BRITISH REPEL VIOLENT GERMAN ASSAULTS EAST OF YPRES
FOOD CONTROLLER HANNA SAYS MIDDLEMEN OBSTRUCT PRICE CUTTING
German Aircraft Are Driven Off in Two More Attacks on London

ULSTER KEEPS OUT OF HOME RULE SCHEME

Speeches of Leaders Give Reason Still to Expect Settlement.

CONVENTION AT CORK
Grand Committee Will Endeavor to Harmonize Conflicting Proposals.

Cork, Ireland, Sept. 25.—The Irish Convention reassembled here today, the members being the guests of the harbor board at luncheon, and visiting local factories and places of interest. As many of the southern and western delegates were never in Belfast before until the convention visited that city, so some of the northern delegates never had been in Cork. The northerners expressed themselves as delighted with the decision to hold some of the sittings of the convention here.

The no definite arrangement yet has been reached with the Ulstermen. It is said that the speeches of some of their leaders, couched in very eloquent and friendly language, have given good grounds for hope of a peaceable settlement. Some apprehension of opposition on the part of Sinn Feiners in Cork was felt, but John Nell and Arthur Griffiths, the Sinn Fein leaders, urged their followers in their city to follow the example of their compatriots in Dublin and leave the convention alone.

MILLION U. S. SOLDIERS SOON TO BE IN FRANCE
T. P. O'Connor Says U. S. Will Accept None But Decisive Peace.

New York, Sept. 25.—Prediction that the United States will soon have 1,000,000 troops in France, and that if necessary "America can and America will put in double, treble or quadruple that number," was made by T. P. O'Connor, the Irish leader, in an address in Brooklyn tonight.

BELGIANS' BATTERIES REPLY TO GERMANS'
Airplanes of King Albert Keep Up Efficient Work.

Paris, Sept. 25.—The Belgian communication tonight reads: "On the night of Sept. 24-25 our batteries shelled the enemy works in reply to bombardments in the neighborhood of Ramscapelle. The afternoon of Sept. 24 was marked by lively bomb fighting near Landmark 19 on the Yser. Today the Germans fired gas shells near Knoeke. Our artillery replied against the enemy communications."

TIE-UP AT CALGARY.
Calgary, Alta., Sept. 25.—Owing to the circuits having been put out of business in some unknown manner, the G. N. W. is unable to handle any business out of Calgary today. The six local operators are still on strike.

REPAIRING THE DAMAGE
British engineers at the battlefield are a busy lot these days. Here's a few of them repairing a partly destroyed lock bridge on the western front.

DRASTIC CUTTING OF PRICES RUINOUS POLICY, SAYS HANNA

Food Controller, in Warm Reply to Critics, Declares Multiplicity of Middlemen Great Obstacle—Iron Hand to Fall on Producers or Middlemen Who Practice Extortion.

Ottawa, Sept. 25.—An excessive number of middlemen is the greatest obstacle to the reduction of prices, and under present conditions the adoption of a drastic policy of arbitrary price cutting would mean "temporary ruin to every city and town in the country," according to a statement tonight by Hon. W. J. Hanna, food controller. The statement was made in an interview with the Canadian Press, Limited. The statement was made following the return of the food controller to Ottawa after a study of the situation extended over a period of several weeks. Mr. Hanna has made personal inquiries in all parts of the Dominion, and has just returned to Ottawa after a conference with Mr. Hoover at Washington. In the interview with the Canadian Press he discussed the "whole question of high prices and the factors responsible therefor with frankness. He stated that his policy was "to bring all the powers of the food controller against any producer or middleman whom we find in our present investigations to be making an undue charge for his services—an unfair spread."

BATTLE NEAR RIGA FAVORS RUSSIANS

Germans Twice Attack Near Rumeni Farm Without Success.

Petrograd, Sept. 25.—(British Admiralty per Wireless Press)—German attacks against the new Russian positions south of the Pskoff-Riga highroad were repulsed yesterday by the Russians, according to the official statement from the war office today. Except for a raid southeast of Kimpoling, there was little other activity on the Russian front to the Black Sea. The statement follows: "Northern front: In the Riga region south of the Pskoff highroad, near Rumeni farm, the enemy twice counter-attacked positions taken by us the day before. Both attacks were repulsed. "Western and southwestern fronts: There were fusillades and reconnaissances. "Rumanian front: In the region southeast of Kimpoling our volunteers, after artillery preparation, daringly raided the enemy trenches, killing many and making fifteen prisoners. "Caucasus front: In the region of Bittis, near Ortoaba, our reconnoitring detachments attacked the Turks and brought back prisoners. On the southern bank of Lake Van our ships destroyed two Turkish barges. "Aviation: On Saturday our airmen bombarded the enemy's storehouses northeast of Kovel (Volhynia) and the small town of Lubashevo, dropping about 135 pounds of bombs."

WINS CROIX DE GUERRE.

London, Sept. 25.—Pte. Harry Watts, of the Canadians, is gazetted tonight as having been awarded the Croix de Guerre, of the Legion d'Honneur.

ITALIAN AIRCRAFT DO MUCH DAMAGE

Bombard Austrian Stations With Four Tons of Bombs.

Rome, Sept. 25.—The official statement from the war office today reads: "From the Stelvio to Monte Rombon there was profitable activity by our reconnoitring parties and moderate artillery activity. In the Monte Nero region the enemy exploded a powerful mine under our position, upon which he then concentrated violent artillery fire. Our prompt and effective barrage fire, hindering the advance of the enemy, prevented the enemy from gaining any advantage. The damage was very slight. "On the Bainsizza Plateau local enemy attacks were repulsed with hand grenades. On the Carso we captured some prisoners. "Yesterday four tons of high explosive bombs were dropped by our airmen, causing destruction and setting fire to railway establishments and stations at Podberga, in the Bainsizza Valley, and at Rifoberga, on the Carso. At night one of our airships surprised the enemy, dropping a ton of incendiary bombs and dispersing them by dropping a ton of projectiles."

FOURTH LORD EDGUMBE SUMMONED BY DEATH

London, Sept. 25.—William Henry Edgcombe, fourth Earl of Mount Edgcombe, lord lieutenant and vice admiral of Cornwall, died today at Plymouth. The Earl of Mount Edgcombe was born in 1832 and had been keeper of the privy seal to the Prince of Wales since 1907. He held various prominent offices in the household of the late Queen Victoria, and from 1887 to 1897 he was A.D.C. to the Queen. His heir is Viscount Valletort.

GERMANS FAIL TO HOLD GAINS EAST OF YPRES

Fierce Battle Rages for Possession of Important Ridge.

London, Sept. 25.—The Germans delivered a powerful attack against the British east of Ypres today. They succeeded in gaining a foothold in the British lines on narrow fronts. Hand-to-hand fighting ensued, and after another strong German attack, the British drove them from their newly won positions and re-established their line in its entirety, according to Field Marshal Haig's report tonight. "Under cover of thick mist the enemy launched a powerful counter-attack this morning against our positions on the ridge east of Ypres—between Tower Hamlets and Polygon Wood. On the greater part of this front, the enemy was repulsed at two points, one just north of the Ypres-Menin road, and the other immediately south of Polygon Wood. He succeeded in penetrating our lines for short distances on narrow fronts. "Fierce fighting continued during the morning and at midday the enemy launched another heavy counter-attack. Despite his efforts, the enemy was unable to make further progress, and, early in the afternoon, our counter-attacks drove his troops from the positions into which they had entered. Our line has been re-established on the whole front attacked. "The enemy raided one of our posts early in the morning and of Queen's Two of our men are missing. "There has been great artillery activity on both sides during the day east of Ypres."

BRITISH QUICKLY WIN

Hand-to-Hand Fighting Defeats Enemy Counter-Attacks.

London, Sept. 25.—The Germans delivered a powerful attack against the British east of Ypres today. They succeeded in gaining a foothold in the British lines on narrow fronts. Hand-to-hand fighting ensued, and after another strong German attack, the British drove them from their newly won positions and re-established their line in its entirety, according to Field Marshal Haig's report tonight. "Under cover of thick mist the enemy launched a powerful counter-attack this morning against our positions on the ridge east of Ypres—between Tower Hamlets and Polygon Wood. On the greater part of this front, the enemy was repulsed at two points, one just north of the Ypres-Menin road, and the other immediately south of Polygon Wood. He succeeded in penetrating our lines for short distances on narrow fronts. "Fierce fighting continued during the morning and at midday the enemy launched another heavy counter-attack. Despite his efforts, the enemy was unable to make further progress, and, early in the afternoon, our counter-attacks drove his troops from the positions into which they had entered. Our line has been re-established on the whole front attacked. "The enemy raided one of our posts early in the morning and of Queen's Two of our men are missing. "There has been great artillery activity on both sides during the day east of Ypres."

LONDON AGAIN RAIDED ATTACKERS DRIVEN OFF

Raiders Fail to Reach City in First Attempt, and Are Speedily Driven Off in Second—Twenty Casualties in Outskirts.

London, Sept. 25.—Another hostile airplane raid on London took place tonight. There were two attacks apparently, for after a forty-minute quiet interval anti-aircraft guns resumed firing in the London district. In the first attack, after brisk firing by the defensive guns, lasting only ten minutes, the raiders were driven off without succeeding in reaching the City of London. The firing of the anti-aircraft guns in the second attack was of only brief duration. The raiders were finally driven off and the police gave out the "all clear" signal at 9.30. A report of the raid was issued by Field Marshal French as follows: "The Thames estuary was again the objective of a hostile air raid this evening. The Kent and Essex coast was crossed at various points and a few bombs were dropped, but no casualties are yet reported. "One raider penetrated as far as the southeastern outskirts of London, where two bombs fell, causing some twenty casualties. "Raiders Less Numerous. The weather conditions were equally favorable for the raiders, but judging from the information thus far available, tonight's raid was less serious than Monday's, and apparently the raiders were less numerous. The air battle tonight was insignificant compared with that of Monday night. "The anti-aircraft fire in the first instance lasted only about ten minutes. It then stopped entirely for about forty minutes, when it was resumed again in a more distant section, but only for a few minutes. Nothing further was heard after this."

BRITISH SCATTER ARMY OF ENEMY IN AFRICA

Nigerian Troops Cut Off Retreat of Germans on Mbenkuru River, Compelling Them to Disperse in Small Bands

London, Sept. 25.—The following summary on the campaign in German East Africa was issued today by the British war office: "The enemy remaining in the field at the beginning of September were in three principal groups. The first was in the Mbenkuru Valley region; the second was in the Lukeledi Valley and southwest of Lindi, and the third was based on Mahenge. "On Sept. 19 the British advanced in the direction of Kilwa was resumed and the enemy driven north of the principal passes over the Mbenkuru River. He evacuated Mhambila, retreating to Mpingo. Simultaneously we attacked a larger German group at Ndesa, compelling the enemy to evacuate that town. The enemy was retiring on the Mbenkuru, pursued by our main columns, when he found his retreat barred by our Nigerian infantry, south of Ndesa. After severe fighting, in which the enemy suffered heavy losses, he was dispersed into small parties. "In the western area we engaged the enemy at Mpendas and the Ligamba Hills, 33 miles southwest of Mahenge, while the Belgian forces are approaching Mahenge from the north."

ARGENTINA TO FIGHT GOOD GAIN FOR ALLIES

Washington Expects Entry of Greatest Producing Nation of South America Into War—Action Will Restore Prestige.

