London, Tuesday, Oct. 17.-The war There are rumors that the Boers have been repulsed at Mafeking and are attacking Vryburg. A Cape Town paper has a dispatch from the Orange River, stating that the telegraph wires have been cut between Vryburg and Kimberley, and it believed that the Boers are taking advantage of the presence of a large gathering of disloyal farmers at Vryburg, celebrating Nactchmal, to attack the town, hoping that the farmers will assist them against the British. Short, otic airs, which were taken up by the sudience, amid the waving of numberless Union Jacks. The lord mayor and sheriffs were loudly cheered on arriving, and the name of President Kruger provoked a storm of "Boohs." The lord mayor presided. A resolution, extolling the premier, Lord Salisbury, and the secretary of state for the colonies, Mr. Joseph Chamberlain, was proposed by Alderman Sir Reginald Hanson, seconded by Sir John Lubbock. Unionist member of parliament for London University, and en-

thusiastically adopted. Patriotic demonstrations took place today at Birmingham, Crewe and other towns, from which reserves started for Aldershot. The Atlantic Transport Company, which gave the United States Government a ship for hospital purposes during the war with Spain, has now done Great Britain a similar service. The admiralty have gladly accepted the vessel, which will be named the Maine. Her Majesty has subscribed £500 to the lord mayor's fund for South African refugees,

which has already reached £75,000. BOER FUNDS GETTING LOW. The Birmingham Post says there is excellent authority for the statement that several of the bonds given by Dr. Leyds, European representative of the Transvaal Government, and his agents for supplies purchased from continental firms have been dishonored. The supplies were purchased for the South African Republic, and payment is being pressed for. It is not likely, however, that the money will be forthcom-It is strongly rumored that Leyds' secret service fund has given

CAPE VOLUNTEERS.

The calling out of the Cape Colony volunteers is supplemented by a de-cision to raise 2,000 more volunteers in Cape Colony and 1,000 in Natal. Thus the total strength of the volunteer force in both places will amount to 12,500 men. Precautions are being taken for the

defense of Pietermaritzburg and Dur-

ban, in the remote contingency that

enemy may elude the vigilance of the British at the Ladysmith and Glencoe camps. The news that the Boers had arrived at Dannhauser raised hopes that they would risk an engagement in the open but it is now ascertained that the de-tachment which reached there was only a small advance body of Commandant-General Joubert's main column. The advance of the Boers was accompanied by some looting of stores at Newcastle

Nevertheless, there is serious disloyalty and much anti-British agitation in these districts, while the Free State Boers threaten an immediate invasion of Colesburg and Aliwal North.

COMMUNICATION STOPPED. The Commercial Cable Company has

Patriotic Demonstrations issued the following notice: "We are advised that the Natal administration announce that telegraphic communications with the Orange Free State and the Transvaal has been suspended. The Eastern Company notify us that censorship has been established at Aden on all messages for South Africa."

MAFEKING AND KIMBERLEY. Advices from Cape Town relate that excitement is kept up there by ceaseless reports of battles, but that caimness is visible in official circles, where the opinion prevails that Mafeking Farmers Grows Serious—Boers Still and Kimberley are safe. It is thought,
Advancing—No Serious Conflict Has too, that the Boers are not likely to attack Vryburg, in Bechuanaland, owing to the fact that the population of that district is largely Dutch. assumed that the refusal of the Boers office is still in the region of surmise to accept battle in Natal last week, when Gen. Sir George Stewart White advanced and endeavored to draw them through Van Reenan's Pass, indicates their unwillingness to com-mence hostilities. On the other hand, the Boers are probably too astute to play the British game, at the risk of an engagement on ground where artillery could be brought into play and cavalry moved rapidly.

A CAPE TOWN KICK. The Daily Mail's correspondent asserts that Sir Alfred Milner is worked to death, and that Cape Town is crying out with bitter resentment against what is called the Schreiner cabinet's betrayal of Mafeking by its constant refusal to send a force of volunteer artillery thither. Many residents of Cape Town have relatives at Vryburg, and they are furious with Messrs. Merriman and Sauer, respectively, colonial treasurer and commissioner of public works, and the ministers are SEVENTY-FIVE OCEAN CARRIERS mobbed whenever they appear in pub-lic. Mr. Hoffmeyer, the Afrikander leader, has gone to the scene of the outburts of indignation. On Sunday night the streets were filled wath immediate occasion was the meeting angry citizens, and it was feared that convened by the lord mayor of London, rioting would occur. This, combined with the pressure of the imperial government, brought the Schreiner government to a sense of its peril, as well ready been chartered. as of its duty, and moved it to decide to call out the volunteers. The ministerial party also worked Its hardest to prevent the ovaition to Mr. Conyngham Greene on his arrival from Pretoria, but failed. The volunteers are 7,000 strong, and have 11 pieces of artil-

This will delay the anticipated and hoped-for assault on the strong British position at Glen-

The Natal invasion was made in three columns at dawn on Oct. 11, through Bothas Pass, Laing's Nek and from Wakkerstroom, the objective point of the invaders being Newcastle. The Boers utilized several thousand natives who were tramping from the Rand to drive

their heavy guns up Laing's Nek. Dispatches from Dundee say that according to the reports of refugees, the Boer invaders of Natal are estimated at 16,000. All the non-combatants and women and children have been sent

ACCOUNT MAY BE EXAGGERATED

London, Oct. 17.-Today's news from the western border probably reduces the alleged heavy fighting at Mafeking to ordinary proportions. Apparently, the earlier sensational stories originated in the skirmishes between the armored train and small detachments of Boers, although since then much may have happened to the little garrison.

It is difficult to understand how refugees arriving at Lorenzo Marquez should have come into possession of news of serious Boer losses at Mafeking. At the same time, it must be rembered that much news from the Transvaal is likely to come by way of Delagoa Bay, as most other channels

FROM BOER SOURCES. Pretoria, Oct. 14 (delayed in transmission)—Heavy fighting took place this morning north of Mafeking. An armored train sent to repair the railway line opened fire on the Boer commando. One burgher was killed and two were wounded. A secong engagement followed, in which nine British were wounded. Then, while Gen. Cronje's troops were near the broken railway bridge, nine miles north of Mafeking, an approaching train, loaded with dynamite, was fired upon

and blown up. There was no causalties on the Transvaal side. Pretoria, Oct. 15 (delayed in trans-mission)—Further dispatcher received by the government say that fighting continues north of Mafeking. The British, after the second engagement, retired in the drection of the town; but they resumed the attack shortly afterwards, two burghers being killed and three wounded. The com-mando engaged was impeded, owing to the want of heavy artillery, which was subsequently obtained from Gen. Cronje.

