BAPAUME ON EVE OF CAPTURE PATROLS ARE ENTERING CITY

British Carry Summit of Important Thiépval Ridge and Make Big Advance Over the Old Somme Battlefield, Occupying Nearly One-Half of it, Clear Albert-Bapaume Road to Le Sars, Australians Capture Bray on the Somme, Twenty Villages Taken.

BRITISH GAIN STEADILY UPON BAPAUME ROAD

Advance From Albert Clears Numerous Villages on Old Somme Battlefield --- Australians Capture Bray --- Battle Continues All Day and Night --- Byng's and Rawlinson's Armies Take Seventeen Thousand Prisoners.

London, Aug. 25.—Field Marshal Haig today continued his attack against the Germans north of the River Somme. The British hold the road from Albert to Bapaume, as far as the outskirts of Le Sars, according to the official statement issued today by the war office. Contalmaison, three and three-quarter miles north-east of Albert, and Warlencourt-Eaucourt, on the Albert-Bapaume road, three miles southwest of Bapaume, have been captured by the British. North of Bapaume the British have captured Sapignies and Behagnies. Since Aug. 21 more than 17,000 German prisoners have passed through the collecting stations of the British third and fourth armies. The text of the statement reads:

"Our attack to the north of the Somme is continuing. Our troops hold the road from Albert to Bapaume as far as the outskirts of Le Sars, and have captured Contalmaison and Warlencourt-Eaucourt. To the north of Bapaume we have taken Sapignies and Behagnies. The number of prisoners taken by the third and fourth armies on the battlefield since the morning of Aug. 21, and passed through the collecting stations now exceeds 17,000. A counter-attack attempted by the enemy early last night against our positions recently gained to the north of Balieul (in the Lys valley) broke down under our fire."

Gains on Whole Front.
London, Aug. 25.—"Despite considerable hostile reinforcements," says Field Marshal Haig's report from the British front in France last night, "progress has been made along the whole front of our attack. Bray has been captured and a number of prisoners secured."

"Further progress has been made along the high ground southeast of Albert. Several hundred prisoners were taken. La Boisselle, Ovillers, Mouquet farm, Thiépval and Grandcourt have

been captured, with over 2000 prisoners. Our troops are astride the Thiépval ridge and are advancing eastward."

Continuous Fighting.
The full text of the official communication reads:

"On the battlefield north of the Somme continuous fighting has taken place since the early hours of the morning. Our troops, pressing the enemy hard at all points, have allowed him no respite. Despite the arrival of considerable hostile reinforcements, progress has again been realized on the whole front of our attack. Numbers of prisoners and quantities of material of every description have fallen into our hands. Shortly after midnight Australian troops, attacking along the north bank of the Somme, captured Bray-sur-Somme, securing a number of prisoners. Continuing their advance with great skill and initiative they carried the enemy's positions in this neighborhood."

Progress on High Ground.
"On their left, London and East County troops made further progress during the night along the high ground southeast of Albert, taking several hundred prisoners. On the right centre of our attack Welsh troops, attacking along the north bank of the Somme, captured Bray-sur-Somme, securing a number of prisoners."

"Our troops are once more astride the Thiépval ridge and are advancing eastward. On the left centre of our attack East Lancashire troops have been heavily engaged all day about Miraumont, where the enemy held out with great stubbornness until the village was gradually outflanked by our advancing columns."

On to Bapaume.
"North of this village the New Zealand division in the centre of the attack struck in the direction of Bapaume. Advancing with irresistible dash and determination it carried the defenses of Loupart Wood, taking 400 prisoners. Pressing forward with great gallantry it captured Grevillers and Balieul, and reached Avesnes-lez-Bapaume, on the outskirts of Bapaume."

"On the flanks of this attack English troops gained possession of Iries and advanced in the direction of Sapignies, overcoming strong hostile resistance at Iries and east of Bihucourt."

"On the left of the battlefield English and Scottish divisions and the Guards are fighting on the front of Mory, Croisilles and Neuville-Vitasse and have captured St. Legeur, Henin-sur-Cojeul and the hill east of the latter village. No estimate of captures can yet be given."

Gain Near Fampoux.
"Or the remainder of the British front successful local actions have taken place. North of the Scarpe we have captured a section of the German front line northeast of Fampoux, with a few prisoners."

"North of the La Bassée Canal we captured the old British front line east and northeast of Givenchy and made progress into the German positions in a completely successful operation, in which all objectives were secured with over 60 prisoners. During the night our patrols occupied Neu Berquin, where a number of German dead were found by our troops."

"This morning we have advanced our line north of Balieul on a front of a mile, capturing some 50 prisoners. A counter-attack attempted by the enemy during the afternoon was crushed by our artillery."

FROM ARRAS TO SOMME GERMANS ARE DRIVEN BACK

Notwithstanding the fact that the Germans have brought up strong reinforcements on both wings of the battlefield, the British and French forces everywhere have beaten off the enemy and continued their vigorous progress. Many additional towns have been captured by Field Marshal Haig's men in the north, which the French have successfully overcome obstacles placed in their way and reached territory north of Soissons, which adds further to the danger of the Germans in the Noyon sector and to their line running eastward from Soissons to Rheims.

All along the front from Arras to the Somme, the Germans are gradually being driven back to the old Hindenburg line by the British. Along the Somme the enemy is being harassed well to the east of Bray, while farther north strong counter-attacks have been repulsed and the Town of Mametz, the Mametz wood, Martinpuich, Le Sars and Le Barque have been captured.

Are Surrounding Bapaume.
It is around Bapaume that the Germans are keeping up their strongest

efforts to hold back the tide that is surging against them, but the British are continuing to make slight gains daily in the process of surrounding the town, which seemingly soon must be evacuated. The taking of Le Sars and Le Barque appears to be a forerunner of this eventually. Le Barque is only 2½ miles southwest of Bapaume.

Everywhere, except directly south of Bapaume, the British are well across the Bapaume-Albert road, and north of the town they are fast pressing forward toward the Hindenburg line. Unofficial reports have placed the British in the outskirts of Bullecourt, which is just west of the old line.

Since last Wednesday the British have taken more than 17,000 prisoners, and large numbers of guns and great quantities of supplies also have fallen into their hands. Some of the prisoners taken have been identified as coming from Austro-Hungarian units.

Resisting Desperately.
The Germans are launching strong counter-attacks against the French between the Oise and Ailette rivers in an endeavor to hold back General Mangin's army, which is threatening the entire German front in this region. Here also the Germans have been reinforced by troops from the

dual monarchy. North of Soissons, in the region of Bagneux, the French have made further progress eastward and now are abreast the railroad line running from Soissons to Laon. A considerable number of additional prisoners have fallen into French hands. As yet there has been no movement by the Germans along the Vesle River to indicate that a retirement toward the Aisne is in immediate prospect. The Americans and French in this region continue to heavily shell the enemy's back areas.

OPENING UP NEW LADIES' SUIT AND DRESS DEPARTMENT AT DINEEN'S.

Dineen has included in their already large business a new department for high-class Coats, Suits and Skirts for Women. It has been the aim of the company to make this decidedly exclusive in the quality and model of the costumes they sell. Every suit shown was made specially for the firm from advance designs, and the fact that the department is opened only a short time should carry with it the suggestion that everything is positively new. While the goods offered are of the most modern design, they are not high priced. Blouses, Sweater Coats, Millinery, Hosiery and Furs as well.

FRENCH NOW HOLDING SOUTH BANK OF OISE

Command Road From Chauny to Soissons and Also the Laon Railroad.

With the French Army in France, Aug. 25.—The first phase of the battle of the Aisne and the Oise has put the French in solid possession of the entire south bank of the Oise, west of the Ailette, and also the Ailette River from the Oise to Pont St. Marie. At a point near where it is crossed by the road from Chauny to Soissons, General Mangin's men along the Ailette and further south, at Crecy-aux-Monts, Pommiers, and Juvigny, command this important road all the way from Soissons to the Oise. They also command the Laon railroad, which, from the region of Crecy-le-Chateau northward, runs nearly parallel with that road. The Germans are thus thrown back upon the hilly forest region of Crecy for communication between their troops operating on the Oise above the Ailette and their troops on the Aisne east of Soissons.

BRITISH AIRMEN BOMB TOWN OF KARLSRUHE

Amsterdam, Aug. 25.—A telegram from Karlsruhe on Friday to The Frankfort Zeitung, a copy of which has been received here, says that ten British airmen bombed Karlsruhe at 9 o'clock that morning. Most of the bombs fell in the open country, resulting in considerable damage to private dwelling houses in some places. Nine persons were killed and five injured. Five of the attacking airplanes, according to the telegram, were destroyed.

DEFINITELY DECIDED THE FORTUNES OF WAR

Paris, Aug. 25.—"The fine victories of these past weeks have definitely decided the fortunes of war," says M. Clemenceau, the French premier, in a message today thanking the departmental councils which voted congratulations to government on the trend of the war.

Advances By French On Ailette-Aisne Line

Allies Take Four Hundred Prisoners in Fighting East of Bagneux--Austrian Reinforcements Arrive --Americans Progress From Fismes.

Paris, Aug. 25.—The French have continued their progress east of Bagneux, between the Ailette and the Aisne, according to the war office announcement tonight. They repulsed counter-attacks west of Crecy-aux-Monts. Four hundred additional prisoners have been taken. The text of the statement says:

"Both artilleries were active in the neighborhood of Lassigny today. Between the Ailette and the Aisne we made new progress east of Bagneux and repulsed enemy counter-attacks west of Crecy-aux-Mont. We captured 400 prisoners."