Washington, Sept. 25.—Besides further consolidating the Americas in the war for democracy, the entry of Argentina would mean the partial leveling of the American and Brazilian fleets in the South Atlantic, even if Argentina did not send an army to France. The action of the senate and chamber of deputies, in voting for a rupture of relations with Germany created little surprise among officials of the state department, and it is believed here that the break will be followed by war. President Irigoyen has been consistent in his determination not to permit his country to take any other than a neutral position, but it is considered improbable that he will veto the action of the legislative branch of his government. A political danger would face his administration in such a course, since the majority of the people appear to feel keenly the ridiculous position in which the country has been placed by the duplicity of the German minister. The discovery today that the strikes in Buenos Aires were instigated and supported by German agents only makes the situation worse. Entry into the war will enable Argentina to regain her prestige. South American affairs, damaged when Brazil formally broke relations with Germany and then sent her fleet to sea to co-operate with that of the United States, Brazil did not formally declare that a state of war existed, and it is believed that if forced to break relations, President Irigoyen will seize the opportunity to "stop ahead of Brazil in declaring war. Although great military support may not be given the allies by Argentina, her economic aid would be important. Perhaps the largest producing country in South America, she could contribute plentifully to the food supplies of the fighting nations."

GREEK-GERMAN PLOTS REVEALED

Athens, Sept. 25.—The parliamentary commission investigating charges against the Skoultzides and Lambris cabinets is revealing scandalous facts regarding their relations with German propaganda.

MINNEAPOLIS TO GET WHEAT FROM CANADA

Minneapolis, Sept. 25.—Frank L. Casey, representative on the food administration grain corporation, announced today that Canada, having a surplus of wheat right now, will send 500,000 bushels to Minneapolis this week, thus relieving the wheat shortage situation, which prevented local flour mills from operating at capacity. The Canadian Government recently placed an embargo on shipments of wheat, with the proviso, however, that the Canadian food controller could order such shipments if action was deemed advisable. More wheat will be obtained from Canada later on if necessary, said Casey.

GERMANS FAIL TO HOLD GAINS EAST OF YPRES

Fierce Battle Rages for Possession of Important Ridge.

London, Sept. 25.—The Germans delivered a powerful attack against the British east of Ypres today. They succeeded in gaining a foothold in the British lines on narrow fronts. Hand-to-hand fighting ensued, and after another strong German attack, the British drove them from their newly won positions and re-established their line in its entirety, according to Field Marshal Haig's report tonight. DELAY IN CALLING FIRST DRAFT OUT

Difficulty Arises in Connection With the Board of Selection.

Ottawa, Sept. 25.—The first call of men under the Military Service Act is delayed. It cannot well now be issued before the middle of October, although every effort will be made to avoid unnecessary postponement. The difficulty has arisen in connection with the board of selection established to choose one member of each local tribunal throughout the Dominion. The board met again today, but adjourned till October 9 without having formally chosen its appointees. Under the order-in-council, which gave the board its authority, it was provided that all appointments could be completed today or the minister of justice would be empowered to fill all the vacancies. Later the department of justice unofficially agreed to extend the time till September 30. Now, in view of the situation, the time limit will still further have to be extended, as it is realized that completion would only be created by the department proceeding to make over thirteen hundred appointments.

ADJOURNMENT MADE

Call Cannot Be Issued Before the Middle of October.

SOCIALISTS GAIN IN STOCKHOLM ELECTION

Stockholm, Sept. 25.—The result of the elections in the first parliamentary district of Stockholm shows that the Socialists of the left lost their two seats, which were captured by the Social Democrats. The number of votes given the right was decreased very appreciably, while the Socialist vote increased largely. There was increase also in the Liberal vote. Among those elected in this constituency were Rikmar Branting, the Socialist leader, who headed the poll, and Admiral Lindman, the Swedish foreign minister, who ran third. The constituency will be represented in parliament by two members of the Right, one Liberal and five Socialists.

BRIGADIER LUMSDEN WOUNDED

Canadian Associated Press Cable. London, Sept. 25.—Brigadier F. W. Lumsden, V.C. formerly staff officer with the Canadian corps, has been wounded.

THE NEW STETSONS.

A shipment of new Stetson hats has just been opened and offers new attractions in hat styles for men. All the seasonable colors and a variety of styles. Dineen's, 140 Yonge street.

Burberry Ulsters, suitable for motoring or general wear, have arrived.

EATON'S DAILY STORE NEWS

Two direct entrances to Men's Clothing Department, Queen St.

Special Displays of Distinctive and Serviceable Clothes For Men--- Thursday and Following Days

Suits, Fall Weight Coats, Combination Fall and Raincoats, and Winter Overcoats, in a Great Array of Materials and Patterns and in Smart Styles Suitable for Men of All Ages.

Style Features in General—Suits—Coats have slightly wider lapels, in notch or peaked shapes, backs are semi-form-fitting in most instances and are shown in plain or half-belted effects. Many coats have patch or slanted slit pockets without flaps. Sleeves are as before, quite narrow. Vests have no collars. Trousers are straight and are finished with or without cuffs.

In Fall or Winter Weight Coats—the slip-on style is a favorite. This style is made with loose back, slash pockets and some with square patch pockets.

There are also styles with belted backs and the ever-quiet and dignified Chesterfield.

We Call Particular Attention to the Smart, Aggressive Looking Styles in "Fashion Park" American Made Clothes.

Made in regular sizes, also in "slim tall" models for 6 footers, and in "short" models for men of 5 ft. 4 in. to 5 ft. 7 in. Magnificent collection of materials and patterns. Prices \$25.00 to \$35.00

"FASHION PARK" Clothes have in a very marked degree that indefinable something known as "STYLE." You try on a coat and it fits so perfectly, it has such pleasing lines and is so well tailored that it pleases you at once. These clothes are shown in smooth chevots as well as in the rougher tweeds in stripe, check and spatter effects, in browns, greys and greens. The following are some of the styles from the selection:—

The Natti For the slim, athletic figure. Two-button, form-fitting sac, 30 inches in length, with vent in the back. The shoulders are natural width and sleeves are narrow and finished plain. The vest has top pockets finished with knife and box pleats, the lower pockets have flap. The trousers are straight and narrow, and finished plain or with cuffs. They have belt of self with loops and tunnel, and the tops of trousers are bound with narrow braid. Linings are of lustre. The material is a soft, warm tweed, in olive green, with a shot mixture of golden. Sizes 34 to 40. Price 25.00

The Luton A one-button, double-breasted model, with long narrow roll. The front is cut straight, length of coat 30 inches, with vent. Vest five-button without collar. This model is made of the same materials and in the same colorings as the Natti. Price 25.00

The Idler A double-breasted, two-button model, has yoke back, wide pleats from yoke to loose half belt at waistband. Patch pockets with top flaps. Lined only through sleeves. Vest has no collar and closes with five buttons. Made in one of these fashionable rough finished materials in an olive shade with mixture of green and golden. Price 27.50

The Britton A slim young man's model, three-button, with notch lapels. The back has centre seam, but no vent. These are made of a soft Saxony finished material, in dark grey, with a red thread stripe. Price, 35.00

The Hadfield Is a four-button, double-breasted model, with welt pockets without flap. Coat is 30 1/2 inches in length, has short vent in back. The material is an Oxford shade grey in chevot finish. The vest is cut high, closing with six buttons. Price 35.00

The Finchley A three-button sack style, for stoutly built young men. 30 inches long with rounded front, and lapels in peaked shape. The vest buttons high, six buttons, without collar. Trousers have cuffs, belt loops, etc. Made from an olive green mixed tweed, in a soft finish. Price 35.00

"Fashion Park" Topcoats -- **The Biltwood** Topcoat, a double-breasted model, 42 inches long, with full box back, with deep vent. Lapels medium heavy and collar of self material. The material is a grey chevot coating of medium weight, in an Oxford grey. Unlined body. Sleeves are lined with black satin. Sizes 36 to 40. Price 27.50

The Gilroy A fall weight Topcoat, full and roomy fitting, with no vent in back. Raglan style shoulders, notch shaped lapels, medium depth collar, cuffed sleeve and vertical pockets. Made of a soft chevot finished tweed, a grey tinged with green, in herringbone weave. Price 32.50

The Ardsley The new belted model Topcoat, single-breasted, button-through, 45 inches in length. Has yoke back and inverted pleat running to bottom. Belt runs all round waist with buckle. Has vertical shaped pockets and cuffed sleeves. The material used is a dark fawn spatter cloth similar to a gabardine. Has silk sleeve linings and facings are taped with silk to bottom. Price 30.00

Youths' Suits, Smart Becoming Styles for the Boy in His 'Teens

Pinch-Backs and Two and Three Button Form-Fitting Models in Sizes 33 to 37

"SMART CLOTHES, a Stepping Stone to Success in Life." See that the boy budding into manhood is well dressed, for smart, neat clothes help to give him that confidence in himself which is the foundation of success. There is not only style in this range of suits for youths, but service is assured in the excellent qualities of the materials shown. Here are a few lines in the selection. Sizes in all are 33 to 37.

At \$15.00—Young Men's Suits in fall models—single-breasted, 2 and 3-button form-fitting sacs, with soft lapels in notch or peaked style. They are made up from worsteds, dark ground, with silver thread stripe, or very small checks. Also in firm tweeds, in greys, with stripe or diagonal weave. Then there are pinch-back models, the very latest in rich green tints and browns. All are tailored and finished in good form, with twill body linings. Price 15.00

At \$16.50—Pinch-back model, pleated above and below belt, fits snug to form. The lapels are step shape and the front rounded. Made from a dressy blue chevot-finished material, with a fine white thread stripe. A dark grey tweed suit with black stripe is in single-breasted, form-fitting sac style, 5-button, no-collar vest; trousers straight and narrow, with cuffs. Price 16.50

At \$18.00—A handsome brown Suit of worsted, in a small diamond weave. A form-fitting sac, single-breasted style.

At \$20.00—Cassimere finished tweed Suits, in 2 and 3-button sac styles, with soft roll and notch or step-shaped lapels. Browns in new shades. Very smart and attractive.

Fall Weight Topcoats in a Most Varied Selection

Slip-On Chesterfield and Trench Coats, Also Combination Fall and Raincoats

Fall Weight Topcoats, Chesterfield style, that falls just below knees and buttons in a fly; has close-fitting collar of self. Made from dark grey chevot-finished materials and well lined with twill serges. Sizes 34 to 46. Price 18.00

Young Men's Slip-on Topcoats, in tweeds, mostly in the popular rough finish mixtures and small fancy weaves in greys, olive, browns and fawns. Single-breasted, with full, easy-fitting back, self collar and natural shoulder. Unlined except through sleeves. Sizes 33 to 44. Priced from 15.00 to 22.50

Fall Topcoats, made from Scotch and English tweeds, in new shades of brown, rich olive and greenish tints, and the ever-popular greys, fancy mixtures, checks and overplaids. Box coat, single-breasted with a fairly full skirt, patch pockets and soft roll lapels. Priced 32.50 and 35.00

Special Thursday! 200 Men's Suits Away Less Than Manufacturer's Prices at \$13.75, Sizes 35 to 44

These suits are known as manufacturers' short lines, there being only from 4 to 6 suits of a pattern. They are in crisp new styles and in fall and winter weights and new patterns. Included are suits in serviceable tweeds and worsteds in small check, stripe, plain effects and fancy mixtures, in the season's favored colorings, browns, greys, greens, pepper-and-salt effects and mixtures. These suits are splendidly tailored throughout and are in newest single-breasted models. Sizes in the lot 35 to 44. This provides an opportunity to save many dollars on your new fall and winter suit. Priced for clearance, Thursday morning at, suit 13.75

—Main Floor, Queen St.