Miss Edyth Hyman's Testimony in the Scotsman Robbery Cases

In the preliminary trial at Montreal on Saturday, William Baynes, one of the crew of the Scotsman, was charged with stealing some chains, brooches. pins, a chatelaine, etc. The articles had been found on the prisoner, and were deposited before the court. Miss Edythe Hyman, of this city, gave her deposition. She identified the jewelry produced as being her property. She had left the articles in a case in her cabin, the Friday morning of the wreck. She had also left in her cabin a valise, which did not lock, and some money in a little bag. The stolen was worth at least \$100. Miss Hyman did not recognize the accused.
Questioned by Mr. J. C. Walsh, counsel for the defense, the witness declared that she never offered any reward to sailors for bringing her some of the articles in her cabin. She heard only one passenger make these promises, and it was Mrs. Moore, of Hamilton. As a matter of fact, every passenger took the clothes he could get as long as they were not claimed by the owners. The sailors generally did not take the clothing of the pasengers, as their own were sufficient. The crew, as a whole, behaved properly, and, two days after being on the rocks, a vote of thanks was tendered them. In reply to a question she said every-

London, Oct. 17.-The Anglican Church Corcress in session in London this week soms to have widened rather than have ressened the divisions in the national church. Lord Halifax, president of the English Church Union, and leader of the ritualists, is still defiant of the bishops in their suppression of incense and procession-al lights. The episcopate, he maintains, has the right to decide puestions of ritual, but has no title to enforce that right. What effect this intractable attitude will have upon the action of the clergy throughout the land remains to be seen. One outcome has been immediate. A churchman's liberationist league is in course of formation. These disestablishers among the Anglicans hope, with the aid of the moderate Nonconformists, to force disestablishment to the front. Their indial difficulty is to devise a scheme of endowment sufficiently narrow to win Anglican support, yet sufficiently broad to carry Nonconformist ap-

Sir William Vernon Harcourt and Mr. John Moriey will undoubtedly make a statement of their views in parliament today, but their actions will be guided largely by the line which Mr Henry Campbell-Bannerman, leader of the opposition in the House of Commons, takes up. It is considered probable that Mr. Morley will vote for a hostile amendment to the address in reply to the speech, if Sir Henry moves what he considers a reasonable and avpropriate one. The Irish leaders, however, are certain to move an amendment condemning the government's noticy. Although it is fairly centain that subject but the Transvaal will be ruled out of order. Mr. James Galloway, member for Ross and Cromarty, has decided to test the point by giving notice of an amendment on the Crofter

The Whole Countryside Turned Out to Hear Him.

Canadian Loyalty Above Reproach-An Eloquent Peroration. London, Oct. 16.-Her Majesty's Gov-

ernment have received with much pleasure your telegram of the 13th October, conveying Canada's generous offer of 1,000 troops, which they gratefully accept.

(Signed) CHAMBERLAIN. Bowmanville, Ont., Oct. 17 .- Sir Wilfrid Laurier, at an enthusiastic meeting of the Liberals of Durham yesterday, read amid thunders of applause the telegram quoted above. The people of Durham had enjoyed the privilege of hearing the principles of Liberalism discussed by four ministers of the crown—Sir Whifrid Laurier, pre-mier of the Dominion; Hon. Wm. Mu-lock, postmaster-general; Hon. W. S. Fielding, minister of finance, and Hon. John Dryden, minister of agriculture for Ontario. The premier's speech rang clear with a message of hope and prosperity for the future of Canada, and with a practical imperialism which found a quick response in the hearts

of the vast audence. The whole country side turned out, hundreds coming from all the outlying townships and adjacent ridings. South Ontario was well represented. Perhaps never before in the history of the town has there prevailed so much enthusiasm. The schools were closed and the teachers and hundreds of the school children flocked to the drill hall. Fully one-third of the audience was composed of women, whose mons,-Measures will be laid before you varegated headgear and bright cosrumes lent a theater atmosphere to the gathering. The platform was gaily bedecked with flags of all nations, while a big Union Jack fluttered above them all. Around the front of the rostrum was stretched a huge banner, bearing the words, "Welcome to the Premier of Canada.'

present I have invited your attendance The audience was well ordered and appreciative. The various points made by the speakers were roundly applauded, and the premier received an ovation that must have done his heart good.

SIR WILFRID'S REMARKS. Sir Willrid, in beginning his speech,

said that this was the first time he 000000000000 had had the privilege of visiting West Durham. He had received many invi-TERSE TELEGRAMS & tations, but circumstances had always prevented his acceptance. "I am proud today to be in the good old riding of occoccocco Angry citizens of Wilson, La., on the riding represented so long by my Sunday lynched J. L. I am proud to be in worthily represented by my dear, my The steamer Gaelic has just dumped good, my excellent friend, Robert at San Francisco silks and specie from Beith. The policy of the government had mandery of the C. O. K. G. in that been to reform the tariff on broad imperial lines. Canada was no longer . mere conglomeration of provinces. She was a life in the empire. She was a day, but will not be relieved of his command at the Presidio, San Francisco, until all the volunteers return nation, though but a colony. They had made strong efforts to facilitate the shipping of goods to England, oy means of cold storage, in order that Canadian goods should displace Amercan goods in the English market. The speaker was not hostile to the United States. He would like to trade with them, but if he could not trade. heart would not break. Canada could prosper without them. Canada would compete with them in the markets of

he world. (Applause.) Sir Wilfrid produced statement issued by the American consulate at Liverpool. But before going into figures, he said that when he wanted a minister of agriculture he had chosen a practical farmer, Mr. Fisher, who had done wonders for the development of agriculture by perfecting a cold storage system and by sending agents to England in order to establish trade. The efforts of Mr. Fisher were unique, and produced excellent results.

He read the figures, showing the Canadian and the American amports into the port of Liverpool for 1897 and 1898. In 1897, Mr. Fisher's policy was not in vogue, but when it did come into force, in 1898, the imports of Canada showed a large increase—immense in some cases—and far exceeded those of the United States, which showed a falling off. He referred especially to imports of apples, bacon, fresh beef, but-

ter and eggs. These were facts, not fantastical figures. The government's policy was to capture the English market, because Canada was an auxiliary kingdom of Britain.

THE CANADIAN CONTINGENT. A perceptible stir prevailed among the 4,000 persons closely packed in the drill hall when Sir Wilfrid turned to talk of the Canadian contingent. This

was what many of them had come to

hear about, for Durham, with its Fortysixth Battalion, has many fighting sons. There was another question, began the premier, that was largely engaging the attention of Canadians. England, our mother country, had just entered on a war with the Transvaal Republic. He would not speak of the merits of the case, though he regretted that the Transvaal had not recognized, as Canada had, no difference in race and creed, and given to every resident who had sworn allegiance equal rights and

equal justice. (Applause.)

Canada was in the war today. She had undertaken a few days ago to send 1,000 men to the Transvazi. (Applause.) Yet the government had been attacked concerning their action. Why? Because they had not done enough. Canada, some said, should do more. Canada should pay the troops. The troops should remain an undivided

Then, with a copy of the government's policy in his hand, he read Chamberlain's letter to the colonies.

Continuing, he said the government's policy was to accept the plans laid down by the colonial office, without

one lots of change.

"But in Toronto they are yelling treason at me because the troops will not be paid out of the Canadian treasury, and because they will not be kept separate. I am accustomed to the cries of treason and traitor. I have heard it all over Canada. Why have not these things been done? AN ELQUENT PERORATION.

In conclution, he said, in a magnifi-ant burst of true eloquence: "I do not know whether my political career or my natural life shall be short or long; but whether short or long, I cherish the type that I shall have so lived that when deposited in my grave every Canadias, be he friend or be he foe, be he Engleh-speaking or French-speaking, be he Protestant or Catholic, will have to say, 'There rests a man who has given the best of his life, of his syul, of his heart, to make us a united people.' Unworthy he may be, but it all events, great as these men were they could not have bestowed upon Canada greater love or greater thought than I have bestowed myself. (Cheers.) HIGHGATE FAIR.

The annual exhibition of the Orford branch of the East Kent Agricultural Society at Highgate was a decided success. The number of entries was several hundreds ahead of previous years, and the exhibits in every class, in point of excellence and quality, were ahead of anything ever shown there before, so that taken all in all, the officers and members of the association have every reason to congratulate themselves on the outcome of their efforts this year. It was estimated that about three thousand people visited the grounds during the second day. The Palmyra brass band discoursed choice selections. The total receipts amounted to about \$900. A CITY CASE.

