

JOHN KAY, SON & Co., Limited FURNITURE SALE

The Furniture Section of this great business has attained such large proportions that we have been compelled to provide additional floor space by annexing a flat in the building adjoining us to the east, and workmen are now busy tearing down the dividing wall. When the alterations are completed our furniture display will occupy the whole of three immense flats and large portions of two others.

This rapid growth from the small beginning of five years ago is gratifying evidence that our efforts to provide reliable furniture, good in design and moderate in price, are appreciated by the public.

During this month we stimulate trade by price reductions of a radical character, as witness this list of a few representative items:

ARTFUL, ORT WELLS AND BELDAME

And Six Others Raced to Go in Brighton Handicap To-Day.

New York, July 7.—Synony, the great Keene 3-year-old, hailed as the champion of the year, is not expected to start to-morrow in the Brighton, the richest of all handicap races run in America. The absence of Ne-ton-Op-time colt in this famous mile and a quarter race is a source of keen disappointment to the army of racers, and especially so in view of the fact that Artful, who, in 2-year-old racing, has acknowledged defeat only to stable mate, and Ort Wells, the stout son of King Eric's taster, are both named to go to-morrow.

Beldame, whose glory has been somewhat dimmed by his recent defeat, along with Delhi, in the Brighton mile, won by Ort Wells, is also named to go to-morrow. Together, these three horses appear in the overnight race, but only the three all-time winners are expected to be ready to start.

FOUR FAVORITES FIRST AND TWO SECOND CHOICES

Friday at Brighton Beach—Crack Field in Handicap Race To-Day.

New York, July 7.—Alla Russell, Rose of Dawn, Colonial Girl and Yankee Consul were the winning favorites at Brighton Beach to-day, the other two events going to well played second choices. Colonial Girl, a mile in the fourth race, moved out and won easily by a length. Hidebrand, who rode Merry Lark, made a claim of foul against the winner, but it was not allowed. Alla Russell, winner of the second race, was bid up to \$250, but was retained by the customary \$5 bid of the stable. Summary:

First race, mile and a sixteenth—Don Royal, 111 (O'Neill), 3 to 1; Black Prince, 111 (Bullman), 15 to 1; 2; Banker, 110 (W. Knapp), 15 to 1; 3; Time 1:47 3/4. Second race, 5 1/2 furlongs—Alla Russell, 109 (Burns), 7 to 5; 1; Consistent, 109 (J. Johnson), 6 to 1; 2; Gattuso, 108 (Miller), 5 to 1; 3; Time 1:07. Third race, 6 furlongs—Rose of Dawn, 112 (Chapman), 4 to 1; 1; Diamond Pkph, 112 (Burns), 5 to 2; 2; Go to Win, 112 (O'Neill), 20 to 1; 3; Time 1:11 1/2. Fourth race, 1 1/4 miles—Colonial Girl, 120 (A. W. Root), 5 to 1; 1; Merry Lark, 102 (Hidebrand), 14 to 1; 2; Gattuso, 108 (Miller), 7 to 1; 3; Time 1:53 3/4. Fifth race, mile and a sixteenth—The Southern, 106 (W. Knapp), 6 to 1; 1; Champion, 101 (J. Walden), 10 to 1; 2; Runnels, 106 (Sperring), 7 to 1; 3; Time 1:46 1/4. Sixth race, 1 1/4 miles—Thistle Heather, 111 (Layne), 9 to 1; 1; King P. 112 (O'Neill), 6 to 1; 2; Time 1:51 1/2. Third Mate and Sandstrom also ran.

But Dodd's Kidney Pills Made Him a New Man.

Richard Quirk Doctor for a Dozen Years and Thought his Case Incurable—Dodd's Kidney Pills Cured Him.

Fortune Harbor, Nfld., July 7.—(Special)—Scores of people in this neighborhood are living proof that Dodd's Kidney Pills cure all kidney ailments from Backache to Bright's Disease. Among the most notable cures is that of Richard Quirk, who writes in a letter to me that he had been twenty years suffering from Lumbago and Kidney Disease, and at intervals was totally unable to work. He writes: "I had been told that my complaint was incurable. Reading of Dodd's Kidney Pills, I bought a box and tried them. I did so with little faith, but to my great surprise I had not taken more than half a box before I felt relief, and after the use of seven or eight boxes, I was fully cured and able to go to work. Dodd's Kidney Pills cured my Lumbago and Kidney Disease, and the best of it is I have stayed cured."

But Dodd's Kidney Pills Made Him a New Man.

