LONDON, THURSDAY, JULY 24.
PRESENT STATE OF THE CANADIAN NAVY.

The Canadian naval establishment is still something more than a phantom. Its early days have not yet succeeded in destroying it.

The cruisers Niobe and the Rainbow are afloat with men on board. The Naval College at Halifax still exists, with instructors and young men in training for naval officerships. There is yet a naval department with a deputy minister and other officials. On British battleships there are a number of young Canadians as recruits or acting sub-lieutenants.

At one time the Canadian naval service had more than a thousand men enrolled as officers, gunners, stokers, seamen, recruits and officers in training. Nearly all the officers—drawn from the British navy to train Canadians to manage their own ships—have returned home. The three-year terms of over 100 British naval pensioners, enlisted as common seamen, expire this summer. These men are being discharged and sent back to Great Britain. But there are still 90 British fleet reserve men who were signed for five years, and who have two years yet to serve. They have been given a hint to go, but some of them show no inclination to take it, and the Government is bound by the five-year contract to keep them on the pay-roll for two years more.

As for Canadian recruits there are still 120 who remain in the service, though they may have a free discharge for the asking. They like the life, their pay is regular, and they are qualifying for pensions. It is decided to abolish the naval service these men will be placed in the fishery protection or hydrographic services. The same provision will be made for the scores of Canadians taking training as seamen, gunners, and divers in the British navy.

In addition to the rank and file there are 50 young Canadians in training for naval officerships at Halifax, and upon British ships. Competitive examinations are still being held at Halifax. Four candidates entered the college only three weeks ago. Five, who have already passed through it, are serving in the British navy as sub-lieutenants and are due to return next Christmas with their course completed. Nineteen Canadian cadets are cruising in the Mediterranean on the British cruiser Berwick. They will soon become midshipmen, and after two years' service will be sub-lieutenants. In January ten cadets will complete their course at Halifax, and will be sent to the British navy with an instructor to finish their training.

It will be seen that the Canadian naval service had so vigorous a beginning under the Laurier Administration that it has outlived the attempts of the present Government to strangle it in its cradle. There still remains a nucleus which could be readily developed if the Government so desired. The conspiracy to destroy and discredit it on the one hand and cater to the jingo-centralizers on the other, was a traitorous blow at the Dominion. The deed should shame every Canadian with a spark of national pride and spirit. National pride and spirit are asserting themselves, and if they do not drive the Borden Government back to the Canadian navy policy, the Borden Government will be driven out of office when the country has an opportunity.

LITERACY IN CANADA.

The latest census bulletin deals with the educational status of the people. It is evident that the schools in the Canadian west, except in Manitoba, are gaining on the growth of population. The percentage of the people above 5 years of age, who could read and write, increased between 1901 and 1911, by 22.16 per cent. in Saskatchewan, and 17.25 per cent. in Alberta. Naturally the proportion of illiterates, especially among the foreign-born, is higher in Manitoba than elsewhere, as the Manitoba Government refuses to make school attendance compulsory. It is the one organized province in a self-governing British country where the state permits children to grow up in ignorance. The work of assimilating the foreign element is thereby made the more difficult. In Saskatchewan 254 new school districts were opened in 1910, and in Alberta 251.

The bulletin shows among other things that in the census year, 1911, persons of 5 years and over who could read and write, constituted 83.93 per cent of the population of Canada, against 82.58 per cent. in 1901. Ontario retains her lead in literacy. Of the eastern provinces, Quebec has made the greatest proportionate increase from 1901 to 1911 in the number who can read and write. In every 1,000 of the male population 880 claimed to be able to read and write, and 896 in every

1,000 of the female population of 5 years and over claimed to have a like accomplishment. A comparison of the tables will show that a greater proportion of females than of males have acquired an education in the eastern provinces and a lesser in the western provinces. In Ontario, Nova Scotia and Prince Edward Island the conditions are fairly even. At the last census, there were 2,197,663 males of voting age. Of these 1,990,341, or 90.51 per cent, could read in some language. That the educational standard of the British immigrant has improved in recent years is evidenced by the fact that their proportion of illiterates is smaller in these provinces which have received the greatest number of them within recent years. The per cent. proportion of illiterates among the foreign-born immigrants is much higher, and is fairly level for all the provinces, being highest for both sexes in Manitoba. As to the educational status of the voting population, 21 years of age and over, of the Canadian-born, nearly 10 persons in every 100 are unable to read the ballot paper; of the foreign-born, nearly 17 persons in every 100 show a similar deficiency; of the British immigrants, only 3 in every 100 are open to this reproach.

DISCREDITED PROPHETS.

Mr. H. B. Ames, M. P., of Montreal, of lantern-slide fame, has just returned from a trip along the Transcontinental Railway, paying particular attention to the section between Cochrane and Graham, where the Fort William branch joins the main line. He says that in a stretch of 450 miles between the Bell River and the height of land east of Lake Nipissing, three-fourths of the land is suitable for cultivation. He adds:

"The people of Ontario have in that country an area of arable land, as large as the Ontario peninsula, which some day will probably have a large and thriving population. It is a fine country for dairying and pasture, with plenty of water, and though the winters are long, growth in the season is very rapid, owing to the length of the days."

For 200 miles west of Cochrane and 150 miles east, the railway is in perfect condition. The remainder is being rapidly finished, and it is expected that western traffic will be running to Cochrane this fall. Between Cochrane and Graham the road will be delightfully easy travelling, the grades being so nearly level, and the line in places being perfectly straight for fifteen miles. Mr. Ames says he has been rendered enthusiastic by what he has now seen, and he predicts for it a grand future when overtaken by settlement.

This is good news. Mr. Ames was not in Parliament when the national transcontinental railway was projected, so that he can consistently pay tribute to the foresight and statesmanship of the Laurier Government in insisting upon the present route. But his enthusiasm is a rebuke to the leaders of his party. Their jeremiads are still ringing in the public ear. They could see only party politics in the Winnipeg-to-Moncton division, and only desolation in that northern region. A railroad through it would be an engineering and commercial impossibility, ruinous to the country. Our local contemporary, for instance, pictured snow-bound and frost-bound trains hundreds of miles from human aid and from civilization. This calamity howling echoes oddly today.

The Borden Government's threat of Senate reform has been laid on the shelf, with the other broken pledges.

The murder administration of Mexico pleads for recognition from Uncle Sam and may receive it in the solar plexus.

The mayor of Saskatoon has gone to Chicago to try to borrow money for civic purposes. But according to the gospel of 1911, wouldn't it be tainted money?

The stock market in the United States is recovering right in the midst of a tariff revision. The stand-patters can't understand it, but they are still hoping for disaster.

A contemporary recalls the fact that on July 21, 1836, the first railway line in Canada was opened between Lacombe and St. Johns, Que. That's a long time in the history of this young country, yet there is a lady living in Tunbridge Wells, England, who attended the opening, and she was then 24 years of age.

The late James Connie, former M. P. P. and M. P., for Algoma, was an original character. His life was a romance, and there was a sort of rough poetry about the man himself. A pioneer of New Ontario, there was a suggestion in his presence, manner and speech of the untamed and picturesque vigor of a new country. He was a forceful and racy speaker and debater, and could soar sometimes to flights of genuine oratory.

An obscure writer in an American magazine tells a cock-and-bull story of some Canadian Liberal proposing to President McKinley to spend \$2,000,000 in the Canadian election of 1900, and thus annex the Dominion to the United States. And some Canadian newspapers are so lacking in patriotic spirit as to parade this grotesque fiction in big type and to insinuate that there was a Canadian conspiracy to sell the country.

THE LORDS TO BLAME.

[Montreal Gazette.]

Mr. Asquith, as head of the Government, has promised that at the next session of Parliament a bill will be presented to reform the House of Lords. Judging by the temper of the Government party, the reform will be thorough. For this the lords themselves are chiefly responsible. When they were assailed in the Parliament bill,

they could have countered with a proposal to make their House an effective and respected part of Parliament, and could have compelled consideration. They thought of their class privileges, however, and were put in a position that brings them only contempt. They will go without regret.

DEMONSTRATED.
 [New York Sun.]
 Shakespeare was asked whether Hamlet was sane.
 "He never thought there was a fortune in chicken raising," he responded.

MACBETH SHALL SLEEP NO MORE.
 [New York Sun.]
 Shakespeare had just made Lady Macbeth walk in her sleep.
 "Her skirt would probably be too tight to walk by day," he explained.

LINGER, SUMMER.
 [Clinton Scollard.]
 Linger, summer, linger still,
 Swinging wood and crooning rill,
 And the low wind like a harper
 Tuning far behind the hill!

