HARBOR GRACE NEWFOUNDLAND, APRIL 22, 1875

NUM XLVI

HOLLOWAY'S PILLS

Let no one be longer oppressed with a malady that his malady is incurable till the purifying Pills have had a fair trial. A few doses will remove the more urgent symptoms and therefore completely control the disordered actions, rouse the torpid liver, move the obstructed kidneys, cleanse the pure blood, and confer on every function healthful vigour.

Impurities of the Blood.

These wonderful Pills are valued at the humblest hearth as well as in the house of comfort and wealth. They work a thorough purification throughout the whole system without disordering the natural action of any organ, and eradicate those germ complaints which consign tens of thousands to an early grave.

Indigestion, Bilious Complaints and Sick Headache.

No organ in the human body is so liable to disorder as the liver, and none is more apt, when neglected, to become seriously diseased. Remember when nausea, flatulency, or acidity on the stomach warns us that digestion is not proceeding properly, the Holloway's Pills regulate every function, give strength to every organ, speedily remove all causes of indigestion, bile, and sick headache, and effect a permanent cure.

Weakness and Debility.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effects of these Pills is in the highest degree bracing, renovating, and restorative. They drive from the system the morbid causes of disease, re-establish the digestion, regulate the secretions, strengthen the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Turn of Life and Dropsical Swellings.

The turn of life is the most distressing period in woman's existence; it destroys thousands. The whole of the gross humors collect together, and like a tide sweep away health and life itself, if not timely and powerfully checked. The most certain antidote for all these dangers is Holloway's Pills.

Armed with them the fiery ordeal is passed through, and the sufferer is once again restored to the possession of unimpaired health. It is but little known that at the so-called "turn of life," man also, when verging on fifty or fifty-five, discovers that his health is considerably deranged and knows not the cause—a critical period in his life. All perils to both sexes are at once removed by recourse to these Pills.

The Kidneys—their Derangements and Cure.

If these Pills be used according to the printed directions, and the Ointment rubbed over the region of the kidneys for at least half an hour at bed time, as salt is forced into most, it will penetrate the kidneys and correct any derangement. Should the affliction be severe or chronic, it is particularly recommended that the Ointment in such cases be used night and morning as by its judicious application the most astounding cures may be performed.

Holloway's Pills are the best remedy known to the world for the following diseases—

