TWO OFFICERS AND NINE MEN IMPRISONED IN SUNKEN BRITISH SUBMARINE

School Inspectors Muddled Reports—Toronto Woman's Mysterious Death—Border Towns Suffer From Water Pollution—Labor Men Suggest Prison Reforms

URGE DAILY TEST OF WATER FOR DRINKING

Ontario border towns, and cities may now hold themselves in readiness for a mighty campaign of water purification. To those municipalities which draw their drinking waters from the chain of great lakes and rivers, the report of the field commission, made public yesterday, reads a warning of alarm. It is intimated that remedial legislation may be forthcoming soon.

Border Commission on Water Pollution Reports Pesticidal State of Water Supply Used by Many Towns—Sault Ste. Marie, Windsor and Kingston Worst.

The substance of the report compiled by Dr. J. W. S. McCullough of the provincial board of health, Dr. A. J. McLaughlin of the state department at Washington and Dr. J. A. Amyot for the international commission on purification, is that some municipalities today are drinking from sources which literally reek with pollution and where the colon bacilli of typhoid are swarming. Some of these have instituted plants to offset the evil, but the majority, if not entirely, regardless, have but intermittent services, which do not combat the danger. Every place must have a water treatment for 365 days in the year if the inhabitants are to be safe.

Vessels Blameworthy.

In emphasizing the necessity for the establishment of plants for purification it is stated that in a single day a city may become contaminated and great disaster follow. The danger from passing vessels, which has hitherto been only guessed at, is here estimated as of pressing moment. In the narrow rivers there is a serious menace, especially since all the vessels on the lakes discharge their sewage into water without treatment of any kind. The greatest factor of all, however, is that every municipality in the area investigated discharges sewage untreated into the international waterways where the currents bear it far and wide.

Reserve Power Further Drawn Upon by Restlessness—Hopes Are Again Waning.

NEW YORK, Jan. 16.—(Can. The night bulletin issued at 9:45, somewhat later than usual, said: "Sir James Whitney has been resting today, but otherwise remains about the same."

A Marine Valet

The crew of the good ship Eri King, frantically known as a tug, and about to lay up for the season, sat down last night to a real dinner. A sort of post-season blow-out. Feed, repeat or banquet. It was some dinner. They had soup—Cream of tomato—and roast young turkey. Lemon pie, and other things too numerous to mention. Including copious libations of both—And usually served over a par. Not a sand-bar, either. Captain Finn was there, and Chief Engineer Malone. Fireman Friday. And Cook Bellard.

Abolish Uniform and Hair Cut in Prisons

Labor Leaders Suggest Reforms Before Prison Commission—Delegate Stevenson Called to Order for Bitter and Inhuman Attitude Toward Prisoners.

The cause of labor in the provinces has some well-defined ideas of how prisons should be conducted. Labor asks the abolition of the stripe and the hair-cut, the production of commodities for public institutions alone and not in competition with free labor, and a more humane and educational system of training in general. Recognized labor leaders of the province put these matters before the prison reform commission in the private bills committee-room at the parliament buildings yesterday. Every point was clearly followed by Messrs. C. H. Macdonnell, J. P. Downey and Dr. Frederick Etherington of the commission, and on occasion the proceedings waxed warm as opinion differed.

TO INVESTIGATE STRANGE DEATH OF WOMAN

Mrs. Christie Thompson Broke Right Arm, Left Hospital, Fell Down Stair, Broke Arm Again, Was Found Unconscious, Taken Back to Hospital and Died Yesterday

A death which, according to police officials, will be officially investigated, took place at the General Hospital yesterday noon. Mrs. Christie Thompson, who lived with her husband at 112 St. Charles avenue, was conveyed to the hospital on Tuesday with a broken right arm. The arm was set and bandaged, and the woman left the hospital the next day. On Thursday evening at her home, Mrs. Thompson fell down stairs and again fractured the arm. The next day she was again taken to the hospital, where she died, it is said, from concussion of the brain at noon yesterday.

WYCHWOOD FIRE CAUSED BY OIL

Lamp Upset, Contents Spread Over Floor and A Saunderson's House Was Burned.

A fire caused by the upsetting of an oil lamp at 23 Glenvale avenue, Wychwood at 8 o'clock last evening, wiped out practically the whole fortunes of A. Saunderson. A one storey frame building at the back of a small lot the building represented years of saving and hard work after business hours on the part of Mr. Saunderson. The contents of the building were completely destroyed. The fire brigade's effort proved unavailing, and all they could do was to prevent the flames from spreading to adjoining buildings.

TWO MORE IN QUEST OF DIVORCE AT OTTAWA

Toronto Woman and Ancaster Man Have Made Formal Application.

OTTAWA, Jan. 16.—(Can. Press.)—Two more applications for divorce were made at the court here yesterday. The first was by Mrs. Bertha E. H. Fraser of Toronto, who is suing for divorce from her husband, John Fraser, a commercial traveler, formerly of Galt, Ont., but now of Toronto.

HINDUS OUGHT TO KNOW THEY'RE NOT WELCOME

Government Demands That Each Dusky Immigrant Show Two Hundred Dollars.

OTTAWA, Jan. 16.—(Special.)—Action has been taken by the government to prevent or limit the immigration of Hindus in Canada. They must show themselves in possession of two hundred dollars, which is not a poll tax, as is the case of Chinamen, on whom there is a head tax of \$500. The Japanese enter Canada freely under the terms of the Anglo-Japanese treaty.

GOVERNMENT DECIDES TO SELL BLOOR SITE

Land Intended Originally for Government House Will Be Disposed of by Tender.

Tenders are to be called for immediately by the Ontario Government for the old government property situated on Bloor street, opposite the new St. Paul's Anglican Church. The property has a frontage of 298 feet on Bloor street, and has a depth of 700 feet. It was purchased four years ago for \$80,000, at which time it was intended to erect the government house. Later it was decided to build the office at Chorley Park and it is practically ready for occupation at the present time. The tenders ask for a deposit of five per cent, with four years to complete the payments.

CREWMEN FORM SECEDING UNION

Insurgent Spirit Roused by Changes in Bisley Rules, Creates Wide-Open Breach.

LONDON, Saturday, Jan. 17.—(C.A.P.)—A new Rifle Union was formed last night as a sequel to the important alterations recommended by the war office in the conditions of shooting for the King's prize and other competitions at Bisley. The war office suggests a time limit of 30 seconds in deliberate firing at all distances up to 600 yards, and the introduction of rapid firing and snap shooting in King's prize shooting. This among other proposed changes, and the agitation for the abolition of the bullseye, has caused some unrest among the rifle clubs, many of whom fear that the changes would kill the interest in rifle shooting. The council of the National Rifle Association have not yet expressed any opinion, but members of the association have taken a part in the founding of the new union.

3 SCHOONERS MAY HAVE SUNK

Fate of Thirty-Seven Men on Atlantic Coast Vessels in Grave Doubt.

BOSTON, Jan. 16.—(Can. Press.)—Considerable anxiety was felt in shipping circles today for the safety of the four-masted schooners Fuller Palmer and Prescott Palmer and the four-masted Northland, of which no tidings have been received since they were caught off the coast by the northwest gale of Monday night.

All were coal-laden from Norfolk. The Fuller Palmer was bound for this city, the Prescott Palmer for Portsmouth, N.H., and the Northland for Searport. Me. Capt. Herbert H. Wallace of the schooner Grace A. Martin, which was abandoned off Matineus on Wednesday, saw the three vessels at 10 o'clock Monday night. As they encountered the same weather conditions that caused the loss of the Martin, shipping men fear that disaster may have overtaken them.

CAMPAIGN STARTS IN PEEL COUNTY

For Canadian Temperance Act—Southern Section the Main Battlefield.

EIGHT LICENSES THERE

Brampton Council Appoints Standing Committees—Other Local News.

The campaign for the Canada Temperance Act has started in earnest and both sides are working hard. The Peel Business Men's Association, which has such an active part in the local option campaign in Brampton, does not seem to be satisfied with the results and is distributing literature throughout the county. The battle will be fought mainly in the southern part of the county, where the remaining eight licenses exist. The officers of the Peel County Temperance Association will endeavor to form like organizations throughout the county, starting in Strathroy on Monday evening. The first public meeting will be held at Strathroy on Tuesday evening when Rev. John Coburn will deliver a sermon on the subject of the Temperance Act. The Peel County Temperance Association will give temperance addresses. If the Canada Temperance Act carries on the County of Peel will be without a bar. The township of Peel is the first to carry local option, closely followed by Caledon, Albion and Bolton. Brampton was the last to fall in line. In 1884 when the Temperance Act was first passed it was defeated by 104. T. H. Goodman, of Strathroy, will fill the duties of returning officer, and there will be 40 polling sub-divisions.

Rev. Mr. Nixon of Winnipeg has purchased the property known as the Wellington House from Mr. R. Robson. The price paid was \$10,000.

Council Committees. The standing committees of the town council for 1914 are:—Mines, Health, Beauty and Dawson, Fire and Light, Allan, Beauty and Dawson, Roads and Bridges, Bull, Holmes and Allan, Property, Parks, Market and Cemetery, Holmes, Dawson and Wray, Sewers, Band-Dawson, Bull and Henderson, Beauty, Bull, Warren and Henderson, Band-Dawson, Bull and Henderson. The standing committees of the township council at the next meeting of the council. The standing committees of the township council, made vacant by the resignation of Mr. J. S. Beck, will also be filled.

Outdoor Study. The special agricultural class at the high school, being conducted by H. E. D. Laidlaw for the benefit of farmers' sons of Peel County, paid a visit to the farm of Mr. J. C. Bull yesterday afternoon for the purpose of studying Clydesdale horses. Mr. Bull proved an interesting host and gave an excellent talk to the young men on the value of the Clydesdale on the farm. During the remaining three weeks of the course trips will be made to the farms of other well known breeders in different parts of the county.

L.O.L. Annual Meeting. The annual meeting of Derry West District No. 10, L.O.L., was held at the lodge rooms here on Tuesday afternoon. The following officers were elected: W. M., Thos. NAME ADDRESS

YORK TOWNSHIP.

The vacant seat in the township council is to be settled by the voters on Thursday next. Half a dozen candidates are in the field. The present composition of the council, as far as geography is concerned, including that of the member who died the other day, is all to the west and even west of Hurontario street, without any representation for the bigger half that lies to the east. Ex-Deputy Barker of Todmorden is in the field, and it is generally conceded that inasmuch as he is the only candidate east of Bathurst street the others ought to withdraw in his favor, and that in any event the people in this unrepresented district should concentrate on the eastern man. Even a lot of the western townshippers are admitting that Mr. Barker is entitled to their support.

THE TOWNSHIP AND ANNEXATION PROPOSALS.

The question of the annexation of the suburbs of Toronto is always with us, but it is present now in more acute form than ever. There are a lot of people now living in the suburbs who are anxious to get water supply, street car service, sewers and other municipal conveniences; and there are a still greater number of people who would like to go into the suburbs and build houses if they could get these conveniences plus a single-street-car-fare service.

Two ways have been proposed and one is annexation to the city; the other is for the township to undertake the supply of city conveniences to the suburbs, based on getting water from the city and being allowed to drain into the city sewers. It has been announced by the rev. of the township that it is the intention of himself and his colleagues to ask for legislation in this direction at the forthcoming session in the Queen's Park.

It is high time, therefore, they began to frame up their policy so as to get it before the electors. To do what they propose involves a large sum of money for water mains, for sewers, for pavements, for lighting and for all the other things. The school requirements are something of themselves.