One of a Thousand Such Comes to Light in the Queen City.

Mr. John Blow, 67 Princess St., Toronto, Cured of Lumbago and Diabetes-An Interesting Letter-High Praise by C. Oliver Iselin. for Dodd's Kidney Pills.

Toronto, Oct. 16.-This city is one of the finest in Canada and among the healthiest on the continent of America, but like everywhere else it has its victims of kidney disease. Nevertheless it is safe to say, however, that these cases are seventy-five per cent less common now than ten years ago, and but few of those that do exist are anything like so severe as formerly. This is due wholly and solely to the popular

use of Dodd's Kidney Pills.

Dodd's Kidney Pills have been found to be the only medicine that will cure Bright's Disease, the only cure for Diabetes, the only radical cure for Rheumatism, Lumbago, Scialtica, etc., and equally efficacious for Heart Disease, Dropsy, Parallysis, Bladder and Urinary Troubles, Women's Weakness, Blood Disorders and any other form of

Kidney Disease. Concerning their virtue for Lumago and Diabetes, Mr. John Blow, 67 Princess street, Toronto, says: "I have been a great sufferer with Diabetes and Lumbago for years. Every remedy I could hear of was given a fair trial in hopes it would help me. But until I began to use Dodd's Kidney Pills my hopes were all in vain, and my tor-ture night and day unbearable. No one could imagine the sufferings I endured; night and day my paims kept me in misery. It seemed as if there was meither relief nor cure.

"When I began using Dodd's Kidney Pills I had lost fasith in all medicines. But from the first one of these Heaven-sent Dodd's Kidney Pills, I experienced relief. Every succeeding dose hastened my complete cure.

"I have used in all five boxes and am thoroughly cured—a strong, healthy, hearty, vigorous man, whereas before I started to use your Dodd's Kidney Pills I was a constant and miserable sufferer. I cannot find words to ex-press my entire confidence in Dodd's Kidney Pilla."

Yankee Boat Beat the Britisher by Ten Minutes.

New York, Oct. 17. - In a whole-sail breeze, over a windward and lee-ward course of thirty miles, the defender Columbia yesterday scored against the Shamrock the first race of the 1899 series for the America's cup. The Columbia bounded across the finish line fully a mile and a half ahead of the challenger, defeating her by 10 minutes and 14 seconds actual time, or 10 minutes and 8 seconds corrected time, after allowing the six seconds handicap, which the Columbia must concede to the challenger, on account of her longer water-line. It was a magnificent race, skillfully sailed and de-

The first few minutes of the race were the most interesting. The yachts a beautiful picture as they raced away. Their sails, to the nautical eye, were perfection in fit. The crews were piled upon the weather rail as the yachts smashed into the head seas, pounding the spray from their It was soon apparent that the Columbia was forging ahead. The clear water began to show between The Columbia not only seemed to outfoot the challenger, but also pointed higher. Within 15 minutes she established a lead of five lengths, and from that time on the race was hers.

BULLETINS. Cable Boat, Oct. 16.-The following is the official time of start: Shamrock, 11:01:03; Columbia, 11:01:06.

11:30 a.m.—Both boats crossed the line on the starboard tack and stood northeast towards Rockaway. They were still on that tack when they went out of sight in the fog. Long Beach, 12:45 p.m.—The fog con-

tinues to increase, but the wind re-tains its strength—about six miles. The boats, it is estimated, have covered between 10 and 12 miles of the course. Long Beach, 12:25 p.m.—Columbia is now more than a mile ahead of the Shamrock.

Cable boat, 1:43 p.m.-A returning boat says that at 12:35 the Columbia had a lead on the Shamrock of about three-quarters of a mile. 1:55 p.m.—The wind is now southeast

and increasing in strength to about 12

There was a stirring scene as the columbia approached the finish with all her bulging balloons drawing. The excursion boats had gathered there, and as she swept across the finish line, steam whistles shrieked, the sirens wailed, the Corsair and several other yachts fired stalutes, and the crowds on the side-wheelers cheered. The crew of the Columbia gathered aft and hurrahed. After the Columbia had lowered her headsails and taken the tow-line from the tender, the crowd waited over ten minutes until the Shamrock had crossed, and the fleet had given her a stentorian ex-pression of goodwill. Then the steamers scampered after the Columbia, crowding about her and cheering her again and again, while the bands played patriotic airs. They escorted her all the way to her anchorage inside the Hook.

It could not be called an exciting finish, nor was it a tame one altogether. So few boats were present to witness ot, and the weather was so depressing that, as a spectacle, the finish might be called a poor one from a picturesque standpoint. Both in time and distance the yalchts were so flar apart that it was a rather poor finish from a sportsman's standpoint. When the Columbia swept across the finish line at 3:54:59, the Shamrock was hardly visible astern, only the outline of her sails being traceable in the mist. Nine minutes and eleven seconds in time elapsed between the finishing line of the Columbia and the Shamrock, which meant in

distance about a mile and a half. The official summary is: Time at the turn, Columbia 1:48:19, Shamrock 1:58:08. The elapsed time of the Columbia from the outer mark to the finish was 2 hours 6 minutes 40 seconds; the Shamrock's, 2 hours 7 minutes 2 seconds, showing that in the 15-mile run before the wind, the Columbia had gained 22 seconds.

After the race, while the yachts were being towed back to their moorings Sir Thomas Lipton's yacht Erin ranged up alongside the Columbia. The Erin's officers and men, led by Sir Thomas, gave the American yacht three hearty cheers. They were quickly responded to with three cheers and a tiger from the Columbia's men, led

The New York Yacht Club, which has the management of the cup races. is the principal financial sufferer by the repeated failures. The officers say each attempt to race costs the club \$3,000. This includes the club steam-boat, half a dozen tugs and the incidental expenses. It will be seen that the club has thus far expended \$21,000 in the attempt to pull off one race. It must expend at least \$9,000 more, inasmuch as one yacht must win three Sightseers have spent over \$2,500.000 in previous efforts to see a

ROBBERS KILLED

Two Shot Dead and a Third Took His Own Life.

Sevierville, Tenn., Oct. 16. - Three masked robbers entered the bank here and attempted to rob the vault. President Wm. McMahon threw his loose money into the safe and seized a gun. His first shot killed the leader of the robbers, Peter Thurman. The assistant cashier, John Marshall, rushed out of a side door, and shot two of the robbers' horses. Cal Derrick, one of the robbers was arrested after being wounded. Will Derrick, the third robber, got on one horse and rode a mile, hotly pursued by a posse. On being surrounded by the men he fled into a barn, where he committed suitcide.

The War News.

The war news from the Transvaal will be apt to be somewhat meager for a time. A pretty strict censorship, for military reasons, will prevent much an official kind from leaking cut. Then the wires have been cut in many places. The full nature of the Boer campaign has not been disclosed, but naturally it would be to do as ble before the main British forces arbey of the British is to hold their ground as well as may be until the full tale of troops disembark from the transports. Readers will find a stock of patience useful, and it may be well for them to read between the lines of all dispatches, in order to distinguish the sound grains of news from the chast of mere conjecture or sensational

A Calumny Crushed.