"The American troops in the Fismes sector have advanced as far north as the Soissons-Rheims road, according to the war office announcement last night. The statement says:

"Between the Ailette and the Aisne we have made progress south of Crecy-aux-Mont and taken about 100 prisoners."

There was quite a violent bombardment in the region of Beauvergne. Between the Ailette and the Oise French troops increased their progress east of Bagneux (northwest of Soissons). "On the right bank of the Meuse and in the Woëvre our patrols took prisoners of which a number belonged to Austro-Hungarian units."

"The American troops in the Fismes sector have advanced as far north as the Soissons-Rheims road, according to the war office announcement last night. The statement says: "Between the Ailette and the Aisne we have made progress south of Crecy-aux-Mont and taken about 100 prisoners."

"West of Fismes the American troops have carried their line as far as the Soissons-Rheims road on a front of about 800 metres."

"On Friday nine German airplanes were brought down or put out of action and a captive balloon was burned. The same day our bombing planes dropped 15,300 kilos of projectiles and fired several thousand cartridges in the region of Anizy-le-Chateau, Brancourt, Landricourt and Mortier Forest, where aerial observers had signalled important enemy reserves and convoys."

BRITISH SMASH ENEMY TO HINDENBURG LINE

Defences of Bapaume Have Either Fallen or Are Falling--Tanks Attack Road to Peronne --Advance Reaches Point Away Beyond St. Leger --German Reinforcements Fail to Stop Progress.

London, Aug. 25.—The British continue smashing the Germans towards the old Hindenburg line, which has almost been reached in the northern battle zone. The defenses of Bapaume have either already been captured or are in process of being captured. Bapaume itself must fall shortly.

Meanwhile some of the heaviest fighting of the war is going on in this section of the battlefield, for the Germans are loth to part with the town, which has great strategic value. Warlencourt, an important position just south of Bapaume, on the road to Albert—which has been widely crossed—was taken by the British after a bitter struggle in which the Germans suffered very severe losses.

Great numbers of the enemy were captured during the day, among them a large party from the third German naval division. So fast was the British advance last night and today that it was impossible to be certain where the British front lines would be located from one hour to the next.

The Germans exhibit signs of cracking at some places, but are offering desperate resistance. Many more guns, some of large calibre, have been taken. One British corps, alone, has counted eighty guns. There is evidence of confusion in the enemy rear. Units of the same divisions hurled into the battle have been taken at points separated by many miles. Quantities of material are falling into British hands because the Boche has not troubled to apply the torch or explosives.

POZIERES TAKEN.
Pozieres, to the north of Albert, fell this morning. British patrols were seen entering Martinpuich, where apparently the Boche made good his escape.

High Wood, a strong position near Longueval (northwest of Comblès), is reported captured, while Eaucourt L'Abbaye, Contalmaison, and Courcellette have been occupied by the British.

Sapignies is completely in British hands after hard fighting. At last reports a local battle within the big battle was being fought at Mory and its environs, where the lines run thru the town.

AWAY PAST ST. LEGER.
St. Leger was captured and left far behind. After having once been reported in Croisilles, the British withdrew to the outskirts. The Germans counter-attacked heavily and the British retired to the edge of the town and poured shells into the place, while pressing forward on the sides.

This practice of withdrawing from any place where heavy counter-attacks are being delivered, then shelling the area and driving past to the north and south, eventually getting into a position somewhere near the rear, has given wonderful results, not only in saving British troops, but in netting large numbers of German prisoners or in killing Germans.

At Neuville-Vitasse and almost up to the Scarpe, the line at last reports received at headquarters, ran thru the outskirts of the village and severe fighting was in progress there.

ROAD ATTACKED.
The Bapaume-Peronne road was attacked by British armored cars, which during the past 24 hours have been performing wonderful service, scouting far ahead of the infantry. Some of them have dashed thru the country, overtaking retreating enemy transport columns and inflicting terrific damage upon them and bodies of troops with their machine guns.

Co-operating with the armored cars, the tanks again have been heavily in action, some of them rolling into towns in advance of the infantry, sweeping over the debris and finishing off enemy strong points in the face of a perfect deluge of fire.

"KAMERAD" TO TANKS.
Many tanks have returned to their lines with all the paint shot off their steel sides by machine gun bullets. At some points the Germans approached the tanks as soon as they saw them, with hands high above their heads, fearfully shouting "kamerad."

When Thiépval Ridge fell into British hands yesterday, the troops pressed forward at both sides, and a large number of Germans

Men! These Suits Are Illustrative of the EATON Value

Men's Combinations, "Seconds," at \$1.29

Among the Noteworthy Values Today

Another of our very fortunate purchases enables you to purchase excellent underwear at a decided advantage. It's just the weight, too, for present or early fall wear, being made from heavy cotton merino in dark, natural shade with closed crotch; closely ribbed cuffs and ankles. The slight imperfections consist in the main of stains or other such minor defects which do not impair the wearing qualities. Sizes 34 to 44. Today, special, \$1.29.

98c for a Man's Sweater Coat is Also an Exceptional Price

These are also a special buy of odd lines that have accumulated at the factory. They are in plain Cardigan stitch, with storm collar, closely ribbed cuffs and in plain grey, also grey with brown, myrtle or maroon. Sizes 38 to 42. Not more than two coats to a customer. Today, special, 98c.

Also These Good Values for Men and Boys

Men's Work Shirts—These are EATON-made of drill shirting material in neat stripes of black and white, with attached soft turn-down collar, soft single band cuffs to button, yoke and breast pocket. Sizes 14 to 18. Each, \$1.15.

Men's Fancy Colored Shirts, made from strong serviceable shirting materials, neat stripes of blue, mauve and black in single and cluster designs, soft or laundered cuffs, coat style. Sizes 14 to 17½. Each, \$1.00.

Boys' Shirtwaists, EATON-made of fine shirting materials, good washing colors, including stripes of blue, mauve and black on light grounds, attached soft cuffs and collar, breast pocket and draw string at waist. Sizes for ages 6 to 15 years. Each, 69c.

Boys' Jerseys, made from wool and cotton mixture in fall weight, pullover style, with stand-up collar, in plain grey and brown, also navy with white or cardinal stripe collar and cuffs. Sizes 22 to 26, each, \$1.35; sizes 28 to 32, each, \$1.75.

—Main Floor, Centre.

Right in quality, right in style, right in price, are the Eaton-made suits at \$20.00, now showing in the Men's Clothing Department, main floor.

These suits are made in our factory, where expert workmen work under up-to-date conditions on materials bought directly from the mill. These suits are made from worsted finished materials woven tightly and firmly, also from softer tweeds in shades of greys and new shades of browns in small pin checks, fancy weaves, or stripes. The coats are single-breasted, shaped slightly to figure, with medium length lapels. Vest closes with five buttons. Trousers fit smoothly; linings and trimmings of a correspondingly good quality. Sizes 36 to 44. EATON priced, \$20.00.

—Main Floor, Queen St.

Men's Fur-lined Coat Specials Today

Even at this early date it is worth your while to invest in one of these coats. Supposing you are visiting the city for the first time before winter comes on or are leaving on a long trip, say out west, where a heavy coat is necessary—you may never get such an opportunity as this again. There's a limited quantity, too, so it behooves you to come early. They have marmot lining, made from whole skins well furled, and heavy black cloth shell with dyed muskrat collar (commonly known as French otter) in shawl style. Sizes 38 to 46. Today, special, \$43.50.

Men's Fall Hats at \$3.00 and \$3.50

They are in this season's styles, and colorings, in crease crown with bound or welted edges, in medium or dark grey, medium or dark green. Sizes 6¾ to 7½, each, \$3.00. In black only, each, \$3.50.

Another coat priced at \$59.00 is made with well-furred and blended muskrat lining, black cloth shell and Persian lamb collar in shawl style. Sizes 38 to 46. Today, special, \$59.00.

—Main Floor, James St.

T. EATON CO. LIMITED

These New Suits for Small Boys

The juvenile Suits which we have just received are very attractive, and the styles the very latest. A neat little white collar goes with every suit. Any boy will look well dressed in one of these suits, and mothers have the benefit of choosing from a very wide range of patterns. Make a special effort to come early today, and bring the boys.

Boys' Gunmetal Leather Boots, in laced style, with fibre rubber soles and rubber heels. Sizes 1 to 5½. Pair, \$3.95.

—Second Floor, Queen St.

GREAT DECISIONS IN IMPERIAL POLICY

Sir Robert Borden Outlines
Work of Recent London
Conference.

CANADIANS DO WELL

Signal Victory in France
Strongly Impresses Bri-
tish Opinion.

Ottawa, Aug. 25.—"The Canadian representatives," declared Sir Robert Borden today, referring to the course of an interview to the work of the imperial war conference, "carried out a definite policy of preserving complete freedom of action to the government and parliament of Canada in the policy and methods to be adopted for co-operation with other parts of the empire in any common purpose."

He referred to conclusions of great moment having been reached, adding that "before the close of the present year further important decisions must necessarily be taken."

All were impressed, the prime minister said, with the thoroughness of the Canadian military organization, and with the earnestness and devotion of officers and men in the discharge of their duties. "The magnificent spirit and efficiency of the Canadian army corps," he proceeded, "were never more manifest than in the signal victory which they recently won in the successful offensive of a few weeks ago. Striking on a wide front, they penetrated the German lines during the first two days to a depth never equalled on either side in the like period."

Work in England.