Toronto has been able to do all these things for her citizens by creating a debt of some magnitude. Does the township council propose to issue bonds in a similar way and for an amount sufficient to provide all these things that the people are demanding? Also, on what property are these bonds to be a mortgage for the annual payment of interest and ultimate discharge of principal? For instance, are the bonds to provide sewers and water for the Todmorden district, to be a mortgage on the farms of the township north of the main Don River, and are the bonds which are to provide for water and drainage for all the country north of St. Clair avenue to be a mortgage on the farms, say north of Lawrence avenue, two and a half miles to the north?

A proposition of this kind will require the most careful consideration on the part of the council, on the part of the persons to be benefited and on the part of those further out who may be mortgaged for these improvements.

In the past things of this kind have been attempted, not by the township, but by village organization or town organization, as in the case of Yorkville, Parkdale, East Toronto, West Toronto and North Toronto; but in every case these villages, or, as they subsequently became, towns had to abandon the proposition and seek annexation with the city. West Toronto at one stage of its career had accumulated a very large public debt, which it repudiated and on which for a time it paid only a fraction of the interest that it had undertaken to pay. North Toronto made a brave fight to find water for itself and other town improvements, but it, too, at last was glad to come into the city.

It may be possible that Reeve Syme and his colleagues in the township council will be able to secure legislation which will enable them to frame a policy that will raise sufficient money for the improvements required and which, when provided, will fit in with the city if annexation should take place later on; and they must also be able to show how they can get the large sums of money necessary for these things. And this does not even take in the question of street car service, which is one of vital importance.

The World understands that the people north of Danforth avenue, in the vicinity of the old Newmarket race-track, have had this whole question up for discussion in recent meetings, and that the opinion of those who look to the future of the township is to be taken into account. The township council of the policy that Reeve Syme and his colleagues committed themselves to last year. And what is believed to be the attitude of these people to the westward.

The meetings of the township council from now on will be a matter of the greatest interest to the community, those who live in the city and the township alike. The township council has found that the township is beyond them, they ought to meet at an early date, the council should at once begin to hold a series of meetings to discuss the problem; staff of engineers, treasury and legal experts to work out the mass of details into a program. The creation of a bonded debt outside of schools is a new thing to the farmers of the township.

ACCIDENTAL DEATH VERDICT OF JURY

At Coroner's Inquest Into Death of Two Men at Pears' Brickyard.

UNDERMINING SCORED

Accident Happened in Absence of Foreman—Work Done Without Orders.

After almost two hours' deliberation the jury inquiring into the cause of Geo. Woodhouse's death came to the conclusion that he was killed accidentally, and added the opinion that the practice of undermining clay banks without proper protection should be discontinued. The inquest was held by Dr. Bond, at Myers' undertaking room on Yonge street. Woodhouse was crushed beneath a fall of clay at Pears' brick yard, Beadon avenue, on Jan. 13. The evidence of Charles Lawrence, fellow-worker, was to the effect that he was working with Woodhouse and he could not see that there was any danger, when suddenly a bank some 12 feet high, gave way burying Woodhouse and another workman in a pit, in which they were working. Questioned if he was specially ordered to dig out the sides of the bank, he replied, not that morning, as there was no foreman to give instructions.

A Testimony. The foreman, Mr. Fitzpatrick, was asked if it was customary to make a test to see if it was usual to tap the bank with a post mortem of the body was made by Dr. Silverthorn of College street, who found that death was due to internal hemorrhage, caused by a heavy weight, Mr. Fitzpatrick, in his evidence, said it was usual to undermine the clay, so that it would fall when the frost came on the day following. "I tested the bank with a brick hammer the evening before I thought it a little risky for the men to dig out the sides of the bank that afternoon."

Dug to Frost. Asked by the coroner, representing the mines department, for his opinion as to the cause of the accident, the witness replied: "It was due to a great extent to the frost."

Workmen Warned. The proprietor, Mr. James Pears, said he personally warned the men every day. He was of opinion that the accident was caused by the condition of the bank at the time, it was undermined too far from the surface. "Had the foreman been on the job would the accident have happened?" "No," said Mr. Pears. "Because he would not have allowed them to go under the bank."

Lawrence, Juror, was strong in condemnation of the practice of undermining clay and let it hang over until springtime.

MUCH DISCUSSION ON ANNEXATION

In North Riverdale District—Ratepayers Issue Manifesto.

SOME LOCAL OPINIONS Necessity for Sewerage and Transportation Becoming Acute.

A circular made up by the North Riverdale Ratepayers' Association, which is being widely distributed and is addressed to the electors of the Township of North Toronto, contains much discussion in the neighborhood of the points which will be the subject of the coming part of the city. In the section headed "The Necessity for Sewerage and Police Protection," it is stated that the one-half of the present rate of outsiders.

A sewerage system would be installed, as the sewerage system is being constructed in the city of Toronto, it is the opinion of the residents of the North Riverdale district, that the township should be allowed to participate in the cost of the sewerage system. It states that the taxes, upon being assessed, would be little more, if any, than those under the township assessment.

Fire Protection Needed. Another point of great importance, which should be considered, is the need of fire protection. Where should we be, if fire started in this district? It is thought that a sewerage system was needed in the worst way, as the well water was found to be contaminated by the large number of outhouses in the neighborhood.

Victoria Square. Free will offering services will be held at the Victoria Square Church tomorrow. The will be special music by the choir in the afternoon, assisted by Mr. C. H. Keys of Gormley, and the Rev. C. H. Headford choir will supply the music.

14 barbers. New address. No waiting. 187 Yonge street, opposite Eaton's.

PAVING TO START NORTH TORONTO

Board of Works Recommends That Teddington Boulevard Be Done.

WHY NOT OTHER ROADS

Says a Resident—"Surely the Sewerage System is Now All Right."

A recommendation adopted by the city board of works that a permanent pavement be laid on Teddington boulevard, has awakened a good deal of interest in Bedford Park, in view of the city works department's recent attitude to the local sewerage system.

"If Teddington boulevard," said one resident last night, "why not other streets and boulevards? That must mean that there's no tearing up to be done, and I suppose we can all get busy now with paving petitions, for we certainly want our streets paved."

Can you not do something," he continued, "to get the authorities to make some regulations regarding the use of the Bedford Park skating rink? The present rink is monopolized by a few people all the time, and people here to get a quiet recreation cannot get it. Surely certain hours at night in the rink could be set apart for skaters."

A few citizens of the north end are making an effort to get the use of the kindergarten room of the Bedford Park School on Sunday afternoons for non-denominational services.

Cricket players and other sports enthusiasts will be welcomed at the rate-payers' meeting in the old town hall to-night, as Parks Commissioner Chambers' address will likely be of interest to them. The commissioner will deal with the park system, and will, no doubt, make special reference to what is in store for the north end in the way of parks and playgrounds.

Parts and city streets are sloppy, the roads in the north are in great shape for sleighing parties. The committee of officers for North Toronto Volunteer Fire Brigade has announced as follows: President, Chief Massey; Gill; treasurer, Percy Black; secretary, No. 1 hose wagon, E. Jones; lieutenant, and ladder company, No. 2 hook No. 2, M. B. Booth; No. 3 and 4 companies, Nos. 2, 3 and 4 Companies.

WATSON'S HORSE HAD TO BE SHOT Team Was Struck by Street Car and One Animal Badly Hurt.

NEWS OF WARD SEVEN Spirited Debate at Humberside Collegiate on Chinese Question.

As a result of a collision with a Dundas street car yesterday afternoon, John Watson, a market gardener of Dixie, the team, attached to a heavy sleigh, laden with garden produce, was being driven in a westerly direction along Dundas street by Mr. Watson's son, Cecil, turned south, intending to proceed down that street. Dundas car No. 1876, in charge of Conductor 1489, crashed into the horses just as they turned around the track, knocking both into the road and fatally injuring one of them. A hurry call was sent to L. H. Durkin, V.S., of Dundas street, who ordered the suffering animal to be shot. Constable Knox was dispatched.

Collegiate Debate. The exclusion of the Chinese from Canada by the levying of a rigorous tax, is unjustifiable, was the subject of a debate between the members of the Humberside Collegiate Institute Literary Society yesterday. The resolution was lost, according to the judges, Messrs. Morrow, Bennett and Jones of the staff, the victorious negatived the resolution. The fourth form team, headed by Henry Gallagher and Clarence A. Simeon, supported the resolution, while the fifth form team, headed by Helen Phillips and Simeon Joyce, supported the team. A short musical program was given.

EATON'S SEMI-ANNUAL SALE NEWS

Extraordinary Half-price Sale of Oil and Water-Color Paintings

By Some of the Most Distinguished Artists of Europe and Great Britain

Will Begin on Monday Morning

In The Picture Galleries on the Fourth Floor

THE MAGNIFICENT OFFERING INCLUDES LANDSCAPES, Seascapes, interiors and figure studies, by such notable modern artists as Hobbe Smith, one of the most eminent marine painters in Holland; Pierre Vauthier of Paris, a Chevalier of the Legion of Honor, and several times a medalist of the Salon; Henry Mouren, another landscape painter of illustrious record in France and elsewhere; besides a group of foremost English water-color artists, namely, J.

Jessop Hardwick, G. Lenfesty, Alfred and Joseph Powell, and Wilfrid Ball.

To induce a complete clearance of these pictures, previous to stock-taking, prices will be reduced to exactly half the present figures—to amounts ranging from \$15.00 to \$375.00. A collection of unframed oils and water-colors by the artists mentioned, and others, will likewise be reduced to half-prices—\$10.00 to \$75.00.

Heralds of Spring in the Millinery Department

Chic Little Mid-season Hats, in Taffeta and Net, That Proclaim the Coming Vogue

BRIMS ROLLING straight up from the face, soft crowns, with frills of net or high minaret mounts by way of decoration—this is the story of the new millinery unfolded in the advance showing of early Spring hats which will take place on Monday. Composed for the most part of black taffeta and moire silk, these smart little hats and turbans are eminently suitable for present mid-season wear, many of them having touches of fur that render them appropriate for the strictly Winter costume. Some of them with brims and mounts of maline adapt themselves charmingly to wear with the soft afternoon frock. According to fashionable demand, the majority are black. Prices range moderately from \$5.00 to \$8.50.

Ready-to-wear Toques and Turbans
Here are the same chic, jaunty little toques and turbans with upturned brims and soft crowns, some composed of black taffeta, others of black moire, and others of black tagel straw, some simple tailored mount supplying the note of trimming. Prices range from \$2.50 to \$5.00.

Untrimmed shapes in crinolin and tagel straw are another feature of the display, interpreting the season's mode.

Mounts and Flowers of Latest Vogue
And then, too, a splendid showing of millinery trimmings—minaret mounts in fancy feathers, jet quills, jet cabouchons, butterfly bows in net and lace, and flowers of the most fetching sort, emphasis falling on Frenchy little nosegays in deep, rich shades, and crimson poppies with jet centres.

FILTH FOUND IN BORDER WATERS COMMISSION URGES DAILY TEST OF DRINKING SUPPLY IN TOWNS

Pestilential State of Narrow Channels Reported After Thorough Examination of Provincial Waterways—Sewers and Boats Make for Disease—Legislation Probable.

