THOUSANDS INJURED BY 4TH OF JULY PATRIOTISM

ALL FERRY BOATS OUT OF ACTION Western Extension is Being Worked by Hand.

CHICAGO, July 5.—The Tribune today says thirty-seven men, women and children are dead and 2,433 are maimed, lacerated or burned as a result of yesterday's excess of patriotism in the United States.

Friday is indeed an unlucky day for the St. John ferry boats. The Ludlow, with Pittsburg a close second, while repairs are being made to her, and the Western Extension has been in commission. A break in a joint of pipes in the latter caused an escape of steam this morning and in order to get the boat to the floats, the engineer was obliged to work the old hand rod.

In this manner the ferry reached the floats. Soon after this accident, the Quagandy was put on the route. She had made one trip across the harbor, and was just starting on the second, when one of the cylinders blew out. She was towed to Pettibone's wharf, and St. John was without a ferry service for a few minutes.

THE Fourth regiment artillery is being inspected by Col. Wilson today. The officers speak in the highest terms of the discipline, steadiness, physique and general appearance of the men. The camp will break up tomorrow.

A fair crowd witnessed a loose game of ball on the Shamrock grounds last evening when the St. Joseph's won by a score of 13 to 4. MRS. ELIAS PHILBROOK.

Mrs. Elias Philbrook is dead at Presque Isle, Maine, from injuries received by being thrown from a carriage last Friday evening. Mrs. Philbrook, who had been visiting her parents, Mr. and Mrs. Frank Jean, was driving to her home in Maple Grove. By the roadside the automobile of Thomas Phair had been left. Mrs. Philbrook's horse took fright at the big car and became unmanageable, throwing out all the occupants of the carriage. Mrs. Philbrook was injured so badly that death resulted Saturday morning. The little boy, who was just recovering from a broken arm, was badly hurt.

MANY PERSONS KILLED
IN WISCONSIN STORMS
Lives Lost in a Series of Tragedies in the United States Yesterday.

BAKERSFIELD, Cal., July 4.—The flood in the railroad wheat lands in the lower part of Kern County caused by the breaking of the Buena Vista Lake levee continued to spread today. Coincident with breaking of the levee yesterday were two large fires in the grain fields of Miller and Lux, nearly twenty miles from the lake. Two sections of grain were destroyed aggregating between 15,000 and 20,000 sacks. Supposedly has been aroused from the fact that the fires and the levee break occurred simultaneously. CEDAR RAPIDS, Iowa, July 4.—Two men were killed and five injured today by an explosion of giant powder. The seven men with others were riding to a picnic up the river and had four pounds of the explosive in the boat to be used in celebrating the fourth. The survivors say that one of the four threw a cigarette on the top of the can containing the powder, the explosion following instantly. ST. PAUL, Minn., July 4.—It is now believed at least 17 lives were lost in the storms which swept Western Wisconsin last night. Numerous other persons were injured and much damage to farm property and to dwelling houses was reported. According to reports received here, Oakdale, on the Chicago, Milwaukee and St. Paul R. R., near Camp Douglas, was wiped out. Four persons are said to have been killed there. At Grand Rapids, Wis., there are said to be five dead, but communication has not been established with that place.

BOSTON, Mass., July 4.—The body of Miss Martha L. Howe, aged 32, was found at the bottom of an air-shaft at a Back Bay apartment hotel today. Miss Howe, who rooms alone in a suite on the sixth floor, is believed to have opened her window which communicated with the air shaft, to secure fresh air, and leaned too far out of the window, falling to her death. CLINTON, Mass., July 4.—Gaetano Carluce and Philip Gregorini, Italians, each about 25 years of age, were killed late today by a passenger train on the Boston and Maine R. R. at Shepley Crossing, about one and a half miles west of Clinton station. The men were driving in a carriage, and apparently drove into the train, the carriage striking the carriage and killing them instantly.

