Sunday 10 below 32 below Regina is shivering in the grip of the coldest spell yet experienced this winter. The lowest temperature was experienced Sunday morning when the mercury fell to 32 degrees below zero. A stiff wind during the day, however, had the effect of raising the temperature, and the middle of the afternoon the maximum of ten degrees below zero was reached. With sundown the mercury retracted its steps and at ten o'clock Monday night it was reported to be 24 below.

The minimum of 32 degrees below zero was reported Sunday morning both from the Parliament buildings and from the R.N.W.M. P. barracks, it is believed to have been the coldest weather experienced in November in many years.

E. A. Jolly for Alderman

For the last sixteen years I have been a resident and successful businessman in this city. Having been approached by many influential citizens to stand as a candidate for the city council, I have decided after careful consideration to let my name stand as a candidate for aldermanic honors. Should the electors see fit to elect me on Monday, December 8th, I shall do my duty and serve them to the best of my ability.

I also wish to announce my policy which I intend to follow should I be elected. $\dot{}$

"The year 1920 should be Regina's banner year. If that proves to be true, and all indications point that way, progressive men are needed in the city council. It should be the ambition of every citizen to employ as many men as possible. The housing problem must be tackled. Too much time has been wasted in talking and nothing has been done. It is time something has been done, as the city is losing hundreds if not thousands of good citizens because they cannot secure houses in which to live.

I believe, too, that the time has arrived for the extension of the water works, electric light, sewage and street car system where necessary to encourage building.
