BIG CAPITAL FOR READY BREWERIES; STOCK ISSUE SOON

Reorganized Company will have Capital Stock of \$750,000—Will Take Over Existing Business.

As a result of the reorganization of the Ready Breweries Company, and the taking in of additional capital, it is said that a vigorous campaign for the extension of its business will be inaugurated. The new company will have an authorized capital of \$750,000, and it will make an issue at the present time of \$250,000 worth of bonds bearing 6 per cent. interest, \$115,000 of cumulative 7 per cent. preferred stock, and \$185,000 of common stock. It is understood that a public issue of preferred and common shares will shortly be made, on the basis of par for the preferred, with a bonus of 50 per cent. of common stock.

James Ready has consented to remain in the business in the interests of the shareholders of the company, and will be president and general manager of the new company. Besides Mr. Ready, the board of directors will include J. M. Robinson, of J. M. Robinson & Sons, bankers and brokers, of St. John and Montreal, and Joseph L. O'Brien, who has been for years connected with the business. Mr. O'Brien will be the secretary of the new company.

Takes Over Plant and Business.

The Ready Breweries, Ltd., has taken over the entire plant and interests of the old Ready Company, making its total assets \$441,035.53. If the preferred stock issue of \$115,000 is deducted there remains a balance of \$326,035.53, representing an equity on the common stock issue of \$68.00 per share.

The company's plant has a capacity of 50,000 barrels per year. At present its output is 15,000 barrels per year, and the net profit is about \$2.50 per barrel. With more capital in the enterprise a large increase in business is confidently anticipated. The mineral water department has grown rapidly, and arrangements are being made for putting travellers on the road and increasing the sales of the water, as well as of the beers.

The company now employs about 30 hands, and expects to increase the number of its staff in a short time.

Mrs. Phoebe McMillan.

The death of Mrs. Phoebe McMillan occurred at the home her son Robert McMillan, in Fairville, at half past ten Saturday morning. The deceased was 81 years of age and was a woman of high character and a prominent member of the Carleton Baptist church. She is survived by four sons, Robert and St. Clair at home and Gideon and Oscar of Boston. Mrs. Samuel Mayes of Carleton is a sister and Gideon Hanson of Los Angeles is a brother.

FIRST HERO OF THE BALKAN WAR

An authentic story from an eyewitness of a recent engagement between the Montenegrins and the Turks reads like the famous tale of Arnold Winkelried, who lived and died over five centuries ago. A small band of Montenegrins were crossing the border into European Turkey when the killing fire from a Turkish blockhouse near Berrano stopped them.

Either the Montenegrins must turn back, defeated, or they must drive the Turks from the blockhouse. To try to take the blockhouse by assault meant sure death for the attacking soldiers, and yet no other way seemed possible, until— A young Montenegrin warrior darted from the firing line and rushed straight for the blockhouse. It seemed to mean certain death. As he came into the open, with easy rifle range, he was greeted by volley after volley from the Turks' guns. He was hit, but staggered on until he reached the blockhouse, and pressed close to the wall, so as to be out of reach of the rifles thrust through the loopholes. Then the young Black Mountain hero tore off his shirt and held it up against the blazing torch of his gunstock, to the thatched roof.

In a moment the dry roof was on fire. Part of the roof, falling in, set off a quantity of powder the Turks had stored, and some of the Turks perished in the ruins; the rest were forced to surrender. It took unadorned heroism to fire that blockhouse, but it is merely a sample of the courage displayed by the Montenegrins during all their centuries of war against the Turks. It is the kind of daring that "made way for liberty" July 9, 1856, when a few hundred miles northwest of Berrano, a small band of Swiss patriots faced the solid phalanx of an Austrian tyrant.

Then, as James Montgomery years afterwards wrote: So still, so dense, the Austrians stood. A living wall, a human wood; Impregnable their front appears, All-horror that period during which Victoria reigned over Great Britain and the colonies; not only was this progress remarkable in a material standpoint, but in the arts and sciences and in the realms of literature the age was remarkable, producing such a galaxy of literary lights as Tennyson, Longfellow, Moore, Newman, Faber, Manning, Wiseman and others, all of whom have become immortalized through their writings. Mr. Slattery then took up in detail the life and works of Tennyson and Longfellow. The case will come up in the Fairville court house this evening at eight o'clock.

TWO INQUESTS TONIGHT AND ONE ON WEDNESDAY

The inquest into the death of Harry McKenzie, who died the result of injuries received while at work on the Courtenay Bay works last week, will be held in the Court House this evening by Coroner D. E. Berryman. The enquiry will commence at seven o'clock.

The enquiry into the death of Peter Gleason, who was found dead in Oliver Mallard's house, Milford, last Monday, will be concluded by Coroner Quinton in the Fairville Court House this evening.

