### Ministers and Investors.

We observe that Sir Edward Morris is giving a number of interviews to certain papers. We have before us interviews published in The Standard of Empire, The Financial News, The Financial World, and Canada. In a report of an interview published in "Canada" there is one paragraph which has a direct bearing on the principle that a Minister of the Crown should not be a party to transactions which are set forth in the two Memorials which were laid before His Excellency the Governor, over two months ago.

The paragraph to which we refer is as follows, and the part to which we especially direct attention is printed in black type.

"The pity is that English investors desiring to invest in Canada and Newfoundland do not, before making their investments, first satisfy themselves from reliable sources as to the bona-fides of the representations made to them. If they did there would be less disappointment as to the results of many of the investments which from time to time are made. Speaking for Newfoundland, I can say that if any person requires information in relation to the resources of the country or the opportunities for investment, or indeed, in relation to any matter, this can always be obtained from official sources by applying direct to the Colonial Secretary or to the chief of any other Department at St. John's."

It will be observed that Sir Edward advises intending investors in propositions in Newfoundland to apply to the Colonial Secretary or to the chief of any other Department at St. John's, in order to obtain information, as Nfld. Ministers holding portfolios.

### WELL POSTED

A California Doctor With 40 Years Experience.

"In my 40 years' experience as a teacher and practitioner along hygienic lines," says a Los Angeles physician, "I have never found a food to compare with Grape-Nuts for the benefit of the general health of all classes of people."

"I have recommended Grape-Nuts for a number of years to patients with the greatest success and every year's experience makes me more enthusiastic regarding its use."

"I make it a rule to always recommend Grape-Nuts, and Postum, in place of coffee, when giving my patients instructions as to diet for I know both Grape-Nuts and Postum can be digested by anyone."

"As for myself, when engaged in much mental work my diet twice a day, consists of Grape-Nuts and rich cream. I find it just the thing to build up gray matter and keep the brain in good working order."

"In addition to its wonderful effects as a brain and nerve food Grape-Nuts always keeps the digestive organs in perfect healthy tone. I carry it with me when I travel, otherwise I am almost certain to have trouble with my stomach." Name given by mail by Canadian Postum Co., Windsor, Ont.

Strong endorsements like the above from physicians all over the country have stamped Grape-Nuts the most scientific food in the world. "There's a reason."

"Look in pkgs. for the famous little book, 'The Road to Well-being.' Ever read the above letters? A new one appears from time to time. They are replete with facts and full of human interest."

### Norwegian Ship a Total Wreck.

CREW SAFE.

Yesterday the Telegram made an allusion to a Norwegian vessel being ashore but at the time no particulars could be ascertained. To-day we were kindly furnished with details by Mr. J. C. Hepburn, who was apprised by a message from Balne Johnstone's agent at Battle Harbour, Mr. Croucher stating that the "Thattalla," a full rigged Norwegian ship, went ashore at Pleasure Harbor, which is about twenty miles from Battle Harbor, on Monday. The Thattalla is a barque of 1,700 tons and was in ballast on her way from Sandfjord, Norway, to Pt. Leamington, for a cargo of lumber when she went ashore. On receipt of the above information Mr. Hepburn communicated with their agent, Mr. Croucher, giving instructions for the 3. S. Southern Cross, which was at Battle Harbor with supplies, to proceed to the wreck and give all assistance possible. The Southern Cross reached the scene of the wreck yesterday at noon and returned to Battle Harbor this morning reporting to headquarters here that the Thattalla was a total wreck. Nothing definite as to the cause of the happening could be learned. The crew of the ill-fated ship reached the shore safely in boats.

No later particulars were handed up to press hour and it is unknown whether the loss is covered by insurance.

### PEGULIAR DOUBLE CURE

Life's Hand and Husband's Shoulder Both Got Better.

