 YONGE AND QUEEN STREETS, JANUARY 15, 1897.

Setting the Pace!

What we're doing every day is full of meaning to merchants and manufacturers all over Canada. Goods are being made in our own factory cheaper than we can import them—which is one lesson. And facilities here are on a par with the best stores anywhere—which is another lesson. The best goods, the best facilities, the best values are none too good for the trade we're after, and with that statement goes the further fact that Canadian retailing is equal in every respect to the best business enterprise of the United States or Europe.

The men who call Canada any slow or Toronto any ways provincial need to look at things through our spectacles. Energy here is linked with enterprise. Come and see!

Keeping Everlastingly At It.

Fifty different things in fifty different stocks clamor for mention every day, and the best we can do is to pick out those items that'll attract general interest. With the store so much bigger and departments more numerous this column must give more and more the synopsis of what's going on upstairs and down. That makes this advertising of direct interest to thousands of shoppers. Its prices are never stupid or monotonous.

Saturday's trade will be largely interested in such items as these:

- Cloaks.** Ladies' Jackets, made of black frieze and heavy serge, double-breasted, new plated back, lined and unlined, some trimmed velvet, size 38, 40 and 42 only, regular price \$8.00. Saturday, **3.50**

THE AUDITING OF MUNICIPAL ACCOUNTS

Another judicial treasurer gone wrong. The woods are full of them. This time the treasurer of a school section in York Township is charged with a shortage of \$800. It appears his accounts were audited at the end of 1896, when it was reported by the auditor that some \$500 was overpaid to the trustees, with the readiness with which a man would attach his name to a petition for a new sidewalk. As a matter of fact, there was not a cent overpaid, and the auditor had assured the taxpayers there was over \$500 in the bank. The Government must do something to inspire more confidence in the administration of the public funds by municipal officers. A better system of auditing must be adopted. Only competent auditors must be employed, and to ensure competence it will be necessary for the Government to nominate them or prescribe their qualifications. The Government must also close up many of the rat holes by which so many delinquents escape. It was with the greatest difficulty that the ex-treasurer of Guelph was convicted and then he was sentenced for only three months. The ease with which these offenders escape stimulates others to follow their example in wrongdoing. To remedy the situation the Attorney-General must follow up every case that is reported and a new system of auditing all municipal and school board accounts must be devised.

NOISE AND DUST IN THE STREET CARS

A Parkdale correspondent complains of the faulty construction of the floors of the street railway motor cars. He says the trap doors by which access is had to the motors are of ginger-bread construction, and so badly fitted to the main body of the floor that clouds of dust are constantly filling the cars, much to the annoyance and physical discomfort of the passengers. He also complains of the nerve-debilitating noise of loose windows and of other unnecessary noises. Our correspondent has good reason for making the complaint. Noise on the cars is a standing nuisance with the traveling public. On many of the cars it is impossible to carry on a conversation. The endless grinding and rattling that is kept up must have a bad effect on the nerves. Serious physicians assert that the noise of city life is the cause of many nervous disorders, both of mind and body. There is no doubt about this. And the very place to correct this noise at its source is inside some of the Toronto Railway cars.

CEASAR—A ROMAN EMPEROR

German modification, Kaiser, Russian modification, Czar, Hanoor, ruler, state or Government. There's "things that are Caesar's," things political, politics, government. A man's civil rights, his political rights, therefore, are the rights which he possesses in common with his fellow-citizens of particular state in regard to the government of the city or rather state of which they are fellow-citizens. The people of Canada, of all classes and creeds, color and station, have one common tie, that of citizenship of Canada. In this alone are the fellow-citizens. They are joined together under a system of parliamentary government—of citizens joined together to govern themselves by a supreme power called a Parliament, and which Parliament is supposed to be the choice of all citizens qualified as voters. Every citizen who is a voter is the equal of any other citizen voter in the selection of Parliament. A Catholic is as good as a Protestant, a French-Canadian as good as a British-Canadian, a colored man as good as a white man, a layman as good as a priest, a poor man as good as a rich man. The whole parliamentary pact rests on equality in the selection of Parliament and freedom from interference in that selection.

EVERY CITIZEN IS EQUAL

Every citizen is equal of every other citizen in the selection of Parliament and the government of the country; and also subject to no interference or intimidation from any other citizen. The state or government (the citizens) is supreme in regard to government. The state guarantees to each and every one of its citizens equality in the making of Parliament and freedom from intimidation in discharging that duty as it devolves on the citizen. The law of the land says one man's vote is as good as another man's vote, and no man must intimidate a fellow-citizen when discharging his duty as a voter.

THE STATE GUARANTEES TO EACH AND EVERY ONE OF ITS CITIZENS EQUALITY

And now for the practical application of the foregoing: The priest and priests of the Catholic church in Quebec have been deliberately attempted to interfere and, we are sorry to have to say it, have effectually interfered with the freedom of many voters of that province when discharging their civil, their political duties to the state, namely, by intimidation. Intimidation of this kind means that if a voter does not vote as the priest tells him he is guilty of unpardonable sin, that the priest will deny him the consolation of religion and religious rites, that if he persists in voting against the priest he will curse him, and that if he dies unrepentant he will go down to hell, where his soul and body will be roasted in unquenchable and never-ending fire, and where he will be forever damned. This is the sort of intimidation which is manifest in both cases. The tyranny is only a question of degree. We think a few words are due the Lord's Day Alliance to refute this comparison. There is a difference in the two cases. They are not exactly parallel. In the case of the priest the intimidation is manifest in the disapproval of the editor of the Quebec hierarchy in muzzling the press of that province with the action of the Lord's Day Alliance of Ontario in seeking to compel the people to conform to their idea of Sabbath observance. Our correspondent complains that the church is a manifest in both cases. The tyranny is only a question of degree. We think a few words are due the Lord's Day Alliance to refute this comparison.