ATLANTIC SQUADRON NOT TO STAY ON THE PACIFIC

OYSTER BAY, N. Y., July 4.—Interest was added to an otherwise featureless Fourth of July at Oyster Bay, by the official announcement of the future cruising plans of the Atlantic battleship fleet, issued to correct what appeared to be a persistent erroneous impression that the fleet had been ordered to take up permanent quarters in the Pacific. The statement was issued by Secretary Loeb upon his return from his daily session with President Roosevelt at Sagamore Hill. It completely disclaims that the movement of the fleet is in any way dictated by international forebodings. President Roosevelt saw no official callers today, although he transacted the customary amount of routine business. His celebration of Independence Day took place in the evening, when with his family, relatives and a number of other friends, he watched a pyrotechnic display on Sagamore Hill. Yesterday afternoon Officers Crawford and Marshall were called into Mr. Watson's house in a yard of Brussels street to prevent Watson beating his wife.

THE NEW DEPARTMENTAL BUILDING.

The prospect of achieving honor by being heralded as the architect and builder of the new departmental building at Ottawa has induced thirty architects in different parts of Canada to forward plans. The structure is to cost \$1,000,000 and for designs such as are required for it, the architect's fee would be \$20,000, while for supervising the construction the payment would be five per cent, or \$150,000. The public works department offered prizes aggregating \$15,000 for the best designs and has thus effected a considerable saving, besides being able to make a choice from a large number of plans. The successful architect will undoubtedly be given the task of making working models and looking after the construction, so that the job will be an extremely profitable one for somebody. The new departmental block when completed will add 250,000 superficial feet of floor space to that now available to the government in the existing departmental buildings. It is not to be more than five stories in height above the basement on the park side. The competitors are instructed to confine their efforts at interior arrangements, to dividing the building into large units suitable for subdivision or rearrangement as may be required. The building will be about a thousand feet in length. In addition to designing the buildings the competitors were required to furnish the design of a foot bridge of monumental design to span the deep and wide gap between the new building and Parliament Hill at the bottom of which are the locks of the Rideau Canal.

TAKE A HOLIDAY.

Take a day off. Tomorrow will be the first general half holiday of the season, and every man, woman and child who can arrange to go out of town should do so. Stay away until Monday morning if you can, and have a good time. Never mind about going to church. The churches will keep, but the summer does not last forever. It is no sin to spend Sunday in the country, where the grass is green and the air is fresh and pure. The Lord never intended that people should be cooped up within stone walls, compelled to sweeter on asphalt pavements and endure without relief all the discomforts of city life. He ordered a day of rest, and this command cannot be better carried out than by spending the day in the country. This does not mean seeking entertainment or amusement of any kind, for that is contrary to the Divine will. But such enjoyment as may be obtained from perfect rest is good for all, and relaxation from the varied duties of the week can best be found by a breathing spell away from the city. We are living too fast in this age, burning the candle at both ends, and sometimes in the middle, in the foolish endeavor to keep ahead of each other. Man was meant to be an open air animal, but he prefers confinement in sultry, smoky towns in order that he may enjoy what is called prosperity. We are always in a hurry and devote little time to occupations other than those which bring in the daily bread. But to every man should come one day out of the seven on which he can go away and forget it all, throw off the burdens and worries of bustling twentieth century life, get near to nature and enjoy solid comfort and absolute rest. Go out of town, go anywhere, and do nothing, for the weekly holiday was established two thousand years ago by One Who said: "Come ye yourselves apart into a desert place and rest awhile."

POLITICS AND CIVIL SERVICE.

Representatives of the Canadian civil service recently presented a memorial to the civil service commission asking a general increase of pay. The grounds set forth were not out of the ordinary, the request being based on the high cost of living which it is contended has advanced over thirty per cent. in the past ten years. But the interesting part of the interview was a conversation which took place between the commissioners and delegates, and which may be regarded as foreshadowing the report which the former will make to the government. The delegates were asked to express an opinion as to the desirability of eliminating political influences in connection with appointments and promotions. They preferred not to take any decided stand on this, and declined to place themselves on record when their ideas were sought by other queries along the same line. The method of questioning indicated that the commissioners will deal in no uncertain manner with this subject, in their report. The delegates did, however, claim that promotions should be made, not upon the standing of candi-

dates in examinations, but solely upon the recommendation of the deputy minister.