Mrs. Jane Lane, of Denbigh, Ont., has a remarkable story of how she was cured of her crippled hand and her husband's rheumatism. "I had been about eighteen months I had no use of my right hand. My husband had the same trouble and after bathing in the sea with Epsom salt I had a good deal of relief. My hand was again better, and in a short time I could do my housework quite freely. Before of the time I had Mr. Lane's shoulder and hand were both a well. I had a wonderful cure and I can't say too highly of Epsom salt."

"My Egyptian Liniment is simply a cure for soreness or stiffness of any part of the muscles or connective tissue, in fact for a headache or pain in man or beast. It is a sure cure. Free sample of Douglas & Co., Napier, Ont."

### Men's Narrow Escape.

At Handy Pond, on the South Side Sunday last, four well known young men had a narrow escape from drowning. They pushed off and were well out in the lake in a canvas boat when it upset. Two who could swim reached the shore while the other two clung to the boat. After resting themselves the two swimmers procured a piece of rope and swam back to the boat and fastening it to her clinging onto the canvas for dear life. All four received a fright they will not forget in a hurry.

It was almost impossible to get past the Right House on Saturday night. A tremendous crowd of shoppers were attracted to the windows by a shipment of Job Suits, which Mr. Devine had just opened and displayed. Unquestionably this is the finest line of linen dresses that ever was shown here. In the selection of the suitings the daintiness of design, the twirling of the trimmings New York has certainly excelled itself. The whole staff was kept busy until a late hour. All should see them and see them quickly as they are going fast.

## Brigade Football

CADETS WIN.

The C. C. C. defeated the Highlanders on St. George's Field last evening by two goals to none in the opening game of the Brigade Division. The evening was an ideal one for football and the game a fast one from start to finish. There was a regular attendance, showing that great interest is manifested in these matches than in the senior league competition. Precisely at 7 o'clock at the start of the foot the teams came together lining up as follows:

Highlanders—goal, Mervyn; halfbacks, LaGrow, Adams; halves, Charles McKinley, Ledingham; forwards, Jarvis, Reimle, Chaney, Butler, Aucklitch.

C. C. C.—goal, Phalen; backs, Walsh, Thompson; halves, Christopher, W. Hart, Joy; forwards, Caul, J. Kent, F. Phalen, B. Hart, E. Murphy.

When the ball was put in motion the Highlanders brought it to their opponents' territory and kept it there several minutes until Phalen, C. C. C., Kent captured it and made a splendid run down field. Mervyn was called upon to save and in clearing away corner, but nothing of any account resulted. On the kick off the C. C. C. put on a vigorous rush and used the best endeavours to get the ball into Phalen but without success. They had a few corners which were poorly placed. The Cade's forwards made several good rushes which proved futile. Halfway were evenly directed and the teams crossed at half-time with no goals scored.

SECOND HALF.

On resumption of play the C. C. C. lads appeared to be in better form, played better combination. For several minutes the Highlanders' back was bombarded, when from a "kick" placed by Hart, Kent scored first goal.

The Highlanders on re-entrance put vim into their play but could score. About two minutes before final whistle sounded C. C. C. sent No. 2 for the Cadets and no further scoring was done.

NOTES.

The game was well worth watching. The teams are evenly matched but the Cadets seemed to combine best.

I have been using the article in my home for the last seven or eight years, and know of nothing better to use when one is subject to cough or cold. In fact, we would not be without it for twice its value. I have very much pleasure in recommending this article, and in selling it over the Island I have the same report from our customers.

Trouble on the Mongolian.

About 7 o'clock last evening the Allan Liner Mongolian was the scene of disorder. Various fights occurred amongst members of the crew and crowds of citizens were attracted to the pier by the shouting and yelling on board. The stokers had imbibed too freely and two of them divested themselves of nearly all their clothing and fought to a finish on deck. Other seamen took sides in the bout and the principal officials on the ship were compelled to send for policemen, but none could be found.

Daring Theft.

A new staysail worth \$30 has disappeared from the schr. Jessie M., owned by Mr. O'Neil, of Bay de Verde. The vessel had been anchored in the stream and it must have been a daring waterfront marauder who "lifted" the canvas. It was locked in the cabin, which was broken open in order to carry out the larceny.

