MORE TOWNS FALL HUNGARY INVADIED

French Troops Capture Two More Places on Good Roads to Peronne, While British Continue to Strengthen New Positions—Enemy Must Fight in Open Fields.

LONDON, July 4.—The two British official despatches issued today record little change in the situation on the British front. They show that the Germans have brought up strong reinforcements from other parts of their line and are stubbornly contesting every yard of the British advance. Torrential rains today, however, hampered the offensive operations, and the British action was confined mostly to consolidating the ground already won.

The French have captured two more villages and are on good roads to Peronne. But there is yet no decrease in the violence of the German attacks on the Verdun region.

Despatches from German war correspondents contain the realization that the central powers are losing the initiative, which their favorable position on the interior lines enabled them to hold through the long course of the war. Moreover in commenting on the enormous resources in munitions and war material the entire allies have been able to pile up thru the wearying months of preparations, they equally recognize that a profound change has occurred in the relations of the belligerents.

Russians Also Coming On. Simultaneously with the opening of the Anglo-French offensive, the Russian armies are again attacking on the whole length of their front.

An entirely new offensive has been opened against Prince Leopold's Bavarian forces in the region of Baranovitch, where the Russians have pierced the German lines at two places; while the Italians are maintaining strong pressure along their entire front.

The British newspapers consider that these events prove that the moment of "the great squeeze" has at last arrived, and not since the war began have hopes run so high. Nevertheless almost every British correspondent on the western front warns against being over-optimistic and daily reiterates that the progress must necessarily be slow and methodical.

Up to the present the Anglo-French captures in the battle of the Somme total more than 14,000 prisoners, 12 heavy guns and 23 field guns. This booty represents for the man in the

street a very satisfactory result of a little over three days' fighting.

The battle rages on such an extended front that the correspondents find difficulty in sifting the main currents of the operation. The Associated Press correspondent, in pregnant phrase, records what is perhaps one of the most significant features, when he notes, "the amazing change from trench-tied warfare to that of an army in progress." The same striking feature comes out in an interesting review of the operations which The Associated Press has obtained in an interview with Major-Gen. F. B. Maurice, who predicts an immediate development south of the Somme, where, he says, the fighting is now in open field formation.

Satisfactory Situation. All unofficial despatches speak confidently of the satisfactory situation on the British front, a notable incident being the surrender of a complete Prussian infantry battalion with officers to the British near Fricourt. German prisoners are beginning to arrive in England, 1500 being landed at Southampton today.

British Official Report. The British official statement from general headquarters, timed 10.55 p.m., reads:

"On the southern sectors of our front, fighting continued throughout the day and at some points we made slight progress. The remainder of a whole German battalion surrendered in the vicinity of Fricourt yesterday.

"At La Boisselle fierce fighting and bombing continued, and bombing encounters took place during the past 24 hours. Our troops are now in complete possession of the village.

"The Germans made a strong bombing attack this afternoon on that portion of their original front which is now held by us south of Thiepval. This attack was repulsed easily with loss to the enemy.

"Between Thiepval and the Ancre the enemy heavily shelled our newly won trenches.

"Immediately north of the Ancre there is no change in the situation. There was considerable artillery activity today about Loos and the Ho-

zencollern redoubt. A German raid last night, on our trenches south of Armentieres, completely broke down under our rifle and machine gun fire and considerable losses were inflicted on the enemy.

"Our aeroplanes successfully attacked yesterday the important railway centres at Comines, Cambes and St. Quentin. Our offensive patrols working far into the enemy's country, encountered hostile aeroplanes in great numbers and much fighting took place. Four German machines were brought down inside our lines and at least three others were driven to ground in a damaged condition. We suffered no further losses beyond those already reported."

Gen. Maurice's Interview. "Only German soldiers in open field formations now stand between the French and the River Somme," said Major-General F. B. Maurice today referring to the part of the river which flows northward to the east of the sector along which the French have made their greatest gains. "The last of the enemy's defensive works in that sector have been captured by our allies."

In giving the Associated Press a summary of the results attained by the allied offensive, western front, Major-Gen. Maurice, who is a director of military operations of the imperial general staff, continued: "Much undesired obloquy has been heaped upon the British army by English, French and American people because we apparently did nothing to assist in the French in the desperate fighting on the Verdun front. But all this time we were doing the part requested by Gen. Joffre.

"According to this plan, we conserved our troops accumulated supplies and waited the word for the grand offensive in which we were to go our part with the Russians and Italians as well as the French. Naturally, during these anxious weeks we could give out no exciting news, because our deliberate preparations were not good copy. For certain tactical and moral reasons, which need not be dilated on, it was necessary that the French should not lose the east bank of the Meuse, and General Joffre informed us that he could hold the positions which command that part of the river until the end of June, so we knew we were going to strike at the beginning of July.

