WINARD'S LINIMENT FOR SALE EVERYWHERE.

WHEN YOU BUY A
Chevrolet 'Four-Ninety'
TOURING CAR

you purchase a fully equipped car at the very lowest price that any all-equipped up-to-date car sells for.
The Chevrolet "490" has inbuilt the Auto-Lite Electric Starting and Lighting system. This same system is fitted to cars selling at twice the Chevrolet price. It is most reliable and simple in construction, and can be depended upon to crank efficiently for many years.
Demountable rims is another up-to-date feature; with an extra rim for carrying a spare inflated tire secured to a tire carrier at the rear of the car gives the motorist a feeling of relief in case of puncture.
Another valuable feature is the One-Man Top. Apart from the ease in which one man can put up the top, it has another advantage over the ordinary type by giving added refinement.
Chevrolet "Four Nineties" are fitted with three speed gears forward and one reverse. The lower gears are only used for starting, because with the powerful Valve-in-Head Motor, very steep hills can be ascended with ease on top gear. The second gear has a speed of twenty miles per hour easily.
To insure absolute reliability the "490" has for standard equipment a Simms High Tension Magneto. This is independent altogether of the electrical starting and lighting system, and no matter what might go wrong, the car cannot fail to operate on the High Tension Magneto.
Fuel economy and low cost of upkeep is the Chevrolet slogan. 25 miles per gallon is the usual consumption. Chevrolets in St. John's are averaging this standard, and many are giving bigger mileage.
Ask any of the many users in St. John's what they think of the Chev. and you will be told that it is the best all round car that money will buy.
Write for catalog or call at our Service Station and inspect one of the new models.

THERE IS ONLY ONE GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

If you don't see the "Bayer Cross" on the tablets, refuse them—they are not Aspirin at all.
Your druggist gladly will give you the genuine "Bayer" Tablets of Aspirin because genuine Aspirin now is made by Americans and owned by an American company.
There is not a cent's worth of German interest in Aspirin, all rights being purchased from the U. S. Government.
During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. But now you can get genuine Aspirin, plainly stamped with the safety "Bayer Cross." Aspirin proved safe by millions for Headache, Toothache, Earache, Rheumatism, Lumbago, Glands, Neuritis, and Pain generally.
Handy tin boxes of 12 tablets—also larger "Bayer" packages.
Aspirin is the trade mark (Newfoundland Registration No. 761), of Bayer Manufacturing of Monocetateester of Salicylicacid.

Cured of Eczema.

B. F. Viscount.
Dear Sir,—To-day I can thank God for the day I saw your advertisement in the paper. After suffering from that horrid skin disease for seven years, and having tried doctors and many other remedies that I could hear of far and near, two boxes of your Ointment cured me when all others proved worthless.

Market Report.

FOR WEEK ENDING JULY 26.

CODFISH.—Prices of old fish have slumped, and there are possibilities of a further reduction. The shore fishery is far below the average to date. Some new fish was received at a price of \$12 per quintal and the rise.
CODDIL.—Transactions at first hands were made at from \$225, to \$230 and \$245 per tun amongst merchants, for common. Refined is holding at from \$1.90 to \$2 per gallon.
HENNY.—Halifax holds out good offers for splits to full West India orders, and prices range from \$5.50 to \$6 per barrel from packer to purchaser. Nothing doing in the Scotch pack. New York prices of this cure are away down.

PROVISIONS.—Flour prices are unchanged, and only War Standard is on sale. Some consignments of all Whites are due in September, when prices may decline. Pork is holding high, Ham Butt selling at \$59 per barrel wholesale. Higher grades are not being sought after, and are practically off the local market. Beef remains unchanged. The various grades being between \$41 and \$49 per barrel, with Boneless, which has weakened a little, being quoted at \$42.50. The local quotation for white sugar, to arrive, is \$11.75 per hundred pounds. The current price is \$12 per hundred pounds. Molasses, by single punchon, is selling at 84 cents per gallon; ten punchon lots, 93 cents.

"The Financier."

A SPLENDID PRODUCTION.
An advance copy of England's senior financial newspaper, "The Financier," has been sent us by its editor. This issue is remarkable in that it is a special Empire Peace and Reconstruction number and probably constitutes a record in daily journalism. The issue, comprised of a section of eight large, 7-column pages, and a magazine section of forty eight pages, beautifully gotten up, and replete with interesting and topical illustrations, deals almost exclusively with trade and financial matters of all the dominions, and colonies of the Empire, many of the articles being autographed by the writers—the Prime Ministers of each. What will interest and appeal most to Newfoundlanders is a long interview with the High Commissioner, Sir Edgar Bowring, which occupies over a full page. A large cut of Sir Edgar adds to the touch of local interest. The cover of the magazine section is bordered with cuts of the capital cities of all the colonies and dominions, St. John's coming third in the list of eight. Sold for a penny, we cannot imagine a better bargain than the purchase of the "Financier."

Hr. Grace Notes.

The funeral of the late Bernard Parsons, Esq., J.P., took place on Thursday last, and was attended by a large number of citizens, including members of the C.B.B. Society and H.G.V. Fire Brigade. The deceased being an esteemed member of both organizations.

The old-time codfish was again pressed into use here on Saturday last, and the owner was rewarded by the good haul of 20 barrels of fish. The failure of the traps to take cod fish, caused Messrs. Crocker and Taylor to try the old-time method.

Mr. and Mrs. Nath. Davis, of Brigus, are now in town on a visit to friends.

Quite a large number of passengers arrived from Bell Island by the motor boat E. L. Stewart, on Saturday, and returned to the Island again yesterday.

McKay's Grocery is headquarters for everything in the grocery line. Nothing but the very best groceries, candies, bread, cake, etc., kept in stock. See the sign of the Caribou.

St. Paul's Garden Party takes place in Shannon Park on Wednesday. The affair is going to be one of the best of its kind for a number of years.

The Tennis Club is now in full swing, and the young ladies and gentlemen connected with it are reaping the usual amount of enjoyment from the same.

We had the pleasure on Saturday, of meeting an old school-fellow and close friend in the person of Mr. John Gordon, of Halifax, who has been in that city for a number of years and has made good there. Mr. Gordon is a son of Mr. and Mrs. Samuel Gordon, of the East End, in congratulating Mr. Gordon on his success in his adopted land, we also take this opportunity of welcoming him home. He remains with us a week or so.

There is no fish to be caught about here with traps, and very little with hook and line, but fishermen are hoping for a "spurt" soon. Caplin are still fairly plentiful.

The schr. Minnie Maud is now landing a cargo of lumber to her owner, Mr. E. Simmons.

Mr. and Mrs. James Stirling and children are here from St. John's on a visit to friends.

Poles and Ukrainians Battle.

Former Make Big Capture --- Only Twelve Days Coal in Italy --- Dock Strikes Settled --- More Incriminating Documents.

THE POLISH SURPRISE.