The inquest into the death of John Nagle, who died as result of injuries received while working for the John S. Metcalf Co., Ltd., at Sand Point, will be resumed on Wednesday evening next in the Court House.

Stomach Always Baulked, Had Constant Indigestion

Smell of Cooking Made Him Sick—Bilious Two Days a Week. Cured by Hamilton's Pills.

Mr. Clemmons' experience is not unusual. Nowadays poor stomachs are more the rule than the exception. But the proper treatment is sure to make a quick cure. You can always depend on Dr. Hamilton's Pills, they reach the trouble at once, go right to business, work while you sleep and have you feeling better if not cured next morning.

"My food seemed to decompose in my stomach," writes Mr. Ralph Clemmons of Newbridge, P.O. "I had a stomach that failed in some way to become a stomach. Digestion seemed more or less arrested and I grew thin, yellow, nervous. The stomach became distended and impeded apparently the action of the heart, for often at night it would do great stunts. At times I would vomit a mucous mass, and at these times my head ached most terribly. A friend who had been cured of a similar condition, advised me to take Dr. Hamilton's Pills regularly, which I did. The result in my case was simply marvelous. Dr. Hamilton's Pills removed the cause, strengthened the stomach, excited the liver to normal action, the kidneys were released of excessive work. Health soon grew within me. I can now eat, sleep and live like a live man."

Be advised—use Dr. Hamilton's Pills—they are sure to do you good. 50c. per box, five for \$1.00, at all drug stores and grocers, or by mail from The Cataracton Co., Buffalo, N. Y., and Kingston, Canada.

St. Peter's Y. M. A. Lecture.

Before the members of the Y. M. A. of St. Peter's, J. Louis Slattery delivered a lecture on "Literary Lights of the Victorian Era." In outlining his subject the lecturer drew attention to the development and progress which marked that period during which Victoria reigned over Great Britain and the colonies; not only was this progress remarkable in a material standpoint, but in the arts and sciences and in the realms of literature the age was remarkable, producing such a galaxy of literary lights as Tennyson, Longfellow, Moore, Newman, Faber, Manning, Wiseman and others, all of whom have become immortalized through their writings. Mr. Slattery then took up in detail the life and works of Tennyson and Longfellow. The case will come up in the Fairville court house this evening at eight o'clock.

Don't Admit Light-Decayed Beer Into Your House

You must drink beer not only made pure, but kept pure.

Purity exceeds all other costs in our brewery. We even filter the air in which Schlitz is cooled. We scald every tub, keg and barrel, every pipe and pump, every time we use it.

Then, instead of putting pure beer in light glass bottles we use Brown Bottles.

Light starts decay even in pure beer. Dark glass gives the best protection against light. The Brown Bottle protects Schlitz purity from the brewery to your glass.

We began in a hut, sixty years ago. Today our agencies dot the earth. Our output exceeds a million barrels a year. More and more people each year are drinking Schlitz.

Why don't you, too, drink only pure beer—Schlitz in Brown Bottles.

See that crown or cork is branded "Schlitz." Telephone No. 625 John O'Regan 17 to 19 Mill Street St. John, N. B.

ST. JOHN, N. B., MONDAY, NOVEMBER 25, 1912.

THE FISHERIES ADVISORY BOARD.

An important step with a view to encourage the development of the fisheries of the Dominion has been taken by Mr. Hazen in the decision recently announced to establish a Fisheries Advisory Board. It is understood that one of the chief reasons which led to this decision was the desire of the Minister that more rapid progress should be made in the fishing industry, especially on the Atlantic coast. Apart from fish breeding operations the work of the fisheries branch has been confined for the most part to providing and enforcing protection regulations to encourage and stimulate the development of the fisheries on progressive lines. During the past year Mr. Hazen as the Minister in charge of the fisheries, carefully investigated the situation, reports from responsible officers of the department were received and various methods of improvement were suggested. It is understood that the chief difficulty was found in the fact that the department was not sufficiently in touch with those engaged in the different branches of the fisheries and in the sale of fish. To overcome this difficulty Mr. Hazen is establishing the Advisory Board, made up of certain officials of the department and of persons representing those engaged in the fishing industry in the different parts of the Dominion.

It is announced that there will be thirteen members on the Fisheries Board in addition to the officials of the department; this number, it is understood, being necessary to efficiently represent the diversified interests of the fisheries. The interests of the producers or fishermen, and also the interests of the canners, or curers, and fish merchants will be represented. Nova Scotia, by reason of the conditions being more diversified than in the other Maritime Provinces, will have three representatives on the board. New Brunswick will have two members, one representing the weir fisheries on the Bay of Fundy, and the other the fisheries on the North Shore, which are largely in a different class. One member will represent the interests of Prince Edward Island. The Gulf portion of Quebec will also be represented by one member; the inland portion of Quebec and also the fisheries of Ontario, being administered by the Provinces themselves, do not require representation on the board. One representative will be provided for each of the three Prairie Provinces and three representatives will be given to British Columbia where the conditions, like those in Nova Scotia, are more diversified.