"The blow planned by the allied general staffs included offensives by the Russians and Italians which, I do not need to tell you, already have begun. We are not disappointed with our own advance, which we expected to be slow, and we are enormously pleased with the wonderful progress made, with comparatively light losses, in sweeping forward to the Somme.

Enemy Was Surprised. "It is quite evident that the Germans were surprised by the strength of the French offensive. They evidently believed our allies would be kept too busy before Verdun to participate seriously in the western offensive which they knew was coming. Consequently they made extensive preparations before our front, piling up reinforcements there while comparatively neglecting the southern sector dominated by the French. The Germans, anticipating our move, brought up great forces, much of which consisted of independent units called mousqueton battalions, armed only with light machine guns. It was these battalions which inflicted the heaviest losses on us.

"Our enemy is brave and resourceful, and put up a desperate defence, especially in the region from Commequert to Fricourt, where he evidently expected our main attack. In this region the fighting is especially severe. The chalk formation gave the Germans a splendid chance to make the best use of their miners, who constructed dugouts and other defensive works which our heaviest shells could not destroy. From these works mousqueton battalions put up a most determined resistance.

Cross Carpathians To Enter Hungary

Russians Have Advanced From Kimpolung and Budapest is Alarmed.

LONDON, July 5.—Russian cavalry patrols have crossed the Carpathians and entered Hungary, according to a wireless despatch received here from Bucharest. The despatch says the patrols advanced from Kimpolung and entered Hungarian territory on Tuesday. They cut telegraph wires and blew up buildings in which food and munitions were stored.

It is added that the news that the invaders are again on Hungarian soil caused a deep impression in Budapest.

FLEE FROM LEMBERG IN FEAR OF RUSSIANS

LONDON, July 5, 2.42 a.m.—A Budapest despatch to The Post says: "Considerable numbers of the population have been fleeing from Lemberg in the last few days for Hungary and Cracow. So extensive has been the exodus that the commandant at Lemberg has issued the assuring statement that Lemberg is not in danger yet; he advises the people not to leave the city."

Nickel, Not Beer, in North Perth

A by-election is to be held in the riding of North Perth by reason of a vacancy caused in the Ontario Legislature for that constituency. Both parties nominated candidates on Monday, and the voters will be asked to pass judgment on them on Monday next.

We notice that the question of prohibition and the policy of the Hearst government in regard thereto has been made an issue in the election. That is not at this juncture a vital matter. The legislature have practically and unanimously declared for prohibition during that period after the war, and that later on the whole question be remitted again to the people in a general election for a final verdict. We take it, therefore, that nobody wishes to change this condition of affairs except to make any necessary modifications at an early session.

But there is a real live national war issue which ought to be tried out by the people in this election, and that is the policy of Ontario in regard to the production of nickel, and the export of nickel ore to the United States, to an American company, to do what it likes with it, and export it where it likes. As a matter of fact the great bulk of the nickel used by Germany in the preparation for this war, and in making munitions today for sweeping that portion of the front with an absolute hail of lead, but our only trouble was to prevent them from charging right into the thick of it before the chosen moment.

"The officers were splendid—all of them. Lieutenant Chawner, in the teeth of a tornado of fire, dashed across No Man's Land at the head of his platoon. Not one got thru but himself. But he found himself face to face with three Germans, whom he promptly threatened with his revolver and made them lay down their rifles. He took them prisoner and ordered them back to our lines. Just then he was knocked over by a shell fragment, with one of the Germans. When he recovered consciousness one of the other two Germans was bandaging him; the second had vanished. Chawner thanked him and marched him back to our lines.

"Our men marched thru that raging fire exactly as if on parade. If they had been soldiers all their lives they could not possibly have shown a finer fighting spirit. My battalion, being in one of the bad bits, suffered terribly, but those who fell fell fighting like heroes."

DERBY WILL BECOME SECRETARY OF WAR?

GERMAN FORCES RETREATED FROM THE TARNOPOL FRONT

Attack by Land and Sea Against Von Hindenburg's Forces in the North Promises Interesting Developments.

PETROGRAD, July 4.—In the face of the exciting events on the western front, the Russian operations, to some extent, have been lost sight of, but they are of increasing interest. Reports from the Austrian front in an effort to meet the threat to his communications. It is thought that Von Bothmer may be forced to retire to Lemberg. An attack by land and sea against Field Marshal Von Hindenburg's forces in the north, together with a new Russian attack at Baranovitch, promises interesting developments, which are likely to have an influence in the Lemberg region, where the Germans hitherto have been able to hold the Russians.