COPENHAGEN, July 28. The Polish advances in Galicia, which the Polish press announced yesterday had resulted in the occupation of all Galicia to the River Zbrucz, were made, according to further advice, so rapidly that the Ukrainians had no time to destroy the railways or bridges as they retreated. The Poles, according to this announcement, took 900 prisoners and 41 guns as well as vast quantities of munitions and railway equipment between July 11 and 17.

ITALY SHORT OF COAL.

ROME, July 28. Italy's coal supply, which it is estimated to-day will last only twelve days, is causing increasing alarm. Negotiations for American coal which have been in progress here have been taken up directly with the American International Relief Association in Paris of which Herbert Hoover is the head.

LIVERPOOL DOCK STRIKE SETTLED.

LIVERPOOL, July 28. The strike of dock workers has been ended. Work will be resumed to-morrow (Tuesday). The strikers regarded the settlement as being greatly in their favor.

WELCOMES ALLIED ASSISTANCE.

OMSK, July 15. Endorsement of the Russian Gov-

ernment's policies as given in Admiral Kolchak's note to the Allies is expressed in a declaration of the constitutional democratic party made public to-day by the eastern division of the party's control committee. The declaration says the party welcomes the Allied note promising Russia energetic help in its struggle against the Bolshevik tyranny.

STRIKE SETTLED.

NEW YORK, July 28. The strike which for about three weeks had tied up shipping along the Atlantic and Gulf seaboard was finally settled to-night when an agreement on wages was reached with the marine engineers. William S. Brown, national president of the engineers' union, immediately sent out orders to move ships without delay.

LOAN TO GERMAN BANK.

LONDON, July 28. An American loan of \$100,000,000 has been obtained by Martin Nordberg, representing the Deutsche Bank of Berlin, according to an Exchange Telegraph despatch from Berlin. It was said ten per cent. of the loan would be deposited in foreign bonds to the German bank's credit Nordberg is unknown in New York.

LIGHTNING DESTOYS AEROPLANES.

MINEOLA, July 28. Three bombing planes, including the Martin machine in which Capt. Francis planned to leave next Friday on a trans-continental trip, were wrecked by a terrific electrical storm which swept over Long Island

this afternoon. Lightning struck a steel hangar at Hempstead Field and hurled fragments of steel for a distance of half a mile.

HUNGARIANS DEFEATED BY RUMANIANS.

VIENNA, July 28. Hungarian Soviet troops have been thrown back in disorder across the Is River by Rumanians at Szolnok. On July 24 the Hungarians advanced was declared by the Rumanians as being stopped but Hungarian sources claimed their troops were meeting with success.

THAT PEACE PROPOSAL.

PARIS, July 28. The German government will publish immediately, according to the Frankfort Gazette, the British telegram mentioned in the note of Monsignor Pachelli, Papal Nuncio at Munich, which Vice-President Erzberger on Friday told the National Assembly contained a peace proposal.

Grand Falls Baseball Contest.

FOR THE CHURCH OF ENGLAND TROPHY.

July 21st. The line-up was as follows:—
Wanderers: Pitcher Slocum
Forsey Catcher McHenry
Crawley 1st Base Shroat
Fortier 2nd Base Shapleigh
Dean 3rd Base Waugh
LeDrew C. Field Quick
Lockier L. Field LeMoine
Matthews, W. R. Field Brain, C.
Bouzan R. Field Rockwood
Killin C. Field Rockwood
The Cubs won by 12 to 8, the score by innings being:—
Cubs 0 2 3 5 1 0 1—12
Wanderers 2 0 1 0 2 2 8

At the start the game looked very promising for the Wanderers, but as the different innings were played, the Cubs got accustomed to the Wanderers' pitching, and in the 4th innings scored 5 runs. However, the game was interesting from start to finish and showed splendid fielding and batting from many of the boys.

July 22nd. The line-up was as follows:—

Stars: Pitcher Rovers
Foran, S. Pitcher
Durant Catcher
Searles 1st Base
Foran, G. 2nd Base
Goodyear 3rd Base
Matthews, A. S.S.
McPherson L. Field
Dayton C. Field
LeMee R. Field
The Stars won by 11 to 4, the score by innings being:—
Stars 3 1 4 0 2 1 0—11
Rovers 1 1 1 0 0 0 4

This game, although very interesting, was not so good as the previous one, due no doubt to the fact that the Rovers lost one of their best men, Sammy Rhodes, who could not make it convenient to play.

July 24th. The final contest between the Stars and Cubs for the splendid trophy presented at the Garden Party. The line-up was as follows:—

Stars: Pitcher Slocum
Foran, S. Catcher
Durant 1st Base
Searles 2nd Base
Foran, G. 3rd Base
Goodyear S.S.
Matthews L. Field
McPherson C. Field
Dayton R. Field
LeMee Rockwood
The Stars won by 8 to 7, the score by innings being:—
Stars 0 5 0 1 0 0 1 0 13
Cubs 2 0 1 1 1 0 2 0 0 7

This was one of the best and most exciting games ever witnessed by any spectator on the Grand Falls athletic grounds. The game consisted of 9 innings, which resulted in a draw, 7 to 7. The Stars having won the toss resumed their position at the bat for the 10th innings to decide the championship. During this innings the Stars scored 1 run, which gave them 8 to 7. The Cubs then went to bat, but failed to score, leaving the Stars the winners. Great enthusiasm was caused by the spectators, which numbered over a thousand, and one could scarcely hear himself speak. The chief features of the game were Redmond's 3 bagger, Quick and McHenry, 2 bases for the Cubs, while Searles and Dayton 2 base hit each for the Stars. Great fielding was exhibited by both teams, especially Gusie Foran, who assisted Searles in fielding 5 men in two innings. A splendid exhibition was given by Slocum and S. Foran as pitchers, McHenry and Durant as catchers. With three or four weeks' of hard practice and many baseball tips from Capt. Fortier, justice will be delivered to our St. John's opponents at St. George's Field sometime during the coming month.

Assassination of King Humbert.

King Humbert of Italy had accepted an invitation of the Provincial Athletic Club at Monza to be present at the distribution of prizes, and at half past nine on the morning of July 29, 1900, the King drove to the Palestra, on which the sports were held, where he was received by the authorities and a large crowd of the general public. After presiding at the distribution, which lasted about an hour, the King left the Palestra, and was just starting in a closed carriage to return to the Royal Palace, when four revolver shots were suddenly fired by a man standing amongst the crowd. His Majesty was hit by three bullets, one of which struck him near the heart, but he exclaimed, "It is nothing!" and the carriage was driven at full speed to the Royal Palace, taking only three minutes for the journey. The King was found to be still living, but sinking so fast as to be practically beyond the reach of human aid, and he died as he was being carried into the villa. He was at once placed in bed, and doctors arrived with the utmost speed, but they could only declare that life was extinct. Meanwhile, the bystanders, on becoming aware of what had happened, made a rush to seize the assassin, and it was only with great difficulty that the proper authorities rescued him from the hands of the mob, and effected his arrest. He was an anarchist, named Gaetano Brassi and denied that he had any accomplices, and said that he committed the crime out of hatred for monarchical institutions.