"During our stay in England," Sir Robert said, "my colleagues and I were actively and exclusively occupied in public affairs. The work of the imperial war conference, a summary of which has already been made public, covered a great variety of subjects. In some instances definite and final conclusions were reached; in other cases, committees representing Great Britain and self-governing dominions and India were set up with authority to investigate and report; in still another class, resolutions were passed recommending to the consideration of each government departments or from committees already established. With respect to the subjects embraced in these two classes, the Canadian representatives carried out a definite policy in preserving complete freedom of action to the government and parliament of Canada in the policy and methods to be adopted for co-operation with other parts of the empire in any common purpose."

ment of Canada in the policy and methods to be adopted for co-operation with other parts of the empire in any common purpose."

Confidential Decisions. "Nearly all the conclusions reached in the imperial war cabinet were of a confidential or secret nature, and therefore cannot be made public. They had a very intimate relation to the conduct of the war in the various theatres. Unity of action, further preparation, co-operation in the utilization of resources, the most effective employment of striking power, whether on land at sea or in the air—these and many other cognate subjects were under most close and prolonged consideration from first to last, with the assistance and advice of the highest experts. Conclusions of great moment were reached, and before the close of the present year further important decisions must necessarily be taken. Several of these were specially considered by a committee of the imperial war cabinet, consisting of the prime ministers of the United Kingdom and of the dominions, together with General Smuts, representing the prime minister of South Africa. Lord Milner, as secretary of state for war, was also a member. The deliberations of this committee continued up to the moment of my departure and even then had not been absolutely concluded."

Britain's Effort. "From these labors one gathers a vivid realization of Britain's mighty effort in this war. Not only in the creation and organization of immense armies, but in financial aid to all countries, furnishing them with absolutely essential supplies and with the means of transportation in providing equipment, munitions and implements of war, cannon, rifles, tanks, airplanes of a hundred different types, in the world-wide scope of naval operations in the successful fight against the submarine menace and in the construction of innumerable war craft and merchant ships the effort has been stupendous. To give but one illustration: Sixty per cent of the immense armistice that have left the shores of the United States during the past five months have been transported in British ships, without which no such task could have been accomplished."

Premiers to Communicate. "Useful arrangements have been established for direct communication between the prime ministers of the dominions, and the prime minister of the United Kingdom. While the representatives of the dominions were in London, such communication takes place through the council board, during their absence that communication will still be possible thru the arrangements which make continuous consultation possible with a minimum of delay.

"Besides the work of the war conference and the war cabinet my colleagues and I took up with the many departments of the British Government questions which could not be effectively or thoroughly dealt with by correspondence. Among the departments with whom important subjects

were discussed I may mention the war office, the admiralty, the ministry of shipping, the ministry of food, the ministry of national service, the ministry of the air force, the ministry of munitions, and the board of trade. The organization of the Canadian expeditionary force, both in Great Britain and in France, the more effective co-operation with the department of militia and defense were also discussed at several conferences with Sir Edward Kemp. Very useful progress was made and valuable results were attained. All of our colleagues were impressed with the thoroughness of the Canadian organization and with the earnestness and devotion of officers and men in the discharge of their duties."

Submarines Are Met. "Although the submarine menace still remains, and is not to be disregarded, one could not fail to notice the marked improvement in conditions as compared with those of 18 months ago. There is a steady and increasing confidence that the danger of submarine attack will be met by the new devices and appliances which have been developed by the Canadian army corps. The magnificent spirit and efficiency of the Canadian army corps were never more manifest than in the signal victory which they recently won in the successful offensive of a few weeks ago. Striking on a wide front they penetrated the German lines during the first two days to a depth never equalled on either side in the like period."

Training of Troops. "The training of the troops in Great Britain is proceeding most satisfactorily. I visited camps at Bramshott, Frensham Pond, Willey, and Sleaford, as well as some forestry camps in Great Britain, and several railway construction camps in France. The railway construction corps and the forestry corps are exceedingly efficient, and both of them are giving remarkably fine service. The same is true of the army medical service. I visited many of the hospitals, both in England and in France. Among these I saw the remains of the Canadian hospital at Etaples, which had been bombed by the Germans, and at a Red Cross hospital for nurses at Buxton I had the privilege of seeing 18 of the splendid women who survived the barbarous attacks upon the hospital at Etaples and Bouillon, where they were carrying on their mission of mercy. Several of them were suffering from wounds, and others from shock, but every one of them was ready and willing to take up her work again regardless of danger."

Service Appreciated. "Everywhere I heard warmest appreciation of the splendid service given by the Canadian Red Cross Society, by the Y.M.C.A. and other like associations. Among these the Maple Leaf club should not be forgotten. They supply sleeping accommodation for 1100 men as well as comfortable meals at very reasonable rates. The headquarters of the Canadian Red Cross Society at York Hotel, Berners

street, are much larger and more commodious than when I last visited them. A most interesting and important branch of the work there carried on is concerned with the comfort and welfare of prisoners of war. The organization is wonderfully thorough and complete. Parcels of food, clothing, and other necessities are dispatched with absolute regularity and precision. Methods are employed to make certain that they reach their destination. The devoted women who have succeeded their labors in this task have nobly earned the gratitude of the Canadian people. "Beaver Hut," established by the Canadian Y.M.C.A. on the Strand is commodious and well organized. It is daily thronged by hundreds of men on leave from the front, or from the various camps in France, and at all our camps in England. "Canadian residences in London have been made comfortable and devoted in caring for the welfare and comfort of our Canadian associates in the war. In addition to those that I have mentioned are laboring unceasingly in that good work, glad to return to important duty in Canada and I appreciate the difficulty and magnitude of the questions with which my colleagues were called upon to deal during my absence."

**ALLIED AIRMEN RAID
MANY BALKAN POINTS**
French Report Repulse of Austrian Reconnoitering Parties in Albania.

Paris, Aug. 25.—A French official communication says: "Eastern theatre, Aug. 24.—There was artillery activity along the whole front, particularly on the Struma and war of the Vardar. In Albania we repulsed enemy reconnoitering parties. French aviators brought down an enemy plane west of Monastir, and British aviators bombed enemy cantonments in the region of the Struma. "Eastern theatre, Aug. 23.—There was artillery and patrol activity along the whole Albanian front. An enemy reconnoitering party was driven back by our troops. French aviators dropped 1500 kilos of explosives on military establishments at Hudovo and Gradiste; British aviators bombed the Serez region."

ST. CATHARINES FIRE. St. Catharines, Aug. 25.—A mysterious fire broke out in the local plant of Steel and Radiation, Limited, early Saturday morning. The firemen with great difficulty, confined the blaze to the sand shed, as the nearest fire hydrant was out of order. An investigation will be made to see if the hydrant had been tampered with. The head office of the company is in Toronto. One building was totally destroyed at a loss of about \$4000.

BRITISH DAMAGE CHEMICAL WORKS

Fires and Explosions Result
From Raid at
Saaralbon.

HANGARS SET ON FIRE
Attack on Treves Railway
Station Enables Hits to
Be Made.

London, Aug. 25.—The air ministry communication on aerial activity says: "On the night of Aug. 22-23 our squadrons made a concentrated attack on hostile airfields at Pöppersweiler, on which eight tons of bombs were dropped. Several large sheds and hangars were set on fire. "One of our machines attacked the chemical factories at Saaralbon (Lorraine), where excellent results were obtained. Fires and explosions were seen after the attack. Various railways and targets were also bombed with good effect. Three of our machines are missing. "On the morning of Aug. 23 our machines successfully attacked the hostile airfield at Buhl (Alsace-Lorraine). The railway junction at Treves was also attacked, and several bursts were observed in the station and on the railway. All our machines returned safely. "The machine previously reported as missing on the night of Aug. 18-19 has been located undamaged. "On Friday night, in spite of thunderstorms, our squadrons carried out operations against the hostile airfield at Ebrange. A fire was caused and considerable damage was done at the latter place. All our machines returned safely."

Fighting in Battle. London, Aug. 24.—A supplementary official communication on aviation says: "Our machines co-operating with the ground forces, issued tonight, says: "On Aug. 23 our machines co-operated closely thru the day with our troops in the battle area, keeping in touch with their advance and reporting enemy movements. Observation for artillery fire by balloons and airplanes was carried on as usual. "Our low flying squadrons constantly attacked with machine gunfire and bombs the German infantry, wagons and guns, throwing them into confusion. Our squadrons, co-operating with tanks, silenced enemy batteries which were impeding our advance."

Raid at Carlin. A bombing raid on the German airfield at Carlin, southeast of Douai, was carried out by some of our scouts and escorted machines. Several of the hangars were set on fire by direct hits and machine gunfire was opened from a very low height on troops and transport nearby. An enemy machine which attacked our raiders was shot down. All our machines engaged in the raid returned safely. "A total of 26 tons of bombs were dropped by our airmen during the day. Twelve enemy machines were destroyed by us in air fighting and two more were brought down by light bombs on the ground. Three other hostile machines were driven down out of control. Four German balloons were shot down in flames. Four of our machines are missing. "At night, the weather was cloudy, nearly five tons of bombs were dropped by us without the loss of any machines. "During the last fortnight 328 German airplanes have been brought down by our airmen on the western front and 184 driven down out of control. The enemy balloons shot down in the same period amount to 31. The total weight of bombs dropped by us during this period was 594 tons."

ADMIRALTY ACTS TO CHECK U-BOATS

Hon. C. C. Ballantyne An-
nounces Measures to Curb
Atlantic Raiding.