(Continued From Page 1.)
In some instances eighteen miles. Water drawn from the outskirts of such zones was as dangerous as that immediately adjoining the centre of pollution. It was learned also that the great bathing beaches along the lakes were exposing hosts of children to disease-laden waters. The moral is that it is always unwise to use water which is not thoroughly treated, and the neglect of this is responsible for the "disgraceful record of water-borne typhoid."
The board points out that the failure to install a plant usually comes from an undue confidence in a supply which is safe most of the time. It is difficult to make some officials understand that the expense of a plant must be undertaken for the general safety. The commission then takes the ground that in the future no water should be given to the public as safe without a daily bacteriological examination to back it up. This means a revolutionary change in small town procedure within the next two years. There must be complete sanitary surveys, as occasional samples are entirely unreliable.
Some instances of almost criminal carelessness have been found where plants are in use. The complaint of the people that the taste of chlorine was evident so influenced the officials that it was reduced, and all efficiency was lost.
A serious situation exists near Fort Frances, on Rainy Lake. There is a uniform pollution in the water supply. This applies to the whole stretch of the Rainy River. The bulk of the water of Lake Superior is pure, although the twin cities of Fort William and Port Arthur are within a danger zone. Sault Ste. Marie may expect acute outbreaks of typhoid as long as the pollution from shipping continues in that region.
Boats Discharge Filth.
Boat traffic also is responsible for the pollution in the lower end of Lake Huron and the St. Clair River. Sarnia and Port Huron are in the midst of a most dangerous circle of bacteria resulting from boats and from promiscuous discharge of sewage into the river.
In Lake Erie the discharge from the Thames and Clinton rivers does not seriously affect the water condition, but the boat traffic again causes trouble. The situation facing Windsor and Detroit is also fraught with danger, the treatment now in vogue not being sufficient to warrant the

use of the present supply of drinking water.
Trenton Water Bad.
The source of supply for Trenton and Amherstburg is reported as grossly polluted and totally unfit for use.
Lake Erie as a whole was pure, except for vessel sewage and the pollution followed the shores of Niagara River, Lake Ontario, too, gets off with slight condemnation, although the bay at Kingston is described as grossly polluted at certain seasons. There is considerable filth at Brockville.
The investigation worked from one end of the province to the other and collected 17,784 samples. Wherever coliform bacteria were found that spot was considered dangerous.

WANT LAKE SHORE RADIAL BRANCH

On Queen Street, West of the Humber—Etobicoke Ratepayers' Meeting.

FAVOR COMMISSION To Have Charge of Works Department in Etobicoke Township.

For some time the residents of Humber Bay and the southern portion of Etobicoke Township have felt the need of an electric line running along Queen street from the Lake shore road, in order to give them more rapid transportation into the city. At present they are obliged to walk some distance in order to make connections with the Mimico division of the York Radial Company at the Humber River. In the winter, especially, this is a hardship, and, realizing this, the South Etobicoke Ratepayers' Association, at their regular monthly meeting in Humber Bay Public School last night, decided to request the township council to take steps to have the city extend a branch of the railway along Queen street from the Lake shore road. The citizens were obliged to make use of the radial line in any case, they would have some difficulty in inducing the city to make an extension, which would not increase its financial returns from the road. It was shown, however, that this was a live question in the district, and the meeting thought that they would never get what

they wanted if they did not ask for it and the above action was accordingly decided upon.

Want More Lights.
Another question engaging the attention of the ratepayers in that district is the necessity of a number of lights on Queen street, and the other important thoroughfares. After some discussion as to the cost of having the hydro-electric system extended thru the district, a committee was appointed to wait upon the township council with a view to obtaining additional information on the question.

Commission Favored.
During the past year fifteen thousand dollars was spent by the township council, and it was recommended by the executive committee of the association that a works department, which should have control of all the money spent in public utilities, be appointed. It was thought that, if the apportioning of the work

done during the year were left to a commission, it would take away from the council an opportunity of practically supervising and would place them in a more independent position.

The association failed at its last meeting to elect a vice-president, and to remedy the error, Geo. Whitworth was elected to that office.

A special meeting of the association will be held on Friday, Jan. 20, for the purpose of discussing the hydro-electric question.

CIVIC MARKET WANTED.
A deputation from the Ward Seven Ratepayers' Association will meet the property committee at the city hall on Monday afternoon to ask for the establishment of a civic market somewhere in the vicinity of Weston road and Dundas street.

CLOGGED NOSTRILS OPEN AT ONCE HEAD COLDS AND CATARRH VANISH

In One Minute Your Stuffy Nose and Head Clears, Sneezing and Nose Running Cease, Dull Headache Goes.
Try "Ely's Cream Balm."
Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dizziness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.
End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air-passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.
Don't be awake tonight struggling for breath with head stuffed, nostrils closed, hawking and blowing, Catarrh or a cold, with its running nose, soul mucus dripping into the throat, and raw dryness is distressing but truly needless.
Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

How Do You Market—Basket or Telephone?

By ANN MARIE LLOYD

Ardent male suffragist says one of the reasons that women ought to have the vote is because they are so successful as housekeepers. They know how to run their own homes, and running the government is but a bigger form of housekeeping. That the ideal plan would be to let the women carry the street and sweep a clear path to the City Hall and get that in the same perfect order from attic to cellar that obtains in the home and then tackle the schools and make them just as home-like and sweet and wholesome and then go on to the tenement—well, that is the idea he has.

He also says that the government is not a job for the business man. But just one of those argumentative women with which society is blessed arose; said that few housekeepers were good business women anyway; that the remarks of the man proved to her that they better stay home and run their own houses; that what was the matter with the government was not enough business instead of too much—and then the fight was on.

All of which opens up the discussion of telephone ordering. Is it good business or not? Does it save for itself in time and lack of wear and tear which the market trip involves, or does it make serious and wrong inroads in the household budget?

The rate for telephone calls varies. It may be five, or eight, or ten cents in the larger cities or it may come in with the "unlimited service" in the smaller towns so that it really amounts to almost nothing. Its effect on the weekly allowance cannot be easily determined in dollars and cents.

It may make a pint of milk costing five cents at the store cost 15 cents by bringing up the price to the consumer from 10 cents to 25 cents for a head of

A NEW LESSON FROM STAGELAND

Madeline Harrison, Creator of the "Dramatic Soul Dance."

Latest Dances Teach Shoe Sense

By MADGE MARVEL

DANCE maddens. The very modern maddens with which old and young, rich and poor, the positive and negative socially elect, are afflicted, has stimulated the makers of footwear to fine efforts. Never in the history of dress were our women so well shod. The germ of shoe sense for walking and general wear had done good work before this dancing mania arrived, and it will take a long time of wrong shoeing to put the feminine foot back in the condition it was in when it was considered smart to wear shoes a size and a half too small and, so toddling about on high heels with misery stamped on our faces.

To the stage is due much credit, many of its beauties having long ago solved the footwear problem.

If there is anything in the new shoes to arouse the grumbler it is the fear that the low heels may throw the weight of the foot on unused muscles, and the popular douch, may result in more fallen arches. However, we stick to one fact—a little time now that it seems a waste of energy to borrow trouble, wear them, dance and be merry. Let tomorrow care for its own corns.

Each gown should have its harmonizing shoes. The old rule of black or white satin slippers for all frocks no longer holds good.

If one wears black satin shoes, she does so for no utilitarian reason, but because they are the only proper shoes for that costume. And then plain black satin is not in favor. The toes must gleam with beads, crystal, rhinestones and jet. There must be the glint of gold or silver. The rhinestone heel is no longer a novelty. The moment it became possible to get it for a dollar or two, without having to wait for it to be made, it ceased to fascinate.

One of the most attractive pairs of black slippers has tiny embroidered roses in color and a background of gold or silver. The rhinestone heel is no longer a novelty. The moment it became possible to get it for a dollar or two, without having to wait for it to be made, it ceased to fascinate.

There are some slippers of metallic weave that show blue, gold and rose in rich brocade. There are those of cloth of gold and silver. White velvet brocade forms the toes for a vamp of gold. Irresistible effects in all the colors of the rainbow are made into pumps and trimmed with one flat oblong buckle of dull gold or oxidized steel. Cut steel buckles have lost none of their popularity. They are much used for the clasps which have made the oxford so well liked.

For the woman whose ankles are apt to enlarge by the continual use of low shoes there are most delightful high

Secrets of Health and Happiness

Red Lips and Cheeks Nature's Health Badges

By Dr. LEONARD KEENE HIRSHBERG

A. B. M. A., M. D. (Johns Hopkins)

(Copyright, 1914, by L. K. Hirschberg.)

WHAT is color? What is it that from the mingled strength of shade and light brings beautiful creation into sight? If you go into a paint store you will be amazed to find that white paint is lead, red paint is mercury, green paint is copper, blue paint iron, and so down the list. Yet none of these metals are actually colored. Certain mercury compounds can be made into red or yellow, merely by heating them. When analyzed they are found to be exactly alike, yet one is red and one is yellow. Phosphorus is sometimes yellow and sometimes red, and so is sulphur. There is no difference in their chemicality.

To the picture of health your cheeks must be rosy, your lips like cherries, your flesh like alabaster and your hair like the raven or like the sunshine.

Nature has, it seems, selected certain hues for the health of certain creatures. Butterflies harmonize with their surroundings, the tiger is striped like the light and shadows of the jungle, and the red pigment, such as is found in the human blood or in the depths of the sea, has the extraordinary power of transforming blue light into red. Since the blue light of the sun penetrates to great depths both of flesh and water, nature has provided these deeper tints with red pigment. By its use the green chlorophyll and the healthy human tissues become active and put the sharp, penetrating blue rays of the sun to work. The "enzymes" or go-betweens, which make most living changes occur so rapidly and wonderfully, are made active by the blue light plus the red coloring.

Therefore the ruddy glow of health and vigor on the face is due to fresh air, sunlight and the red pigment in the blood stream which seizes hold of the watery foods in the blood serum and with the help of the "enzymes," gives the tint of a scarlet sunrise to the sound physique.

Dr. L. K. Hirschberg

Answers to Health Questions

M. J.—My singing teacher tells me to breathe with my stomach and my physical culture teacher says to breathe with my chest. Which is correct?

Both. When singing it is proper to breathe from the lower part of your trunk. At all other times, however, you must practice expansion of the topmost pinacles of your lungs. The little hollow places above the collar bone must be eliminated. This is done by throwing back the shoulders and breathing deeply with the upper part of your chest.

F. M.—Is the new slump walk which some of my girl friends have, harmful?

While not itself injurious, the "slump" now so frequently seen in maids and college girls, may lead to round-shouldered curvature of the spine and a clumsy, shuffling gait. I say "may" because it is too soon to predict what will happen and ere that a new dance and a new type of footwear will do away with the "slump."

Red Color Helpful

Here comes the discovery. Mr. Hanson and other physiologists have ascertained that red color is particularly helpful to the muscles—little bodies which cause all sorts of changes to take place rapidly about them without themselves changing—and to the glorious green chlorophyll.

In other words, red is nature's most potent aid in supplying food, life and health to living things. It aids the green pigment of plants to make food and the red pigment of man and brute; it is the essential element in the blood of animals.

Water, for example, is not entirely transparent even though most people believe so. It so happens that water absorbs red more easily than anything

Advice to Girls

By Annie Laurie

DEAR ANNIE LAURIE: I have the sweetest little girl in the world, she's as pretty as a picture, and as good as gold, but she's so vain that I simply can't stand it to take her anywhere. She's always putting her hat on straight and fixing her veil, and smoothing out her gloves, and smiling to show her dimple, and looking down to show her eyelashes. What can I do to make her be more sensible?

PRUDENT.

WELL, my good, young man, what is it you are in love with this girl for, anyhow? Her good sense or her good looks? Isn't that dimple the very thing that drives you to distraction and haven't you told her so a dozen times in an evening ever since she first let you kiss her and call her sweetheart?

