HOW UNCLE TOM'S CABIN WAS STARTED BY MRS. STOWE

The death of Mrs. John H. Law recently in Chicago recalls the association of two southern families, the Tichenors and the Overakers, with the writing of Harriet Beecher Stowe's famous book, "Uncle Tom's Cabin."

Mrs. Law, whose maiden name was Georgia Overaker, was the last of the original Overaker family at Natchez, Miss., who came North during slavery time and settled in Cincinnati. She is survived by her husband, John H. Law of Chicago, and six children: Mrs. Laura Law Meek, Charles Green Law and Miss Lucy A. Law of Chicago, Mrs. Charles W. Bell of Cincinnati, Mrs. A. S. Taylor of Cleveland, and Mrs. John Haddock of New York, and a niece, Mrs. C. C. Hearn, of Port Totten, N. Y.

The connection of the Overaker family with Mrs. Stowe's book is shown in the following article published by Lap-Scotts some time ago and headed, "How Uncle Tom's Cabin Came to be Written."

If there is anything in foreordination Harriet Beecher Stowe was predestined to write "Uncle Tom's Cabin." She did not intend to do it. She said that for many years of her life she avoided all reading upon or allusion to the subject of slavery. But in Cincinnati it was thrust upon her at every turn.

An incident which increased her interest in the problem of freedom was the coming to Walnut Hills of a family from the far South, who for conscience sake had separated themselves from the associations of their lifetime and sought a home in the then unbroken forest on the banks of the Ohio. Here the Tichenors and Overakers, a family of aristocratic English descent, made for themselves a home in the southern style, the first of those really feudal estates of which so many now crowning the banks of the Ohio and the crests of the Cincinnati hills.

This family brought with them a retinue of house servants in order to get them free. They were scattered among the various families of this lovely village, some being engaged at one time or another in Prof. Stowe's family and some in that of his next neighbor, also a professor in the seminary. One of these neighbors has said that she has seen Mrs. Stowe sit all afternoon watching the children of the two families and the young blacks at play.

It was then and there that Mrs. Stowe knew the original of Uncle Pete, likeness in unending colors. Topsy was a stray bit of ebony humanity that some unrecorded way came to be one of the picaninies perched on the porches of the Overaker mansion in New Orleans, where the family had a winter home. Around the quarters of the can-erands or played with the dogs on the Tichenor plantation at Natchez.

She was such a little imp of blackness that "that limb was past saving," and so she was left among the little hands, who were to work out their freedom there on the plantation at Natchez. But the case of the abandoned wife appealed to the sympathy of Mrs. Stowe's neighbor, and the eldsh Topsy was brought North and placed in the family of the young professor to be trained for service.

It was then and there that the effort to develop her into a reasonable being was not a shining success. Joan—for that was her real name—drifted into the abandoned stratum of Cincinnati life and was seen no more by her former friends until the day of Mrs. Tichenor's funeral.

Black Sam also, he of the "oboloboration faculty," was at service in the same family, but he will be best remembered by the act of putting the beechum under Haley's saddle when they were about to start for Elizabethtown. Others of the small fry named were of the same group.

It was at Walnut Hills also that Mrs. Stowe knew the original of Uncle Pete in "Dred" or "Nina Gordon" as it was afterward called. He was then an African, a black as Colored Williams, and he certainly was of a rockfast and deepest back dye as mortal flesh could take. Like that faithful old soul who took care of the Peyton children and always spoke of himself and them as "we P-t-on folks," the devoted retainer of the professor families for odd jobs always spoke of himself and them as "we ordinary folks." Peace to his gay ashes! He died a few years ago.

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the blood is in proper condition. Ayer's Sarsaparilla is the only small laxative dose of Ayer's Sarsaparilla.

THE COME AND SEE SIGN

This sign is permanently attached to the front of the main building of the Lydia E. Pinkham Medicine Company, Lynn, Mass.

What Does This Sign Mean?
It means that public inspection of the business is honestly desired. It means that there is nothing about the business which is not "open and above-board."