Montreal, Aug. 25.—Hon. C. C. Ballantyne, minister of marine and fisheries, the only member of the premier's party to pass thru Montreal on return to Ottawa from Great Britain, stated that the overseas visit of the cabinet ministers had been a strenuous time for all concerned, and very far from being a joy-ride. So far as he was actually concerned, the visit had been utilized to confer with the British admiralty on points and policies of far-reaching effect, Mr. Ballantyne, in one statement, said that the government have discussed, and is nearer coming to a decision in regard to the permanent naval policy of the Dominion. As to the U-boat peril to Canada, Mr. Ballantyne said, "As far as my information goes there are only one or two U-boats operating on this side of the Atlantic." He stated that he had decided the matter with the British admiralty, with the result that none of which "I am not at liberty to speak" were being taken to obviate all danger from this source.

CANADIANS WOUNDED
London, Aug. 24.—The following Canadian wounded are reported: At Rouen: Capt. C. J. G. Garneau, scap, severe; Lieut. J. D. Lemoine, Quebec, head, severe. At clearing station: Lieut.-Col. H. MacI Urquhart, Manitoba, neck and chest, dangerous; Lieut. A. S. Scott, Quebec, back, slight. At Trouville: Lieut. J. Graham, Alberta, knee, slight. In London: Capt. C. W. Neal, Ontario, back, slight; Lieut. J. G. Armstrong, Alberta, leg, severe; J. J. Eyles, Ontario, abdomen, severe; G. R. Mar-ani, Quebec, shoulder, severe; J. M. Morris, Quebec, legs and arm, slight; C. V. Warner, Manitoba, arm, slight; J. H. Ingram, Saskatchewan, foot, slight. At Bristol: Lieut. E. S. Phillips, Saskatchewan, shoulder, slight; D. F. Kirby, Ontario, head, slight. At Portsmouth: Lieut. W. L. Ren-nie, Saskatchewan, toe, slight; re-ferred to duty, Capt. C. S. Burrows, Ontario.

CLAIMS WRONGFUL ARREST. Windsor, Aug. 25.—An action for \$10,000 damages has been instituted against J. W. McKinney, a local merchant, by Arthur Harding, a former employee, who claims he was arrested on a warrant sworn out by McKinney charged with theft. When Harding was arraigned in police court the case against him was dismissed.

PASSENGER BOAT AGROUND. Alpena, Mich., Aug. 25.—With more than 400 passengers on board for Michigan resorts, the Detroit and Cleveland passenger steamer City of Mackinac ran hard aground in Thunder Bay yesterday, and despite the work of half a dozen tugs to release her the vessel is still fast.

MONDAY MORNING, AUGUST 26.

An Optimistic Exhibition.

A million for the Exhibition is the
general manager, believes is within
the grasp of the people of Toronto and
their friends. In spite of the war there
never was a better chance to attain
this record. The city has a larger
population than ever before. Better
terms have been secured from the
railways than last year. After the
long strain of the war people are
more willing to be amused and in-
terested in the general affairs of the
world, which the Exhibition so well re-
presents. There is also a satisfactory
abundance of spending money, and the
six-for-a-dollar men are going to be
cleaned out early.

Lord Shaftesbury will have full
justification for optimism in the events
of the war during the last few weeks,
and the temper of Germany is under-
going a revolution which must be pain-
ful to the military party. We are sit-
ting thru the valley of the shadow,
but the dawn-light is touching the
eastern sky, and the hills of hope
catch the early gleams.

The Exhibition represents the solid
realities of our material blessings and
achievements, and we have a legiti-
mate reason for taking pleasure in
the work of our hands. Canada is a
huge country and the Exhibition en-
ables us to see that whatever may be
the case in one part of it or an-
other its unity of effort and com-
munity of interest places it as a whole
far beyond the danger involved in any
temporary or local breakdown.

The Exhibition shows us the war
at home as well as the war over-
seas, and a visit to these rich trophies
of sword and plow will help us all to
take heart again for whatever tasks
lie ahead.

The Government's Railway Policy.

Now that Sir Robert Borden is back
at Ottawa, the public are expecting
some announcement in regard to the
railway question and the reorganization
of the Canadian Northern and the
unification of that line, of the
Intercolonial and the Transcontinental,
let alone the taking over of all the
lines, as has been done in the
States.

Taxes Well Paid.

We feel justified by the splendid
showing in the city treasurer's de-
partment for the support we gave to
the policy of paying as we go, which
raised the present year's tax rate
rather higher beyond the normal than
those who have no real interest in the
war cared to have it. It must be re-
membered that the extra mills in the
tax rate were all for war purposes,
and these were what were objected to.
The people, however, had more
loyalty than the critics suspected,
and the prosperity of the city, which
had also been in question, has been
amply demonstrated in the highly
satisfactory returns on the first and
second payments of the taxes. The
proportion is higher than ever before,
it is reported, and is an all-sufficient
answer to the critics who would have
helped to keep the city in the financial
slough out of which it is now
struggling. But for the debt charges
to which such critics in the past com-
mitted us, our tax rate would prob-
ably be, apart from the special war
charges, the lowest on the continent.

The Kaiser Would Use the Distress Sign.

That the Kaiser is leaving no stone
turned in order to discover some
way to a peace without defeat is ob-
vious to those who follow all the
movements that spring up as a result
of his endeavors. One of the latest
was thru a congress held at Berlin last
month of the grand masters and chief
dignitaries of the grand lodges of
Freemasons of Germany, Austria-
Hungary, Turkey, Bulgaria and Fin-
land.

It is believed that this congress was
convened by the Kaiser for the pur-
pose of organizing some concerted ac-
tion by the Freemasons of the central
powers in the direction of the Free-
masons of the entente countries with a
view to peace propaganda.

The sovereign grand commander
of the southern jurisdiction, Mr.
George Fleming, in an interview on
this head, stated that the Freemasons
of the United States do not desire to
aid in bringing about any kind of
peace except such a one as shall meet
the full approval of the government of
the United States, in accord with the
principles already laid down by Presi-
dent Wilson.

In the early days of the war, before
the blacker crimes of German war just
had taken place, the grand master of
one of the leading grand lodges of the
United States wrote a letter to the
grand masters of Germany proposing

that British and French Masons pri-
soners be recognized as Masons, Ger-
man prisoners to be similarly recog-
nized. No favors were asked, but
simply that they be received with a
smile or a pat on the shoulder.

The German grand master wrote
back: "No; they are our enemies, and
Masonry in Germany means nothing
in war."

It indicates the attitude to which the
Kaiser is reduced when he now desires
that Masonry in Germany shall begin
to mean something in war after all.
The German people have a bitter les-
son to learn, but they are beginning to
see that they do not know everything
yet, and that a good deal of their
knowledge was of things that were not
so. A change of school masters is
what is most needed, and when they
get rid of the Hohenzollerns they will
learn more quickly.

A Settlement Possible.

It appears that the report attrib-
uting a sudden conversion to home rule
in Ireland to Sir James Campbell, the
lord chancellor, has been the result
of what he considered "unfair misre-
presentation" of his speech.
From the day war was declared,
he says, he has always and in the
interests of his country and the em-
pire, considered it his duty, even at
some straining of his life-long con-
victions, to work for a solution of the
Irish question by consent. He clearly
intimated in his speech, he states,
that any settlement by consent must
be the result of agreement, and con-
sent on the part of a united Ireland,
and conditional upon a fair and pro-
portional contribution, on Ireland's
part, to voluntary enlistment.

He believes that any fair-minded
critic would see that in stipulating
for settlement by consent, he was
necessarily excluding any coercion of
Ulster which he has always considered
unthinkable and impossible.

The main point in the situation is
that the lord chancellor evidently
holds a settlement by consent to be
among the possibilities.

WHAT CANADA OWES TO BRITISH MARINE

Campaign for Sailors' Week Fund
Is Now Rapidly Assum-
ing Shape.

With a view to securing the co-
operation of members of the Royal
Canadian Yacht Club, Sir Massey
will address a meeting in the club
house at the island on Monday night.
The purpose of Mr. Massey's address
is to outline what Canada owes to the
British Mercantile Marine, also to se-
cure the assistance of the organiza-
tion in canvassing residents of the
island and people who visit the island
for subscriptions for the \$1,000,000
"Sailors' Week" Fund, Sept. 1 to 7.

The campaign is rapidly assuming
shape, and the various committees are
vying with each other in their anxiety
to have everything in perfect trim
for the final effort.
Sir John Eaton is lending his en-
ergy to the event as provincial chair-
man, while Sir Edmund Walker is ca-
pably filling the office of honorary
treasurer. The publicity committee,
under the able leadership of Mr. H. N.
Cowan, president of the Cowan-Cocca
Company, is doing wonders. With Mr.
Cowan are Messrs J. Ross, general
manager of the Wrigley-Chewing
Gum Co.; J. E. Gannon, manager of the
Sunlight Soap Co.; A. Hewitt of
the Consumers' Gas Co.; C. T. Pearce,
managing director of the McKim Ad-
vertising Agency; E. L. Ruddy, man-
ager of the B. L. Ruddy, Outdoor Ad-
vertising Co.; F. Stone of Rolph,
Clark and Stone, lithographers; H.
Coryell of the Adams Furniture Co.;
E. J. W. Barker, A. P. Taylor, George
Brigden of the Brigidens, Ltd., en-
gravers; O'Neill and R. Connable, gen-
eral manager of the Woolworth
Stores.

A. M. Hoberlin, president of Hob-
berlin's, Ltd., chairman of the
executive committee, Commodore
Aemilius Jarvis, is president of the
Ontario organization. Col. C. G. Wil-
liams had been received at Toronto
speakers and arrange for the oral dis-
semination of matters pertaining to
the campaign. Pertinent questions are
dealt with by J. J. Vaughan, chairman
of the special committee, Mr. T. Mc-
Murrich is secretary of the executive
committee. Telegraph and other cor-
respondence is in the hands of Mr. R.
Brown and Mr. L. Martin, aided by
Messrs M. Davidson and Whitaker,
care of the accounts. Mr. W. T.
Gregory, advertising manager of the
Cowan-Cocca Co., is purchasing agent
for the campaign.