What do you talk to her about, her character or her beauty?

What first attracted you to her? Get right down to facts now, young man. Are you any more sensible than she is, after all?

And then, as to the hat and the veil and the gloves, are you one of those men who are always talking about "lookers" and telling about girls

Miss Laurie will welcome letters of inquiry on subjects of feminine interest from young women readers of this paper and will reply to them in this column. They should be addressed to her care this office.

I THINK Mary and I may at last begin to think of settling down. Now that our honeymoon is at an end, I am looking forward to our life together, short of the excitement of wedding, honeymoon and furniture buying. It is this excitement, I know, that has kept Mary so over-strung and petulant.

My furniture has arrived. My pretty little home—it is at the end of a lane of pine trees just outside of the town where mother and dad and Mary's people live—has been scrubbed from cellar to attic by Nora Geraghty. Each night I go home whistling, pretty sure that I will find things arranged at last in the proper room and looking like a real home. Each night I am a little disappointed. I know Mary is busy. She is moving all her clothes and wedding presents from her mother's home. But somehow I can't for the life of me see why all the furniture must stay huddled up in bins and dumped about grotesquely in great heaps. I took the bull by the horns today.

"Nearly through moving clothes and things, Mary?" I asked.

"Yes," said Mary, "I finished that, Peter, day before yesterday."

"Well," I nearly said, "what in the world have you been doing then?" But I didn't.

Never ask a woman in a puzzled tone what she has been doing. You'll find yourself in a heap of difficulties. She'll instantly grow aggrieved and magnify each task of her day into a bugbear until you wonder why all the work of the universe was heaped so indiscriminately upon the shoulders of one frail little woman. I, who by the way had been the very frankest of young fellows, was growing mighty discreet in even these—the first few months of my married life.

I asked Mary why she looked so tired.

"To tell the truth, Peter," sighed Mary, "I—I do nothing at all but write notes."

"Notes?" said I aghast. "What sort of notes?"

"Just little notes thanking people for the wedding presents."

"And it keeps you so busy that you haven't time for anything else?"

"There were nearly 600 of them," confessed Mary, guiltily, "and I'm not half through yet."

Who started this infernal cat and mouse custom of wedding presents and notes? Now that I know what keeps Mary so busy and flushed and tired I go home whistling, pretty sure that I will find things arranged at last in the proper room and looking like a real home. Each night I am a little disappointed. I know Mary is busy. She is moving all her clothes and wedding presents from her mother's home. But somehow I can't for the life of me see why all the furniture must stay huddled up in bins and dumped about grotesquely in great heaps. I took the bull by the horns today.

Daddy's Good Night Story

By GEORGE HENRY SMITH

DR. BEETLE was riding along one morning on a prancing June Bug when he met the Lady Bug.

"How do you do, my dear Lady Bug?" asked the doctor, bowing so low he almost fell off the June Bug.

"I am quite well," replied the Lady Bug, "but I am very busy fixing up my bungalow."

"My dear friend, I did not know your pretty little bungalow needed fixing up. I always thought it was one of the coolest little places I have ever seen. When you have it all straightened up will you let me look at it?"

Just then the June Bug began to prance around and the good doctor shouted: "Whos! Whos!"

The Lady Bug smiled very sweetly and said:

"You may come with me now and see what I have done."

The doctor got off his prancing steed and, with hat in one hand and the other holding on to the June Bug, he walked with the Lady Bug to her home.

When they arrived at the bungalow, the doctor tied the June Bug to a tree and started up the steps after the Lady Bug. As he got half way up he tripped and fell, his high hat rolling down the steps.

"Not this year!" exclaimed the Lady Bug.

"You are trying to tease me," laughed the doctor. "You think because I fell up the stairs that I will not be married this year. To fall up the stairs is better than to fall down stairs."

The Lady Bug opened the front door and the doctor came in, bowing very low. As he entered the room he tripped on the rug and almost fell.

"Why, what in the world is the matter?" asked his companion. "That is twice you have tripped."

"I know it, I know it," replied Dr. Beetle. "I was not thinking of what I was doing."

"Ah! my dear doctor, it is one of the greatest things in the world always to think what you are doing," said the Lady Bug, softly.

"I know it," replied the good doctor.

"You must always think and then you will know just where you are going to put your feet. Think before you act," is an old saying. Now, I will not scold you any more. Come and I will show you my home. It is beautifully fixed up for my party."

SATURDAY MORNING, JAN. 17. HEALTH WORK IN TORONTO. Dr. Hastings' work as M. O. H. has excited a good deal of criticism in the last three years, but it is now coming to his own as the result of his systematic efforts for the prevention and control of disease is becoming manifest.

While there has been some expenditure in money there have been no better returns from any investment made by the city than in the reduction of disease and the death-rate. Toronto now stands equal with any city of its size in America in these respects, and has the lowest death-rate in other words, than any other cities of the same size in America.

Much objection was taken to the plan of reporting communicable diseases. The objections came from those who had such diseases, generally, the quite frequently from those who had them not, but who might catch them any day from neighbors of whom they knew nothing.

It is so much can be effected by supervision and attention, the sympathy of the citizens should be elicited for any further advances in hygienic regulation that the number of deaths from consumption was the lowest in the history of the city. Compulsory notification would unquestionably still further improve a record which in Toronto was lamentably bad.

sooner over there to raise money to tunnel Toronto and build radials all over York County, Hon. Adam will be able to use his influence to help him to get it at three per cent. But The Telegram may circumvent them yet.

PUBLIC SERVICE FOR THE PUBLIC. As The World has pointed out on many occasions, one of the chief objections to public service monopolies in private hands is that they invariably prefer to serve a few at their own expense rather than the many at rates that will meet the general need.

This view has just received notable endorsement in "The Wells Fargo Messenger," published by the United States Express Company, which, like its competitors, is now suffering from the institution of the parcel post and from the regulation of the interstate commerce commission.

Government and Self-Government. The British people of today have inherited vast burdens. For the inception of these burdens they are not responsible any more than were the men who incurred them for the more remote duties inherited from their past.

Returned from West India. Via San Salvador, Cuba, Jamaica, Monsieur Cusin, principal of the Meisterecht School, has just returned from his journey he collected much data for the school and students. In spite of the monotonous seas that continually opposed him, he returned with a very happy manner.

TITANIC UNSEAWORTHY BEFORE LEAVING PORT? Point Raised in Suit Brought by Steward Against Company. LONDON, Jan. 16.—(Can. Press)—The plea that the Titanic was unseaworthy when she left England in April, 1912, on her maiden voyage to the United States, which cost the lives of over 1,500 people, is to be argued in a suit for damages brought against the White Star Line by Thomas Anderson, one of the surviving survivors of the wreck.

MISUNDERSTOOD. The Telegram stated last night that it does not run Mr. Beck. This is the noblest tribute to Hon. Adam Beck The Telegram has ever paid. It is in the nature of a self-defending ordinance, too, for everybody knows the long nights and weary days thru which the editor of The Telegram has toiled painfully in bringing to the hydro-electric policy to perfection.

COMB SAGE TEA IN HAIR TO DARKEN IT. It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Thick. The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked, and faded hair is grand. It's treatment, and folks are again using it to keep their hair a good even color, which is quite sensible as few are living in an age when a youthful appearance is of the greatest advantage.

WOODSTOCK BOARD OF EDUCATION Appoints Special Committee to Take Initial Steps. (Special to The Toronto World) WOODSTOCK, Jan. 16.—At the regular session of the board of education the first step was taken toward the establishment of technical training and a system of Woodstock. A special committee of six members of the board was appointed and empowered to visit other schools of this kind in Western Ontario and to make a thorough report of their methods.

STRONG SHOWING BY BANK OF N. S.

Eighty-Second Annual Statement Just Issued is Most Gratifying.

SHAREHOLDERS GLAD Net Profits for the Year Amount to More Than a Million.

The Bank of Nova Scotia's eighty-second annual statement appears in this issue. Owing to the changes in the form of statement, made necessary by the recent revision of the Bank Act, comparison with last year's figures cannot readily be made. However, it may be noted that the total assets have increased from \$71,275,288.95 to \$80,113,239.91 at the close of the year.

The paid-up capital has been increased by an issue of new stock and the reserve fund of the Bank of Nova Scotia now stands at \$6,000,000. The reserve fund, with the addition of the reserve of the Bank of New Brunswick, \$1,799,000, premium received on new stock, \$17,184, and an appropriation from profit and interest, \$110,000, is brought to an even \$11,000,000.

Returned from West India. Via San Salvador, Cuba, Jamaica, Monsieur Cusin, principal of the Meisterecht School, has just returned from his journey he collected much data for the school and students. In spite of the monotonous seas that continually opposed him, he returned with a very happy manner.

AN AUTOMOBILE FACTORY FOR ST. JOHN, N. B. (Special Correspondent). ST. JOHN, N.B., Jan. 15.—The Dominion Motor Car Company is a newly organized enterprise with a capital of \$400,000, largely subscribed by the United States, and having connected with it such prominent men as P. A. Reardon, president of the National City Bank, and Geo. E. Vincent, J. H. Flagg, and J. C. McFarlane. The company has purchased the Maritime Motor Car Co. and two acres of land at Goldboro.

REHEARSAL OF THE UNIVERSITY Glee Club, under the direction of Dr. Norman Anderson, are progressing rapidly. The club's annual concert will be given at the Convocation Hall on the evening of Feb. 11. The chorus numbers one hundred voices, which were much superior to those of the Glee Club. A previous concert for this year's concert was given in advance of the one to be given in former years. The best of modern masters in this form of choral art will be represented. Some of the notable hits of last year's concert will be repeated. Foot's male quartette arrangement of "The Soldiers' Chorus" from Faust. A few light and humorous numbers will be sung to lighten the more serious part of the program. The concert will be under distinguished patronage.

The Famous Parepa-Rosa and Flotow's "Ah So Pure," From "Martha". Almost within sight of Holyrood Castle in Edinburgh, Euphrosyne Parepa-Rosa today born, she was the daughter of a Wallachian gentleman, and in her walks down Princess street, and her native land, she made her debut as Amma in "La Scouboula" in the island of Malta. Then she sang the name of Parepa. No one has been able to understand just why she married a Captain Carroll in 1883, and obliged to return to her native land. She made several notable tours of the United States and later married Carl Rosa, the celebrated violinist, and made famous. She was one of the first to organize the English Opera Company in the United States, although she sang in Italian in Italian opera. While she sang in Italian and three continents, she always felt her talents were genuine appreciation of the opera "Martha," the veteran opera-goer delights to tell about. Her good nature was proverbial, and she very seldom made a complaint of the progress in her career. She was one of the first to enable her to respond to all the orders demanded. Like all other prima donnas of her time, she was always in a hurry to reach the hearts of all the people. She fixed the fame of popular artists in the minds of the people and on that much of the permanence of their fame rests.

Harstone Still in the Running

HARSTONE ONLY TORONTO SKIP LEFT IN MONEY AT LINDSAY

If He Beats Begg This Morning, He Will Enter the Semi-Finals—Charlie Snow Gets Something—Friday's Results.

LINDSAY, Ont., Jan. 16.—Charlie Snow has taken home some jewelry from the hospitable Parkdale skip reached the finals in the consolation this morning and that entitles him to fourth prize. But he goes no farther for Graham of Port Hope put him away in the semi-final 18 to 6. Macnab of Orillia plays Hamilton of Fergus in the other semi-final and the winner meets Graham for the cup.

