PLANS PREPARING FOR AN ADVANCE

URGENT NEEDS OF BRITAIN DISCUSSED BY WAR CABINET

Canada Will Not Only Have to Produce More, But May Have to Control Consumption in View of Requirements.

Ottawa, Jan. 27.—The war cabinet was in session all day Saturday considering the food situation, as disclosed in information recently received from Great Britain.

It is evident from advices received here that the food situation is becoming increasingly urgent in Great Britain, France and Italy, and that Canada and the United States must not only greatly increase production, but in certain important lines eliminate all waste and possibly control consumption in order to help meet the situation.

It is known that Hon. T. A. Crerar, minister of agriculture, since his arrival in Ottawa has been working on plans for a far-reaching and important campaign for increased production this year. It was in connection with this plan that Mr. Crerar recently consulted the representatives of provincial agricultural departments in order to secure their support and co-operation.

The minister has since consulted with other leaders of agriculture in connection with this matter. It is understood that the food controller is giving special attention to the question of limiting the use of certain essential articles of consumption.

PLAN CAMPAIGN FOR PRODUCTION

Dominion Government Has Had Conference of Provincial Ministers.

Hon. Duncan Marshall Says Farmers Will Have Best Chance.

That an effective campaign will be started early in the coming spring by the Dominion Government for greater production was the statement made last evening by Hon. Duncan Marshall, minister of agriculture for Alberta.

HEAVY OPERATIONS BY BRITISH IN AIR

Eight Tons of Bombs Dropped—Sixteen Germans Downed.

London, Jan. 27.—An official report from Field Marshal Haig, issued last night, says: "After a thick morning mist on the 25th had cleared, there again was great activity in the air. The aerial work with the artillery was continued by our airplanes, and large railway sidings at Courtrai, at Roulers and other targets were bombed.

MAJOR-GENERAL WOOD INJURED BY EXPLOSION IN FRANCE

Washington, Jan. 27.—General Pershing cabled to the war department today that Major-General Wood had been slightly wounded in the arm by an accidental explosion in France, which killed five French soldiers and slightly injured two other American officers.

VICTORY BREAD IN THE STATES PART OF A RATIONING SYSTEM

Curtaiment of Consumption is to Be Voluntary, But Force Will Be Employed Where Necessary.

Washington, Jan. 27.—People of the United States will go on a war bread diet Monday as a part of a war-rations system prescribed last night by President Wilson and the food administration. "Victory Bread," the food administration calls it. The reduced rations are asked for the purpose of creating a larger export surplus of food for the European allies.

The U.S. Rationing System

Substitutions for Wheat, Meatless and Wheatless Days, Equal Distribution of Flour and Regulation of Sales to Retailers.

The rationing system, as presented by President Wilson in a proclamation and by Food Administrator Hoover in a list of regulations, forms the food administration's 1918 food conservation program, of which the chief features are:

- "A baker's bread of mixed flours, beginning Monday with a five per cent. substitution of other cereals for wheat until a 20 per cent. substitution is reached Feb. 24.
"Sale by retailers to householders of an equal amount of substitute flour for every pound of wheat flour purchased, at the time the wheat flour is bought.
"Sale by millers to wholesalers and jobbers of a mixture of only 75 per cent. of the amount of wheat flour sold last year.
"Two wheatless days a week—Monday and Wednesday—and one wheatless meal a day.
"One meatless day a week—Tuesday—and one meatless meal a day.
"Two porkless days a week—Tuesday and Saturday.
"Manufacturers of macaroni, spaghetti, noodles, crackers and breakfast foods,

TRAPPED INDIANS WITH WOOD ALCOHOL

White Man in Atlin Plays Cruel Trick on Four Thievish Redmen.

Prince Rupert, B.C., Jan. 27.—A report from Atlin tells of an unusual tragedy in the neighborhood of that town. A white man, seeing prohibition coming, cached a lot of liquor away in his cabin. He soon had reason to suspect that during his absence someone had been helping himself to the whiskey. He put what was left of the whiskey in a new hiding place and left a few quarts of wood alcohol in the cabin. One night he returned to find three dead Indians in his cabin. A fourth had barely lived to get outside. They had consumed the poison, believing it to be a brand of whiskey.

ENEMY AIR RAIDS ON ITALIAN CITIES

Hostile Aircraft Kill Three Women at Treviso and Mestre.

Rome, Jan. 27.—There was artillery activity yesterday along the entire front in northeastern Italy, the Italian war office announced today. Enemy forces last night attempted to approach the Italian lines at Capo Sile, near the mouth of the Piave River, but were promptly repulsed. Bombs dropped by Teuton airplanes on Treviso and Mestre claimed six women victims, three being killed. Three hospitals at Mestre were damaged by the explosives. The text of the statement reads:

STRONG WINDS WITH LOWER TEMPERATURE

No Improvement Promised in Forecast of Weather Conditions Today.

The blizzard which was promised this district at the end of the week, and which failed to come, will probably arrive today. The probabilities are that there will be strong northeast and north winds, with the temperature dropping to below zero. Heavy snowfall, however, is not expected, though there will likely be light falls.

BRITISH BOMB TURKS IN PALESTINE RAIDS

Aircraft Attack Enemy Camps in Samaria—Enemy Column Also Assaulted.

London, Jan. 26.—The war office tonight issued the following report on operations in Palestine: "A half ton of bombs was dropped Monday on enemy camps and depots in the railway west of Sebastia, Samaria. Friday bombing squadrons dropped a half ton of bombs on a hostile column, 2000 strong, on the Jerusalem-Nabulus road, four and one-half miles south of Nabulus."

GERMANS KICK UP ROW OVER WAR PROGRAM

Von Hertling's Speech Causes Another Division in Enemy Ranks.

KAISER CENSURED

Hindenburg and Ludendorff Again Talk of Retiring From Army.

London, Jan. 27.—What news has been permitted to pass the German censor indicates that a political hornet's nest has again stirred up in Germany. A despatch from Zurich to the Exchange Telegraph Co. quotes the Berlin correspondent of the Frankfurter Zeitung as saying that the pan-Germans are kicking up a tremendous row, and declaring that Field Marshal von Hindenburg and Gen. von Ludendorff are dissatisfied with Chancellor Hertling's speech before the main committee of the reichstag, or again talking of retiring.

Emperor William himself, has not been spared. The Deutsche Tageszeitung styling him the "present representative" of the house of Hohenzollern, probably desiring to show by a parallel between the emperor and the crown prince that the annexationist-cherish the latter as the savior of Germany at the last moment from sinking into the abyss dug by four men—Dr. von Kuehlmann (German foreign secretary), Count von Hertling (imperial chancellor), Count Czernin (Austro-Hungarian foreign minister), and Count von Roeder (German secretary of the treasury). The newspaper accuses King Ludwig of Bavaria already having made representations to Emperor William regarding the political situation which has arisen.

The Neueste Nachrichten of Berlin says that the Kaiser and Empress could not sum up courage to go to the front following the example of his predecessor, Von Bethmann-Hollweg, in avoiding the Kaiser's speech in avoiding a battle with the enemy.

As far as could be ascertained, the Reichstag election at Barmen-Kamen, which was held on Jan. 26, resulted in a victory for the Socialists candidate received 9,661 votes as against 8,768 polled by his Conservative opponent. The Vorwaerts of Berlin jubilantly asserts: "The victory is a victory for peace by arrangement."

The Frankfurter Zeitung, according to the Zurich correspondent of the Exchange Telegraph, approaches Chancellor von Hertling for a lack of clearness and emphasizes the fact that the agitation of the pan-Germans against the Reichstag is equally directed against the Austro-Hungarian people.

Steel is Arranged for in Canada's Ships

Keels of the Standardized Fleet of Dominion Will Be Laid Next June.

SPECIAL TO THE TORONTO WORLD.

