U. S. AVIATORS LOOP THE LOOP 457 TIMES IN 114 MINUTES

Washington, D. C., May 30.—The war department was notified today that Lieut. Ralph J. Johnson, pilot, with Lieut. Mark Woodward as passenger, had established a new world's record for looping the loop in mid air.

In the presence of an official board of officers appointed to witness their flight and looping, these officers on May 16, at Carlstrom Field, Florida, looped the loop 457 consecutive times. The looping time was 114 minutes 10 seconds, and their flying time was 120 minutes. They consumed 23 quarts of oil, 59 gallons of gasoline, 11 gallons of water, and the speed of their motor was 1,500 revolutions a minute. The airplane used was a Le Pere.

Edmonton Service Resumed.
Edmonton street car service has been resumed after a brief interruption when the walkout occurred there on Tuesday, and reports from Calgary say business activities continue there almost normally. The Alberta Federation of Labor has sent out a call for a strike.

The local fire department have returned to duty after signing the new pledge not to participate in sympathetic strikes," said Fire Chief Buchanan. It was announced at the city hall at the same time that a majority of the Winnipeg policemen refused to sign the new pledge, and that they will leave the force at 1 p.m.

The policements union debated the city's ultimatum at a meeting of their union, which lasted until 3 a.m. The majority vote decided that the patrolomen should not secede from their policy of close affiliation with the Winnipeg are staying at work.

BIG DON'T WORK, URGE STRIKE LEADERS

Statement Issued by Strike Committee Appeals To Men To "Stick."

Toronto, May 30 .- "Don't worry and don't work" is the slogan at the Labor Temple today. The general strike is on in Toronto today, but just how "general" it could not be ascertained from the strike leaders. The strike committee of fifteen was of men who were out, but they re fused to issue the figures at least for the present. There was a general air of hustle and bustle and activity around the Labor Temple when the strike took effect at 10 o'clock, but there was nothing unusual and no

excitement.

The following statement was issued by Robert Lewis and Peter McCallum for the strike committee: sued by Robert Lewis and Peter McCallum for the strike committee:

"The general strike committee report that the call for a general strike has been responded to all over the city. Most of the organizations have already quit work, and the others are getting the machinery in motion to carry the request of the general committee into operation. We have sent the following telegram to Premier Borden:

The Hon. Robert Borden; Ottawa.:

Sir,—We wish to bring to your notice that at the peace conference which you attended it was decided that labor must be recognized, also collective bargaining. Inasmuch as this is a fact, why is common labor forced to strike to obtain what we understand was internationally recognized? (Signed)

warious digestive aids and you know these things will not cure your trouble—in some cases do not even give relief. But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisurated magnesia—not the ordinary commercial carbon—ate, citrate, oxide or milk, but the pure bisurated magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas. wind, flatulence, hearthurn and the bloated or heavy lumpy feeling that seems to follow most everything you eat.

You will find that provided you take a little bisurated magnesia immediately after a meal, you can eat almost anything and enjoy it without any adapter of pain or disconfort to follow.

The necessities of life must be handled in Canada on a basis of the lowest possible cost to the consumer. Greater production must be stimulated by means of making farming attactive and less marked by drudgery. Community bargaining, as well as collective bargaining, must be arranged by the state, so that excessive charges shall not be taken in the handling of necessities. The force of all honest public opinion is behind any government that will endeavor to prevent profiteering in necessities. We canhave in Canada a system of social racy and economic autocracy. The Surgeon of the People

The men in control of affairs in Canada must, on almost every occasion, receive a jolt that nearly jars them from their seats of rulership before they take any action to cure the troubles that beset the nation. Labor disturbances did not come without fair warning. Winnipeg plunged into its maelstrom of disaffection after long anticipation of the trouble. The usual threats were made, the final word was given, and then the workmen, having declared themselves, held to their pledges and prostrated the whole community.

Ottawa did not make an effort to check the labor men in their course. It permitted the community to be delivered over to an administration that approximates "soviet" government, the mails to be stopped, the wires tied up, without one definite step to prevent the great strike. From Winnipeg spread the germs of further turmoil, and the action of the premier, Sir Robert Borden, who may have learned a lesson from the ers, in asking for a delay of the Toronto strike being the slave of one. and securing it, proves that an appeal from Ottawa to Winnipeg at the proper time would have had the effect of checking the movement. The but if that party is wise he will insist on it. Some Toronto unions responded to the first appeal from millions of his countrymen are itching to get Ottawa to delay the strike. The New Germany

