SPEEDY PUNISHMENT FOR ST. PETERSBURG THIEVES

Eight of Those Concerned in the Recent Robbery Have Been Executed—No Disturbances of a Serious Nature Reported Yesterday

ST. PETERSBURG, Oct. 30.—The morning of the first execution in the history of the city was passed in St. Petersburg without any disturbance being reported. The bodies were buried in the cemetery and only a few people were to be seen in the streets. Many residents decided to stay in doors owing to fear of becoming involved in trouble. Students in uniform were conspicuously absent as the result of a warning issued at the meeting in the university yesterday that bands of reactionary rowdies had been formed to beat pedestrians in student garb. The garrison of the city was distributed in accordance with the emergency regulations for preserving order. Large forces of infantry and cavalry were concentrated in the vicinity of the Kazan Cathedral, and many troops were gathered in the neighborhood of the university, but the militia were kept invisible so far as possible in the interior of courts and in buildings. Special bands were stationed at all the railway stations. There was a conflict last night between a detachment of troops and a large crowd which gathered at a fire in the industrial district of Chluseburg. Some rowdies cut the fire hose, drove the firemen away and began plundering, whereupon the soldiers fired a volley without any casualties. Otherwise the night passed quietly.

MR. BURCHILL BURIED WITH MASONIC HONORS

Many Attend the Funeral of Frederickton Citizen.

FREDERICTON, N. B., Oct. 30.—The funeral of the late Charles Alexander Burchill took place at three o'clock today and was very largely attended. Service was held at the Cathedral by Rev. Sub-dean Street, the hymns rendered being "Lead Kindly Light" and "Aldo With Me." Interment was made at the Old Burial ground. The funeral was under the auspices of the Masonic order and was preceded by the Frederickton Brass Band. Six Royal Arch Masons acted as pall-bearers and the deceased was laid out in the full dress of that order. The Forerunners and city officials walked in a body in the procession.

SPRINGHILL MINES MAY BE ON FIRE

Five Hundred Men Have Knocked Off Work

Since an Explosion of Gas on Saturday Last—Management Will Not Give Much Information.

AMHERST, N. S., Oct. 30.—On Saturday last miners working in the north slope of Springhill mines became alarmed at a dense quantity of smoke laden with poisonous gases that penetrated that portion of the mines. Fire was at once suspected and over five hundred men at once quit work. The management took active steps to locate the trouble and since Saturday noon have been working night and day to ascertain the cause.

MURDER DIES OF FEAR OF CHAIR

Apparition of Death in Sing Sing So Haunts Tombs Prisoner That He Collapses

NEW YORK, Oct. 29.—Dread of death in the electric chair for a murder he committed five weeks ago preyed on the mind of Antonio Spinnello who died yesterday in the Tombs from sheer fright. He was taken to the Tombs after his arrest at the residence of the Italian laborer and was held in the electric chair. Other prisoners in adjoining cells complained that the Italian's cries of fright kept them awake at night.

(Special to the Star.)
LUNENBURG, N. S., Oct. 30.—Three weeks ago Ivan Winifred of Folton South left home in the forenoon in a sailboat. It blew hard and his mother watched him till he got beyond the "Head" and to the leeward of falling vessels when the boat was seen to disappear. Yesterday while Fred Johnson was playing near the shore at Eisenhauer's wharf he discovered the body in a badly decomposed condition. Witness parents were communicated with and Dr. Burwell, coroner, empaneled a jury and the verdict of the inquest was accidental drowning.

LIFE AT SHILOH.

Mrs. Caillat Goes Into Details About Conditions There.

Little Children are Starved—No Lights and Insufficient Heat and Clothing.

(Portland Press.)
Mrs. Fred Caillat, the woman who was in Portland recently on her way home from the Sandford colony at Shiloh, where she has been living for a number of years, gives the Lewiston Journal an extended account of present day conditions at Shiloh.

In speaking of the food at the Sandford institution Mrs. Caillat said: "Much of the time the last two years we have had nothing but musty corn meal, usually made into mush or gruel, and occasionally into thin cakes. I think they must buy it sour. Sometimes they brown some of this mushy meal and scatter it on the porridge to change the sour taste. This they call 'kingdom spics,' and sometimes 'kingdom sugar.'"

"Why sugar and spics? Mrs. Caillat? Don't they have spics and sugar?" "Oh, no, indeed. No milk, butter or sugar on the mush most of the time, and sometimes they are so poor that they don't have any salt to season the mush."

"Is this common, and do all fare that way?" "Yes, it is common. I should think about a year altogether we had nothing—no milk, butter or sugar; just meal and water, most of the time. For had potatoes all the time last winter, and hardly anything else."

MAKES A SERIOUS CHARGE AGAINST INSURANCE AGENT

FIVE PASSENGERS ARE STILL MISSING

All Others in the Atlantic Wreck are Accounted For

Death List, it is Now Thought, Will Not Exceed Sixty—Some Bodies Still to be Recovered.

