The Things That Count.
A best that's gone within,
That opens to love divine
And bids its gates to swing!
O tell me is a gentle mind
Less dear than palace gold?
The soul that lives is being kind
And peace and rest unfold.
Has ever monarch's throne more low
Than lowly cottage home
Keating in nessuno's French shoe,
Sung "Oath Heaven's home!"
An honest thought is matter for
Than all that wealth can buy,
Truth shows divinity like a star
That glows the midnight sky.
And so to do what's right
Is more a Godlike plea
Than wealth and power and the light
Of a great and shining day.

Acadia Collegiate and Business Academy.
Acadia Collegiate and Business Academy re-opened for the autumn term on September 4th, with a full staff of teachers and a large attendance of students. The Academy residence is well filled, as all the rooms are now occupied, or are promised to students who are unable to be here at the opening of the term. Nearly one hundred students are registered in the various classes. The senior class will number about forty. A number of others have signified their intention of entering the Academy later in the term.
Principal W. L. Archibald, H. P. Lockhart and W. C. Lawson, continue their work as members of the teaching staff. Mr. C. W. Robinson, B. A., succeeds Mr. Howes, M. A., as House Master and teacher of Latin and Greek. Mr. Robinson, since graduating from Acadia University has taken post-graduate work at Yale University, and is admirably prepared for his work. The Math department will be taught by Mr. J. S. Foster, B. Sc., who has had two years' experience in the work of a residential school for boys. Mr. Foster has already shown that he possesses the rare gift of natural teaching ability, which together with his successful teaching experience insures that the work of this department is of high grade. Mr. J. R. MacLean, recently of the staff of the Maritime Business College has charge of bookkeeping and commercial subjects in succession to Mr. M. B. MacLean, Mr. Rankin and Mr. M. P. McKee, recently from the New Glasgow branch of the Maritime Business College will teach stenography and typewriting.
A new arrangement regarding the teaching of French and German has been made which provides for the teaching of these subjects in the Academy by the regular university professors. Prof. Herman has already begun his work with the class in German, and Prof. Rice, who has sailed from Paris will be ready to begin his work in French in a few days. This new arrangement will be of great advantage to the Academy students.
The physical drill will be carried on on the Campus two hours per week during the fine weather. Later in the season this work will be done in the gymnasium. The two qualified cadet instructors are Mr. C. W. Robinson, B. A., and Mr. W. C. Lawson of the Academy staff. The athletic and dramatic instructor is Mr. L. W. Archibald, recently of the M. C. A. at Yarmouth, N. S. Mrs. M. E. Stuts, the popular and efficient matron of last year, will continue her duties in that capacity during the coming year.
With a large attendance, and a fine staff of teachers, the prospects are bright for a good year at Acadia Collegiate Academy.
The Mayor of Vancouver has issued a formal warning to residents of that city advising them not to go to that city in quest of work. The city has thousands of idle men and women to look after and the daily papers are recording the mayor's plan of campaign.

Teacher Cured of Barber's Itch
Barber's Itch is a form of Ringworm, which, when once started, is most annoying and, if neglected, is most difficult to cure.
But you can cure Barber's Itch and keep the skin wonderfully soft and healthy by applying Dr. Chase's Ointment. Just read what this teacher has to say about his healing power.
Dr. Chase's Ointment, Upper Canada, N. B., writes: "Two years ago while teaching at Shipman I caught Barber's Itch. A friend told me Dr. Chase's Ointment would cure me, so I tried it. I was cured by that single box, but it also cured two of my pupils, and this too quickly to be believed. One of them, a girl, had a running sore on the chin, which the doctor had tried in vain to cure. The other had a sore on the ear, water running out of it all the time. I can testify to the cure of these cases."

A Wonderful Discovery.
An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against, blood poison! Not one special microbe has been found that Zam-Buk does not kill!
Zam-Buk, as soon as Zam-Buk is applied to a sore or a cut, or to skin disease, stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the pain of the thing. All they care for is to get rid of their pain. Mothers should never forget this.
Again. As soon as Zam-Buk is applied to a wound or a sore, the cells beneath the skin's surface are stimulated and new, healthy tissue is quickly formed. This forming of fresh, healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.
Only the other day Mr. Marsh, of 101 Dolopier Ave., Montreal, called upon the Zam-Buk company and told them that for twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!
All druggists sell Zam-Buk at 5 c. a box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