WOULD HAVE GONE THRU HELL ITSELF

British Troops Were Determined to Reach Their Objective.

WOUNDED TELL STORIES

Supreme in Confidence That Tide of Battle Has Turned.

LONDON, July 4.—Convoys of wounded continue to arrive at different ports, where everybody comments upon their cheerfulness and high spirits and their supreme confidence that the tide of battle has turned. Some tell thrilling stories. One well-known commanding officer of a battalion, who was landed at Southampton with a hole thru one hand and an ugly shrapnel wound in the leg, which he received in Saturday's fighting, said:

"Our fellows reached their objective. They would have got there if hell itself had to be crossed. No soldiers could have been finer than our men. The German machine guns were sweeping that portion of the front with an absolute hail of lead, but our only trouble was to prevent them from charging right into the thick of it before the chosen moment.

"The officers were splendid—all of them. Lieutenant Chawner, in the teeth of a tornado of fire, dashed across No Man's Land at the head of his platoon. Not one got thru but himself. But he found himself face to face with three Germans, whom he promptly threatened with his revolver and made them lay down their rifles. He took them prisoner and ordered them back to our lines. Just then he was knocked over by a shell fragment, with one of the Germans. When he recovered consciousness one of the other two Germans was bandaging him; the second had vanished. Chawner thanked him and marched him back to our lines.

RUSS LEFT WING STEADILY GAINING

Austrian Desperate Resistance Unable to Check Gen. Brusiloff's Advance.

CENTRE UPON LEMBERG

Russian Front Now Exceeds Three Hundred Miles in Length.

LONDON, July 5.—According to special despatches from Petrograd the steady advance of Gen. Brusiloff's left wing, despite the desperate resistance of the Austro-Germans, indicates that in a few days his front will assume the form of a regular arc centred on Lemberg.

The semi-permanent fortifications of the Austro-Germans, these despatches say, have now all been captured and destroyed on this front, where they planned to hold the Russians while the Italian campaign progressed. It is not believed that any formidable second or third-line fortifications have been constructed behind this front.

Front of 300 Miles. Gen. Brusiloff's front exceeds three hundred miles in length, and his left wing is at present about twenty miles from the Galician capital. The progress in the recent fighting indicates that the response which the Germans have chosen to make to Gen. Brusiloff's advance on both flanks is by attempts to break thru the Russian centre.

"In this respect," comments the Post Petrograd correspondent, "the Austrians are repeating what cost the Germans the loss of Galician nearly two years ago. It is a correct answer to Brusiloff's move, according to the text book, but neither then nor now pro preconceived text book rules safely are preconceived text book rules safely applicable to the Russian military strategy."

TO RECRUIT SOLDIERS FROM MUNITION MEN

MONTREAL, July 4.—A scheme to compel eligible workers in munitions factories in this district to enlist was launched today thru the Irish-Canadian manufacturers, called by J. H. Sharrard, chairman of the Montreal Board of Trade recruiting committee. The scheme is Capt. Campbell Stuart's, who in a letter had suggested that the places of eligible men in the munitions factories should be taken by returned soldiers or by volunteers who had been rejected by the military medical officers, and Capt. Campbell Stuart proposed that men from the Irish-Canadian Rangers Overseas Battalion go thru the factories, pick out the eligibles and arrange for substitutes for them. The manufacturers appointed a committee to report on the scheme, which was favorably regarded by them.

Ally Advances Beyond Assevillers in Somme Valley, Repulsing Teutons and Seizing Vantage Points—Germans for Fourth Time Capture Verdun Position.

PARIS, July 4, 11.05 p.m.—The Thiaumont work, around which some of the bloodiest fighting of the war has taken place, has been captured by the Germans for the fourth time, according to the official statement issued by the French war office tonight.

The French have advanced south and east of Assevillers, where they have captured a wood and the Villages of Bauxaux and Belloy-en-Santerre. They have also taken the greater part of the Village of Etrees, where 500 prisoners fell into their hands. The text of the official statement follows:

"North of the Somme the day passed quietly in the whole section occupied by the French troops.

"South of the Somme in spite of the bad weather, which interfered with our operations, we extended our positions in the course of the day toward the south and east. We captured woods in the neighborhood of Assevillers and the Villages of Barleux and Belloy-en-Santerre, which we hold in entirety. Etrees has also fallen into our hands with the exception of a small part, where the Germans are still remaining. In the region of Etrees we took 500 prisoners.

"On the left bank of the Meuse an artillery struggle is proceeding in the region of Avocourt and Hill 804.

