

GREEK FOREIGN POLICY STILL UNDECIDED

KING CONSTANTINE AND GREEK PREMIER CONFER ON FOREIGN SITUATION

Announcement of Definite Policy Likely to Follow Conferences—Russia's Reverses Strengthen Anti-War Party's Position—Bulgaria Key to Whole Situation.

Athens, Sept. 9, via Paris, Sept. 10.—The conference begun today between King Constantine and Premier Venizelos and King Constantine probably will be protracted over a considerable interval. Until these discussions have been completed, it is improbable that Greece will adopt a definite policy in regard to the international situation. Diplomatic representatives of Austria and Germany are disturbed by this evidence of a forthcoming decision concerning the nation's foreign policy. Nevertheless the task of the premier, whose inclination towards the Entente Allies is well known, has been made more difficult by the recent reverses of the Russians, which seem to have strengthened the position of the party which is opposed to intervention in the war and to have raised grave doubts in the popular mind regarding the strength of the Allies. Some irritation has been produced, moreover, by what is regarded as the attempt of the Allies to influence Greece unduly to make unwelcome territorial concessions to Bulgaria. This feeling is being counterbalanced to some extent, however, by the indignation aroused by the reported ill-treatment of Greeks in Turkey. Apprehension concerning the policy of Bulgaria may be described as the key to the situation. Any suggestion that Bulgaria be strengthened seems to blind the Greeks to all other considerations.

WIRELESS SAVES BRITISH STEAMER FROM SUBMARINE

Str. Orania warned of presence of "U" boat off Cape Finisterre puts back into Corunna, Spain.

Corunna, Spain, Sept. 10.—The British steamer Orania has returned to this port after having received notification by wireless shortly after sailing that a German submarine was off Cape Finisterre. The steamer sighted a sailboat with twenty or more persons on board, who supposedly were from some steamer that had been torpedoed, but the Orania kept on her return course without approaching the small craft, suspecting a German trap.

NORTH SHORE MAN KICKED BY HORSE FATALLY INJURED

Peter Richard victim of accident—Lived only few days after being injured.

Rexton, N. B., Sept. 9.—Mr. and Mrs. Alexander Macgregor, of Upper Rexton, very pleasantly entertained a number of friends Monday evening with a dance in honor of their guest, Mrs. James Macgregor of Rumbold, Me. The affair was in the form of a masquerade. A large number from Rexton attended. The ladies of South Side, Rexton, held a social in the public hall Friday evening in aid of the Machine Gun Fund. Ice cream, candy, flowers, cake and coffee were sold; the receipts amounted to about sixty-five dollars. A sad accident occurred at St. Charles a few days ago which caused the death of Peter Richard, a well known and prosperous farmer. Mr. Richard hired a neighbor's horse to take a load of produce to Chatham and when he was hitching the horse to the truck, he pushed the animal on the hip to make him go into the shafts, the animal at once kicked striking Mr. Richard in the abdomen. He only lived four days. He is survived by a widow and two daughters.

BRITAIN'S STATUS AFTER WAR BETTER THAN OTHER NATIONS

Special Committee Studying effects of War on credit and finance, says U. S. will come off best.

London, Sept. 10, 148 p. m.—"The United States will have the cream after the war. Great Britain will have to be content with milk, and the other belligerents with skimmed milk." This sums up the report presented today to the British Association by a special committee appointed to study the effects of the war on credit and finance. The committee expressed the opinion that Great Britain would emerge from the war in a better position than the other belligerents, as the latter apparently are not meeting any part of the cost of the war, or interest on war loans, out of current revenues. Nevertheless, the war will certainly place this country in a disadvantageous position, the committee finds, as compared with the United States.

PREMIER IS HELD UP BY A ZEALOUS GUARD

Policeman fails to identify Premier, but Hon. Mr. Reid comes to Sir Robert's aid.

Ottawa, Sept. 10.—Sir Robert Borden was the victim of a holdup in the Block tonight. The prime minister was leaving the building, in which his office is situated with Hon. Dr. Reid, and at the door a burly Dominion policeman let the minister of customs pass with a nod but said to the prime minister: "What's your name?" "R. L. Borden," replied the premier, modestly. The minion of the law seemed disinclined to take the word of the premier, and Dr. Reid had to come laughingly to the aid of his chief and vouch that he was neither a German spy nor a secreteur of bombs. Sir Robert enjoyed the incident immensely and complimented the policeman on his watchfulness.

OBITUARY.