It means that a permanent invitation is extended to anyone to come and verify any and all statements made in the advertisements of Lydia E. Pinkham's Vegetable Compound. Is it a purely vegetable compound made from roots and herbs—without drugs?

Come and See.
Do the women of America continually use as much of it as we are told?

Come and See.
Was there ever such a person as Lydia E. Pinkham, and is there any Mrs. Pinkham now to whom sick women are asked to write?

Come and See.
Is the vast private correspondence with sick women conducted by women only, and are the letters kept strictly confidential?

Come and See.
Have they really got letters from over one million, one hundred thousand women correspondents?

Come and See.
Have they proof that Lydia E. Pinkham's Vegetable Compound has cured thousands of these women?

Come and See.
This advertisement is only a doubter. The great army of women who know from their own experience that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for female ailments will still go on using and being benefited by it; but the poor doubting, suffering woman must, for her own sake, be taught confidence, for she has not just as well regain her health.

A British commission which has been investigating forestry, with special reference to Ireland, points out that the quality of the timber exports of Great Britain has fallen off in the last twenty or thirty years, while the price has increased between thirty and forty per cent. This clearly shows that wood goods are at the same time deteriorating in their economic worth while they are increasing in price. Members of the committee approve generally of forestry, and find the costs of the land are suitable for the carrying on of the work.

CHINA'S ANTI-OPIMUM CRUSADE.

Evidence is accumulating that China has entered upon a genuine movement towards moral reform so far as the use of opium is concerned. Her strength has been acknowledged by the decision of the municipality of the international settlement at Shanghai to close the opium dens within its jurisdiction. Hitherto, restrictive measures have been refused by the residents, as they desired to be satisfied that the Chinese authorities were in earnest in their crusade.

Nearly two years have elapsed since the edicts against opium were published throughout the Chinese Empire and considerably expressed by those acquainted with the country and its people both as to their motive and its results. Last February, however, a report by the British minister at Peking was issued of a distinctively favorable character and this view was recently confirmed by an enquiry instituted to all missionaries stationed at Peking.

As was only to be expected the replies disclose considerable variations in the execution of the imperial decrees, depending as it does on the vigor and zeal of the officials and the nature of popular opinion. The edicts are reported to have been posted over the greater part of the empire, and the closing of the opium dens has been effectively carried out in many provinces. Among the rising sentiment against the drug.

For the future the outlook is even more hopeful. Opposition to the opium habit is strongest in the new army and police, in the new schools and the colleges, among students and the cul-

WISDOM FOR WOMEN

THINGS FOR TOTS

The baby girl who has been walking for a year has attached to her dress a little sash which she wears as a dignity of a kind.

Another dainty model hinting of adult models is the little dress of chambray with a corset on tucks. Just like a "big man" will the small boy feel who has one of the pious looking towed bathrobes with the cord and tassel.

Jumpers bid fair to be as popular as ever before.

THE DIRECTOIRE SASH

The sash of the Directoire period—the broad sash which the officers of France's great revolutionary movement tied around their waists—is one of the most effective of the season's accessories.

SAUSAGE WITH APPLE SAUCE

Cover the sausages, pricked in every part with a fork, with boiling water, let simmer 15 minutes, then drain and brown in the oven or on top of the stove. Make a syrup of a cup of sugar and water in a little cup very carefully 4 or 5 tart apples core and sliced in rings. Serve these drained from the syrup around the sausages arranged on the center of the dish.

COUMES OR MILK WINE

One quart buttermilk, 2 quarts sweet milk, 4 teaspoons sugar; mix buttermilk and sweet milk together; add sugar and stir until it is dissolved; let stand near kitchen fire for 12 hours covered with a cloth, then bottle. As it is an effervescent drink, the cork must be tied down and the bottles kept on their sides. When the koumiss is opened it should be used at once.

EGGS IN POTATO CASES

Take potatoes left from dinner, peel them as you would mashed potatoes. Put on a floured board, roll out and cut with a biscuit cutter. Make a hollow in the center of each cake, brush over with milk and bake in the oven until brown, then break an egg in the middle of each cake, add a dash of pepper and a small piece of butter, return to oven and bake until egg is set. Serve on a hot plate garnished with parsley. A very nice breakfast dish.

