The following short letters are from Clergymen in different places re the production, "The Holy City." The first one is from the Arch Deacon of Kansas, to Rev. Morony, Rector of Saint Timothy's Church, Iowa, Kansas. Used by permission:—

Arkansas City, Kans., Feb. 8, '05. My Dear Mr. Morony:—

You will enjoy "The Holy City." Go and take your friends with you. Mr. Richmond, agent of Company, says, "extend an invitation to any of the ministers whom you may meet."—Fraternal yours, C. B. Crawford, Arch Deacon of Kansas.

Chanute, Kans., Feb. 10, '05. To Whom it May Concern:—

Have seen "The Holy City" and admired it for its impressions and the practical lessons it contains on "the beginning of Christianity." It appeals as forcibly to the public as the strongest sermon on the same subject, and in advising you to patronize it I feel you will be remunerated.—John J. McInerney, Rector St.

A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for rectifying all the woman's functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down distress in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so disagreeable and weakening, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the ravaging taint and the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and vitality, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bond and add sunshine where gloom and despondency had reigned before.

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sealed envelope, absolutely free. Address him at Buffalo, N. Y. Dr. Pierce's Pleasant Pellets do not gripe. They effectually cleanse the system of accumulated impurities. The People's Common Sense Medical Adviser, by Dr. Pierce, 1608 pages, is sent free on receipt of stamps to pay expense of customs and mailing only. Send 51 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address as above.

Success may come from hard work, but that does not prevent it being called luck.

One of Three Things Always Cause RHEUMATISM

Do you know the system rides itself of waste matter through bowels and kidneys? Yes, but by the skin as well.

As a matter of fact, the skin rides the system of more urea than the kidneys do.

If the skin, or bowels, or kidneys are unhealthy—they won't throw off enough urea. This urea is changed into uric acid—carried by the blood to joints and nerves—causing Rheumatism.

One never inherits Rheumatism. One does inherit weak kidneys, irregular bowels and bad skin action.

Fruit-a-tives

OR "FRUIT LIVER TABLETS"

will positively cure Rheumatism because they increase the eliminating action of skin, kidneys and bowels—and make these three organs so vigorous and healthy that there can be no urea or waste retained in the system to poison the blood and irritate the nerves.

FRUIT-A-TIVES are fruit juices, combined with tonics—the whole forming the most effective cure for Rheumatism.

50c. a box or 6 boxes for \$2.50. Sent on receipt of price if your druggist does not handle them.

Independence, Iowa, Jan. 4, '05. To Whom it May Concern:—

I have witnessed with much pleasure and profit the presentation of "The Holy City," by the Gordon & Bennett Co. It is in my judgment a play which is in every way worthy of the patronage of Christian people.—Chas. J. Schutt, Rector (Dean of the Waverly Deanery).

Fairfield, Iowa, Jan. 17th, '05. To Whom it May Concern:—

I have witnessed with pleasure and profit the presentation of "The Holy City," by the Gordon & Bennett Co. It is a reverent and artistic presentation of Scripture "truth" and makes a deep impression on the mind. The Gospel story as thus told vividly before the eyes can only do good. Through it "Christ is preached." Yours sincerely, Alex. Corkey, Pastor of the First Presbyterian Church.

The most of them are also enjoying the bread three times daily, and those who are not doing so, can easily find the opportunity, as nearly every grocer in the city is now handling it. The continued growth of its sales is the best proof of its good qualities.

A number of persons have been complaining of the practices of young men and boys who have been in the habit of casting stones and other missiles from the city bridges at passing launches. Last Sunday a gentleman going up the river in a launch was struck in the head by a missile thrown by a boy, who was standing on the C. P. R. bridge. An endeavor will be made to secure the names of the offenders, and it is likely that informations will be laid at Police Court.

PASSED AWAY

The death occurred at his late home in Pain Court to-day of Antoine Primeau, a respected Dover Township resident. The late Mr. Primeau came to the city last Thursday, apparently well and in good spirits. On returning home the same day, he was taken suddenly ill, and his condition grew steadily worse up till the time of his death.
The deceased was 37 years of age, and was a brother to Henry Primeau, formerly proprietor of the Urban fur store in this city. His wife predeceased him two years ago. The funeral will take place Monday to Pain Court cemetery.