Henry Dykeman. James, Sept. 9.—Mr. Henry Dykeman, an old and respected resident of Jemseg, passed away this week, age seventy-six years. He had been in failing health for several years but death came very sudden at the last. He was a member of the Baptist church for several years. His wife having passed away just one year ago the same date. He leaves to mourn their loss two daughters and two sons—Mrs. Charles Gunter, of Boston; Mrs. Charity Elliot, of New Hampshire; Hatfield.

BRITISH TRADES UNION CONGRSSS TURNS DOWN PEACE RESOLUTION

Britain, Eng. Sept. 10.—The Trades Union Congress, representing more than three million organized English workmen rejected by an overwhelming vote today, a resolution calling upon the parliamentary committee of the labor party to formulate and advocate terms of peace satisfactory to the working classes.

The sponsor for the defeated resolution said that such a move already had been made by German workmen, but this argument brought him no supporters.

Ramsay MacDonald, labor member of parliament, in an address to the congress denied that he or any other member of the labor party in the House of Commons had ever counselled British workmen to shirk their duty. Such an assertion, he added, was malicious and nothing but a perversion of a simple declaration that the labor party should look out for itself. The duty of every citizen, he said, was to defend the national honor.

AN ARMY OF RECRUITS IS LONDON'S ANSWER TO ZEPPELIN RAIDS ON CITY

London, Sept. 10.—The answer of the people of London, and in the London district, to these exercises in frightfulness may be given in an episode mentioned in the Manchester Guardian, says the Spectator in commenting on the Zeppelin raids of Tuesday and Wednesday nights. "A recruiting sergeant has been addressing crowds from a platform made from debris of ruined houses and the results have been excellent."

The Daily Mirror says the reply of London was a great army of recruits. A large number of volunteers presented themselves at Trafalgar Square and in every part of the country, men flocked to the colors. The Evening Standard expressed the hope that the government will announce its determination to hold the head of the German aircraft service personally responsible for the death occasioned by the Zeppelin raids.

The Globe and other newspapers take the view that every air raid on London or other English cities should be followed immediately by attacks on such German cities as Cologne, Strassburg, Karlsruhe and Dusseldorf, which are within each reach of Beaufort, France.

of St. John, and William, of Jemseg. The funeral will be held Saturday afternoon, interment in the Baptist cemetery.

Mrs. Delphine Gallant. The death occurred at her home, Coal Branch, on Saturday of Mrs. Delphine Gallant, relict of the late Daniel Gallant, one of the oldest residents of this place. The deceased, who was eighty-five years of age, had been in poor health for some time and her death was not unexpected. She leaves to mourn their loss five sons and a large number of grandchildren. The sons are Polycarpe, of this place, with whom the deceased made her home; Joseph, of Dalton, Manitoba; Philias, of Pawtucket, R. I., and Mark and Napoleon, of Providence, R. I. The funeral took place on Monday morning at St. Timothy's church, Adamsville, Requiem High Mass was celebrated by Rev. J. V. Gaudet. The pallbearers were Messrs. William and George Swift, Fidelle Allaine, Archie and Raymond Gallant, and Abraham Genoux.

Mrs. Bridget McDermott. The death occurred yesterday at 250 Sydney street, of Mrs. Bridget McDermott, widow of George McDermott. The deceased who was much respected, leaves one daughter, Mrs. J. Miller, of this city; four sons, George A. John F., Joseph F., and Gregory, all of St. John, and two sisters, Mrs. Devine, of St. John, and Mrs. Adams, of Charlestown, Mass.

Another Battalion to Go
Col. H. M. Campbell announced yesterday that he had under his command at Sussex 1189 men for the 64th Battalion. This is something in excess of the number actually required for the battalion, if we exclude reserves, but arrangements have been completed whereby all men offering and satisfying the tests will be accepted.

The War Situation
Although last night's despatches from the war zone contained no one item of outstanding importance, they indicated that while Germany is gasping from over-exertion her enemies have "gained their second wind" as it were, and are vigorously attacking her on all fronts. In the West hard fighting has continued, with the advance swinging toward the French troops, who have succeeded in resisting German attacks on several sections of the front.

The Invasion of Alsace
There is nothing to report from the Dardanelles, although it is generally believed important events are pending. The situation in the Balkans has not materially changed. Serbia is reported to have offered additional concessions to Bulgaria, which have not yet been accepted. The Bulgars are said to have entered into negotiations with Turkey so it is not yet established that they will enter the war on the side of the Allies.