The Mysterious Figure.
Has it ever occurred to you what strange feats may be performed with figures? Take the figure 9, for instance.
Multiply it by 2, and you get 18; and 8 and 1 make 9. Five 9's are 45, and 5 and 4 make 9 again. Three 9's are 27, and 7 and 2 make 9. Four 9's are 36, and 6 and 3 make 9.
Nine is indeed a mysterious number. Take any row of figures you fancy, say 8614, and if you reverse them and subtract, 8641-2468, you have left 6174, which, added together, make 18, or twice nine. Take the 18, and 8 and 1 make 9 again. If you take five figures, say 78511, reverse them, 11587, and subtract, you get 41976, which, added together, make 27—that is, 7 and 2 make 9, or three 9's are 27.
Thirty-seven is another number specially adapted for figure juggling. Multiply by three, 37 becomes 111; and no matter what multiple of three you see the figures in the result will be all alike. Twelve times 37 is 444. 37 x 21 becomes 1111, and so on.
An article that has real merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many doctores. Here is one of them. H. W. Hendrickson, Ohio Falls, Ind., writes, "Chamberlain's Cough Remedy is the best for coughs, colds and croup, and is my best seller. For sale by all dealers."
Dr. McLeod and Dr. Watson were in the West Highlands, together on a tour, before leaving for India. When they were crossing a loch in a boat, in company with a number of passengers, a storm came on. One of the passengers was heard to say: "The two ministers should begin to pray, or they will be drowned."
"Ah, no," said a boatsman. "The little one can pray, if he likes; but the big one must talk 'an ort!"

Electricity from Sunshine.
A sensation has been caused by the announcement of a French inventor that he has succeeded in producing a battery by which sunshine can be stored and transformed into electricity. There appears to be no doubt that his claim is well founded, but the invention would seem at present to have progressed no further than the experimental stage.
The inventor in question, though a Frenchman, has an English name, Charles Winter. His battery consists of two thin platinum plates, one of which dips into a solution of per-chloride of iron, the other being in contact with a mercury salt. When placed in the sunlight a chemical change takes place in the contents of the battery and charges it with electricity. When the current is used up it leaves the battery in its original condition again, and it is ready for the life-giving sunshine once more.
There are tremendous possibilities if the invention can be perfected. With a battery of five hundred large cells placed on the roof during the day it would, it is stated, be possible to store enough electricity, through the agency of the sunlight, to keep six lamps going at night. This has already been proved.
It is not absolutely necessary that there should be sunshine the whole time. Ordinary daylight will achieve the same result, the inventor asserts.
The small-it confidence that many people have in Chamberlain's Cough Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colds, coughs, diarrhoea and dysentery that it has effected.
Meats are more tender if salt is added at the completion of the process. Never salt steaks until they are taken from the pan; sprinkle the plate liberally with salt, and then have plenty of salt on the table so that each member of the family may salt his own piece to suit himself.
If you know of the real value of Chamberlain's Kidney and Bladder Pills, many of the ailments, sprains and rheum, will pain you would never wish to be without it. For sale by all dealers.

When Flood is Poison.
The blood must be altered, therefore you are warned, and the kidneys fail the liver is over-worked, and however tried, by using Dr. Chase's Kidney Pills you get both these things going working right, and also, clean the system of all poisons. For this reason these pills are a real family medicine. They cure diarrhoea, constipation, chills, indigestion, and other ailments.

Children Cry for Fletcher's CASTORIA
Mabel— I have at last experienced the great, wonderful event of my life. Yesterday, when the sudden failure of the electric light at the bank's reception plunged the company into darkness, he kissed me passionately.
Julia— Who?
Mabel— Who? That's just what I should like to know!

Worth Remembering.
If you are doubtful about your cream keeping sweet, heat it almost to boiling, put in tightly corked glass bottles, and set on the ice to cool. In this way it will not sour nearly so soon.
If your furniture has grown dull and streaked, try rubbing up with flannel dipped in equal parts of turpentine and coal-oil. It polishes quickly, and much more quickly than expensive polishes.
Paper roller-towels which are soft and absorbent may be used for the kitchen. They are twelve inches wide and perforated every eighteen inches. They are placed on a wooden roller, and can be burned after using.
A Kansas school teacher was drilling her composition class in the relative value of words and phrases. The phrase "horse sense" was discussed and she told one of the boys to write a sentence containing the phrase.
The boy looked for ten minutes and produced this: "My father didn't lock the barn door, and his ain't seen the horse sense."