ATLANTIC CITY, N. J., Oct. 30.—With all of the recovered bodies identified and seven persons reported missing, the authorities and railroad officials are today certain that the number killed on Sunday in the drawbridge disaster on the West Jersey Seashore Electric Railroad will not exceed 60. Fifty-two bodies have been claimed, two of these placed among the missing are known to be dead and five are still unaccounted for. These seven victims are believed to be wedged beneath the second passenger coach which is held fast in the muddy bottom of the thoroughfare. During last night a wrecking crew aided by several divers endeavored to dislodge this car but their efforts produced little result. The ponderous trucks weighing about 15 tons, have sunk deep into the mud and a monster crane and derrick have been unable to move them to any appreciable extent. As a last resort it was suggested that the wreckers use dynamite to blow up the car, but this plan will not be carried out unless all others fail. Coroner Haskell who has been conducting a rigid inquiry since Sunday night is today preparing for the inquest which is to begin on Thursday. He anticipates an unusually long inquest and thinks that it may be a week or more before a verdict is reached.

ATLANTIC CITY, N. J., Oct. 30.—An investigation into the cause of the event of continued discrimination against Japanese children in the schools of San Francisco, invoked article six of the constitution has caused the greatest satisfaction here. The acute stage of the crisis has passed and a favorable result is confidently expected from the mission of the secretary of commerce and labor, Mr. Metcalf, to San Francisco. Clause two of article six of the constitution is as follows: "This constitution and the laws of the United States shall be made in pursuance thereof and all treaties made or which shall be made under the authority of the United States, shall be the supreme law of the land, and the judges in every state shall be bound thereby, anything in the constitution or laws of any state to the contrary notwithstanding."

SAN FRANCISCO, Oct. 30.—When Secretary Metcalf, of the department of commerce and labor, arrives here tomorrow much of the data which he requires regarding the placing of children of Japanese parentage in separate schools will be ready for him to pursue. It is expected that his action will be in conformity with the state law and until that law has been amended a violation of Japan's treaty rights it will adhere to its position.

PHILIPPINES WILL HAVE A PARLIAMENT

Next Spring the First Assembly Will be Called if the People are Good.

WASHINGTON, Oct. 30.—The President is preparing to redeem his promise made to the Philippine people through Secretary Taft that they shall have a parliament of their own, conditioned upon their good behavior for a term of two years and it is understood that Secretary Taft himself will proceed to the installation of the new form of representative government, March 27, 1905, the Philippine census was published and consequently two years from that date March 27, 1907 under the terms of the act of Congress the President will direct the Philippine commission to call a general election for the choice of delegates to what will be known as the Philippine Assembly. As this date draws near the Philippine people are showing signs of agitation and to the officials here it is evident that they are expecting some benefits that cannot at once be realized.

JOSEPH ARSENEAU LOOKING FOR A WARRANT FOR THE ARREST OF A MAN, WHO, HE CLAIMS, CRIMINALLY ASSAULTED HIS WIFE.

Joseph Arsenau, a Frenchman, is today seeking to have a warrant issued for the arrest of a well known insurance collector of this city, who Mr. Arsenau alleges criminally assaulted his wife in his home on Hilday street.

Mr. Arsenau this morning said that he would carry the matter to court and have justice served to the agent. It appears from his statement that Arsenau took out an industrial policy several weeks ago, and agreed to pay a few cents each week. For the past two weeks there has been no spare change around the Arsenau home, and consequently the policy was not paid up. The insurance man, he says, called at the house about a week ago, and when told by Mrs. Arsenau that the premium could not be paid the agent, Mr. Arsenau says, made an indecent proposal to the woman. The collector called again yesterday and was again refused payment. The insurance man, it is alleged, then assaulted Mrs. Arsenau. Mr. Arsenau says that he was in the next room at the time, but did not know what took place.

Mr. and Mrs. Arsenau both called at the Puppley building this afternoon and stated that they would have a lawyer to appear for them.

Mrs. Arsenau is a small woman, presumably about 22 years of age. She is good looking, and although she could speak but little English denounced her assailant in strong terms. Arsenau has been in this city for about three months.

ORIGIN OF SUMMERSIDE FIRE STILL UNKNOWN

Consul Vail, of Charlottesville, is Serious Ill of Bright's Disease

(Special to the Star.)
CHARLOTTETOWN, P. E. I., Oct. 30.—An investigation into the cause of the fire which started in the railway freight shed and destroyed a quarter of a million dollars worth of property in Summerside three weeks ago, was held yesterday by the Superintendent of the Prince Edward Island Railway. Nothing new developed. The origin is still a mystery.

Hon. Delmar J. Vail, a native of Vermont, United States consul here, is very dangerously ill from Bright's disease.

BURNS GETTING READY FOR O'BRIEN.

One of the four best men who have a look-in for the heavyweight title. O'Brien, Burns, Johnson and Berger will be eliminated when the Philadelphian and Burns meet in Los Angeles. Burns is working very hard to get in shape, and will carry a fair amount of backing.