Immediately it became known that war was inevitable the Canadian Militia Department put all its energies in motion, sending rush orders to the ocean steamer and laying other plans for raising a Canadian contingent for service in South Africa. Not only this but for weeks before the Canadian Covernment had been in communicaas to the nature of Canada's contribution to the Imperial cause. The Dominion Government openly affirmed their desire to see the Canadian contingent preserve its Canadian identity, and late dispatches from Ottawa indicate that their wish in this respect will be acceded to by the Imperial authorities, to the extent of permitting the Canadians to remain an independent body, instead of being absorbed into the Imperial army. The conduct of the Canadian Government in the whole matter has been levelheaded and patriotic. The incendiaries should blow out their torches.

We thoroughly agree with the Catholic priest of Paterson who denounced from the altar in his church the practice of throwing rice, old shoes, etc., at weddings. Newly-wedded couples leaving Dutton ought to be clothed in a suit of armor to properly withstand the missiles of various kinds fired by all the youths of the town. It seems to be an unwritten law, at least in this section, that such couples are a fair target for almost anything from rice to gravel. The practice is a relic of heathenism, and should be discoun-

A Poor Pelicy.

[Woodstock Sentinel-Review.] There is one effect which the diatribes of such papers as the Toronto World, Hamilton Spectator, et al., against Mr. Tarte and the French-Canadians generally, in connection with the question of a Canadian con-tingent for the Transyaal, will have which the authors have probably not foreseen. Their circulation in the Province of Quebec will make it im-possible for Sir Charles Tupper to elect so much as half a dozen supporters there when the general elec-tion comes on. And, as we have said, these attacks will not injure Sir Wilfrid and his government in the other provinces. The Conservative leaders might well pray to be saved from their friends of the press.

Linotype Inventor in a Critical Condition in Baltimore.

Baltimore, Oct. 17.-Ottmar Mergenthaler, the inventor of the Linotype, is seriously ill in this city. He has been afflicted for some time with pulmonary trouble, and is now confined to his bea. Ottmar Mergenthaler was the son of Johann Mergenthaler, a public school teacher, born May 10, 1854, in Wurtemberg, Germany. He became a watchmaker's apprentice when quite young, and in 1872 came to the United States

to avoid military service, reaching Baltimore with just \$30 in cash. He drifted to Washington, and began work in the machine shop of an uncle. Here he met Charles Moore, a Virginian, who had invented a writing machine. From experiments with this, Mergenthaler evolved the Linotype machine, which is best known by his name. Hampered by poverty, his invention got into the hands of a syndicate in 1885, which was headed by Whitelaw Reid. Mergenthaler claimed he was frozen out of the syndicate because or his lack of fortune, and deprived or royalties. The matter reached partial settlement, but the originator of the greatest labor-saving device of the age will go to the grave a comparatively poor man and with a broken heart. He has been able to make a living recent ly by selling various small parts of his machine for repair purposes.

CANADIANS TO THE FRONT

Plenty of Volunteers for the Campaign in South Africa,

Toronto, Oct. 17 .- The announcement that the Canadian contingent will go as a regiment has been received with great satisfaction by military men, and recruiting is proceeding much more briskly as a result. Many employers labor are arranging to give employes who will go half-pay during their absence, and will keep their places open for them.

A movement is on foot to organize a battalion composed of volunteers in the different universities of Toronto service in South Africa. The matter has been brought before General Hutton, who has given his approval of the general idea.

Hamilton, Oct. 16. — The George E.

Tuckett & Sons Co. (Limited) have de-

cided to pay any of their employes who decide to go to the Transvaal with the Canadian contingent at the rate of 50 cents a day during the absence, and pay the premiums on a life insurance policy for \$1,000, besides giving them their old situations if they return. Mr. Tuckett called his employes together on Saturday and made them the offer, and immediately several of them decided to make applications for enlistment. Two Indian companies of the Haldimand Rifles are anxious to volunteer for service in the Canadian contingent for the Transvaal.

LABOR'S REALM

Detroit Street Railway Trouble Not Yet Settled.

Detroit News: The hope of the executive committee of the Street Car Men's Association that some agreemen could be reached with the company as to the disposition of the cases of the 29 conductors discharged for having discrepancies in their registers, has vanished. Instead has risen the feeling that the railway officials are not living up to the arbitration clause of their suprement and are trying to of their agreement, and are trying to make trouble instead of preventing it. Walking Delegate McLeod voices the opinion of the men in this wise: "The agreement between us and the company calls for written charges within 48 hours against any employe discharged. What the company has provided doss not cover this. We want to know, for example, whether the

or 100 passengers carried on the trip. The members of the executive committee have avoided all appearance of trying to force matters. We have failed. Now we turn the trouble oer to the association at the meeting called at 12 o'clock tonight in Bamlet Hall. The company will then find out what the men think of the way they have been treated in bringing wholesale charges against them and then refusing to give specifications"

London, Tuesday, Oct. 17. This morning's market was a good

a chicken, everyone wants something extra on Thanksgiving Day." Apparextra on Thanksgiving Day." Apparently no one need be alarmed as to the scarcity of turkeys on account of the holiday being so early. The supply on bushels; corn, 558,000 bushels; barley, 80,000 bushels; rye, 9,000 bushels; barley, 80,000 bushels; barley, 80,000 bushels; rye, 9,000 bushels; barley, 80,000 bushels; barley, 80 the holiday being so early. The supply this morning was large, was of good quality, and the price asked was not too high. The store-keepers have made preparations by ordering their turkeys some time ago, in order that they will be supplied tomorrow.

There was a slight drop in the price of beef, as the result of the small de-mand, occasioned by the continuance of warm weather. Peaches are now about done, very few being offered this morning.

The first supply of dried apples for the season was on the market today. Chestnus dropped to \$2 and \$2 25 per bushel. One farmer, who has many acres of chestnut trees said that at that price he would not go to the trouble of picking them.

CHICAGO, Oct. 16.—Liquidation, encouraged by heavy addition to the visible supply, favorable grop reports and an abundance of bearish statisties, including enormous world's shipments, weakened wheat today. December closed with a loss of ½c to %c. Corn declined ½c, and oats closed a shade lower. Pork lost 10c to 12½c; lard, 7½c to 10c, and ribs, 7½c. Chicago received 243 cars, 3 of which were graded contract. Minneapolis and Duluth got 1.212 cars, compared with 1,541 the corresponding day a year ago. Total primary receipts were 1,-785,000, against 2,190,000 last year. At-1,541 the lantic port clearances of wheat and flour equaled 377,000 bushels. World's shipments last week were 8,620,000 bushels, against 7,418,000 bushels the same week last year. Amount of passage increased \$16,000 bushels compared with 230,000 bushels decrease last year, and the total afloat now is 26,800,000 bushels, against 20,560,000 bushels then. The visible supply in-

crease was 2,979,000 bushels, and the total in sight is 47,314,000 bushels. This morning's market was a good one in every respect. It was especially large for a Tuesday, but as it was the last before the holiday on Thursday, this was expected. Although the weather was not very inviting, the number of purchasers was large. They all wanted their supply of holiday provisions, the farmers had what they wanted, prices were reasonable, and sales were effected rapidly.

While there was a good supply in all lines, there was an unusual amount of poultry offered. This was natural, because, as one dealer said, "If it is only a chicken, everyone wants something extra on Thanksgiving Day." Apparational of the signt is 47,314,000 bushels.

Mrs. Smith Has Her Sister-in-Law in Court.

Frouble Arose Over the Latter's Husband-A Fine of \$2 Imposed-'Bus Cases Laid Over.