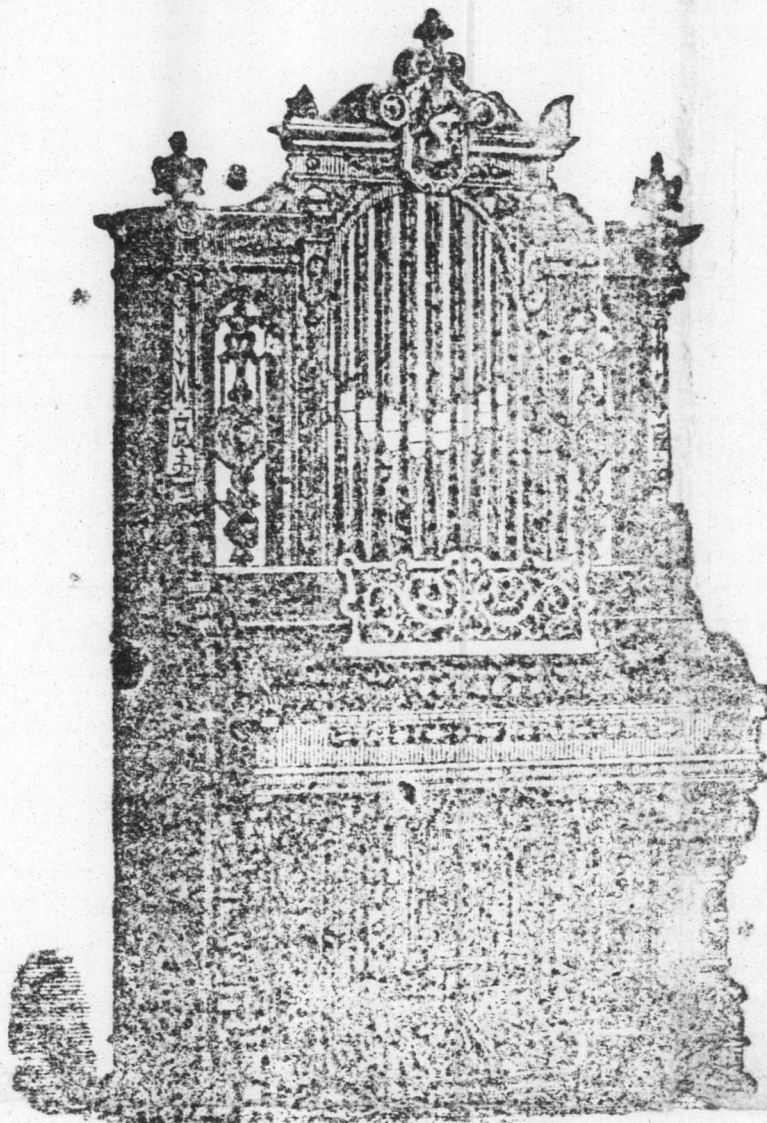

- Ague
- Asthma
- Bilious Complaints
- Blisters on the Skin
- Bowel Complaints
- Debility
- Dropsy
- Female Irregularities
- Fevers of all kinds
- Gout
- Headache
- Indigestion
- Liver Complaints
- Lumbago
- Piles
- Rheumatism
- Retention of Urine
- Sore Throat
- Stone and Gravel
- Secondary Symptoms
- Tie-Bleed
- Ulcers
- Veneral Affections
- Worms of all kinds
- Weakness from whatever cause
- Whooping Cough

The Pills and Ointment are sold at Professor Holloway's Establishment, 523 Oxford St., London; also by every respectable Vendor of Medicine through the civilized world in Boxes and Pots, 1s 1d, 2s 6d, 4s 6d, 11s, 22s, and 37s each. The 2s 6d contains three, the 4s 6d six, the 11s size sixteen, the 22s size thirty-three, and the 37s size fifty-two times the quantity of a 1s 1d Box or Pot. The smallest Box of Pills contains six doses; and the smallest Pot of Ointment one ounce.

Full printed directions are affixed to each Box and Pot, and can be had in any language even in Turkish, Arabic, Armenian, Persian or Chinese.

Price list of the value of old Marine Stores in the United States on the 17th March, 1875.

PRO BONO PUBLICO.

P. S.—If any persons wish to see the price list as above stated...

P. B. P.

We think we are perfectly safe in saying that the present session of the Legislature has proved more barren of beneficial results than any that we have had for some years...

tion, which has lamentably failed in its work. On the question of the Telegraph Monopoly, the Lumber Licence Bill, the Increase of Salaries bill, and the financial statements of the Receiver General...

The explanation given of these several matters by the public is this—that the two sides of the House have a mutual understanding respecting the loaves and the fishes...

It is said that Mr. Carter had no intention of taking his seat in the House—that the salaries of the Judges were to be increased in his absence...

Next—That as a reward for his dirty work on the Royal Commission Mr. Commissioner Robinson is to be retired from public office...

Next—That Mr. Emerson, the Speaker steps into the office of Chief Clerk and Registrar Supreme Court.

Next—That Mr. Winter is to be retired from the Custom House and that 'upright Briton,' Mr. Kelligrew is to take place.

Next—That Mr. Delaney is to be pensioned off, and E. D. Shea to take his place, after which Ambrose intends to strike for the Governorship.

Next—That Mr. Kent takes the Colonial Secretaryship.

Next—That Mr. McNeilly is to be made Solicitor General.