Another Big Offering Thursday! Youths' First Long Suits Clearing at \$10.75

These are in the smart pinch-back and half-belted styles so suitable for the youth. They are in stylish tweeds, which are most serviceable and seasonable and are in browns and greys, in fancy mixtures, checks and stripes. Vests have five buttons, no collar. Trousers are straight and narrow and have cuffs. Sizes 33 to 37. Specially priced Thursday, per suit 10.75

PRINCESS THEATRE IS ALMOST READY

Handsome New Playhouse to Prove Delightful Surprise for Toronto Public.

OPENS MONDAY NEXT

Patrons Will Then Have Chance to Inspect its Beauties.

There is no occurrence in the theatrical world capable of arousing more interest than the formal opening of a new playhouse. For nearly three years Toronto's delightfully busy life has taken place at the new Princess Theatre Monday evening, when with "Miss Springtime" Klav and Erlanger's new comedy success, as the attraction, Toronto's largest theatre will be formally opened to the public.

Yesterday afternoon a complete house capable of seating 1650 persons, while the color scheme of ivory, old rose and gray combine to give a subdued and truly lovely effect in pattern.

A Splendid Ceiling. The ceiling is ornate with two great oval plaques in ivory fretwork. It is supported by rich relief work of the Adams period in ivory and old gold.

Every mechanical device and every stage contrivance in evidence is the newest, and the best of its kind. There are sixty sets of pulley ropes erected from the ceiling to the floor 25 feet from the ground, upon which the pin rail system has been adopted as the most satisfactory and up-to-date, while the electric switch-board, capable of being run interlocked or separately, is modeled after the finest board in the world, that of the New Amsterdam Theatre in New York.

The technical school is going along very well, said Dr. McKay at a meeting of the advisory industrial board yesterday. There are 1295 pupils on the daily enrollment, 1000 being present in the regular day classes. Two hundred and ninety-six pupils are in matriculation classes alone. Boys are between 7:30 for this work will be provided thru the generosity of local manufacturers.

Also there will be a course of lectures given on one evening a week for three months upon interior decoration and furnishing. Twenty-three hundred adults have already registered for the latter classes.

APPEALS WERE ALLOWED. Court of Revision Decides Against the Argument of the Separate School Board. The court of revision yesterday morning delivered an important decision regarding the assessment of Roman Catholics who wish to be rated as public school supporters.

ADPT NEW NAMES. Eight Persons Take Out Deed Polls at Osgoode Hall. The names of eight persons have been changed by deed polls registered at Osgoode Hall within the past week. They are: Fred Rosenberg, to Fred Roseberry; Mrs. Elizabeth Uhlir, to Mrs. E. Kay, together with her three children; Carl and Mrs. Fred, aged 18, and Frederick, aged 15; Abraham Kaminsky to Arthur Abraham Kaminsky; Victor Orlino Mastroratti to Victor Mastron, and Roy Wilmut Brown, not quite two years of age, whose name has been changed on the application of his mother, Mrs. Clara Margaret Rose, to Roy Wilmut Ward.

CHESTERFIELD SAID "Whatever worth there is at all is worth doing well." This principle has been applied to the manufacture of Chesterfield Cigarettes for more than 30 years. This trade mark is never placed on any quality which we cannot fully warrant as to quality.

WILLS PROBATED

William Hornshaw, of 14 Maitland place, who died on Aug. 18, left an estate valued at \$24,947.10, of which \$12,800 is real estate. To one son, Henry, has been left \$1000 and watch and fob on another son, Shapton, household furniture, plates, etc., and a third, William James, possession of the property at 102 Lombard street for a term not exceeding one year at a monthly rental, if he so desires. The residue of the estate is to be divided equally between the four children, Henry, William James, Shepton and Mary Jane Finn.

STATE CONTROL WINS IN BIG FOOD DRAMA

Heroine Evolves Plan That Finally Beats Those of the Food Trusts.

The heroine of the photoplay, "The Food Trust," announced yesterday that the first shipment of fresh water fish from northern Ontario would arrive in Toronto today. The supply, which will consist of white fish, pickerel and lake trout, will be shipped by express and will be sold direct to the retailers by the government, who will in turn sell it to consumers at 2 1/2 cents per pound. A few sturgeon will be included in the shipment, but the price for this variety of fish will be set by the government.

Two fishing outfits are at present in the employ of the government in the waters of Lake Nipigon. A steam tug and a gasoline launch are used in playing the nets and transporting the catch. It was also made to two for use, but the government will encourage fishermen to use pound nets.

It is hoped that the organization will be so completed that daily shipments of fish may be made to Toronto. As soon as outside dealers sign a contract to buy fish, the fish provision will be made to meet their demands.

ATTENDANCE INCREASES AT TECHNICAL SCHOOL

Nearly Thirteen Hundred Pupils on Daily Register at the Institution.

The technical school is going along very well, said Dr. McKay at a meeting of the advisory industrial board yesterday. There are 1295 pupils on the daily enrollment, 1000 being present in the regular day classes. Two hundred and ninety-six pupils are in matriculation classes alone. Boys are between 7:30 for this work will be provided thru the generosity of local manufacturers.

Also there will be a course of lectures given on one evening a week for three months upon interior decoration and furnishing. Twenty-three hundred adults have already registered for the latter classes.

JUDGMENT RESERVED.

Provincial Attorney-General Sued to Recover Big Amount From English Assurance Company. Judgment was reserved by Justice Latchford in the action brought by the attorney-general for Ontario, acting as trustee for the estate of the late Geoffrey Strangé Beck, to recover \$441,937 from the Railway Passengers' Assurance Co., of London, England, thru the forfeit of the \$100,000 bond filed with the province February, 1914, when the Dominion Trust Co., now in liquidation, was granted its charter. The province claims mismanagement of the estate of the late Mr. Beck by the Dominion Trust Co. It also lays claim to \$2170.30, residue of estate; \$1000 solicitors' fees; \$175.50 and \$711.50 costs in connection with previous cases, and \$5000 damages.

REMANDED FOR SENTENCE.

Before Judge Coatsworth in the criminal court yesterday C. F. Rumpel and Richard Cook were found guilty of the theft of a motor car, the property of W. A. Denton, and were remanded until today for sentence. C. A. Wilson, who also appeared on the charge, was found not guilty. The car was stolen from in front of the National Club. On another charge of having broken into a house at 242 Arthur street and stealing a wrist watch, brooch and an automatic revolver Cook was found not guilty.

APPEALS WERE ALLOWED.

Court of Revision Decides Against the Argument of the Separate School Board. The court of revision yesterday morning delivered an important decision regarding the assessment of Roman Catholics who wish to be rated as public school supporters.

FISH FROM NORTH TO ARRIVE TODAY

Pickerel, Trout and Whitefish in Government Shipment From Lake Nipigon.

Hon. F. G. Macdormid, minister of the employ of the government in the waters of Lake Nipigon. A steam tug and a gasoline launch are used in playing the nets and transporting the catch. It was also made to two for use, but the government will encourage fishermen to use pound nets.

Have you ever realized the value and the power of the film as an educative medium? Teachers and educational experts everywhere are urging a wider use of the picture houses today for the purpose of imparting knowledge in more intelligible and interesting manner thru the medium of film pictures.

TO SERVE TWO YEARS IN THE PENITENTIARY

Swede Found Guilty in Police Court of Making Seditious Statements.

Found guilty in police court yesterday morning of having made seditious statements, Alexander Auer, a Swede, was sentenced to two years in Kingston Penitentiary by Magistrate Denison. Auer was charged under the Defence of the Realm Act, and was alleged to have threatened to shoot the first British recruiting officer who attempted to conscript him after the act had been put into force. He was also alleged to have announced his intention of blowing up a newspaper for an article published about Sweden.

WORKS ALL DAY WITHOUT TIRING

Mill Employe Declares That He Now Feels Just Fine in Every Way.

Tanlac has certainly done me good, and I think it is no more than right that I should tell the public about it. I had a listless, sluggish feeling. I couldn't shake off, and I would come home from my work in the evenings completely worn out. I felt just as tired in the morning as I had been at night, and my energy all seemed to be gone. My appetite was no good, my tongue had a heavy coating, and after eating I would feel bloated and keep me in misery for hours. I also had sharp pains in my side, which at times interfered with me taking a deep breath.

TROUBLES ARE ENDED

Felt Tired and Listless All the Time Before He Began Taking Tanlac.

"I kept rocking along, thinking the trouble would wear off, but I seemed to be getting worse all the time, and found it necessary to do something for myself. I decided to try Tanlac on the strength of the high endorsements, and it has acted with me just like others say it has with them. I have now taken three bottles and my appetite is good and I'm never bothered any more with gas on my stomach, and the pain has disappeared from my side entirely. I get up in the mornings now feeling thoroughly rested. I can work hard all day and come home at night without that tired, worn out feeling. In fact, I'm feeling fine all around. I'm convinced that Tanlac has done me that it's great medicine, and deserves all the praise being given it."

MILK SITUATION SHOWS NO CHANGE

Dealers Express Hope That Government Will Take Some Action.

"The milk and cream producers of the County of Peel I wish to say: "First, no power on earth can compel a milk producer to produce anything which he must sell at a loss."

CONSUMERS PROTEST

Citizens Talk of Instituting Boycott Until Prices Come Down.

No definite action has as yet been taken by the Toronto Milk Dealers' Association in answer to the ultimatum issued yesterday by the Toronto Milk Producers' Association, in which they refused to lower the new schedule of rates.

OPEN EXTRA CLASSES IN SEVERAL SCHOOLS

Six New Rooms in Park School for Pupils From Dufferin and Rose Avenue.

Six extra classes will be opened in Park school for pupils who will be transferred from Dufferin and Rose Avenue. The classes will be held in the new rooms which have been added to the school.

COAL EXPENDITURE HIGH.

Riverdale Collegiate Institute Heated During Year at Cost of \$2428.

Riverdale Collegiate Institute consumed more fuel during the past year than any other in the city, the expenditure amounting to \$2428, while North Toronto has the lowest estimate, amounting to \$83.81.

ACCORDED MILITARY HONORS.

Cadet E. A. Austen of the R. F. C. who died of spinal meningitis at the hospital, East Gerrard street, on Monday, was buried yesterday afternoon at Mount Pleasant Cemetery.

WEDNESDAY MORNING, SEPT. 26.

Toronto's Great Cross Roads.

A grand crossing at Bloor and Yonge streets will mark the centre of the city in days to come—days not so very far distant. The great spinal column of the city is Yonge street, a thoroughfare that is bound to be as historic as any in the empire. It has been badly handicapped by the old fathers of the city, who did not foresee street cars and motor cars and traffic beyond their utmost dreams. They regarded 66 feet as the plus ultra of street expansion, and Yonge street traffic is cramped accordingly. But the one great aid that can be given to the city and the residents of the city is the taking over of the Metropolitan Railway within the city limits, the double trucking of the street and its paving, and the opening up of the city northerly in the same way that it has been opened easterly and westerly. The city has been negotiating for this improvement, but progress appears to be slow; and a little stimulus, now that the city council has emerged from the holiday season, would do no harm. The tendency to let street railway negotiations lag and drag is notorious. In the present case special legislation was obtained so that the matter could be expedited. It is high time that advantage was taken of the act of last spring.