THE PLACER IN BOMBAY

Bombay, Jan. 14.—Over half the population of this city, estimated to amount to about 800,000, have fled from the plague, and the erstwhile crowded streets, docks and bazars are now recognizable. Business in pieces goods, metal, crockery and hardware has come to a standstill. The money-lenders have vanished, the courts are deserted and the Judges and officials have gone to a healthier climate. Many of the native doctors, graduates of the colleges, have fled, and those remaining refuse to attend plague cases, or when they do attend there will not touch the sufferers. Clerks and others whose vocations call them to the city daily have fled to suburban stations in the thickly populated districts. It is estimated that 800,000 persons are fleeing from the plague, and the city will soon be forced to migrate to a lack of water and sanitation. The cemeteries are already filled to overflowing and the wind is spreading the germs. The nights are made hideous by cymbals and melancholy dirges.

not equally free and on a perfect equality with himself. This is the belief that we know we are not prostituting our consciences and we have a chance of getting to Heaven.

THE ISLAND LICENSE

We are glad Premier Hardy had the courage to tell the deputation of the Toronto Prohibition Union that he waited on him yesterday that there had been less drunkenness and rowdiness on the Island subsequent to the granting of the license than previous to it. This is the evidence of the Chief of Police and of all who are competent to judge on the subject. In granting a license on the Island the Commissioners advanced the cause of temperance. The hundreds of thousands of people who visit Toronto Island every summer find it a more desirable place of resort now than they did three years ago, when the drunkenness that follows in the train of an illicit traffic was fast handing the place over to the tough element. The regulating of the traffic on the Island has had the effect of increasing its respectability and making it a perfectly safe resort for women and children, which could not always be said of it. The protest of the Prohibitionists against the re-appointment of the present Board of License Commissioners is preposterous. The Commissioners should rather be commended for the ability they displayed in the discharge of their duty towards the public.

LIVELY AT THE COLLEGE

Speakers Got Tired Yesterday in Wall Street, But Prices Advanced Nevertheless.

New York, Jan. 14.—The Evening Post's Wall-street article says: It was only in the last few hours of the day that the stock market showed any sign of life. It moved then for a time to considerable purpose. The early and complete inactivity signified nothing more than that the market was not yet ready to do business. It was not until the afternoon that the market showed any sign of life. It moved then for a time to considerable purpose. THE HOUSE OF REFUGE COMMITTEE

The House of Refuge Committee inaugurated a meeting of the Board of Education and McPherson Shoe Factory May Start Up Again After All—Little Boy Who Traveled From England Alone—Hamilton News Generally.

THE HOUSE OF REFUGE COMMITTEE

Hamilton, Jan. 14.—(Special)—The Board of Police Commissioners met this afternoon for the first time since Mayor Colquhoun was elected. Police Magistrate Jells moved that Judge Squire be re-elected chairman, and the motion was carried. Police Constable William Graham was up before the commissioners on separate charges of being on his beat and drunkness. He pleaded guilty and, on motion of Judge Jells, was dismissed.

SMALL BOY'S TRIP

John, the 7-year-old son of John Thake, 80 John-street north, arrived in this city from England last night unaccompanied. The little fellow went to England some time ago with his mother, who died in the Old Land, and the boy stayed with relatives until his father arranged for his passage back to Canada. Being so small and all alone, many persons on the journey took an interest in him, and when he arrived home he had nearly as much money as he had when he left England, notwithstanding the fact that he stayed in a Halifax hotel several days.

BOARD OF EDUCATION

The Board of Education held its final meeting to-night. The Internal Management Committee's recommendation that the offer of the T. W. C. A. to provide \$400, a teacher, material, etc., for the teaching of domestic science in the T. W. C. A. building to 100 or 125 pupils all the end of June, was carried after a long discussion, by 12 votes to 6. It was decided that the new board should meet to organize on Feb. 3 at 8 p.m.

HOPE FOR McPHERSON FACTORY

W. D. Long of the firm of Long & Blaylock said this afternoon that if the City Council grants exemption from taxation, fixes the water rates favorably and does not tax the capital stock, the McPherson shoe factory will be started up again as strong as ever, and James McPherson will be put in charge of the factory. The new firm will be known as the McPherson Company, and the capital stock will be about \$50,000.

MINOR MATTERS

As the number of applicants for civic relief has increased to a marked degree since Mayor Colquhoun's inauguration, the corporation foremen have been instructed to look for openings to put men to work, and report to the committees, which will meet next week. Messrs. R. O. and A. Mackay are negotiating for the purchase of a wrecked Acadia.

liven the attitude taken by Bishop Labreque and that assumed by Principal Caven. The one denies us freedom of thought; the other freedom of action. Bishop Labreque will not let us think. Principal Caven will allow us to act consistently with our belief. It may be irritating to know that, as far as we are concerned, our consciences approve of a national observance of the Sabbath, and yet are not allowed to act in conformity with that belief. Still we know we are not prostituting our consciences and we have a chance of getting to Heaven.

The Dead Body of an Unknown Man Found in Back of the Fraser House. St. Thomas, Ont., Jan. 14.—At Port Stanley this morning, on the hillside back of the Fraser House, the dead body of an unknown man was found. He wore a dark jacket, a soft felt hat, neck vest and light-colored pants and top boots. There was nothing in his pockets except a small piece of paper, which was a receipt for a pair of boots. The body was found in a hole in the ground, and an inquest was commenced at 4 o'clock this afternoon.