BILLIARDS.

SCHAEFER AND HOPPE. BALTIMORE, Oct. 29.—Jake Schaefer tonight won the first half of a 900-point 15-2 billiard match from Willie Hoppe, scoring his five hundredth point in his twenty-third inning. The remaining 400 points will be played tomorrow night and the final winner of the match will meet George Sutton in a 500-point 15-1 match on Wednesday night.

THE RING.

PALMER DEFEATED. LONDON, Oct. 29.—The fight for the heavyweight championship of England between Jack Palmer of Newcastle, the present holder of the title, and "Gunner" Jim Moir for a purse of \$1,700 and a side bet of \$2,000, took place tonight, before the National Sporting Club, and will carry a fair amount of backing.

ATHLETIC.

Club Moir beat Palmer on a foul. Moir forced the fighting from the first and the struggle was pretty even until the final round. In the ninth Palmer hit Moir several times and was disqualified. BERGER AND KAUFFMAN TO MEET. SAN FRANCISCO, Oct. 29.—The first heavyweight fight to be decided in this city for nearly two years will take place Wednesday night, when "Sam" Berger and "Al" Kauffman meet at the new pavilion skating rink.

ROAD RACE SANCTIONED.

F. W. Meyer, of the M. P. A. A., has sent notice that sanction has been granted the Marathon Athletic Club for the road race here on November 17th.

Running to develop wind.

The course for the race will be from Brookville by way of Marsh road and Brussels street to the court house, a little over five miles. Already several entries have been received from local runners and it is expected more will be handed in in the next few days. It is probable that the U. N. B. will be represented and perhaps some of the other colleges. Entries will be received up to Nov. 10th by the secretary of the Marathon Association.

FOOTBALL.

The U. N. B. football team are endeavoring to arrange for a game with the Marathons here on Monday, Nov. 4. The U. N. B. team passed through yesterday on their way to Sackville, where they play the Mt. Allison team today. They have also games to play with Acadia, St. Joseph's and the Wanderers, of Halifax. It is doubtful whether a game can be arranged for Monday at the Marathons except to have the Wanderers here on Saturday and do not wish to have two games come so close together. The Marathons are also in communication with the Moncton team and expect to arrange a game with them for the near future.

A number of witnesses were heard and the hearing adjourned until Tuesday afternoon at 3 o'clock. Some needed improvements have been made to the interior of the Cornwall Cotton Mill discovered fire among the loose cotton in the opening room and an alarm was rung in from box 21. Gordon Division, S. of T., had a grand rally at their hall, Market building, last evening. A number of visiting brethren and sisters from other societies were present. A very fine programme was prepared and at the close of the musical and literary exercises refreshments were handed round by a committee of ladies and gentlemen. The programme included a piano and vocal recitation, D. C. Pines, reading, H. McCavour, recitation, Mrs. Metcalf, address, Robt. Maxwell, P. G. W. W., reading, T. P. McCavour, Kenneth Spears, W. J. Prosser, rector of Waterloo street United Baptist church, and Mr. Prosser, were last evening given a pleasant surprise, when they were invited to the residence of F. A. Dunlop, of 44 Indian Row, and presented by William Peters, the senior deacon of the church, on behalf of about fifty members, with a well filled purse and an address. Rev. Mr. Prosser made a suitable response, after which brief addresses were also made by Deacons James Patterson, Thomas Robinson and J. S. Smith, clerk of the church. The addresses and the speeches of the most kind wishes for the future welfare and happiness of Rev. Mr. Prosser and his family. Rev. Mr. Prosser expects to spend next Sunday in Port Maitland, N. S., and will conclude his stay here on the following Sunday. He expects to know definitely on Wednesday whether or not he is going to Indian Head, Me. CHARLES L. COREY. The death of Charles L. Corey occurred suddenly yesterday at his residence, 334 Union street. For some time past Mr. Corey, who was a well-known carpenter, had been in ill health, owing to internal injuries due to a fall from a ladder, but his death yesterday was unexpected. He was a son of the late Samuel Corey, of Grand Lake, Queens county, and leaves a widow and one little girl. DROP A BOTTLE FROM A BALLOON, AND YOU GO UP 400 FEET. No writer ever described the sensations of ballooning with such particularity as does A. W. Rolker in his article on "Sky Sailing, the New Sport," in The American Magazine for November. The author is a joy to the reader because he relates all the little things that you want to know. He is indeed a traveller returned from a land of wonders, possessed of a passion to tell what he has seen, and equipped with the power to write interestingly. Among the numerous specific facts that Mr. Rolker reports, the following are interesting: "It is while discharging ballast to enter the higher altitudes that you get your first idea of the hair-trigger balance of the giant contrivance keeping your aloft. Your pilot takes a small wooden scoop no larger than an ordinary soup ladle, digs into one of the sand bags and scatters a single 'shovelful' overboard. Up darts your balloon—100, 200, 300 feet. An ordinary-sized bottle of beer spilled overboard lights the balloon enough to send it up 250 feet, and if you happen to be over a vacant field where you can drop the bottle itself without risk of killing anyone, the release of this weight will send you up another 300 feet. So delicately poised is your balloon once it has struck its balance that you could push it up or pull it down from 300 to 400 feet with strength equal to that of your little finger. "When a mere cloud passes between you and the sun, causing instant contraction of the gas in the balloon, the episode becomes languid and flaccid at once and you begin to fall, sometimes at the rate of a thousand feet a minute, although you have no warning of this other than the stapescope and no sensation except the thrill as you see lights appearing rapidly with which the earth comes nearer you. Three or four scoops of sand may be necessary to avert a fall before you again strike your balance, and the next moment the sun darts from behind the cloud, warming the balloon, and the envelope tatters almost with a bang and you go hitting upward under your lightened load until you are obliged to open the escape valve to let out gas to prevent going up above your original level. Then it is that you begin to understand why the highest of the aeronauts alternate cloud and sunshine, why he prefers sailing during the night, and why, first of all, he does so throughout a day, he mounts high above the clouds in continuous sunshine where the volume of gas in the balloon remains constant."

