ONE CENT

Water Glass PRESERVING EGGS.

DIRECTIONS.—In order to use water-glass successfully the following should be adopted: Take one pound of the Water Glass and dissolve it in one gallon of water that has been well boiled and cooled. Pack the eggs in the vessel in which they are to be preserved—a stone jar is best for the purpose, but any other will suit, provided it is proof against leaking—and having stirred the water and water-glass together, pour this on until the top-most layer is completely covered. The reason for boiling the water is obvious, for the process kills any putrefactive germs which may happen to be in at the time.

Price, 15 Cts. per Lb. Tin.

HAD A WILD TIME IN A GERMAIN ST. BEER SHOP

Inspector Jones and Two Policemen Found a Warmer Reception Than They Expected—Another Raid Which Unearthed Rheumatism Unliment.

Two liquor cases were brought before Magistrate Ritchie this morning and according to the evidence given by Inspector John B. Jones, Sergt. Campbell and Policeman Crawford there was a busy time last Saturday evening.

The cases were against Ellen Lacey, of Germain street, and Mary Doyle, of Pond street, both charged with having liquor on their premises for sale. The first case taken up was against Mrs. Lacey.

Policeman Crawford deposited before the magistrate an array of gin and whiskey bottles secured in the raid and testified that on Saturday evening last, about 7:30 o'clock he accompanied Inspector Jones and Sergt. Campbell to Mrs. Lacey's house on Germain street. There is a beer shop up stairs and an underground kitchen. An inspector tried to gain admittance Mrs. Lacey's eldest daughter braced herself against a door leading from the shop in an attempt to bar the inspector from entering. The door was, however, opened and the officers went in.

A little girl of about nine years of age made a rush from a corner of the dark cellar and collided with Inspector Jones who found that the child had a bottle of liquor in her hand. Before he could take the bottle the little girl broke it over a jug and split the contents. The policeman said he then went to the kitchen and procured a lamp but he had hardly picked up the light when the oldest Lacey girl, grappled with him. She caught the lamp to be smashed and not only received burns on her hands but caused the policeman to receive burns.

Inspector Jones testified that Mrs. Lacey had a license to sell beer, but he could not recall having seen her trying to break the way of the officers that the little one was breaking the bottles.

Inspector Jones testified that Mrs. Lacey had a license to sell beer, but he could not recall having seen her trying to break the way of the officers that the little one was breaking the bottles.

Mrs. Lacey said that the liquor found on her premises was the property of her son, who was on a steamer. The case was adjourned until this afternoon to give the woman time to get her son to court as a witness.

The case against Mrs. Doyle was of a much milder nature. The official testified as to visiting her Pond street house. The woman was not at home when they entered. They found in a dining room cupboard a partly filled gin bottle which contained gin and some kind of herbs. Then in a bureau drawer they found a quart bottle of gin that had not been opened. A flask with a few thin-bottles of whiskey was also found in the house.

In answer to questions put by Mrs. Doyle the inspector said he raided her place because of a man having made complaints, but he refused to tell the man's name.

COLLEGE PROFESSORS HAD A NARROW ESCAPE

They Were Exploring a Mountain in Mexico and Took a Long Slide

CHICAGO, Ill., Sept. 21.—Four prominent college professors, one a member of the University of Toronto faculty, escaped death almost by a miracle in Mexico last Wednesday, after one of the most daring and arduous expeditions ever attempted to gain the top of Mount Orizaba.

Word was received yesterday from Rollin, the chamberlain of the University of Chicago, a member of the party, describing the attempt to reach the top of the mountain, and a fall of 2,000 feet down a snow-slope from the summit.

Professor H. F. Reid, of John Hopkins University, Prof. R. A. Coleman, of the University of Toronto, Prof. J. E. Wolf, of Harvard, Prof. Rollin, the Chamberlain of the University of Chicago, were the members of the expedition. They had gone to Mexico to study geological conditions. Several important discoveries were made.

MYSTERIOUS AUTOMOBILE PUZZLES RUSSIAN POLICE

They Think It Was Being Used in Practice for an Attempt on the Life of the Emperor.

ST. PETERSBURG, Sept. 21.—According to the newspapers, the mysterious automobile which the police have been trailing for several months in the belief that it belonged to revolutionists and was being used as a base for terrorist conspiracy, has been seen in the vicinity of the Palace of Grand Duke Nicholas Nicolaievitch at Paterhof. The machine bore a false number.

The automobile was first observed at the military manuevres at Tsarskoye Selo, which the Emperor attended. An order was then issued to capture the machine, and the two soldiers who attempted to retain it were met by revolver shots. The machine got away. Last week it appeared in St. Petersburg, registered and passed repeatedly under the windows of Premier Stolypin's apartments in the winter palace.

It again turned up at Paterhof during the funeral of General Treppoff. The most daring exploit of this machine is reported to have occurred at Tsarskoye Selo, when the motorists are said to have crashed through a fence surrounding the residence, and made a rapid trip through the enclosure and out again, presumably in rehearsal for the flight of the life of the Emperor after his return from his cruise in Finnish waters.

BLOODVESSELS FROM ONE BODY TO ANOTHER

German Surgeon Tells of Remarkable Experiments Which He Has Made

STUTTGART, Sept. 21.—Prof. Garre, of Breslau, gave yesterday to the congress of natural investigators and medicine, now in session here, the result of his experiments in transplanting bloodvessels and organs from one body to another. This is the subject which attracted so much attention at a meeting of the Medical Association held in Toronto last August.

Professor Garre described the case of a four-year-old boy suffering from cretinism, who had a portion of his thyroid gland transplanted to his spleen. The child after nine months, he developed mentally and can walk and talk.

Prof. Garre narrated successful experiments in the transplantation of blood vessels from one living animal to another. He had also transplanted blood vessels from animals that had been dead for an hour and a half to live animals.