"On the right bank of the Meuse the Germans redoubled their efforts in the region of Thiaumont, on which since midday they directed a bombardment of great violence with guns of big calibre. About 2 o'clock, after several assaults had been repulsed, a massed attack was launched on the work and succeeded in capturing it for the fourth time. Our troops maintain their positions in the immediate neighborhood of the work. An intense artillery fire was directed by the enemy on Damboup and Launfey. No event of importance occurred on the rest of the front.

"On the night of July 2, our aircraft bombed the railroad station at Longuy and the barracks at Chaligny and Savigny and military establishments at Laon.

Belgian communication: "There is nothing of importance to report."

SENATOR MACDONALD DEAD AT GLACE BAY

He Had Been Member of Upper Chamber Thirty-Two Years.

SYDNEY, N. S., July 4.—The death of Senator William MacDonald occurred at midnight tonight at his residence at Glace Bay. It was only on Sunday night that he became seriously ill. He was born at River Denys, C.B., in 1837. He was elected in 1873 for the Dominion house for the County of Cape Breton and continued to represent Cape Breton at Ottawa until 1884, when he was elevated to the senate. He is survived by his wife and six children.

WAR SUMMARY: THE DAY'S EVENTS REVIEWED

RUSSIAN Cossack patrols have surmounted the Carpathians south of Kimpolung and crossed into Hungary. The advent of these hardy mounted infantry on Hungarian territory was accompanied by the blowing up of food and munition storehouses and the cutting of the telegraph wires. News of the coming of the Cossacks quickly spread to Budapest and created a profound impression. It was suggested in these columns the other day that the Russians were probably contemplating a Cossack raid into Hungary and the news of the crossing of the Carpathians appears to confirm this suggestion. With the threat of a descent of hordes of horsemen upon the Hungarian plains the difficulties of the Germans in France will be greatly added to, for the clamor will at once go up from Austria for assistance from Germany under the threat of surrendering to the allies. If the enemy removes men from France to stem the gathering Cossack tide he is courting irreparable disaster.

In their advance up the valley of the Somme to the south bank of the Ancre the British encountered strong German reinforcements, but not only did they hold their own, but they made some progress yesterday. An entire German battalion, discouraged with the results of the fighting, surrendered in the vicinity of Fricourt. La Boisselle continues to be the centre of fierce fighting and bombing, but the British soldiers have pressed the enemy out of the village. British battalions in possession of the original German line from south of Thiepval easily repulsed a German bombing attack and inflicted loss on the enemy. The newly won trenches of the British between Thiepval and the Ancre were heavily shelled by the foe.

Fighting on in the midst of a rainstorm of tropical intensity yesterday the French made a further advance towards Peronne by capturing two more villages. The result of the struggle extends their positions to the east and the southeast into the Villages of Barleux and Belloy-en-Santerre. They now hold these villages, together with well as woods in the neighborhood of Assevillers Village. Widening the gap made in the German lines southward, they have occupied all of Etrees with the exception of a small portion, where the Germans

Sportsmen's Battalion Ordered to Leave Next Week—C. M. R. Will Remain.

T. NICHOLSON DEAD

Was Well-Known Business Man—Fruit Farmers Facing Serious Problem.

HAMILTON, Wednesday, July 5.—Hamilton will cease to be a military centre of any importance after this week, Lieut.-Col. R. R. Moody received instructions yesterday to have his unit, the Sportsmen's Battalion, in readiness to leave for Camp Borden next week. Instead of having 6000 troops in camp here, the garrison now consists of only the Canadian Mounted Rifles, who have their depot here, and will remain indefinitely. The other local units which are now in summer training camps will be represented by recruiting staffs of a small number of men who will remain in the city to enlist anyone wishing to sign up.

Thomas S. Nicholson, a highly esteemed business man of the city, died last night at his residence, 511 Cannon street. He was born in this district and was engaged in the milk business and contract teaming at the time of his death. He is survived by a widow and three sons.

John Briggs, district business agent of the International Brotherhood of Carpenters and Joiners, was elected president of the Ontario branch of the organization at a convention held in Windsor recently. He will be sent to Fort Worth, Texas, in November to represent the local carpenters at the coming biennial general convention.

Full fruits around Hamilton will face a serious problem this year on account of the shortage of help, and they are endeavoring to relieve the complications by expected to arise. It is thought that students and boy scouts and soldiers will render considerable aid when the crops are ready.

are still resisting. In the region of Estrees alone the French have taken 500 prisoners.

The excellent work of the British aeroplanes should stand in the forefront of any narrative of the grand offensive of the allies. These machines Combes and St. Quentin, in the rear of the German lines. British aerial patrols penetrated far into the enemy's country, encountered hostile aeroplanes in great numbers and fought them with great success. They dropped at least three others damaged to the ground. The British flying corps suffered no losses yesterday.