The True Cause of Rheumatism.
DUE TO ACID IN THE BLOOD—CAN ONLY BE CURED THROUGH THE BLOOD.
Not many years ago even doctors thought that rheumatism was only a local pain caused by exposure to cold or wet. Now they know that the trouble is caused by the blood becoming tainted with uric acid. This condition of the blood causes the muscles to contract, stiffens the joints and irritates the nerves. If not promptly treated the stiffness spreads and the pain grows worse until you are a helpless cripple, tortured day and night. If the disease touches the heart it means sudden death. You cannot cure rheumatism with liniments, plasters or hot cloths, as so many try to do. You must go right to the root of the trouble in the blood. The scientific way to cure Rheumatism is to take Dr. Williams' Pink Pills, which make new, rich blood that goes right to the root of the trouble. They sweep out the poisonous acid, loosen the aching joints and muscles and bring ease and freedom where before had been pain and misery. Miss Beulah Steeply, Memphis, Out., says: "Following an attack of menial rheumatism I took Chamberlain's Cough Remedy. My joints became swollen and the pain was almost insupportable. I doctored with two doctors, but the pain was only relieved while I was taking their medicine, and soon returned. For six months I continued to suffer in this way. Then I tried electric pads, but they failed to do me any good. Finally a friend persuaded me to try Dr. Williams' Pink Pills and I had not been taking them long before I found relief. I continued using the Pills for a time and soon found myself in perfect health and feeling like a new person. I never lose an opportunity to recommend Dr. Williams' Pink Pills as a certain cure in all cases as I am." Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE ACADIAN.

WOLFVILLE, N. S., SEPT. 20, 1912.

The Canadian Pacific.

The statement recently issued by the Canadian Pacific Railway gives an idea of the magnitude of that corporation, which in the eighties was considered by the Liberals of this country as a wildcat undertaking.

On the thirtieth of June last the Company had 1820 locomotives and 61,466 freight cars. They carried during the last year 13,758,000 passengers, and their net earnings for the last year were \$43,298,000.

It would be interesting reading to now look up the speeches of Sir Alexander MacKenzie and the lesser lights of Liberalism during the debates when Sir Charles Tupper proposed to incorporate the company to build the road. The prophecy of Sir Richard Cartwright, the blue ruin knight of Canadian politics, that the road would not pay for its axle grease, like all Liberal prophecies, falls short in realization.

Sir Wilfrid Laurier thinks the people of Canada are sorry for what they did on Sept. 21st last. The people of Quebec, Montreal and Ottawa did not exhibit any of the outward signs of mourning on the occasion of the Premier's recent visit to these cities.

A Brilliant Wedding.

The new Baptist church was the scene of a pretty wedding, Wednesday morning when Gladys, Victoria only daughter of Mr. and Mrs. K. H. Harris, and John Francis Kennedy, formerly of Halifax, now of Quebec, were bound together in holy wedlock by the Rev. E. D. Webber. The church, which was tastefully decorated with green potted plants and yellow carnations, was filled with a large number of friends of the principals. The wedding march was played by Mrs. W. C. B. Harris, sister-in-law of the bride, accompanied by Miss Helen DeWolfe, violinist.

About half past ten the bride entered the church on the arm of her father. She was tastefully attired and looked very winsome in a cream diaphanous gown, wearing the conventional veil and orange blossoms, and carrying a shower bouquet of white roses and lily of the valley. She was attended by Miss Hilda Vaughn, who looked charming in a pretty gown of yellow crepe de chene with black picture hat, carrying a bouquet of yellow carnations and maid en hair ferns. The groom was supported by Edward Martin, of Halifax. The lower girls were Jean Kennedy and Lorette Benjamin, who were dressed in white silk muslin and chrysos bonnets, and carried baskets of lily of the valley and smilax. The ushers were Judson Harris, brother of the bride, Herman DeWitt and Leonard Eaton. At the close of the ceremony, following an established custom, the minister presented a small bible, bound in white, to the bride, she being the first to be married in the new church.

At the conclusion of the ceremony a dainty luncheon was served at the home of the bride's mother, at which a large number of invited guests were present. The dining room was tastefully decorated, the bridal table being decorated with asparagus ferns and lily of the valley. The happy couple left on the 'Bluenose' for a trip to the Thousand Lakes, at which they will go to Quebec where Mr. Kennedy has a position in the Bank of Quebec. The bride's travelling dress was of navy blue serge with hat to match.