Optimism and Pessimism.

When the pessimist arises in the morning he feels sure in advance that he is going to nick his face in shaving or stick some tooth paste in his eye or something like that. He feels that at breakfast his coffee will be cold and the eggs not cooked enough to suit him. With this bad start the pessimist feels, as is customary, that it is going to be an unlucky day for him. He declares gloomily to himself that before the day is over he will get a call down from the boss, will lose a cou-

SPEEDING UP.

The impetus and encouragement to education in Newfoundland, which is being given by the campaign drives of the Methodist and Anglican denominations, bids fair to enlarge the whole scope and system of teaching and training in this dominion. And it is well that this is so. Nothing advances a people more than education, and having taken particular notice of all our shortcomings in this vitally important matter, the present efforts are the outcome of a desire to intensify and improve the educational status of the present and future generations of our young people.

The promoters of the campaigns have received hearty support, morally and financially, as the daily published returns have shown, proving that the need for more and still more education is being indelibly impressed upon the population. The responses to the request for money with which to carry on has been marvellous. In the City of St. John's alone the Methodist denomination surpassed their objective, and the campaign is being opened in the outports, from which the collections will undoubtedly be in proportion to those of the Capital. The Anglicans have demonstrated their ability to go over the top in the city, the total returns up to last night's report, being well within the circle of anticipation.

With the people taking a lively interest in the advantages of increased educational facilities, the new crusade for better and more up-to-date schools, will surely be carried to a victorious conclusion. All the evidence now points to a united and concerted attack against ancient prejudices, prejudices detrimental to mental advancement, and the days when it was held that a superficial elementary education was sufficient for every child, now belong to the musty past. We have entered upon a new era, and the present campaign will place Newfoundland in the running with other Dominions, whose peoples consider education as the greatest asset toward national prosperity.

Obituary.

RALPH MCLEES BISHOP.

We regret to chronicle the death which occurred at five o'clock this morning at his residence Patrick Street, of Mr. Ralph McLees Bishop, second son of the Hon. R. K. Bishop, and director of the firm of Bishop, Sons & Co. Ltd. Mr. Bishop was in good health up to Wednesday and was sitting on the rail of the balcony at his residence, Patrick Street, when in some unaccountable manner he overbalanced himself, falling heavily and injuring his spine. Mr. Bishop leaves two children, his wife having predeceased him some six years ago, two brothers, Harold and Monroe and his father who is at present in England on business in connection with his firm, to whom the sudden blow will be a severe one. Funeral will take place to-morrow afternoon. We extend our sincerest sympathy to the members of the family.

Arranging Peace Celebrations.

With Mayor Gosling in the chair, a public meeting with the object of arranging celebrations on Peace days, Aug. 4th and 5th, was held in the Board of Trade rooms last evening. Mr. J. J. McKay, president of the Board of Trade, stated that the Board had left the matter in the hands of the city Councilors but offered some tentative plans for the celebrations, including children's fete, bonfires, procession of decorated motors, water sports and band concerts in the parks.

Mr. H. R. Brooks advocated the combining of the two celebrations on the occasion of the visit of the Prince, instead of observing two sets of holidays on two succeeding weeks. The 4th and 5th would be only statutory holidays, the Premier then explained, and probably the 13th. Full instructions in this matter had been sent the outport Magistrates and other authorities and no alterations could now be made.

The adjournment of the meeting until four thirty o'clock this afternoon was then moved and carried. In the meantime an effort is to be made to ascertain what catering arrangements can be made for the youngsters, if a children's fete is staged and the Press is desired to invite to to-day's meeting representatives of the ladies patriotic assn. and of the labor organizations as well as any other citizens who may care to attend.

A Criticism.

A communicated article in the Harbor Grace Standard of July 25th, has the following to say of the "Trail of the Caribou" stamp issue:

The Charleston American quoted in the Telegram says that the so-called Caribou issue of stamps is handsome set, and one of the best put out by the Postal authorities. Would the American writer tell us the difference between a caribou head and that of a moose? Did he ever see a caribou with palms on the top of the antlers? The same mistake was made with the crest of the Newfoundland Regiment, and the only solution is that the man who designed or picked out the crest for the Regiment and he who sketched the originals of the stamp was not to the manner born. Then, too, is the use of the word "trail." Who ever heard of the word used in Newfoundland? If you speak about caribou the word that will be used is "head." Altogether it seems we have copied Canada in choosing the crest and the central object of the stamp. The Caribou issue in design is faulty, the colors anything but pleasing to the eye, and the whole selection not to be compared with previous issues. The Cabot issue is far away ahead of the Caribou issue.

Another Campaign Started.

The George Street Methodist Church opened a vigorous campaign last evening, with an organization in two divisions, with 6 teams of 6 workers to each team. The purpose of the drive is to raise the entire church revenue for the year in the one effort. The following is a list of those connected with the campaign. Chairman, Mr. C. P. Ayre; Secretary, Mr. D. B. Hrom; Campaign Manager, Mr. R. F. Horwood; Leader, Division A, Mrs. J. E. Angel; team captains, Messrs. R. F. Horwood, Clarence Scott, and Kelloway, Leader, Division B, Mr. F. H. Steer; team captains, Messrs. C. R. Steer, J. W. Taylor, C. C. Pratt, Executive Committee, Messrs. D. B. Hrom, Messrs. C. P. Ayre, C. C. Pratt, J. W. Taylor, C. R. Steer, W. M. Samways, Chas. F. Stephenson and R. F. Horwood.

The objective is \$8,000.00. A supper was held at 7 o'clock last evening and the report given in showery conditions, a contribution of \$76.00 from the workers. Much enthusiasm was in evidence and the workers are determined to go over the top. The workers meet again at nine this evening and will continue four days. The workers under their captains are on the war path to-day and a good report is expected to-night.

The Arch of Welcome.

SITE NOT POPULAR.

The arch being erected in honor of the Prince of Wales may be all right from an architectural standpoint, but we fail to see how it is, in any way, emblematic of our country. We would consider it more in keeping with the history and traditions of Newfoundland if the arch was erected after the manner in vogue from time immemorial, that is, the same covered with the bows of our forests, decorated with our wild flowers, and displaying the natural resources of our country, such as the seal, codfish, mussels, our sailing fleet and steamers which have prosecuted our second great industry—the sealishery. Also models of our Labrador fishing fleet, our fishing jacks, etc., as well as our caribou and other animals and birds of Newfoundland. Again, we think that the site upon which the arch is being constructed has been badly chosen. It should have been on the historic Beach where history and tradition in the shape of Himpfrey Gilbert hoisted the flag of Old England, and took charge of the Island in the name of the British Sovereign. It is to be regretted that important ideas were not thought of by those whose duty it was to erect the Arch of Welcome to our future Sovereign. Everything in the shape of beauty of architecture has already been seen by His Royal Highness, but an arch erected with representations of our natural resources, would immediately catch his eye, and would give His Royal Highness a good practical idea of how we live and work in Newfoundland. To add to the decorations, what could be prettier than our wild roses, daffodils, ferns, dogberries and all our other numerous flora. It would be an advertisement for our country, and would do more to bring the resources of Terra Nova under the notice of the capitalists of Great Britain and Europe generally than would all the advertisements we could print in ten years. The Telegram does not wish, in any way, to throw cold water on the efforts of those responsible for the site upon which the arch is erected, nor do we in any way depreciate the beauty of its construction, but we must say that it is not up to the occasion, nor have we taken advantage of such an auspicious episode in our country's history, as the visit of our future King undoubtedly will be, to bring the resources of the Oldest Colony have slowly but steadily forged to the front, in its resources, the adventurous spirit of its sons, the agility and capability of its sailors and the distinguished and perseverance of its soldiers upon many a field of battle in Egypt, Gallipoli, France, Flanders, and every other portion of the Globe in which a Newfoundlander was to be found. However, we suppose we must make the best of it now.