Linger, summer, glow and gleam!
 Linger, loveliness supreme,
 With the pageant of the hours
 Lapsing like a sunset dream!

Linger, summer, bland and sweet
 Linger, beauty all too fleet,
 With the redolent rose attar,
 And the poppies in the wheat!

Linger, summer, nor depart
 Down dim ways without a chart
 Until all thy golden harvests
 Are deep stored within the heart!

A USEFUL PURPOSE.
 [Baltimore Express.]
 "The elements can be made to serve a useful purpose," remarked the philosopher. "Yes; if one casts bread upon the water and throws care to the winds."

OUT OF DANGER.
 [Philadelphia Record.]
 "They say genius is a disease," remarked Silius.
 "Well, I wouldn't worry," replied the Grouch. "You look perfectly healthy."

SO THOUGHTFUL.
 [New Orleans Picayune.]
 A pair of deaf mutes were married in Mississippi and one of the presents was an alarm clock.

ENJOYING THEIR OWN.
 [Ottawa Citizen.]
 Vincent Astor gave 5,000 New York children a ride in the harbor lately. He had still remaining the major portion of the unearned increment which the parents of the children had helped to create, but not to spend.

NO DIFFERENCE.
 [Houston Post.]
 "Papa, what does being disappointed in love mean?"
 "Why, either marrying or being jilted by the girl you are in love with."

THE LATEST.
 [Puck.]
 "Was there a fashionable wedding?"
 "Right up to the minute. It was even a hygienic one."

THE IMPORTANT QUESTION.
 [Judge.]
 "I can't live without your daughter."
 "Well, can you live without her father?"

OH, YES.
 [Chicago News.]
 Life is, indeed, complicated when one has to be vaccinated against typhoid before departing for a merry vacation.

THE IDEAL.
 [S. E. Kiser, in Chicago Record-Herald.]
 I want to find a Summer boarding place.
 Where no mosquitoes ever may be found.
 Where all the eggs are fresh and there is space
 For one to wander aimlessly around.

I want to find a place where not a fly
 Will ever come to perch upon my plate.
 Where no one will be petulant if I
 Sometimes get down to breakfast rather late.

I want to find a place beside a stream
 Where I, when I am so inclined,
 May wade.
 Where there will be abundance of rich cream
 And bread and pie like that which mother made.

I want to find a place that shall be free
 From ragtime and unnecessary show.
 Where others will have deep respect for me.
 And ask no questions when I come and go.

It must not be too cool and not too hot;
 I think I have described the place I seek;
 For what I want in such a favored spot
 I'm willing to pay seven plunks a week.

CHAP WANTS TO KNOW.
 [Chicago Tribune.]
 Why do you sit cross legged,
 O, inconsiderate brother?
 You're merely giving one leg a rest
 At the expense of the other.

A FISH STORY.
 [New York Sun.]
 Fish.
 Bait.
 Wait.
 Bite.
 Flight.
 Roam.
 Home.
 Buy.
 Lie.

CLAMORING FOR EXPULSION OF SUN YAT SEN
Army at Nanking Has Withdrawn to Strong Position on the Hwai Ho.
Reported Assassination of General Huang Sing Situation Better for Govt.

[Canadian Press.]
 London, July 24.—A Peking dispatch to the Times says:
 There is a general demand among foreigners for the expulsion of Dr. Sun Yat Sen and other leaders of the rebellion.
 The decision of the Nanking army to withdraw a hundred miles south to a good position on the Hwai-Ho is obviously good strategy, although the abandonment of the more advanced position near the Shanghai border is not likely to add to their prestige.
 On the other hand the arrival of 7,000 Hunanese troops at Yuchow, close to the Kiang-Su border, is significant of the sympathies of Hunan, which, however, has not yet declared its colors.
 Chekiang also actively sympathizes with the revolution, although it has refrained from openly declaring itself.
May Be Assaulted.
 Among unconfirmed rumors the most persistent reports, the assassination of Gen. Huang Sing, the prominent of the situation looks better for the Government, owing to the southerners' failing to secure preliminary advantages, which are vital to the successful advertisement of their cause.
 The Shanghai correspondent of the Times says:
 Provided the navy's ammunition holds out the result of the rebels' attack on the arsenal is not doubted. The garrison consists of seasoned troops, and their defenses are admirably planned. The southerners have good officers, but the troops are indifferently.

BULGARS MUST CEDE SALONIKI TO THE GREEKS
Balkan Allies Will Arrange the Details of Peace at Bucharest Shortly.
Greeks Are Attempting to Cut Off Force of Twenty Thousand.

[Canadian Press.]
 Athens, July 24.—The allies' terms will not be announced before the meeting of the Bucharest conference, but it is known that they will be based on the principle of the balance of power in the Balkans.
 According to the Athens newspapers, the Bulgarian delegates will propose the cession to Greece of Saloniki, and the hinterland as far as Serrae, as well as the line of the Struma River as far as Tzsiges, but will claim for Bulgaria the retention of Kavala. They will also propose that no indemnity of compensation for damages be demanded. These conditions are regarded as impossible.
ISOLATING BIG FORCE.
 [Canadian Press.]
 London, July 24.—Saloniki dispatch to the Post describes a Greek attempt which is being made by combined land and sea movements to isolate the 20,000 Bulgarians still remaining between the Schemun Bulgarian frontier and the Aegean littoral.
 A Vienna dispatch to the Chronicle says that news has reached there of a great movement of troops in Southern Russia obviously intended for the coercion of Turkey.
TO HELP BULGARS.
 [Canadian Press.]
 Bucharest, July 24.—King Charles addressed telegrams yesterday to the Kings of Greece, Serbia and Bulgaria, recommending adherence to the Roumanian proposals in consideration of Bulgaria's situation, and Europe's desire that Bulgarian shall not suffer further damage.

ROYAL LOVERS WERE AT BRILLIANT COURT BALL
Prince Arthur and Duchess of Fife Partners in Opening Dance.

[Canadian Press.]
 New York, July 24.—A cable from London today says:
 Special interest was lent to last night's state ball at Buckingham Palace, the last court function of the season, by the appearance of Prince Arthur of Connaught and the Duchess of Fife in the opening dance, a quadrille d'honneur.
 It was assumed that the usual rule of procedure would be observed, and that the newly-betrothed couple would later dances, but the King and Queen decided to dispense with strict court etiquette in this respect, and Prince Arthur and the duchess found themselves allotted to each other in the state dance.
 After the opening quadrille the King, the Queen and the royal family became spectators in turn, while the dancing was soon general.
 Queen Mary wore a dress of pale blue silk brocade, with corsage and centre panel skirt, arranged with crystal and diamond hand embroidery, also crowned with pearls and diamonds.
 There was a great display of beautiful dresses.
 Among these in the royal circle were the Princess Royal, Princess Maud, Princess Victoria, the Duke of Connaught, Princess Beatrice, Prince Henry of Battenberg, the Duchess of Albany, with Princess Louise of Wales, Princess Alexander of Teck, Princess Marie Louise of Schleswig-Holstein, the Duke and Duchess of Teck, and Admiral Prince Louis of Battenberg, with Princess Louise of Battenberg.

DODD'S KIDNEY PILLS
 FOR ALL KIDNEY DISEASES

PLEASE REMEMBER EARLY CLOSING DURING THE SUMMER.

J. H. Chapman & Co., 239, 241, 243 Dundas St.

TROOPS CALLED TO KEEP ORDER AT THE MINES
Save Money!