Many beautiful and valuable gifts, including cut glass, silverware and linen, testified to the esteem in which the bride was held. The groom's gift to his bride was a diamond and sapphire ring, to the bridesmaid a pearl pendant, to the groomsmen a pearl stick pin, to the lower girls gold bracelets with their monograms on them, to the pianist a silver card case with her monogram on it, to violinist a pearl crescent pin, and to the ushers amethyst stick pins. The bride received a substantial cheque from her father, a silver tea set from her mother, and a handsome set of mink furs from her brothers. The staff of the bank in which Mr. Kennedy has his position gave them a silver soap tureen set, and the staff of the Bank of Montreal at Quebec, where he had a position for several years, gave them a quantity of cut glass. Many other gifts were received, which are too numerous to mention. The Acadians join a host of friends in wishing Mr. and Mrs. Kennedy every happiness and prosperity.

Keep Children Well During Hot Weather.

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery and stomach troubles are rife at this time and when a precious little life is lost after only a few hours illness. The mother who keeps her baby's Own Tablets always on hand will save her child from these troubles. The Own Tablets prevent stomach troubles from becoming dangerous. They will bring the baby safely through the summer months. The Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

We were sorry to learn of the death of Mr. J. C. Egan, on Sept. 17th, of Camp Hill, N. S. He was 80 years of age and had been in poor health some time. He was a well known and respected citizen of the town.

Some Reciprocity Facts.

The Washington crop report states that the United States this year will produce between 700,000,000 and 800,000,000 bushels of wheat, nearly 4,500,000,000 bushels of oats, 3,000,000,000 bushels of corn and 72,000,000,000 tons of hay. This is an increase over last year of 59,000,000 bushels of wheat, 368,000,000 of oats, and of 674,000,000 bushels of corn. The apple crop is extraordinarily large, and vegetables of all sorts are in greater abundance than in any year of the past quarter of a century. This abundance of food stuffs means a new prosperity for the Republic, but it also means that the United States will have a much larger quantity of wheat and other products of the farm and orchard for export than in any previous year. What good would Reciprocity do Canada under such conditions? We would like for Reciprocity advocates to explain how, in the larger market of the United States, there are lower prices for wheat and other products of the farm, than in Canada. Lower prices are caused by a surplus, not a deficit. The United States has a surplus and lower prices, and still there are some economic fools, who say that if we had Reciprocity we would get higher prices for the products of our fields and orchards. But for the Canadian duty upon wheat, vegetables and apples, the eastern Canadian markets would be flooded with the crops of the United States, to the detriment of our farmers and producers in general. And yet some of our politicians are making themselves hoarse trying for Reciprocity, because it will give us a 'wider market.' When once the wealthier producers of the United States get a foothold in Canada, and another weaker producing enterprise, they can be depended upon to set the price in proportion to our necessities, regardless of all considerations save their own pockets.

One of the ideals which the Hon. Mr. Foster, the Minister of Trade and Commerce in the Borden Cabinet, set up when he entered upon the duties of his office, was to attain closer trade relations throughout the Empire, which spells, Imperial Reciprocity.

Under Sir Richard Cartwright the department had gone to sleep. The officials simply marked time and in native was discouraged. Immediately Mr. Foster was in harness, he opened negotiations with the British West Indies and Australia. In March representatives from the Indies visited Ottawa, and after a series of conferences a treaty was signed which it is believed will be mutually beneficial. The agreement has already been ratified by all the West Indies governments, and as soon as the Canadian Parliament assembles it will be approved and will come into effect early in the coming year.

Canada Temperance Act Enforcement.

On Friday several constables were in town and in conjunction with some of the citizens a search was made for liquor at the Railway Restaurant and at Frane's Hotel. A quantity of liquor was found at both places and it was promptly taken in charge and sent to Canning, where trials against the proprietors of the above two places will be heard later.

A little later County Inspector Patrinquin made a search at Aldershot and only discovered a few bottles of beer. If there was more liquor in the cantens surrounding the grounds it had been hid, after the word of the search for liquor at Kentville became known.

On Saturday Inspector Patrinquin again made a raid on one of the places at Aldershot and recovered a large quantity of liquor.

These raids have quite paralyzed the liquor vendors in this vicinity and the outcome of the trials will be watched with interest. Two of the persons who have actions pending against them have their offences outstanding upon which no warrants were ever issued by the town authorities. The action was taken at the instance of the Kings Co. Temperance Alliance after repeated complaints having been made as to the continued violation of the law in the Town of Kentville.—Kentville Advertiser.