Street Railway's Side of Question
H. M. Hopper makes reply to statement of Commissioner Potts re rails.

Replying to the statements made by Commissioner Potts in reference to the difference between the city and the street railway company, Mr. Hopper, manager of the St. John Railway Company, has issued the following: With reference to the Commissioner Potts' communications to the Globe and Times yesterday afternoon the Commissioner seems to have forgotten that the difficulty over Princess and Union streets arose from his requiring the company to replace its tracks therewith with grooved rails.

Traffic Regulations
Several automobilists appeared in court yesterday morning to answer to the charge of violating sections of the street traffic law. In the case of A. Fraser Armstrong, reported for driving his car on the wrong side of the road, a fine of \$10 was struck, but allowed to stand, as was the case with Edwin McGuire for exceeding the speed limit; A. C. Smalley, for not sounding his horn on the street corner, and Emory Bros. for not having the rear light of their car in operation.

Funerals
The funeral of Mrs. Wm. Hall took place yesterday afternoon from her late residence, 361 City Road, Rev. Dr. Raymond conducted the services. Interment in Cedar Hill.

ISSUES IN THE P. E. ISLAND ELECTIONS

Prohibition and the automobile are strong factors in the present campaign.

The Prince Edward Island elections will be held on Thursday of next week. Judging from the tone of the Charlottetown daily papers, the campaign is rather warm, indicating that over there despite the slump in the fox business, the people are taking their politics somewhat seriously. There are, it appears, two or three issues on which the opposition campaign is based, one of these being the notorious automobile agitation.

RAILWAY SUES CITY FOR LOSS OF REVENUE

Another move in controversy between city and street car people.

For a great many years the owners of the Battle Line steamers registered at this port have experienced the ups and downs of fortune. They were originally about a dozen vessels in this line, and at times they made money, while at many other times they lost or got away barely with their expenses. Through the passage of years, and because of the failure of appreciable dividends, more than one-half of these steamers were sold because of the desire of the owners to recover as much as possible from their investment.

TAKING CHANGES IN STOCK MARKET

Saturday Evening Post article drawing attention to the work of Wall St.

An article on stock market speculation, which appeared in the last issue of the Saturday Evening Post, written by Edwin Lefevre, has been read with considerable interest by many of those in St. John who have the habit of dabbling in stocks. Ostensibly this article points out how the chances in Wall Street are decidedly against the man who hopes to find the easy road to wealth.

ST. JOSEPH'S

(Continued from page 9) ter has to be bought, as the milk supply is not sufficient to provide this. Some beef and other meats are purchased, but a considerable portion is raised on the college farm or on cattle farms which are purchased and fattened there. Flour is purchased in carload lots, and groceries by wholesale. But all vegetables are grown at home, feed is produced to keep the livestock, and indeed in so far as any such production can be self-sustaining in this country of short summers, St. Joseph's holds that position. In addition to the ordinary forms of indoor sports and games, the college has a well equipped gymnasium, St. Joseph's enjoys through ample acreage, extensive recreation grounds for football, baseball and other games. There is in the rear of the college a large ice rink, and nearby courts. It would appear from even superficial observation that nothing has been left undone to provide for the upbuilding of a good type of physique among the students, while the history of the college is the best evidence of what has been done along the lines of education. There are accommodations in the college for three hundred and fifty students, and at times this number has been reached. Last term something like three hundred and eighteen were in attendance, while in the previous term about three hundred and forty were enrolled. These students are of course divided among the university course and the grammar school, and range from twelve or fourteen years upwards. Of three hundred and thirty-nine enrolled in 1914, two hundred and nineteen belonged to New Brunswick, eighty-one from other provinces of Canada, and the remaining thirty-nine from the United States and Cuba. The faculty numbers thirty, consisting very largely of religious of the Congregation of the Holy Cross assisted by a number of teaching brothers. St. Joseph's provides as its main purpose such classical education as will prepare its students for further instruction along the lines of the most appealing to them. Degrees are conferred as Bachelor of Arts, Bachelor of Science, Bachelor of Letters and Bachelor of Commercial Science, as well as Master of Arts.

UNCLE DICK'S TOY FUND FOR SOLDIER'S CHILDREN

In my chat with you last week, I referred to a scheme for helping the poor children whose fathers are at the front, fighting to have a somewhat happier Xmas than they would otherwise be looking forward to...

If you are not able to help in this way, perhaps you will dress dolls, make little toys, knit children's warm stockings, and in other ways assist.