Mrs. Wm. Smith had her sister-inlaw, Mrs. Carrie Stevenson, up at the police court this morning, charged with slapping her face, and throwing a lamp at her head. Both the parties are colored. Mrs. Smith testified that the defendant went to her house on Tuesday night and asked to see her brother. As soon as Mrs. Stevenson got inside she started to abuse her, and a row followed, during which Mrs. Stevenson hurled a lamp at her head, and ac-companied it with a lot of vile names. The lamp struck a picture on the wall and smashed it. The trouble arose through Mrs. Stevenson telling Mrs. Smith that she was luring her husband over to her house at every opportunity, and she would have her arrested if she did not keep away from him. Mrs. Smith said she did not want her husband, as she had one of her own. Mrs. Stevenson told the court that she had threatened to kill both Mrs. Smith and her husband, and she would do it, too, if they kept up this continuous disturbance between herself and her husband. She would easily thrash both of them. Mrs. Smith, in reply to a question of the magistrate, said the reason her husband was not in court was that he was too her. He was afraid of his sister, the defendant. Mrs. Ford, a neighbor, saw Mrs. Stevenson throw the lamp, and heard her call Mrs. Smith some bad names. She saw the defendant go to the house, looking for trouble. In reply, Mrs. Stevenson said Mrs. Ford was a liar, and that Mrs. Smith had tord her what to say. Mrs. Stevenson (pointing to Mrs.

Smith)-She is only half as old as I am, but she is steeped in sin.

Mrs. Smith — Take a little of that yourself. Mrs. Stevenson was fined \$2 and

given a week to pay it in. She re-marked that \$2 wasn't much to pay for a husband.

James Norton, Bent Smith, John Moss, Ed Walsh, Joseph Ridler, Richard Baker, Lee Perry, Henry Hendrick

son. Jordan Pickell, John Garnett and John Frezell were charged with run-ning 'busses without a dicense. Adjourned for two weeks. George Jackson, who assaulted T. M. Johnston at the Old Men's Home, Was further remanded for a week.

LIFE SAVED.—Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the my bed with inflammation of the lungs and was given up by physicians. A neighbor advised me to try Dr. Thomas' Eelectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice I procured the medicine, and less than half a bottle cured me; I certainly believe it saved my life, It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me good.

"HAMLET" AT THE GRAND. The presentation of "Hamlet" at the Grand last night by the Lyceum Company furnished a most agreeable sur-prise to those who had the temerity to brave "Shakespeare" at popular witty and humorous, and to tell an in-prices. Taking into consideration the absence of a known star, and the modest "billing" of the play, the house last night was an unusually good one. The audience, most of whom had doubtless gone out of regard for the play, came away delighted with the players It was an intellectual audience, and an intelligent appreciation of the subtle play of wit and the fine shadings of play of wit and the line snadings of drama, will be produced at the Grand emotion, which make the unwearying charm of Shakespearean drama. The applause was hearty, frequent and timely, and several of the climaxes it is superior to any drama now before brought enthusiastic curtain-calls. The staging was admirable, and ro expense had been spared in the costuming. There was not a really weak spot in The plots and counterplots are full of the entire cast. Even the minor parts were taken with spirit and nice discrimination. The elecution was almost its proper place; to brighten the dark uniformly good. The "Hamlet" of Ed- phases of the life struggle between ouard D'Oize shows careful thought rascality and justice. The trend of the and study. O'Oize is not in any sense an imitator, and while one may not agree with his conception of Hamlet, much of a coward to come and defend it is his own, and is strong and inter-

esting. D'Oize certainly cannot be accused of ranting. In fact, he is rather too restrained. Miss Hortense Eugente Van Zile made a very sweet and pleasing Ophelia. She is pretty and talented. Her limitations are physical rather than intellectual. Her work is marked by great delicacy and refinement. Wiliam Bokee, as Polonius and the first grave-digger, is original, and clever. While not missing one particle of the delightful humor of the character he never falls into the too easy and frequent fault of burlesquing it. The cast:

Hamlet. Edouard D'Oize
Laertes, son of Polonius. Elmer Buffham
Claudius, King of Denmark, and

SOUSA AND HIS OPERA. The production of John Philip Sousa's comic opera success. "The Bride Elect," will be seen at the Grand on Friday night, for the first time, and will be one of the most brilliant events in a musical way that has ever been given outside New York and Boston. The organization numbers over 60 people.

and the testimony of the eastern press carries conviction of rare splendors, of scenic, mechanical, electrical and costume environment. The musical score which is pronounced the peer of all comic operas, is extensive, and has been unconditionally praised for its tunefulness and originality. Mr. Sousa's libretta has also been pronounced witty and humorous, and to tell an inan unusual, widespread interest in this musical event, which will undoubtedly be thoroughly emphasized when the advance sale of seats begins tomorrow morning.

"A GUILTY MOTHER."

"A Guilty Mother," a great scenic drama, will be produced at the Grand the public. The play illustrated an in-tensely thrilling story of the conflict between scheming, villainy and virtue. action, while several scenes are tinged with an ample amount of comedy play is wholesome, and teaches in thrilling object lessons the policy of vigorous persistence in forging along in life's vicissitudes and sorrows, with rectitude and virtue as guiding stars.

"THE MERCHANT OF VENICE" TONIGHT.

Shakespeare's comedy will be the attraction at the Grand tonight, and, judging by last night's performance of "Hamlet," will be presented by an evenly balanced and strong company. In the stage direction considerable at tention has been paid to the comedy and the last act, which is frequently cut out by many actors, is equal to any of the play. The part of Shylock is in the hards of Edouard D'Oize. Portia will be played by Effie Hext. Her reading is intellectual and clear, and in the stronger passages she rises to a height of dramatic power and intensity that carries the climaxes with success. The Bassanio of Elmer Buffwill be a strong feature, and probably no better Lancelot can be conceived than that of Mr. Calvin. The costuming, combined acting and stage settings will make this perform-ance of "The Merchant of Venice" worthy of attention.

The Great North-Western Telegraph Company has received notice that telegraphic communication between Cape Colony and the Orange Free State and the Transvaal has been entirely suspended. HON. DAVID MILLS AT WINNIPEG.

A Winnipeg telegram says: Hon. David Mills addressed a large meeting of Liberals and many Conservatives on Saturday night on the political issues Mr. Harry Bawden, of Hamilton, Ont., of the day. Before leaving for the Dominion capital, Hon. David Mills, minister of justice, was interviewed by a Globe reporter, who asked him if he had seen in a Winnipeg publication of that day an assertion that he had stated at Regina that he was dissatisfied with the tariff. "Yes." replied the minister, "my attention was directed to the article, but I expressed no dissatisfaction with the tariff, though a correspondent, in giving a brief summary of my address at Regina, represented that I had done so. My opinions on the tariff, as on other public questions, are well known, as they have been frequently expressed both in and outside parliament. I do not pretend to say the tariff is perfect, but I do say there are no differences between myself and my colleagues on that subject. I daresay that the tariff may be capable of some amendments, when such amendments are made there 75 11-16c. Rye dull; state, 63c; No. 2 must be chosen a fitting occasion. Robert Reid, Sen, Falls in Front of a Street Car.

Wheels Passed Over One Foot, Which Had To Be Amputated-The Operation Performed This Afternoon.

Mr. Robert Reid, sen., collector of customs, fell in front of a street car this morning, and received injuries which may prove fatal.