And last—That Whiteway, who hasn't brains enough to see how much he is despised politically, expects to carry on the Government, until the time comes for Mr. Carter to be retired from the Chief Justiceship.

We cannot assert of our own knowledge that this is the exact programme, which may differ from the foregoing in unimportant particulars...

When Legislators forget their constituents, their duties and their responsibilities, and join in a general scramble for their bread and butter...

Private letters from Trinity bay inform us of the death of Silas, son of Mr. Silas Loder, of Tre and's Eye under the following circumstances.

About two o'clock on Saturday morning March 13th four sons of Mr. Loder, named respectively John, Silas, William, and James, aged 24, 22, 17 and 14 years, left their home on a seals-hunting excursion...

A triumphal arch is to be constructed for the purpose of welcoming home our new member. Bunting will be unsparingly used, together with elaborate banners, with suitable mottoes such as "Welcome Home," "Conquering Hero," "Come Back Joe."...

liam whom they saved. There was one other boat in sight, but nearly two miles distant, and with but two men in her Richard Bailey and Thomas Hodder. These men had hard work to reach the Loders, but they did so, and took them on board, where they had much difficulty in bringing them to life...

As an outboard man was proceeding to his boarding-house two or three nights ago, it being very dark, he was stopped by a "town chap" who asked him if he had any money on him...

We have been informed that a lottery or a raffle or something of the sort is to come off next week. The prize to be awarded to the victor is an elegant new coffin.—[ibid.]

LOCALS.

The Assembly is closed.

Local news scarce and uninteresting.

A number of Wood boats arrived to day.

The 'Hercules' left yesterday morning for St. John's.

Mr. Thompson is hourly expecting a splendid assortment of seeds.

Several fatal cases of Croup have taken place in this town recently.

The 'Hercules' will be here again to-morrow.

Another chimney commotion on Tuesday morning.

An unusual large number of wild ducks visited the harbor on Monday.

Encouraging accounts have been received from the Gulf seal fishery.

The steamer 'Lizzie' is advertised to leave St. John's to-morrow for this port.

The steamer "Mastiff" leaves to day on her second cruise to the seal fishery.

Dr. W. M. Allan has purchased the splendid brick premises, belonging to W. O. Wood, Esq.

A large number of seals were captured in the neighborhood of Western Bay the past week.

One of our local angler's succeeded in capturing ten dozen fine trout from Bears Cove Brook on Monday.

The "Susan," Captain M. Fitzgerald belonging to D. Green, Esq., will sail on Saturday for Sydney. Come Skipper F., don't spare the canvas.

Parties of nautical persuasion wishing to secure a good picture, in full uniform, would do well to visit Lyon's Photographic Gallery.

The sealing steamer 'Mastiff,' Keefe, master, arrived here on Monday to Messrs. Paterson & Foster, with 3,000 seals.

The sealing steamer 'Mastiff,' Keefe, master, arrived here on Monday to Messrs. Paterson & Foster, with 3,000 seals.

The 'Vanguard' and 'Commodore,' are off on their second trip; the former on Saturday and the latter on Monday.

Parts of the Northern Bays are getting scarce of provisions, and an early change is needed.

A full account of the proceedings of the Starrigan worthies will appear in our next.

The mail steamer "Newfoundland" with English and American mails is hourly expected at St. John's.

A temperance lecture was delivered by "one of the boys" who was making a forced visit to the Police Station.

Mr. Spence's schooner, the 'Sea Slipper' having undergone considerable repairs, was consigned to her native element on Tuesday. Our reporter informed us that 'Neza' did not attend the launch.

The St. John's Fire Brigades presented a petition to the Assembly praying for a grant to enable them to procure waterproof clothing for winter service.

The Hon. A. Shea, will proceed to Canada by the "Newfoundland." It is not stated whether he will be accompanied by his faithful 'poodie.'