It is understood that there are several important reasons for the decision to give Nova Scotia and British Columbia three members upon the board. In Nova Scotia the fisheries are of greater value than in the other Maritime Provinces and in addition to its inshore boat fishery the Province has a large fleet of banking vessels, another the inshore fisheries and a third the fish merchants and canners. Representation is given to the fish merchants in Nova Scotia because Halifax is largely the distributing point for cured fish for the Maritime Provinces. In the other Provinces those interested in the catching of fish in a general way are also engaged in the sale of fish. Members from these Provinces will, therefore, be in a position to represent those engaging in the sale as well as the fishermen.

In British Columbia there is a large salmon fishery and an important salmon canning industry. The deep sea fishery is also very extensive. The three members on the fisheries board from this Province, it is understood will represent the canners, the salmon fishermen, and the deep sea fishermen.

The Fisheries Department will be represented on the board by the Deputy Minister, who will be ex-officio chairman, by the superintendent of fisheries, the assistant to the superintendent, the expert in the curing and handling of fish and the commissioner of fisheries. It is understood that the best means of developing the trade and kindred matters will be considered by the board as a whole, meeting once a year. For the purpose of dealing with the fisheries in the different parts of Canada the board will be divided into three committees—one for the Atlantic Provinces, one for the Prairie Provinces and one for British Columbia. The committees will meet semi-annually, before the opening of the fishing seasons and following the close. The committees will not meet simultaneously. This provision is necessary in order that the officials of the department may attend. It is understood that the Atlantic committee will meet at Ottawa on the first Tuesday in April and October of each year; the Prairie committee on the second Tuesday and the British Columbia committee on the third Tuesday in these months. Should the Minister consider there are reasons sufficient and urgent he may direct that a meeting of the board or any committee shall be held at any time.

The members of the board from the different Provinces will not receive a salary, but will be paid a per diem allowance and expenses when attending meetings of the board or its committees. It is understood that the appointment of the members of the board will be made by Mr. Hazen at an early date. The extent of the fisheries of Canada is not generally realized. In the latest report of the department, issued in December of last year, it is stated to be no exaggeration to say that Canada possesses the most extensive fisheries in the world. The waters in and around the Dominion contain the principal commercial food fishes in greater abundance than the waters of any other part of the world. The coast line of the Atlantic Provinces from the Bay of Fundy to the Straits of Belle Isle, without taking into account the lesser bays, measures over 5,000 miles. On the Pacific coast the Province of British Columbia, owing to its immense number of islands, bays and fjords, has a sea-washed shore of 7,000 miles. In addition to this immense salt water fishing area there are 220,000 square miles of fresh water lakes, abundantly stocked with excellent food fishes. The total market value of fish and fish products taken in the year under notice was \$29,565,423, of which \$26,122,586 was contributed by the sea fisheries which are directly under the jurisdiction of the Fisheries Department.

From this summary of the extent of the fisheries the advantage of an advisory board such as Mr. Hazen will establish is apparent. Its members will be practical men closely in touch with the needs and requirements of the fisheries and in a position to submit recommendations which would carry weight with the department. The Lighthouse Advisory Board may be mentioned as having rendered excellent service to the department in this connection. In the Advisory Board for the Fisheries the department will have at command the knowledge and ex-

perience of thirteen men from all parts of the Dominion who are prominently engaged in the business. This system of co-operation which Mr. Hazen will carry into effect will undoubtedly result in great material benefit to the fishing industry of Canada. It is entirely in keeping with the progressive policy he has pursued since he became Minister of the Marine and Fisheries Department.

SETTLING THE VACANT FARMS.

The Farm Settlement Board, recently appointed by the Provincial Government, is not finding it so easy to obtain vacant farms as it was supposed it would be. For many years it has been given out that the number of vacant farms in this Province was legion, but when such lands are actually wanted they are not so easily secured. It is true a very considerable acreage of this Province has been cleared for settlement that should have remained in forest, the land being unfit for cultivation. This the board does not want. What the Farm Settlement Board require is farms as near to settlements as possible which may be cultivated with success. They have no wish to buy a run down farm that will take years to build up. Hence it was organized the board has purchased seventeen farms and disposed of ten of them to new settlers. This is a good beginning, particularly as they have applications for all the farms they have bought.