The weather is still mild and the ice soft, but they are going well to form. Braden of Lindsay, Begg of Fergus and McMillan of Orillia are those rinks still unbeaten. Braden and Rochon played everything. The draw in the Flavelle eight, some of which were played at midnight, and the rest to be decided in the morning, are: Begg of Fergus v. Harstone of Toronto Granites; Braden, Winnipeg, v. Peter McMillan, Beaverton; Pilgram v. Rochon of Winnipeg; Allan of Collingwood v. McMillan of Orillia.

The Gillies eight are as follows: Beall v. Little, both Lindsay rinks; Begg of Fergus v. McMillan of Orillia; O'Connor of Lindsay v. Braden of Wadsworth; Thaburn of Beaverton v. Flavelle of Lindsay; Ross Harstone of the Granites lost his first game in the semi-final, going down before Little of Lindsay by two shots. He beat Martin of North Bay in the Gillies by a good margin, and is the only Toronto skip left. He competes in the morning, and a win will entitle him to play Braden in the semi-final. Bill Scott retired before Rochon in the Flavelle trophy 18 to 8, the Winnipeg skip getting a 7 and a 2.

Begg put Flavelle out of his own trophy by two shots, and the Lindsay veteran won on in the Gillies by virtue of beating Allan of Collingwood in an extra-end. Keal of Glanville went via the Sarnia route by two shots. The Sarnia rink are playing a man short and paying the penalty of one shot for every four ends. McMillan is the leading skip.

Most of the Toronto contingent went home today. The consolation will start tomorrow morning and the finals for the two opens late Saturday night. Lindsay having won the blue ribbon will play for the prize in February.

GALLANT SAILORS ARE GIVEN GOLD MEDALS

Captain and Three Officers Who Rescued Five Men Duly Honored. NEW YORK, Jan. 16.—(Can. Press.)—The Life Saving Benevolent Association today presented gold medals to Capt. William T. Aspinwall and the three officers of the Booth line steamship Gregory, for their bravery in rescuing five men from a lifeboat of the tank steamer Oklahoma, which broke in two off Barnegat on Jan. 4. Capt. Aspinwall's medal was inscribed: "In recognition of his humanity and able seamanship." The medals for First Officer Buck, Second Officer Williams and Third Officer Roberts bore the words: "In recognition of his humanity and great courage in leaping into the sea." President A. A. Raven of the association made the presentation. "It was just a little thing," said Capt. Aspinwall in reply, "what we would want anybody to do for us, pulling those fellows in."

STATE OF VICTORIA IS SEEKING ANOTHER LOAN

Five Million Dollars to Be Raised in London Market. LONDON, Jan. 16.—(C.A.P.)—The Times understands that the Australian State of Victoria is seeking a loan of five million dollars in the London market for a substantial loan. The terms are five million dollars, in 4 per cent. stock at 97, less a small "turn" involved by payment of a full three months' interest on April 14 last. The public issue, made on behalf of Victoria, was in September, when ten million dollars in four per cent. stock was placed at 98, to redeem the balance of the loan of 1882. There has been keen inquiry for the latest issue on the part of the underwriters.

UNITE NATIONALITIES FOR GOOD CITIZENSHIP

Controller Simpson Banqueted by Italian Colony—His Ideal of Government. Controller James Simpson was tendered a banquet last night at the Italian restaurant, 157 West King street, by his followers and supporters in the Italian colony. After the dinner was served Dr. Harley Smith, the Italian consul, and several of the Italians, including Vanni Oranova, Giovanni Colombo, Leone Zaccaria and Joseph Glionia, addressed those present, speaking in high terms of the many favors done the Italians of Toronto by Controller Simpson, and of their great faith in him. Controller Simpson made a suitable reply. He thanked the Italians for their support, and declared his success was largely due to the foreign vote. His one big ambition is to make the position for all classes in Toronto better, and in order that this may be done there had to be first established a unit of good citizenship between all nationalities.

SENIOR CHAMPIONS BEAT ROWING CLUB

T.R. and A.A. Doubled the Score on Their Rivals—Hard, Fast Game.

T.R. & A.A. demonstrated that their name of champions was still good, last night at the Arena, when they defeated Toronto Rowing Club by the score of 4 to 2. The score gives a good idea of the play, which was closely contested from start to finish. Both teams checked themselves off their feet and the pace was lightning fast. Hard checking of the very stiffest kind featured the play, and the wear and tear of the struggle was very much in evidence during the final minutes of the last half. The champions shot better, tho, and their forwards to their liking. Hoffmann and Gooch made it so lively around the rugby men's goal for the opposing forwards that they were rather wary to go in. On the other hand, McMillan cleared brilliantly and stopped many likely looking scores when his defence roamed far away. Jack Brown and Bud McLean made their appearance after an extended absence, and they lasted the game. They given rough passages and Jack Brown was nearly forced to give in several times. It was not a very pleasing sight to see a player trying to get Brown, but most of his checking was legitimate, although that was the only thing that let him Stevenson was a regular hornet for work and he and Meeking did some nice back checking. The latter was very effective in this particular, and his net work was very pretty. Gooch and Hoffmann were as usual the strong men, and they broke up the rushes well. Jack Burrill turned out with Rowing Club against his old team-mates, and he was the best man on the ice. He never paused for a moment in his activities in trying to score, and he kept the Rowing Club going long after they had dreamt of slowing up. It was his persistence that brought on that reaction in the closing minutes and all but tied the score up. Skinnier, Hunter and Skinner stayed with their opponents all the time, and Captain Ack even tried his hand out as a forward in the last half. Parr showed up good, while Dopp was checking too hard most of the time to find the play. He got in some good shots. A great number of penalties marred the play in the first half, but these were cut down in the second half and the speed of the game increased. In the last few minutes the Rowing Club uncovered a great burst of speed and had their opponents on the defensive. They all but tied up the score, and a dispute arose over the time at the end of the game and Renee Hancock called the players back on the ice for another minute's battle. The summary:

T.R. & A.A.—Meeking	13.00
Toronto R.C.—Parr	11.00
T.R. & A.A.—McLean	2.00
T.R. & A.A.—Meeking	1.00
T.R. & A.A.—Brown	1.00
Toronto R.C.—Dopp	11.00

T.R. & A.A. (4)—Goal: Smith; defence: Gooch and Hoffmann; rover: Stevenson; centre: Meeking; right wing: Brown; left wing: Dopp. Referee—Bill Hancock.

LITTLE ALFRED WINS PACE AT MONTREAL

Had to Go Four Heats to Defeat Furioso—Trot Unfinished—The Results.

MONTREAL, Jan. 16.—Two races were carded for the second day of the Montreal Driving Club's ice meeting. The attendance was again very large, and it looks like this will be the banner meeting of the above club. The first race called was the 2 1/2-mile stake of \$1000, with twelve entries. Ten horses came to the wire for the word. The pool sold well; St. Anthony \$30, Little Alfred \$20, Furioso \$8, Susie B. \$6, field \$5.
St. Anthony drew third position and Little Alfred sixth. After two scores, they were given the word. Leona, who had drawn the pole, held it to the eighth, when Little Alfred burst from the gate, unseated in front, Rouse's Point Boy on the outside. At the half Little Alfred was in second position, with the field well bunched behind. At the three-quarters Rouse's Point Boy moved up to lead, and he went second and finished ahead of Little Alfred. The time was 3:19 1/2.

Time 3:19 1/2. Little Alfred next after a hard drive thru the stretch, with Furioso second and Rouse's Point Boy third. Time 2:18 1/2.

In the third heat Furioso was away good, and he lay in behind Little Alfred and beat him just as the stretch wings the head, with Little Alfred second. Time 2:19.

The fourth heat was won by Little Alfred, with Furioso chasing him all thru the stretch, but he could not reach him. Time 2:20.

The 2:22 class trotting, purse \$400, remains unfinished. Aravana, the favorite, having two heats, Woodpoints one and Gillette one. This race will be finished at 1 p.m. Saturday. The summary follows:

2:12 class pace, purse \$1000:
Little Alfred, T. H. Brown, 1 1 2 1
Furioso, James McDowell, 8 2 2 2
Toronto, 10 3 3 3
Rouse's Point Boy, 2 3 3 3
Bernier, Victrola, 10 2 3 3
Time 2:19 1/2.

2:22 class, trotting, purse \$400, three in five (unfinished):
Aravana, 2 1 1 1
Waterville, N.Y., 1 1 1 1
Woodpoints, D. A. McEwen, 1 2 2 2
Gillette, 1 2 2 2
Cleveland, O., 4 1 4 1
Olivio Bellini, Black Pat, Miss Brownlee, Nora Victoria also started.

TWO NEW FORWARDS FOR THE ONTARIOS

Interprovincial Stars Signed
by Local Club—Canadiens
Here Tonight—Gossip.

Toronto is to have two pro. clubs battling for the N.H.A. honors. Jimmy Murphy promised that he would not set up until he got the two men needed to make his club one of the strongest in the pro. ranks, and he has made good. The Ontario leader has never left off his hunt for two speedy forwards since the opening game of the season, and yesterday he was able to announce the signing of two of the best amateurs in Eastern Canada.

McLachlan, the good Grand Mere forward, who made such a hit here when the Interprovincial champions showed in an exhibition game at the Arena, is one of the men secured. The other is Molyneux of Sherbrooke. The latter is classed with McLachlan in the eastern league, and was offered a \$1,000 contract by the Wanderers only a few weeks ago.

Molyneux will report this morning, and will be used in the game against the Canadiens tonight. McLachlan will not be here until next week. With Lake and the McKinnara brothers on the defense, Herbert in goal, and the two newcomers up on the front line, along with one of the present squad, the Ontarios will take a lot of beating.

The line-up for tonight:
Ontarios—Goal, Herbert; point, G. McNamee; cover, H. McNamee; centre, Macdonald; forwards, Molyneux and Lowery.
Canadiens—Goal, Veina; point, Dubau; cover, Lavolette; centre, Lalonde; forwards, Smith and Berliquette.

This afternoon the classiest double-header of the season will be staged, when Varsity and Toronto Canoe Club Juniors took up at 1.15, and St. Michaels and Varsity seniors clash at 3 o'clock. The Canoe Club will make three changes from the team that were defeated on Monday by Varsity. Turner will replace Mitchell in goal, while Moutillat will be on the defence in place of Robertson. While Robertson has the speed, Moutillat is a better checker, and he is counted on to stop the speedy Varsity forward line. Young will be at right wing in place of Perry and he is counted on to stop the speedy Varsity forward line. Young will be at right wing in place of Perry and he is counted on to stop the speedy Varsity forward line.

The senior contest should be one of the best of the season. St. Michaels are the same strong aggregation they were last year, and the team are in excellent condition to go the distance. Varsity, they easily look like the class of the district, and if they get by the students should have little difficulty in the group. Varsity, who generally play an O.H.A. team, leaving off the good players for the interprovincial contest, have made their selection from the two line-up that can be secured around the university. The line-up:
St. Michaels—Goal, Addison; right defence, Murphy; left defence, Dissett; rover, Rankin; centre, Laflamme; right wing, Matthews; left wing, McNamee.
Varsity—Goal, Armstrong; right defence, Knight; left defence, Hanley; rover, Baillie; centre, Wilson; right wing, Sinclair; left wing, Aird.

A Montreal despatch says: President T. Emmett Quinn of the National Hockey Association said today that, so far as taken against Joe Hall as a result of the Hall-Lalonde incident at the Arena on Wednesday night, when Lalonde was charged from behind by the Quebec "bad man" and smashed headforemost into the fence, sustaining serious injuries.