Annual Garden Party.

The Annual Garden Party, in aid of Mount Cashel Orphanage will be held to-morrow, and the distinguished patronage of His Excellency the Governor, and His Grace the Archbishop. This is now recognized as one of the Summer events, and the distinguished guests promise to make this season's party the most successful yet held. The programme of sports will be a most interesting one, and the list of events will include foot and pony races; football five and the big baseball game between the Cubs and Wanderers for the H. D. Reid cup; besides which there will be dances by the Mount Cashel Boys and various amusements for young and old. The C. C. C. and T. A. bands will be in attendance. The noble work being carried on by the good Brothers in providing a home for the fatherless and in fitting them for the battle of life, is known and appreciated by all. The running of such an institution as Mount Cashel, particularly at present and with an ever-increasing number of inmates, is naturally difficult, and calls for funds which all will help supply by attending the Party to-morrow.

Housing Scheme Approved.

Ottawa, July 23, 1919. Dear Sir,—I have been interested in your leading article dealing with the proposed better housing scheme for St. John's, and would like to be permitted to congratulate you on the introduction of co-operative methods into your being up of our housing scheme. I have pleasure in sending you by separate mail a few publications relating to the steps we are taking in Canada to promote better housing conditions, and would particularly draw your attention to the fact that we are making town planning an essential part of our housing scheme. The reference in your leading article, in your issue of July 14th, to the proposal of planning broad streets with plenty of space and air in connection with your housing schemes, shows that the value of town planning in connection with housing is appreciated in Newfoundland as well as in Canada. In England, housing and town planning go together, and are included in the same Acts of Parliament. We hope that Newfoundland in starting its housing enterprises will benefit from the experience of older countries in having regard to town planning principles in connection with the promotion of its housing schemes. Yours faithfully,

T. J. ADAMS, Town Planning Adviser, Editor Evening Telegram, St. John's, Newfoundland.

To The Pipe Trade

Mr. Store-keeper!
Have you thought about your pipe business for the coming Fall trade? If not yet, it is important that you do SOON! The sooner the better. The makers of the famous C.P.F. Pipes have notified us that on and after August 1st a further advance in price will take place owing to the difficulty in obtaining raw materials and the increased labor rate.

NOW! This should interest you! We have still a considerable stock of Pipes on hand, which we shall continue to sell at their present prices, as shown in our illustrated Pipe List of May 26th. This is your opportunity to make good—order the Pipes you will need for your Fall business NOW!—from US. Send us a post-card stating your name and address, and we'll mail you in return our illustrated Pipe Circular showing price and discount.

You can buy Pipes from us 20 per cent. cheaper than you can purchase elsewhere. A trial order will convince you.

Anglican Educational Campaign.

Probably the biggest crowd since the campaign opened was present in the Methodist College Hall last evening when yesterday's reports were submitted. If Saturday evening had been marked by the amount of good humor and fun, last evening was treble so, and as the results of the day were announced cheers and clapping broke forth from everyone in the Hall. The winning division of the men was W. R. Warren, chairman, and chairman W. S. Monroe had to pay \$10 Capt. Hunt, 25 subs in the ladies' division, D. von Mrs. H. After Mr. Stoll, the organizing manager, had given some good advice and directions, Rev. Leonard Jeeves, the newly inducted rector of the Cathedral delivered a few remarks. He had been here but a few hours—long enough, however, to be able to see and admire the splendid spirit of competitions among the workers. Drawing his moral from a story told by himself, Mr. Jeeves concluded by admonishing all to shove—should be. The singing of the National Anthem brought the evening to a close.

FISHERMEN!

This is the great Fishkiller with which the Norwegians catch such large quantities of fish. Place a sinker with a swivel on each end about one fathom above the hook, which spins like a minnow, and the fish bite ravenously.

SEAMEN TO RESUME WORK. MELBOURNE, July 29. (Via Reuter's Ottawa Agency.) It is expected that the seamen of all the states will unhesitatingly adopt the leaders' advice to resume work. The estimated loss in wages is two and a half million. The strike of builders laborers has been now settled.

REVOLT AGAINST ITALIANS. SALONIKI, July 28. The number of Albanians in revolt against the Italian troops occupying that country is growing daily, according to the newspaper Macedonia. Several of the Albanian chiefs, opposed to Essad Pasha, Provisional President of Albania, are co-operating with partisans in an attempt to force the Italians to evacuate.

TRIAL OF LAON INFORMERS. PARIS, July 28. Sentences were delivered this evening in the case known as "The Informers" after a trial of more than sixty days of twenty eight persons accused, eight were condemned to death, two being women. Three others were condemned to death by default. Six were acquitted and the remainder received sentences from one to twenty years imprisonment. The charge against the accused was that of denouncing their compatriots to the German authorities, during the occupation of Laon. In many cases the hiding places of French soldiers, who had escaped the German advance were pointed out, with the result that a number of soldiers were executed.

SUDAN LOAN. LONDON, July 28. The House of Commons, this evening, passed the second reading of the Government Bill, introduced with the purpose of aiding the Sudan to raise a loan of £6,000,000 for irrigation, railway construction and the development of 300,000 acres of land at the confluence of the white and Blue Nile rivers.

Auto Causes Damage. Mr. Patrick Casey, West End Butcher, became the owner yesterday when an automobile, owned by Soper and Moore, coming down Water St., struck the express to which Mr. Casey's new horse—a spirited animal—was attached. The impact was so great that the express was instantly turned aside and the horse, becoming frightened, continued down Water St. in the direction in which it had been heading, hauling the overturned express with it. The wheels and shafts of the carriage became considerably damaged, but the horse escaped without injury, being stopped near Water St., struck the express in the meantime having been blocked and detached from the horse by one of Lynch's bread cars which was standing near Egan's Confectionery Store.

Sable L. Leaves. The S.S. Sable I left here at 10 o'clock this morning for North Sydney taking the following passengers: John and Mrs. A. J. McArthur, J. Ryan, W. E. Bell, W. S. Meredith, E. Eddy, A. Ernest, R. B. Murrell, W. R. Morse, C. R. Davis, F. J. McCarthy, G. Scarborough, Mrs. E. Driscoll, Sister Mary Angeline, Sister Mary Therese, Sister Mary Patrice, Miss May Hearn, W. G. Gushue, N. S. Cummings, J. Manfield, J. R. McLeod, Rev. A. H. Campbell.