The two arms of the great cross that quadrisepts the city extend from Yonge street across Bloor west to the Humber River, and across Bloor east to Danforth avenue and thence to Scarborough. There is a gap, almost closed at an expense of \$2,500,000; and were this enterprise complete and the Bloor street viaduct open to the public Toronto would be traversed north and south, east and west, by a great cross roads which must become the main arteries of the city's traffic. No one can look at a map of Toronto without being impressed with the necessity for making these great streets as fully available to all who would enter the city as it is possible to make them. York County lies north, westways Peel County, and eastwards Ontario County invite the city dwellers. For those who would come and those who would go these roads with their facilities for traffic must be made known far and wide as the splendid gates of the city. The city hall does not appear to have realized the true value of such highways.

Gold, Silver and National Credit.

Great interest attaches to the tour now being made by Their Excellencies the Governor-General and the Duchess of Devonshire thru northern Ontario. The vice-regal party have already visited Cobalt, and they are to visit the Porcupine and Sudbury districts. They will also journey over the National Transcontinental to the Experimental Farm in Monteville, and will be received with suitable honors at Cochrane, Englehart, New Liskeard and other prosperous municipalities along the line of the Timiskaming and Northern Ontario Railway. The entire journey by rail north of North Bay will be along railways owned and operated by the Province of Ontario and the Dominion of Canada.

The vice-regal progress is not only a compliment to New Ontario, but it is a proper recognition of the great mining industry of this province. The gold and silver camps of the north country are not only producing wealth, but they are stabilizing the credit of the Dominion.
 Sir George Foster has told us that the allies, of whom Canada is one, need men, munitions, money, transport and food. But what Canada needs the most is credit in the markets of the world, and especially in the United States. The country that is producing precious metals every year in large quantities can always obtain credit, because no matter what happens she will always be able to meet the interest upon her obligations in the yellow metal that is legal tender in every civilized country of the world.

But Canada has two strings to her bow. The steady rise in the price of silver has made it almost equal in value to that of gold.

The mineral resources of our north country have scarcely been tapped, and we venture to say that discoveries are bound to be made along the line of the National Transcontinental and along the main line of the Canadian Northern as well. Our own provincial road, the Timiskaming and Northern Ontario, is today the great carrier of gold and silver. Thus it will happen that the gold and silver camps of Ontario will all be served by railways belonging to the people. No doubt the T. & N. O. will sooner or later pass from provincial to national control, and become a part of the great national railway system of Canada. With a national railway policy we may look forward to a national policy in respect to the exploitation and conservation of our vast mineral wealth.

A national railway policy and a national mining policy ought to go hand in hand.

Air Raids and Their Result.

With fatalities amounting to 15 and 70 other casualties the latest air raid by the Germans in England has produced no results for them of any military importance. The mere exhibition of destructiveness which these raids represent gains nothing more for Germany than a more inveterate determination on the part of her enemies that they will not yield until the system that originates these murderous attacks on women and children and other helpless citizens has been abolished.

If this means war to the bitter end, so be it. Germany may increase her ruthlessness up to a certain point, but she cannot surpass it. On the other hand, Great Britain has declined to sink to the Teutonic level by adopting in retaliation the more vicious forms of her offensives. Where fighting men are concerned Germany's own weapons will be employed and will be

bettered. Women and children are immune, and we do not bombard hospitals as the Kaiser orders. The German people have hoped for victory from zeppelin and other aerial offensives, from torpedoes and submarines, from their navy and from their great guns. When Germany begged to retreat, and continued to retreat, and is now forced to adopt retreat as a policy, there is nothing she can do with airships that can save her. It is only a matter of time before the inevitable end.

Peace now depends on reliable guarantees from the German people that the treaties made will be kept. The word of the Kaiser, or any of his class, has been rendered valueless by the scandalous repudiation of former treaties that brought Great Britain into the war. It is believed in English-speaking countries that were the German people aware of the facts of the case, and the falsifications which the Kaiser has imposed upon them for truth, they would revolt. This, however, is by no means clear. The training the German people have received seems to have extinguished the spirit of free men in them.

President Wilson has put the case very forcibly before them, and thereby incurred the resentment of all the autocrats of Europe. Cardinal Gasparri regards it as impossible that Germany should submit to any dictation in regard to its internal affairs. This is his view of democratic government. President Wilson merely asks that the German people should no longer submit to the dictation of an emperor, but express their own views on government. Cardinal Gasparri says this cannot be done, and that it would be just as fair to ask England to become a republic or the United States to submit to an emperor as to ask Germany to be democratic. Cardinal Gasparri evidently does not understand that England could be a republic tomorrow if the people wanted one, and that America could elect an emperor if the people had a mind for it. It is the people's will that decides things here. In Germany the government would not permit the people to declare for a republic, and less majesty is a capital crime. If the German people prefer to keep on with the slaughter and continue to submit to the Kaiser's fatal policy they will one day, in spite of Cardinal Gasparri, be compelled to choose for themselves. There will be a possibility then of making peace permanent.

Food and Coal.

Last night's news for food consumers was not comforting. The food controller is yet outside the field of prices; and instead of reductions, or even stability in the present high rates, nothing is heard of but mounting values, soaring prices, commodities scarcer than ever. Winter with its frigid fear is approaching; winter, also, with its hunger fear; and with food at prohibitive rates and fuel entirely uncertain, the people have little to thank the controllers of food and fuel for.

Milk is to go up in a few days to fifteen cents a quart. Mr. Hanna says, "Oh, that's nothing. They pay that in New York now," is his answer, or something like it. Besides, he says, Mr. Hoppor has not fixed prices; and after all it is not prices that are to be considered, but available supplies.

The problem of the people, however, is to get the supplies. They cannot remain satisfied with the knowledge that there are supplies. They want the supplies, and prohibitive prices are just as bad in practice as a famine.

Mr. Hanna brought in fish from the Atlantic coast. He created a market. Instead of fixing prices at the point of supply when he started his campaign, as they have done in England, he ignored all the advice he got about prices, and now fish prices are soaring and are fifty per cent. higher than when he started operations. It costs no more to catch the fish, to transport them, or to distribute them. But Mr. Hanna created a demand and the people have to pay more for their food.

Was Mr. Hanna appointed to create a demand and stimulate business for the fish trust so that prices might be inflated? If this is Mr. Hanna's aim, as it is the result of his operations, then the people would prefer to be without a food controller.

Milk and fish are the latest commodities to go soaring. What will be the next? It would have been no hardship to any interest involved if, when Mr. Hanna was appointed three months or more ago, he had stated that all present prices must remain at their level, no increases to be allowed without cause shown, and reductions to be made if found advisable. It would not be too late to do this now for those things which are not yet out of reach of the consumer. But Mr. Hanna, and the government generally, seem to be always a little late about what they do.

Coal is in as bad a state as any other necessity of life, but there does not appear to be any relief in sight. One body after another has been appealed to, but in vain. The government heavens are as brass, and the corporation earth is as iron, and the people have a poor lookout between them at present.

The one remedy that is available in the coal situation is the nationalization of the Grand Trunk Railway. This would facilitate deliveries and assure a supply of coal to the people without the uncertainties of corporation preferential dealing and sectional favoritism.

Other People's Opinions

"No Job for Veterans."

Editor World: I noticed an item in some of our daily papers, headed "No Job For Veterans." This was very unpleasant reading for a number of good men, and it is a shame that any of our number should be unkindly thrust aside by some who are for the time being entrusted with office. I speak from knowledge when I say that the surviving Veterans of 1866 are deserving of the most generous, thoughtful and considerate treatment. There are not many alive who remember those stirring times. And the younger generations do not fully appreciate the sacrifices made by those who "shouldered arms" at that time to repel an uncalled for invasion. These men of various ages and occupations suddenly stopped their work, closed their places of business, and went to the front, where they remained some three months. They deserved more reward than they ever received, as they practically saved Canada to the empire. Now they are told (and it was unfortunately published in the press) that there is "no job for veterans." We feel that the public are not in accord with this sentiment and a mistake has been made which should be rectified.
 Lieut.-Col. A. E. Belcher,
 President Veterans of 1866.

ALONG THE COAST IN WAR TIME

By TEDDY WICK.

(Copyright, 1917.)
 Questions: What becomes of the ships that sink at sea?
 Answer: They sink.
 You're wrong. Go to the foot of the class. For some of them, a miscellaneous litter of small wreckage from each of them remains floating on the otherwise empty ocean swell.

And sooner or later it floats to the English or the Irish coast. Whence arises a strange story of the coasts, which so far as I know, nobody has yet undertaken to write.
 I have just come from sitting on a pier at a certain point on the Kent coast, where, in three hours, pieces of cork, a crutch, an aeroplane propeller blade, a sou'wester and a dead mangle in a wicker cage, washed up on the sands at my feet.

I talked with one of these sea-dogs of the coastguard who are keeping the lonely watch on the English coast. He had found in the last three months, washed up on his patrol, a deck chair, corked medicine bottles with medicine in them, a mattress, a bottle containing a note from an escaped German prisoner, who said he was on a vessel bound for Holland, and that the British Government for the excellent treatment it had given him; and another bottled message from an English sailor, which read: "The ship was mined or torpedoed about an hour ago, and is steadily settling. Every boat, check full, has pulled away, and yet there still remain 20 of the crew aboard. A big sea is running, no help is in sight, it is nearly dark." There was what probably was a later note in the same bottle: "It is pitch dark now, the decks are awash, only one light burns away goes Jack Plumpton for kingdom come."

Masts, hatchways, flags of different nations and empty lifeboats were other stories the sea had washed in at the foot of this coastguardman.
 Badly battered many of the life-boats have been. Many of them have been visible from shore while they have been in the act of bobbing up and down on the waves, and their coming has drawn excited mobs of villagers to the sands to watch and wait for them.

Occasionally, too, a body comes floating ashore.

They are buried by the coastguard, after due measures of identification have been taken.

The duties of the coastguard are multitudinous. Once I saw summed up the business of these busy men:
 "To patrol and watch the coast, to give notice of and assistance to vessels in distress; to prepare casualty reports for the board of trade; to take charge of life-saving apparatus; to bury carcasses washed up on the coast; to assist in working manoeuvres and in time of war; to man naval wireless stations ashore; to carry out signalling for Lloyd's at various stations; to protect the shore ends of submarine telegraphs; to assist in working the lifeboats when required; to be prepared to act as pilots; to prevent illicit distillation; to report changes in the coast line to the Association for the Advancement of Science; to transact business with the public; to see that there is no postal telegraph in the vicinity; and to give assistance in the training of boy scouts."

Not are these all their duties. Their work is to put down wrecks; to search and examine thoroughly all suspicious vessels or boats in British territorial waters—i.e., within three miles of the coast—and in all cases, where authorized by law, to seize the same. . . . The first paramount object should be to seize the person of the smuggler, but of course men will take care that they do not exceed the authority given them under the 181st section of the customs consolidation act, 1876, by an incautious use of firearms."