HE MEANS WHAT HE SAYS

AND WILL RESIGN TO-DAY

Auditor-General Makes Final Declaration to Public Accounts Committee—No Changes in Audit Act.

Ottawa, July 7.—Hon. W. S. Fielding at the public accounts committee to-day, said that the government would not consider any amendment to the Audit Act, and that the auditor-general's conception of his duties was, in the estimation of the government, correct.

Auditor-General Macdougall appeared before the committee and definitely declared his intention of resigning, probably to-morrow. He had not resigned last year because his case was before the committee in the previous session, and he awaited their verdict. He had then to await action by the new parliament on his suggested amendments to the audit act. It appeared to him now that his suggestions would be carried.

"In view of the fact," said Mr. Macdougall, "that I felt that there was no money to be made out of this, and that I got such things as appeared to me to be necessary to enable me to do the work I would be very glad to remain. But I would not remain under any circumstances unless these recommendations were considered."

Mr. Fielding: You thought you ought not to resign at this stage.

Mr. Macdougall: Yes.
Mr. Fielding: Yet you had resigned before.

Mr. Macdougall: No, I did not. I asked for superannation before the dissolution of parliament. I was not granted it. Mr. Fielding: Was that not resignation?

Mr. Macdougall: It was not in that sense. We were getting a new parliament. It was out of the hands of the government, as I thought. That may be wrong or right logic. It was in the hands of the people of Canada.

Mr. Fielding: He had taken the auditor's failure to resign after an several occasions as evidence that he intended to do so, as evidence that he did not intend to do so now.

Mr. Macdougall repeated his regret at not getting further powers for the audit, and as it was now the end of the session he did not expect to get them. He asked for superannation on a certain basis, but whether he got it or not he would go out. He intended to do his leaving on Aug. 3, unless it was otherwise arranged by the government for his convenience. He desired to be free at the earliest possible moment.

CITY TWO HOURS LATE

LOSERS FIRE STATION SITE

Ed. Gegg yesterday disposed of the property at the northeast corner of York and Adelaide streets to an Ottawa man. The lot has a frontage of 125 feet on York street and 108 on Adelaide street, and the city was just two hours late in getting after the place for a fire station site. The price obtained is about \$30,000, for which Mr. Gegg paid \$20,000 for the lot.

Have You Heard of It?

Although the Grand Trunk service with their six trains each way between Toronto and Buffalo was unequalled, they have made it even better by the addition of a long felt want, viz: a midnight daily train leaving Toronto and Buffalo at 12:01 A.M. Pullman sleepers open at 9:30 p.m., and may be occupied until 1:30 a.m. The busy business man's train, which leaves Toronto early and reaches Buffalo next morning, or vice versa. Make reservations and secure tickets at city office, northeast corner King and Yonge streets. Do it now.

What They Think in Japan.

Ottawa, July 7.—Japan's attitude toward the hand coming into the hands of the Exclusion Act of British Columbia, and the disallowance thereof by the Dominion authorities. They express the hope that it will bring about closer relations of friendship and increased trade between Canada and Japan. Japanese immigrants are advised to conduct themselves in such a manner that people may recognize them as being worthy of friendship, not as people to be dreaded or despised.

Cuba will be a favorite winter resort for the people of North America, because of its favorable location and uniform temperature. At the time when the Northern States are clothed with snow and ice this island has the climate of June. With its fine sandy beach for bathing, its land-locked harbor for yachting, the rolling lands in the background for beautiful scenery, and Canadian people for neighbors, Ocean Beach should be the most desirable as a winter resort. The scenery on Guadiana Bay is grand and inspiring. Our estate is covered with tropical foliage. The water is so clear that the gravelly bed from ten to twenty feet below can be seen distinctly, abounding in certain sections with Spanish mackerel, a species larger than the mackerel of our Northern markets and fully as palatable.

**Purpose of the Company**  
Since Cuba obtained its independence, and since its favorable climate and fertile soil have become known, there is a growing demand among the people from "The States and Canada" for real estate holdings in this island. Naturally the desire is to be located among the Canadian people, and to know that titles are clear and valid. As the company's property is especially adapted for the establishing of a colony, and as it contains more acreage than the company could put under cultivation in many years, we have concluded to offer for sale fifty thousand acres of land divided into one-acre lots or upward of the balance will be put under cultivation for the benefit of the company. This suggested establishment of a colony is especially desirable in order to make a port of entry at Ocean Beach. The part of the tract facing the ocean near Guadiana Bay is set apart for a business and residential site. The land which we are offering for sale is the best portion of the property, as regards location for shipping facilities, being nearest the water front. The quality of the soil also is all that can be desired. There is no tax on improved real estate in Cuba. In Cuba the conditions for intensive agriculture are ideal.