THEIR ULTIMATUM

Britain to the Sultan of Turkey Presents Last Word Before Naval Demonstration—Has No Friends.

London, May 5.—The British Ambassador at Constantinople, Sir Nicholas R. O'Connor, yesterday presented a note to Turkey demanding the prompt withdrawal of the Turkish troops from Egyptian territory.
The note constitutes Great Britain's last word on the encroachment of Turkey on the Sinaite Peninsula. The French and Russian Ambassadors at Constantinople are supporting the British contentions.

Should the ultimatum fail to have the desired effect, the British Mediterranean fleet will take the pleasure so often employed by the powers in recent years as the result of dispute with the Sultan, and a naval demonstration, it is anticipated, will quickly bring about the evacuation of the Tabah territory.

Cabinet council was held late yesterday afternoon to discuss the eventualities which possibly may arise as a result of the ultimatum.
The correspondent at Constantinople of The Times telegraphs as follows:
"There is absolutely no evidence here of any German intrigue. In fact on more than one occasion the German Ambassador has told the Grand Vizier that the only sensible thing for the Turks to do was to evacuate Tabah as speedily as possible."

Struck With Baseball Bat.
Windsor, May 5.—A baseball game between two nines of young colored men at Williams' Park broke up in a row, and Wm. Hines, colored, lies at his father's home with injuries that may prove fatal. Turner was arrested at the ferry, and was remanded for a week.

Electric Railway Extension to Lake Erie to be Started Immediately

A TRIP OF INSPECTION

President Kipp, Hon. M. E. Lilly, General Manager Warburton, Mr. Kizer, C. E. Hill and other officials and magnates of the C. W. & L. E., made a trip of inspection over the line between here and Wallaceburg this morning. Hon. Mr. Lilly acted as motor man pro tem., and the officials all expressed themselves as highly satisfied with the solidity and good condition of the roadbed. The trip to Wallaceburg was made in 45 minutes.

On their return from Wallaceburg, Mr. Lilly was interviewed by a Planet reporter. Asked as to when the extension to Lake Erie would be commenced, the genial congressman replied:

"The Lake Erie extension will be commenced at once, you understand, not to-morrow or the next day, but just as soon as things can be gotten under way. We have rights of way to secure, bridges to build and other matters which must first be attended to. But the extension to the lake will be begun as soon as it is possible to commence operations."

"All that has been holding us back was the matter of arriving at a settlement with the city authorities in the Aberdeen bridge matter. That matter has been disposed of to the satisfaction of the railway people, and everything will now progress nicely. The streets over which our tracks run will immediately be put in proper shape, and schemes will be drawn up for the extension of the road. You understand, this eighteen miles of track we have now laid down, is only the beginning of what our road will eventually be. We will run feeders and side lines to it from all parts of the country."

"You might add that I am more than pleased to again visit your beautiful city and meet with its progressive officials. I must say that we have received very courteous treatment indeed, and we appreciate the business-like and progressive spirit which seems to abound here."

WAS DISCHARGED

John Mawby, who was committed for trial by Magistrate Greenwood, of Blenheim, on a charge of horse stealing, was brought before Judge Dowling this morning for trial in the County Judge's Criminal Court.
The horses having been restored to their owner and matters arranged between the parties directly interested, the Judge being of the opinion that the case belonged to the Civil Court rather than to the Criminal Court, Mawby was discharged. He entered a plea of not guilty, and this was consented to by the Crown.

GOVERNMENT MEASURES

Debate on Mr. Monteith's Bill To Prevent Fraud

CLEAN CHEESE WANTED

Toronto, May 5.—At yesterday's session of the Legislature Mr. Dunlop was granted leave to introduce a bill to permit the Pembroke Southern Railway to extend from Pembroke to the new military camp at Petawawa.
The Premier spoke of the importance of the matter. If the railway was not extended it would be necessary for the Grand Trunk to transport troops at Petawawa. Under ordinary circumstances it would not be advisable to allow the rules to be transgressed, but it was a Dominion matter, and concerned the convenience of a large number of the militia. He read a telegram from the C. P. R. that it offered no objection. The new line, it was explained, would parallel the C.P.R.
The bill was read a first time.
Confirms Soo Guarantee.

Hon. Col. Matheson introduced a bill to confirm an agreement entered into between the Government and the Canadian Improvement Co. This refers to the renewal of the guarantee of the Soo loan.