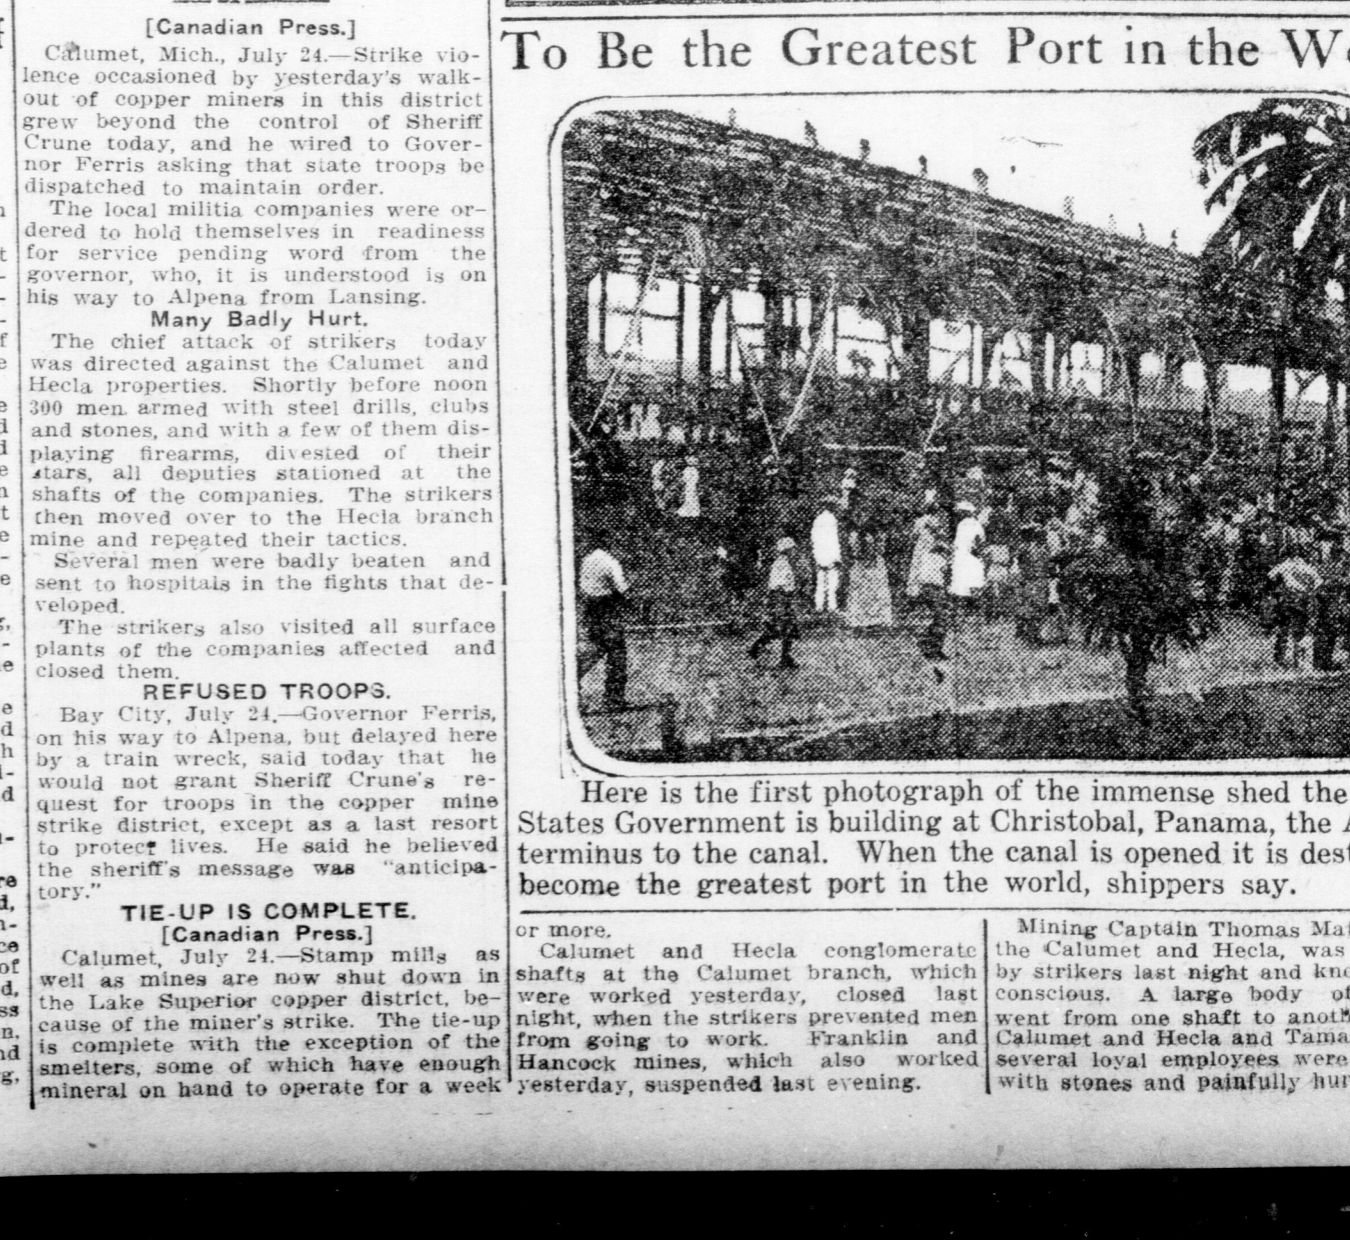

Several Violent Outbreaks Were Made by Strikers in Michigan.

All Shafts in the Affected District Are Now Completely Tied Up.

[Canadian Press.]
 Calumet, Mich., July 24.—Strike violence occasioned by yesterday's walk-out of copper miners in this district drew beyond the control of Sheriff Crane today, and he wired to Governor Ferris asking that state troops be dispatched to maintain order.
 The local militia companies were ordered to hold themselves in readiness for service pending word from the governor, who, it is understood is on his way to Alpena from Lansing.
Many Badly Hurt.
 The chief attack of strikers today was directed against the Calumet and Hecla properties. Shortly before noon 300 men armed with steel drills, clubs and stones, and with a few of them displaying firearms, descended of their shafts, all deputies stationed at the shafts of the companies. The strikers then moved over to the Hecla branch mine and repeated their tactics.
 Several men were badly beaten and sent to hospitals in the fights that developed.
 The strikers also visited all surface plants of the companies affected and closed them.
REFUSED TROOPS.
 Bay City, July 24.—Governor Ferris, on his way to Alpena, but delayed here by a train wreck, said today that he would not grant Sheriff Crane's request for troops in the copper mine strike district, except as a last resort to protect lives. He said he believed the sheriff's message was "anticipatory."
TIE-UP IS COMPLETE.
 [Canadian Press.]
 Calumet, July 24.—Stamp mills as well as mines are now shut down in the Lake Superior copper district, because of the miner's strike. The tie-up is complete with the exception of the smelters, some of which have enough mineral on hand to operate for a week or more.
 Calumet and Hecla conglomerate shafts at the Calumet branch, which were worked yesterday, closed last night, when the strikers prevented men from going to work. Franklin and Hancock mines, which also worked yesterday, suspended last evening.
 Mining Captain Thomas Matthews, of the Calumet and Hecla, was attacked by strikers last night and knocked unconscious. A large body of strikers went from one shaft to another at the Calumet and Hecla and Tamarack, and several loyal employees were attacked with stones and painfully hurt.

To Be the Greatest Port in the World

Here is the first photograph of the immense shed the United States Government is building at Cristobal, Panama, the Atlantic terminus to the canal. When the canal is opened it is destined to become the greatest port in the world, shippers say.

SNOW-WHITE

AS TOLD BY AUNT GERTIE.

"Oh dear! Where am I? Cried little Snow-white with a Sigh."

The Handsome Prince on his Fin e. Big Charger, Rides Over the Mountain, Discovers the Glass Coffin, and Takes Snow-White Away as His Bride.

CHAPTER VI.

The handsome prince looked like a giant almost as he rode into the courtyard of the dwarf's house and dismounted in front of the door. The little masters, still sad and lonely, without their fair princess, were just returning from another hard day's work.

Snow-white was bewildered at first. But she soon learned that she loved the prince even now. So she told him she would come with him and marry him.

"I beseech you to give me the glass coffin and the lovely dead girl it holds," said the prince, in pleading tones. "If you will I will promise to take care of you all the rest of your lives and treat you just as if you were my brother."

"Looking-glass, upon the wall," she said, "Who is the fairest of us all?"

"Of course, she expected the mirror to tell her that SHE was. Instead it made answer:

"O, queen, altho' you are of beauty rare, The young bride is a thousand times more fair."

"Who can she be? How can that be? What can I do?" cried the angry queen in madness. She was too angry to think of good fairies, and forgot to go to the feast.

Stopping beneath a big tree in the woods the servant set down the basket and the king took the pretty maid to a rustic seat and told her own story; how she had eaten the poisoned apple, and then dropped like a dead person.

"Why, it's Snow-white!" she whispered to herself, turning pale and sick. She tried to leave the castle, but her heart was broken, because she had failed in her attempt to kill the beautiful Snow-white.

KATHERINE LESLIE'S HOME CHAT

How to Avoid Dishwashing in the Evening.

Alice Grand-esin has contributed the following on "The Washing of Dishes." What a bug-bear dishwashing is to most women! Dishes—dishes—dishes—three times a day! Did you ever stop to wonder if it would matter at all to anyone if you only washed dishes once a day?

Use a dish mop and piping hot water kept clean by constant changing. Do not pile all the dishes in at once—put in the cups, finish those, then the saucers, and so on to the dinner plates and his single pieces which are better done one at a time.

The Poets' Corner

"SHE WALKS IN BEAUTY."