POTATO BISCUIT

Sift together 2 cups of flour, 1 teaspoon salt and 3 tablespoons of lard. Add 1 cup of milk and 1 cup of potatoes; lastly add 2 cups of milk. Mix as ordinary biscuits and roll rather thin and bake in a quick oven.

MORTON BAKER WAS LOST AT SEA

Was Drowned off Lunenburg Schooner.
May 11th.

ON BOWSPRIT

Only Fair Breeze When He Was Missed--Search Made Without Avail.

(Special News Service.)
ST. JOHN, N. B., Thursday. — The schooner "Morton Baker," of Lunenburg, N. S., schooner George R. Atkinson, Captain Alex. Herman, arrived in port this evening, twenty-two days from Bristol, Barbados, with news of the missing Morton Baker, who fell overboard May 11th while in 28.43 north latitude and 64 west longitude. Baker was out on the bowsprit of the schooner in a fair breeze of wind when another man working near him noticed that he had disappeared. The alarm was given and Mate Cornum with two men quickly launched a boat and rowed back, but could see nothing of the sailor. The accident happened about 11.30 a. m. Baker belonged to Lunenburg, N. S., and was 27 years of age and unmarried.

CANADIAN MUNICIPAL BONDS

Time to Apply the Brakes Says an English Paper

LONDON, Thursday. — The Sun says Canadian City bonds are not thought highly of in certain financial circles because the municipal authorities waste too much of ill-considered enterprises. Their borrowing proclivities have been accommodated too freely. This is denied in the local press, but it is true the brake was put on, concludes the Sun.

FATAL FIRE AT TELSONBURG

Campbellton Young Lady
a Guest at Queen
Hotel.

THREE DEAD

(Special News Service.)
TELSONBURG, Ont., Wednesday. — About five o'clock this morning the Queen's Hotel was discovered to be on fire, and before the guests and employees were thoroughly awake escape by stairway was cut off by flames. Mrs. John Mero and Miss Mero, wife and daughter of proprietor, Miss Dunbar of Buffalo, Miss Grey of Stuyvesant, and other ladies and several travellers, jumped from second and third stories. Miss Grey was instantly killed, as was also Mr. C. A. Barnard, of Toronto. Mrs. Dunbar's injuries are supposed to be fatal. Mrs. Mero and daughter also found and Mary Campbell, of Kincardine, sustained injuries. Those who were in the hotel at the time, were missing, his body was found later, burned to a crisp. Few of the inmates saved anything, most of them glad to escape in their night clothes. The building was totally destroyed, loss about \$20,000, with insurance, \$17,000. There were sixty guests all of whom are accounted for.

Miss Nellie M. Lellan, daughter of Con. A. McLellan of this town was a guest at the hotel, and fortunately escaped uninjured. A telegram was received here Wednesday morning conveying this good news. She was on the third floor.

SIMILAR BUT DIFFERENT.

"I reckon you ain't much like your ma," said the old-fashioned woman as they met on the street corner.

"Oh, yes I am," protested the over-dressed young lady. "Ma's at home picking a quilt and I'm out making a spread."

DALHOUSIE FERRY MAY GET GRANT

Hon. Chas. LaBillois, Ever
on the Alert, Moves
in Matter.

HAS A PROMISE

FREDERICTON, Wednesday. — When the item for steam navigation came under consideration Mr. LaBillois succeeded in getting the chief commissioner to say that the Dalhousie ferry would receive assistance, but Dr. Sornay was less successful when he asked concerning the subsidy for the Gloucester steamer, which plies between the islands and the mainland. All he could get was the statement from Mr. Fleming that the subsidies had not yet been apportioned but would be early in the coming week. Mr. Sweeney urged the importance of the service, pointing out that the government was not asking anything in addition for steam navigation this year, and unless there was a reduction in the amounts paid the other services nothing could be given the Gloucester company, but Mr. Fleming made no further statement.

COTTON STRIKE HAS BEEN BROKEN

Many Employees Returned
to Mills Yesterday
Morning.