Much Trouble.

Yesterday afternoon Mr. Thomas Graham, of Connors' pharmacy, lost a fine little boy aged 6, as the result of an attack of diphtheria. Mrs. Graham, who is herself unwell, is a sister of the late Mr. Patrick Flynn who went astray in the worst blizzard of the winter and whose dead body was found in Kane's Valley. Truly the family has met with much trouble of late.

### An Imperial Trade Congress.

Special to Evening Telegram.  
LONDON, To-day.  
The eighth Congress of the Chambers of Commerce of the Empire met yesterday, 300 delegates were welcomed by the Lord Mayor. Mr. Asquith, Premier, said such gathering coming from all parts of the Empire, representatives and accredited delegates of commerce and industry was one of the striking proofs and our surest safeguard for loyalty, unity and strength. Whatever differences of opinion there might be, the common object was the furtherance of the material interests, ensuring closer bonds of sympathy which united various communities that were subject to the King. For several years past nearly one quarter of the imports of the kingdom has been received from Overseas Dominions and possessions and over one third of the exports of the United Kingdom had been sent by them. The total import and export trade for 1911 represented between the Dominions themselves, amounting at least to 70 million more. These were stupendous figures and the inference was plain and the deliberation upon which they were to enter and the conclusions at which they would arrive must have greatest weight with those who are called upon to guide various parts of the Empire. Lord Desborough, in his Presidential address to delegates emphasized the fact, becoming more and more apparent, that if the empire was to live it must be consolidated. Commerce as well as defence made it impossible to deny that the enormous progress of other countries threatened the supremacy which Britain once held. He concluded by dwelling upon the importance of such a body as the British Imperial Council of Commerce, assisting statesmen dealing with business requirements of the empire as a whole. The Congress telegraphed an expression of devotion and loyalty to the King.

### Organized on Same Lines.

Special to Evening Telegram.  
LONDON, To-day.  
Lord Haldane, speaking at a banquet, after a review of troops by the King said the Dominions were organized for war on the same lines as adopted here. Our forces now had to be so disposed as to protect the Overseas Dominions, but the time would come very soon when the Dominions would have so organized their own naval and military defenses that we should become by far the most powerful military and naval nation combined, the world has ever seen. Haldane especially referred to the visit of Canadian cadets and said in organization the cadet forces in England had something to learn from her daughter States.

### Tillett Threatens Shooting.

Special to Evening Telegram.  
LONDON, To-day.  
In the course of an inflammatory speech to strikers, Tillett, the leader, made a violent attack on Lord Devonport, Chairman of the Port of London, an authority whom he declared was responsible for the strike. He continued: "Employers want the Government to turn out soldiers to shoot you. I want to say if there is any shooting, I am going to take a gun and shoot Devonport." Undeterred by the failure of previous attempts the Government resumed negotiations with a view of arranging a peaceful settlement of the dock strike. The prospects of success are slender, as shipowners are convinced that a national strike cannot be successfully engineered, and have taken an unyielding attitude. The number of men outside London who have responded to the call for a national strike does not exceed 25,000, but several ports, including Bristol, Swansea, Southampton and Manchester are partially tied up. The London situation remains unchanged.

### McMurdo's Store News.

WEDNESDAY, June 12th, 12.  
The Featheredge Rubber Sponges has advantages of shape over the old style article which give it distinct superiority. And in quality of material it is fully equal if not superior to other kinds. On the whole it is the finest kind of rubber sponge we have seen. There is of course, no need to dwell upon the value of rubber sponges in general, as compared with the natural product, in freedom from sliminess, antiseptic and wearing qualities, for that is now fully conceded by the general public. Prices of the Featheredge range from 45c. to \$2 each.

### Motor Goes Overboard.

The big motor truck of the Rope-walk, with a load of rope on it to go by the schr. "Maggie Sullivan," went down Bennett's arch at noon to-day with Chaffeur Power and another man on board. The driver tried to avoid a pony and in doing so the big truck backed over the breastwork, the hind wheels going down in the sand and the others resting on the parapet. The freight all went into the sea and the chaffeur had his leg pinned under the ponderous machine and was severely crushed. How he escaped death is wonderful. The other man jumped and got away with a few bruises.