Persons wishing employment on the roads and bye-ways of the town, would do well to call upon the Chairman of the Road Board, whom we are led to understand is ready to engage all who are inclined to earn Three Shillings a day—truck.

A number of boats, fully armed with gunners have been scouring the Bay in search of ducks and other water fowl during this week. The ice in the mouth of the Bay has perhaps been the cause of these birds venturing within reach of the fowlers.

Our local police force is now in good condition. Head Constable Fallon appears to have full control of his men, and the discipline observed and carried out so efficiently speaks well for the aid and tried public officer.

On Sunday evening last the dwelling house of Mr. George Snow, was entered while the family were at prayers. The thief effected an entrance through the window, broke open a trunk, and took therefrom a small box containing \$47 10s. This sum is the fruits of many years hard labor. The master is the hands of Mr. Fallon, and we hope soon to hear of the capture of the guilty party.

Parties requiring good work in the Photograph line would do well to read the following complimentary notice to Mr. Wood, St. John's:

"I can confidently recommend any persons wishing to get old pictures of any kind enlarged and coloured in ink, oil, or water, to Mr. Page Wood, Photographer, St. John's, who can execute them in a style and finish not to be surpassed. He has done some work for me, and I can therefore bear witness to the excellent manner in which it was performed."

G. MACKINSON.

The following are the arrivals from the Seal fishery to date:

Table listing seal arrivals with columns for name, quantity, and agent. Includes entries for J. & W. Stewart, Porteus s.s., Ranger, Walrus, Ariel, Oban, Water Grieve & Co., N. Stabb & Sons, Job Brothers & Co., Nimrod, Neptune, Hector, Bowring Browning, Hawk, Eagle, Baine, Johnston & Co., Micmac, John Murphy, Cleary & McKay, Merlin, Harvey & Co., Tigress, John Munn & Co., Commodore, Vanguard, Paterson & Foster, Mastiff.

EARLY CLOSING.—The "Standard's" letter writers seem to be labouring under a delirium of the mental system. We are at a loss to conceive what they want; some are foolish enough to think that keeping open day and night would be best suited to the trade, others think that shutting up altogether would be more consistent with the appearance of the town at present. Either of these courses, however, are absurd and extreme in appearance, and we would be rather inclined to decide that early closing is not exactly what is wanted in this important town at the present time. If we could be placed in a position to chronicle the arrival of our large sealing steamers with large trips of seals and bringing with them accounts of all the remaining sailing vessels with good trips also, early closing might then be a matter upon which the minds of our mercantile princes could be gently drawn towards, and their wide spread charity extended for a time in this direction. These scribes, however, think differently and it is generally owing to such differences that our local newspapers are filled up at this season of the year. We would reply to "Shopman" and "Progress" that they might expect early closing at some future time, and that when they get it they will no doubt have it.

The Assembly seems to be a very critical position. It would appear that the members are all striking out on their own account. We clip the following from the "Chronicle":

"We understand that on Thursday evening, in the House of Assembly Mr. McNeilly brought down on himself a severe castigation for his low insolence and cowardly malignity towards an individual who, not being a member of the house, could not defend himself. The castigation was administered by several members, but especially with an unsparing hand by the hon. member for Harbor Grace Mr. Shea, who promptly repelled the malicious attack of McNeilly, and convicted him of spiteful and unscrupulous lying. The member for Harbor Grace deserves much credit for this, and has thereby given general and decided satisfaction. The matter arose in connection with a petition from Brigus against the Telegraph Monopoly, which Mr. Rabbits presented declared at the same time that the signatures had been obtained by false representations. In consequence of this declaration by Mr. Rabbits the petition was not received. We are making enquiries into the whole matter and shall be prepared to show that the 'false representations' have been made by Mr. Rabbits. The poor man has allowed himself to be made a tool of by McNeilly, but he will have to account to his constituents for betraying his trust, and by untrue statements causing the rejection of a petition which was signed by the leading people of the district. It has been stated about the Colonial Building that the signatures were attached in St. John's, and without the knowledge and consent of the persons whose names are affixed. If Mr. Rabbits has been a party to spreading so foul a falsehood the sooner he contradicts it the better. More anon upon this subject."