Ottawa, Jan. 27.—The first keels of Canada's standardized merchant fleet will be laid in June, and the necessary steel plates and other parts have been arranged for. Alexander Johnston, an Arthur Duguid of the marine department, have returned from Washington, where, it is understood, they were successful in arranging for steel, which the present plants in Canada could not supply.

The estimated tonnage output is 200,000 tons annually, at a cost of \$50,000,000. The vessels built at lake ports are to be 2800 tons, and at ocean ports 5000 and 8200 tons.

BRITISH DISPERSE ENEMY BY FIRE BEFORE LINES SOUTH OF LENS

London, Jan. 27.—The official report from Field Marshal Haig's headquarters in France tonight says: "Early last night an enemy party approached our lines south of Lens, but was dispersed with loss by our fire. There is nothing further of interest."

London, Jan. 27.—The Reuter correspondent at British headquarters in France says that the southern British army on the western front lately extended its line to slightly south of St. Quentin. The extension was effected under cover of anti-fighting weather and was only discovered by the Germans when they attempted a raid, as they believed, against the French, a couple of nights ago.

London, Jan. 27.—Addressing the foreign affairs committee of the reichstag Saturday, Count Czernin, the Austro-Hungarian minister of foreign affairs, explained that Germany wanted to get her colonies back, and obviously could not consent to abandon occupied territories before securing guarantees for the restitution of her possessions.

The Cologne Gazette's Vienna correspondent says that Count Czernin informed the Austrian delegation Saturday that the text of his speech on the war aims has already been forwarded to President Wilson before its delivery.

This paper says that the statement has caused an enormous sensation, and con- firmed the belief that Count Czernin's references to the United States were to actual steps taken to bring about an exchange of views between the western powers and Russia and Germany.

# A WEEK OF THE WAR

By Secretary of War Baker

Secretary of War Baker of the United States in his weekly review of the war says:

"During the period under review, renewed activity along the entire western front is noted.

"The region bordering the North Sea has once again become the scene of severe fighting.

"A careful co-ordinated operation undertaken by British monitors, acting in concert with land batteries in the area north of Ypres, subjected the German defences of Ostend and surrounding country to a severe bombardment.

"No infantry action was attempted in this sector by the British, but later in the week, the Germans reacted sharply and directed a strong assault against the short sector of the line in the vicinity of Neuport. This attack, which must be considered something more than a simple raid, broke into the French lines and for a brief period, the enemy detachments were able to hold their ground in the advanced French outposts. The French speedily brought up fresh forces, drove out the enemy and were able to re-establish themselves in their former positions without difficulty.

"In the Italian theatre the importance of the successful French assault in the region of the Monte Tomba three weeks ago is proven by the retreat of the enemy in this area.

"The enemy has abandoned an extensive tract of terrain north of the Monte Tomba, extending to the Piave. The Austrians have now rest on the Monte Spioncica.

"It would appear that the enemy has for the time being abandoned his attempt to break thru this channel to the plain.

"The Austrians, while still strong in this sector, nevertheless no longer directly threaten the key positions of the Italian line. The increasing heaviness of enemy artillery in the Val Lagarina is noted. It is apparent that the Austrians are carrying out their plans of shifting their centre of attack further to the west.

"The Val Lagarina offers peculiar attraction for an invasion of Italy. It is a classic path of invaders coming from the north. We may expect that should the opportunity seem favorable, the enemy may attempt an operation in this area.

"Reports reach us of the increasing restiveness of the Slav population of Austria, more particularly the Czechs.

"The general strike in Vienna and other upheavals threaten the monarchy as assuming serious proportions, and they are no longer to be held of mere internal interest, but will inevitably react on the general political situation.

"In Russia peace negotiations have continued in this city, but the Russian frequent interruptions, in Palestine the British are extending their lines to the north, and during the week advanced further in the neighborhood of Durah on a frontage of approximately four miles.

"The victory of the British over the Turkish naval forces at the Dardanelles must be mentioned as an event of especial military significance.

"Observers coming from Constantinople very recently informed us that as long as Constantinople remained under the guns of the former German allies, Goeben and Breslau, the Turks would necessarily continue under the domination of the Germans."

# SAW MUCH SERVICE IN INDIAN MUTINY

## Col. George A. Sweny Dies in His Eighty-First Year.

### SON OF A SOLDIER

#### His Own Son Now Commands a Brigade on the Western Front.

After two weeks' illness Colonel George Augustus Sweny, a veteran of the Indian Mutiny, and a son of a veteran of Waterloo, died yesterday evening at his home, "Rohallah," 170 George street. He was in his 81st year.

The late Colonel Sweny was born in England on March 25, 1837. His father was Major John Page Sweny of the King's Guards, and the senior surviving officer of that regiment after the battle of Waterloo. Colonel Sweny had intended to take holy orders but the Indian Mutiny breaking out before he received his degree, he obtained a commission and proceeded to India, where two of his brothers were serving.

Mentioned in Despatches. He was twice mentioned in despatches, and in 1869 he exchanged into the Royal Fusiliers, serving there until his retirement as a colonel in 1885. He then came to Canada and settled in Toronto as his home. Colonel Sweny was a Conservative, but never could be prevailed upon to stand for public office.

At various times Col. Sweny was president of the following clubs and associations: The Amateur Athletic Association, the Argonaut Fowling Club, Canadian Association of Amateur Golfers, Canadian Golf Association, Toronto Golf Club. At the time of his death he was a member of the York Club, Toronto Golf Club, Military Institute, Canadian Institute in Toronto and of the Naval and Military Club in London, Eng.

He was on the board of governors of Upper Canada College and was treasurer of the Ontario branch of the patriotic fund at the time of the war. Since that time he had held various offices in the Red Cross Society.

Col. Sweny is survived by his widow and two sons, Roy of Okanagan, B.C., and Brigadier-General W. F. Sweny, D.S.O. (Royal Fusiliers), who is in command of a brigade in the B.E.F.

# OBJECT TO CLOSING EARLSCOURT STORES

## Business Men Say There Would Be No Real Saving After Seven o'clock.

The objections of the business men of Earlscourt to the proposed seven p.m. early closing movement are clearly stated in the following interview with a St. Clair avenue merchant, who is also a prominent member of the Earlscourt Business Men's Association. He says:

"The merchants of Earlscourt should not be singled out for criticism in regard to the opposition to early closing, as all of the suburban districts of the city were represented at the board of control meeting last Wednesday morning, and the majority of the city merchants were opposed to the proposition as brought forward by the Retail Merchants' Association. As regards the saving of fuel, this is a very poor argument, as the stores nearly all have apartments above which must be heated, and being mostly not water systems, there could not possibly be any saving of fuel by closing stores at seven p.m.

"As to the amount of fighting going on in the district, it is not amount to very much, for the stores are not lighted during the afternoon, and in my opinion, as a merchant, I do not think it is fair to ask the merchants to close their stores at seven p.m. as a result of the fighting going on in the district. The Retail Merchants' Association have both declared that this is not a war measure.

"Retail merchants are by no means backward in the record of voluntary enlistments, clearly shown."

# GREAT GERMAN EFFORT TO FORESTALL ALLIES

## Oliver Heizerwood speaks on Outlook of the War at Present.

"The Present War Outlook is as Hopeful as it has ever been," declared Oliver Heizerwood at a well-attended meeting of the Earlscourt Business Men's Association, held at the Earlscourt Hotel, last evening.

"Canada does not realize the seriousness of the situation," declared the speaker, "and the United States can figure to any great extent. Germany's policy will be to put forth a tremendous effort in the early spring of 1918 to succeed in the great struggle for world supremacy."

Rev. E. Crosskey Hunter occupied the chair.