Nervous Prostration.

IT IS WORRY THAT KILLS, NOT WORK. Work without worry usually tends to prolong life. On the other hand, worry, with or without work, is fatal, because it uses up what the Doctors call the "Lecithin," a phosphorized fat which is the chief constituent of the brain and nervous system—a waste which, if not stayed in time, means complete nervous wreck. The evident moral is, "Don't worry"—advise easy to give, and in these days of stress and strain practically impossible to take. The alternative is: find some way of replacing the wasted Lecithin—the phosphorized fat. This absolutely essential element will be found in its most perfect, palatable and assimilable form in an emulsion of Cod Liver Oil and Phosphorus (phosphorized fat) together with Iron, the recognized blood builder—making FERROL the ideal nutrient it claims to be. For the prevention or treatment of nervous prostration FERROL is absolutely unequalled—it is safe, sure and speedy. The formula of FERROL is freely exposed, consequently "You Know what you take" SAMUEL H. HAWKINS, Drugist, Cor. Mill and Paradise Row. GEO. A. MOORE, Dispensing Chemist, 105 Brussels St., Cor. "When a mere cloud passes between you and the sun, causing instant contraction of the gas in the balloon, the episode becomes languid and flaccid at once and you begin to fall, sometimes at the rate of a thousand feet a minute, although you have no warning of this other than the stapescope and no sensation except the thrill as you see lights appearing rapidly with which the earth comes nearer you. Three or four scoops of sand may be necessary to avert a fall before you again strike your balance, and the next moment the sun darts from behind the cloud, warming the balloon, and the envelope tatters almost with a bang and you go hitting upward under your lightened load until you are obliged to open the escape valve to let out gas to prevent going up above your original level. Then it is that you begin to understand why the highest of the aeronauts alternate cloud and sunshine, why he prefers sailing during the night, and why, first of all, he does so throughout a day, he mounts high above the clouds in continuous sunshine where the volume of gas in the balloon remains constant."

REMAKING THE WORLD'S MAP

A German Predicts That Asia and Africa Will Make Great Strides.

BERLIN, Oct. 29.—Prof. Theodore Schlemann, in his monthly review of foreign affairs, makes some interesting speculations in regard to the changes which will probably have taken place in the world by the time the Kaiser's grandson, who was born on July 4, ascends the throne as William IV.

THE TIME TO WORK IS 1 A.M.

Eat Heavily and Sleep—Long and Then Your Brain Will Get Busy.

LONDON, Oct. 29.—In a discussion of the general topic of feeding at the meeting of the food congress in Paris, Prof. Landouzy quoted various statistics on this subject. These show that among the working classes of Paris the men spend on an average 1 franc and 14 centimes a day for solid nourishment and one franc and 14 centimes a day for drink.

HEADLESS BODY OF MAN FOUND FLOATING IN LUNenburg HARBOR.

HALIFAX, Oct. 29.—The headless body of a man, with hands also missing, was discovered at noon today being towed by the tugboat "Lunenburg" by a young son of Mrs. Charles Johnson. The young fellow was gathering up the bodies of the drowned men who were on the body, and his horrified cries brought the workmen on the wharf to his assistance. Captain Burns was notified and had the body removed to the undertaking rooms of Mr. Hopp, where he began an investigation. The body was clothed in oil skins and long boots, and as a young man named Wilford is supposed to have been drowned in the harbor a few weeks ago, it is thought that this is his body. The coroner's inquest was adjourned until 2 o'clock tomorrow.

REV. M. C. SHEWEN ELECTED Rector of ST. MARY'S PARISH.