Extracts from The Mail Bag. A NEW MEMBER. Dear Uncle Dick—I am a new member. I have read the Children's Corner nearly every Saturday, and like it very much indeed.

A LOVELY BOOK. Thank you so much for the lovely book you sent me. Good-bye. Freda I. Banks.

PLEASUED WITH WATCH. I received my watch and am pleased with it. I thank you very much. I am sending the heads which were to be painted. I hope to be successful again. Your loving niece, Dorothy Lyns.

ANOTHER NIECE. Dear Uncle Dick— Will you accept me as one of your nieces. Yours truly, Irene Titus.

NOV HAS THREE UNCLAS. Dear Uncle Dick— If you will accept me as one of your nieces, I will be very glad. I have only two uncles, and I would like to have another. Yours truly, Florence I. Middleton.

Scout News. Chipman Troop. Commissioner A. Stiles gave at Chipman, Friday, Sept. 3rd, an illustrated lecture on the "Art of Scouting" which was thoroughly enjoyed by a small but interested audience.

Things Worth Knowing

When Marching. This is a good tip for scouts and soldiers to remember. When going for a long march, sprinkle the inside of your stockings with boracic powder.

How to Run a Troop. By Ernest Young, Headmaster Harrow County School and Scoutmaster in the "Scout".

Parcels for the Dardanelles. Some of you, perhaps, have friends who are fighting in the Dardanelles; you will want to send them parcels of good things to remind them of home and those they left behind.

Prevents Spilling. It often happens when trying to get a billy off the fire, that the handle slips along the piece of wood, or what ever you are using to remove it with, so spilling the contents and putting out the fire.

Two Lemon Tips. The juice of a lemon makes a splendid boot cleaner. Rub a few drops of the juice over the boots and you will be amazed at the brilliancy of the shine.

TO SCOUTMASTERS. Will scoutmasters and others connected with the scout or girl guide movements kindly endeavor to send in little items of news connected with different patrols in the district, which may be of general interest.

Planting Potatoes. Have you a spare piece of ground in your garden? If you have, why not plant potatoes? There is just time to now. Plant old ones in preference to new, as they will give better results.

Fashion Notes

Cotton Fads. One of the most inexplicable in the realm of dress is the fashion where are laid to rest the fancies of seasons past. Who comes of the styles of yesteryear to be more exact the styles of today? And what becomes of the fives back of the introduction of new modes, the inspiration which certain styles spring?

Scotch Plaids. Scotch plaids in silk will trim the returned petticoats women find necessary with their tonable full skirt.

New Lacings. Lacings appear in some of frocks and blouses. Sleeves are times laced around from the wrist, sometimes from the der to the elbow. Lacings appear the front of blouses and at the lacings are contrasting color.

Useful Pockets. Pockets that apparently button over the belt are worn on frocks and coats for both and grown-ups.

NEWS IN THE AUTOMOBILE WORLD

One-third of All Cars In Canada Are Fords

In Each of the Nine Provinces Ford Leads All Others.

Ford, Ontario, Sept. 11, 1915—More than one-third of the total number of automobiles in all the Dominion of Canada are Ford cars, according to the complete registration figures for the year 1914. The exact figures are 21,456 Fords, or 38.08 per cent of the total number of cars of all makes. These figures, however, have been materially increased in the present year, for since then, 13,155 more Fords have been sold in Canada, and undoubtedly the proportion to other makes is still as great, if not greater.

In tabulating the registration of Canadian-owned automobiles some interesting facts were revealed. For example, Fords lead all other makes in each of the nine provinces. The largest number of Fords is owned in Ontario, where 10,143 were registered up to October 1914, or 42.1 per cent of all the cars in that province. This is 8,642 more cars than the next make, which had 6.2 per cent of the total. Three hundred and forty-seven different makes are represented in the Ontario registration.

Over half the cars in Saskatchewan are Fords. The figures show 2,775 Fords, which is 55.4 per cent of the total. The next largest make numbered 435 cars.

Quebec, according to these figures, came next with 2,422 Fords, or 34.3 per cent—the next in rank numbering 494 cars. In Manitoba 31.8 per cent of all cars were Fords and the total number was 1,320, greater than the nearest competitor.

Alberta had 1,684 Ford cars, 37.4 per cent of the total number registered. This is 1,187 greater than the nearest competitor. In Nova Scotia the nearest competitor were Fords and New Brunswick was no far behind with 30.2 per cent. In the former province the Ford led its nearest competitor by 253 cars, while in the latter province it was 169 cars in the lead and had more than twice this number of cars in use. In British Columbia the Ford was ahead of its nearest competitor by 785 cars and had 23.3 per cent of the total number of cars in use.