# ENEMY TO RENEW PEACE ATTEMPTS

## German and Austrian Ministers to Return to Brest-Litovsk.

Amsterdam, Jan. 27.—Dr. Richard von Kuehlmann, the German secretary for foreign affairs, speaking yesterday before the main committee of the Reichstag, made a long explanation in defense of the central powers' negotiations with the Russians at Brest-Litovsk. The general tone of the foreign secretary's speech indicated that there had been strong criticisms from German sources, chiefly because the government had not dealt with the Bolsheviks as conquerors dictating to the conquered.

Dr. von Kuehlmann gave an interpretation of the German idea of self-determination for the peoples of Poland, Courland and Lithuania. The plan is to provide for a referendum, but a decision by the representative bodies or the leaders of public opinion. The significant point in this scheme is contained in the fact that the so-called representative bodies of those countries now consist of representatives mostly chosen by the German administration.

Dr. von Kuehlmann and Count Czernin, the Austro-Hungarian foreign minister, are returning to Brest-Litovsk for a renewal of the negotiations with the Russians.

# GERMANS FALL OUT WITH BOLSHEVIKS

## Von Kuehlmann Launches Attack on Russians, Showing Rupture.

Amsterdam, Jan. 27.—The German foreign secretary, Dr. von Kuehlmann, made a second speech before the Reichstag main committee on Saturday, following his first explanation on Friday by the negotiation at Brest-Litovsk. He dealt strongly with the "Bolshevik policy" ruling by force, as opposed to that of the Allies.

The secretary continued: "The Treaty of Brest-Litovsk is in open discussion, but our government has no other basis than force. The Bolsheviks maintain themselves by brutal force; their arguments are cannon and machine-guns. Differences of opinion are settled by the fact of their guns. It is not a matter of opinion, but of fact. The Bolsheviks preach beautifully, but practice otherwise."

"They have solemnly recognized the Finnish Republic. They never disputed the right of that republic to receive diplomatic representation, but when it came the fact of sending representatives there they created as great difficulties. When we have news from Finland we there a tyranny worse than existed there at the time of the czar."

"It is not the proceedings of the Bolsheviks against the legal assembly, announced with so much pomp. The main fact is that the Bolsheviks have anchored in front of the Taurida palace their guns on its windows. As this argument was not sufficient, the delegates were simply chased out with bayonets."

# UKRAINE DECLARES HER NATIONALITY

## Central Rada Decides to Proclaim Complete Independence of Republic.

### Petrograd, Jan. 27.—By a vote of 208 to 4 the Ukrainian Central Rada has decided to proclaim the complete independence of the Ukrainian republic.

The proclamation reproaches the Petrograd commissioners for delaying peace and for invoking the so-called new holy war, and adds that the Ukraine wishes to live on terms of concord and friendship with Rumania, Turkey and other neighboring powers.

A wireless despatch from Brest-Litovsk quotes a declaration of the representatives of the workers and peasants' government of Ukraine, saying: "The general secretariat of the Central Ukrainian Rada can in no case be recognized as representative of the whole Ukrainian people."

The declaration adds that Brest-Litovsk representatives fully agree with the council of peoples' commissars, and in conjunction with the Russians will negotiate with the quadruple alliance.

# A YEAR'S PROGRESS

## Annual Meeting of Shareholders of Ingersoll Hotel Company.

Ingersoll, Jan. 27.—The annual meeting of the shareholders of the Ingersoll Hotel Company was held at the Ingersoll Hotel. The reports were of an exceptionally bright nature, indicating a continuance of the progress that marked the management of the hotels when local options that went into effect here over four years ago. Improvements of an important time to the hotels and public patronage and appreciation have been encouraging. With one exception the officers who have been in charge since the inception of the company were re-elected. R. J. Robertson tendered his resignation as secretary-treasurer which was reluctantly accepted. The new president, J. A. Coulter; vice-president, J. G. Gibson; secretary-treasurer, H. E. Robinson; assistant secretary, W. H. Sutherland; Thomas Sheldon, these officers comprise the directors.

# STATE OWNERSHIP PROVES PROFITABLE

## Australia Will Soon Be Operating Fleet of Fifty-six Vessels.

Ottawa, Ont., Jan. 27.—That government ownership and operation of steamship services has proven a great success in Australia is indicated in a report received here from Mr. D. H. Ross, Canadian trade commissioner at Melbourne. Mr. Ross states that the fleet of fifteen cargo steamers purchased in 1916, by the Commonwealth government has been actively employed at such remunerative rates that it is now estimated that a fleet of approximately ten million dollars in value is being operated. This fleet comprises 65,245 tons gross and 41,685 tons net register.

In addition the government shipping department has controlled since the beginning of the war 21 steamers and 5 sailing vessels. On delivery of the steamers and auxiliary vessels now under construction in the United States, the government will be operating a fleet of 56 vessels. This fleet, Mr. Ross says, will be necessary purpose in the transfer of Australian products overseas, earning profitable rates on return voyages.

# CRITICIZED U. S. CAMP AND IS UNDER ARREST

## Sergeant of British Military Mission Was Too Free With His Remarks.

Chattanooga, Tenn., Jan. 27.—Sergeant A. Farquhar of the Seaforth British military mission, who was at the Forest, Chickamauga Park, who was placed under arrest Saturday for remarks made at a meeting of the Chattanooga Association of Officers concerning conditions at the camp, is to be held pending instructions from the British embassy at Washington.

Captain Angier, head of the Seaforth mission at the camp, declines to discuss the affair. Major-General Erwin, commander of the camp, addressed a communication to Captain Angier requesting that steps be taken to prevent any further statements by members of the mission reflecting on American soldiers.

Publication of Farquhar's remarks caused a decided sensation in army circles, the press, and the officials of the British mission are perturbed over the incident.

Sergeant Farquhar declares that his remarks, which required the attention of the camp to guard the other half, and that there were too many active members of the mission who were not in the camp, and that the war would be prolonged indefinitely.

# FIRE AT CHATHAM

## Chatham, Jan. 27.—Fire of unknown origin early today destroyed the hardware store of D. H. Douglas in the Jahnskie undertaking establishment.

The firemen were handicapped by a temperature of eight degrees below zero, and the loss is not estimated, but will be about \$2,000, more than the insurance. Members of the Chatham fire department, who were in the neighborhood of the burning store, were forced to retreat by the fire of our sweeper was hit three and required an attempt to penetrate Tachandaria Bay.

# TURKS REPORT SUCCESS.

# GENERAL STRIKE URGED ON GERMAN WORKERS

## Kaiser's Minister Warns Enemy Labor of Dreadful Consequences.

Amsterdam, Jan. 27.—According to reports printed in German newspapers concerning the proceedings of the meeting of the main committee of the Reichstag, the Interior Minister, Dr. Brüning, expressed the strong hope that the German workers would not answer to such an "inexplicable call from irresponsible quarters, and the war would be prolonged indefinitely."

"If our enemies should succeed in smashing our home front," Herr Wallraf is quoted as saying, "their respect for circles of the press, and the officials of the British mission are perturbed over the incident."

The raiding party was driven off by our rifle and machine gun fire. Hostile artillery showed some activity during the morning in the neighborhood of Havencourt and Poelcapelle.

# WAR SUMMARY

## THE DAY'S EVENTS REVIEWED

The supreme allied war council at its plenary meeting in Paris this week will announce the new strategy of the allied armies, not for a defensive stand but for an advance. This news shows that the allies do not hold the prospective, but rather regard the war as a series of offensive operations. To maintain the equilibrium would be to the west. He has, however, so botched his negotiations with the Russians that it is admitted in the renaissance that he cannot risk the removal of forces from the eastern front.

The British army, which has been vastly strengthening its defenses so far as to prepare a gauntly reception for the enemy if he should venture an offensive, has taken up another section of the front from the French in the region of St. Quentin. The French are shortening their lines so as to obtain a concentration against the German lines and the presence of an American representative assurance that the American army will give assistance in the attack.

LABOR DELEGATION TO SEE CABINET

Will Make Suggestions for Legislation at Next Session.