FREDERICTON, N. B., Oct. 29.—At a meeting of the parishioners of St. Mary's Episcopal church this evening, Rev. M. C. Shewen, of Greenwich, Kings county, was elected rector in succession to Rev. Dr. Duffy, who resigned on the 28th inst. The election was decided on the first ballot, Mr. Shewen taking twenty votes, Rev. H. B. Dibble seven, and Rev. W. G. Raymond, Jr., two. It is said that Rev. Mr. Dibble was willing to accept the appointment only on condition that a portion of the parish of Marguerville was added to his field, and this proposition did not meet with favor. It is believed the Rev. Mr. Shewen will accept the call and enter upon his duties early in the new year.

WOODSTOCK MUST PAY MILLMORE \$25 DAMAGES

A wide range of subjects, all dealing with outdoor life in Canada, find places in the November number of "Rod and Gun and Motor Sports in Canada" published by W. J. Taylor, at Woodstock, Ont. The opening paper describes a trip to Abitibi, the fine northern lake, one of the shores of which he is to traverse by the Grand Trunk Pacific. A study of the American Golden-Eye, by Mr. Bonnycaste, whose paper on Scientific Deer Hunting in the October number created great interest among hunters on both sides of the line, follows it up with another one on "Some Common Mistakes of the Deer Hunter"—a paper which will serve to maintain the interest. The first one created. How very wide is the interest felt in the subject of game protection is shown by a paper summarizing the legislative attempts and achievements throughout Canada and the States during the sessions of 1906. The story in the Provinces of Nova Scotia and New Brunswick on this subject is also dealt with in two well informed papers. The illustrations in this number are particularly fine, and include a series of western views of great interest to Alpine Club members. There are many other papers, and the whole number sustains in every page the high character which distinguishes the magazine.

TORONTO, Oct. 29.—James Pickett, K. C., counsel for the curator and advisory board of the Ontario Bank, says: "There is at least 25 cents on the dollar for the shareholders. It is possible there is at the present time 50 cents on the dollar in assets. This may be appreciated by the yield of bank paper and overdue accounts."

NEWFOUNDLAND WAS CONSULTED, SAYS CHURCHILL

LONDON, Oct. 29.—Answering a question in the house of commons today, Winston Spencer Churchill, who presided over the colonial office, gave precise details of the steps taken to fully inform the government of Newfoundland of the course of the negotiations of the modus vivendi on the fisheries question. He said: "The decision of His Majesty's government that a modus vivendi was needed and their intention to make proposals to the United States government for such arrangement was communicated to the colonial government telegraphically some days before the United States was informed. In the same telegram Newfoundland was asked to give her views of what form the modus vivendi should take, and no proposals were actually made to the United States government until the reply of Newfoundland was received. Throughout Newfoundland was kept fully and promptly advised by telegraph."

NEWFOUNDLAND WAS CONSULTED, SAYS CHURCHILL

LONDON, Oct. 29.—Answering a question in the house of commons today, Winston Spencer Churchill, who presided over the colonial office, gave precise details of the steps taken to fully inform the government of Newfoundland of the course of the negotiations of the modus vivendi on the fisheries question. He said: "The decision of His Majesty's government that a modus vivendi was needed and their intention to make proposals to the United States government for such arrangement was communicated to the colonial government telegraphically some days before the United States was informed. In the same telegram Newfoundland was asked to give her views of what form the modus vivendi should take, and no proposals were actually made to the United States government until the reply of Newfoundland was received. Throughout Newfoundland was kept fully and promptly advised by telegraph."

JAPANESE AND HINDOOS.
A parallel may be found between the anti-Hindoo agitation in British Columbia, and the treatment accorded Japanese in California and other western states.

It is all very well to talk about the ties of empire, and the brotherly feeling which is felt between all who are subjects of the same king, but when some of those brothers threaten to knock twenty cents off the day's pay, imperialism is often forgotten by those who are the losers.

AN EASY JOB.
Rosetti, the poet-painter, was once visited by an Indian prince, who said to him: "I wish to give you a commission to paint a portrait of my father."

ON THE ROAD.
It was a few days after the examination. The French class had just received their papers, and found them corrected with the usual method of H for honor, C for creditable, P for passed, and so on.

LIFE AT SHILOH.

(Continued from page 1.) farms get a little money and have some extras, but generally all live the same. All except the ministers. They have some savings. I have seen Willard Gleason's little children eat at his table and look longingly at the good food of their parents, and even ask for some; but they have had to eat sour mush. Babies have milk, generally enough to nourish them, but not enough to fatten them. It was just bolted with salt and was so hard we could hardly chew it. For a while we had it almost every day.

"We very seldom had white bread. One time for five or six weeks we did not have any at all. At Thanksgiving or Christmas one time we had white biscuits as a special treat.

"When vegetable time came around we had them. Last year the potatoes lasted till about February, but nothing but potatoes most of the winter. When the land neighbors offered to let them have the windfalls or set a basket out for them, they were not allowed to have them for fear there would be some of them. I have known families to be removed from certain farms because they would eat nothing but the windfalls.