With Mr. Frank Wise head of the
divisional committees, and Rev. Father
Burke, Messrs Lind and Hayes, division-
al chairmen, the organization has a
splendid quartet to induce the people
to contribute. Miss G. R. Baker, promi-
nent in previous patriotic campaigns,
is an able leader of the magnificent
women who are going out among their
sex during "Sailors' Week."

The whole attention of the executive
committee is now directed toward the
partition of the city into districts, so
that when "Sailors' Week" dawns the
stage will be set for the final act.

TORONTO SOLDIERS WIN BELGIAN HONORS

Two Toronto soldiers and one from
Orillia have been awarded the Belgian
Croix de Guerre. Their decorations
have just been received at Toronto
military headquarters, so that they can
be mailed to the heroic soldiers' rela-
tives. The decoration winners are:
Sergeant G. A. Gurr, the medal to be sent
to Mrs. Gurr, 440 Wellesley street, Tor-
onto; Corp. C. H. Pentney, to be sent
to Mrs. G. Pentney, 20 Muriel avenue,
and Sapper Genet of Orillia. Distinguished
Conduct Medal awarded to Corp. W. Berry has also been re-
ceived. It will be sent to Mrs. James
Berry, of Hamilton.

A Line of Cheer Each Day of the Year

By John Kendrick Bangs.

THE BEE.
I do not love the buzzing bee because
he keeps so busy.
I grant his vast activity doth fairly
make me dizzy.
What I like best about him is that while
he works pursuing
He seems to find such perfect bliss in
doing what he's doing.
He does the thing he has to do with
truly joyous vigor,
And dances clover-patches thru just like
a happy jigger.
And that's the way I like to see a chap
take up his labor.
And that is why I deem the bee a mighty
worthy neighbor.

From the Papers of the United States

Can't Disrupt the Alliance.
New York Herald: It is because Ger-
many knows that absolute accord exists
between the entente and the United
States that she is seeking to disrupt an
alliance which, although it has not been
reduced to writing, is far more binding
than any treaty which Germany has
ever subscribed. There can be a "gen-
tleman's agreement" among civilized
nations, and there is.

Wife Not Coward's Shield.
New York Sun: Blacker bachelorhood
is saved the trial of choosing between
matrimony and the army by Secretary
Baker's announcement that a wife will
not be effective as a coward's shield.

Freedom of the Seas.
New York World: It would be dis-
heartening to the German people to
hear if they were allowed to receive
the information that every six minutes
a merchant vessel arrives at another
leaves an American port and that from
north Atlantic seaports one departs for
Europe every forty minutes.

Why They Are Poor Sports.
New York Sun: Some persons who
like to dig around the dusty roots of
things has declared that the German is
sincerely desirous of peace, but lack-
ing in a sense of justice, because, as a
child, he plays no games which have as
their basis play and good sportsman-
ship. Whether this or something more
obscure is the reason for it, the Germans
are showing themselves to be bad losers,
as well as brutal winners. They don't
like the use of their own medicine. The
saucy they prepare for others is unrel-
ished by themselves.

The Way of the Hun.
New York Herald: In killing women
and babies by sinking passenger steamships,
the Germans seem to believe that their
enemies will be terrified with menaces
into suing for peace. Apparently they
totally ignore the fact that these acts
use interest only the more deter-
mined to destroy forever their power to
repeat such deeds.

From Canadian Papers

Honest Criticism Useful.
Winnipeg Tribune: Criticism—honest
criticism is not to be feared. It is
useful, and the absence of it often-
times leads to lassitude and indifference.

Spain's Firm Stand.
London Advertiser: Spain sent no
note to Germany recently, but in the
note she is reported to have sent she
informed Germany of her intention to
use interest only the more deter-
mined to destroy forever their power to
repeat such deeds.

Breaking Down Barriers.
Ottawa Journal: The war has tended
to break down this diplomatic fence be-
tween London and Washington. Matters
of importance which formerly could
not wait for the exercise of the
usual formalities, and the two govern-
ments have come into closer touch.
It is now believed that thru Lord Reading
is being sought the best way of making
this closer connection permanent. The
future holds great possibilities.

Hearst's Case.
Halifax Chronicle: The people, the
common people, are taking care of
Hearst's case. They are thinking of
his papers. They have struck him in
his weak spot—his pocket. They have
boycotted the news agents who sell his
paper. They have organized an Anti-
Hearst League and each member wears
a button, "I don't read Hearst papers."
They are out to "get" Hearst as he
sees what the result will be.

BUILDING AND REAL ESTATE.

A Chicago Man Talks of Building
Workers' Homes in Old St.
Paul's Ward.

There is quite a demand for many
lines of building material. If loans at
reasonable rates are forthcoming many
people would build houses, notwith-
standing the high price of all material.
Any kind of a house can be sold these
days, and a builder with a row nearing
completion has only to say what the
customer.

The Davies Estate are offering three
big blocks of land on Broadview, north
of Danforth, and have had inquiries
from several big operators.
The Leaside munitions plant are
building a lot of houses near the fac-
tory, and the Canadian Northern man-
agement will have to follow suit and
put up dwellings for the yardmen and
mechanics that will be moved up there
within a month.

A Chicago man was here the other
day looking into the house problem.
He hopes to be able to arrange for a
lot of American money to come in here,
buy up several blocks of land with
poor houses on them between Queen
and East Dundas street, on this side
of the Don, and put up small apart-
ment houses for two and four families.
He said that district would be the
most central for the factories and in-
dustries of Toronto. He added it was a
shame to see all the little old houses
in St. David's, Sydenham and adjacent
streets, where fine small modern apart-
ments could take their place with reas-
onable rents.

SEPTEMBER IN ALGONQUIN PARK.

Algonquin Park is situated at an alti-
tude of 2000 feet above the level of the
sea. Two hundred miles north of To-
ronto and 150 miles west of Ottawa. The
"Highland Inn", a charming hotel, af-
fords most comfortable accommodation
at reasonable rates. It is heated by
steam, and has a fine restaurant and
billiard parlour. The "Highland Inn" is
operated by the Grand Trunk Railway
to Mrs. G. Pentney, 20 Muriel avenue,
and Sapper Genet of Orillia. Distinguished
Conduct Medal awarded to Corp. W. Berry has also been re-
ceived. It will be sent to Mrs. James
Berry, of Hamilton.

THE WIFE

By JANE PHELPS

Ruth Takes Position With Fifth
Avenue Decorating Firm.

CHAPTER XIX.

Ruth dressed with unusual care,
even for her. She wore one of her
trousseau dresses, a quiet but elegant
street dress. When she emerged from
the little hallway leading to her flat
she was flawless from the tip of her
close-fitting toque, which covered but
could not hide her glossy hair.

She went first to one of the large
Fifth Avenue shops—a very exclusive
one, by the way. They received her
courteously, as would any man.
Women of her type, clothed as she
was that morning, are not often
found seeking work.

But to their sorrow they had no
place for her. They had expert
all departments and trained assist-
ants. If she would leave her address
they would bear her in mind.

Ruth had no intention of giving her
address. She herself realized that,
considering the way she dressed, it
was incongruous. So she simply told
them she would perhaps call again if
she found nothing soon. They urged
her to do so, and with a sinking feel-
ing she departed.

"I mustn't be discouraged because
they wouldn't try me at my first
place," she soothed herself, as she
walked down the street.

Her experience at the next place, a
larger establishment, was almost
identical.

"They are letting me down easy,"
she murmured, using an expression of
Brian's, and smiling grimly.
At the next shop they were willing
to try her, but the salary offered was
so small, she continued on her way.
If she could do better she would not
take it; if not, she might try—so she
told the bewildered man who had
talked to her.

"It may be filled. Better take it
while you can get it," he said with an
ingratiating smile. But Ruth shook her
head.

The next place on her list was a
small but select shop which she had
often admired as she passed, because
of the exquisite taste shown in the
ranging of the window, as well as be-
cause of the unusual and beautiful ma-
terials shown.

"I wish I could get in here!" she
said to herself as she waited while the
clerk called someone in authority.

After talking to the proprietor,
a man of attractive appearance,
about forty years old, asked her to
step into his private office with him.
He was seated in what Ruth had
told him of herself; about her love for
the work which had fascinated her
since childhood. Her clothes proved
her taste, and she herself intrigued
him to know her further.

"Now tell me WHY you want
work?" he asked, leaning back in his
closed chair. "Your clothes do not
indicate the necessity."
"I wish I could get in here!" she
said, trying to think of a better answer
than the question which she emphasized,
had been put in a kindly voice. "My
husband has been married but a few months.
My aunt, with whom I lived up to the
time of my marriage, is a very wealthy
woman, and she has bought me a trousseau."

"I take it then that your husband is
not wealthy?"

"No, he is a young lawyer," as if
that explained their poverty.

"I see. And while he is waiting for
clients you want to help keep the pot
boiling?"

"Yes, partly that!" Ruth hesitated,
then confessed: "But I hate house-
work. We cannot afford to hire a
maid, so I decided to try and do some-
thing more congenial and then have a
woman to do the work at home."

"I was a maid," said Arthur Mandel
reminiscently, thinking that the faintly
creature before him was surely out of
place in a kitchen.

Ruth waited. There was no more to
tell. Was he simply curious about her
or was he intending to give her
work? Finally he said:

"I will give you twenty dollars a
week at first. If you prove as able
as I imagine you will, you soon will
be worth more. My head woman was
married two weeks ago. I have not
yet filled her place. In fact I had no
hope of being able to for some time.
She had been with us twelve years,
and, besides knowing her part of the
business, could attend to much that
did not come directly in her depart-
ment."