One of the most interesting features in the May 31 issue of The Literary Digest is a full-page colored map showing the new Germany as it will be after the peace treaty is signed, and the old Germany as it was before the war. The map clearly indicates the areas lost by the treaty, those to be awarded by plebiscite, and those to be made international territory. This map will prove invaluable as a present and future source of information and can be cut out and inserted in your encyclopedia, atlas, history, or other reference

A Word About the Editors of "The Digest"

The editors of most publications come into personal touch with the reading public through special articles, editorials, and so forth, in which they voice their individual views. Not so with THE LITERARY DIGEST, whose editorial policy is strictly impersonal, not a hint of the opinions of its staff on any question appearing in its columns. Nevertheless the editors of THE DIGEST are a very real and powerful influence in the community, because they determine the subject matter of the magazine from week

to week and its mode of presentation. Always their study is to be impartial and self-effacing, yet they leave their expert mark on everything that they handle, for they are all proved experts, each in his particular field, whether it be politics, art, science, religion, letters, or what not. They give you of their best, seeking for no acclaim, but constantly striving to present for your consideration all the news in all its bearings. Their quiet work gives THE DIGEST its acknowledged unique distinction

BETWEEN 7,000 AND 12,000 MEN STRIKE

Continued From Page One.

STRIKE GOES INTO EFFECT PROMPTLY AT 10 O'CLOCK

Toronto, May 30.—Advices from the Labor Temple at 10:30 this morning declared that the sympathetic strike called for 10 o'clock this morning, to aid the striking metal workers, went into effect at that hour. At present it is in no sense a general strike. Street cars and all public utilities are operating as usual. The principal trades affected by this morning's strike are the garment workers and some of the building trades, with a membership of between five and ten thousand. There is no news yet as to how fully these trades have obeyed the strike order.

Expects 20,000 To Go Out.

Herbert Lewis, who issued the statement for the committee, stated that more than 20,000 workers would respond today, and that there would be among them many who did not belong to organized labor. Mr. Lewis also announced he had received the required strike sanction from the international union of A. F. of L., of which the craft belongs, to pull out the engineers of more than one hundred Toronto industries and also the waterworks when the committee saw fit.

The civic employees stated tonight that they will quit work 3,100 strong when the waterworks men drop their tools.

May Tie Up Street Cars.

Considerate of Public.

Roughly, those affected first will be all engaged in the metal trades, all engaged in the building trades, and then needle trade. Later, if the strike is not settled, will come the street railwaymen and civic employees. The rail-ways will be first affected through the strike of the railway shormen, whose representative in Toroxto dispatched a

strike of the railway shormen, whose representative in Toroxio dispatched a man to Montreal last night for authority. The butcher workers are apt to follow at any time, their secretary last night declaring that a day or so made no difference. Teamsters in the railroad yards have voted strike, but the freight handlers and cierks declare that they will not obey the order of the strike committee. Their secretary, however, admits that the union is bound to support morally the strike of the metal trades, and admitted that it was difficult to forecast the attitude of union if many others quit work.

Representations have been made by the officials of the local butcher workers' union to Chicago headquarters to prevent packers from shipping cattle across the border. It was learned, following the Winnipeg strike, that cattle would be shipped to Toronto to be killed. The butcher workers' secretary said that no cattle would be killed in the United States by union men for Canada had received any portion of their demands.

May Tle Up Street Cars.

The street railwaymen have placed themselves entirely at the disposal of a committee of three of their representatives, who said tonight that they had decided to support the metal trades, but it was a question of an opportune moment. It might be done without a further meeting of the men.

Metal Trades First.

Considerate of Public.

The strike committee sincerely hopes that firemen and policemen will remain at their posts. They said that they wished to retain public sympathy as long as possible. The same applies to the waterworks department. They want no limb makers to strike, for they wish to retain the friendship of the returned soldier and have asked the moving picture operators to remain on duty to provide the necessary amusement for

Officials from the metal trades will go to Stratford tonight. "To put it on "I expect that the letter carriers will remain at work," said Mr. R. H. Cox, secretary of the letter carriers' organization. "They have voted not to go

"Job Never Did Housecleaning," Declares Poet Bill

The Poet Bill, The Advertiser's old friend, has discovered our Consumers' League page. He says himself he has been "more or less driv to it, seeing it is the housekeeping end of the paper, so to speak, and he has got troubles of his own in which housekeeping

His motive in writing is to put i in fair and square to the "Consumers" women" if there is any sense in houseleaning, and if they honestly believe ob would be recorded in history as he most patient man that ever lived said Job had ever done houseclean-

Up the Bruce. Tuesday, May 27. Dear, Miss A.,-Say, I wonder if any of your Consumers' women think Job ever done any housecleaning. If he ever had, he'd never been known all these years as the most patient man ever lived.