The Farm Settlement Board is the direct outcome of the awakened interest in agriculture in this Province and the practical answer of Premier Fleming to the demands made on the Government for lands for new settlers or provision for the sons of our own farmers who desire to go into agriculture on their own account. There are two methods of providing lands for new settlers and extending the cultivated area of the Province. First, there are the Crown lands, owned by the Province, which are now all practically under lease to lumbermen and which furnish the Government with no inconsiderable portion of the revenue necessary for the conduct of the public business of the Province. There are provisions in all the timber leases under which the Crown Land Department may repossess itself of lands under lease to lumber operators when they are required for settlement purposes.

It too often occurs, however, that applications are made for Crown lands for settlement when the purpose is actually to secure a valuable tract of timber land the settler abandoning the land as soon as he has cut all the timber. Then again these applications are often made for districts far from other settlements and where the presence of one or two settlers clearing lands is a menace to the surrounding forest. Hundreds of thousands of dollars' worth of valuable timber have been destroyed by the careless setting of fires by settlers. To meet this difficulty the Government has for some years adopted the policy of refusing to make grants in isolated districts but have each year surveyed lots in various parts extending existing settlements or creating new ones. There has also been acquired from the New Brunswick Railway Company lands in Victoria and Madawaska counties which are available to new settlers at small cost. In one tract in Madawaska opened up last year every lot was taken and occupied by a bona fide settler within a few months of the opening.

The policy of the Government in providing an easy means for such of our own people as desire to provide themselves with a farm and also to provide immigrants who understand agriculture the means of getting a farm has already produced beneficial results. When information regarding the attitude of the Government towards providing farms for all who want them is better understood there will be a large increase to the cultivated area of the Province.

It has been discovered that the men who own the coal mines in Pennsylvania own also the railroads which haul the coal to market and also control the depots in the city of Philadelphia and perhaps in other cities also where the coal is sold to the consumer. If these men were satisfied with a fair return on their actual investment this would be an ideal condition, but unfortunately there is a well grounded suspicion on the part of the public that such control means that the price of coal is constantly mounting upwards and that the men who control its digging, transportation and sale are looking more to their individual interests than those of the people. The conditions are now under investigation.

There is some talk of establishing a police signal system for the city of St. John. However, which is about the same size as this city, has recently installed such a system at a cost of \$21,000. In addition to a police call system the new installation includes the fire alarm.

Current Comment

Modern Fiction.

The Archbishop of York has been describing the modern fiction of the day as hot, panting and bear-eyed. The authors and publishers are angry. There will be a lot of sympathy with the Archbishop's view. There are two queries that occur to the man who pays attention to the output of the novel-writing press of the day. One is as to the kind of writer that can get to produce the stuff. The other is as to who it is that can be got to read the mass of it.

An Impartial Opinion.

If Germany is ready for war Europe will have it. Sensible Englishmen may be over-imaginative at times, but so potent a fact as Germany's determination to submit her hegemony to the trial of battle, when the ripe opportunity comes needs no imagination for its interpretation. Men like Lord Roberts in England are not likely to feed their countrymen with sensations for the pleasure they find in handing out the food.

Counting the Cost.

It is a debatable question whether a municipality is gaining anything by furnishing free sites for water, free light, free power and granting exemption from taxation for twenty years in return for a pay roll of twelve or fifteen hundred dollars a month, and a few families added to the population. Sometimes there is too much paid for the waste.

The Senate.

"Nobody thinks the Canadian Senate is what it should be; nobody knows how to make it better, and nobody wants to abolish it."—Montreal Witness. Rather rough on the Toronto Star, which has for years been clamoring to have the Senate abolished. Does the Witness count its esteemed contemporary the Toronto Star, as a mere nobody?

Returning Exiles.

It is interesting to hear the somewhat puzzling term, "Canadian immigrants," as applied to those coming into this country. It is explained by the fact that during the past year nearly 20,000 of those entering Canada from the United States were returning Canadians. This homeward flow is one of the most encouraging features of national development today.

LADIES' Dull Calf Button and Laced BOOTS

Most Stylish and Serviceable Boots at Popular Prices

\$3.00, \$3.50, \$4.00

Our stock represents the pick of the best Canadian and American factories.

Our low prices are maintained by having large orders placed two months ago, for September, October and November delivery.

OBITUARY.

Joseph Porter.

After an illness lasting about six weeks, J. Joseph Porter, one of the best known barristers of this city, died Saturday morning about 7 o'clock in the Home for Incurables, aged about 82 years. The end was very sudden, and the attendants going to call Mr. Porter for breakfast found the lifeless body on the floor. Deceased had got out of bed with the intention of getting ready for the meal and had partly dressed before he succumbed.

Mr. Porter, who was unmarried, had lived in the Queen Hotel, Princess street, until Monday last, when he went into the Home. He was a son of the late Captain William and May Porter, and is survived by one sister, who lives in Toronto, and the wife of Rev. T. W. Patterson. He studied law with the late C. A. Stockton, being admitted as an attorney October 18, 1888, and as a barrister a year later. S. B. Bustin was admitted the same year and subsequently the two entered into partnership, the firm continuing for some years. Mr. Porter was a member of New Brunswick Lodge, No. 1, Knights of Pythias.