The figures for British colonial territories are not so complete, but the Ford appears to have been more than holding its own. In South Australia, 5,689 cars were registered up to May 17th, 1915, and of these 24.6 per cent were Fords, outnumbering the next largest make four and a half times, while the Fords in use were greater in number than the next seven makes put together. In Tasmania there were 192 cars registered of which forty-one per cent were Fords. All these figures have been greatly increased during the past year by large shipments of Ford cars into this territory.

It is estimated that nearly one-half of the total number of motor cars now operating in the United States are Fords; over 300,000 of these were sold during the past year. To date more than 500,000 Fords have been sold in all parts of the world. So when one scans the actual figures the statement, "Wherever you go you see a Ford" is seen to be no idle boast.

AUTUMN EXCURSIONS TO BOSTON

Very Low Rates.

In order that the people of New Brunswick and the Maritime Provinces may enjoy a beautiful autumn trip at little expense, the International Line has made special low rates effective from September 10th to October 6th; tickets good for 30 days from date of purchase.

Boston is wonderfully historic and rich in traditions. This is the time of year to see its beautiful suburbs and its many points of interest, and an opportunity to enjoy a delightful trip at unusually low fares.

FAIR SEASON IS ON.

Some Fine Exhibits Being Shown this Year—Motor Car Especially Popular.

Exhibits of the "blue ribbon colt" or the "prize porker" at the Fall Fairs around Canada this year have nothing at all on the automobile exhibits for popularity. The Fair season is with us again and nearly every one is having its motor display in some form or other, which is always crowded.

Some Fairs are even introducing auto races and hill climbing contests and the like, but the main interest seems to be in the all-around farm utility of a good machine. Each year the proportion of the motor car output that goes to the farmer has increased enormously until the manufacturers now figure the ruralists as the very best market.

More Ford cars have been sold to farmers, probably than all other makes combined, and the Ford Motor

RED CROSS SOCIETY AND CONTRIBUTIONS

Lady Tilley acknowledges receipt of many donations for the work.

Lady Tilley as treasurer of the New Brunswick Provincial Branch of the Canadian Red Cross Society, begs to acknowledge with thanks the receipt of the following contributions for the purchase of hospital supplies and for general Red Cross work:

Balance of city grant	\$500.00
N. B. Pharmaceutical Society	200.00
Chatham Red Cross Society	100.00
Sproul L.O.L., Collina, N. B.	50.00
Salisbury Red Cross Society	40.00
Burnt Church Red Cross Society	35.00
Proceeds of tea held by ladies of Morna, per Mrs. F. S. Thomas	35.00
Rolling Dam Red Cross Aid	25.00
Proceeds of picnic given by Methodist S. School, Killburn Creek	25.00
Mrs. E. W. Northrup, Belleisle	22.00
Epworth League, Cararthen St. Methodist Church	4.00
Ladies' Missionary Society Cararthen St. Methodist Ch.	1.00
Mrs. M. A. McLeod, Coburg St., St. John	3.00
Amount of collections at Intercessory Services held in parish of Hammond River	10.35
Geo. M. O'Neill, Belleisle	4.25
L. H. Brown, Brown's Flats	1.00
Permission having been received to install a few more New Brunswick beds in the Duchess of Connaught Hospital, Cliveden, Eng., the following contributions have been received for that purpose:	
Salisbury Red Cross Society	\$50.00
Sunday Schools, Parish of Wickham	50.00
Albert, N. B. Women's Institute	50.00
Aroostook Jot. Red Cross So.	50.00
United Women's Institute, Hillsboro	50.00

Owing to the generous response to the appeals for Red Cross funds, Lady Tilley has been enabled to forward since the first of July, the sum of \$2,093.46, to the Central Council at Toronto. The call for funds, however, grows more insistent each day, and with the coming winter large sums of money will be needed to meet the constantly increasing demands. Contributions may be sent to Lady Tilley, 223 Germain street, St. John, N. B., Treasurer of the New Brunswick Provincial Branch Canadian Red Cross Society, and subscribers may rest assured that whatever they may send will be most gratefully received and used to the best possible advantage in this great work of ministering to the sick and wounded.

Company of Canada, Limited, estimates that about 22,000 of its cars are being used on the farms in Canada. Notwithstanding this large total, they are figuring that the coming year's output will find larger market than ever among the farmers, and it is likely that many thousand more machines will come into use of the soil tillers within the next few months, when they will be cashing in on their big harvests.