One effect of the French advance on Peronne would be, if pushed the Germans out of the heights of Soissons and even to endanger their defensive positions that the allied pursuit after the battle of the Marne. Once the Germans abandon these positions they will have to fight the allies in the open field and not in trenches until they get well into Belgium. Such a withdrawal in the face of an energetic enemy might become the greatest disaster of the war.

In opening their various offensives the allies are beginning to achieve the first results aimed at, the depriving of the Germans and Austrians of the initiative in the war, conferred on them by their central positions. This advantage has enabled them to shift troops about and to make local operations for the launching of offensives at chosen points. They will the various theatres of the war, and the Russians are attacking them in operations to north of the Pripiet marshes and into Poland, extending their trenches near the important railway centre of Saranovitch. Signs are not wanting that the southern Russian front, General Letchitzky has carried additional positions of the enemy west of Kolomea, while in the centre of this southern group of armies Brusiloff is beginning definitely to gain the upper hand in the bitter fighting. He is starting to exert strong pressure near the junction of the Nijnia Lipa and the Stry, and in night engagements he has taken nearly 1000 prisoners.

The only part of the theatres of the war in which the enemy is still conducting an offensive is in the region of Verdun, where he captured yesterday for the fourth time the Thiaumont work after a heavy bombardment and a desperate struggle. But as the allied pressure increases and extends the enemy will be forced to abandon the fighting at Verdun and betake himself to the pure defensive.

Threatened with being driven to the wall by the combined pressure of the allies on all fronts, a section led by Capt. Persius is demanding the revival of submarine piracy, regardless of the protests of neutral nations. It is claimed that Germany has recently added many of these craft to her naval establishment in the past few weeks and the chief reason for sink everything at sight. It may well come to an outburst of frightfulness such as the world has never seen before.

Further progress has been made by the British towards the securing of ultimate victory in German East Africa by the driving of the enemy from the strong position of Kondoo-Irangi. This was done by Lieut.-Col. Vandevanter and his mounted brigade, and the Teutons are being pursued by him towards the central railway. Advancing west from Lake Victoria Nyanza, a British column has occupied Kuboka and the Karagwe district.

General Cadorna continues to make good progress with his offensive against the Austrians in the Trentino. The latest budget of news issued by Italian general headquarters shows that the Italians have completed the occupation of Monte Calgari, in the Posina Valley, and that their advanced detachments have occupied the northern edge of the Asa Valley, on the Asiago Plateau. They have also dislodged the enemy from strongly entrenched positions among the rocks of Prina Lunetta and were taken in the fighting, together with stores of arms and ammunition. In the Montafone sector the Italians have captured several lines of trenches with 231 men in a violent engagement on the Carso Plateau. On the slopes of Monte Faubio there has been desperate fighting, and the Italians have repulsed heavy Austrian attacks.

TROOPS ARRIVING AT CAMP BORDEN

Pouring in From Many Points and Take Up Their Quarters.

Beaver Battalion Entrain for the Big Training Ground.

By a Staff Reporter. CAMP BORDEN, July 4.—The United States "glorious fourth" was appropriately marked today by the arrival in camp from Toronto of the first company raised for the new American Legion, the 21st Overseas Battalion.

The advance guard has been here several days and the tents for the American-born recruits were all ready for them at their battalion area. Located about a mile from the railway stations, and not very far from Lt.-Col. R. Greer's 18th Sportsmen's Battalion. Lt.-Col. R. J. McCormick is in command of the American Legion. A member of the 21st said that the American Battalion would be affected by the cropping up of the Mexican affair as a war between the United States and Mexico would give the U. S. army the first call to Americans.

He stated that ninety-five per cent of the members of the 21st Battalion had been active service in the Spanish-American war either in Cuba or in the Philippines. Quartermaster Sergt. Hammet, of the 21st, was for over ten years in the U. S. forces in the Philippines. Colonel McCormick has left behind in Toronto a strong recruiting staff to enrol recruits and send them on to the camp.

First From Niagara. Lt.-Col. E. F. McFarland's 147th Grey County Battalion is the first unit to arrive at Camp Borden from the spring training at Niagara-on-the-Lake. It has been placed in the fourth brigade of which Lt.-Col. W. Hendrie is the brigadier.

The Hamilton Sportsmen's Battalion from Niagara, the 85th, is the first brigade of which Lt.-Col. W. Hendrie is the brigadier. The Hamilton Sportsmen's Battalion from Niagara, the 85th, is the first brigade of which Lt.-Col. W. Hendrie is the brigadier.