MORE GOING

Men Are Returning on the Company's Own Terms--Wages Remain the Same.

(Special News Service.)
MONTREAL, Thursday. — The backbone of the Cotton operatives strike has been broken. This morning the mills of the Dominion Textile Company at Shawville resumed operations, about half of the employees returning to their places. It is thought that the others will return to work tomorrow as no notice of the opening of the strike was issued and many of the employees did not know of it. About twelve hundred of the employees of the Hochelaga mills of the same company also returned to work this morning.
The men returned on the company's terms, the rates of wages being the same as before the strike.

TOBIQUE

(Special News Service.)
TOBIQUE, Wednesday. — A number of our young men have already returned from the drive and are taking advantage of the fine weather to prepare their fields. One school teacher regrets that she could not observe Arbor Day last Friday, as the school grounds were too frozen and wet, to permit her to plant trees, or make any other improvements in the yard. She also states that such a day ought to be appointed according to Spring, in order to have the school yard in the proper condition.
The many friends of Mrs. Henry Savoy are pleased to see her well again, after having been confined to her room for several days on account of a painful back-ache, caused from falling down the cellar of her home.

Mr. Alphonse Furest, of Balmoral, was here in business last Saturday.

It is reported that Mr. William LeBlanc had his foot badly cut while helping in building Mr. Alexander's new saw mill in the Rocky Gully.

Mr. Henry Savoy drove down to Dalhousie last Saturday.

Our priest, Rev. Father D'Amours has returned from the hospital of Montreal last Monday, and intends staying with us until next Monday, when he will leave for the warm countries, on account of his falling health, which has not been improved at Montreal. We sincerely hope that the climate of the old country will be favorable to his health.

We offer our congratulations to Mr. and Mrs. Jos. Francoeur on the arrival of a son and heir.

DIVORCE CASES TO BE TRIED

Four to Come Before Regular Session of Court at
Fredericton.

FERGUSON VS. FERGUSON

(Special News Service.)
FREDERICTON, Tuesday. — Four divorce cases, involving some of the best known people in the province, have been entered for trial at the regular term of the divorce court which opens in this city on July 7. Judge Gregory presiding. On that date judgment will be delivered in three other cases, which were tried at the February term of the court.
The following is a list of the new cases:—

Dr. William A. Ferguson vs. Bertha Ferguson.
Madeline Douglas Edith Clark vs. Robert Clark.
Beulah Longfellow Harris vs. Edward Alfred Harris.
Madeline Whitlock vs. Julius T. Whitlock.

Dr. Ferguson, plaintiff in first case, is a prominent physician, practising in the city of Montreal. His wife is a daughter of the late Edward Sinclair of Newswale, and a sister of Mrs. John McKane of that place, obtained a divorce from her husband some time ago in California, and has since married again. She is now resident of Illinois. An absolute divorce is asked for on the ground of adultery.

The plaintiff in the Clarke case was formerly Miss Clark, niece of the late Sir A. T. Gault, and resides in Montreal, where her husband is agent of the Bank of Montreal. She is asking for a legal separation.

In the Harris case the plaintiff is a daughter of Mr. Peter S. Archibald, one of the commissioners of the Central Railway, and the defendant is a son of the late Mr. Christopher Harris of Montreal. The couple attained some notoriety over a shooting scrape, which occurred in the west some years ago, and have not since lived happily together. An absolute divorce is asked for on the grounds of adultery.

HIS FIRST IMPRESSION.

"Are you romantic?" she chirped after a long silence.

"Exceedingly," replied the Chicago man as he lit another black cigar.
"Well to tell the truth," he responded, after a minute's meditation, "it reminds me of the half of a pumpkin pie and—"

But the Boston girl was gone. Such gross allusions to Chicago were none the less her aesthetic nature could tolerate.

Steamer Montrose Struck Dock
Doing Much Damage to Hull
and Wharf.

