

MANITOBA WILL NOT COMPROMISE
A Remedial Bill Will Be Introduced at Ottawa.
NEGOTIATIONS HAVE FAILED.
What Will Hon. Clarke Wallace Do This Week?

Greenway Would Make Certain Concessions—All Eyes on North Ontario—An Outline of the Government Bill—An Official Statement Authorized by Premier Greenway.
Winnipeg, Dec. 9.—It is now certain that the Greenway Government was determined to reject the previous decision not to grant separate schools as a remedy to the grievance of the Roman Catholics of Manitoba. Some kind of a compromise was suggested by Hon. Clarke Wallace, a gentleman from Ontario, representative of the Roman Catholics at Ottawa, was here for days, and had several interviews with Mr. Greenway. The Premier was willing to make a number of concessions in the school law of the province, but he would not give separate schools pure and simple. He had no objection to Catholic school sections, or Catholics being appointed teachers, and he was quite willing to have the law adjusted so as to have the clergy of all denominations could have the closing hours for religious instruction. But Mr. Greenway would not concede the separate schools. The gentleman who was the intermediary was inclined to accept such a settlement, but the powers at Ottawa and the representatives of the church insisted on the separate school and the negotiations ended. Mr. Greenway has authorized a statement that practically admits the above, and says no separate schools will be conceded.

The Globe's Account.
Winnipeg, Dec. 8.—(Globe special.)—Hon. Clarke Wallace, who has been your correspondent that he was being overwhelmed with enquiries as to the possibility of the school question being some compromise measure. The Premier remarked that the Catholics had had propositions under consideration at various times since the receipt of the order in council of the Dominion Government of the 27th of July last, inviting action on the part of the province of Manitoba for the removal of alleged grievances of the Roman Catholic minority in relation to educational matters. The Premier said that the Government would be glad to accept a solution of the problem as removing the alleged grievances, unless such concession admits the principle of the separate schools. Upon the question of the re-establishment of separate schools the government will make no compromise.

The Government's Remedial Bill.
Ottawa, Dec. 9.—The official announcement from Winnipeg that the Manitoba Government does not purpose introducing any legislation into the Local House for the purpose of removing educational grievances of the Catholics of that province fully accords with the preconceived opinions of all those in Ottawa who have closely followed the course of events. This has had an inkling of the negotiations which have been in progress for some time past. Parliament has been called and called with the special object of passing remedial legislation. The bill which will be presented to parliament is drafted, and when provisions are submitted to the House and country, it is thought they will be found of such a character that every fair-minded man in the country, who acknowledges the right of the Catholics to separate schools, under the constitution, to separate schools can accept them. While restoring Catholic denominational schools, there will be no safeguards so as to secure efficiency. Certificated teachers must be employed, and the province will be empowered to say what text books shall be used, with the exception of that on history. With the religious teaching, of course, the province will have nothing to do. The payment of the provincial grant to the Catholic schools upon results of annual examinations.

Mr. Mackenzie Speaks.
Montreal, Dec. 9.—Sir Mackenzie Bell, being shown a despatch from Winnipeg to-day giving an alleged interview with one of Premier Greenway's colleagues, said that such information had not yet been received by the Administration, and that the intimation that he had received concerning its transmission at an early date was the information contained in the despatch. He denied the statement contained therein, that the Catholics of Manitoba wanted apparently nothing short of separate schools under the control of the church, and characterized as equally false the statement that the minority had so far made no proposal to the Manitoba Legislature to accept more moderate measures. With regard to an appeal on the part of Manitoba to the highest tribunal to quash the remedial measure, if passed by the Federal Government, Sir Mackenzie stated that as the highest tribunal of the empire had already decided that the Government had the power to pass the remedial measure, it would scarcely take steps to nullify the same. Relative to the suggestion contained in the despatch that the appointment of a commission would be the best means to settle the question, of ascertaining whether the minority in Manitoba were favorable to a compromise or not, the Premier stated that in his opinion, the appointment of the commission was unnecessary, the minority in Manitoba having already indicated a means by which the question might have an amicable settlement.