The professor declared that while it was impossible to transplant large blood vessels from human beings, blood vessels could be taken from freshly amputated limbs and transplanted to places where large tumors had been removed or where otherwise the tying up of large blood vessels resulted fatally for the part of the body fed by them.

UNION STREET IS STILL SLIDING

C. P. R. Start Building the Trestle Today.

Fear That the Water Pipe Which Supplies the Ferry Steamers Will be Broken.

The situation on the west side grows more serious each day. Union street continues to slide, and no one knows where it is going to stop. D. C. Clark said today that the situation is now very critical. No one can tell what a day or even an hour will bring forth. Mr. Clark said he is getting his snows into position to raise the curb and will have them all in position by tonight. He will not attempt to raise the curb until the slide is ready. He thought that it might take some time to have the site ready, as the street keeps sliding in as fast as it is dug out. However, he said, the curb will be ready whenever the site is.

G. S. Mayes stated that on the side of the hole nearest Union street he has had his dredge twelve different times cleaning it out, but as fast as it is cleaned out more of the street slides. Now there is a grave fear that the street sliding into the harbor will break the water pipe running down Rodney wharf. This pipe supplies the ferry boats.

This morning the C. P. R. pile driver arrived. This machine not only drives the piles but draws them into place for driving from the water. The work will be immediately started on the new C. P. R. trestle across Union street.

BANK OF NOVA SCOTIA TO OPEN IN MARYSVILLE

W. H. Robinson, Now of Sydney, Will be Manager

FREDERICTON, N. B., Sept. 21.—The Bank of Nova Scotia has decided to open a branch immediately at St. Mary's opposite the city. For the first two months the bank will occupy temporary quarters in the "Bathrooms" building, but will finally locate in the brick block. It is understood that W. H. Robinson, formerly of this city, but now manager of the branch at Sydney has been appointed to take charge of the bank.

LIPTON WILL AGAIN CHALLENGE FOR THE CUP

He is Now on His Way to America—Says There Will Likely be Another Race.

LONDON, Sept. 21.—Sir Thomas Lipton and Mr. and Mrs. T. P. O'Connor sailed from Liverpool today for New York, on the "Colt." A number of yachtsmen and others were present at the station to bid Sir Thomas farewell, and urged him to arrange a race for the America Cup before he returned. Sir Thomas promised to discuss the matter of another challenge while in New York, and said he hoped it would be possible to make the arrangements. In talking with an interviewer, Sir Thomas said that while he could not say anything more definite, he thought it "very probable" that he would accept any challenge which Sir Thomas is satisfied that he will issue a challenge during his stay in America.

ACCIDENT ON THE G.T.R. NEAR NAPANEE

In a Collision Between Freight and Passenger Trains, One of the Engineers Was Killed.

MONTREAL, Sept. 21.—The G. T. R. official reports says: At 2:25 a. m., passenger train No. 2 in charge of Conductor U. Empey and Engineer F. Blaine, while passing between Napanee and Marysville, collided with an extra freight train bound west in charge of Conductor J. Mahon and Engineer G. Drill. The latter train pulled out from west end of passing track blocking the main line. Engineer Blaine of Montreal was found dead in the cab of his engine having been caught between the engine and tender. Fireman E. M. Iron, of No. 2, sustained a slight bruise on the left leg and Brakeman J. Miller also of train No. 2, had his left hand cut with glass. The tracks were cleared about 8:20 a. m. No passengers were injured.

REPORT THAT CUBANS FIRED ON U. S. TROOPS

HAVANA, Sept. 21.—La Discusion publishes a despatch from Cienfuegos stating that bluejackets from the American gunboat Marietta, who were garrisoning the Sotiledad sugar estate, have been fired on by rebels. The Americans returned the fire and the rebels fled.

Fifteen People Killed and Twice as Many Injured—The Entire Business Section Damaged—Disaster Occurred at a Manufacturing Plant.

CLERGYMAN'S WIFE SENT TO PRISON

Six Months for Libelling Lady Gwendolen Cecil.

Accused Daughter of the Late Marquis of Salisbury, of Intimacy With Chaplain of Garfield House—Defends Herself in Court, But is Convicted

LONDON, Sept. 20.—Mrs. Matilda Stanley, wife of a clergyman, was charged at the Old Bailey today with publishing a false and defamatory libel concerning Lady Gwendolen Cecil, the daughter of the late Marquis of Salisbury. The defendant was not represented by counsel, and decided to conduct her own case.

Charles Gill, K. C., conducted the prosecution. In opening the case he said the libel was contained in pamphlets published by the defendant, headed: "The Hatfield Business, The Cecil Plot, Astounding Revelations. Great is the Truth and in the End it will Prevail." A paragraph in the pamphlet was read, as follows: "A scandal arose between the chaplain of Hatfield House and a lady of the household, who was a member of the Cecil family. It appears that in 1890 this lady gave birth to a child, of whom it was alleged this chaplain was the father; and, in order to shield this lady, the parentage of this child has been infamously attributed to me, and trademark bills have been made out in my name."

In another leaflet Mrs. Stanley explicitly names Lady Gwendolen as the one for whom she had been made the scapegoat.

Mr. Gill said that the libels were the culmination of a series of wild statements and wild attacks against all persons extending over several years, and directed against any one from whom the accused was unable to obtain money.

The defendant's father had been employed for years by the late Marquis of Salisbury, and she had acted as organist at the daily services at Hatfield House. Mr. Gill cited several acts of kindness the Cecil family had shown her, particularly as what she said was guaranteed by the late Marquis of Salisbury, and she had acted as organist at the daily services at Hatfield House.

The defendant for a long time went from place to place, staying with persons from whom she obtained money on the strength of her statements as to her sufferings and the allegation that she was about to institute proceedings against Lady Gwendolen.