The engraving is perfect and it has an artistic colored bordering of beautiful design. The address is surmounted by an oil painting of the Bishop and at intervals along the bordering are paintings of St. Bon's College, Mt. Cashel and Mt. St. Francis. It is the work of Miss Alice M. O'Rourke, of Rathgar, Dublin, Ireland, and must be seen to be appreciated.

### Beautiful Things.

The beautiful things are the things we wear, as we shall find when the Journal's read up there. We're illustrating the latest styles, with raiment that beats the band; but the beautiful things are the kindly smiles that go with the helping hand. We burden ourselves with gleaming gems, that neighbours may stop and stare; but the beautiful things are the diadems of stars that the righteous wear. There are beautiful things in the poor man's cot, though empty the hearth and cold, if love and service are in each thought that husband and wife may hold. There are beautiful things in the lowest slum where wandering outcasts grope, when down to its depths they see you come with message of help and hope. The beautiful things that we mortals buy and flash in the crowded street, will all be junk when we come to die, and march to the judgment seat. When everything's weighed on that fateful day, the lightest thing will be gold. There are beautiful things within reach to-day, but they are not bought or sold.

**A HARD WINTER On the Labrador.**

**Great Shortage of Fur--Huskies and Indians Have Hard Time --Some Die of Starvation-- They Lose Their Dogs Thro' Lack of Food---Writer is tried of Eating Partridge Twice a Day for 3 Months.**

From a letter by a resident on the Labrador we learn that times have been especially hard on the Labrador during the past winter.

The writer states that:

"During my 21 years' experience of this country, I have never seen a winter like the present, and if it was not that the inhabitants did fairly well both with fish and salmon last summer, the demand for relief would be something fierce. As it now stands, quite a number had sufficient provisions to last them until about the end of February, but now, (Feb. 25th) most are out and every day more or less are coming for assistance. Many trappers with from 100 to 150 traps, to date have not caught a single skin, not even an ermine. Last year about this time I had purchased about six thousand dollars' worth of furs, while to date I have not one hundred dollars worth on hand. To make matters worse there is no chance of much improvement, as with the exception of a sign of a few mink and otter inland, all other fur bearing animals seem to have utterly disappeared."

"At the head of Hamilton Inlet, where at least 600 foxes were secured last season, when I visited there two weeks ago, only seven had been caught."

"The problem is what has become of them. The majority of the trappers believe that they contracted distemper last spring and all died."

"The Northern mail reached here last week, and the accounts from that part of the coast, if possible are even worse than here, as not only have the fox hunt failed, but the seal catch as well. This latter has proved a very serious matter at the Moravian Stations, as not only the natives, but the dogs as well partly depend upon it for a living. I am informed that most of the latter have starved to death and the Huskies have had to remove to the woods, so as to be near firewood, having, now they have lost their dogs, no means of hauling it to their homes at the Moravian Stations. My correspondent also makes the remark that not a single fox has been caught by the Esquimaux at any of the Moravian Stations."

"The Indians that hunt inland inside Davis Inlet are also up against it, having either missed the deer last fall or otherwise there was none for them to miss, as a gang came out early in December in a starving condition, bringing the news that six of their number had died of starvation, and that many others were in such a weak state that unless provisions were speedily got to them they would follow suit; however, I believe Gaurreau got provisions to them in time, as on the 24th ult the majority if not all the gang had reached the Post, most being in a shocking state, the poor fellows had done nothing with fur, and Gaurreau hardly knew what to do for them, but by first winter mail I instructed him to allow no one to starve, so if my letter has reached him he will have something to act upon."

"Only one poor solitary deer has been killed in this Bay to date, and if it was not that partridges were fairly plentiful, we should ourselves be pretty short of fresh meat, however, I suppose we ought not to complain, but after having partridges twice a day for the past three months one is apt to get rather tired of them and long for a change."