A Crisis Approaching.
Conservatives who have been holding out to the last that some sort of compromise would be effected in the Manitoba school question, are now hoping last night and said there was nothing ahead now but for the Government to bring on their remedial

bill and to give Wallace to leave the Administration. The week is out. There must be some compromise. Mr. Foster has declared that a remedial bill conceding separate schools in Manitoba will be introduced at the coming session, and Clarke Wallace and his friends have said that he will oppose the bill if it comes on. It will be remembered that Clarke Wallace was killed in North Ontario last week, but he did not go. "I look for his resignation before Friday night," was the last word of the man who gave the above statement.

That life insurance is the poor man's best friend, it is the way by which he can provide for his family after his death, or for himself when he is no longer able to work. Life insurance sweetens every night the sleep of millions of tired brains and troubled hearts, and saves from desolation and want thousands of bereaved dependents every year.
If a man has a large income, a medium income or a small income, life insurance affords a protection for, and the amount of insurance he carries should be proportionate to the amount he is receiving. It is a plan that can be invested his money to such certain advantage.
The unconditional accumulative policy issued by the Confederation Life Association is the one you ought to have, and it will pay you to read pamphlet describing this policy.

AMUSED AT CLEVELAND.
Major Tosselli's Column in Abyssinia Surprised and Cut to Pieces by Native Warriors.
Rome, Dec. 9.—The Government made the announcement in the Chamber of Deputies to-day that the five companies of Italian soldiers, composing the column under the command of Major Tosselli, operating in Abyssinia, had been surprised and surrounded by a force of 25,000 natives and that only a small portion of the command had succeeded in breaking through the beleaguering lines and making their way to Makale. The fate of Major Tosselli and that part of his command retaining faith in him, is yet unknown. General Barstieri, commanding the Italian forces in Abyssinia, is concentrating his troops at Makale, and is prepared to repel the forces of the enemy, which are moving in that direction.
The announcement had a deeply depressing effect on the Chamber. The Cabinet to-day discussed the situation of the Italian troops and decided to take a trip up the Nile with the army and artillery to them by the first transport, which will probably start to-morrow.
The public is much excited over the news of the defeat. It is supposed that the Italian Government is preparing for peace were a ruse of which Major Tosselli was the victim.
It was announced to-day evening that Gen. Arimondi, who went to succor Major Tosselli, has been killed, and his enemy's loss was severe. Gen. Arimondi's body, which was found in the vicinity of Adiglat.

SUICIDE AT ORILLIA.
Orillia, Dec. 9.—Robert Marshall of this town, formerly bartender at the Grand Hotel, was shot through the head. It is supposed to have happened Tuesday evening as that was the last time he was seen alive. He has been out of employment for some time and became despondent. His wife was sitting her parents in Mara for a few days, and on her return home this afternoon she found the door closed. She forced open a door and was horrified to find her husband dead sitting at a table with his head lying on the table in a pool of blood and a revolver beside him. Dr. A. E. Beaton, coroner, was notified, and after viewing the body, considered an inquest unnecessary. Marshall leaves a wife and baby a few months old.
Accidentally shot himself.
Brigden, Ont., Dec. 9.—George Arn, son of Cornelius Arn, living two miles east of here, was found dead at 10 o'clock this afternoon in the woods on his farm. He left the house after dinner to do some chopping, taking his gun along. It is supposed the gun accidentally went off when Arn was getting over a log.

Of the freight carried through the canal the total tonnage was 3,282,288 tons, of which 2,822,288 tons were coal, copper, silver and iron ores, and 460,000 tons grain, flour, malt, etc.

Indian Murderer Not Yet Caught.
The mounted police have not yet secured the Indian who shot and killed Sgt. Colebrook near Duck Lake some weeks ago. The Indian, a young buck, about 21 years of age, is reported to be as cunning as a wolf, and goes by the high-sounding name of Almighty Voice. It is thought that he is hiding in one of the northern reserves. The police hope to capture him before many days are over.
The directors of Carleton County Protestant General Hospital to-night decided to add a new wing to the present hospital building. It will cost \$15,000.
It is True.
That life insurance is the poor man's best friend, it is the way by which he can provide for his family after his death, or for himself when he is no longer able to work. Life insurance sweetens every night the sleep of millions of tired brains and troubled hearts, and saves from desolation and want thousands of bereaved dependents every year.
If a man has a large income, a medium income or a small income, life insurance affords a protection for, and the amount of insurance he carries should be proportionate to the amount he is receiving. It is a plan that can be invested his money to such certain advantage.
The unconditional accumulative policy issued by the Confederation Life Association is the one you ought to have, and it will pay you to read pamphlet describing this policy.