"She must have been very valuable."
Ruth said inaudibly, thinking she would
try awfully hard to fill that other
woman's place, and wondering what
they paid her.

"When can you come?" Mr. Mandel
asked.

"At once. Tomorrow morning if you
want me to." Ruth replied, her
thoughts on Brian and what he would
try to her high-handed way of doing
things.

"Very well. Nine o'clock or even
half-past will do. Our hours are not
long. But we keep very busy during
the time we remain open," so letting
Ruth see he expected her to be "on
the job," as Brian would say.

Ruth bade him good morning. He
politely opened the door for her. Per-
haps it was just as well that she did
not know his eyes followed her with
admiration until she gained the street.

MISSING SOLDIER WRITES TO MOTHER

Good news has just been received
by Mrs. Park, 235 Royce avenue,
whose four sons have all been fighting
in the British forces. For the past four
months one of the sons, Pte. George
Park, of the Sherwood Foresters, had
been among the missing. He was
taken a prisoner March 24 and taken
to a German prison camp. By some
strange mischance, no tidings could be
obtained thru official sources, but the
good news has now arrived in a letter
from the young soldier himself, in
which he states that he is in good
health.

Another of Mrs. Park's sons is in
the army in East Africa, and the two
others are serving in the British navy.
They have two sisters in Toronto, Mrs.
J. M. Sinclair, of 1959 East Queen, Kew
Beach, and Mrs. W. Gray, of 1654 West
Queen street.

FOLLIES OF THE PASSING SHOW—By Mitchell

What information could a mere traveler possibly want about jewelry?

OPERATORS' STRIKE IS NOW IMMINENT

C. P. R. Telegraphers Demand
That Minority Report of
Board Be Accepted.

The C.P.R. operators, at their Sun-
day afternoon session at the Forest-
ers' Hall, College street, near Yonge,
took a strike vote, deciding to go out
on strike unless the minority report
of the recent board of arbitration was
accepted by the company. At the
same time the G.N.W. operators, at
an overflow session in the same build-
ing, decided unanimously to strike
within ten hours of the C.P.R. opera-
tors, if the latter should find it neces-
sary to walk out.

C. E. Malette, the general vice-
president of the Commercial Tele-
graphers' Union, stated on Sunday
night that the prospects for an am-
icable settlement of the question were
not of the best. Both the C.P.R. and
the G.N.W. operators were united in
deciding to force the issue. With the
C.P.R. there was only one issue to be
fought, that of the wage scale; with
the G.N.W. operators the situation
was more complicated, the issue be-
ing moral as well as economic.

The board of arbitration, which met
recently in Montreal to investigate
the dispute between the C.P.R. em-
ployees and the company as to the
question of wages had submitted a
majority and a minority report, at
former raising the present scale 25

per cent., and the other calling for a
direct minimum of \$10 a month and
a maximum of \$120. The employees at
their session decided to force the ac-
ceptance of the report, calling for a
direct minimum maximum wage
scale. Both the C.P.R. and the G.N.
W. operators are united in the opin-
ion that a standard wage scale should
go into effect for both organizations,
and they will wage an economic fight
to this end.

HOME FOR AGED PEOPLE.

Over \$7000 was raised by the Toronto
Jews for the endowment of a home
for aged people. A meeting of the or-
ganizing committee was held at 120
D'Arny street, where it was announced
that the home would be opened Sept.
2. Following were the officers elec-
ted: C. Wilson, president, and A.
Shear, treasurer.

A Real Thirst Quencher

Oh boy, this is the life! A real thirst quencher for
the route march, that has water trimmed a mile
when it comes to satisfying that craving for a long,
cool, refreshing drink.

O'Keefe's
DRY GINGER ALE

is the stuff that will do it. A couple of bottles in
the lavacost make the long marches easier.

We also make Belfast Ginger Ale, Cola, Ginger
Beer, Lemon Sour, etc. A flavor for every taste.

If you prefer Beer, order O'Keefe's.
Sold at restaurants, hotels, cafes,
restaurants and refreshment booths.

O'KEEFE'S - TORONTO

News From The Sunday World

GENERAL

Sir Robert Borden presides over meeting of the cabinet council, 30 minutes after his arrival in Ottawa from abroad. The Canadian premier crosses Atlantic in five days and 19 hours, the boat in which he crossed, making her record trip since the war. Enemy submarines appear off Canadian Atlantic coast and sink several small craft. German express is reported suffering from heart trouble. The arbitration treaty between Japan and the United States is extended five years. Treaty is signed governing drafts of Italians in the United States and Americans in Italy. Major Ream, an American with the British-American flying mission, is killed near Belleville, Ill.

LOCAL

Archie Rice, 1001 Dufferin street, an employee of the Canadian National Company, is drowned in the new Cherry street channel. Five barrels, labeled olives, captured in Oakville by the police, are found to contain many gallons of whiskey hidden beneath a small portion of olives. Another barrel, labeled fish, is seized at Port Credit, containing a large number of bottles of Imperial whiskey. Lieut.-Colonel Noel Marshall and Kenneth J. Dunn, police, are found trip to France in connection with activities of the Red Cross.

LATE ARMY ORDERS.

Chaplain Placed on Reserve List and Other Changes.

Hon. Capt. Chaplain J. McNeil and Hon. Capt. Chaplain Herbert Woodcock have been placed on the reserve list of officers.

Lieut. Chas. Cavers has been granted his discharge and struck off the strength of the Canadian Expeditionary Force, to resume civil occupation. Capt. T. H. Crews and Capt. Moreley E. Gorman have been attached to the Army Medical Corps Training Depot at Toronto district. Nursing Sister Irene Lamarche has been struck off the strength of the Toronto District Depot.

Harper, customs broker, 39 West Wellington street, corner Bay, Adelaide.

RAILWAY BOARD MEETING.

The board of railway commissioners for Canada will meet at the central station building, Ottawa, tomorrow at 10 o'clock in the forenoon. Two cases for hearing are the Hamilton Radial and Electric Railway Company for an order authorizing the applicants to build and construct a siding or switch from the railway company's main line on Wilson street, in the City of Hamilton, into the premises of the Talman and Metal Company, Limited. The board will also hear the Hamilton Radial and Electric Railway Company for permission to increase commutation fares for the carrying of passengers between points on the Vancouver and Fraser River Valley Railway.

COMING TO CANADA.

The International Nickel Company is getting ready to make their head office in Canada, so The World was told last night. There is also a story that the Standard Oil Company may move into the Dominion before President Wilson takes over that great corporation.

CARLTON CAR HITS

WELL-FILLED MOTOR

Several people had a narrow escape from death when a motor car was struck by a Carlton street car at 4:50 Sunday afternoon, at the corner of College street and Sheridan avenue.

Three women, who were in the machine, were slightly injured, while the driver, whose name could not be ascertained, was uninjured.

Miss G. Stewart, 364 Sorauren avenue, was thrown out of the machine and sustained slight injuries to the chest, back and hand. She was given medical attention by Dr. Pawns, College street, and was later removed to her home. Anne Stewart, a sister, and Mrs. Stewart, the girl's mother, were shaken up by the shock.

The car was badly damaged. The street car was driven by Motorman Harry Jenkins, 33 Empire avenue.

FOOD PRODUCTION IS DOMINANT NOTE

Canadian National Exhibition Keeps in Line With Needs of Country.

In a most remarkable way has the Canadian National Exhibition this year kept in splendid alignment with the vital needs of the Dominion. In the fourth year of the war, Production and conservation has become the dominant domestic note in Canada, and in regard to the essential matter of food-stuffs, it is exemplified in a significant and highly instructive manner. The agricultural section is particularly complete. As the Civil War in United States made it possible for Cyrus McCormick to exploit and perfect the binder, so has this war, thru the consequent loss of man-power, opened the way for a wide-spread application of power machinery to farm work. On the production side accordingly the exhibit of agricultural machinery is especially important. The power tractor is the central feature, and is to be seen in a variety of designs. Along with the tractors are ploughs, mowers, binders, threshers, milking machines and a score of other appliances that are of direct service to the housewife.

Patriotic Food Exhibit.

Coupled with this is the patriotic food exhibit in the educational building, which has been organized by the Canada Food Board.

Throughout the entire course of the fair daily demonstrations will be given on the preparation of food from the standpoint of war-time economy. All that has been learned by Miss Canada since the war started in food conservation and substitution will be shown by experts from the Macdonald Institutes of Ontario and Quebec, the domestic science department of Toronto University, the women's institutes of Ontario and the organization of resources committee.

Great pains have been exercised in the preparation of this series of demonstrations, which will take place in the tire range of victuals that enter into daily home consumption. These demonstrations, apart from the interest which attaches to them, will undoubtedly be popular on account of the patriotic aspect of such work at this time.

LORD SHAUGHNESSY

ITINERARY FOR TODAY

Lord Shaughnessy is due to arrive at North Toronto station early this morning. At ten o'clock he will be met by President Russell, and will proceed to the city hall to meet the mayor and members of the city council. At eleven-thirty there will be a meeting with the members of the commission on industrial reconstruction, of which Lord Shaughnessy is honorary president. At one o'clock, Lord Shaughnessy will take luncheon with the directors of the Exhibition, and at two-thirty, in the amphitheatre of the dairy building, will declare this year's Exhibition formally open. From the opening ceremonies he will go to the railway building to receive a message from New York, over the direct wire which is installed in the C.P.R. exhibit, which has been connected with the Canadian Press wire, and will furnish a war bulletin service during the fair.