The sums of money she obtained in this manner were considerable, particularly as what she said was guaranteed by a committee of five women, who wrote: "We have no doubts as to the truth of the foregoing statement," meaning the charges made in the pamphlet.

Police Inspector Drow testified that 15,000 copies of the pamphlet had been found in the defendant's possession.

Lady Gwendolen Cecil testified she remembered the defendant as an organist. She said that in August last one of her brothers showed her the matter of another challenge while in New York, and said he hoped it would be possible to make the arrangements.

The witness Mrs. Stanley called attention to the fact that she had not given testimony as to offers of monetary assistance which the Marchioness of Salisbury had made but which had not been given. Mrs. Stanley, first supplying the jury with copies of the pamphlet, addressed the court. She asserted in a rambling manner that she had been the victim of a loathsome libel for fourteen years and that, in consequence, she had lost place and had suffered terribly.

The defendant, continuing, talked so fast that only such terms as "rain" and "persecution" could be heard by the reporters. She admitted that she had no documents to prove her charges; but she said that a lady member of the Cecil family had confessed to her the guilt of Lady Gwendolen.

Tuberculosis Victim Has Built a House at the Top of Pine Trees

NEW YORK, Sept. 20.—Charles Battersby, of Wrentham, Mass., says a special to the times, has built a house in the tops of two adjoining pine trees on his farm, and will spend the winter there. Battersby is 55 years of age and has suffered with tuberculosis for several years. The "house" or rather room is about nine by six feet in dimensions. The two windows in it will be closed only to keep out the snow from entering the roof. Access to the tree top is had by means of a rope ladder.

KINGS DAUGHTERS' CONVENTION OPENED THIS FORENOON.

(Special to the Star.)

FREDERICTON, Sept. 21.—The convention of the King's Daughters opened here this morning in the Church of England Hall. About fifty delegates were present. Miss Helen Barker, the provincial secretary, called the gathering to order, and Miss Jean Cooper acted as secretary.

Appropriate and suitable responses were made by Mrs. Vaughan, St. John; Miss Brown, Toronto; Mrs. McNeil, Charlottetown, and Miss Stearns, Halifax. The secretary's report showed the order to be in the most flourishing condition. The total membership was now 37, an increase of 23 over last year. The meeting adjourned at 12 o'clock.

DEATHS.

CATTLE TRADE WITH BRITAIN. Certainty That Campbell-Bannerman Government Will Not Relax Regulations.

LONDON, Sept. 20 - At last we have something like an authoritative and final declaration from the British Ministry on the Canadian cattle question.

It is more than probable that this authoritative and final declaration has not reached you over the cable, for it was made at an agricultural meeting in Woodstock, N. B., on Sept. 19th.

WOODSTOCK, N. B., Sept. 19 - At the time when the details of the proposed Central and New Brunswick telephone merger were given out it was freely predicted that opposition to the New Brunswick company would develop in this section.

It seems that those who made the prophecy knew whereof they spoke, for in a local paper today notice is given of an intention to apply to the governor in council for the granting of letters of incorporation for a concern to be known as The Mutual Telephone Co., with power to erect lines in the counties of Victoria, Carleton, York, Sunbury and Queens.

J. L. Ross is the signature to the notice. With him in the past are said to be several who voted stockholders in the old Union Co., merged with the Central some months ago. As far as can be learned, the new company proposes to do out rural business and with no idea of becoming a serious rival to the big concern, but shrewd guesses incline to the view that there will be too dangerous of any monopoly in these matters once the promoters get their project well under way.

And mute they have since remained until this week. Now, however, they have come down plump on the side of the Irish Nationalists and the British farmer, Mr. Redmond, aided by the English rural votes, has won hands down. Here is the official pronouncement:

"Sir E. Strachey, M. P., speaking at an agricultural show, at Bishopton, near Bristol, on August 29th, said that from a recent statement by Lord Londonderry, it would appear as if the Government intended to alter during the late session the law passed in 1866 for the protection of flocks and herds against disease from abroad. As they did not mean to see their profitable stock cattle trade with Great Britain cut into by Canadian competition. And so it came to pass that when Mr. Hamir Greenwood and his allies, the representatives of the English and Scottish graziers and port authorities, raised the question in the House of Commons, the Ministry remained mute in the debate and ran away.

"Sir E. Strachey, M. P., speaking at an agricultural show, at Bishopton, near Bristol, on August 29th, said that from a recent statement by Lord Londonderry, it would appear as if the Government intended to alter during the late session the law passed in 1866 for the protection of flocks and herds against disease from abroad. As they did not mean to see their profitable stock cattle trade with Great Britain cut into by Canadian competition. And so it came to pass that when Mr. Hamir Greenwood and his allies, the representatives of the English and Scottish graziers and port authorities, raised the question in the House of Commons, the Ministry remained mute in the debate and ran away.

And mute they have since remained until this week. Now, however, they have come down plump on the side of the Irish Nationalists and the British farmer, Mr. Redmond, aided by the English rural votes, has won hands down. Here is the official pronouncement:

KATIE AND WILLIE Both Need Shoes.

They're always needing them. Wouldn't need near so many if their shoes were bought here.

We have sensible and shapely shoes for children, that keep them quite busy trying to wear them out. Had the kiddies in mind, when we bought them.

Don't cost any more than poor shoes. Try a pair of our kind of Children's Shoes. All sizes and prices, \$1.00, \$1.25, \$1.50.

Our Shoes are not put together with a lick and a promise.

D. L. MONAHAN, 106 King St., West End.

POPULAR PRICED FOOT-WEAR FOR MEN.

\$2.00 Dongola Kid Bal., heavy sole, standard screw nailed, with Scotch back strap, stylish new last. Very durable.

\$2.25 Box Calf Bal., Blucher out, with extra heavy double sole. Made on easy fitting last, and without doubt, the best value in the city.

\$2.50 Box Calf Bal., (has double sole, English back strap, and all the style of a much higher priced Boot. Extra good value.