John Smith (Peel) introduced a bill respecting the settlement of boundary lines and double first concessions.

The House passed 18 bills, several of them being important Government measures.

Downey's Woodlands Bill.

In committee the House considered Mr. Downey's bill providing for the exemption of woodlands from taxation. The Premier was opposed to the principle of the bill, but did not think any harm would come by allowing it to pass. Nothing more disastrous could happen than that the municipalities should take advantage of the provisions of the act. It was hoped that in the future an extensive scheme of provincial forestry might be adopted, and this minor scheme might interfere with it. However the act could be repealed.

Mr. Craig withdrew his bill to amend the Public Schools Act at the request of Dr. Pyne, who promised to provide for the inspection of pupils' teeth in the public school regulations.

Fraud in Cheese-Making.

Hon. Mr. Monteith's bill to prevent fraud in the manufacturing of cheese and butter was discussed in committee. Mr. Graham said he had received a letter from a dairyman in Eastern Ontario who approved of the principle of the bill, but did not think that one inspector for that part of the province would be sufficient.

Hon. Mr. Monteith explained that the inspectors would be wholly independent of the Health Department. It was the intention of the Government to remodel the Health Act, and it would then be possible to harmonize any little differences.

Mr. Dargavel, who is treasurer of the Eastern Ontario Dairyman's Association, spoke of the importance of the industry to the eastern part of the province. The bill was in the right direction. There should be rigid and adequate inspection of cheese and butter factories, as some of the product exported to England had been shown to be of an inferior quality.

Mr. Ferguson (Greenville) did not think the bill went far enough. The great trouble was the uncleanness of the stables, cheese factories and utensils, and the manufacturing of cheese produced from fodder out of season. Until conditions were improved we could not hope to compete with the continent in the manufacturing of cheese.

Mr. McMillan (Glengarry) hoped the Government would install machines to measure out the whey and compel farmers to remove it from the premises.

Cured of Drunkenness

How a Montreal lady cured her husband of drunkenness with a secret home remedy.

"I want to tell you that tasteless Samaria Prescription has entirely cured my husband of drunkenness quickly and simply that I am astonished. How glad I am that I confided in you and wrote for your free sample package. The sample tablets I got from you checked his drinking, and before I had used the full treatment he was permanently cured. I gave him the remedy in his tea, and as it had no taste or smell, he never knew he was taking it. I want others to know that you can use this letter, but please not my name yet. I may say that my husband's health is better in every way than for years."

Free Package and pamphlet giving full particulars, testimonials and price sent in plain sealed envelope. Correspondence sacredly confidential. Address THE SAMARIA REMEDY CO., 31 Jordon Chambers, Jordan St., Toronto, Canada.

TEMISKAMING AND NORTHERN RAILWAY COMMISSION.

PUBLIC SALE OF TOWN LOTS

"The Temiskaming and Northern Ontario Railway Commission will offer for sale by public auction at Cobalt, in the District of Nipissing, on Thursday, May 17th, 1906, at three o'clock p. m., about 40 lots, situated in the town site of Cobalt, together with the mining rights thereon.

The Commission will also on Friday, May 18th, at eleven o'clock a. m., offer for sale by public auction at Englehart, (divisional point and formerly known as the White River crossing), about 100 lots, situated in the town site of Englehart.

In connection with the latter sale, train service will be provided, leaving New Liskeard at eight o'clock a. m., May 18th, returning to New Liskeard same day. Arrangements will also be made by which parties attending sale may obtain refreshments.

Further terms and conditions of sale will be made known at the time of sale.

Terms of payment—Twenty-five per cent. of purchase price must be paid at the time and place of sale and the balance within thirty days thereafter.

To wilful men the injuries that they themselves procure must be their schoolmasters.

A chief feature of a beauty show now prevalent is the absence of good-looking exhibits.

THREE TRYING TIMES IN A WOMAN'S LIFE

There are three periods of a woman's life when she is in need of the heart strengthening, nerve toning, blood enriching action of

MILBURN'S HEART AND NERVE PILLS

The first of these is when the young girl is entering the portals of womanhood. At this time she is very often pale, weak and nervous, and unless her health is built up and her system strengthened she may fall a prey to consumption or be a weak woman for life.