It is said that the Canadian management are securing a number of affidavits from spectators who were close by when the incident happened, to show that the assault was deliberately perpetrated. It is possible that the Canadians will press for the expulsion of Hall from the league.

Molyneux, the new Ontario forward, will receive the highest price of any newcomer in the pro. ranks this season. McLachlan will run him a close second. The Ontarios will now have the speed and should climb the ladder quickly.

Manager Jimmy Murphy has lodged a protest on behalf of the Ontarios, and the locals look to have a pretty good chance to win or replay their last game with Ottawa. The protest is based on the sixth goal netted by the veterans, and which was disallowed, it being claimed that the puck came in from behind. Then the sixth Ottawa goal, which was allowed and proved the winning tally, is protested. It being claimed that it also did not enter by the front door.

"If they will not consider the protest on these grounds," said the manager, "I have them on technical points which I will press under the circumstances. The constitution calls for Lesueur goal nets to be used in N.H.A. games, and these were not in service."

The Ideal Remedy, Electricity

I know there are a great many people seeking a cure for the disease I treat. I know they would be glad if they actually knew I am successful as I claim to be in curing cases of their kind, as they would not hesitate to come to me at once and get the benefit of my

ELECTRIC TREATMENT

I want you to call or write me and satisfy yourself that I am reliable, skilled and successful, and will, under no circumstances, make you promise I cannot fulfil, or deceive you in any way.

I expect you to have been unsuccessfully treated in the past, like many who have come to me as a last resort, and who now cannot say enough in praise and appreciation of the manner in which I have treated them.

ELECTRICITY

Is the Most Powerful and Useful Remedy for the Nerves

As applied by MY APPLIANCE it acts directly on the nerve centres of the body, strengthening them, and through them, branching to the different parts of the body, acts on all the muscles and tissues. At the same time it helps the different organs of the body to perform their proper functions. This gives you a natural healthy system and a general feeling of buoyancy and health. Nothing else is as good. If you feel tired and run down, as if you did not feel like doing anything; if you suffer from loss of memory or pain in the back of the head; if you are irritable and easily lose control of yourself; if it is all due to your nerves, My Electric treatment will cure you of all this. Do not brood over your condition, for all these symptoms will vanish after wearing my electric appliance. It is the greatest restorative of Nature. No dose to spoil your stomach. You can get nothing but good out of it. Try it free, fully explaining my treatment to you.

I also cure Lame Back, Lumbago, sciatica and all forms of Rheumatism, Kidney, Liver, Stomach and Bladder Troubles. Also Indigestion and Constipation.

Pickering, Ont., April 12, 1913.
Dr. McLaughlin—

Dear Sir:—I have much pleasure in informing you that your Belt has cured me of Rheumatism and Sciatica. It is also very handy to have and it has done me more good than anything else I ever tried. You can rest for anyone to me and I will be glad to let them know that it is a sure cure for these troubles.

Yours very truly,
JOHN MUTCH.

83 Kahn St., St. Thomas, Ont., Feb. 14, 1912.
Dr. McLaughlin—

Dear Sir:—I am very well pleased with your Belt. I have not felt any Rheumatism pains since I started to use it. I will recommend it to anyone I see who is in need of one.

Yours truly,
J. RUNNINGS.

Dr. McLaughlin—

Dear Sir:—Your Belt is a grand remedy. I had pains in my arm joints between hands and shoulders, but now no more pain after using your Belt. I will use it when I need it. The other Belt I used was no good. May you have good success and prosperity in your business.

Yours truly,
JOHN LOGAN.

DRINK HABIT CURED IN THREE DAYS

Victims of Drink Renewed in Mind, Body and Nerves

For fifteen years the Gatlin Institute has been curing men and women of appetite, craving and desire for liquor. There has been failure to cure in NO case. Thousands of successful business and professional men owe their social and financial standing to the fact that they were cured of the drink habit by the Gatlin treatment.

THE GATLIN

"The Treatment That is Harmless"

Any child could safely take the Gatlin treatment—no poisonous drugs, no substitute stimulants, no pain or suffering—NO HYPODERMIC INJECTIONS—therefore, no possibility of bad after-effects. No one need be AFRAID of the Gatlin treatment, because it contains nothing that could possibly injure; but ALL men should be afraid of liquor—it destroys the nerves, weakens the brain, saps the physical strength, ruins the business and home, and kills manhood.

ONLY TREATMENT ADMINISTERED UNDER CONTRACT TO CURE

Have the one you desire cured of the disgusting habit of liquor drinking come to the Gatlin Institute. Under contract, executed in writing, a cure shall be effected in THREE DAYS—a perfectly satisfactory cure—or the fee paid will be refunded when the patient leaves the Institute, and treatment costs nothing. The very highest financial references.

The Gatlin Home treatment is for those who would find a three days' visit to the Institute inconvenient.

sonally, and this was particularly the case with Earlscourt school. He considered the inspectors' report out of their way in reporting the need of telephones, or dental chairs, and was especially to be commended for calling on the committee to enlarge playgrounds, as that made the price of adjoining property soar to prohibitive figures.

1900 Repairs Made.
Trustee Brown considered the inspectors' reports as inadequate and misleading as they only reported about sixty repairs required when the actual number for the year ran up to about fourteen hundred, of which over thirteen hundred were attended to.

It was decided to have the complaints and recommendations of the inspectors' reports as published in "The World" checked over in two sections. One with respect to repairs and property requirements for action by the property committee, and another for the management committee.

Will Do Good.
Dr. McKay, chairman of the management committee, said that the publication of the reports would do good, because, while no doubt many of the matters had been looked after, there were some which had not.

The deputation from the unemployed was assured that the building department would co-operate with the other civic departments in providing work.

FOUR DEACONESSES ORDAINED BY BISHOP

Special Service Held at St. Alban's Cathedral for Young Women Who Take Up Work.

Four deaconesses trained at the Church of England Deaconess and Missionary Training House in Toronto were consecrated at a special ordination service held last evening at St. Alban's Cathedral, in the presence of a large congregation. Rev. A. E. McTavish, of St. Aidan's Church of Balm Beach conducted the service, and the "setting apart" ceremony was solemnized by Bishop Swenson. The four deaconesses who were consecrated, were Misses Marsh, Strickland, Peters and Hamilton.

Has He a Cure for Rheumatism?

Dear Reader—
I suffered as only a man can suffer with rheumatism, but finally was fortunate enough to find something that enabled me to get rid of it. I believe, for all time to come.

A few weeks ago I made a resolution to help others all I possibly could in the future to find relief from this awful disease that leads to helplessness so soon.

I realize that I will be able to see very few people in person, so I am asking you to help me. If the readers of this paper will write Mr. F. H. Delano, 271-B Delano Bldg., Syracuse, N. Y., they will receive a free package of the same medicine that I used.

Signed, A READER.

Shippers Say Canadian Pacific Wants Car Heights Standardized To Crush American Competition

Strong opposition is to be manifested by local shippers when the application of the C.P.R. to standardize the height of freight cars comes before the Dominion Railway Board for further consideration. It is pointed out by the shippers that the granting of such an order would bar out thousands of American cars now in use in the Dominion, and at the same time force the shipper to use a smaller car.

It is alleged that the C.P.R. wants the standardization of cars because the majority of its cars are about six inches lower than the American cars, which it thus seeks to eliminate from competition. The claim made by the C.P.R. is that the lower car gives more headway in passing under bridges and overhead structures, and would mean a saving in the cost of bridge building.

them break stone before they were taught.

Even the case of a boy who was sent down early and turned loose at 22 years of age failed to change the view point of Mr. Stevenson. In that five years he might have learned a trade but he had no sympathy for the man with no more sense than to get in jail.

"You would let them rot in the cells?" was a query. "Yes," he replied, to the indignation of the chairman, who called him to order. Witness clung to his position that the labor man should not be imperilled.

Strike Medium Wage.
James Watt, president of the trades council, was much more conciliatory. He felt that the practice of training prisoners might be made more humane, but that if carried too far it might interfere with labor interests. He acknowledged that prisoners had to be employed, whether in making furniture, boots, etc., he was not prepared to say.

As to the payment of prison labor he felt that it should strike a medium figure. Experts inside were as valuable as those without and if the cost of production inside equaled that of free labor there could be no strong argument against it.

The same idea was expressed by James Waters of Ottawa, who claimed that while labor wanted to help the unfortunate, there was too much "mollycoddling" of prisoners. Products were quite right if only used for public service.

Central Prison Today.

Major Fraser of the Salvation Army explained that their organization was looking after the vast majority of men who came out. In 18 years 16,000 had been assisted.

Adjournment was then moved until today at the Central Prison, when the parole board will be in attendance.

WANDERERS' MOTORCYCLE CLUB.
The Wanderers' motorcycle club held their first annual banquet at the Grand Union Hotel last night, when about sixty officers and members were present. The opinion was expressed by speakers that the coming season would see motor-cycling taken up in Toronto on a scale that would rival that of the cities where the "cyclic" craze was at its height. It is the intention of the club to have "cyclic" as in all properly sanctioned motorcycle meets.

PLAN NEW BRIDGE OVER DON RIVER

Two Hundred Thousand Dollars Expropriated for Viaduct at Gerrard Street.

UNEMPLOYED IN NEED

Representative From Mass Meeting Speaks Before Board of Control.

Plans for a new Gerrard street viaduct over the Don were submitted by Commissioner Harris to the board of control yesterday. The cost will be \$200,000. The appropriation is \$200,000. A raise of fifteen feet in the grade and a width of sixty-six feet are provided. There will be no land damages.

Controller Simpson demanded separate tenders for the steel and for its assembling. He declared that those who tender for the material and building combined do not pay their workmen over 22 cents per hour, and those who tender for building apart from material pay their workmen 45 cents an hour. He will probably carry his point.

Andrew Miller, heading a deputation from the unemployed, who had a mass meeting in the Labor Temple on Thursday, urged the board to more strenuous effort in supplying work. He also stated that eighty men are sleeping in one of the cheap lodging houses, many of them on the floor of a large room. He suggested the temporary establishment of a municipal lodging house that would be more sanitary than the cheap lodging houses.

H. Wilson stated he had found one family of five living in an underground room and paying \$2.50 a week rent. He urged housing reform and also better immigration headquarters. James Stevenson protested against employers cutting down wages because of the large number of unemployed.

"What this deputation wants is the board of control to get official information from the Dominion and Ontario Governments and the harbor commission as to what they will do to provide work for the unemployed in Toronto," Controller Simpson said.

"The board can take that up on Monday while in Ottawa," Mayor Hocken said.

Wants Information.

Controller Simpson insisted that Dr. Hastings, M.O.H., give definite information of the number of cheap lodging houses in the city and where they are located. Mayor Hocken said that the Social Service Commission would supply the information.

Commissioner Harris reported that grading on six streets, to cost \$27,000, could be gone on with at once. It is local improvement work. The board appropriated the amount and ordered the work to be commenced.

J. T. V. May again pressed his plan to have co-operation between the city and county in applying for legislation for the development of the immediate contributory territory. It was decided to have a conference next Thursday, at which Mr. May and the Reeves of the surrounding townships will be present.

McBRIDE IS CHAIRMAN OF STREETS COMMITTEE

First Meeting of Works Board Held Yesterday—Street Cleaning Estimates.

In the works committee yesterday, Ald. Ryding pressed a motion that legislation be asked to compel the laying of pipes from buildings to sewers and water mains before permanent roads and sidewalks are laid.

Controller McCarthy asked for delay, as the Dominion Government will be asked next Monday to withdraw the power of telegraph, telephone, gas and electric light and power companies to break up the pavements when laying their lines without serving notice upon the city. The city would then have full control of the pavements. The motion, however, was adopted.