\$2.75 Box Calf Bal., nice double sole, Good-year welted, has Scotch back strap, and made on a stylish easy fitting last. This shoe is good value at \$3.50. Our price, \$2.75.

CATTLE TRADE WITH BRITAIN.

Certainty That Campbell-Bannerman Government Will Not Relax Regulations.

LONDON, Sept. 20 - At last we have something like an authoritative and final declaration from the British Ministry on the Canadian cattle question.

It is more than probable that this authoritative and final declaration has not reached you over the cable, for it was made at an agricultural meeting in Woodstock, N. B., on Sept. 19th.

WOODSTOCK, N. B., Sept. 19 - At the time when the details of the proposed Central and New Brunswick telephone merger were given out it was freely predicted that opposition to the New Brunswick company would develop in this section.

It seems that those who made the prophecy knew whereof they spoke, for in a local paper today notice is given of an intention to apply to the governor in council for the granting of letters of incorporation for a concern to be known as The Mutual Telephone Co., with power to erect lines in the counties of Victoria, Carleton, York, Sunbury and Queens.

J. L. Ross is the signature to the notice. With him in the past are said to be several who voted stockholders in the old Union Co., merged with the Central some months ago. As far as can be learned, the new company proposes to do out rural business and with no idea of becoming a serious rival to the big concern, but shrewd guesses incline to the view that there will be too dangerous of any monopoly in these matters once the promoters get their project well under way.

And mute they have since remained until this week. Now, however, they have come down plump on the side of the Irish Nationalists and the British farmer, Mr. Redmond, aided by the English rural votes, has won hands down. Here is the official pronouncement:

"Sir E. Strachey, M. FREIGHT ELEVATOR FALLS KILLING MAN

Workmen Disregarded Notice on Elevator Which Was to be Used Only for Merchandise

QUEBEC, Sept. 20.—A fatal accident occurred today in the factory of the Dominion Shoe Company on Arago street, owned by J. H. Lachance. A freight elevator fell from the top story, a distance of nearly fifty feet, to the basement below, killing one of the four men instantly and seriously injuring three others, who have been taken to the hospital.

The deceased is Odillon Tardif, aged 36, a married man. The injured are Honore Lesel, Joseph Cases and Alphonse Thivierge. A notice on the elevator was that it was to be used only for merchandise.

The fire department was called out last night about 12.30 to answer a call from box 41. The fire was in No. 3 hatch of the Furness Line steamship Florence. For a time the blaze looked serious but after working for about fifteen minutes the firemen succeeded in extinguishing it. The fire was caused by a torch exploding and igniting the pulp which was in the hold. The damage done by the fire was slight, but the water will cause slight damage to the pulp.

CALAIS, Me., Sept. 20.—J. M. Johnson, Republican, today gained 6 votes in a re-count of ballots for representative from Calais cast in the election Sept. 16th. His majority over Brene Kalish, Democrat, who asked for re-count, is 35.

HOSPITALITY OF THE DOMINION

British Journals Comment on Winston Churchill's Letter

It Was His Own Fault, They Say, If He Was Not Cordially Received—Borden Goes to Paris

LONDON, Sept. 20.—Sir Frederick Borden and family left today for Paris and other parts of the continent. He will return the latter part of the month.

Tomorrow's departure by the Empress of Ireland include: Kelly, M. P.; MacLaren, M. P.; Archdeacon Armistage, and Judge Mathers.

Two Canadian five hundred dollar bills were picked up on the street in London, Northwest. There is no clue to the owner.

Winston Churchill's letter to the people of Canada has only just been published in full here, exposing him to some ridicule as a self-labeled savior of the empire. His chief, Lord Elgin, himself a born Canadian, would certainly never admit the lack of Canadian sympathy with the Campbell-Bannerman ministry. The Canadian Gazette says:

"Where are there evidences of any limitation of Canadian sympathies to one British political party?"

"We recall not a few Liberal reunions at the National Liberal Club and elsewhere, of which Sir Wilfrid Laurier and Hon. Mr. Fielding and other representative Canadians were central figures, and we know with what cordiality John Morley, Lloyd George and John Burns, all now members of the cabinet, have been received in Canada."

"If Churchill himself was not so cordially received it was for urgent reasons far removed from English Liberalism. He was not, in fact, Liberal in those days. If other British Liberals who are now ministers have not been greeted with cordiality in Canada, it is merely because they have not taken the trouble to go there."

JAPAN GRATEFUL TO DOMINION

Appreciate Contribution of \$20,000 Worth of Flour

Message Received at Ottawa Signed by Heads of Sixteen Villages—Its Contents

OTTAWA, Ont., Sept. 20.—The expression of Japan's gratitude for Canada's contribution of twenty thousand dollars worth of flour has arrived at Ottawa. It was forwarded by Sir Claud O'Connell, who received it from Prefecture Fukushima. The message was drawn up and signed by the heads of sixteen Japanese villages. It is as follows:

"The great amount of cereal flour which the Canadian Government has in such a generous manner contributed towards the relief of the sufferers by famine in the northeastern districts of Japan, has been from time to time distributed amongst the wards and villages and the recipients of relief have at each occasion expressed their feeling of deep gratitude towards the generous donors. Owing to the state of confusion which exists, we have been remiss in our duty, but we now beg on behalf of the wards and villages to express the most heartfelt thanks. We have the honor to request that your excellency will be kind enough to convey this expression of our feelings to the Canadian Government."

The Canadian Government has been invited to make a showing at an exhibition to be held in the agricultural hall, Westminster, next spring.

REPUBLICAN STATE TICKET IN CONNECTICUT

Rollin S. Woodruff, Stated for Governor—The Other Candidates Chosen

NEW HAVEN, Conn., Sept. 20.—The Republican state ticket for the biennial election in Connecticut this fall, was chosen at the party's state convention held today, the proceedings being marked by harmony in transacting routine affairs and dignity in the making of nominating speeches. The ticket was as previously arranged, with a contest for Lieutenant Governor, which required a ballot.