The second period is motherhood. The drain on the system is great and the exhausted nerve force and depleted blood require replenishing. Milburn's Heart and Nerve Pills supply the elements needed to do this.

The third and most change of life is when

A GOOD EXAMPLE

How a Young Man Made a Success of Life With a Very Modest Start

Rothwell & Co., the real estate subdividers and sellers of vacant property by lots, in a recent interview, with one of the Detroit dailies, among many transactions tell of how a young man started in a small investment, and is now well off. A Mr. E. A. Lawrence, ten years ago, bought through this firm a vacant lot on the corner of Michigan and Griffith avenues for \$1,000, and paid all the ready money he had saved down, \$300. He had a fair situation, but by economy and by having an object in saving, he paid on the lot an average of \$25 per month. It was not long before he had a half paid; he built a neat cottage on the rear end of the lot, moved in and saved house rent, which he applied on his purchase and building. In three years he had it paid for, and he then built a small store on the front part, in which his wife and son opened a grocery, the father maintaining at his work, and in three years he had it all paid for. The business was a success, and they made money, and two years ago he bought two more, and paid cash for them. Last year he bought another lot for \$600, and last week he bought two more lots and paid half cash, and to-day he is not worth a cent less than \$15,000. He remarked to Mr. Rothwell a few days ago that he laid his success to Major Rethwell for urging him to buy the lot, and he brought his son with him into the office. His son was just recently married. The father, in presenting him, said, "I want my son to buy a lot, and to start just as I did. He has \$25 to pay down and he will pay ten dollars per month." No doubt the son will become well off, for he has some object in view now to save his dollars.

Why do not more of our citizens encourage their sons in the same way?

STANDARD OIL CO.

Commissioner Garfield's Report is Very Outspoken Regarding the Octopus—President Roosevelt.

Washington, May 5.—Commissioner of Commerce and Labor Garfield has submitted a report on the oil industry, which has to do with the subject of transportation and freight rates. He says in part:

"The general result has been to disclose the existence of numerous and flagrant discriminations by the railroads in behalf of the Standard Oil Co. and affiliated corporations. With comparatively few exceptions, mainly of other large concerns in California, the Standard has been the sole beneficiary of such discriminations. In almost every section of the country that company has been found to enjoy some unfair advantage over its competitors, and some of these discriminations affect enormous areas.

"Discriminations in the transportation of oil embracing a variety of forms, the more important of which may be classed under the following heads: 1. Secret and semi-secret rates. 2. Discriminations in the open arrangement of rates. 3. Discriminations and rates of shipment. 4. Discriminations in treatment of private tank cars. Many of the secret rates discovered by the bureau of corporations have applied only on shipments of oil wholly within single states. The Standard Oil Co., which controls refineries in twelve states, is obviously in a position to make extensive use of such intra state rates, or as they are ordinarily designated, single state rates."

President's Comment.

President Roosevelt submitted Commissioner Garfield's report to Congress yesterday and accompanied it with a message, in which he said: "Though not bearing upon the question of railroad rates, there are two measures, the consideration of which is imperatively suggested by the submission of this report. The Standard Oil Co. has largely by unfair or unlawful methods, crushed out home competition. It is highly desirable that an element of competition should be introduced by the passage of some such law as that which has already passed the House, putting alcohol used in the arts and manufactures upon the free list. Furthermore, the time has come when no oil or coal lands held by the Government, either upon the public domain proper or in territory owned by the Indian tribes, should be alienated."

An Indignant Denial.

New York, May 5.—When the President's message, with the accompanying report of Commissioner Garfield, was received at the office of the Standard Oil Co. in New York, Mr. E. Elliott, general counsel of the company, was asked what reply he came to make. He said, in part: "It is difficult to comment hurriedly and with due restraint on the astonishing report of Mr. Garfield. We must, however, in justice to ourselves and our shareholders, immediately express our unbounded surprise over Mr. Garfield's report and our unequalled declaration that it is absolutely unfair and unjust toward us. We do not hesitate for a moment to say that an unprejudiced study of the facts presented by us to Mr. Garfield's investigators will vindicate us absolutely. In this statement we make no reservation."

The Standard Oil Co. is at St. John, N. B.

May 5.—Henry McKeown-shifter in the injured yesterday through the sources. The

SOCIETY

Mrs. Morris, of Montreal, returned to her home on Wednesday, after visiting Mrs. Geo. T. McKeeough, Head street.