(Special News Service.)
QUEBEC, Thursday. — Sixty of a batch of 116 Calacians, who arrived by the C. P. R. steamer Montrose from Antwerp were held by officials for deportation because they lacked the \$25 which they must possess before landing according to the new law. In landing the Montrose struck the dock bending her bow plate badly and doing thousands of dollars of damage to the dock.

"Say Bobby," said the young man in the reception hall, "I'll give you a dime if you'll tell me what I'm here for."
"All right," rejoined the little fellow, "and if you'll make it a quarter I'll tell father."

LISBON, Monday. — The Mundo prints a romantic story about King Manuel's attachment for the young daughter of a lady-in-waiting to Queen Amelle, which threatens to dislodge the matrimonial plans which are being laid for him. King Carlos and Queen Amelle were fully aware of the fondness of Manuel, when a prince, for the girl, who is connected with the highest Portuguese nobility, but they considered it merely a childish fancy. Since Prince Manuel's unexpected accession to the throne, a suitable alliance with a European royal house is regarded as a necessity of state. Queen Amelle and the Duke of Oporto have been casting about to find an available princess, both favoring one of British extraction, because of the close relations between the countries. A few days ago they were openly canvassing the matter in the King's presence, when to their great surprise, he suddenly announced as his unalterable choice his early love, and proclaimed his determination either to marry her or nobody. Remonstrances on the ground of reasons of state were without effect, and as a consequence the lady-in-waiting and her daughter will be asked to go abroad, in the hope of a long separation will cure the King of his boyhood's love.

CARLETON COUNTY JURY'S VERDICT

After Hearing Strong Evidence Prisoner Found
Not Guilty.

SCORED BY JUDGE

(Special News Service.)
WOODSTOCK, Wednesday. — This is the most extraordinary verdict I have ever heard. I cannot congratulate you upon it. Jurymen having taken an oath, as you have, should pay some attention to the evidence. This was a plain, clear case. I trust that not one of you will ever again be permitted to take a place here as a jurymen. It is actions such as this that have brought disgrace upon the name of Carleton county.
This is what Mr. Justice McLeod said to the jury this afternoon after they had declared Richard Gray not guilty of incest. They had considered the evidence for a little more than one hour.
To Richard Gray, Judge McLeod said, "Prisoner, I am obliged to discharge you because this jury has said you are not guilty, which is not in accord with the evidence."

N. B. PEOPLE ARE INTERESTED IN ESTATE

Jury Will Decide Whether
Mrs. Hannah Feldman
was Influenced.

VALUABLE ESTATE

Pretty St. John Girl Interested in
Case--Married Deceased Lady's
Son--Cut off in Will.

(Special News Service.)
BOSTON, Thursday. — By the ruling of Judge George of the Probate Court a Supreme court jury will be called on to decide whether Hannah Feldman, of 811 Beacon Street, Boston, was unduly influenced when she made her will disposing of an estate worth over half a million dollars. The innocent cause of this battle for fortune is Mrs. Edward Feldman who was Margaret L. Myers, of St. John, N. B.
Edward Feldman was cut off from the permanent use and disposition of the Feldman estate because he, a Hebrew married Miss Myers, a Catholic. The pretty St. John girl was employed in a Boston restaurant when young Feldman first met her. The rich young Jew fell head over heels under 15 years of age an indictable offense, punishable by a heavy fine, is the object of a measure to be introduced by Hon. Mr. Aylesworth. Tobacco sellers will also lose their licenses for such offenses.

According to the will Edward's income was to cease with his death and his position was made for his children.

The St. John girl testified before Judge George that for over a year after the marriage she did not visit Edward's mother owing to statements made to the testatrix concerning her by other members of the family.

SHOULD PROHIBIT SPRING FISHING

Black Salmon Should Not
be Fished--Are Not Fit
to Eat.

USELESS SLAUGHTER

The following paragraph is from the Fredericton Herald:

"Messrs. J. W. Fairley, J. A. Winslow and F. A. Janney returned today from a fishing trip to Bedford, bringing with them twenty salmon and grise and three trout, which they caught with a fly in the Southwest Miramichi river on Saturday. The salmon ranged in weight from three to twenty pounds, and the largest trout weighed three pounds. They had splendid luck and enjoyed the sport very much. Feeling no doubt that some of their friends might be inclined to doubt the story of their success, they brought the total catch with them and had it on exhibition for a time at Mr. Winslow's office, St. John street."