Mr. Reid has been in feeble health for some time, and of late has rarely gone any distance from his home. This morning he left the house while Mrs. Reid was absent, and went to Dundas street on Colborne, with the intention of taking the car. One of the Dundas and market cars, in charge of Motorman G. Warner and Conductor A. W. Hannah, was approaching from the east, and in some way Mr. Reid stumbled and fell in front of it. His limbs crossed the track. Mr. Reid rolled over twice, but the wheels caught his left foot and terribly mangled it. Dr. Stevenson witnessed the accident and hurried to the injured man's as-sistance. He was removed to his home on King sireet, about a block away, where Dr. Stevenson attended him. Mr. Reid complained of great pain in his shoulder, but the extent of his injuries there had not been determined. It was found that the wheel had passed com-pletely over the foot at the instep, necessitating amputation near the ankle.

It is the doctor's opinion that such an operation upon a man in Mr. Reid's feeble condition will be fraught with great danger. Mr. Reid is 77 years of age, and has failed much of late.

Foreman Reycraft, of the street railway company, stated that the car was going very slowly. As it approached Mr. Reid inquired of Motormon McCue, who was standing near, if it was a belt line car. McCue replied that it was a Dundas and market car. Mr. Reid kept on walking towards the track, and as he reached it he slipped on the wet rail and fell in front of the car. Mc-Cue ran to his rescue, but could not succeed in getting him quite clear of

the rails in time. The news of the accident was received down town with consternation. Pro-bably no man in London is so well known and so universally respected, as Robert Reid, and his misfortune will be heard of with general sorrow.

Mr. Reid's reason for going down town was simply a desire to go down and see how things were progressing at the customs house. He is on leave of absence until January, but often when he felt better than usual he would go down to his office.

Upon examination it was found that the injury was not quite so serious as at first supposed, and the foot was am-putated at the instep instead of at the ankle, as had been previously thought necessary. Drs. Wishart and Stevenson performed the operation at 1:30 this afternoon. At the time of going to press it is impossible to say just how serious the effect may be upon Mr. Reid. At present he is under chloroform.

The Charge That Stone Walks Are Inferior-May Mean a Heavy Loss,

A sensation has been caused by Ald. Parnell's accusation, made at the city council last night. Some fifteen miles of stone sidewalks have been ordered to be laid this year. Much of the work is already finished. If it should prove that the pavement is of inferior construction, it will mean a heavy loss to the city and to the individual property owners who are paying pro rata for the walks in front of their respective premises. Some \$40,000 in de-bentures were to be issued this year by the city in payment of the new improvements. The charge is aimed at only one of the stone walk contractors, and the investigating committee will meet tonight to begin inquiries. The members are Ald. Parnell, Jolly, Wilkie, Graham and Winnett.

Mr. Bulbitude was not usually ready of resource, but now he had what seemed a happy thought. it, "so I did—to be sure—a nab-of course. How could I forget

it? It's—it's a splendid rabbit. I'll go and fetch it." "Will you?" oried Porter, half-re-eved. "Where is it, then?"

"Where?" said Paul, sharply (he was growing positively brilliant). "Why, in my playbox, to be sure. Where should it "It isn't in your playbox, I know," put in Siggers, "because I saw it turn-

ed out yesterday, and there was no rabbit there. Besides, how could a rabbit live in a playbox? He's telling lies. I can see it by his face. He hasn't any rabbit!" "Of course I haven't!" said Mr. Bul-

"How should I? I'm not a conjurer. It's not a habit of mine to go about with rabbits concealed on my person. What's the use of coming to me like this? It's absurd, you know, perfectly absurd!" The crowd increased until there was

quite a ring formed round Mr. Bultitude and the indignant claimant, and presently Tipping came bustling up.
"What's the row here, you fellows?" he said. "Bultitude again, of course. What's he been doing now?"

"He had a rabbit he said he was keeping for me," explained little Por-ter; "and now he won't give it up or tell me what he's done with it." "He has some mice he ought to give us, too," said one or two new-comers, edging their way to the front.

Mr. Bultitude was, of course, exceedingly annoyed by this unlooked-for interruption, and still more by such utterruption, and still more by such uttely preposterous claims on him for animals; however, it was easy to explain that he had no such things in his possession, and after that of course no more could be said. He was beginning to disclaim all liability, when Siggers stopped him.

"Keep that for the present," he said. "I say, we ought to have a regular trial over this, and get at the truth of it properly. Let's fetch him along

of it properly. Let's fetch him along to the goal-posts and judge him.'

He fixed upon the goal-posts as being somehow more formal, and, as his proposal was well received two of them grasped. Mr. Bultitude by the collar and drugged him along in procession to the appointed spot between the two flags, while Siggers followed in what he conceived to be a highly judicial manner, and evidently enjoy-

ing himself prodigiously.
Paul, though highly indignant, allowed himself to be led along without resistance. It was safest to humor them, for, after all, it would not last long, and when they were tired of baiting him he could watch his time and silp quietly away.

When they reached the goal-posts Siggers arranged them in a circle, placing himself, the hapless Paul and his accusers in the center. "You chaps had better all be jurymen" he said.

"I'll be judge, and unless he makes a clean breast of it," he added, with judicial impartiality, "the court will jolly well punch his ugly young head on." Siggers' father was an Old Balley barrister in good and rather sharp practice, so that it was clearly the son's mission to preside on this occasion. But unfortunately his hour of office was decemed to be a brief one. office was doomed to be a brief one, for Mr. Blankhorn, becoming aware that the game was being still more scantily supported, and noticing the crowd at the goal came up to know the reason of it at a long, camel-like trot, his hat on the back of his head, his mild face flushed with exertion, and

his pebble glasses gleaming in the winter sunshine. winter sunshine.

"What are you all doing here? Why don't you join the game? I've come here to play football with you, and how can I do it if you all slink off and I lave me to day by myself?" he asked with nother. asked with pathos.
"Please, sir," said Siggers, alarmed

at the threatened loss of his dignity, "it's a trial, and I'm judge." "Yes, sir," the whole ring shouted to-gether. "We're trying Bultitude, sir." On the whole, perhaps, Mr. Bultitude was glad of this interference. At least justice would be done now, although this usher had blundered so unpardon-

Mr. Blinkhorn, "and it's not football. The doctor will be seriously angry if he comes and sees you trifling here.

Let the boy zo."

"But he's cheated some of the fel-

"Well, you've no right to punish him if he has. Leave him to me." "Will you so fair play between them. sir?" He oughtn't to be let off without

being made to keep his word."
"If there is any dispute between you and Bultitude," said Mr. Blinkhorn, have no objection to settle it-provided it is within my province."
"Settle it without me," said Paul, hu riedly. "I've leave to go home. I'm

"Who gave you leave to go home?" asked the master. "That young man over there on the

rails," said Paul. "I'm the proper person to apply to for leave; you know that well enough," said Mr. Blinkhorn, with a certain coldness in his tone. "Now, then, Porter

what is all this business about?"
"Please, sir," said Porter, "he told
me last term he had a lot of rabbits
at home, and if I liked he would bring me back a lop-eared one and let me have it cheap, and I gave him two shillings, sir, and sixpence for a hutch to keep it in; and now he pretends he doesn't know anything about it."

boys came forward with much the same He remembered now that during the holidays he had discovered that Dick was maintaining a sort of amateur menagerie in his bedroom, and that he had ordered the whole of the live stock to be got rid of or summarily destroyed.

Now it seemed that the wretched Dick had already disposed of it to these clamorous boys, and, what was worse, had stipulated with considerable forethought for payment in advance. For the first time he repented his paternal harshness. Like the netted lion, a paltry white mouse or 'we wou." have set him free; but, less happy than the beast in the fable, he had not one! THE FILIPINOS TROUBLESOME

12,000 Rebels Planning to Capture Iloilo.