The staple crops of the island will be oranges, grapefruit, lemons, limes, early vegetables, coffee, tobacco, cotton, bananas, coconuts, mangoes and such products as olives, grapes, almonds, etc., which can be successfully raised. All of these are very valuable and yield most profitably when cultivated intensively. The labor required to plant, care for and harvest them is much less than farm labor usually is in Canada, and the climate is more temperate and pleasant. The soil is light and easily worked, and the opportunity for keeping bees and poultry and for dairying offered by the closeness of the large Havana markets, where products from these lines sell readily at high prices, greatly multiplies the sources of income for the planter and furnishes something for each member of the family to do—work both pleasant and profitable.

Ballou, the historian, writing of Cuba, says: "Nowhere on the face of the globe would intelligent labor meet with a richer reward. Nowhere on the face of the globe would repose from labor be so sweet." And, finally, it may be added that the expenses of living are far less once a start is obtained. Bearing these truths in mind, let us take up the conditions and purposes which make up the present undertaking of those engaged in developing this favored spot. Extract from "Commercial Cuba in 1903," published by the U. S. Department of Commerce and Labor, August, 1903: "It will unquestionably be easy and natural for Cuba to export to the United States and other countries large quantities of vegetables, especially those of a tropical or semi-tropical habitat, and those which are in demand early in the year in northern communities. One great advantage possessed by the Cuban vegetable market is that almost all kinds of vegetables enjoy in that island a perennial growth, one crop following its predecessor immediately. In this way the producer reaps the reward of constantness, and sometimes three crops annually of all the different kinds of vegetables which he cultivates." Extract from report of A. A. Quint of Quibra Hacha, Republic of Cuba: "I planted a quarter acre with tomatoes; the yield was six crates of very large, fine tomatoes. The price in New York at time of picking was \$5.50 per crate."

**Remarkable Growth of Orange Trees**  
In a letter recently received is the following item: I visited a fruit farm and photographed an orange tree three years ago from setting. It was six inches in diameter at the base and about eighteen feet high, with branches five or six feet long and full of fruit. I also photographed a tree five years old which bore 6000 oranges last year, and another seven years old, which bore 7000 oranges. Grapefruit attains perfection in Cuba.

**Oranges**  
It is claimed by the best authorities on citrus fruits that if all the available lands suited for the purpose in this part of the world were put into cultivation it would produce more than twenty years' worth of oranges. It is supplied to the same extent that it was previous to the freezes in Florida and California. It must be remembered that an orange grove will mature in one-third less time than in California or Florida.

Governor-General Charles H. Allen says: "A ten-acre orange grove once in bearing, gives a comfortable income, sufficient to support a family in a comfortable style." "When an orange tree is in full bearing it is valued at \$100."—Florida Fruits and How to Grow them.

**Profit on Oranges and Other Citrus Fruits**  
As an indication of the profits to be derived from raising oranges and other citrus fruits, I quote from an Official work on Cuba, recently published: "The person who raises oranges in a country free from frosts is the most independent and happiest person on earth. A full-grown orange tree will yield from 1000 to 5000 oranges yearly, like the lemon tree, begins to bear the third year. Before Cuba got its setting back during the war orange lands were selling from \$150 to \$300 per acre, and a three-year-old grove was worth \$1000 per acre. The oldest groves in Cuba are now over 100 years old, and the crop is greater than the previous year. No limit is placed upon the age of the orange tree; soon beginning an orange grove, remember, if four or five years are required to bring it into bearing it will then continue to give its golden harvest for generations to come, and when once in fruit you can sit beneath its shade almost in idleness and have an abundant competency."

**Truck Growing in Cuba**  
Of all agricultural pursuits, that of growing vegetables, as a commercial venture, has hidden in the possibilities much to attract not only the tiller of the soil but many of those who have surplus money accumulated in other than agricultural pursuits. It is easily within the bounds of probability to estimate that a small acreage of vegetables can be grown during the winter months at a thousand to two thousand dollars' profit per acre, and if one takes into consideration the small vegetable places worked by the Chinese around Havana it would be reasonable to say into thousands of dollars per acre.

**No Danger of Overdoing**  
Won't this fruit business be overdone? we are asked. It will, provided that the United States and Europe quit growing, and our wide-awake transportation companies all get flat wheels and stop running. The United States is buying millions of boxes of lemons yearly from Mediterranean ports. Cuba can grow every one of them. In 1894 Florida exported 250,000 boxes of early oranges to Liverpool.