HOURS OF CLERKS

Many Branches of Workers Will Be Represented in Gathering.

A large delegation from the Ontario Federation of Labor will present resolutions today for the consideration of the Ontario Government. Those comprising the delegation will include Donald Wright and Joseph Deane of London, Walter Rolfe and H. J. Alfred of Hamilton, Miss C. S. Grant of Ottawa, and the following delegates from Toronto: James Simpson, F. Bancroft, Joe Marks, J. Vick, W. Brown, J. Kelly, Delegate Corcoran, Delegate O'Leary, John Dorsett, W. R. Banks, W. C. Hagan, W. Stock, W. J. Storey, J. D. Kennedy, Jos. Gibbons, W. D. Robbins, James Scott, W. A. Joyce, James Watt and possibly Business Agent C. G. Green of the International Union of Steam Engineers.

The United Brotherhood of Carpenters and Joiners of America will petition the government for the observance of the prevailing schedule of wages, hours and other established working conditions. Hitherto property qualifications have been required of all aspirants for municipal honours of the most important resolutions to be presented by the delegation on Monday will be one petitioning the government to provide legislation to abolish the arbitrary requirement from the Municipal Elections Act.

The resolution of the United Brotherhood of Carpenters regarding prevailing wages and conditions concerns all direct government work, contracts, work by government commissions and any work undertaken by an authorized public corporation.

Stationary Firemen's Request. The stationary firemen will request that none but qualified and licensed firemen be permitted to operate steam boilers, and also for the proper inspection of all boilers.

Another resolution will call upon the government to declare all its employees in the building trades eligible for compensation. The delegation will ask for legislation licensing all journeyman barbers, and for a policy of right inspection of all tonorial parlors, with a view to the protection of the health of both the journeyman and the public. Legislation will be asked to make theatrical employees eligible for compensation, and to enforce the efficiency of all moving picture operators.

Journeyman tailors are opposed to the continued practice of men and women making clothing in their own homes as being contrary to the best efforts of the community to maintain strict standards of hygiene. They will request legislation to make clothing manufactured in sanitary workshops and factories.

Forty Hours for Clerks. Retail clerks in a good many cases are to be working day and night. Legislation will be asked to have retail clerks, male or female, work longer than 40 hours a week.

The delegates will also request legislation ordering all old wallpaper to be removed before the application of new material, and also for the health of both the paperhanger and the householder, it being considered possible that the old refuse beneath the new wallpaper is a breeding place for germs of disease.

Stationary engineers are going to ask for direct representation on boards of licensing examiners. They also ask for legislation prohibiting anyone from operating a boiler of more than 15 pounds pressure unless he has an engineer's certificate, and for legislation embodying the following regulations: 1. That all safety valves be set and locked by inspectors. 2. No engineer be allowed to leave his boiler without leaving a competent man in charge. 3. No graded certificates be awarded until legislation has been effected to grade the plants.

DIARY A PERMANENT RECORD MADE ON SCENE OF ACTION.

A diary fixes the time and place of important, pleasing, tragic or humorous events in the life of the most important person in the great war, have become most popular books, second only to the demand for the French dictionary to the front caused a publisher to return and seek to meet the demand for these two books by producing a combination of the two.

"I shall see that every man in my troop has one of these books," said a captain of cavalry. "Every man who should learn French before he crosses the ocean, and if he is as alive as a soldier is supposed to be he will want to fix definitely in mind the exact date of every important event in this war." The Soldiers-Sailors Diary and English-French Dictionary is being distributed on a plan, as explained elsewhere. The book, which a soldier's necessity, proves invaluable to everybody. See them at The World office, Toronto and Hamilton.

Member of Saskatchewan Legislature Served Year and Three Months. Regina, Sask., Jan. 28.—Herbert C. Pierce, who was sentenced by Chief Justice Haultain to eighteen months imprisonment and a fine of \$500, or in default of payment, three months, for accepting a bribe as a member of the legislature, was released from Regina jail on Friday afternoon, having served one year and three months.

He was the member in the provincial legislature for Wadena at the time and his conviction came as the result of certain disclosures made in the Bradshaw charges.

SUBSTANTIAL INCREASE IN SOCIETY'S FUNDS

Commercial Travelers' Mutual Benefit Organization Holds its Annual Meeting.

The annual general meeting of the Commercial Travelers' Mutual Benefit Society was held in the Commercial Travelers' Building on Saturday afternoon. The president, C. S. Parsons, occupied the chair and after calling the meeting to order, presented the annual report and financial statement for 1917. The report showed the society to be in a very healthy condition. After paying death claims during the year totaling \$38,744, a credit of \$43,588.86 was carried forward, an increase of \$14,600 over the previous year. The assets now considerably exceed \$100,000. A pleasing feature of the president's address was the announcement that the society had subscribed for \$10,000 of the recent Victory Loan, whereupon the members rose and sang the national anthem. The officers for the ensuing year are: C. S. Parsons, president; S. M. Sterling, vice-president; H. Goodman, treasurer; R. Evans, secretary.

CRITICIZES POLICY IN LATE ELECTION

Greater Toronto Labor Party, However, Justifies All Its Candidates.

The Greater Toronto Labor Party at its meeting on Sunday afternoon passed James Gunn's resolution congratulating the British labor party upon its influence in the political arena of Great Britain. It was decided at this meeting that either James Balfour or James Gunn should represent labor at the Massey Hall mass meeting of the Great War Veterans, which will discuss the problem of the aliens in Canada on the evening of Feb. 4.

It was decided that henceforth the party would meet only once a month, on every fourth Sunday.

Ward one branch of the party reported that a series of educational meetings had been drawn up, those to be held once a month, and to be addressed by prominent men upon vital labor and educational issues of the moment, such as the influence of the press, the real aspects of the situation throughout Canada and of the municipal situation in Toronto.

Oakwood branch has enrolled many new members during the past month. Delegate Gunn of the education committee reported that the committee had arranged for two meetings in February, one in March and one in April. Among the addresses considered will be one upon proportional representation, another upon the feasibility of forming study circles, a precedent already set in Great Britain, and a lecture upon the ethical considerations involved in the labor movement. Two professors, one civic official and two well-known public citizens will be among those addressing these meetings.

During the course of the meeting Dean Adams deplored the present policy of the G.T.L.P. in putting up six candidates for federal seats instead of concentrating all energy and expense upon two. In response Delegate T. A. Steveson pointed out that by reason of the large number of candidates put up throughout the Dominion had political parties presented its strong protest against the policy of the provincial executive, and the men's lack of response to the best interests of the workingman. It was noteworthy that since the campaign for the provincial election, the political history of the Dominion asked in a delegation from labor to meet it in conference to discuss the most vital issues of the day. However, he said, Walter Rolfe, Hamilton, had been invited to the conference as the acknowledged leader of the independent labor party of Canada. Joseph Marks of the provincial executive pointed out that of the candidates for the majority of Brantford the independent labor party candidate led the poll with almost 2000 votes, the next highest poll being 300, while that of the former incumbent had only amounted to 700 votes. In addition, three I.L.P. candidates for aldermanic seats had also won.

ELECTRIC IRONLESS DAY

Cutting Off of Power Tuesday May Have Been Hydro's Way of Helping Munitions.

In the homes of Toronto many people wonder why there was no hydro power last Tuesday. Wonder grew to enquiry until finally a theory has been put forward without official confirmation at the hydro offices that the one way of conserving power for the munition factories. "Why cut the power on Tuesday?" The answer, because Tuesday, in the majority of homes, is ironing day. It is figured that there are between 30,000 and 40,000 electric irons used in Toronto and that each one requires the equivalent of three-quarters of a horse power to get hot and keep it so. At that rate some 22,500 horse power would be needed for 30,000 irons and 30,000 horse power for 40,000 irons. The need for more electric energy in Ontario, in order that munition factories may keep up the supply of munitions has already been stated, to be great, and as a consequence there appears to be some reason for the idea that the cut on ironing day was for the purpose of turning this supply into munition channels. It may be that it was merely a coincidence that the public will be asked to observe an "electric ironless" day in accordance with munition needs.