Commissioner Wilson of the street cleaning department submitted his estimates for 1914. They total \$1,175,46, an increase of \$247,000 over expenditure of last year.

The following sub-committee on streets was appointed: Ald. McBride, chairman; Cameron, Walton, Ryding and Dunn.

A deputation appealed against the widening of McCaul street to south of Anderson street. There was much discussion but no change was made from the plan to assess the property owners 75 per cent of the cost.

Commissioner Harris reported that franchise of the Toronto Suburban Railway Company on Jane street and Bloor street now belongs to the city thru default of the company to construct a line there.

Ald. Walton put thru a motion that Commissioner Harris report upon the widening of Main street from Gerrard street to Danforth avenue. He stated that the bridge across the railroad tracks would probably be replaced by a modern one and the cost borne by the railway.

Fears are entertained for the extermination of Sakura-Jima. The western part of the island is thickly coated with melted sulphur. The southern part is covered with a great deposit of ashes. A Builder's Proposition

The property is ready for the builder. Almost every lot sold was bought for immediate building. Oakwood Orchards is not a large property, and will be sold out in a few weeks. A few people will make considerable money by **BUYING NOW** while the opportunity lasts. Why not be one of these few?

The present prices are \$10.00 per foot less than adjoining properties. If you buy fifty feet on Saturday you will be richer by \$500.00 than you were the day before.

Automobiles Leaving the Office all Day Saturday. Representatives on the Property

Decide to see the property, anyway. If it is not as good as we claim, don't buy. Drop in and get a plan and further particulars. We will be glad to see you on the property, or will motor you out. Telephone Main 7281 for a car to call for you, or sign and mail the coupon for a plan and full particulars.

SENATOR COX DIED YESTERDAY AFTER MANY MONTHS' ILLNESS

Outstanding Figure in Canadian Finances and Until a Few Days Ago President of the Canada Life, He Started Life as a Telegraph Boy.

Senator George Albertus Cox, who died yesterday morning in his 74th year, was born at Coburne, Ont., May 7, 1840, both parents coming from England. After having obtained his education in the schools of his native town, he began his commercial activities at the early age of 16 by becoming a telegraph operator with the Montreal Telegraph Company.

THE LATE SENATOR COX.

Details of writing individual policies, and it is a fact that he could sit down and tell you that facts in connection with nearly every one of the thousands of policies he must have written in his time, and in many of which he had, under the old rule, a continuous interest in the early premiums as well as in the original write-up.

Know His Opportunity. The story of Senator Cox's life is the story of a man who knew his opportunity and waited patiently until it arrived. From the time he started telegraphing, until years later, when he stepped into the presidency of the Canada Life Assurance Co., he knew his time and was ready when the moment arrived. He was not impatient but could and did wait for his opportunities, but it was not the waiting of indifference, but rather of deliberate, well-calculated purpose, whose every move counted for something.

For over fifty years Senator Cox was connected with the Canada Life Assurance Co. and for many years he was its president, and during that time his strong personality and magnetism were devoted to the service of the company. The most accurate verdict as to a man's character and disposition is always to be obtained from his business associates and employees, and if one were able to judge from the expressions, not only of esteem and genuine affection with which the employees of the Canada Life spoke of their honored chief, the conclusion must certainly be that not only had Senator Cox demonstrated his great ability as an organizer and director of important financial institutions, but better than that, had thru his conduct established about him an organization whose loyalty could always be relied upon.

No Time for Hobbies. Senator Cox was a man who had no time to spend on hobbies, but all his time was devoted to his work and to his family. It was in the year 1862, to Margaret Hopkins, whose death took place in January, 1905. They had five children, Edward W. Herbert C. Mrs. A. E. Ames, Mrs. A. L. Davis and Frederick G. Cox (deceased). Mr. Cox was again married in 1890, to Miss Sterling, of Toronto. In his residence on Sherbourne street he had one of the finest and most valuable collections of paintings in Toronto. The Start in Life.

How George A. Cox got a start in life is best told in what are practically his own words, relayed by him at a dinner given by him in honor of the late H. P. Dwight of the great Northwest companies. The senator, in proposing the health of Mr. Dwight, said: "A good many years ago, when I was a very small boy in my father's little shoe shop at Coburne, a young man came in who had his boots repaired, and when my father was doing it he said 'I would like to have a boy to run messages for me; I am building this telegraph line from Montreal to Toronto.'"

Cut This Out. Famous Specialist's Recipe for Catarrhal Deafness and Head Noises. If you know someone who is troubled with head noises, or catarrhal deafness, cut out this formula and send it to you and you will have been the means of saving some poor sufferer perhaps from a life of deafness. The World's Best Medical Preparation has proved conclusively that catarrhal deafness, head noises, etc., are a very common constitutional disease, and that saline, sprays, inhalers, etc., are merely temporary with the complaint, and seldom, if ever, effect a permanent cure. This being so, much time and money has been spent of late by a noted specialist in perfecting a pure, yet effective tonic that would quickly disintegrate the catarrhal infection from the system. The effective prescription which was eventually formulated, and which has aroused the belief that deafness will soon be extinct, is given below in understandable form, so that anyone can treat himself in his own home at little expense.

South African Strike. Government's Firm Attitude Resulted in Quick Submission of Malcontents. CAPETOWN, Union of South Africa, Jan. 16. (Can. Press)—Despatches from all parts of the union report that the strikers everywhere are returning to work and that the victory has been won by the government in the struggle with the federation of trades arising originally out of the strike of the railway employees against the retrocessionary policy of the companies.

SEA SAFETY CONFERENCE SHOULD LEAD TO ACTION. Prospect of Agreement is Less Remote—Consider Report on Monday. LONDON, Jan. 16.—(Can. Press)—The outlook for an agreement among the members of the committee of revision of the conference on safety at sea on the question of the convention to be drawn up had so far improved that it was decided today to hold a full meeting of the committee on Monday for consideration of the committee's report. It had been thought at one time that a breach would occur in the question of application.

THROWN THRU WINDOW

Family Escapes Awful Death by Presence of Mind of Father.

(Special to The Toronto World) NIAGARA FALLS, Ont., Jan. 16.—

Frank Bongiovanni, his wife, and their six children narrowly escaped death in an attempt made to wreck their home at No. 425 Twelfth street with a bomb at 1 o'clock this morning.

The bomb was thrown thru a window while the Bongiovannis were sleeping. The explosion was so violent that the windows were blown out and the house was shaken by the force of the explosion.

Neighbors felt the shock of the explosion when there was a terrific explosion. Windows were blown out and the house was shaken.

Former Boarder Suspected. A young Italian who formerly boarded at Bongiovanni's is suspected of being the bomb thrower.

The police have no trace of the suspect. He is believed to have left the city.

AMERICAN HISTORY IN THE CRUCIBLE

Clows in Every Tint of "Columbus at Salamanca" at Simpson's.

A WORLD MASTERPIECE

Fifty Thousand Dollar Painting Owned by John Wanamaker is on View.

Whether it is a triumph of art, or as an object lesson telling of the seemingly insurmountable difficulties through which Columbus, the world's greatest navigator, led his way to a new continent, and to a place on the honor roll of the immortal, the famous painting now on exhibition at the Robert Simpson Company's gallery ranks amongst the masterpieces of modern times.

A Religious Setting. The scene is laid in an apartment of the monastery, probably the convent of the city of Salamanca.

A Touch of Color. The assurance and courage which the artist has managed to impart to the picture, and the great contrast which he makes among the things which he has portrayed, gives the most vivid touch of color to the scene.

The other figures, with one exception, are clad in the white cassock, hose and cowl of the community. They are probably Dominicans, and the entire group is displaying some of the characteristics of the order.

Nine Seem a Crowd. There are only nine white-robed figures in all, if we except one or two who stand in the foreground.

The picture was shown in Paris Salon in 1912. All should see it.

U.S. ARTILLERYMAN DID LOOP THE LOOP IN AIR

Sergeant Katzman's Performance of Feat Was Rather Involuntary.

NEW YORK, Jan. 16.—(Can. Press.)—Sergeant Samuel Katzman, an artilleryman stationed at West Point, looped the loop in an aeroplane today, and established a record for this feat among military aviators in the United States.

Women will find more news of interest to them in the World's magazine page every morning than in any other paper.

WELCOME LEAGUE PLANT OPENED TO UNEMPLOYED

Resolution Passed Yesterday by Governing Committee to Help Alleviate Distress.

PREFER CHARITY TO WORK

Lazy Tendencies Are Deplored and Policy of Discrimination Advised.

Resolutions proffering the use of the British Welcome League quarters for the temporary housing of unemployed men and requesting the board of control to establish a municipal labor yard, were adopted at a meeting of the governing committee yesterday afternoon, presided over by James Haies, president.

Moved by Mr. P. Ormsby and unanimously carried, that the governing committee should authorize a committee consisting of James Haies, president; Benj. Westwood, first vice-president; Rev. J. E. Gibson, to consult with the social service committee and if advisable to place at the disposal of the commission the facilities of our plant to be used in meeting the present emergency in connection with the lodging of the unemployed in the city.

The New "Nature" Road to Health!

ELECTRO-VITALIZATION

COMPLETE ADVICE BOOK SENT FREE

Why, in My Opinion, Electro-Vitalization is Sure to Be the Universal Self-Treatment for Debility, Nervousness, Kidney, Liver, Stomach and Bladder Complaints. Why it Should Ward Off Old Age and Make You Feel Young. It is a Special Treatment for Lost Nerve Force, Rheumatism, Pains, Aches and for Building Up the Vitality and Strength of the Whole Bodily Organism.

TO THE READER: Here is something that you can do for yourself. It is a gift from me which is available to everybody. I refer to my new illustrated health book, over a million copies of which have been sent out to you. It is a book that will tell you how to get your free energy, and which not only gives you full information as to the marvellous Electro-Vitalization for easy self-treatment, but is meant to inform those who seek the exact truth in reference to chronic bodily ailments.

What Electro-Vitalization May Do For You or For Some Ailing Friend. Please remember, that my free book gives you general information as to the Electro-Vitalization, which is entirely independent of anything therein contained with respect to my own patent appliance, the Sanden Vitalizer. That is to say, it makes no difference where or when you use your Electro-Vitalizer, so long as it is generated properly and applied in this right way, the book will deal with Electro-Vitalization from the broadest standpoint. Do not claim to be the only one who can supply you with the Sanden Vitalizer, for the Sanden Vitalizer certainly has no superior, and is more convenient, simpler to use and in greater demand than any generator in existence. It is equally great, and has been used all over the world.

The theory of Electro-Vitalization is based upon our knowledge of the human body being nothing more or less than an intricate electrical storage battery, and it is my belief that the natural electro-force has been drained away, weakness, nerve exhaustion, pain, debility and finally death result. I claim that a body when properly nourished with electro-vital force is the only one in perfect health, and that the greatest known treatment for human infirmities, pains, nervousness, weakness and general debility is one which properly resupplies the human system with the natural electro-vital force which has been drained away. Fill the body full of this wonderful electro-power and let nature do the rest, is my theory in the treatment of these ills, and I can point to men and women in all parts of the world who have told me that my Vitalizer restored them after all else failed. And you, too, my friend, if I can fill your blood, organs, muscles and nerves full of this great natural electro-force—the very thing which we believe to be life itself—then let it be reasonable to assume that you will be sound, healthy, vigorous and finally free from all aches, pains or weakness?