Most of these coastguards, or "Gobblers" as England knows them, are seamen or stokers who have spent nine or ten years in the Royal Navy, and have come ashore with a "Y.G." character. There are 3130 of them, divided between 244 stations. Fanad Head, Lochmaddy, Portnoo and Llanrwyl Major—these are the sort of good old Anglo-Saxon names by which some of the stations are known. They are under the control of Vice-Admiral the Hon. Sir S. A. Gough-Calthorpe, whose headquarters are in Victoria street, London. Under him, the coast of the British Isles is divided into six districts with headquarters at Southampton, Harwich, Edinburgh, Bristol, Queenstown (south of Ireland), and Kingstown (north of Ireland).

During the war, their duties have been greatly enlarged, and they now keep a close eye for submarines from the shore as steamships keep from the crow's nest.
 And all the time, through their patrols, the sea keeps washing up its wreckage. Occasionally one of the millions of deadly mines that have been sown in the sea, comes wandering in on the tide. One of them dashed against a breakwater, my correspondent told me, and buried great piles, a foot thick and many feet long, a quarter of a mile inland, smashing windows in cottages miles away. On every big sea these floating terrors are likely to be dumped ashore.

THE GOAT

It asked for FOOD and he gave it a TALK.

POLITICAL NEWS

If the Conservatives do not get any more "pep" into their campaign than Sir George Foster put in his speech to the Ward 5 Conservatives Monday night, they will be left at the post. Sir George made a strong plea for conscription, and even a stronger plea for union government. He dealt so gently with Sir Wilfrid Laurier and the Liberals that his followers in the audience had no chance to cheer. They only showed real enthusiasm when the orator of the evening mentioned the disfranchisement of the alien vote. The first reference to this subject evoked a hearty cheer, and Sir George found no necessity to defend the federal franchise legislation.
 His speech sagged, however, when Sir George came to defend the government from the charge of being untrustworthy and corrupt.
 "I deny that the government is untrustworthy and corrupt," he said, and then with a little chuckle that brought

down the house, he added: "You probably think it is up to me to deny it."
 It seemed to all that Sir George still believed that he might wake up any morning in the near future and find a union government at Ottawa. Hence he spoke rather disparagingly of party names as tags and labels. Possibly the speech was not in any way intended as a campaign effort, and it may be that Sir George will not again contest North Toronto. A report was in circulation yesterday that he might be called to the leadership of the party.
 At Liberal headquarters it was reported that 60 candidates for parliament have already been nominated in Ontario. The 22 districts for which nominations are yet to be made include the City of Ottawa, the six city ridings of Toronto, and South, East and West York.

The Conservatives have about the same number of candidates nominated. They have still to hold conventions in London, Hamilton, Toronto, Kingston and Ottawa. A preliminary conference on the local situation will be held tonight, when the city executives will meet at Orange Hall.
 The South Huron Conservatives will hold a convention on October 12, and probably renominate J. J. Werner, the sitting member. Kent County Conservatives nominate on Saturday, and conventions will be called in the near future for the two ridings of Essex.
 F. F. Purdee, M. P. for West Lambton, and chief Liberal whip, is soon to define his position in an address to the unaffiliated electors of West Lambton. It may require some definition, as Fred favors conscription, but at the same time is a disciple of Sir Wilfrid Laurier. The Ontario Liberal who favors conscription has been able to walk the tight rope in parliament, but a little heeling from a popular audience may cause him to lose his balance completely.
 The politicians seem to think that Sir George Foster was more oratorical than exact when he talked about the election being four or five months hence. The date of the election will no doubt be uncertain until the prime minister is ready to announce the success or failure of his negotiations for union government. At both Conservative and Liberal headquarters yesterday, however, the impression prevailed that the election would be held early in December.

Good for the Children, Too!

No wonder children are eager for O'Keefe's. And you can make no mistake when you buy

O'Keefe's GINGER ALES

Made by skilled people who know how to produce the finest and most healthful beverages. The O.K. Brand is a triumph in ginger ales and in less than a year has become the recognized favorite. There are flavors to suit all tastes, all equally high in the standard of quality.

Order from your grocer or druggist. They carry a full line of O'Keefe's beverages.

HAMMERED TOMMY FIRST TO INDIANS

American Association Champions Show Good Club Work in First of Series.

That advance notice from Indianapolis that the American Association champions were tight hitters may have been strategy. The Hickey circuit winners opened the inter-league series with our Leafs at the island yesterday and arrived with the biggest load of base hits that has been dumped on the local ball yard in many a day. To make matters worse it was our idol, Tommy Thompson, that came in for the lambasting. The Indianapolis Indians slugged Tommy to all corners for eight runs and seventeen hits. Our boys got two runs. Old Cy Falkenberg, a Leaf of days gone by, was master of Lerry's lead at all stages. Base hits came in droves, and Empire Murray of the American Association had a warm afternoon with two decisions that he handed out at the third corner. It was certainly not Thompson's days. He started bad and got worse as the game progressed. The visitors never had any trouble with his offerings and they knocked them back as fast as he threw them up. The Indians got three hits in the opening inning, but failed to put over a run. Our first run came in the opening inning. Jacobson singled, only to be forced by Whitman. Lejole walked and Schultz's healthy swing counted the run. The American Association champions opened fire in the third to tie the score and Derrick led an infield out did the trick. They came back with two more tallies in the fifth. Dolan doubled to start it, but Thompson squeezed Rully's bunt and headed in the run. Zwilling swung and struck and Yerkes squeezed Rully home with a bunt to first. Kirke was walking and Derrick led the other run home. Thompson got away in the sixth, but the bats of the visitors got busy again in the seventh and three runs resulted. Zwilling singled again and Yerkes neatly sacrificed. Kirke laid down a bunt and Thompson heaved in on it. Blackburne and Thompson heaved off, but Umpire Murray called him safe from his position and Derrick led the other run home.

ALLOWS FOUR HITS BLANKS PHILLIES

Miller of Pirates in Rare Form Cardinals Make Third Place Sure.

At Chicago (National)—Brooklyn defeated Chicago, 3 to 1, in one hour and eight minutes yesterday. The game was a pitching duel between Miller and Cadore. The former did not permit a man to reach first base until the seventh inning, when, after two men were out, Myers singled and scored on Stengel's triple. Stengel scored on Wheatley's giving the visitors the lead. Opportune hitting by the locals in the second innings saved them from a shut-out. Score: Brooklyn.....0 0 0 0 0 2 0 1—3 5 1 Chicago.....0 0 0 0 0 0 0 0—0 0 0 Batteries—Cadore and Krueger; Carter, Prendergast and O'Farrell.

At Pittsburgh—Effective pitching by Miller enabled Pittsburgh to defeat Philadelphia, 3 to 0. He held Philadelphia to four hits and two passes, and did not allow a runner to get to third base. Geschick pitching for Philadelphia, had one bad inning. Score: P. H. E. Philadelphia.....0 0 0 0 0 0 0 0—0 0 0 Pittsburgh.....0 0 0 0 0 0 0 0—3 6 0 Batteries—Geschick, Lavender and Adams; Miller and Blackwell.

At Cincinnati—Boston won the first game of a double-header here yesterday by a score of 4 to 2. He held Philadelphia to a total of thirteen runs, while Tyler allowed only six widely-scattered hits and no runs. The second game developed into a bitterly-contested pitchers' battle between Toney and Scott, lasting seven innings to a 3-to-3 tie, darkness stopping the play. Score: P. H. E. Boston.....0 0 2 0 1 0 2 6—13 17 1 Cincinnati.....0 0 0 0 0 0 0 0—3 7 1 Batteries—Toney and Tressner; Reuther, Bresler and W. Smith. P. H. E. Boston.....0 0 0 0 0 3 0 0—3 7 1 Cincinnati.....0 0 0 0 0 0 0 0—3 7 1 Batteries—Scott and Meyers; Conroy and Wingo.

At St. Louis—St. Louis beat New York yesterday, 5 to 3, and clinched third place in the pennant race. With the championship won, Manager McGraw allowed his regulars to rest and sent in several recruits. Schupp pitched two innings and gave three hits. Score: P. H. E. St. Louis.....0 0 0 0 2 0 1 0—5 3 1 New York.....1 0 0 0 0 0 0 0—3 8 1 Batteries—Schupp and Gibson; Goodwin and Snyder.

BIG DEMAND FOR SEATS FOR BASEBALL CLASSIC

Chicago, Sept. 25.—There have been more than 15,000 applications for seats for the world's series received at the park yesterday. The American League club, the Chicago White Sox, has been notified by officers of the National Commission, in sending out notices that there would be no further reservations. The seating capacity for the Chicago games has been described three times. It was said: "Also it will be impossible to reserve any further seats for the game. There will be 15,000 seats on sale daily, one to one individual at 50 cents and 25 cents."

BRVES CHALLENGE RED SOX.

Boston, Sept. 25.—A challenge for a city series of baseball games this fall was issued today by President Haughton of the Boston Braves to President Frazer of the Red Sox. He said he was willing to play on any day of the week the losing club turn over its share to the winning club, or to the Red Cross, whichever of these alternatives was acceptable to Mr. Frazer.

Toronto's Horse Show

Toronto's Horse Show is on Saturday, and it will be a notable incident. Great preparations are being made by the Hunt Club, and all who visit the Woodbine will be assured of the best in equine competition. There are fourteen (14) big events, and the proceeds are to go to the benefit of the Red Cross. Tickets are now on sale at the downtown stores.

PINCH HITTER WINS FOR BOSTON RED SOX

Indians Downed in Thirteen Innings—Yankee Recruit Pitcher Blows.

At Philadelphia (American)—A batting rally in the fourth inning gave St. Louis a victory over Philadelphia, 4 to 2. Lou Larnick kept the home team's hits scattered and fanned seven batsmen. Score: P. H. E. Philadelphia.....1 1 0 0 0 0 0 0—2 8 2 Philadelphia.....0 0 0 0 0 0 0 0—2 8 2 Batteries—Larnick and Severdick; Johnson and McVey.

At Boston—A single by Pinch-hitter Thomas in the last of the thirteenth, with the bases full and one out, scored two runs yesterday, enabling Boston to win, 4 to 2. In the first of the same inning Cleveland had made a run, a single, followed by a sacrifice. Rully's double pitching honors were even between Shore and Klepper. Score: P. H. E. Cleveland.....1 0 0 0 0 0 0 0—1 12 2 Boston.....0 0 0 0 0 0 0 0—2 8 2 Batteries—Klepper and O'Neill; Shore and Acnew.

GETTING READY FOR THE RUGBY SEASON

That junior rugby as well as intermediate and senior has been affected by the war is shown in several places. Robert Hewitson of the Ontario Rugby Football Union, a number of enthusiastic collegiate and high school principals and teachers, who are devotees of the great fall pastime, have written requesting their ability to place a team in the junior series of the O.R.F.U. this season. They state that quite the handful and they feel that those who left but do not compare with the other teams to which they would be opposed. They state, however, that after the war they will certainly place a team in the O.R.F.U., as they believe the old union is doing a great work in fostering the game among the younger fellows. Practically all of the teams entered in the junior series last season have again announced their intention of again playing, and that it is somewhat early yet, it is fully expected that more teams than last year will be in operation. The semi-annual meeting of the O.R.F.U. will be held at Toronto on Monday night, October 1, when the season's plans will be discussed.

INTERCOLLEGIATE RUGBY.