AMUSED AT CLEVELAND.
Major Tosselli's Column in Abyssinia Surprised and Cut to Pieces by Native Warriors.
Rome, Dec. 9.—The Government made the announcement in the Chamber of Deputies to-day that the five companies of Italian soldiers, composing the column under the command of Major Tosselli, operating in Abyssinia, had been surprised and surrounded by a force of 25,000 natives and that only a small portion of the command had succeeded in breaking through the beleaguering lines and making their way to Makale. The fate of Major Tosselli and that part of his command retaining faith in him, is yet unknown. General Barstieri, commanding the Italian forces in Abyssinia, is concentrating his troops at Makale, and is prepared to repel the forces of the enemy, which are moving in that direction.
The announcement had a deeply depressing effect on the Chamber. The Cabinet to-day discussed the situation of the Italian troops and decided to take a trip up the Nile with the army and artillery to them by the first transport, which will probably start to-morrow.
The public is much excited over the news of the defeat. It is supposed that the Italian Government is preparing for peace were a ruse of which Major Tosselli was the victim.
It was announced to-day evening that Gen. Arimondi, who went to succor Major Tosselli, has been killed, and his enemy's loss was severe. Gen. Arimondi's body, which was found in the vicinity of Adiglat.

SUICIDE AT ORILLIA.
Orillia, Dec. 9.—Robert Marshall of this town, formerly bartender at the Grand Hotel, was shot through the head. It is supposed to have happened Tuesday evening as that was the last time he was seen alive. He has been out of employment for some time and became despondent. His wife was sitting her parents in Mara for a few days, and on her return home this afternoon she found the door closed. She forced open a door and was horrified to find her husband dead sitting at a table with his head lying on the table in a pool of blood and a revolver beside him. Dr. A. E. Beaton, coroner, was notified, and after viewing the body, considered an inquest unnecessary. Marshall leaves a wife and baby a few months old.
Accidentally shot himself.
Brigden, Ont., Dec. 9.—George Arn, son of Cornelius Arn, living two miles east of here, was found dead at 10 o'clock this afternoon in the woods on his farm. He left the house after dinner to do some chopping, taking his gun along. It is supposed the gun accidentally went off when Arn was getting over a log.

A STRANGE OCCURRENCE.
An Instance Where the Nighty Trolley Was Not Ready.
At about 7 o'clock last evening John Kelly, an old man who boards at Johnson's lodging house, Jarvis and Lombard-streets, was crossing Sherbourne-street at the corner of Dulwich, when he was struck by a Belt Line car. Kelly was severely injured to the hip. Dr. Thompson was summoned and he had the unfortunate old man removed to the General Hospital in the ambulance.
LOOKING FOR XMAS PRESENTS?
Go to Dineen's and See the New Department.
Did you notice a larger number of people on the streets yesterday than is usually seen on Monday. It should only serve to remind you that Christmas is near and that the crowds are ready to buy. Now is the time to keep the resolve you have made not to leave behind you any valuable material ready shows signs of their big Christmas sale, both in the increased attendance and in the preparations made in the store. By the time these preparations are complete there will be a great many more people in the store. It will have a bright, holiday, luxurious aspect unrivaled in stores dealing in less valuable material. The tables will be strewn with bargains in novelties just suitable for Christmas presents such as muffs, storm cloaks, gauntlets, children's sets and fancy goods, all of which are now being sold at low prices. Read these prices: Fur muffs in black, \$1; white, \$1.50; making a specialty of that class of goods. acetylene as an illuminant, they are destined to prove trivial as compared with the significance of the article in other branches of commerce.

Thus, says an exchange quoted in Bradstreet's, "acetylene on being passed through an iron tube heated to dull redness, turns rapidly and completely into benzine. This is a product of prime importance, and is the base of thousands of the transmutations which can be effected, it may be pointed out that if the resultant benzine vapor be passed into strong nitric acid, it is transformed into nitro-benzene, and this on treatment with hydrochloric acid and iron filings goes into aniline.

MR. G. R. E. COCKBURN, M.P.

An Address to the Students of the British-American Business College.