This is a species of sport which should be prohibited. These salmon and grise are what are known as 'black salmon' or salmon which from some cause have not been able to proceed to sea for the winter. They are not fit to eat, nor are they good enough to make the catching of them exciting. They are of no value at this time of the year, but if allowed to go to sea would return later as merchantable salmon.

The Fish and Game Protective Association should use its influence to have an act passed to prohibit this fishing and thus help preserve this valuable game fish.

You might save up something for a rainy day by investing in a mackintosh and a pair of rubbers.

PORT DANIEL

(Special News Service.)
PORT DANIEL, Thursday. — It is quite a while since we have heard any news from our little village. We have no doubt it was because the weather has been bad and the weather not too fine as it is most everywhere in spring nothing seemed interesting. But now we are enjoying lively weather. The roads are nice either for walking or driving. People are very busy farming this week, and they only wish for the weather to continue fine so that the busy time will soon be over.

Lobster fishing seems to be quite a failure this spring. The fishermen are getting discouraged with their catch, but we hope they will do well yet.

The river drives are not down yet, owing to the lack of water.

Mr. Charles Verge, of Carleton, is visiting at the uncle's, Mr. J. Burright.

Miss Eliza Young is visiting friends in Port Daniel.

Mr. and Mrs. N. Menard of New Carlisle are in town. Mr. Menard will enter the Hotel Dieu hospital where an operation will be performed.

PURSE STOLEN.
A young lady's purse came down on the Maritime express yesterday morning had a purse containing a sum of money taken from her. The guilty parties is not yet known.

STOOD WELL.
The granolithic pavement put down last year stood the test of winter well. The portion detached from adjoining buildings has not cracked. More of this will be laid this summer.

WRECK CLEARED.
The wreck at Millstream was cleaned up on Sunday. Two wrecking cranes were there and lifted bodily the large locomotive and placed it on the rails. This engine is now in the shop here.

Weak women should read my 'Book No. 4 For Women'. It was written expressly for women who are not well. The Book No. 4 tells of Dr. Shoop's 'Night Cure' and just how these soothing, healing, antiseptic suppositories can be successfully applied. The book and strictly confidential medical advice is entirely free. Write Dr. Shoop, Racine, Wis. The Night Cure is sold by A. McG. McDonald.

And many a man is unable to keep change in his pockets because of his wife's small hands.

Ask for Minard's and take no other.

Floorglaze

It does what paint can't do

Paint soaks into wood floors—and leaves a porous film a-top. But Floorglaze soaks in and leaves a glass-like, dust-proof, germ-proof, can't-wear-off surface. Just as good outdoors as indoors. Ask at the store—or ask us.

BLACK CAPE

(Special News Service.)

BLACK CAPE, Monday.—J. B. Henderson and Angus Campbell attended the Liberal Convention which was held at New Carlisle on Friday evening. Quite a number of our young men who have been working on the A. Q. & W. Ry. returned home on Wednesday. Mr. J. A. Gault was in Quebec last week on business.

Mr. James Carry, of Sydney, C. B. is on a visit to his home here. Mr. W. A. McColl was sent down to New Carlisle on Friday on business, returning on Saturday.

Mr. J. H. Sturatt of Little Canada, has his mill running in full swing under the management of Mr. John McColl.

The home of Mr. Alfred LeBlanc was totally destroyed by fire on Friday evening.

PROVED BEYOND DOUBT.
The disappointed victims of the Catarrh remedies should read the statements of J. R. Smith, of Lake Stream, N. B. In Catarrh he found an absolute cure and says: "Last winter my little girl of eight caught cold which lodged in her ears and all the doctors failed to cure her. She became deaf and nothing helped. By inhaling Catarrhose she got relief and gradually the discharge went away. She was cured perfectly of Catarrh. Personally I can recommend Catarrhose for coughs and throat irritation; it's a wonderful medicine." Sold everywhere 25c. and \$1.00.