She walks in beauty, like the night Of cloud-climbed hills, and starry skies, And all that's best of dark and bright Meet in her aspect and her eyes.

One shade the more, one ray the less, Had half impaired the nameless grace Which waves in every raven tress, Or softs or lights o'er her face.

PROBLEMS OF THE FAIR SEX SOLVED BY CYNTHIA GREY

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn as they are received. No letters can be answered privately.]

To Clean Enamelled Walls. Dear Miss Grey: Please tell me how to clean a bathroom that has white enamelled walls and woodwork. To get rid of ants: Put a piece of gum camphor on the pantry shelves and they soon disappear.

Her First Letter.

Dear Miss Grey: This is my first letter to you, and I hope I will not inconvenience you by asking you a few queries.

- 1. I am thirteen years of age, five feet, four inches tall, and rather stout. How long should I wear my dresses?
- 2. I have light brown hair, blue eyes, and a fair complexion. What are my colors?
- 3. What is the meaning of these names: George, Cynthia, Madeline, Catheline and Bertha?
- 4. Last and least, what do you think of my scribbling?

BLUE-EYED BEAUTY.

A.—1. To within two inches of your shoe-tops.
2. Light blues, greens, and browns, should be becoming.
3. George, a landholder; Phillip, a lover of horses; Cynthia, belonging to the step-mother of Snow-white. The beautiful names I have never heard of before.

Recipe for Pineapple Snow.

Dear Miss Grey: Kindly answer the following questions as soon as possible:

- 1. Please give me recipe for pine-

Tea-Table Talk

I well remember the afternoon that the delegates to the National Council of Women annual convention held in Montreal, this spring, visited the Local Council's milk depot and child welfare exhibit, in the city. Several interesting addresses were delivered during the course of the afternoon by Dr. Adams and other workers practically interested in both enterprises.

Perhaps the eye of more than one delegate wandered speculatively towards the daintily appointed lunch table set in one corner, and perhaps it was from noticing these glances that Dr. Adams felt called upon to announce that the noise behind that door was not that of the Montreal ladies preparing tea for the delegates (although we were assured that would come later), but was simply the bustle of the milk station.

Presently we were given an opportunity of visiting the depot, the actual work, so well conducted under the management of the Montreal Local Council. Here was the wholesome, capable nurse and her assistants, busily engaged in dispensing the certified milk to mothers of many types and nationalities—Canadian, French, German, Swedish, Jewish, many of them with faces bearing the imprint of poverty. Some brought their babies with them for the nurse to inspect, and what poor, puny little things some of them were! Yet both nurse and mothers eagerly affirmed that the young ones had gained considerably in weight since being fed on the pure milk diet.

The milk depot idea is increasing in popularity throughout Canadian cities. Hamilton and Toronto each have one or more, and recently under the united enterprise of the Local Council of Women and the Victorian Order of Nurses of Halifax, one has been established in that city.

The Girl in Brown.

It happened one Saturday afternoon at the Public Library. You know how the reading public of London, who avails itself of the free library privileges, congregates before the little iron door, each person eager to get a "good story" to while away the hours of Sunday afternoon.

apple snow.
2. What is the meaning of Timothy, Allen, Edwin, Edward, Herbert?
3. Kindly tell me what clothes will be suitable for two weeks vacation at the lakeside.
4. I have material for dress. What style would you suggest for a girl of fifteen, tall and slight? Would Balkan be suitable?
5. What age is it proper to join a choir?
6. Is a girl of fifteen too young to receive attention from a young man about the same age?
7. When can we expect to see Entrance Results? You are not tired now, are you Miss Grey? I am.

ANOTHER FOOLISH ONE.

A.—1. Prepare the pineapple by peeling and shredding up finely with silver fork. Sprinkle over it a half-cup of powdered sugar and let stand while you beat up the whites of two eggs.

- 2. Light blues, greens, and browns, should be becoming.
- 3. George, a landholder; Phillip, a lover of horses; Cynthia, belonging to the step-mother of Snow-white. The beautiful names I have never heard of before.
- 4. Last and least, what do you think of my scribbling?

7. As you will have noticed they have been published since receiving your letter.

as she looked about almost as if to say, "There, I got it ahead of that time." "You had, indeed! One can only hope that the girl in brown will realize before it is too late that she is laying for herself the foundations of a selfish, disgusting character. One would certainly save her from it, were it possible.

The Normal

Style Notes

The black velvet neckbands show great originality and variety. One has a tab about three inches long hanging directly from the end of the tab being weighted with a "motif" of brilliants set in platinum. Some are tied; others in a tight little bow at the back. One that I saw was tied in a butterfly crease, not directly in front.

Proppos of butterflies, the latest thing in feathers for hats is the papillon. It is a little circle of flues left at the very end of the long rib of a feather, something like the "eye" at the end of a peacock feather. In fact, peacock feathers are used in many cases. But the papillon must be black and must float with its mate at least a foot above the crown of the hat.

The summer waives are very original in effect, and are made of silk, cotton and transparent crepe. Brilliant eastern colors, embroidered with huge golden dragons or large flower designs, are lined with chiffon.

Street coats are to be quite long and evening wraps are to reach the ground during the coming fall season. The skirts will be draped to suit the most fanciful dressing, and the coming will fall about the knees, or below, and the skirts will be plain about the hips.

Daily Menu

- FRIDAY. BREAKFAST. Sliced Oranges. Corn Flakes. Fresh Gems. Coffee.
- DINNER. Mock Bisque Soup. Boiled Fish. Potato Rolls. Lettuce and Cucumber Salad. Gooseberry Tart.
- SUPPER. Cold Veal Pie. Cake. Tea.

SALE OF WAISTS

We don't want to keep any of these Summer Waists over for another season, so away they go Friday and Saturday. A big assortment in muslins, lawns, embroidery and fancy waists.

Ringsmills Big Specials in Sweater Coats.

Outdoor Cooking

The greatest difficulty camp baking presents is that of adapting the complicated methods of the household cook-book to the limitations of camp life, for you will have to do without most of the home conveniences, such as bread-board, rolling pin, sifter, cutters, etc.

MAKING A COOLING JAR.

METHOD—Place milk, butter and cooked food that has to be kept cool in bowls and bottles, with covers set slightly ajar. Now take a large dish, or better, a stone jar; place enough stones in bottom little above the top. Fill jar almost to top with cold water, now dip a heavy towel or cloth in water, cover top of dishes with this cloth and let all edges dip into the water.

However, you CAN dispense with ALL OF THEM if you follow these short recipes given here, and the variety that can be baked in a camp would no doubt surprise the old-time camp cook who deemed anything beyond soda bread, corn pone and flapjacks impossible!

TIT-BITS

Mrs. W. P. Borland, whose husband, Congressman Borland, of Missouri, brought home a founding girl whom he felt sorry for, has decided to adopt the child.
Lillian K. Malcomb, of Cincinnati, is one of the few women prospectors in the world, and has been in nearly all the gold-bearing countries.
John Drew is a suffragette. "I could not," said Mr. Drew, "very well be anything else. Any man must be the women of whose family have been for at least 100 years wage earners and property holders.
Queen Mary, who formerly consented to allow Miss Eleanor Church, one of her dressmakers, to take service with Princess Augusta Victoria, after her marriage with former King Manuel, this fall, has withdrawn her permission because it would be necessary for Miss Church to change her religious faith.

spread evenly and thin, press sliced apples or canned peaches over, sugar well and bake until well done and fruit is tender.
GOOD CORN BREAD. INGREDIENTS—Two cups cornmeal, 1 cup flour, 3 teaspoons baking powder, 1 teaspoon salt, 2 tablespoons sugar, 2 eggs, 2 cups milk or water, and 2 tablespoons melted lard.
METHOD—Mix all dry ingredients, beat eggs well, add to milk and stir into meal, beat in the melted lard and spread in greased flat tin, about 1 inch thick. If you have a good oven this bread can be baked in deeper pans. Bake in good steady heat and cut into blocks before removing from pan.
When there is no milk on hand to bake with, use one-fourth evaporated milk to three-fourths water (or only water). If you have true-milk or true-egg use this formula:
Two tablespoons of true-egg to two tablespoons of warm water. Add powdered egg to water, then whisk with a fork until they froth, using as other eggs. This is the equivalent of one egg. If true-milk is used, use three to four tablespoons of each cup of water, adding the powdered milk to the flour; then use the water as you would milk.

Queen Mary, who formerly consented to allow Miss Eleanor Church, one of her dressmakers, to take service with Princess Augusta Victoria, after her marriage with former King Manuel, this fall, has withdrawn her permission because it would be necessary for Miss Church to change her religious faith.