DUMPING MUD IN THE CHANNEL.

Editor The Star:—Will you or some of your readers tell me whether the concerns that do the dredging in your harbor have a "stand-in" with the firm that dumps the muck? I have watched with interest four different scows filled taken out of the harbor and dumped in the channel on the west side of Partridge Island and the question has arisen in my mind whether when the time comes to dredge that channel again if they will take and dump the dredgings back in the harbor so that it will be a source of perpetual income to them? The conditions may be bad in the United States but in a small way you have us "skinned a mile."

ALWAYS THE POLITENESS.

(Harper's Weekly.) A Germantown woman was not long ago watching a workman as he put up new window fixtures in her house. "Don't you think that you have placed those fixtures too high?" asked she, having reference to the curtain rolls last put in place. The workman, a solid German, made no reply, but continued to adjust the fixtures. "Didn't you hear my question?" demanded the lady of the house. "How dare you be so rude?" Whereupon the German gulped convulsively, and then replied in the gentlest of voices: "I haf my mouth full of screws, and I could not speak till I swallow some!"

FIFTY HEARS HENCE.

(Toronto Star.) On this North American continent there are being worked out two systems of democratic government and free institutions, both owing their origin to the great mother of free nations. There are differences in forms of government, but though the means differ, the end sought is the same. For two such bodies of co-workers to quarrel would be a calamity, a blow to civilization and freedom, while the world stand to gain by their friendly and generous rivalry in the arts of peace. The present century will possibly see two hundred millions of people in the United States, and fifty millions in Canada, and if they can maintain their friendly relations, more will be done for the cause of peace than could be accomplished by fifty conferences at The Hague. The form of the union by which the British Empire is maintained counts for little so long as the Empire stands for the steady growth of free institutions, and

keeps on terms of friendship with all these nations that cherish the same ideals.

HAMILTON, July 4.—J. W. Castell was preparing to go for a sail in his gasoline launch last evening when an explosion occurred. His clothing caught fire and he was burned about the neck, face and chest. Boat house, launch and contents and another boat house were destroyed. Flames spread to the steamer Acadia, and before they were extinguished \$1,500 damage was done to the vessel.

ST. THOMAS, Ont., July 4.—Norman Lindop of this city answered an advertisement of a Buffalo firm offering for sale ready made cottages. He sent \$25 to the firm, but repeated queries brought no answer. Finally Lindop went to Buffalo and securing legal aid, proceeded to the address, but the proprietor could not produce the cottage and was forced to disgorge the \$25. Three stenographers were at work in the office and stacks of mail were in evidence. The business is well advertised in Canadian papers.

NEW SECURITIES THIS YEAR WILL BREAK ALL RECORDS

The Total Authorized to be Issued Now Amounts to \$1,278,728,500.

NEW YORK, July 5.—The amount of new securities created in the United States for the first half of 1907, has never been paralleled. The grand total authorized, is \$1,278,728,500. The railroads have applied in six months for \$278,466,600, exclusive of \$232,000,000 announced by the Hill roads and St. Paul last December. Industrial needs have been less pressing, yet not so light as the total of \$299,281,000 would indicate. The most prominent features of 1907 financing to date has been the unprecedented heavy offering for short notes paying very generous returns to investors. Altogether \$93,631,000 of this form of security has been put out.

SOCIALIST ELECTED TO BRITISH COMMONS

JARROW, Eng., July 5.—Peter Curran, a socialist and trades union official, was elected yesterday to represent Jarrow in the House of Commons, in succession to the late Sir Charles Palmer, the shipbuilder, who had represented this constituency since 1885. Mr. Curran had a majority of 768 over Patrick R. Innes, Unionist, a lawyer and tariff reformer, his closest competitor.

THE HAYWOOD TRIAL

BOISE, Idaho, July 5.—The Haywood trial will proceed today when the defense expects to clear up most of its remaining witnesses. Wm. D. Haywood or Chas. H. Meyer will be called to the stand Saturday, if present plans carry, and the climax of the defense will then be reached. It is probable that Haywood will be the last upon the stand and his examination and cross examination should run well into the middle or latter part of next week.