Yesterday afternoon the students of the British-American Business College, Confederation Life Building, had the pleasure of listening to an address given at the Ontario Bank.

Mr. G. R. E. Cockburn, M.P., congratulated the pupils on the superior opportunities afforded them of learning bookkeeping and other business matters.

According to the requirements of Canadian business men. Such a training was a most valuable one as it was a living representation of what occurred in actual commercial life, and no one could complete the course and obtain the diploma of the British-American Business College without being infinitely better qualified to perform the duties which would devolve upon him.

Looking back upon the commercial history of Toronto during the past 25 years it is not difficult to reflect that only a small percentage of those who were successful in business were failures. Such a proportion would never occur if the students of the college were to attend a college like this, for they would be assured of success.

Thompson's Retiring From Business Sale.

This Greatest of All Great Sales is a Total Eclipse of All Previous Efforts, of all Former sales, of all Low Prices.

A SALE. That will mark an era in retail merchandising, a mystifying competition, and cheapening goods until the people cannot resist the temptation to buy.

A SALE. Where VALUES will dazzle the eyes of the incredulous; where prices will effectually appeal to long or short purse and where bargains will capture the shrewdest buyers.

A SALE. That will be seldom to the people these hard times, opening a easy way to procure the needful things for winter comforts.

A SALE. Which from start to finish will be one ceaseless round of money-saving for the people.

THE COUNCIL AND POLES.

Mr. Ira Standish appeared before the Board of Works to press his written objections against the erection of telephone poles on St. Vincent-street.

The court ruling that the Government had no right to interfere with municipalities. The company then obtained a charter from the Ontario Government providing for the erection of poles, with the consent of the city, not over 40 feet high.

Mr. Dunstan, manager of the company, said that the poles had been erected under the supervision of the Deputy City Engineer. All the poles had been removed off the street, according to the agreement, with the exception of those east, and these were left there as it was not possible to tear up the street at present.

On motion of Ald. Saunders, the question was referred to the City Engineer and Solicitor.

Ald. Lamb, J. J. Graham, Saunders, Hubbard and Crane were appointed a sub-committee to enquire into the advisability of constructing a proper crossing over the tracks at Lansdowne-avenue.

Accounts for water supplied the city during the repairing of the conduit were ordered paid as follows: West Toronto Junction, \$80; North Toronto, \$200; East Toronto, \$71.

On motion of Ald. Lamb, it was recommended that the Assessment Commissioners and the City Surveyor, with the City Solicitor, be instructed to proceed at once to settle up all matters connected with the Don Improvement, including the fixing of the rental to be paid by the East Line Railway Company and the assessments to be made under the Don Improvement Act.

A letter was read from Contractor A. Farquhar, which contained a personal attack on Chairman Lamb. The contractor claimed that Ald. Lamb through personal spite worked against him at every opportunity, and further, that he (Farquhar) had asked Ald. Lamb if he was receiving remuneration from an opposition firm.

Ald. Lamb said while he had nothing against Mr. Farquhar, he considered that the letter was the most contemptible ever sent to a committee. The chairman was backed up by the members of the committee, and the recommendation of the Engineer, which was in opposition to the Farquhar wishes, was unanimously adopted. The committee, at the same time, expressed its indignation at Mr. Farquhar's conduct.

Mr. Scott will be acting Mayor today. Ald. Shaw to-morrow and Ald. Sheppard Wednesday.

THE COUNCIL AND POLES.

Mr. Ira Standish appeared before the Board of Works to press his written objections against the erection of telephone poles on St. Vincent-street.

The court ruling that the Government had no right to interfere with municipalities. The company then obtained a charter from the Ontario Government providing for the erection of poles, with the consent of the city, not over 40 feet high.

Mr. Dunstan, manager of the company, said that the poles had been erected under the supervision of the Deputy City Engineer. All the poles had been removed off the street, according to the agreement, with the exception of those east, and these were left there as it was not possible to tear up the street at present.

On motion of Ald. Saunders, the question was referred to the City Engineer and Solicitor.

Ald. Lamb, J. J. Graham, Saunders, Hubbard and Crane were appointed a sub-committee to enquire into the advisability of constructing a proper crossing over the tracks at Lansdowne-avenue.