Brace—N. M. Allen (part II), L. Campbell (part I), L. S. Cumming (part II), honours, E. W. Daniel (part I), M. A. Davidson (part II), G. E. Fiddes (part II), J. L. George (part II), T. L. Bledhill (part I), H. S. Hartley (part II), A. C. MacKenzie (part II), D. L. MacKenzie (part I), N. J. McKinnon (part I), honours, F. A. Nain (part II), V. G. McCannell (part II), G. Wood (part I), W. L. Yack (part II).

How To Neutralize Dangerous Stomach Acids

Few people besides physicians realize the importance of keeping the food contents of the stomach free from acid fermentation. If this is not done, the stomach cannot take place while the delicate lining of the stomach is being inflamed and disintegrated by acid and normal digestion and fermentation food in the stomach. To secure perfect digestion, fermentation must be stopped or prevented and the acid neutralized.

Fortune Now Within Reach

Hamilton Man Fighting for a Fortune of Nearly \$3,000,000. ODD FEATURES OF CASE. Hamilton, July 24.—David S. K. Byrne, formerly David S. Kidd, of Montreal, arrived in the city yesterday, and is leaving again this evening. Mr. Byrne will be remembered as the man who is fighting for a fortune of \$2,700,000, out of the estate of Wellington George Byrne. The estate is valued at nearly \$3,000,000. Mr. Byrne's visit to the city at this time is in pursuit of identification certificates, which are required by the executors of the estate. Ever since the death of W. G. Byrne in 1908, David Byrne has been on a search for the necessary identification certificates to prove his claim to that portion granted him by the deceased under the terms of the will. One of these terms called for Mr. Byrne to adopt his benefactor's name which he has since done. His original name was David S. Kidd, and he resided in Hamilton for a number of years.

Cold Storage Plant For Western Fair

Special Attention To Be Given Butter and Cheese This Year. It is a well-known fact that the dairy industry is one of the best assets of the farmers of Ontario today. Realizing this fact, the management of the Western Fair have given a good deal of thought and attention to this department. In addition to their splendid building, which only fault is its size, they have installed a cold storage system for both cheese and butter. Exhibitors may rest assured their goods will be properly cared for while at the exhibition. The prize list has been changed considerably this year; instead of showing two cheeses, as in the past, the sections have been divided, and one cheese of each month's make, June, July and August, of both colors and types, are asked for. The prize money is liberal and is extended to sixth place, giving more exhibitors a chance to win. Sections are also made for Canadian flats and Stilton cheese. In addition to the regular prizes, special prizes have been kindly donated by cash specials, and silver cups to this department, making it very attractive. The buttermaking competition will be carried on every day of the exhibition, and as there is a large auditorium with plenty of good seating accommodation, this is a popular building. Prize lists and all information from the secretary, general offices, Dominion Savings Building.

Simple Treatment For Removing Hairs

[Modes of Today.] A quick, harmless, painless way to remove unwanted hairs is to make a paste with a little delatone and water. This should be applied to the hairy surface for two or three minutes, then rubbed off and the skin washed. This simple treatment banishes every trace of hair or fuzz and leaves the skin without spot or blemish. No harm can result from using the delatone treatment, but care should be exercised to see that you get real delatone. Frequent applications of proxin at wash-roots with thumb and forefinger will make them grow long, silky and curly, greatly adding to woman's physical charm. Rubbing proxin on eyebrows makes them come in thick and glossy. Use care and don't get any proxin where no hair is wanted.

The Biggest Burroughs

Hardly a month passes that this Company does not produce something new that makes adding machines do more than they have ever done before; that shortens accounting work, increases office efficiency, all at a price that can be saved in the course of a year.

If you have not seen the new 17-bank Burroughs, you have not seen the very latest thing in the way of adding machine development in size. This is the machine that the United States Census Department used in handling its big figures.

Burroughs Adding Machine Co. D. W. SAXE, Sales Manager. 146 Bay Street, TORONTO, ONT.

The new "Ses-qui" is not only safe and silent, but also non-poisonous. Absolutely harmless. Ask your dealer.

LEGAL QUERIES

INQUIRER.—Mr. M. has a suburban residence valued at \$6,000, with a mortgage of \$1,000 on it. His wife has the money and her husband wants it to pay it off. How will she let him have it in order to secure the money for herself and her children in case of any change? What is the proper course to take, or is it advisable to lend it at all? A.—The wife can take a mortgage on the property from her husband, as if she were a stranger to him, with the

same legal effect. Consult a lawyer as to whether it is advisable, if you have any doubts otherwise.

HARVESTER.—A writes to B for a job, saying he will work for a certain sum a month for two months. Can A at the end of one month, when the harvest begins, leave B's employment and demand one month's wages? A.—A is liable for damages for breach of contract if he leaves before the end of the two months. He is, however, entitled to be paid monthly upon the facts stated.

MR BECK HEARS MANY BUT DOESN'T TELL MUCH

Makes the Usual Promise of Efficient Service From the Hydro.

Toronto, July 24.—Hon. Adam Beck was in his office Wednesday at the hydro-electric service, caused by the ters. Most of the time Secretary Pope and Chief Engineer Gaby were with him, and the trio were immersed in the accumulation of business since the chairman went to England. There were scores of visitors, many of them on business visits. Practically everyone saw Mr. Beck. The Minister of Power was eager to hear them talk and to learn everything about the local electrical situation. He fired questions at everybody on every phase of the much-talked-of negotiations between the city and Sir William Mackenzie with the zeal and persistence of a legal cross-examiner. But he volunteered nothing himself. He was manifestly grateful for all the information anyone had to convey regarding any matter connected with the subject. But he was slyly and unresponsive when queries were aimed in his direction. "There is nothing before me," he naively told the press, "and it would be most unwise in me to comment prematurely and without adequate knowledge on what appears to be a somewhat important situation." Regarding the interruption in the hydro-electric commission headquarters during his absence, Mr. Beck promised that in the future the service would be kept at the point of highest efficiency. He stated that he had received many expressions of sympathy from municipalities and private persons, for which, he said, he was grateful.

STRIKERS LOCKED OUT

Found Their Places Filled When They Wanted to Return. [Canadian Press.] Montreal, July 24.—Sixty-five bridge workers, who went on strike at Chaudiere, Que., today found themselves unexpectedly minus their jobs. They had been getting \$2 a day and wanted \$3. After they saw there was little prospect of getting it, they went back to work, to discover that their places were filled and that there was no chance for employment.

CLAIM \$3,500,000. [Canadian Press.] Vancouver, July 24.—The total amount of damage claims submitted by Canadian sealers, according to a table prepared for the sealing commission about to assemble here, aggregates three and a half million dollars.

SAIL FOR LEPER COLONY. [Canadian Press.] Vancouver, B. C., July 24.—The three Montreal sisters of charity who are going to spend their lives in a Chinese leper colony, sailed yesterday on the steamer Montreal. A large crowd stood on the wharf and sang "Lead, Kindly Light," as the vessel pulled out.

PAVING PLANT WAS IN BAD SHAPE AND DELAYED THE WORK

But Engineer Says Queen's Ave. and Waterloo Will Be Finished in Few Days.

Complaint Made of Bad State of Roads in All Parts of the City.

The fact that London has put down little or no asphalt in the last four or five years is responsible for the delay in the putting on the facing of the Queen's avenue and Waterloo street pavements. The plant of the Barber Asphalt Company has fallen into a sad state of repair, some of the pieces, according to the city engineer it was necessary to secure new drums, and there was a strike of iron workers at Buffalo, which prevented their being repaired. Ready in a Week. "They are getting the plant into shape now," said Mr. Ashplant. "It has been in a bad condition for some time, owing to the fact that London had stopped putting down permanent roadways. The repairs have been made, and both streets will have the asphalt on them and be ready for traffic within a week." Some criticism has been made by citizens because the gravel and broken stone taken from these streets had been used for improving one or two blocks. Some of it was used in front of the Grand Trunk freight sheds and some was taken to the south side. It served to regravell only a couple of blocks. Citizens stated that it could have been used to fill the neglected holes in many blocks in several parts of the city. Streets in Bad Shape. "I ride a bicycle and drive over the city all the time, and the streets are in the worst shape I have known for 30 years," said one. "This gravel could have been used for the general good, and not for one or two blocks." The same ratepayer stated that the street railway was not keeping its tracks properly gravelled, neither in the centre nor on the 18-inch strip on either side, which the law compels it to maintain. In some places above the city the tracks are three or four inches above the roadway, a dangerous condition.

