## MANAGERS' REPORT.

---

The Board of Managers of the Mackay Institution for Protestant Deaf-Mutes and Blind have the honor of presenting the twenty-third annual report, being for the year ending 31st July, 1893.

The Managers have much pleasure in being able to report that during the past year the pupils' health has been excellent and the progress made in their studies very satisfactory. The number on the roll was 52 and during the year several applications were received and accepted for children laboring under defective speech, the organs for which they were unable to use, although some of them hear quite distinctly. These pupils have been taught how to employ their tongues, in the use of which they are rapidly becoming proficient and able to converse freely.

As the knowledge of the school spreads the applications for admittance increase, so that vacancies created by the elder pupils leaving are more than filled. The parents of the majority of the children can do little or nothing in aid of the funds of the Institute, and as no child that is eligible is declined, it leaves on the managers the responsibility of providing not only their education, but also in many instances their maintenance.

Various improvements to the building and premises were made during the summer, detailed at length in the Superintendent's report, tending toward efficiency and economy in working.

The thanks of the Managers are due and hereby tendered to the Rev. Dr. Hunter, the Rev. Mr. Bushell and the Rev. Mr. McGillivray, for having kindly conducted the annual examinations, and their report presented herewith expressing their satisfaction with the pupils' work and studies give the managers much pleasure.

The whole respectfully submitted,

F. WOLFERSTAN THOMAS, *President.*

GEORGE DURNFORD, *Secretary-Treasurer.*

## SUPERINTENDENT'S REPORT.

*To the Board of Management, Mackay Institution:*

In presenting the 23rd Annual Report of the workings of the departments of the Institution entrusted by you to my superintendence I have abundant reason for heartfelt thanks for the merciful care extended over us during the past year by our Heavenly Father.

The conduct of the pupils is deserving of the highest commendation. Their zeal and diligence in the class rooms as well as their upright behaviour during their recreation hours are such as to considerably lighten the otherwise onerous duties of teachers and supervisors.

At the close of the school year, in June last, several of our large boys felt it incumbent on them to earn their own living, in which laudable resolve they have nobly succeeded. Rush Aldrich entered the Lyndon, Vt, Business College, where he fitted himself to take the position of book-keeper in a large grocery business, and Norman Wilson is at present taking a similar course in the Montreal Business College.

The number of pupils enrolled is 52. The present attendance is 50; 26 of whom are boys and 24 girls.

The auricular class, formed one year ago, has been augmented by three more pupils. Children whose deficient hearing or imperfect speech debars them from the advantages of a public school are eligible for this class, and the progress of those under instruction has been such as to fully satisfy the parents. Association with hearing children is very desirable for the deaf. It lessens their peculiarities and helps us in our endeavors to make them like people in possession of all their senses.

In the Mackay Institution we use every means to *suppress the use of signs*. The children who can not articulate resort to the one hand alphabet, the others use their tongues. The latter are seated at one table during meal times and chatter as much as they please, and are otherwise encouraged in the habitual use of speech. In a small school like ours proper classification is no

easy matter, the more so as we aim to give every new pupil an opportunity to acquire spoken language.

The blind class consists of three pupils, boys. Chas. Forrest, who had for two years been instructed in piano tuning and was employed in Mr. Lindsay's establishment in this city, was forced on account of his increased deafness to give up his promising position and is now acquiring a knowledge of basket and willow work at the Brantford, Ontario, Institution for the blind, these trades not having yet been introduced here. To the young ladies of Cote St. Antoine we acknowledge our indebtedness for their daily readings to this class.

But one change occurred in the teaching staff. Miss Edith Terrill, for over five years head teacher, resigned to be united in marriage with Dr. J. M. Forster, of Hamilton, Ont. Miss Terrill had received her training at the Mackay Institution and was a faithful, zealous worker. On leaving your service she was the grateful recipient of a handsome wedding gift from your Board.

Our attending Physician, Dr. Douglas Corsan, who for many years had given his services gratuitously, severed his connection with the Institution as he was leaving the city. Dr. Corsan's skill, fidelity and devotion to our pupils merit our grateful acknowledgements.