"My little baby had milk regularly. This was not like other children. But they were going to cut down on the quantity. Fred Small left a while ago because they would not let his baby have as much as he thought it needed. And the milk was very bad condition, really starving at times. The Humane Society found it and sent some of them to the city. They would arrest him if he stayed at Shiloh only a short time. He came to Elm to Boston, and hid. He had his mail sent from Mr. Fenderson, the man in charge of Elm.

"And the horses too are starving. It almost makes me cry to see their poor bones sticking out. More than once I saw some of the cows falling down in their tracks at work.

"The children have lunches when there is enough. Sometimes they don't have any. Sometimes my little Frank, when he comes to me, says, 'Mamma, could I have some of my breakfast for a lunch?' Often dinner would not be served till 9 or 10 at night and the children would have to sit up for it, or go to bed without it. Women and girls would work on the wash from 3 or 4 o'clock till late at night. They would get lunches. The teamsters could have a lunch.

"This time again we would go to bed and Frank would turn over and hold his sides and say: 'Oh, mamma, I wish I could have some bread. I wish you would give me some.' 'Yes, I wish you could.'"

"When asked about the physical condition of the people at Shiloh, Mrs. Calliat said: 'They are in a very bad condition physically. Dr. Miller, Sanford, that she was shocked and alarmed at the condition of the people's bodies, and she thought she ought to tell him. He wrote back that they must get into the superintendant's office and have their bodies examined. If they had more of God they would not be like that; their bodies would be all right. I heard both letters read in chapel.

"It is not uncommon for girls to be too weak from hunger to walk down the stairs to their meals. I have heard Mrs. Rice say, when she had charge of the kitchen, it made her heart ache to see a young woman coming to her to carry up to her who were too weak to walk down. This was against the rules. There are about 150 children there now, but there have been many more. Five have been born in one month lately; but most of those born now are sickly and pining, that is, those whose mothers have been on the regular fare. Mrs. William Miller's baby faints if it falls down. Mr. Sanford has said that God has promised him one thousand babies in 'The Kingdom,' but if he does not feed their mothers better they will not strengthen the kingdom much.

"The health of the girls is specially appalling. I should say 15 out of 20 of the girls are never in a normal physical condition. And this is all apart from whether they were strong when they came or not. Their manner of life does it. Everything is irregular in Shiloh. They are on such a hard on young women. Then the way they treat themselves; no woman breaks down. There is no regular diet. All that take cold baths in the morning. Now some of these girls are so afraid of breaking a rule they do this without reference to their condition. And in winter, when they would find their water frozen, they would take cold baths with lumps of ice. Physicians know what this leads to."

Mrs. Calliat says that food is not the only thing scarce at Shiloh, she said: "There are almost no lights at Shiloh. Half are in the dark. No lamps to tend sick children in the night. No light to do our sewing by evenings, mending for the children—on daytimes we had so much other work to do, and needless to attend, that we had little time to sew."

"Then the heat: There is little at Shiloh. Most of the time there is nothing to do after meetings are over or the general work is done, but to go to bed to keep warm. And a few know what cold is sometimes there. The 'Extension' has been steam-heated but very little the last four winters. It is so cold at times that we have to take the children's hands and run with them, and then hurry them to bed in the daytime. Frank's feet froze once when he was a baby, and pieces of them came out. Why, I have known of a girl taking a hot water bag to bed, and finding her feet frozen to it in the morning. It had leaked, and she was so tired she did not wake. I think it was Melbert McKenzie, but am not sure.

"And the wood they do use is generally green wet wood, generally just cut down. I heard of water dropping from such a fire and freezing under the stove, it made so little heat. These are some, but not all of the hardships."

"I do not think it is any greater sin to justify it before your God. 'I do not think it is any greater sin to justify it before your God, to drink water to drink water. It is a question of the abuse of the beverage.'"

NO SIN TO DRINK SAYS ROCKEFELLER

Leader of Sunday School Class in His Address Also Defends Women Who Sin. NEW YORK, Oct. 29.—"Easily the best address that John D. Rockefeller, Jr., ever delivered," was the unanimous verdict of the members of the Young Men's Bible Class yesterday morning in the Fifth Avenue Baptist Church after their leader's exposition of the 10th of Saul.

"We are influenced too much by what the world says," he said, "to be right and just by what we know to be right and just. Take, for instance, the question of purity. The world, in its careless way, says the man may indulge his appetites and his passions and he is received in society and regarded as a respectable man. Who does the same is ostracized. That is an example of the judgment of the world. Shall I also condemn the man of life to such a standard as that?"

"Is it ever right to desert principles for expediency? In business, you know the opportunities which come for making gain by misrepresentation are many, and we say, 'The world counts on it, the other people do it, why not me?' Granted that there comes a temporary gain by that, can you justify it before your God?"

"I do not think it is any greater sin to justify it before your God, to drink water to drink water. It is a question of the abuse of the beverage."