THE SANDEN VITALIZER

How to Get One to Try

My invention for self-treatment, which I call the Sanden Vitalizer (patented), is a light, substantial appliance which you can use comfortably on the body all night. It generates a perceptible force which we call Electro-Vitality, and this power, as it is generated, flows into your system while you sleep.

MORE BUOYANCY IN LOCAL STOCKS

Growing Ease in Money Encourages Purchases of Domestics.

COMMERCE ACTS WELL

Twin City and Mackay Features of the Upward Movement.

The local stock market took on a more buoyant tone yesterday, due mainly to the growing ease in money conditions, together with light offerings of securities in many issues. International listed stocks were stronger and this assisted materially those whose support is confined to this exchange.

More confidence was given because the smart money in Commerce to 201 1/2. Liquidation of the shares seems to have been completed and the official announcement that the dividend in future will be 12 per cent, per annum has made a better demand for the stock.

Mackay common was in good demand, the buying carrying the shares up 1-4 points to 80. Twin City and Toronto Ralls made some further improvement, the latter being bought on the market for Montreal brokers. Twin was exceptionally scarce at the advance and closed with 307 1/2 bid without change.

Brazilian presented a much better front than has recently been the case. The price rallied a point, but the bid quotation was unsteady at the extreme rise.

Barcelona tried to follow Brazil, but did not make much headway. Sales of 200 shares on special terms at 23 1/2 was by no means convincing, and if any meaning could be taken out of the transaction it is that one point is being gambled against the upturn for the next two weeks.

The market closed dull but in apparent good shape for some further improvement.

LONDON EXCHANGE CLOSE WAS DULL

Selling of Americans in New York Eased off List. LONDON, Jan. 16.—Money and discount rates declined today. The stock market was considerably cheered by the improved African situation, the better monetary outlook, prospects of a lower bank rate next Thursday and a possible lower German rate soon. Bears covered actively, resulting in a sharp gain of three-quarters in consols, and a corresponding advance in gilt-edged securities, the market being quiet and unsteady.

LA ROSE STATEMENT

Big Surplus in Cash After Year's Operation. MONTREAL, Jan. 15.—Net profits of the La Rose Mining Company for the year were \$933,000, according to an official statement issued by the company today. Production for the year was 157,000 tons, a 10 per cent increase over 1913, and the total income for December to \$158,740. Marketing, concentration, and operating expenses were \$60,402, leaving \$98,338 net profit.

PRUSSIAN LOAN

BERLIN, Jan. 16.—The loan of \$100,000,000 to be granted by the government of the Kingdom of Prussia on Jan. 23 is to take the shape of a new form of four per cent. treasury warrants. In view of the lack of success of the government issue made during 1913, it is to be offered on better terms to the public, being issued at 97, and is to be redeemable at par in from one to sixteen years. This loan issued in June last year was at \$7.90, and that in March at 92, and these were largely subscribed.

TRAIL RECEIPTS.

The Consolidated Mining and Smelting Co. of Canada Limited reports ore received at Trail Smelter for week ending Jan. 8 as 7223 tons; since Oct. 1, 1,101,425 tons.

EUROPEAN BOURSES

PARIS, Jan. 16.—Trading was quiet on the bourse today. Exchange on London, 2 1/2 marks 60 pence for cheques; money, 2 1/2 per cent. private rate of discount, 3 1/2 per cent.

CONSOLS STRONG.

LONDON, Jan. 16.—Consols closed 3/4 higher than yesterday at 72 3/4 for money and 7 1/2 for account.

ADVANCE CHECKED BY HEAVY SALES

Profit-Taking and Short Selling Weakened New York Stocks.

SPECIALTIES STRONG

Independent Steel Stocks and Coppers Showed an Upward Tendency.

NEW YORK, Jan. 16.—The strong upward movement in stocks of the last few sessions was checked today. The rise had attained proportions sufficient to offer handsome profits on long stock and the market felt the influence of realizing sales. Traders believed a reaction was due and there was profit-taking and short selling. Fluctuations were irregular in the early hours, the tendency of the favorite speculative stocks was downward.

While the movement was narrow, a few issues, including Union Pacific, Reading and New York Central, sold off a point. In the afternoon the market stiffened and losses were eliminated, but in the last half hour the tide dipped downward again. Reading, Union Pacific, Lehigh Valley and Canadian Pacific advanced, but the late decline in the late afternoon.

Also selling for both accounts was on a large scale at times, the market betrayed no distinct weakness, absorbing offerings without severe losses in any quarter. Hestiation among the leaders was offset partially by strength of many less active shares. Independent steel stocks again advanced. Coppers were strengthened by reports of better conditions at home and abroad.

LIVELY FLURRY IN TRAMWAYS STOCK

Brightened Prospects for Franchise Extension Reflected in Market Movement.

MONTREAL, Jan. 16.—(Can. Press.)—The general movement of prices was again upward today and net changes were generally in the money. The chief interest of the market, however, centered on two groups of securities, franchises and tramways. Both are desirable special influences having only an indirect connection with general market conditions.

AUSTRALIA OFFERS PLENTY OF WHEAT

Big Shipments Came as Surprise—Sharp Reaction in Corn.

CHICAGO, Jan. 16.—First large supplies from the new crop in Australia came out so freely that the wheat market today underwent a material sag.

Australian shipments of wheat proved a decided surprise, amounting to more than double those of a year ago.

The result was to weaken quotations immediately in Liverpool, and from the outset have an effect on prices here.

Argentine reports of fine weather promoting the crop movement to the seaboard counted also in favor of the bears.

Unusually warm weather through the winter crop belt tended to prevent any vigorous rally in the wheat market, although it was admitted that the lack of snow protection formed a menace to the event of a sudden change of temperature.

The depression in prices led to some export buying, but the fact was not generally known until after the market had closed.

Scarciness of feeding demand owing to summerlike conditions had a bearish influence on corn. Heavy shipments from Argentina emphasized the weakness and there were signs that receipts at Chicago would be enlarged.

The sellers could find only limited support for oats. Even at a liberal decline the buying was small.

Provisions eased off with hogs and grain. Traders virtually ignored bullish figures regarding warehouse stocks on hand.

WORLD'S SHIPMENTS. Broimhall estimates weekly world's shipments, exclusive of North America, at 7,600,000 bushels, against 6,564,000 bushels actual last week. Of this total Europe will take about 6,800,000 bushels.

Development of New Industries at Fredericton. (Special Correspondent.) FREDERICTON, N. B., Jan. 15.—Fredericton, in common with other sections of the province, is enjoying an era of unparalleled prosperity.

The cheapest of electrical power is available in Fredericton, while three companies of recognized stability have been formed to develop the natural water powers of the St. John River, and to provide local manufacturers with cheap energy.

Fredericton possesses several large and flourishing industries, that are leaders in their respective lines for the business of the markets of Canada.

There are a great many openings for manufacturing plants, and the city council has authority to assist bona fide propositions to the extent of free sites, free water, and exemption from taxation for a definite period of years.

NORTHERN EXPLORATION HAD ANOTHER RISE

More Trading on Standard Exchange Than Any Other Day of Week.

Northern Ontario Exploration claimed the major part of the attention of the brokers on the Standard Stock Exchange yesterday, and prices soared until at the close there was a standing bid of \$3.05 with none offered.

Pearl Lake was the big trader and only lost a fraction during the day. Porcupine Gold was down a half point.

In the higher priced issues, Dome mines was \$15.60 bid with no trading, while bids on Hollinger were below the \$17 mark.

The Great Adventure

Art is the idealizing of the plain, every-day events; the use, through imagination, of simple materials to produce an illusion, or to recall a fact; to portray an emotion or to re-fabricate a period of history.

In the year 1492 Columbus at last accomplished the "Great Adventure," and discovered the land of Gold. That part of it we can readily appreciate. But of the dreams, the discouragements, the logic and arguments against prejudice, the work to be done before the "Adventure" was possible, we can comprehend but little.

"The World is Round"

was Columbus' first proposition, and it took a whole winter of debate at Salamanca to demonstrate to the Court and the Doctors of the University that it was possible. It is a crisis of this debate that has been seized by the Artist, F. M. DuMonde, for the subject of his Salon painting.

"COLUMBUS AT SALAMANCA"

(Salon Paris, 1903)

which will be on exhibit in the Store during the coming weeks. The painting is the property of John Wanamaker of Philadelphia, by whose courtesy we are enabled to show it in Toronto. Its value is said to be about the same as that of the "Wedding Feast," recently shown here. Of its artistic merit we ask you to be the judge.

Make your visit as soon as you can, for the crowds later make careful study more difficult. The early hours are best, for the same reason. Exhibit begins this morning at 8.30.

FOURTH FLOOR—YONGE STREET SIDE.

An Astonishing Sale of Persian and Turkish Rugs

Splendid Rugs, woven knot by knot with the infinite patience and skill of the Oriental; collected, cleaned, baled and shipped half round the world, to be sold at such trifling prices as the following! How can it be done?

Ordinarily it would be impossible to make such an offer as this, but it is a chance purchase of about 250 Rugs. Owing to the small number, we must make the following conditions of sale:

Positively none can be sent on approbation. No phone or mail orders. These Rugs cannot be exchanged. See special display in Yonge, Queen and Richmond Street windows.

LOT 1--100 RUGS AT \$11.95.

See Yonge Street Windows.

These range in size from 4.0 x 3.0 up to 6.11 x 4.0. Among them are good types of Kordistans, Bokharas, Hamadans, Mosuls, Daghestans, Guendjes and Kazaks. Many of them would be good value at \$20.00 and \$25.00, and every one included is offered at dollars less than the regular values. Note some of these sizes: Daghestan, 4.6 x 3.5; Mosul, 7.1 x 3.2; Guendje, 6.1 x 3.7; Mosul, 6.9 x 3.5; Hamadan, 6.6 x 4.0; Kurdistan, 6.11 x 4.0; Hamadan, 6.5 x 4.5; extra fine Hamadan, 6.8 x 3.11; Kazak, 6.5 x 4.5.

LOT 2--50 RUGS AT \$9.95.

See Queen Street Windows.

The greatest bargains will be found here in this lot. Every rug is damaged in some slight way--but a dollar or two spent in repairs will make them as good as ever. There are rugs in this lot that would be worth \$30.00 and \$35.00 each if they were perfect. Look in the Queen Street window today and see what they are. Antique Kazak runner, 11.6 x 3.1; Guendje, 7.3 x 3.10; genuine Antique Bokhara, 5.0 x 4.0; Kazak, 5.7 x 4.0; extra fine Hamadan, 6.0 x 4.0; Antique Kazak, 8.5 x 3.6; extra large Kazak, 7.0 x 4.9.

LOT 3--30 HALL RUNNERS AND STAIR STRIPS AT \$17.75 EACH.

See Richmond Street Windows.

A saving of from \$15.00 to \$20.00 on each rug in this exceptional lot, as these sizes in eastern rugs are rarely to be found for less than \$30.00 and \$35.00. Not many of them--only 30--14.0 x 3.5, 12.0 x 2.11, 9.5 x 3.3, 16.8 x 3.2, 14.9 x 3.10, 12.6 x 3.8, 11.5 x 4.6, 10.5 x 3.8.

LOT 4--SIXTY RUGS AT \$7.75.

Very nice little rugs in attractive colors and patterns--4.4 x 3.5, 4.9 x 3.0, 6.3 x 3.4, 4.0 x 2.4, 4.4 x 3.7, 4.4 x 3.4, 6.0 x 3.3, 5.8 x 3.3.

LOT 5--EIGHT RUGS AT \$3.75.

8 Hamadans and Cessarians, about 3.6 x 3.0 each, Less Than Half Price.