Dr. Frank Lockhart was elected to fill Dr. Corsan's place and has already won the confidence and esteem of our household. To Dr. E. P. Williams we are also indebted for numerous professional visits and to Dr. H. S. Birkett, Montreal's celebrated aurist, who during the year visited the Institution several times to examine and treat the children, and to Dr. F. A. Buller, oculist, and Dr. J. C. Nichol, dentist, we are under compliments for professional services rendered.

With such skilled care and attention, combined with unusual advantages of large play grounds and a home with every comfort, our children *should* be exempt from all ailments, but they sometimes come to us with the seeds of inherent diseases, and no care can ward off the inevitable.

Harold Chapman, aged 11, a bright little boy from St. Johns, Newfoundland, had been with us but eight months when he succumbed to an inherited disease of tuberculosis of the stomach. He lingered at his home

for a few months and died in August last. This is the only death among the inmates of the Institution I have to record, although there were two other cases of serious illness among the pupils. Adam Hewetson, from California, suffered from a severe attack of rheumatism followed by chorea. Through the unrelenting attention of his kind guardian, Dr. Williams, he recovered and is again a member of our happy little family.

It was with deep regret we were informed of the death of Miss Learmont, who for many years had been one of the kindest friends of our Institution. Her interest in the pupils was evidenced by her many gifts to them. No Christmas was allowed to pass without being made happier by her thoughtfulness.

The spiritual needs of the pupils have been well looked after by the Rev. Mr. Bushell and the Rev. Mr. McGillivray, who conduct service at the Institution every two weeks. On Sunday afternoons students from the Episcopal, Presbyterian, Methodist and Congregational theological colleges alternate in giving religious instruction. Several of our advanced pupils have become members of the Melville Presbyterian Church, and some are now being made ready for confirmation in the Episcopal Church.

The industrial training of our boys and girls receives the attention its importance merits. The boys in the carpentry shop become dexterous workmen and those in the printing office expert type-setters, and good pressmen. As mentioned in previous reports we are indebted to Mr. James Penny for a constant supply of work for the printing office in the shape of Canadian Pacific Railway orders.

Dressmaking and chair caning are taught to the girls. Miss Bolger takes charge of the sewing department.

During the summer months, under the direction of our President, Mr. F. Wolferstan Thomas, important alterations were effected in the bath-rooms, and numerous other necessary repairs and improvements made.

The rooms were whitewashed, the woodwork took on a new coat of varnish, new hard wood floors were laid in the classrooms and basement, and out of doors, the galleries, etc., were repainted. The renovating process was completed by the re-opening of

HARRIET E. ASHCROFT,

*Superintendent.*

## EXAMINERS' REPORT.

The Rev. Principal Rexford, the Rev. Dr. Smyth and the Rev. Dr. Hunter were selected as examiners for 1893. In the unavoidable absence of Principal Rexford and Dr. Smyth, the Rev. Edward Bushell, B.A., and the Rev. J. McGillivray consented to act in their stead.

The examinations were conducted in the Institute on Monday, May 1st, and lasted nearly four hours. The pupils, numbering 48 in all, were present, with the exception of one who was ill, and Mrs. Ashcroft, the efficient Superintendent, and her staff of teachers were on hand to direct the mode of procedure and facilitate the work of examination.

The pupils in the preparatory year were first presented. Some of these seemed like mere infants, and their work at the black-board was not more gratifying than surprising. As familiar objects were presented to view their names were correctly written in a moment, showing how perfectly they understood the questions proposed and the work they were asked to do.

Next came the primary classes who dealt with words and sentences, as well as simple examples in addition, while the pupils of the intermediate classes were quite at home in the construction of sentences and the arrangement of nouns, verbs, adjectives and prepositions. The names of qualities, and the descriptions of actions, simple problems in arithmetic, and questions in history, completed the examination without a single failure.

The senior classes were prompt in writing simple, and compound sentences, and correct in describing persons and objects, and gave evidence of a good knowledge of composition. In Scripture history and in French and English history they have made remarkable progress, and examiners in these departments will do well to brush up their history before facing these classes.