Galt, Sept. 25.—Intercollegiate Rugby League reorganized at a meeting held here, R. S. Hamilton of Galt being elected president, and Mr. Hooper, Guelph secretary-treasurer. The constitution was amended preventing teachers from playing. The schedule was drawn up and is as follows: Oct. 5—Galt at Guelph. Oct. 12—Galt at Brantford. Oct. 19—Galt at Guelph. Oct. 26—Galt at Brantford. Nov. 2—Galt at Brantford. Nov. 10—Galt at Galt.

OMAR KHAYYAM TO MEET HOURLESS AGAIN AT LAUREL

Washington, Sept. 25.—Another race between the great three-year-olds, Omar Khayyam, owned by Wilfrid Vau, a former Montrealer, and Hourless, owned by August Belmont, is assured for the Laurel track on a Red Cross day next month. Omar Khayyam, who will start the race, will be run over a distance about midway in the autumn meeting when the prospect will be for a good day and a fast track.

To help a locomotive fireman with his work a New York inventor has patented a vibrating pusher that moves coal from the back of a tender toward the front.

Empire Byron of the National League was hit by a pitch from Chicago after Wednesday's game between the Cubs and Reds. He had to make concessions or lose out on officiating the following day at another city. As soon as the battle was terminated Byron rushed up to the dressing room and grabbed his suit case. A moment later his suit case bobbing up and down as he hustled. "What's in that bag?" yelled a fan. "What's in that bag?" Byron glanced back over his shoulder and shouted, "A bunch of bum decisions."

To Be Two Meets At New Orleans

New Orleans, Sept. 25.—(Special.)—Definite announcement of the racing plans for the coming winter of the Jefferson Parish Fair, Inc., was made yesterday by Joseph A. Murphy, who has accepted the position of director of racing and presiding stewards of the new association. E. C. Smith, presiding judge of the New York tracks, will be associated with Murphy. J. B. Campbell, steward of the Kentucky tracks, will be placing Judge. A. B. Dade will do the starting. Joe McLennan will be racing secretary and clerk of the scales. H. F. Conkling, patrol judge, and John Chitney, paddock judge. As most of these officials will be engaged at Bowie, Md., which will conflict with the opening of the new meeting, a division of the help will be necessary. It is probable that Smith, Dade and Murphy will remain at Bowie, while Campbell, McLennan and Stuyver (Dade's assistant) will open the new track here. It was decided to open the meeting on Thanksgiving Day (Nov. 29), and race continuously until Dec. 31, inclusive, except on Sundays. While the meeting will practically run only a month, by a strange freak of the schedule, it has Thanksgiving, Christmas and five Saturdays. One of these days a handicap with \$1000 added, will be offered to the purse offerings each day. There will be two \$400 purses, three \$500 purses and one \$600 purse. A system of individual betting only will be used. If the autumn race, now pending in the supreme court, is decided against the racing interests, another plan will be devised to present to the court. It is likely that a bet on a horse race is a crime by statute. Its policy will be to secure from the courts the destruction of what an individual bet is, and make everybody else strictly up to the mark. All fear that New Orleans has in for a disappointing season. A meeting was held at the Jefferson Parish, after Mardi Gras day. Hot springs will follow New Orleans, with a meeting of about 30 days.

Jockey W. Knapp Real Come-back

New York, Sept. 24.—Talking about "comebacks," Willie Knapp, the jockey, must be credited with one. Up to this season Knapp has not ridden a race in three years, having been set down by a jockey club ruling. Since his reinstatement he has been riding winners regularly. As a rule jockeys don't "come back" after a long retirement. Tom Sloan tried it years ago at New Orleans, and was a joke as a rider. New York has been with Knapp, however, is doing as well as he ever did in his prime, simply because he "kept his hand in," even though he was on the ground. He worked around stables, galloped horses in the mornings, and for a while was foreman of the Cochran string. He never got away from the racing atmosphere, and in addition was careful to lead a good life and keep all of the teams entered in the junior series last season have again announced their intention of again playing, and that it is somewhat early yet, it is fully expected that more teams than last year will be in operation. The semi-annual meeting of the O.R.F.U. will be held at Toronto on Monday night, October 1, when the season's plans will be discussed.

CHRESE PRODUCTION INCREASES, BUTTER OUTPUT SLIGHTLY LESS

Ottawa, Sept. 25.—The total production of creamery butter in Canada, according to a bulletin issued by the census and statistics office, was \$2,541,000 pounds, valued at \$28,966,256. The production was slightly less than in 1915, when \$3,991,483 pounds represented the output of the Dominion. The total production of factory cheese in 1916 was 192,968,597 pounds, of the value of \$36,512,622. During the previous year, 183,857,837 pounds, valued at \$27,097,176, were produced.

WINNIPEG CATTLE MARKET.

Winnipeg, Sept. 25.—Receipts at the Union Stock Yards today numbered 508 cattle and 120 hogs. Cattle trading was steady to firm at unchanged prices. The demand is very good for all grades. Hogs sold steady at \$17.25; the few that were offered.

As Charlie Says---

"A jug of wine, a loaf of bread, the wilderness, and Thee, were happiness enough for me." So, more or less, spake the Poet. By "Thee" he must have meant ARABELLA, the 4-for-a-quarter cigar.

SCALES & ROBERTS, Limited. Toronto.

PENNY ANTE

A Postponed Session

BY GENE KNOTT

The low cost per cup

It is hard to believe that a cup of good, rich tea only costs about a fifth of a cent, but, you see, Red Rose consists chiefly of Assam teas—the richest, strongest teas in the world. Red Rose easily yields 250 cups to the pound. And it's a tea of rare economy and flavor.

Kept Good by the Sealed Package

SCARCITY OF SERVANTS REPORTED BY BUREAU

Many Applying at Government Office Can Only Work Few Hours Daily.

Reports from the Ontario government bureau make it apparent that those needing domestic help will be obliged to remain with their want unfulfilled or take a woman by the day, most of the applicants having one or more children, who can only be left for a certain number of hours daily.

Reports from last week show that out of 70 registrations for work and 43 for help only 18 applications were filled, one of the women placed taking a child with her. In work by the day the office was able to supply 133 which was equivalent to supplying from \$250 to \$400 worth of work for the week. In fruit picking during the week there were 88 new applications; help wanted 15 orders for 27 people; referred to positions, 41; reported placed, 21; number of applications, including re-applications, 124.

REMITTANCES FOR THE BOYS IN ENGLAND OR FRANCE.

Torontonians desiring to get English or French paper money for remittances to boys at the front can secure the same at the office of A. F. Webster & Son, 53 Yonge street.

ATTENDS ANNUAL MEETING.

Mrs. E. A. Stevens, president of the W.C.T.U., is presiding at the provincial annual meeting now in progress in Cornwall. Mrs. A. B. Ormsby left last night to take part in the conference, particularly that of the women's franchise bill, to which she is opposed. The president, Mrs. Stevens, hopes to see the measure pass the meeting. It shall.

FRESH WATER FISH TO BE HERE TODAY

First Shipment of Ontario's Lake Food Left Nipigon Yesterday Afternoon.

The first car of government lake fish for Toronto will be here today. The Hon. Finlay Macdonald, minister of public works, stated that the wholesaler would be left out in this deal, as it was the people first, and he thought that they should have the fish as cheap as possible, probably at 12c or 13c per pound. Mr. Macdonald stated that the first shipment left Lake Nipigon yesterday afternoon. He did not know just what the amount of the shipment would be, nor had arrangements been fully completed for its distribution. The fish, which will likely consist of trout, whitefish, pickerel and sturgeon, will be sold direct to the retailers, and all that the consumer will have to pay is 12½ cents a pound.

Cod and haddock were only 8c per pound when Hon. W. J. Hanna took over the control of the fish, but now, according to P. T. James, one of the wholesalers, it is worth 12c and may advance to 13c. A great deal of the blame for this is placed on the producers, who have raised their price from 4½c to 5½c per pound since Saturday. In the American markets the demand still exceeds the supply, and their market looks better than ours to the producers. Consequently the producers have raised the prices to compare with those of the American market.

MERCENARY.

He—You used to say there was something about me you liked. She—So I did. But you've spent it all.

Society—Conducted by Mrs. Edmund Phillips

The Hon. J. D. Hazen, who is in Halifax to meet Mrs. Hazen on her arrival from England is the guest of his Honor the Lieutenant-Governor and Mrs. Grant at Government House. Mrs. Albert Gooderham, president of the National Chapter of the Imperial Order of the Daughters of the Empire, is at the Chateau Laurier, Ottawa.

Miss Ethel Hendrie is spending a few days in Hamilton, the guest of Mrs. Jordan Southam. Mr. William Hanna, who went to England with the 2nd Highlanders, and Mrs. Hanna are expected from England this week, and Mr and Mrs. D. B. Hanna are in Halifax to meet them.

The concert in the Margaret Eaton Hall last night, organized by Mr. Cariboni for the Infants' Home, which is a most successful one. Miss Parker, who, with others, contributed to the program, was presented with a lovely bouquet of flowers. Mrs. W. J. Elliott and Mrs. Dalton Davies took the tickets and the ushers were the Misses Helen Howard, Edith Gash, J. Clarke, Caprol, Strickland, Caz C. Langlois. A few of the people in the audience included Lady Moss, Mrs. William Doulbe, Mrs. W. R. Bain, Mrs. Mairs, Miss Mairs, Miss Holmes, Mr. Boris Hambourg, Mrs. Wallace, Mrs. Ogden Jones, Miss Jones, Mrs. Peter Baines, Mrs. Tyrrell, Mrs. Clarence Starr, Mrs. John Wright, Mrs. Docker, Mrs. Skeay.

The Hon. Mackenzie King is spending a week in North York. Mrs. T. C. Keefe, who has been visiting her father, Mr. W. H. Holland, and Mrs. Holland, has returned to her home in Ottawa. Miss Jessie Gooderham is going to Ottawa this week to stay with Miss Maida MacLachlan. Mr. B. A. Walker and Miss Zelma Walker have returned home from visiting Mrs. Ross Trueman, Chicago. Mr. and Mrs. George Reid returned last week from Ancaster to their home in Wychwood Park. Mrs. E. Mulholland, Lundy's Lane, is in town for a few days. Mrs. W. J. Elliott returned last week from the White Mountains. Mr. and Mrs. W. K. George went to Halifax to meet their daughter, Miss Sarah, last evening under the direction of Maestro Carboni. In a program of general excellence, the outstanding features were the piano numbers of Miss Bertha Clapp, the aria, "Bel Ruggio", from Semiramide, sung by Dora de la Lowe, one of Toronto's most beautiful sopranos, and the violin selections of eGorges Vignelli. Others who took part were S. Winnifred Parker, J. R. Hallman, Ruth Thomas, Katharine, T. Bernard Kennedy, Gwendolyn Osborne, T. Detweiler, Mabel Manly Pickard. The dialect readings, "Drum and Bones" and "The Chief", by Edward Genea, contributed to a varied and enjoyable program.

RUSH OF RECRUITS CONTINUES GREAT

Accommodation at Armories Inadequate to Handle the Draft Men. STAFF INCREASED

Facilities for Examination of Applicants to Be Largely Augmented.