COURT OF KING'S BENCH.

Chief Justice, Sir Theodore Hook presiding.

WEATHERCOCK

OBSEVER No. 2.

This was an action brought forward at the instance of Joseph Weathercock, Observer of the Sarrgan observatory, by Heautious Avalonius Cloudhunter, B.A. solicitor, against Mr. Observer No. 2, Farmer, to recover possession of a certain amount of the Leonine species more commonly known by the Weather Cat. The defence was conducted by Georgius Hildebrand son of the Right Hon. Mr. Emers. The juror being sworn and seated the case was opened by the Plaintiff's counsel. He commenced by saying his client Mr. Weathercock was possessed of an animal gifted of a wonderful susceptibility, an unerring and almost supernatural monomania in prognosticating the weather tendencies with a certainty and correctness which completely outstripped any of Professor Maury's theoretical speculations, or indeed any other Meteorological authority of the nineteenth century. That this animal was quietly feeding in the plaintiff's back kitchen; when without giving any indications of discontentment he sprang from the place where he stood clean out of a window in the rear of plaintiff's dwelling, alighting on the head of Mr. Babe Barnes, and from thence in a north-westerly direction he wandered his weary way. That he could prove beyond doubt that this same animal which appeared in court under charge of Mr. Boreas was the same animal (minus a small part of the tail) and that this action was brought at the instance of his client to recover the animal. The first witness called was the Weathercock.

Examined by H. A. Cloudhunter— Q. Do you know the animal? A. Yes, and no mistake. Q. Where did you get the animal? A. I got him from his Pa. Q. Did you keep him bound? A. No.

Q. Had you any suspicion that the animal would leave your service? A. No, I did not think that the animal would leave his guardian in such an unkind way.

At this stage of the examination an immense yell was heard which rung through the corridor like the dull rumbling reverberation which usually accompanies a violent shock of an earthquake. His Lordship, Theodore Hook, demanded of Mr. Boreas what was the matter. Mr. Boreas replied "I do not know, your Lordship, unless it be that my pupi is not pleased with what was said about him leaving his guardian." His Lordship requested the plaintiff's counsel to proceed with the examination, and remarked that should Mr. Boreas perceive any symptoms shown by the animal to again disturb the proceedings to apply the cane to his back.

Examination continued—

Q. When the animal escaped did you follow in pursuit? A. Yes, I rushed forward in pursuit until I saw the last of the animal about fifty feet high disappearing in the western horizon.

Q. Where did you think he went afterwards? A. This question was objected to by the defendant's counsel, who made reference to the case of Mouser vs Ratter, page 61. This objection was, however, overruled by the court.

A. I could form no idea where he went his flight and sudden disappearance so completely paralyzed my whole frame, and thinking of my prospects in life being blighted, I took to bed and lay mourning for the space of fifteen days.

Q. Who told you of Mr. Observer No. 2 being in possession of the animal? A. I saw a notice in the Star saying that the animal had been caught on the premises of a certain ratter in the town, and that the finder intended keeping him for his own use.

Q. Did you ask permission to see the animal? A. I did.

Q. Did the animal know you? A. Yes, he sprang on my back and kissed me, until I thought he would devour me altogether.

Q. Cross examined by Georgius Hildebrand, Q. C., defendant's counsel.

Q. Are you in the habit of breeding cats? A. No.

Q. What prompted you at first to get possession of the feline? A. I knew his father, and when his father departed this life (the Lord have mercy on him)—His Lordship desired to remind the witness that this court had not been opened for prayer, and request witness to guard against any further breaches of good behaviour—the witness proceeded, and when his father died he was possessed of an only son which I took and reared. I have to be sorry a thousand times that I took him at all.