Manila, Oct. 17 .- Advices from Ilo-

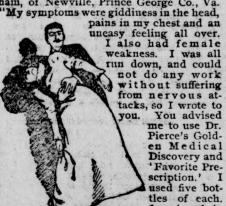

ilo say there is great tension between the Visayans and Tagalos, growing out of the Tagalos holding Araneta, a leader of the Visayans, a prisoner since a threatened Visayan revolt against Tagalo dominion a month ago. The Tagalos are reported concentrating troops at Santa Barbara, Panay Island, with the purpose of surprising the Visayans. Four thousand Tagalos, who have

been held in reserve in Capiz, in the northern part of Panay, last week embarked in canoes, the fleet's purpose being to land at Conception, whence the troops would march to Santa Barbara. Adverse winds prevented the landing, however. The insurgents will have 12,000 men

and 3,000 or 4,000 rifles at Santa Bar-bara. Gen, Magbanna, it is said, plans to attack Iloilo with this force, carry the city and slaughter the Americans. A body of Tagalos, estimated to number about 1,000 men recently crossed from Santa Barbara to Escalante, on the Island of Negros, to aid bandits in keeping under the inhabitants, who are friendly to the Americans.

In the Work Done By Different Sidewalk Contractors.

Investigation Ordered by the City Council.

Select Committee Appointed-Discoveries Made by Ald. Parnell-The 'Bus Pines-Routine Business.

Ald. Parnell made some startling statements at the regular meeting of the council last night regarding discrepancies in the work done by the different cement sidewalk contractors. On the strength of the representations by the sixth warder, a select committee, to investigate and report, was appointed. The mayor was absent, and Ald. Greenlees presided. The others present were Ald. Parnell. Wilkey, Plant, Dreaney, Garratt, Malloch, Winnett, Reed, Carrothers, O'Meara, Jolly, Douglass, Pritchard and Rumball.

A request from Rev. J. B. Aylward that an electric light be placed opposite St. Peter's Cathedral on Dufferin avenue was granted.

Two communications were referred to No. 2 committee. One from Lieut.-Col. Holmes, D. O. C., asked for the use of a building on the fair grounds for storage of guns, etc., of Field Battery; another from George A. McGillivray, et al., petitioned for a cement walk on north side of Carling street, Talbot street to J. H. Hargreaves' propenty.

THE 'BUS FINES.

The opinion of City Solicitor Meredith was received respecting the petition for the remission of fines imposed upon street railway strikers for operating busses without licenses. His letter read: "I do not think the council has power to remit the fines, although I believe in the past the council has requested fines to be remitted, and the police court clerk has, after the receipt of the council's request, refrained from collecting. The fines in this case, I presume, were paid over by the police court clerk to the city, as there is no private prosecutor. I have not considered whether or not the council would have power to make a grant to the petitioners out of the city funds of the amount of the fines if it felt disposed so to do.

Ald. Rumball-As some of the aldermen who are interested are away, I move that this matter be laid over until the next meeting.

Ald. Plant said the cases were come before the police magistrate to-

Ald. Rumball then consented to add to his motion that the police magistrate be requested to defer action until after the next council meeting. Car-

Ratepayers on the north side of Elmwood avenue, Cathcart to Edward streets, objected to paying two-thirds of the cost of a cement walk. The residents on the next block paid only half on Colborne street, King to York, and out down under different bylaws. Referred to No. 2 committee. POARD OF WORKS.

Ald. Dauglass presented the report of No. 2 committee.

Ald. Dreaney moved that the clause recommending that Wm. Howie's claim for damages be filed, be referred back. Ald. Garratt seconded.

Ald. Purnell moved the adoption of the clause and Ald. Wilkey seconded. This motion carried on the following division: Yeas—Ald. Rumball, Pritchard, Jolly, Winnett, Malloch, Plant, Wilkey and Parnell—8. Nays—Ald. Douglass, O'Meara, Reed, Garratt and Dreaney- 5.

Bylaws providing for mosaic walks on Simcoe street, Maitland to William streets, were rescinded, and new bylaws for cement walks ordered. THE SECOND ENGINEER.

The hospital building committee again brought up the question of ap-pointing a second engineer at the hos-

Ald. Wilkey moved that the matter of the appointment be left to the hospital trust. Ald. Carrithers said the council could not hand over the hospital to the trust

until the guarantees under the contracts expire. It was to the council the contractors would look to appoint a competent man.

Ald. Parnell feared there would be such conflict of authority if the hospi-

tal be not handed over to the trust by the council for the period of two years, that would be detrimental to the in-Ald. Carrothers moved that the hos pital building committee recommend a second engineer, and if sanctioned by the council, the trust be recommended

to make the appointment. Ald. Pritchard second. Carried, 9 to 4. ALLEGED IRREGULARITIES. Ald. Pritchard said there were some rregularies about the removal of the old lamp-posts. He understood that some of the posts had a couple of feet knocked off at the foot before being weighed, and that the foot pieces were

sold to junk shops, instead of the city getting credit for them. The engineer will investigate. "There's a nigger in the fence somewhere," said Ald. Prit-INVESTIGATION COMMITTEE. Ald. Parnell moved the appointment of a select committee, comprising Ald. Rumball, Jolly, Winnett, Graham, Wilkey, and the mover, to investigate and report upon the apparent discrepancy in the quantity of cement used in lay-

ing walks by the contractors in the northern and southern portions of the city. Ald. Wilkey seconded.

Ald. Parnell said his attention had been called to the fact that the dis-

crepancy existed, and on investigation found that there was a difference in the area covered by one barrel of cement of from 40 to 60 square feet, or a discrepancy of 20 square feet. It was manifest that the walk made of one barrel of cement to every 60 feet would not be as good as that made of one barrel be as good as that made of one barrel of cements to 40 feet. He therefore wished that the matter be investigated. "I make the statement on my reputation as an alderman that those dis-crepancies exist," he said, and added, bringing his hand down emphatically on a book in front of him: "The proofs are here in these reports from the inspectors." He preferred to say nothing more for the present unless pressed. Ald. Winnett favored the investiga-Recently he called the attention of a fellow-alderman to a certain walk

Ald. Carrothers said the committee should get to work at once. The motion was adopted unani-

mously. On motion of Ald. Malloch, the construction of sewers on Waterloo street, Pall Mall to Grosvenor, and on St. James street, Waterloo to Richmond streets, will be advertised.

SPECIAL NOTICES.

A Good Thing From Hungary. Under the auspices of the Apollinaris

Company, London, a very valuable mineral water, adapted for medicinal purposes, has been introduced into this country under the name of "Apenta." This product is a bitter water, derived pure and in a perfectly natural condition, from springs situated near Buda-

It belongs to the class of purgative waters; but its action happens to be of a mild and non-irritating character, due to the presence of a large quantity of sulphate of magnesia, which exceeds in quantity the sulphate of soda. The former is the milder purgative, and the somewhat crude action of the soda sulphate of other waters is therefore said to be avoided in "Apen-

Rev. Dr. and Mrs. Sowerby Warmly Welcomed.

City Ministers of Other Denominations Extend Greeting-A Pleasant Social Evening.

Last night in the school room of the Talbot Street Baptist Church a reception was tendered to Rev. Dr. Sowerby and Mrs. Sowerby. That they may be assured of the hearty co-operation of the congregation and all the ministers of the city, was made plain by the large number of members present, and by the cordial welcome extended by the visiting clergymen.