With the increased requests of young men of the first draft for medical examination to ascertain their physical fitness for military service under the new act, the demand upon space at the Toronto mobilization centre has become so abnormal that yesterday it was found necessary to provide additional accommodation by turning lecture room "A," on the top floor in the northwest corner of the armories, into a medical inspection room. Four more women typists have been added to the present staff, and two more are coming today, so that the mass of correspondence which has accumulated since the inauguration of the new system may be rapidly dealt with.

Yesterday's examinations totaled 47, of which number 79 were attested and assigned to the following units: 1st Depot C. O. R., 23; Y and S Foresters, 3; C. M. R., 1; C.A.S.C., 4; 2nd C.A.M.C., 13; 2nd Field Co., Canadian Engineers, 3; Canadian Engineers, O.S., 2; U. of T. Training Co., Forestry Dept., 7; Military Police, 2; 12th Forestry Co., 2.

Fine Entertainment in Aid of Infants' Home and Infirmary

In aid of the Infants' Home and Infirmary a very enjoyable entertainment was given last evening under the direction of Maestro Carboni. In a program of general excellence, the outstanding features were the piano numbers of Miss Bertha Clapp, the aria, "Bel Ruggio", from Semiramide, sung by Dora de la Lowe, one of Toronto's most beautiful sopranos, and the violin selections of eGorges Vignelli. Others who took part were S. Winnifred Parker, J. R. Hallman, Ruth Thomas, Katharine, T. Bernard Kennedy, Gwendolyn Osborne, T. Detweiler, Mabel Manly Pickard. The dialect readings, "Drum and Bones" and "The Chief", by Edward Genea, contributed to a varied and enjoyable program.

WESTON SANITARIUM CLUB.

At the opening meeting of the Weston Sanitarium Club Mrs. R. W. Fritschy presided. A number of books were brought in to replenish the patients' library. At the conclusion of the business of the meeting the members made a tour of the various buildings and were afterwards entertained at tea by the superintendent, Miss Dickson, and her assistants.

PLAYS, PICTURES AND MUSIC

Madge Kennedy in "Baby Mine." It is Madge Kennedy made a hit in "Twin Beds" and "Fair and Warmer" is she winning public favor in "Baby Mine," her first motion picture, at the Regent Theatre this week. The claim is that Madge Kennedy is the foremost comedienne in America, and this production further helps maintain that enviable position.

"Flora Bella" Next Week. "Flora Bella," which will be the offering at the Grand Opera House next week, sounds a new note in musical comedy. "Flora Bella" has a coherent, intelligent plot which could furnish basis for a comedy even if it were not the backing of a musical production.

When Miss Ethel Burbury and Mr. Lee Shubert present "Love o' Mike," the smartest and most distinctive musical entertainment de-luxe of recent seasons, at the Royal Alexandra Theatre next Monday evening for a week's engagement, the brilliant cast will include, besides Shep Camp and Ned King, sixteen other equally well-known musical comedy stars.

GRAIN THRESHING TURNING OUT WELL

Department of Agriculture Weekly Report Less Favorable Than Usual.

RAIN BADLY NEEDED

Labor Stringency is Not Being Felt So Keenly as Was Expected.

Following is a summary of weekly crop reports made by district representatives of the Ontario department of agriculture: Threshing of grain is turning out well, although the yield is hardly in keeping with the showing of straw, nor up to the earlier high expectations of growers. Oats are relatively plumper, acreage of fall wheat is already in, but later sowing is yet to be done. A portion of the winter crop has been sown but more will be got in up to as late as the first week in October. Both husking and threshing have not proceeded as well as usual, and the crop generally will be below the average. The frost of September 10 has caused a number of farmers to be disappointed with their immature corn. There has been less rot and scab among potatoes than was anticipated, but the drought of the past few weeks has been stopping growth of late varieties. Mangolds and turnips and other field roots are looking above the average, but the present drought is beginning to try them. Pastures are described as being in from fair to good condition. The second crop of clover is turning out only fair for seed.

ASSIST RED CROSS.

In aid of All Saints' Church Red Cross a very successful fund-raising party was held at the home of Mrs. Dallimore, 272 Seaton street, by

MINIMIZE THE FIRE PERIL BY USING EDDY'S

Eight Billion Dollar Bill Is Amended by U. S. Senate

Washington, Sept. 25.—The eight-billion dollar deficiency appropriation bill was taken up by the senate today and amendments involving many millions of dollars were agreed to without debate or objection. At the request of the war department the senate adopted a substitute for the house clause prohibiting limiting use of appropriation for registration and selection of men under the draft to one million men. The substitute would permit the use of the money for more than that number. The substitute also provides that men who are not qualified for service.

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong--According to Dr. Lewis

Guaranteed to Strengthen Eyesight 50% In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use Home. Philadelphia, Pa.—Victims of eye-strain and other eye weaknesses, and those who wear glasses to be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with-out glasses, but after using this prescription for 15 days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye-strain caused by overworked, tired eyes, which induced fierce headaches. I have worn glasses for several years, both for distance and work, and without them I could not read my own name on an envelope or the type-writing on the machine before me. I can do both now and have discarded my long-sighted glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me." It is believed that thousands who wear glasses can now discard them in a reasonable time, and multitudes more will be able to strengthen their eyes so as to be

shared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription. Go to any good drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and information and readiness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time. Note: Another prominent Physician, from whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or mixed glassed water, aching, smarting, itching, burning eyes, red lids, blurred vision or eyes inflamed from exposure to smoke, sun, dust or wind. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto, sold to above, not a patent medicine nor a secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturer guarantees it to strengthen eyesight 50 per cent. in one week's time in many instances or refund the money. It can be obtained from any good druggist and is sold in this city by G. Tamblin, Limited.

The Body-Building Power of BOVRIL

In feeding experiments on Human Beings carried out by a well-known independent British Physiologist. When Bovril was added to the normal diet it produced an increase in flesh, bone, and muscle equal to 10 to 20 times the amount of Bovril taken. You are therefore sure of being nourished if you take Bovril.

Body-Building Power of Bovril taken.
No increase in price since the War.

NOTED PRISONERS IN RUSSIAN CELLS

Eight Leading Servants of Old Regime Held in Fortress.

PROTOPOFF SEEN Not Understanding Spirit of Age, Declared Principal Crime.

Petrograd, Monday, Sept. 23. — As the result of a month's negotiations, after which a decision by Premier Kerensky was finally reached, the Associated Press correspondent was permitted today to inspect the notorious Trotskist bastion of the fortress of Saint Peter and Saint Paul, the bastille of Petrograd where, during two centuries there have been imprisoned high-born traitors, pretenders to the throne, assassins of emperors, propagandists of nihilism and bomb throwers, and here today the banished autocratic regime are awaiting the nation's verdict.

In this bastion are now interned eight leading servants of the old regime, the former minister of the interior, M. Makaroff, who purchased the election of burglar to the duma to act as a spy; M. Sikrenieff, accused of serious offences as chief of the army-motor supply office; former minister of Justice J. Chitchevloff, whom the late Count Witte characterized as the most clever, most corrupt and most treacherous of the duma; Dolgoroukoff, the cavalry commander set last week as a supporter of General Korniloff; the former procurator of the emperor's palace commandant, and finally Alexander Protopoff, once classed as a patriotic member of the duma, next a minister of the interior, and last the ally and slave of the mystic monk, Rasputin.

In company with the assistant procurator of the Petrograd high court, the correspondent drove to the fortress. Before the main entrance of the automobile, although an official car, was examined by the soldiers on guard, who conducted a long cross-questioning of the occupants, after which they were passed thru the residential section of the fortress en route and on to the prison.

Before inspecting the cells, the correspondent visited the prison chancery, out of which lead two doors. Pointing to them, the procurator said: "Inside are prisoners under examination."

He opened the door immediately, showing a stoutish, gray-bearded man,

Afraid to Eat

Wealthy Dyspeptic Dies of Starvation

An inquest was recently held upon a wealthy man who had died of starvation. He was a victim of digestive trouble and was afraid to eat because of the pain it always followed. This tragic proof of the folly of dieting should serve as a warning to those readers who experience pain and unpleasantness after eating. It should be remembered that indigestion, dyspepsia, heartburn, flatulence and wind are usually but symptoms of excessive acidity and food fermentation. The acid causes indigestion, turns the food sour and causes fermentation and wind. Obviously, therefore, it is acidity which is the root cause of practically all forms of digestive trouble. It is acidity which is why physicians advise sufferers to take Magnesia Neutrate after meals. Magnesia Neutrate is not a drug or medicine, but an antacid and food corrector, which can be obtained from high-class chemists everywhere. A teaspoonful taken in a little water after meals is sufficient to permanently neutralize acidity and prevent all possibility of the food fermenting; and if dyspeptics would only adopt this simple precaution they would soon find drug-taking and dieting unnecessary. Magnesia Neutrate would enable them to eat hearty meals without fear of pain to follow.

DECORATE GRAVE OF LATE LEADER

Anniversary of Passing of Sir James Whitney Fittingly Remembered.

PROPHETIC INSTINCT

Dr. Pyne Says Eight Years Ago Premier Fore-saw War.

Morrisburg, Sept. 25.—The Hon. Dr. Pyne, minister of education, was the principal speaker, and represented the provincial government at the annual decoration of the last resting place of Sir James Whitney, which took place here today in the presence of quite a number of the residents of this vicinity.

The occasion of the visit of the minister of education was marked by a demonstration by the pupils of the collegiate institute, who assembled and sang several patriotic songs, after which they were addressed by the minister.

Dr. Pyne's Address. In his remarks at the grave of the late premier Dr. Pyne paid a tribute to the life and work of Sir James Whitney, and pointed out that the public realize more and more the greatness of his service to Ontario. He said that Sir James had regenerated the public life of this province and that "those who came after him the duty of preserving and perpetuating his great work. Dr. Pyne drew special attention to the breadth of view Sir James Whitney had in regard to public matters, and his almost prophetic instinct regarding the present crisis.

He recalled that almost the last time he spoke in Morrisburg, on May 26, 1909, Sir James Whitney declared that Germany was preparing to combat Great Britain and would be ready to do so within three or four years. On that occasion Sir James Whitney declared that if Canada had given one or two dreadnoughts Australia would have done the same, and that the crowned heads of Europe, who were jealous of the majesty of Britain, would then have realized that all around the world the whelps of the lion were awake and ready to do their share. "Mehlinke," said Sir James Whitney, "that would have been a valuable contribution to peace."

Commenting on these remarks, Dr. Pyne said that they showed how true was the insight and how imperial was the patriotism of Sir James Whitney. He declared that the warning then given had not been heeded and the great opportunity was lost. Another and even greater opportunity was awaiting the people of Canada, and if they failed or faltered in doing their duty to the empire still greater and more evil consequences would ensue. He urged that Canadians abandon all petty partisanship and put country first so that there might be no class or shirkers in the land, and Canada might present a united and irresistible front to our common enemy.

GUILTY OF SERIOUS OFFENCE.

Kingston, Sept. 25.—Found guilty of committing an assault on a little girl, Allen Peters was sent by Magistrate Frawley to the prison farm for two years less a day.

Doctors Said Operation

When Chatham Lady Suffered From Extreme Nervous Exhaustion—Now Feeling Fine and Working Large Garden.