The complete ticket follows:

For Governor—Rollin S. Woodruff, of New Haven.

For Lieutenant Governor—Everett J. Lake, of Hartford.

Secretary of State—Theodore S. Bodenwein, of New London.

Treasurer—Freeman F. Patton, of Stratford Springs.

Comptroller—Thomas B. Bradstreet, of Thomaston.

Attorney General—Marcus H. Holcomb, of Southington.

Congressman at large—George L. Likely, of Waterbury.

Mr. Lake was opposed by F. B. Weeks, of Middletown, and the balloting represented the respective strength of the adherents of U. S. Senator Buckley of Hartford, and State Senator Alban W. Paige of Bridgeport, for the party leadership, the latter having stood behind Mr. Lake in his canvass. The strength of Mr. Weeks proved to be greater than predicted, and it is believed that the oratory of his friends who took the floor to urge his nomination had much to do with rolling up the votes, he having 211 to 149 for Mr. Lake. The other officers were named by acclamation, save Mr. Bodenwein for Secretary of State, but in this instance an opponent had his name withdrawn while a voting vote was being counted.

The platform which was adopted with enthusiasm, after endorsing President Roosevelt and the Republican Party, gives attention to state needs, more particularly the right of trial by jury, and substitution of a salary for a fee system in county administrations which are two of the planks of the Democratic platform.

INTERCOLONIAL RAILWAY

ON AND AFTER SUNDAY, June 24th, 1906, trains will run daily (Sunday excepted), as follows:

W. G. LEE, Agent, St. John, N. B.

PRINCE EDWARD ISLAND RAILWAY.

TENDER

Sailed Tenders, addressed to the undersigned, and marked on outside, "Tender for Machine Shop, Charlottetown," will be received up to and including SATURDAY, SEPTEMBER 22nd, 1906, for the construction of an Erecting, Machine, and Blacksmith Shop at Charlottetown, P. E. I.

Plans and specification may be seen at the Resident Engineer's Office, Charlottetown, P. E. I., at the Office of the Secretary of the Department of Railways and Canals, Ottawa, Ont., and at the Chief Engineer's Office, Moncton, N. B., where forms of tender may be obtained.

All the conditions of the specification must be complied with.

D. POTTINGER, Railway Office, General Manager, Moncton, N. B., Sept. 21st, 1906.

LA GRIPPE

This distressing and unfortunately very common malady easily takes rank among the very "meanest" of the diseases to which people living in this climate are liable.

La Grippe is no respecter of persons; it attacks the young and the old, the rich and the poor with the utmost impartiality.

Except in the cases where Pneumonia develops, La Grippe is seldom directly fatal; the real danger lies in the after effects. Even when the patient has fairly well recovered from an attack (and it is very hard to tell just when he has fully recovered) the muscles are relaxed, the nerves unstrung, the heart and lungs weak, the throat and bronchial tubes irritable and tender and the whole system depressed, run-down and in no condition to resist the attack of any other disease to which it may be exposed.

This condition is fraught with danger and demands instant and intelligent attention, the system must be built up and restored to a normal and healthy condition—advice easy to give, often very hard to follow.

The appetite is liable to be poor and the digestion impaired so that it is almost impossible to consume and digest sufficient ordinary food to do the work quickly and effectively. What is required is a concentrated food, palatable, easy to digest and containing the elements necessary to repair the waste which La Grippe has committed.

Just such a food is found in

FERROL

a scientifically prepared emulsion of Cod Liver Oil, Iron and Phosphorus, palatable, digestible and effective. FERROL contains just what the run down system needs and all it requires. Cod Liver Oil to restore the lost flesh and make what is left firm and healthy, Iron to enrich the impoverished blood and restore elasticity and firmness to the relaxed muscles, Phosphorus to tone the nerve and brain as nothing else will.

Two or three bottles of FERROL, taken after the acute stage of La Grippe has passed, will do more to repair damage than can possibly be accomplished in any other way. Try it and see.

GEO. A. MOORE, CHEMIST, 105 Brussels st., Cor. Richmond, ST. JOHN, N. B.

GOING AFTER DREDGE THEY DON'T WANT

It would seem now that although the board of works have sent Harbor Master Ferris to Boston with the intention of looking at a dredge to see if it would be suitable for use in the harbor, there is likely to be strong opposition to the purchase or even engaging another dredge at the present time.

It is maintained that the Beaver would be able to go to Sand Point without interfering with the completion of the rest of the work, and that the purchase of a suitable dredge, even for as low a price as \$25,000, would be nonsense. It is at least certain that there will be a warm discussion before the step is taken.

Lying prone with his head thrust into a cellar hatchway of the Market Building, a middle-aged man of respectable appearance, who gave his name as O'Brien, and said he came from Ontario, was discovered about one o'clock this morning by Officer Wm. Sullivan. He had been lying there about two hours in a pile of sawdust. Whether he brought it with him for a bed of ease or not is unknown. When aroused he was under the impression that he was at a hotel.

THE GLOBE CLOTHING

Nos. 7 & 9 Foot of King St.
Entrance at No. 9

The largest and most desirable stock of Men's, Youths' and Boys' Clothing in the province to select from. Every person wanting clothing of any description should call at the Globe, where they will get perfect satisfaction in cloth, cut, style and finish.

METHODISTS APPLAUD DENIGRATION OF EVANGELISTS

'Peripatetic Pedlars of a Rag-time Gospel,' They Are Called--Hot Discussion on Plan to Divide Missionary Work--Dr. Sutherland Threatens to Resign--Important Changes.