Q. What reasons urged you to recover the animal, if as you say, you would rather a thousand times you had not taken him at all? A. You see he had become so useful after many years of training that I used him to tell the weather; and sir, he could tell the exact state of the weather to a nicety and I got a large sum from some of the big folks for the reports of the weather which I published in the Standard.

Q. What value do you set upon the animal as he stands there before the court? A. If I was to sell him I believe I could get a winter's diet for him.

Q. When you were in pursuit of the animal was he leaping, running, standing or flying? A. I was running at full speed, my strides average twelve feet, the animal was so far in advance that I could barely make out in the distance his bushy tail ascending and descending at regular intervals, gradually becoming fainter and fainter until it was completely lost to my view in the western horizon.

Q. What next occurred? A. I returned home with a broken heart, and mourned for my departed friend.

His Lordship remarked that this case was one of a peculiarly affecting and solemn character and he would request that the conduct and behaviour of this court during the hearing of this case should be in keeping with the occasion. Some disturbance ensued which was caused by Mr. Boreas, the animal's attendant remonstrating with Mr. Babe Barnes, one of the witnesses against his teasing the animal, which was soon settled by His Lordship ordering the witness out of court. Mr. Boreas appeared to his Lordship for permission to retire for a short interval for the purpose of procuring some refreshments for the animal. His Lordship desired Mr. Boreas to take the animal with him and to return as quickly as possible. Mr. Boreas therefore left the court with his pupi amid shouts and hissings which were at once repressed by his Lordship.

(TO BE CONTINUED.)

NOTICE!

THE Public are respectfully informed that the object for which their assistance is solicited in an advertisement in the Standard of the 10th inst., in no way deserves their countenance or support. The proposed erection of an Episcopal Free Church in this town is intended by its projectors to be in opposition to their own Parish Church and Minister. The Church-of-England members of this community are a ready provided with sufficient accommodation in their own place of worship.

BERTRAM JONES, Rector of St. Paul's Church.

Germany for ages have drunk

BAVARIAN BEER,
and drink it now. Seventy five millions
of people—moral, healthy, strong, sensi-
ble and cultivated men and women—

BAVARIAN BEER,
To-day from Russia to the Rhine, and be-
yond—yearly come itself

**Lindberg & Backstrom's
BAVARIAN BEER,**

As good as can be made in Germany,
and our respected Spanish Consul
Don Jose Froisy at a festive board who
in the very height of enthusiasm invited
us to drink it.

BAVARIAN BEER.
He did two good things: he showed
what people of the best taste and the
highest cultivation think of

BAVARIAN BEER.
And he demonstrated an honest slay in
the face of hypocrisy and vulgarity.
Since that memorable day the sale of

BAVARIAN BEER
Have enormously increased in this town.
Now we clear in any quantity, and
quantity to the satisfaction of the public.
Factory, New York and West Indies,
&c. &c.

BAVARIAN BEER.
As a beverage, it is of a
BAVARIAN BEER.
A. L. N. ORIGINAL PACKAGES,
Fit for any climate, age, sex or condi-
tion.

**J. Lindberg & Backstrom's
BAVARIAN BEER,**
Will be found an invaluable
"Temperance" Drink.

We recommend it to every young man
TEMPERANCE AS AN ALL
TO THE CAUSE OF

**Temperance, Morality, and In-
cident Enjoyment.**

and is proud to be the good character
and high standing as citizens of the
German and German American people was

ALL I DRINK IT CONSTANTLY
As a part of their diet.
We use

**All Leading Men in the Cause
of Temperance.**

do not only allow, but to use and en-
courage such a pure and wholesome be-
verage as Bavarian Beer.

BAVARIAN BEER.
It is a beverage of Whisky, and
ranking since introduced.

BAVARIAN BEER.
Will be like a Medock, from the error of
his ways!

