THE COURTER.

MONDAY, JANUARY 27, 1851.

We direct attention to the following to \$15,687,8\$2. extract from a letter addressed by the Hon. F. Hincks, now at Washington, to the Hon, Mr. McLean, Chairman of the Congressional Committee on Commerce: "It is assumed, and as perhaps it may turn out,

natorinately assumed, by the opponents of the Reciprocity Bill, that, in the event of the Bill being rejected by the American Congress, Canada will maintain her present commercial policy, and continue to fester the import trade from the United

States.

"It is very desirable that you should be fully aware of the state of public opinion in Ganada on this question. Having myself been a strong advocate for fire commercial intercourse with the United States, and having had, in my position as Finance Minister, to resist in Parliament, the advocate of a restrictive policy; I am thoroughly acquainted with the views of all parties. I have no nesitation in stating that the advocates of a retaliatory policy are rapidly gaining ground. Whether all or any of the plans suggested, will be carried out, it is of course impossible for me to say, but it is cartainly highly desirable that, in arriving at a very important decision, you should be fully aware of the probable consequences. The re-imposition of the differential duties against the United States Manufactures, has been strongly urged. Such a measure would be most acceptable to the commercial interests of Montreal and Quebec, whose trade was seffonely injured by their repeal. We stated in our last, that during the ast half century the inland or lake trade of the United States has risen to the enormous amount value of \$200,000,000; this is principally owing to the increased trade with Camada, and this trade is of almost vital accessity to the United States lake ports. For example, the imports of Oswego alone increased from and reflects cred \$2,973,698 in 1845, to \$8,325,789 in 1850, and the exposts from \$4,977,711 Railroad Company

We think that these facts are sufficient to prove that the trade with this country is far too important either to be given up or to be saddled with vexations restrictions, and that a little gentle, but firm, pressure, will cause the United States Congress to grant our demands, the London Stock Excharge. HEMPSTEAD, Dec. 1, 1847.

Da. HALSEY!—A bottle of your Forest Wine and box of Pills, which I procured of Mr. James Corr, (your Agent for this place,) has done wonders for ms. I had been in a state of decline for more than a year, afflicted with a dreadial cough, pain in the breast, general debility, and loss of appetite. I became almost a skeleton, and had been unable to leave my room for more than two months; my friends told me I had the Consumption, and despaired of my recovery. I could not obtain any permanent relief from any medicine I had taken, or my physician, until your Wine and Pills were procured. The first dose of the Pills brought up from my stomach much phlegm and greenish matter, and my stomach much phlegm and greenish matter, and my stome were purfectly black. I then commenced taking the Forest Wine three times a day, my appetite began to return immediately, my cough left me, and in leas than two weeks I was almost well. I now off, y letter health than I ever did before, having increased twenty five pounds in seven weeks. Your Forest Wine and Pills are highly valued in this vicinity, and I owe my recovery entirely to their virtues. Yours, respectfully.

MARTIN CALDWELL. HEMPSTEAD, Dec. 1, 1847.

The following Certificate, voluntarily given by The following Certificate, voluntarily given by Mr. E. G. Mussey, a respectable and well-known citizen of Cubice, New York, is an evidence which mast remove all doubts of the great efficacy of the Forest Wine in GENERAL DEBILITY, NEU-RALGIA, AFFECTIONS OF THE SPINE AND KIDNEYS:—

This is to certify, that I have used Dr. Halsey's Forest Wine in my family with the most entire success. My wife was badly afflicted with Neuraligia, officitions of the Spine and Kidneys, and general Debility. She found speedy relief, and regained her health, by the use of the Forest Wine.

From my own knowledge of this excellent medicine, I confidently recommend it for the good of others who may be suffering with similar complaints. It is the best medicine with which I am acquainted, and those who are afflicted with the above, or any similar diseases, may safely rely on its virtues.

There is no other remedy that claims to subdue the cruel paning of panin reconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is promised. Not so with Radway's Ready Relief. Its effects are instantaneous; the first dose that is taken; or the first external application, component for each work of relief from pain.

The testimony of upwards of three hundred individuals, some of whom were afflicted with dreadful disorders, and considered incurable, may be seen at Dr. Halsey's principal Office. The following are some of them residing in this city:

Mr. Jacob Bell, Morchant, in Pearl Street, was for four years a martly to severe Remaine and could find no rehef until he used to the Forest Wine and Pills, and ir ecovered by taking six butter and less than a box of the Pills.