Mrs. (Dr.) J. W. Gray, St. Catharines, held a delightful reception at her residence this week, and was assisted by her mother, Mrs. J. M. Pike, of this city.

A number of her friends tendered Miss Pearl White a duster shower on Tuesday evening, at the home of Mrs. Milton Bogart. A very pleasant time was passed and at the conclusion of the entertainment a vote of thanks to the host and hostess was passed.

Manager Brisco has secured Gordon & Bennett's most impressive drama, 'The Holy City,' to play the Grand next Thursday. Lovers of the dramatic art and people of artistic taste will find in the play a combination of scenic, musical and dramatic features unequalled by any other production on tour. To the person of education and refinement, the fine language of the piece and its great historical worth will especially appeal. All Chatham's society should, and no doubt, will be present at the Grand next Thursday evening.

BOOKS AND MAGAZINES

The May number of The Quiver opens with "Children's Classes," by Bella Sidney Woolf, in which is given short sketches of such well known books as "Little Women," "Black Beauty," "Misunderstood and their Authors," "The Vicar's Stories," "A Novel Hospital Ship," "After Twenty-five Years," "Dr. Horton and His People," "After a Year of Blessing," "The English Mayor of Philadelphia," "Mistakes in Home Nursing," "Several stories and the usual departments all contribute to keep this number up to the high standard which is always to be found in The Quiver, which is published by Cassell & Co., New York. Subscription price \$1.50 per annum.

McClure's Magazine for May in addition to its sterling text, headed by the first of the Kipling stories and the Life Insurance article, is one of the best illustrated numbers of any periodical that has been on the stands in a long time. The following well known artists appear in its pages: Andre Cassaigne, Jacksons, Tenn, Ditzler, Lowell, Wyeth, Taylor, and Sloan. In addition Prof. Woodberry's valuable essay on Milton is illustrated with good reproductions of rare portraits of the great poet.

The Review of Reviews, more than any other monthly magazine published, deals with the news of the month. "California's Catastrophe," "George F. Baer: Master-Spirit of the Antitrust Industry," "Municipal Ownership in Chicago," "Railway Rates and Court Review," "Congress and the Consular Service," "From New York to Paris by Rail," and "The New York Post Office" are among the titles of articles in the May number.

Twenty-two persons contributed to the varied table of contents in the May Canadian Magazine. Stories, sketches, poems, sporting articles, bits of history and more serious material make up the menu. Harold Sands recalls the fact that Simon Fraser started in May, 1805, for the exploration of the unknown district now known as British Columbia, hence the title of his article, "One Hundred Years in British Columbia." Accompanying this is an excellent plate of the first government office on the mainland. Bonnycastle Dale writes on shooting and fishing in the Trent Valley—which is one of the most delightful and typical sporting resorts in older Canada. Mr. Boulton's description of the circumstances under which he won a seat in the British House of Commons is quite entertaining. Mr. McCready, a veteran journalist, begins a series of reminiscences of the first Dominion Parliament.

Warm Home

Wooden frame work, covered with METAL SHEETS of imitation stone or brick, make a house that is warmer in winter and cooler in summer, than stone or brick.

With metal walls, ceilings and shingles—the house will be damp-proof and fire-proof—and far cheaper in the end than any other building material.

If you intend to build, let us send our illustrated catalogue of sheet metal material for interior and exterior work. It's FREE if you state what you have in mind and mention this paper.

THE METAL SHINGLE & SIDING CO.

THE LITTLE JAPS

Mrs. W. A. Hadley and her Troupe of Bewitching Japs Will be a Feature of the Fair

"The Land of the Rising Sun" will be well represented at the coming Fair of Nations by the magnificent Japanese booth, which is now being fitted up. There will be two distinct sections of this booth, one part being Tea Room and the other a Pagoda.

In the former, a troupe of bewitching little Japs will serve Chop-suey, dishes of rice, and a host of typical Japanese dainties. Gold fish will be in evidence both as ornaments and wares, and anyone desirous of purchasing a bowl of these pretty fish will be able to do so.

The Tea Room is being constructed of bamboo and paper and will be modelled after true Japanese style. Its quaintness should prove an irresistible draw for the visitor, and there is no doubt that it will be well patronized.

