STAGGERING FIGURES

A farm woman sat down with her pencil one rainy, dull day and figured up all the work she had done in the 30 years of her married life.

In that time she had served 335, 425 meals.

She made 33,190 loaves of bread. She made 5,980 cakes.

And 7,960 pies.

She canned 1,550 quarts of fruit. Raised 7,660 chicks.

Churned 5,460 pounds of butter. Put in 36,460 hours sweeping, washing and scrubbing.

She estimates the worth of her labor conservatively at \$115,485.50, none of which she ever collected. But she swears she still loves her husband and her children and wouldn't mind starting all over again for them.

WORDS OF WISE MEN

Humility is like a tree whose root when it sets deepest in the earth rises higher, and spreads fairer and every step of its descent is like a rib of iron.

Take it as a rule, proper to be observed in all occurrence of life, to preserve a disposition to be pleased.

Nothing can bring peace but yourself.

Black Cats!

Carloads lots of hay and oats are stored for the horses in Moirs stables. To keep rats and mice away cats are necessary. These are all black to match the black horses used in Moirs deliveries.

Practically all the fifty horses are Black Beauties. Mostly they

are pure black Percherons, but one of the black ones is of registered Clydesdale pedigree.

Frank Boutillier, noted horseman, takes a loving pride in the selection and care of these horses and sees that the men clean harness and wagons daily so that all teams will stay spotless.

New Strength For Weak Stomachs

INDIGESTION DISAPPEARS WHEN THE BLOOD IS ENRICHED

The urgent need of all who suffer from indigestion is a tonic to enrich the blood. Pain and distress after eating is the way the stomach shows that it is too weak to perform the work of digesting the food taken. In this condition some people foolishly resort to purgatives, but these only further aggravate the trouble.

New strength is given weak stomachs by Dr. Williams' Pink Pills because these pills enrich and purify the blood. This is the natural process of giving strength and tone to the stomach, and it accounts for the speedy relief in stomach disorders that follow the use of Dr. Williams' Pink Pills. The appetite revives food can be taken without discomfort and the burden and pains of indigestion are dispelled. Miss Mollie Averill, Clarendon, Man., proves the value of these pills in cases of this kind. She says: "Some years ago I had a terrible attack of stomach trouble. My stomach rejected all food and I could not even keep down a light custard. I tried some tablets recommended for dyspepsia, but they did not do me a particle of good. Then I got medicine from a doctor, but with no better results. By this time I had changed from a robust, healthy girl to a complete skeleton, losing flesh daily. Then my parents asked me to try Dr. Williams' Pink Pills and I began their use. After taking them for a short time I began to feel better and continued the treatment until I was completely restored to health. Since, on rare occasions when I have felt the need of a tonic, I turn to Dr. Williams' Pink Pills and they never disappoint me. Most members of our family have at some time taken the pills with good results, so I now always recommend them to all in need of a reliable tonic."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Lamp Burns 94% Air
BEATS ELECTRIC OR GAS
A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).
The inventor, J. M. Johnson, 246 Craig St., W. Montreal is offering to send a lamp on 15 days' TRIE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.
A dash of vinegar added to the water in which tough meat is cooked will go a long way toward making it tender.

The Fall Weather Hard on Little Ones
Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Co., Brockville, Ont.

THE SPIRIT OF THE AGE.
Today we are surrounded by people who are impressed with the thought that the world is going to the bad or that is their term to express this one thing, in short that the modern age is too gay for their "mid Victorian ideas."
Human nature today is quite the same as it was thousands of years ago and there is as much good and vice in the world today as there was at that time. The fact that some "weak backbonesed creatures" takes a "down ward path" gives no one a reason to condemn the modern generation and everything that is being put forward in the line of recreation for the young people of today and the generation yet to come.
If it last some one wailing vengeance or the dance halls and theatres it is some, one else knocking the numerous automobiles or perhaps the woman who has bobbed her hair or secured some convenient sport attire.
But if we look into these questions, as called "Demons of immorality" we can see the progressive side of the style as well as what people say tends to degrade the human race and lower woman's standard.
The Autos, it is said, have wrought as much havoc as the Bar Room, or even more, the modern beverage, Moon Shine. But just where would we be without our car? Of course when our grandfathers set by the fire side and bewail the fact that their granddaughter and grandson is off on a "joy ride" they sigh to think how the society rules have been degraded, quite forgetting the time when they too enjoyed parties when the horse "filled the bill" for a car. Now they have grown old and no longer enjoy the recreations of the young and they condemn autos of all kinds, even the little Ford that is "master of all situations." And it is the motor cars that puts the boom to business today; They may have their drawbacks but so has everything in this life.
Now every day people are arguing the bobbed hair question and saying that the women are trying, to imitate the man, indeed the idea of imitation the style of the opposite sex is far from their mind for they are only trying to and a style that is simple in order to save time when it is so precious amidst the "rush and rattle" of the world.
Since the past Great War woman has found that she may take her place in the world of labor as well as any man and now that she is no longer inferior to man, as of old she has a up with it; time perfect, not to suit herself and keep her about us every day we find incidents to prove that the progress of the world is advancing so the only thing for the past generation to do is to keep up with them as signs of regret will be of no avail and they will be left at home with the "horses and buggies".
One must simply keep in step" for the majority will lead and as years advance styles and conditions will also, for it such things did not happen since the beginning of creation we, the "flappers" and cake eaters" of today would be still living as our ancestors did in the "Old Stone" age so our modern girl and boy should be commended for their desire to keep things moving for the old proverb has it "Variety is the spice of life" and amid the gaiety of the present age we find as many progressive men and women as of old and business was never on such a high basis before so three cheers for the Twentieth Century and all who belong to it.

Having matters pretty much his own way, it was not difficult for the head of a flourishing financial out of college as one of the vice-presidents of the concern.
"Big position for a boy," suggested a friend.
"Pretty fair."
"Why don't you start the youngster at the foot?"
"Because I don't think he'd ever get any farther," was the candid reply.
"You are the sixth girl," a widow complained, "to whom I have proposed without avail."
"Well," the girl answered, "maybe if you wear one when making your seventh proposal you'll have better luck."