Brigades Encamping. The C. L. B., some 250 strong, will leave for Topsisal to-morrow, where camp has been prepared. The Highlanders will be on Friday for Harbor Grace, where five days will be spent, the additional five days to be spent at Carbonear.

Reids' Boats. The Argyle left Placentia at 4.40 p.m. yesterday on Merasheen route. The Clyde left Port Union at 3.45 p.m. yesterday. The Dundee left Lewisporte at 8 a.m. yesterday. The Ethie left Bonne Bay at 8 p.m. on the 27th, going north. The Glencoe arrived at Port aux Basques at 7.30 a.m. to-day. The Home left Lewisporte at 8 a.m. yesterday. The Kyle left Port aux Basques at 2 a.m. to-day. The Melgie left English Harbor at 9.20 a.m. yesterday, going to Port aux Basques. The Sagona was not reported. The Petrel left Clarendville at 10 a.m. yesterday. The Diana left St. Anthony at 8.30 a.m. yesterday, going north.

GOVT. BOATS.—The s.s. Prospero left Little Bay Islands at 8.30 a.m. to-day; the s.s. Portia left LaPoile at 1.15 p.m. yesterday.

A Big Oil Find.

Deer Lake, the scene of a former oil boom, has again come into the public eye on account of the discovery there of a great quantity of oil shale. Mr. J. J. Oxley, the English mineralogist, is the discoverer, and a large amount of machinery for boring has been installed. Some \$50,000 will be spent on this, and an area 40 square miles will be bored, a large gang of men being employed. This is supposed to be the largest body of oil shale in the world, and all that remains to be ascertained is whether or not the percentage of oil and the quality would warrant the installation of a big plant for its development. The oil found here is petroleum, and should things turn out as anticipated it will mean another big boom for Newfoundland. Mr. Oxley returned to England by the last Sackem.

League Footer.

In one of the best games for the season the E. L. team last night defeated the Cadets by a score of 2 goals to 1. The game was fast all through, particularly in the second half, as the teams were equal, each having scored one goal in the first. Mr. W. J. Higgins was referee and the players were: C. E. I.—Goal, Noseworthy; backs, Thistle, Churchill; halves, Hunt, Drover, R. Stick; forwards, Jerrett, Fox, Adams, Churchill, Earle.

The Press Race.

We were informed this morning, by Mr. Arthur Hiscock President of the Regatta Committee, that the committee had already decided to give Gold and Silver Medals as prizes for the Press Race, and not a money prize as we were led to believe yesterday.

Cold Storage Plant Closes.

On account of the impossibility of securing a ship with suitable refrigerating facilities aboard, the Atlantic Fisheries Cold Storage Plant, Railway Station, has decided to close down temporarily. It is the intention to employ just enough hands to keep the plant running, but it is hoped to have everything running in full swing very soon.

Slightly Incorrect.

A slight error crept into an item in yesterday's issue when it was stated that the St. Andrew's football team had gone to Grand Falls on Sunday past for the purpose of playing the team there. In reality they will leave next Sunday a special car, having been placed at their disposal.

Labrador Fishery Reports.

Grady, Dominio and Flat Islands—North east wind; sign of fish. Venison Island—Calm, dense fog; salmon plentiful; good sign of codfish. Battle Harbor—Light south west wind; sign of codfish; salmon plentiful.

Act Promptly.

When you hear a motor horn make up your mind immediately what to do. Either stop or proceed, but do not hesitate. The chauffeur reads your intentions by the first move you make. If you then change your mind, an accident is very liable to result.

Cover the Dump.

All who visit the Lakeside these nights are loud in their denunciations of the dump at the upper end of the pond. The odors—a weak word—are terrible and remind soldier passers-by of the gas attacks on the western front during the war. It is all right to have ingenious ways of keeping in peoples' minds the horrors of warfare but this is going a step too far. Cover the dump, we say, and cover it quickly.

Fashions and Fads.

Capes have huge collars. Bags grow more elaborate. Colors for fall are sombre. Fringe appears on sweaters. Taffeta hats are fashionable. Shaded ribbons return to favor. Silk jerseys are worn instead of blouses.

HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with **ROYAL YEAST CAKES** should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is justly entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other. Made in Canada.

Personal Mention.

Mr. and Mrs. R. Duff, of Carbonear, are on a visit to the city and are registered at the Crosbie. Rev. T. Flynn, who was recently ordained, and who arrived here by the Digby from England, on Saturday, left yesterday for Placentia, his native town. Miss Daisy Andrews, daughter of Mr. N. Andrews, Supt. of the street railway, left by express on Sunday for Montreal, where she will join the obstetrical nursing staff of the Children's Memorial Hospital.

Bay Bulls Garden Party.

A bulky crowd of city people attended Fr. O'Brien's garden party, last evening, and although occasional showers somewhat hampered the full enjoyment of the sports provided for outdoor amusement, yet the young folks made up for this when the dance commenced. The T.A. band rendered its liveliest strains and the well lighted hall vibrated with the tread of merry feet till long after midnight when all boarded the train for home thoroughly satisfied with the days events.

Brigade Song.

(Copied from the Plaindealer, 1912.) Let us uphold the Boys' Brigade. It is a wise old plan. To mould a boy in the proper grade. That he might be made a man; Learn him to talk and make him walk. And teach him to parade; So have no fear, we'll all take care To keep up the Boys' Brigade. CHORUS:— A cheer, a cheer for the Lads' Brigade Which we call the C.L.B. And when we meet out on parade Give a cheer for the C.C.C. There's a cheer for the Methodist Guards so fine The boys who beat the band; And a cheer, a cheer for the strong red line The Kitties of Newfoundland. If this land should in danger be, The boys would make a stand; The Naval and the Boys' Brigade Would help guard Newfoundland; (The Naval and the Boys' Brigade Would make a joint parade). So here's to the Pink, the White and Green. And cheer for the Boys' Brigade. St. John's, Feb. 12, 1912. —A.W.

Driving a Buick is the modern equivalent of riding behind a team of beautiful thoroughbred horses in an equally splendid carriage.

To be drawn by horses chosen for their quality in a carriage handsomely hand-painted and finished was to travel in the best of fashion and in the height of luxury.

To-day, the slow, uncertain horse has been replaced by the never-tiring, speedy motor car. But the thoroughbred qualities are to be found only by careful selection—selection of the kind which chooses the Buick.

A SUGGESTION.

It has been suggested that, to increase the interest of Regatta Day a number of motor boats be entered for the day's events. A motor boat race on Quidi Vidi would undoubtedly be very interesting and would serve to relieve what may otherwise be a monotony of row-boat races. The Regatta Committee should take the matter in hand.

Side Talks by Ruth Cameron

A GIFT!

In my childhood days some of my friends of mine who had a large, old-fashioned house and a small, new-fashioned family (the family had originally fitted the house—the misfit was a result of shrinkage) used to help out the family income by renting several rooms.