KUROKI ENTERTAINS THE U. S. AMBASSADOR

Nice Things Were Said at the Dinner and No Mention Was Made of Any Troubles.

TOKYO, July 5.—General Baron Kuroki, the Japanese Imperial Envoy to the Jamestown Exposition, gave a luncheon today in honor of Luke E. Wright, the United States Ambassador. Field Marshal Oyama, representing the army, expressed himself in the most appreciative terms of the magnificent and enthusiastic reception accorded General Kuroki and his party everywhere in the United States. His phraseology was one long chain of superlatives of gratifying appreciation in which the Japanese language is particularly rich. Ambassador Wright made an appropriate response and the most cordial feeling prevailed. The anti-Japanese, or what is here known as the American question, was completely ignored.

HAWAIIAN LEPEHS' COLONY OCCUPIES ONE OF THE MOST BEAUTIFUL SPOTS ON EARTH

No One Wants to go to it, But Once There for a Time No One Wants to Leave—People are Comfortable and Have No Worries About the Future.

HONOLULU, H. I., July 4.—On a little promontory that juts out like a shelf from the mountain mass, that here rises almost sheer 4000 feet above the ocean forming the northern coast of the island of Molokai, is one of the strangest and most interesting communities in the world—the leper settlement of the Hawaiian Islands.

Contrary to widespread belief, the settlement does not occupy the whole of the island, but only an insignificant portion of it. The promontory is roughly triangular in shape, extending along the coast for about five or six miles, and out toward the sea for a mile and a half, while the precipice which shuts it out from the remainder of the island towers almost a mile above it.

On this little ledge live a thousand people under sentence of death, victims of the oldest known disease in the world, and the most relentless, from which death follows but death or milder relief is rare. Yet few communities are as free from care. In few is there such buoyancy of spirits, manifesting itself in athletic sports, pastimes, in social and festive diversions, in the collective duties of church and benevolent organizations, in public and political discussion, in the ardor of ambition to secure recognition for leadership in the community, or the honors or emoluments of office.

STRANGE CONTRASTS. The leper settlement on Molokai is full of contradictions. People die there of everything but leprosy. It is a place to which no one wants to go but which no one will leave. It is the only part of the Hawaiian Islands where people free from the disease do not contract it. Though less productive industry is carried on there than anywhere else in the group, its people are better supplied with money on the average than Hawaiians anywhere else, and, allowing for the difference in requirement between non-supporting and self-supporting communities, there is said to be more money in circulation there than anywhere else in the world.

There have never been but three superintendents of the settlement since it was inaugurated. One died after many years in the service. His successor was removed because of dissatisfaction with his administration, and the third is still in service, and willing to continue. One man was physician at the settlement for over thirty years, and the last days of his life were devoted to securing the removal of his successor. The settlement has been there for twenty-two years. The parish priest at Kalaupapa, one of the two villages at the settlement, was recalled by his bishop after fourteen years' service, and it nearly broke his heart. Some of the most difficult and delicate details of administration the board of health has had to deal with have been to secure the removal of "kokonas," as they are called—well persons who go to the settlement to care for leper relatives after they die, for whom they want to care themselves.

SEGREGATION RESENTED. Among the Hawaiian people the execution of the segregation law has always been a blow to the race pride because it bore on them so much harder than on any other people of the islands. With relatively few exceptions the lepers at the Molokai settlement are Hawaiians, and when it is remembered that for years about one in forty of those of Hawaiian blood have become lepers, it can be understood why Hawaiians feel that the segregation law is particularly aimed at them, and how there should be a race resentment making itself felt at times. At many junctures in the forty-odd years the act has been on the statute book there has been imminent danger that the law would be repealed. That it has not been so has been due on more than one occasion to the controlling good sense of leaders among the Hawaiians themselves rather than to the tact or good sense of the board of health, which, being charged with the administration of the law, and as a rule being composed almost entirely of white men, has often seemed to the Hawaiians a body inimical to their race and using the segregation law as it means. And yet there has never been a period during the existence of the Molokai settlement when those there could have been induced to leave if they could not come back to it or when there were not more applicants to the board from well persons for permission to go to the settlement as "kokonas" than could be granted.