Lord Shaughnessy will go to the grand stand to meet the Great War Veterans.

AIR MECHANICS' AID

IS STILL UNDECIDED

The matter of whether aid by the Toronto and York County Patriotic Association to the relatives of the air mechanics in the R.A.F. shall be withdrawn is still undecided. Because a considerable proportion of the air mechanics are receiving an added pay owing to skill in the planes and their wives getting the separation allowances from Ottawa, the question of the necessity of financial aid to the families of the Toronto and York organization has been under discussion, and it has been rumored that the cancellation of payments to the air mechanics' families would take place.

LODGES

PICNIC IS POSTPONED.

The annual picnic of Danforth Lodge, No. 418, O.O.F., which was to have been held last Saturday afternoon at Monarch Park, Danforth avenue, had to be postponed on account of the wet weather. The date when it will be held has not yet been fixed, but it is expected that it will be either next Saturday or Saturday week.

BRITANNIA LODGE PICNIC.

The annual picnic of Britannia, L. O. L. No. 1388, was held at Centre Island Saturday afternoon, when a pleasant time was spent. Owing to the threatening weather, the picnic was not so good as had been anticipated, only about 60 being present, but a very fine program of sporting events roused considerable enthusiasm. There were games and races for the children up to sixteen years of age, and supper was served under the trees. The proceedings were in charge of W. Logan, W. M.

POLICE MAKE CAPTURE

AFTER STREET CHASE

Alleged to have attempted to pick a man's pocket on a Queen street car last night, Izzy Rubenstein, 287 Simcoe street, was arrested yesterday evening by Sergeant Wilson of Claremont street station, after a chase.

Rubenstein is said to have attempted to pick the pockets of Detrimo Madrego, who was standing in a crowd on the back of the car. The man felt the fellow put his hand in his pockets, it is said, and made a dash for it. Both jumped off the car and Rubenstein was arrested by the officer after a chase up the street.

MANY AT GARDEN PARTY

Over two thousand guests attended the garden party of the Holy Name Church, held in the school grounds, Denforth and Carlaw avenues, last Saturday. A feature of the party was the drawing of a diamond ring donated by the Catholic Order of Foresters, in aid of the church, which was won by W. Smith, 187 Sunnyside street.

TORONTO OFFICERS IN CASUALTY LISTS

Lieut. Norman Austin, reported as killed in action, went overseas with the 198th Canadian Buffs Battalion and had been on active service in France for the past ten months. His wife, Mrs. Austin of Haliburton, Apartments, Dufferin street, Prior to going overseas he was employed with Gunns, Ltd., Toronto.

Pte. George D. Martin, previously reported as wounded by gunshot in the chest and abdomen, is now reported dangerously ill. His family reside at 25 Summerhill avenue. He is the only son of George K. Martin of the Imperial Guarantee and Accident Company. He is a well-known member of the Y.M.C.A. and of Jarvis Street Baptist Church. He went overseas as a sergeant in the 198th Battalion, but reverted to the ranks in order to reach the front more quickly.

Lieut. Bruce S. Reid of the Siege Battery Royal Garrison Artillery, is reported to have been killed in action on August 6. He went overseas with the first Railway Construction Corps, but transferred to the artillery in 1916 and received his commission in March of last year. A few months ago he was killed by the German artillery for nine hours, receiving a wound in the foot, which necessitated two months' treatment in hospital. Mrs. J. A. Reid, his mother, has five sons who went overseas.

Lieut. Bruce S. Reid is the second of her sons to fall in action on the battlefields of France. Major George A. Reid having been killed two years ago.

Serg. E. Brownridge, 102 Wheeler avenue, who has received a gunshot wound in the right leg, has served with much distinction having been awarded both the Military Medal for gallant action under fire and the Belgian Croix de Guerre. He is a Yorkist and has been in Canada for 12 years prior to enlisting.

Lance-Corporal W. H. Webster, brother of Mrs. Jones, 811-2 Bouthie avenue, is distinguished by having been killed in action. He went overseas from Toronto, had been awarded the Military Medal for valor on the aid of battle and had been in service at the front for two years. Three of his brothers are fighting in France.

AGGRAVATED ASSAULT.

Demitro Nastasowski, 357 West Adelaide street, was arrested yesterday by Detective Walter McConnell of Court street station, on a charge of aggravated assault.

TORONTO PROSPEROUS DESPITE THE WAR

City's Returns Show Big Increase in Assessment and Population.

With an increase of 13,732 in the city's population from the six wards from which returns have been received, and an increase of \$14,101,329 in assessment, Toronto seems to be thriving despite the war. The returns for Ward Three are not in yet. The total increase in assessment for the whole city last year was \$18,587,117, and this will be greatly exceeded this year when Ward Three returns are received. Last year's increase in population was 13,807, and this is already exceeded this year with the figures not completed.

In Ward Four the returns from which were completed on Saturday there has been a large increase as the following shows:

	1917.	1918.
Land	\$46,153,713	\$46,625,556
Buildings	\$4,312,089	\$4,414,511
Business	7,651,095	7,226,801
Income	5,237,622	4,313,904

Total \$53,955,519 \$51,580,673 \$2,374,846

Exemptions 20,685,250 20,838,906 \$179,656

Population 67,551 81,283 13,732

*Decrease.

The decrease in exemptions is due to the leasing of harbor land to the Dominion Shipbuilding Company at the foot of Bathurst street.

The Canadian Pacific is advertising \$12.00 rate to Winnipeg for farm laborers.

The Leafs Now Lead By 2½ Games

BINGOS' TURN NEXT LEAFS ARE READY

Rochester Has Duck Soup for the Howleyites in Both Games Saturday.

By Ida L. Webster.

Well, today is the day, and if the Leafs are as easy as the Rochester gang proved to be, there will not be a thing in the world to it but the pennant. Can you imagine what the crew did to Arthur Irwin and his children? Speaking of duck soup—they were about the nicest dish of that delectable refreshment which has been served around these parts in a long while.

Saturday was just a repetition of the other days, only more so. In other words, they did not have the slightest chance on earth to win, while, on the other hand, the Leafs could have one the stretch for another four hours without any apparent strain upon their nervous systems. Both battles were shut-outs, and they were both well worth the name of baseball.

Herche pitched the first stanza, with Babe catching. All we can say is that Bugs was in form, and with something on the ball every time that it dashed up there. Even Huntington was at his mercy, so you know that he was at top speed all the way.

Peterson was the second choice, and he inclined to be a trifle generous with his hits, still he was good enough to keep the hustling Howleyites in their place. As is usual with Pete, he improved as the game progressed and had the gas turned out to be a 19-inning affair he could have gone the pace and come out smiling. This trick, and getting off mighty good jokes, are the young blonde's specialties.

Cosy Made a Hit. Cosy Dolan was the big hit of the show during the entire day. In the first place he got a toe hold on the fans while he was in practice. His antics were extremely funny, and he drew rounds of applause, which, by the way, he appeared not to notice in any way. Then his work at short was quite the most outstanding which has been seen in many days at the island. Wagner did some wonderful stunts when he played the position, but, honestly, it is doubtful whether he ever in his palmy days, pulled more than a few acrobatic plays than young Dolan.

Not only that, but Cosy is always a very sure of himself. However, he did make one error on a decidedly easy one, but these things will happen in 'ne best regulated ball clubs, and while they are winning who cares for trifles like that? Reiley was back at his old job and doing beautifully. There you, O'Connell, the Duke does not look as though he was enjoying the very best of health, but, notwithstanding his position, he has the handicap of affliction is to him, he played a dandy game, getting on as usual three out of four times. Not always by hits, but just the same he made the bag, and that means running bases and scoring runs.

Mokan had a big day in the field, making one particularly clever catch of a very hard hit ball. There really and truly nothing more to be said about the kid's work, because it is excellent, and also probably he may learn a lot of new tricks with the gaining of experience, yet at the present time he is typically class "A."

Anderson was another hero, and believe us, boys, the kid is clever. He made three or four of the fastest double plays anyone would care to see, besides that he jumped into the air several times and grabbed down wild looking ones, which were really truly labeled "hit." His work at the bat was quite in a class by itself. In fact, taking it all around, Mitter Anderson was one of the class attractions. Not only does this player work like a trojan on the field, but he is the official "warmer" for all the pitchers. Then after he gets the outfielding coach, he has a great finishing touch. He may be a great life for Andy with nothing to do "ill tomorrow, sort of a flash, but just the same why always he?

There is no use saying anything about the Rochester fellows, because they are out of your life for this season, at least. However, in passing it is only fair to say that Reeves in left was really one of the bunch in the field, with Estes running him a close second, and Huntington, the shortstop, bringing up the rear.

It has been announced that today Mr. Farrell, the president of the league, will be at the island, accompanied by seven friends with whom he motored up here. Just why all this information was hand-

World's Baseball Series Dates Announced to Open in Chicago

Secretary Baker Gives Official Sanction to Games Which Will Benefit the War Funds.

Chicago, Aug. 25.—The first three games of the world's baseball series will be played in Chicago, starting Wednesday, September 4. It was announced last night by President Johnson of the American League. The remaining contests, if any, will be played on the home grounds of the American League pennant winning team, likely in Boston. War charities will share in the receipts of the championship games, President Johnson said.

Chicago has won the National title, and Boston has a lead of four games in the American League. Details for the annual classic were announced by President Johnson after official sanction for the games had been given by Secretary of War Baker. The secretary, as the result of an appeal from the American League, has granted an extension of fifteen days on the work-or-fight order which affects professional baseball players, so that the series could be played. Under the new ruling players on the two contending clubs must be engaged in some essential occupation by September 15.