DEATHS SH RDL W YPtalmf wytaf Lewis McDonald Dead. Lewis Charles McDonald, second youngest son of James McDonald, of 88 Dundas street, died at Victoria Hospital on Wednesday after an illness of over six months. He went to San Antonio, Texas, last February for his health and returned two weeks ago and entered Victoria Hospital, where he died. He was 32 years old, and had been a dentist in Chicago for some years. His father, three brothers and two sisters survive him. The brothers are Francis J. and George Y., of Chicago, and Basil W., at home. The sisters are Mrs. M. Springer, of Detroit, and Miss Leone at home. The funeral will be private on Saturday morning at 7:45 to St. Mary's Church, where Requiem High Mass will be sung at 8 o'clock. Interment will be made in St. Peter's Cemetery.

Rowdies Threaten to Hang Pastor

Broke Up Meeting of Seventh Day Adventists on Sunday.

[Canadian Press.] Montreal, July 24.—Before Pastor Jean Vuilleumais had a chance to give out his text, rowdies last night rushed into the canvas tent, where Seventh Day Adventists were holding a meeting in the North End, drove out the congregation, and then wrecked the tent. Pastor Vuilleumais was told that if he ever attempted to hold a meeting there again he would be hanged from the pole and the tent burned. The district in which the attack occurred is near where John Roberts was attacked and blackjacked a couple of weeks ago, while holding an open-air temperance meeting. The Adventists have been holding a series of meetings, and after the Tuesday evening gathering had been interrupted, they asked for police protection, but only one constable and a plain clothes man appeared last night.

Shot Himself After Decorating Grave

Aged Resident of North Bay Had Lost All His Children.

[Canadian Press.] North Bay, July 24.—John Kruger, an old resident of North Bay, shot himself last night while decorating his children's graves. He had lost all his children had died and the old man had never recovered from the shock of the death of a son several years ago. Yesterday Mr. and Mrs. Kruger visited the cemetery and placed flowers on the son's grave. Having returned home the old man walked upstairs, and placing the barrel of a revolver in his mouth, pulled the trigger, death resulting immediately. Mr. Kruger was 14 years a foreman of the C. P. R. mechanical department staff at North Bay and was well-to-do.

Tried to Assault Premier Asquith

[Canadian Press.] Doncaster, Eng., July 24.—An attempt by a militant suffragette to assault Premier Asquith while he was on his way today to the town hall of Morley, Yorkshire, to receive the freedom of the city, was frustrated by the police. Miss Key-Jones, a well-known suffragette of this city, sprang on to the step of the premier's automobile shouting "Stop torturing women, you scoundrel," and tried to clutch Mr. Asquith. He was striking on a load of hay and graged her away. GOT AWAY WITH \$100. [Canadian Press.] Calgary, July 24.—After successfully blowing the safe of W. F. Moore, Limited, with nitro-glycerin, burglars only obtained \$100 loot.

FIRE VICTIMS WILL BE GIVEN PUBLIC FUNERAL

Full Investigation To Be Made Into the Holocaust at Binghamton.

Dead Will Number at Least Fifty and Likely Many More.

[Canadian Press.] Binghamton, July 24.—State and local authorities today began an investigation of the circumstances surrounding the fire of the overall factory of the Binghamton Clothing Company, in which at least 50 persons—mostly women and girls—lost their lives. Representatives of the state department of labor, the state fire marshal, the state factory investigating commission and the committee of safety of New York, were present at today's inquest, which is being conducted by the coroner. Workmen today continued to search the ruins of the burned factory building. Of the 28 bodies thus far recovered, but three have been identified. The others are burned beyond recognition, and will be buried in a plot to be set apart by the city for the unidentified dead. A public funeral is planned for Sunday. May Not Recover. The task of compiling a list of the victims of the disaster is progressing slowly. Of those in the hospital Mrs. Mary Benny, Ruth and Edna Croft, and Mrs. May Leighton, are so badly injured, that their recovery is not expected. Beside the seven known dead, 34 have been reported missing, and probably are dead, and 45 survivors have been accounted for. Not until the office safe has been opened can a complete list of the employees of the clothing factory, dead, living and missing, be made. The safe was the first to be thrown to the pavement, but it was so hot that no attempt was made to open it.

FINE SEASON FOR RESORTS

Every Hotel and Cottage at the Beaches Is Now Full.

MANY LONDONERS THERE [Special to The Advertiser.] Sarnia, July 24.—The resort business at the Sarnia beaches is a record-breaker this year, and promises to more than make up for the bad season last year. Every cottage was taken before the season opened, and from the number of requests for accommodations, it is likely that a number of new cottages will be put up next year. The hotels are all filled, and in many cases two sittings are required to seat the guests at the dinner table. Among the new arrivals at the beach are Mr. and Mrs. Cowan, of London; the Messrs. and Mrs. G. M. Fergusson, of London; and some 25 or 30 more from the States.

STRUCK BY AUTO

Manyard Wallis Had Close Call While Out Wheeling.

[Special to The Advertiser.] Sarnia, July 24.—Manyard Wallis was struck by a passing automobile last night while riding his bicycle on the street. The auto, driven by a young man, had escaped without serious injury. The wheel, however, was demolished. The auto is said to be owned in Hamilton. The numerous accidents in Sarnia of this nature, are blamed by motorists to be due to the narrow streets here.

Hold Young Man As White Slaver

[Special to The Advertiser.] Sarnia, July 24.—Mrs. Mamie Smith and Neal Jefferys, both of Sarnia, are under arrest in Port Huron on complaint of the woman's husband. The couple crossed the river early in the evening and were found by the police in a resort.

P.M. Freight Sheds and Car Robbed

[Special to The Advertiser.] Sarnia, July 24.—The Pere Marquette freight shed and a Pere Marquette freight car were broken into last night and a considerable quantity of merchandise stolen. This is not the first robbery, and the police are determined to catch the culprits. Subscribers to The Advertiser who want their paper sent out of town for the holidays can notify office by card, or phone 3670. In asking to have paper changed, give old as well as new address, and if possible state when you want paper returned to city address. Subscribers not on our office delivery are requested to pay in advance, thereby saving us the annoyance of chasing and collecting small accounts. Circulation Dept.

PLENTY OF WHOLESOME FUN FOR THE YOUNGSTERS IN A

BROWNIE CAMERA

Prices go from \$1 to \$12. Films brought to us before 11 a.m. may be had at 6 p.m. Strong's Drug Store 184 DUNDAS STREET.

Keeping an Eye on Mexican Trouble

[Canadian Press.] London, July 24.—Sir Edward Grey, the British foreign secretary, is keeping in communication with the British admiralty in case the presence of a British warship in Mexican waters should be considered advisable. Thus far, however, the British minister in Mexico City has not reported British subjects to be in danger. It is pointed out by the foreign office today that the British in Mexico in common with other foreigners have suffered from the continued disturbances. Caught Militants Firing Mansion [Canadian Press.] Glasgow, July 24.—Two suffragettes, Margaret Morrison and another woman who refused to give her name, were arrested here today when on the point of setting fire to a large mansion in a suburb of Glasgow, which was at one time the residence of the late Sir John Muir, a former lord of the council. The attention of the police was attracted to the house today and they entered. Inside they found a woman standing with a match in her hand, from which some piles of combustibles, which had been hanked against the doors. Shortly afterward Margaret Morrison descended a chimney in which she had been secreted. She was covered with soot. A quantity of suffrage literature was found in the house. Street Car Accommodation. To the Editor of The Advertiser: Kindly allow me through your valuable columns to make a few suggestions on the above important matter, and also to register a few complaints. In the first place, should the company continue the present schedule I would suggest that they place a switch midway between Richmond street and Adelaide street, on Central avenue, and run the cars both ways, or that much-travelled line, continuing on to Dundas street as before. In the next place I would suggest that the company allow the conductors a little more liberty to use their own brains, at least in some important instances, or conditions. A case in point. I, with some other gentlemen, waited at the corner of Princess avenue and Adelaide street for a south bound car. After waiting ten minutes a car boy in sight, but to our consternation and vexation it halted at Central avenue, waiting for the north bound car to make its appearance from off Dundas street. We took out our watches and timed the event and found the south bound car had time to make Dundas street twice over before the north bound car appeared. Consequently we concluded that if the company have cast iron rules that cars must pass at given points, whether on time or not, the sooner such rules are changed the better for the long-suffering public. Yours very truly, CITIZEN AND CONSTANT USER. London, July 24.

CORRESPONDENCE

Hotel guests are as follows: Invererie—Charles Whitley, of Rochester; T. H. Dincombe, wife and daughter, of Detroit; M. Woodford, of St. Thomas; W. F. Ferguson, of Tillsonburg; C. Giffin, E. W. Davis, of London. Franklin House—C. B. Stephenson, of London; Mrs. G. M. Ferguson, of London; Maurice Bowler, of Chicago; D. J. Conway, of Toronto, and Miss Banks, of London. Loney House—Wm. McNeice, of St. Thomas; John E. Currie, of Hamilton; Messrs. McConnell and Hallmen, of London; W. M. Fiddim and T. W. Stock, of Cleveland, Ohio.