Mr. Porter was a man of studious turn of mind and although retiring in disposition had hosts of friends who will regret to hear of his death. He was a sound lawyer, one of the leaders in County Court practice.

A well attended meeting of the Bar members' Society was held at 12.30 o'clock, on Saturday, presided over by Judge Armstrong, who briefly referred to the death of Mr. Porter, and to the keen regret at his death, for Mr. Porter was highly esteemed for his personal qualities as well as for his abilities.

C. H. Ferguson, in a short address, voiced his own regret at Mr. Porter's death and the regret of the profession, which was seconded by C. F. Sanford, who also referred to the sorrow all felt at Mr. Porter's death.

Whereas, The St. John Law Society has learned with regret of the death of John Joseph Porter, Esquire, Master of the Supreme Court, and a member of this society since 1888; and whereas, during the entire period of his practice at the bar Mr. Porter had displayed great industry and a wide knowledge of the practice of our courts and by his kindly disposition and genial manner he had won the good feeling, not only of his members of this society, but also of a large circle of friends outside the profession.

Therefore resolved, that this Society, as a token of respect for his memory, place on record their appreciation of Mr. Porter as an honorable member of this Society and as a man and citizen; and further resolved, that a copy of this resolution be forwarded to his immediate relatives with expression of sympathy and regret of the members of The St. John Law Society.

Joseph P. Heffernan.

Joseph Phillip Heffernan, only child of P. P. Heffernan, Perth, Victoria County, N. B., died at his home Tuesday, Nov. 19th 1912, after a long illness.

The deceased was born in St. John 17 years ago. He was graduated from the Andover High School in June 1911, and the following month he became a Junior in the Faculty of Montreal at Perth. His health failing he resigned his position and went to Hebron, New Brunswick, where he was engaged in the coal business. Receiving little benefit from the treatment there, he returned to his home June 20th. Since then he steadily failed until his death, which was a surprise to all his associates, who deeply mourn his early death. The funeral took place at the Episcopal church, Friday, Nov. 22nd and was largely attended by citizens of both towns. The choir of Andover and Perth sang in the service which was read by Rev. J. R. Hopkins. The floral tributes consisted of beautiful pieces from the Sunday school class, the young ladies of Perth and several others. The procession was preceded by the 65th and 66th Regiments. Burial was made in the Episcopal cemetery, Andover.

Bartholomew Connell.

After an illness extending over between three and four months Bartholomew Connell, one of the best known teamsters of the city, died yesterday morning in the general public hospital, at 41 Duke street, after a long illness. The cause of death was a stroke of apoplexy, which he suffered in his former residence, St. David street, one month before he was taken to water his horse.

Whenever Mr. Connell was known, he was noted for his obliging disposition and esteem of all who knew him and the news of his death will be read with very general regret. Besides his wife he is survived by three sons and three daughters. The names of the children are, the Misses Mary and Georgiana, at home, and Mrs. Ellen McInnis, of this city; William Henry, who resides near Moncton; and Thomas, at home, and Francis Patrick, in the west. There are also two brothers, David James, of this city, and one sister, Mrs. Cassie Robertson, of Philadelphia.

Mr. Connell was a native of County Limerick, Ireland, where he was born 65 years ago. When a lad of 13 he came out to St. John with his uncle, Edward Reardon. He was a son of the late Thomas and Ann Connell, who had come out a few years earlier and lived on Brunson street. The funeral will take place from St. David street on Tuesday afternoon at 2.30.

Miss F. M. Coy.

News of the death of Miss Francis M. Coy, which took place at her brother's residence on Main street, Friday evening will come as a distinct shock to her friends in this city. Miss Coy was a native of Upper Gagetown, but has been residing in late in St. John. She has been in ill-health for some time. The late Miss Coy was a daughter of Charles Coy, of Upper Gagetown, and is survived by two brothers David Coy, of this city and Henry Coy, of Upper Gagetown, and one sister, Mrs. Annie Stoeves, of Boston, Rev. B. E. Nichol will officiate at a funeral service at the residence of Miss Coy's brother, 54 Main street, Sunday evening at 9 o'clock, and the body will be taken by steamer to Upper Gagetown on Monday morning for interment.

Miss Spinnay.

The death of Miss Spinnay occurred at her home in Musquoddy yesterday, after a lingering illness. She was the youngest daughter of H. N. and Ellen Keisler and was 25 years of age. The funeral will be held today at 2 o'clock.

FUNERALS.