"I'll bet anything, anyway, that Job never tried putting up stove pipes. My own opinion is that when

down the street and boarded out till things was all back in a rectified position, then he comes in, hangs up his hat, lights his pipe, and reads the paper until his wife has a nice hot meal all cooked up for him. "Any sky pilot who says the

wasn't so, send him along to me and I'll chew it out with him. Any sky pilot as says Job did housecleaning or put up stove pipes and done house-cleaning himself. NO SENSE IN HOUSECLEANING.

"Housecleaning! Say. There's no sense in it at all. It's just the same thing over and over again, things upside down and topsy-turvy. You get it done in the spring, then you got to start all over again in the fall. No place to sleep in comfort. no place to sit down and enjoy a quiet smoke. Something doing all the time. Nothing to eat to speak of. Take it from me, Job never had to stand for housecleaning. "As for finding your things. You want something right away quick. It's up in the attic, down in the cellar, over at the next door neigh-

run the risk of cutting my head off if I fall off, or let down the off if I fall off, or let down the mirror by a string a foot or two. But that ain't the worst.

"Some days ago we got home a swell new cook stove. It's standing there in the middle of the floor yet. What's the good of it? You can't cook with it. You can't bake on it. You can't fry on it. You can't boil the kettle on it? Why? It ain't up. That's why.

THAT FIRST PIPE. THAT FIRST PIPE.

"To begin with, we got the stove. When you buy a horse, the hide goes with it, or take it the other way, when you buy the hide of a live horse, the horse is in it. Take it any way you please. The hide and the horse oughta go together. and the horse oughta go together.

"Well, every stove has got a first
pipe that's different from every
other pipe. That first pipe, I maintain, oughta go along with the stove
to start things off right. Well, the
first pipe didn't come with ours, so
I goes to work to knock one up. I

the old pipe is round and the colthe old pipe is round and the collar is flattish.

"I tries flattening the pipe out, but it won't go on by an inch, because ours is all six-inch pipes, and the collar calls for sevens. I uses up six knives trying to get it to fit in, then I looks at the wife and she looks at me. That's after my pipe has gone out, and I have broken three or four of the commandments, short of murder. 45c lb.

WIFE TO THE RESCUE. "After I'd used up all the patience got left, my wife, she telephones the blacksmith's or some place to send down pipes right away quick. They sent seven and eight-inch pipes, and I doctors one of the inch pipes, and I doctors one of the seven-inch pipes up to go on the collar instead of the first pipe they should have sent along, the pipe that should go with the stove like the hide with the horse. I gets the stove in place, the wife helping. By and by, I comes to the place where the new pipes gives out, and I got to start using the old pipes. I'm holding on to the pipes as far as they go, and the wife stands on a chair and starts fitting in our old six-inch pipes. They go in slick

Mad? Say, Job never done any putting up of stove pipes.
"You are wondering what we are doing our cooking on. Well, that's the next part of the story. We got a oil stove we had intended putting out in the woodshed when we got the new one shot into place and all fitted in snug. Well, to make matters worse we just got our kitchen going she starts smoking, and there ou are, paper all getting spoiled be-ore it's hardly on. I tell you, it's

the former German emperor has been acquainted with the peace terms he has become even more invisible to the outside world. The only possibility of catching a glimpse of his former majesty is when he crosses a draw bridge twice daily, going to and returning from his log-sawing in the garden of the castle, and there he is only within sight for about four seconds.

Replying to a repeated request for a declaration the former emperor sent the following words:

"Tell the Associated Press that my attitude is unchanged."

The messenger, General von Estorff,

CHIEF ONLY INDISCREET

Commissioner's Only Condemnation Is Levelled at World Reporter.

[By Canadian Press.]
TORONTO, May 9.—Charges preferred by H. Hartley Dewart, M.P.P and others against the administration the Ontario License Commission, an particular against Chief Inspector In particular against Comer inspector J. A. Ayearst, are declared to be without foundation by Sir William Meredith, who some time ago completed his investigation into the charges and who today submitted his report to Hon. I. B. Lucas, attorney-general. His findings are:

1. There is no foundation for charges against members of the license com-nission, Inspector Ayearst or any offi-dals of the department.