Berry Season Is Now at Its Height

Lots of Fine Fruit Being Brought to Ingersoll Market. [Special to The Advertiser.] Ingersoll, July 24.—The berry crop is now at its height. The berries are being marketed daily in large quantities, and the demand, even at prices in excess of previous years, is keen. The weather since the fruit began to ripen has been especially favorable. Occasional showers with just sufficient sunshine and cool nights, have done all that could be expected. Few of the berries have been found under the skin, in fact, just the opposite condition prevails. They are large, highly-colored and of splendid flavor. In all the local patches a big crop is reported. The prevailing prices is two boxes for a quarter.

Quick Work Saved From Accident

Motorman Plugs Car That Was Running Down Rig.

There is a woman alive and uninjured today who owes that fact to the prompt action of George Sinclair, motorman on Oxford car No. 76. Sinclair stopped his car within its length on Horton, between Clarence and Richmond streets, about nine o'clock this morning. The car had just left the switch at the corner of Horton and Richmond streets and was travelling at a fair rate of speed, when a woman driving what appeared to be a farmer's buggy, and accompanied by a little boy, drove right onto the rails in front of the approaching car. The motorman rang the gong, and at first did not attempt to slow down, as he thought the woman would get out of the way. When he saw that she did not heed the signal he shut off the power and applied the brakes, but before he could bring the car to a stop, the rear of the buggy was lifted to the side of the road. The rig was not overturned, and a pedestrian prevented the horse bolting.

Hurt His Spine May Not Recover

[Special to The Advertiser.] Woodstock, July 24.—As a result of an accident in the hayfield, H. G. Penfield, of the Thirteenth Line, East Zorra, a prominent farmer and cattle breeder, lies in the hospital here with but a slight chance for recovery. He was striking on a load of hay when the wagon struck a stone and threw him off. Landing on his shoulders and neck he injured his spine, and it was necessary to hurry him to the hospital for an operation. Two pieces of bone were removed, and he may live if kept in quiet.

HANG ON!

[Canadian Courier.] Every man who owns anything in Canada at the present time should hold it if he has to live on porridge. Yes, hang on. Don't let the bank manager scare you. Don't listen to the broker who advises you to sell because the market will go lower. Grip the saddle with both knees and sit tight. Don't be tampered with.

Sale of DRESSES

Every dress in stock, consisting of white voiles, embroideries, linens, gingham, flannel, printed muslins, etc., to be cleared now, regardless of cost or former prices, ranging at \$1.19, \$1.29, \$1.49, \$1.98 and upwards. Make your choice early.

Financial and Commercial

FRUIT ON THE MARKET IN LARGE QUANTITIES

Large supplies of fruit on the market this morning did not affect prices to any extent. Raspberries were the biggest offering, and the price remained firm at 14 to 15 cents a box. The supply of cherries was small, and the price 9 cents a quart. Black currants sold at 16 and 17 cents a box, and were a little higher than on Tuesday. Most vegetable prices are firm, and there are no changes. Yesterday there were 70 loads of hay offered, and all sold at a high price. Straw sold at \$8 a ton, and no oats were on the market. Butter and eggs are scarce and very firm at the same prices as Tuesday. Butchers' meats are holding the same firm prices as before as also are hides and wool.

Table with columns for Wheat, Oats, Corn, Potatoes, Apples, etc., listing prices per bushel or ton.

Table with columns for Live Stock, including Hides, Wool, and various types of sheep and cattle.

Table with columns for Produce, including various types of fruit and vegetables.

For Other Markets See Page 9

TORONTO, LIVE STOCK. The Union stockyards this morning trading was very dull, but the prices were firm, being particularly strong for receipts. 1,022 cattle, 221 calves, 1,250 hogs and 1,683 sheep.

Engineers' Picnic.—C. P. R. and G. T. engineers are picnicking at Springbrook today. Summer Carnival.—London will have another summer carnival, commencing on Aug. 4 under the auspices of the Lord Mayor of Moose. The arrangements are being made at the present time.

POPE'S GUARDS BESIEGE PALACE IN BIG MUTINY. Three of the Leaders Were Expelled From the Vatican. Troops Were Called Out to Arrest Any Swiss Who Caused Trouble.

ROME, July 24.—Throughout the day yesterday the Vatican was in a veritable state of siege. This was the outcome of the mutiny of the Swiss guards, whose demands in the form of a memorial relating their grievances and setting forth the conditions on which they would remain in the service, were flatly rejected.

Joseph Frith, Glebe street, was charged in police court this morning with assaulting A. R. Yerex, bailiff of the ninth division court, on Tuesday morning, when the latter, after hearing the testimony of Yerex and Frith, ordered that Frith be committed to jail for a week last Thursday on a charge of vagrancy, after being found in a vacant lot at the corner of Bathurst and Talbot streets, from which he was unable to move on account of his crippled feet, was again remanded for two days, while an effort is being made to have him admitted to Victoria Hospital.

MYSTERY DEEPENS HOURLY ABOUT MURDER OF BEAUTIFUL ALICE CRISPELL, WHO SANK TO SILENCE AFTER WHITE NIGHT OF REVELRY.

ALICE CRISPELL AND HERBERT JOHNS. Wilkesbarre, Pa., July 23.—"I took my gun from the shelf and pointed it at my daughter. It would be better that the bullet in this gun should pierce your heart than that you should sell your soul to the devil. I told her that the warning William Crispell, Wilkesbarre, Pa., gave his daughter Alice, whose body was taken from Harrow's Lake on July 7, when he realized that she was following that will-o'-the-wisp—the light that shines from café windows."

DR. J. O'NEILL, OF LONDON DIES ON WESTERN RANCH. Was Prominent Here for Many Years as a Veterinary Surgeon. Word was received in this city this morning of the sudden death of a ranch near Earl Grey, Sask., of Dr. J. O'Neill, veterinary surgeon, of this city.

Around the City Hall. Third Line Soon. A further assurance against hydro breakdowns in London will be the third power line, that will be constructed from Niagara Falls to London when the Windsor line is put through, according to General Manager H. J. Gault, of the water commission. The construction of this line is expected to be completed shortly.

YOU HAVE TO FIND OUT FOR YOURSELF. Now Adam most probably knew Much more about life than his son, But I'll warrant his son stoned, "Pooh," When father told what should be done. Like many a boy who is bright, He said, "The old man's on the shelf." Well—he learned his father was right. But he had to find out for himself. And so it has gone down the years, The young ever doubting the old, And suffering sorrow and tears,

A SHERLOCKETTE. "My wife, kisses me evenings when I get home late." "Affection?" "No investigation."

A BUMPER WHEAT CROP.
 Thousands of Men Required—This Year's Harvest Promises To Be the Largest in the History of Canada.

According to present indications the wheat crop of 1913 will be the greatest ever harvested in Manitoba, Saskatchewan or Alberta, thus requiring the farm laborers of the east to assist in harvesting the world's greatest bread basket.

The Governments of the respective provinces state that many thousands men will be required for this year's harvest. These will have to be principally recruited from Ontario, and the prosperity of Canada depends on securing labor promptly. The Canadian Pacific, on which company will fall practically the entire task of transporting the men to the West, is already making special arrangements for this year. Excursions from points in Ontario to Manitoba, Saskatchewan and Alberta will be run and special trains operated, making the trip in about thirty-six hours and avoiding any change of cars or transfers. This will be a day shorter than any other route. Dates, rates and conditions will be announced in a few days. M. G. Murphy, district passenger agent Canadian Pacific Railway.

 The Advertiser office is open every night, except Sundays and holidays, until 9:00 p.m. In telephoning after 6 p.m. call No. 3670 only, business department, for complaints, change of address, etc., and other numbers according to list at top of Page Four. If you do not receive an answer to 3671, 3672, or 3673, call 3670, and you can always get an answer before 9 p.m.

Early Edition On Saturday
 On Saturday, July 26, The Advertiser will issue to its subscribers an early edition, which will reach the homes of Londoners about noon. A picnic of Advertiser employees has been arranged for that day, and in order to provide ample time for a day's enjoyment, the last forms will be closed at 10:30 o'clock.

SAYS TEA AND KNITTING ARE CAUSES OF RUDENESS.
 The Prussian Minister of Railroads has just issued an ordinance requesting the employees, especially their women employees, to be more polite in their intercourse with the public. Numerous complaints have reached the ministry of shortcomings in this respect, and the ministry warns its servants that if they do not turn over a new leaf sterner measures will be taken.