CONCERT FOR SOLDIERS.

The orchestra of Parkdale Methodist Sunday School, gave a sacred concert to the soldiers in the Y.M.C.A. canteen, at the Exhibition Camp on Sunday afternoon. The program was good, and the soldiers seemed to appreciate it. By the way every number was applauded. There were several solos given. Miss Phillips sang, Roy Funston sang. Harry Detcher played a selection on the violin, while a solo on the cornet was rendered by E. E. Forringer.

MILITIA ISSUES NEW MEMORANDUM

Object is to Acquaint Friends of Soldiers With Necessary Information.

Requests for Leave Men Themselves and Not Relatives Must Ask Permission.

Ottawa, Jan. 26.—The department of militia has issued a memorandum the object of which is to acquaint the relatives and friends of soldiers serving in the Canadian forces with the policies which have been adopted with respect to promotions, transfers, furloughs and kindred matters, and also to inform these interested where to direct inquiries about any of these matters. The hope is expressed in one of the opening paragraphs of the memorandum that members of the senate and house of commons, persons holding official positions, clergymen and others having occasion to refer to these subjects, will refrain from preferring requests which are at variance with the policies laid down, except in cases of extreme emergency. They are also requested to correspond through the proper channels.

Soldiers Must Make Request. Dealing with requests for leave of absence, furlough transfers, etc., the memorandum states that such requests should be made by the soldier himself, and not by other interested parties. In some cases, it is stated, requests made by persons other than the soldier have been repudiated by him, and considerable embarrassment caused to the department. "Except in very special cases," says the memorandum, "recommendations made by headquarters to the overseas authorities."

Opportunities Given. The memorandum says that "every opportunity is given to deserving men serving overseas to qualify for commissions both in England and at the front, and the only way an application can be considered is when it is made by the soldier himself, and not by a commanding officer." Cadet schools have been established in England, and a number of non-commissioned officers are being trained in England, each month in order to qualify for commissions. Requests by friends or relatives for the return of officers employed overseas are not likely to be effective, says the memorandum, and may easily prejudice the position of other officers concerned overseas. Surplus senior officers are returned to Canada from time to time as rapidly as arrangement can be made.

INDUSTRIAL RESEARCH TO HELP DEVELOPMENT

Dean Adams of McGill Speaks Before Royal Canadian Institute.

Speaking in the University Schools, Bloor Street, Saturday night, on "Industrial Research and National Development," Dean Adams of McGill University, emphasized the fact that conditions would be different after the war than they were before, and spoke of the great changes which would be a result of the war in Great Britain and the United States, while Canada would be falling in line as well, as was proved by the industrial advances of the mines, the railways, as well as being engaged in many big manufacturing enterprises. The number of these changes will continue after the war," declared the speaker, "and so introduced a new complexion in industry and commerce. This re-orientation with the government, this re-orientation, which has by these means been secured, will be absolutely necessary for us in Canada, if we are to make our industrial and agricultural resources productive enough to enable us to pay our increased debts."

The speaker divided his address into two sections: first the conservation of our national resources, and second, increased efficiency in the utilizing and marketing of these resources. Dwelling on the first he pointed out that conservation did not mean the locking up of those resources, but the expenditure of them, and more the careful development of them. "So that we may obtain a larger yield at the present time, and more progress in the future," he said, "we must also take care in managing our forests properly, we could obtain as they are doing in Europe, continual annual crops of timber and pulpwood without depleting the forests." Referring to the second part, increased efficiency in the utilizing and marketing of these resources, he stated that an important element was the application to the industries of scientific and industrial research.

"In the broadest sense," he said, "scientific research means the discussion of the application of new knowledge, without which no industry can continually flourish. This results in advantage to the manufacturer, more particularly in the development of new industries, and in the cheapening production. It is also of interest to the worker because it makes the industries more prosperous and to the farmer because it provides him with new fields for the profitable employment of capital. There is no sharp distinction between scientific and industrial research. Industrial research is the application of the discoveries of science to the development of industry."

R. S. HUDSON, JOHN MASSEY, Joint General Managers.

We beg to report that we have examined the foregoing Accounts, together with the information and explanations we have required. In our opinion the state of the Accounts is properly drawn up so as to exhibit a true and correct view of the business of the Corporation, and the best of our information and as shown by the books of the Corporation.

A. E. OSLER, HENRY BARBER, Chartered Accountants, Auditors.

Toronto, January 28th, 1918.

In making the adoption of the Report of the Directors the President said: "I am convinced that the Report and Statement, which have just been submitted to the Shareholders of the Corporation, will afford the Directors full satisfaction in presenting them. The net profit for the year, after deducting interest on borrowed capital, expenses of management, charges and losses, together with the Taxes and sundry contributions to Red Cross and Patriotic Funds, amounted to \$82,235.14. The balance at the credit of Profit and Loss at the beginning of the year was 195,622.27. Making available for distribution \$1,047,977.41. This sum has been appropriated as follows: Four quarterly dividends of Two and One-half per cent. each on the Capital Stock of \$600,000.00 \$600,000.00 Transferred to Reserve Fund 250,000.00 Balance carried forward at credit of Profit and Loss 197,977.41 \$1,047,977.41

While the great groups in our Western Provinces were not as ample as they had been in the aggregate. The high price fixed by the Government has, therefore, returned to the grain growers a large amount of their principal in a manner most satisfactory. By gradually reducing the original indebtedness, in accordance with what has been gradually reducing the many years, not only is the Corporation's margin of security increased, but progress, resulting in advance equity is an encouragement to greater effort and have been, as usual, individual cases of inability to meet their instalments through partial or complete failure of crops. In such cases, instalments debentures which are given to their circumstances, and the reduction of the interest to carry over these customers till next season, when they are usually able to them and with perfect safety to the Corporation.

In previous years I can assure the Shareholders that there is good value for every dollar of the Corporation's assets. With every possible precaution, we can never fully guarantee against borrowers proving unsuccessful in their business, and we are reluctantly compelled to find a purchaser for it, though that not only are these losses minimized but are usually foreseen. In the balance sheet submitted to you, ample provision has been made for any possible losses.

It is with the most sincere regret that I have to record the death during the past year of our Second Vice-President, Mr. G. W. Monk. Mr. Monk has been associated with The Canada Permanent Loan and Savings Company for a long period of years, was one of the first Directors of this Corporation, and held the office of Second Vice-President since 1910. For upwards of a quarter of a century he represented the County of Carleton in the Provincial Legislature. His wide and varied experience, and his long association with the Corporation, and his long experience will thus be in the Board was filled by the appointment of Mr. William H. King, Jr., who represents very important holdings in the shares of the Corporation.

I regret to say that since our last meeting, four bright young men of our staff have been killed in action and a number have been wounded. It is gratifying to inform you also that some have received Decorations from His Majesty the King.

I think it is not necessary to detain you with any further remarks. I have much pleasure in moving, seconded by the First Vice-President, that the Report of the Directors be received and adopted, and together with the General Statement, be printed and a copy sent to each Shareholder. The Vice-President, Mr. W. D. Matthews, in seconding the motion for the adoption of the report, said: "Mr. President and Gentlemen: The President in his address has explained to you that the Directors, in making loans to borrowers, are able to rely upon careful inspection of all the properties by our own experienced inspectors before these loans are made. Without this inspection and without the very complete system established by the Management of the Corporation for the scrutiny of accounts and reinvestment of securities, you can readily understand that the loaning and supervision of \$26,700,000 (which is the amount of the mortgages held by your

Corporation) would be a very onerous and difficult task. That we have been able to loan this immense sum of money on mortgages, and present a statement to you which, as the President says, and as I am sure you will corroborate, is highly satisfactory, speaks well for the Management that the Corporation has received. The management, of course, devolves upon the Joint General Managers, the Secretary, and the Inspectors, who can cheerfully testify to the care and thought that is given by the management and staff in the conduct of the Corporation's business.