The Pagoda will present a busy scene during the Fair, for it is in this part of the booth that the ladies will offer their wonderful collection of Satsumi, brass and bronze ornaments, baskets, and the hundred and one different classes of Oriental goods which they have secured right from Japan through the firm of Short & Co., Montreal, the biggest direct importers of Japanese goods in the Dominion.

Japanese lanterns, kites, dolls, fans, sunshades, kimonos and lacquered novelties, besides a bewildering array of strange and fascinating specimens of Japanese handwork, have been obtained and will be offered for sale at the booth, and it is safe to say that the Japanese portion of the big Fair will be enough to turn even a real celestial green with envy.

Mrs. William Arthur Hadley, the convent of the booth, is being assisted by the following ladies: Mesdames Simon and Post, and Misses Stephenson, Marion Thomas, Helen Thompson, Mary Shannon, and Edith Hall.

AUTOMOBILE BILL

Fixes Speed Rate at 15 Miles an Hour in the Country and at 10 Miles in Cities, Towns and Villages.

Toronto, May 5.—The fixing of fifteen miles an hour for the maximum speed for autos in the open country, and ten miles an hour in cities, towns and villages, is one of the new striking provisions of the new auto bill, which was approved by the municipal committee of the Legislature yesterday.

The bill fixes the owner of the auto absolutely liable for any damage done. In the case of accident, the onus of proof rests upon the owner or driver of the auto. Searchlights are prohibited, and numbers are required both back and front. A greater speed than seven miles is prohibited when another vehicle drawn by horses is being met or overtaken.

The driver of an auto must give aid when an accident occurs, and be ready to give in writing his name and address, those of the owner, and the permit number. Failure to adhere to rules re accidents, are liable to a maximum fine of \$50 for a first offence, \$100 for a second and a month's sentence in jail for a third, with cancellation of permit if it be within two years.

Bankers Are Arrested.

Oshkosh, Wis., May 5.—Five lumbermen and bankers, representing an aggregate wealth in excess of \$1,000,000, have been arrested by Federal officers on a charge of conspiracy to defraud the Government by means of alleged land frauds in Oregon. The charge is conspiracy to defraud the Federal Government by having furnished money to Oregon parties to make entries and buy homesteads in Oregon.

Fix Sessional Indemnity.

Regina, Sask., May 5.—The sessional indemnity for the Saskatchewan Legislature was yesterday fixed at \$1,000 by the casting vote of the chairman of the committee of the whole. Haultain moved to have it cut to \$700 and was supported by two Ministers and one other Liberal.

FRISCO DESTITUTE

191,637 Fed In Stricken City Camps—Refugees in Oakland 40,000.

Washington, May 5.—The question of caring for the destitute in San Francisco is causing the officials there great anxiety as shown by the following telegram from Gen Greely, dated Thursday, and received at the War Department over night:

Number of destitute being fed enormous, aggregating by to-day as just reported, 191,637, in San Francisco. Apparently conservative estimates placed destitute refugees at 40,000 in Oakland and Berkeley. How these terrible conditions are to be met is subject of most earnest consideration between Devine, finance committee and myself. "While daily hoping for great decreases in number of destitute am not confident, far-reaching extent of this disaster cannot be appreciated without personal observation."

Damage \$2,000,000. Oakland, Cal., May 5.—Estimates of the damage wrought by the earthquake in this city total two million dollars.

An Adverse Report. Washington, May 5.—The Senate committee on finance to-day will make an adverse report on the new lands resolution in relation to an investigation by Congressional committees of means of guaranteeing the credit of San Francisco.

If some people had their way everybody else would get out of it.

"The Resistor" Rex Flintkote ROOFING

Resists Trouble Everything needed in the

You or Your Farm Hands Can Lay It Well

Rex Fluorene may be laid by any man following the plain directions and simple outfit (complete except hammer) which comes in every roll. The labor is simple and quick—entirely different from shingles or tile.

Rex Fluorene Roofing is made of light fibre wool felt, saturated with an acid, alkali and water-proof material, both sides being coated with water-proof and fire-retarding compounds, protected by a covering of flint—it is, therefore, fire-retarding and water, temperature, acid, alkali, rot and water-proof.

It may be used as a siding as well as a roofing, and will give absolute protection to the stock in most extreme weather.