KODIAK, Alaska, June 11.

Kodiak and Woody Island villages are buried under ashes as a result of the eruption of Katami volcano, which lasted 48 hours. No lives have been lost here, but many other settlements near the volcano must have suffered indescribably. The revenue cutter Manning was in port here when the eruption began and furnished a refuge for all the inhabitants of the town to the number of 500, doubtless saving many lives.

LONDON, June 11.

Yesterday morning at Marlborough House, the residence of Queen Alexandra, a man named William Woodley, an escaped lunatic, eluded the guard of police and soldiers and broke into the Palace. He roamed about through many rooms, and finally went to sleep in a bed in a room on the first floor. The Queen Mother was not in residence, but Princess Victoria was. When the intruder broke in she was sleeping in her apartment. The lunatic was discovered by a housemaid at 8.45 this morning.

LONDON, June 11.

The Home Rule Bill entered the Committee stage in the Commons today, and the discussion is expected to last until Parliament adjourns for vacation in August. As to the ultimate outcome, so far as the Commons is concerned, it is a foregone conclusion. Most members are apathetic, and the general public are becoming weary over the continued talk, in which nothing new is found. The Nationalists are showing a patient expectancy. Their attitude is that the least said the soonest mended, so the full strength of the party sits silently listening, without attempting to intervene or prolong the struggle with unnecessary speeches. The Unionists bear the greater bulk of the burden in debate, and have already booked amendments covering forty-five pages of parliamentary papers.

Special Evening Telegram.

LONDON, June 11.

On the resumption of the Titanic enquiry, Attorney General Sir Rufus Isaacs announced his intention of submitting to the court that the wireless despatch which notified that ice had been seen on the route of the Titanic was handed to Bruce Ismay in his capacity as managing director of the White Star Company, and because of its serious character. When making the announcement of his intention to submit to the court his argument that the wireless despatch notifying the presence of ice had been handed to Ismay, as managing director of the Company, Sir Rufus referred to Ismay's statement that no word had been exchanged when Capt. Smith handed him the telegram. Sir Rufus said that was extraordinary. Sir Robert Finlay interjected: "It certainly would be if your views were right." Sir Rufus retorted: "I am not satisfied there was not any conversation if you challenge me to say that we have only the word of one person; the other is dead."

AMBULANCE CALLS.—Mrs. House, of Robinson's Hill, was brought to the General Hospital in the ambulance yesterday afternoon to be operated on. The ambulance was called to Pope Street and removed to Hospital Street, where it was operated on for appendicitis.

**Use of Motor Boats in the Norwegian Fishery.**

(Copy) St. John's, April 29th, 1912.

H. M. British Consul, Christiania, Norway.

Dear Sir,—I would be very much obliged if you could furnish the Board of Trade with figures showing the catch of codfish in Norwegian waters by motor cutters. I would like to know how far the enormous catch of codfish this year has been occasioned by the large number of motor cutters that have been employed. I understand that there are 757 fishing this year as against 150 two years ago. Thanking you in advance,

Yours very truly,

(Sgd.) W. G. GOSLING, Vice-President.

(Copy) British Vice-Consulate, Bergen, May 24th, 1912.

Sir,—With reference to your letter to His Majesty's Consulate at Christiania, of the 29th ultimo, asking to be furnished with figures showing the catch of codfish in Norwegian waters by motor cutters, I have the honour to inform you that, under instructions from the Acting British Consul for Norway, I applied to the fishery Office in this town for the information desired.

It appears, however, that there are no figures obtainable showing the catch by motor boats alone; but the Director of Fisheries has supplied me with statistics, which are enclosed herewith, showing the number of vessels of different types employed in the cod fisheries in the most important districts during the last three years. I have the honour to be,

Sir,

Your most obedient servant,

(Sgd.) VICTOR HUCKIN, Vice-Consul.

The Vice-President, Newfoundland Board of Trade, St. John's, Newfoundland.