The outbreak of the war caused anxiety to the whole community, the people fearing its effect upon Agriculture, Manufacturers, Financial and all other Companies. The demand for war material, however, brought into existence new enterprises and industries throughout the Dominion, which made business conditions so favorable that confidence was restored and people generally began to realize that, so far as business and finance was concerned, we had not suffered very much.

This prosperity continued to a degree that financial and manufacturing concerns were placed in excellent credit and on a financially sound basis. Added to this was the fact that all the products of our farms, mines, forests and sea were required, and at once began to command unusually good prices, finally resulting in the Government undertaking to handle most of these materials and fixing values at which they were to be taken over. These prices are such that it has brought the farming community to a very prosperous condition.

Our farmers never realized so much money for what they had to sell as under present regulations. As you are all aware, the backbone of any progress or prosperity that we have made in Canada, is the production of our Natural Products. The Government's policy, particularly of food. In the Northwest the preparations that have been made by the farmers, and the inducements offered by the Government, as well as the fact that the products of our farms, mines, forests and sea were required, and at once began to command unusually good prices, so that this prosperity is likely to continue and will command more. Even in the early period of the war the values of farm lands in the Northwest have been largely maintained, and with the prosperity that has attended farming operations, values are not only being maintained, but in many of our districts have been enhanced. As we have largely given attention to the lending of money on farm properties in the Northwest, we have in a very satisfactory manner placed our mortgages in a very satisfactory condition.

The President has pointed out that the amount of our Sterling Debentures has somewhat decreased since we last presented our report, but this was to be expected, and the fact that we have such a large amount still outstanding is a pleasing tribute to the fact that the credit of our Corporation continues to be high. I think, therefore, that we may look forward with confidence to the future of our Corporation, and which has caused us to expect a continued period of satisfactory results.

The President has referred to the figures which have been read to you, and which you have had opportunity to look over. The statement does not need a further comment on my part, and I, therefore, have much pleasure in seconding the motion of the report.

The Shareholders, unanimously approved and ratified certain subscriptions which the Directors had made to the Canadian Patriotic Fund, the British and Canadian Red Cross Societies, and for other patriotic purposes.

The election of Directors for the ensuing year was then held, and resulted in the unanimous re-election of Messrs. W. G. Gooderham, W. D. Matthews, R. S. Hudson, Colonel Albert E. Gooderham, J. H. G. Hagan, John Campbell, S.S.C. (Edinburgh), John Massey, F. Gordon Oster, E. R. C. Clarkson and William Mulock, Jr.

Messrs. Henry Barber and A. E. Oster were re-appointed Auditors for the current year.

At a meeting of the Board, held after the adjournment of the Annual Meeting, Mr. W. G. Gooderham was re-elected President; Mr. W. D. Matthews, First Vice-President, and Mr. R. S. Hudson, Second Vice-President.

Memorial services for the British sailors lost in the recent disaster at Halifax, the S. S. Acadia, lost in the Atlantic Expedition; the S. S. M. S. Raccoon, off the Irish coast, and two torpedo boat destroyers, lost off the Scottish coast, were held on Saturday morning in the Bloor Street Baptist Church, and in the evening in All Saints' Church, Wilton Avenue. At the close of the services, the morning, during the playing of the Dead March, the Union Jack, at half-mast, supported by the white, red and blue ensigns, the British flag of 100 years, the Navy League flag; the Home flag of the Canadian National Council and the pennant of the Seaman's Christian Brotherhood were carried down the street by the church squadron of the Boys' Naval Brigade under the direction of Chief Petty Officer, and the various evening services in All Saints' Church, the same flags were carried by the members of the army and navy veterans, and many of the white-haired veterans were conspicuous by the number of medals they wore on their breasts, one of them having six.

Both services the sermon was preached by the Rev. Dr. Alfred Hall, senior chaplain of the Royal Naval and Merchant Marine Institutes. In the morning he took as his text, Psalm 77, the 19th verse, "The way of God is in the sea," and after paying a tribute to the men who were lost in the disaster, he spoke of the possibilities of finding men to take their places, and the challenge that was being issued by the Navy League to the various schools, to train boys for a sea-faring life.

Does Not Divide. In the evening he took as his text the 49th chapter of the Book of Isaiah, verse: "There is sorrow on the sea," and stated that one of the greatest gifts of the British people to the world of civilization thru a hundred years of naval history was a better conception of the sea. "In the sea there is an element to conquer," he stated, "and instead of dividing peo-

GERMANS TRY TO RAID FRENCH POSTS ON FAVE

Paris, Jan. 27.—"Except for two German attempts to raid small French posts in the region of the Fave River (in the Vosges), which were repulsed by the French, there was nothing of importance in the course of last night's report," says today's war office announcement.

The official announcement by the war office very rightly conveys the words of his text, as there was nothing there else in the modern interpretation. "There is pleasure on the sea as well," he stated, "and there is also heroism on the sea, and all the romance of the past has been excellent in the past, and by that heroism we can also say there is security on the sea."

He said he wished, however, to correct a false impression conveyed in the words of his text, as there was nothing there else in the modern interpretation. "There is pleasure on the sea as well," he stated, "and there is also heroism on the sea, and all the romance of the past has been excellent in the past, and by that heroism we can also say there is security on the sea."

Spoke to County Councils. S. Squires, Department of Highways, Speaks in Behalf of Better Roads Thruout Counties.

S. Squires, department of highways, has returned from a trip to Lambton, Northumberland, and Peterborough, and to the County Councils, where he spoke to promote county good roads in these districts. He reported progress at the parliament building, Saturday and hope is held that Lambton, Northumberland and Durham will become linked in the Ontario good roads movement.

The outlook for the County of Peterborough coming in is not so bright, it has not been in its endeavor to have every county in Ontario in the partnership. At present there are just these three counties not incorporated in the good roads scheme.

### DOMINION POLICE TO SEEK DEFAULTERS

#### Much Activity Is Looked for in This Matter This Week.

#### Another Draft Leaves for Training Ground in the East.

On Saturday night a draft of about 100 members of the 1st Battalion, 1st Central Ontario Regiment, left Exhibition Camp to continue their training at a point further east. Two conducting officers were in charge. The draft was made of a number of the British-born men who came to Toronto from the United States and also some of the men recently called to the colors under the Military Service Act. Other drafts, including artillery and cavalry men, are expected to leave for eastern training points in the near future. No men were called to the colors under the service act on Saturday.

Much activity is looked for this week in the matter of rounding up drafted men who failed to report. It is thought likely the Dominion police will be called on to take part in the work of apprehending the military delinquents.

An order just posted announces the establishment of horses for horse and field artillery batteries. A field artillery battery complement will consist of 22 riding and 33 draught horses. A horse artillery battery is to have 30 riding and 55 draught horses.

Of 145 recruits examined by the Toronto mobilization centre during the week just ended 283 were accepted for active service. The letter included 205 infantrymen. Over 100 of the week's recruits were British-born from the United States.

### Farewell to Members.

The evening service at the Western Congregational Church, Spadina, Ave., yesterday took the form of a farewell to William S. Stokes, Russell Hutchinson and William Carrick, three young soldiers, who leave Toronto within a few days.

The following military appointments are announced:

Lieut. A. E. Williamson (10th Royal Grenadiers) a returned officer, formerly of the 12th Reserve Battalion, who before enlisting was an engineer with the Toronto Harbor Commission, has been appointed to the 2nd Battalion, 1st Central Ontario Regiment.

Lieut. Charles Daw has been appointed to conduct a draft overseas from the 1st Battalion, 1st C.O.R.