With regard to the women, their main faults appear to be too great an addiction to knitting, crocheting and the preparation of tea or coffee when the public is impatiently waiting to be supplied with railroad tickets. In busy times they are also too apt to lose their heads and to answer impatient travellers tactlessly.

Some year ago similar complaint was made about the women employed in the postoffices and at the telephones, but energetic measures were taken by the Government to stop this nuisance, and it has now become a pleasure to transact business with a woman assistant in the German postoffices.

Pay Yourself Off
 Saturday as a rule is pay day and rightly so, it comes at the end of the week when the work is done and when there should rightly be some reward for labor. Do you reward your body for the labor it has performed for you? Do you pay yourself off? Are you thankful for the ability to render services? You owe it to your body to take care of it. You can take care of it by taking

AROUND THE CITY HALL

Some Resurrections.
 Some of the old familiar earmarks of the city council chamber, that have been strangely missing for the past year and more, will make their appearance again in the new Spencer Block city hall. These "earmarks" are the oil paintings of London's former mayors that adorned the walls of the old auditorium. When the city hall auditorium was turned into office space the paintings were removed and packed away. They have remained packed away ever since, but they may soon see the light of day again.

Carts Are Big Enough.
 Superintendent W. C. Dodd, of the garbage collection department, in answer to the criticism that has been leveled at the "small" carts of the department, declares that they are handling every bit of garbage that is offered. The daily collection has now reached over 70 loads, that being the average brought in by the department's carts.

"War Horse" Still There.
 Ex-Ald. Neil Cooper may not be in the 1913 council, but the old "War Horse" beat the present aldermen by a mile when it came to being in the new city hall. For several months he has had his quarters in the building, and his house a distinction that is made all the greater by the fact that none of the present-day aldermen have been there yet. It is true that ex-Ald. Neil is not in the Spencer Block city hall now, but his friends are saying that he will be there next year, and furthermore that the prefix of "ex" will not be before the alderman much longer.

Preventing Overflow.
 To prevent any overflow of the new 12-inch sewer on Dundas street east, City Engineer W. N. Ashplant has prohibited any side drains larger than six inches being connected up. Factory waste from the new industries there is calculated to gorge the sewer. It was because of this that the city engineer made such an appeal for a storm water system, particularly for the east end.

"Canned" Breakwaters.
 Apropos of the story of the cans being dumped down the river bank at the incinerator, Superintendent Dodd claims that they will be used as a breakwater, and that people on the south bank of the river need fear no alarm.

We are dumping the cans down there to protect the incinerator property," said the superintendent. "The river is constantly encroaching at this point, and we had to take some steps to prevent it. Chunks will be thrown over the face of the cans to add stability to the wall and also to prevent any unsightly view of tin cans."

London Stands High.
 The fact that London has had another good offer for a block of its bonds, which have been turned back on their hands during the present tightness of the money market, is a pretty fair indication of how this city stands in the eyes of the rest of the world. It has been a remarkable fact that for years the ventures of the Forest City sold at a higher rate than any of the cities of corresponding size in the Dominion. London bonds have always been placed in the same class as those of Toronto and Montreal.

Gathering Dope and —
 For statistical purposes tabulations are being made of the garbage loads brought to the new incinerator in order to determine the daily tonnage consumed at the plant. A number of loads are being run over the scales in order to strike the average weight per load. Various kinds of garbage naturally weighs various amounts, and the effort is being made to secure enough "varied" loads to strike a fair average.

New Board Rooms.
 Folding doors are being installed in the offices being equipped for Publicity Commissioner Phillips, in the temporary city hall, in order that the main section of the rooms provided for him can be used as a meeting place for the board of trade, as per the agreement, whereby that organization pays \$1,000 of the commissioner's salary. The commissioner will fill the dual post of secretary of the board and commissioner, and the idea is to have his offices so arranged that they may be opened into one large board room. A similar arrangement is being made in that section of the building to be occupied by the water commissioners. No room has been provided for a board

Wedding outfits our specialty. Carriages or automobiles Hueston's Liv-

A horse may not have the keen sense of smell that distinguishes the camel, which detects water at a great distance, but numbers of the delivery "nags" around the city have displayed "horse sense" enough to recognize the drinking fountains which have been set up for their benefit. Some who travel on many errands every day invariably halt for a drink. Until recently one of these fountains, at the corner of Pall Mall and Adelaide streets, was used daily by a large number of drivers, to refresh their steeds. About two months ago, however, this fountain ceased to run, and has never since been repaired. Drivers who were in the habit of watering their horses at this place, which is the only one of its kind in many of the city, were at a great inconvenience, and if horses could talk, doubtless some loud complaints would be heard from them.

One day this week a horse attached to a baker's delivery wagon was standing on Pall Mall street. The driver was absent in one of the houses. The horse espied the drinking fountain further down the street and immediately decided that he wanted a drink. So with out waiting for the driver, he set off and arrived at the fountain only to find it dried up. Such instances coming to the attention of residents of that neighborhood have led them to demand that the city repair the fountain, and the waterworks department have been communicated with in regard to the matter.

 Frank Duesling Caught in a Gasoline Explosion at Waterford.

LYNCH—LILEY.
 A pretty wedding was solemnized on Wednesday morning at 8 o'clock in St. Mary's Church, East London, when Miss Alice Liley, daughter of Mr. and Mrs. Charles Liley, of 558 Ontario street, became the bride of Mr. Edward Lynch, of Toronto, Rev. P. J. McKee officiating.

The bride, who was given away by her father, wore a handsome gown of white charmeuse satin with bridal wreath and tulle veil. She was attended by her sister, Miss Rose Liley, who was attired in maize silk. Mr. Norman Sheehy assisted the groom.

After partaking of a dainty luncheon at the home of the bride's parents, the happy couple left for New York via Buffalo and the Hudson River. They will also visit at Mr. Lynch's home in Winsted, Conn., before returning to Toronto, where they will reside.

room, but folding doors in the office of General Manager Glauwitz will provide for this.

Should Clean Up.
 Criticism is being directed against the way in which the civic picnic grounds at Port Stanley are kept. The suggestion has been made that the city garbage department extend the scope of its activity to the lakeside and install a better system for cleaning paper and picnic refuse from the picnic grounds there.

Showed Yankes the Way.
 The "Made-in-Winnipeg" exhibition that it is hoped Industrial Commissioner Phillips may duplicate in this city by a "Made-in-London" is one that has attracted universal attention. Many of the big American cities of the west have followed the example of the Canadian city, and have started similar permanent exhibits of home manufactures. Commissioner Phillips' office, while he was assistant of the industrial bureau of Winnipeg, was in the Made-in-Winnipeg Building.

Wild Adventure of Ex-Londoner
 Drives Automobile From Garage Enwrapped in Flames.

The Vancouver World has the following which will interest Londoners: Great excitement prevailed and a large crowd was attracted when the automobile belonging to Mr. J. A. Yarker took fire on Fourth avenue last night and was completely destroyed.

Shifty before dusk Mr. Yarker, in company with a young lady, approached the Terminal City garage on Fourth avenue, to obtain a supply of gasoline. A superabundance of oil was poured into the tank, and it caught fire when a portion of it came into contact with the rear light. The flames shot into the air and the occupants were forced to beat a hasty retreat. Mr. Yarker, however, seeing the danger of a huge explosion which would inevitably result should the car be left in the garage, where several hundred gallons of gasoline were stored, courageously went back into the garage, took his seat in the machine and steered it out in safety.

The car hit a telephone post and Mr Yarker alighted, not wishing to expose himself to further danger. The flames began to envelop the telephone pole, and someone with presence of mind rang for the fire department. Chemical engines soon extinguished the blaze, but the car was a total wreck.

Mr. Jack Yarker was formerly a resident of this city, living on Wortley road, South London.

COMING TO LONDON
 Mr. and Mrs. Evans, of Ekfrid, Highly Honored By Friends.

[Special to The Advertiser.]
 North Ekfrid, July 24—A crowd which numbered 250 gathered on the church grounds last evening, to honor Mr. and Mrs. Evans before their departure for London.

After a short program of song and recitation, Mr. Russell Rosenmele was called upon to read an address, and Mr. and Mrs. Evans were given a beautiful chime ring and a beautiful watch. A pleasant surprise was presented by Master Allen Perry.

Mr. Evans made a suitable reply, in which he expressed his regret at leaving his many friends in the community, and gave them the assurance that they each would receive a warm welcome at his new residence in London.

Mr. Evans has been engaged in the grocery business here for the past five years.
