LBION HOTEL - GREAT ALTERATIONS

A LBION HOTEL—GREAT ALTERATIONS have taken place at this hotel for the reception of travelers and agricultural people in general. It has long been felt that there was not sufficient room to accommodate the increasing trade of the hotel, and to meet this demand the proprietor has, at an expense of over \$18,000, purchased the late premises occupied by the St. Lawrenge coffee house association adjoining the Albion, and has now 125 bedrooms, accommodation for 250 guests. The house has been re-moduled and re-furnished throughout at an outlay of \$50.00—gas in every room, new dining-room 40x00, capable of seating 200 people at one time. The house is the best \$1 house in the Dominion.

Montreal are going to see the cotton men through.

The stock market is still unset led and weak. Bank of Montreal has experienced a sharp decline; so has Toronto, Merchant, Ontario, etc. Federal has stuck at 150; not by reason of its strength to resist further the attack, but that the stock jobbers who controlled the situation agreed to liquidate at that figure. The bears could have sent it down to 140 as easily as they put it to 150, but their own interest was to take the middle course, which gave them a better chance for settlements. Hardly any of liquidation was done at the board; those who were on the wrong side of the stock went down on their knees to the bears and made the best arrangement they could. Thousands of shares in this stock were transferred vesterday. The settlements have pretty well all been made.

The Situation in Montreal.

Montreal, Oct. 15.—The excitement apparent here on Saturday over the financial embarrassment of D. Morrice & Co., dry goods merchants, sutsided this morning on it becoming generally known that the leading banks have resolved to carry the house through what is only looked on as its temporary trouble. Matters have been in statu quo all day, with business of the firm going on as usual. The notes matured to day are held over until Wednesday, when a meeting of bankers will take place to ratify the agreement of the two leading banks to sustain the firm. There is not the wheel and whirled round with lightning rapidity. The bones of the forearm were smashed to splinters in a twinking and flesh and muscle severed so completely that the hand and arm fell upon the floor. Calleon has six young children.

Mr. Edward Crawford, employed in W. H. Mill's factory, lost two of his fingers by trying to polish an engine while it was in motion.

LONDON, Oct. 15 .- The recorder of the central criminal court to-day, charging the a single new development in connection with the aftair since Saturday. There is a feeling existing among bankers that all that is wanted to carry the house over its troubles is a little time and they are willing to give that. The belief is that one hundred cents on the dollar will be paid to creditors, who are banks almost solely. The crisis has come from the firm assisting mills to carry on and taking cottons as security, whilst the goods are lying on the firm's made and its product of the worst kind because the victim had aided the law and was under the protection of the crown and was killed out of revenge. The recorder said it would be the duty of the jury to return a true bill for murder against O'Donnell. The grand jury will not return an indictment against O'Donnell until Wednesday. Gen.

TUESDAY MORNING, OCT. 16, 1887.

The Toronto Globe admits that there might be good reasons urged for reducing the duties on raw sugar, which is a handsome admission for a free trade paper to make. But the Winnipeg Free Press is too unbending a free trader to admit even this much, and characterizes as "protection blindness" our proposal to make raw sugar free. It says:

"This would us ble amount; but there is the objection interposed that a tax on sugar is the most gen ned tax that can be imposed, owing to the universal coreumption of the article. Every inhabitant of the country is, therefore, forced by this tax

To which the Winnipeg Sun thus replies: And this is the very best reason in the world why duction of tax upon. If it is an equally distributed tax, then it follows, by removing a portion of it, equal relief would be afforded and justice done to the whole community. To lessen the tax upon an article of limited consumption would be legislating not use the article on which the tax was reduced. We are inclined to believe that while there are man other articles upon which the duty should be reduced, the proposition to remove the tax from raw
sugar is a particularly good one. Though we have
no great amount of respect for purely protection
theories, we believe that in raising revenue, regard for natural home industries
should be kept in view, and whatever amount of incidents have a forded should be given. However, the government of the day are committed to the policy of protection's take, and they are very much under the intection's take, and they are very much under the interest and the enriched) by the tariff. Removing the duty from raw sugar would not affect their policy of protection and if the amount raised by this tax is not needed, be no excuse for centinuing it. —Mrs Mary Thompson of Toronto reports the re-movil of eight feet of 'ape-warm by the use of one bottle of irr. Low's Pleasant Worm Syrup. This medicine is reliable for all kinds of worms that afflict children or adults.

What It Has Done, Mrs. George Simpson, Toronto, says: I have suffered severely with corns and was unable to get relief from treatment of any kind until I was recommended to try Hallo-way's Corn Cure. After applying it for a few days I was enabled to remove the corn, root and branch—no pain whatever, and no inconvenience in using it. I can heartily recommend it to all suffering from corns.