The Late F. A. Jones. The funeral took place Saturday afternoon at 2.30 o'clock from his late residence, 43 Duke street, of Frederick A. Jones, son of the late Hon. Thomas R. Jones. The services at the house were conducted by Rev. H. A. Cody, rector of St. James' church, assisted by Rev. Father Collins of the Mission chapel. A quartette from St. James' church choir was present and sang the hymns "Lead kindly light" and "On the resurrection morn." The pallbearers were Hon. A. T. Dunn, Dr. R. F. Quigley, W. A. Quinton, George John.

Blaise, Charles Nevins and W. E. Raymond. Interment took place in Fern Hill. Members of Hibernia Lodge F. and M. O., of which deceased was a member, and of the Masonic bodies walked together.

The floral offerings were beautiful and bespoke the esteem in which Mr. Jones' friends held him. Among the flowers were tributes from the finance committee of the Mission church and from Lazor Temple of the Mystic Shrine. The late Mr. Jones is survived by his mother, his wife, two brothers, Messrs. Charles D. Jones of this city, and Thomas R. of Seattle, and two sisters, Mrs. W. Chase Thompson, Montreal and Mrs. A. Gordon Cowie, St. R. F. Quigley, W. A. Quinton, George John.

ROBBED NAGLE'S BODY AND TOOK POCKET BOOK

Relatives of Man, Killed at Sand Point, Say His Pocket Book was Taken from Him.

The relatives of John Nagle, who died as the result of injuries sustained while working for the J. S. Metcalf Co. Ltd., are trying to find the man's pocketbook. They claim that, while he was at work, he had a pocketbook in his pocket, and that after he was injured, someone relieved him of the book and the contents. They have made enquiries at the hospital where he was taken and died, and the officials in that institution state that he did not have any pocketbook when he was taken there.

C. P. R. Running Rights.

It was announced Saturday that the C. P. R. will be given running rights over the intercolonial in this province after the New Year. This will mean the opening of a large new territory for the Dominion Express Company.

Twelve Deaths.

The board of health records for the last week show 12 deaths from the following causes: Old age, three; and one each of phthisis, nephritis, gangrene, laryngitis, myocarditis, pelvic peritonitis, infantile diarrhoea, carcinoma of liver and shock after burns.

Few Minutes Between Deaths.

At about the time that his daughter Miss Hazel I. Spinney, passed away last Friday evening, her father, Nelson Spinney at his home St. James street, West Side, received another shock on hearing that his brother Carl, had died suddenly at his home at Musquash. It was learned later that the niece and uncle died within ten minutes of each other.

Wasted Sympathy.

Herbert Pease, a bright many-looking young English boy of some seven years of age, has for the past few days been enjoying rides on the I. C. R. trains between this city and Norton, on the strength of a story that he was looking for his father. This story always moved the officials of the line to pity, but after he was sent to his supposed home, he turned up again with the result that inquiries were made. It was found that the lad is an English immigrant who has a good home at Norton from which he has been missing for several days.

Police Court.

Seven prisoners faced the police magistrate Saturday morning, five drunks and two others charged with serious offences. Four of the five drunks were fined \$5 or two months in jail, while the other got off with a \$4 fine or ten days in jail. George Duffy charged with fighting with John Ryan on the north side of King Square, on Tuesday night last, pleaded not guilty and was remanded. John Campbell charged with wandering about on Sydney street, Monday night last, had been charged with molesting women, was remanded. Campbell attempted to commit suicide in his cell after his "lock-up" last Saturday night. The

THREE STEAMERS AT SAND POINT

Allan Liner Corsican and Strm. Sokoto Arrived Yesterday—Many Sunday Visitors at the Point.

Thousands of people paid a visit to Sand Point yesterday, it being the first Sunday since the winter port business opened for this season. There were three ocean steamships at the point, and with the hustle and bustle of handling freight and passengers, there was considerable activity. The steamer Sokoto, of the Mexican Line, arrived off Partridge Island and came to anchor about two o'clock yesterday morning. She docked at the point, and with the hustle and bustle of handling freight and passengers, there was considerable activity. SCOTS HEAR SERMON ON "SOCIAL REDEMPTION"

Members of St. Andrew's Society Attended Divine Service in St. Stephen's Church Yesterday Afternoon—Eloquent Sermon by Rev. Gordon Dickie.

Following a long established custom, a large number of the members of St. Andrew's Society attended divine service in St. Stephen's church yesterday afternoon. At 2:30 o'clock the members assembled at the Christadelphian Hall on Union street, and shortly before four o'clock formed a road and marched by way of Coburg street to the church. The banner of old Scotland was borne in the van, and three sturdy pipers in kilts led the procession and the shrill of the pipes attracted a large number of spectators. At the church Rev. Gordon Dickie, chaplain of the society, delivered a striking sermon on the social message of Christianity. The interior of the edifice was tastefully decorated with Scottish flags and the Union Jack, and a bunch of heather was placed on the altar. During the service Edward Bonner sang a solo. The manager attended the service as a representative of St. George's Society.