BATHURST

(Special News Service.)

BATHURST, Tuesday.—Frank C. Meahan, who has been attending St. Dunstan's College at Charlottetown, returned home last night, and took up a position in the Royal Bank this morning.

Charles Williamson yesterday sold another of the horses recently purchased in Montreal. This time the purchaser was P. Ullman of Quebec River. The animal is a dark bay mare, weighing about twelve hundred pounds and an exceptionally nice driver. She had many admirers around and Mr. Ullman was not a bit too soon in picking her up.

The lumber from Pabineau river ran into the main river last night. Lumbermen seem to be exceedingly lucky with the drive this season.

Many friends of Mrs. A. D. McCully are delighted to see her around again. A message from Montreal this evening reports Allan Branch having successfully passed through an operation yesterday. Mr. Branch left here Saturday night accompanied by Dr. R. G. Duncan and did not expect to be operated upon until today.

Geo. Ross, Monton, is in town in the interests of his firm.

P. G. Mahoney, Melrose, is in town today.

Dr. O. J. McCully St. John, is at the Robertson House.

You'll try it today, 50c. at all dealers.

The new cruiser battleship Indomitable recently arrived at Portsmouth, having successfully completed her two-fifth power machinery trial on the way from the Clyde.

As the Indomitable is the first of the three Indivisible to be built and to the Admiralty, a considerable amount of interest is being taken in her, quite as much, in fact, as was taken in the Dreadnaught.

The Indomitable looks more like an elongated Dreadnaught than like a cruiser or, although officially classified as one. Her armament is much more powerful than that of the average battleship, comprising as it does, eight 12-inch guns, which is two fewer than the Dreadnaught. She displaces 17,250 tons and has turbine engines capable of propelling her at a speed of 25 knots.

No other navy in the world can show a cruiser nearly as formidable as the vessel. Despite her huge bulk, she is a good sea boat, and quite easy to handle.

Among those who watched her arrival at Portsmouth were Lord Tweedmouth, Sir John Fisher, and other lords of the Admiralty. Exceptional precautions were taken to preserve secrecy regarding the interior of the vessel.

The crucial test of the full speed trial is yet to be made, and as great importance attaches to the gun trials as to those of the Dreadnaught.

NIP AND LUCK BETWEEN LEADERS

Con. A. McLellan is Leading in Contest To-Day.

MANY NEW SUBS

Conductor McLellan leads again today having regained the position held by him for so long. His friends are bound that he should win and are determined to keep him in the first place from now on. Subscriptions are coming in at a lively rate and the score is mounting up. There is also a marked increase in the street sales and the news boys are making a harvest in handling the Graphic.

From now on the demand will steadily increase.

One feature of the competition is the good spirit displayed by all who are taking an active interest in it. Although competition is keen and all are working hard for their favorite, yet the best of feeling prevails and many jokes are cracked at the expense of each side.

From the Graphic's standpoint the competition has so far proved a success beyond our most sanguine expectations. It has added a large number of permanent readers to our list and we venture to state that today we enjoy a larger town circulation than any daily in the Maritime provinces published in a town of a like size to Campbellton. In this respect we may state that we thoroughly cover the town, having nearly double the combined circulation of Events and Tribune.

This should influence advertisers when placing their contracts. We are always willing and anxious to have advertisers or prospective advertisers examine our list to satisfy themselves that our assertions are true.

The standing in the contest today is:

A. McLellan,	12,244
Geo. Fawcett,	12,181
J. A. Stevens,	5,423
C. Smallwood,	1,772
J. McCormick,	1,192
J. Layole,	678
Ben Gorham,	589
H. H. Bray,	426
A. J. Morrison,	250

TO CURE TOOTHACHE.
Search over the whole globe and you'll not find the equal of Nerviline. An aching tooth it relieves at once. Fill the cavity with bating dipped in Nerviline and rub the gums with Nerviline also. If the face is swollen and sore, bathe with Nerviline and then bind on a hot flannel. This can't fail because Nerviline kills the pain outright. Just as good for carache, neuralgia or stiff neck. A 25c bottle of Nerviline cures the aches of the whole family. Try it.