The advance party of the 21st, Bantam Battalion arrived here under command of Capt. H. A. Cooch and are making preparations for the reception of the 700 members of the 21st, expected on Thursday. The advance guard of the 20th Toronto Light Infantry is due about Friday.

The 20th Irish-Canadian Battalion have advance parties here now. Both the Dominion Parliament and the Ontario Legislature are represented at Camp Borden by members of the brigade and battalion staffs. The members of the Dominion house include Lt.-Col. J. A. Currie of the 48th Highlanders, who is brigadier for the second brigade, and Lt.-Col. J. Arthur, commander of the 162nd Battalion, which is also in the second brigade.

Two Houses Represented. Two members of the Ontario Legislature will command battalions this summer. Lt.-Col. W. H. Price and Lt.-Col. T. Herbert Lennox. Lt.-Col. W. H. Price's 204th Beaver Battalion is in C. Pratt of the 133rd Brigade. Two of the M. L. A.'s coming are Toronto officers—Lt. Col. W. H. Price and Lt.-Col. T. Herbert Lennox. Lt.-Col. W. H. TOWNSHIP HOPEFUL OF SPEEDY SOLUTION

Sir Adam Beck Confident Hydro Will Be Installed Soon.

Recve Griffith, W. A. Clarke, assessment commissioner, and J. R. L. Starr, solicitor for York Township, were all very hopeful last night that a speedy and happy solution of the present trouble in regard to the extension of the hydro to the township would be found, following the conference yesterday. Sir Adam Beck was confident that the hydro would be installed very soon. If the proposed agreement carries out the Ontario Hydro Power Commission will erect the poles and install the wires. Much depends upon the attitude of the city at the forthcoming conference.

ARRANGED FOR CELEBRATION

"Arterete" Pots and Boxes for the Garden

Reminding You of the Enchanted Gardens of Old Italian Villas, and Offering to Add the Picturesque Touch to Your Own Green Lawns

HERE ARE the very Donatello cherubs, and Botticelli nymphs you would look for on the fountains and colonnades of the old cypress-shaded terraces on the charmed hillsides of Italy. They decorate these marble-like pots and boxes which under the name "Arterete" present themselves for the beautifying of the modern garden.

"Arterete" is proof against the ravages of the weather, and retains the sharp detail of its delicate tracery for a life-time. The three pieces illustrated above are taken from the interesting showing of such pots and boxes in the Garden Section in the Basement.

- A. Flower-pot in Renaissance design—16 1/2 inches high, 20 inches wide, the base 12 inches across. Price, \$10.50. B. A panel of chubby little cherubs occupies the centre of this splendid box, the dimensions of which are 12 inches high, by 12 inches wide, by 5 1/2 inches long. Price is \$23.50. C. A tall, graceful urn encircled by swaying figures from a Greek frieze. This is 24 inches in height, 24 inches across the top, and 20 inches across the base. The price is \$21.50.

And besides these are larger and smaller pots and boxes at prices correspondingly lower and higher. For example: One little flower pot 8 inches tall and 10 inches wide, decorated with Botticelli graces, is \$4.50; and a large box in simple Greek conventional design, 40 1/2 inches by 8 inches high and 10 1/2 inches wide, is \$15.00.

An Extra Good Value in Brass Beds at \$22.50

IT IS A NEAT, PLAIN DESIGN, finished in English lacquer, either satin or bright effect. Has 2-inch continuous posts, with large hunks and five 1 1/2-inch fillers. Heavy ball-bearing brass castors. Head end is 58 inches high, foot end 38 inches high, 4 ft. 6 inches wide. Price, \$22.50.

Other Good Values in Other Furniture—Some at Greatly Reduced Price

- Box Spring to fit all regular size beds: steel coil construction, padded with sanitary layer felt and covered with blue art ticking of neat design. Price, \$16.00. French Bed to match box spring, made of sanitary layer felt; has 5-inch border and heavy pall edged, closely tufted. Price, \$10.00. Sample China Cabinets, Mission and Jacobean designs, made in fumed oak, 2 glass doors, glass sides, grooved shelves, assorted sizes. Price, \$25.00. Dinner Wagon, mahogany finish, light or dark, 54-inch top, shaped front, 3 drawers, wood knobs, wide lower shelf. Half-price, \$7.50. Mahogany and Walnut-finished Buffets with shelf and mirror back, long semi swell front, 2 drawers and 2-door cupboard, all have lock and key and wood knobs. Greatly reduced, \$29.50. A splendid Dining-room Suite, in Jacobean design, made in quarter-oak, fumed, English, buffet with 3 drawers and 2-door cupboard; china cabinet, large glass door, glass sides; extension table; set of slip seat diners in brown leather. 9 pieces, clearing price, \$75.00.