IS A BEAUTIFUL SPOT. Such was the original site of the Molokai leper settlement. Sublimely picturesque in its aspects and surroundings, Dr. Walter Brinkershoff, who chose the site at Kalaupapa for the United States leprosy investigation station, says that it is so characteristic and wide he is convinced that this is the most picturesque spot in the world. The climate is as salubrious as can well be imagined. The heat of the latitude is constantly tempered by the north-east trade winds that blow over 3,000 miles of ocean. The soil is fertile. Water for all purposes, including irrigation, has been piped to all parts of the promontory from one of the little valleys that cut into the face of the mountains. Nature covers this living channel house with flowers.

MANUFACTURE OF ARMS ABANDONED

Why Canada Will Not Establish an Ordnance Factory for the Present.

OTTAWA, Ont., July 4.—The proposal which was made to the government some time ago, for the establishment in Ottawa of an ordnance factory to supply munitions of war for the Canadian militia has, it is understood, been abandoned for the present.

The idea was, it may be remembered, that a syndicate should be formed, composed of Ottawans and some English experts, including representatives of the Coventry small arms works, near Birmingham, on condition that the government should guarantee a sufficient quantity of orders to warrant the investment of the large amount of capital involved. Negotiations have been continued for some months, but the opinion has finally reached that it would not be advisable to enter upon so large an undertaking at present.

TELEGRAPHIC NEWS. TORONTO, July 4.—Herman Bartle, a millionaire brewer who has been in custody here awaiting the result of his extradition trial, escaped from Osgoode Hall this morning. The constable was too trusting and while he left his charge for a few moments, Bartle took advantage of the opportunity and escaped.

NEWS FROM HUDSON BAY. The Winter Mail Just Received From the Mounted Police Outposts. OTTAWA, Ont., July 4.—The Mounted Police Department has just received a mail from each of the police posts on the shores of Hudson Bay. One is from Fullerton, dated January last, and the other from Maj. Moodie, who wintered at Churchill, Manitoba, in February. At both of these outposts of civilization the men had passed uneventful winter experiences. There were no deaths, no sickness, and no suffering.

A REMARKABLE BUILDING. A certain young society man was much given to telling exaggerated tales of his own adventures. He had a reputation for untruthfulness which worried his friends and particularly his chum, who remonstrated with him and threatened to drown him if he did not mend his ways.

HEALIFAX, N.S., July 4.—The French steam trawler Copela, was wrecked at Woody Point, near Baillie, Cape Breton this morning at four o'clock in a fog. She will likely prove a total wreck.

EUROPE'S THAW CASE SENSATION

Trial of Waddington for Shooting Balmaceda Leads to Riot in Court.

BRUSSELS, July 4.—Brussels has had a day of seething emotionalism over the trial of young Carlos Waddington for killing the Chilean diplomat, Ernesto Balmaceda, because he had wronged Waddington's sister, Adelaide, the "woman of flame."

From the opening of the court to its exciting and hurried close, there were riotous scenes over the determination of Maitre Bonnevie, counsel for the Balmaceda family, to assault Mlle. Waddington.

Imprecations were hurled from counsel to counsel, and as a climax the lawyers for the defence and the prosecution leaped at each other.

When Maitre Bonnevie shouted, "Balmaceda's murder was planned in cold blood by the whole Waddington family!" the prisoner written in his chair, BONNEVIE'S FIERCE ATTACK.

After the emotional audience's denunciation of Maitre Bonnevie's reading of Mlle. Waddington's passionate letters to Balmaceda, it was expected that the counsel for the Balmaceda family would cease their harrowing recital, but the public was amazed to find Mlle. Waddington continuing the same line by his contemptuous recital of the girl's shame.