STUDEBAKER PROMOTES OLLIER

He becomes a Vice-President and Director of Corporation and Director of Sales.

At a recent special meeting of the Studebaker Corporation, L. J. Ollier was elected a vice president and director. Mr. Ollier has advanced rapidly in the Studebaker service and his present promotion takes him from the position of sales manager to a vice presidency that carries with it the duties of director of sales. Having shown his ability as a bicycle salesman, in 1899 Mr. Ollier was assigned the responsible post of department manager of the Western division of the American Bicycle Company. He later became manager of the Chicago retail branch, and when the company put on the market the Waverly electric and the Toledo steamer they were sold in Chicago by Mr. Ollier's department.

Mr. Ollier associated himself in 1902 with the agency for Peerless automobiles. After that he became Chicago manager for the Cadillac Company and assisted in the formation of the Chicago Auto Trade Association. Larger opportunities presented themselves when Mr. Ollier went with the Ralph Temple Auto Company as sales manager. This firm dealt both in foreign and American cars. Here for the first time in the history of the business owners were insured a year's inspection and service. Mr. Ollier then went to California as a pioneer in the automobile accessory business. As a jobber he operated stores in Los Angeles and San Francisco.

Recognizing the importance of the Pacific Coast field, the Studebaker Corporation determined to put in charge of its sales force west of the Rocky Mountains the best equipped man it could find. The man was L. J. Ollier. He was made special field representative for California, Nevada and Arizona. Later he opened the Los Angeles

GOODYEAR TIRE GAINS

More Auto Makers Adopt It for Original Equipment of Their Cars.

"During the twelve months ending July 1, Goodyear held and strengthened its place as a tire company which equips more automobiles than manufacturers of other makes," says C. W. Seiberling, vice-president of the Goodyear Tire & Rubber Company. "For 1914 not only have all manufacturers' contracts, held previously, been continued, but such high grade cars as Packard, Hudson, Jeffrey, Locomobile, Mitchell, Franklin and others have been added. As the great automobile industry has squared away for real growth, it has become evident that automobile tires, like other commodities expected to give service, must be sold upon merit and performance.

"Motorists, since they have obtained a voice in the original tire equipment on their cars, are more discriminating than ever before in their selection of tires. In a time when competition is keener than ever, with many tire manufacturers eager for a share of this

business, the fact that Goodyear tops the list of number of cars equipped, speaks volumes for the prestige of Goodyear tires and the favor in which they are held by motorists.

"It is interesting to note that Goodyears not only equip a larger percentage of all new cars than any other tire, but also that more different manufacturers use them. This means a wider distribution. As Goodyear sells tires to nearly every manufacturer in the country, large or small, there is scarcely an automobile dealer who does not get some Goodyear tires on the cars he handles. This naturally creates a demand for renewals of our tires, as a tire which has given satisfactory service is bound to create a demand for renewals of the same make.

production of crude rubber, which indicates the magnitude of our operations in the tire field. We confidently expect that our automobile tire production for this year will be well over the two million mark."

TAKING CARE OF COAST TRADE
Motor car owners in the Pacific Coast States, as well as those who intend to visit the coast, will be interested to learn that the Willard Storage Battery Company has established a complete factory branch in San Francisco.

This branch is located at 1433 Bush street. Besides having adequate facilities and properly trained men to care for individual battery repairs and general service work, this branch will supervise all Willard service stations in their expert service backed by factory representatives who are working in the owner's interest to promote more efficient battery performance.

FAMOUS PICTURES

There are two distinct points to the picture shown herewith.

1. The Buffalo sees in the Traction "V's" a likeness to his own foot-marks—thinks the old form has become the new through the process of time.

2. Inset on a strip of his own prairie, the buffalo gazes over the changes which have taken place in the passing of the years—once his haunts were a wilderness, now they are the home of high buildings, swiftly moving vehicles, and "Traction" Auto Tire marks over the road.

The artist's idea, also, was to show by inference the preponderance of "Traction" in other words, their universal acceptance by motorists. The "V" trail is as general as roads themselves. In fact, wherever an auto goes, you will find evidence that "Traction" have gone before.

\$100 in gold for the best stories about this and the other "Famous Pictures." The stories to be written by Canadian-born children, under fifteen, whose parents, brothers, sisters or relatives own autos, motorcycles, bicycles equipped with one or more Dunlop Traction Road Tires.