Among their guests was a woman who spent three months there every summer. And during those three months there seemed—even to my childhood perceptions—something a little different about the atmosphere of the house. It was always: "Now you children must go somewhere else to play. Miss N. is taking her nap," or "Don't leave your rubbers in the hall—Miss N. wouldn't like it if she had company and they saw them," or "Oh dear, I wish the wind would shift round to the west so Miss N. would get it in her room—she does mind the heat so," etcetera, etcetera.

Everyone Relaxed After She Went.

There was always a sort of relaxation after she went. At the time I accepted the special solitude for Miss N.'s comfort as one of the many inevitabilities of existence. When I grew older I supposed that she must have paid a larger sum than the other lodgers. And it was not until recently, in a talk over old times, that I learned that this was not the case.

"Then why," I asked my childhood chum, "did your father have to try so hard to please her in everything?"

She Could Make People Feel Guilty.

"I don't know," she said. "She wasn't half as nice to us as some of the other people and yet we were always doing everything to make her contented. It was a real nervous strain to mother. I can remember how even after Miss N. had gone two or three days mother would jump when a door was closed sharply and say, 'You mustn't slam the door—you'll disturb Miss N.' The only way I can figure it out is that Miss N. was one of those people who have a gift of making you feel guilty, if you don't do just what they want."

We've All Met People With That Gift.

That's an excellent characterization, don't you think? And one that fits quite a few people first and last. Most of you have known people of that sort. Some of you have lived with them and sacrificed and worked and thought and studied to keep them happy—and then wondered why on earth you did it.

Maybe you have wished sometimes that you, too, had the gift of making people feel guilty when everything didn't go just to please you. Would you wish for a blind selfishness, for a manner that always becomes disagreeable when its possessor is crossed, for an uncontrolled temper, for an overweening egotism?

If you wouldn't, then withdraw your other wish—for it is such qualities as these that are behind the gift you were wishing for.

A BROKEN RING.

Lloyd George's announcement that the former Kaiser will be placed on trial in London brings to mind the German exultations of 1915 and 1916, over "the tightening of the iron ring about the throat of London."—Baltimore Sun.

This is to certify that fourteen years ago I got the cords of my left wrist nearly severed, and was for about nine months that I had no use of my hand, and tried other liniments, also doctors, and was receiving no benefit. By a persuasion from a friend I got MINARD'S LINIMENT and used one bottle which completely cured me, and have been using MINARD'S LINIMENT in my family ever since and find it the same as when I first used it, and would never be without it.

Carpentier Wins Easily in Eighth Round.

Paris, July 19.—George Carpentier, the French champion, knocked out Dick Smith, former English champion in the eighth round of a twenty-round bout to-night. It was Carpentier's fight all the way.

Smith was offered as the victim to Parisian fight fans in celebrating Carpentier's return to the ring after a five years' absence. He was completely outclassed, Carpentier dominating the situation throughout.

The fourth round alone was about even. Smith was down for a count of seven in the third, and took the count of eight in the fifth. Carpentier finished his work in the eighth with a right hook to the jaw.

The Frenchman seemed anxious for a prompt knockout. He fought fiercely, leaving openings which might have been taken advantage of by a clever opponent. Carpentier appeared a little short of condition and some line obtained on this evening's showing regarding his change in a grueling battle.

Fred Fulton, the American heavyweight challenged the winner.

The assembly was more spectacular than the fight itself, beautiful women in gorgeous gowns and men in evening dress cheering Carpentier and Fonck and Nungesser, the aviators, when they were introduced. It was more like a social function than a prize fight, and the crowds went home happy as the French idol had not been dethroned.

Just Folks

THE SUMMER COTTAGER'S COMPLAINT.

Wise Men Say—

That opportunity knocks at the door—trouble breaks in; open.

That you should forgive many things in others but nothing in yourself.

That to appreciate real love it isn't necessary to sample too many imitations.

That self-control and real faith are not only strength to their possessor; they also enable him to impart strength to others.

That you never realize how small this world really is until you try to dodge someone you do not want to meet.

That the fool with a good memory is full of ideas and facts; but he can't draw conclusions from them; everything turns upon that.

That carefulness is generated by interest in one's job, by determination to make good, by ambition to master the work in hand and to earn promotion.

That youth is not always an asset. Neither is age always a liability. It all depends on the kind of person you are. If you are young, there is no reason why you should be careless; if you are old, there is no reason why you should be unteachable. The older the wise man grows, the more he realizes how little he knows.

Entertained Soldiers.

The soldiers now undergoing treatment at the Military Road Hospital were entertained yesterday afternoon at the Summer Camp, Blackmarsh Rd., by the Daughters of Empire. The ladies numbering 16; accompanied by Miss Mahoney, the Matron; and nurses of the Hospital, were conveyed to the camp in autos, provided by the Daughters. After a splendid supper had been served a concert was held, the little girls now enjoying their outing at the camp furnishing a most enjoyable programme. Gramophone selections also added to the pleasure of the guests, who deeply appreciated the kindness of the Daughters in entertaining them so splendidly.

What the President Has to Say.

Since 1914—the first year of the Great War—the gross earnings of the Halifax tramways, lighting, gas and power system have doubled, notwithstanding the fact that in compliance with military and naval regulations, the street lighting was temporarily discontinued, and lighting generally was interfered with. Owing to naval precautions, the City was largely kept in darkness.

In connection with the recent attractive issue of 3 year 7 p.c. Coupon Gold Notes, the President of the Nova Scotia Tramways and Power Co., Ltd., has written:

EARNINGS :

"The growth of the Company's business for the past five years has been consistent, as will be seen by the following figures, viz:

Gross earnings 1914	\$ 645,241.00
" " 1915	718,940.00
" " 1916	759,726.00
" " 1917	859,667.00
" " 1918	998,702.00
" " 1919	1,325,500.00

*On basis of earnings ascertained to date.

"After an extended and practical experience in the operation of Tramways, Electric Light, Power and Gas Companies, and careful study of the situation here, and after having myself carefully considered the layout and topography of the City, and having further caused the equipment and layout of the Company to be examined by recognized experts, I am confidently of opinion that the Nova Scotia Tramways and Power Company, Limited, has an unusually attractive opportunity in Halifax. Improvements and betterments are, however, greatly needed; additional cars are urgently required, the track has to be improved and extended and other facilities added. These it is now proposed to provide, thus making for improved service and returns.

"At a later date when financial and commercial conditions become more normal, it is proposed to refund, or pay off, these short term Coupon Gold Notes from the proceeds of the sale of long term bonds, or other securities, as may later be decided upon and approved. Considering the attractive interest yield to be had from these notes, and considering also the nature and permanency of the Company's business, and the enduring character, and rapid, though conservative growth of the City of Halifax, with its magnificent location and assured position as the gateway of the Dominion, I believe that the Company's securities are valuable, and that these three year Coupon Gold Notes, in particular, are a safe and highly profitable investment."

A copy in full of the President's letter will be furnished on request.