AN ELOQUENT LECTURE ON CARDINAL MANNING

Rev. Dr. O'Reilly, Lecturer in C. M. B. A. Hall Last Evening—Eulogizes Archbishop Casey's Temperance Work.

One of the largest audiences of the season assembled in the C. M. B. A. hall last evening to hear the lecture on Cardinal Manning, delivered by Rev. Dr. O'Reilly. The speaker discussed the various positions taken by Cardinal Manning, and spoke for an hour and a quarter without notes or manuscript. He treated of the social and literary side of the cardinal's work and in referring to the great efforts made by Cardinal Manning to encourage temperance work in London where he instituted the League of the Cross. Rev. Dr. O'Reilly paid tribute to the splendid pastoral on temperance which had been prepared by Archbishop Casey, and described it as the best temperance effort ever made in this province. He expressed his belief that Archbishop Casey would continue a crusade even on a greater scale in the archdiocese of the west. In speaking of Cardinal Manning's work for social advancement, he said that the land question was really one of the main roots of social progress everywhere, and he repeated his former statement that the importation of a foreign farming population into New Brunswick was necessary to progress. The very name of Cardinal Manning, he said, ought to be an inspiration for all social workers. In closing his address Rev. Dr. O'Reilly expressed his hope that in the work for a greater St. John, the name of the distinguished cardinal should be a banner of inspiration.

The first concert of the season will be given in the Seaman's Institute, Prince William street, on Tuesday, Nov. 26th, at eight o'clock, an entirely new and delightful entertainment will be given by the Empress Pierrots. Special electrical effects have been introduced in the hall. Patrons are advised to attend early and secure good seats. Admission for this special performance, 25 cents.

TO DISCUSS INDUSTRIAL LOCATIONS SHOT IN EYE;

Martin Boudreau had Remarkable Escape from Death or Serious Injury, Early Yesterday Afternoon.

A boy named Martin Boudreau was shot in the left eye, yesterday afternoon and that he did not lose the sight of the eye, or was not killed, is most miraculous.

George Stasie, aged 15 years, was in his house at 248 Sydney street about 2:30 o'clock and was handling a rifle of 22 calibre when it was discharged. The bullet passed through a partition and struck young Boudreau who was standing in the yard. The bullet entered the left eye and caused a painful injury. The injured boy was rushed to Dr. Bentley's office at 105 Charlotte street and the bullet extracted.

When asked about the case last night Dr. Bentley said that the wound would not prove serious and the boy would not lose the sight of the eye. He said it was a most remarkable case and that young Boudreau had a very narrow escape from a more serious injury.

Gillette Safety Razors

Are used by millions because they give satisfaction. You can get a quick, smooth shave every morning in a few minutes. You cannot cut yourself. The blades are made from highest quality steel.

Question of Sites for New Industries will Occupy Attention of City Council at Today's Session.

The commissioners met in common council today and it is understood that among the matters coming up for consideration is the question of securing sites for new industries and the revision of the building by-laws.

The commissioners propose to do all in their power to retain the McAvity industry here, and provide land for new enterprises. They have decided to reclaim a portion of the Foul Ground to the southeast of the Ballast wharf if the McAvity want a site there. The mayor has also addressed a communication to the minister of militia, with a view to inducing the government to turn over the barracks ground to the city as a site for industries.

It is understood the McAvity have an engineer looking into the proposition to reclaim a portion of the Foul Ground, and a report is expected shortly.

In regard to the revision of the building by-laws, the commissioners expect to have them completed this year. The council appointed a committee to revise the building by-law and held several conferences with the fire underwriters and others. Architect Moti has been working on the new by-laws during his spare time for over a year.

In the meantime, the commissioners contemplate appointing a building inspector who will be paid for expert knowledge, and also an inspector of electric wiring.

EMERSON & FISHER, LTD., 25 Germain St.

LAYMEN'S MISSIONARY OFFICIAL PREFACHED

H. K. Caskey, in Pulpit of St. Stephen's Church Yesterday Morning, Told of Great Church Problems.

H. K. Caskey, general secretary of the Laymen's Missionary Movement in Canada, was the speaker at the morning service in St. Stephen's Presbyterian church yesterday, when he delivered an interesting address on missionary work.

In part, Mr. Caskey said that two out of every three men in the world are heathens, that two out of every three men in heathen lands cannot be reached by the missionaries, and that two out of every three men in Canada are not members of any church, and that of those who are two out of three members do not by words or deeds show it.

The three great problems which confront the church, said Mr. Caskey, are the redemption of our own citizens, to reach the forty million heathens in foreign lands under the control of the Canadian churches, and how to make the members of the churches take an active part in the work.