"Balmaceda," Bonnevie explained, "refused to marry Mlle. Waddington because she had another lover. She should have told Balmaceda that, but she did not. When Balmaceda discovered her infamy she consented to break off the engagement on condition that Balmaceda should marry her, confessing to her relations to him."

THE DYSPYPTIC'S PRISON FARE. The man or woman who is forced to subsist upon practically bread and butter—or something equally as unwholesome—can feast upon all the good things in season by using Herber's Dyspepsia Cure, which assists the stomach in that it acts directly upon the food.

STRAWBERRY ACIDS AFFECT TEMPER People Sulky and Irritable After Eating Them—Large Ones are the Worst.

LONDON, July 4.—Hygienists who delight in raising alarms against popular foods, are now tilting against strawberries. These are accused of having a bad effect upon the tempers of their eaters, who, it is alleged, become sulky and irritable after eating them.

NEWPORT, R. I., July 4.—Asa Bird Gardner of New York presided at the annual meeting of the Society of the Canadian in Rhode Island and the Providence plantations, which was held in the old State House. Asa Bird Gardner was elected president.

Fire was discovered this morning at 11 o'clock in the cellar below T. Morrow's book store on Garden street. The apparatus from No. 4 company responded to the alarm and the blaze was extinguished before much damage was done.

Joseph Green, superintendent of the fire alarm system, has completed re-wiring and giving the West End system a thorough overhauling. This morning some linemen while working about the city poles allowed a wire to cross the fire alarm and caused the bells to sound one blow. This is the first alarm, other than the regular seven, one and six o'clock blows since the 14th of June and the fire department is having a rest.

THE SMITHS STILL LEAD IN THE DIRECTORY LIST

Browns Hold Second Place but the Jones Family is Losing its Position.

The McAlpine directory for 1907 is not what would be called an absorbing story, but there are a number of interesting facts to be found in its pages. One is that the Smith family maintain their lead over all other residents of St. John in point of numbers; another that the Browns, as expected, are a good second, but are disappointed in the fact that the Joneses, who should hold second place, are away down to 16th in the list. The following gives the numbers of names of each of the more numerous families as set forth in the directory. There are several changes from last year, but the positions of the leaders remain about the same:—

ST. JOHN COLONEL MAY COMMAND THE K.P. BRIGADE

All-Canadian Contingent to Boston Next Summer

General Stobhart Says Chief Officer Will be Selected Upon Seniority—St. John in Line for this Distinction.

Major General Stobhart, the visiting British commandant, is in town today for Moncton, where he will inspect the Uniformed Company there. He will direct some official remarks about the Boston Supreme Encampment in August 1908.

Aside from his remarks at the banquet in Seasmell's last night, and at the reception in Castle Hall, the General gave out some official remarks about the Boston Supreme Encampment in August 1908.

He said the Lower Provinces would at least send a regiment, in which St. John, St. Stephen, Milltown, Moncton, Charlottetown, Sydney, Fredericton and other places would figure. It was the General's hope, however, that this regiment would be increased to a brigade of thirteen companies before that time. To reconstitute the Woodstock Company, establish a new one in St. John, and one in Halifax would make three of the five new companies necessary to attain this brigade status.

British Columbia is going to send a regiment of Uniformed Knights to the Boston gathering, and there will be a company from Winnipeg and the Ontario district as well. These Canadian contingents are assured, others will decide upon their plans later.

General Stobhart says if Lower Canada's representation fails to come up to brigade strength all the Canadian companies may be massed in the grand parade under the senior Canadian Colonel. As St. John has the honor to be the first city under the British flag to institute a Uniformed Company of St. J. P. K. he is now preparing to make any special arrangements possible for the Lower Canadians. When asked if the men of the bluenose regiment might meet together, he said such arrangement could be made. In fact he would make it a personal matter to ensure the most cordial conference and pleasure of the Sir Knights from this part of the Supreme domain, which branch of the order stands as high in the estimation of the headquarters executive.

As a detail of the Boston trip the visiting commandant could not give much very explicit information as yet. However, he promised to make any special arrangements possible for the Lower Canadians.