Baseball is expected to contribute between \$30,000 and \$40,000 to war charities under the plan suggested by the national commission, which agreed to donate ten per cent. of its revenue from the series and recommended that each league, as well as the contending clubs and participating players, officials and other officials, contribute a like amount.

For the War Fund. "The national commission could not arbitrarily rule that the players, club owners and leagues must give up a share of their receipts to war charities," President Johnson said, "but it recommended contributions to such worthy cause, and I feel confident the recommendations will be carried out."

"Basing my figures on the receipts of the Chicago Cubs, I estimate that \$30,000 and \$40,000 will be realized." Because of the demands made upon the public for contributions to patriotic causes, and also for the investment in Liberty bonds and thrift stamps, the commission decided to materially reduce the price of admission in order to enable patrons to attend the games at reasonable prices. The price of box seats will be \$1.50; pavilion seats at \$1 and bleacher seats at 50 cents.

President Johnson announced that the national commission would cable reports and features of each game to the American and Canadian troops overseas. George Hildebrandt and Clarence Owen were the American League representatives in the series, while the National League selected the veteran "Hank" O'Day and William Klein.

Binghamton comes here for a series of three games today and tomorrow. Today's double-header will be the first of the series. The Binghamton team will be the first to play. The series will be played at the Binghamton grounds. The games will be played at the Binghamton grounds. The games will be played at the Binghamton grounds.

Washington Wins Two Sunday from Chicago. At Washington (American)—Shaw and Johnson each held Chicago to four hits today and Washington won both games of a double-header, 5 to 0 and 5 to 0. Lavan got four hits in as many times at bat in the second game. Scores: First game—Washington..... 5-0 Chicago..... 0-5. Second game—Washington..... 5-0 Chicago..... 0-5.

At Rochester—Newark defeated Rochester on Sunday in both halves of a double-bill, winning the first, 3 to 2, and taking the second, 2 to 6, in seven innings. Scores: First game—Rochester..... 2-3 Newark..... 3-2. Second game—Rochester..... 2-6 Newark..... 6-2.

At Cleveland, Aug. 25.—Terry Turner utility infielder of the Cleveland American League Baseball Club, was today given his unconditional release. He played on the local team for fifteen years.

At Baltimore (International) on Sunday, the two clubs won both games of a double-header from Jersey City, 5 to 3 and 4 to 3. Over six thousand fans witnessed the contests. Babe Farnham opposed Whitehouse, the Jersey City right-fielder. In the second game, which went seven innings by agreement to allow the teams to catch a train, Scores: First game—Jersey City..... 3-5 Baltimore..... 5-3. Second game—Jersey City..... 3-4 Baltimore..... 4-3.

At Rochester—Newark defeated Rochester on Sunday in both halves of a double-bill, winning the first, 3 to 2, and taking the second, 2 to 6, in seven innings. Scores: First game—Rochester..... 2-3 Newark..... 3-2. Second game—Rochester..... 2-6 Newark..... 6-2.

At Cleveland, Aug. 25.—Terry Turner utility infielder of the Cleveland American League Baseball Club, was today given his unconditional release. He played on the local team for fifteen years.

Bisons Made Record Sunday Against Hams

Buffalo, Aug. 25.—Buffalo won two games from Hamilton this afternoon, 19 to 2 and 7 to 4. The Bisons made a season's record in the first half with 14 hits. The second half was better, but Buffalo had enough strength and speed left to beat Barnhardt and his speed.

BRAZILIAN LEADER

Simple Leaf at Highest of
Year—Steel of Canada
Advances.

Strength in the New York Market
Saturday with C. P. R. holding the
leadership has the effect of imparting
some buoyancy to stocks on the
Toronto Exchange. Opening half a point
at 91-2, Brazilian advanced to
the highest point locally in several
months, and was shaded only 1-2 at
the close. The demand for Brazilian
was understood to have arisen in
anticipation of the prospect of an early
termination of the war. Steel of
Canada developed strength, rising
to 10-4, with the figure bid for
the close, and 10-5 asked. Do-
mestic was quiet and slightly
lower at 63-4.

Only five shares of Maple Leaf
changed hands, but the quotation, 118
was 1-2 above the previous high for
the year, and 118 was bid for more
than 100 shares. Ten shares of C. P.
came out at 158, four points above
Friday's closing, but reflecting to only
a limited degree the bullish demon-
stration in C. P. R. in New York. The
day's transactions amounted to 10
first sales of Canada Bread since the
issuance of the annual report, were
at 19-4 to 19-1-8, slightly higher.

C. P. R. was active and strong
on Saturday, with Scotia showing
the lead in the market. The
Canadian Locomotive eased 1-4 to
11-1-2, and Smelters 1-4 to 24-5-8.
The day's transactions amounted to 10
shares. There were no dealings in
the war loans.

Steel of Canada Makes Sharp
Advance—B. C. Fishing
in Demand.

Central, Aug. 24.—Business on the
Montreal Stock Exchange on Saturday
opened up nearly 5000 shares, the most
of Canada. Transactions amounted to
the tone of the market was extremely
buoyant, only two issues showing a de-
cline. The market was dominated by
the following:

C. P. R. CLIMBS AGAIN

C. P. R.'s fresh sensational
advance featured the New York
market on Saturday. The stock,
which closed at 170, after reach-
ing 172-1/2, is at the highest level
in two years. C. P. R. has ad-
vanced nearly 22 points since the
first of the month, and shows
a net gain of about 15 points for
the past week.

The mining market showed a strong
tone on Saturday and particular inter-
est was aroused by the further striking
demonstration of the scarcity of Hollinger.
Only a small block of the shares came
out at 4-65, a two-point advance, and
the bid was remained steady to 4-65
with no stock on offer below 4-75.
There is stated to be a steady inquiry
for Hollinger on behalf of English in-
vestors, and a number of recent orders
which have come via New York have
been traced to this source. It is believed
that much attention is being given in
London to the outlook for gold stocks
and other securities which stand to ben-
efit greatly by the coming of peace, and
that the influences which have helped
to bring about a demand for C. P. R.
within the past week will soon be re-
flected in a marked manner in the pur-
chase of such standard securities as
Hollinger, Dome and McIntyre. The
stock was steady on Saturday at 4-65 bid
and McIntyre at 1-37. Develing was in brief
demand at from 32 to 31, closing un-
changed from Friday. Lake Shore, which
closed on Friday at 1-37, was decidedly
scarce, the bid being advanced on Sat-
urday to 1-37 without bringing out any
stock.

In the Cobalt group Ophir was less
active, but the bid was firm at 7-12.
The management of the company announces
that a satisfactory agreement has been
reached with the carrying on of op-
erative development work. Mining Cor-
poration sold at 2-30, comparing with
the previous quotation of 2-20. The
declaration of the dividend and bonus has
created a better feeling in regard to this
stock.

Rockwood Oil had a turnover of 2900
shares at from 2-25 to 2-35, closing un-
changed from Friday.

Cobalt Shipments

In point of tonnage Dominion Reduction
was the heaviest shipper in the
Cobalt Camp during the week ending
Friday, Aug. 24, according to official
figures received Saturday morning
by Hamilton B. Wills, of the Royal Bank
of Canada, who has been shipping
from Cobalt. This week's list includes
the following:

McIntyre-Darragh 1 58,483
Dome Reduction 1 58,000
O'Brien Mine 1 54,010
La Rose Mine 1 75,648
(Chambers-Perkins) 1 60,800
Kerr Lake 1 115,462
Buffalo Mines 1 60,800
Totals 500,411

During the same period Nipissing was
the only bullion shipper with a con-
siderable tonnage. Reduction of
total bullion shipments from the be-
ginning of 1918 to date total 6,
494,111.76 tons of an estimated
value of \$6,118,637.41 being the refined
content sent out by nine mines as fol-
lows:

Min. Corporation 50,000
Nipissing 3,027,507.12
Kerr Lake 117,047.25
Dome Reduction 145,000.00
Buffalo 42,688.00
O'Brien 242,738.00
Timiskaming 29,667.75
Silver Eagle 2,963.00
Crown Reserve 13,970.00
Totals 6,494,111.76

In comparison with the above figures
compiled by the T. & N. O. officials,
statements from Jan. 1 to Aug. 3,
1917, showed a total of 6,821,814.74
tons of silver, worth \$5,440,873.21, while the 1918
figures to date show a total of 6,494,111.76
tons of silver, worth \$6,118,637.41. The
figures show that the output of the
mines has increased by 672,327.22 tons
and the value by \$677,764.20 over the
figures for the same period of 1917, and
the increased price of the precious white
metal makes this year's valuation \$677,
764.20 over that of 1917, and conservative
judges look for a new high record in
value to be reached by Dec. 31.

HOLLINGER'S POSITION
REMARKABLY STRONG

Estimate Places Value of Ore Res-
erve at Seventy Million Dollars.

Hamilton B. Wills, in his weekly
market letter, says in spite of the
hardships under which all producing
gold mines are operating, Hollinger
Consolidated stands out as one of
the greatest on the continent and con-
tinues to earn approximately
\$250,000 per month net. The resump-
tion of the dividend shows
clearly this company's treasury
being added to daily, and with con-
siderably over \$1,000,000 cash on hand,
it is no wonder a heavy demand for
this sterling security has sprung up
within the last week.

The reserves are valued at about
\$70,000,000. This estimate was made
by an experienced miner who was
engaged by this company, and thor-
oughly acquainted with the underground
wealth. He further stated that under
the new mine management the
results soon to be obtained would
cause unwonted surprise and cause
the stock to jump upward several
dollars per share.