Chatham, Ont., Sept. 25.—This letter will interest every lady reader, because it describes a condition for which many doctors advise an operation. That the operation is often unnecessary and very often leaves the patient an invalid for life is well known. You will read here of what Dr. Chase's Nerve Food has done for this lady, and will then understand the great good it is accomplishing in many thousands of similar cases throughout the continent. A woman should think long and earnestly before consenting to an operation of this kind. It is a simple matter to give Dr. Chase's Nerve Food, and the results are almost always entirely satisfactory. You not only avoid the risk and expense of an operation, but find yourself restored to health and vigor.

CANADIAN PACIFIC RAILWAY.

Effective Sunday, Sept. 30, general change of time will take place. Consult agents, or W. B. Howard, district passenger agent, Toronto, for particulars.

FERDINAND RENEGADE, KAISER DECLARES

Faith of Emperor's Former Friend Sealed, William Says.

Amsterdam, Sept. 25.—The German emperor, in addressing the members of the 1916 campaign in Roumania on Saturday, according to a report received here from Berlin, spoke of the Hohenzollern who had succeeded a great and noble prince and, despite all traditions, did not know how to keep the faith. Emperor and of Roumania (a member of the house of Hohenzollern) as the renegade who at the time when Germany was engaged in a war with her, joined the enemies of the empire.

The emperor spoke of the "eternal miracle of German strength," which has been brilliantly proved in fact, adding: "Indeed the avenging hand of the Judge above us has sealed the fate of this ruthless former friend. What the Lord of Hosts may still have in store, we do not know, but, come what may, we are able to confidently look into the future with a clear conscience. We did not flinch at this war, and if it is prolonged it is not our fault."

A novel device to eliminate the glare of automobile headlights converts the front of the electric bulb and diverts the rays of the lower half so they are added to the light thrown by the upper half of the reflector.

FIFTEEN KILLED BY HUN RAIDERS

Seventy Other Persons Injured, But Material Damage is Small.

LORD FRENCH REPORTS

Only One or Two Enemy Machines Penetrate Defences of London.

London, Sept. 25.—The following official report was given out today by Lord French, commander of the home defence:

"Airplane raid: The latest reports concerning last night's airplane raid show that the group of raiders which approached London was driven off by the fire of anti-aircraft guns. Only one, or at the most two, machines penetrated the defences. The casualties in all the raided districts reported by the police up to the present are: Killed, 15; injured, 70. The material damage was not great. "Enemy airplanes crossed the Yorkshire and Lincolnshire coasts between midnight and 3 a.m. There is no evidence of their having penetrated to any distance inland. They were driven off by gunfire from various defended localities which they attempted to approach. Bombs were dropped at one coast town, three women being slightly injured. Little material damage was caused."

Viewed by daylight this morning the damage resulting from the visit of the German raiders to London last night appeared to be surprisingly slight. The number of bombs dropped in the London district was small, and the practical results were almost negligible.

The chief damage visible this morning was broken glass. In one spot, where a heavy bomb landed squarely in the middle of the street, a hole four feet deep was torn in the pavement. The spot was fenced off early in the morning, and men were at work repairing the pavement broken glass over several acres, including windows in neighboring hotels in which many Canadians, Austrians and Americans had been staying. Only three persons were killed in this explosion. All of them were standing in a doorway watching the explosion of shrapnel overhead. The persons were wounded, mostly by breaking glass. Wagon loads of glass were swept up from the pavement and carried away early in the morning.

Two or three other bombs which fell in London caused even less damage. Few Bombs Dropped. It appears that the fierce battle which the British airplanes and anti-aircraft artillery have waged against the raiders to leave London without dropping any considerable part of their cargo of explosives. One of the London districts received several bombs on the occasion of previous visits by raiders. Two bombs fell in the Thames near the bridge, throwing a column of water so high that it splashed clear over the walls.

The enemy remained over London at a great height for the greater part of two hours, and the raid appears to have been on a pretentious scale, but it was even more abortive than previous attempts. Although the raiders arrived early in the evening, raiders have taken to heart the advice of the authorities about seeking cover, and this accounts in part for the small number of casualties. It is the smallest number of casualties since three-fourths, and probably four-fifths, of the casualties were suffered by persons who had fled to take up their positions in the open, and were watching the overhead spectacle from balconies or doorways.

A suburban crowd from over-excitement during the raid. Kentish Town Bombed. Reports from a Kentish town say that about eight bombs were dropped in last night's air raid. According to a telegram from an Essex coast town, the first intimation of the raid came about 7 o'clock, when anti-aircraft guns opened fire, and the dropping of the airplanes' motors could be heard.

The bombing over two hours at intervals, but so far as could be learned only three bombs were dropped, and apparently there was no great property damage.

The Daily Mail in an editorial commenting on last night's air raid, calls for reprisals, saying: "The British people view these attacks with indifference if they knew that every one of them was followed by an attack in which twice the weight of bombs dropped here was showered on German towns. Let's hit the Germans, hit them hard."

Berlin's Version. Berlin, via London, Sept. 25.—"Our aviators attacked England and dropped bombs on military buildings and warehouses in the heart of London, and Sheerness, said today's official statement.

"Fires gave evidence of the effect of this bombardment. "All our machines returned unharmed. Dunkirk was also attacked. The enemy lost thirteen airplanes." To the above official statement the United Press London bureau appended this note:

"If the above loss of thirteen airplanes by the enemy refers to British planes lost in the air raid last night, the statement is totally devoid of truth, according to official statements today."

SECOND BROTHER KILLED.

Kingston, Sept. 25.—Major W. J. McManus, infantry instructor at Barrfield Camp, received a cable this afternoon stating that his brother, Ernest, of the Essex Regiment, had been killed in action. He is the second brother of a family of four sons to fall. The family is of English extraction, but has resided in St. Catharines for some time.

OPPOSES USE OF GRAIN FOR MAKING LIQUORS

Searforth Citizens Will Sign Pledge Cards, But Asks Government to Enlarge Embargo.

Searforth, Ont., Sept. 25.—At a largely attended meeting of the citizens of Searforth, held in Carden's Hall today to consider the conservation of our food supply, the following resolutions were passed with enthusiasm and with scarcely a dissenting voice:

FRENCH AIRCRAFT MAKE BOMBING EXPEDITIONS

Squadrons Pay Visits to Cambrai, Luxembourg, Longuyon and Brielle.

Cocoonut Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain, purified cocoonut oil (which is pure and entirely greaseless) is much better than anything else you can use for shampooing. It can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

ROWELL IN VANCOUVER.

Vancouver, Sept. 25.—N. W. Rowell, leader of the opposition in the Oregon Legislature, will address the Vancouver Canadian Club at a luncheon on Friday of this week.

Threatens to Sell Cows Unless Milk Price Rises

Ottawa, Sept. 25.—"I will sell every cow in the dairy if we do not get 30c a gallon for our milk," stated one Ottawa milk producer this morning. "We have been losing money right and left."

Women's Smart Tailored Suits of the Better Kind

To the woman who dresses with fine discrimination these smartly tailored suits will make a strong appeal. Made of fine serges, wool poplins, broadcloths and wool velours in the new autumn shades of Burgundy, beet-root, amethyst, taupe, navy and black, with full three-quarter length coats, belted and relieved by bandings and collars of seal, mole, sable and plush, and lined with excellent quality silk or satin. Sizes 34 to 42. Prices \$35.00 to \$67.50.

Serge Dresses in Many Styles \$18.50 to \$30.00

Simple, straight and serge is the latest word in the autumn utility costume. These dresses are shown in pleated effects with normal waistline and tunic or draped skirts. A chic finish is given by embroidery and novelty buttons. Colors are black, navy, grey, Burgundy, brown and green. Sizes 34 to 42. Price \$18.50 to \$30.00.

Youth, Charm, Simplicity Expressed in These Misses' Dresses

A straight serge dress that has its side pleated skirt attached to a charming bodice in bolero effect; has also a large cream serge collar and long pointed cuffs; large novelty buttons add a simple decoration to the bolero at the waistline; colors navy and black. Price \$22.50. Another delightful model that is shown in navy, black, Burgundy, brown and green serge has a box-pleated skirt attached to bodice at normal waistline; features that make it truly something different being the extensive use of military braids on bodice, sleeves and broad straight belt; also the large white tulle collar. Price \$22.50.

Men's All-Wool Sweater Coats Splendid Value \$4.89

These sweater coats are the kind that keep warm inside and look good outside. They are made in real heavy all-wool yarn, knitted in fancy stitch, having double-knit storm collars and heavy elastic rib cuffs. Included are such good colors as light or dark grey, maroon, brown, etc. They are made with two pockets. Sizes 34 to 44. Special value today at \$4.89.

Men's Khaki Flannel Shirts, with pockets, separate collar or with collar attached. Made in long, roomy size, with double-sewn seams. Sizes 14 to 17. A remarkably good value at \$2.00.

Men's Sanitary Fleece-lined Underwear, shirts and drawers, in good weight, having soft, fleecy lining, making excellent garments for Fall and Winter wear; are warm and non-irritating. Sizes 34 to 42. Per garment \$1.00.

Wonderful Values in Whitewear and Underwear

All-wool Combinations. They are made of a beautiful soft quality, finely ribbed, pure all-wool, in a natural shade; just the right garment for elderly women; made with high neck, button front, and long sleeves; ankle length drawers; sizes 34 to 38. Regularly \$4.00. Today, half price \$2.00.

These are a special lot we bought from a high-class manufacturer in the proper weight for these chilly nights. They are made of lovely soft yarn in a silk and wool mixture, in low neck short sleeves style; finished with dainty beading and draw strings; sizes 34 to 42. Regularly \$1.75. Today, \$1.00.

Nightgowns, 85c. In three dainty slip-over styles of a fine even quality nainsook. Some have yokes of Swiss embroidery medallions or lace edgings, others have pretty Swiss embroidered yokes in small neat patterns with silk ribbon draw strings and narrow edgings to finish neck and short sleeves. Special value, \$1.25.

Other Cabinets at \$1.75 and \$1.95. Bathroom Stools, white enameled finish, four rubber-capped legs \$1.69.

These models will be found the names of many of the most famous makers of New York and Paris, names renowned the world over, such as Lewis, Marguerette, Leone, Marie Guye, Lewison and Georgette; and in the New York models will be represented the best Fifth Avenue authorities so familiar to the majority of women; among these are Bendel, Kurtzman, Rawak, Earl, Farrington & Evans, Moorhead & Jardine, and other well-known milliners.

These models are the latest word in styles, workmanship and exclusiveness in design. They have been our inspiration and authority for our fall styles, and today will be sold at half price.

Small Black Tailored Suit Hats for the Well-dressed Young Woman. Prices \$15.00 to \$20.00.

The ever-increasing demand for a hat, tailored to suit the younger women, for dress or motor wear, has forced us to exert unusual effort to make this showing of stylish millinery meet this long-felt need. Come and see the new small hats that will be displayed today at \$15 to \$20.

As Illustrated—Patent colt v a m p, with neatly perforated tip; 8 1/2 in. cinnamon buck top, blind eyelets, Goodyear welted sole, and graceful leather heel with vanity plate. 18.00

The above is a new fall Queen Quality Boot of excellent quality and attractive appearance. The sharp, shapely, thin lines give this boot an exceedingly graceful appearance, and the correct designing assures unsurpassed comfort. Queen Quality superiority is manifested in every detail of manufacture, each detail being the result of years of experience in meeting the exacting demands of a most particular patronage. Queen Quality Shoes wear reasonably long, therefore they are inexpensive to buy even at higher prices.