The Canadian churches, said the speaker, have had remarkable success in their foreign work, and during the past year have raised \$5,000,000 toward bearing the field expenses. Even this vast sum is not enough and more must be raised to carry on the work in a proper manner.

The Newest Fur Styles Are Represented in This Exhibit

If it is your desire to get utmost value for the money invested in furs, come and inspect this great showing of practically all the new fur styles the season affords. FUR DEPARTMENT—SECOND FLOOR.

TOLD OF CHILDREN'S PROTECTION ACT

Rev. R. A. Armstrong, Speaking to Every Day Club Last Evening, Explained Square Deal for Children.

There was a large attendance at the meeting in the Every Day Club rooms, Union street, last evening. Rev. R. A. Armstrong was the speaker, and gave a very interesting address on the children's protection act. He pointed out that at the present time in many cases, the charitable organizations were helpless because they did not have behind them the power of the law to protect children from brutal and drunken parents. The children's protection law is in force in Ontario and Manitoba, and has proved a great benefit, and he thought it was high time that it was brought into force in St. John. The speaker spoke about the great changes being wrought in St. John, and one object in the city was the children who, if not cared for, would be a chance, would in later years swell the pauper and criminal ranks.

There should be an officer, he said, with the power of the law behind him who could go to the parents with a chance, and say to them: "If you don't do the right thing by your children, we will take them away from you, and care for them."

The speaker said that the matter would be strongly taken up this winter, and he thought that all good thinking citizens should talk strongly in its favor. An effort will be made to have the municipal and the local governments pass a children's protective act.

During the evening there was music by an orchestra led by Mr. Stokes and also selections on the harp and mandolin by Messrs. Sheppard and the Freeze brothers.

A meeting of the Every Day Club will be held in their rooms this evening when the matter of reorganization will be dealt with, and all persons interested in the movement are invited to be present.

Wash Flannels Of Woven Patterns At 18c a yard.

This unusual value is EDEN CLOTH. A dressy flannel for Waists, House Dresses, Night Robes, Pyjamas, Children's wear, etc. In the place and made up it has the appearance, strength and softness of fine imported French flannel. Unlike wool Eden Cloth shrinks very little and never unlike wool, EDEN CLOTH shrinks very little and never scratches.

EDEN CLOTH is being shown by us in about 20 different designs and color effects—all styles 23 inches wide. The patterns are woven—not printed, and are perfect fast colors.

EDEN CLOTH costs but a fraction of what you are used to paying for the same quality. Every yard stamped EDEN on the selvage. This is your opportunity to purchase a season's supply while the assortment is complete.

Wash Goods Dept.—Ground Floor.

Manchester Robertson Allison, Ltd.

ENGINEER HATFIELD BACK FROM VACATION

Says People of American Cities are More Particular to Keep Streets Clean than in St. John.

G. H. Hatfield, city road engineer, who has been spending his holidays in New England cities, and acquiring information about the way other cities handle the street problem, has returned home.

"One of the principal difficulties we have to contend with in St. John is the habit of the people using the streets as a receptacle for waste paper and rubbish," he said when his attention was called to the way the streets are littered with paper.

"In Providence and other cities I visited you see signs tacked up all along the streets warning the people that there is a fine of \$30 for dropping waste paper or anything in the streets or for spitting on the sidewalk. And the police see that this regulation is obeyed. In most American cities property holders have to pay for laying a sidewalk or putting down permanent paving in front of their premises. This seems to interest them, and the problem of keeping the streets clean. In St. John where the city pays for both the sidewalk and street paving, owners of abutting property do not take the same pride in keeping the streets clean."

UNDERWEAR AT LOW PRICES.

The reason that Dykeman's have the name of selling the best underwear for the lowest prices is that they buy it by the case, consequently getting jobber's price and they pay spot cash and get the additional discount for that and also mark the goods at just a reasonable profit. They have four special lines on sale at the present time both in vests and drawers that are to be sold at about wholesale prices, 25, 35, 50 and 75 cents a garment. Their children's underwear is equally good value.

NEW ROAD ALREADY DOES GOOD BUSINESS

W. B. Cronk in City after Inspection of N. B. Section of Transcontinental Railway—Reports Business Good.

W. B. Cronk, of Ottawa and Mrs. Cronk arrived in the city last evening. Mr. Cronk is returning from a trip over the section of the Transcontinental opened last week between Moncton and Edmundston. The trip was a success, and the business in passenger traffic as well as in freight. At Napadogan, where a forty minute stop is made, it is proposed to have the lunch room ready for service.

PERSONAL

H. I. MacDonald and J. Christie, of St. John, were in Charlottetown on Saturday.

Joe Loherty of St. John left on a trip to Moncton on Saturday.

Guy D. Burritt of Yarmouth has secured a position here with the Maritime Water Co. Ltd., and will arrive in a few days to make his home in St. John.