WILTED, ENDS LIFE AT HOME OF GIRL

Rejected Man Drinks Acid on Veranda When Sweetheart Tells Him That All Is Over. STAMFORD, Conn., Oct. 29.—Rejected by Miss Helen Bassett, with whom he was in love, Edward McKee, a twenty-five year old young man, died of his wounds on the veranda of his home at midnight last night.

His dead body was found early this morning by the young woman, who had told him the night before that their relations were at an end. McKee, who had been in the city for some months, had had a quarrel and separated. McKee, who had been in the city for some months, had had a quarrel and separated.

He had spent his miserable weeks and wanted to renew the friendship. McKee was wild, but firm, and told McKee that he must consider their courtship as ended. He pleaded for the privilege of calling on her, but she was unrelenting, and when he threatened to do himself bodily harm she only laughed.

When they separated at her front door he walked away about half a block, and returning, rang the door bell. She saw him through the curtain and she refused to open it. He purchased two ounces of carbolic acid and going back to his sweetie's home drank the entire contents of the bottle with fatal results.

THE GOLD HANGS ON.

BERLIN, Oct. 29.—Emperor William is obliged to remain indoors for the present, following the advice of his physicians, but the assurance comes from the palace that there is no occasion for concern as his majesty is only suffering from a simple cold, resulting from a chill after becoming overheated while out hunting last week.

Thursday night the Ellis Stock Co. will present one of the greatest plays of the day, viz. Zira. It will be of more than ordinary interest, as the action takes place in South Africa during the Boer war and in the last act both the English and Canadian officers are in uniform. Miss Helen Aubrey is very strong in the title role and the two new members of the company will make their first appearance. Special prizes will be given between the acts and a most enjoyable performance is promised. The box office is now open for those desiring seats. Next Monday night the great melodrama of "Knobs of Tennessie" will be presented.

W. H. BELL,

79 Germain St. - St. John. BOY TO RESCUE A GIRL IN CONVENT. Fifteen Years Old, He Starts for Montreal, Where "Miss O'Connor" Laments Her Loneliness.

NEW YORK, Oct. 29.—Mr. and Mrs. Thomas Patterson, of No. 102 West 119th place, are sure their only son, Edward R., fifteen years old and until Friday, office boy for R. G. Dun & Co., is on his way to Montreal, lured by a tale of despair, written last Friday night by a young girl, whom they know only as "Miss O'Connor."

Eddie received the letter a week ago and immediately told his mother of the loneliness and grief of Miss O'Connor, sequestered far from her friends in the Notre Dame Convent in Montreal, and of how she begged him to relieve her utter sadness.

When Eddie failed to go home Friday night the mother said nothing to the father of the letter, hoping her son would appear Saturday. Yesterday Mr. Patterson informed the police of his son's disappearance, and inquiry disclosed the fact that Eddie and another boy had bought tickets for Montreal Friday night. The police of Montreal have been asked to watch for Eddie's appearance at the convent.

THE CIRCULAR STUDY.

The Star's New Series of Short Stories. By Anna Katherine Green.

A NEW EXPERIENCE FOR MR. GRyce.

(Continued.)

Mr. Gryce felt himself at a greater disadvantage in his attempt to solve the mystery of this affair than in any other which he had entered upon in years. First, the victim had been a solitary man, with no household save his man-of-all-work, the mute. Secondly, he had lived in a portion of the city where no neighbors were possible, and he had even lacked, as it now seemed, any very active friends.

For there were yet two points which he desired to settle before he took his own much-needed rest. The first occupied his immediate attention, passing before a chair in the hall on which a small boy sat dozing, he roused him with the remark: "Come, Jake, it's time to look lively. I want you to go with me to the exact place where that lady ran across you today."

"Your mother knows where you are, I sent a message to her last night, she gave me a very good report of you, Jake; says you're an obedient lad and that you never have told her a falsehood."

"She's a good mother," the boy warmly declared. "I'd be her backbone as bad as my father was, if I did not treat her well. Here his hands fell on his cap which he put on his head. "This is the strangest thing yet. It begins to look as if Mr. Adams was daff on electrical contrivances."

"There is a man upstairs whom we may perhaps make hear, but what does this contrivance portend? It has a serious look to me, when you consider that every window in these two rooms has been built up almost under the roof."

"Nothing can cause more pain and more distress than flies. No wonder many flies sufferers say their lives are burdens to them. Ointments and local treatments may relieve but cannot cure. Dr. Leonard's Hem-Roid is guaranteed to cure any case of Piles. If Hem-Roid doesn't cure you, you get your money back. Hem-Roid is a tablet taken internally. It removes the cause. REDMOND DEMANDS IRISH REFORMS NOW

Scores Government for Weak Enforcement of Land Act—Secretary Bryce Making Promises

LONDON, Oct. 29.—John B. Redmond, the Irish leader, moved the adjournment of the House of Commons today in order to call attention to the lack of progress in the matter of re-estimating evicted tenants in Ireland.

JOHN E. REDMOND, M. P.