WHY NOT?
Since it has converted hundreds of
Whisky drinking Madmen, and changed
RUMMERS and GROGGERS into
gentlemen.

BEER SALOONS.
Where every one can enjoy himself com-
fortably, learn good manners, and form
correct social habits!

IT IS UNWISE
To be prejudiced against
BAVARIAN BEER.

When it does so much good,
it is a shame to encourage drunkenness
by not using

BAVARIAN BEER.
AS THE BEVERAGE,
no good people are to be taken gainst
such a good thing, they ought to be
willing to hear something in favor of it.

BAVARIAN BEER.
ALWAYS CLOWNS OUT WHISKY
Why? Because, 1st—People like it bet-
ter than Whisky when they once try it.
It is more agreeable. It is vastly more
wholesome. It cannot be anything but
pure WATER, pure HOPS and pure
MALT, put together by a good BREWER,
as BACKSTROMS claim, that he himself
really is. It is impossible to POISON
a DOCTOR WITH YOU can do nothing
worse to

**Lindberg & Backstrom's
BAVARIAN BEER,**

**J. Lindberg & Backstrom's
BAVARIAN BEER,**

After it leaves them, except to keep it
to waste it, or to drink it!

**J. Lindberg & Backstroms
BAVARIAN BEER
CANNOT BE DRUGGED**

And 2nd—Independent of the many bad
effects of Spirituous Liquors

**Lindberg & Backstrom's
Pure, Wholesome Bavarian
BEER,**

Can be sold much cheaper in consequence
of the late tax on the former.

**This Climate, by its Providential ar-
rangement the very climate for
BAVARIAN BEER.**

The climate is natural and uncommonly
dry. It is so dry, in comparison with
that of the tropics, that it makes a serious
difficulty in various trades and occupa-
tions. For instance in most parts of
Europe the climate is so moist that
housewives cannot dry their washed
clothes except in fine weather, and often in
the open fields. It takes them nearly
a week to dry their clothes. Here, the
clothes washed and hung out in the
morning, are dry before night. So, a
plastered house in Europe is not fit to
live in for six months, because even with
the help of fire, it takes so long to dry.
Here one room is dry while they are
plastering the next one. This perpetual
drying up of every fluid by the air
about us acts on the blood of the people
and would dry them up in a little while
if they did not prevent it in some way
in the early days they tried West India
rum and brandy and other distilled li-
quors. But some years ago they found
that this remedy was worse than the
disease. It was the universal drunken-
ness upon rum which called for the Tem-
perance movement. The last is the re-
sult of temperance and nutrition, if it
in the end is the most wholesome and nutritious
beverage, a more complete and sense-
less remedy, founded on science and sense, is

BAVARIAN BEER.
It is the most natural and healthful
beverage, and it is the only one that
can be sold much cheaper in consequence
of the late tax on the former.

**Lindberg & Backstrom's
BAVARIAN BEER**

Which now can be had "in any quantity"
from our Dealers, viz:

**Lindberg & Backstrom's
BAVARIAN BEER**

AT THE FOLLOWING PRICES, VIZ:

In Bottles, quarts per dozen.....1s
" pints " do.....4s
In Casks, per gallon.....2s
Observe! Tare charged extra!

We are sure that nine out of ten to whom
BAVARIAN BEER
Is offered for sale know nothing about
it, except from hearsay. Many of them
think it is SMALL BEER, but

BAVARIAN BEER
Is not SMALL BEER, by any means, and
this should be understood.

We think it no more than right that
the sincere but ignorant men who talk
against

BAVARIAN BEER
Without knowing anything about it
should be enlightened. And we think
that those who promote Temperance
could not do better to further the good
work than to recommend the

BAVARIAN BEER
As they now do water—a clear and
sparkling beverage.