Accounts for water supplied the city during the repairing of the conduit were ordered paid as follows: West Toronto Junction, \$80; North Toronto, \$200; East Toronto, \$71.

On motion of Ald. Lamb, it was recommended that the Assessment Commissioners and the City Surveyor, with the City Solicitor, be instructed to proceed at once to settle up all matters connected with the Don Improvement, including the fixing of the rental to be paid by the East Line Railway Company and the assessments to be made under the Don Improvement Act.

A letter was read from Contractor A. Farquhar, which contained a personal attack on Chairman Lamb. The contractor claimed that Ald. Lamb through personal spite worked against him at every opportunity, and further, that he (Farquhar) had asked Ald. Lamb if he was receiving remuneration from an opposition firm.

Ald. Lamb said while he had nothing against Mr. Farquhar, he considered that the letter was the most contemptible ever sent to a committee. The chairman was backed up by the members of the committee, and the recommendation of the Engineer, which was in opposition to the Farquhar wishes, was unanimously adopted. The committee, at the same time, expressed its indignation at Mr. Farquhar's conduct.

Mr. Scott will be acting Mayor today. Ald. Shaw to-morrow and Ald. Sheppard Wednesday.

MARY AND CATHERINE. The Similarity Between the Sisters Macaulay and the Imperial Bank.

Osgoode Hall, Dec. 9, 1895. Catherine and Mary Macaulay were two sisters who lived together in Ingersoll, in unity, peace and concord, though not in character, as the Hyams. Catherine deposited \$100 in the Imperial Bank at Ingersoll and received a deposit receipt therefor. She then departed for Toronto, leaving the bank and drew \$10, gave up the old receipt and got a new one for \$90. Two years after she withdrew the \$90 and interest, the confiding bank clerk taking her for Catherine, Mary, in her turn was gathered to her fathers, and now the administrator of Catherine sees the bank for the \$100 and interest. The Judge of the Fifth Division Court of the County of Oxford dismissed the action, holding that to Mary, but Macaulay, who is now alive, had made a gift of the amount to Mary, but Macaulay, who is now dead, gave judgment allowing the plaintiff's appeal, and giving him the \$100 and interest sued for, and the costs.

An interesting plot is raised in the alimony action of Wheeler v. Wheeler. The defendant is a British subject residing near New York, and is now in Paris, Ont., the plaintiff, who lived at the latter place, and has been obliged to live near New York, and plaintiff says that her husband, in 1894, sent her away from home, and she has been obliged to reside with her father, and is now living at his home in Paris. She alleges that her husband has real estate and other assets in Paris. Provision is not made for service of the writ of summons by the plaintiff, and the question is whether service may be allowed under s. 110 (O.C.) 15, sec. 24, Watson, Q.C., for plaintiff, and the defendant on the order of the local Judge at Bradford, and contended that marriage in a contract, not merely a status, as cited Crawley on Husband and Wife p. 184. Hyde v. Hyde and Wrentham, 12 Q.B. 61, contended that there was simply a contract, and that the plaintiff left defendant and was not bound to return to him, and the contract should not be construed so as to make it retroactive. The learned Chancellor reserved his judgment.

George H. Kilmer, for the defendants in Ashcroft v. Tyson, also raised a nice point before the Court, and the action is brought against two magistrates to recover penalties for not making a return of a conviction of the plaintiff for assault. The Master in Chambers made an order for security for costs, which also directed that the return be given within the time limited by it, the action be dismissed. Through inadvertence, the return was not given, and the Master, upon application to him, amended his order so as to make it simply an order for security to be given and proceedings stayed until it is given. The defendant applied to the Court, contending that the Master, under rule 124, had jurisdiction to make his original order, and that after it, that this was a qui tam action for a penalty, and therefore distinguishable from the case of the plaintiff, son, 16 P.R., 388. Douglas Armour, for plaintiff, opposed appeal, and contended that it was a qui tam action, and in rule 124, at all events sub-c, a made a further application necessary to dismiss the order, and that the Master, under rule 124, and under McGee v. Radford, 16 P.R., 20, he could correct former error as made by mistake. Judgment was reserved.