Our Head Office has notified us that this issue is being rapidly subscribed. We are now telegraphing our orders. We recommend that investors apply early in order to ensure allotment and delivery. We will include your subscription on request.

Lord Ranfurly's Thanks.

The following letter, which speaks for itself, has been received by Sir William Howard from Lord Ranfurly, until recently the director of the Ambulance Department of the Order of St. John's. Lord Ranfurly distributed the fund locally known as the Cot Fund, and his appreciation of the generosity displayed by our people is gratefully acknowledged.

Donoughmore, K.P.,
July 7th, 1919.
Sir William Howard,
St. John's, Newfoundland.

Dear Sir William,—As you are aware, I have resigned the Directorship of the Ambulance Department of the Order of St. John, as I feel that I require some repose after nearly five years of strenuous work.

But I cannot lay down the reins without asking you to convey to the people of Newfoundland the profound appreciation by the Council of the Order and myself, of the generous and never-failing support given by them to the Order of St. John in its efforts to alleviate the sufferings of our sick and wounded during the war, now happily terminated.

The number of those who vouchsafed their assistance towards the great work is too great to permit of individual acknowledgment, as I should have wished. Many, too, have preferred to hide their generosity under the cloak of anonymity, and these I could not reach.

I am therefore compelled to ask you to be so good as to convey in any manner that may seem expedient—possibly by the publication of this letter in the Press—the grateful thanks of the Council and their deep sense of the noble spirit which animated the people of Newfoundland to make such magnificent contributions to the large number of hospitals, both at home and in France, where they equipped and maintained beds for the sick and wounded.

I am happy to be able to give my personal assurance that the money was well spent and carefully husbanded, and that it contributed largely to enable the Order to carry out efficiently the heavy task it undertook in the early days of the struggle.

The St. John Ambulance Brigade Hospital, erected at first at Etaples and rebuilt at Trouville after partial destruction by air raids, was finally closed in February last.

During its period of service it earned for itself a reputation second to that of no other hospital in France and it was the means of affording relief and succor to nearly 40,000 of our soldiers.

That it was enabled to accomplish so much was in no small degree due to the endowment by the people of Newfoundland of a large number of beds, and I trust that they will accept this message as an earnest, if inadequate, attempt at acknowledgment.

Not satisfied however with this already substantial contribution to the good work, the people of Newfoundland decided, under the lead of Sir Walter Davidson, to endow a considerable number of beds in hospitals in England, and were kind enough to confide in me the administration of the funds collected for that purpose.

I was thus enabled to open and in great measure to support "Newfoundland Wards" in no less than nine voluntary hospitals in this country, and this support was continued till the end of the war.

The wards were almost continually occupied, and sometimes there were a few Newfoundlanders in them, but, for the most part, the beds were occupied by others of our fighting forces.

I can honestly say that nothing during my term of office as Director of the Ambulance Department afforded me more gratification than the administration of this fund.

It appealed to me especially on account of its self-denying nature. Newfoundland has, if I mistake not, the double distinction of being at once the oldest and smallest of the British Colonies.

I think that it can now also lay claim to having proved itself, in proportion to its population, the most warm-hearted and generous, because, owing to the necessarily small number of men it was able to send over to swell the ranks of the Imperial forces and to the disproportionately heavy losses sustained by them in the early stages of the campaign, there was little chance of many of the Newfoundland men themselves reaping the benefit of their fellow-countrymen's generosity in providing these wards.

I have also gratefully acknowledged the important and valuable consignments of articles of clothing sent from Newfoundland to the St. Joan warehouse. It would be impossible to exaggerate the comforts which these goods afforded to many of our sick and wounded, especially on the tedious journeys by train and boat from the hospital in France to this country. The articles sent were not only of extremely good quality but also exceptionally well selected and suitable for their purpose.

I conclude as I began, by saying that I should be grateful if you would find some means of conveying this very real, if inadequate expression of appreciation and thanks on behalf of the Council and of myself personally to those to whom it refers, and I beg that you will also accept for yourself my warm thanks for your very kind influence and support in this matter.

Believe me, yours sincerely,
RANFURLY,
Director of the Ambulance Department during the war.

The Prohibition Failure.

(Trade Review.)

We are in receipt of reports almost daily of the extent to which "Moonshining" has spread throughout the Colony, and it seems there is no effective way by which it can be successfully checked.

Those who voted Prohibition did not anticipate that by such a restrictive measure they would be encouraging the illicit manufacture of intoxicants, but nevertheless this has unfortunately been the outcome.

Conditions have reached such an alarming stage that we are inclined to think a less stringent form of prohibition from that adopted would have suited the purpose better, and would have accomplished more real good than this present enactment. We have evidence of the large quantities of dope being consumed both in the city and the outports. Most of it of such a vile nature as to endanger the life of those who use it, and now the "Moon Shiners" are setting law at defiance and going strong in all parts of the Colony.

Some years ago when the agitation for prohibition was strong in the United States, prominent temperance men there held that this enactment of a stringent measure of prohibition would be dangerous, and expressing the opinion that prohibition would not prohibit the illicit manufacture and sale of intoxicating poisons. The more we see of conditions here the more strongly we are inclined to this view.

We have seen the dangerous substitutes used since the closing of the saloons. We have evidence every day around us of large quantities of liquor being consumed, and whilst we admit of the great good prohibition has done in closing the bars, we are nevertheless convinced that a less stringent means than that now in force would meet the purpose better, prevent the use of the poisons that are being substituted, and the operations of the private "stillies," which are being conducted on such an extensive scale.

Editor Evening Telegram.

Dear Sir:—Permit me to say that I appreciate very much those very illuminating articles by our respected fellow citizen Mr. H. F. Shortis. The series of Kelson's Letters made a very welcome addition to our fund of local knowledge, as they shed a light on a romantic page in our history, as Mr. Shortis was we are apt to forget. I enjoyed especially the chapter in Saturday's paper which told of the heroic and successful attempt to lay the Atlantic cable from Ireland to Newfoundland. Mr. Shortis likes to bestow praise where it is due, a quality sometimes not exercised by the historian to the great distortion of truth, and injustice to the deserving.

It is particularly noticeable in all of Mr. Shortis's writings that he never misses a chance to bestow a meed of praise upon a fellow countryman, and in this very excellent narrative of the first Atlantic cable he associates the names of several of our citizens with the names of Cyrus Field, Morse, Gisbourne, and other great spirits of the undertaking. He also credits Bishop Mullock with having been foremost in advocating telegraphic communication with the outside world. This is news indeed to a great many of us as we are somewhat inclined to look too far a-field for the heroes of any great venture.

It is pleasing to have it recalled that Newfoundland took so forward a part in the great undertaking.

The industry with which Mr. Shortis beguiles his leisure hours, (if he may rightly call them such, when they are so industriously spent) is very commendable, and we are indebted to him for the great effort he is making to awaken interest in our past.

It is a pity that we have not many more of the type of Mr. Shortis, who would be willing to give their time for the sake of the country to intellectual pursuits.