2. No foundation for charges with reard to the prosecution and conviction of Lorne W. Smith and H. J. Lavelle.

3. No foundation for charges with eference to the Slavin case.

4. Liquor was sent to Homer for no improper purpose, but to aid well-conceived plans to enforce the law.

5. Morrison was a capable officer, but his failure to inform the commission of connection with the detective agency

6. Charges made by Employers' Detective Agency were reasonable.

7. It is necessary to maintain a large staff of men for detective work if liquor laws are to be properly enforced.

8. Mr. Ayearst had no share in earnof Employers' Detective Agency men, but he was guilty of a grave in-discretion in borrowing from Solomon. 9. The World charges are without foundation, and give an untrue, unfair and misleading account of what Re-porter Cronin saw. His inferences were unfair, biased, unjust and in some cases

STRIKERS SEEM

Municipal Employees Flocking To Request Their Jobs Back.

WINNIPEG, May 28 .- The chief bone of contention in the Winnipeg strike situation, namely, collective bargain-

ing, may be arbitrated.

Executives of the Winnipeg trades and labor council today were asked for Quebec, carrying 133 officers, 4 whether the union forces were willing to accept the mediation offer of a committee representing the Canadian railway brotherhoods. President James Winning replied: "If the railway brotherhoods are willing to mediate, I do not think the central strike committee will object."

It was stated later, however, that the employers in the metal trades had accepted the offer of the railway brotherhood to mediate on the question of the collective hargaining.

Rescue Work Difficult.

"When I came on the bridge," the gaptain said, "the machine had already alighted on the water. The airmentoid us that, before coming down, they had dropped rockets, but we did not see them. The work of saving the airmen was pretty difficult because it was blowing hard. Hawker and Grieve were in water up to their waists, but their water-tight suits kept them dry." Asked whether the crew of the life-oat was in serious danger in effecting he rescue, the captain replied: "I will not say serious danger, but, s I said, it was a rather difficult hour efore they succeeded in reaching the

Trouble From the Start.

"All the airmen wanted to do was to leep. They told us that from the very tart they realized that everything was start they realized that everything was not quite in order, but that they had comforted themselves with the hope that later they would get the right effects from their motor. The defect, however, became more and more apparent and the speed of the motor steadily lessened.

"They were very pleasant fellows and we were the best of friends with them. When they had had their sleep out and got a good meal, with a glass of Schnapps, they were all right."

The crew of the Mary had considerable trouble in launching a boat, and Capt. Duhn said he doubted whether it would have been possible to do so had the airplane appeared an hour later than it did.

Hawker and Grieve were greatly exhausted after the rescue, the captain said, so much so that they declined proffered food in order to obtain needed sleep. Capt. Duhn declared that the aviators naturally were upset because the Mary had no wireless, and they were unable to inform their relatives that they were safe. The captain said that Hawker also was much disappointed because he was unable to salvage the airplane so that he might learn definitely the captain said, "the machine had already that they were work Difficuit.

The Metal Trades Federation recently presented demands on the employers calling for increased pay, shorter hours and better working conditions. Through the non-arrival of a reply by the manufacturers to an invitation from the Metal Trades Council to the employers as sking for a conference there was a possibility of early strike action. However, cooler heads prevailed, and Mayor Mac Bride was successful in bringing the parties together. The opening session of the conference was held this evening at 11 o'clock. The conference is still proceeding with no indication that any decision would be reached tonight. Further sessions are likely.

A plausible series of events brings Larry Hayes to the home of the girl in the capacity of a plainclothes man come to guard the wedding presents of her sister. Other meetings have preceded this, and it is not to be wondered when the two show plainly that they like each other. While the guests are occupied with the wedding party the erstwhile traffic cop and the rich man's daughter whiri away in a stolen fance and are interrupted by the entance of a favored suitor.

Quick as a flash Larry Hayes draws the girl to him and orders the intruder to bring a glass of water to his "fainting" partner. But when the fellow returns the girl has fled, and with a perfunctor with the content and the public is being invited to attend.

This production was adapted for the screen from the novel "Madelon," by Mary E. Wilkins. A Grand Topical Review Film concludes the above excellent program, showing today and Saturday.

There's only one time to get ready for spring-and that's NOW!

Before you know it your neighbor will be telling you about his onions sprout= ing, or his beans popping out of the ground-

AND YOU?

Don't let spring or your neighbor steal a march on you! The ground is plenty warm now to receive your early spring seed.

Shine up your tools! Get 'em out of the shed or basement! Do you need a new hoe, or rake, or a new spade? Anything in the way of tools? We are ready for YOU-now YOU get ready for SPRING.

HEN mother baked her own bread about the only joy she got out of the operation was the relish with which the family consumed it. Bread as good as ours relieves her of all the work, the standing over the hot stove, wearisome kneading and mixing, and she derives the same benefit of family approval because no mother ever made bread quite as good and nourish-