MONTREAL, Sept. 20--A large conference of the Methodist church in the Rev. Dr. McCoy, representative from the M. E. church of the south, Dr. McCoy is a young man of about forty, with the gift for ready and effective speech. He spoke appreciatively of the union of the Methodist churches in Japan and referred to them as "our children" and said "as mothers-in-law, we on this continent should be very friendly. We have heard," he said, "with unalloyed joy of the optimism with which you face the problems of the development of this vast country. I have read with thrill of joy of the conquests of your early circuit riders. There was a time when they were hailed the heroes of this world. There never will be a time when they will be denied the honors of the world to come. He carried the first circulating library the world ever saw in the pockets of his saddle-bags. All time will yield honor to the Methodist church for the stand she took with regard to ecclesiastical equality in the state. Egerton Ryerson as the pioneer in the movement that secured these rights deserves the highest and most enduring favor. The spirit that has placed your church in the lead of the Protestant churches still abides in you. There are some questions upon which debate has closed and one of them is that the church must help higher education. Methodism is committed to the task of education." Referring to the projected union of the churches he said that nothing clarifies the ecclesiastical air so much as that we see much to admire in others we never saw before. He spoke of the necessity resting upon each minister to do his own work rather than importing professional evangelists, who go through the land corrupting the untired and unproved theories, but cautioned against the tendency to refuse to learn new theories. "Hear, hear," he said, "that higher criticism is much like Mr. Dooley's negro, contented and happy and easily satisfied."

Mr. Flavelle wanted no government by an autocrat but by co-operation. When a work grows so large that a head loses touch with the workers it is time to call a halt.
Dr. Allison in an able speech said that he would be exceedingly glad to change the policy of the church at this juncture. The only proposal is to have two autocrats instead of one. (Laughter and applause.) He moved that the whole matter be referred to a committee to advise in a report. He projected all personalities. This new proposition is for a hybrid and mongrel creature and will destroy the whole of the missionary department. Dr. Crothers seconded Dr. Allison's motion.
Mr. Hilliard moved that there be a general secretary and two under-secretaries. Dr. Young supported the committee proposal. Dr. Crothers suggested the idea of a commission of inquiry. He favored having a head of the church draw a parallel from the civil government.
Dr. Sutherland suggested a separation of the two issues in the report. He said that in consultation with the board shall divide the work, one of these to be the secretary-treasurer, and that there be two assistant secretaries to visit the fields. The conference referred the report back to the committee to harmonize his suggestion with the committee's former report.

MILKMEN'S MEETING

Price Per Pint to be Four Cents--Went all Dealers in

The milk dealers held a meeting in Bowman's Hall yesterday afternoon. They decided to raise the price of milk in the price of milk, the new rates being six cents per quart wholesale and seven cents retail. The price per pint is four cents retail.
Committees were appointed to look after the progress of the association and to learn if the dealers who were not present at the meeting are in sympathy with the action taken.
The following officers were then elected: James Morland, president; Alex. Macaulay, secretary; R. McLean, S. Creighton and S. Carpenter, vice presidents; J. Donovan, treasurer.
An executive committee composed of Messrs. Wigmore, Macaulay, Davidson, Barrett and McLean was also appointed.
Another meeting has been called for two weeks hence, when the reports of the committees will be received and other matters of interest to the milk dealers discussed.

A large moose was shipped to the city last night, consigned to Walter Carnall, the taxidermist. The moose was shot by S. Davis near Tracy station. The moose had a large spread of antlers.

CONSTIPATION

is caused by a weak stomach that will not properly digest food.

Herner's Dyspepsia Cure

corrects the stomach, and positively cures constipation. Constipation causes piles. When you cure it you will also cure piles. Sold under a guarantee. Price 35c and 1.00 at all druggists.

POSTAL CLERKS AFTER INCREASED MILEAGE

will send Delegation to Interview Post-Office General

The railway postal clerks of the Maritime Provinces think they should have a mileage increase of one cent, and that end will have an interview with the post-office general.

Those who make their headquarters in St. John held a meeting here last Tuesday for the appointment of a delegate, but were unable to agree on a representative. There were three candidates for the position, viz. Dennis D. Agle, John Emerson and S. R. Black. Each man was strongly supported; consequently the meeting was adjourned for a few days, when the question will proceed by ballot.

S. R. Black occupied the chair during the meeting. As soon as the delegates from the several points have been elected, they will proceed to Ottawa to lay their case before Hon. Mr. Lemieux.

A divorce, dated with time, belonging to Richard Kitchin, broken down on Main street yesterday afternoon. One of the rear wheels fell off the axle, and the accident delayed traffic until temporary repairs were made.

MONCTON COUNCIL AT LAST AGREES

Will Transfer Banking Business to Hughes Alley Licenses Increased

MONCTON, Sept. 20--The long session of the council of the Royal Bank of Canada, which was held here last night, resulted in the agreement to transfer the banking business from the Bank of Montreal to the Royal Bank of Canada.

A motion, of which notice was given some time ago, respecting the increase of license fees of pool rooms and bowling alleys was passed tonight and immediately goes into effect. A letter of protest from the local pool room proprietors was read tonight at the council against the increase, which will have the effect of doubling the present license fees, which expire at the end of the present month.

At last night's meeting it was decided to refer the matter to arbitration, but tonight this was rescinded, and after a lengthy discussion, and the defeat of numerous amendments it was decided to transfer the account to the Royal Bank.

A Baker in Your Home

Buying Mooney's Perfection Cream Sodas is like having a master baker in the house. These dainty biscuits come to you, as crisp and inviting as if hot from the ovens. Air-tight, moisture-proof packages retain all the pristine freshness whether you live one mile or ten thousand from Stratford.

Mooney's Perfection Cream Sodas

arg. a treat in biscuits. They look so good--and taste so good--that the first box will make your appetite captive.

"MOONEY'S"--remember--when ordering. Your grocer should have them in the popular lunch pails.

STRAITFORD, CANADA.