There are so many pleasant fields open and inviting the student that it is a bit surprising we have so few whose tastes lead them that way.

There are countless natural history subjects awaiting the intelligent and sympathetic inquirer, which nobody is collecting or studying.

We know little or nothing of our botany, our entomological and ornithological possessions are as a sealed book to us, yet, we have men of education who could well afford the time to make collections.

In Newfoundland we are living as spongers upon the intellectual men of other countries to a degree that is shameful. If we want to know anything of our natural history we must apply outside for the information.

The most shameful part of it all is that we even put stumbling blocks and foolish hindrances in the way of men who want to come here to pursue their studies among our fauna and flora. Commenting on this state of affairs, a friend writing to me, says: "It is too bad that Newfoundland takes such a shortsighted stand regard to scientific investigation. I have always held that the scientific collector and investigator confers benefit upon the country investigator rather than the contrary. In place of suing humbly for permission to carry on original investigations, work he should, if properly qualified, be able to demand permission that would be gladly extended."

Permission was sought not long ago by the ornithological department of the Canadian Geological office to make collections on Labrador, but on very efficient Game Board and who ever it is that controls this affair, refused to allow a man to go in there. Either that, or they dilled so long over the matter that the project had to be abandoned for another time. This is not good enough. It is bringing discredit on the country and a more intelligent attitude is demanded.

Yours truly,
ARTHUR ENGLISH.

The Congregational Pulpit.

The custom of "putting marks" of ownership upon one's possessions is a very ancient one. In the days when flocks and herds were grazed upon a communal system, each owner had his animals branded or ear-marked. The coins of the realm bear the image of the king, president or emperor. Most goods are stamped with a trademark or the maker's name. In Paul's day, even the slaves were branded. In Athens where there were 80,000 free citizens, there were 400,000 slaves, and everyone of them bore the mark of his or her owner. As Paul lay in prison he saw on every hand evidences of ownership. His chains bore the emperor's initials. The soldiers who guarded him wore the emperor's uniform. The slaves who waited on him carried Nero's brand. Then he remembered that he too, was not his own. True he was a free citizen of Rome, but he was the slave of Christ. For his sake he had endured persecution, floggings, stonings, shipwrecks, and great suffering, and as he looks at his battered body he exclaims, "I bear in my body the marks of the Lord Jesus." And methinks that there were yet more subtle signs of his allegiance to Jesus Christ. He was not by nature a handsome man, according to tradition. But there must have been a wonderful attractiveness about the face of Paul to account for his marvellous magnetism. Christ shone in the face of Paul. The truth is that every human body registers its own history. The rough hands denote the artisan, the grimy face the miner, the massive jaw the fighter, the unsteady gait the drunkard. The face is an even truer index to the character. Rosy cheeks are the sign of health. While intelligence fairly illuminates. Someone said of Byron that his face was like an alabaster vase lighted from within. Dante's face was ploughed deep with study and written all over with the literature of sorrow. Abraham Lincoln's face was like a living page on which had been written the nation's history. God hates secrecy and He has ordained that man's history should be written on his face. But the face is after all a very imperfect revealer of character. Some people have pretty faces but ugly souls. Some have fine bodies but fearful tempers. But there are other tests of character and our habits reveal what we are. The friends we choose, the books we love to read, the pictures we prefer, the amusements we seek, these things show what we are. There are two yet more subtle tests which reveal ourselves to ourselves only, namely, what we think about when we are alone, and what we do when we are away from home. How do we stand these tests? Can we say with Paul, "I bear the marks of the Lord Jesus?" Do men take knowledge of us that we have been with Jesus? The marks of Christ are not church attendance or acceptance of some orthodox creed, but sincerity, kindness, unselfishness, oneness with the Divine purpose.

A Hopeless Case.

A doctor came up to a patient in a lunatic asylum, slapped him on the back, and said "Well, old man, you're all right. You can run long and write your folks that you'll be back home in two weeks as good as new." The patient went off gaily to write his letter. He had it finished and sealed, but as he was about to affix the stamp the letter slipped through his fingers to the floor, alighted on the back of a cockroach that was passing, and stuck. The patient hadn't seen the cockroach. What he did see was his escaped postage-stamp zigzagging aimlessly across the floor, and following a crooked trail up the wall and across the ceiling. In depressed silence he tore up the letter that he had just written and dropped the pieces on the floor. "Two weeks!" he said. "I won't be out of here in three years."

HUMOR.

If one has humor in his make-up, he is the darling child of luck; for all the troubles life can rake up slide off like water from a duck. If humor's in your composition, you laugh where other fellows swear, and no adventure or condition can not laugh at their own grief; you cannot make them think that chores bring to our troubles quick relief. They're always prompt to laugh at others, they see the fun in neighbors' cares; they laugh when they behold their brothers go falling down nine flights of stairs. But their own grief's another matter—there's nothing humorous in that; they hand out grievous groans and splatter all kinds of tears around the flat. It is not humor that inspires you if you harken at other's woe; while your own trouble only tries you, and makes the well known bring flow. If you can laugh at your own troubles, you have true humor in your heart, and you can look on woes as bubbles—you have a saire for every smart.

Announcing the Graduation of
MICHAEL O'BRIEN
 from the
American School of Practipedics of Chicago
 He learned all about the human foot, its construction, its ailments, its deformities, and how these may all be overcome by simple, but scientific means. He will be found at this store at all times, ready to examine the feet and give expert advice without charge. You are invited to call and consult him about feet or shoes.
This Means Foot Comfort For YOU
 His education as a foot specialist has shown him that
There is a
Dr. Scholl
Appliance or Remedy for Every Foot Trouble
 and he will gladly demonstrate, on your own foot, how the proper Scholl Appliance will make it possible for you to wear the stylish shoes you like without the slightest discomfort. He uses the same methods as the famous authority, Dr. Scholl, and employs the devices which Dr. Scholl invented. Come in and see for yourself. No charge whatever for his services. The Newest 1919 Trench Coats!
 The Trench Coats for men we are now showing arrived on the last English boat and are quite the finest Coats we have ever handled. They are the product of a first class English firm, famed for its Military Tailoring, are built of fine quality Gabardine in all shades of Khaki, well-lined with smart-patterned Twill Plaid. Pockets velvet lined. Three very special features in these Coats are: (1) Extra high and well-fitting storm collar; (2) extra wide revers, forming when fastened ample throat and chest protection; (3) an entire interlining of Oilskin, rendering them not only doubly waterproof but absolutely wind and cold proof as well; forming an ideal Coat for all weathers. All Coats are belted and strapped at wrists. All sizes.
 PRICE FROM \$30.00 UP.

If You Want Wall Paper
Come to Templeton's
 We don't mind if you come to us first or last, all we ask is that you give us an opportunity of showing you our stock. We have a special store which is devoted exclusively to storing Wall Paper. At present we have in stock over 95,000 pieces, valued at over \$28,000. Just think what a variety this gives, and when you are told that it is all practically new stock, you will realize that our claim to be "The Leading House for Wall Papers" is not unfounded.