To be lieutenant (temp.) in the 1st Battalion, 2nd C.O.R., Lieut. F. Cawthorn.

### WELL-KNOWN MANAGER IN TORONTO THIS WEEK

#### Malcolm Douglas of New York Here in Advance of "The Riviera Girl."

Malcolm Douglas, the manager of New York's most famous playhouse, the New Amsterdam Theatre, and the representative of the well-known firm of Klaw and Erlanger, has been in Toronto in connection with arrangements for the production of the musical comedy "The Riviera Girl," which is controlled by these theatrical producers. "The Riviera Girl" will be brought to the Princess the week of Feb. 4, following its immense successful run at the New Amsterdam.

"It has been some years since I was last in this city," said Mr. Douglas yesterday, "and I am glad to see it. I am a partner of Palmer Cox, creator of the immortal Brownies, and a Canadian. Years ago at Massey Hall I directed a production of "The Brownies in Fairyland" for Grace Hospital, in which many Toronto children took part.

"The Riviera Girl" has been the great success of the New York theatrical winter. We want Toronto to see it, for we think that bright, cheery play with a trend to make people look on the sunny side of things will properly be classed among the list of essentials, and they will have their important part in helping us to win this war. Since the United States has joined into Klaw and Erlanger's activities in the way of making new productions and acquiring new theatres have been steadily increasing, for they realize that the people just be amused.

"I have very confidence that Toronto, like New York, will take to its heart "The Riviera Girl," which is perhaps the most beautiful and elaborate musical comedy that has ever yet been brought here. Big, meritorious theatrical productions never fail to receive substantial encouragement in Toronto. We shall let the public know in advance as much as possible about it in the advertising columns of the newspapers.

"We are going to bring to the Princess the same company of 80 artists engaged in the run of the production in New York. The success of "The Riviera Girl" has been so great that Klaw and Erlanger could easily organize three or four different companies and play the piece with great profit in various sections of the country. Some managers have killed the goose that lay the golden egg by such meth- odical production of the show business by foisting undoubted New York successes upon a deluded, out-of-town public with cheap and mediocre actors. The policy of Klaw and Erlanger with "The Riviera Girl" will be to present it with the original New York company and no other."

### KENT COUNTY COUNCIL

Chatham, Jan. 27.—Kent County Council yesterday voted \$15,000 toward the funds for Young Men's Christian war work and \$60,000 for the Canadian Patriotic Fund. The council voted on record as favoring improvement in buildings and all other conditions on farms and passed a resolution calling on the government to amend the law so that such improvement in buildings and other resolution was also passed asking the same fishing be allowed in the Thames river provided the fish were not shipped outside the Province of Ontario.

### PLAYS, PICTURES AND MUSIC

#### JULES VERNE'S STORY SHOWN IN PICTURES

Famous Romantic Novel Was Written Long Before Day of Submarines.

Jules Verne's wonderful novel, "20,000 Leagues Under the Sea," being shown in pictures at Massey Hall this week, is a series of adventures. News is received in America of a great monster whale travelling the sea, and a French professor is asked by the Americans to go out to destroy it. The professor starts out on the expedition with the world's greatest harpooner, Abraham Lincoln, in a sailing ship. The harpooner's sailing they come on the wonderful monster, which really is a submarine, and commanded by an Indian prince, Nemo. The harpooner prepares to harpoon it when it comes close enough, but the harpooner glances off the submarine. Then the professor turns his cannon on it, but the shells also have no effect. Nemo submerges and rams the professor's vessel, on whom he takes pity, and promises that they will not escape, unless they can escape.

Prince Nemo had built the submarine to carry out revenge on the Englishman, Dawson, who when traveling in India had done something which resulted in the death of Nemo's wife, and carried away his daughter, a girl of about four years of age, and cast her adrift in a boat near an island in the Indian seas.

An English lieutenant with his crew of three, in a balloon, gets out adrift and drifts for seven days over the sea. When they come near an island, they cut away the basket from the gas bag and fall to the sea, but one man is left hanging in the shrouds of the balloon. The three from the basket swim ashore, and the one left with the balloon jumps when the balloon is sailing over the island. The four come ashore, and the English lieutenant and his crew, and trench themselves against wild animals; in a cave, digging a pit outside. Next morning, to the surprise of the English lieutenant, he awakes he finds a young girl clad in a tiger skin in the pit.

Dawson, ever pursued by the ghost of the princess, Cleopatra, in addition to the "island" to recover this "child of nature."

Theda Bara in Cleopatra. The life and loves of the "Siren of the Nile"—Cleopatra—are vividly portrayed in the magnificent film spectacle of the same name, which is the attraction at the Royal Alexandra Theatre all this week, beginning this afternoon with daily matinees, and with Theda Bara in the title role. This is a spectacular drama, but always there is the central figure of Egypt's vampire queen artistically and vividly introduced.

"The Willow Tree." "The Willow Tree," the latest Coohan and Harris success, will be presented at the Princess Theatre tonight for an engaging evening.

"Which One Shall I Marry"—Grand. In "Which One Shall I Marry" the wonder play to be presented at the Grand Opera House all this week with matinees on Wednesday and Saturday, the author has reverted to an allegorical period and has surrounded his love story with an attractive and mental fables of a girl who made a besought for matrimony. Drawing the character sharply the author has told in the life of a girl who is a stenographer in the ranks of everyday life.

"The Girl Who Married a King." "The Girl Who Married a King" is a story of a girl who married a king. The story is set in a remote part of the world, and the girl is a princess. The king is a powerful ruler, and the girl is a beautiful woman. The story is a love story, and it is a very interesting one.

### NEWS REPORTED FROM TWO TORONTO FLYERS

#### One Man Invalidated After Two Years; Other Man Missing.

Flight Sub-Lieut. Thos. B. Holmes, Dunn avenue, who has been overseas for two years, during which time he has served with the Royal Flying Corps in France and with the Royal Naval Air Service hunting submarines off the British coast, arrived home on Saturday. He is invalided home, but he claims he is "not wounded—just invalided." He is a Toronto boy. He was educated at Parkdale Collegiate and the University of Toronto.

An admiralty message reports Flight Sub-Lieut. Ross A. Blyth as missing. Lieut. Blyth, who trained at the Curtiss flying school, Toronto, went overseas in 1916, but upon reaching England was taken ill with spinal meningitis, but eventually completely recovered. Prior to enlistment he was attached to the provincial laboratories at Queen's Park. His parents live at 52 Mylner crescent.

### HEARD NEW RECTOR

Special to The Toronto World, Woodstock, Jan. 27.—Large congregations turned out today to hear the Rev. (Capt.) E. Appleby, the new rector of New St. Paul's Church, preach his inaugural sermon. The new rector was appointed while doing service in France as a chaplain. He received the Military Cross for distinguished service. The Great War Veterans' Association attended the morning service.

### ALLIED HOSPITALS BOMBED.

Washington, Jan. 25.—Bombing of allied hospitals by Austrian aviators in recent raids was reported to Red Cross headquarters in cablegrams received here from Robert Perkins, chairman of the American relief commission to Italy. A hospital at Castelluccio, not far from the Italian line, was damaged severely, he said, during a recent attack.

### WANT FREE TRACTORS.

Special to The Toronto World, St. Thomas, Jan. 27.—Elgin County Council at its final session here today passed a resolution petitioning the government for free tractors for use in Elgin County and also that the over 12 inches in use on the farms be allowed free.

The moral is—don't put off the buying of the white wool spencers that you're likely to need for next year. While the \$1.25 price holds good is the time to buy.

### Special Sale of Silk Petticoats \$9.00 to \$20.00 Garments, at \$6.95

Better away before stocktaking—that's what we say about these **Silk Petticoats**, our reason for this decision being that most of them are single garments, with no range of sizes.