This is Interesting

SOME OF THE THINGS which, included in your luggage, add much to the comfort and individuality of life at a Summer hotel: A hammock, a folding canvas chair, a couple of coat cushions—preferably those of the "safety first" species with non-flammable filling—a steamer rug, coat hangers, a pin cushion, a chintz wall-pocket—to make up for possible delinquencies of dressing-table accommodation—and a "Stern" stove.

The "Stern" stove above-mentioned, surely the very safest and most satisfactory of its tribe. It rejoices in the nick-name of "canned heat" (the fuel being solidified alcohol, non-explosive, and procurable in round tins which fit into the small stand which supports the sauce-pan. For heating curling toons, heating a baby's food, heating an iron to press a crushed blouse, boiling water for the cup of tea in the wood or on the rocks when energy fails to kindle a bon-fire—for all these sundry purposes it is the proverbial treasure. Why? not in use, stand and can go compactly into the sauce-pan, the handle of which conveniently swings in its arms, making the neatest, completest little bundle possible to pack in a trunk or picnic basket. The price of the outfit is \$1.00, or with tea kettle instead of the sauce-pan, \$1.75. Refills of the "canned heat" are 2 tins for 25 cents.

A new book of designs for crocheting flat lace—many of them copies from original medieval patterns. The price of the book—ask for it in the Art Needlework Department—is 10 cents, and the linen color crocheted cotton, 12 1/2 cents a ball.

"Scraps for the Soldiers"—a book of 24 blank pages on which may be pasted newspaper and magazine clippings to be sent to the camps and hospitals. The size is 10 x 12 inches, and the price, 2 cents. Anyone who has planned to contrive such scrapbooks during the holiday season, will find it more than worth the small expenditure.

The fetching felt sports hats in sailor and mushroom shapes in delectable shades of pink, blue, green and yellow and the softer tones of grey and mode. For the woman who drives her own motor car, they are the precisely right thing. And the price of them is but, \$1.75, \$3.50, \$5.50 and \$4.50.

A Good Time to Decorate

When the Rush of the Spring Season is Over and Painters and Paper Hangers are Able to Give Their Most Careful, Unhurried Attention—While You are Away if Desired

CHOOSE THE PAPERS YOU WANT for the walls and ceilings, arrange about borders, woodwork, etc., leave your rooms ready for the decorator, go away for your holiday outing, and when you come back, lo, the whole scene will have been changed! The painters and paper hangers—expert, reliable men, every one of them—with all their paraphernalia, will have come, done their work and gone away, with no disturbance whatever to the household routine.

Which is merely a suggestion. If you are not going away, the decorating will be done with the maximum of speed and the minimum of trouble to you.

It being our desire to keep our staff of decorators busy throughout the mid-season months, particularly close prices will be quoted on all manner of artistic work. Throughout July the various special sales will offer attractive papers at greatly lowered prices, making doubly profitable the arranging for decorating now.

Upon request by telephone or mail—or personal visit to the Department, a man will be sent to your house to take measurements and submit estimates for indoor or outdoor work—for which service no charge is made.

HEAD FOR ISLAND

Then the men poured the extra gas into the engine and headed the line into the foot of Wolfe Island. When they reached the foot of the island they headed up the American channel and stopped their boat about two miles east of Cape Vincent. Here they landed and started for the island country. They left the officer in the boat and he was later found by some people who happened to be passing. At once he got in communication with Major Campbell and afterwards tried to find the men. He was unsuccessful, and so far no trace of them has been found. It is the opinion of the commandant of the internment camp that the men are now in some nearby New York state village. Every effort is being made to find them, and it is thought that they will be captured shortly. If they are found in the United States there may be a very interesting legal battle for their extradition. They can be held on charge of theft, and it may be that the case will be fought out in the United States courts if the men are caught.

BRANT BATTALION STARTS FOR CAMP

Eleven Hundred Men Entertain at Brantford for Camp Borden.

IS PRISONER OF WAR Sergt.-Major Vair Endures Captivity at Dulmen in Westphalia.

BRANTFORD, Ont., July 4.—This morning the 125th Brant Battalion, 1100 strong, entrained for Camp Borden, a record crowd turning out to bid farewell to Brant county battalions. The band of the 125th (Second Brants) played this to the station. Previous to the departure, the Women's Patriotic League gave each man a parcel of comforts.

That Pte. Chas. C. Stanshish, who was wounded for the third time, word received here in the form of a letter that a bullet had struck him while he was crouching in a trench, it passed thru his wrist and severely injured one leg. He is present in the hospital for the time.