Mr. Redmond said it was obvious that the government must resort to some system of compulsion. The patience of the Irish people was becoming exhausted, and although the Irish party desired to give opportunity for the greatest degree of fair play pending a declaration of the government's intention regarding Irish self-government, it thought that Chief Secretary for Ireland Bryce ought to grapple with the matter vigorously.

MURDER IN SHELBURNE

Man Found With Bullet Through Head

Was Either Shot From Behind in Cold Blood or Hit by Stray Bullet

LIVERPOOL, N. S., Oct. 29.—A special train from Shelburne tonight brought in the body of a man found beside the track near Granite Village, about 20 miles from here. The man was evidently deliberately murdered or struck by a stray bullet, which entered above the right ear and came out through the left jaw, completely shattering it.

The name of the murdered man is unknown here. His age is about 35. He has light brown hair and a sandy moustache, and is dressed in a blue sack coat, brown overalls and a heavy flannel shirt, with a red checked handkerchief around his neck, and a soft black hat on his head.

TWO AGED WOMEN BURNED TO DEATH

Ontario Home for the Aged Burned Yesterday With Two of Its Inmates

BOWMANVILLE, Oct. 29.—About 4 o'clock this morning a fire was discovered in the Home for the Aged on Seagow street. It was an old frame building, three stories high, and the flames spread so rapidly that two inmates were burned to death before they could be rescued.

Only two men were among the inmates. John Griffith was sent to ring the fire bell, and Wm. Allan, the gardener, ran to alarm the neighbors. Mr. and Mrs. Xavier Bureau were the first on the scene. The house was full of smoke, but Bureau, with great peril to his own life, smashed a window and got in and carried out to his wife Jeanne Heard, an invalid, and Mrs. Jonathan, who recently broke her thigh and was entirely helpless. Bureau helped Marion Johnston out and then could do no more.

Disease Discovered in Garden Street House, Has Had a Good Chance to Spread Itself

A case of smallpox was discovered in a house on Garden street last night. The patient is Miss Mary Guy, who resides with her mother, sister and a relative, Mr. Stevens. The board of health authorities lost no time in having Miss Guy removed to the isolation hospital.

Thomas Burns, secretary of the board, was at the office until the o'clock this morning. He appointed Ernest J. Flewelling as guard, and the latter went on duty late last night. The house in which the case was discovered is a small one, situated near Charles street. Miss Guy had probably been unwittingly infected for some time before it was discovered. Mr. Burns stated that every precaution was being taken to prevent the disease from spreading. The house in that locality will develop the disease. The other members of the family had undoubtedly been walking about town, and in this way the disease could be given to some one else.

The Guy family had been visiting at Purvash, N. S., and only returned from there a few days ago. The board of health authorities have not heard of any cases at Purvash. Secretary Burns stated that he did not fear an epidemic.

The Guy family did not put much faith in vaccination, and refused to have it done.

It was about this date five years ago that the big epidemic broke out, and October is the month that generally brings the disease. During the epidemic several cases were in Garden street houses.

YACHTING PROSPECTS.

Speed Armored For Sale—More Motor Boats and Salmon Craft—Looks Like Speed Next Year, Too.

The yachting season is practically closed. Most of the craft, both power and sail, are out of the water and snugly tucked away for winter, either in the R. K. Y. C. yard, or along the shores at Millidgeville, Strait Shore, Kennecobensis and other places.

The expectation is that next season yachting will take a great boom. There will be more motor boats, and salmon craft because of the irregularity of his visits to these parts. The Armored is a prominent figure in all local yachting circles, and has been a very hospitable craft in the hands of her present owners, and all yachtsmen will wish that she falls into good hands as those who have been handling her for several seasons back.

THE WILLIS CASE WAS CONTINUED TODAY

Plaintiff Denies That He Admitted Personal Negligence to be the Cause of the Accident.

In the circuit court this morning the case of Willis vs. the St. John Iron Works was continued. Chas. McDonald, manager of the defendant company, was examined and Willis, the plaintiff, was also recalled and examined. Mr. McDonald told how the accident had occurred and how the plaintiff was cured for after the accident. He also recounted a conversation which he had with Willis after he had returned to work again. He said the plaintiff had acknowledged to him that it was his own fault that he had been injured. Willis put on the stand acknowledged having had the conversation with Mr. McDonald but denied that he had said he was to blame. The morning was taken up with the arguments of counsel and the case will probably be finished this afternoon.

The argument of J. R. M. Baxter for a new trial of the Clark case will be heard tomorrow morning.

UNION STREET WORK

Union street, W. E. presented a busy appearance this morning. The huge crew of men put to work by the C. P. R. have already made considerable progress and a quantity of man has been taken away from the centre of the side and work at filling up the street will commence shortly.

A number of aldermen and citizens are of the opinion that the street could be rebuilt quicker if some city laborers were put to work. These could work at one side of the side and the C. P. R. men at the other.

The officials who are looking after the work can form no idea when the job will be completed, but the C. P. R. authorities are confident that their tracks will be laid by the time the winter port steamers are arriving.