They are very beautiful models, one and all, some of them of French make, others from a well-known London house. The silk of which they are made is the very finest, taffeta, and the colors include robin's egg blue, Burgundy, green, black, rose, gold and various shot effects. Some of these skirts are beautifully embroidered, others are charmingly trimmed with frills. The regular prices are from \$9.00 to \$20.00. January Sale price, for each, today... **\$6.95**

### New Valentines in Wide Variety 5c to 25c

Every coat in the Misses' Section has been marked down for the January Sale, and as a result you can now choose models at **\$12.50 to \$45.00** that were originally from \$6.00 to \$15.00 more. In many cases there is but one coat of a kind, but there are several models at each price. Some of these coats are fur-trimmed, others are plain, and the materials are velours, chevrons and zibelines, of fine, heavy qualities. The colors are navy, black or brown. Regular prices \$18.50 to \$60.00. January Sale prices... **\$12.50 to \$45**

A DAINTY WAIST. Of sheer net shows pink satin ribbons underneath, which are sewn upon the under lining which is also of net. The collar is of heavy shell-pink satin.

New Pathe release, "Sylvia of the Secret Service." "The Modiste Revue," has a cast of seven clever people. New songs, dances and comedy situations make the set an attractive feature. Dennett and O'Brien in "Simples"; the Monroe Brothers, in bountiful antics; the Fenwick Girls, who sing, dance, exchange bright chatter; the Four Dancing Demons; Hart and Graham, black-faced comedians, are also included in the bill.

Gaiety. Dave Marlon in his familiar character of Statton will be seen at the Gaiety Theatre all this week at the head of his own production, and which is described as the biggest burlesque offering of the season. "A Trip to Elephants" in the second edition of the "World of Frolics" is the title of the two-act revue in fifteen scenes in which Mr. Marlon appears with his large cast.

"The Burglar" at Strand. "The Burglar" which, starring Carlyle Blackwell, Madge Evans and Evelyn Greely, will form the feature at the Strand Theatre today, tomorrow and Wednesday, is a photo-play very much out of the ordinary. Carlyle Blackwell certainly makes the most of his opportunities in the part of this unfortunate hero, while dear little Madge Evans makes an altogether charming child-heroine of the story.

Tablet to Memory of Lieut. H. E. B. Platt. Major Kirkpatrick Recently Returned From War Prison Performs Ceremony.

In the presence of a large congregation and representative military men and war veterans, a tablet was unveiled in memory of the late Lieut. H. E. B. Platt at the Church of the Epiphany last evening. Ven. Archbishop Inglis conducted the service and Major Kirkpatrick, who recently returned to Toronto after being for two years a war prisoner in Germany, unveiled the tablet. Major Kirkpatrick referred to the fact that Lieut. Platt, who died of wounds received while leading a company of the 3rd (Toronto) Battalion into action at the taking of Hill 60, near Ypres, on May 5, 1915, had served under him as a private. He told of the high spirit of comradeship and loyalty which existed between Lieut. Platt and his men and of the great esteem in which they held him.

After Ven. Archbishop Inglis and Rev. Dyson Hague had spoken in tribute of Lieut. Platt, the "last post" was sounded by a bugler, with impressive effect.

The late Lieut. Platt had resided for 15 years in Toronto and was a graduate of the University of Toronto, where he received the degrees of B.A. and M.A. The tablet unveiled yesterday was sent from France by his comrades of the 3rd Battalion.

GUELPH SUFFERS BY \$225,000 FIRE

Drygoods Store of G. B. Ryan and Co. Completely Destroyed.

MERCURY BELOW ZERO. Several Other Stores Adjoining Suffer Damage by Smoke and Water.

Special to The Toronto World. Guelph, Ont., Jan. 27.—The most disastrous fire which has visited Guelph in over 40 years, occurred here at an early hour Sunday morning, when the large drygoods establishment of G. B. Ryan and Co. on upper Wyndham street, was completely destroyed.

The fire was discovered shortly after three o'clock on Sunday morning by one of the members of the police force, and an alarm at once turned in and replied to promptly. It soon became evident that much of the interior of the store in the basement was on fire and that a hard fight was in prospect.

The main store of G. B. Ryan and Company, which has a 50-foot frontage, is completely destroyed, but their meat store next door was saved by a fire wall, and the stock there was damaged mostly by smoke.

The fact that there was a considerable quantity of snow on the roofs of the adjoining buildings can also be attributed to the keeping of the fire in the building. It was not until 6:30 o'clock before the fire was under control, but the firemen continued to pour several streams of water into the ruin all day.

Mr. G. B. Ryan, this afternoon, stated that while he did not know exactly what his loss would be, the firm stood to lose considerably the value of the stock is roughly estimated at \$225,000, including a large shipment of spring goods, which only arrived during the week.

It was 33 years ago this month that Mr. Ryan first began business in Guelph. The fire there cost 50 employees out of work temporarily.

Halifax, N.S., Jan. 27.—Of the 87 miners who perished in the Allen mine explosion at Stellarton, 34 bodies have been recovered, leaving 53 still in the mine.

Soldiers-Sailors Diary and English-French Dictionary

Self-Pronouncing by Sound-Spelling Method. Newspapers of the United States and Canada have arranged to supply the Soldiers-Sailors Diary and English-French Dictionary to all branches of the service.

THE TORONTO WORLD

TORONTO HAMILTON

THE DIARY

This Diary fixes the time and place of important, pleasing, tragic or humorous events.

New experiences, new scenes, new friends—sea fights, land battles, camp life, trench duty, marches—all rush with confusion into the minds of soldiers and sailors.

When the boy comes marching home his Diary will recall scenes of battle, exciting charges and days filled with all emotions from rage and terror to sport and laughter.

Few persons in this war will remember all they see unless the main points of each event are noted in a Diary every day.

Every soldier, sailor, nurse or civilian, seeing the war from individual viewpoints, should set down each day's experiences.

SPACES UNDATED. You may start this diary any day—it never can become out-of-date. Other diaries are useless after dates specified.

THE DICTIONARY

The Sound-spelling Method of this English-French Dictionary is the most advanced, easiest and most effective means of teaching language ever invented.

Ahead of all schools, it thoroughly and quickly gives command of French. It accustoms English-trained ears to French sounds.

The Sound-spelling Method of teaching French presents first the English word; then its French equivalent and then, spelled out in English syllables, comes the French word as it sounds to English ears.

All who go to France should be able to talk to the people in their native language. To do so would save time, money and embarrassment.

If a man can't talk French in France he must either seek an interpreter or make signs, but with the Soldiers-Sailors Diary and English-French Dictionary annoyance and trouble will vanish.

Send One to the Boy—Take One Home! These handsome gold-edged books, richly bound in lasting material, stamped in gold, have been made luxurious as well as durable for the reason that they will be treasured in future years as valued possessions.

It is the wish of the newspapers conducting this distribution that all shall obtain the book; but prompt action is necessary because the distribution must be completed at an early date; therefore clip coupon and get copy promptly.

RUSSIAN CONGRESS SUPPORTS LENINE

Workmen's Delegates Pass a Resolution of Confidence in Bolshevik Government.

Petrograd, Saturday, Jan. 26.—(By the Associated Press).—The all-Russian congress of soldiers' and workmen's delegates today passed a resolution of confidence in the government of the national commissaries, and approved all the measures enacted by the congress also approved declarations of the central executive committee, which the dissolved constituent assembly had rejected, as follows:

1. Making valid the transfer of land to the workers.

2. The establishment of a soldiers' and workmen's republic, and, ultimately, the federation of soldiers' and workmen's republics.

3. The nationalization of banks and the repudiation of national debts.

Zalkind, assistant to Foreign Secretary Trotsky, in explanation of the last measure, said to the Associated Press:

"This measure has been passed in principle and it has become law, but its enforcement is in the hands of the national commissaries. If they find it expedient, necessary or desirable they have the right to refuse to pay the debts."