TRANSFER OF STOCK OF MOWRY SAFETY NUT CO.

Sydney Men, Said to be Acting for Syndicate of Maritime Capitalists, Pay Big Price -- Plant Will be Erected Soon in Some Central Place -- Different Towns Interested.

SYDNEY, Sept. 20--The latest maritime industrial story and decidedly not the least important of the year is the transfer just consummated of the patents and stock of the Mowry Safety Nut Co. Ltd., of St. John, to C. V. Wetmore and W. A. Crowell, of this city, who are said to represent a syndicate of maritime capitalists. The price paid is said to be in the vicinity of \$100,000. At that figure with the extraordinary prospects ahead the bargain is regarded as exceptionally good. About a year ago the Mowry people formed a company at St. John, which was incorporated, erecting a small experimental plant and establishing the business in order to meet present requirements. The product of the company met with the approval of railway enterprises and large manufacturing industries from the beginning. The Mowry safety nut has given the most perfect satisfaction wherever tested, as testimonials from the Westinghouse people, the Canadian Pacific railway and the Intercolonial system will abundantly demonstrate. As a matter of fact the I. C. R. after a test extending over a year and a half has adopted it on the railway, and it has now equipped over two hundred miles of its line with the Mowry patent lock nut. In all the tests the nut came up by all requirements. It is claimed that twenty per cent. of the time wasted by section men to keep the nuts tight on the rail is saved by the introduction of the new appliance.

In conversation with Messrs. Wetmore and Crowell it is learned that at some point in the Maritime Provinces a plant will shortly be erected for the manufacture of nuts and bolts equipped with the Mowry safety device, and that the locality selected will have the honor of possessing the only plant of the kind on the continent. It is understood that a St. John man has offered to furnish large capital to establish the works in that city, but the syndicate will, it is understood, establish in the centre offering inducements. Naturally Sydney and Halifax people will look forward to the establishment of the plant in their respective cities, but that according to the view said to be expressed by the new company, will be a matter of competition. It is learned that the safety nut has been adopted as the standard by the entire Grand Trunk Pacific system, and tenders have been accepted for all the railway mileage to be laid this fall. When it is considered that the safety nut is available for all mechanical purposes where vibration exists, it will be conceded that the new company, in view of the large railway construction to be undertaken in Canada during the next five years has seized the philosophical moment to acquire the rights of the Mowry safety Nut Co.

FUNERAL DIRECTORS ASSOCIATION MEET

HALIFAX, Sept. 20--The Funeral Directors' Association convention was closed today, when the following officers were elected: President, G. D. Wright, Charlottetown; vice-president, for New Brunswick, Geo. A. Chamberlain, St. John; vice-president for P. E. I., D. L. McKinnon, Montserrat; secretary, F. M. Wallace, Sussex, N. B.; treasurer, F. M. Brown, Pugwash. All the other old committees were re-elected. Tonight members of the association dined at the Carlton House, and a very enjoyable time was spent.

LOCAL NEWS.

Direct Importation Chinese post cards. Hall's book store.

The Furness line steamer Florence sailed for Halifax and London at 1:30 o'clock this afternoon.

The steamer Oruro sailed from Bermuda this morning for St. John direct. The passengers included five Chinese.

The condition of Jack Armstrong, who was injured several days ago, continues to improve, and the lad will soon be able to leave the hospital.

Some improvements are being made at the gas works, and the Street Railway Co. have secured the services of an American engineer, who is to superintend a number of changes which are being made in the plant.

Tomorrow afternoon and Sunday the water pressure will be low on the higher levels in consequence of making a connection and at the March Road, and One Mile House for the new 36-in. main.

Fred McDonald, a Sussex man who has been in the Provincial hospital for the past few months, escaped last week and made his way to his home here. Officials came after him and he is again within bounds.—Sussex Record.

The funeral of the late Mrs. Sarah Bain took place at 2:30 this afternoon from her late residence, Pond street. Rev. Father Holland read the burial service at the Cathedral and interment was in the new Catholic cemetery.

The death took place at an early hour this morning of Anne Johnson, nee Macnott, the five months' old daughter of Mr. and Mrs. Wm. Wonnacott. Much sympathy will be extended to the parents in their bereavement.

The Eastern line steamer Calvin Austin arrived in port about 9 o'clock this morning with 129 passengers from Boston. The steamer sailed at two o'clock this afternoon on a trip to Eastport.

Five drunks were on the police court bench this morning. Timothy O'Brien, Daniel McDade and Patrick Gallagher were fined four dollars each on the jail. Dennis Sullivan was fined \$3 or two months jail and James Connors was remanded to jail.

Quite a number of counterfeit quarters were put into circulation during an exhibition. Some specimens examined were very skillfully made but the metal was of a very soft quality and would allow of the coin being bent very easily.—Sussex Record.

Policeman Hamm was called into the E. E. Sagre mill on Long wharf, this morning at 2:30 o'clock, to deal a disturbance caused by two workmen. The police were also called into the Evangelical church store on Mill street, and James Gilbreath's home on Moore street, to quell disturbances last night.

Policeman George Totten this morning presented to the Star some ancient history in the shape of a Belfast, Ireland, paper called "The Northern Whig" which was published on Saturday, October 18th, 1845. The policeman said that he had read the paper from first to last page and was now full of old Irish.

It is announced that a happy event will take place at Clair, Madawaska county, on Wednesday, October 3rd, when the nuptials of Mr. Augustine W. O'Brien of Houlton, Me., and Miss Nora B. Clair, daughter of Thomas Clair, M. P. P., will be celebrated.—Gleaner.

The banquet to bid farewell to Rev. Father Cormier was held in the Maritime Hotel, Memramouc, last evening. The educational institutions in that place and the Catholic church in these provinces are under a debt of gratitude to Father Cormier for his labors in building up St. Joseph's College.