To-day's Peremptories. The peremptory lists for to-day are: CH. J. Ct. 11 a.m. Church v. Livingstone, Aldrich v. Canada Permanent, Knickerbocker v. Collinson, C. v. Collinson, v. Elford, Robinson. Single Court, before Boyd, C., at 11 a.m.: R. H. & Buffalo R.W. Co. and Cahill and Culp (3 cases), re Solicitor, Bicknell v. Peterson, Fawkes v. Griffin, re Cooley, Cottan v. Nicholson, re O'Connell Mining Co., Phelan v. Dodgson, re French, Oriental L. Co. v. Sullivan, Hunter v. Stark, Robinson v. Robinson, Campbell v. McKinnon.

North Toronto. Of the 14 appeals against the Court of Revision for the year 1895, the Toronto, Judge Morgan has allowed four; that of William Chaplin, Mrs. M. C. Jamieson, James Hewlett and William Crawford. Anniversary services were held at the Eglington Methodist Church, which was packed for the occasion. The Rev. C. W. Hill preached in the morning and School Inspector J. L. Hughes made an interesting address at the evening service on the "Training of a Child." Not the least attractive feature of the celebration was the singing of the Sunday school children, some 200 of whom formed the choir for the occasion. A literary entertainment of excellent merit brought the services to a close on Monday night.

York Tolls. In case the decision of the Government is against the abolition of the toll gates according to the terms of the new law now before it, compromise movement is on foot, fathered by the minority in Council, to pass a resolution placing the gates in the hands of the city, and to empower the various interested municipalities according to their assessment.

Mr. McKee's Financial Troubles. William McKee of Gladstone-avenue was yesterday hauled before Squire Miller on a warrant for contempt of court and was remanded until Thursday. The charge arose out of McKee's failure to obey a summons issued at the instance of Mrs. Somers of Scarborough Junction, charging him with obtaining the sum of \$10 under false pretences. He will now have to answer both charges.

NOT YET ASSIGNED. Samson, Kennedy & Co.'s Affairs are still unsettled.

It was rumored yesterday that the firm of Samson, Kennedy & Co. would be unable to tide over their financial difficulties, and that an assignment would be made to-day.

DR FRANCOY'S EXPERIENCE. The Chief Witness Against Alger Arrested and Quickly Released. Dr. Francoy, who is the chief witness for the Crown in the Alger insurance case, was arrested on Saturday by Constable Coxworth of Stouffville. The charge against him was that of committing a breach of the Criminal Code in April, 1894. It is alleged to have been a plot on the part of the defendant to fraudulently obtain from Canada so that he could not testify against Alger. As the Crown was unable to produce any evidence in support of its case, the defendant was released on condition of his testifying against Alger, being committed to the custody of the prison by special instruction from the Attorney General's Department.

THE DEAD HORSE BUSINESS. A Bolton-Avenue Park Packer Doubly Fined Yesterday. Before Justices of the Peace Richardson and Ellis yesterday William McKay, Jr., of Bolton-avenue, was charged with having fed his dogs with the carcasses of horses. He admitted having used some fifteen or twenty horses in the course of the year, and on September, having purchased them for \$1.50 a head. On the original charge he paid some \$200, and on a second complaint in respect to the list of December, being fined \$200, and a fine of \$10 and costs was imposed. The evidence showed that the horses were simply knocked on the head and thrown into the pens, where they were torn to pieces by the porkers.

Recent Fires at Emily. Inspector Detective John Murray returned from Lindsay yesterday, where he has been investigating certain alleged incendiary fires in Emily Township. The residence of farmer, named Duffy was burned recently and the footprints were discovered in the snow. Large quantities of straw were found in the neighborhood of the house, and a fire inquest will be held.

The Truth in the Pinemat Case. Conductor Salem P. Smith of St. Thomas, Ont., is about as well known as the Grand Trunk. This is what he has to say: "Pinemat is all the talk of my man. For coughs and colds it is the favorite. It is so in my own family. The children like it. It sticks to the throat and soothes the throat. No use talking, Pinemat works. These words put re-echo those heard on every side. In chronic cases, and when you are sick, ask your druggist for Pinemat, and Hypophosphites. Pinemat is the most reliable and Best."

Important to Shoppers. The public are notified that no skating will be allowed on the large portion of Frontenac Lake, owned by the Grand Trunk Railway, and that the vast areas of open water and thin ice made during harvesting operations threaten the danger to the skaters who very great.