An amusing incident, of childhood related by the popular and gifted actor, Messrs. Louise Coleman, who will appear here in the role of 'Cigarette' in Walter Coleman's production of 'Under Two Booms'.

A bucolic clergyman, out for a Sunday afternoon stroll chanced to come across a juvenile member of his congregation sitting with willow rod and bent pin, beside a stream.

"My son," said the minister, sternly, "don't you know that it's wrong to fish on the Sabbath?"

"Fish on the Sabbath?" repeated the boy, innocently. "Why, I'm only teaching this poor little worm how to swim."

CARLETON

(Special News Service.)

The engagement is announced in Montreal of Miss Anna Leonard, eldest daughter of Mr. P. R. Leonard, merchant of Carleton to Mr. J. M. H. LeBlanc, son of Mr. Octave LeBlanc of this place. The wedding will take place early in July.

Mrs. Theophilus LeBlanc has returned home from Lancaster N. H. where she had been spending the winter.

Mr. and Mrs. Thos. B. Clapperton of Maria paid Carleton folks a flying visit on Sunday last.

Mrs. Albert Allard left on Monday's Ellen for Campbellton, being the invited guest of Mrs. Charles A. LeBlanc.

A liberal meeting was held here on Sunday afternoon by Mr. Fabien Boudreau of Bonaventure and was attended by a large number.

Mr. Joseph Fournier of St. Onge who had been receiving medical treatment in Quebec hospital last few months, has returned home on Saturday perfectly well.

The many friends of Mrs. Abraham Boudreau will be sorry to hear that she is confined to her bed with inflammation of the lungs.

Rev. Father Belanger left on Monday's train for the Forty Hours in Matapedia.

Mr. John B. LeBlanc Customs officer, and a few others attended the convention in New Carlisle last Friday.

THEALMENTS OF WOMEN.
The girls and women who suffer with what they think as 'Female Trouble' would look to their kidneys; they'll soon find the source of their ill-health. The kidneys are closely allied with the female organs, and if the vitality of the kidneys is interfered with, great suffering occurs. There is no better medicine than Dr. Hamilton's Pills—they stimulate and strengthen the kidneys, assist other organs to do Nature's work, cleanse the system and thereby maintain perfect health. Great benefit and certain cure is guaranteed for all women who use Dr. Hamilton's Pills.

(Special News Service.)
ST. JOHN, Monday.—James Mallett, an inmate of the Provincial Hospital for Nervous Diseases, escaped from the institution this morning and has not yet been recaptured. He effected his escape by tearing the iron grating from the window and lowered himself to the ground by means of a line made of torn sheets. He was in his bed at 4.30 o'clock when the nurse made the rounds of the patients, and was missing at 9 o'clock.

About a year ago when being brought to the hospital, Mallett eluded his guard on board the train, jumped from the window while the car was travelling at a high rate of speed and was recaptured for some days. His mania is suicidal and it is feared that if he is not captured soon he may carry out his plan of self-destruction.

THROW AWAY LINIMENTS

Here's the Prescription to Cure Rheumatism.

Liniments only reach the skin and the muscles directly under the skin. Now, liniments can't cure Rheumatism. They simply deaden the nerve for a time. When the effect wears away, the pain returns worse than ever.

If the coveles do not move regularly—if the kidneys are strained or weak—if the skin is dry or harsh—if the blood is sure to be filled with impurities or uric acid. This uric acid is changed into uric acid which is the poison that causes rheumatism.

Now, the only possible way to cure Rheumatism is to prevent uric acid from being formed. Logically, the only way to do this is to keep kidneys, bowels and skin in good working order, and prevent the stomach from being too acid. And the only way to do this is to take "Fruit-a-Lives."

These marvelous tablets of fruit juices and tonics act directly on the three great eliminating organs—bowels, kidneys and skin—and put them in perfect condition. That is the only secret of their great success in curing Rheumatism, acidosis and lumbago. See a box—4 for \$2.50. "Fruit-a-Lives," Limited, Ottawa.