And we think the Newfoundlanders
deserve a better fate than to be the vic-
tims of Dyspepsia, Liver Complaint, Kid-
ney Disease, Marasmus and Consump-
tion for want of a pure, wholesome, in-
nocent and cheap drink like

**Lindberg & Backstrom's
BAVARIAN BEER**

BAVARIAN and LAGRE BEER

Contains less alcohol than either Ale or
Porter, and that experience proves that
an excess in its use carries less injurious
consequences with it than excess in the
use of any other kind of this class of be-
verages. It has even been proved that some
constitutions can consume Four, Five, or
Six gallons in a single day—a feat per-
haps impossible with any other beverage
water perhaps excepted, and tending to
prove that next to water

BAVARIAN BEER
Is the most harmless drink. Such a
quantity of milk would surely produce
severe indigestion, while the drinking of
so much Ale, Porter, or wine would be
out of the question.

We cannot of course find fault with
those who simply dislike BEER with
natural aversion of the bitter principle
of the hops, with which it is more abor-
dantly provided than other BEERS.
This may be the reason that many people
prefer Ale; but we ought to suggest that
in order to have the full benefit of the
moderately stimulating and nutritious
qualities of any kind of BEER, it must
not be drunk at improper hours, as then
really good BEER may be quite unpalat-
able. The best time is at dinner dur-
ing the use of Beef, Mutton, Pork, etc.,
to which it is a very desirable addition.

It is a common observation that the de-
sires in regard to food and drink are, in
many individuals, undergoing a change in
the course of years. This is simply caused
by the modified wants of the system. A
young, vigorous person does not need the
stimulus of BEER or WINE at the table,
which appears to become a necessity to
others when they become older. The
wisest plan is to follow simply the natu-
ral desires as they best indicate the wants
of the system, provided these desires are
not provoked by the usual habits of
smoking or chewing tobacco, which an
excess of condiments, or peevishness,
or the habit of distilled drinks, which
nobody should use, except largely dilut-
ed, as is the case with wine, the strong-
est qualities of which would be alcohol in
as high a proportion as it ever should be
introduced into a human stomach.

The inconsistency of temperance peo-
ple in general is, among other things,
shown in the fact that they allow the
use of fermented Cider, which contains
about as much alcohol as Rhine wine.
The latter is so often used in New York
under the name of German Cider, and
of whom we have heard recently that the
German Cider is much better than the
American article. A gallon of Cider has
also been made by doctoring brandy
with the most poisonous and stimulating
of all, and also containing some alcohol,
which the other is free from, is gen-
erally preferred by temperance people,
whom it is best for the long run to
avoid, while the wine and Beer drinkers like
the refreshing syrup of lemon, or some
other fruit.

As it thus appears that not a few peo-
ple need some stimulus, it may be well to re-
knowledge this fact, and to allow them
to indulge in one which is not only harm-
less but beneficial, in order to put a
total abstinence and, in which many are
unable to persist, who breaking their
pledge, lose their self-respect in so far
as to indulge in the most pernicious of
all habits—the use of the intoxicating
distilled liquors.

It is for reasons of the above consi-
deration that we have recommended to all
who have a chance to do so, to get the
Beverage in their neighborhood, to do so
in order of keeping a Empty bottle in
the house!—*See our Paper.*

DIRECTIONS.
1—The bottled Beer ought immediately
after landing to be unpacked from the
barrels or boxes, and to be placed in a
cool place.

2—In repacking the casks with Beer, the
corks should be put in immediately after
the Beer is put in, and the casks should
be kept in a cool place, and the Beer
should be kept in a cool place, and the
Beer should be kept in a cool place, and
the Beer should be kept in a cool place,
and the Beer should be kept in a cool
place, and the Beer should be kept in a
cool place, and the Beer should be kept
in a cool place, and the Beer should be
kept in a cool place, and the Beer should
be kept in a cool place, and the Beer
should be kept in a cool place, and the
Beer should be kept in a cool place, and