Capt. C. E. Jenkins will re-assume the pastorate of St. Jude's Anglican church in September. Capt. Jenkins left Brantford last June, as chaplain of the 58th Battalion. He accompanied the unit to the front, but on account of a nervous breakdown he was transferred to England, where he was engaged in work at the Epsom Military Hospital.

Word has been received by Mrs. Vair that Sergt.-Major Robert Vair is in Dulmen, Westphalia. Vair was reported as missing. Since yesterday three Brantford men from his unit, have been reported prisoners of war in Dulmen Camp.

Twenty-four Indians enlisted on June 1916. One comes from Cayuga, Ontario, one from Obsewoles, Ontario, one from Caledonia, two from Hagersville, and five from Wilketong.

FINE CROP OUTLOOK IN SASKATCHEWAN

Wheat is Now at Average Height of Fifteen Inches.

REGINA, July 4.—Week-end reports of the provincial department of agriculture indicate that grain crops on all sides are making great headway. Wheat is now of an average height of 15 in. and in some parts is showing the shot blade. William S. Simpson of Pambun reports that he has Marquis wheat 30 inches also banner oats 33 inches high, both heading out.

The weather during the past week has been wet and stormy and warm weather is now needed. In the Pambun district the rainfall for June amounted to 4.3 inches. Summer fallowing is proceeding generally. Hay promises a good crop. Pastures are in excellent condition.

YOUNG BOY KILLED BY A MOTOR TRUCK

Seven-Year-Old Martin Hamlian Fatally Injured Yesterday Afternoon.

Seven-year-old Martin Hamlian, 24 Symington avenue, was fatally injured yesterday afternoon, when struck by a motor truck, driven by Llewellyn Wilson, 84 Northcote avenue, employed by the Roofing Supply Company, near his home. He died an hour after admission to the Hospital for Sick Children.

According to the police, the boy was playing with an express wagon on the sidewalk, when something suddenly went wrong with the steering gear just as Wilson drove up. Boy and wagon shot out from the sidewalk into the road and collided with the rear wheel of the truck.

Wilson picked up the boy and took him to the office of Dr. Morgan, who ordered his removal to the hospital. The body was afterwards taken to the morgue and the chief coroner notified. An inquest will be held.

Investigation by Sgt. McArthur, of Cowan Avenue Police Station, showed that the driver was not to blame for the accident, and Wilson was not held.

ONLY LIGHT DECREASE IN ALBERTA ACREAGE

Warm Weather and Timely Rains Make Outlook a Good One.

EDMONTON, Alta., July 4.—The crop bulletin prepared by the provincial department of agriculture shows a slight decrease in acreage as compared with last year, equal to about six per cent. The figures being nearly three million and a half acres, as against 3,058,000 for 1915.

The smallness of the decrease is a surprise to the department, as it was expected that there would be at least twenty per cent. less acreage under cultivation, so little fall plowing having been done owing to the extended threshing season. Notwithstanding the lateness of seeding the crop is making fine progress on account of the warm weather and the timely rains.

RANCHER SHOWED

Sporting Editor World: Please answer thru the sporting column of your paper, the following:

A was boasting of what a good horse Rancher was and said he would win in Hamilton on July 1. B, being a sport, bet A \$1.00 even money that Rancher would not show. After the race was run and there was no show money paid, in papers it said 1—Commonada, \$16.70, \$4.80, \$3.90. Rancher out. Who wins the bet? A—A wine the bet. B's contention was that Rancher would not show regardless of the betting and being a good sport, he will now pay over the money to A.

MILITARY TROOPS LEAVE EXHIBITION

Only Hospital, Containing Four Hundred and Twenty Patients, Remains.

LAST BATTALION GOES

Two Hundred and Thirtieth Left Yesterday for Camp Borden.

Yesterday the 218th Battalion departed for Camp Borden, leaving the Exhibition grounds free of troops with the exception of the central military hospital in the manufacturers' building and the supply station in the art building.

In the hospital there are 420 patients including the nine that arrived from Niagara, will be given charge of the Camp Borden Hospital, and the A.M.C. Training Depot No. 2 will likely have charge under the captain's command.

The administration building is now closed, and the pennant of the 2nd Military Division no longer flies in front of it. Capt. Boyd, who was in charge of the clearing hospital at Camp Borden, is now in charge of the clearing hospital at Camp Borden. Twenty men are required by the 70th Battery. They are now over strength, but are sending a draft of 50 overseas at once, and require a score to complete their strength. They leave next week for camp Niagara.

The 201st Toronto Light Infantry will go to Camp Borden early next week, according to orders received by Lt.-Col. Hagarty, O.C. An advance party will be sent up on Friday to prepare their camp grounds. Recruiting will be carried on by an officer and special recruiting staff of twenty men, that will remain in Toronto to carry on this work.