It should be mentioned that geography forms a part of the course of instruction in both the senior and in-

intermediate classes, and the pupils are quite familiar with the geography of our own Province and Dominion.

The rendering of the hymn "Nearer My God to Thee" by the girls of the senior class in the sign language, revealed a grace of elocution and a reverence of expression beautiful and touching in the extreme.

The class in articulation engaged special attention. The exercise was conducted by Mrs. Ashcroft, and the method of teaching is most ingenious and successful, but it requires great patience and perseverance. Articles such as tea, sugar and tapioca, in glass bottles, were exhibited to the pupils, who readily, and in most instances distinctly, pronounced their names. One of the examiners mentioned the number of his children and the age of his youngest son, when the words were caught from his lips and repeated correctly and distinctly. The value of such a system of instruction cannot be over-estimated, as it opens to this class of afflicted ones the door to higher education—even a university course.

It was our pleasure to visit the art room and inspect an interesting variety of portrait and landscape drawings, which compare favorably with similar productions in our public schools. The same may be said of the geographical maps, which reflect great credit on the young artists by whom they were designed.

In the Institute provision is also made for the education of the blind, and it was interesting to see and hear the two boys composing this class, read with considerable rapidity portions of the New Testament, and trace the map of Europe, giving boundaries, mountains, capitals, etc. These boys are also well up in Canadian history.

The specimens of needle-work arranged on a table in the large school room were pronounced by the examiners first class, according to their limited ability to judge, and they certainly prove that the girls are not ignorant of this important item of housekeeping.

The mechanical department is in a building by itself. Here the boys are taught cabinet-making, wood-carving and printing—the blind pupils learning chair-caning and piano tuning. Specimens of printing

were submitted, which the best city office would not be ashamed of, and the furniture of the Institute, manufactured in the cabinet shop, will compare favorably with that found in our best show rooms.

The hour of lunch found us in the neat and comfortable dining hall where teachers and pupils take their meals. Among the well cooked dishes on the tables, there were some prepared by the willing hands of those girls who had undergone a course of instruction at the Montreal School of Cookery. There was the absence of the confusion of tongues characteristic of the boarding school dinner hour, but conversation went on rapidly in the sign language, and every face was radiant with smiles. It is indeed a happy home.

The examiners cannot close their report without expressing their appreciation of the perfect order seen in every department of the Institute, the evident painstaking of the teachers and the managers of the trades departments, and, above all, the ability and energy of the lady superintendent, whose duties might well tax the energies of the strongest man.

For the Board of Examiners.

W. J. HUNTER.

*Extract from Superintendent's Report for 1890-91.*

We desire, for the information of parents of pupils, as well as for those desirous of knowing what "course of studies" is usually taken by the deaf and to what proficiency we expect them to attain before considered ready to graduate, to call their attention to our "course of study," the careful perusal of which will indicate the advancement, year by year, which an intelligent, industrious pupil ought to make.

We would specially direct the attention to the course of study of those parents, who have withdrawn or who intend to withdraw their children before they have made the progress in their education which the School affords, and which is necessary, and to point out that they are doing a life-long injury to their afflicted children, to whom education is the greatest boon that can be given. Much to be pitied, as is the wholly uneducated deaf-mute, shut off from almost all intelligent intercourse with his fellow mortals, yet it is doubtful whether he feels his position as keenly as one whose mind has been opened to the consciousness that there is more knowledge (and higher positions attainable), from which he is debarred, because of the limited instruction received.

The ignorant deaf-mute, even if an object of charity, may be comparatively content, from the absence of knowledge and understanding; while the semi-educated, with his awakened and crudely developed reasoning powers, has the ambitions, but is minus the ability of the highly educated, and cannot consequently be particularly happy and contented, in contrast with which the *well educated deaf-mute* may aspire, attain, and keep himself abreast with the world at large, and enjoy the society of his fellowmen.

There will be instances where pupils will *not* get through the course in the time specified. Irregularity in attendance, ill-health, deficiency of intellect, physical defect or chronic laziness may all be mentioned as retarding elements, and all of which have to be considered.