Stewart & Thompson have completed the laying of the main water extension at Andover and the water has been turned on for the past week. They are now putting water connections with the different houses on the extension. The fire hydrants which should have been here some time ago are expected daily when they will be attached and the work completed.—Victoria County News.

Among the recent mineral discoveries is that made by Peter McLean, contractor of Letches Creek, who has located on his premises one of the finest fire clay deposits known in the island. The area covered by this fine deposit is said to exceed three square miles, and the analysis gives a percentage of 62 equal to that of the highest foreign clay. The lead is situated close to the railway at Letches Creek, where the water shipping facilities are also excellent.—Sydney Record.

Last Saturday night some parties broke into N. W. Eveling's cheese factory at Mann Settlement, and deliberately destroyed one of the vats and broke the boiler allowing the water to run out. Mr. Eveling received a telephone message and was soon on the road to the place and with the help of some of his men, repaired the vat and boiler and had everything again in working order by Monday. Only a few weeks ago a number of bee hives were stolen from one of the farmers by parties unknown.—Sussex Record.

Hon. L. P. Farris and Senator King, who arrived in the city last night, left by the early morning train for their respective homes. T. Carleton Allen of Fredericton is in the city.

LIEUT.-COLONEL "LARRY" BUCHAN IN THE CITY

The Genial Major of the First Contingent Here on a Brief Visit to Friends.

Among the visitors to the city today was Lieut.-Colonel Lawrence Buchan, "Larry" as he was familiarly termed behind his back by the boys of the first contingent to Africa. Col. Buchan is now commanding the Quebec district with office at Montreal. He has been to Newfoundland, on a few weeks leave, and stopped in St. John on his return to visit friends. His daughter is the wife of Capt. Kaye, formerly of this city.

Col. Buchan will be most kindly remembered by those who served under him in Africa. His unvarying good nature, in spite of the calmly deliberate discipline which he enforced, made him popular with all. He was a holy terror to those men who chanced to be reported for minor offences, and these were fewer violations of orders while Col. Buchan was in charge of the regiment than at any other time. Col. Otter had a habit of sentencing offenders to a few days C. B., which meant a mild form of punishment usually less than that which he enforced. Col. Buchan, however, handed out twenty days hard labor with the same pleasant smile as that which accompanied the gift of a much sought for match or a drink of water to a private. And the men usually decried the one as much as they did the other.

Col. Buchan was not however, all iron. For a time in Africa the regiment was in a pretty bad condition. Many had been wounded or were down with fever, and at this critical time Col. Buchan was struck in the neck by a bullet and the command devolved on Col. Otter. It was on the march to Pretoria, after a long and disheartening march on foot, which consisted of a cup of whole corn per day, the strength of the regiment was not over three hundred men. All were feeling downcast, and their gloom was deepened by the recollection of the proud appearance made only a few months before when eleven hundred answered the roll. The companies were drawn up, and Col. Buchan made a little speech. He did not say much, but briefly reviewed what the regiment had passed through, recounted the good work which had been done, sympathized with the boys in their suffering and added that the people at home expected the brilliant record to be maintained. He concluded with an appeal to the men to do their best, and to stand by him to the end. He said to his final call "You'll stand by me boys, won't you?" there came a roar of "Larry, we will!" from the few hundred half starved troops, that raised the echoes for miles around.

Col. Buchan leaves this evening on return to Montreal.

REV. J. J. PROSSER MAY REMOVE TO THE WEST

He Will Resign from Waterloo Street—Has Received Several Invitations

Speaking to the Star today Rev. A. J. Prosser stated that it is apparent to him and to the officers of Waterloo street church that the union of the two parishes has been thought about conditions which made it no longer necessary to perpetuate two churches in that district, so near one another. Feeling this to be true he will resign in the near future, believing that it is contrary to his duty as a Christian leader to continue his effort in a church which is compelled to enter into a contest with another church in order to maintain its standing. He regrets the attitude the church assumed toward "union," but understands that when a man is called to forsake his church home it involves a sacrifice which few are prepared to make.

Rev. Mr. Prosser has received a number of invitations to other fields which are attractive and remunerative, one of them being in western Canada, where he has been urgently requested to accept.

The Waterloo street church pays a salary of \$200 out of which the pastor has to provide his own house.

ALDERMAN VANWART SHOT A FINE MOOSE

He and George Polly Had Good Luck on Their Trip to Lepreau.

Alderman Vanwart and George K. Polly went on Tuesday evening on a hunting expedition to Lepreau and returned early this morning, having shot a moose which is one of the finest specimens ever killed in this section of the province. They took along with them as guide Philip Deane and went back into the Seven Mile Lake district. At first they had poor luck though they got twelve answers from the guide's calling, but without seeing any of the moose. But about half-past five Lepreau, feeling like giving up the hunt, the guide's calls were answered near a cranberry bog. Within fifteen minutes the moose was located and within range was shot by Ald. Vanwart. The carcass weighed upwards of fifteen hundred pounds and the spread of the antlers was fifty-four inches.

Samuel Wortman was the successful shooter of a large bull moose on Saturday last, the opening day of the big game season, at Wolfe Brook. He left here on Saturday morning in company with Arthur Keith and guide Malony and arrived at their destination about four o'clock and by six in the evening had their moose. The antlers had not much of a spread but the body was exceptionally large. Mr. Wortman is to be congratulated on his success as it is very seldom a moose is killed before one day of the open season elapses.—Sussex Record.

\$10.00 Suits and Overcoats

FOR Fall and Winter

\$10 will buy more money's worth here than ever before. We have said little heretofore about our \$10 goods, but more men and youths come here each season for them. We are careful in selecting these Suits and Overcoats, and a small profit satisfies us because our selling expenses are low.

Customers tell us our Winter Overcoats and Fall Suits at this price surpass anything they have seen in appearance and value. We're ready and willing to serve many more customers.