Track Meet.

In the foot races, open to Collegiate only, at the exhibition at Halifax last week, Mr. Allison was the trophy scoring 24 points; Aouda scored 17 points; Dalhousie 3 and Kings 1. The events were as follows: 200 yards—Smith, Mr. Allison 1; Harlow, Aouda 2 Time 24 1/2 seconds. 400 yards—Eads, Mr. Allison 1; Smith, Mr. Allison 2; Harlow, Aouda 3 Time 51 1/3 seconds. THE IMPERIAL Self Heating Flat Iron

Wash your work in half the time, better and easier at less than one-third the cost of the old way, besides saving the strength, health and temper of the housewife by saving heat from the hands and eyes of domestic slaves. Better and cheaper than gas or electricity. To find out how to use it, call on the dealer, or send for a leaflet free.

ASPHEN-Rodriguez, head of the market, and surface, best no painting, good for 30 years. Sold by D. A. Muzzey, Wolfville.

Take a Kodak with you.

We say 'Kodak' advisedly. We do not merely mean camera, but the particular make of camera that bears the trade-mark 'Kodak.' The satisfactory results that it has given to our customers justify us in specifying 'Kodak.'

Your vacation will mean more to you, if you Kodak. Not only more pleasure at the time, but afterward, the added pleasure that will come from the pictures.

Let us show you how simple it all is by the Kodak system. Our stock is very complete and we are always glad to give photographic help to any amateur.

Gaspereau.
This season will be another bumper one for our apple growers. The orchards will produce from four thousand barrelful down, according to the size of the orchard.

Mrs. Inez Stevens and daughter, Miss Lizzie, of Chicago, are visiting the former's sister, Mrs. Nathan Benjamin.

Miss Ferguson, of Boston, a former teacher in our school, has been visiting friends here.

Mrs. Arthur Davis, of Spencer, Mass., is visiting her sister, Mrs. Alfred Davison.

Master Collin R. Martin, of Palmouth, is making a fortnight's visit at the home of his uncle, Mr. J. D. Martin.

The Messrs. Hunter, of Springhill, who came to Gaspereau last Saturday, in consequence of the death of their uncle, Mr. George Hunter, are spending this week with relatives here.

Master Ray Caldwell, a student of Acadia Collegiate Academy, underwent a throat operation in Halifax, last week at the hands of Dr. Kirkpatrick, by which he is now enabled, for the first time in his life, to breathe through his nostrils.

The new Baptist church edifice is completed and the carpenters have returned home. Owing to a delay in the arrival of the pulpit furniture the dedication will not take place until Oct. 6th. The speakers for that day, it is expected, will be Rev. J. D. Spidell, of Kentville, at the morning service, Dr. Gates for the afternoon and Dr. Brown for the evening. On Monday evening, Oct. 7th, there will be an ex-pastors' service, and on Tuesday evening an Evangelistic service.

Gaspereau lost one of its most high-extended residents on Sept. 27th, in the death of Mr. George Hunter. The deceased had been in failing health this summer, but his condition was not considered critical until three weeks ago. A widow, one son and one daughter survive him. These have the sympathy of many friends to their irreplaceable loss. The funeral service, conducted Sunday afternoon by Rev. A. L. Powell, was very largely attended, and there were many beautiful floral offerings. The impressive Masonic burial ceremony was held at the grave.

Newtonville Notes.
Mrs. C. A. Jordan went on Wednesday's Bluebonnet to visit her sister, Mrs. Angus McLeod and many other friends in Massachusetts.

Mr. Frank M. Caldwell, after spending a short time with his parents, Mr. and Mrs. Daniel Caldwell, started on the return trip by Saturday's Bluebonnet to his home in Mansfield, Mass., taking his mother with him for a few weeks' visit.

Miss Mand Williams, after spending a lengthy vacation at the home of her uncle, Mr. Owen Nowlin, started last Wednesday for her home at Attleboro, Mass., accompanied by her cousin, Miss Hattie O. Nowlin, who will spend a month visiting her many friends in different cities of Massachusetts.

Among the recent arrivals in Wolfville is Mrs. R. D. G. Harris, of Lansing, who has taken up her residence on Linden avenue, intending shortly to buy or build. Mrs. Harris will be a distinct acquisition to musical circles, having been engaged for a number of years in their work in St. John's and elsewhere in the promotion of high class musical entertainments.