Among the latter who were on the platform were: Rev. W. H. Ciaris, of the Southern Congregational Church; Rev. W. M. Walker, of the Wortley Road Baptist Church; Rev. Dr. John-ston, of St. Andrew's; Rev. T. S. Johnson, of the Adelaide Street Baptist; Rev. Mr. Boon, of the Maitland Street North Baptist Church, and Rev. C. C. Owen, of the Memorial Church, each of whom gave short addresses of wel-

Rev. Mr. Owen, while extending to Rev. Dr. Sowerby and his wife the sincere well-wishes of himself and congregation, remarked that while there were in his denomination a large number who believed in burning incense, he could not but judge from the odor of goodly things coming from the kitchen, that the ladies of the Baptist Church also believed in burning incense. He joined with the other ministers in extending to Rev. Dr. Sowerby the assurance of hearty welcome from the clergy of London

In reply Rev. Dr. Sowerby thanked the congregation for their cordial reception, and the clergymen for their kindly utterances. He was afraid that the congregation was expecting too much of him, as he was but a weak man, whose life had been made up of blunders and mistakes of all kinds. Aithough he appreciated the good work being done by other denominations, and would rejoice with them, yet he was a Baptist by conviction. He wanted his people to trust him. He assured them that they could expect hard work from him, with honest sympathy and love in time of affliction, and they could expect good, honest pulpit work; but in return he expected loyalty on the part of the congregation, and a joining with him of heart and hand in the extension of the kingdom that bind men in sin.

The Escape of Colin More From the Hospital.

Statements Read From Members of the Staff Who Had Connection With the Case-Bylaws Read and Changes Made.

The hospital trust met in special session yesterday afternoon, and decided to investigate the circumstances surrounding the escape of the late Colin More from the Victoria Hospital on Thursday night last. The inquiry will be made on Friday afternoon, at the regular meeting of the trust. In compliance with a request from one of the trustees, Dr. Balfour obtained signed statements from five members of the hospital staff, who had connection with the case.

Miss McNab, the nurse in charge of More, reported that she came on duty at 7 o'clock on the evening in question Dr. Drake had visited the patient at 9:30, and remarked on leaving that the latter would probably die during the night. Between 11 and 12 o'clock More had become very delirious, and had gotten out of bed, but had returned immediately. His friends were then sent for. Dr. Balfour had paid his customary nightly visit at about 12 o'clock, and some time after Miss McNab had gone to supper, leaving Mr. G. O. Roadhouse in charge. She had not been gone very long when Mr. Roadhouse was heard calling, and in company with Miss McCutcheon she had run to the patient's ward. Roadhouse told them that he had had a struggle with More. and had shut him in the Oddfellows' room. On entering the lodge ward, the patient was nowhere to be found. The window was half-open and a chair stood beneath it. Drs. Drake and Ballfour had been immediately summoned. the police notified and a search insti-

tuted. The statement of G. O. Roadhouse. male attendant, who was with the patient on the night that he escaped, was read, and, briefly summarized, was as follows: He had gone in to treat More at 12:30, and the latter said he would get out of bed, and go to a hotel or a drug store, to get something to stop him vomiting. He told the patient that he had better keep quiet, as everything possible was being done. More again vomilted, and started to get out of bed. He tried to reason with him, but the patient sprang up and made for the door. He caught him by the arm, but More was too much for him, and he (Roadhouse) opened the door to get out and summon aid, when More caught hallway. He (Roadhouse) then caught More by the shoulders, and forced him into a room near by and closed the door. The nurses, who were at their midnight supper, were hurriedly summoned, but upon entering the room shortly after it was found that the patient had escaped through a window More was searched for, but could not

The depositions of Miss Murray, a nurse, Miss McCutcheon, the night superintendent, and C. D. Fuller, male artitenidiant, were also read. They substantiated the statements made by Miss McNab and Mr. Roadhouse.

The bylaws governing the new hospital were read and a number of un-important changes suggested. Ad-

Wm. Wanless Re-Elected President-Annual Banquet Nov. 80-Burns' An niversary To Be Celebrated With

St. Andrew's Society, annual meet-Hall, when officers for the ensuing term were elected and reports for the past year presented. President Wm. Wanless, who put so much enthusiasm and life into the society last year with his untiring efforts to make everything "go," was re-elected for another term. Members present: Messrs. Wm. Wanless, president, in the chair; A. G. Chisholm, acting secretary; J. Jones, treasurer; Col. John Macbeth, Geo. Angus, John G. T. Gentleman, Thomas R. Parker, Alex. Purdom, T. Rowat, Wm. Darch, John Stevens, B. McKillop, George Rennie, Arch. Sharp, Dr. Sievenson, Walter B. Laid-law, Thomas R. Cathro, and J. B. Fal-

After reading the minutes of the previous meeting the election of of-ficers was proceeded with. The older members suggested that the younger members of the society should again be elected to office, as "young blood" had charge in 1898-1899, and the year was one of the most successful in the long history of the society. President Wanless was nominated for the second term by Messrs. McKillop and Angus, and the election was made unanimous. J. B. McKillop was unanimous. J. B. McKillop was nominated for first vice-president by Messrs. Jones and Parker, and George Rennie for second vice-president by Messrs, Angus and Purdom. P. McKenzie, jun., was nominated to succeed Mr. Laidlaw as secretary. J. W. ceed Mr. Laidlaw as secretary. J. W. Jones, who has been treasurer of the society for over 20 years, desired to withdraw from office, but the members would not hear of it. They wish him to complete a quarter of a century as their treasurer. All the elections were made unanimous. The relief committee was re-elected, and the physicians chosen were Drs. Maclaren, Wishart, Arnott, Waugh, Macarthur and Stevenson.

Chaplains elected Revs. W. J. Chark, Thos. Wilson, W. Moffat and A. I.

Make This Note

In your memorandum book: "'Fit-Reform' is not made to order, but is made to fit."

After all it is only a question of fit. "If that suit would only fit me I should be in the biggest kind of luck," says an occasional passer-by, "but it won't," and on he goes. If he would only come in and try on a suit he would find that he was one of five shapes: "Regular," "slim," "short-stout," "tall-stout" or "stout," and that the suit was all of \$5 cheaper than the tailor's.

It is costly to pass by some times. Suits—\$10, \$12, \$15, \$18, \$20. Overcoats-\$10, \$12, \$15, \$18, \$20, \$25. Trousers, \$3, \$4, \$5.

Handed in Their Names to Col. Buchan Last Night.

Instructions to Call for Volunteers Had Not Arrived, but All Will Pe Settled by Tomorrow Night.

Expectancy was the characteristic of those assembled at the drill shed last night. The hold that military enthusiasm has taken upon Londoners was evidenced in the numbers who attended the drill. Not only the Seventh men themselves, who turned out in good numbers, but citizens of all classes were there expecting that more definite announcements would be made in regard to the Canadian contingent. They were disappointed, however. Col. Buchan, who was there, said that as yet the officers at the barracks had received no instructions to call for volunteers. They had word, however, that they might receive the names of those willing to go. Of these there were 30 who sent in their names, and it is expected that more will apply to-day. Quite a number of civilians expressed their desire to go, if possible, and some joined the Seventh last night in order to secure any advantage that might ensue from being a member of a military organization. Further particulars will be made public as soon as the official order is received from Ottawa. This will not be long distant, and a prominent official at the barracks has given his assurance that everything will be finally settled and in good working order by tomorrow night.
